CAMTEK ISSUES REVENUE GUIDANCE FOR THE THIRD QUARTER OF 2005

Expects Third Quarter Revenues of Between \$16-18 Million

MIGDAL HA EMEK, Israel, September 7, 2005 Camtek Ltd. (NASDAQ: CAMT) announced today that it expects its revenues in the third quarter of 2005 to total between \$16 and 18 million.

Rafi Amit, Camtek's CEO, commented, "Currently, the PCB market, which still represents over 75% of our revenues, is characterized by very short delivery times in the region of two weeks only. This makes it difficult to forecast revenues early in the quarter. At this time though, we feel comfortable enough to say that we expect our third quarter total revenues to fall in the range of \$16-18 million.

Mr. Amit concluded, "We believe that our third quarter sales to the PCB industry will still remain at a similar level to those of the second quarter. However, we see improvement in market environment in the semiconductor manufacturing and packaging industry, which supports our expectations for continuing growth in our revenues from this segment in the range of 25-30% in the fourth quarter.

ABOUT CAMTEK LTD.

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek's automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry. This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry and price reductions, as well as due to risks identified in the documents filed by the Company with the SEC.
