GOLDEN RIVER RESOURCES CORPORATION AND SUBSIDIARIES  
(An Exploration Stage Company)  
Notes to Consolidated Financial Statements  
March 31, 2013

1. Organisation

Golden River Resources Corporation (“Golden River Resources”) is incorporated in the State of Delaware. The principal shareholder of Golden River Resources is Northern Capital Resources Corporation (“NCRC”) which owned 96.6% of Golden River Resources as of March 31, 2012.

Golden River Resources is a gold exploration company focusing its activities in Canada. On March 17, 2009, the Company announced that it had reached agreement with Acadian Mining Corporation (TSX: ADA) (“Acadian”) to subscribe in private placement transactions for common shares in Acadian and since that time, it acquired an interest by June 30, 2011 of 71.48%. In February 2012, it sold 19.9% of Acadian and since that time it has sold a further 37.11% interest and at March 31, 2013 it holds 12.62% of Acadian. Golden River Resources has given notice under the Canadian early warning regime that it intends to sell a further interest in Acadian, and if it proceeds with that sale, it will hold no interest in Acadian (Note 8).

The financial statements presented herein have been prepared on a consolidated basis to include the accounts of Golden River Resources and its subsidiary (collectively “the Company”). All intercompany balances and transactions have been eliminated in consolidation. Certain prior year amounts have been reclassified to conform to current year presentation, including amounts related to discontinued operations.

Effective November 1, 2010, the Company had a 1-for-10 reverse stock split of its Common Stock and accordingly, all share and per share data has been retroactively restated.

In November 2010, Acadian consolidated its outstanding common shares on a basis of one post-consolidation share for every ten pre-consolidation shares as approved by the shareholders of Acadian. Acadian’s common shares commenced trading on a consolidated basis on November 17, 2010. All comparative figures have been retroactively adjusted as if this share consolidation occurred on January 1, 2010.

The Company's consolidated financial statements are prepared using US GAAP applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, Golden River Resources is an exploration stage company which has not yet commenced revenue producing operations and has sustained recurring losses since inception, all of which raises substantial doubt as to its ability to continue as a going concern.

In addition, Golden River Resources has historically relied on loans and advances from corporations affiliated with the President of Golden River Resources and fund raising through the sale of equity instruments. Based on discussions with these affiliate companies, the Company believes this source of funding will continue to be available.

Other than the arrangements noted above, the Company has not confirmed any other arrangement for ongoing funding. The Company’s ability to continue operations through fiscal 2013 is dependent upon future funding from capital raisings, or its ability to commence revenue producing operations and positive cash flows.

2. Recent Accounting Pronouncements

Management believes that there were no recently issued or not yet effective accounting pronouncements that if adopted, would have a material effect on the accompanying consolidated financial statements.

3. Affiliate Transactions

Golden River Resources advances to and receives advances from various affiliates.

At March 31, 2013, management considered the recoverability of the amount owed by AXIS and in accordance with the requirements of accounting standards and has provided a provision for doubtful receivable of CDN\$732,000. Mr Joseph Gutnick, the Company's President, is the Chairman and Chief Executive Officer of NCRC. In addition, Legend International Holdings, Inc., of which Mr. Gutnick is the Chairman and Chief Executive Officer and a principal stockholder, owns 31.46% of NCRC. As of March 31, 2013, NCRC owned approximately 96.6% of the outstanding common stock of the Company. During the nine months ended March 31, 2013 the Company advanced NCRC CDN\$1,193,000 and is reflected in non-current assets – receivables from affiliates. This loan is non-interest bearing.

#### 5. Profit/(Loss) per share

The Company calculates profit/(loss) per share in accordance with ASC Topic 260, Earnings per Share. Basic profit/(loss) per share is computed based on the weighted average number of common shares outstanding during the period.

Options to acquire 485,000 shares of common stock were not included in the diluted weighted average shares outstanding as such effects would be anti-dilutive.

#### 6. Fair Value Of Financial Instruments

The Company's financial instruments consist of cash, receivables, accounts payable, accrued expenses, note receivable and advances due from affiliates. The carrying amounts of receivables, accounts payable and accrued expenses, note

receivable approximate their respective fair values because of the short maturities of these expenses. The fair values of advances due/from affiliates are not practicable to estimate as no similar market exists for these instruments and as it does not have a specified date of repayment. The Company's investment in unconsolidated subsidiary approximates fair value (see note 7).

7. Investments In and Receivable From Acadian Mining Corporation ("Acadian")

The Company's interest in Acadian at March 31, 2013 is 12.62%. At March 31, 2013 the carrying value of the investment was CDN\$516,000. For the nine months ended March 31, 2013, the Company recorded an equity loss in Acadian of CDN\$114,000. On February 14, 2013, the Company sold a further 3,927,730 common shares of Acadian that it owned for CDN\$432,050. The common shares were sold to an unrelated third party at a price of CDN\$0.11. As a result of the sale, the Company no longer equity accounted the investment in Acadian. The Company's investment in Acadian is now classified as a marketable security, and accordingly is presented at its approximate fair market value. At March 31, 2013, the Company reviewed the carrying amount of its investment in Acadian, and as a result, recorded an impairment adjustment in the amount of CDN\$493,000.

The Company's investment in and receivables from Acadian at March 31, 2013 is composed of the following:

	CDN\$000s
Fair value of investment	516
Note receivable (note 9)	447
Advance receivable (note 3)	142
Investment in and receivable from other entity	1,105

The Company's interest in Acadian at March 31, 2013 is 12.62%. On February 11, 2013, the Company gave notice under the Canadian early warning regime that it intends to sell a further interest in Acadian which would decrease the Company's holding in Acadian to nil.

#### 8. Deconsolidation

At March 31, 2011, the Company's holding in Acadian was 71.96%. In February 2012, the Company sold 19.9% of Acadian.

In September 2012, after approaches from third parties, the Company's board of directors authorised management to begin negotiations with interested parties to sell its remaining interest in Acadian. As at October 31, 2012, the Company had completed the sale of 10,783,145 common shares of Acadian that it owned for CDN\$1,401,809, representing approximately 19.9% of Acadian's common shares. The common shares were sold to an unaffiliated third party, at a price of CDN\$0.13. As at December 31, 2012 the Company had sold a further 5,400,000 common shares of Acadian that it owned for CDN\$594,000. The common shares were sold to an unaffiliated third party, at a price of CDN\$0.11.

As at October 31, 2012 upon the sale of approximately 19.90% of its investment in Acadian, the Company lost its controlling interest in Acadian. The sale resulted in a gain in the amount of CDN\$5,542,000 which represents (i) the CDN\$1,402,000 cash proceeds from the sale and the CDN\$2,152,000 fair value of the retained interest and (ii) the CDN\$1,988,000 net liabilities of Acadian at the date of consolidation. The gain is included in the Consolidated Statements of Comprehensive Income under gain on deconsolidation. The fair value of the remaining investment in Acadian was based on the recent sale of Acadian shares to unrelated parties by the Company.

Assets and liabilities at October 31, 2012, the date of deconsolidation and the comparative June 30, 2012 consist of the following:

	October 31, 2012 CDN\$	June 30, 2012 CDN\$

Should the Company choose not to convert the debenture into common shares within the time then the debenture will be repayable in full at the end of that period. The debentures have an interest rate of 8% per annum accruing daily and compounded monthly in arrears. Such interest will only become payable in the event that the Company does not elect to convert the debentures into common shares. The amount of interest payable to the Company as at March 31, 2013 is CDN\$26,000. The total amount payable to the Company at March 31, 2013 is CDN\$447,000 and is reflected in non current assets – investment in and receivable from other entity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Canadian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Canadian dollar as compared to the US dollar and Australian dollar during the periods indicated:

9 months ended March 31, 2012	CDN\$1.00 = US\$1.0029
9 months ended March 31, 2013	CDN\$1.00 = US\$0.9828
9 months ended March 31, 2012	CDN\$1.00 = A\$0.9656

The Company's financial statements are prepared in Canadian dollars (CDN\$). A number of the costs and expenses of the Company are incurred in US and Australian dollars and the conversion of these costs to CDN\$ means that the comparison of the nine months ended March 31, 2013 to the nine months ended March 31, 2012 does not always present a true comparison.

There can be no assurance that such capital raising will be successful, or that even if an offer of financing was received by the Company, it is on terms acceptable to the Company.

In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and

are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, movements in the foreign exchange rate and the availability of additional financing for the Company. Investors are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company does not hold funds in foreign bank accounts.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures

Our principal executive officer and our principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 as amended) as of the end of the period covered by this report. Based on that evaluation, such principal executive officer and principal financial officer concluded that, the Company's disclosure controls and procedures were effective as of the end of the period covered by this report at the reasonable level of assurance.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of fiscal that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

(c) Other

We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Therefore, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurance of achieving our desired control objectives, and our principal executive officer and principal financial officer have concluded, as of March 31, 2013, that our disclosure controls and procedures were effective in achieving that level of reasonable assurance.
