ANNUAL REPORT TO SHAREHOLDERS

FOR THE YEAR ENDED DECEMBER 31, 2003

The decline in the gold and mining sectors has finally reversed and Anglo Swiss Resources Inc. (the Company) has taken advantage of this turnaround and raised \$518,000 through a private placement in the first quarter of 2004. The proceeds will be used by the Company for general working capital and to pay for the costs of continued evaluation of the Blu Starr property and the Kenville Mine property. The 2003 fiscal year and continuing into the first quarter of 2004 have seen significant corporate advancements achieved as well.

The Company entered into an Investor Relations Agreement in February of 2003 with Daimler Partners to assist in increasing the Company's exposure within the financial communities in Canada and the United States. The Company also retained the services of Thomson Geological Consulting (Mr. Greg Thomson, P. Geo. formerly with Teck Exploration Ltd.) who will be responsible for overseeing the development of the Kenville Mine property and the Blu Starr Gemstone property, both located in southern British Columbia.

The Company listed its shares on the Berlin Exchange, quoted in Euros under the symbol AMO, in February of 2004. The addition of a European listing, in conjunction with the TSX Venture Exchange and the OTC Bulletin Board (ASWRF) listing in the United States is a positive corporate development in the efforts in creating greater worldwide exposure for the Company and its Gold and Gemstone properties. Europeans have historically been strong supporters and investors in the exploration and development of gold properties and more significantly gemstone exploration throughout the world.

The Company re-entered a three-year Option Joint Venture Agreement to explore the Kenville Mine property effective August 29, 2003. The optionees may earn a 70% interest to the mineral rights of the Kenville Mine property (the Company retains 100% ownership of the surface rights, facilities, buildings, equipment, etc.) by paying the Company \$100,000 (\$30,000 paid) and expending \$700,000 over the three-year exploration period, ending August 29, 2006. The optionee may at any time during this term, elect to form a Joint Venture to put the property back into production by expending the total \$800,000.

A surface exploration program is being considered to enlarge the soil geo-chemical grid to explore and expand the present anomalies discovered during the mid 1990's by Teck Corp. A geo-chemical soil grid located a large copper, gold, silver and molybdenum anomaly, which may overlie a zone or zones of foliation-conformable porphyry copper-style mineralization. The soil anomaly is located near the periphery of a felsic intrusion in a virtually unexplored area. The anomalous area is 1000 meters in strike length and 250 meters in width, and is open to expansion. Magnetometer and VLF-EM surveys, machine trenching, surface prospecting and geological mapping will be used to follow-up the anomalies.

-

A diamond drill program is also planned to investigate the newly discovered Eagle Vein and three drill sites have been selected on the surface. Based on the initial results, further diamond drilling may also be taken from the existing underground infrastructure to expand the existing vein structures. Given the known structural and mineralogical complexities of the productive vein systems, comparatively little weight in reserve calculations was historically given to drill intersections. Due to the nugget effect from native gold in assay samples and variability in vein width, underground bulk sampling was the preferred method of testing the veins, using the classic drill for structure, drift for values development plan. The Eagle Vein is located about 150 meters west of the Hardscrabble Vein on the 2570 level, and would require a new crosscut drift from the mine workings to facilitate underground bulk sampling.

To-date, Anglo Swiss has discovered gem-grade sapphire, iolite, garnet, aquamarine, tourmaline, titanite, moonstone and several varieties of quartz on its Blu Starr Gemstone property, located in southern British Columbia. The geology of British Columbia is very complex and includes the favourable geological settings for hosting a wide variety of gemstones. Large areas of BC are underlain by high-grade metamorphic rocks similar to those hosting many of the gem deposits in East Africa and those believed to be the source of some of the gemstones found in the placer deposits of Sri Lanka.

Previous exploration over the last six years has confirmed that the geological setting and potential gem grades (carats per tonne) of the numerous showings are extremely promising. Proposed work programs targeting the alluvials, are in for permitting for the 2004 season.

The Company's mineral exploration activities have been funded through the sales of common shares, and although the Company has been successful in attracting partners to continue development and exploration of its properties, there is no assurance that this trend will continue indefinitely. The ongoing general and administrative obligations are dependent on this source as well and the Company expects to continue to utilize this source of financing until it develops cash flow from its operations. There can be no assurance, however, that the Company will be able to obtain required financing in the future on acceptable terms, or at all. Based on its existing working capital, the Company may require additional financing in the future.

For Investor Relations purposes, management maintains a website containing corporate overviews, news releases and relative information in its pursuit of establishing economic concentrations of minerals. The services of Daimler Partners and CCNMathews are utilized to disseminate all news releases and corporate updates throughout the United

At the close of business on June 9, 2004, 50,005,688 common shares without par value of the Company were issued and outstanding, each such share carrying the right to one vote at the meeting. There are no other classes of voting securities outstanding. Only those holders of record of the Company's common shares on June 9, 2004 are entitled to receive notice of and to vote at the Meeting.

Two holders of shares in the Company entitled to vote at the Meeting present in person or represented by proxy, holding in aggregate not less than 5% of the issued and outstanding shares of the Company, shall constitute a quorum.

ELECTION OF DIRECTORS

The Board of Directors of the Company is currently comprised of three persons. It is intended the number of Directors of the Company for the ensuing year will be comprised of three persons following the Meeting. The individuals named in the following table are proposed by management for re-election as Directors of the Company. In accordance with the Articles of the Company, each Director elected will hold office until the next annual general meeting or until his or her successor is duly elected or appointed, unless his or her office is earlier vacated in accordance with the Articles of the Company or he becomes disqualified to act as a Director pursuant to the *Company Act* (British Columbia). The persons named in the enclosed Instrument of Proxy intend to vote the common shares represented by proxies, in which either of them is designated a proxyholder, for the election of nominees named in the Instrument of Proxy, unless authority to vote for such persons is withheld. In the unanticipated event that a nominee is unable to or declines to serve as a Director at the time of the Meeting, the proxies will be voted at the discretion of the proxyholder to elect another nominee if presented, or to reduce the number of Directors accordingly. As of the date of this Information Circular, the Board of Directors is not aware of any nominee who is unable to or who intends to decline to serve as a Director, if elected.

As at the date of this Information Circular, the Company had not received any nominations for Directors under Section 111 of the *Company Act* (British Columbia) as set out in the Advance Notice of Annual General Meeting published in *The Vancouver Sun* newspaper on May 19, 2004.

(1)

A member of the Audit Committee of the Company

The management of the Company does not expect that any of the nominees will be unable to serve as Directors but, in that event, discretionary authority may be exercised to vote for a substitute.

Standing Committees

To assist in the discharge of its responsibilities, the Board has designated two standing committees: an Audit Committee and a Communications Committee.

The Audit Committee currently consists of Leonard Danard and Leroy Wolbaum. Of these two Directors, Mr. Danard is involved in the daily operations of the Company. The Audit Committee, with the advice of the Company's external auditors, assists the Board of Directors in fulfilling its responsibilities for the Company's accounting and financial reporting practices by reviewing the quarterly and annual consolidated financial statements, reviewing the adequacy of the system of internal controls, reviewing any relevant accounting and financial matters and recommending the appointment of external auditors. This Committee also provides a mechanism for communication between the Board of Directors and the Company's external auditors.

The Communications Committee currently consists of Leonard Danard and Christopher Robbins. This Committee is responsible for overseeing the Company's need to provide timely discharge of information to shareholders, media representatives and relevant regulatory agencies, among others.

Compensation of Directors

No compensation was paid to the Directors during the fiscal year ending December 31, 2003, in their capacity as Directors, other than in the form of stock option grants as described below. See *Executive Compensation* for disclosure of the compensation paid to Mr. Danard as Chief Executive Officer.

The following table (if required) sets forth information respecting individual grants of options to purchase common shares of the Company to Directors, made during the most recently completed financial year. The purpose of granting such options is to assist the Company in compensating, attracting, retaining and motivating the Directors of the Company and to closely align the personal interests of such persons to that of the shareholders.

OPTIONS GRANTED TO DIRECTORS
DURING THE FINANCIAL YEAR ENDED DECEMBER 31, 2003

There were no options granted during the fiscal year ended December 31, 2003 to directors or officers.

STATEMENT ON CORPORATE GOVERNANCE

The Company has generally adopted the guidelines for effective corporate governance proposed by The Toronto Stock Exchange and the Toronto Venture Exchange (collectively, the Guidelines). The Guidelines deal with such matters as the constitution and independence of corporate boards, their functions, the effectiveness and education of board members and other items dealing with sound corporate governance. The Company's approach to corporate governance is set forth below.

Mandate of the Board

The mandate of the Board is to manage corporate governance matters pertaining to the business and affairs of the Company. In fulfilling its mandate, the Board as a whole oversees the development and application of policies regarding corporate governance and dealing with corporate governance issues and is responsible for:

- (i)
adoption of a strategic planning process for the Company;
- (j)
identification of the principal risks of the Company's business and ensuring the implementation of the appropriate systems to manage these risks;
- (k)
succession planning for the Company, including identifying, appointing, training and monitoring senior management;
- (l)
overseeing the integrity of the Company's internal controls and management information systems; and
- (m)
maintaining a continuing dialogue with management in order to ensure the ability to respond to changes, both internal and external, which may affect the Company and its business operations from time to time.

In carrying out its mandate the Board holds at least four regular meetings annually, and from its members has established two committees with specific responsibilities, namely an Audit Committee and a Communications Committee. The frequency of meetings, as well as the nature of the matters dealt with, will vary from year to year depending on the state of the Company's business and the opportunities or risks which the Company faces from time to time.

Composition of the Board

The Guidelines recommend that a board of directors be constituted with a majority of individuals who come within the description of unrelated directors. An unrelated director is defined as a director who is independent of management and is free from any interest and any other business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the corporation, other than interests and relationships arising from shareholding. The Guidelines also recommend that in the circumstances where a corporation has a significant shareholder (that is, a shareholder with the ability to exercise the majority of the votes for the election of directors) the board of directors should include a number of directors who do not have interests in or relationships with the corporation or the significant shareholder and which fairly reflects the investment in the corporation by the shareholders other than the significant shareholder.

The Board has determined that of its three current Directors, one is an unrelated Director. The Board considers the following individuals to be related Directors: Leonard Danard because he is President and Chief Executive Officer and Christopher Robbins because he is Vice President and Chief Financial Officer. The number of directors to be fixed for the coming year remains at three, of whom one Director is expected to be unrelated. The Company does not have a significant shareholder, and the Board considers its size of three directors to be appropriate at the current time.

However, as the Articles of the Company and the *Company Act* (British Columbia) entitle the Board to appoint one additional Director before the next meeting of shareholders is held, the Board may use this power to add to the breadth of its experience and expertise. The functions of the Committees of the Board of Directors are described above under the heading *Standing Committees*.

Aside from its Audit Committee and Communications Committee, the Board has not designated any other committee. Given there are currently only four members of the Board, the Board as a whole remains responsible for performing the functions that may otherwise be given to an executive committee or a compensation committee. The Board intends to remain sensitive to corporate governance issues and will re-examine the need for additional measures, control mechanisms and structures (including committees) from time to time as the Company resources permit.

Decisions Requiring Prior Board Approval

In addition to matters which must, by law or by the Articles of the Company, be approved by the Board, management is required to seek Board approval for major transactions.

Nomination for New Directors

The Company does not currently provide a formal orientation program for new Directors. However, it is the Board's intention that as and when a new nominee is identified, they will ensure that a full program of orientation and education is provided for the nominee, including (but not limited to) provision of a complete corporate history, including copies of past minutes of meetings of the Board of Directors, as well as information regarding the Company's business and operations.

Outside Advice

In certain circumstances it may be appropriate for an individual Director to engage an outside professional advisor at the expense of the Company. The engagement of the outside professional advisor would be subject to approval of the Board acting in discharge of its duties to manage corporate governance matters.

EXECUTIVE COMPENSATION

Report on Executive Compensation

Composition of the Compensation Committee

The Board of Directors has not designated a compensation committee. Instead, the responsibilities that would otherwise go to such a committee remain with the Board (see Statement on Corporate Governance appearing above).

Currently, the Company has three executive officers: Leonard Danard (President and Chief Executive Officer), Christopher Robbins (Vice President and Chief Financial Officer) and Brian R. Canfield (Secretary). In making compensation decisions, the Board intends to meet at such times as is appropriate.

Executive Compensation Policies and Programs

The objectives of the Company's compensation policies and programs for executive officers are to motivate and reward executive officers for the achievement of significant corporate and functional objectives, recruit and retain executive officers of a high calibre and align the interests of the executive officers with the interests of shareholders and the intermediate and long term objectives of the Company. Achievement of these objectives will contribute to an increase in shareholder value.

The Company's compensation policies and programs for executive officers currently consists of a base salary and long term incentive compensation in the form of stock options. As a general rule for establishing compensation for executive officers, the Board considers the executive's performance, experience, position within the Company and industry compensation surveys. The Board of Directors uses its discretion to set compensation for executive officers at levels warranted by external, internal and individual circumstances. Compensation of executive officers of the Company is generally reviewed on an annual basis.

Options for executive officers are granted initially at the time of employment. Option grants for all employees including executive officers are reviewed on an annual basis. The Company, in accordance with the policies of the Montreal Exchange, established the 1997 Stock Option Plan, from which all option grants are currently made.

Approval to amend and restate the 1997 Stock Option Plan was given at the Company's June 25, 1999 Annual General Meeting. The Amended and Restated Stock Option Plan allows for options for a total of 7,000,000 common shares to be granted to officers, directors, employees and consultants to the Company and/or its subsidiaries. The 1997 Amended Option Plan was accepted upon the Company's listing on the Toronto Venture Exchange (formerly the Canadian Venture Exchange) on October 1, 2001. There were no 1,125,000 options at \$0.10 granted during the fiscal year ended December 31, 2003 to three consultants to the Company. At the time of this report there is a total of 6,950,000 options outstanding, ranging from \$0.10 per share to \$0.68 and expiring dates of June 25, 2004 through February 12, 2009.

Compensation of the Chief Executive Officer

The principles for establishing, measuring and determining the compensation of the Chief Executive Officer follow the same philosophy as for other executives. Leonard Danard was the Chief Executive Officer of the Company for the entire financial year ended December 31, 2003. Mr. Danard's compensation (base salary and options) was established by the Board of Directors in 1996 (see Employment Agreements of Named Executive Officers; Change in Responsibilities appearing below) and effective October 1, 2001 follows the guidelines and policies of the Toronto Venture Exchange.

The Company has no compensatory plan or arrangement in respect of compensation received or that may be received by any executive officer in the Company's most recently completed or current financial year to compensate him in the event of termination of employment (resignation, retirement, change of control) or in the event of a change in responsibilities following a change in control, where such compensation exceeds \$100,000.

Long-Term Incentive Plan (LTIP) Awards

The Company does not have a LTIP, pursuant to which cash or non-cash compensation intended to serve as a long-term incentive for performance (whereby performance is measured by reference to financial performance or the price of the Company's securities or any other measure), was paid or distributed to Leonard Danard as Chief Executive Officer, or any other executive officer during the most recently completed financial year ended December 31, 2003. See the discussion of Incentive Stock Options immediately below.

Incentive Stock Options

The management of the Company is of the view that to be able to attract the most suitable employees, officers and directors of the Company, it is often necessary to be able to offer them options to purchase shares of the Company, as an incentive or inducement. There were no grants of options to purchase common shares of the Company to Leonard Danard as Chief Executive Officer, made during the most recently completed financial year.

The following table sets forth information with respect to the exercise of options during the financial year ended December 31, 2003 by Mr. Danard and the number and value of unexercised options held as at December 31, 2003.

APPOINTMENT OF AUDITORS

PricewaterhouseCoopers, Chartered Accountants, has acted as the Company's auditors since November 1981. The management of the Company proposes that PricewaterhouseCoopers continue in this capacity until the next Annual General Meeting of shareholders, at a remuneration to be fixed by the Directors.

PARTICULARS OF MATTERS TO BE ACTED UPON

General Authority to Conclude Placements or Transactions

Under British Columbia corporate law, directors are vested with the authority to issue shares for cash, property (including settlement of debt) or services, providing that the valuation of non-cash consideration is fair and reasonable and in the best interests of the Company and the shares issued for such consideration are reasonably valued. The Company uses the prevailing trading price of its common shares as quoted on the TSX Venture Exchange (the Exchange) as a benchmark for valuing its shares. Pursuant to regulatory policies and prevailing industry standards, the Company may apply a discount of up to 25% from such market prices to reflect the fact that the purchasers of such treasury shares are generally subject to hold periods, for some period of time after completion of the share sale, pursuant to applicable securities legislation. Under certain policies of the Exchange, issuances of shares by way of private placement in a number in excess of 25% of a listed company's then outstanding shares may require shareholders' approval. In order to avoid the necessity and added expense of having to convene an additional shareholders' meeting in the event that arrangements satisfactory to the board are reached for a private placement transaction involving the issuance of shares prior the shareholders' meeting to be held in 2005, management proposes to request advance approval at this time from the shareholders. The limitations on the approval sought are that any transaction effected by the Company, must be completed prior to the date of the next Annual General Meeting and must receive the acceptance or filing of the regulatory officials of the Exchange. The share issuances may occur in one or more transactions and with one or more recipients.

Management proposes that shareholders favourably consider and approve the following resolution

Resolved as an ordinary resolution, that the Directors of the Company be authorized to re-capitalise the Company, through the issuance of common shares for cash, property (including settlement of debts) or services, by issuing, in one or more private placements, such number of securities as would constitute in total an amount of common shares that exceeds 25% of the total number outstanding as at June 9, 2004 (the Record Date), during the next 12 month period.

The Directors of the Company believe that passing an ordinary resolution giving effect to the foregoing is in the best interests of the Company and recommend that shareholders vote in favour of the resolution. In the event the resolution is not passed, the Exchange may not approve any private placements, which result in the issuance of a number of shares, which exceeds the 25% figure, without specific shareholder approval. Such restriction could impede the Company's timely access to required funds.

Other Matters

Management of the Company is not aware of any other matters will come before the Meeting other than as set forth above and in the Notice of Meeting. However, if other matters do properly come before the Meeting, the persons named in the accompanying Instrument of Proxy intend to vote on them in accordance with their best judgment.
