**Item 2.02 Results of Operations and Financial Condition.**

On July 19, 2006, UnitedHealth Group Incorporated (the Company) issued a press release discussing second quarter 2006 results. A copy of the press release is furnished herewith as Exhibit 99 and incorporated in this Item 2.02 by reference. The press release contains forward-looking statements regarding the Company.

To supplement our consolidated financial results as determined by generally accepted accounting principles (GAAP), the press release also discloses certain non-GAAP financial measures which management believes provides useful information to investors. The reconciliations of these non-GAAP measures to the most directly comparable GAAP financial measures are included below.

The Part D Normalized results have been presented to enhance comparability with 2005 quarterly results. The Part D Normalized results assume that full year Medicare Part D benefit costs are recognized based on actuarially projected utilization over the contract year. Accordingly, Part D Normalized results for the first half of 2006 include a pro rata share of management's estimate of full year 2006 Medicare Part D benefit costs relating to beneficiaries as of June 30, 2006. Part D Normalized results are not meant to be considered in isolation or as a substitute for net earnings or diluted net earnings per share prepared in accordance with GAAP.

- (a) Represents estimated CMS Medicare Part D risk-share premium adjustment that is recorded under GAAP as results fall within the provisions of the risk-sharing arrangement. This adjustment is not necessary under Part D Normalized as medical costs reflect a pro-rata share of estimated annual medical costs.
- (b) Represents actual medical costs incurred under the Medicare Part D contract in excess of a pro-rata share of estimated annual medical costs.

Certain account balances and financial measures have been presented in this earnings release excluding our AARP business. Management believes these disclosures are meaningful since underwriting gains or losses related to the AARP business are recorded as an increase or decrease to a rate stabilization fund (RSF) and the effects of changes in balance sheet amounts associated with the AARP program accrue to the overall benefit of the AARP policyholders through the RSF balance. Although the

Company is at risk for underwriting losses to the extent cumulative net losses exceed the balance in the RSF, the Company has not been required to fund any underwriting deficits to date and management believes the RSF balance is sufficient to cover potential future underwriting or other risks associated with the contract.

Adjusted Cash Flows from Operating Activities is presented to facilitate the comparison of cash flows from operating activities for periods in which the Company does not receive its monthly premium payments from the Centers for Medicare and Medicaid Services (CMS) in the applicable quarter. CMS generally pays their monthly premium on the first calendar day of the applicable month. If the first calendar day of the month falls on a weekend or a holiday, CMS has typically paid the Company on the last business day of the preceding calendar month. As such, GAAP operating cash flows may vary depending upon which payments are received by the Company from CMS during a particular period. Adjusted Cash Flows from Operating Activities presents operating cash flows assuming that each monthly CMS premium payment was received on the first calendar day of the applicable month.

**CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

UnitedHealth Group and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA), including statements in this report, in presentations, press releases (including the earnings release attached as Exhibit 99 to this report and the earnings conference call described in such earnings release), filings with the Securities and Exchange Commission, reports to shareholders and in meetings with analysts and investors. Generally the words believe, expect, intend, estimate, anticipate, project, will and similar expressions, identify forward-looking statements, which generally are not historical in nature. These statements may contain information about financial prospects, economic conditions, trends and unknown certainties. We caution that actual results could differ materially from those that management expects, depending on the outcome of certain factors. These forward-looking statements involve risks and uncertainties that may cause our actual results to differ materially from the results discussed in the forward-looking statements. Some factors that could cause results to differ materially from the forward-looking statements include:

increases in health care costs that are higher than we anticipated in establishing our premium rates, including increased consumption of or costs of medical services;

heightened competition as a result of new entrants into our market, and consolidation of health care companies and suppliers;

events that may negatively affect our contract with AARP;

uncertainties regarding changes in Medicare laws, including results of the Part D program and coordination of information systems and accuracy of certain assumptions, and funding risks with respect to revenue received from Medicare and Medicaid programs;

increases in costs and other liabilities associated with increased litigation, legislative activity and government regulation and review of our industry;

potential consequences surrounding findings of our ongoing internal investigation, investigation by a committee of our independent directors and informal SEC inquiry into our stock option granting practices, as well as a subpoena from the office of the U.S. Attorney for the Southern District of New York, requesting documents relating to stock option grants since 1999 and a request from the Internal Revenue Service for documents relating to the compensation of certain executive officers;

uncertainty of results of pending civil litigation relating to our stock option granting practices;

our ability to execute contracts on competitive terms with physicians, hospitals and other service providers;

regulatory and other risks associated with the pharmacy benefits management industry;

failure to maintain effective and efficient information systems, which could result in the loss of existing customers, difficulties in attracting new customers, difficulties in determining medical costs estimates and appropriate pricing, customer and physician and health care provider disputes, regulatory violations, increases in operating costs, or other adverse consequences;

possible impairment of the value of our intangible assets if future results do not adequately support goodwill and intangible assets recorded for businesses that we acquire;

costs associated with compliance with restrictions on patient privacy, including system changes, development of new administrative processes, and potential noncompliance by our business associates;

misappropriation of our proprietary technology; and

the anticipated benefits of our acquisition of PacifiCare Health Systems, Inc. may not be realized due to a number of uncertainties, including integration of PacifiCare into UnitedHealth Group, and general competitive factors in the marketplace, which could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and resources.

This list of important factors is not intended to be exhaustive. A further list and description of some of these risks and uncertainties can be found in our reports filed with the Securities and Exchange Commission from time to time, including our annual reports on Form 10-K and quarterly reports on Form 10-Q. Any or all forward-looking statements we make may turn out to be wrong. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. Except to the extent otherwise required by federal securities laws, we do not undertake to publicly update or revise any forward-looking statements.
