- o 47% increase in gross profit over first quarter 2007
- o 46% increase in operating income over first quarter 2007
- o 68% increase in net income related to the Company Shareholders over first quarter 2007
- o 52% increase in net income over first quarter 2007

YAVNE, ISRAEL - MAY 28, 2008 - G. WILLI-FOOD INTERNATIONAL LTD. (NASDAQ: WILC) (the "COMPANY" or "WILLI-FOOD"), one of Israel's largest food importers and a single-source supplier of one of the world's most extensive range of quality kosher food products, today announced its unaudited financial results for the first quarter ended March 31, 2008.

First quarter 2008 results include, for the first time, consolidated results of Shamir Salads, an Israeli distributor and manufacturer of Mediterranean style salads, as well as the results of a newly acquired dairy distributor and manufacturer based in Denmark. Willi-Food's operating divisions include Willi-Food in Israel, majority owned Gold Frost, Laish Israeli, and the Company's global kosher trade and export joint venture with the Baron family.

Revenues for the first quarter of 2008 increased 49.0% to NIS 106.4 million (US\$30.0 million) compared to revenues of NIS 71.4 million (US\$20.1 million) in the first quarter of 2007. This increase was driven by the consolidation of the results of Shamir Salads and the dairy distributor based in Denmark, referred to above, as well as by growth in the Company's business.

Gross profit for the first quarter of 2008 increased by 47.3% to NIS 30.4 million (US\$8.5 million) compared to gross profit of NIS 20.6 million (US\$5.8 million) in the first quarter of 2007. First quarter gross margins were 28.5%, in line with gross margins of 28.8% for the same period in 2007.

Mr. Zwi Williger, President and COO of Willi-Food commented, "We returned record figures for the first quarter of 2008 and have further expanded our footprint, product lines and distribution capabilities organically and through mergers and acquisitions. 2007 was a very challenging year for Willi-Food, and the measures that we have taken to ensure that we were not overly hedged in any one operating business are beginning to show results. Furthermore first quarter's results demonstrate that we are beginning to regain the momentum that had been building over the past few years as we have been able to successfully pass on some of our costs to our customers. At the same time, we are successfully deploying other strategic operating initiatives, such as increasing our inventories to protect against future price increases."

"We are very pleased with the performance of the new acquisitions which are the obvious drivers of our growth in the quarter" continued Mr. Williger. "The companies fit strategically with our goal to provide our customers a wide assortment of innovative kosher products that tap into popular consumer trends and demand in kosher and healthy eating. Shamir Salads' range of Mediterranean dips and spreads is widely popular in Israel, and our Danish dairy business continues to establish a solid base of customers for its kosher branded products globally. The quarter's consolidated results, however, were not solely driven by our acquisitions in the period. In addition, our numbers reflect blended margins that were only made possible through additional growth along our core organic businesses as well as strong results coming from activities with the Baron family joint venture."

The Company also recently reported that the proposal for delisting Gold Frost's shares from the London AIM exchange was approved by Gold Frost shareholders; such delisting was effective on May 28, 2008. Gold Frost's financial results will no longer be reported separately and will be consolidated under Willi Food's financial statements. The Company is contemplating making an offer to purchase the remaining shares that it does not already own.

In addition, the Company announced that Yaron Levy, CFO, will be leaving the Company on amenable terms, as of May 29 2008. The Company thanks Yaron for all his diligent efforts. He will be replaced by Ety Sabach, age 35. Ms. Sabach has extensive experience in the food retail market. Prior to joining Willi Food she was the CFO of Burger Ranch, one of the largest fast food chains in Israel, where she began working in May 2002. Between January 1998 and April 2002, Ety served as a Senior Manager at PriceWaterhouseCoopers Israel. Ety is a certified public accountant (Israel), and she received her BA in Accounting and Business Management and MBA in Business Management from the College of Management, Tel-Aviv, Israel.

Willi-Food's operating income for the first quarter of 2008 increased by 46.2% to NIS 14.8 million (US\$4.2 million) from NIS 10.1 million (US\$2.8 million) reported in the comparable quarter of last year.

The Company's first quarter 2008 net income was NIS 9.7 million (US\$2.7 million), or NIS 0.84 (US\$0.24) per share compared to a net income of NIS 6.4 million (US\$1.8 million), or NIS 0.50 (US\$0.14) per share, recorded in the first quarter of 2007.

Willi-Food ended the quarter with \$15.9 million in cash and securities and approximately \$4.2 million in short-term debt.

Mr. Williger concluded, "We continue to work to expand the footprint and brand recognition of Willi-Food globally while diversifying our product base in order to hedge against any singular event impacting our results. The cost of

Edgar Filing: G WILLI FOOD INTERNATIONAL LTD - Form 6-K

commodities and other food materials is still very volatile, and we cannot gauge where prices will be at the end of the year. Therefore, we are foregoing guidance until a later date for when we have a better vision of the outlook ahead. For now, though, we comfortably expect to surpass the \$100 million revenue mark in fiscal 2008."

The Company will host a conference call to discuss results on May 29, at 11:00 EDT. Interested parties may participate in the conference call by dialing (877) 407-8035 (US), or (201) 689-8035 (International) 5-10 minutes prior to the start of the call.
