-

**Item 2.02. Results of Operations and Financial Condition**

**Item 7.01. Regulation FD Disclosure**

The information in this Report, including the Exhibit 99.1 attached hereto, is furnished pursuant to Item 2.02 and Item 7.01 of this Form 8-K. Consequently, it is not deemed filed for the purposes of Section 18 of the Securities and Exchange Act of 1934, or otherwise subject to the liabilities of that section. It may only be incorporated by reference in another filing under the Exchange Act or Securities Act of 1933 if such subsequent filing specifically references this Form 8-K.

On January 18, 2006, Advanced Micro Devices, Inc. (the Company) announced its results of operations and financial condition as of and for the year ended and quarter ended December 25, 2005 in a press release that is attached hereto as Exhibit 99.1.

The Company's earnings release contains non-GAAP financial measures. Pursuant to the requirements of Regulation G, the Company has provided reconciliations within the press release of the non-GAAP financial measures to the most directly comparable GAAP financial measures in the text of the press release.

EBITDA is presented in the earnings release. EBITDA was determined by adjusting net income (loss) for interest income, interest expense, income tax, depreciation and amortization. Although EBITDA is not a GAAP financial measure, it is calculated and communicated by the Company because management believes it is of interest to investors and lenders in relation to its overall capital structure and its ability to borrow additional funds.

The Company's calculation of EBITDA may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view EBITDA as an alternative to the GAAP measures of net income as a measure of performance, or cash flows from operating, investing and financing activities as a measure of liquidity. In addition, EBITDA does not take into account changes in certain assets and liabilities as well as interest and income taxes that can affect cash flows. Management does not intend the presentation of EBITDA to be considered in isolation or as a substitute for results prepared in accordance with GAAP.

The Company has also presented non-GAAP pro forma financial information to exclude the results of operations of its Memory Products segment and Spansion Inc. (formerly Spansion LLC), its former majority-owned subsidiary which completed its initial public offering (IPO) on December 21, 2005, as well as the non-cash charge on disposition of equity interest in Spansion Inc. As a result of the IPO, the Company's financial results of operations include Spansion's results only through December 20, 2005. Moreover, the Company's ownership in Spansion was reduced from 60 percent to approximately 37.9 percent and therefore the Company will no longer consolidate Spansion's results of operations in the Company's financial results, but instead will utilize the equity method of accounting to reflect its share of Spansion's net income. Because the comparison of fourth quarter consolidated financial results to previous periods does not correlate directly, the Company has provided non-GAAP financial data that exclude the results of operations of Spansion Inc. and the Memory Products segment because the Company believes this non-GAAP presentation will aid investors by presenting the Company's current and historical results in a form that will be more consistent with the presentation of future operating results. The Company has provided reconciliation within the press release to reconcile these non-GAAP financial data to the most directly comparable GAAP financials.
