PROXY STATEMENT

SOLICITATION

This Proxy Statement, the accompanying proxy card and the 2006 Annual Report of Community Bancorp are being furnished to you in connection with the solicitation of proxies by its Board of Directors for use at the Annual Meeting of Stockholders to be held at the City Centre Office of Community Bancorp, 400 S. 4th Street, Suite 110, Nevada on May 17, 2007 at 12:30 p.m. local time (the Meeting). This Proxy Statement is being mailed to the Company's stockholders on or about April 17, 2007. The Board of Directors is soliciting your proxy to give all stockholders of record the opportunity to vote on matters that will be presented at the Meeting. This Proxy Statement provides you with information on these matters to assist you in voting your shares.

What is a proxy?

A proxy is your legal designation of another person (the proxy) to vote on your behalf. By completing and returning the enclosed proxy card, each stockholder is giving the proxy holders appointed by the Board of Directors the authority to vote the shares in the manner indicated on the proxy card of each stockholder.

Why did I receive more than one proxy card?

A stockholder may receive multiple proxy cards if shares are held in different ways, i.e. joint tenancy, trust, custodial account, or in multiple accounts. If shares are held by a broker, i.e. in street name, the stockholder will receive a proxy card or other voting information from the broker, and those proxy card(s) should be returned to the broker. You should vote on and sign each proxy card that you receive.

VOTING INFORMATION

The Board of Directors of Community Bancorp has selected the close of business on April 9, 2007 as the record date for the determination of stockholders entitled notice of, and to vote at, the Meeting. At that date, there were 10,419,924 shares of the Company's common stock, par value \$0.001 each, outstanding and entitled to vote at the Meeting.

Who is qualified to vote?

Each stockholder is entitled to one vote for each share held on the Record Date.

How do I vote my shares?

If you are a *stockholder of record* (if the shares are registered directly in your name with American Stock Transfer, the Company's transfer agent), you may vote by mailing in the enclosed proxy card or in person at the Meeting.

If you *hold your shares in street name* (if your shares are held in the name of a brokerage, bank, trust or other nominee as a custodian), your broker/bank/trustee/nominee will provide you with the materials and instructions for voting your shares or you may obtain a proxy from your broker/bank/trustee/nominee and vote in person at the Meeting.

Can I change my vote after I have mailed in my proxy card?

Any holder of common stock may revoke a proxy at any time before it is voted by:

Filing a written instrument revoking the proxy with the Secretary of the Company at 400 S. 4th Street, Suite 215, Las Vegas, Nevada 89101;

Table of Contents

Returning a duly executed proxy bearing a later date; or

Attending and voting at the Meeting in person, provided you notify the Secretary of the Company before voting begins that you are revoking your proxy and voting in person. Attendance at the Meeting will not by itself constitute revocation of a proxy.

The Inspectors of Election for the Meeting will count votes cast by proxy or in person at the Meeting. The Inspectors will treat abstentions and broker non-votes (shares held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote and the broker or nominee does not have discretionary voting power under applicable rules of the stock exchange or other self regulatory organization of which the broker or nominee is a member) as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Abstentions and broker non-votes will not be counted as shares voted for purposes of determining the outcome of any matter as may properly come before the Meeting.

What are the Board's recommendations on how I should vote my shares?

The Board recommends that you vote your shares as follows:

Proposal 1 FOR the Company's nominees for the Board of Directors.

Unless otherwise instructed, the Inspectors of Election will vote each valid proxy, which is not revoked,

FOR the Company's nominees for the Board of Directors.

And, in the proxy holder's judgment, on such other matters, if any, which may properly come before the Meeting.

The Directors receiving the greatest number of votes will be elected.

Who pays the cost of this proxy solicitation?

The Company will bear the entire cost of preparing, assembling, printing and mailing proxy materials furnished by the Board of Directors to stockholders. The Company will furnish copies of proxy materials to brokerage houses, fiduciaries and custodians to be forwarded to the beneficial owners of common stock. In addition to the solicitation of proxies by use of the mail, some of the officers, Directors and regular employees of the Company may (without additional compensation) solicit proxies by telephone or personal interview, the costs of which will be borne by the Company.

The Company's Corporate Governance Guidelines are available at the website noted above. The NASDAQ rules require all members of the audit, the compensation, and the corporate governance/nominating committees to be Independent Directors. Members of the Audit Committee must also satisfy an additional SEC requirement, which provides that they may not accept directly or indirectly, any consulting, advisory, or other compensatory fee from us or any of the Company's subsidiaries other than their Director compensation. The Board has determined that all members of the audit, compensation, and nominating and corporate governance committee satisfy the relevant independence requirements.

The Board has determined that the following five (5) Directors (constituting 71% of the entire Board) satisfy NASDAQ's requirements: Bingham, D. Stewart, G. Stewart, Taylor, and Woodcock.

Communication with the Board of Directors

The ability of stockholders to communicate directly with the Board is an important feature of corporate governance and assists in the transparency of the Board's operations. In furtherance of this interest, Section XVI *Shareholder Communications with the Board of Directors* of the Corporate Governance Guidelines outlines the process by which a stockholder may communicate directly in writing to the Board. A stockholder may provide written communication to the Board by addressing a letter to the Chairman of the Board, Community Bancorp, 400 S. 4th Street, Suite 215, Las Vegas, Nevada 89101.

The Board has instructed the Secretary to review all communications so received, and to exercise discretion not to forward to the Board correspondence that is inappropriate such as business solicitations, frivolous communications and advertising, routine business matters (i.e. business inquiries, complaints, or suggestions), and personal grievances. However, any Director may at any time request the Secretary to forward any and all communications received by the Secretary but not forwarded to the Directors.

Director Nomination Process

The Corporate Governance/Nominating Committee is responsible for screening potential Director candidates, recommending qualified candidates to the Board for nomination, and filling vacancies occurring between annual meetings of stockholders. The Committee considers recommendations of potential candidates from current Directors, management and stockholders.

Table of Contents

The Corporate Governance/Nominating Committee will consider stockholder recommendations for candidates for the Board. Recommendations can be made in accordance with Section IV *Shareholder Recommendations* of the Corporate Governance Guidelines, which provides that stockholders may submit recommendations in writing to the Corporate Governance/Nominating Committee at the Company's headquarters office. Each recommendation should identify the proposed nominee and any additional information that may be useful in evaluating the proposed nominee. Stockholders are reminded that proposing a nominee in this fashion does not constitute a stockholder nomination of a Board member. To actually nominate a person for Board membership a stockholder must comply with Section 13 of the Company's Bylaws. The committee's non-exclusive list of criteria for Board members is set forth in Section IV *Criteria* of the Company's Corporate Governance Guidelines, and includes:

Personal qualities and characteristics, accomplishments and reputation in the local business community;

Current knowledge and contacts in the communities in which the Company does business and in the Company's industry or other industries relevant to the Company's business;

Ability and willingness to commit adequate time to Board and committee matters;

The fit of the individual's skills and personality with those of other Directors and potential Directors in building a Board that is effective, collegial and responsive to the needs of the Company; and

Diversity of viewpoints, background and experience.

The Corporate Governance/Nominating Committee conducts surveys and otherwise seeks out the identity of possible candidates for the Board on an ongoing basis. The Committee screens all potential candidates in the same manner regardless of the source of the recommendation. At present, the Corporate Governance/Nominating Committee does not engage a third party to identify and evaluate potential Director candidates. All of the nominees approved by the Corporate Governance/Nominating Committee for election at the 2007 Annual Meeting were recommended by management and the Board.

The Company's Code of Conduct, which is the Company's code of ethics applicable to all Directors, officers, and employees embodies the Company's principles and practices relating to the ethical conduct of the Company's business, adherence to the highest standards of ethics and business conduct with each other, customers, stockholders and communities served, and compliance with all applicable laws, rules and regulations that govern the Company's business. These principles have long been embodied in various policies relating to Director, officer, and employee conduct, including such subjects as employment policies, conflicts of interest, professional conduct, and protection of confidential information. The Board has adopted a comprehensive Code of Conduct reflecting these policies. Any change to or waiver of the Code of Conduct (other than technical, administrative, and other non-substantive changes) will be reported on a Form 8-K filed with the SEC. While the Board or the Corporate Governance/Nominating Committee may consider a waiver for a Director or officer, waivers are not expected.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section addresses the Company's compensation programs, philosophy and objectives, including the process for making compensation decisions, the role of management in the design of such program, and its 2006 executive compensation components. The factors most relevant to understanding the Company's compensation programs are addressed, which are designed to reward, including the essential elements of compensation, the reasons for determining payment of each element of compensation, and how each compensation element fits into the Company's overall compensation objectives and affects decisions regarding other compensation elements.

Philosophy

The Company's executive compensation programs, including those for its subsidiaries, are designed to attract and retain high quality executive officers that are critical to its long-term success. The Company's Board of Directors and management believe that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals, which aligns executives' interests with those of the stockholders by rewarding performance above established goals, with the ultimate goal of improving stockholder value.

Base compensation levels for executive officers are established based on the officer's roles and responsibilities, compensation of executives who perform similar duties, and prior year compensation. Bonus and equity compensation are based on both corporate and individual performance objectives, which include asset and revenue growth, development of acquired banks, asset quality, identification of strategic opportunities, development and maturation of the existing banks, and core earnings performance.

Process for Making Compensation Decisions

Role of the Executive Officers

Shortly following the conclusion of each calendar year, the Company's Chief Executive Officer (CEO), assisted by our Director of Human Resources, conducts an annual performance evaluation process for all named executive officers, other than for himself. As part of each annual performance evaluation, the CEO considers, among other key factors, i) financial performance; ii) the executive's contribution to meeting the Company's overall goals; iii) the executive's performance of job responsibilities and achievement of individual and/or departmental objectives; and iv) management and leadership skills, including effective communication, problem solving, business development and community involvement.

Based on this evaluation, the CEO determines, for each of the named executive officers (other than himself), recommendations for salary adjustments, including merit increases, and annual incentive award amounts to be made to the Compensation Committee for its approval. The majority of each named executive officer's incentive payment is determined by the Company's financial performance relative to that year's financial performance goal. The Compensation Committee reviews the CEO's recommendations and can modify a recommended amount in its discretion. Then at mid-year, recommendations by management for the grant of stock awards to named executive officers under the Company's equity compensation plan are submitted to the Compensation Committee for approval to assure the committee considers the other elements of proposed compensation.

Role of the Compensation Committee

The Compensation Committee has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Compensation Committee ensures that the total compensation paid to senior management is fair, reasonable and competitive. Generally, the types of

Table of Contents

compensation and benefits provided to the named executive officers are similar to other executive officers. In this regard, the Board of Directors has established a policy that no Compensation Committee members should have any material business relationships with the Company or any of its subsidiaries. The Compensation Committee is also responsible for the review and approval of corporate goals and objectives relevant to the compensation, including the incentive award, of the Company's CEO, to evaluate the performance of the CEO in light of the goals and objectives and determine and approve the CEO's compensation levels based on this evaluation. Additionally, the Compensation Committee reviews compensation levels for members of the Company's executive management group including the approval of the CEO's recommendations on annual bonuses and salary increases for named executive officers.

The Compensation Committee annually reviews the compensation levels of the Board of Directors. In its review, the Compensation Committee looks to ensure that the compensation is fair and reasonably commensurate to the amount of work required both from the individual Directors as well as from the Board in the aggregate.

To achieve these goals and objectives, the Compensation Committee expects to maintain compensation plans that create an executive compensation program that is set at competitive levels of comparable public financial services institutions with comparable performance. The Compensation Committee makes recommendations to the Board with respect to base compensation, targeted bonuses and targeted equity-based compensation.

The Compensation Committee has followed certain fundamental objectives to ensure the effectiveness Community Bancorp's compensation strategy. These objectives include the following:

1. **Internal and external fairness.** The Compensation Committee recognizes the importance of perceived fairness both internally and externally of compensation practices. The Compensation Committee has evaluated the overall economic impact of the Company's compensation practices and, when deemed necessary, has consulted with independent outside advisors in the evaluation of contractual obligations and compensation levels.
2. **Performance-based incentives.** The Company has established financial incentives for senior management who meet certain objectives, which thereby assist the Company in meeting its long-term growth and financial goals.
3. **Stockholder value and long-term incentives.** The Compensation Committee believes that the long-term success of the Company and its ability to consistently increase stockholder value is dependent on its ability to attract and retain skilled executives. The Company's compensation strategy encourages equity-based compensation to align the interests of management and stockholders.
4. **Full disclosure.** The Compensation Committee seeks to provide full disclosure to the independent members of the Board of Directors of Community Bancorp of the compensation practices and issues to ensure that all Directors understand the implications of committee's decisions. The Compensation Committee has reviewed the compensation practices of peers and considered management's individual efforts for the benefit of the Company, as well as reviewed various subjective measures in determining the adequacy and appropriateness of the compensation of executives. The Compensation Committee takes into account the performance of the executives as well as their longevity with the Company and recognizes that the competition among financial institutions for attracting and retaining senior management executives has become more intense in the past few years. The Compensation Committee takes such market considerations into account to ensure that the Company is providing appropriate long-term incentives to enable it to continue to attract new senior management executives and to retain the ones it already employs. General economic conditions and the past practice of the Company are also factors that are considered by the Compensation Committee. The Compensation Committee has established various processes to assist in ensuring that the Company's compensation program is achieving its objectives. Among these are:

Assessment of Company Performance. The Compensation Committee uses company performance measures in two ways. In establishing total compensation ranges, the committee considers various

Table of Contents

measures of Company and industry performance, asset growth, earnings per share, return on assets, return on equity, total stockholder return and the effective execution of the Company's growth strategy. The committee does not apply a formula or assign these performance measures relative weights, instead, it makes a subjective determination after considering such measures collectively.

Assessment of Individual Performance. Individual performance has a strong impact on the compensation of all employees, including the CEO and the other executive officers. The CEO's compensation is governed by his employment contract, which is described below. For the other named executive officers, the committee receives a performance assessment and compensation recommendation from the CEO and also exercises its judgment based on the Board's interactions with its executive officers. As with the CEO, the performance evaluation of these executives is based on his or her contribution to the Company's performance, and other leadership accomplishments.

Total Compensation Review. The Compensation Committee reviews each executive's base pay, bonus and equity incentives annually. In addition to these primary compensation elements, the committee reviews the perquisites and other compensation and payments that would be required under various severance and change-in-control scenarios. Following the 2006 review, the committee determined that these elements of compensation were reasonable in the aggregate.

Executive Compensation Components

For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were i) base salary; ii) performance-based bonuses; iii) equity incentives; and iv) perquisites and other personal benefits. Three of the named executive officers, Edward M. Jamison, Lawrence K. Scott and Cathy Robinson, have written employment agreements that govern the terms of their compensation. Their employment agreements provide for potential payments upon termination of employment for a variety of reasons, including a change in control of the Company. The Company's policies and practices for each of the principal compensation components are explained in the following paragraphs.

Base Salary. This section addresses the base salary for the named executive officers other than Edward M. Jamison, Lawrence K. Scott and Cathy Robinson. The base salary for these individuals is set forth in their respective employment agreements described below.

Named executive officers are provided a base salary as compensation for their services during the year. The Company's Compensation Committee reviews the CEO's recommendations (after any modifications) concerning their base salaries, including merit increases. Base salary adjustments are effective during the first quarter of each calendar year. Executive officer base salaries, including merit increases, for 2006 were primarily based on the Company's financial and overall performance for 2005, performance of the executive and the executive's department(s) or division(s), and base salary levels at comparable peer financial institutions. Merit increases in base pay are designed to reward named executive officers for their job performance and to manage pay growth consistent with the stated compensation objectives.

The Summary Compensation Table lists the named executive officers' base earnings for 2006.

Performance-Based Bonuses. Annual incentive bonuses are awarded by the Compensation Committee after reviewing the Company's performance over the past year. The annual bonus is intended to reward named executives for the favorable performance. The Compensation Committee takes into consideration the CEO's recommendations, corporate and individual performance objectives, which include asset and revenue growth, development of new banks, asset quality, identification of strategic opportunities, development and maturation of the existing banks, core earnings performance, and subjective factors such as the safety and soundness of the organization, including such factors as credit quality, capital management, personnel management and regulatory compliance.

Table of Contents

The bonus policy seeks to align the interests of the executives with the stockholders by setting aggressive performance targets that enhance the value of Company. This bonus policy was put in place at the Company, and its subsidiaries, to align the interests of all of the executives in the affiliates with the stockholders of the Company.

The Summary Compensation Table lists the named executive officers' performance-based bonuses for 2006.

Equity Incentives. The Compensation Committee grants equity compensation awards pursuant to the 2005 Equity Based Compensation Plan and administers outstanding options issued under previous stock plans. Grants of equity compensation awards are consistent with, and further each of, the Company's stated compensation program objectives. In 2006, the Company granted incentive and non-qualified stock options to named executive officers.

Stock options provide grantees the opportunity to buy shares of the Company's common stock at a certain exercise price for a ten year term after the options are granted, based on vesting. This enables the grantee to benefit from the expected appreciation in the value of the Company's stock if its future performance remains strong. All of the stock options issued have an exercise price equal to the fair market value of the underlying common stock on the date of grant. For incentive stock options granted in 2006, vesting is contingent upon continuing employment, with vesting achieved at a rate of 20% per year over five years. Stock options have no voting rights and do not receive dividends.

The Outstanding Equity Awards at Fiscal Year-End Table lists the named executive officers and their stock options granted in 2006.

Perquisites and Other Personal Benefits. Consistent with the Company's compensation objectives, named executive officers are provided perquisites and other personal benefits that management believes are reasonable and consistent with the Company's overall compensation program and which keep us competitive in the marketplace. The Company periodically reviews the level of perquisites and other personal benefits provided to the named executive officers for suitability with the program objectives.

See the Summary Compensation Table for details regarding the perquisites provided in 2006. The health and insurance plans the Company provided to the named executive officers and 401(k) matching are consistent with those provided to all employees.

Employment Agreements for Named Executive Officers

cause and within 12 months thereafter Community Bancorp and/or Community Bank of Nevada enters into an agreement for a change in control, or a change in control is announced or required to be announced, he will receive the change in control severance payment upon the closing of such change in control, less the amount of any termination payments already received.

The Company and Community Bank of Nevada entered into an employment agreement, dated as of November 1, 2004, with Lawrence K. Scott, President and Chief Operating Officer. The agreement expires on December 31, 2007, subject to the automatic extension provisions of the agreement.

The Company and Community Bank of Nevada also entered into an employment agreement, dated as of November 1, 2004, with Cathy Robinson, Executive Vice President and Chief Financial Officer. The agreement expires on December 31, 2007, subject to the automatic extension provisions of the agreement.

If either Mr. Scott or Ms. Robinson is terminated by Community Bancorp and/or Community Bank of Nevada without cause (as defined in the agreement), he or she will receive a lump sum severance payment equal to 12 months base salary then in effect plus one times the amount of his or her bonus for the year preceding the termination.

Both Mr. Scott and Ms. Robinson will also be entitled under certain circumstances to receive a lump-sum change in control severance payment in an amount equal to (i) 24 months base salary then in effect plus (ii) two times the amount of his or her bonus for the year preceding the termination, less applicable tax withholdings. If a change in control (as defined in the agreement) closes while Mr. Scott or Ms. Robinson is employed during the term of his employment agreement, or if Community Bancorp and/or Community Bank of Nevada enters into an agreement for a change in control, or a change in control is announced or required to be announced while Mr. Scott or Ms. Robinson is employed, he or she will receive the change of control severance payment upon closing of the change in control. Alternatively, if Mr. Scott's or Ms. Robinson's employment during the term is terminated by Community Bancorp and/or Community Bank of Nevada without cause, and within 12 months thereafter Community Bancorp and/or Community Bank of Nevada enters into an agreement for a change of control, or a change in control is announced or required to be announced, he or she will receive the change in control severance payment upon closing of such change in control, less the amount of any termination payments already received.

Executive Compensation Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code generally limits to \$1 million the deductibility of compensation paid by a public company for any fiscal year to the corporation's chief executive officer and the four other most highly compensated executive officers at the end of the fiscal year. Performance-based compensation can qualify for an exemption from this deduction limit if it satisfies certain conditions under Section 162(m), including receipt of stockholder approval. The Compensation Committee considers the impact of this rule when developing and implementing the Company's executive compensation programs and subject to the limitations of Section 162(m), seeks to maximize deductibility of all elements of executive compensation. The stock options granted under the Company's 2005 Equity Based Compensation Plan designed so that compensation paid under them can qualify for an exemption from the limitation on deductible compensation. However, to the extent that the value of annual salary, executive management incentive bonus amounts, and other non-performance based remuneration paid to any of the CEO and other named executive officers exceeds \$1 million, the excess amount attributable to non-performance based compensation cannot be deducted. Further, restricted stock and restricted stock units may not be deductible under Section 162(m) if their award or vesting is not performance based. The Compensation Committee attempts whenever possible to take full advantage of Section 162(m) in designing compensation programs; however the committee believes that stockholder interests are best served by not restricting the Compensation Committee's discretion and flexibility in crafting and administering compensation programs, even though such programs may occasionally result in non-deductible compensation expenses. Accordingly, the Compensation Committee, from time to time, approves elements of compensation for certain officers that are not fully deductible.

The Company currently does not include pension benefits or nonqualified deferred compensation as part of its overall compensation plan.

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board of Directors. In setting Director compensation, the Company considers the significant amount of time that Directors expend in fulfilling their duties to the Company, as well as the skill-level required by the Company of members of the Board.

Cash Compensation Paid to Board Members

During 2006, for their service on both Boards, each Director of Community Bancorp and Community Bank of Nevada (who are not employees of the Company) were entitled to receive a retainer of \$8,000, with an additional retainer of \$1,500 paid to Directors holding a committee chairmanship, other than the Audit Committee chairman, who received an additional retainer of \$2,500. Each Director received a fee of \$1,500 per Board of Directors meeting attended and \$250 per Community Bancorp and Community Bank of Nevada Loan Committee meeting attended. No Director fees were paid related to Community Bank of Arizona in 2006.

For 2007, each Director of Community Bancorp and Community Bank of Nevada will receive a retainer of \$9,000, with an additional \$2,500 paid to Directors holding a committee chairmanship, other than the Audit Committee chairman, who will receive an additional retainer of \$3,700. Each Director will receive a fee of \$1,600 per Board of Directors meeting attended and \$250 per Community Bancorp and Community Bank of Nevada Loan Committee meeting attended. Each Director of Community Bank of Arizona will receive a fee of \$250 per Board of Directors meeting attended and \$50 per Community Bank of Arizona Loan Committee meeting attended. In addition, \$1,000 will be paid to Directors holding a Community Bank of Arizona committee chairmanship.

Stock Option Program

Each non-employee Director receives a stock option grant. Directors are granted non-qualified stock options, with the expense calculated using Black-Scholes model. Options received by Directors vest immediately and, therefore all of the expense in the below table was recognized at the time of grant. In June 2006, each non-employee Director received a grant of 7,000 options at the fair market price of the Company's Common Stock on the date of the grant, or \$30.60. Until an option is exercised, shares subject to options cannot be voted nor do they receive dividends or dividend equivalents.

The table below summarizes the compensation awarded or paid to, or earned by, each of the non-employee Directors of the Company during the year ended December 31, 2006. The compensation of Edward M. Jamison,

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's Directors, executive officers and ten percent or more stockholders of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes of ownership of the Company's equity securities. Officers, Directors and ten percent or more stockholders are required by regulation to furnish the Company with copies of all Section 16(a) forms they file. To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended December 31, 2005, all Section 16(a) filing requirements applicable to its executive officers, Directors and beneficial owners of ten percent or more of the Company's equity securities appear to have been met, except for Form 4 filed for Gary W. Stewart related to stock options granted in June 2006 and Form 4 filed for Russell C. Taylor related to the exercise in November 2006 of stock options granted. In each instance, a Form 4 was filed promptly after the late filing was discovered.

TRANSACTIONS WITH RELATED PERSONS

The Company, including its subsidiaries, have had, and expect in the future to have, banking transactions in the ordinary course of its business with many of its Directors and executive officers and associates and any stockholders owning 5% or more of record or beneficially of the Company's common stock, including transactions with corporations of which such persons are Directors, officers or controlling stockholders, on substantially the same terms (including interest rates and collateral) as those prevailing for comparable transactions with others. Management believes that in 2006 such transactions comprising loans did not involve more than the normal risk of collectibility or present other unfavorable features. Loans to executive officers of the Company or any of its subsidiaries are subject to limitations as to amount and purposes prescribed in part by the Federal Reserve Act, as amended, and other federal laws and regulations.

Transactions with Directors

The following is a summary of the transactions between the Company and its Directors and/or their affiliated entities. All of these transactions meet the categorical standards for independence under the NASDAQ rules and the policies of the Company.

Table of Contents

Customer Relationships. In the ordinary course of business, the Company and its subsidiaries provide certain financial services to most of its Directors (including Directors who retired or resigned in 2006) and to some of their immediate family members and affiliated organizations. These services are provided on substantially the same terms and conditions, including quality, term and pricing applicable to other customers for similar purposes. The Company or any of its subsidiary banks provides extensions of credit to certain Directors, immediate family members and affiliated organizations. These extensions of credit are governed by Regulation O, which is described below in this section.

Business Relationships. In the ordinary course of business, the Company or its subsidiaries may enter into relationships with, or receive services from, entities affiliated with the Directors or nominees, or their immediate family members.

Certain Charitable Contributions. The Company may make contributions to charitable organizations for which the Company's Directors serve as directors or trustees, but not executive officers.

Family Relationships

There is no family relationship as defined in the SEC's regulations between any executive officer or Director and any other executive officer or Director. Some family relationships may exist between certain of the Company's Directors or executive officers and some of the approximately 244 employees of the Company and its subsidiaries. These employees participate in compensation and incentive plans or arrangements on the same basis as other similarly situated employees.

Indemnification and Advancement of Costs

Pursuant to the Company's Bylaws, indemnification is provided to the Directors, officers and, in some instances, employees and agents against certain liabilities incurred as a result of their service on the behalf of or at the Company's request. Costs incurred in connection with certain claims or proceedings on behalf of covered individuals may also be advanced. These persons must sign written undertakings to repay all these amounts if it is ultimately determined that the individual is not entitled to indemnification. In addition, the Company has obtained insurance for Directors and officers, which provides coverage for them against certain liabilities and other expenses resulting from their service on behalf of or at the Company's request. These By-Law provisions and insurance coverage provide a potentially significant financial benefit to the Company's Directors and executive officers. During 2006, no costs were advanced pursuant to these Bylaw provisions on behalf of its current and former executive officers and Directors.

Disclosure Regarding Related Party Transaction Policies

The principal policies of the Company relating to transactions of the types required to be disclosed under Item 404(a) of Regulation S-K (for the purposes of this proxy statement, "related persons transactions") are the Company's Code of Conduct. The Company has also adopted policies designed to support its compliance with banking regulations relating to the extension of credit by its subsidiary banks to insiders, including executive officers and Directors of the Company and entities in which these individuals have specified control positions (the federal statutory and regulatory provisions that establish these restrictions are often referred to as "Regulation O"). Management believes that its policies are adequate to provide appropriate levels of control and monitoring of the types of related persons transactions that are likely to arise in the nature of the Company's business and the associated risks.
