**QUEPASA CORPORATION AND SUBSIDIARIES**

**Notes to Unaudited Condensed Consolidated Statements**

**Note 1 Description of Business and Summary of Significant Accounting Policies**

Quepasa Corporation, (the Company or Quepasa), a Nevada Corporation, was incorporated in June 1997. The Company is a Spanish/English language Internet Portal with a proprietary search engine targeting the U.S. Hispanic and Latin American markets. The Company's web site provides users unique search engine capabilities and pay-per-performance marketing applications as well as traditional portal services centered around the Spanish market. The Quepasa.com web site is operated and managed by the Company's majority owned Mexico-based subsidiary, Quepasa.com de Mexico. Because the language preference of many U.S. Hispanics is English, it also offers users the ability to access information and services in the English language.

**Concentrations of Credit Risk and Significant Customers**

Financial instruments, which potentially subject the Company to concentration of credit risk, consist principally of cash and cash equivalents. The Company places their temporary cash investments with what management believes are high-credit, quality financial institutions.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Revenue Recognition**

In the spring of 2002, the Company's founder re-joined the Company and began efforts in the development of a new business model. During the last quarter of 2003, the Company began to generate revenue under this new business model. Additional revenue growth has been generated during the nine months ended September 30, 2004.

The Company recognizes revenue on arrangements in accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 104 Revenue Recognition, and Emerging Issues Task Force Issue 00-21, Revenue Arrangements with Multiple Deliverables. In all cases, revenue is recognized only when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectibility of the resulting receivable is reasonably assured.

Revenue is primarily generated from pay-for-performance search advertisements and banner advertisements. The Company recognizes revenue related to banner advertisements ratably over the contract period. Pay-for-performance search advertisements are recognized in the period in which the click-throughs occur. Click-throughs are defined as the number of times an internet user clicks on an advertisement or search result. Pay-for-performance revenue is recognized when there is evidence that the qualifying transactions have occurred.

Customers generally make advance deposits, which are recorded as deferred revenue, for pay-for-performance services which are recorded as revenue when an internet user clicks on a sponsored advertisement. Most advertisers utilize self-service tools to open and manage accounts online including tracking, price management and measurement features.

**Note 2 Basis of Presentation**

The Company's accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for financial information and pursuant to rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for a complete financial statement presentation. In the Company's opinion, such unaudited information reflects all adjustments, consisting only of normal recurring adjustments, necessary to present our financial position and results of operations for the periods presented. The Company's results of operations for interim periods are not necessarily indicative of the results to be expected for a full fiscal year. The Company's condensed consolidated balance sheet as of December 31, 2003 was derived from its audited consolidated financial statements as of that date but does not include all the information and footnotes required by accounting principles generally accepted in the United States of America. The Company suggests that these unaudited condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements included in its Annual Report on Form 10-KSB as of and for the year ended December 31, 2003, plus other SEC filings made by the Company from time to time.

## **Table of Contents**

### **Note 3 Liquidity**

To date, the Company's expenses have significantly exceeded revenue and there is no assurance that the Company will earn profits in the future. The Company's independent accountants issued their auditors' report on the financial statements for the years ended December 31, 2003 and 2002 dated February 20, 2004, stating that the Company has experienced circumstances which raise substantial doubt about its ability to continue as a going concern.

In the spring of 2002, the Company's founder re-joined the Company and began efforts in the development of a new business model. The new revenue model includes offering Internet search and retrieval capacities for wholesale users, and paid link capabilities for advertisers. Because the Company intends to target online content providers who in turn service a large number of users, the Company believes it can limit its advertising and marketing expenses. In order to generate significant revenue in the future, the Company must continue to enhance and make more robust its information retrieval and successfully direct marketing to potential advertising customers and distribution partners. In June 2003, the Company achieved certain performance milestones related to bringing the proprietary search technology and e-mail products of the Company's software fully on-line and to the attainment of certain growth requirements for the Company's search and e-mail databases. The Company intends to price the retrieval and information technology services at a price below the price currently being charged by larger information retrieval companies. It is the Company's intention for the software to include a database that will permit more display page depth and will also permit the search and indexing of new data simultaneously.

In January 2004, the Company signed a business advisory services agreement with a NASD member firm. Through this agreement, the Company obtained a \$250,000 bridge loan, which included the issuance of 25,000 shares of the company's common stock. In April 2004, this bridge loan was paid in full through the issuance of preferred stock to the bridge loan holders under a private placement memorandum (PPM) through this investment banking firm. The Company has received \$782,125, net of offering costs of \$115,375, from the sale of 8,975 shares of preferred stock under this PPM during the nine months ended September 30, 2004.

During 2004, the Company signed two financial advisory services agreements with a second NASD member firm. Through these agreements, the Company has obtained \$1,315,215, net of commissions of \$146,135, from the sale of 1,239,500 shares of common stock as of September 30, 2004. The Company also issued warrants to this firm valued at \$70,930 in connection with the raising of this capital, which along with the commissions, are treated as offering costs.

Additionally, during the nine months ended September 30, 2004 the Company has obtained \$153,050 from the issuance of 117,731 shares of common stock to accredited investors, not involving placement agents.

The Company expects to invest its working capital towards the development and expansion of our overall operations. The Company believes that our current cash balances, cash generated from our operations, and our financing activities are sufficient to finance our business objective through the next twelve months.

### **Note 4 Debt**

In January 2004, under a business advisory agreement, the Company obtained financing in the form of bridge loans of \$250,000, with interest at 18%, and with a maturity date of January 15, 2005. The Company paid \$25,000 to the business advisor as a commission for the acquisition of

## Edgar Filing: QUEPASA CORP - Form 10QSB/A

the bridge loan which was recorded as an asset Loan Fees . As additional consideration for the loans, the Company issued 25,000 shares of common stock valued at \$64,000, which was recorded as a discount to the notes payable. In April 2004, the Company repaid the entire balance due on the bridge loans through the issuance of its preferred stock (see Note 5). Because of the full payoff of the loans, the Company has recorded \$25,000 in amortization of the loan fees and \$64,000 of the amortization of discount to the notes payable during the nine months ended September 30, 2004.

In May 2004, the Company acquired certain capital equipment that included financing of \$40,975, bearing interest at 6.5% with monthly installments of \$804 through May 2009.

### **Note 5 Stockholders Equity**

On June 21, 2004, the Company filed a Registration Statement under the Securities Act of 1933 for an aggregate of 2,515,096 shares of common stock for sale, comprised of 651,231 shares of common stock, 1,463,865 shares of common stock issuable upon conversion of preferred stock and 400,000 shares of common stock issuable upon exercise of common stock warrants. On July 6, 2004 the Registration Statement was declared effective by the Securities and Exchange Commission.

### Common Stock Transactions

In January 2004, the Company initiated an offering of common stock, \$.001 par value, under an Financial Advisory Services Agreement with a proposed closing date of April 9, 2004. During the nine months ended September 30, 2004, the Company issued 739,500 shares of common stock under this agreement for proceeds of \$865,215, net of commissions of \$96,135.

**Table of Contents**

In April 2004, the Company elected to keep open the private placement for common stock under the Financial Advisory Services Agreement. As a result, the Company issued an additional aggregate amount of 33,975 shares of common stock as consideration for this extension, valued at \$44,168 to all subscribers in place under the common stock private placement as of April 9, 2004. The Company has recorded this expense and is included in general and administrative expenses in the accompanying financial statements.

In September 2004, the Company initiated a second offering of its common stock under a new Financial Advisory Services Agreement, under which the Company issued 250,000 units for proceeds of \$450,000, net of commissions of \$50,000. Each unit is comprised of two shares of common stock and one warrant, resulting in the issuance of 500,000 shares of common stock and 250,000 warrants. The warrants are exercisable by the holders at \$2.00 per share through December 31, 2007. #### Litigation

On June 14, 2004, TIABFES, a California Corporation doing business as New Capital Advisors, filed suit against Quepasa Corporation, et. al., in the United States District Court for the Central District of California in Los Angeles, CA. The civil action was brought in connection with a claim by the Plaintiff through the Plaintiff's counsel, Sarah Jane Barney, Esq., for damages associated with an alleged professional financial advisory and business strategy services agreement. The action seeks damages under various causes of action, in amounts up to \$2 million.

The company has reviewed the claims with its counsel, finds the claims to be wholly without merit, and intends to vigorously defend them. Moreover, management believes that the amount claimed has been grossly overstated, in an attempt to induce the company to settle the action rather than litigate it.

The Company is not aware of any additional pending legal proceedings against it that, individually or in the aggregate, would have a material adverse effect on our business, operating results or financial condition. The Company may in the future be party to litigation arising in the course of its business, including claims that the Company allegedly infringes third-party trademarks and other intellectual property rights. Such claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

#### Commitments

Quepasa Corporation is a leading Spanish/English language Internet Portal with proprietary search engine technology targeting the U.S. Hispanic and Latin American markets. We are focused on providing users unique search engine capabilities while providing advertisers with a high return on their investment. Our strategy currently includes the following initiatives to generate sales and profit growth:

## **Table of Contents**

New Business Model    Concentration on performance-based marketing activities to provide competitive advantages to advertisers.

Focus on U.S. Hispanic Market    We feel that we are uniquely positioned to utilize our global brand to tap into the significant Hispanic consumer population.

Revenue is primarily generated from pay-for-performance search advertisements and banner advertisements. The Company recognizes revenue related to banner advertisements ratably over the contract period. Pay-for-performance search advertisements are recognized in the period in which the click-throughs occur. Click-throughs are defined as the number of times a user clicks on an advertisement or search result. Pay-for-performance revenue is recognized when there is evidence that the qualifying transactions have occurred at a set price.

Customers generally make advance deposits, which are recorded as deferred revenue, for pay-for-performance services which are recorded as revenue when an internet user clicks on a sponsored advertisement. Most advertisers utilize self-service tools to open and manage accounts online including tracking, price management and measurement features.

During the nine months ended September 30, 2004, the Company obtained gross proceeds of \$2.5 million from the combination of our equity financing agreements signed in January and August 2004 and funds received directly from accredited investors found apart from these financing agreements. The Company believes that our current cash balances, cash generated from our operations, and our financing activities are sufficient to finance our level of operations through the next twelve months.

Our operating expenses mainly consist of Sales and Marketing, Product and Content Development, and General and Administrative expenses.

## **Critical Accounting Policies**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. We believe that our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

Management believes that the estimates and assumptions that are most important to the portrayal of Quepasa's financial condition and results of operations, in that they require management's most difficult subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to Quepasa. These critical accounting policies relate to revenue recognition including the ultimate collectibility of receivables, valuation and useful lives of long-lived assets, valuation of equity transactions such as the fair value assigned to common stock and warrants, and litigation. Revenue recognition resulting from sales of paid search advertising placement is discussed in Note 1 to our consolidated financial statements. We believe our estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events or occurrences result in unanticipated consequences, there could be a material adverse impact on future financial condition and results of operations.

## **Liquidity and Capital Resources**

## Edgar Filing: QUEPASA CORP - Form 10QSB/A

We have substantial capital resource requirements relative to our revenue generation, but limited sources of liquidity and capital resources. We have generated significant net losses and negative cash flows from our inception and anticipate that we will experience continued net losses and negative cash flows for the next few quarters. Our independent accountants have issued their independent auditor's report on our consolidated financial statements for 2003 and 2002, stating that we have experienced circumstances which raise substantial doubt about our ability to continue as a going concern.

At September 30, 2004, we had \$933 thousand in cash and cash equivalents compared to \$38 thousand at December 31, 2003. Net working capital increased to \$557 thousand at September 30, 2004 from a deficit of \$66 thousand at December 31, 2003. This increase in working capital is due to the capital raised during the nine months ended September 30, 2004.

Net cash used in operating activities was \$1.3 million for the nine months ended September 30, 2004 as compared to \$1.2 million for the nine months ended September 30, 2003. For the nine months ended September 30, 2004, net cash used by operations consisted of a net loss of \$2.5 million offset by non-cash expenses of \$307 thousand in depreciation and amortization plus \$256 thousand in

warrants issued for professional services, \$189 thousand in stock issued for services, \$64 thousand in amortization of discount on notes payable, \$44 thousand in stock related to the extension of a private placement agreement and \$26 thousand in stock compensation expense. Net cash used by operations for the nine months ended September 30, 2003 consisted of the net loss of \$2.3 million, which was offset by non-cash expenses of \$180 thousand in depreciation and amortization, \$763 thousand in stock issued for services, and \$75,001 in stock compensation expense.

Net cash used in investing activities was \$54 thousand for the nine months ended September 30, 2004 as compared to net cash used by investing activities of \$63 thousand for the nine months ended September 30, 2003. The primary use of cash for both periods was for investments in capital equipment.

Net cash provided by financing activities was \$2.2 million for the nine months ended September 30, 2004 as compared to \$354 thousand for the nine months ended September 30, 2003. In the nine months ended September 30, 2004, we received \$1.5 million, net of commissions, from the issuance of common stock, \$532 thousand, net of commissions, from the issuance of preferred stock and \$225 thousand, net of commissions, from the issuance of notes payable. In the nine months ended September 30, 2003, we received \$308 thousand from the issuance of common stock and \$50 thousand, net of commissions, from the issuance of preferred stock.

We believe that our current cash balances, cash generated from our operations, and our financing activities are sufficient to finance our level of operations through the next 12 months.

## **Results of Operations**

### **Comparison of the nine months ended September 30, 2004 with the nine months ended September 30, 2003**

For the nine months ended September 30, 2004 the net loss attributable to common stockholders was \$2.5 million compared to a net loss of \$2.3 million for the nine months ended September 30, 2003. The increased loss was attributable to the costs associated with professional services and an increase in resources associated with the new business model including the management of our Quepasa.com website by our Mexican subsidiary, Quepasa.com de Mexico, and the development of our proprietary Internet information search and retrieval software.

### **Comparison of the three months ended September 30, 2004 with the three months ended September 30, 2003**

For the three months ended September 30, 2004 the net loss attributable to common stockholders was \$676 thousand compared to a net loss of \$1.5 million for the three months ended September 30, 2003. The decreased loss was attributable to the reduction in stock based compensation issued in the three months ended September 30, 2003 of \$838 thousand to \$0 in the three months ended September 30, 2004.

## **Revenues**

## Edgar Filing: QUEPASA CORP - Form 10QSB/A

For the nine months ended September 30, 2004, revenues were \$343 thousand compared to \$0 in revenue for the nine months ended September 30, 2003. In order to generate significant revenue under the new model, we must continue to enhance the development and marketing of our proprietary search and retrieval software. For the nine months ended September 30, 2004, our revenue was primarily generated from two principal sources: revenue earned from pay-for-performance insertion of results from our search engine based on proprietary technologies and the sale of advertising on our web site.

Payments received from advertisers prior to displaying their advertisements on our website are recorded as deferred revenue, as are all payments received from advertisers for performance based marketing initiatives.

*Pay-for-Performance Revenue.* Pay-for-performance search advertisements are recognized in the period in which the click-throughs occur. Click-throughs are defined as the number of times a user clicks on an advertisement or search result. Pay-for-performance revenue is recognized when there is evidence that the qualifying transactions have occurred. During the three months ended September 30, 2004 and 2003, pay-for-performance revenue accounted for 99% and 0% of total revenue, respectively. In connection with the audit of the year ended December 31, 2003, there were no Reportable Events within the meaning of Item 304(a)(1)(v) of Regulation S-K. However, during the review of the Company's 10-QSB for the quarterly period ended September 30, 2004, the Company's auditors communicated to the Registrant matters it considered to be a weakness in the Registrant's internal controls relating to the adequacy of staffing of its accounting and finance department. The auditors considered the scope of responsibilities and duties of the Chief Financial Officer to be somewhat overextended. The auditors communicated that additional resources were needed in the finance and accounting department to take the workload off this individual. This staffing situation contributed to certain liability accounts not being recorded and/or reconciled on a timely basis and certain business transactions not documented in an appropriate manner. The Registrant is addressing this concern and is in the process of further enhancing its staff.
