HOUSEVALUES, INC.

PROXY STATEMENT

FOR

2007 ANNUAL MEETING OF SHAREHOLDERS

INFORMATION CONCERNING SOLICITATION AND VOTING

General

This proxy statement is being furnished in connection with the solicitation by the Board of Directors of HouseValues, Inc. (HouseValues) of proxies for use at the Annual Meeting of Shareholders to be held at HouseValues principal executive offices located at 11332 NE 12th Way, Kirkland, WA 98034 at 10:00 a.m. local time on May 31, 2007, or at any adjournment or postponement thereof, for purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. It is expected that this proxy statement and the accompanying proxy card will be mailed to shareholders on or about May 11, 2007.

Record Date and Outstanding Shares

Only shareholders of record who owned our common stock at the close of business on the record date, April 24, 2007, are entitled to notice of and to vote at the Annual Meeting. On that date, 24,577,046 shares of common stock were issued and outstanding.

Revocability of Proxies

If you give your proxy card to us, you have the power to revoke it at any time before it is exercised. Your proxy card may be revoked by:

notifying the Secretary of HouseValues in writing before the Annual Meeting;

delivering to the Secretary of HouseValues before the Annual Meeting a signed proxy card with a later date; or

attending the Annual Meeting and voting in person.

Quorum and Voting

The presence at the Annual Meeting, in person or by proxy, of the holders of at least a majority of the shares of common stock outstanding on the record date will constitute a quorum, permitting the meeting to conduct business. Abstentions and broker nonvotes will be included in determining the presence of a quorum at the Annual Meeting.

For the proposal relating to the election of directors, the nominee for election to the Board of Directors who receives the greatest number of affirmative votes cast by holders of common stock present, in person or by proxy, and entitled to vote at the Annual Meeting, will be elected to the Board of Directors. You are not entitled to cumulate votes in the election of directors.

You are entitled to one vote for each share of common stock you hold. If your shares are represented by proxy, they will be voted in accordance with your directions. If your proxy is signed and returned without any directions given, your shares will be voted in accordance with our recommendations.

Edgar Filing: HouseValues, Inc. - Form DEF 14A

We are not aware, as of the date of this Proxy Statement, of any matters to be voted on at the Annual Meeting other than as stated in this Proxy Statement and the accompanying Notice of Annual Meeting of

Shareholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy gives discretionary authority to the persons named in it to vote the shares in their best judgment.

Other than for purposes of determining the presence of a quorum, abstentions and broker nonvotes will have no effect on the proposals to be voted on at the Annual Meeting because they will not represent votes cast at the Annual Meeting for the purposes of voting on such proposals. Broker nonvotes occur when a person holding shares through a bank or brokerage account does not provide instructions as to how his or her shares should be voted and the broker either does not exercise, or is not permitted to exercise, discretion to vote those shares on a particular matter. Brokers may exercise discretion to vote shares as to which instructions are not given with respect to the election of directors.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Annual Meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have at that time effectively been revoked or withdrawn, notwithstanding that they may have been effectively voted on the same or any other matter at a previous meeting.

Solicitation of Proxies

Proxies may be solicited by certain of our directors, officers and regular employees, without payment of any additional compensation to them. Proxies may be solicited by personal interview, mail, electronic mail or telephone. HouseValues will bear any costs relating to such solicitation of proxies. In addition, HouseValues may reimburse banks, brokerage firms and other persons representing beneficial owners of shares of common stock for their expenses in forwarding proxy materials to such beneficial owners.

PROPOSAL 1 ELECTION OF DIRECTOR

In accordance with our Bylaws, the Board of Directors shall be composed of not less than five nor more than ten directors, the specific number to be set by resolution of the Board of Directors.

The Board of Directors is currently composed of six directors, divided into three classes as follows: three Class 1 directors, one Class 2 director and two Class 3 directors. Directors will be elected for three-year terms that are staggered such that approximately one-third of the directors are elected each year. Generally, one class of directors will be elected each year by our shareholders. Each director will hold office until the election and qualification of his or her successor or upon earlier resignation or removal. Additional directorships resulting from an increase in the number of directors will be distributed among the three classes, so that as nearly as possible each class will consist of an equal number of directors, to the extent permitted under our Bylaws and Washington law. This year, the terms of two Class 3 directors expire. One of those directors, Mark S. Powell, informed us on April 24, 2007 that he has determined not to stand for election at the Annual Meeting. Accordingly, only one nominee for the Board of Directors will be elected at the Annual Meeting to serve as a Class 3 director for a three-year term expiring in 2010. As a result of Mr. Powell's decision not to stand for re-election, a vacancy exists within Class 3. In addition, a vacancy also exists within Class 2. The Board of Directors expects to fill one or both of these vacancies pursuant to its powers to fill vacancies on the board at such times as it is able to identify suitable candidates who are willing to serve as directors of the Company.

Biographical information regarding the nominee for the Board of Directors is set forth below. Biographical information regarding each of the directors whose terms will continue after the Annual Meeting, as well as for Mr. Powell, is also set forth below. Ages listed are as of April 18, 2007.

The Board of Directors has no reason to believe that the nominee named below will be unable to serve as a director. If, however, any nominee should be unwilling or unable to serve, the persons named as proxies will have discretionary authority to vote for the election of such substitute nominees as may be designated by the Board of Directors.

Unless authority to do so is withheld, the persons named as proxies on the accompanying proxy card will vote **FOR** the election of the nominee listed below.

Class 3 Nominee Standing for Elections Term Expiring in 2010

Frank M. (Pete) Higgins, age 49, has served as a director since April 2004. Since March 2000, Mr. Higgins has served as a partner with Second Avenue Partners, which he co-founded. BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Independence of the Board of Directors

The Board of Directors has reviewed the relationships between HouseValues and each of its directors and has determined that all of the directors other than Mr. Powell, who formerly served as our Chief Executive Officer and Mr. Morris, who currently serves as our Chief Executive Officer, are independent as that term is defined in the listing standards of The Nasdaq Stock Market.

Board Attendance

During 2006, there were seven meetings of the Board of Directors. The Board of Directors acted twice by written consent in 2006. Each of our directors attended, during the term of his directorship, at least 75% of the aggregate of (a) the total number of meetings of the Board of Directors and (b) the total number of meetings held by each of the committees on which he served. HouseValues does not have a formal policy with regard to director attendance at its Annual Meeting of Shareholders, but strongly encourages each director to attend, barring unavoidable scheduling conflicts. One director attended the 2006 annual meeting of shareholders.

Executive Sessions

Independent directors meet in executive session on a regular basis, generally on the same date as each scheduled Board meeting. Shareholders may communicate with the non-management directors of the Board through the procedures described under the section of this proxy statement, Shareholder Communications with the Board.

Director Compensation

Cash fees for the Board of Directors were established in 2005 and an equity compensation program was established in 2006. The compensation program was designed and implemented to ensure we both attract and retain high quality board members. The program consists of an annual cash retainer for directors, an additional annual cash retainer for committee chairs, per meeting fees for meeting attendance, and an annual stock option

grant. Expenses for relevant Board related activities are reimbursed. Additionally, we provide family medical and dental insurance benefits for Mr. Powell in recognition of his status as founder of the company and ongoing service as a director.

We made our annual grant for 10,000 stock options to our directors in January 2007. The initial stock option grant under the program was for 12,000 shares in February 2006. The options are issued under our 2004 Equity Incentive Plan, will vest one year from the vesting base date and will become fully vested and exercisable in the event of certain corporate transactions, such as a merger or sale of assets.

COMPENSATION DISCUSSION AND ANALYSIS (CD&A)

Our Compensation Philosophy

Compensation and benefits are designed to ensure we may attract, retain and motivate the highly talented individuals who will engage in the vision, leadership and execution required to succeed in our mission while upholding our corporate values in a breakout, newly charted marketplace. The objectives of our compensation programs are to:

Align employee objectives and rewards with company objectives;

Create the right balance between short-term objectives and long-term results required;

Differentiate performance and rewards to foster a high-performance culture;

Ensure a culture focused on shareholder value; and

Achieve the right competitive position in the marketplace in which we compete for talent.

We measure the success of our programs by our overall business performance and our ability to attract and retain key talent.

Comparators. Because we are in a unique business, we believe that there are very few companies we can consider direct peers for purposes of comparing executive compensation. A few other companies are direct peers, but they are largely privately held so their executive compensation information is not publicly available. Therefore, we define our comparators more broadly than a segment of specific companies in our market and make use of broader salary survey data. We look at companies in the business of online content management and technology on a national, west coast and regional market. Within these market segments, we focus on similarly sized companies, typically with annual revenues in the range of \$50 - \$200 million, and in similar stage of development as much as possible, as we believe that has an impact on how compensation programs are designed. We rely on published surveys across the online content management and technology industries. For certain roles that are more general across industries, we may review proxy data from other companies. Given we are in a unique space with a unique business model, we will continue to look for the best vehicles to access appropriate comparator data in the future.

Total Targeted Compensation Positioning. The combined elements of base salary and annual incentives are referred to as total targeted cash compensation. The total targeted cash compensation for executive officers is at approximately the 40th percentile of comparators in years where expected financial results are achieved. In

years where financial results significantly exceed our financial plan resulting in greater than expected returns to shareholders, the total targeted cash compensation for executive officers could be at the 75th percentile or greater of comparators. We review market comparators as well as internal differentiation among comparators for the overall mix of compensation elements, and then apply that to the individual executive officers roles. Executive officers may be compensated at the upper end of the range as compared to similar positions at comparators for any compensation element based on individual or company performance, as well as the executive officer's experience, expertise and performance.

With this information, we make appropriate recommendations to the Compensation Committee for compensation program design as well as recommendations for individual executive officer awards under such programs.

Roles Related to Executive Compensation

Chief Executive Officer. Our Chief Executive Officer participates in the design of our compensation programs for other executives, reviews executives' performance and makes recommendation to the Compensation Committee for adoption of programs and executive awards under compensation programs. Additionally, he makes recommendation for appropriate company performance targets and related funding level of the annual bonus pool.

Chief Financial Officer. Our Chief Financial Officer participates in making recommendations for appropriate company performance targets and the related funding level of the annual bonus pool and other compensation programs. He participates in the design of our compensation programs, reviews executive performance for his direct reports, and makes recommendations to the Chief Executive Officer for awards under compensation programs.

Vice President Human Resources. Our Vice President Human Resources works with compensation consultants for research and program design recommendations. She works with our Chief Executive Officer, Chief Financial Officer and our compensation consultants to finalize management's recommendations to our Compensation Committee. With other members of her team, she establishes and drives execution of internal guidelines, tools, training and process for administering approved programs.

Compensation Committee of the Board. The committee reviews and approves all compensation programs for executives and the directors. In making its determinations, the committee reviews management proposals. The committee also reviews the Chief Executive Officer's performance and determines his compensation within established programs.

Compensation Consultants. The company retains Towers Perrin as directed by the Compensation Committee to act as an independent compensation consultant. Towers works with management and the Compensation Committee on compensation program design and provides information on comparative market data and industry best practices on compensation practices and programs.

Elements of Compensation

Overview of Executive Compensation Components. Our executive compensation program consists of several compensation elements. We look at the relative mix of pay from the combination of those components and balance salary, short-term and long-term incentives appropriately to ensure focus on the right mix of short-term and long-term results. Our compensation programs do not provide for retirement benefits, other than the opportunity to participate in our 401(k) plan. We do not match contributions under our 401(k) plan. In 2006, the key elements of executive officer compensation were:

Base salaries designed to attract and retain employees over time and to compensate them for services provided during the fiscal year;

A discretionary bonus to recognize additional responsibilities assumed by one of our executives, and a signing bonus related to attracting a new executive;

Long-term incentives in the form of stock options designed to align executives' interests with that of our shareholders and focus executives' efforts on the strategies necessary to ensure our long-term success; and

Severance and change in control arrangements designed to facilitate our ability to attract and retain executive officers as we compete for talented employees in a marketplace where these terms are commonly offered.

Base Salaries. In 2006, we targeted the 40th - 50th percentile of base salaries at comparators for the base salaries of our executive officers because we place a strong emphasis on variable cash compensation and equity. We may adjust this targeted level for base salaries in future years based on comparisons to the survey data and evaluation of the executive officer's level of responsibility and experience and performance, as well as company performance. Prior to 2006, most executive salaries were at or below the 25th percentile as is more typical of a high-growth company a few years old, so we have been granting larger salary increases than average where warranted over the last two years to align better to our philosophy, recognizing that we could not achieve this in a single year.

Benchmarking and aligning base salaries is especially critical to a competitive compensation program given other elements of our compensation programs are derived from base salary. For example, annual incentives are targeted as a percentage of base salary. In March 2006, salary adjustments occurred after a very strong performance in 2005 in which we exceeded all targets. Increases were calculated on the basis of individual performance as well as our multi-year process to move salaries closer to our philosophy. The same approach was employed for non-executive employees. In March 2006, salaries were adjusted as follows:

Mr. Morris was awarded a salary increase from \$245,000 to \$315,000

Mr. Lewis was awarded a salary increase from \$200,000 to \$250,000

Mr. Zdanowski was awarded a salary increase from \$175,000 to \$220,000

Mr. Eskenazi was awarded a salary increase from \$180,000 to \$200,000

Ms. Davidson was awarded a salary increase from \$120,000 to \$140,000 in March 2006, and was awarded another increase to \$160,000 later in 2006 for assuming additional responsibilities, as well as in comparison to similar jobs in the comparator groups. Base salary adjustments and other cash compensation elements are detailed in the 2006 Summary Compensation table.

Cash Bonuses. Executive officers generally have an annual cash bonus target defined as a percentage of their base salary. However, in 2006, no bonuses were paid to our executive officers on the basis of company performance. We did provide two bonuses in 2006. Ms. Davidson received a \$15,000 discretionary bonus on the basis of her individual performance in a year during which she took on additional responsibilities as Interim Chief Financial Officer after Mr. Zdanowski exited the company in July. In addition, Mr. Romary received a \$50,000 as the final payment of his signing bonus received in connection with his new employment.

Equity Grants. Equity is a significant component of total compensation for executive officers in the total compensation mix. We believe it is the most important link to creation of shareholder value long term. Therefore, it plays a vital role in maintaining competitive levels of total compensation. We currently use stock option grants as the vehicle for equity compensation because they are the most common equity vehicle for comparable companies, and we believed at this stage that they align well with shareholder interests. We may consider the use of restricted stock or other forms of equity compensation in the future. Our targeted equity award levels are based on market data, and vary among participants based on their positions within the company.

Given that our cash compensation at target is on average at approximately the 40th percentile, we target stock options near the 75th percentile of survey data, allowing the addition of this longer term vehicle to move total targeted compensation for strong performance, well above the 50th percentile of comparators. Given that we provide no retirement benefits or 401(k) match, equity and cash incentives are the vehicles executive officers must rely on to provide for their retirement.

The Compensation Committee approves all stock option grants to executive officers. Newly-hired executive officers are awarded options as soon as practical after hire. Annual refresher option grants are considered typically in the third quarter of the year. Stock option grants for executive officers in 2006 are detailed in the 2006 Grants of Plan-Based Awards table. We have stock guidelines we refer to when considering new hire or refresher grants. Some option grants in 2006 were exceptional grants. For example, Ms. Davidson's grant of 80,000 options reflected both an annual refresher as well as acknowledgement of her assumption of significant additional responsibility. In 2006, given our deep examination of all equity vehicles, the analysis and discussion process began on time, but was not complete in time for refresher grants to occur in the third quarter with the result that those executive grants were approved on December 19, 2006.

Stock options are awarded with exercise prices equal to the average of the high and low prices of our common stock on the date of the grant. We granted no options in 2006 with an exercise price less than this formula, nor did we grant options priced on a date other than the grant date. The majority of options granted to executive officers vest at a rate of 25% per year after the first year and then at 6.25% per quarter for the following three years of the ten-year option term.

Stock option grants for executive officers are detailed in the 2006 Grants of Plan-Based Awards table. Outstanding equity awards are detailed in the 2006 Outstanding Equity Awards at Year End table. Option exercises are detailed in the 2006 Option Exercises table. Treatment of equity awards upon termination and change in control is detailed in the 2006 Termination & Change in Control table.

Other benefits. Our employees, including executive officers, are eligible for our 401(k) plan. We do not match employee contributions to this plan. We also offer health and dental coverage, company-paid term life insurance, disability insurance, paid time off and paid holidays. These benefits are designed to be competitive with overall market practices and are in place to attract and retain the talent needed in the business.

Perquisites. Our Chief Executive Officer was recruited from a company where his benefits significantly exceeded those in existence here. In order to attract and retain him, we offered additional perquisites including a car allowance, medical premiums for additional coverage, additional personal life insurance, health club membership, tax preparation assistance and a gross-up for the taxes on these perquisites. These perquisites are detailed in the 2006 Summary Compensation table.

Termination of Employment and Change in Control Arrangements

We believe it is important to provide protection to certain executive officers in the event of a change in control. We believe that the interests of shareholders will be best served if the interests of our executive officers are aligned with them, and that providing change in control benefits will significantly reduce the reluctance of executive officers to pursue potential change in control transactions that may be in the best interests of the shareholders. Therefore, we have provided change in control arrangements to certain executive officers. In addition, we provide pre-defined termination of employment arrangements to attract new executives in some circumstances. Terms of these agreements are detailed in the 2006 Potential Payments upon Termination of Employment or Change in Control.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the tax deduction available to public companies for compensation paid to individual executive officers to \$1 million in any taxable year, unless

certain performance, disclosure and shareholder approval requirements are met. We do not presently expect total cash compensation payable for salaries and bonuses to exceed the \$1 million limit for any individual executive officer. Stock options granted to our executive officers are designed to qualify for the performance-based exemption.

Forward-Looking Compensation Decisions

We reviewed base salary and total targeted compensation in early 2007 continuing the same fundamental philosophy described in this proxy statement. Mr. Morris received no salary increase due to the company's targets not being met in 2006. Ms. Davidson received a 5% increase intended to place her salary at the 50th percentile of the survey data.

In 2007, executive officers will participate in a Management Bonus Plan offered to all managers and targeted top performing employees. The payouts for executive officers are targeted on average to pay out above the 50th percentile of comparators if we exceed targeted company performance, and, on average, slightly below the 50th percentile if we meet targeted company performance. If we significantly exceed targeted company performance, the Management Bonus Plan is designed so that payouts are at the 75th percentile of comparators or greater. Cash incentives for the Chief Executive Officer and Chief Financial Officer & Executive Vice President of Operations will be fully tied to company performance. Cash incentive for the other executive officer roles will be largely tied to company performance with some consideration for individual performance. For 2007, executive officers have agreed to lower-than-historical bonuses at target.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion & Analysis with management. Based on the review and discussions, the Committee has recommended to the Board of Directors that the Compensation Discussion & Analysis be included in this proxy statement.

This report is submitted over the names of the members of the Compensation Committee.

Gregg I. Eskenazi Employment Agreement. On May 20, 2004, we entered into an amended and restated employment agreement with our former General Counsel, Gregg Eskenazi, which was further amended on December 13, 2006 when we agreed that he would step down from his position as General Counsel. If Mr. Eskenazi's employment is terminated without cause, as defined in the agreement, he will be entitled to receive the following benefits: (i) termination payments equal to his revised monthly salary amount through March 2, 2008, and (ii) continuation of medical coverage through March 2, 2008. As of January 1, 2007, Mr. Eskenazi is no longer an executive officer of the company, but continues to be employed by us.

Equity Compensation Plans

The company has two stock option plans under which our executive officers have been granted stock options: the 1999 Stock Option Plan and the 2004 Equity Incentive Plan. We currently grant stock options under the 2004 Equity Incentive Plan. Stock options are awarded with exercise prices equal to the average of the high and low trading prices of our common stock on the date of grant and typically vest 25% at the end of the first year and 6.25% over the next 12 quarters, conditioned on the continued employment of the executive through those vesting dates. Vesting terms may vary from grant to grant, but all vest over a 4-year period.

Payments upon Termination of Employment

In July 2006, we entered into a Separation Agreement and Release with Mr. Zdanowski under which it was agreed that his employment would be terminated. The terms of this agreement were governed by Mr. Zdanowski's employment agreement. This agreement is detailed in the Potential Payments upon Termination of Employment or Change in Control Table.

In August 2006, we entered into a Separation Agreement and Release with Mr. Romary under which it was agreed that his employment would be terminated in August 2006. The terms of this agreement were governed by Mr. Romary's employment agreement. This agreement is detailed in the Potential Payments upon Termination of Employment or Change in Control Table.

In January 2007, we entered into a Separation Agreement and Release with Mr. Lewis under which it was agreed that his employment would be terminated. The terms of this agreement included: (i) termination benefits equal to eleven months' annual base salary, (ii) continuation of medical insurance coverage through January 31, 2008, and (iii) one year's accelerated vesting of two of Mr. Lewis' stock option grants. The details of this agreement are listed in footnote 2 to the Potential Payments upon Termination of Employment or Change in Control Table and in footnotes 8-10 to the 2006 Outstanding Equity Awards at Year-End Table.

Potential Payments upon Termination of Employment or Change in Control

We entered into employment agreements, including termination of employment provisions, and change in control arrangements with Messrs. Morris, Lewis, Zdanowski, Eskenazi and Romary. As described in more detail in the narrative after the 2006 Grants of Plan Based Awards Table, under these agreements, the company may be required to pay a compensation and benefits package if we terminate their employment, other than for cause, as defined, or if one of those executive officers terminates employment for good reason, as defined. The compensation and benefits packages may include severance payments and continuation of medical insurance, or the acceleration of stock option vesting.

Termination of employment benefits would not be paid if an executive officer was terminated for cause. Cause is defined as:

Willful misconduct, insubordination, or dishonesty in the performance of the executive's duties or other knowing and material violation of company policies and procedures;

The continued failure of the executive to satisfactorily perform his duties after receipt of written notice that specifically identified the areas in which the executive's performance is deficient and the executive fails to cure such acts or omissions;

Commission by the executive of acts involving an act of dishonesty, moral turpitude, deceit or fraud that could reasonably be expected to result in a felony conviction;

Current use by the executive of illegal substances that results in a criminal conviction and materially impairs the company's business, goodwill or reputation;

Any material violation by the executive of the executive's noncompetition agreement with the company that results in a material adverse effect on the company.

If an executive officer terminates his employment for good reason, he would be entitled to termination of employment benefits. Good reason is defined as:

Edgar Filing: HouseValues, Inc. - Form DEF 14A

A material reduction in the executive's title, status, authority, or role at the company;

A reduction in the executive's base salary;

A material breach of the employment agreement by the company that is not cured; or

Relocation of the company headquarters more than 40 miles from its current location.

In the case of Mr. Morris' employment agreement, he may also consider that his involuntary removal from the board other than by a vote of the shareholders or because his employment has been terminated for cause as good reason.

Change in Control Arrangements. As of December 31, 2006, we had change in control arrangements in effect with Messrs. Morris, Lewis and Eskenazi. Pursuant to these agreements, in the event of certain corporate transactions, such as a merger or sale of assets, 50% of the unvested portion of the options subject to these agreements will automatically become vested and exercisable, and the remaining portion of these options will vest in equal quarterly increments over the shorter of (i) two years immediately following such corporate transaction or (ii) the amount of time remaining under the option's original vesting schedule.

Change in Control Provisions under the 1999 Stock Incentive Plan. Unless otherwise provided in the instrument evidencing a stock option, in the event of certain corporate transactions, such as a merger, consolidation, sale of assets or the Company's securities, each outstanding stock option will be assumed or substituted by the successor corporation. In the event the successor corporation refuses to assume or substitute for outstanding stock options, such stock options will become fully vested and exercisable. If awards are assumed, continued or substituted in the corporate transaction and do not otherwise accelerate, an optionee (i) will be credited with additional vesting on a monthly basis for each full month of employment or service rendered between the date such award was granted and the corporate transaction and (ii) will be credited with an additional six months of continuous employment or service with us or one of our affiliates for purposes of the award's vesting schedule in the event the optionee's employment or service relationship terminates within two years following the corporate transaction, unless the optionee is terminated by the successor corporation for cause or the optionee terminates his or her services voluntarily without good reason, generally as defined above.

Change in Control Provisions under the 2004 Equity Incentive Plan. Unless the Compensation Committee provides otherwise, in the event of certain corporate transactions, such as a merger or sale of assets, each outstanding stock option generally will automatically accelerate and become fully vested and exercisable immediately before the corporate transaction, unless the award is assumed, continued or replaced with a comparable award by the successor entity or the parent of the successor entity. Any stock option that is assumed, continued or replaced with a comparable award in the corporate transaction will retain its original vesting schedule. Notwithstanding the above, we may instead provide that awards will be terminated and exchanged for cash in connection with a corporate transaction, either to the extent then vested and exercisable or whether or not then vested and exercisable, as determined by the Compensation Committee in its sole discretion.

2006 Potential Payments in the Event of Termination of Employment or Change in Control Table.

The following table reflects the estimated amount of incremental compensation payable to the executive officers who were providing services to us as of December 31, 2006 in the event of a termination of employment or change in control of the company had occurred on December 31, 2006. Benefits available to all employees generally are not included in the table. The actual amounts to be paid can be determined only at the time of the executive officers' termination of employment or change in control.

- (1) Stock option acceleration is measured as the intrinsic value of the stock options being accelerated at December 31, 2006. Intrinsic value is calculated as the difference between stock price on December 31, 2006 and the exercise price of the option multiplied by the number of options. In some cases the net effect of the options being accelerated is negative due to a portion of the accelerated options having exercise prices in excess of the December 31, 2006 stock price.
- (2) As a result of Clayton Lewis's termination in January 2007, which was treated as a termination without cause, Mr. Lewis actually received/is receiving the following: severance of \$229,168, medical insurance premiums of \$5,240, and accelerated vesting of stock options with an intrinsic value of \$173,125 at December 31, 2006.
- (3) Messrs. Morris and Lewis are also entitled to receive 12 months of medical insurance premiums, valued at \$23,848 and \$5,240, respectively, in the event of their death or disability prior to termination.
- (4) Mr. Morris and Messrs. Lewis and Eskenazi have termination provisions providing for the payout of 100% and 50% of the most recent annual bonus, respectively. For the purposes of this table, these amounts were calculated using the 2006 bonus payouts which were zero.
- (5) The change in control stock option amounts are calculated on the premise that the successor corporation has assumed or substituted each outstanding stock option, resulting in an acceleration of 50% of the unvested stock options for Messrs. Morris, Lewis and Eskenazi.
- (6) Ms. Davidson's change in control stock option acceleration relates to her options granted under the 1999 Stock Incentive Plan and is calculated on the premise that the successor corporation has assumed or substituted each outstanding stock option, resulting in additional vesting on a monthly basis for each full month of employment or service rendered between the grant date of the award and the corporate transaction.
- (7) The Company carries a \$2.5 million life insurance policy on Mr. Morris that names his wife as the beneficiary. In the event of his death she would receive policy payout.

Terminated Named Executive Officers

John Zdanowski terminated in July 2006. As a result of his termination, which was treated as a termination without cause, he received the following: severance of \$160,000, medical insurance premiums of \$7,758, and accelerated vesting of options with an intrinsic value of \$135,488.

Thomas Romary terminated in August 2006. As a result of his termination, which was treated as a termination without cause, he received the following: severance of \$117,500 and medical insurance premiums of \$9,051.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers, directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with respect to the equity securities of the company with the Securities and Exchange Commission. Based solely on our review of the copies of such forms that we received, or written representations from certain reporting persons that no forms were required for those persons, we believe that, during fiscal year 2006, all filing requirements applicable to our officers, directors and greater than 10% beneficial owners were complied with by such persons.
