## BRITISH SKY BROADCASTING GROUP PLC

Results for the nine months ended 31 March 2003

The following portion of this Report is incorporated by reference in the prospectus contained in the Registration Statement on Form F-3 (SEC File No. 333-08246) filed by the Registrant under the Securities Act of 1933: the consolidated profit and loss account for the nine months ended 31 March 2003, the consolidated profit and loss account for the three months ended 31 March 2003, and the notes to these accounts, annexed hereto, excluding the term EBITDA and the related EBITDA amounts.

13 May 2003

## BRITISH SKY BROADCASTING GROUP PLC

Results for the nine months ended 31 March 2003

- \* Net DTH subscriber growth of 150,000 in the quarter to 6.7 million
- \* DTH revenue increases by 23% to GBP1,726 million
- \* Advertising revenue increases by 15% to GBP204 million
- \* Operating profit before goodwill and exceptional items increases by 96% to GBP254 million
- \* Operating cash inflow of GBP396 million
- \* Profit before tax, goodwill and exceptional items of GBP165 million

Tony Ball, Chief Executive of British Sky Broadcasting Group plc, said:

"We are reporting another strong set of results today. In what is normally a quiet period we have delivered healthy subscriber growth and an operating profit which has almost doubled year on year, thanks to strong revenue growth and sustained cost control. We remain on track to hit all of our targets."

matches in 2006 and 2008, the US Open until 2009, US PGA Championship until 2007 and World Golf Championship and European Tour events for the next five years.

Following on from its success at the Royal Television Society Awards earlier this year, Sky News was honoured in April with a British Academy Film and Television Award (BAFTA) for its coverage of the Soham tragedy. Sky News has also been the 24-hour news channel of choice during the conflict in Iraq. During the first three weeks of the conflict, Sky News consistently out-rated BBC News 24 and the ITV News channel in multi-channel homes, recording an average weekly reach of over 10.5 million individuals and an average weekly viewing share of 5.7%, more than double that of its rivals combined.

On 17 April 2003, Sky added to its channel line up with the successful launch of three wholly-owned music channels, The Amp, Flaunt, and Scuzz. The three channels feature more extensive interactive opportunities than any previous music channel.

Sky One also reached a new milestone over Easter when it showed the 300th episode of its most popular programme, the Simpsons.

### FINANCIAL REVIEW

Operating profit before goodwill and exceptional items increased to GBP254 million, an increase of 96% on the comparable period. This reflects the operational gearing within Sky's business model, with both continued strong top-line performance and a substantial proportion of costs being largely fixed.

Total revenues grew by 15% on the comparable period to GBP2,331 million, whilst operating expenditure rose by just 9% to GBP2,077 million, generating a net operating margin of 11%.

DTH revenues increased by 23% to GBP1,726 million in the nine months ended 31 March 2003 ("the period"), the third successive nine-month period of over 20% growth. This is principally a result of the 14% increase in the average number of DTH subscribers and the continued growth in ARPU.

The Group's advertising revenues continue to increase, achieving 15% growth on the comparable period to GBP204 million, reflecting the first quarter of benefit from the strong share deals negotiated with advertising agencies for calendar 2003, growth in viewing share and the agency commissions earned on the sale of airtime for certain third party channels.

Wholesale revenues fell by 34% on the comparable period to GBP146 million. On a like-for-like basis (excluding the effect of the closure of ITV Digital) the decline was 16%, consistent with the trend in the first half of this financial year. This reduction in revenue is a direct result of the loss of cable subscribers by NTL and Telewest over the last 12 months and the fall in cable ARPU as the number of premium units taken by subscribers has declined. Conversely, the penetration of Sky's basic channels, Sky One and Sky News, has increased to 100% of all cable homes and Sky Sports News has now increased its penetration to 85% of digital cable homes. Sky remains in ongoing discussions with the cable operators in order to improve the number of Sky premium channels taken by their subscribers.

Interactive revenues increased by 7% on the comparable period to GBP146 million.

Sky Active revenues performed strongly, increasing by 12% on the comparable period to GBP74 million. This increase was principally driven by further usage of interactive advertising, SkyBuy (Sky's wholly owned retail business) and increased revenues from interactive programming. During the quarter, ITV

## Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

embraced interactive applications on digital satellite for the first time across the UK with 'Who Wants To Be A Millionaire?' and has now followed this with the current series of 'I'm A Celebrity Get Me Out Of Here.' Interactivity will again be prominent on Channel 4's Big Brother, to be broadcast at the end of May.

While the gross revenues of SkyBet increased by 3% on the comparable period to GBP72 million, there has been a continued improvement in the mix of revenues between low margin telephone betting and high margin interactive television betting. The launch of Sky Bet Vegas in the quarter, as well as growth in the existing Sports betting business, has resulted in interactive television betting generating over three times the volume of bets than in the comparable period.

Programming costs increased by GBP122 million on the comparable period to GBP1,168 million. The increase in sports costs was mainly due to increased contractual rights costs and the Ryder Cup which is a bi-annual event, partly offset by savings from dropping agreements to televise UEFA Cup Football, Scottish Premier League Football and Six Nations Rugby. A 25% increase in the number of mega-hit movies delivered by the movie studios also contributed to the increase. Third party channel costs increased on the comparable period mainly due to a rise in the average number of subscribers. This was partly offset by savings from channel rate reductions for UKTV and Sci-Fi, as well as Cartoon Network whose agreement was renewed during the quarter achieving at least a 15% saving on the current terms.

Other operating costs increased by GBP56 million on the comparable period to GBP909 million due to increased supply chain costs and administration costs offset by a reduction in customer relationship management (CRM) costs and transmission costs.

Marketing costs are included in other operating costs and are broadly in line with the comparable period at GBP312 million. Subscriber acquisition cost (SAC) remains at GBP210 year-to-date, representing a reduction of GBP25 on the comparable period. This is principally due to lower set-top box costs and an increase in the use of more cost-effective routes to market. Sky remains focused on continuing to drive reductions in SAC.

EBITDA before exceptional items increased by GBP135 million from GBP190 million in the comparable period to GBP325 million.

The Group's share of the operating profits of joint ventures increased to GBP1 million in the period from an operating loss of GBP74 million in the comparable period. This principally reflects the cessation of equity accounting for the Group's then share of losses incurred by KirchPayTV from 8 February 2002.

After its share of the results of joint ventures, goodwill and exceptional items, the Group made a profit before tax of GBP54 million. The profit after tax in the period was GBP33 million, resulting in earnings per share of 1.7 pence compared to a loss per share of 73.4 pence for the comparable period.

The tax charge for the period includes a current tax charge of GBP49 million and a deferred tax charge of GBP3 million due to the Group moving into profitability. This is offset by a GBP33 million deferred tax credit principally arising from the recognition of a deferred tax asset on certain trading losses, net of an adjustment arising from the prior year. After Sky's share of joint ventures' tax (GBP2 million), the charge for the period was GBP21 million (GBP20 million for the quarter).

In the quarter, the group's underlying effective tax rate, ignoring the effect of joint ventures, exceptional items and goodwill, remained at 31% compared to a UK statutory rate of 30%.

GBP14 million of ACT has been offset against the group's tax liability for the

## Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

quarter. At 31 March 2003, the Group had GBP27 million of Advanced Corporation Tax (ACT) expected to be recoverable in less than one year and GBP37 million of ACT recoverable in more than one year.

As a result of non-cash items that include depreciation of GBP72 million and amortisation of GBP93 million, and a positive movement in working capital of GBP70 million, the Group recorded an operating cash inflow of GBP396 million for the period. This represented the conversion of 156% of operating profit before goodwill to cash inflow. After taking into account cash outflows principally comprising interest payments of GBP116 million, capital expenditure of GBP64 million and corporation tax of GBP8 million, Sky reduced its net debt by GBP211 million to GBP1,317 million from GBP1,528 million at 30 June 2002.

### CORPORATE

On 20 March 2003 the Group signed a new, five-year, GBP600 million Revolving Credit Facility. The new facility was used to cancel the Group's GBP750 million facility, originally due to mature in June 2004. In addition, the Group's existing GBP300 million facility has been reduced to GBP200 million and will mature, as before, in June 2004. Total available facilities now total GBP800 million, and will reduce to GBP600 million from June 2004, in line with the anticipated reduced capital requirements of the Group, which has been cashflow positive since January 2002.

This relates to the Group's equity share of the operating results of the Group's joint ventures.

#### KirchPayTV

By 8 February 2002, the Group considered that its relationship with KirchPayTV had irrevocably changed and that the Group has not exercised significant influence since that date. Therefore the Group considered that from 8 February 2002 it was no longer appropriate to account for its interest in KirchPayTV as a joint venture, and ceased accounting for KirchPayTV's losses using the gross equity method from that date.
