Note C and Note D are each amended and restated in their entirety as follows:

#### NOTE C EARNINGS PER COMMON SHARE

We compute basic earnings (loss) per share by dividing net income (loss) for the period by the weighted average number of shares of common stock outstanding during the period. We compute our diluted earnings (loss) per common share using the treasury stock method in accordance with Statement of Financial Accounting Standard No. 128, Earnings per Share. For purposes of calculating diluted earnings per share, we consider our shares issuable in connection with stock options to be dilutive common stock equivalents when the exercise price is less than the average market price of our common stock for the period. We exclude antidilutive common stock equivalents from the calculation of diluted earnings per share. There was no dilutive effect on earnings (loss) per common share in the three months ended June 30, 2003 and 2002 due to the company recording a net loss in those periods. The following table outlines the calculation of basic earnings per share and diluted earnings per share for the three months ended June 30, 2003 and 2002 and the six months ended June 30, 2003 and 2002.

	<b>Income (Numerator)</b>	<b>Shares (Denominator)</b>	<b>Per Share Amounts</b>

**NOTE D STOCK OPTIONS**

The Company has elected to account for stock options in accordance with Accounting Principles Board ( APB ) Opinion No. 25, Accounting for Stock Issued to Employees, which uses the intrinsic value method of accounting. Accordingly, the Company has not recognized compensation expense for the fair value of its stock-based awards in its condensed consolidated statements of operations. The following table reflects pro forma net income and earnings per share had the Company elected to record expense for employee stock options under Statement of Financial Accounting Standards ( SFAS ) No. 123, Accounting for Stock Based Compensation.

During the three and six months ending June 30, 2003, we issued options to acquire 150,000 shares of Common Stock to non-employee directors in respect of their service on the Company s board of directors.

Using the fair value criteria required by SFAS No. 123 to calculate compensation expense, pro forma net income (loss) and earnings per share would be as follows:

	Six Months Ended		Three Months Ended	
	June 30, 2003	June 30, 2002	June 30, 2003	June 30, 2002
