Item 1.01. Entry into a Material Definitive Agreement.

On December 21, 2006, Jabil Circuit, Inc. (the Company) entered into a \$1.0 billion unsecured bridge credit agreement (the Bridge Facility). The Bridge Facility was entered into among the Company; the initial lenders named therein; Citicorp North America, Inc., as administrative agent; JPMorgan Chase Bank, N.A., as syndication agent; and The Royal Bank of Scotland PLC, ABN Amro Bank N.V. and SunTrust Bank, each as a co-documentation agent. Each of the named agents under the Bridge Facility is an agent and a lender under the existing five-year \$500.0 million unsecured revolving credit facility, which was entered into on May 11, 2005. Some or all of the lenders under the Bridge Facility and their affiliates have various other relationships with the Company and its subsidiaries involving the provision of financial services, including cash management, loans, letter of credit and bank guarantee facilities, investment banking and trust services. In addition, the Company and some of its subsidiaries have entered into foreign exchange contracts and other derivative arrangements with certain of the lenders and their affiliates. The Bridge Facility expires on December 20, 2007. Of the Bridge Facility, \$900.0 million is designated for use by the Company as a one-time borrowing (which may be taken down in increments) to finance the tender offer for and merger with Taiwan Green Point Enterprises Limited, a Taiwanese entity, and to pay related costs and expenses, and the remaining \$100.0 million of the Bridge Facility is a revolving facility to be used for general corporate purposes of the Company and its subsidiaries. Interest and fees on Bridge Facility advances are based on the Company's unsecured long-term indebtedness rating as determined by Standard & Poor's Rating Service and Moody's Investor Service. Interest is charged at either a rate equal to 0% to 0.75% above the base rate or a rate equal to 0.55% to 1.75% above the Eurocurrency rate, where the base rate represents the greater of Citibank, N.A.'s prime rate or 0.50% plus the federal funds rate, and the Eurocurrency rate represents the applicable London Interbank Offered Rate, each as more fully defined in the Bridge Facility. The applicable margin for the base rate and the Eurocurrency rate may be increased by 0.25% or 0.50% per annum, depending on the length of time that the Bridge Facility remains outstanding and depending on whether the Company's Form 10-K for the period ended August 31, 2006, has been filed with the Securities and Exchange Commission on the date in question. Fees include unused commitment fees based on the amount of each lender's commitment minus the principal amount of any outstanding advances made by the lender. Based on the Company's current unsecured long-term indebtedness rating as determined by Standard & Poor's Rating Service and Moody's Investor Service, the current rate of interest on a full Eurocurrency rate draw would be the base rate or 0.625% above the Eurocurrency rate, as defined above. The Bridge Facility is unsecured and includes various covenants, limitations and events of default currently customary for similar facilities for similarly rated borrowers. As of the date of filing this Current Report on Form 8-K, no initial draw under the Bridge Facility has been made.

The Bridge Facility does not replace existing debt of the Company.

The foregoing description of the Bridge Facility is qualified in its entirety by reference to the complete terms and conditions of the Bridge Facility, a copy of which will be filed as an exhibit to the Company's Annual Report on Form 10-K for its 2006 fiscal year.
