Security Alarms & Co. Selects Sierra Wireless IoT Services for ARHUB Smart Home Security Solution

VANCOUVER, British Columbia--(BUSINESS WIRE)--November 7, 2018--Sierra Wireless (NASDAQ: SWIR) (TSX: SW), the leading provider of fully integrated device-to-cloud solutions for the Internet of Things (IoT), today announced that Security Alarms & Co., a Swiss developer of intelligent home security solutions, selected Sierra Wireless IoT Services to enable highly resilient cellular connectivity for its ARHUB home security smart hub.

ARHUB connects intelligent home security devices to the Internet with Wi-Fi, LAN and cellular, providing a disruptive answer to the major issues that smart home security users deal with when connecting multiple devices with different network technologies. Using the Sierra Wireless Smart SIM, ARHUB intelligently analyzes networks and connects to the most available network in the region.

“Our customers are our development partners, and we have taken their feedback to design a solution that eliminates their home security frustrations and concerns,” said Security Alarms & Co.’s CEO Natalya Lopareva. “A traditional IoT solution is not enough when it comes to security and safety, so we teamed up with Sierra Wireless to ensure that ARHUB is always connected and accessible, regardless of the consumer’s network configuration or geographic location.”

The multi-operator Sierra Wireless Smart SIM and Connectivity Services connect devices to consumers and enterprises using global cellular networks. Sierra Wireless’ unique Smart SIM automatically selects and connects to the best available cellular network to ensure resilient and reliable data transmission at all times.

“Security Alarms & Co.’s ARHUB ensures its customers can confidently secure what matters most to them,” said Marc Overton, senior vice president and GM of IoT Services, Sierra Wireless. “Sierra Wireless IoT Services provide constant Internet connectivity that Security Alarms & Co. can rely on for a complete smart home security solution.”

Forward Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. These forward-looking statements relate to, among other things, plans and timing for the introduction or enhancement of our services and products, statements about future market conditions, supply conditions, channel and end customer demand conditions, revenues, gross margins, operating expenses, profits, and other expectations, intentions, and plans contained in this press release that are not historical fact. Our expectations regarding future revenues and earnings depend in part upon our ability to successfully develop, manufacture, and supply products that we do not produce today and that meet defined specifications. When used in this press release, the words "plan", "expect", "believe", and similar expressions generally identify forward-looking statements. These statements reflect our current expectations. They are subject to a number of risks and uncertainties, including, but not limited to, changes in technology and changes in the wireless data communications market. In light of the many risks and uncertainties surrounding the wireless data communications market, you should understand that we cannot assure you that the forward-looking statements contained in this press release will be realized.
