Among those risks and uncertainties, many of which are beyond the control of the Company, include, without limitation, fluctuations in oil and gas prices; level of fleet additions by competitors and industry overcapacity; changes in capital spending by customers in the energy industry for exploration, development and production; changing customer demands for different vessel specifications; acts of terrorism; unsettled political conditions, war, civil unrest and governmental actions, especially in higher risk countries of operations; foreign currency fluctuations; and environmental and labor laws.
