*The matters discussed in this Current Report on Form 8-K include forward looking statements, which are subject to various risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated in such forward looking statements. Such risks, uncertainties and other factors include the uncertainties inherent in oil and gas development and production activities, the effect of actions by third parties including government officials, fluctuations in world oil prices and other risks detailed in the Company's Reports on Forms 10-K and 10-Q filed with the Securities and Exchange Commission. The forward-looking statements are intended to help shareholders and others assess the Company's business prospects and should be considered together with all information available. They are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company cannot give assurance that the results will be attained.*

**Section 1 Registrant's Business and Operations**

**Item 1.01 Entry into a Material Definitive Agreement**

On January 28, 2005 CanArgo Energy Corporation, ( CanArgo ) issued a press release announcing that on January 27, 2005 Ninotsminda Oil Company Limited ( NOC ), its operating subsidiary responsible for the Manavi area, had signed a new contract with Saipem S.p.A. ( Saipem ) of Italy to supply drilling services for the drilling of a first appraisal well (M12) on the Manavi oil discovery in Georgia.

Previously a contract had been signed with Great Wall Drilling Company of China to drill the M12 appraisal well but due to a delay in mobilizing the rig, CanArgo elected to conclude a new agreement with Saipem which currently has a rig available.

Under the terms of the contract, Saipem will supply the IDECO E-2100 AZ drilling rig complete with crew to drill the M12 appraisal well on a day rate basis to a planned total depth of 5,000 meters (16,404 feet) targeting the Cretaceous formation. The contract includes an option in NOC to use Saipem to drill up to two additional wells. The rig and associated equipment will now be mobilized from Astrakhan in southern Russia to Georgia where it is expected to commence operations on the M12 appraisal well by the end of April or in early May.

The M12 appraisal well location is approximately 4 km to the west of the Manavi M11 Cretaceous oil discovery well previously drilled by CanArgo.

A copy of the Contract between Ninotsminda Oil Company Limited and Saipem S.p.A. is attached as Exhibit 10.1.

**Section 7- Regulation FD**

**Item 7.01 Regulation FD Disclosure**

CanArgo's press release announcing the execution of the contract with Saipem is being furnished as Exhibit 99.1 attached hereto.
