Item 8.01 Other Events.

Since our earnings call on Thursday, November 1, 2008, we have received numerous questions regarding the potential impact of our announcement relating to the notices we issued to terminate 192 managed care contracts under which we were being reimbursed at rates below our cost. Because we have multiple

contracts with the same payors, covering different provider numbers and geographical services areas, the 192 contract terminations were with only 4 separate payors. Most of these managed care contracts have termination provisions that require 30-90 days notice. Accordingly, we do not expect any material impact from terminating these contracts until the first or second quarter of 2008. As indicated on our earnings call, we are attempting to negotiate new contracts with many of these payors. Our goal is to negotiate contracts that contain reimbursement rates that reflect the true cost and value of providing home care. Further, we expect that in many instances we may negotiate reimbursement rates on a patient by patient basis with those payors with whom we are unable to negotiate a new comprehensive contract. Because of the many variables that could affect the financial impact in 2008 from terminating these contracts, we do not believe it is appropriate at this time to provide an estimate of the future financial impact. However, in order to provide a basis for understanding the historical impact of these relationships, we have elected to provide an estimate of the financial contribution of these contracts during the nine month period ended September 30, 2007. For the nine months ended September 30, 2007, these contracts contributed approximately \$1.78 million in revenue. Based on our best estimate of direct cost attributable to these commercial patients, the overall direct cost of providing services under these 192 contracts during this period was approximately \$2.42 million. Therefore, for the nine months ended September 30, 2007 these contracts resulted in a pre-tax operating loss of approximately \$639,000.
