Aracruz owns 50% of the capital stock of Veracel Celulose S.A. (Veracel), with the other half being held by the Swedish-Finnish group Stora Enso.

The Company's operations are integrated with those of its subsidiaries, associated and affiliated concerns, which operate in the following areas: (i) distribution of products on the international market [Aracruz Trading S.A., Aracruz Celulose (USA), Inc., Aracruz Trading International Commercial and Servicing Limited Liability Company (Aracruz Trading International Ltd.) and Riocell Limited],

(ii) port services (Portocel - Terminal Especializado de Barra do Riacho S.A.), (iii) forestation and

reforestation of eucalyptus trees, under a loan for use agreement (Mucuri Agroflorestral S.A.),

(iv) manufacture of solid wood products (Aracruz Produtos de Madeira S.A.), (v) consulting services

and international trading activities [Ara Pulp - Comércio de Importação e Exportação, Unipessoal Ltda. (Ara Pulp)] and (vi) pulp production (Veracel).

Due to the increase in the performance of port services to third parties and to the associated company Veracel, the need arose to carry out work to expand, revamp and enhance the Barra do Riacho Private Terminal. The Company's subsidiary Portocel contracted financing in the total amount equivalent to R\$ 50 million, which in Brazilian currency corresponds to R\$ 104 million [Note 13(b)], to be invested in the project for expansion of the Terminal, which is scheduled to be concluded in August 2008 and expected to start operations in September of this year.

The project for expansion of the Guaíba Mill has already been approved by the Board of Directors, and purchase agreements have already been signed or tracts committed for sale involving more than half the lands involved.

04.01 NOTES TO THE CONSOLIDATED QUARTERLY FINANCIAL INFORMATION

On December 28, 2007 the Brazilian government enacted Law No. 11.638/07, which alters, revokes and introduces new provisions in the Corporation Law (No. 6.404/76), especially relating to chapter XV, regarding accounting matters, and takes effect as from the year beginning January 1, 2008. The primary objective of this new law is to update corporate legislation to permit the process of converging the accounting policies adopted in Brazil with those contained in international financial reporting standards (IFRS). It calls for new accounting norms and procedures to be issued by the Brazilian Securities Commission - CVM in conformity with IFRS.

The principal modifications can be summarized as follows:

- Replacement of the statement of changes in financial position with the statement of cash flows, already presented by the Company.
- Inclusion of the statement of value added, applicable to publicly traded companies and showing the value added by the company as well as the breakdown of the source and allocation of such amounts; this statement too is already presented by the Company.
- Possibility of maintaining separate bookkeeping records of transactions for purposes of complying with Brazilian tax legislation and then making the adjustments required to adapt them to reporting practices.
- Creation of a new sub-group of accounts, intangible assets, which includes goodwill, for purposes of balance sheet presentation. This account will record the rights relating to incorporeal assets intended to maintain the company or are exercised for this purpose, including the goodwill acquired.
- Mandatory requirement for recording as property, plant and equipment rights relating to corporeal assets intended to maintain the company's activities, including those resulting from operations that transfer the benefits, risks and control of assets to the company.

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

- (such as finance leasing, for instance). Neither the Company nor its subsidiaries have no material transactions of financial leasing.
- Modification of concept for amounts booked as deferred charges. From now on they can only include pre-operating expenses and restructuring expenditures that effectively contribute to the increase in the results of more than one year and that do not constitute merely a decrease in costs or increase in operating efficiency. At present, this item does not produce any effect for the company.
 - Mandatory requirement for companies to periodically analyze the recoverability of the amounts booked under property, plant & equipment, intangible assets and deferred charges, in order to ensure that: (i) the loss due to non-recoverability of such assets is recorded as a result of decisions to discontinue activities relating to such assets or when there is evidence that the results of operations will not be sufficient to ensure the realization of such assets; and (ii) the criterion used to determine the estimated remaining life span of such assets, in order to book depreciation, amortization and depletion, is reviewed and adjusted. This matter was already regulated by CVM Decision No. 527 of January 1, 2007. The Company has already conducted such an analysis and did not identify any adjustment.

- Requirement that investments in financial instruments, including derivatives, be booked: (i) at market value or equivalent in the case of investments in securities intended for trading or available for sale; and (ii) at cost or issue value, updated according to legal or contractual provisions, adjusted to probable realizable amount when this is lower. The Company has already complied with such determinations.
- Creation of a new sub-group of accounts, equity appraisal adjustments, under stockholders equity, to permit (i) booking of determined appraisals of assets at market price, chiefly financial instruments; (ii) direct booking under stockholders equity when so required by an accounting pronouncement; and (iii) adjustments of assets and liabilities to market value due to merger or amalgamation taking place between unrelated parties that are linked to the effective transfer of control.
- Introduction of the concept of adjustment to present value for non-current asset and liability operations and for material short-term operations. At present, the Company has no operation that would generate a significant effect of any adjustment to present value.
- Elimination of the possibility of booking: (i) a premium received upon issue of debentures; and (ii) donations and subsidies for investment (including tax incentives) directly as capital reserves in a stockholders equity account. This means that donations and subsidies for investments will be booked under results for the year or, depending on their characteristics, in a reducing account for assets or unearned income for amortization over the same period as the corresponding assets, when applicable, is depreciated. To prevent distribution as dividends, the amount of the donations and subsidies can be appropriated to a tax incentive reserve after they pass through income. At present, the Company has no such transactions.
- Elimination of the revaluation reserve. The balances existing in the revaluation reserve are to be maintained until such time as they are effectively realized or cancelled by the end of the year in which the law takes effect. Neither the Company nor its subsidiaries have revaluation reserves.
-

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

Requirement for the assets and liabilities of a company to be merged upstream, resulting from transactions that involve amalgamation, merger or spin-off among independent parties and related to effective transfer of control, to be booked at market value. There has been no transaction during 2008 that would require such adjustment.

- Elimination of the materiality parameter for adjustment of investments in subsidiary and associated companies under the equity method and replacement of the parameter of 20% of the capital stock of the investee to 20% of the voting capital if the investee. This matter does not apply to the Company.
- Stock-based remuneration: If a company has any type of remuneration based on stock options with expense characteristics, this effect is to be recognized in income for the period. The Company does not have this type of remuneration.

04.01 NOTES TO THE CONSOLIDATED QUARERLY FINANCIAL INFORMATION

Based on its best understanding and on the accounting pronouncements already existing, as of the date of these financial statements Company Management does not believe that the modifications introduced by Law No. 11.638/07 will have material effects on the Company's financial statements.

2.2 - CVM Decision No. 534 of January 29, 2008

On January 29, 2008, the CVM issued Decision No. 534, which approves Accounting Committee Pronouncement No. CPC-02. This Decision took effect on the date of its publication in the Official Federal Gazette (D.O.U.) and applies to fiscal years ending as from December 2008. As provided by CVM Decision No. 534, this pronouncement does not apply to Quarterly Financial Information.

The objective of the CPC-02 pronouncement is to determine how to include foreign currency transactions and overseas operations in the financial statements of an entity operating in Brazil and how to convert the financial statements of an overseas entity to the reporting currency of the financial statements in Brazil for purposes of recording equity pick-up, full or proportional consolidation of financial statements, and also how to convert financial statements of an entity operating in Brazil to another currency. CPC 02 further introduces the concept of functional currency, a concept that was previously not observed by accounting practices adopted in Brazil.

The Company's shares are traded on the New York Stock Exchange (NYSE) and are thus registered with the U.S. Securities and Exchange Commission (SEC), as a Foreign Private Issuer. Therefore, it is required to present financial statements as well in accordance with accounting principles generally accepted in the United States of America (US GAAP). For US GAAP reporting purposes, the Company has determined that its functional currency is the United States Dollar (US\$). Hence, this will be the functional currency upon adoption of the CPC-02. Due to the fact that this accounting pronouncement was only issued recently (January 29, 2008), Company Management is still in the process of evaluating the effects and actual adoption of the pronouncement in its financial position. Preliminary analyses indicate that there may be modifications in the balances of the Company's non-monetary assets, which will begin to be booked based on their historical formation costs, determined in US\$, the corresponding depreciation, amortization and depletion of such assets, as well as results for the period and stockholders' equity.

2.3 CPC 04 Intangible Assets

On April 25, 2008, the CVM issued Notice of Public Hearing No. SNC 03/2008 (Notice), submitting together with the Accounting Pronouncements Committee (CPC) to the Public Hearing (in the manner provided by Article 8, paragraph 3, item I, of Law No. 6.385 of December 7, 1976) the draft of the Decision that ratifies Pronouncement No. CPC 04 issued by the said committee entitled Intangible Assets .

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

The objective of this Technical Pronouncement is to define the accounting treatment for intangible assets that are not specifically covered in any other pronouncement. The new Pronouncement establishes that an entity is to recognize an intangible asset only if determined criteria specified in such

Pronouncement are met. The Pronouncement also specifies how to calculate and measure the book value of the intangible assets and requires specific disclosures regarding such assets.

The Company believes that the main effect on its operations will be the end of amortization of the goodwill paid based on expectations for future profitability, which according to the Notice should occur as from fiscal year 2009.

3 Marketable Securities

As of June 30 and March 31, 2008, the marketable securities recorded in the consolidated balance sheet chiefly comprise Certificates of Deposit (CD s) denominated in Reais placed with leading financial institutions through the Company s subsidiary Aracruz Trading International Ltd., with original maturities of less than 90 days.

These exclusive funds do not entail significant financial obligations. Any obligations are limited to the service fees paid to the asset management companies employed to execute investment transactions, audit fees and other general and administrative expenses. There are no consolidated assets of the Company that are collateral for these obligations and the creditors of the funds do not have recourse against the general credit of Aracruz Celulose S.A.

The Forest Producer Program is a partnership with rural producers, initiated in 1990 in the State of Espírito Santo and expanded to other states, such as Bahia, Minas Gerais, Rio Grande do Sul and, more recently, Rio de Janeiro. The Program encourages the planting of commercial forests of eucalyptus trees, for which the Company provides technology, technical support, supplies and financial resources, depending on the type of contract, in order to ensure supply of wood for pulp production. As of June 30, 2008 advances of funds amounted to R\$ 254,936 (Consolidated R\$ 279,288), compared with R\$ 250,420 (Consolidated R\$ 274,080) as of March 31, 2008, which are recovered against the delivery of the wood by the producers.

In the latter case, the amortization is appropriated to the cost of forest- growing and is recognized in income in the year in which the trees are felled. Of the goodwill of R\$ 839,305 arising on the acquisition of Riocell S. A. in 2003, R\$ 276,422 was allocated principally to fixed assets, while the unallocated portion of R\$ 562,883 (future profitability of the business) was transferred to deferred charges (Note 12).

(a) Loans from BNDES (Stockholder)

In December, 2006, Aracruz signed a financing agreement with its stockholder, the Brazilian Development Bank (BNDES), in the total amount of R\$ 595,869, of which R\$ 460,270 has already been released. The loan is subject to interest varying between 7.18% and 8.18% p.a. and is to be amortized in the period from 2009 to 2016.

As of June 30, 2008, Aracruz had financings in the total amount of R\$ 715,206 (R\$ 731,806 as of March 31, 2008) from its stockholder BNDES, subject to interest varying between 7.18% and 10.5% p.a., to be amortized in the period between 2008 and 2016.

With the exception of the agreement signed in December of 2006, the financings granted by BNDES are guaranteed by mortgages, in varying degrees, of the industrial unit in the State of Espírito Santo and by Company lands and forests, as well as by a statutory lien on financed machinery and equipment.

In relation to Veracel, as of June 30, 2008 BNDES financings amount to R\$ 506,055 (R\$ 542,721 as of March 31, 2008), subject to interest varying from 7.0% to 9.50%, to be amortized in the period from July 2008 to February of 2014. These amounts refer to the 50% share held by Aracruz in Veracel.

14 Financial Instruments (a) Risk management

Aracruz and its subsidiaries operate internationally and are exposed to market risks from changes in foreign exchange rates and interest rates. The exposure of the Company to liabilities denominated in U. S. Dollars does not represent risk from an economic and financial point of view, given that exchange variances arising from the future settlement in local currency of foreign currency denominated liabilities are offset by exchange variances in the opposite direction arising from operating income, as almost all sales are exported.

Further in terms of protection of export operations, derivative financial instruments also are used by Company Management to mitigate the exchange risks, the position of which as of June 30, 2008 is represented by future dollar contracts (NDF and Target Forward) with financial institutions, the notional amounts of which as of June 30, 2008 were R\$ 573 million, falling due between July and November of 2008. As of June 30, 2008, such operations had a marked-to-market receivable position, net of withholding income tax (IRRF), in the amount of R\$ 31,375, recognized as derivatives. Up to June 30, 2008, such operations had a marked-to-market positive result recognized as financial income in the amount of R\$ 35,327.

The Company also used future dollar contracts through the Brazilian Futures Market (BM&F), the position of which was zero as of June 30, 2008 and the amount receivable was R\$ 0.7 (as of March 31, 2008 the position was represented by 4,500 BM&F future dollar contracts with an outstanding amount of R\$ 2 million to be paid). Through June 30, 2008, such operations had a positive marked-to-market yield recognized as financial income in the amount of R\$ 44 178.

During the second quarter of 2008, exchange derivative financial instruments yielded positive results of R\$ 75,194 (compared with R\$ 71,081 in the second quarter of 2007).

In September 1998, the previously existing pension plan was substituted by a defined contribution system for retirement (Arus Retirement Plan).

The Company sponsors ARUS and its total contribution in the second quarter of 2008 was R\$ 1,795 (R\$ 1,535 in first quarter 2007).

Should the sponsor withdraw from the Retirement Plan, the sponsor's commitment made under Resolution No. CPC 06/88 (issued by the Brazilian Supplementary Retirement Benefits Council) is totally covered by the assets of the Defined Contribution Plan.

17 Insurance Coverage

Given the nature of its activities, the Company has adopted the policy of contracting insurance coverage to meet its requirements, taking into account the classic differences in risks (manufacturing plant, forests and port). Aracruz purchases insurance coverage -- based on a combination of systematic risk analyses together with modern insurance techniques -- in accordance with the maximum possible loss concept, which corresponds to the maximum amount subject to destruction in a single event.

As of June 30, 2008, the Company's assets were insured against losses for a total amount of approximately US\$ 700,000, corresponding to the maximum limit of indemnity per event.

18 Provision for Provision for Contingencies and Legal Obligations Being Disputed in Court

The juridical situation of Aracruz Celulose S.A. and its subsidiaries, jointly controlled and affiliated companies includes labor, civil and tax suits. Based on the representation of external legal counsel, Management believes that the appropriate legal procedures and steps taken in each situation are sufficient to preserve the stockholders' equity of the Company and all its Subsidiaries, jointly controlled

(a) Labor

The most significant labor claims are in respect of alleged salary losses due to inflation indices and economic plans imposed by past governments, fines of 40% of the accrued severance pay scheme (Guarantee Fund for Length of Service - FGTS) and claims for additional compensation for alleged hazardous/unhealthy working conditions.

As of June 30, 2008, the Company maintained provisions in the total amount of approximately R\$ 30,900 (Consolidated - R\$ 36,700), in order to cover any unfavorable decisions in the labor area, as well as deposits in court in the amount of R\$ 16,100 (Consolidated - R\$ 25,100).

(b) Brazilian Social Security Institute - INSS

In March 1997, the Company received assessment notices from the Brazilian Social Security Institute - INSS relating principally to accommodation allowances. The inspectors took the view that the subsidized rentals constituted savings for employees and, hence, indirect salary benefits (remuneration in kind). As a consequence, the INSS inspectors argued, this process results in underpayment of the corresponding social security contributions. The Company filed a suit for declaratory judgment to challenge such assessments, with a view to cancellation of the notices, which amounted to approximately R\$ 3,000. The Superior Court of Justice (STJ) has already ruled in favor of the Company's arguments in a Special Appeal filed in one of the suits.

As of June 30, 2008, the Company's deposits in court in relation to this case amounted to approximately R\$ 3,600. Based on the advice of its legal counsel, as drawn up in a formal legal opinion, indicating that

04.01 NOTES TO THE CONSOLIDATED QUARTERLY FINANCIAL INFORMATION the likelihood of loss in this case is remote, no provision has been established for any unfavorable decisions.

(c) PIS/COFINS

The Company disagrees with the legitimacy of the claim for these taxes and filed for a court injunction against the changes in the bases for calculation of PIS and COFINS, as well as the increase in the COFINS rate, imposed by Law No. 9718/98. A preliminary injunction was issued in favor of the Company in November of 2001. Due to unfavorable court decisions for other taxpayers in similar lawsuits, on August 29, 2003 the Company decided to withdraw part of claims filed, and chose to adhere to the PAES program - special payment in installments, in the amount of \$ 56,241 - created by Law No. 10684/2003, the current balance of which is approximately R\$ 55,700, and maintained only the claims regarding exchange differences.

Notwithstanding the petition for waiver, in view of the decision rendered by the Federal Supreme Court (STF), which ruled that the change in the basis for calculation of the PIS and COFINS is unconstitutional, the Parent Company filed for a Restraining Order to ensure its right not to pay over the PAES installments relating to such modification, and the petition was granted. The amount relating to the PAES installments that were not paid as a result of the cited court order, for the months from July 2006 through June of 2008, is roughly R\$ 15,400, already updated according to the TJLP interest rate.

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

The amount at stake relating to exchange variation for the period from February 1999 to September 2003 is approximately R\$ 170,700 as of June 30, 2008 (R\$ 168,800 as of March 31, 2008), already adjusted to current price levels based on the SELIC interest rate, which is appropriately reflected in the provision for contingencies and legal obligations being disputed in court.

In September 2007, based on the opinion of its legal council, Company Management reversed the amount of approximately R\$ 73,800 of the provision relating to the levying of such taxes on exchange variation revenues, in view of the provisions contained in Article 150, paragraph 4, of the Brazilian National Tax Code (CTN).

Given decisions handed down by the STF in similar cases, recognizing the unconstitutionality of the modification in the base for calculation of the PIS and COFINS, which has been repeatedly followed by court and administrative jurisprudence, making the issue virtually a settled matter, Aracruz Management is convinced that the likelihood of loss in this case is remote. Nonetheless, due to the recent pronouncement of IBRACON, as of December 31, 2007, the Company adopted a conservative approach and reconstituted the portion of the provision previously reversed.

(d) Social Contribution on Net Income Non-incident on export revenues

In September 2003, the Company obtained a restraining order that give it the right not to pay Social Contribution on Net Income (CSLL) generated by export sales, as well as the right to recognize the amounts of tax credits previously offset in this regard, adjusted by the SELIC rate, in the amount of R\$ 231,600 as of June 30, 2008, for which it maintains a provision. Aracruz is presently awaiting a decision on the appeal filed by the Federal Government.

04.01 NOTES TO THE CONSOLIDATED QUARERLY FINANCIAL INFORMATION

On June 29, 2005, the Company was assessed relating to deductibility of CSLL from taxable income for IRPJ purposes for fiscal years 2000 and 2001, the existing provision for which was supplemented by the amount of R\$ 3.6 million, bringing the total to R\$ 38 million.

In July 2005, in view of the existing case law development, Aracruz decided to pay over the assessed amount, although it recalculated the basis for calculation thereof, arriving at the amount of R\$ 24.4 million. The Company filed an administrative challenge to the balance of the amount assessed, and the assessment was upheld at the first administrative level. The Company has appealed this decision and is awaiting judgment. In addition, it has maintained the lawsuit questioning the alleged non-deductibility.

(f) IRPJ/CSLL Full offset of accumulated tax losses and negative results

On June 29, 2005, the Company was assessed regarding full offset of accumulated tax losses (NOL s) for IRPJ purposes and negative results for CSLL purposes for fiscal years 2000 and 2001, as well as relating to the full offset, in fiscal year 2000, of the tax loss generated during the period it enjoyed the export tax benefit known as the BEFIEEX. The Company challenged the assessment at the first administrative level but it was upheld. Aracruz thus appealed this decision and in June 2008 obtained a favorable decision at the Finance Ministry s Taxpayers Council, which unanimously ruled that the assessments drawn up by the tax authorities were groundless.

As a consequence of the latter decision, the Company, corroborated by its external legal counsel, deemed that the probability of loss of such provision for contingency is remote. Accordingly, as of June 30, 2008, the provision relating to interest and fine, with positive impacts on the Company s results, to the tune of R\$ 29,928 and R\$ 14,416 in the financial expense and other operating expenses, respectively.

g) ICMS

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

On October 20, 2006, the Company received assessment notices from the Espírito Santo State Treasury Secretary in the amount of R\$ 75.8 million, dealing basically with failure to comply with accessory obligations and unduly taking credits for the State Value-Added Tax on Circulation of Goods and Services (ICMS) on assets for use in operations, supplies and fixed assets. The Company elected to make payment of part of the amount assessed and challenged the total amount of R\$ 75.5 million, of which R\$ 11.6 million has already been ruled in the Company's favor. In March of 2008 the Company was served process in tax foreclosure cases arising from three assessment notices where the courts ruled contrary to Aracruz's interests, in the amount of R\$ 58.5 million, and filed its appeals. Based on the opinion of its external legal counsel, which ranked the probability of loss in court as being somewhere between remote and possible, no provision has been set up to cover any unfavorable decisions.

(h) Civil Public Suits - Eucalyptus forest tracts in the State of Grande do Sul

In 2007 a number of Non-Governmental Organizations (NGOs) and the Federal Public Prosecution Office in the State Rio Grande do Sul filed two Civil Public Suits questioning the validity of the procedures adopted by State Environmental Protection Agency - FEPAM in issuing environmental licenses for eucalyptus plantations in that state. A restraining order was initially granted, determining that FEPAM should cease issuing environmental licenses for planting eucalyptus tracts, with jurisdiction thus being passed on to IBAMA (the Brazilian Environmental Institute). The order was suspended by the Federal Court of the 4th Region at the request of the State Government. The

Company believes that such suspension will be confirmed by the court's definitive decision on the merits of the case. Based on the opinion of its legal advisors, who evaluate the probability of loss in the courts as no more than possible, no provision has been recognized. The Company cannot precisely estimate the amount involved in these claims.

(i) Other tax cases

Based on the opinion of its legal counsel, the Company further maintains a provision for other tax contingencies where the likelihood of loss is ranked as probable in the total amount of R\$ 28,700 (R\$ 35,100 Consolidated relating to tax and civil cases involving the subsidiaries and jointly controlled company). For these other contingencies, the Company has on deposit in court the amount of approximately R\$ 22,900 (Consolidated R\$ 23,300).

19 Tax Incentives - ADENE

Since Aracruz is located within the geographic area of ADENE (Agency for the Development of the Northeast) and inasmuch as Decree No. 4213 of April 16, 2002 recognized pulp and paper sector as a priority in the development of the region, the Company claimed and was granted the right by the Federal Revenue Service (SRF) in December of 2002 to benefit from reductions in corporate income tax and non-refundable surcharges on adjusted operating profits for plants A and B (period from 2003 to 2013) and plant C (period from 2003 to 2012). This right was granted after ADENE approved the respective reports.

On January 9, 2004, the Company received Official Letter No. 1406/03 from the Extrajudicial Administrator of the former Northeast Development Agency (SUDENE), informing that pursuant to re-examination by the Juridical Consultancy of the Ministry for Integration as regards the coverage of the cited incentive granted, it considered that it was inappropriate for Aracruz to enjoy the benefit previously granted and accrued, which caused revocation thereof.

During 2004 and 2005, notifications aimed at annulling the related tax benefits were issued by ADENE and repeatedly challenged and/or contested by the Company, although so far no definitive court decision has been issued in relation to the merits of the case.

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

Nevertheless, in December 2005 an Assessment Notice was drawn up against the Company by the SRF, in which the latter government agency required payment back to public coffers of the amounts of the tax incentives used so far, plus interest, albeit without imposition of any fines, for a total amount of R\$ 211 million. The Company filed a challenge against this assessment, which was upheld at the first administrative level. Aracruz further appealed against the latter decision and is presently awaiting a decision

Company Management, in conjunction with its legal counsel, believes that the decision to cancel the ADENE tax benefits in December 2005 is incorrect, both with respect to the benefits used and in relation to the remaining period. As regards the benefits used through 2004 (R\$ 142,858 as of December 31, 2004, recorded under Capital Reserve), Management believes, based on the opinion of its legal counsel, that the requirement to pay the tax has no substantive basis, given that the Company used the benefits strictly within legal parameters and in conformity with acts carried out by the SRF and Reports issued by the ADENE. With respect to the rest of the benefit periods, which extend through 2012 (mill C) and 2013 (mills A and B), respectively, Management and its legal counsel believe it is

Despite its firm conviction as to the solid grounds for its rights, in light of the series of events that occurred in the years 2004 and 2005, indicating intent on the part of ADENE and SRF to cancel the tax benefits, the Company decided to adopt a conservative approach and interrupt the recording of the tax benefits as from 2005, until such time as a definitive court decision is reached.

The probability of loss, both in relation to the tax benefits already taken through 2004 as well as regarding those that have not yet been used as from 2005, is ranked as possible by Management and its legal counsel and, as a result, no provision has been set up in regard to this matter.

21 Commitments**(a) Supply of chemical products**

Linked to the sale of the electro-chemical plant to Canexus Química Brasil Ltda. (Canexus) in 1999, the Company and Canexus signed a long-term contract for the supply of chemical products by Canexus, which was revised in 2002 to include additional volumes. Under the clause of this contract guaranteeing the purchase of minimum volumes, the Company is committed to buying a conservatively projected volume of chemical products. Volumes purchased by the Company in addition to the agreed-upon minimum for a given year may be compensated with lower volumes acquired in subsequent years. For purchases in volumes below those agreed upon, the Company has to pay the utility margin provided by the contract. The Company has these volume commitments until 2008, under the amendment to the contract signed in 2002.

(b) Supply of wood

The Company signed a contract with Suzano Papel e Celulose S.A. with a view to a loan of 1,700 thousand m³ of eucalyptus wood, which were received through September of 2005. The remaining balance as of June 30, 2008 is 667m³ (794 m³ as of March 31, 2008) of eucalyptus wood and, based on its present forest formation costs, the Company has booked the amount of R\$ 7,065 (R\$ 8,420 as of March 31, 2008) under liabilities. The contract calls for return of an equivalent volume on similar operating conditions during the year 2008.

(c) Indian Communities Terms of Settlement

In first half 1998 the Company and the Associations of Indian Communities entered into Terms of Settlement (TAC s) whereby both parties recognized the legitimacy of Administrative Rulings Nos. 193, 194 and 195, all dated March 6, 1998, issued by the Federal Ministry of Justice, which determined the enlargement of the Indian reservation by 2,571 hectares of land belonging to the Company. Aracruz committed itself to a financial aid program to be implemented through social, agricultural, educational, shelter and health projects, up to an amount of approximately R\$ 13,500 (historical amount), monetarily restated each month by one of the official inflation indices (General Market Price Index IGP-M or Consumer Price Index IPC) or such other index as may replace them in the future, whichever is greater. The amount of this financial assistance was to be disbursed over a 20-year period, conditioned to the accomplishment of certain clauses and terms.

Despite the TAC s in force, during the year 2005 members of the Associations of Indian Communities invaded some forestry areas and the Company s industrial premises. Since the invasion represented breach of the TAC s by the Indian communities, the Company after having notified the communities themselves, the National Indian Foundation - FUNAI and the Federal Public Prosecutor -- suspended all commitments to the Indian communities under the TAC s as of May 2005.

04.01 NOTES TO THE CONSOLIDATED QUARERLY FINANCIAL INFORMATION

Up to May, 2005, in relation to the time the TAC s were being complied with, the Company had donated the amount of R\$ 9,597 to the Associations of Indian Communities.

On February 17, 2006, FUNAI published Decisions Nos. 11 and 12 in the Official Federal Gazette (D.O.U.), approving the conclusion of a working group set up by FUNAI Administrative Ruling No. 1299/05, which recommended expansion of the current Indian reserves by about 11,000 hectares, comprised almost entirely of lands owned by Aracruz. The working group identified such lands as being traditionally occupied by the Indian communities. As it was confident of the legitimacy of its rights, the Company filed a challenge to such Decisions on June 19, 2006. At the beginning of 2007, the Federal Minister of Justice, which has the authority to decide the matter, returned the administrative process to FUNAI, determining that more in-depth studies should be conducted with a view to preparing an appropriate proposal that reconciled the interests of all parties concerned.

On August 27, 2007, through Administrative Rulings Nos. 1.463 and 1464, the Ministry of Justice accepted the conclusions of the Working Group set up by FUNAI Administrative Ruling No. 1299/05 and determined expansion of the Indian territories by 11,000 hectares, of which 98% or around 10,700 hectares corresponded to lands owned by Aracruz.

The dispute for land involving Aracruz Celulose and the Indian communities of Espírito Santo came to a conclusion at the end of 2007. On December 3, the final Term of Settlement (TAC) was signed at the Ministry of Justice covering the rights and obligations of each party (Aracruz, the Indian communities and FUNAI) in the process of transferring approximately 11,000 hectares of lands to the Indian communities and assuring that all the eucalyptus wood planted in the area (amounting to around 6,800 hectares of forests) will be felled and removed by the Company by way of indemnity for the improvements made. Expansion of the Indian reservations further requires ratification by decree to be signed by the President of Brazil and subsequent demarcation of lands, at which time effective transfer of ownership will take place.

The agreement, which has been followed up on by all the authorities participating in the negotiation process, including the Brazilian Government Attorney and FUNAI (the agency that will be in charge of hiring an independent firm to physically demarcate the lands) calls for both parties to waive from any present or future actions in this regard. This waiver is to be ratified by the Federal Courts in the City of Linhares - ES.

Prior to signature of the final TAC, the terms thereof were submitted to a vote by the Indian communities and approved at a general meeting held on October 16, being further ratified by them at another meeting held November 28, 2007, as recommended by Convention 169 of the International Work Organization (IWO) on Indian and Tribal Communities, to which Brazil is a signatory.

Aracruz considers the settlement a sustainable solution that seeks equilibrium among the parties involved, to the extent that it makes it feasible for the Indian communities to expand their lands and provides the Company with the legal security that such lands will not be expanded in the future.

17.01 SPECIAL REVIEW REPORT - UNQUALIFIED

(Convenience Translation into English of original previously issued in Portuguese) INDEPENDENT ACCOUNTANTS REVIEW REPORT

To the Directors and Stockholders of Aracruz Celulose S. A.

Aracruz - ES

1. We have reviewed the accounting information included in the accompanying interim financial statements of Aracruz Celulose S. A. (Company and Consolidated) for the quarter ended June 30, 2008, consisting of the balance sheets, the related statements of operations, cash flows and value added, the performance report and the related notes, prepared under the responsibility of the Company's management.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Brazilian Federal Accounting Council (CFC), and consisted, principally, of: (a) inquiries of and discussions with certain officials of the Company and its subsidiaries who have responsibility for accounting, financial and operating matters about the criteria adopted in the preparation of the interim financial statements; and (b) review of the information and subsequent events that have, or might have had, material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our review, we are not aware of any material modifications that should be made to the accounting information included in the interim financial statements referred to in paragraph 1 for them to be in conformity with standards established by the Brazilian Securities and Exchange Commission (CVM), specifically applicable to the preparation of the interim financial statements, including CVM Instruction No. 469, of May 2, 2008.
4. As mentioned in note 2.1, on December 28, 2007, Law No. 11,638 was enacted, altering, revoking and adding new provisions to Law No. 6,404/76 (Brazilian Corporate Law). This Law is effective for fiscal years beginning on or after January 1, 2008 and introduced changes in Brazilian accounting practices. Although this Law has already become effective, certain changes introduced by it are subject to regulation by regulatory agencies before being fully applied by companies. Accordingly, during this transition phase, CVM, through the Instruction No. 469/08, has permitted companies not to apply all the provisions of Law No. 11,638/07 in the preparation of the interim financial statements. Thus, the accounting information contained in the interim financial statements for the second quarter ended June 30, 2008 have been prepared in conformity with specific instructions of the CVM and do not include all the changes in accounting practices introduced by Law No. 11,638/07.
5. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.
