FORWARD LOOKING STATEMENTS

When used in this Annual Report on Form 10-K, the words *believes*, *anticipates*, *expects*, and similar expressions are intended to identify forward-looking statements. These statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected.

In addition to seasonal fluctuations, our quarterly and annual operating results are affected by a wide variety of other factors that could materially and adversely affect our revenues and profitability, including changes in consumer preferences, tastes and eating habits; increases in food and labor costs; promotional timings and seasonality; the availability of qualified labor; national, regional and local economic and weather conditions; demographic trends and traffic patterns; changes in travel and tourism tendencies, particularly in light of world events; competition from other restaurants and food service establishments; cash balances available for operating activities; and the timing, costs and charges relating to restaurant openings and closings. As a result of these and other factors, we may experience material fluctuations in future operating results on a quarterly or annual basis, which could materially and adversely affect our business, financial condition, operating results, and stock price. An investment in our company involves various risks, including those which are detailed in this document and from time-to-time in our other filings with the Securities and Exchange Commission.

Any forward-looking statements included in this Annual Report speak only as of the date of this document. We are not undertaking any obligation to publicly release the results of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events.

Table of Contents

PART I

ITEM 1. BUSINESS

Shells Seafood Restaurants, Inc. was incorporated under the laws of the State of Florida in April 1993 and was reincorporated under the laws of the State of Delaware in April 1996. Effective December 1994, Shells, Inc., a company incorporated under the laws of the State of Florida, was merged with and into our company and became our wholly owned subsidiary.

Concept and Strategy

Shells is a full-service, neighborhood concept, designed to appeal to a broad range of customers by providing generous portions of high-quality seafood, warm, friendly service, and a relaxed atmosphere at reasonable prices. Shells restaurants feature a wide selection of seafood items, including shrimp, oysters, clams, scallops, lobster, crab and daily fresh fish specials, cooked to order in a variety of ways: steamed, sautéed, grilled, blackened and fried. In addition, our restaurants offer a wide selection of signature pasta dishes, appetizers, salads, and desserts and full bar service. All Shells restaurants are open for dinner and 19 restaurant locations are also open for lunch.

To enhance Shells name recognition and benefit from customer loyalty, our restaurants share several proto-typical elements, including the exterior Shells logo sign and similar interior décor schemes that reflect our commitment to promoting a casual, fun dining experience.

As of December 28, 2003 (the last date of our 2003 fiscal year), we owned 23 Shells restaurants, owned a 51% ownership interest in one Shells restaurant and managed four additional Shells restaurants pursuant to contractual arrangements. Subsequently, we discontinued operations in one restaurant in January 2004. All of our restaurants are located in Florida.

Fiscal 2003 was a year of transition for Shells, with several changes in our executive management personnel. On July 7, 2003, Leslie J. Christon joined Shells as our President and Chief Executive Officer; and on September 24, 2003, Guy C. Kathman joined Shells as our Vice President of Operations.

During the second half of 2003, the new leadership began several significant shifts in strategy focused on reversing the long-term decline in customer traffic and sales that Shells has experienced. An immediate focus was taking the necessary steps to elevate service and cleanliness operating standards. Marketing was brought back in house, under a new marketing executive, and plans were revamped to better balance efforts to attract new customers with programs geared for increasing frequency of existing customers. Part of this shift was to increase our focus on the quality, service and overall experience guests receive when they dine at Shells, in addition to our continuing emphasis on price value.

At the same time, we began taking several important steps to update the Shells concept, taking into account the major shifts in consumer tastes that have taken place in recent years. We developed, tested and trained extensively to get ready for the launch of the new food and beverage menus we rolled out during the first quarter of 2004. We tested new color schemes, introduced new uniforms and began evaluating other elements of Shells décor and atmosphere.

Consumer expectations continue to heighten in terms of food quality, flavors and variety, service, pricing, convenience and dining atmosphere. We strive to keep these factors in balance, recognizing that each is important in defining overall value to the customer.

Table of Contents

Restaurant Locations

Our managed and operated restaurants are located in the following Florida markets and cities/neighborhoods:

Tampa/Sarasota

Brandon
 Clearwater
 Holmes Beach
 Redington Shores
 St. Petersburg (closed 1/31/04)
 St. Pete Beach
 Winter Haven
 Carrollwood

 Orlando
 Winter Park
 Melbourne

South Florida

Coral Springs
 Davie
 Ft. Lauderdale
 Kendall
 Pembroke Pines
 Sunrise

West Palm Beach

Stuart
 West Palm Beach

Fort Myers

Fort Myers
 Port Charlotte

From 1997 to 1999, in an attempt to diversify and minimize the seasonal effect of the Florida market, we opened 18 restaurants in various Midwest markets. We sustained operating losses in these Midwest markets and completed the discontinuance of our Midwest operations in April 2001, closing the remaining nine units. We closed one under-performing Florida restaurant in 2002 and an additional restaurant in January 2004. We continuously review the performance of each restaurant unit economics and location, and regularly evaluate new real estate sites in Florida for potential expansion or relocation.

Restaurant Operations

Management and Employees. We currently employ five area directors. Each area director is responsible for the management of several restaurants, including management development, recruiting, training, quality of operations and unit profitability. The staff of a typical dinner-only restaurant consists of one general manager and two assistant managers and approximately 45 other employees. The restaurants that are also open for lunch generally have 15 to 20 additional part-time employees. Restaurant management participates in a bonus program based upon the financial results of their particular restaurant.

Restaurant Reporting. We maintain financial and accounting controls for each restaurant through a central accounting system. Our financial systems and controls allow us to access each restaurant's sales, inventory costs and other financial data on a real-time basis, enabling both store-level management and

Table of Contents

senior management to quickly react to changing sales trends, to effectively manage food, beverage and labor costs, to minimize theft, and to improve the quality and efficiency of accounting and audit procedures. Store level management performs weekly inventories and manages weekly operating results versus budget.

Recruitment and Training. We believe that achieving customer satisfaction by providing knowledgeable, friendly, efficient service is critical to a restaurant's long-term success. We typically recruit restaurant managers with significant experience in the restaurant industry. During a 12-week training program, restaurant managers are taught to promote our team-oriented atmosphere among restaurant employees with emphasis on preparing and serving food in accordance with strict standards and providing friendly, courteous and attentive service. The restaurant staff, through our Team Trainer program, is trained on site by restaurant managers and other staff members. During both 2002 and 2003, we reduced restaurant management turnover. We are continuing to work on improving turnover levels.

Purchasing. Obtaining a reliable supply of quality seafood at competitive prices is critical to our success. We have formed long-term relationships with several seafood suppliers and purchase frozen seafood and certain other supplies used in restaurant operations in bulk. In addition, Shells' menu has been designed to feature seafood varieties with stable sources of supply, as well as to provide flexibility to adjust to shortages and to take advantage of occasional purchasing opportunities. We believe our diverse menu selection minimizes the effect of the shortage of any seafood products. We generally have been able to anticipate and react to fluctuations in food costs through selected menu price adjustments, purchasing seafood directly from numerous suppliers and promoting certain alternative menu selections in response to availability and price of supply.

Performance Food Group of Florida, our primary distributor since October 2002, distributes seafood and most other products to our restaurants, minimizing the risks relating to storing and distributing these products. Performance Food Group purchases and takes delivery of all frozen seafood that we recommend for purchase according to our specifications and subject to our inspections. Based on purchase orders initiated by our restaurants, Performance Food Group then sells the frozen seafood to us on a cost plus basis, and distributes the frozen seafood directly to the restaurants. From time-to-time, at our direction to facilitate a forward purchase opportunity, Performance Food Group acquires frozen seafood inventory in excess of normal recurring restaurant delivery and re-supply. We pay interest on inventory holdings above 30-day supply levels, at an interest rate of 7.8% per annum. In addition, Performance Food Group procures, on our behalf, many of the supplies, other than seafood, used by the restaurants and distributes and sells these products to the individual restaurants at agreed upon price mark-ups.

Quality Control. We maintain a continuous inspection program for all of our seafood purchases. Each shipment of frozen seafood is inspected through statistical sampling methods upon receipt at Performance Food Group's distribution center for quality and conformity to our written specifications, prior to delivery to the restaurants. In addition, fresh fish purchased by the individual restaurants must be purchased from one of our approved suppliers and is inspected by a restaurant manager at the time of delivery. As part of our training program, restaurant employees are educated as to the correct handling and proper physical characteristics of each product.

Our area directors, general managers and assistant managers are all responsible for properly training hourly employees and ensuring that Shells' restaurants are operated in accordance with strict health and quality standards. Compliance with our quality standards is monitored by on-site visits and formal inspections by the area directors. We believe that our inspection procedures and employee training practices help to maintain a high standard of quality for the food and service we provide.

Table of Contents

Advertising and Marketing

Our marketing efforts leverage the use of billboard, newspaper, radio and television advertising to raise awareness of the Shells brand and to inform new and existing customers about food-focused promotions. The fact that our restaurants are generally clustered in particular media markets helps us obtain cost effective advertising. We also stage in-store promotions and various local marketing efforts to help our restaurants partner with their communities.

Disclosure Controls

Consolidated subsidiaries are managed through a centralized Executive Office in Tampa, Florida. Material information is discussed at various weekly and monthly meetings with officers and directors. An open door policy is observed by corporate officers to facilitate communication.

Joint Venture and Third-Party Owned Restaurants

The Shells restaurant system currently consists of (i) 22 restaurants that are wholly owned by us; (ii) one restaurant, in Melbourne, Florida, in which we have an interest of 51%; and (iii) four restaurants that we manage and operate, but do not own. The remaining 49% interest in the Melbourne restaurant is indirectly owned by Wanda L. Hattaway, wife of William E. Hattaway, a former director and president of our company. In addition to the equity interest in this restaurant, we receive a management and licensing fee of 6% of the restaurant sales of the Melbourne restaurant.

Three of the managed restaurants are managed and operated by us pursuant to management and license agreements, originally entered into in July 1993. Pursuant to these agreements, we provide management services and license proprietary information required to operate these restaurants for a percentage of that restaurant's sales. The agreement, as amended in October 2001, provides for a 4% management fee until such time as sales return near to 1999 levels, and then returning to a 6% fee. Of the total management fee received, 2% of sales is placed in escrow and disbursed to a third party to satisfy each managed restaurant's requirement to make third party royalty payments. The management agreements grant us authority to determine the programs and policies affecting the day-to-day operations of each of these managed restaurants. Although the management agreements differ slightly, they generally have an initial term of 30 years and provide that the third-party owners are responsible for funding all the restaurant expenses, including food and beverage costs, staffing, training, recruiting, inventory, and working capital.

A major fire occurred at a managed restaurant in North Tampa on March 3, 2003. The restaurant reopened June 24, 2003 after restoration and renovation. Our management fees from this managed restaurant were not affected during Fiscal 2003, due to insurance coverages.

We operate the fourth managed restaurant pursuant to an oral agreement requiring that the restaurant is operated in conformity with the policies and procedures established by us for Shells restaurants. In accordance with the amended management agreement for our managed restaurants, beginning in October 2001, we receive a management fee of 2% of the restaurant's sales.

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

In the past, the enforceability of these management and license agreements has been questioned by certain of the licensees. Although we believe the agreements are enforceable, there can be no assurance that the agreements will not be challenged in the future, and, if challenged, that the agreements will be determined to be enforceable.

Table of Contents

Competition

The restaurant industry is intensely competitive with respect to price, service, location, food quality and variety, and there are many well-established competitors with substantially greater financial and other resources than us. These competitors include national, regional and local full-service casual dining chains, many of which specialize in or offer seafood products. We also face competition from a broad range of other restaurants and foodservice establishments, including full-service, quick service and fast food restaurants, which specialize in a variety of cuisines. Some of our competitors have been in existence for substantially longer periods than we have, and may be better established in the markets where we have our restaurants. In addition, we believe that the full-service casual dining segment is likely to attract a significant number of new entrants, some offering seafood products.

Government Regulation

We are subject to extensive federal, state and local government regulation by various governmental agencies, including state and local licensing, zoning, land use, construction and environmental regulations and various regulations relating to the sale of food and alcoholic beverages, sanitation, disposal of refuse and waste products, public health, safety and fire standards. Our restaurants are subject to periodic inspections by governmental agencies to ensure conformity with these regulations. Difficulties or failure in obtaining required licensing or other regulatory approvals could delay or prevent the opening of a new restaurant, and the suspension of, or inability to renew, a license at an existing restaurant could adversely affect our operations. Restaurant operating costs are also affected by other government actions, beyond our control, including increases in the minimum hourly wage requirements, workers compensation insurance rates, health care insurance costs and unemployment and other taxes.

Approximately 11% of our revenue is attributable to the sale of alcoholic beverages. Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county or municipal authorities for a license or a permit to sell alcoholic beverages on the premises. Typically, licenses must be renewed annually and may be revoked or suspended for cause at any time. Alcoholic beverage control regulations relate to numerous aspects of daily operations of our restaurants, including minimum age of patrons and employees, hours of operation, wholesale purchasing, inventory control and handling, storage and dispensing of alcoholic beverages. The failure of a restaurant to obtain or retain liquor or food service licenses would adversely affect the restaurant's operations.

We are also subject to dram-shop statutes, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. We carry liquor liability coverage as part of our existing comprehensive general liability insurance.

Our restaurants are subject to federal and state minimum wage laws governing such matters as working conditions, overtime and tip credits. A significant number of our restaurant personnel are paid at rates related to the federal minimum wage and, accordingly, further increases in the minimum wage rate could increase our labor costs.

Table of Contents

The Americans with Disabilities Act prohibits discrimination in employment and public accommodations on the basis of disability. Under the Act to the extent that we elect to remodel a restaurant, we could be required to expend funds to modify our restaurants to better provide service to, or make reasonable accommodations for the employment of, disabled persons.

Service Marks and Proprietary Information

We have registered the service mark "Shells" with the Secretary of the State of Florida and the "Shells" service mark and "jumping fish" logo with the United States Patent and Trademark Office. We believe that our service marks have significant value and are essential to our ability to create demand for, and awareness of, our restaurants. There can be no assurance, however, that our service marks do not or will not violate the proprietary rights of others, that they would be upheld if challenged or that we would not be prevented, in such an event, from using our service marks, any of which could have a material adverse effect on us. Although there can be no assurance that we will have the financial resources necessary to enforce or defend our service marks, we have vigorously opposed, and intend to continue to oppose vigorously, any infringement of our service marks.

We also rely on trade secrets and proprietary knowledge and employ various methods to protect our concepts and recipes. These methods may not afford complete protection and there can be no assurance that others will not independently develop similar knowledge or obtain access to our knowledge, concepts and recipes.

Employees

As of December 28, 2003, we employed approximately 1,400 persons, of whom approximately 110 were management or administrative personnel employed on a salaried basis and 1,290 were employed in non-management restaurant positions on an hourly basis. Approximately 700 employees are employed on a full-time basis. We consider our employee relations to be good. No employees are covered by a collective bargaining agreement.

Table of Contents**Our Executive Officers**

Our executive officers are:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Leslie J. Christon	49	President and Chief Executive Officer
Guy C. Kathman	47	Vice President of Operations
Warren R. Nelson	52	Executive Vice President of Finance, Chief Financial Officer, Treasurer and Secretary

Leslie J. Christon has been our President and Chief Executive Officer since joining Shells in July 2003. From 2002 to 2003, Mrs. Christon was self-employed as a management consultant in the restaurant industry. From 2000 to 2002, Mrs. Christon was employed by Sutton Place Gourmet, Inc. as its President and Chief Operating Officer. From 1996 to 2000, Mrs. Christon was employed by Brinker International, On the Border Restaurants, as its President.

Guy C. Kathman has been our Vice-President of Operations since joining Shells in September 2003. From 2001 to 2003, Mr. Kathman was employed by Posados Café as a General Manager. From 1997 to 2001, Mr. Kathman was employed by Brinker International, On the Border Restaurants, as a Regional Director.

Warren R. Nelson currently serves as our Executive Vice President of Finance, Chief Financial Officer, Treasurer, and Secretary, positions he has held since June 1993.

Our Board of Directors has adopted a Code of Business Conduct and Ethics that applies to our principal executive officer and principal financial officer, as well as to the members of our Board of Directors and our other officers and employees. This Code of Business Conduct and Ethics is available on our web site, at www.shellsseafood.com. We intend to satisfy the amendment and waiver disclosure requirements under applicable securities regulations by posting any amendments of, or waivers to, the Code of Business Conduct and Ethics on our web site. A copy of our Code of Business Conduct and Ethics will be sent without charge upon request in writing addressed to us at 16313 N. Dale Mabry Hwy, Suite 100, Tampa, Florida 33618 c/o Secretary.

Risk Factors Relating to the Business of the Company. *The risks and uncertainties described below are not the only risks we face. In addition to the following risk factors, we refer you to those risk factors described elsewhere in this Annual Report on Form 10-K and in various of our publicly reported documents. Additional risks and uncertainties not presently known to us or that we currently believe are immaterial could also impair our business operations.*

Keep these risk factors in mind when you read forward-looking statements elsewhere in this Form 10-K. These are statements that relate to our expectations for future events and time periods. Generally, the words anticipate, expect, intend and similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties. Future events and circumstances could differ significantly from those associated with the forward-looking statements.

We have significant capital requirements and may need additional financing. Historically, our cash requirements have exceeded our cash flow from operations. This has been due to costs associated with developing and opening restaurants as well as the operating performance of many of our restaurants. At December 29, 2002, the Company had a working capital deficiency of \$3,116,000 and a

Table of Contents

cash balance of \$2,469,000. In 2003, we incurred a net loss of \$1,034,000 and we invested in property and equipment of \$755,000. At December 28, 2003, the Company had a working capital deficiency of \$3,606,000 and a cash balance of \$724,000. We believe cash flow from operations will satisfy our contemplated cash requirements for our existing operations through the end of Fiscal 2004 providing we are successful in reversing the long-term trends in declining sales and customer traffic. There are no assurances that the implementation of our strategies will result in sales and customer traffic gains which are required to meet our contemplated cash flow requirements.

Due to our minimal cash position, we may have to seek additional financing from other sources if:

our projections or assumptions are inaccurate or because of unanticipated expenses;

projected cash flows are not sufficient to cover costs of operations or restaurant renovations.

Integral to our business plan, we presently have plans to renovate and remodel existing restaurants in Fiscal 2004. If we do not achieve our operating cash flow requirements, our plans to renovate and remodel will be adversely affected. Additional cash also will be needed if new restaurants are opened or existing restaurants are relocated.

We cannot be assured that third party financing will be available to us when we need it or available on acceptable terms, if at all. If we cannot obtain third party financing or other financing when we need it, this could materially adversely affect our results of operations and ability to continue as a going concern. If we have to raise additional capital, our existing stockholders could be substantially diluted.

We may be unable to repay certain of our debt when it matures. On January 31, 2005, two notes totaling \$2,000,000 will mature, for which payment will be due in full, along with deferred interest through the due date of \$420,000. The notes are held by entities owned by or associated with various of the Company's directors and largest shareholder. The Company anticipates that it either will restructure this debt or will obtain alternative outside financing to replace these obligations. There are no assurances that these financing options will be available. In the absence of additional outside financing, we do not expect to be able to pay off these notes when they mature.

We have two promissory notes outstanding through Colonial Bank, for the financing of two restaurant locations, Melbourne and Winter Haven. As of December 28, 2003, we owed collectively \$1,191,000 on the principal balances of these notes. We are required to meet a financial covenant relating to debt coverage. We were not in compliance in meeting this loan covenant as of December 28, 2003. Subsequently, we received a loan covenant waiver from Colonial Bank, which is to be applied through the first quarter of Fiscal 2004. There can be no assurances that Colonial Bank will continue to provide us with a waiver to the extent we do not meet our financial covenants.

Going Concern. The Company has suffered from recurring losses from operations, has an accumulated deficit and has secured promissory notes which are due January 31, 2005 that raise substantial doubt about the Company's ability to continue as a going concern. Sufficient liquidity to make the scheduled debt reduction under the promissory note, and other debt obligations, is dependent primarily on the realization of cash flow from operations and obtaining alternative financing sources. There can be no assurance that these initiatives will be successful. The Company's independent auditors have included an explanatory paragraph in their report on the Company's financial statements, stating that they have been prepared assuming that the Company will continue as a going concern and that the Company's recurring losses from operations and net working capital deficiency raise substantial doubt about the Company's ability to continue as a going concern.

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

Substantial dilution to our stockholders is possible. During January 2002, we completed a \$2,000,000 financing transaction pursuant to which, among other things, we issued warrants to purchase 8,908,030 shares of our common stock, at an exercise price of \$0.16 per share. The warrants are

Table of Contents

exercisable through January 31, 2005, and may be exercised by a cashless exercise. The \$2,000,000 borrowed, together with the \$420,000 of accrued interest, is scheduled to be due and payable on January 31, 2005. In the event we renegotiate the payment of this indebtedness, it is possible that we would extend some or all of these warrants beyond January 2005. To the extent these warrants are exercised, our stockholders will suffer substantial dilution. In addition, it is likely that until the warrants are exercised, the number of shares which are issuable upon exercise of these warrants, combined with the per share exercise price, will have a depressive effect on the price of our stock.

Control by Management and Certain Individuals. Frederick R. Adler, a significant shareholder, together with members of our executive management team and Board of Directors, own of record, in the aggregate, approximately 37% of our outstanding common stock. As a result, these persons, acting together, will be able to exert significant influence and control over us, including the election of our directors, regarding any proposed dissolution, merger or sale of our assets, and generally in the direction of our affairs.

In addition, in conjunction with the \$2,000,000 financing transaction in 2002, we issued warrants to purchase 8,908,030 shares of our common stock, at an exercise price of \$0.16 per share. The warrants, which may be exercised by a cashless exercise, are exercisable through January 31, 2005. One half of these warrants are held by each of two investor groups, the members of which are either members of our Board of Directors or persons associated with our Board members or Mr. Adler. If these warrants are exercised in full, our corporate insiders, together with Mr. Adler, could control approximately 75% of our outstanding voting stock, and thus control all decisions affecting our company. Furthermore, as part of the financing, we entered into an Investor Rights Agreement, dated as of January 31, 2002, with these investor groups and certain other stockholders. Pursuant to this agreement, the composition of our Board of Directors may total seven members and each of these investor groups is entitled to nominate three individuals to serve on our Board. Additionally, both of these investor groups and Frederick R. Adler, among others, have agreed to vote their respective shares, to cause these slated nominees to be elected to our Board of Directors.

We have experienced significant turnover at the management level. In Fiscal 2003, we experienced significant change in our senior management. Such turnover has affected and may continue to affect our strategic direction, causing changes in our business plan or disruption in the timing of its implementation.

Operating results may require the closure of other restaurants. If we continue to experience prolonged periods of unfavorable operating results at existing restaurants or view the prospects for a restaurant to be less than satisfactory, we may elect to close or relocate restaurants. The lack of success or closing of any of our restaurants could have an adverse effect upon our financial condition and results of operations. We closed 16 restaurants during Fiscal 2001, of which 14 were located in the Midwest and two were located in Florida. We closed one restaurant in Fiscal 2002. An additional restaurant closed January 2004. We are continuing to monitor the operations and financial performance with respect to certain of our other existing restaurants.

Our operating results fluctuate seasonally because of our geographic concentration. We experience significant fluctuations in our quarter-to-quarter operating results because of factors including:

the seasonal nature of our business; and

weather conditions in Florida.

Table of Contents

Our restaurants are all located in Florida and can be affected by the health of Florida's economy in general, and of the tourism industry in particular, which can further be affected by anticipated world events, as well as economic trends. In addition, while the majority of our restaurants are located primarily in residential areas in Florida, many of our restaurants are located in seasonal tourist areas.

Our restaurant sales generally increase from January through April and June through August, the peaks of the Florida tourism season, and generally decrease from September through mid-December. In addition, because of our present geographic concentration, adverse publicity relating to our restaurants or adverse weather conditions could have a more pronounced adverse effect on our operating results than if our restaurants were more geographically dispersed. Adverse weather conditions or a decline in tourism in Florida, or in general economic conditions, which would likely affect the Florida economy or tourism industry, particularly during the time of peak sales, could materially adversely affect our operations and prospects. Because of the seasonality of our business, our results for any quarter are not necessarily indicative of the results that may be achieved for a full year.

The supply and quality of our seafood may fluctuate. In recent years, the availability of certain types of seafood has fluctuated. This has resulted in a corresponding fluctuation in prices. We maintain short-term contracts with several of our suppliers. In addition, we purchase products through Performance Food Group in the ordinary course of business. Performance Food Group distributes and warehouses our frozen seafood supply and procures, distributes and stores other supplies for us. We believe that our relationships with our suppliers and Performance Food Group are satisfactory and that alternative sources are readily available. However, the loss of some suppliers or of our relationship with Performance Food Group could materially adversely affect us.

Some species of seafood have become subject to adverse publicity because of claims of contamination by lead, mercury or other chemicals that may exist in the ocean or in an aquaculture environment. This can adversely affect both market demand and supply for these food products. Customer demand may also be negatively impacted by reports of medical or other risks resulting from eating seafood. We maintain a continuous inspection program for our seafood purchases. However, we cannot assure you that seafood contamination or consumer perception of inadequate seafood quality, in the industry in general or as to us specifically, will not have a material adverse effect on us. Our failure to obtain adequate supplies of seafood or problems or difficulties resulting from the contamination of seafood, in general, or at any of our restaurants in particular, will have a material adverse effect on our operations and profitability.

Our expenses for food and other costs fluctuate. Our profitability depends on our ability to anticipate and to react to increases in food, labor, employee benefits, and similar costs. We have limited control over these costs. Specifically, our dependence on frequent deliveries of seafood, produce, dairy and other products means we are at greater risk of shortages or interruptions in supply because of adverse weather or other conditions. This could adversely affect the availability and cost of these items. Also, substantial price increases imposed by our suppliers in the absence of alternative sources of supply in a timely manner, could have a material adverse effect on us. We have been able to anticipate and react to fluctuations in food costs by:

adjusting selected menu prices;

purchasing seafood directly from numerous suppliers; and

Table of Contents

promoting alternative menu selections in response to price and availability of supply.

However, we cannot assure you that we will be able to continue to anticipate and respond to supply and price fluctuations or that we will not be subject to significantly increased costs. A shortage of available seafood could cause our cost of sales to increase. Because of our low pricing structure, this could materially adversely affect our operations and profitability. In addition, seafood suppliers and processors are subject to a program of inspection by the Food and Drug Administration. This program may increase our seafood costs because seafood suppliers and processors' costs in complying with this program may increase.

Our industry is highly competitive. The restaurant industry, particularly the full-service casual dining segment, is highly competitive. We compete in the areas of:

price;

service;

food quality, including taste, freshness, healthfulness and nutritional value; and

location.

We have numerous well-established competitors, some of which dominate the industry. These competitors possess substantially greater financial, marketing, personnel and other resources than we do. Many of our competitors have achieved significant brand name and product recognition. They also engage in extensive advertising and promotional programs, both generally and in response to efforts by additional competitors to enter new markets or introduce new products. Our competitors include national, regional and local full-service casual dining chains, many of which specialize in or offer seafood products.

We believe that the full-service casual dining segment is likely to attract a significant number of new entrants, some offering seafood products. We also expect to face competition from a broad range of other restaurants and food service establishments. These include full-service, quick-service and fast food restaurants, which specialize in a variety of menu offerings. In addition, the full-service restaurant industry is characterized by the frequent introduction of new food products, which are accompanied by substantial promotional campaigns. In recent years, numerous companies in the full-service restaurant industry have introduced products, including seafood, intended to capitalize on growing consumer preference for food products that are, or are perceived to be, healthful, nutritious, low in calories and low in fat content. You can expect that we will be subject to increasing competition from companies whose products or marketing strategies address these consumer preferences. While we believe that we offer a broad variety of quality seafood products, we cannot assure you that:

consumers will be able to distinguish our products from competitive products;

substantially equivalent food products will not be introduced by our competitors; or

we will be able to compete successfully.

Table of Contents

Many factors affect our industry. We must respond to various factors affecting the restaurant industry including:

changes in consumer preferences, tastes and eating habits;

demographic trends and traffic patterns;

increases in food and labor costs;

inflation; and

national, regional and local economic conditions and the effect of world events, in general, and the tourism industry in particular:

We face risks associated with government regulation. We are subject to extensive state and local government regulation by various agencies, including:

state and local licensing, zoning, land use, construction and environmental regulations;

various regulations relating to the sale of food and alcoholic beverages;

regulations relating to sanitation, disposal of refuse and waste products;

regulations relating to public health; and

safety and fire standards.

Our restaurants are inspected periodically by governmental agencies to ensure conformity with these regulations. The suspension of, or inability to renew a license at an existing restaurant would adversely affect our operations. A significant percentage of our revenue comes from sales of alcoholic beverages. State and local regulation of the sale of alcoholic beverages require us to obtain a license or permit for each of our restaurants. The failure of a restaurant to obtain or retain a license to serve liquor would materially adversely affect our operations. In addition, our failure or difficulty in obtaining required licensing or other regulatory approvals could delay or prevent new restaurant openings.

Restaurant operating costs are also affected by other government actions, which are beyond our control, including increases in:

the minimum hourly wage requirements;

workers compensation insurance rates;

health care insurance costs;

other insurance costs, including general liability and property; and

unemployment and other taxes.

Table of Contents

Furthermore, the Americans with Disabilities Act may require us to make certain modifications to certain of our restaurants to meet specified access and use requirements. These and other initiatives could adversely affect our results of operations.

We may have liability for sales of alcoholic beverages. We are also subject to dram-shop statutes. These statutes generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. In certain states, statutes also provide that a vendor of alcoholic beverages may be held liable in a civil cause of action for injury or damage caused by or resulting from the intoxication of a minor under certain conditions. In addition, significant national attention is currently focused on the problem of drunk driving, which could result in the adoption of additional legislation. This could increase our potential liability for damage or injury caused by our customers.

We may not be able to protect our service marks and proprietary information. We own two United States registrations for the service marks that we use, including the name *Shells*. We believe that our service marks have significant value and are essential to our ability to create demand for and awareness of our restaurants. We cannot assure you, however, that our service marks:

do not or will not violate the proprietary rights of others;

would be upheld if challenged; or

that we would not be prevented from using our service marks.

Any of these occurrences could materially adversely affect us. In addition, we cannot assure you that we will have the financial resources necessary to enforce or defend our service marks. We believe that we own all of our intellectual property and that the management and license agreements to which we are a party are enforceable. In the past, the enforceability of these management and license agreements has been questioned by certain of the licensees. Although we believe the agreements are enforceable, there can be no assurance that the agreements will not be challenged in the future, and, if challenged, that the agreements will be determined to be enforceable and the managed restaurants will be restricted from using the Shells service marks independent of us.

We also rely on trade secrets and proprietary knowledge. We employ various methods to protect our concepts and recipes. However, these methods may not completely protect us. We cannot assure you that others will not independently develop similar knowledge or obtain access to our knowledge, concepts and recipes. Although we generally enter into confidentiality agreements with our executives and managers, we cannot assure you that these agreements will adequately protect our trade secrets.

Our insurance coverage may not be adequate. We maintain insurance, including insurance relating to personal injury, in amounts, which we currently consider adequate. Nevertheless, a partially or completely uninsured claim against us, if successful, could materially adversely affect us.

We depend on key personnel. Our success is largely dependent upon our executive management and other key personnel. The loss of the services of one of our executives or other key personnel could materially adversely affect us. Our success may also depend on our ability to attract and retain qualified management restaurant industry personnel.

Table of Contents

Absence of Dividends. We have never paid cash dividends on our common stock and do not anticipate paying any cash dividends in the foreseeable future. In addition, our debt financings prohibit the payment of cash dividends and any future financing agreements may also prohibit the payment of cash dividends.

Provisions with Potential Anti-Takeover Effect. Our certificate of incorporation provides that we may issue up to 2,000,000 shares of preferred stock from time-to-time in one or more series. The Board of Directors is authorized to determine the rights, preferences, privileges and restrictions granted to and imposed upon any wholly unissued series of preferred stock. The Board is authorized to fix the number of shares of any series of preferred stock and the designation of any such series, without any vote or action by our stockholders. The Board may authorize and issue preferred stock with voting, dividend, liquidation, conversion or other rights that could adversely affect the voting power or other rights of the holders of our common stock. In addition, the potential issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control, may discourage bids for our common stock at a premium over the market price of the common stock and may adversely affect the market price of the common stock.

On October 24, 2001, the Company issued 66,862 shares of Series A 5% Convertible Preferred Stock, par value \$0.01 per share (the Series A Preferred Stock), pursuant to an exemption from registration under Section 4(6) of the Securities Act of 1933, as amended, in consideration for the cancellation of \$669,000 of trade indebtedness by trade creditors of the Company. We have no present intention to issue any additional shares of our preferred stock. However, we cannot assure you that we will not do so in the future.

Table of Contents

ITEM 2. PROPERTIES

We lease 6,800 square feet of space in Tampa, Florida for our executive offices. The annual rent payable under the lease, which expires October 31, 2004, is approximately \$100,000. Discussions with the landlord are under way and we anticipate renewing the lease.

All but three of our existing restaurants in operation are leased properties. One owned property was sold during 2002. In the future, we intend to lease most of our properties but may from time-to-time acquire restaurant locations based on individual site evaluation. Each of our leases provides for a minimum annual rent and certain of these leases require additional rental payments to the extent sales volumes exceed specified amounts. Generally, we are required to pay the cost of insurance, taxes and a portion of the landlord's operating costs to maintain common areas. Restaurant leases have initial terms averaging 13 years and renewal options averaging 16 years, and rents averaging \$15.00 per square foot.

ITEM 3. LEGAL PROCEEDINGS

On May 29, 2001, a lawsuit was filed in the Court of Common Pleas of Clermont County, Ohio by Cin-Beech, LLC, the landlord of a closed restaurant located in Cincinnati. This restaurant was closed in April 2001. In July 2001, we entered into a lease termination agreement with the landlord. By court order, the parties reached a settlement arrangement in an August 2003 mediation whereby we paid the landlord \$107,000 to terminate the lease and dismiss the lawsuit. A final settlement and disposition of this case occurred in December 2003.

On June 21, 2002 we brought legal action against The Lark Group LLC, Best Que LLC, and Michael Sloane, II, in the United States District Court, Middle District of Florida, Tampa Division, relating to their purchase of assets and leasehold rights for two Midwest locations. Our complaint sought relief for breaches of contract against each of the defendants. Defendants consented to a final judgment in the amount of \$188,201, which was filed with the Court on January 22, 2003. We are continuing to take steps to vigorously pursue collection of this judgment.

The State of Indiana filed liens for unpaid taxes on tangible business property for the years 2000, 2001 and 2002 relating to two properties of restaurants we closed. The taxes were paid in March 2004 and the liens released.

On March 11, 2003, we received a notice from the Equal Employment Opportunity Commission (EEOC) that a former employee in our Miami store had dually filed a charge of discrimination with both the EEOC and the Florida Commission on Human Relations. Shells terminated the employment of this person in December 2002. Specifically, this former employee claimed gender discrimination and retaliation under Title VII of the Civil Rights Act of 1964 and age discrimination in violation of the Age Discrimination in Employment Act of 1967. The parties reached a settlement agreement which was finalized during December 2003.

In the ordinary course of business, the Company is and may be a party to various legal proceedings, the outcome of which, singly or in the aggregate, is not expected to be material to the Company's financial position, results of operations or cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS

None.

Table of Contents**PART II****ITEM 5. MARKET FOR THE REGISTRANT'S COMMON STOCK AND RELATED STOCKHOLDER MATTERS**

Our common stock is traded on the over-the-counter bulletin board under the symbol SHLL. The following table sets forth the high and low per share price of our common stock as reported by the OTC bulletin board.

These over-the-counter market quotations reflect inter-dealer prices, without retail markup, mark-down or commission and may not necessarily represent actual transactions.

Fiscal 2002	High	Low
First quarter	\$ 0.65	\$ 0.35
Second quarter	\$ 0.65	\$ 0.45
Third quarter	\$ 1.00	\$ 0.41
Fourth quarter	\$ 0.58	\$ 0.25
Fiscal 2003		
First quarter	\$ 0.75	\$ 0.35
Second quarter	\$ 0.70	\$ 0.40
Third quarter	\$ 0.70	\$ 0.51
Fourth quarter	\$ 0.95	\$ 0.42

The number of stockholders of record of our common stock on March 19, 2004 was approximately 250. The Company's stock price as of March 19, 2004 was \$0.52.

Our authorized capital stock consists of 20,000,000 shares of common stock, par value \$0.01 per share, and 2,000,000 shares of preferred stock, par value \$0.01 per share.

Dividend Policy

We have never declared or paid any cash dividends on our common stock. All future earnings will be retained by us for the development of our business. Accordingly, we do not anticipate paying cash dividends on the common stock in the foreseeable future. We are subject to loan covenants containing certain provisions prohibiting our ability to pay dividends.

Table of Contents

Equity Compensation Plans

Securities authorized for issuance under equity compensation plans as of December 28, 2003 were as follows:

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants, and rights	Weighted-average	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column [a])
		exercise price of outstanding options, warrants and rights	
	[a]	[b]	[c]
Equity compensation plans approved by security holders	2,941,000	\$ 0.94	1,560,142
Equity compensation plans not approved by security holders	8,908,030	\$ 0.16	
Total	11,849,030		1,560,142

Equity compensation plans not approved by security holders consist of warrants to purchase shares of common stock, issued on January 31, 2002, in connection with a \$2,000,000 private financing transaction. The warrants, which may be exercised by a cashless exercise, have an exercise price of \$0.16 per share and are exercisable through January 31, 2005.

The number of securities and type of plans available for future issuance of stock options as of December 28, 2003 was:

Plan Name	Options for Common Shares:			
	Authorized	Exercised	Outstanding	Available
Stock Option Plan for Non-Employee Directors	150,000	0	36,000	114,000
1995 Employee Stock Option Plan	840,000	0	266,217	573,783
1996 Employee Stock Option Plan	101,000	11,001	31,992	58,007

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

2002 Equity Incentive Plan	<u>1,850,000</u>	<u>160,790</u>	<u>874,858</u>	<u>814,352</u>
Total	<u>2,941,000</u>	<u>171,791</u>	<u>1,209,067</u>	<u>1,560,142</u>

Stock options exercised consist of 160,790 shares of common stock issued to key employees pursuant to our Fiscal 2002 management bonus plan, and 11,001 options exercised by employees in prior years.

Table of Contents**ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA**

The following table sets forth selected historical consolidated financial data for Shells. The historical consolidated financial data is for the fiscal years (52 weeks) ended December 28, 2003, (our Fiscal 2003), December 29, 2002, (our Fiscal 2002), December 30, 2001 (our Fiscal 2001), December 31, 2000 (our Fiscal 2000) and January 2, 2000 (our Fiscal 1999). This consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and Notes thereto included elsewhere in this Form 10-K. (The amounts are presented in thousands, except earnings per share, shares outstanding and number of restaurants data, and percentage information).

- (1) The effective tax rates for fiscal years 2003, 2002, 2001, 2000 and 1999 include the effect of recognizing valuation allowance adjustments relating to tax benefits that were fully reserved prior to 1998. There was no benefit or provision for income taxes in Fiscal 2003. Income tax benefit (provision) of 93.3%, 24.9%, (32.8)% and 35.8% for the fiscal years ended 2002, 2001, 2000 and 1999, respectively, differ from the amounts computed by applying the effective federal income tax rate of 34% as a result of adjusting the valuation allowance, primarily related to net operating loss carryforwards from prior years. The valuation allowance in Fiscal 2003 was increased by \$596,000, reserving for all tax assets that were deemed non-realizable. The valuation allowance in Fiscal 2002 was increased by \$1,403,000, reserving for all tax assets that were deemed non-realizable. The valuation allowance in Fiscal 2001 was decreased by \$706,000, reserving for all tax assets except those subject to recovery through carrybacks resulting from the March 9, 2002 Economic Stimulus Package. The Fiscal 2000 taxes were impacted by an increase in the valuation allowance as the tax assets were deemed non-realizable.
- (2) Includes one joint venture restaurant in which the Company owns a 51% equity interest. Includes one location that was closed on January 31, 2004.
- (3) Includes one licensed restaurant that was closed from March 3 to June 23, 2003 due to a fire.
- (4) Includes only restaurants open during the full fiscal year shown and open for a full comparable fiscal year and at least the full six months prior thereto.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Traditionally, the first half of our fiscal year is our strongest selling season, and lays the foundation for that year's financial results. During the first half of Fiscal 2003, we were negatively impacted by several external factors, including the outbreak of war in Iraq, which led some consumers to forgo restaurant dining in favor of televised war updates, and renewed terrorism fears that hurt Florida tourism and the State's economy. These factors contributed to a continuing decline in same store sales during 2003 and in our cash balances. We consider cash flow from operations and same store sales to be among the most significant drivers in our business.

The second half of Fiscal 2003 was a period of transition for Shells, and included the integration of new senior management and development of several major strategies and changes designed to address these drivers. During these last six months, we were joined by Leslie J. Christon, our President and Chief Executive Officer, and by Guy C. Kathman, our Vice President of Operations. We also hired a new Director of Marketing, returning the marketing function back into our company.

Since growth in cash flow from operations is generally contingent upon our ability to attain and sustain growth in same store sales, our new management team immediately turned its focus on reversing the long-term trend of negative same store sales and customer traffic Shells has experienced and on continuing our recent increase in check average. Much of the foundation for the significant changes now underway in menu, marketing and operating standards was put in place during the fourth quarter of Fiscal 2003. Our focus has been on achieving a better balance between attracting new customers and increasing the frequency of patronage by our core customers. During the second half, we launched a critical initiative to improve restaurant level operational execution, for instance, elevating standards for service and cleanliness. We have aggressively worked toward improving our training. We also revamped our marketing strategy and continue to do so, for example, by reducing the emphasis on discounting as a means to stimulate customer traffic. Additionally, during the fourth quarter we implemented a new gift card system and overhauled our party platter program.

Growth in cash flow is fundamental to our ability to modernize our restaurants, which in turn, provides a more compelling dining experience for our customers. Our 2004 business plan provides for renovations and remodeling at several of our restaurants, to the extent funding is available. Additionally, we may open a new restaurant or relocate an existing restaurant in Fiscal 2004 depending on our ability to arrange additional third party financing for either project.

On January 31, 2005, two notes totaling \$2,000,000 will mature, for which payment will be due in full, along with deferred interest through the due date of \$420,000. The notes are held by entities owned by several of the Company's directors or persons associated with them. We anticipate that we will either restructure this debt or we will obtain alternative outside financing to replace these obligations.

There are no assurances that the implementation of our strategies will result in sales and customer traffic gains which are required to meet our contemplated cash flow requirements. In addition, there are no assurances that financing options will be available to us or that our business plan will not be significantly hampered by our cash position.

Table of Contents

The following table sets forth, for the periods indicated, the percentages that the items in our Consolidated Statements of Operations bear to total revenues, or where indicated, restaurant sales.

	Fiscal Years Ended		
	December 28, 2003	December 29, 2002	December 30, 2001

Table of Contents

RESULTS OF OPERATIONS

Fiscal 2003 versus Fiscal 2002

Total revenues for Fiscal 2003 were \$44,046,000 as compared to \$47,228,000 for Fiscal 2002. The \$3,182,000 or 6.7% decrease in revenues primarily was attributable to a 5.1% decrease in same store sales and, to a lesser extent, due to operating one less restaurant during and after the third quarter of Fiscal 2002. The decline in same store sales was the result of a decline in customer traffic; offset in part by an increase in average customer check. Our revenues consisted of restaurant sales of the Company-owned restaurants and management and licensing fees on sales at the managed restaurants. Our food sales and liquor sales accounted for 89% and 11% of revenues, respectively, for the fiscal year ended December 28, 2003. Comparisons of same store sales include only stores, which were operating during the entire periods being compared and, due to the time needed for a restaurant to become established and fully operational, at least six months prior to the beginning of that period.

The cost of restaurant sales as a percentage of restaurant sales decreased to 33.0% for Fiscal 2003 from 33.5% for Fiscal 2002. This decrease primarily was due to favorable food costs and lower distribution costs, partially offset by a non-recurring write-down of inventory of \$36,000. Exclusive of the non-recurring item, cost of restaurant sales was 32.9% for Fiscal 2003. The cost of restaurant sales generally consists of the cost of food, beverages, freight, and paper and plastic goods used in food preparation and carry-out orders.

Labor and other related expenses as a percentage of restaurant sales increased to 31.6% during Fiscal 2003 as compared to 31.0% for Fiscal 2002. This percentage increase was due to a loss of sales leverage caused by lower unit sales volumes, along with increases in health insurance and workers' compensation insurance; partially offset by a non-recurring reduction in expenses of \$196,000 relating to a reserve adjustment for prior years workers' compensation experience. Exclusive of the non-recurring item, labor and other related expenses was 32.0% of restaurant sales for Fiscal 2003. Labor and other related expenses generally consist of restaurant hourly and management payroll, benefits, taxes and workers' compensation insurance.

Other restaurant operating expenses as a percentage of restaurant sales increased to 25.3% for Fiscal 2003 as compared with 22.9% for Fiscal 2002. This percentage increase was primarily due to a loss of sales leverage caused by lower unit sales volumes, along with increases in restaurant maintenance; utilities, particularly electricity and gas; insurance and real estate taxes. Other restaurant operating expenses generally consist of advertising, costs associated with area directors, supplies, repairs and maintenance, rent and other occupancy costs and utilities.

General and administrative expenses were \$3,387,000 or 7.7% of revenues and \$3,565,000 or 7.5% of revenues in Fiscal 2003 and Fiscal 2002, respectively. Non-recurring expense in Fiscal 2003 included a one-time charge for severance expense of \$70,000. Exclusive of the non-recurring charge, general and administrative expense was 7.5% in Fiscal 2003. General and administrative expenses relate to the operations of all Shells restaurants owned by us and management services that we provide to the managed restaurants.

Depreciation and amortization expenses as a percentage of revenues were 2.4% for Fiscal 2003 and 2.3% for Fiscal 2002.

The provision for impaired assets was \$360,000 or 0.8% of revenues for Fiscal 2003 as compared to

Table of Contents

\$110,000 or 0.2% of revenues for Fiscal 2002. In Fiscal 2003 and Fiscal 2002, we recorded a pre-tax charge relating to the write-down of impaired assets to their estimated fair value in accordance with Financial Accounting Standards Board Statement No. 144. The asset impairment charge in Fiscal 2003 related to three Florida restaurants, two of which were previously not written down and a third that was partially written down in Fiscal 2002. The Fiscal 2003 write-down did not relate to the unit that was closed in January 2004. The asset impairment charge in Fiscal 2002 related to three Florida restaurants that were previously not written down. The write-downs were necessitated by the current period operating losses and the projected cash flows of the restaurants, many of which were negative.

Goodwill was evaluated for impairment in the fourth quarter of Fiscal 2003 and Fiscal 2002 in accordance with FASB Statement No. 142 which the Company adopted in 2002. As a result of the evaluation we did not recognize goodwill impairment in Fiscal 2003. The provision for impairment of goodwill was \$206,000 or 0.4% of revenues in Fiscal 2002.

Net interest expense was \$463,000 in Fiscal 2003 compared to \$534,000 in Fiscal 2002. The Company recorded a one-time charge of \$106,000 in the first quarter of Fiscal 2002 relating to the previously reported \$2,000,000 financing transaction. Exclusive of this non-recurring charge, net interest expense was \$428,000 in Fiscal 2002. The increase in net interest expense in Fiscal 2003 over Fiscal 2002 (excluding the non-recurring charge) was primarily due to a \$23,000 reduction in interest income, resulting from lower balances of cash in Fiscal 2003 compared to 2002.

The Other expense in Fiscal 2003 was \$100,000 as compared to \$3,000 in Fiscal 2002. The increase primarily relates to a net change in the reserve adjustment for gift certificates.

A benefit from income taxes of \$327,000 was recognized in Fiscal 2002. No benefit or provision was recognized in Fiscal 2003. The benefit in Fiscal 2002 related to a refund application to recover tax payments of \$1,176,000 from prior years, resulting from the Economic Stimulus Package signed into law in March 2002. The refund was received in July 2002.

As a result of the factors discussed above, loss from operations for Fiscal 2003 was \$207,000 compared to income from operations for Fiscal 2002 of \$1,108,000. Exclusive of non-recurring items, the Company's income from operations was \$63,000 for Fiscal 2003 compared to \$1,218,000 for Fiscal 2002. The Company's net loss for Fiscal 2003 was \$1,034,000 compared to net income of \$677,000 for Fiscal 2002. Exclusive of non-recurring items, net loss in Fiscal 2003 was \$764,000 compared to net income in Fiscal 2002 of \$575,000.

Fiscal 2002 versus Fiscal 2001

Total revenues for Fiscal 2002 were \$47,228,000 as compared to \$57,529,000 for Fiscal 2001. The \$10,301,000 or 17.9% decrease in revenues primarily was due to operating one-third fewer restaurants during and after the second quarter of Fiscal 2001, and, to a lesser extent, a 7.2% decrease in same store sales. The decline in same store sales was due to a reduction in check average, and to a lesser extent, a reduction in customer traffic. Our food sales and liquor sales accounted for 88% and 12% of revenues, respectively, for the fiscal year ended December 29, 2002.

The cost of restaurant sales as a percentage of restaurant sales decreased to 33.5% for Fiscal 2002 from 37.1% for Fiscal 2001. This decrease primarily was due to the declining commodity costs of seafood, primarily shrimp, coupled with a menu that emphasizes higher margin items. Additionally, we enhanced our in-store controls of inventory through better utilization of a perpetual inventory system.

Table of Contents

Labor and other related expenses as a percentage of restaurant sales increased to 31.0% during Fiscal 2002 as compared to 30.8% for Fiscal 2001. This increase primarily was due to an increase in management labor as a percentage of sales caused by lower unit sales volumes and the implementation of a management bonus program. Fiscal 2001 included \$102,000 in severance pay primarily related to Midwest store closings.

Other restaurant operating expenses as a percentage of restaurant sales increased to 22.9% for Fiscal 2002 as compared with 21.0% for Fiscal 2001. The increase primarily was due to increased media advertising and local store marketing costs along with an increase in expenditures in restaurant maintenance.

General and administrative expenses as a percentage of revenues decreased to 7.5% for Fiscal 2002 as compared with 8.3% for Fiscal 2001. The decrease was primarily attributed to reorganization and downsizing of administrative and supervisory staff in the second quarter of Fiscal 2001 which included a one-time nonrecurring charge of \$150,000 for severance pay.

Depreciation and amortization expenses as a percentage of revenues were 2.3% for Fiscal 2002 and 3.0% for Fiscal 2001. In Fiscal 2001, goodwill was amortized under a straight-line, useful life concept; in Fiscal 2002, a provision for impairment of goodwill was recognized. The provision for impairment of goodwill was \$206,000 or 0.4% of revenues during Fiscal 2002; goodwill was evaluated for impairment and written down in accordance with FASB Statement No. 142 which Shells adopted in 2002.

The provision for impaired assets was \$110,000 or 0.2% of revenues for Fiscal 2002 as compared to \$2,259,000 or 3.9% of revenues for Fiscal 2001. In Fiscal 2002 and Fiscal 2001, we recorded a pre-tax charge relating to the write-down of impaired assets to their estimated fair value in accordance with Financial Accounting Standards Board Statement No. 144. The asset impairment charge in Fiscal 2002 related to three Florida restaurants that were previously not written down. We discontinued the operations of under-performing units, including closing 12 units and licensing an additional three units to others during Fiscal 2001. The asset impairment charge in Fiscal 2001 of \$2,259,000 related to the closure or licensing of various underperforming restaurants.

A provision for store closings of \$1,333,000 or 2.3% of revenues was recognized in Fiscal 2001. These one-time charges, which consisted primarily of real estate lease obligations incurred or anticipated to complete lease terminations or continuing costs while new tenants are located, related primarily to Shells restaurants closed in the Midwest.

Interest expense was \$570,000 in Fiscal 2002 compared to \$500,000 in Fiscal 2001. The Company recorded a one-time charge of \$106,000 in the first quarter of Fiscal 2002 relating to the previously reported \$2,000,000 financing transaction. Exclusive of this non-recurring charge, interest expense was \$464,000 in Fiscal 2002. The reduction was primarily related to debt repayments associated with store closures in Fiscal 2001 and related property dispositions through Fiscal 2002.

In Fiscal 2001, a gain of \$588,000 was recognized upon the cancellation of \$669,000 of trade indebtedness in exchange for preferred stock.

Other expense in Fiscal 2002 was \$3,000 as compared to \$476,000 in Fiscal 2001. Other expense in Fiscal 2001 consisted primarily of a loss of \$283,000 recognized on the sale of a restaurant site in Delray Beach, Florida and \$156,000 for settlements of various general liability claims.

Table of Contents

A benefit from income taxes of \$327,000 was recognized in Fiscal 2002 compared to \$1,001,000 in Fiscal 2001. The benefit in both years related to a refund application to recover tax payments of \$1,176,000 from prior years, resulting from the Economic Stimulus Package signed into law in March 2002. The refund was received in July 2002.

As a result of the factors discussed above, income from operations for Fiscal 2002 was \$1,108,000 compared to a loss from operations for Fiscal 2001 of \$3,430,000. Exclusive of non-recurring items, the Company's income from operations was \$1,218,000 for Fiscal 2002 compared to \$414,000 for Fiscal 2001. The Company's net income for Fiscal 2002 was \$677,000 compared to a net loss of \$3,019,000 for Fiscal 2001. Exclusive of non-recurring items, net income in Fiscal 2002 was \$575,000 compared to a net loss in Fiscal 2001 of \$481,000.

LIQUIDITY AND CAPITAL RESOURCES

The Company has suffered from recurring losses from operations, has an accumulated deficit and has secured promissory notes which are due January 31, 2005 that raise substantial doubt about the Company's ability to continue as a going concern. Sufficient liquidity to make the scheduled debt reduction under the promissory note, and other debt obligations, is dependent primarily on the realization of cash flow from operations and obtaining alternative financing sources. There can be no assurance that these initiatives will be successful. The Company's independent auditors have included an explanatory paragraph in their report on the Company's financial statements, stating that they have been prepared assuming that the Company will continue as a going concern and that the Company's recurring losses from operations and net working capital deficiency raise substantial doubt about the Company's ability to continue as a going concern.

The following table presents a summary of our cash flows for the last three fiscal years (in thousands):

	<u>2003</u>	<u>2002</u>	<u>2001</u>
Net cash (used in) provided by operating activities	\$ (490)	\$ 444	\$ 780
Net cash (used in) provided by investing activities	(755)	325	1,086
Net cash (used in) provided by financing activities	(500)	730	(2,158)
	<u> </u>	<u> </u>	<u> </u>
Net (decrease) increase in cash	\$ (1,745)	\$ 1,499	\$ (292)
	<u> </u>	<u> </u>	<u> </u>

As of December 28, 2003, our current liabilities of \$5,089,000 exceeded our current assets of \$1,483,000, resulting in a working capital deficiency of \$3,606,000. In comparison, as of December 29, 2002, our working capital deficiency was \$3,116,000. Although our operating leverage has decreased, we may still encounter operating pressures from declining sales, increasing food, labor or other operating costs or additional restaurant disposition costs. Historically, we have generally operated with minimal or marginally negative working capital as a result of the investing of current assets into non-current property and equipment, as well as the turnover of restaurant inventory relative to more favorable vendor terms in accounts payable.

During Fiscal 2003, our cash position decreased by \$1,745,000, from \$2,469,000 as of December 29, 2002 to \$724,000 as of December 28, 2003. The reduction in cash was mostly the result of a net loss from operations of \$1,034,000, driven by a further decline in sales and the loss of sales leverage relative

Table of Contents

to costs. Net cash used in operating activities totaled \$490,000 and cash used in investing activities was \$755,000. The net cash used in financing activities was \$500,000, resulting from \$1,079,000 in debt repayments for recurring loan and insurance financing payments, partially offset by \$579,000 in borrowings (consisting of \$519,000 in annually recurring insurance financing arrangements and \$60,000 in equipment financing).

We believe that cash flows from operations will be sufficient to satisfy our contemplated cash requirements through the end of Fiscal 2004, providing we are successful in reversing the long-term trends in declining sales and customer traffic. There are no assurances that the implementation of our strategies will result in sales and customer traffic gains which are required to meet our contemplated cash flow requirements.

Effective January 31, 2002, we raised \$2,000,000 in a private financing transaction, consisting of secured promissory notes and warrants to purchase shares of our common stock. The two investors in this financing were Shells Investment Partners, LLC and Banyon Investment, LLC. Shells Investment Partners is an entity comprised of members previously unaffiliated with our company. Banyon is an entity associated with Philip R. Chapman, Chairman of the Board, and certain family members of Frederick R. Adler, a greater than 10% stockholder. The proceeds of the financing were used for working capital.

In connection with the financing, we issued to each of Shells Investment Partners and Banyon a \$1,000,000 secured promissory note due January 31, 2005 which bears interest at 15% per annum, of which 8% is payable monthly in arrears and 7% is deferred and payable when the principal is paid in full, and a warrant to purchase 4,454,015 shares of our common stock, at an exercise price of \$0.16 per share. The warrants are exercisable through January 31, 2005.

We anticipate requiring additional financing to satisfy the January 31, 2005 principal payment of \$2,000,000 and interest payment of \$420,000 due at maturity. Alternatively, we will pursue discussions to extend the terms of the agreement. There are no assurances that these financing options will be available to us.

During October 2002, we refinanced through Colonial Bank two of our restaurant locations, Melbourne and Winter Haven, with notes of \$635,000 and \$667,000, respectively. The loans, which bear interest at the bank's then base rate, are for terms of five years with required annual principal payments based on a 15 year amortization schedule, and a balloon payment of all then outstanding amounts due at the end of the five years. The principal balances owed on these two notes as of December 28, 2003 were \$579,000 and \$612,000, respectively. The refinancing of the Winter Haven note produced net funds to us of \$375,000 after settlement of an existing mortgage. These net funds were placed into segregated accounts, as inducement for note holder approval of the refinancing. In 2003, these segregated funds were released into our general working capital.

Relative to these two promissory notes, we are required to meet a financial covenant relating to debt coverage. As of December 28, 2003, we were not in compliance in meeting this loan covenant. Subsequently, we received a loan covenant waiver from Colonial Bank, which is to be applied through the first quarter of Fiscal 2004. There can be no assurances that Colonial Bank will continue to provide us with a waiver to the extent we do not meet our financial covenants.

We have, from time-to-time utilized, and to the extent applicable may utilize real estate mortgage and restaurant equipment financing with various banks or financing institutions as necessary. In the event that our plans change, assumptions prove to be inaccurate, or due to unanticipated expenses, and in the event projected cash flow or third party financing otherwise prove to be insufficient to fund operations,

Table of Contents

we could be required to seek additional financing from sources not currently anticipated. There can be no assurance that third party financing will be available to us when needed, on acceptable terms, or at all.

On March 9, 2002, the Economic Stimulus Package was signed into law. This program allows for, among other initiatives, the lengthening of the carry back period allowed for net operating losses from two years to five years. An income tax refund of \$1,176,000 was received in July 2002, relating to taxes paid in Fiscal 1996 and Fiscal 1997.

QUARTERLY FLUCTUATION OF FINANCIAL RESULTS

The restaurant industry in general is seasonal, depending on restaurant location and the type of food served. We have experienced fluctuations in our quarter-to-quarter operating results due, in large measure, to our full concentration of restaurants in Florida. Business in Florida is influenced by seasonality due to various factors, which include but are not limited to weather conditions in Florida relative to other areas of the U.S. and the health of Florida's economy and the effect of world events in general and the tourism industry in particular. Our restaurant sales are generally highest from January through April and June through August, the peaks of the Florida tourism season, and generally lower from September through mid-December. Many of our restaurant locations are in coastal cities, where sales are significantly dependent on tourism and its seasonality patterns.

In addition, quarterly results have been substantially affected by the timing of restaurant closings or openings. Because of the seasonality of our business and the impact of restaurant closings, results for any quarter are not generally indicative of the results that may be achieved for a full fiscal year on an annualized basis and cannot be used to indicate financial performance for the entire year.

IMPACT OF INFLATION AND PRICE CHANGES

We have not operated in a highly inflationary period and management does not believe that inflation has had a material effect on sales or expenses. As expenses increase, we expect to recover increased costs by increasing prices, to the extent permitted by competition, or by modifying our menu and promoting other less cost sensitive products. Many food products purchased by us are affected by commodity pricing and are, therefore, subject to unpredictable price volatility. Extreme changes in commodity prices and/or long-term changes could affect us adversely. From time-to-time, competitive circumstances could limit menu price flexibility, and in those cases margins would be negatively impacted by increased commodity prices. Due to the fact that our business is somewhat dependent on tourism in Florida, any significant decrease in tourism due to inflation would likely have a material adverse effect on revenues and profitability.

NEW ACCOUNTING PRONOUNCEMENTS

In July 2001, the FASB issued Statement No. 141, Accounting for Business Combinations, and Statement No. 142, Goodwill and Other Intangible Assets. These Statements modify accounting for business combinations after June 30, 2001. The Statements require that goodwill existing at the date of adoption be reviewed for possible impairment and that impairment tests be periodically repeated, with impaired assets written-down to fair value. Additionally, existing goodwill and intangible assets must be assessed and classified consistent with the Statements criteria. Intangible assets with estimated useful lives will continue to be amortized over those periods. Amortization of goodwill and intangible assets with indeterminate lives will cease. Based on our actual results to date and our business plan for Fiscal 2004, the adoption of Statement No. 142 did not result in a charge in Fiscal 2003, but resulted in a charge of \$206,000 in Fiscal 2002 and is not expected to materially affect our

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

consolidated financial statements in Fiscal 2004. Additionally, the adoption of Statement No. 141 is not expected to materially affect our consolidated financial statements.

In October 2001, the FASB issued Statement No. 144, Accounting for the Impairment or Disposal of

Table of Contents

Long-Lived Assets. This Statement supersedes Statement No. 121 but retains many of its fundamental provisions. Additionally, this Statement expands the scope of discontinued operations to include more disposal transactions. The provisions of this Statement are effective for financial statements issued for fiscal years beginning after December 15, 2001. Based on our actual results to date and our business plan for Fiscal 2004, the adoption of Statement No. 144 resulted in charges of \$360,000, \$110,000 and \$2,259,000 in Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively, and is not expected to materially affect our consolidated financial statements in Fiscal 2004.

In June 2002, the FASB issued Statement No. 146, Accounting for Costs Associated with Exit or Disposal Activities. The Statement addresses costs that are a result of exiting an activity, such as termination benefits, costs to terminate a contract that is not a capital lease, and costs to consolidate facilities or relocate employees. Under the Statement, a company may recognize costs related to a restructuring only when the liability is incurred. Under previous accounting principles generally accepted in the United States of America, a liability for such costs was recognized on the date when a company committed to an exit plan. The provisions of this statement are effective for exits and disposal activities that are initiated after December 31, 2002. Based on our actual results for Fiscal 2003 and our business plan for Fiscal 2004, the adoption of Statement No. 146 did not materially affect our consolidated financial statements during Fiscal 2003 and is not expected to materially affect our consolidated financial statements in Fiscal 2004.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates on debt and changes in commodity prices. Our exposure to interest rate risk relates to the \$1,191,000 in outstanding debt with banks that is based on variable rates. Borrowings under the loan agreements bear interest at the rate equal to the applicable bank's base rate.

INDEPENDENT AUDITORS REPORT

To the Board of Directors and Stockholders

Shells Seafood Restaurants, Inc. and Subsidiaries

Tampa, Florida

We have audited the accompanying consolidated balance sheets of Shells Seafood Restaurants, Inc. and Subsidiaries (the Company) as of December 28, 2003 and December 29, 2002 and the related consolidated statements of operations, stockholders' equity and cash flows for the fiscal years (52 weeks) ended December 28, 2003, December 29, 2002 and December 30, 2001. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 28, 2003 and December 29, 2002 and the results of its operations and cash flows for the fiscal years (52 weeks) ended December 28, 2003, December 29, 2002 and December 30, 2001 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has suffered from recurring losses from operations, has an accumulated deficit and has secured promissory notes which are due January 31, 2005 that raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SHELLS SEAFOOD RESTAURANTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation At December 28, 2003, Shells Seafood Restaurants, Inc. and subsidiaries managed and operated 28 full-service, casual dining seafood restaurants in Florida under the name Shells. We closed one restaurant in January 2004.

Shells was incorporated on April 29, 1993 and began operations in August 1993 when it purchased from Shells, Inc. the service mark Shells as well as all other intangible and tangible assets necessary to operate a restaurant chain under the name Shells. Shells subsequently acquired Shells, Inc. effective December 29, 1994.

Principles of Consolidation The consolidated financial statements include the accounts and operations of Shells and its wholly owned subsidiaries as well as a joint venture partnership in which Shells is a general partner owning a 51% equity interest. All material intercompany balances and transactions between the consolidated entities have been eliminated in consolidation.

Fiscal Year Our fiscal year is the 52 or 53 weeks ending the Sunday nearest to December 31. Each of the Fiscal years ended December 28, 2003 (Fiscal 2003), December 29, 2002 (Fiscal 2002) and December 30, 2001 (Fiscal 2001) were 52 weeks. Fiscal 2004 will be a 53 week year.

Use of Estimates The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

Inventories Inventories consist of food (primarily seafood), beverages and supplies and are recorded at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method. Shells utilizes a third party to hold and distribute certain products. The inventory is not recorded by Shells nor is the risk of ownership transferred to Shells until its individual restaurants receive the product.

Property and Equipment Property and equipment are stated at cost less the provision for impairment and are depreciated using the straight-line method over the estimated useful lives of the assets. Leasehold improvements and buildings are depreciated over the shorter of the lease term or the estimated useful life and range from five to 30 years. Useful lives for equipment, furniture and fixtures, and signs range from three to 10 years.

Goodwill The excess of the cost over the fair value of the net assets resulting from the acquisition of Shells, Inc. was recognized as goodwill. Prior to Fiscal 2002, goodwill was amortized on the straight-line basis over 20 years; the use of a 20-year estimated life was based on the upper and lower limits considering among other factors the lease terms of restaurants acquired and the cash flow projections of the restaurants. During

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

Fiscal 2002, the Company adopted Financial Accounting Standards Board (FASB) Statement No. 142 whereby goodwill is evaluated periodically for possible impairment and written-down to fair value if impaired.

F-8

Table of Contents

Impairment of Long-lived Assets Property and equipment, goodwill and other intangible assets are reviewed annually or whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable by the estimated future undiscounted cash flows. The impairment write-down is the difference between the carrying amounts and the fair value of those assets. If the total of future undiscounted cash flows is less than the carrying amount of goodwill or property and equipment, the carrying amount is written down to the fair value, and a loss resulting from value impairment is recognized by a charge to earnings. The undiscounted cash flow for each restaurant is calculated through the end of the real estate rental period, plus extensions, if applicable, by estimating future cash flows based on actual historical results of operations and the 2004 budget for each restaurant.

Income Taxes Shells uses the asset and liability method which recognizes the amount of current and deferred income taxes payable or refundable at the date of the financial statements as a result of all events that have been recognized in the financial statements and as measured by the provisions of enacted tax laws. On March 9, 2002, the Economic Stimulus Package was signed into law. This program allows for, among other initiatives, the lengthening of the carry back period allowed for net operating losses from two years to five years. Shells recognized an estimate of the income tax benefit and receivable in Fiscal 2001 and an additional income tax benefit was recognized in Fiscal 2002 when the refund was received, relating to the recovery of taxes paid in Fiscal 1996 and Fiscal 1997.

Net income (loss) per share of common stock Net income (loss) per common share is computed in accordance with FASB No. 128 Earnings Per Share, which requires companies to present basic earnings per share and diluted earnings per share. The basic net income (loss) per share of common stock is computed by dividing net income (loss) applicable to common stock by the weighted average number of shares of common stock outstanding. Diluted net income per share of common stock is computed by dividing net income applicable to common stock by the weighted average number of shares of common stock and common stock equivalents outstanding. The diluted net loss per common share is computed by dividing net loss by the weighted average common shares outstanding excluding common stock equivalents, as they would be anti-dilutive.

Fair Value of Financial Instruments The estimated fair value of amounts reported in the consolidated financial statements have been determined by using available market information and appropriate valuation methodologies. The carrying value of all current assets and current liabilities approximates fair value because of their short-term nature. The carrying value of long-term debt approximates fair value based upon quoted market information as available. As judgment is involved, the estimates are not necessarily indicative of the amounts that could be realized in a current market exchange.

In July 2001, the FASB issued Statement No. 141, Accounting for Business Combinations, and Statement No. 142, Goodwill and Other Intangible Assets. These Statements modify accounting for business combinations after June 30, 2001. The Statements require that goodwill existing at the date of adoption be reviewed for possible impairment and that impairment tests be periodically repeated, with impaired assets written-down to fair value. Additionally, existing goodwill and intangible assets must be assessed and classified consistent with the Statements criteria. Intangible assets with estimated useful lives will continue to be amortized over those periods. Amortization of goodwill and intangible assets with indeterminate lives will cease. Based on our actual results to date and our business plan for Fiscal 2004, the adoption of Statement No. 142 did not result in a change in Fiscal 2003, but resulted in a charge of \$206,000 in Fiscal 2002 and is not expected to materially affect our consolidated financial statements in Fiscal 2004. Additionally, the adoption of Statement No. 141 is not expected to materially affect our consolidated financial statements.

Table of Contents

In July 2001, the FASB issued Statement No. 143, *Accounting for Asset Retirement Obligations*. This Statement requires capitalizing any retirement costs as part of the total cost of the related long-lived asset and subsequently allocating the total expense to future periods using a systematic and rational method. Adoption of this Statement is required for fiscal years beginning after June 15, 2002. The adoption of Statement No. 143 is not expected to materially affect our consolidated financial statements.

In October 2001, the FASB issued Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. This Statement supersedes Statement No. 121 but retains many of its fundamental provisions. Additionally, this Statement expands the scope of discontinued operations to include more disposal transactions. The provisions of this Statement are effective for financial statements issued for fiscal years beginning after December 15, 2001. Based on our actual results to date and our business plan for Fiscal 2004, the adoption of Statement No. 144 resulted in charges of \$360,000, \$110,000 and \$2,259,000 in Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively, and is not expected to materially affect our consolidated financial statements in Fiscal 2004.

In April 2002, the FASB issued Statement No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. The Statement updates, clarifies and simplifies existing accounting pronouncements. Statement No. 145 rescinds Statement No. 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. Statement No. 64 amended Statement No. 4, and is no longer necessary because Statement No. 4 has been rescinded. Statement No. 44 was issued to establish accounting requirements for the effects of transition to the provisions of the Motor Carrier Act of 1980. Because the transition has been completed, Statement No. 44 is no longer necessary. Statement No. 145 also amends Statement No. 13 to require that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. This amendment is consistent with the FASB's goal of requiring similar accounting treatment for transactions that have similar economic effects. Statement No. 145 also makes technical corrections to existing pronouncements. The adoption of Statement No. 145 is not expected to materially affect our consolidated financial statements.

In June 2002, the FASB issued Statement No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. The Statement addresses costs that are a result of exiting an activity, such as termination benefits, costs to terminate a contract that is not a capital lease, and costs to consolidate facilities or relocate employees. Under the Statement, a company may recognize costs related to a restructuring only when the liability is incurred. Under previous accounting principles generally accepted in the United States of America, a liability for such costs was recognized on the date when a company committed to an exit plan. The provisions of this statement are effective for exits and disposal activities that are initiated after December 31, 2002. Based on our actual results for Fiscal 2003 and our business plan for Fiscal 2004, the adoption of Statement No. 146 did not materially affect our consolidated financial statements during Fiscal 2003 and is not expected to materially affect our consolidated financial statements in Fiscal 2004.

In November 2002, the FASB issued Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others*. Interpretation No. 45 supersedes Interpretation No. 34, *Disclosure of Indirect Guarantees of Indebtedness of Others*, and provides guidance on the recognition and disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees.

Table of Contents

The initial recognition and measurement provisions of Interpretation No. 45 are effective for guarantees issued or modified after December 31, 2002, and are to be applied prospectively. The disclosure requirements are effective for financial statements for interim or annual periods ending after December 15, 2002. The adoption of Interpretation No. 45 is not expected to have a material effect on our consolidated financial statements.

In November 2002, the FASB's Emerging Issues Task Force (EITF) discussed Issue No. 02-16, Accounting by a Reseller for Cash Consideration Received from a Vendor. Issue No. 02-16 provides guidance on the recognition of cash consideration received by a customer from a vendor. The consensus reached by the EITF in November 2002 is effective for fiscal periods beginning after December 15, 2002. Income statements for prior periods are required to be reclassified to comply with the consensus. Adoption of the consensus reached in November 2002 related to Issue No. 02-16 is not expected to materially affect our consolidated financial statements.

In December 2002, the Company adopted FASB Statement No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. Statement No. 148 amends Statement No. 123, Accounting for Stock-Based Compensation, and provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. Statement No. 148 also amends the disclosure requirements of Statement No. 123 to require more prominent and frequent disclosures in financial statements about the effects of stock-based compensation. The transition guidance and annual disclosure provisions of Statement No. 148 are effective for financial statements issued for fiscal years ending after December 15, 2002. The interim disclosure provisions are effective for financial reports containing financial statements for interim periods beginning after December 15, 2002. See Note 12 for required disclosures under Statement No. 148.

In January 2003 (revised December 2003), the FASB issued a pronouncement, Financial Interpretation No. 46 (FIN 46 now FIN 46R), Consolidation of Variable Interest Entities. FIN 46R deals with Off-Balance Sheet Assets, Liabilities, and Obligations and gives guidance for determining which entities should consolidate the respective assets and liabilities associated with the obligations. Corporations must fully consolidate assets and liabilities covered by FIN 46R in their financial statements in the first fiscal year or interim period beginning after December 15, 2003. Full disclosure, as well as consolidation, if applicable, of any newly created entities after January 31, 2003 must begin immediately. Adoption of FIN 46R is not expected to materially affect our consolidated financial statements.

In April 2003, the FASB issued Statement No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This Statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities. This Statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. In addition, all provisions of this Statement should be applied prospectively. Adoption of FASB Statement No. 149 is not expected to materially affect our consolidated financial statements.

In May 2003, the FASB issued Statement No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both

Table of Contents

liabilities and equity. Many of those instruments were previously classified as equity. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. Adoption of FASB Statement No. 150 is not expected to materially affect our consolidated financial statements.

In December 2003, the FASB revised Statement No. 132 Employers' Disclosures about Pensions and Other Postretirement Benefits which amended FASB Statements No. 87, 88, and 106. Statement No. 132 requires additional disclosures about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. The required information should be provided separately for pension plans and for other postretirement benefit plans. Adoption of revised FASB Statement No. 132 is not expected to materially affect our consolidated financial statements.

Reclassifications Certain reclassifications of prior year balances have been made to conform to the current presentation.

NOTE 2. LIQUIDITY

The Company has suffered from recurring losses from operations, has an accumulated deficit and has secured promissory notes to entities affiliated with certain members of our Board of Directors (see Note 7), which are due January 31, 2005 that raise substantial doubt about the Company's ability to continue as a going concern. Sufficient liquidity to make the scheduled debt reduction under the promissory note, and other debt obligations, is dependent primarily on the realization of cash flow from operations and obtaining alternative financing sources. There can be no assurance that these initiatives will be successful. The Company's independent auditors have included an explanatory paragraph in their report on the Company's financial statements, stating that they have been prepared assuming that the Company will continue as a going concern, and that the Company's recurring losses from operations and net working capital deficiency raise substantial doubt about the Company's ability to continue as a going concern.

We anticipate requiring additional financing to satisfy the January 31, 2005 principal payment of \$2,000,000 (see Note 7) and interest payment of \$420,000 due at maturity. Alternatively, we will pursue discussions to extend the terms of this indebtedness. There are no assurances that these financing options will be available to us.

Relative to the two promissory notes provided by Colonial Bank, we are required to meet a financial covenant relating to debt coverage. As of December 28, 2003, we were not in compliance in meeting this loan covenant. Subsequently, we received a loan covenant waiver from Colonial Bank, which is to be applied through the first quarter of Fiscal 2004. There can be no assurances that Colonial Bank will continue to provide us with a waiver to the extent we do not meet our financial covenants.

Fiscal 2003 was a year of transition for Shells, with several changes in our executive management personnel. On July 7, 2003, Leslie J. Christon joined Shells as our President and Chief Executive Officer; and on September 24, 2003, Guy C. Kathman joined Shells as our Vice President of Operations.

During the second half of Fiscal 2003, the new leadership began several significant shifts in strategy focused on reversing the long-term decline in customer traffic and sales that Shells has experienced. Much of the foundation for the significant changes now underway in menu, marketing and operating standards was put in place during this period. Marketing was brought back in house, under a new marketing executive, and plans were

Table of Contents

revamped to better balance efforts to attract new customers with programs geared for increasing frequency of existing customers. One such strategy was to reduce the emphasis on discounting. In addition, part of this shift was to increase our focus on the quality, service and overall experience guests receive when they dine at Shells, in tandem to our continuing emphasis on price value. We launched a critical initiative to improve restaurant level operational execution, for instance, elevating standards for service and cleanliness. We also aggressively worked to improve our training.

At the same time, we began taking several important steps to update the Shells concept, taking into account the major shifts in consumer tastes that have taken place in recent years. We developed, tested and trained extensively to get ready for the launch of the new food and beverage menus we rolled out during the first quarter of Fiscal 2004. We tested new color schemes, introduced new uniforms and began evaluating other elements of Shells décor and atmosphere. Additionally, during the fourth quarter of Fiscal 2003 we implemented a new gift card system and overhauled our party platter program.

Growth in cash flow is fundamental to our ability to modernize our restaurants, which in turn, provides a more compelling dining experience for our customers. Our Fiscal 2004 business plan provides for renovations and remodeling at several of our restaurants, to the extent funding is available.

We believe that cash flows from operations will be sufficient to satisfy our contemplated cash requirements through the end of Fiscal 2004, providing we are successful in reversing the long-term trends in declining sales and customer traffic. There are no assurances that the implementation of our strategies will result in sales and customer traffic gains which are required to meet our contemplated cash flow requirements.

NOTE 3. OTHER CURRENT ASSETS

Other current assets consist of the following:

	<u>December 28, 2003</u>	<u>December 29, 2002</u>
Prepaid expenses	\$ 139,893	\$ 161,655
Note receivable	100,000	100,000
Other current assets	25,998	4,573

	<u>\$ 6,996,095</u>	<u>\$ 7,682,892</u>	<u>\$ 8,106,500</u>

NOTE 5. ACCRUED EXPENSES

Accrued expenses consist of the following:

	<u>December 28, 2003</u>	<u>December 29, 2002</u>
Accrued payroll	\$ 801,548	\$ 967,375
Accrued insurance	237,098	693,280
Restaurant closing expenses	396,537	652,961
Other	579,959	388,838
Unearned revenue	280,148	330,632
	<u>\$ 2,295,290</u>	<u>\$ 3,033,086</u>

Table of Contents**NOTE 6. LONG-TERM DEBT**

Long-term debt consists of the following:

	<u>December 28, 2003</u>	<u>December 29, 2002</u>
\$667,500 promissory note with a bank collateralized by real property owned by Shells. Interest is payable monthly based on the Colonial Bank Base Rate. Principal is payable \$3,709 monthly with all unpaid principal due in September 2007. The interest rate was 4.00% at December 28, 2003.	\$ 611,865	\$ 660,082
\$635,000 promissory note with a bank collateralized by real property owned by the 51% owned joint venture. Interest is payable monthly based on the Colonial Bank Base Rate. Principal is payable \$3,900 monthly with all unpaid principal due in September 2007. The interest rate was 4.00% at December 28, 2003.	578,671	625,471
\$655,000 promissory note collateralized by real property owned by Shells. Payments are \$8,000 monthly with unpaid principal due June 2009. The interest rate is fixed at 10.0%.	483,934	529,565
\$540,000 non-interest bearing note, principal payable in variable monthly installments through December 2004. The balances are net of imputed interest of \$3,927 and \$13,407 at December 28, 2003 and December 29, 2002, respectively, at 11%. The note is collateralized by a leasehold interest in certain property and fixed assets of Shells.	57,436	109,541
Capitalized lease agreement, collateralized by equipment, payable monthly at \$2,132 through November 2005.	40,850	
Finance agreements, collateralized by equipment, principal and interest due monthly through January 2004, interest rates ranging from 6.8% - 8.0%	11,599	297,521
Finance agreement, collateralized by insurance policy, principal and interest due monthly through January 2004, at 4.25% fixed interest rate.	8,137	
Finance agreement, collateralized by equipment, principal and interest was due quarterly through October 2003, at 10% fixed interest rate.		61,446
\$850,000 promissory note with a bank collateralized by equipment owned by Shells. Principal was payable at \$3,095 monthly through March 2003. The interest rate was 8.5% at December 29, 2002.		9,285
	<u>1,792,492</u>	<u>2,292,911</u>
Less current portion	<u>(234,247)</u>	<u>(532,857)</u>
	<u>\$ 1,558,245</u>	<u>\$ 1,760,054</u>

The annual maturities of debt as of December 28, 2003 are as follows:

2004	234,247
2005	168,480
2006	152,829
2007	984,575
2008	75,080
Thereafter	177,281
	<hr/>
	\$ 1,792,492
	<hr/>

Relative to the two promissory notes provided by Colonial Bank, we are required to meet a financial covenant relating to debt coverage. As of December 28, 2003, we were not in compliance in meeting this loan covenant. Subsequently, we received a loan covenant waiver from Colonial Bank, which is to be applied through the first quarter of 2004.

Table of Contents**NOTE 7. RELATED PARTY DEBT**

On January 31, 2002, we raised \$2,000,000 in a private financing transaction, consisting of secured promissory notes and warrants to purchase shares of our common stock. The two investors in this financing were Shells Investment Partners, LLC and Banyon Investment, LLC. Shells Investment Partners is an entity comprised of members previously unaffiliated with our company. Banyon is an entity associated with Philip R. Chapman, Chairman of the Board, and certain family members of Frederick R. Adler, a greater than 10% stockholder. The proceeds of the financing were used for working capital. Notes and deferred interest payable to these related parties were:

	<u>December 28, 2003</u>	<u>December 29, 2002</u>
\$1,000,000 secured promissory note due January 31, 2005 bearing interest at 15%, of which 8% is payable monthly in arrears and 7% is deferred and payable when the principal is paid in full.	\$ 1,000,000	\$ 1,000,000
\$1,000,000 secured promissory note due January 31, 2005 bearing interest at 15%, of which 8% is payable monthly in arrears and 7% is deferred and payable when the principal is paid in full.	1,000,000	1,000,000
Deferred interest due on January 31, 2005	267,416	123,355
	<u>\$ 2,267,416</u>	<u>\$ 2,123,355</u>

The deferred interest due at maturity, January 31, 2005, will be \$420,000.

NOTE 8. COMMITMENTS AND CONTINGENCIES

Prior to January 1, 1995, Shells agreed to pay \$540,000 over a 10 year period as inducement to obtain a lease for a certain restaurant site. This amount, net of interest imputed at 11% has been recorded as prepaid rent and is being amortized over the term of the lease. The \$540,000 note expires in December 2004.

With the exception of three operating restaurants, Shells conducts all of its operations and maintains its administrative offices in leased facilities. Certain leases provide for Shells to pay for common area maintenance charges, insurance, and its proportionate share of real estate taxes. In addition, certain leases have escalation clauses and/or require additional rent based upon a percentage of the restaurant's sales in excess of stipulated amounts. Total rent expense under all leases was \$2,571,000, \$2,568,000 and \$3,014,000, for Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively, which included contingent rent of \$143,000, \$100,000 and \$209,000, respectively. The approximate future minimum aggregate rental payments under such operating leases as of December 28, 2003 are as follows:

2004	2,055,000
2005	1,704,000
2006	1,359,000
2007	951,000
2008	686,000

Thereafter	<u>2,505,000</u>
	\$ 9,260,000

Table of Contents

These leases expire at various dates through the year 2015 and generally have renewal options for additional periods.

During Fiscal 2003, Shells entered into an employment agreement with Leslie J. Christon, President and Chief Executive Officer, that included a salary of \$275,000 per year. The term of the employment agreement is two years, and thereafter renews automatically for successive one-year periods unless either party provides notice of intent not to renew. The agreement also provided for the grant of employee options to purchase 297,374 shares of common stock, which vest over a two year period on an annual basis.

Warren R. Nelson, our Chief Financial Officer, holds a letter agreement from the Board of Directors clarifying his severance arrangement, if applicable.

During 1996, Shells entered into an agreement to purchase the leasehold interest in six sites, as well as the leasehold improvements, fixtures and equipment, from Islands Florida, LP, a Delaware limited partnership, in exchange for \$500,000 plus, in general, an aggregate amount equal to 1% of the gross sales, as defined (royalty), of each of the restaurants opened and continuing to be operated by Shells at each of the six sites through the end of the initial terms of the respective leases. Of the six sites originally leased, five sites continue to be leased. The base terms expire at various dates through 2015 one of which expired in 2003. The royalty expense related to these restaurants was \$95,000, \$99,000 and \$110,000 for Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively.

Shells is subject to legal proceedings, claims and liabilities that arose in the ordinary course of business. In the opinion of management, the amount of the ultimate liability with respect to these actions will not materially affect our financial position, results of operations or cash flows.

NOTE 9. MINORITY PARTNER INTEREST

Shells has a 51% equity interest in a joint venture partnership that owns and operates the Shells restaurant located in Melbourne, Florida. Shells entered into the joint venture partnership in March 1994 with WLH Investments, Inc., a corporation owned by the wife of our then President, who was a Director of Shells until February 2002. We have a 51% equity interest and WLH Investments has the remaining 49%. As a condition of the joint venture partnership, WLH Investments contributed \$400,000 in capital on March 1, 1994. The profits, as defined in the joint venture agreement, of the joint venture partnership are allocated as follows: (i) 100% of the first \$60,000 annually is allocated to WLH Investments, (ii) 100% of the next \$60,000 is allocated to Shells, if available, and (iii) any excess over the \$120,000 is allocated 51% to Shells and 49% to WLH Investments. All losses are allocated in accordance with the ownership percentages.

Our share of the joint venture partnership profits was \$272,000, \$235,000 and \$237,000 during Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively. In addition, the joint venture partnership paid us \$177,000 in Fiscal 2003 and Fiscal 2002, and \$180,000 in Fiscal 2001 for management and license fees. The WLH Investments' share of the joint venture partnership profits was \$264,000, \$221,000 and \$221,000 in Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively. The joint venture agreement and management agreement outline the respective joint venture partner's responsibility for funding all restaurant expenses, including food and beverage costs, staffing, training, recruiting, inventories, working capital, capital expenditures and principal and interest payments on loans and mortgages.

The joint venture agreement, which was effective March 1994, as amended March 1995,

Table of Contents

contains a purchase option for Shells to purchase the WLH Investments interest in the joint venture partnership, or conversely, for WLH Investments to put their interest in the joint venture partnership to Shells, for a purchase price of \$750,000 payable by the issuance of our common stock having a value of \$750,000. The option is exercisable at any time following the date our common stock equals or exceeds \$20 per share for a period of 20 consecutive trading days. The option has not been exercisable through December 28, 2003.

NOTE 10. STOCKHOLDERS EQUITY

In connection with the \$2,000,000 financing dated January 31, 2002, we issued to each of Shells Investment Partners and Banyon (i) a \$1,000,000 secured promissory note due January 31, 2005 which bears interest at 15% per annum, of which 8% is payable monthly in arrears and 7% is deferred and payable when the principal is paid in full and (ii) a warrant to purchase 4,454,015 shares of our Common Stock, at an exercise price of \$0.16 per share. The warrants are exercisable through January 31, 2005.

To date, no dividends have been declared or paid on our common stock. In addition, our debt financings prohibit the payment of cash dividends and any future financing agreements may also prohibit the payment of cash dividends.

NOTE 11. CONVERTIBLE PREFERRED STOCK

On October 24, 2001, Shells issued 66,862 shares of Series A 5% Convertible Preferred Stock, par value \$0.01 per share (the Series A Preferred Stock), pursuant to an exemption from registration under Section 4(6) of the Securities Act of 1933, as amended, in consideration for the cancellation of \$669,000 of trade indebtedness by trade creditors of Shells. The shares were issued exclusively to accredited investors as defined in Rule 501(a) under the Securities Act. Shells did not receive any cash proceeds in connection with the issuance of the Series A Preferred Stock.

Each share of Series A Preferred Stock is convertible by the holder into five shares of our common stock. The Series A Preferred Stock has a liquidation preference equal to \$10.00 per share, plus any declared but unpaid dividends. Dividends on the Series A Preferred Stock, payable in cash at the rate of 5% of the Liquidation Value (\$10.00) per annum, are payable annually, when, as and if declared by the Board of Directors of Shells out of funds legally available for the payment of dividends. Dividends on the Series A Preferred Stock are not cumulative. To date, no dividends have been declared or paid on the Series A Preferred Stock.

During January 2003, investors converted 3,314 shares of Series A Preferred Stock into 16,570 shares of our common stock.

Table of Contents**NOTE 12. INCOME TAXES**

The components of the provision (benefit) for income taxes for the years ended December 28, 2003, December 29, 2002 and December 30, 2001 are as follows:

	Fiscal Years Ended		
	December 28, 2003	December 29, 2002	December 30, 2001
Federal			
Current	\$	\$ (326,715)	\$ (984,800)
Deferred			
		(326,715)	(984,800)
State			
Current			(16,615)
Deferred			
			(16,615)
Tax asset valuation allowance			
Income tax benefit	\$	\$ (326,715)	\$ (1,001,415)

Our effective tax rate is composed of the following for the years ended December 28, 2003, December 29, 2002 and December 30, 2001, respectively:

	Fiscal Years Ended		
	December 28, 2003	December 29, 2002	December 30, 2001
Federal statutory rate	(34.0)%	34.0%	(34.0)%
State income tax, net of federal benefit	(3.5)	3.5	(3.5)
FICA tip credits	(19.3)	(64.3)	(4.5)
Goodwill amortization			5.0
Goodwill impairment write-down		58.9	
Valuation allowance and other adjustment	56.8	(125.4)	12.1
Effective income tax benefit	%	(93.3)%	(24.9)%

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-K

As of December 28, 2003, Shells has net operating loss carryforwards for federal income tax purposes of approximately \$7,500,000 which expire between Fiscal 2006 and Fiscal 2023. Shells also has approximately \$2,500,000 of general business credits to carry forward, which expire by Fiscal 2023. Shells had an ownership change in Fiscal 2002 as defined by Internal Revenue Code Section 382, which limits a portion of the amount of net operating loss and credit carryforwards that may be used against taxable income to approximately \$75,000 per year. Any portion of the \$75,000 amount not utilized in any year will carry forward to the following year subject to a 15 to 20 year limitation on carryforward of net operating losses and credits. Approximately \$5,900,000 of our net operating loss carryforwards and approximately \$2,000,000 of credits are subject to the annual limitation. Assuming maximum utilization in future years, we expect that approximately \$4,500,000 in net operating loss carryforwards and \$2,000,000 in credits will expire without benefit to Shells.

F-19

Table of Contents

Deferred income taxes reflect the net income tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of our deferred income tax assets and liabilities are as follows:

	December 28, 2003		
	Current	Non-current	Total
Basis difference in fixed assets and other assets	\$	\$ 617,000	\$ 617,000
Accrued liabilities	481,000	400,000	881,000

Valuation allowance			(4,904,000)
			\$ 850,000

NOTE 13. RELATED PARTY TRANSACTIONS

Shells manages three restaurants pursuant to a management and license agreement, which became effective July 1993. These entities are deemed to be related parties based on our ability to influence the management and operating policies of the managed restaurants. Shells provides management services and licenses our proprietary information required to operate the restaurant for a management fee originally set at 6% of restaurant sales. Of the total management fee received, 2% of sales is placed in escrow and disbursed to satisfy each managed restaurants requirement to make third party royalty payments. The management agreements were amended in October 2001, reducing the management fee to 4% of restaurant sales until such time that cash flow for three consecutive months is at least 80% of the cash flow for the same respective periods in Fiscal 1999. The management fee then becomes 5% of sales. The management fee increases to, and is maintained at, 6% of sales when cash

F-20

Table of Contents

flow for three consecutive months is at least 90% of cash flow for the same respective periods in Fiscal 1999. The management agreements outline the respective owners' (licensees) responsibility for funding all restaurant expenses, including food and beverage costs, staffing, training, recruiting, inventories, working capital and capital expenditures. A fourth restaurant is operated by Shells, pursuant to an oral agreement requiring the restaurant to be operated in conformance with the policies and procedures established by management for Shells restaurants. Our management fee was originally set at 4% of the restaurant's sales, and later was modified to 2% in October 2001. The aggregate management fees earned under these agreements was approximately \$165,000, \$163,000 and \$271,000 for Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively.

Shells also has entered into option agreements with three of the licensees, effective July 1993, which were amended in August 1995 and October 2001, documenting the terms by which Shells can acquire the restaurant's assets in exchange for a purchase price of six times the restaurant's cash flow, less any liabilities assumed. The purchase price is to be paid in the form of shares of our common stock at the prevailing market price. The option is exercisable by either party upon Shells averaging a market capitalization, as defined, of \$100,000,000 for 20 consecutive trading dates. The option has not been exercisable through December 28, 2003.

Effective January 31, 2002, Shells raised \$2,000,000 in a private financing transaction, consisting of secured promissory notes and warrants to purchase shares of our common stock. The two investors in the financing were Shells Investment Partners, LLC and Banyon Investment, LLC. Shells Investment Partners is an entity comprised of members previously unaffiliated with Shells. Banyon is an entity associated with Philip R. Chapman, Chairman of our Board of Directors, and certain family members of Frederick R. Adler. The proceeds of the financing were used for working capital requirements. See Note 7 Related Party Debt.

In connection with this financing, we issued to each of Shells Investment Partners and Banyon a \$1,000,000 secured promissory note due January 31, 2005 which bears interest at 15% per annum, of which 8% is payable monthly in arrears and 7% is deferred and payable when the principal is paid in full, and a warrant to purchase 4,454,015 shares of our common stock, at an exercise price of \$0.16 per share. The warrants are exercisable through January 31, 2005.

Furthermore, as part of this financing, we entered into an Investor Rights Agreement, with the two investor groups and certain other stockholders. Pursuant to this agreement, the composition of our Board of Directors is fixed at seven members and each of Banyon and Shells Investment Partners are entitled to nominate three individuals to serve on our Board. This right will terminate with respect to each of Banyon and Shells Investment Partners on the earlier of the date that such entity, or any legal successors thereto, ceases to own at least 13% of our issued and outstanding stock on a fully diluted basis, or the date that all amounts due and payable under such entity's \$1,000,000 promissory note have been paid in full. Additionally, each of these investor groups and Frederick R. Adler and Philip R. Chapman, among others, have agreed to vote their shares, to cause these slated nominees to be elected to our Board of Directors.

Banyon initially appointed Philip R. Chapman, Richard A. Mandell and Christopher D. Illick, all of whom were then serving as directors of our company, as Banyon's nominees for election to the Board. Shells Investment Partners initially nominated Thomas R. Newkirk, J. Stephen Gardner and John N. Giordano as its nominees for election to the Board. In addition, Messrs. Newkirk, Gardner and Giordano were appointed directors of our company, to fill the vacancies existing on the Board. Mr. Mandell resigned from the Board on March 12, 2002. Effective April 2, 2002, Michael R. Golding filled the vacancy on the Board as Banyon's nominee.

Table of Contents

NOTE 14. STOCK COMPENSATION PLAN

At December 28, 2003, we have four stock-based employee compensation plans, which are described more fully below. We account for these plans under the recognition and measurement principles of Accounting Principles Board Opinion 25, Accounting for Stock Issued to Employees, and related interpretations. Stock-based compensation costs are not reflected in net income, as all options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. Had compensation cost for our stock option plans been determined based on the fair value at the grant dates consistent with recognition provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation, the effect on net income (loss) and earnings per share on a pro forma basis would have been immaterial.

On September 11, 1995, our Board of Directors approved two employee stock option plans. The options generally vest over three years, one third annually on the anniversary date of the grant and, under both plans, have a maximum term of 10 years. The weighted average remaining contractual life for the options outstanding at December 28, 2003 for both plans is approximately six years. The 1995 Employee Stock Option Plan, as amended, provides for the issuance of options to purchase up to a total of 840,000 shares. The 1996 Employee Stock Option Plan provides for the issuance of options to purchase a total of 101,000 shares. As of December 28, 2003, options to purchase an aggregate of 298,209 shares were outstanding under the plans, 243,487 of which were exercisable. There were 11,001 shares purchased through the exercise of these options through Fiscal 2003. The exercise prices of the outstanding options range from \$0.20 to \$5.75.

On May 20, 1997, the stockholders approved the Stock Option Plan for Non-employee Directors. The plan, as amended, authorized a total of 150,000 shares to be reserved for issuance under this director's compensation plan. Shells did not grant any options under this plan during Fiscal 2003 nor Fiscal 2002. Shells granted options to purchase 20,000 shares during each of Fiscal 2001 and Fiscal 2000, at the market price on the date of grant. As of December 28, 2003, 36,000 options were outstanding and exercisable.

On May 21, 2002, the stockholders approved the 2002 Equity Incentive Plan allowing for grants of options to purchase up to 1,850,000 shares of Common Stock. The options generally vest over three years, one third annually on the anniversary date of the grant and have a maximum term of 10 years. The weighted average remaining contractual life for the options outstanding at December 28, 2003 is approximately eight years. As of December 28, 2003, options to purchase 874,858 shares were outstanding, 168,161 of which were exercisable. During 2003, 571,704 options were granted at prices ranging between \$0.37 and \$0.90 per share, the fair market value on the date of the grant. During April 2003, officers and corporate management were issued 160,790 shares of Common Stock at \$0.40 per share, pursuant to a Fiscal 2002 management bonus plan.

Table of Contents

Option activity is summarized below:

	<u>Number of Shares</u>	<u>Option Price</u>	<u>Weighted Average Price</u>
Outstanding at January 1, 2001	477,092	\$0.56 - \$11.00	\$ 3.06

NOTE 15. EARNINGS (LOSS) PER SHARE

The following table represents the computation of basic and diluted earnings (loss) per share of Common Stock as required by FASB Statement No. 128:

	Fiscal Years Ended		
	December 28,	December 29,	December 30,
	2003	2002	2001
Net (loss) income	\$ (1,033,733)	\$ 676,841	\$ (3,019,020)
Weighted common shares outstanding	4,577,470	4,454,015	4,454,015
Basic net (loss) income per share of common stock	\$ (0.23)	\$ 0.15	\$ (0.68)
Effect of dilutive securities:			
Warrants		5,575,916	
Stock options		229,257	
Diluted weighted common shares outstanding	4,577,470	10,259,188	4,454,015
Diluted net (loss) income per share of common stock	\$ (0.23)	\$ 0.07	\$ (0.68)

Diluted net loss per common share excludes anti-dilutive stock options and warrants of 10,117,000 and 864,000 during Fiscal 2003 and Fiscal 2001, respectively.

F-23

Table of Contents**NOTE 16. PROVISION FOR IMPAIRMENT OF ASSETS**

In accordance with FASB Statement No. 144, which superseded FASB Statement No. 121, Shells identified certain long-lived assets as impaired. The impairment was recognized when the future undiscounted cash flows of certain assets were estimated to be less than the assets related carrying value. As such, the carrying values were written down to our estimates of fair value based on the best information available making whatever estimates, judgments, and projections were deemed necessary.

Shells recognized write-downs of \$360,000, \$110,000 and \$2,259,000 during Fiscal 2003, Fiscal 2002 and Fiscal 2001, respectively. The write-down in Fiscal 2003 related to three Florida restaurants, two of which have not previously been written down. We have nine restaurants that are deemed to be impaired as of December 28, 2003. The write-down in Fiscal 2002 related to three Florida restaurants, which were not previously written down. The write-down in Fiscal 2001 primarily related to the Midwest locations. The write-downs were necessitated by the current period operating losses as well as the projected cash flows of the restaurants.

NOTE 17. DEFINED CONTRIBUTION PLAN

Shells has a defined contribution plan which meets the requirements of Section 401(k) of the Internal Revenue Code. All salaried employees of Shells with more than 90 days of service who are at least 21 years of age, and who are not considered highly compensated, are eligible to participate in the plan. The plan allows for a discretionary matching contribution from Shells. Shells, which pays the plan expenses, has contributed \$12,000 in discretionary contributions to date.

NOTE 18. ADVERTISING AND MARKETING

Shells has incurred the following costs for television, radio, billboards and local store marketing:

	Fiscal Years Ended		
	December 28, 2003	December 29, 2002	December 30, 2001
Advertising and marketing	\$ 1,501,000	\$ 1,545,000	\$ 1,296,000
As a percentage of revenues	3.4%	3.3%	2.3%

ITEM 9A. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures, as such term is defined under Securities Exchange Act Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As required by SEC Rule 13a-15(b), we have carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in ensuring that material information relating to Shells is made known to the Chief Executive Officer and Chief Financial Officer by others within our company during the period in which this report was being prepared.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
