GREEN STAR MINING CORP. (An Exploration Stage Company) Notes to Financial Statements August 31, 2008

NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Green Star Mining Corp. (the Company) was incorporated under the laws of the State of Delaware on January 22, 2008. The Company was formed to engage in the acquisition, exploration and development of natural resource properties.

The Company is in the exploration stage. Its activities to date have been limited to capital formation, organization and development of its business plan. The Company has not commenced operations.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a February 28, year-end.

BASIC EARNINGS (LOSS) PER SHARE

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective January 22, 2008 (date of inception).

Edgar Filing: Green Star Mining Corp. - Form 10-Q

Basic net earnings (loss) per share amounts are computed by dividing the net earnings (loss) by the weighted average number of common shares outstanding. Diluted earnings (loss) per share are the same as basic earnings (loss) per share due to the lack of dilutive items in the Company.

CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

USE OF ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all adjustments are normal and recurring.

6

GREEN STAR MINING CORP.
(An Exploration Stage Company)
Notes to Financial Statements
August 31, 2008

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), "Accounting for Income Taxes". A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the SEC issued SAB No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements." SAB No. 108 addresses how the effects of prior year uncorrected misstatements should be considered when quantifying misstatements in current year financial statements. SAB No. 108 requires companies to quantify misstatements using a balance sheet and income statement approach and to evaluate whether either approach results in quantifying an error that is material in light of relevant quantitative and qualitative factors. SAB No. 108 is effective for periods ending after November 15, 2006. The adoption of SAB No. 108 had no material effect on the Company's financial statements.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measures". This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), expands disclosures about fair value measurements, and applies under other accounting pronouncements that

Edgar Filing: Green Star Mining Corp. - Form 10-Q

require or permit fair value measurements. SFAS No. 157 does not require any new fair value measurements. However, the FASB anticipates that for some entities, the application of SFAS No. 157 will change current practice. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, which for the Company would be the fiscal year beginning March 1, 2008. The Company is currently evaluating the impact of SFAS No. 157 but does not expect that it will have a material impact on its financial statements.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Post-retirement Plans." This Statement requires an employer to recognize the over funded or under funded status of a defined benefit post retirement plan (other than a multi-employer plan) as an asset or liability in its statement of financial position, and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS No. 158 is effective for fiscal years ending after December 15, 2006. The implementation of SFAS No. 158 had no material impact on the Company's financial position and results of operations.

7

GREEN STAR MINING CORP.
(An Exploration Stage Company)
Notes to Financial Statements
August 31, 2008

NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS (CONTINUED)

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". This statement permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the impact of SFAS No. 159 on its financial position and results of operations.

NOTE 4. GOING CONCERN

The accompanying financial statements are presented on a going concern basis. The Company had no operations during the period from January 22, 2008 (date of inception) to August 31, 2008 and generated a net loss of \$ 16,513. This condition raises substantial doubt about the Company's ability to continue as a going concern. Because the Company is currently in the exploration stage and has minimal expenses, management believes that the company's current cash of \$ 23,487 is sufficient to cover the expenses they will incur during the next twelve months in a limited operations scenario.

NOTE 5. WARRANTS AND OPTIONS

There are no warrants or options outstanding to acquire any additional shares of common.

NOTE 6. RELATED PARTY TRANSACTIONS

Nan E. Weaver, the sole officer and director of the Company may, in the future, become involved in other business opportunities as they become available, and she may face a conflict in selecting between the Company and her other business opportunities. The Company has not formulated a policy for the resolution of such conflicts.

Nan E. Weaver, sole officer and director of the Company, will not be paid for

Edgar Filing: Green Star Mining Corp. - Form 10-Q

any underwriting services that she performs on behalf of the Company with respect to the Company's current S-1 offering.

8

GREEN STAR MINING CORP.
(An Exploration Stage Company)
Notes to Financial Statements
August 31, 2008

NOTE 7. INCOME TAXES

	As of August 31, 2008

Deferred tax assets:	
Net operating tax carry forwards	\$ 16,513
Tax rate	34%

Gross deferred tax assets	5,614
Valuation allowance	(5,614)

Net deferred tax assets	\$ 0
	=====

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carry forwards are expected to be available to reduce taxable income. As the achievement of required future taxable income is uncertain, the Company recorded a valuation allowance.

NOTE 8. NET OPERATING LOSSES

As of August 31, 2008, the Company has a net operating loss carry forwards of approximately \$16,513. Net operating loss carry forwards expires twenty years from the date the loss was incurred.

NOTE 9. STOCK TRANSACTIONS

Transactions, other than employees' stock issuance, are in accordance with paragraph 8 of SFAS 123. Thus issuances shall be accounted for based on the fair value of the consideration received. Transactions with employees' stock issuance are in accordance with paragraphs (16-44) of SFAS 123. These issuances shall be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, or whichever is more readily determinable.

On January 25, 2008, the Company issued a total of 1,500,000 shares of common stock to Nan E. Weaver for cash in the amount of \$0.01 per share for a total of \$15,000.

On July 22, 2008 the Company issued a total of 1,000,000 shares of common stock to individuals for cash in the amount of \$0.025 per share for a total of \$ 25,000.

As of August 31, 2008 the Company had 2,500,000 shares of common stock issued and outstanding.

NOTE 10. STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes

Edgar Filing: Green Star Mining Corp. - Form 10-Q

of capital stock as of August 31, 2008:

Common stock, \$ 0.0001 par value: 100,000,000 shares authorized; 2,500,000 shares issued and outstanding.

9

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This quarterly report on Form 10-Q contains forward-looking statements that involve risk and uncertainties. We use words such as "anticipate", "believe", "plan", "expect", "future", "intend", and similar expressions to identify such forward-looking statements. Investors should be aware that all forward-looking statements contained within this quarterly report are good faith estimates of management as of the date of this quarterly report. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons.

GREEN STAR MINING CORP.

We are an exploration stage company engaged in the acquisition and exploration of mineral properties. Green Star Mining Corp. was incorporated in the State of Delaware on January 22, 2008. We are an exploration stage company with no revenues or operating history. The principal executive offices are located at 1624 S. Lincoln Street, Spokane, WA 99203. The phone number is (509) 590-8995.

We received our initial funding of \$15,000 through the sale of common stock to our director who purchased 1,500,000 shares of common stock at \$.01 per share on January 25, 2008. On July 22, 2008 we issued a total of 1,000,000 shares of common stock to 30 individuals for cash in the amount of \$0.025 per share for a total of \$25,000. From inception until the date of this quarterly report, we have had limited operating activities. Our financial statement from inception (January 22, 2008) through August 31, 2008 report no revenues and a net loss of \$16,513. Our independent auditor has issued an audit opinion for Green Star Mining Corp. which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

We currently own a 100% undivided interest in a mineral property, the Golden Princess Lode Mining Claim, located in the State of Nevada that we call the "Golden Princess Property." The Golden Princess Property consists of an area of approximately 20 acres located in the Sunset Mining District, Clark County, Nevada. Title to the Golden Princess Property is held by Green Star Mining Corp. Our plan of operation is to conduct mineral exploration activities on the Golden Princess Property in order to assess whether it possess deposits of minerals capable of commercial extraction.

We have not earned any revenues to date. We do not anticipate earning revenues until such time as we enter into commercial production of our mineral properties. We are presently in the exploration stage of our business and we can provide no assurance that we will discover commercially exploitable levels of mineral resources on our property, or if such deposits are discovered, that we will enter into further substantial exploration programs.

As of the date of this quarterly report, there is no public trading market for our common stock and no assurance that a trading market for our securities will ever develop.

10

PLAN OF OPERATION

Our cash balance is \$23,487 as of August 31, 2008. We believe our cash balance

Edgar Filing: Green Star Mining Corp. - Form 10-Q

is sufficient to fund our operations for the next twelve months. If we experience a shortage of funds prior to generating revenues, we may utilize funds from our director, who has informally agreed to advance funds to allow us to pay for operating costs, however she has no formal commitment, arrangement or legal obligation to advance or loan funds to the company. We are an exploration stage company and have generated no revenue to date. We have sold \$40,000 in equity securities to pay for our operations.

Our auditor has issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach that stage.

Our plan of operation is to conduct mineral exploration activities on the Golden Princess Property in order to assess whether the property contains mineral reserves capable of commercial extraction. Our exploration program is designed to explore for commercially viable deposits of silver, gold and other minerals. We have not, nor has any predecessor, identified any commercially exploitable reserves of these minerals on the Golden Princess Property.

Our plan of operation for the next twelve months is to complete the first phase of the exploration program on our claim consisting of geological mapping, soil sampling and rock sampling. In addition to the \$17,500 we anticipate spending for Phase 1 and 2 for the exploration program as outlined below, we anticipate spending an additional \$7,500 on professional and administrative fees, including fees payable in connection with the filing of this registration statement and complying with reporting obligations. Total expenditures over the next 12 months are therefore expected to be approximately \$25,000. If we experience a shortage of funds prior to funding during the next 12 months, we may utilize funds from our director, who has informally agreed to advance funds to us, however she has no formal commitment, arrangement or legal obligation to advance or loan funds to the company.

We engaged Mr. Laurence Sookochoff, P. Eng., to prepare a geological evaluation report on the Golden Princess Property. Mr. Sookochoff's report summarizes the results of the history of the exploration of the mineral claims, the regional and local geology of the mineral claims and the mineralization and the geological formations identified as a result of the prior exploration in the claim areas. The geological report also gives conclusions regarding potential mineralization of the mineral claims and recommends a further geological exploration program on the mineral claims. The exploration program recommended by Mr. Sookochoff is as follows:

11

Phase -----	Exploration Program -----	Cost ----	Status -----
Phase I	VLF-EM and magnetometer surveys	\$ 6,500	Expected to be completed in w (dependent on consulting geol schedule).
Phase II	Localized soil surveys, trenching and sampling over known and indicated mineralized zones	\$11,000	Expected to be completed in s (depending on the results of consulting geologist's schedu
Phase III	Test Diamond drilling outlined by Phase 1 and 2 programs.	\$65,000	Expected to be completed in s (depending on the results of

Edgar Filing: Green Star Mining Corp. - Form 10-Q

consulting geologist's schedu

TOTAL ESTIMATED COST

\$82,500

We plan to commence Phase I of the exploration program on the claim in winter, 2008. We expect this phase to take 14 days to complete and an additional two months for the consulting geologist to receive the results of the assay lab and prepare his report.

The above program costs are management's estimates based upon the recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates. To date, we have not commenced exploration.

Following Phase I of the exploration program, if it proves successful in identifying mineral deposits, we intend to proceed with Phase II of our exploration program. The estimated cost of this program is \$11,000 and will take approximately 10 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

Following Phase II of the exploration program, if it proves successful in identifying mineral deposits, we intend to proceed with Phase III of our exploration program if we are able to raise the funds necessary. The estimated cost of this program is \$65,000 and will take approximately 2 weeks to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

We anticipate commencing Phase II of our exploration program in spring, 2009, depending on whether Phase I program proves successful in identifying mineral deposits. Subject to financing, we anticipate commencing Phase III of our exploration program in summer 2009, depending on whether Phase II program proves successful in identifying mineral deposits. We have a verbal agreement with Laurence Sookochoff, P. Eng., the consulting geologist who prepared the geology report on our claim, to retain his services for our planned exploration program. We will require additional funding to proceed with Phase III and any subsequent work on the claim, we have no current plans on how to raise the additional funding. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the first two phases of the exploration program.

12

RESULTS OF OPERATIONS

We are still in our exploration stage and have generated no revenues to date.

We incurred operating expenses of \$3,234 for the three months ended August 31, 2008. These expenses consisted of general operating expenses and professional fees incurred in connection with the day to day operation of our business and the preparation and filing of our reports with the Securities and Exchange Commission. Our net losses from inception through August 31, 2008 were \$16,513. As we were incorporated in January 2008, there are no comparative figures from previous years.

Cash provided by financing activities for the period from inception through August 31, 2008 was \$40,000 consisting of \$15,000 from the sale of 1,500,000 shares of common stock to the director of the company for \$0.01 per share and \$25,000 from the sale of 1,000,000 shares of common stock to 30 individuals for cash in the amount of \$0.025 per share.

Edgar Filing: Green Star Mining Corp. - Form 10-Q

LIQUIDITY AND CAPITAL RESOURCES

We are an exploration stage company and have generated no revenue to date. At August 31, 2008 our cash in the bank was \$23,487. In order to achieve our exploration program goals, we needed to complete our offering of registered shares pursuant to our S-1 Registration Statement filed with the SEC under file number 333-150385 which became effective on May 8, 2008. The offering was completed in July 2008.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach that point.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and the principal financial officer, we have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded as of the evaluation date that our disclosure controls and procedures were effective such that the material information required to be included in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to our company, particularly during the period when this report was being prepared.

13

Additionally, there were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the evaluation date. We have not identified any significant deficiencies or material weaknesses in our internal controls, and therefore there were no corrective actions taken.
