back shares for a further (euro)500 million up to the company's Annual Meeting in 2007. The buyback can start immediately. The Board of Executive Directors will propose at the Annual Meeting on May 4, 2006, to extend the existing authorization to buy back shares, which is valid until October 27, 2006.

The aim of buying back shares is to reduce the equity ratio. The shares will be cancelled, thus reducing the share capital of BASF Aktiengesellschaft accordingly.

BASF has reduced the number of outstanding shares by 20.7 percent between the start of the share buyback program in 1999 and mid-February 2006.
