Item 8.01. Other Events.

On November 22, 2006, a shareholder derivative and class action suit against the board of directors and certain senior executives of Electronics for Imaging, Inc. (EFI or the Company) was filed in the Superior Court in San Mateo, California. On November 29, 2006, a shareholder derivative suit against the board of directors and certain senior executives of EFI was filed in U.S. District Court in the Northern District of California. On December 5, 2006, EFI removed the shareholder derivative and class action suit filed in the Superior Court in San Mateo, California to federal court. The complaints allege, among other things, that certain of the Company's current and past officers and directors breached their fiduciary duty to the Company by improperly backdating certain grants of EFI stock options to officers and directors of the Company and violating the terms of EFI's stock option plans, violating generally accepted accounting practices by failing to recognize compensation expenses with respect to certain option grants during certain periods from 1996 to 2003, disseminating inaccurate financial statements and soliciting stockholder votes using false and misleading proxy statements.

These suits are in addition to the two shareholder derivative suits previously disclosed in the Company's press release filed as an exhibit to its Current Report on Form 8-K dated October 24, 2006. The previously disclosed litigations, as well as the previously announced review of the Company's stock option grant practices by a special committee of its Board of Directors, remain ongoing.
