UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 20-F

(Mark One)

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE SECURITIES EXCHANGE ACT OF 1934

or

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended March 31, 2007

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

or

SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Date of event requiring this shell company report

COMMISSION FILE NUMBER: 1-7239

KABUSHIKI KAISHA KOMATSU SEISAKUSHO

(Exact name of registrant as specified in its charter)

KOMATSU LTD.

(Translation of registrant's name into English)

JAPAN

(Jurisdiction of incorporation or organization)

2-3-6 Akasaka, Minato-ku, Tokyo 107-8414, Japan

(Address of principal executive offices)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
None	N/A

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

Common Stock*

*4,108,564 American Depositary Shares evidenced by American Depositary Receipts, each American Depositary Share representing 4 shares of Common Stock of Komatsu.

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

994,368,068 shares (excluding 4,375,992 shares of Treasury Stock)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes , No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes , No

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes , No

Edgar Filing: KOMATSU LTD - Form 20-F

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which financial statement item the registrant has elected to follow. Item 17 , Item 18 .

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes , No

Table of Contents

In this document, KOMATSU LTD. is hereinafter referred to as the Company, and together with its consolidated subsidiaries, as Komatsu.

Cautionary Statement with respect to forward-looking statements:

This Annual Report contains forward-looking statements that reflect management's views and assumptions in the light of information currently available with respect to certain future events, including expected financial position, operating results and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects, plans, expects and similar terms and expressions that identify events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured. Any forward-looking statements speak only as of the date of this Annual Report, and the Company assumes no duty to update such statements.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu's principal products, owing to changes in the economic conditions in Komatsu's principal markets; changes in exchange rates or the impact of increased competition; unanticipated costs or delays encountered in achieving Komatsu's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu's research and development efforts and its ability to access and protect certain intellectual property rights; the impact of regulatory changes and accounting principles and practices; and the introduction, success and timing of business initiatives and strategies.

Table of Contents

Notes:

- 1) On October 18, 2006, the Company sold 51.0% of the shares of its consolidated subsidiary, Komatsu Electronic Metals Co., Ltd. (KEM), to SUMCO CORPORATION (SUMCO). Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the outdoor power equipment (OPE) business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The operating results of these subsidiaries and the OPE business, and the gain recognized on the sale of KEM and its subsidiaries are presented as income from discontinued operations in the consolidated statements of income in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, except for research and development expenses for the fiscal years ended March 31, 2003 and 2004. The above figures have been reclassified to take these sales into consideration.
- 2) Net income for the fiscal year ended March 31, 2003 includes a charge of ¥265 million for the cumulative effect of accounting changes for goodwill and other intangible assets.
- 3) The conversion rate between the Japanese yen to the U.S. dollar for the fiscal year ended March 31, 2007 is the approximate rate of exchange prevailing at the Federal Reserve Bank of New York as of March 30, 2007.
- 4) The term Capital Investment as used in the above Selected Financial Data should be distinguished from the term Capital Expenditures as used in the consolidated statements of cash flows. The term Capital Investment as used in the above Selected Financial Data is defined to refer to the acquisition of property, plant and equipment including properties under capital leases on an accrual basis which reflects the effects of timing differences between acquisition dates and payment dates. Komatsu's management uses this financial indicator to manage its capital investment and it believes that such indicator is useful to investors in that such indicator presents accrual basis capital investment in addition to the cash basis capital expenditures in the consolidated statements of cash flows.

Table of Contents

The following table provides the noon buying rates for Japanese yen in The City of New York as reported by the Federal Reserve Bank of New York expressed in Japanese yen per U.S. dollar during the periods indicated. The average Japanese yen exchange rates represent average noon buying rates on the last business day of each month during the respective period. The most recent available exchange rate for Japanese yen into U.S. dollars was ¥123.84 = U.S.\$1 as of June 25, 2007.

Yen Exchange Rates per U.S. dollar:

	Average	High	Low	(Yen) Period-End
Year ended March 31				
2003	121.10	115.71	133.40	118.07
2004	112.75	104.18	120.55	104.18
2005	107.28	102.26	114.30	107.22
2006	113.67	104.64	119.66	117.48
2007	116.55	112.26	121.02	117.56
		High	Low	Period-End
2006				
December		114.98	119.02	119.02
2007				
January		118.49	121.81	121.02
February		118.33	121.77	118.33
March		116.01	118.15	117.56
April		117.69	119.84	119.44
May		119.77	121.79	121.76

Table of Contents

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

Given the business environment in which Komatsu operates, Komatsu is exposed to a variety of risks and uncertainties. Komatsu has identified the following risks as its primary risks based on information currently available to it.

Table of Contents

(1) Economic and Market Conditions

As Komatsu is engaged in business on a global scale, the economic and market conditions and competitive environment in which Komatsu operates differs from region to region. In addition, demand for Komatsu's products as well as the business environment in which Komatsu operates may change substantially as a result of changes in the economic and market conditions of each such region.

In economically-advanced regions in which Komatsu operates, demand for Komatsu's products in both the Construction and Mining Equipment operating segment and the Industrial Machinery, Vehicles and Others operating segment is generally affected by cyclical changes in the economies. Therefore, factors which are beyond Komatsu's control, such as levels of housing starts, industrial production, public investments in infrastructure development and private-sector capital outlays, may affect demand for Komatsu's products, which may lead to inefficient inventory levels and/or production capacities, thereby exerting a downward pressure on the sales prices of Komatsu's products. Such changes in the business environment in which Komatsu operates may result in Komatsu recording lower profitability and incurring additional expenses in the Construction and Mining Equipment operating segment and the Industrial Machinery, Vehicles and Others operating segment, and may adversely affect Komatsu's results of operations.

Table of Contents

(2) Foreign Currency Exchange Rate Fluctuations

Approximately 70% of Komatsu's total sales are derived from sales outside of Japan, and a substantial portion of its overseas sales are affected by foreign currency exchange rate fluctuations. In general, an appreciation of the Japanese yen against another currency would adversely affect Komatsu's results of operations, while a depreciation of the Japanese yen against another currency would have a favorable impact thereon. In addition, foreign currency exchange rate fluctuations may also affect the comparative prices between products sold by Komatsu and products sold by its foreign competitors in the same market, as well as the cost of materials used in the production of such products. Komatsu strives to alleviate the effect of such foreign currency exchange rate fluctuations by locating its production bases globally and placing such bases closer to the respective markets in which the products manufactured by such bases are sold. Komatsu also engages in hedging activities to minimize the effects of short-term foreign currency exchange rate fluctuations. Despite Komatsu's efforts, if the foreign currency exchange rate fluctuates beyond Komatsu's projected fluctuation range, Komatsu's results of operations may be adversely affected.

(3) Fluctuations in Financial Markets

While Komatsu is currently working on improving the efficiency of its assets to reduce its interest-bearing debt, its aggregate short- and long-term interest-bearing debt was approximately ¥350 billion as of March 31, 2007. Although Komatsu has strived to reduce the effect of interest rate fluctuations by procuring funds at fixed interest rates, an increase in interest rates may increase Komatsu's interest expenses with respect to its interest-bearing debt subject to floating interest rates, thereby adversely affecting Komatsu's results of operations. In addition, fluctuations in the financial markets, such as fluctuations in the fair value of marketable securities and interest rates, may also increase the unfunded obligation portion of Komatsu's pension plans or pension liabilities, which may result in an increase in pension expenses. Such an increase in interest expenses and pension expenses may adversely affect Komatsu's results of operations and financial condition.

Table of Contents

(4) Laws and Regulations of Different Countries

Komatsu is subject to various governmental regulations and approval procedures in the countries in which it operates. If the government of a given country enacts new laws and regulations, such as laws and regulations relating to import/export duties, quotas, currency restrictions and taxation, which are unfavorable to Komatsu, Komatsu may be required to bear increased expenses in order to comply with such regulations. Such increased expenses may adversely affect Komatsu's results of operations.

(5) Environmental Laws and Regulations

Komatsu's products and business operations are required to comply with increasingly stringent environmental laws and regulations in the numerous countries in which Komatsu operates. Komatsu expends a significant share of its management resources, such as research and development expenses, to comply with regulations concerning air and wastewater emission levels of its manufacturing facilities and products. If the existing standards are amended, Komatsu may be required to bear increased costs and to make further capital expenditures to comply with such new standards. Incurrence of such additional environmental compliance costs may adversely affect Komatsu's results of operations.

(6) Product Liability

While Komatsu endeavors to sustain and ensure the quality and reliability of its operations and products based on stringent standards established internally by Komatsu, it may face product liability claims or become exposed to other liabilities if unexpected defects in its products result in accidents. If the costs for addressing such claims or other liabilities are not covered by Komatsu's existing insurance policies, Komatsu may be required to bear the cost thereto, which may adversely affect its financial condition.

Table of Contents

(7) Alliances and Collaborative Relationships

Komatsu has entered into various alliances and collaborative relationships with distributors, suppliers and other companies in its industry to reinforce its international competitiveness. Through such arrangements, Komatsu is working to improve its product development, production, supply and service capabilities. While Komatsu expects its alliances and collaborative relationships to be successful, Komatsu's failure to attain expected results or the termination of such alliances or collaborative relationships may adversely affect Komatsu's results of operations.

(8) Procurement, Production and Other Matters

Komatsu's procurement of parts and materials for its products is exposed to the fluctuations in commodity prices, mainly in the price of steel metal. Price increases in our commodities may increase the costs of materials as well as production costs of Komatsu's products. In addition, an increase in commodity prices may result in a shortage of product parts and materials, making it difficult for Komatsu to engage in the timely procurement of parts and materials and manufacture of its products, thereby lowering Komatsu's production efficiency. In an effort to reduce any adverse effect to its business as a result of an increase in material costs, Komatsu plans to reduce other costs and pass on the increase in material costs to its customers through its product prices. Komatsu plans to minimize the effects of a shortage in product parts or materials by promoting closer collaboration among all of its related business divisions. However, if the increase in commodity prices exceeds Komatsu's expectations or a prolonged shortage of materials and parts occurs, Komatsu's results of operations may be adversely affected.

Table of Contents

(9) Information Security, Intellectual Property and Other Matters

Komatsu may obtain confidential information concerning its customers and individuals in the normal course of its business. Komatsu also holds confidential business and technological information. Komatsu maintains such confidential information with the utmost care. To safeguard such confidential information from unauthorized access, tampering, destruction, leakage, losses and other damages, Komatsu employs appropriate safety measures, including implementing technological safety measures and strengthening its information management capabilities. If a leak of confidential information concerning customers and individuals were to occur, Komatsu may become liable for damages, or its reputation and its customers' confidence in Komatsu may be adversely affected. In addition, if Komatsu's confidential business and technological information were leaked or misused by a third party, or Komatsu's intellectual properties were infringed upon by a third party, or a third party were to claim that Komatsu is liable for infringing on such third party's intellectual property rights, Komatsu's results of operations may be adversely affected.

(10) Natural Calamities, Wars, Terrorism, Accidents and Other Matters

Komatsu conducts its business operations on a global scale and operates and maintains development, production, sales and other business facilities in many countries. If natural disasters, such as earthquakes and floods, wars, terrorist acts, accidents, unforeseeable criticism or interference by third parties or any malfunction of information and telecommunication systems in regions in which Komatsu operates occurs that causes extensive damage to one or more of its facilities that cannot become fully operational within a short period of time, delays or disruption in the procurement of materials and parts or the production and sales of Komatsu's products and other service activities may result. Such delays or disruptions may adversely affect Komatsu's results of operations.

Table of Contents

Item 4. Information on the Company

A. History and Development of the Company

The Company was incorporated in May 1921 in accordance with Japanese law under the name Kabushiki Kaisha Komatsu Seisakusho (Komatsu Ltd. in English). Its registered office is located at 2-3-6 Akasaka, Minato-ku, Tokyo 107-8414, Japan, and its telephone number is +81-3-5561-2628 (Finance & Treasury Department).

Shortly after its formation in 1921, the Company commenced the production and marketing of sheet-forming presses. In 1931, the Company produced Japan's first crawler-type farm tractor and in the 1940s the Company began its production of bulldozers in Japan. The Company broadened its product range by beginning production of motor graders and dump trucks in the 1950s and wheel loaders and hydraulic excavators in the 1960s.

The history and development of Komatsu's global operations can be divided into three phases: (1) export from Japan, (2) offshore production, and (3) management of its global production and distribution network.

Since its first export to Argentina in 1955, Komatsu has gradually increased exports of its products. Komatsu established its first liaison office in India in 1964 and established sales companies in Europe, the United States and Asia between 1967 and 1971.

During the 1970s and 1980s, Komatsu started establishing its production facilities offshore and enhanced its offshore production by locating manufacturing plants close to their respective markets. In 1975, Komatsu commenced offshore production with the production of bulldozers in Brazil by Komatsu do Brasil Ltda., its first manufacturing plant outside Japan. Subsequently, Komatsu increased its global presence by establishing manufacturing plants in Indonesia, the United Kingdom and the United States during the 1980s. For example, during the 1980s, Komatsu established a joint venture company with Dresser Industries Inc. named Komatsu Dresser Company (currently known as Komatsu America Corp.) in the United States.

During the 1990s, Komatsu strengthened its overseas manufacturing capabilities and made efforts to optimize its production and distribution network on a global basis through various methods, including forming alliances and entering into joint ventures. For instance, Komatsu established Komatsu Cummins Engine Co. Ltd. and Industrial Power Alliance Ltd. in Japan and Cummins Komatsu Engine Company in the United States, with Cummins Engine Company (currently known as Cummins Inc.). In addition, Komatsu entered into three joint ventures in China, and a joint venture with Mannesmann Demag of Germany to establish Demag Komatsu GmbH (currently known as Komatsu Mining Germany GmbH).

Table of Contents

The following are some of the significant transactions in the development of Komatsu's business in recent years.

In November 2003, the Company entered into an agreement with KONE Corporation to acquire 100% of the shares of KONE's two subsidiaries - Partek Forest AB and Partek Forest Holdings, LLC - in order to make a full-scale entry into the forestry equipment market. The acquisition was completed in December 2003 and the two companies and their 12 subsidiaries have been treated as consolidated subsidiaries of the Company since December 31, 2003.

In July 2005, the Company's wholly-owned subsidiary, Komatsu America Corp. (KAC), completed the sale of 75% of its ownership interest in Advanced Silicon Materials LLC (ASiMI) to Solar Grade Silicon Holdings Inc., a U.S. subsidiary of Renewable Energy Corporation AS (REC), a Norwegian company, while retaining the remaining 25% ownership interest. Simultaneously with the sale, the ownership interest in ASiMI was classified into Class A Units and Class B Units with the Class A Units having sole voting rights. The 25% ownership interest retained by KAC in ASiMI is in the form of Class B Units which do not have voting rights but whose consent is required for certain matters, including a liquidation of ASiMI and certain actions relating to the long term materials supply agreement. Ownership of the Class B Unit does not entitle KAC to share prospectively in the underlying profits and losses of ASiMI.

Table of Contents

In July 2006, the Company entered into an agreement with Linde AG of Germany to acquire Linde AG's 35% equity interest in the Company's consolidated subsidiary, Komatsu Forklift Co., Ltd. In August 2006, the Company bought this 35% equity interest in Komatsu Forklift Co. Ltd. from Linde AG, making Komatsu Forklift Co., Ltd. a wholly-owned subsidiary.

In September 2006, the Company entered into an agreement with SUMCO pursuant to which the Company agreed to accept SUMCO's tender offer for KEM. In October 2006, the Company sold 51.0% of its equity ownership in its consolidated subsidiary, KEM to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM.

In October 2006 and December 2006, the Company completed two transactions to acquire an aggregate 29.3% equity interest in NIPPEI TOYAMA CORPORATION, one of the leading manufacturers in the field of transfer machines used in the processing of automobile engines, various grinding machines, wire saws used in the semiconductor and solar application industries, and laser cutting machines.

In January 2007, the Company signed a definitive agreement to sell the outdoor power equipment (OPE) business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed in April 2007.

Table of Contents

PRINCIPAL CAPITAL INVESTMENT

Komatsu invests capital each year in the development and production of new products and the improvement of the operating efficiency of its production infrastructure, primarily focusing on the Construction and Mining Equipment operating segment. Komatsu's capital investment for the fiscal years ended March 31, 2007, 2006 and 2005 were ¥ 129,680 million, ¥113,934 million and ¥76,907 million, respectively. Capital investment for the fiscal year ended March 31, 2007 by operating segment was as follows.

Table of Contents**Capital Investment by Operating Segment**

	Millions of Yen		Percentage Change
	Fiscal Year ended March 31, 2007		as compared to the Fiscal Year ended March 31, 2006
Construction and Mining Equipment	¥ 111,003		11.4%
Industrial Machinery, Vehicles and Others	¥ 18,541		31.0%
Electronics	¥ 136		-13.4%
Total	¥ 129,680		13.8%

Notes:

- 1) Amounts include certain leased machinery and equipment accounted for as capital leases.
- 2) Capital investment from discontinued operations has been reclassified and previously reported amounts have been reclassified accordingly.
- 3) The term "Capital Investment" as used in the above table should be distinguished from the term "Capital Expenditures" as used in the consolidated statements of cash flows. The term "Capital Investment" as used in the above table is defined to refer to the acquisition of property, plant and equipment including properties under capital leases on an accrual basis which reflects the effects of timing differences between acquisition dates and payment dates. Komatsu's management uses this financial indicator to manage its capital investment and it believes that such indicator is useful to investors in that such indicator presents accrual basis capital investment in addition to the cash basis capital expenditures in the consolidated statements of cash flows.

In the Construction and Mining Equipment operating segment, Komatsu responded to a rising level of demand for its products for the fiscal year ended March 31, 2007 by bolstering its production capacity for products that were in high demand, such as large mining equipment, and main components of its equipment, such as transmissions, axles, hydraulics, final drives and engines. In addition, Komatsu established new plants in Ibaraki Prefecture, Japan as well as in Chennai, India to increase its production capacity. In the Industrial Machinery, Vehicles and Others operating segment, Komatsu established a new plant in Ishikawa Prefecture, Japan (the "Kanazawa Plant") to increase its production capacity.

Table of Contents

The following table sets forth in further detail the principle construction projects Komatsu undertook during the fiscal year ended March 31, 2007 by operating segment follows.

Operating segment	Main facilities
Construction and Mining Equipment	Establishment of Oyama Plant of the Company - Products: Engines, hydraulic equipment - Location: Oyama City, Tochigi Prefecture, Japan Establishment of Ibaraki Plant of the Company - Products: Large dump trucks, large wheel loaders - Location: Hitachinaka City, Ibaraki Prefecture, Japan
Industrial Machinery, Vehicles and Others	Incorporation of Komatsu India Private Limited - Products: Large dump trucks - Location: Chennai, India Establishment of Kanazawa Plant of the Company - Products: Large presses for automotive manufacturers - Location: Kanazawa City, Ishikawa Prefecture, Japan

Komatsu's capital investment for the fiscal year ended March 31, 2007 was primarily financed by funds on hand and capital leases.

For information on expected principal capital investment, see Item 4.D. Property, Plants and Equipment.

Table of Contents

B. Business Overview

GENERAL

Komatsu is a global company that engages in the manufacturing, development, marketing and sale of a diversified range of industrial-use products and services. With Quality and Reliability as the cornerstone of its management policy, Komatsu is committed to providing safe and innovative products and services that satisfy its customers' needs and expectations.

While Komatsu's core business continues to be construction and mining equipment, Komatsu has engaged in other businesses, such as industrial machinery and vehicles, and electronics. Each such business is described in further detail below under the heading PRODUCTS AND SERVICES.

The manufacturing operations of Komatsu are conducted primarily at plants located in Japan, the United States, Germany, the United Kingdom, Sweden, Indonesia, Brazil, Italy, China and Thailand. Komatsu's products are primarily sold under the Komatsu brand name and almost all of its sales and service activities are conducted through its sales subsidiaries and sales distributors who primarily sell products to retail dealers in their respective geographic area.

Table of Contents

PRODUCTS AND SERVICES

Komatsu's business activities are divided into three operating segments: (1) Construction and Mining Equipment, (2) Industrial Machinery, Vehicles and Others, and (3) Electronics.

The following table sets forth Komatsu's net sales by operating segments for the fiscal years ended March 31, 2007, 2006 and 2005, which is reproduced from the Company's audited consolidated financial statements.

Net Sales by Operating Segments

	(Millions of Yen)					
	Fiscal Year Ended March 31, 2007		Fiscal Year Ended March 31, 2006		Fiscal Year Ended March 31, 2005	
Construction and Mining Equipment	¥ 1,567,723	82.8%	¥ 1,291,223	80.1%	¥ 1,061,161	78.3%
Industrial Machinery, Vehicles and Others	298,022	15.7%	279,497	17.3%	248,487	18.3%
Electronics	27,598	1.5%	41,420	2.6%	46,423	3.4%
Total	¥ 1,893,343	100.0%	¥ 1,612,140	100.0%	¥ 1,356,071	100.0%

Note:

- On October 18, 2006, the Company sold 51.0% of the shares of its consolidated subsidiary, KEM, to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The operating results of these subsidiaries and the OPE business, and the gain recognized on the sale of KEM and its subsidiaries are presented as income from discontinued operations in the consolidated statements of income in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The above net sales figures have been reclassified to take these sales into consideration.

Table of Contents

(1) Construction and Mining Equipment

The Construction and Mining Equipment operating segment has been Komatsu's mainstay operating segment during the last several decades, and it is expected to remain Komatsu's core operating segment, along with the Industrial Machinery, Vehicles and Others operating segment. Net sales from this operating segment has increased sharply during the last few years and accounted for 82.8% of Komatsu's total net sales for the fiscal year ended March 31, 2007.

Products

Komatsu offers various types of construction and mining equipment, ranging from super-large machines capable of mining applications to mini units for urban use. Komatsu's range of products in this operating segment includes a wide variety of attachments to be used with its products. Komatsu's principal products in this operating segment fall into the following categories of equipment:

Category	Principal Products
Excavating Equipment	Hydraulic excavators, mini excavators, and backhoe loaders*
Loading Equipment	Wheel loaders, mini wheel loaders, and skid-steer loaders*
Grading and Roadbed Preparation Equipment	Bulldozers, motor graders, and vibratory rollers
Hauling Equipment	Off-highway dump trucks, articulated dump trucks, and crawler carriers
Forestry Equipment	Harvesters*, forwarders*, and feller bunchers*
Tunneling Machines	Shield machines, tunnel-boring machines, and small-diameter pipe jacking machines (Iron Moles)
Recycling Equipment	Mobile debris crushers, mobile soil recyclers, and mobile tub grinders
Other Equipment	Railroad maintenance equipment
Engines and Components	Diesel engines, diesel generator sets, and hydraulic equipment
Casting Products	Steel castings and iron castings*

Note: Those products denoted with an asterisk (*) are principal products or major lines of business of Komatsu's consolidated subsidiaries.

To remain competitive in this operating segment, Komatsu introduced the Dantotsu Strategy in 2003 and has been working to increase the number of Dantotsu products. Dantotsu means "unique and unrivaled" in Japanese. Komatsu only designates its product as a Dantotsu product if such product is considered unique and unrivaled as compared to those produced by Komatsu's competitors, due to the fact that these products are equipped with one or more features that its competitors cannot match for some time. Since the introduction of Dantotsu products, Komatsu has been working to replace many of its product models with Dantotsu products. Dantotsu products include WA500 Series and WA600 Wheel loaders to name a few. Komatsu plans to continue to conduct model changes to replace some of its existing construction and mining equipment product models with Dantotsu products.

In addition, Komatsu has been focused on downstream businesses, such as the used equipment business and the rental equipment business. Recognizing the increase in demand for used equipment outside of Japan, Komatsu Used Equipment Corp. has been facilitating the sale of used equipment by holding annual auctions in several locations in Japan since the mid-1990s.

Table of Contents

(2) Industrial Machinery, Vehicles and Others

Net sales from the Industrial Machinery, Vehicles and Others operating segment has been increasing during the last few years and accounted for 15.7% of Komatsu's total net sales for the fiscal year ended March 31, 2007. During the fiscal year ended March 31, 2007, Komatsu received increased orders from its customers for large presses that incorporated new technologies. Komatsu expects further growth in this operating segment and management now views this operating segment to be one of its core operating segments along with the Construction and Mining Equipment operating segment.

The products available in this operating segment are used by a wide range of businesses and include industrial machinery, such as forging and sheet metal machinery, forklift trucks and other services such as logistics and the creation of training materials. Komatsu's principal products in this operating segment fall into the following categories of equipment.

Category	Principal Products
Metal Forging and Stamping Presses	Large presses, AC-servo presses*, small and medium-sized presses* and forging presses*
Sheet-Metal Machines and Machine	
Tools	Press brakes*, shears*, laser cutting machines*, fine plasma cutting machines*, and crankshaft millers*
Industrial Vehicles, Logistics	Forklift trucks*, packing and transport*
Defense Systems	Ammunition and armored personnel carriers
Others	Commercial-use prefabricated structures

Note: Those products denoted with an asterisk (*) are principal products or major lines of business of Komatsu's consolidated subsidiaries.

Table of Contents

(3) Electronics

Net sales from the Electronics operating segment for the fiscal year ended March 31, 2007 decreased by 33.4% as compared to the fiscal year ended March 31, 2006. This decline was due mainly to decreased sales resulting from the sale of a portion of the polycrystalline silicon business executed in the fiscal year ended March 31, 2006. Net sales from this segment accounted for 1.5% of Komatsu's total net sales for the fiscal year ended March 31, 2007. Komatsu's principal products in this operating segment fall into the following category.

Category	Principal Products
Temperature-Control Equipment	Thermoelectric modules* and temperature-control equipment for semiconductor manufacturing*

Note: Those products denoted with an asterisk (*) are principal products or major lines of business of Komatsu's consolidated subsidiaries.

Table of Contents**PRINCIPAL MARKETS**

Komatsu operates and competes in the following six principal markets: (i) Japan, (ii) the Americas, (iii) Europe and Commonwealth of Independent States (CIS), (iv) China, (v) Asia (excluding Japan and China) and Oceania and (vi) the Middle East and Africa.

In this annual report, information regarding net sales by geographic segment is presented in the following two ways: (1) by sales destination (based on the country where the purchaser is located) and (2) by sales origin (based on the country where the seller is located). The following table sets forth Komatsu's net sales recognized by sales destination for the fiscal years ended March 31, 2007, 2006 and 2005. Net sales data by sales origin are set forth in Note 22 to the Company's audited consolidated financial statements, included elsewhere in this report.

Net Sales by Region

	(Millions of Yen)					
	Fiscal Year Ended March 31, 2007		Fiscal Year Ended March 31, 2006		Fiscal Year Ended March 31, 2005	
Japan	¥ 487,103	25.7%	¥ 482,825	29.9%	¥ 479,007	35.3%
Americas	537,836	28.4%	477,718	29.6%	355,561	26.2%
Europe and CIS	324,071	17.1%	232,329	14.4%	195,281	14.5%
China	129,443	6.8%	89,667	5.6%	51,987	3.8%
Asia (excluding Japan and China) and Oceania	252,768	13.4%	213,719	13.3%	190,458	14.0%
Middle East and Africa	162,122	8.6%	115,882	7.2%	83,777	6.2%
Total	¥ 1,893,343	100.0%	¥ 1,612,140	100.0%	¥ 1,356,071	100.0%

Note: In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, net sales from discontinued operations have been reclassified and previously reported amounts have been reclassified accordingly.

Table of Contents

SALES AND DISTRIBUTION

Komatsu's international and domestic sales and distribution for its Construction and Mining Equipment operating segment are conducted primarily through a network of subsidiaries, affiliates and independent distributors, and to a lesser extent by its partners of jointly-owned companies.

Komatsu's construction and mining equipment sales and distribution operations in Japan focus principally on retail sales to customers, partly on an installment basis. In addition, Komatsu has enhanced its equipment rental services in Japan by using rental companies as its agents, especially for its construction and utility equipment, in response to strong demand from customers. Distributors and dealers form the core of the service network in Japan, providing total customer-support services.

Komatsu's overseas construction and mining equipment sales and service network consists of approximately 230 distributors. Komatsu supplies its products to distributors around the world through trading companies and the Company's subsidiaries and affiliated companies, supported by Komatsu's liaison offices. The Company's major sales subsidiaries and affiliates are located in Australia, Belgium, Brazil, Chile, China, France, Germany, India, Indonesia, Italy, Russia, Singapore, South Africa, Sweden, the United Arab Emirates and the United States. These subsidiaries and affiliates provide additional inventory and technical assistance to Komatsu's distributors while facilitating the delivery of emergency spare parts. These subsidiaries and affiliates as well as Komatsu's distributors provide the services that customers may require with respect to their construction and mining equipment outside of Japan.

Komatsu's sales of products in the Industrial Machinery, Vehicles and Others operating segment include direct sales to customers and sales through distributors, dealers and trading companies. For example, large presses are mainly sold directly to customers while small-and medium-sized presses are primarily sold through distributors and dealers. Most of Komatsu's Electronics products are sold directly to customers and to a lesser extent sold through distributors and dealers.

Table of Contents

SOURCES OF SUPPLY

As it is neither economical nor efficient for Komatsu to manufacture all of its necessary components and parts, Komatsu produces some of its major equipment components internally and purchases other components and parts, such as electrical components, tires, hoses, and batteries, from specialized suppliers. Komatsu also procures some of its parts, such as metal forgings, machine components, sheet metal parts and various accessories, from its business partners. Therefore, the fluctuations in prices of materials for such components, such as steel materials, may affect Komatsu's results of operations. Komatsu believes, however, that it has adequate and reliable sources of supply for its material components, parts and raw materials, and that it has appropriate alternative sources available for such supplies consistent with its prudent business practices.

SEASONALITY

Komatsu's businesses have historically experienced some seasonal fluctuations in sales. While there are variations by market and product, Komatsu's consolidated sales for the fourth quarter have been highest for each of the past four fiscal years. However, this seasonality has generally not been material to Komatsu's results of operations.

PATENTS AND LICENSES

Komatsu holds numerous Japanese and foreign patents, design patents and utility model registrations relating to its products. It also has a number of applications pending for Japanese and foreign patents. Under Japanese law, a utility model registration is a right granted with respect to inventions of less originality than those which qualify for patents. Komatsu also manufactures a variety of products under licensing agreements with various other companies.

While Komatsu considers all of its patents and licenses to be important for the operation of its business, it does not consider any of its patents or licenses or any related group of them to be so important that its expiration or termination would materially affect Komatsu's business as a whole, nor does it believe that any category of its activities is materially dependent upon patents or licenses, or patent or license protection. Komatsu also owns and maintains a substantial number of trademarks and trade names that are registered or otherwise protected under the laws of various jurisdictions.

Table of Contents

COMPETITIVE ENVIRONMENT

Construction and Mining Equipment

As a manufacturer of a full line of construction equipment, Komatsu provides a broad range of products for mining and general construction as well as utility equipment. Komatsu's competitors in the Construction and Mining Equipment operating segment consist of global competitors, regional competitors and locally-specialized competitors. While there is intense competition in all of the product categories in this operating segment, Komatsu continuously maintains its firm position as one of the largest manufacturers in the industry. In particular, Komatsu has made considerable technological advances with respect to its hydraulic excavators for which demand is increasing in recent years. While the competition in the hydraulic excavators market is intense, Komatsu maintains its position as one of the market leaders. In addition, Komatsu enjoys a high market share in dump truck sales for mining use because only a few of Komatsu's competitors have the capability to develop large scale dump trucks for mining use as Komatsu. Komatsu also believes that its use of information technologies, such as the KOMTRAX machine tracking system (a system that transmits mechanical information concerning the condition of construction equipment), and Vehicle Health Monitoring System and WebCARE (systems that transmit mechanical information regarding main components of mining equipment), which enables enhance data collection and analysis, provides Komatsu with a competitive advantage.

Table of Contents

The competitive environment for the fiscal year ended March 31, 2007 by geographic area is described in further detail below.

In Greater Asia which includes Asia as well as China and India, the Middle East and CIS, Komatsu maintained a strong position against its competitors. It is expected that the economies in Greater Asia will achieve strong growth in the future and while Komatsu considers the market to be promising, it also expects the market to be highly competitive.

North America is the largest market for construction equipment in the world and competition is intense within each product category. Among Komatsu's competitors, Caterpillar Inc. is the market leader in construction and mining equipment in terms of market share.

In Europe, in addition to global companies, there are many regional or locally specialized competitors who have firm footings in the local market. Komatsu competes with different competitors in each country or region in Europe. The market in Europe is very competitive and it has not been easy for Komatsu to improve its market position in Europe.

Table of Contents

Industrial Machinery, Vehicles and Others

In the Industrial Machinery, Vehicles and Others operating segment, Komatsu's principal products consist of (i) metal forging and stamping presses, (ii) sheet metal machines and machine tools and (iii) forklift trucks. As discussed below, the market for these products is highly competitive.

(i) Stamping Presses

Komatsu manufactures and sells stamping presses that are used to press doors, roofs and other automobile parts into shapes. With respect to large presses, which are mainly sold to automobile manufacturers, Komatsu considers Ishikawajima-Harima Heavy Industries Co., Ltd., Hitachi Zosen Fukui Corporation and AIDA Engineering, Ltd. of Japan and Schuler AG and Müller-Weingarten AG of Germany to be its major competitors. In Japan, Japanese manufacturers, including Komatsu, have an advantage over non-Japanese manufacturers who compete with other Japanese manufacturers. Likewise, German manufacturers enjoy dominant positions and have a competitive advantage over non-German manufacturers in the German large press market. In other markets, Komatsu competes with regional and locally specialized competitors in addition to the above-mentioned manufacturers.

The competitive environment of these products has become increasingly intense in Asia, mainly in China and India, where many automobile manufacturers have been establishing manufacturing plants and making large capital investment.

With respect to small- and medium-sized presses, Asia (including Japan) and North America are Komatsu's largest markets. Major competitors of Komatsu for these products include AIDA and Amada Co., Ltd. (Amada) of Japan, Minster Machine Company of the United States and Chin Fong Machine Industrial Co., Ltd. of Taiwan.

Table of Contents

(ii) Sheet Metal Machines and Machine Tools

With respect to sheet metal machines, Japan is the major market for Komatsu's products and Komatsu's competitors consist of other Japanese manufacturers, such as Amada and Koike Sanso Kogyo Co., Ltd. Amada enjoys a large market share with a wide range of products in the industry. To effectively compete in this industry, Komatsu follows a niche-market strategy.

The principal products of Komatsu's machine tool business include crankshaft millers, camshaft millers and multiplex machine tools. Major competitors in the crankshaft millers market include Boehringer Werkzeugmaschinen GmbH (Boehringer) and Gebrüder Heller Maschinenfabrik GmbH (Heller) of Germany. In Japan, Komatsu enjoys a predominant position in the crankshaft miller market. On the other hand, German manufacturers dominate the market in Germany. In other markets, such as North America and China, Komatsu mainly competes with Boehringer and Heller.

(iii) Forklift Trucks

The major markets for forklift trucks have traditionally been Europe, the United States, China and Japan. Recently, China has been developing into the third major market for forklift trucks. While European and U.S. manufacturers of forklift trucks sell not only forklift trucks but also warehousing equipment, Komatsu and other Japanese manufacturers of forklift trucks primarily focus on forklift trucks.

Electronics

In the Electronics operating segment, Komatsu's principal products consist of temperature control equipment such as thermoelectric modules used for semiconductor manufacturing equipment and optical communications systems. Komatsu Electronics Inc. (KELK) possesses one of the most advanced levels of thermoelectric technology in the world and considers itself to be a market leader in the micro-module market, which utilizes this technology. Komatsu believes that its technology enables Komatsu to achieve a strong market position in the micro-module market. Komatsu considers its principal competitor in this industry to be Marlow Industries Inc. of the United States. The precision requirements for temperature control in the semiconductor manufacturing process have become increasingly difficult due to the continually decreasing line width of semiconductors and the shift to 300mm wafers. Komatsu believes that KELK's cutting-edge thermoelectric technology will enable it to achieve further growth in sales volume in the temperature control equipment market.

Table of Contents

REGULATIONS

Komatsu is subject to a wide range of laws and regulations in the countries and regions where it operates, including safety regulations, restrictions on emissions, noise and vibration from its products, various environmental controls regulating the manufacturing processes, such as the management of toxic chemicals and hazardous wastes, green procurement and recycling. Komatsu's operations and products are designed to comply with all applicable environmental regulations currently in effect in the relevant jurisdictions. Komatsu expects to remain in substantial compliance with existing applicable environmental control regulations and does not expect that the costs of compliance with foreseeable regulations will have a material effect upon its financial position and results of operations. Some of the important environmental laws and regulations that affect Komatsu's businesses are summarized below.

Regulations regarding engine emissions

The Ministry of Land, Infrastructure and Transport of Japan (MLIT) introduced the approval system for low-emission type construction equipment used in construction in 1997, setting the maximum emission levels by model and power range. While the maximum emission levels set by MLIT are not legally binding, they function as practical standards on engine emissions, since construction equipment which only has obtained such approval is allowed to be used in construction projects that are under the direct control of MLIT. MLIT lowered its original limit values in 2003. Such limits are known as the Tier II standards. In 2006, a new law took effect in Japan to control exhaust emissions from off-road specific vehicles in the power range over 19kW, including those used at construction sites. In connection with the implementation of this new law, exhaust emission limits were lowered further. Such new limits are known as the Tier III standards, the compliance with which is now mandatory in Japan.

Table of Contents

In the United States, the Environmental Protection Agency (EPA) introduced the Tier I standards for equipment of 130kW or greater in 1996. The Tier III standards are being phased in since 2006, and far more stringent Tier IV standards are scheduled to be phased in starting 2011.

In Europe, the Engine Emissions Directive 97/68/EC regarding the measures against emission of gaseous and particulate pollutants from internal combustion engines to be installed in off-road mobile machinery went into effect in 1999 and the second stage of the directive was implemented from 2002 to 2004. The process of implementing the third stage of this directive commenced in 2006 and is expected to continue through 2008.

Komatsu has attained compliance with all regulatory standards that have already taken effect and expects to finish the small -sized equipment development to meet the Tier III standards of Japan, the United States and European Union in time for their enforcement. Komatsu also has continued its preparations to comply with the Tier IV standards to be implemented in the near future in Japan, the United States and European Union.

Regulations regarding noise and vibration

In Japan, the type approval system for low-noise emission and low-vibration type construction equipment was established by MLIT in 1983. Under this system, manufacturers are required to file an application with MLIT for the approval of their low-noise and low-vibration type construction equipment which meets the standards set forth by MLIT. The current measurement method and limits on noise have been in effect since October 1997. The type approval system for low-vibration construction equipment started in October 1996, which is not legally binding but sets forth regulatory standards for vibratory hammers and hydraulic excavators.

Table of Contents

In Europe, European Parliament and Council Directive 95/27/EC of June 1995 amending Council Directive 86/662/EEC on the limitation of noise emitted by hydraulic excavators, rope-operated excavators, dozers, loaders and excavator-loaders has been in effect since January 1997. This directive defined the maximum sound-power levels of airborne noise emitted by these earth-moving machines under dynamic operating conditions and required manufacturers to obtain an EC type-examination certificate. The second stage of this directive which requires further noise reduction has been in effect since January, 2006. In January 2002, European Parliament and Council Directive 2000/14/EC relating to the noise emission in the environment by equipment for use outdoors went into effect. The regulation applies to a wide range of product types from gardening equipment to construction and waste-management equipment and such products must bear a CE-mark and the indication of their guaranteed sound-power level before they can be brought to the market. Under such directive, manufacturers are required to confirm that the noise emitted from their products would not exceed the guaranteed sound-power level. The second stage of this directive which requires further noise reduction has been in effect since January, 2006.

Komatsu's management has defined environmental issues as one of its important management tasks and has made it a company-wide priority to promote awareness of environmental issues. In 1991, Komatsu's environmental management framework was built by creating the Earth Environment Committee. In 1992, Komatsu's management established the Komatsu Earth Environment Charter and has put in place initiatives designed to reduce the impact of its business operations to the environment, mainly focusing on its Construction and Mining Equipment operating segment. In July 2003, Komatsu's management revised this Charter and established three new guiding principles: (1) contributing towards the realization of a sustainable society, (2) striving to optimize both environmental and economic performance, and (3) observing corporate social responsibility. Simultaneously, Komatsu created the Environmental Affairs Department to expand Komatsu's environmental conservation efforts in all of its business operations and promote environmental management on a consolidated basis, including all of its overseas manufacturing subsidiaries.

Table of Contents

In 1997, Komatsu started auditing its manufacturing facilities in Japan to obtain ISO 14001 certification. As a result, by the end of March 2003, all of its manufacturing facilities in Japan acquired ISO 14001 certification. Audits based on ISO 14001 are primarily designed to inspect the functional effectiveness of the environmental management system at each facility, and do not necessarily identify potential environmental risks at the facility. In 2004, Komatsu commenced voluntary audits of its facilities with an emphasis on their environmental performance. Internal auditors of Komatsu evaluate facilities using the Komatsu Environmental Check Sheets and share their findings with the audited facility and the entire Komatsu group to promote further improvements within the Komatsu group. For additional information such as figures and goals related to Komatsu's environmental measures as well as environmental accounting, please refer to the latest edition of Komatsu's Environmental & Social Report, which is available through Komatsu's website.

STRATEGIES

In April 2007, Komatsu implemented Global Teamwork for 15, a new mid-range management plan. Under Global Teamwork for 15 Komatsu aims to continue its focus on introducing Dantotsu products, further enhance its market position in Greater Asia and continue to strive to improve its fixed costs, all of which it has striven to achieve since the first phase of its management plan called Reform of Business Structure in 2001, by positioning the Construction and Mining Equipment, and the Industrial Machinery, Vehicles and Others businesses as its two core operations. By positioning these two businesses at the core of its operations, management believes that Komatsu will be better situated to develop and introduce products that are better suited to regional demands, in particular, the regional demands of the Greater Asia region, to expand local production and to further enhance its product support operations. In addition, under Global Teamwork for 15 Komatsu will continue its efforts to develop its human resources on a global basis, which is one of the objectives of the second phase of the Reform for Business Structure, that was implemented beginning in 2006. Komatsu recognizes that its growth is sustained by its personnel and intends to facilitate the training of its personnel.

Table of Contents

In addition to the above initiatives, which Komatsu has been focused on for some years, Komatsu has identified the following four new key objectives, for which it aims to achieve certain results under Global Teamwork for 15.

The first objective is the establishment of a flexible manufacturing infrastructure. Komatsu intends to utilize its global sales and production systems and global procurement programs in order to further improve the flexibility of its manufacturing infrastructure to quickly adjust to fluctuations in demand. By sharing market information among distributors, plants and suppliers, Komatsu hopes to accurately incorporate such information into production, sales and inventory planning in the short-term. In the medium-term, Komatsu intends to accurately incorporate such information into its capital investment planning to ensure it will have appropriate levels of production capacity.

The second objective is to expand its utility equipment business. In April 2007, Komatsu Utility Co., Ltd. was established by consolidating Komatsu Zenoah Co.'s compact-construction equipment business into Komatsu Forklift Co., Ltd.'s forklift business. Komatsu expects this consolidation to create synergistic effects in production and development, thereby enhancing its product competitiveness in the utility equipment market. Komatsu Utility Co., Ltd. will focus its efforts on the Greater Asia market to enhance its position in the utility equipment market and to improve its profits.

Table of Contents

The third objective is the expansion of Komatsu's parts business. Komatsu will continue its efforts to improve sales of ground engaging tools, such as buckets, teeth and undercarriage parts, expand the number of parts depots, provide support to its training centers and train more product support personnel through its education programs. By acquiring utilization information of its customers' machines through real-time monitoring systems such as the KOMTRAX, Komatsu hopes to further optimize its parts inventories, accelerate the delivery of parts to its customers and increase automated sales to increase sales and improve its profits.

The fourth objective is the reinforcement of its industrial machinery business. Komatsu hopes to increase production volume, reduce production lead time, improve the quality of its products and services, and reduce the cost of its products by fully utilizing its newly established Kanazawa plant in Japan.

C. Organizational Structure

As of March 31, 2007, the Company had 145 consolidated subsidiaries and 39 affiliates under the equity method. The following is a list of the principal consolidated subsidiaries as of March 31, 2007.

Name of the Company	Country of Incorporation	Ownership Interest (%)
Komatsu Forklift Co., Ltd.	Japan	100.0
Komatsu Zenoah Co.	Japan	100.0
Komatsu Castex Ltd.	Japan	100.0
Komatsu Tokyo Ltd.	Japan	100.0
Komatsu Kinki Ltd.	Japan	100.0

Table of Contents

D. Property, Plants and Equipment

Komatsu's manufacturing operations for the Construction and Mining Equipment operating segment are conducted in 44 principal plants, 11 of which are located in Japan. As of March 31, 2007, the 44 principal plants had an aggregate manufacturing floor space of 1,751 thousand square meters (18,848 thousand square feet). Komatsu uses additional floor space at such plants and elsewhere as laboratories, office space and employee housing and welfare facilities. Komatsu is capable of increasing production output at its manufacturing facilities by adjusting their manufacturing schedules.

Komatsu owns most of the manufacturing facilities and the land on which they are located. A portion of the properties owned by Komatsu is subject to mortgages or other types of liens. As of March 31, 2007, the net book value of the property owned by Komatsu was ¥388,393 million, of which ¥500 million was subject to encumbrances.

Table of Contents

The head office of the Company is located in a ten-story office building in Tokyo, Japan which it owns. Komatsu considers that its manufacturing plants and other facilities are well maintained and believes that its plant capacity is adequate for its current operating requirements. To the best of management's knowledge, management does not believe that there are any significant environmental issues that may materially affect Komatsu's utilization of its assets.

Plans for Installation and Disposal of Equipment

Komatsu conducts various businesses in Japan and overseas, and the details of future capital investment plans to install new and more efficient equipment and to dispose of obsolete equipment were not decided as of March 31, 2007. As of the filing date of this annual report, Komatsu plans to make capital investment of ¥138,000 million by the end of fiscal year ending March 31, 2008. The amount of capital investment expected to be made by March 31, 2008, the principal investment objectives and the sources of funding by operating segment are set forth in the below table.

Table of Contents

Operating Segment	Expected capital investment amount by March 31, 2008 (Millions of Yen)	Principal investment objectives	Source of funding
Construction and Mining Equipment	121,000	To increase operating efficiency of production lines and to develop new products, etc.	Funds on hand, bank borrowings
Industrial Machinery, Vehicles and Others	17,000	To increase operating efficiency of production lines, to renew obsolete equipment and to improve productivity, etc.	Funds on hand, bank borrowings
Total	138,000		

Note: Capital investment amounts exclude consumption tax, etc.

In the Construction and Mining Equipment operating segment, investments in Japan will focus on the expansion of production capacity for key components. For example, Komatsu will continue the development of new and updated models of its products, such as Dantotsu products, and will enhance production capacity and improve models to comply with the Tier III emission standards. In the Industrial Machinery, Vehicles and Others operating segment, Komatsu will invest capital to increase the operating efficiency of its production lines, replace deteriorating facilities and enhance overseas production capacity.

Item 5. Operating and Financial Review and Prospects

A. Operating Results

Overview

The following discussion and analysis provides information that Komatsu's management believes to be relevant in understanding Komatsu's consolidated financial condition and results of operations. For the convenience of the reader, Japanese yen amounts have been converted to U.S. dollar amounts at the rate of ¥118 to U.S.\$1.00, the approximate buying rate of Japanese yen as of noon on March 30, 2007 in New York City as reported by the Federal Reserve Bank of New York.

Komatsu's Business

Komatsu is a global organization engaged primarily in the manufacturing, development, marketing and sale of industrial-use equipment and products. Komatsu's three principal operating segments consist of Construction and Mining Equipment, Industrial Machinery, Vehicles and Others, and Electronics. Sales for the fiscal year ended March 31, 2007 in the Construction and Mining Equipment operating segment accounted for approximately 82.8% of consolidated net sales, while sales in the Industrial Machinery, Vehicles and Others operating segment and the Electronics operating segment each accounted for approximately 15.7% and 1.5% of consolidated net sales, respectively. On October 18, 2006, the Company sold 51.0% of the shares of KEM, its then consolidated subsidiary to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM and classified the business of KEM and its subsidiaries under the Electronics operating segment. As a result of this disposition, the operating results of KEM and its subsidiaries business are no longer consolidated within the Electronics operating segment of Komatsu's results from the date of disposition. Of the consolidated net sales for the fiscal year ended March 31, 2007, 25.7% of net sales was derived from sales to customers located in Japan, and 74.3% of net sales was derived from sales to customers located outside of Japan. For additional information about Komatsu's products, competitive position, organizational structure and property, plants and equipment, see Item 4. Information on the Company.

The average exchange rate between the Japanese yen and the U.S. dollar was ¥116.55 for the fiscal year ended March 31, 2007 and ¥113.67 for the fiscal year ended March 31, 2006. For additional discussion on the effect of foreign currency exchange rate fluctuations on Komatsu's business, see Risk Factors in Item 3.D. Key Information and Comparison of Fiscal Years ended March 31, 2007 and 2006 in Item 5.A. Operating Results.

Table of Contents

Management Policy

The cornerstone of Komatsu's management policy is to maximize its corporate value by maintaining and enhancing the Quality and Reliability of its products and services. This policy emphasizes, among other things, delivering safe and innovative products and services that respond to customers needs. Komatsu is continuing its group-wide effort to enhance the Quality and Reliability of all organizations, businesses, employees and management. In fact, continuously improving the Quality and Reliability of its products and services is one of the top priorities of Komatsu's management.

Komatsu's management believes that the value of a corporation is represented by the trust its stakeholders and society place in such corporation. To continue to earn the trust of its stakeholders and society, thereby increasing its value, Komatsu has established two management goals. The first is to maintain a high level of profitability and financial position in its industry and to strive to enhance its position in the global market, especially in the Greater Asia region. The second goal is to manage its business in a manner that takes into consideration the fact that Komatsu's market value reflects the trust placed in Komatsu by society and its stakeholders.

In order to achieve the management goals described above, Komatsu continued to implement the management plan it calls the Reform of Business Structure during the fiscal year ended March 31, 2007, which is described in further detail below.

As goals for the first phase of the Reform for Business Structure, which started in 2001, Komatsu has been focused on launching greater number of Dantotsu products, enhancing Komatsu's market position in Greater Asia and reducing fixed costs. Komatsu commenced the second phase of the Reform for Business Structure in 2006 while continuing to work on the goals of the first phase of the Reform for Business Structure. The objectives of the second phase of the Reform for Business Structure has been to reform Komatsu's Value-Chain by utilizing information technologies, reinforce jobsite capabilities and develop appropriate levels of human resources globally.

By Value-Chain, Komatsu is referring to the chain of values generated from all of its business activities starting from research and development and production to sales, including financing and services. For example, demand for construction and mining equipment is affected by cyclical changes in the economies. As advances in information technology have made it possible for Komatsu to determine market changes by allowing it to receive up-to-date information, including information of the operating conditions of the existing customers' machines, Komatsu believes that it can enhance its competitive advantage over its competitors by adjusting sales volume, production levels and inventory status effectively in a timely manner before its competitors can respond to such market changes. To improve its Value-Chain, in the fiscal year ended March 31, 2007, Komatsu worked to develop a systems infrastructure through which it could share global sales and production information collected through these advances in information technology with its distributors, plants and suppliers on a real-time basis so as to achieve greater global manufacturing operational efficiencies. Jobsite capabilities means the mindset and power of its employees to continuously strive to improve Komatsu's products in order to create higher quality products and implement manufacturing systems that operate more efficiently.

Table of Contents*Key Management Indices*

Komatsu's management uses the following six financial indicators to assess its financial condition and results of operations: (1) net sales, (2) segment profit, (3) operating income, (4) operating income ratio, (5) return on equity ratio (ROE) and (6) net debt-to-equity ratio (Net DER). Set forth below are the results for the fiscal years ended March 31, 2006 and 2007.

Management considers segment profit, which is a Japanese accounting principle, to be one of its key management indices because it enables management to evaluate financial data for each operating and geographic segment separately, without the effect of factors unrelated to business activities, such as impairment loss or interest income/expense. Based on such evaluation of financial data for each operating and geographic segment, management assesses the performance of each such operating and geographic segment and determines how to allocate resources to each such segment.

Management Indices	Results for Fiscal Year Ended March 31		Percentage Change 2007 vs. 2006
	2007	2006	
Net Sales	¥ 1,893,343 million	¥ 1,612,140 million	17.4%
Segment Profit ¹⁾	¥ 249,746 million	¥ 164,501 million	51.8%
Operating Income	¥ 244,741 million	¥ 163,428 million	49.8%
Operating Income Ratio ²⁾	12.9%	10.1%	2.8 points
ROE ³⁾	23.5%	20.8%	2.7 points
Net DER ⁴⁾	0.33	0.49	-0.16

Notes:

- 1) Segment Profit = Net sales - {(cost of sales) + (selling, general and administrative expenses)} Segment Profit is calculated in conformity with Japanese accounting principles.
- 2) Operating Income Ratio = Operating income/Net sales
- 3) ROE = Net income for the year/{(Shareholders' equity at the beginning of the year) + (Shareholders' equity at the end of the year)/2}
- 4) Net DER = {(Interest-bearing debt) - (Cash and time deposits)}/Shareholders' equity

Table of Contents

General Overview

During the fiscal year ended March 31, 2007, the U.S. economy slowed considerably. While private consumption spending continued to increase, the housing sector had a substantial drag on economic growth, with residential housing investments declining. In addition, the manufacturing sector, particularly in the automobile and construction sectors, recorded weak results in the U.S. In Europe, economic growth accelerated at its fastest pace in six years as domestic demand strengthened, fueled by robust export growth and strong investment. In Japan, the economy's underlying momentum remained robust, with expanded private investments, which was supported by strong profits, improved corporate balance sheets and rising export growth as a result of weaker Japanese yen exchange rates. Among emerging markets and developing countries, China and India reported rapid economic growth, with such momentum sustained across other emerging markets and developing countries that are rich in natural resources and are able to benefit from high commodity prices.

Komatsu's consolidated business results for the fiscal year ended March 31, 2007 continued to post record-high figures in both net sales and operating income, with net sales registering the fifth consecutive year of increase and operating income registering the fifth consecutive year of increase. In the Construction and Mining Equipment operating segment, Komatsu once again recorded an increase in sales for the fiscal year ended March 31, 2007 by effectively capitalizing the increase in market demand in such equipment resulting from expanded activity in the areas of resource and infrastructure development around the world. In the Industrial Machinery, Vehicles and Other operating segment, all subsidiaries and affiliates of Komatsu recorded solid performance and increased sales figures. In the Electronics operating segment, sales declined from the previous fiscal year due primarily to the sale of the polycrystalline silicon business during the fiscal year ended March 31, 2006.

The increase in operating income was largely due to improved price realization, higher sales volume and currency exchange rate effects of a weaker Japanese yen, which was partially offset by an increase in purchase costs of steel materials, tires and other purchased parts.

Table of Contents

Summary of Operating Results

Consolidated net sales for the fiscal year ended March 31, 2007 increased by 17.4% from fiscal year ended March 31, 2006 to ¥1,893,343 million (U.S.\$16,045 million) due primarily to increased sales in the Construction and Mining Equipment operating segment. Operating income for the fiscal year ended March 31, 2007 was ¥244,741 million (U.S.\$2,074 million), which increased by 49.8% as compared to the fiscal year ended March 31, 2006. Income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 increased by 51.8% from the fiscal year ended March 31, 2006, to ¥236,491 million (U.S.\$2,004 million). Net income for the fiscal year ended March 31, 2007 increased by 44.1% to ¥164,638 million (U.S.\$1,395 million) from the fiscal year ended March 31, 2006.

Net Sales

Consolidated net sales for the fiscal year ended March 31, 2007 increased by 17.4% to ¥1,893,343 million (U.S.\$16,045 million) as compared to the fiscal year ended March 31, 2006. This increase was primarily due to increased sales in the Construction and Mining Equipment operating segment.

Segment Profit

Consolidated segment profit for the fiscal year ended March 31, 2007 increased by 51.8% to ¥249,746 million (U.S.\$2,116 million) as compared to the fiscal year ended March 31, 2006. This increase was mainly due to increased sales in the Construction and Mining Equipment operating segment. Segment profit is calculated in conformity with Japanese accounting principles.

Operating Income, Operating Income Ratio

Operating income, for the fiscal year ended March 31, 2007 rose by 49.8%, or ¥81,313 million, to ¥ 244,741 million (U.S.\$2,074 million) from ¥163,428 million recorded for the fiscal year ended March 31, 2006.

Operating income ratio for the fiscal year ended March 31, 2007 increased by 2.8 percentage points to 12.9% from 10.1% for the fiscal year ended March 31, 2006.

Table of Contents

ROE

Net income in the fiscal year ended March 31, 2007 increased 44.1% to ¥164,638 million (U.S. \$ 1,395 million), compared with the fiscal year ended March 31, 2006. As a result, ROE for the fiscal year ended March 31, 2007 increased by 2.7 percentage points to 23.5% from 20.8% in the fiscal year ended March 31, 2006.

Net DER

Komatsu's aggregate interest-bearing debt as of March 31, 2007 was ¥349,074 million (U.S.\$2,958 million), which decreased by ¥28,839 million in fiscal year ended March 31, 2007 as compared to fiscal year ended March 31, 2006. Net interest-bearing debt after deducting cash and deposits also decreased by ¥51,041 million to ¥256,821 million (U.S.\$2,176 million) in fiscal year ended March 31, 2007. As a result, net DER for the fiscal year ended March 31, 2007 decreased to 0.33 from 0.49 for the fiscal year ended March 31, 2006.

Critical Accounting Policies

Komatsu prepares its consolidated financial statements in conformity with U.S. generally accepted accounting principles. Komatsu's management consistently makes certain estimates and judgments that Komatsu believes are reasonable based upon available information. These estimates and judgments affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of income and expenses during the periods presented, and the disclosed information regarding contingent liabilities and debts. These estimates and judgments are based on Komatsu's historical experience, terms of existing contracts, Komatsu's observance of trends in the industry, information provided by its customers and information available from other outside sources, as appropriate.

By their nature, these estimates and judgments are subject to an inherent degree of uncertainty, and may differ from actual results. For a summary of Komatsu's significant accounting policies, including the critical accounting policies discussed below, see Note 1 to the Consolidated Financial Statements. Komatsu's management believes that the following accounting policies are critical in fully understanding and evaluating Komatsu's reported financial results.

Table of Contents

(1) Allowance For Doubtful Receivables

Komatsu estimates the collectability of its trade receivables taking into consideration numerous factors including the current financial position by each customer. Komatsu establishes an allowance for expected losses based on individual credit information, historical experience and assessment of overdue receivables. Komatsu continually analyzes data obtained from internal and external sources in order to become familiar with customers' credit situations. Since Komatsu's historical loss experiences have fallen within their original estimates and established provisions, Komatsu's management believes its allowance for doubtful receivables to be adequate. If the composition of Komatsu's trade receivable were to change or the financial position of each customer were to change due to an unexpected significant shift in the economic environment, it is possible that the accuracy of its estimates could be affected and thus its financial position and results of operations could be materially affected. For additional information, see Note 5 of the Notes to Consolidated Financial Statements.

(2) Deferred Income Tax Assets

Komatsu estimates income taxes and income tax payable in accordance with applicable tax laws in each of the jurisdictions in which Komatsu operates. Net operating loss carry forwards and temporary differences resulting from differing treatment of items for taxation and financial accounting and reporting purposes are recognized on Komatsu's consolidated balance sheet by adjusting the effect for deferred income tax assets and liabilities. Komatsu is required to assess the likelihood that each of its group company's deferred tax assets will be recovered from future taxable income estimated for each group company and available tax planning strategies. Komatsu's management estimates its future taxable income and considers the likelihood of deferred tax assets recovery based on the management plan authorized by the board of directors, periodic operational reports of each group company, future market conditions and tax planning strategies, and, to the extent Komatsu believes that any such recovery is not likely, each group company establishes a valuation allowance to reduce the amount of deferred tax assets reflected in the consolidated balance sheet.

While Komatsu's management believes that all deferred tax assets after adjustments for valuation allowance will be realized, Komatsu may need to adjust its deferred tax assets or valuation allowance if its estimates differ from actual results due to poor operating results and lower future taxable income than the estimated taxable income. These adjustments to the valuation allowance could materially affect Komatsu's financial position and results of operations. For additional information, see Note 16 of the Notes to Consolidated Financial Statements.

Table of Contents

(3) Valuation of Long-Lived Assets and Goodwill

Komatsu's long-lived assets are reviewed for potential impairment whenever events or changes in circumstance indicate that the carrying amount of an asset may not be recoverable, such as a decrease in future cash flows caused by a change in business environment. The recoverability of assets to be held and used is measured by comparing the carrying amount of a particular asset to the estimated future undiscounted cash flow expected to be generated by such asset. Such future undiscounted cash flow is estimated in accordance with Komatsu's management plan. The management plan is established by taking into consideration, to the extent possible, management's best estimates on the fluctuation of sales prices, changes in manufacturing costs and sales, general and administrative expenses based on expected sales volumes derived from market forecasts available through outside research institutions and customers.

If the carrying amount of an asset is lower than its future undiscounted cash flow and such asset is considered unrecoverable and identified as an impaired asset, Komatsu recognizes an impairment loss based on the amount by which the carrying amount of the asset exceeds its fair value. Fair value is measured based on the asset's future discounted cash flow, and the rate used to discount such cash flow is the weighted average capital cost reflecting the fluctuation risk of future cash flow in the capital markets. Long-lived assets to be disposed of are reported at the lower of the carrying amount or fair value less costs of sales. Fair value is measured based on the discounted cash flow model or an independent appraisal.

Komatsu reviews its goodwill annually for impairment. An impairment of goodwill is deemed to occur when the carrying value of the reporting unit including goodwill exceeds its estimated fair value. Impairment losses on goodwill are recognized by conducting a two step test. The first of the two step test, which is used to identify potential impairment, compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, the second step of the test shall be performed. The second step of the test, which is used to measure the amount of impairment loss, compares the implied fair value of the goodwill of the reporting unit with the carrying amount of that goodwill. If the carrying amount of the reporting unit goodwill exceeds the implied fair value of that goodwill, an impairment loss shall be recognized in an amount equal to that excess.

In the event that Komatsu's strategy and market conditions change, estimates of future cash flows to be generated by an asset and evaluations of fair value would be affected, and the assessment of the ability to recover the carrying amount of long-lived assets and goodwill may change. Thus, such changes in assessment could materially affect Komatsu's financial position and results of operations.

Table of Contents

(4) Fair Value of Financial Instruments

The fair values of derivative financial instruments, consisting principally of foreign currency contracts and interest swap agreements, are estimated by obtaining quotes from brokers.

While fair value estimates are made at a specific point in time based on relevant market information and information about financial instruments, these estimates are subjective in nature and may change due to the uncertainties of the financial markets and may therefore differ from actual results. The fair values of marketable investment securities are stated at market price.

In the case of a decrease in market price, in periodically assessing other-than-temporary impairment of marketable investment securities, Komatsu considers the period and amount of its decline, and the financial conditions and prospects of each subject company. If the market price for marketable investment securities declines below our acquisition cost and such condition extends for more than six months, Komatsu considers the decline to be other-than-temporary and recognizes impairment of such marketable investment securities. In assessing other-than-temporary impairment of non-marketable investment securities, Komatsu considers the financial conditions and prospects of each subject company and other relevant factors. While Komatsu believes that there are no major impairments of its investment securities at present, if the performance and business conditions of a subject company deteriorates due to a change in business circumstances, Komatsu may recognize an impairment of its investment securities.

(5) Pension Liabilities and Expenses

The amount of Komatsu's pension obligations and net period pension costs are dependent on certain assumptions used to calculate such amounts. These assumptions are described in Note 13 to the Consolidated Financial Statements and include the discount rate, expected rate of return on plan assets and rates of increase in compensation. In accordance with U.S. generally accepted accounting principles, actual results that differ from these assumptions are accumulated and amortized over future service years of employees and therefore generally affect Komatsu's recognized expenses and recorded obligations during such future periods.

During the fiscal year ended March 31, 2007, the Company and domestic subsidiaries adopted a discount rate of 2.0% to determine net periodic benefit cost, the same discount rate used for the fiscal year ended March 31, 2006. The discount rate is determined based on the rates of return of high-quality fixed income investments currently available and expected to be available until the maturity of the pension benefits.

While Komatsu believes that its assumptions are appropriate, in the event that actual results differ significantly from these assumptions or significant changes are made to these assumptions, Komatsu's pension obligations and future expenses may be affected.

Table of Contents

(6) Securitization

Komatsu has several accounts receivable securitization programs, and such securitizations are expected to remain an important source of funding for Komatsu in the future. Receivables that are securitized are removed from its consolidated balance sheet when they are sold. Komatsu has entered into contractual arrangements with special purpose entities solely for the purpose of securitizing its receivables. For key assumptions used in measuring the fair value of retained interests related to securitization transactions, see *Item 5.E. Off-Balance Sheet Arrangements*.

Recent Accounting Standards Not Yet Adopted

In February 2006, FASB issued SFAS No.155, *Accounting for Certain Hybrid Financial Instruments* an amendment of SFAS No.133 and 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 155 permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative, and establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative. SFAS 155 is effective for the fiscal periods beginning after September 15, 2006 and is required to be adopted by the Company in the fiscal year beginning April 1, 2007. The Company is currently evaluating the effect that the adoption of SFAS 155 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In March 2006, FASB issued SFAS No.156, *Accounting for Servicing of Financial Assets* an amendment of FASB Statement No.140. SFAS 156 amends SFAS 140 to clarify the accounting for servicing assets and servicing liabilities. Among other provisions, the new accounting standard requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable. SFAS 156 is effective for the fiscal periods beginning after September 15, 2006 and is required to be adopted by the Company in the fiscal year beginning April 1, 2007. The Company is currently evaluating the effect that the adoption of SFAS 156 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

Table of Contents

In June 2006, FASB issued Interpretation No.48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of SFAS No.109, Accounting for income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS 109. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for the fiscal periods beginning after December 15, 2006 and is required to be adopted by the Company in the fiscal year beginning April 1, 2007. The Company is currently evaluating the effect that the adoption of FIN 48 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In September 2006, FASB issued SFAS No.157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective for the fiscal periods beginning after November 15, 2007 and is required to be adopted by the Company in the fiscal year beginning April 1, 2008. The Company is currently evaluating the effect that the adoption of SFAS 157 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In February 2007, FASB issued SFAS No.159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of SFAS No. 115. SFAS 159 permits entities to choose to measure certain financial assets and liabilities at fair value. The unrealized gains and losses on items for which the fair value option has been elected are required to be reported in earnings. SFAS 159 is effective for the fiscal periods beginning after November 15, 2007 and is required to be adopted by the Company in the fiscal year beginning April 1, 2008. The Company is currently evaluating the effect that the adoption of SFAS 159 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

Table of Contents

Comparison of the Fiscal Years ended March 31, 2007 and 2006

The following tables set forth selected consolidated financial and operating data, including numerical data expressed as a percentage of total consolidated net sales for the periods indicated, and the changes in each consolidated financial line item between the indicated fiscal years. The U.S. dollar amounts represent conversion from Japanese yen amounts at the rate of ¥118 to U.S.\$1, the approximate buying rate of the Japanese yen as of noon on March 30, 2007 in New York City as reported by the Federal Reserve Bank of New York, and are included only for the convenience of the reader.

Notes:

- 1) Segment profit is calculated in conformity with Japanese accounting principles. Segment profit is obtained by subtracting cost of sales and selling, general and administrative expenses from net sales.
- 2) Starting from the fiscal year ended March 31, 2007, Komatsu changed its method for presenting its consolidated statements of income from a single-step method to a multiple-step method. To calculate the percentage change from the previous fiscal year, Komatsu used the corresponding figures for the fiscal year ended March 31, 2006 which was reclassified using the multiple-step method.
- 3) On October 18, 2006, the Company sold 51.0% of the shares of KEM to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The operating results of these subsidiaries and the OPE business, and the gain recognized on the sale of KEM and its subsidiaries are presented as income from discontinued operations in the consolidated statements of income in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The above consolidated statements of income have been reclassified to take these sales into consideration.

Table of Contents

Net sales

Consolidated net sales for the fiscal year ended March 31, 2007 increased by 17.4%, or ¥281,203 million, to ¥1,893,343 million (U.S.\$16,045 million) from ¥1,612,140 million for the fiscal year ended March 31, 2006. For the fifth consecutive fiscal year, Komatsu recorded increased net sales. The 17.4% increase was primary due to increased sales in the Construction and Mining Equipment operating segment, which was supported by increased sales in the Industrial Machinery, Vehicles and Other operating segment. This increase was partially offset by the decrease in sales in the Electronics operating segment. For the fiscal year ended March 31, 2007, net sales to customers in the Construction and Mining Equipment operating segment increased by 21.4%, or ¥276,500 million, as compared to the fiscal year ended March 31, 2006. Komatsu continued to record increased sales in this operating segment by effectively capitalizing on increased market demand for construction and mining equipment as the number of commodities and infrastructure projects increased around the world.

In addition, net sales to customers in the Industrial Machinery, Vehicles and Other operating segment also contributed to the 17.4% increase in net sales as it increased by 6.6%, or ¥18,525 million, as compared to the fiscal year ended March 31, 2006. Komatsu recorded good performance and expanded sales, reflecting increased sales in forklifts and sheet metal and press machines. Sales to customers in the Electronics operating segment decreased by 33.4%, or ¥13,822 million for the fiscal year ended March 31, 2007 as compared to the fiscal year ended March 31, 2006 and was an offsetting factor to the increase in net sales. This decrease was primarily due to the fact that Komatsu sold its polycrystalline business during the fiscal year ended March 31, 2006. See discussion in the operating segment section provided below for additional information.

Table of Contents

Cost of Sales

Accompanying the rise in sales, cost of sales on a consolidated basis increased by 14.5%, or ¥171,271 million, to ¥1,356,511 million (U.S.\$11,496 million) for the fiscal year ended March 31, 2007 from ¥1,185,240 million for the fiscal year ended March 31, 2006, due primarily to increased volumes of sales. Komatsu's efforts at reducing manufacturing costs by improving production efficiency contributed to a 1.9 percentage point improvement in the cost of sales to sales ratio for the fiscal year ended March 31, 2007 to 71.6% from 73.5% for the fiscal year ended March 31, 2006.

Selling, General and Administrative Expenses

Selling, general and administrative expenses rose by 9.4% for the fiscal year ended March 31, 2007 to ¥287,086 million (U.S.\$2,433 million) from ¥262,399 million for the fiscal year ended March 31, 2006, primarily due to higher direct selling expenses, such as shipping and handling costs and sales commission, which resulted principally from increased volumes of sales. Although Komatsu experienced an increase in certain expenses during the fiscal year ended March 31, 2007, due to its efforts to reinforce its product support and services structure, safety and environmental management system, and regulatory compliance programs relating to environmental and other regulations, the ratio of selling, general and administrative expenses to net sales decreased by 1.1 percentage points to 15.2% as compared to 16.3% for the fiscal year ended March 31, 2006. This decrease in the ratio of selling, general and administrative expenses to net sales was also due to Komatsu's continuous efforts to decrease fixed costs as part of its Reform of Business Structure project.

Impairment loss on long-lived assets held for use

Consolidated impairment loss on long-lived assets held for use for the fiscal year ended March 31, 2007 decreased by 98.3%, or ¥4,710 million, to ¥81 million (U.S.\$0.69 million) as compared to ¥4,791 million for the fiscal year ended March 31, 2006. This significant decrease was due primarily to the fact that Komatsu did not realize an impairment loss in a large amount for the fiscal year ended March 31, 2007 as it did for the fiscal year ended March 31, 2006 when it conducted a reevaluation of its manufacturing machinery and equipment prior to its discontinuance and recorded a large loss for such machinery and equipment prior to the construction of a new plant.

Table of Contents

Impairment loss on goodwill

Komatsu did not recognize any impairment loss on goodwill for the fiscal year ended March 31, 2007, unlike the fiscal year ended March 31, 2006. For the fiscal year ended March 31, 2006, ¥3,041 million of impairment loss on goodwill was recognized when it recognized an impairment loss on goodwill allocated to a reporting unit in the Construction and Mining Equipment operating segment due to the unfavorable business circumstances relating to the net assets of such reporting unit.

Operating Income

Consolidated operating income for the fiscal year ended March 31, 2007 increased by 49.8%, or ¥81,313 million, to ¥244,741 million (U.S.\$2,074 million) as compared to ¥163,428 million for the fiscal year ended March 31, 2006. As a result, operating income ratio for the fiscal year ended March 31, 2007 increased by 2.8 percentage points to 12.9% from 10.1% for the fiscal year ended March 31, 2006.

Other Expenses

Consolidated other expenses for the fiscal year ended March 31, 2007 increased by 7.9%, or ¥601 million, to ¥8,250 million (U.S. \$70 million) as compared to ¥7,649 million for the fiscal year ended March 31, 2006. This increase was due primarily to the increase in interest expense which increased by 26.8%, or ¥3,277 million, to ¥15,485 million (U.S.\$131 million) as compared to ¥12,208 million for the fiscal year ended March 31, 2006, as a result of an increase in interest rates for Komatsu's variable rate debt obligations reflecting market movement. Interest and dividend income for the fiscal year ended March 31, 2007 increased by 25.0%, or ¥1,708 million, to ¥8,532 million (U.S.\$72 million) as compared to ¥6,824 million for the fiscal year ended March 31, 2006, and partially offset the increase in interest expense. This 25.0% increase in interest and dividend income was primarily due to the increase in interest income received from customers to whom Komatsu provided financing in connection with the purchase of Komatsu equipment.

Table of Contents

Income from Continuing Operations Before Income Taxes, Minority Interests and Equity in Earnings of Affiliated Companies

As a result of the above factors, consolidated income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 increased by 51.8%, or ¥80,712 million, to ¥236,491 million (U.S.\$2,004 million) as compared to ¥155,779 million for the fiscal year ended March 31, 2006.

Total Income Taxes

Total consolidated income taxes for the fiscal year ended March 31, 2007 increased by ¥35,775 million to ¥79,745 million (U.S.\$676 million) from ¥43,970 million for the fiscal year ended March 31, 2006. The actual effective tax rate for the fiscal year ended March 31, 2007 increased to 33.7% from 28.2% for the fiscal year ended March 31, 2006. The total change in the effective tax rate for the fiscal year ended March 31, 2007 as compared to the prior fiscal year was largely due to changes in the amount of tax benefits realized in connection with operating losses of certain subsidiaries. For additional information, see Note 16 of the Notes to Consolidated Financial Statements.

Income from Continuing Operations Before Minority Interests and Equity in Earnings of Affiliated Companies

As a result of the above factors, consolidated income from continuing operations before minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 increased by ¥44,937 million to ¥156,746 million (U.S.\$1,328 million) as compared to ¥111,809 million for the fiscal year ended March 31, 2006.

Minority Interests in Income of Consolidated Subsidiaries

Minority interests in income of consolidated subsidiaries for the fiscal year ended March 31, 2007 increased by ¥1,245 million to ¥6,580 million (U.S.\$55 million) as compared to ¥5,335 million for the fiscal year ended March 31, 2006. Minority interests in income of consolidated subsidiaries increased mainly as a result of improved earnings recorded by subsidiaries in Australia and China.

Equity in Earnings of Affiliated Companies

Consolidated equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 increased by ¥431 million to ¥3,098 million (U.S.\$26 million) as compared to ¥2,667 million for the fiscal year ended March 31, 2006, in part due to the improved earnings recorded by affiliated companies in which Komatsu owns minority interests.

Table of Contents

Income from Continuing Operations

As a result of the above, consolidated income from continuing operations for the fiscal year ended March 31, 2007 increased by 40.4%, or ¥44,123 million, to ¥153,264 million (U.S.\$1,299 million) as compared to ¥109,141 million for the fiscal year ended March 31, 2006.

Income from Discontinued Operations Less Applicable Income Taxes, Minority Interests and Equity in Earnings of Affiliated Companies

Consolidated income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 increased by 120.9%, or ¥6,225 million, to ¥11,374 million (U.S.\$96 million) as compared to ¥5,149 million for the fiscal year ended March 31, 2006. Consolidated income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2007 include the gain from the sale of KEM s shares in the amount of approximately ¥7.5 billion (U.S.\$ 64 million).

Net Income

As a result of the above factors, Komatsu s consolidated net income for the fiscal year ended March 31, 2007 increased by ¥50,348 million to ¥164,638 million (U.S.\$1,395 million) as compared to ¥114,290 million for the fiscal year ended March 31, 2006. As a result, basic net income per share rose to ¥165.70 for the fiscal year ended March 31, 2007 from ¥115.13 for the fiscal year ended March 31, 2006. Diluted net income per share rose to ¥165.40 for the fiscal year ended March 31, 2007 from ¥114.93 for the fiscal year ended March 31, 2006.

Table of Contents*Segment Profit*

Segment profit, which is one of Komatsu's key management indices, is calculated in conformity with Japanese accounting principles by subtracting the cost of sales and selling, general and administrative expenses from net sales. Komatsu considers segment profit to be one of its key management indices because it enables management to evaluate financial data for each operating and geographic segment separately, without the effect of factors unrelated to business activities, such as impairment loss or interest income/expense. Based on such evaluation of financial data for each operating and geographic segment, management assesses the performance of each such operating and geographic segment and determines how to allocate resources to each such segment.

Segment profit on a consolidated basis increased by 51.8%, or ¥85,245 million, to ¥249,746 million (U.S.\$2,116 million) for the fiscal year ended March 31, 2007 from ¥164,501 million for the fiscal year ended March 31, 2006. Segment profit in the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2007 increased by 54.4%, or ¥77,702 million, to ¥220,606 million (U.S.\$1,870 million) from ¥142,904 million for the fiscal year ended March 31, 2006. Factors contributing to the increase in Segment profit in the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2007 were: (i) higher gross margin resulting from increased sales volume (which increased segment profit by approximately ¥53.5 billion), (ii) higher product prices (which increased segment profit by approximately ¥46.4 billion), (iii) gains from foreign exchange rate fluctuations as the Japanese yen weakened against both the U.S. Dollar and the Euro during the fiscal year ended March 31, 2007 (which increased segment profit by approximately ¥16.1 billion), and (iv) lower costs. Such factors offset the higher prices of steel materials, tires and other purchased parts (which decreased segment profit by approximately ¥14.6 billion), and higher fixed costs related to research and development activities and reinforcing Komatsu's sales and product support services. Segment profit for the Industrial Machinery, Vehicles and Others operating segment for the fiscal year ended March 31, 2007 increased by 31.5%, or ¥7,085 million, to ¥29,555 million (U.S.\$250 million) from ¥22,470 million for the fiscal year ended March 31, 2006. This increase was primarily due to increased sales generated by the consolidated subsidiaries of the Company, including Komatsu Forklift Co., Ltd., Komatsu Industries Corp., Komatsu Machinery Corp. and Komatsu Logistics Corp., and other subsidiaries. In the Electronics operating segment, while Komatsu Electronics Inc., a wholly-owned subsidiary engaging in the production and sale of temperature-control equipment for semiconductor manufacturing, increased profits within the Electronics operating segment, the sale of polycrystalline silicon business reduced overall segment profit for the fiscal year ended March 31, 2007 to ¥2,137 million (U.S.\$18 million) by 29.8%, or ¥908 million, from ¥3,045 million in the fiscal year ended March 31, 2006.

Table of Contents**Performance by Operating Segments**

The following table indicates net sales and segment profit broken down by operating segments for the fiscal years ended March 31, 2007 and 2006.

Notes:				

1) Transfers between segments are made at estimated arm's-length prices.

2)

Edgar Filing: KOMATSU LTD - Form 20-F

In conformity with Japanese accounting principles, segment profit is obtained by subtracting the aggregate sum of cost of sales and selling, general and administrative expenses, from net sales.

- 3) On October 18, 2006, the Company sold 51.0% of the shares of KEM to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The operating results of these subsidiaries and the OPE business, and the gain recognized on the sale of KEM and its subsidiaries are presented as income from discontinued operations in the consolidated statements of income in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The above consolidated statements of income have been reclassified to take these sales into consideration.

Table of Contents

Construction and Mining Equipment

Consolidated net sales to customers in the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2007 increased by 21.4%, or ¥276,500 million, to ¥1,567,723 million (U.S.\$13,286 million) as compared to ¥1,291,223 million for the fiscal year ended March 31, 2006. As the markets for products manufactured by Komatsu continued to grow worldwide, Komatsu expanded production capacity in consultation with suppliers, worked jointly with Komatsu's distributors to launch updated models of its existing products that comply with new emission gas regulations in Japan, North America and Europe, and reinforced its sales and service operations in Greater Asia.

With respect to production, Komatsu proactively expanded its manufacturing capacity for key components, such as engines and hydraulic equipment. In January 2007, Komatsu opened the Ibaraki Plant in Japan for the production of large dump trucks and wheel loaders. In India where the economy has been growing rapidly, Komatsu opened Komatsu India Private Limited and also embarked on the production of large dump trucks.

Net sales to customers in Japan (based on sales destination) for the fiscal year ended March 31, 2007 increased by 2.8%, or ¥7,804 million, to ¥282,596 million (U.S.\$2,395 million) as compared to ¥274,792 million for the fiscal year ended March 31, 2006. This increase was due primarily to increased capital outlays in the private sector as a result of increased profits, improved corporate balance sheet, and growth in export volume. In addition, the increase in net sales in Japan was due in part to an increase in demand for new equipment in Japan, especially in the rental industry, during the fiscal year ended March 31, 2007 as a result of (1) the robust export of used construction equipment from Japan to developing countries such as China and countries in the Middle East, which contributed to the decrease in the stock of equipment that is in use in Japan and (2) the increase in demand for equipment complying with the new emission gas regulations.

Table of Contents

In the Americas, while demand declined for small construction equipment due to the slowing in the housing market in the United States, demand for other equipment remained strong in non-residential construction projects, highway-related projects and resource development projects. In Latin America, demand for mining equipment increased. Given such environment, Komatsu made efforts to increase sales of its Tier III emission regulations compliant models and to realize the appropriate sales price of its products in North America. Komatsu also worked to reinforce its sales and product support capabilities for the mining industry in both North and South America.

As a result, net sales to customers in the Americas (based on sales destination) for the fiscal year ended March 31, 2007 increased by 14.0% (or ¥59,060 million) to ¥480,193 million (U.S.\$4,069 million) as compared to ¥421,133 million for the fiscal year ended March 31, 2006.

In Europe, market demand improved in Germany, the largest European market of Komatsu products, and in Eastern Europe. Komatsu made efforts to capture such increase in demand by (1) introducing and expanding sales of its Tier III-compliant models, including a large wheel loader with enhanced capabilities, (2) streamlining its production process starting with the procurement of raw materials and parts to the manufacturing and sales of its products and (3) strengthening its distribution network by relocating its distributors in Eastern Europe.

In CIS, sales expanded driven by strong demand in resource development-related sectors and infrastructure developments in metropolitan areas. As a result, net sales to customers in Europe and CIS (based on sales destination) for the fiscal year ended March 31, 2007 increased by 39.0% (or ¥87,536 million) to ¥311,808 million (U.S.\$2,642 million) as compared to ¥224,272 million for the fiscal year ended March 31, 2006.

Komatsu continued to record strong sales in mining equipment in Oceania. Sales in Indonesia, the largest market of Komatsu's products in Southeast Asia, also increased reflecting the recovery in demand within the civil engineering sector. As a result, net sales to customers in Asia and Oceania (based on sales destination) for the fiscal year ended March 31, 2007 increased by 17.4%, or ¥34,153 million, to ¥229,881 million (U.S.\$1,948 million) as compared to ¥195,728 million for the fiscal year ended March 31, 2006.

Table of Contents

In China, the construction and mining equipment market continued to record a high rate of growth for Komatsu's products. Komatsu focused its efforts on streamlining its production and sales operations using information regarding current and prospective outlooks it received through its discussion with customers and real time data about its machines through the deployment of information technology. Komatsu also expanded sales of mining equipment primarily in large dump trucks as a result of increased mining activities. As a result, net sales to customers in China (based on sales destination) for the fiscal year ended March 31, 2007 increased by 59.1%, or ¥40,247 million, to ¥108,392 million (U.S.\$919 million) as compared to ¥68,145 million for the fiscal year ended March 31, 2006.

In the Middle East and Africa, demand for Komatsu's products continued to expand due primarily to an increase in the number of infrastructure development projects in Saudi Arabia and other oil producing countries, as well as in Turkey, and an increase in the number of mining development projects in African countries. To capture increased investments in infrastructure development projects mainly in oil-producing countries, Komatsu carried out aggressive marketing and promotion activities and worked to reinforce product support functions by increasing the number of its support centers and personnel. As a result, net sales to customers in the Middle East and Africa (based on sales destination) increased by 44.5%, or ¥47,700 million, from ¥107,153 million to ¥154,853 million (U.S.\$1,312 million) for the fiscal year ended March 31, 2007 as compared to the fiscal year ended March 31, 2006.

Segment profit for the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2007 increased by 54.4%, or ¥77,702 million, to ¥220,606 million (U.S.\$1,870 million) as compared to ¥142,904 million for the fiscal year ended March 31, 2006. This increase was primarily due to positive factors such as expanded gross margin as a result of increased sales volume, gain from foreign exchange rates, price increase and cost reductions of its products which outweighed negative factors such as the soaring price of parts, an increase in research and development expenses for developing models which are compliant with new emission gas regulations, and the costs incurred to reinforce its sales and product support organization. Komatsu also worked to further improve its management efficiency by merging ten affiliated rental companies to Komatsu Rental Japan Ltd. in October 2006.

Table of Contents

Industrial Machinery, Vehicles and Others

Consolidated net sales to customers in the Industrial Machinery, Vehicles and Others operating segment for the fiscal year ended March 31, 2007 increased by 6.6%, or ¥18,525 million, to ¥298,022 million (U.S.\$2,526 million) as compared to ¥279,497 million for the fiscal year ended March 31, 2006. Segment profit for the Industrial Machinery, Vehicles and Others operating segment for the fiscal year ended March 31, 2007 increased by 31.5%, or ¥7,085 million, to ¥29,555 million (U.S.\$250 million) as compared to ¥22,470 million for the fiscal year ended March 31, 2006. The increase of sales and profits were primarily due to strong sales recorded by Komatsu's principal subsidiaries, such as Komatsu Forklift Co, Ltd. and Komatsu Industries Corporation. For example, Komatsu Forklift Co., Ltd. increased its sales by not only expanding sales in the Middle East and Asian markets but also launching a full line of new battery-powered forklifts models in the overseas markets. For fiscal year ended March 31, 2007, sales of Komatsu Industries' sheet metal and press machines were brisk mainly due to high demand for AC Servo technology-incorporated presses. With respect to large presses, Komatsu commenced production at its new plant in Ishikawa Prefecture in Japan in January 2007, expanding its production capacity to meet increasing orders for AC Servo technology-incorporated presses.

Electronics

Consolidated net sales to customers in the Electronics operating segment for the fiscal year ended March 31, 2007 decreased by 33.4%, or ¥13,822 million, to ¥27,598 million (U.S.\$ 234 million) as compared to ¥41,420 million for the fiscal year ended March 31, 2006. This decrease was primarily due to decreased sales resulting from the sale of the polycrystalline silicon business, which completed during the fiscal year ended March 31, 2007, while Komatsu Electronics Inc., a wholly-owned subsidiary engaging in the production and sale of temperature-control equipment for semiconductor manufacturing, expanded sales for the fiscal year ended March 31, 2007. Segment profit for the Electronics operating segment for the fiscal year ended March 31, 2007 decreased by 29.8%, or ¥908 million, from ¥3,045 million to ¥2,137 million (U.S.\$18 million) as compared to the fiscal year ended March 31, 2006.

Table of Contents**Performance by Geographic Segments**

The following table indicates net sales and segment profit broken down by the geographic origin of sellers for the fiscal years ended March 31, 2007 and 2006.

Note: In conformity with Japanese accounting principles, segment profit is obtained by subtracting the aggregate sum of cost of sales and selling, general and administrative expenses, from net sales.

Table of Contents

Japan

Net sales to customers in the Japan geographic segment for the fiscal year ended March 31, 2007 increased by 8.3%, or ¥56,946 million, to ¥739,206 million (U.S.\$6,264 million) as compared to ¥682,260 million for the fiscal year ended March 31, 2006. In the Construction and Mining Equipment business, overseas demand in mining and infrastructure construction remained steady and exports of construction and mining equipment grew significantly primarily due to the expansion of the global economy. In the Industrial Machinery, Vehicles and Others operating segment, the industrial machinery business and the forklift business led the continued growth in sales as exports of such products increased.

Segment profit for Japan for the fiscal year ended March 31, 2007 increased by 55.9% (or ¥50,280 million) from ¥89,913 million to ¥140,193 million (U.S.\$1,188 million) as compared to the fiscal year ended March 31, 2006.

Americas

Net sales to customers in the Americas geographic segment for the fiscal year ended March 31, 2007 increased by 13.2% (or ¥61,743 million) from ¥466,049 million to ¥527,792 million (U.S.\$4,473 million) as compared to the fiscal year ended March 31, 2006. This increase in net sales was primarily due to the increase in sales of construction and mining equipment, which sales increase exceeded that of the last fiscal year. This increase in sales was partially offset by the decrease in sales in the Electronics operating segment as a result of the sale of ASiMI during the fiscal year ended March 31, 2006.

Segment profit for the Americas for the fiscal year ended March 31, 2007 increased by 33.0% (or ¥12,876 million) from ¥38,966 million to ¥51,842 million (U.S.\$439 million) as compared to the fiscal year ended March 31, 2006. This increase was due primarily to Komatsu's continuing effort to improve the sales prices of its products in the Construction and Mining Equipment operating segment, which was partially offset by a decrease in sales in the Electronics operating segment as a result of the sale of ASiMI during the fiscal year ended March 31, 2006.

Table of Contents

Europe

Net sales to customers in Europe geographic segment for the fiscal year ended March 31, 2007 increased by 40.2%, or ¥85,665 million, to ¥298,509 million (U.S.\$2,530 million) as compared to ¥212,844 million for the fiscal year ended March 31, 2006. This increase was due primarily to an increase in sales of construction and mining equipment, including an increase in sales of large hydraulic excavators, as resource development activities increased in this geographic segment.

Segment profit for Europe for the fiscal year ended March 31, 2007 increased by 58.0%, or ¥ 11,789 million, to ¥32,104 million (U.S.\$272 million) as compared to ¥20,315 million for the fiscal year ended March 31, 2006, such improvement was due primarily to increased sales of construction and mining equipment.

Others

Net sales to customers in the Others geographic segment for the fiscal year ended March 31, 2007 increased by 30.6%, or ¥76,849 million, to ¥327,836 million (U.S.\$2,778 million) as compared to ¥250,987 million for the fiscal year ended March 31, 2006. This increase was due primarily to the increase in sales of construction and mining equipment mainly in China and Australia as a result of economic growth and increased demand in those areas.

Segment profit for the Others geographic segment for the fiscal year ended March 31, 2007 increased by 68.7%, or ¥15,494 million, to ¥38,033 million (U.S.\$322 million) as compared to ¥22,539 million for the fiscal year ended March 31, 2006, such improvement was due primarily to increased sales of construction and mining equipment.

Table of Contents**Comparison of Fiscal Years Ended March 31, 2006 and 2005**

The following tables set forth selected consolidated financial and operating data, including numerical data expressed as a percentage of total consolidated net sales for the periods indicated, and the changes in each consolidated financial line item between the indicated fiscal years.

	Millions of Yen				Percentage change 2006 vs. 2005

Table of Contents

Notes:

- 1) Segment profit is calculated in conformity with Japanese accounting principles. Segment profit is obtained by subtracting cost of sales and selling, general and administrative expenses from net sales.

- 2) Starting from the fiscal year ended March 31, 2007, Komatsu changed its method for presenting its consolidated statements of income from a single-step method to a multiple-step method. To calculate the percentage change from the previous fiscal year, Komatsu used the corresponding figures for the fiscal year ended March 31, 2005 and 2006 which was reclassified using the multiple-step method.

- 3) On October 18, 2006, the Company sold 51.0% of the shares of KEM to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The above consolidated statements of income have been reclassified to take these sales into consideration.

Table of Contents

Net sales

Consolidated net sales for the fiscal year ended March 31, 2006 increased by 18.9% (or ¥256,069 million) from ¥1,356,071 million to ¥1,612,140 million as compared to the fiscal year ended March 31, 2005. For the fourth consecutive fiscal year, Komatsu recorded growth with respect to net sales. The 18.9% increase was primarily due to increased sales in the Construction and Mining Equipment operating segment, which primarily resulted from (1) the expansion of the U.S. economy, (2) the development of and increased investments in infrastructure by countries in emerging markets, (3) an increase in demand for raw materials that produce energy and (4) the rising prices of primary commodities.

Net sales in the Construction and Mining Equipment operating segment, the Industrial Machinery, Vehicles and Other operating segment for the fiscal year ended March 31, 2006 increased by 21.7% (or ¥230,062 million) and 12.5% (or ¥31,010 million) as compared to the fiscal year ended March 31, 2005, respectively. Net sales in the Electronics operating segment for the fiscal year ended March 31, 2006 decreased by 10.8% (or ¥5,003 million) as compared to the fiscal year ended March 31, 2005. See the discussion in the operating segment section provided below for additional information.

Cost of Sales

Komatsu's consolidated cost of sales increased by 17.4% (or ¥175,381 million) from ¥1,009,859 million to ¥1,185,240 million as compared to the fiscal year ended March 31, 2005, in line with the increase in sales for the fiscal year ended March 31, 2006. The ratio of cost of sales to net sales decreased by 1.0 points from 74.5% to 73.5% for the fiscal year ended March 31, 2006 as compared to the fiscal year ended March 31, 2005 because the increase in cost of sales for the fiscal year ended March 31, 2006 was fully offset by the increase in net sales for the fiscal year ended March 31, 2006 due to Komatsu's ability to leverage its fixed cost.

Selling, General and Administrative Expenses

Selling, general and administrative expenses rose by 4.1% in the fiscal year ended March 31, 2006 to ¥262,399 million from ¥252,011 million in the fiscal year ended March 31, 2005, primarily due to higher direct selling expenses, which is in line with the increase in sales volume during the year ended March 31, 2006. Although Komatsu experienced an increase in certain expenses in the fiscal year ended March 31, 2006 due to its efforts to reinforce its product support and services structure, safety and environmental management system, and compliance programs relating to environmental and other regulations, the ratio of selling, general and administrative expenses to net sales decreased by 2.3 points to 16.3% as compared to 18.6% for the fiscal year ended March 31, 2005 as Komatsu benefited from its continuous efforts to decrease fixed costs as part of the Reform of Business Structure project.

Table of Contents

Impairment Loss on Long-Lived Assets Held for Use

The impairment loss on long-lived assets held for use for the fiscal year ended March 31, 2006 increased by 14.1% (or ¥591 million) from ¥4,200 million to ¥4,791 million as compared to the fiscal year ended March 31, 2005.

Impairment Loss on goodwill

The impairment loss on goodwill for the fiscal year ended March 31, 2006 increased by ¥3,041 million from ¥0 million to ¥3,041 million as compared to the fiscal year ended March 31, 2005. For the fiscal year ended March 31, 2006, Komatsu recognized an impairment loss of ¥3,041 million on goodwill allocated to a reporting unit in the Construction and Mining Equipment operating segment due to the unfavorable business circumstance relating to the net assets of such reporting unit. This impairment loss was recognized based on the amount by which the sum of the net book value of the reporting unit to which the goodwill was assigned exceeded the estimated fair value of such reporting unit as determined based on estimated future discounted cash flows.

Operating Income.

Consolidated operating income for the fiscal year ended March 31, 2006 increased by 70.5% (or ¥67,566 million) from ¥95,862 million to ¥163,428 million as compared to the fiscal year ended March 31, 2005.

Other Expenses

Consolidated other expenses for the fiscal year ended March 31, 2006 increased by 91.6% (or ¥3,656 million) from ¥3,993 million to ¥7,649 million as compared to the fiscal year ended March 31, 2005. This 91.6% increase was primarily due to the loss of ¥4,298 million suffered by Komatsu in connection with the sale or disposal of its fixed assets during the fiscal year ended March 31, 2006 as it made efforts to improve its manufacturing facilities, as well as, net foreign exchange loss of ¥1,545 million.

Table of Contents

Income from Continuing Operations Before Income Taxes, Minority Interests and Equity in Earnings of Affiliated Companies

Consolidated income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2006 increased by 69.6% (or ¥63,910 million) from ¥91,869 million to ¥155,779 million as compared to the fiscal year ended March 31, 2005.

Total Income Taxes

Total consolidated income taxes for the fiscal year ended March 31, 2006 increased by ¥9,685 million to ¥43,970 million due to an income tax expense of ¥34,285 million for the fiscal year ended March 31, 2005. The actual effective tax rate for the fiscal year ended March 31, 2006 decreased to 28.2 % from 37.3% as compared to the fiscal year ended March 31, 2005. The change in effective tax rate for the fiscal year ended March 31, 2006 as compared to the prior fiscal year was largely due to the tax benefit recognized by Komatsu America Corp. amounting to ¥18,357 million on net operating loss carry forwards of its subsidiaries. The difference between the combined statutory tax rate of 40.8% and the actual effective tax rate of 28.2% was caused by a realization of tax benefits on operating losses of subsidiaries and income from foreign subsidiaries being taxed at a rate lower than the Japanese statutory rate, which was offset in part by operating losses for which no benefit has been recognized and non-deductible expenses.

Income from Continuing Operations Before Minority Interests and Equity in Earnings of Affiliated Companies

As a result of the above factors, consolidated income from continuing operations before minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2006 increased by ¥54,225 million from ¥57,584 million to ¥111,809 million as compared to the fiscal year ended March 31, 2005.

Minority Interests in Income of Consolidated Subsidiaries

Minority interests in income of consolidated subsidiaries for the fiscal year ended March 31, 2006 increased by ¥2,732 million from ¥2,603 million to ¥5,335 million as compared to the fiscal year ended March 31, 2005. Minority interests in income of consolidated subsidiaries increased mainly because of improved earnings recorded by subsidiaries in China.

Table of Contents

Equity in Earnings of Affiliated Companies

Consolidated equity in earnings of affiliated companies for the fiscal year ended March 31, 2006 increased by ¥1,780 million from ¥887 million to ¥2,667 million as compared to the fiscal year ended March 31, 2005, due to the improved earnings recorded by affiliated companies in which Komatsu owns minority interests.

Income from Continuing Operations

As a result, consolidated income from continuing operations for the fiscal year ended March 31, 2006 increased by ¥53,273 million from ¥55,868 million to ¥109,141 million as compared to the fiscal year ended March 31, 2005.

Income from Discontinued Operations Less Applicable Income Taxes, Minority Interests And Equity In Earnings of Affiliated Companies

Consolidated income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies for the fiscal year ended March 31, 2006 increased by ¥2,007 million from ¥3,142 million to ¥5,149 million as compared to the fiscal year ended March 31, 2005.

Net Income.

As a result of the above factors, Komatsu's consolidated net income for the fiscal year ended March 31, 2006 increased by ¥55,280 million from ¥59,010 million to ¥114,290 million, as compared to the fiscal year ended March 31, 2005. Accordingly, basic net income per share rose to ¥115.13 for the fiscal year ended March 31, 2006 from ¥59.51 for the fiscal year ended March 31, 2005. Diluted net income per share rose to ¥114.93 for the fiscal year ended March 31, 2006 from ¥59.47 for the fiscal year ended March 31, 2005.

Segment Profit

Segment profit for the fiscal year ended March 31, 2006 increased by 74.6% (or ¥70,300 million) from ¥94,201 million to ¥164,501 million as compared to the fiscal year ended March 31, 2005. Segment profit is calculated in conformity with Japanese accounting principles. Segment profit is obtained by subtracting cost of sales and selling, general and administrative expenses from net sales.

2)

Edgar Filing: KOMATSU LTD - Form 20-F

In conformity with Japanese accounting principles, segment profit is calculated by subtracting the aggregate sum of cost of sales and selling, general and administrative expenses, from net sales.

- 3) On October 18, 2006, the Company sold 51.0% of the shares of KEM to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest in KEM. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. to a Japanese subsidiary of Husqvarna AB of Sweden. The sale of the OPE business was completed on April 2, 2007. As a result, the operating results of KEM and its subsidiaries as well as the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results as of the date of their respective disposition. The above consolidated statements of income have been reclassified to take these sales into consideration.

Table of Contents

Net sales to customers recognized by sales destination for the fiscal years ended March 31, 2006 and 2005 were as follows:

	Millions of Yen Fiscal Years Ended		Percentage Change 2006 vs. 2005
	March 31,		
	2006	2005	2005
Japan	¥ 482,825	¥ 479,007	0.8%
Americas	477,718	355,561	34.4%
Europe and CIS	232,329	195,281	19.0%
China	89,667	51,987	72.5%
Asia (excluding Japan and China) and Oceania	213,719	190,458	12.2%
Middle East and Africa	115,882	83,777	38.3%
Consolidated net sales	¥ 1,612,140	¥ 1,356,071	18.9%

Table of Contents*Construction and Mining Equipment*

Consolidated net sales to customers in the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2006 increased by 21.7% (or ¥230,062 million) from ¥1,061,161 million to ¥1,291,223 million as compared to the fiscal year ended March 31, 2005. This increase reflected increased sales both in Japan and the overseas market as explained below.

Net sales to customers in Japan (based on sales destination) for the fiscal year ended March 31, 2006 increased by 1.2% (or ¥3,295 million) from ¥271,497 million to ¥274,792 million as compared to the fiscal year ended March 31, 2005. While Japanese construction investments remained at about the same level in fiscal year ended March 31, 2006 as the fiscal year ended March 31, 2005, Komatsu experienced an increase in demand for new equipment in the fiscal year ended March 31, 2006 as compared to the fiscal year ended March 31, 2005, due to (1) the robust export of used construction equipment from Japan to developing countries such as China and countries in the Middle East, which contributed to the decrease in the stock of equipment that is in use in Japan, and (2) the ongoing reconstruction projects in earthquake and typhoon-devastated areas in Japan. Under such business environment, Komatsu focused its efforts on strengthening its used equipment business and improving its management efficiencies in the rental equipment business, while expanding sales of new equipment and increasing the sales price of its equipment. As a result, sales in the Construction and Mining Equipment operating segment in Japan remained at about the same level from the fiscal year ended March 31, 2005.

Net sales to customers in the Americas for the fiscal year ended March 31, 2006 increased by 35.5% (or ¥110,324 million) from ¥310,809 million to ¥421,133 million as compared to the fiscal year ended March 31, 2005. Demand in the Americas continued to increase primary due to the continuing housing construction boom in the United States, which constitutes the world's largest housing market, and increased development of natural resources mainly in Latin America. Reconstruction projects in areas devastated by Hurricane Katrina also contributed to an increase in demand for products in the Construction and Mining Equipment operating segment. In North America, Komatsu increased sales as it carried out aggressive marketing efforts which included increasing the sale price of its products, strengthening its sales and distribution networks and improving its parts delivery capabilities, while promoting production efficiencies by transferring the knowledge accumulated by the mother factory in Japan to its overseas factories. Sales in Latin America were also strong, especially with respect to sales of mining equipment in Brazil and Chile.

Net sales to customers in Europe and CIS for the fiscal year ended March 31, 2006 increased by 20.5% (or ¥38,209 million) from ¥186,063 million to ¥224,272 million as compared to the fiscal year ended March 31, 2005. In Europe, Komatsu strengthened its sales and distribution networks in Eastern Europe and worked to improve its production efficiency mainly by transferring the production of certain models among its plants within Europe. Demand for Komatsu's products in the Construction and Mining Equipment operating segment continued to increase in tandem with the growth of the European Union. Komatsu also expanded sales of its forestry equipment in Europe due to favorable market conditions in the lumber and pulp markets. As a result, sales in Europe in the fiscal year ended March 31, 2006 increased as compared to the fiscal year ended March 31, 2005. In CIS, sales in the Construction and Mining Equipment operating segment increased as the increase in demand for hydraulic excavators in Moscow and other metropolitan cities, as well as mining and energy-related sectors continued.

Table of Contents

Net sales for the Construction and Mining Equipment operating segment in Asia and Oceania for the fiscal year ended March 31, 2006 increased by 13.2% (or ¥22,757 million) from ¥172,971 million to ¥195,728 million as compared to the fiscal year ended March 31, 2005. Although demand in Indonesia decreased in the civil engineering and construction sectors, because of the rising price of fossil fuels, total sales continued to increase in this region due to strong demand for mining equipment and off-highway dump trucks.

Net sales to customers in China for the fiscal year ended March 31, 2006 increased by 68.2% (or ¥27,629 million) from ¥40,516 million to ¥68,145 million as compared to the fiscal year ended March 31, 2005. The demand for construction and mining equipment increased in China in the fiscal year ended March 31, 2006 as compared to the fiscal year ended March 31, 2005 when the construction and mining equipment market in China recorded sluggish demand due to the implementation of measures to tighten credit extensions by the Chinese government. In particular, the increase in demand for small hydraulic excavators and mini excavators accelerated in China because of public development projects. Demand for medium-sized and large equipment also increased as the number of projects to excavate natural resources in China increased. Under these market conditions, Komatsu expanded the local production of mini excavators and commenced the local production of dump trucks in the fiscal year ended March 31, 2006. Komatsu also introduced a new IT-based management system to standardize the workflow of its distributors in China and to enhance its corporate strength.

Net sales to customers in the Middle East and Africa increased by 35.1% (or ¥27,848 million) from ¥79,305 million to ¥107,153 million for the fiscal year ended March 31, 2006 as compared to the fiscal year ended March 31, 2005. In the Middle East, demand for products in the Construction and Mining Equipment increased against the backdrop of increased investments in infrastructure developments mainly in oil-producing countries, as such countries benefited from high crude oil prices. In Africa, demand for mining equipment increased in particular. Under favorable overall market conditions in both regions for Komatsu's products, Komatsu worked to reinforce its sales, service and maintenance capabilities, including providing adequate training to its salespersons and making enhancements to its product support and services structure, which led to increased net sales in this region for the Construction and Mining Equipment operating segment in the fiscal year ended March 31, 2006 when compared to the fiscal year ended March 31, 2005.

Segment profit for the Construction and Mining Equipment operating segment for the fiscal year ended March 31, 2006 increased by 82.2% (or ¥64,477 million) from ¥78,427 million to ¥142,904 million as compared to the fiscal year ended March 31, 2005. This increase in segment profit in the fiscal year ended March 31, 2006 was primarily due to (i) a higher gross margin resulting from increased sales volume (which increased segment profit by approximately ¥47.3 billion), (ii) higher product prices (which increased segment profit by approximately ¥29.5 billion), (iii) gains from foreign exchange rate fluctuations as the Japanese yen weakened against both the U.S. dollar and the Euro in the fiscal year ended March 31, 2006 (which increased segment profit by approximately ¥15.5 billion) and (iv) lower costs. Such factors completely offset higher prices of steel materials, tires and other purchased parts (which decreased segment profit by approximately ¥19.4 billion), and higher fixed costs for research and development activities as well as reinforcing Komatsu's sales and product support services.

Table of Contents

Industrial Machinery, Vehicles and Others

Consolidated net sales in the Industrial Machinery, Vehicles and Others operating segment for the fiscal year ended March 31, 2006 increased by 12.5% (or ¥ 31,010 million) from ¥248,487 million to ¥279,497 million as compared to the fiscal year ended March 31, 2005.

Segment profit for the Industrial Machinery, Vehicles and Others operating segment for the fiscal year ended March 31, 2006 increased by 45.5% (or ¥7,030 million) from ¥15,440 million to ¥22,470 million as compared to the fiscal year ended March 31, 2005. This increase was primarily due to increased sales generated by the consolidated subsidiaries of the Company, such as Komatsu Forklift Co., Ltd., Komatsu Industries Corp., Komatsu Machinery Corp., Komatsu Logistics Corp., and Komatsu Engineering Corp.

Komatsu Forklift Co., Ltd. increased sales in the fiscal year ended March 31, 2006 by effectively capitalizing on increasing demand for forklifts in emerging markets, such as China, CIS and the Middle East, in addition to strong private-sector capital investments in Japan. Komatsu also engaged in aggressive business activities, such as increasing sales prices, launching the marketing of newer engine-driven forklift models and embarking on the local production of forklifts in China.

Komatsu Engineering Corp. enhanced its sales distribution through the development of its original technology.

In the Industrial Machinery sector included under the Industrial Machinery, Vehicles and Others operating segment, Komatsu's Industrial Machinery Division recorded an increase in sales of large presses, centering on new innovative presses which incorporate AC Servo technologies, against the backdrop of greater capital investments by automakers. Komatsu Industries Corporation also experienced an increase on sales primarily from medium-sized presses. In particular, Komatsu Industries Corporation continued to record an increase in sales volume in the Hybrid AC Servo Press series, recording cumulative sales of 1,000 units since the market launch of the series in 2002. Furthermore, sales of machine tools such as crankshaft millers as well as LCD (liquid crystal display) manufacturing-related equipment manufactured by Komatsu Machinery Corporation increased in the fiscal year ended March 31, 2006.

Table of Contents

Electronics

Consolidated net sales for the Electronics operating segment for the fiscal year ended March 31, 2006 decreased by 10.8% (or ¥5,003 million) from ¥46,423 million to ¥41,420 million as compared to the fiscal year ended March 31, 2005. This decrease was due primarily to decreased sales resulting from the sale of the polycrystalline silicon business.

Consolidated segment profit for the Electronics operating segment for the fiscal year ended March 31, 2006 decreased by 43.8% (or ¥2,369 million) from ¥5,414 million to ¥3,045 million as compared to the fiscal year ended March 31, 2005.

In June 2006, Komatsu finalized its negotiations with Renewable Energy Corporation AS (REC), a Norwegian manufacturer of solar battery materials to systems, concerning the sale of ASiMI. Following such negotiations, Komatsu America Corp., Komatsu's U.S. subsidiary owning a 100% interest in ASiMI, formally signed a definitive sales agreement with SGS Holdings Inc., a U.S. subsidiary of REC and sold 75% of its ownership interest in ASiMI to Solar Grade Silicon Holdings at the end of July 2005. Komatsu retained a 25% ownership interest in ASiMI in the form of Class B Units which do not have voting rights but whose consent is required for certain matters, including a liquidation of ASiMI and certain actions relating to the long term materials supply agreement.

Table of Contents**Performance by Geographic Segments**

The following table indicates net sales and segment profit recognized by the geographic origin of the seller of such product or service for the fiscal years ended March 31, 2006 and 2005.

Note: In conformity with Japanese accounting principles, segment profit is obtained by subtracting the aggregate sum of cost of sales and selling, general and administrative expenses, from net sales.

Table of Contents

Japan

Net sales in Japan to customers for the fiscal year ended March 31, 2006 increased by 8.6% (or ¥53,956 million) from ¥628,304 million to ¥682,260 million as compared to the fiscal year ended March 31, 2005. This increase was primarily due to increased sales derived from the robust export of construction and mining equipment from Japan to overseas.

Segment profit for Japan for the fiscal year ended March 31, 2006 increased by 73.8% (or ¥38,179 million) from ¥51,734 million to ¥89,913 million as compared to the fiscal year ended March 31, 2005. This increase was primarily due to increased net sales derived from the export of construction and mining equipment as discussed above, which offset increased production and logistics costs incurred by Komatsu to increase its production capacity within a short period of time to meet increased demand.

Americas

Net sales in the Americas for the fiscal year ended March 31, 2006 increased by 30.8% (or ¥109,765 million) from ¥356,284 million to ¥466,049 million as compared to the fiscal year ended March 31, 2005.

Segment profit for the Americas for the fiscal year ended March 31, 2006 increased by 58.1% (or ¥14,314 million) from ¥24,652 million to ¥38,966 million as compared to the fiscal year ended March 31, 2005.

Europe

Net sales in Europe for the fiscal year ended March 31, 2006 increased by 21.2% (or ¥37,166 million) from ¥175,678 million to ¥212,844 million as compared to the fiscal year ended March 31, 2005.

Segment profit for Europe for the fiscal year ended March 31, 2006 increased by 70.1% (or ¥ 8,372 million) from ¥11,943 million to ¥20,315 million as compared to the fiscal year ended March 31, 2005.

Others

Net sales in the Others geographic segment for the fiscal year ended March 31, 2006 increased by 28.2% (or ¥55,182 million) from ¥195,805 million to ¥250,987 million as compared to the fiscal year ended March 31, 2005.

Segment profit for the Others geographic segment for the fiscal year ended March 31, 2006 increased by 90.9% (or ¥10,732 million) from ¥11,807 million to ¥22,539 million as compared to the fiscal year ended March 31, 2005, due to increased profits in China, Asia, Oceania and the Middle East.

Table of Contents

Discontinued Operations

On October 18, 2006, the Company sold 51.0% of the shares of KEM allocated to a reporting unit in the Electronics operating segment to SUMCO. Prior to this disposition, the Company held a 61.9% equity interest. Accordingly, KEM and its subsidiaries are no longer consolidated in the Company's results from the date of disposition. On January 30, 2007, the Company signed a definitive agreement to sell the OPE business of Komatsu Zenoah Co. allocated to a reporting unit in the Industrial Machinery, Vehicles and Others operating segment to a Japanese subsidiary of Husqvarna AB of Sweden. Accordingly, the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in the Company's results from the date of disposition. The sale of the OPE business was completed on April 2, 2007. In accordance with SFAS No. 144, the gain on sale of KEM's shares and operating results, less applicable income taxes, related to KEM and its subsidiaries as well as the operating results, less applicable income taxes of the OPE business of Komatsu Zenoah Co. and its OPE business subsidiaries are presented as one line, income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies in the consolidated statement of income. Assets and liabilities related to the OPE business of Komatsu Zenoah Co. and its OPE business subsidiaries are classified as held for sale on the consolidated balance sheet as of March 31, 2007. The cash flows attributable to the discontinued operations are not presented separately from the cash flows attributable to activities of the continuing operations in the consolidated statements of cash flows.

Table of Contents

Selected financial information in connection with the discontinued operations for the fiscal years ended March 31, 2007, 2006 and 2005 were as follows:

	Millions of			U.S. dollars 2007

Cash and cash equivalents, end of year	¥ 92,199	¥ 69,997	¥ 97,510	\$ 781

Fiscal Year ended March 31, 2007

Net cash provided by operating activities for the fiscal year ended March 31, 2007 increased by ¥26,017 million to ¥162,124 million (U.S.\$1,374 million) as compared to fiscal year ended March 31, 2006. While Komatsu required a greater amount of working capital to respond to increased sales and manufacturing activity as a result of increased demand for Komatsu's products for the fiscal year ended March 31, 2007, improvements in Komatsu's business performance more than offset such increase in working capital needs.

Net cash used in investing activities for the fiscal year ended March 31, 2007 increased by ¥17,828 million to ¥99,620 million (U.S.\$844 million) as compared to fiscal year ended March 31, 2006. Such increase was primarily attributable to the continued capital investments made by Komatsu to enhance its production capabilities and productivity in Japan and overseas. The income from the sale of the shares of KEM to SUMCO was used to invest in one of our core businesses, in the Industrial Machinery, Vehicles and Others operating segment, through the acquisition of an equity interest in NIPPEI TOYAMA CORPORATION.

Net cash used in financing activities in fiscal year ended March 31, 2007 decreased by ¥42,071 million to ¥41,389 million (U.S.\$351 million) as compared to fiscal year ended March 31, 2006, due primarily to the repayment of a syndicated loan in the amount of ¥32,500 million in Japan.

As a result of the above, cash and cash equivalents in fiscal year ended March 31, 2007 totaled ¥92,199 million (U.S.\$781 million), an increase of ¥22,202 million compared to fiscal year ended March 31, 2006.

Table of Contents

Fiscal Year ended March 31, 2006

Net cash provided by operating activities for the fiscal year ended March 31, 2006 increased by ¥14,738 million to ¥136,107 million as compared to fiscal year ended March 31, 2005. While Komatsu required a greater amount of working capital due to increased demand for Komatsu's products for the fiscal year ended March 31, 2006, improvements in Komatsu's business performance more than offset such increase in working capital needs.

Net cash used in investing activities for the fiscal year ended March 31, 2006 increased by ¥44,061 million to ¥81,792 million as compared to fiscal year ended March 31, 2005. Such increase was primarily attributable to the continued capital investment made by Komatsu to enhance its production capabilities and productivity in Japan and overseas.

Net cash used in financing activities in fiscal year ended March 31, 2006 increased by ¥25,625 million to ¥83,460 million as compared to the fiscal year ended March 31, 2005. The amount of net cash used in financing activities increased as Komatsu repaid a larger amount of interest-bearing debt for the fiscal year ended March 31, 2006 as compared to the fiscal year ended March 31, 2005.

As a result of the above, cash and cash equivalents in fiscal year ended March 31, 2006 totaled ¥69,997 million, a decrease of ¥27,513 million compared to fiscal year ended March 31, 2005.

Table of Contents**Cash Flow Related to Discontinued Operations**

Cash flows attributable to the operating, investing and financing activities of the discontinued operations are not presented separately from the cash flows attributable to activities of the continuing operations. Net cash provided by operating activities of the discontinued operations were ¥14,805 million (U.S.\$125 million), ¥24,823 million and ¥17,166 million for the fiscal years ended March 31, 2007, 2006 and 2005, respectively, and net cash used in investing activities of the discontinued operations were ¥18,295 million (U.S.\$155 million), ¥21,665 million and ¥10,683 million for the fiscal years ended March 31, 2007, 2006 and 2005, respectively. Net cash provided by financing activities of the discontinued operations was ¥1,870 million (U.S.\$15 million) for the fiscal year ended March 31, 2007, and net cash used in financing activities of the discontinued operations were ¥4,090 million and ¥5,519 million for the fiscal year ended March 31, 2006 and 2005, respectively. For the fiscal year ended March 31, 2007, proceeds from the sale of an equity interest in KEM to SUMCO in the amount of ¥35,368 million (U.S.\$300 million), were included in net cash used in investing activities.

Cash flows used in investing activities of its discontinued operations have been provided mainly by cash flows from their operating activities. In addition, Komatsu's discontinued operations did not have any material effect on cash flows from its financing activities. Accordingly, Komatsu does not expect that the absence of cash flows from its discontinued operations will have any material effect on Komatsu's future liquidity and capital resources.

Capital Investment

Komatsu's management defines *Capital Investment* as purchase of property, plant and equipment including properties under capital leases on an accrual basis which reflects the effects of timing differences between acquisition dates and payment dates. Komatsu has included the information concerning capital investment because Komatsu's management uses this indicator to manage its capital investment and Komatsu's management believes that such indicator is useful to investors in that such indicator present accrual basis capital investment in addition to the cash basis capital expenditures in the consolidated statements of cash flows.

Paying particular attention to its Construction and Mining Equipment operating segment, Komatsu invested in the development and production of large mining equipment, the Dantotsu products and other new products complying with the latest emission regulations in Japan, the United States and Europe for the purpose of improving the competitiveness of its product lines. In addition, Komatsu responded to the increasing demand for large mining equipment by expanding its production capacity for the main components of such mining equipment, such as hydraulics and final drives. In the Industrial Machinery, Vehicles and Others operating segment, Komatsu made capital investment to replace deteriorating production facilities to improve productivity. In the Electronics operating segment, Komatsu invested capital to improve productivity and shifted its emphasis to higher-quality products. As a result, Komatsu's capital investment on a consolidated basis for the fiscal year ended March 31, 2007 was ¥129,680 million (U.S.\$1,099 million), an increase of ¥15,746 million from the fiscal year ended March 31, 2006.

Table of Contents

Source of Funds and Liquidity Management

Komatsu's principal capital resources policy is to maintain sufficient capital resources and appropriate levels of liquidity to promptly respond to future capital needs in its operations. Consistent with this policy, Komatsu has secured various sources of funding, such as bank loans, notes, securitized receivables and lines of credit. Komatsu expects to use cash generated from its operations along with funds procured through such sources to satisfy future capital expenditures and working capital needs.

Komatsu's short-term funding needs have been met mainly by cash flows from operating activities, as well as by bank loans and the issuance of commercial paper. Komatsu has maintained committed credit line agreements totaling ¥43,192 million (U.S.\$366 million) with financial institutions to secure liquidity. As of March 31, 2007, approximately ¥36,438 million (U.S.\$309 million) was available to be used under such credit line agreements, which contain customary covenants. Komatsu is not subject to any covenants limiting its ability to incur additional indebtedness. In addition, the Company has a ¥80,000 million (U.S.\$678 million) commercial paper program, ¥80,000 million of which was unused as of March 31, 2007. The amount of capital raised through its commercial paper program has depended upon Komatsu's financing needs, investor demand and market conditions, as well as the ratings outlook for Komatsu. To fulfill Komatsu's medium- to long-term funding needs, the Company has established a bond program under which it can issue up to ¥100,000 million of variable-term bonds and the Company, Komatsu Finance America Inc. and Komatsu Europe Coordination Center N.V. have established a U.S.\$1.2 billion Euro Medium Term Note (EMTN) program. The aggregate principal amount of notes outstanding under these programs totaled ¥64,486 million (US\$546 million) as of March 31, 2007. The amount of capital raised through such programs has depended upon Komatsu's financing needs, investor demand and market conditions, as well as the ratings outlook for Komatsu. Komatsu has also established programs to securitize trade notes and accounts receivables for the purpose of accelerating the receipt of cash related to finance receivables and diversifying sources of funding. As of March 31, 2007, the balance of such off-balance sheet securitized receivables was ¥184,938 million (U.S.\$1,567 million). For additional information about interest rate structure and maturity dates for these borrowings, see Note 12 of the Notes to Consolidated Financial Statements.

Table of Contents*Credit Ratings*

Komatsu's long-term unsecured bonds have been rated by Standard and Poor's services (S&P), Moody's Investors Service, Inc. (Moody's) and Rating and Investment Information, Inc. (R&I). These ratings as of March 31, 2007 were as follows:

	S&P	Moody's	R&I
Long-term unsecured bonds	A-	A2	A+

Fiscal 2007 Financial Position

Komatsu's short-term debt as of March 31, 2007, which primarily consisted of short-term bank loans, increased by ¥4,118 million to ¥102,248 million (U.S.\$867 million) from March 31, 2006. Such short-term debt was used as working capital.

Komatsu's medium- to long-term debt, including debt that was scheduled to mature as of March 31, 2008, decreased by ¥32,957 million to ¥246,826 million (U.S.\$2,092 million) in fiscal year ended March 31, 2007 as compared to fiscal year ended March 31, 2006. As of March 31, 2007, Komatsu's long-term debt excluding market value adjustment consisted of (i) ¥96,458 million in loans from banks, insurance companies and other financial institutions, (ii) ¥64,486 million in EMTNs, (iii) ¥20,000 million in unsecured bonds due 2007, (iv) ¥10,000 million in unsecured bonds due 2009 and (v) ¥55,882 million in capital lease obligations, most of which are used primarily for capital expenditures and long-term working capital. For information about interest rate structure and maturity dates for these borrowings, see Note 12 of the Notes to Consolidated Financial Statements. As a result, Komatsu's interest-bearing debt as of March 31, 2007, including its capital lease obligations, decreased by ¥28,839 million to ¥349,074 million (U.S.\$2,958 million) as compared to that of March 31, 2006. Net interest-bearing debt after deducting cash and deposits also decreased by ¥51,041 million to ¥256,821 million (U.S.\$2,176 million) in fiscal year ended March 31, 2007. As a result, Komatsu's net debt-to-equity ratio as of March 31, 2007 was 0.33, an improvement of 0.16 points as compared to March 31, 2006.

As of March 31, 2007, current assets increased by ¥195,844 million to ¥1,143,745 million (U.S. \$9,693 million), while current liability increased by ¥96,337 million to ¥785,180 million (U.S. \$6,654 million). As the increase of current liability was lower than that of current assets, the current ratio, which is calculated by dividing current assets by current liabilities, as of March 31, 2007, was increased by 8.1 percentage points from the fiscal year ended March 31, 2006 and marked 145.7%.

Based on the cash flow from its operating activities, the available sources of funds and the current ratio, Komatsu believes that it has sufficient means to satisfy its liquidity needs and future obligations.

Table of Contents**C. Research and Development, Patents and Licenses, etc.**

Komatsu is actively engaged in research and development activities for new technologies and products consistent with its commitment to provide Quality and Reliability. Komatsu's research and development activities are conducted by various groups within Komatsu. With respect to the Construction and Mining Equipment operating segment, the Research Division and the Development Division as well as development centers that focus on construction and mining equipment are involved in research and development activities. The Industrial Machinery Division is responsible for research and development activities relating to the industrial machinery, vehicles and others business, and the technology departments of Komatsu's subsidiaries and affiliates are responsible for research and development activities relating to the electronics business.

The following table presents Komatsu's research and development expenses for the fiscal years ended March 31, 2007, 2006 and 2005. Research and development expenses are recognized when incurred.

R&D expenses	Millions of yen			Millions of
	Fiscal Years Ended March 31, 2007	2006	2005	U.S. dollars 2007
Construction and Mining Equipment	37,644	36,271	31,273	319
Industrial Machinery, Vehicles and Others	7,202	7,407	8,407	61
Electronics	1,460	882	1,443	12
Total	46,306	44,560	41,123	392

Notes: R&D expenses have been retrospectively reclassified as for the discontinued operations for the fiscal years ended March 31, 2007, 2006 and 2005.

Table of Contents

The objectives and results of the research and development activities by operating segment for the fiscal year ended March 31, 2007 are described below.

(1) Construction and Mining Equipment

In order to develop construction and mining equipment that can be used in various parts of the world, Komatsu has established research and development centers in Japan and overseas and has encouraged joint research and development programs as well as personnel exchanges. With the aim to help improve customers' productivity, Komatsu's medium- and long-term research and development objectives are to make advancements in the use of information technology and increase the environmental friendliness of its products.

Komatsu has been engaged in the research and development of information technology, including remote management technology (which enables remote management of equipment by obtaining information regarding machine locations, operating conditions and vehicle health, using state-of-the-art remote sensing and telecommunication technologies), control technology and artificial intelligence. Construction and mining equipment with control systems and management systems using these technologies have been rapidly penetrating the construction and mining equipment market. Komatsu is making efforts in order to achieve the complete automation of its equipment.

Komatsu has made advances in research and development relating to energy conservation, component recycling and reuse, and the evaluation of environmental loads through lifecycle assessment techniques based on the belief that it is possible to reduce environmental burdens while achieving economic efficiency. Komatsu has already attained compliance with the 2006 Tier III standards of the EPA for its products in the 130-560kW category and is nearly finished with developing products that are 2007 Tier III standard compliant in the 75-129kW category. In anticipation of the Tier IV standards, set by the EPA, that become effective as of January 2011, Komatsu commenced the development of Tier IV compliant engines in 2005. In addition, Komatsu has worked to improve the working conditions for machine operators by improving safety measures and reducing noise and vibration of its machines.

The principal products developed during the fiscal year ended March 31, 2007 are listed below:

Name of Company	Product	Model
Company:	Hydraulic Excavators	PC2000-8, PC228US-3E0, PC308US-3E0, PC1250-8, PC128US-8, PC138US-8, PC160LC-7E0
	Bulldozers	D375AX-5E0
	Wheel Loaders	WA470-6, WA480-6, WA420-6, WA800-3E0, WA900-3E0
	Dump Trucks	HD785-7
	Motor Graders	GD655-3E0, GD675-3E0
	Mobile Debris Crusher	BR380JG-1E0
Komatsu UK Ltd.:	Wheeled Hydraulic Excavator	PW130-7
Komatsu Hanomag GmbH:	Wheeled Hydraulic Excavator	PW180-7
Komatsu Utility Europe S.p.A.:	Skid Steer Loaders	CK-25-1, CK35-1
	Backhoe Loaders	WB93R-5, WB97R-5, WB146-5, WB156-5,
	Hydraulic Excavators	PC88MR-6
	Wheeled Hydraulic Excavator	PW98MR-6

Table of Contents

(2) Industrial Machinery, Vehicles and Others

Research and development in the Industrial Machinery, Vehicles and Others operating segment is principally conducted in the fields of large presses and sheet-metal forging machines (by Komatsu Industries Corporation), machine tools (by Komatsu Machinery Corporation) and industrial vehicles for logistics use (by Komatsu Forklift Co., Ltd.).

In the field of industrial machinery, Komatsu has focused on developing functional enhancements and increasing automation of peripheral equipment in order to respond to the growing customer need to increase the productivity and flexibility of large presses and sheet-metal forging equipment. Komatsu has developed innovative presses incorporating its AC Servo technologies, such as a large-sized AC servo tandem press (Series model), AC frame servo press H1F and a linear servo feeder for large-sized transfer press (type B). Komatsu has also developed a Plasma cutting machine $\sqrt{\text{V}}$ -twister TFPV, as well as crank shaft millers GPM170F and GPM320F. With respect to industrial vehicles, Komatsu has developed vehicles with improved maneuvering capabilities, such as a 1-ton to 5-ton class engine-driven type forklift truck for the United States under its FG Series, a 1-ton class electric-driven type counter-balance hybrid specification forklift truck under its FB Series, a 2-ton class engine-driven type forklift truck for China (LPG specification) under its FG Series.

(3) Electronics

Komatsu's research and development activities in the Electronics operating segment have principally focused on temperature control equipment. In particular, KELK has engaged in the research and development of high-performance temperature control equipment, high-performance thermoelectric module heat-exchange units and micro thermo-modules for use in optical communications.

Table of Contents

D. Trend Information

While there are some factors of concern in the construction and mining equipment business, such as slowing of U.S. housing starts, Komatsu anticipates that investment in energy-related and infrastructure development project will continue to increase. Thus, Komatsu endeavored to achieve further growth and to improve its profits by launching new products and realizing the sales prices of its products in the fiscal year ended March 31, 2007. In particular, Komatsu focused its efforts on the expansion of sales of its Dantotsu products equipped with superior performance features. In response to the expanding demand for mining equipment, Komatsu commenced the operation of new plants in Japan and India in order to enhance its production capacity. In the emerging markets, such as the Greater Asia region, Komatsu further reinforced its marketing and product support capabilities to attain a stronger market position. In the Industrial Machinery business, Komatsu commenced the operation of a new plant in Japan to increase its production capacity in response to the large orders it received for large presses.

Construction and Mining Equipment

Due to large increases in demand for construction and mining equipment in the fiscal year ended March 31, 2007, Komatsu expanded its production capacity of key components for products in its Construction and Mining Equipment operating segment, such as diesel engines and hydraulic equipment. In January 2007, Komatsu opened the Ibaraki Plant in Ibaraki Prefecture in Japan, where it started the production of large dump trucks and wheel loaders. In India, where the economy has been growing rapidly, Komatsu established Komatsu India Private Limited and also embarked on the production of large dump trucks for which demand is expected to accelerate into the future. For additional information about Komatsu's future capital investment plan, see Item 4 D. Property, Plants and Equipment.

While demand for construction and mining equipment was affected by the slowing of housing starts in the United States in the fiscal year ended March 31, 2007 and demand declined for small equipment in particular, demand for other equipment remained brisk. In Latin America, demand, primarily for mining equipment, increased. In such environment, Komatsu made efforts to expand sales of Tier III-compliant models and to realize its prices in North America. Komatsu also worked to reinforce its sales and product support capabilities for the mining industry in North and South America.

In Europe, market demand for the fiscal year ended March 31, 2007 improved in Germany, the largest European market for Komatsu products, and in Eastern Europe. In addition, Komatsu worked to expand sales of its Tier III-compliant models, including a large wheel loader with reinforced capabilities, streamline production and strengthen distribution networks in Eastern Europe.

The Chinese market for the fiscal year ended March 31, 2007 continued to generate a high rate of growth in demand for its equipment, as the number of civil engineering projects increased in line with rural area development measures established by the Chinese government and ongoing urbanization. The mining industry worked to streamline operational efficiency and develop new mines. Komatsu also expanded sales of mining equipment centering on large dump trucks.

Table of Contents

Industrial Machinery, Vehicles and Others

With respect to large presses in the fiscal year ended March 31, 2007, Komatsu has enjoyed a growing number of orders for AC Servo motor-driven products. In the industrial machinery business in the fiscal year ended March 31, 2007, Komatsu Industries Corporation, a wholly-owned subsidiary, achieved good sales of sheet metal and press machinery. The Company also acquired a 29.3% equity interest in NIPPEI TOYAMA CORPORATION which enjoys a large market share in transfer machines and lathes for the machining of automobile engines.

To expand its production capacity for large presses for use in manufacturing automotive bodies, Komatsu has built the new Kanazawa Plant in Ishikawa Prefecture, Japan. In January 2007, the new plant began its operation. The Kanazawa Plant integrates sheet metal, machining and assembling. For additional information about Komatsu's future capital investment plan, see Item 4 D. Property, Plants and Equipment.

Electronics

Komatsu Electronics Inc., a wholly-owned subsidiary engaging in the production and sale of temperature-control equipment for semiconductor manufacturing, increased sales for the fiscal year ended March 31, 2007. Sale of temperature-control equipment is continuously growing because of the expanding demand from the optical communications market. However, net sales from the Electronics operating segments declined in the fiscal year ended March 31, 2007 from the fiscal year ended March 31, 2006 due primarily to decreased sales resulting from the sale of the polycrystalline silicon business executed last fiscal year. Starting with the fiscal year ending March 31, 2008, Komatsu has decided to include the electronics business in the new Industrial Machinery, Vehicles and Others operating segment.

Table of Contents

Forward looking statements

This Annual Report contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu's principal products, owing to changes in the economic conditions in Komatsu's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

Table of Contents**E. Off-Balance Sheet Arrangements**

Komatsu has several accounts receivable securitization programs which are expected to become an important source of capital for Komatsu in the future. As of March 31, 2007, Komatsu had securitized accounts receivable of ¥184,938 million (U.S.\$1,567 million) or approximately 24.7% of its total receivables as of that date.

The securitized receivables are removed from the consolidated balance sheet when they are sold. Komatsu has entered into contractual arrangements with special purpose entities solely for the purpose of securitizing its receivables.

A downgrading or worsening of the quality of Komatsu's receivables portfolio could restrict it from using its receivables securitization programs. Its receivables as of March 31, 2007 and 2006, respectively, are summarized as follows:

	Millions of yen Fiscal Years Ended March 31,		Millions of U.S. dollars 2007
	2007	2006	
Trade notes	¥ 136,837	¥ 98,085	\$ 1,159
Accounts receivable	353,034	311,699	2,992
Total	489,871	409,784	4,151
Less: allowance	(11,808)	(11,786)	(100)
Trade receivables-current	¥ 478,063	¥ 397,998	\$ 4,051
Long-term trade receivables	¥ 73,669	¥ 72,844	\$ 624

Installment and lease receivables (less unearned interests) are included in trade notes and accounts receivables and long-term trade receivables. Lease receivables represent receivables for equipment leased by Komatsu Forklift Co., Ltd. to customers. These leases are accounted for as sales-type leases in conformity with SFAS No. 13. Equipment sales revenue from sales-type leases are recognized at the inception of the leases. As of March 31, 2007 and 2006, lease receivables consisted of the following:

As of March 31, 2007 and 2006, lease receivables consisted of the following:

	Millions of yen Fiscal Years Ended March 31,		Millions of U.S. dollars 2007
	2007	2006	
Minimum lease payments receivable	¥ 22,935	¥ 20,298	\$ 194
Unearned income	(2,212)	(1,842)	(18)
Net lease receivables	¥ 20,723	¥ 18,456	176

Table of Contents

Cash flows received for all securitization activities from the sale of trade notes and accounts receivable for the fiscal years ended March 31, 2007, 2006 and 2005 were ¥355,627 million (U.S.\$3,014 million), ¥382,669 million and ¥339,469 million, respectively.

While Komatsu retains servicing responsibilities in connection with these securitizations, contractual servicing fees are not separately received from third parties. The investors and the securitization trusts have no or limited recourse rights against the assets of Komatsu in the event of obligor default. Adequate reserves have been established for potential losses relating to the limited recourse of the receivables sold. The Company and its consolidated subsidiaries, except for a certain U.S. subsidiary, do not retain any interest in the receivables sold as the transferor.

The components of securitized trade receivables and other assets managed together as of March 31, 2007 and 2006, respectively, were as follows:

	Millions of yen Fiscal Years Ended March 31,		Millions of U.S. dollars 2007
	2007	2006	
Total amount of trade receivables that are managed and securitized	¥ 748,478	¥ 654,638	6,343
Assets transferred	(184,938)	(172,010)	(1,567)
Total amount of trade receivables on balance sheet	¥ 563,540	¥ 482,628	\$ 4,776

A certain U.S. subsidiary's retained interests, which are included in the recourse provisions, are subordinate to the investor's interests and their values are subject to certain key assumptions. Key assumptions used in measuring the fair value of such retained interests relating to securitization transactions completed during the fiscal years ended March 31, 2007 and 2006, were as follows:

	Fiscal Years Ended March 31,	
	2007	2006
Weighted-average life	30 months	31 months
Prepayment speed over the life	0.7%	0.6%
Expected credit losses over the life	1.0%	1.6%

The carrying amount of such retained interests was ¥202 million (U.S.\$2 million) and ¥817 million as of March 31, 2007 and 2006, respectively. The impact of 10% and 20% changes to key assumptions on the fair value of such retained interests as of March 31, 2007 are immaterial to Komatsu's business as a whole.

Table of Contents

Commitments and Contingent Liabilities

As of March 31, 2007, Komatsu had ¥11,671 million (U.S.\$99 million) of contingent liabilities with financial institutions for discounted and transferred receivables on a recourse basis.

Komatsu provides guarantees to third parties in connection with loans borrowed by its employees and affiliated companies and other companies. These guarantees relate mainly to housing loans extended to Komatsu's employees. The guarantees that support loans borrowed by Komatsu's affiliated companies and other companies are issued to enhance the creditworthiness of these affiliated companies and other companies.

For each guarantee issued, Komatsu is required to perform under such guarantee if the borrower defaults on a payment required to be made by the applicable contract's terms. The contract terms range from 10 years to 30 years in the case of employees' housing loans, and from 1 to 5 years in the case of loans borrowed by Komatsu's affiliated companies and other companies. The maximum aggregate amount of undiscounted payments Komatsu would have had to make in the event that a payment default were to occur for these loans was ¥57,063 million (U.S.\$484 million) as of March 31, 2007. The carrying amounts of liabilities recognized for Komatsu's obligations as guarantor under these guarantees as of March 31, 2007 were believed to be insignificant by its management. Some of these guarantees were secured by collateral or insurance.

Komatsu's management believes that losses from these contingent liabilities, if any, would not have a material effect on the consolidated financial statements of Komatsu.

Table of Contents

Commitments for capital expenditures outstanding as of March 31, 2007, were approximately ¥12,900 million (U.S.\$109 million) in the aggregate.

Komatsu is involved in certain legal actions and claims arising in the ordinary course of its business. It is the opinion of Komatsu's management and legal counsel that such litigation and claims will be resolved without any material effect on Komatsu's financial position.

Komatsu has business activities with customers, dealers and associates around the world and their trade receivables from such parties are well diversified to minimize credit risk concentrations. Komatsu's management does not expect to incur losses on their trade receivables in excess of established allowances.

Komatsu also issues contractual product warranties under which they generally guarantee the performance of products delivered and services rendered for a certain period or term. Changes in accrued product warranty costs for the fiscal years ended March 31, 2007 and 2006 are summarized below:

	Fiscal Years Ended March 31, Millions of yen		Millions of U.S. dollars
	2007	2006	2007
Balance at beginning of year	¥ 26,582	¥ 21,251	\$ 225
Addition	39,756	22,051	337
Utilization	(37,862)	(17,575)	(321)
Other	523	855	5
Balance at end of year	¥ 28,999	¥ 26,582	\$ 246

Table of Contents**F. Tabular Disclosure of Contractual Obligations**

The following tables set forth Komatsu's contractual obligations as of March 31, 2007.

	Millions of yen				
	Expected Maturity Date				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Short-term Debt Obligations	¥ 102,406	¥ 102,406			
Long-term Debt Obligations (excluding Capital Lease Obligations)	192,525	54,340	108,496	29,281	408
Capital (Finance) Lease Obligations	55,882	19,188	25,289	9,187	2,218
Operating Lease Obligations	11,629	3,220	3,850	1,706	2,853
Interest on interest-bearing debt	14,841	9,720	3,869	972	280
Pension and other postretirement obligations	5,096	5,096			
Total	¥ 382,379	¥ 193,970	¥ 141,504	¥ 41,146	¥ 5,759

	Millions of U.S. dollars				
	Expected Maturity Date				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Short-term Debt Obligations	\$ 868	\$ 868			
Long-term Debt Obligations (excluding Capital Lease Obligations)	1,632	461	919	248	4
Capital (Finance) Lease Obligations	474	163	214	78	19
Operating Lease Obligations	98	27	33	14	24
Interest on Interest-bearing Debt	125	82	33	8	2
Pension and Other Postretirement Obligations	43	43			
Total	\$ 3,240	\$ 1,644	\$ 1,199	\$ 348	\$ 49

Short-term and long-term debt obligations exclude SFAS No. 133 market value adjustments of ¥158 million (U.S.\$1 million) and ¥1,581 million (U.S.\$13 million), respectively. Interest on interest-bearing debt is based on rates in effect as of March 31, 2007. Pension and other postretirement obligations reflect contributions expected to be made during the year ending March 31, 2008 only, as the amounts of funding obligations beyond the next year are not yet determinable.

- 5) There are no arrangements or understandings with major shareholders, customers, suppliers or others, pursuant to which any of the Directors or Corporate Auditors of the Company was selected as a director or member of senior management.

Table of Contents

Corporate Governance

Basic Stance on Corporate Governance

To become a company which enjoys an ever larger trust of all stakeholders by maximizing its corporate value, Komatsu is working to improve management efficiency, strengthen corporate governance, advocate corporate ethics and ensure sound management on a groupwide basis. To further improve transparency of the management to shareholders and investors, Komatsu discloses information in a fair and timely manner and actively engages in investor relations activities by holding meetings in Japan and abroad to explain business results.

Current State of Progress Concerning Corporate Governance

(1) Current Conditions Concerning Management Organizations Relating to Decision-Making, Execution and Supervisory and Other Corporate Governance Functions

a. Organizational Framework

In 1999, Komatsu introduced the executive officer system and has since worked to separate management decision-making and supervisory functions within the confines of the law. At the same time, in addition to having reduced the number of members of the Board of Directors of the Company and appointed outside directors and corporate auditors, the Company has been implementing operational reforms of its Board of Directors through which Board members can discuss important management issues thoroughly and make decisions promptly in order to enhance the effectiveness of the Board of Directors.

The Company's Board of Directors meets every month, discusses and adopts resolutions concerning important matters and determines management policies of Komatsu. The Company's Board of Directors also closely supervises and monitors the performance of management duties by representative and other directors. Three outside directors have been appointed to the Company's Board of Directors (which consisted of ten persons as of March 31, 2007) to enhance management transparency and objectivity.

With respect to corporate auditors (which consisted of five persons as of March 31, 2007), Komatsu has consistently made sure that at least half of them are outside corporate auditors. Each corporate auditor attends the Company's Board of Directors meetings and other important meetings and audits the performance of duties by directors. The Board of Corporate Auditors of the Company performs such audit functions by meeting every month, determines audit policies, establishes scope of responsibilities and accountability and receives periodic status update reports from the directors as to the performance of his or her management duties.

In 1995, Komatsu established the International Advisory Board (IAB) to obtain objective advice and suggestions concerning Komatsu as a global company from internationally leading figures. IAB meets twice a year to exchange opinions on various matters.

The Company established the Compensation Council with a majority of external experts in 1999 and has utilized the recommendations of such experts when revising the compensation system for its directors.

Komatsu has entered into an audit contract with KPMG AZSA & Co. and receives audit services for its accounts in connection with both non-consolidated and consolidated financial statements. Komatsu has also entered into consultation contracts with a number of law firms, receiving advice on important legal issues as needed, in an effort to reduce its legal risk.

Table of Contents

b. Current Conditions of Internal Control System

Komatsu is subject to control requirements of Sections 302 and/or 404 of the Sarbanes-Oxley Act of 2002 of the United States, and is steadily improving the internal control system required for financial reporting and timely disclosure of information.

Komatsu also has a system to promote the management transparency and efficiency of Komatsu. Under this system, the Company appoints directors, executive officers and high-ranking employees of the Company as directors and corporate auditors of the Company's major subsidiaries in Japan and abroad, while they maintain their current position at the Company.

With respect to internal audit, audit teams are formed under the leadership of the Internal Audit Department and joined by staff members of the Legal Department and compliance-related sections, and work to strengthen compliance on a groupwide basis.

c. Current Conditions of Risk Management

Under the basic policy of risk management, Komatsu maintains human, physical, financial, credit and all other resources related to its corporate activities, works to identify the risks surrounding Komatsu and endeavors to prevent and/or mitigate (or minimize) the impact, should such risk materialize.

The Risk Management Committee devises groupwide risk management policies, and reviews and follows up on risk management measures. Should a risk surface, it establishes an emergency headquarters and conducts every possible activity to minimize the damage.

Table of Contents

d. Reassessment of Director s Remuneration System

1) In 2004, the Company reassessed the director s remuneration system in order to link it more directly with Komatsu s business performance. In light of the need for a corporate auditor to remain independent from management, Komatsu has discontinued the business performance-linked bonus payment for its corporate auditors and pays only the basic remuneration, starting with the payment in the fiscal year ended March 31, 2007. Komatsu will also reduce and phase out the retirement allowance system for directors and corporate auditors in the future.

2) **Outline of Personal, Capital or Business Relationships or Other Vested Interests between the Company and Outside Directors and Corporate Auditors**

Mr. Toshio Morikawa, Mr. Hajime Sasaki and Mr. Morio Ikeda are outside directors of the Company as stipulated in Article 2, Item 15 of the Corporation Act of Japan, and none of them have any special vested relationship with the Company. Mr. Takaharu Dohi, Mr. Makoto Okitsu, and Mr. Hiroyuki Kamano are outside corporate auditors of the Company as stipulated in Article 2, Item 16 of the Corporation Act of Japan, and none of them have any special vested relationship with the Company.

3) **Improvement of Internal Control**

a. Safekeeping and Management of Information Relating to Directors Execution of Duties

Komatsu retains and handles important information relating to the directors execution of their duties, including records of the Company s Board of Directors meetings and other documents confirming the requisite approvals by the Company s Board of Directors on a consensus-basis, with utmost care, as stipulated by law and internal regulations.

b. Rules Related to Risk Management of Losses

While Komatsu continues to make efforts to improve its corporate value, it recognizes the importance of compliance matters relating to the environment, product quality and information security as well as the costs associated with implementing an effective compliance infrastructure, which may potentially slow Komatsu s growth. To mitigate such risk, Komatsu has implemented the following countermeasures:

1) Komatsu has established the Risk Management Rules to adequately recognize and manage risks. Komatsu has appointed personnel in charge of individual risks to establish a solid foundation for risk management.

2) Komatsu has established the Risk Management Committee to develop risk management policies, review and follow up on the status of risk management measures in place, and take appropriate steps to manage risks when they surface. The Risk Management Committee regularly reports the results of its periodic reviews and activities to the Board of Directors of the Company.

3) Komatsu will establish an emergency headquarters whenever serious risks surface in order to minimize the damage(s) and implement appropriate measures.

Table of Contents

c. Operational Framework to Enable Directors to Perform Their Duties Properly

Komatsu implements the following measures to enable Directors to perform their duties properly.

- 1) In addition to holding monthly Board of Directors meetings on a regular basis, the Company holds extraordinary Board of Directors meetings as needed. Through the participation of outside directors, Komatsu has endeavored to put in place transparent and sound management. Komatsu has also established the operational rules of the Company's Board of Directors.
- 2) Komatsu has separated the responsibilities and functions of its directors, executive officers and other senior officers, and established internal rules to enable directors to perform their responsibilities and functions properly and effectively.
- 3) To promote efficient management of the Company's Board of Directors, Komatsu has established the Strategy Review Committee consisting of senior executive officers and senior managers. Based on the reviews of the Strategy Review Committee, each executive officer and each senior manager executes their duties within the authority delegated to them by the Company's Board of Directors.

d. Current Conditions of Compliance

Komatsu works to strengthen compliance so that each and every employee of Komatsu observes the applicable laws and regulations, and correctly understands and implements the rules stipulated in Komatsu's Code of Worldwide Business Conduct (revised six times since its establishment in 1998). The Compliance Committee of the Company is composed of the President and CEO, other key officers and a representative of the labor union, with the corporate auditors participating as observers. The Committee determines compliance policies and makes decisions regarding other compliance-related matters of the Company. Furthermore, having assigned the duty of compliance to a director and established the Compliance Department, Komatsu aggressively promotes activities designed to improve corporate ethics on a groupwide basis. Moreover, Komatsu has established an internal reporting system under which those who report questionable actions and other related matters to the Business Rule Consultation Office are not penalized.

Table of Contents

e. Framework for Management of Business Operations of Komatsu

- 1) Komatsu has devised the Regulations for Affiliated Companies and related rules with the goal of achieving proper and efficient management of Komatsu, while respecting the corporate autonomy of affiliated companies. Furthermore, Komatsu's Code of Worldwide Business Conduct is applicable to all affiliated companies of Komatsu. Based on these regulations and this code of business conduct, each affiliated company of Komatsu has designed its own regulations to promote proper business conduct.
- 2) Komatsu's important committees, such as the Compliance Committee, Risk Management Committee and Export Management Committee, are mandated to conduct their affairs consistent with Komatsu's compliance policies, and the representatives of affiliated companies are required to participate in such committee meetings to the extent necessary.
- 3) Affiliated companies that are important to Komatsu are required to report their respective business conditions, including risks and compliance matters, to the Board of Directors of the Company on a regular basis.
- 4) The Internal Audit Department of the Company not only audits the Company's divisions but also audits affiliated companies or oversees the audits, and monitors and instructs affiliated companies so that they build their respective compliance infrastructure consistent with Komatsu's internal controls.

Table of Contents

f. Employees Responsible to Support Corporate Auditors in Performing their Duties

Komatsu has established the Auditors Support Office and assigned employees who work as full-time and part-time assistants to the corporate auditors.

g. Independence of Assistants to Corporate Auditors from Directors

- 1) The approval of full time corporate auditors is required for the recruitment, appointment and personnel change of employees assigned to the Auditors Support Office.
- 2) Assistants to the corporate auditors are independent from the chain of command of Directors, and corporate auditors evaluate their performance.

h. Report-to-Auditors Structure and Framework to Ensure Effective Audits by Corporate Auditors

- 1) Directors and executive officers regularly report to corporate auditors as to the operational activities of the areas they are in charge of at the Company's Board of Directors and Board of Corporate Auditors meetings.
- 2) When directors discover serious violations of the law and/or important facts related to compliance, they shall report such matters immediately to the corporate auditors.
- 3) Corporate auditors of Komatsu attend various committee meetings related to internal control and other meetings as observers. They also review Japanese-style consensus-based, approval documents, which contain important decisions of the Company.

Interest of Management in Certain Transactions

None.

Table of Contents**B. Compensation**

The aggregate compensation, including bonuses, stock options and retirement allowances, paid by the Company for the fiscal year ended March 31, 2007 to all Directors and Corporate Auditors for services in all capacities, was ¥1,078 million. The breakdown of the compensation is set forth below.

	Number of Persons Paid	Amount Paid (Millions of Yen)
<u>Remuneration, Bonuses and Retirement Allowance</u>		
Directors	10	993
Corporate Auditors	5	85
Total	15	1,078
<u>Retirement Allowance</u>		
Retired Directors	10	655
Retired Corporate Auditors	5	46
Total	15	701

Bonuses

Bonuses to be received by the director are determined by a resolution of an ordinary general meeting of shareholders of the Company held in June of each year. Bonuses so paid are not deductible by the Company for tax purposes and, for financial reporting purposes, are reported under selling, general and administrative expenses as a charge against income for the year in which they are paid.

Retirement Allowance

The Company has a retirement allowance plan for Directors and Corporate Auditors. The retirement allowance plan for Directors and Corporate Auditors is accrued in accordance with the pertinent rules of the Company. The amount of provision made for such retirement allowance for the fiscal year ended March 31, 2007 was ¥33 million.

Revision of Remuneration System

The Company has revised its remuneration system applicable to Corporate Auditors recently. As a result, bonuses referred to above for Corporate Auditors have been abolished starting with the payment in the year ended March 31, 2007 to reinforce the corporate auditors independence. The Company expects to reduce and phase out the retirement allowance system for Directors and Corporate Auditors in the future.

Stock Options

Based on the resolutions of the shareholders' meeting on June 23, 2006, June 24, 2005 and June 25, 2004, the Company issued 833 rights, 1,610 rights and 1,430 rights of its share acquisition rights during the years ended March 31, 2006, 2005 and 2004, respectively. These options vest 100% on each of the grant dates and are exercisable from August 1, 2007, August 1, 2006 and August 1, 2005, respectively.

On June 22, 2007, the shareholders of the Company authorized the Company to issue rights to acquire new shares to the Directors and certain employees in the form of stocks options. Pursuant to such authorization, the Company is authorized to issue up to a maximum of 562 share acquisition rights (for 1,000 shares per right), resulting in possible additional issuance of 562,000 shares.

Table of Contents

C. Board Practices

All Directors and Corporate Auditors are elected by a general meeting of shareholders. Directors serve terms of one year and Corporate Auditors serve four years pursuant to the Articles of Incorporation. However, a Director or a Corporate Auditor may serve any number of consecutive terms.

The Board of Directors elects from its members a certain number of Representative Directors who have the power severally to represent the Company in all matters, and elect a President from the Representative Directors. At its discretion, the Board of Directors may also elect a Chairman from among its members and may grant special titles to one or more directors as deemed necessary. At the present time, the Chairman and the President are Representative Directors.

The Corporate Auditors of the Company are not required to be, and are not, certified public accountants. Each Corporate Auditor audits the performance of duties by Directors, and may at any time request the Directors to report on the business activities of the Company, and may investigate the business as well as the financial situation of the Company. Certain powers are provided under the Corporation Act of Japan to enable the Corporate Auditors to carry out these functions. Further, each Corporate Auditor continues to perform the function of examining the annual financial documents and the rendering of an opinion thereon for the general meeting of shareholders. The Corporate Auditors may not at the same time be Directors, managers or employees of the Company or of any of its subsidiaries. The Company does not have an audit committee.

The Company does not have a remuneration committee but does have a Compensation Council that is composed of a majority of external experts as noted in Item 6.A.

None of the Directors have entered into service contracts with the Company or any of its subsidiaries providing for benefits upon termination of employment. For additional information regarding director compensation, see Item 6.B. Compensation .

Table of Contents**D. Employees**

The following table shows the number of employees by operating segment as of March 31, 2007, 2006 and 2005.

Number of employees by operating segment

	Year Ended March 31,		
	2007	2006	2005
Construction and Mining Equipment	26,790 (5,810)	25,103 (5,089)	23,340 (3,610)
Industrial Machinery, Vehicles and Others	6,441 (1,787)	6,204 (1,620)	6,042 (1,097)
Electronics	181 (154)	2,832 (220)	3,160 (270)
Corporate	451 (55)	458 (49)	466 (38)
Total	33,863 (7,806)	34,597 (6,978)	33,008 (5,015)

Notes:

- 1) Numbers in parentheses refer to average number of temporary employees, which is not included in the total numbers of employees in each operating segment.
- 2) Number of employees under "Corporate" refers to employees working for administrative departments who cannot be classified into specific operating segments.

The Company has a labor contract with the Komatsu Labor Union covering conditions of employment. This contract, which provides that all employees except management and certain other enumerated personnel must become union members, has been renegotiated every two years and its present term runs until September 2008. The employees of the Company's principal Japanese subsidiaries are covered by separate labor contracts between such subsidiaries and the unions representing their employees. These contracts contain provisions generally similar to those contained in the Company's contract with the Komatsu Labor Union. Certain overseas employees of the Company and subsidiaries are also covered by labor contracts between the employer and unions in the relevant locale representing the employees.

Management and the Komatsu Labor Union have negotiations and meetings on a regular basis in order to discuss various issues and share concerns relating to the financial condition of Komatsu. The Company believes that management has a good relationship with Komatsu Labor Union.

E. Share Ownership

The following table shows the number of shares owned by the Directors and Corporate Auditors of the Company as of May 31, 2007. This table does not include the shares related to unexercised stock options. For information regarding stock option, see Item 6.B. Compensation.

Name	Position	Number of shares (in thousands)

Table of Contents**Item 7. Major Shareholders and Related Party Transactions****A. Major Shareholders**

The following table shows the number of the Company's shares held by the 10 major shareholders of the Company and their ownership percentage as of March 31, 2007.

Major Shareholders as of March 31, 2007

Name of Major Shareholders	Number of Shares Held (in thousands)	Percentage (%)
Japan Trustee Services Bank, Ltd. (Trust Account)	69,041	6.91
The Master Trust Bank of Japan, Ltd. (Trust Account)	61,174	6.12
Taiyo Life Insurance Company	56,464	5.65
Nippon Life Insurance Co.	31,783	3.18
State Street Bank and Trust Company 505103	20,872	2.08
Sumitomo Mitsui Banking Corp.	17,835	1.78
Japan Trustee Services Bank, Ltd. (Trust Account 4)	15,653	1.56
NIPPONKOA Insurance Co., Ltd.	13,962	1.39
NATS CUMCO	13,408	1.34
Trust & Custody Services Bank, Ltd. (Trust Account B)	13,036	1.30
Total of Top 10 Shareholders	313,233	31.36

Notes:

- 1) Shares held by the Japan Trustee Services Bank, Ltd., The Master Trust Bank of Japan, Ltd. and the Trust & Custody Services Bank, Ltd. are all held through trusts.
- 2) As joint owners of the Company's shares, Taiyo Life Insurance Company, Daido Life Insurance Company and T&D Asset Management Co., Ltd. filed a Report of Change No.2 of the substantial share holding report with the Director of the Kanto Local Finance Bureau of the Ministry of Finance in Japan on June 13, 2005, in compliance with Article 27, Paragraph 26, Item 2 of the Securities and Exchange Law of Japan. The number of the Company's shares held by Taiyo Life Insurance Company in the foregoing table is based on the Company's record of shareholders, because the Company is unable to identify the number of shares actually held by such three entities jointly as of March 31, 2007.
- 3) NATS CUMCO is the share nominee of CITIBANK, N.A. ("CITIBANK") which is the trustee of the Company's American Depositary Receipts (ADRs).

To the best knowledge of the Company, no significant change has occurred in the ownership percentage of the major shareholders listed above during the past three years.

The Company's major shareholders are not entitled to any voting rights that are not provided to the other shareholders.

As of March 31, 2007, 14.0% of the shares of common stock issued (998,744,060 shares) were held of record by 140 residents of the United States.

To the best knowledge of the Company, the Company is not, directly or indirectly, controlled by another corporation or another entity, by the Government of Japan or by any foreign government, nor does any person own more than 10% of the Company's common stock.

Edgar Filing: KOMATSU LTD - Form 20-F

There are no arrangements that are known to Company the operation of which may at a subsequent date result in a change in control of the Company.

Table of Contents

B. Related Party Transactions

In the ordinary course of business on an arm's length basis, Komatsu purchases and sells materials, supplies and services from and to its affiliates accounted for by the equity method. Komatsu has 39 affiliates that are accounted for by the equity method. Komatsu regularly has trade accounts and other receivables payable by, and accounts payable to, Komatsu's affiliates accounted for by the equity method. Komatsu does not consider the amounts of the transactions with such affiliates to be material to its business.

Komatsu has no other material related party transactions than those with the affiliated companies.

For additional information, see Note 8 of the Notes to Consolidated Financial Statements included elsewhere in this report.

C. Interests of Experts and Counsel

Not applicable.

Table of Contents

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

See the Consolidated Financial Statements and Notes to Consolidated Financial Statements included in the Company's Financial Report to Shareholders for the year ended March 31, 2007 attached hereto and incorporated herein by reference.

Legal Proceedings

Komatsu is involved in certain legal actions and claims arising out of the ordinary course of its business. It is the opinion of the management and legal counsel that such litigation and claims will be resolved without material effects on Komatsu's financial position or profitability.

Dividend Policy

The Company makes effort to provide steady dividend payments, taking into consideration the consolidated business results in determining the amount of profit to redistribute. The Company's goal is to provide a consolidated dividend payout ratio of 20% or higher. The Company distributes dividends twice a year, i.e., distribute as year-end dividends and interim dividends. The resolutions for the distributions of year-end dividends and of interim dividends are adopted at the ordinary general meeting of shareholders and at the meeting of the Board of Directors. For the fiscal year ended March 31, 2007, the Company paid interim dividends of ¥13.0 per share, and year-end dividends of ¥18.0 per share, for a total annual per share dividend of ¥31.0.

Any retained earnings will be used to expand Komatsu's business and to strengthen its business bases by making effective investments in areas where Komatsu enjoys technological advantages.

Under the Articles of Incorporation of the Company, the Company may distribute interim dividends pursuant to Article 454, Paragraph 5 of the Corporation Act of Japan, by a resolution of the Board of Directors, by setting the record date as of September 30 of each year.

B. Significant Changes

In April 2007, Komatsu Zenoah Co., a subsidiary of the Company, split off its OPE business; and Zenoah Co., Ltd., a subsidiary of Komatsu Zenoah Co., took over the OPE business of Komatsu Zenoah Co. On the same day, all shares of Zenoah Co., Ltd., were sold to a Japanese subsidiary of Husqvarna AB of Sweden. Komatsu believes that the spin off of the OPE business was important in terms of improving the efficient and effective use of its business resources and necessary in terms of strengthening its competitiveness.

Table of Contents**Item 9. The Offer and Listing****A. Offer and Listing Details**

The shares of common stock of the Company have been listed on the Tokyo Stock Exchange (TSE) and the Osaka Stock Exchange in Japan since May 1949.

In the United States, the Company's American Depositary Shares (ADSs), each representing 4 shares of common stock, are traded on over-the-counter in the form of ADRs and are issued and exchanged by Citibank, N.A. in New York as depository.

As of May 31, 2007, out of a total of 998,744,060 shares of common stock issued, 995,373,358 shares were outstanding. This incorporates 4 ADSs (equivalent to 16,434,256 shares of common stock, or approximately 1.7% of the total number of shares of common stock outstanding) held by 11 registered ADR holders.

The following table sets forth the reported high and low sales prices of the Company's stock on the TSE and the reported high and low sales prices of ADSs for the periods indicated.

Period	TSE		ADS	
	(Japanese Yen)		(U.S. dollars)	
	High	Low	High	Low
Annual highs and lows				
The fiscal year ended March 31, 2003	493	351	15.150	11.250

Item 10. Additional Information

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

I. Organization and Registration

The Company is a joint stock corporation (*kabushiki kaisha*) incorporated in Japan under the Corporation Act of Japan. It is registered in the Commercial Register (*Shogyo Tokibo*) maintained by the Minato Branch Office of Tokyo Legal Affairs Bureau, which has the jurisdiction over the district in which the Company's head office is currently located.

II. Objectives and Purposes

The objectives and purposes of the Company, provided in Article 2 of the Company's Articles of Incorporation, is to engage in the following businesses:

1. Manufacture, repair, sale and purchase of construction machinery, agricultural machinery, industrial machinery, automobiles, internal combustion engines and various types of other machinery and equipment and parts thereof.
2. Manufacture, sale and purchase of various iron and steel goods.
3. Smelting, processing, sale and purchase of various types of iron and steel, pig-iron, ferroalloys and other special metals.
4. Manufacture, sale and purchase of various types of electric materials and equipment.
5. Manufacture, sale and purchase of various synthetic resin products.
6. Manufacture, repair, sale and purchase of various armaments and parts thereof.
7. Mining industry, and sale and purchase of minerals.
8. Designing, executing, supervising and contracting various types of civil engineering and construction work for plants, dwelling house, and other structures.
9. Sale and purchase of lumber, processed lumber products and various types of civil engineering and construction materials, machinery and equipment.
10. Sale, purchase and lease of real property.

11. Manufacture, sale and repair of industrial waste and general waste treatment devices.
12. Collection, transportation, treatment and recycling of industrial waste and general waste, sale of such recycled products, and consulting on these matters.
13. Development, creation, sales and consulting on computer software and computer systems.
14. Electronic commerce using networks such as the internet.
15. Information processing and information providing service.
16. Financing services.
17. All business incidental to each and every one of the preceding items.
18. Investing in other companies or promoting the organization of other companies.
The objectives and purposes of other companies in which the Company may invest may not necessarily be restricted by the objectives and purposes of the Company.

Table of Contents

III. Directors

The Corporation Act of Japan provides that the Directors must refrain from engaging in any business competing with the Company (Art. 356, Paragraph 1, Item 1) or effecting a transaction involving a conflict of interest (Art. 356, Paragraph 1, Items 2 and 3) unless approved by the Board of Directors (Art. 365, Paragraph 1). It also provides that any Director who has a material interest in the subject matter of a resolution to be taken by the Board of Directors cannot vote in such resolution (Art. 369, Paragraph 2). Neither the Articles of Incorporation nor the Rules of the Board of Directors of the Company have any additional provisions regarding a Director's power to vote on a proposal, arrangement or contract in which the Director is materially interested. The Corporation Act of Japan does not have an explicit provision concerning a director's obligation not to use the corporation's opportunity for his or her personal benefit or for the benefit of a third party, although such a conduct may be restricted by the duty of faithfulness (Art. 355).

With respect to directors' compensation, the Corporation Act of Japan requires that, unless otherwise specified in the Articles of Incorporation (which specification does not exist in the case of the Company), amount (if the amount is fixed), the calculation method (if the amount is unfixed) or the substance (in the case of non-cash benefits) of directors' compensation shall be determined at a general meeting of shareholders (Art. 361, Paragraph 1).

The Corporation Act of Japan provides that the incurrence by a company of a significant amount of borrowings from a third party needs approval of the company's board of directors (Art. 362, Paragraph 4, Item 2). The Company's Regulations of the Board of Directors contain corresponding provisions. (The Articles of Incorporation of the Company have no specific provisions as to a borrowing power exercisable by the directors.) There is no mandatory retirement age for Directors under the Corporation Act of Japan, the Articles of Incorporation or the Regulations of the Board of Directors of the Company.

There is no requirement concerning the number of shares an individual must hold in order to qualify as a Director of the Company under the Corporation Act of Japan, the Articles of Incorporation nor the Rules of the Board of Directors of the Company.

Table of Contents

IV. Common Stock

Set forth below is information relating to the Company's shares of common stock, including brief summaries of the relevant provisions of its Articles of Incorporation and Share Handling Regulations, as currently in effect, and of the Corporation Act of Japan and related legislation.

General

The Company's authorized share capital is 3,955,000,000 shares, of which 998,744,060 shares were issued as of May 31, 2007. Under the Corporation Act of Japan, shares of companies that issue share certificates must be registered and are transferable by delivery of share certificates. In order to assert shareholders' rights against the Company, a shareholder must have its name and address registered on the shareholder register under the Corporation Act of Japan, in accordance with the Company's Share Handling Regulations.

A holder of shares may choose, at its discretion, to participate in the central clearing system for share certificates under the Law Concerning Central Clearing of Share Certificates and Other Securities of Japan. Participating shareholders must deposit certificates representing all of the shares to be included in this clearing system with the Japan Securities Depository Center. If a holder is not a participating institution in the Securities Center, it must participate through a participating institution, such as a securities company or bank having a clearing account with the Securities Center. All shares deposited with the Securities Center will be registered in the name of the Securities Center on the Company's shareholder register. Each participating shareholder will in turn be registered on the Company's register of beneficial shareholders and be treated in the same way as shareholders registered on the shareholder register. For the purpose of transferring deposited shares, delivery of share certificates is not required. Entry of the share transfer in the books maintained by the Securities Center for participating institutions, or in the book maintained by a participating institution for its customers, has the same effect as delivery of share certificates. The registered beneficial owners may exercise the rights attached to the shares, such as voting rights, and will receive dividends (if any) and notices as shareholders directly from the Company. The shares held by a person as a registered shareholder and those held by the same person as a registered beneficial owner are aggregated for these purposes. Beneficial owners may at any time withdraw their shares from deposit and receive share certificates, subject to the limitations caused by the Japanese unit share system described below.

The registered beneficial holder of deposited shares underlying the ADSs is the depository for the ADSs. Accordingly, holders of ADSs will not be able to directly assert shareholders' rights.

Table of Contents

Rights of Shareholders

-Dividends from Surplus

Under the Corporation Act of Japan, a joint stock corporation can make distribution of dividends from surplus to its shareholders (or pledgees) by the resolution of its shareholders' meeting anytime. Under the Company's Articles of Incorporation, it is only stipulated that the record date of year-end dividends shall be March 31 of each year, but it does not prevent the Company from making distribution of dividends from surplus based on other record dates. In addition, under the Corporation Act of Japan, a joint stock corporation can stipulate in its Articles of Incorporation, that it may distribute interim dividends to its shareholders (or pledgees) once per business year by resolution of its Board of Directors. Under the Company's Articles of Incorporation, the Company may, by resolution of the Board of Directors, distribute interim dividends, on the record date of which is September 30 in each year. Furthermore, under the Corporation Act of Japan, the Company can stipulate that if the length of term of office of its directors is not longer than 1 year, it can stipulate that it can basically (i.e. other than the cases its non-consolidated annual financial statements and certain documents relating to the latest fiscal year do not present fairly its assets and profit or loss, as required by ordinances of the Ministry of Justice.) make distribution of dividends from surplus to its shareholders (or pledgees) by the resolution of its Board of Directors in its Articles of Incorporation. The Company has not stipulated such clauses in its Articles of Incorporation.

Dividends from surplus will usually be distributed in cash, but it can be distributed in kind under the Corporation Act of Japan. If a distribution of dividend from surplus is to be made in kind, the Company may, pursuant to a resolution of a general meeting of shareholders or the Board of Directors which determines to make the distribution, grant rights to its shareholders to require the Company to make such distribution in cash instead of in kind to shareholders. If no such rights are granted to shareholders, the relevant dividends from surplus must be approved by a special resolution of a general meeting of shareholders.

The Corporation Act of Japan requires that, until the aggregate amount of the Company's legal reserve and additional paid-in capital is at least one-quarter of its stated capital, it set aside in its legal reserve and/or additional paid-in capital an amount equal to at least one-tenth of the amount of the dividends of surplus distributed.

The distributable amount of surplus is calculated by making some adjustments to the amount of surplus.

Under the Corporation Act of Japan, the amount of surplus is calculated by the following formula:

(1) base amount + (2) additional amount - (3) subtractive amount, where

- (1) the total amount of other capital surplus and other retained earnings as of the end of the last business year.
- (2)
 - (a) the amount of the consideration for treasury stock disposed of after the end of the last business year less the book value thereof;
 - (b) the amount of reduction of stated capital made after the end of the last business year less the portion thereof that has been transferred to additional paid-in capital or legal reserve (if any);
 - (c) the amount of reduction of additional paid-in capital or legal reserve made after the end of the last business year less the portion thereof that has been transferred to stated capital (if any).
- (3)
 - (a) the book value of treasury stock cancelled after the end of the last business year;
 - (b) the total book value of surplus reduced by the distribution of dividends from surplus made after the end of the last business year;
 - (c) other amounts set forth in ordinances of the Ministry of Justice.

Table of Contents

The distributable amount of surplus is calculated by the following formula:
(A) the amount of surplus + (B) additional amounts - (C) subtractive amounts, where

- (A) the amount of surplus
- (B)
 - (a) the amount of profit in the extraordinary financial statements
 - (b) the amount of consideration for any of its treasury stock disposed of recorded in the extraordinary financial statements
- (C)
 - (a) the book value of its treasury stock
 - (b) the amount of consideration for any of its treasury stock disposed of after the end of the last business year
 - (c) the amount of loss in the extraordinary financial statements
 - (d) other amounts set forth in ordinances of the Ministry of Justice

Under the Corporation Act of Japan, a joint stock corporation can make extraordinary financial statements anytime during business years. If such extraordinary financial statements have been prepared and have been approved by the Board of Directors or (if so required by the Corporation Act of Japan) by a general meeting of shareholders, then the distributable amount of surplus must be adjusted as stated above.

-Stock Splits

The Corporation Act of Japan permits the Company, by resolution of its Board of Directors, to make stock splits, regardless of the value of net assets (as appearing in its latest non-consolidated balance sheet) per share.

Under the Corporation Act of Japan, by resolution of the Company's Board of Directors, the Company may increase the authorized shares up to the number reflecting the rate of stock splits and amend its Articles of Incorporation by resolution of its Board of Directors to this effect without the approval of a shareholders' meeting.

-Japanese Unit Share System

On June 14, 2006, the Board of Directors of the Company adopted a resolution to decrease the number of shares constituting one "unit" of the Company to 100 shares effective as of August 1, 2006. Accordingly, since August 1, 2006, 100 shares of common stock constitute one "unit". Prior to this change, the Company's Articles of Incorporation provided that 1,000 shares of common stock constitute one unit. The Corporation Act of Japan permits the Company, by resolution of its Board of Directors, to reduce the number of shares which constitutes one unit or abolish the unit share system, and amend its Articles of Incorporation to this effect without the approval of a shareholders' meeting.

Table of Contents

-Transferability of Shares Representing Less than One Unit.

The Company may not issue share certificates for a number of shares not constituting an integral number of units, except under limited circumstances. Since the transfers of shares ordinarily require delivery of the share certificates for the shares being transferred, shares constituting a fraction of a unit and for which no share certificates are issued may not be transferable. As the transfers of ADRs do not require a change in the ownership of the underlying shares, holders of ADRs evidencing ADSs, that constitute less than one unit of shares are not affected by these restrictions in their ability to transfer the ADRs. However, because transfers of less than one unit of the underlying shares are normally prohibited under the unit share system in Japan, the deposit agreement provides that the right of ADR holders to surrender their ADRs and withdraw the underlying shares for sale in Japan may only be exercised as to whole units.

-Right of a Holder of Shares Representing Less than One Unit to Require the Company to Purchase Its Shares.

A holder of shares representing less than one unit may, at any time, require the Company to purchase their shares. These shares will be purchased at (a) the closing price of the shares of the Company reported by the Tokyo Stock Exchange on the day on which the application for the purchase reached the handling office, multiplied by the number of shares or (b) in case that no trading is effected at the Tokyo Stock Exchange on that day, the price of the first trade effected thereafter, multiplied by the number of shares. As a practical matter, however, because holders of ADRs representing less than one unit are not able to withdraw the underlying shares from deposit, these holders will not be able to exercise this right.

-Right of a Holder of Shares Representing Less than One Unit to Purchase from the Company its Shares up to a Whole Unit.

The Articles of Incorporation of the Company provide that in the case that a shareholder or beneficial owner holding Less-Than-One-Unit Shares requests that the Company sell a certain number of Less-Than-One-Unit Shares so that the shares owned by such shareholder or beneficial owner combined with such additional shares may constitute one unit. These shares will be sold at (a) the closing price of the share of the Company reported at a market operated by the Tokyo Stock Exchange on the day on which the application for additional purchase become effective, multiplied by the number of shares applied for additional purchase or (b) in the case that no trading is effected on such day or if the Tokyo Stock Exchange is closed on such day, the price at which the share of the Company is first traded thereafter, multiplied by the number of shares applied for additional purchase.

Table of Contents

-Voting Rights of a Holder of Shares Representing Less than One Unit.

A holder of shares representing less than one unit cannot exercise any voting rights of those shares. In calculating the quorum for various voting purposes, the aggregate number of shares representing less than one unit will be excluded from the number of outstanding shares. A holder of shares representing one or more whole units will have one vote for each whole unit represented.

A holder of shares representing less than one unit does not have any rights relating to voting, such as the right to participate in a demand for the resignation of a director, the right to participate in a demand for the convocation of a general meeting of shareholders and the right to join with other shareholders to propose an agenda item to be addressed at a general meeting of shareholders.

In addition, under the Corporation Act of Japan, a joint stock corporation can further restrict the rights of a holder of shares constituting less than one unit. Under the Company's Articles of Incorporation, a holder of shares constituting less than one unit does not have rights, other than the following:

to receive annual and interim dividends,

to receive shares and/or cash by way of consolidation, subdivision, gratis issue of shares to shareholders, exchange or transfer of shares, corporate split or merger,

to receive shares, cash and/or other assets in which a shareholder of the Company has the option to acquire or which the Company has the option to acquire,

to participate in any distribution of surplus assets upon liquidation,

to request the Company to purchase shares constituting less than one unit, and

any other rights prohibited to be restricted by Art. 189 Paragraph 2 of the Corporation Act of Japan and ordinances of the Ministry of Justice.

-Ordinary and Extraordinary General Meeting of Shareholders

The Company usually holds its ordinary general meeting of shareholders in June of each year in Minato-ku, Tokyo or in a neighboring district [in Tokyo]. In addition, the Company may hold an extraordinary general meeting of shareholders whenever necessary by giving at least two weeks' advance notice. Under the Corporation Act of Japan and the Company's Articles of Incorporation, notice of any shareholders' meeting must be given to each shareholder having voting rights or, in the case of a non-resident shareholder, to his resident proxy or mailing address in Japan, at least two weeks prior to the date of the meeting.

Table of Contents

-Voting Rights

A shareholder is generally entitled to one vote per one unit of shares as described in this paragraph and under Japanese Unit Share System above. In general, under the Corporation Act of Japan, a resolution can be adopted at a general meeting of shareholders by a majority of the shares having voting rights represented at the meeting. The Corporation Act of Japan and the Company's Articles of Incorporation require a quorum for the election of directors and corporate auditors of not less than one-third of the total number of outstanding shares having voting rights. The Company's shareholders are not entitled to cumulative voting in the election of directors under the Company's Articles of Incorporation. A corporate shareholder whose operation can be substantially controlled by the Company based on the reasons such as that the Company directly or indirectly owns not less than one-quarter of the total voting rights of such shareholder does not have voting rights. Shareholders may exercise their voting rights through proxies in accordance with the Company's Articles of Incorporation, provided that those proxies are also shareholders who have voting rights.

Pursuant to the Corporation Act of Japan and the Company's Articles of Incorporation, a quorum of, not less than one-third of the outstanding shares with voting rights must be present at a shareholders' meeting to approve any material corporate actions such as:

a reduction of stated capital;

amendment of the articles of incorporation (except amendments which the board of directors are authorized to make under the Corporation Act of Japan as described in "Stock Splits" and "Japanese Unit Share System" above);

establishment of a 100% parent-subsidiary relationship by way of share exchange or share transfer;

a dissolution, merger or consolidation;

a corporate split;

the transfer of the whole or an important part of the Company's business;

the taking over of the whole of the business of any other corporation; or,

any issuance of new shares at a specially favorable price, bonds or debentures with stock acquisition rights to subscribe for new shares with specially favorable conditions or stock acquisition rights with specially favorable conditions to persons other than shareholders, and the like.

At least two-thirds of the outstanding shares having voting rights present at the meeting must approve these actions.

The voting rights of holders of ADSs are exercised by the depositary based on instructions from those holders.

Table of Contents

-Share Acquisition Rights

A Share Acquisition Right shall mean the right under which, upon the exercise thereof against the Company by a person who has such right (hereinafter referred to as a Share Acquisition Rights Holder), the Company shall be obliged to issue new shares, or in lieu of such issuance, to transfer the shares that it owns, to such Share Acquisition Rights Holder.

The Company may basically issue Share Acquisition Rights as Share Acquisition Rights on their own or attached to bonds or debentures to any persons by the resolution of its board of directors. Holders of shares do not have the right to receive, upon the exercise thereof against the Company, an allotment of Share Acquisition Rights to be issued by the Company (hereinafter referred to as a Right to Subscribe for Share Acquisition Rights) under the Company s Articles of Incorporation when it issues Share Acquisition Rights. Under the Corporation Act of Japan, the board of directors may, however, determine that shareholders be given Right to Subscribe for Share Acquisition Rights in connection with a particular issue of Share Acquisition Rights. In the case of an issue of Share Acquisition Rights, public or individual notice (public notice is basically made via internet on the Company s website) must be given to each of the shareholders at least two weeks prior to the allotment date unless the terms of such issuance are already disclosed in a securities registration statement or other disclosure document.

Share Acquisition Rights may be made transferable or nontransferable by the resolution of the board of directors under the Corporation Act of Japan.

-Liquidation Rights

In the event of liquidation, the assets remaining after payment of all debts, liquidation expenses and taxes will be distributed among the shareholders in proportion to the number of shares they own.

-Liability to Further Calls or Assessments

All of the Company s currently outstanding shares, including shares represented by the ADSs, are fully paid and nonassessable.

- Administrator of the Shareholders Register

Mitsubishi UFJ Trust and Banking Corporation (Mitsubishi UFJ Trust) is the administrator of the shareholders register for the Company s shares. Mitsubishi UFJ Trust s office is located at 4-3, Marunouchi 1-chome, Chiyoda-ku, Tokyo, Japan. Mitsubishi UFJ Trust maintains the Company s register of shareholders and records transfers of record ownership upon presentation of share certificates.

Table of Contents

-Record Date

The close of business on March 31 is the record date for the Company's year-end dividends, if payable. September 30 is the record date for interim dividends, if payable. A holder of shares constituting one or more whole units who is registered as a holder on the Company's register of shareholders at the close of business as of March 31 is also entitled to exercise shareholders' voting rights at the ordinary general meeting of shareholders with respect to the fiscal year ending on March 31. In addition, the Company may set a record date for determining the shareholders entitled to the rights by giving at least two weeks' public notice which is basically made via internet on the Company's website.

The shares generally trade ex-dividend or ex-rights in the Japanese stock exchanges on the third business day before a record date (or if the record date is not a business day, the fourth business day prior thereto), for the purpose of dividends or rights offerings.

-Acquisition of Own Shares

Under the Corporation Act of Japan, the Company may acquire its shares for any purposes subject to the authorization of shareholders at a general shareholders meeting. In addition, the Company is authorized to purchase its shares pursuant to a resolution of the board of directors pursuant to its Articles of Incorporation. The acquisition is generally subject to the condition that the aggregate amount of the purchase price must not exceed the distributable amount of surplus mentioned in *Dividends from Surplus*.

In the case of shares listed on a Japanese stock exchange or traded in the over-the-counter market, acquisition shall be made through the market or by way of tender offer by the close of the following ordinary general meeting, subject to certain exceptions such as where acquisition of the shares from a specified person is authorized by the approval of two-thirds of outstanding shares having voting rights present at the shareholders meeting at which a quorum of at least one-third of the outstanding shares having voting rights must be present.

In addition, the Company may acquire its shares by means of repurchase of any number of shares constituting less than one unit upon the request of the holder of those shares, as described under *Japanese Unit Share System* above.

-Holding of Shares by Foreign Investors

Other than the Japanese unit share system that is described in *Rights of Shareholders - Japanese Unit Share System* below, there are no limitations on the rights of non-residents or foreign shareholders to hold or exercise voting rights on the Company's shares imposed by the laws of Japan or the Company's Articles of Incorporation or other constituent documents.

Table of Contents

C. Material Contracts

All contracts entered into by Komatsu or any member of Komatsu during the two years immediately preceding this report were entered into in the ordinary course of business.

D. Exchange Controls

The Foreign Exchange and Foreign Trade Act of Japan, as amended (the Foreign Exchange Act), and the cabinet orders and ministerial ordinances thereunder, regulate certain transactions involving a non-resident of Japan or a foreign investor, including issuance of securities by a resident of Japan outside of Japan, transfer of securities between a resident of Japan and a non-resident of Japan, inward direct investment by a foreign investor, and a payment from Japan to a foreign country or by a resident of Japan to a non-resident of Japan.

Non-residents of Japan include individuals who are not resident in Japan and corporations whose principal offices are located outside of Japan. Generally, branches and other offices of Japanese corporations located outside of Japan are regarded as non-residents of Japan, but branches and other offices of non-resident corporations located within Japan are regarded as residents of Japan. Foreign investors are defined to be: (i) individuals not resident in Japan, (ii) corporations which are organized under the laws of foreign countries or whose principal offices are located outside of Japan, (iii) corporations of which not less than 50% of the voting rights are held directly or indirectly by (i) or (ii) above, and (iv) any corporation in which: (a) a majority of the officers are non-resident individuals, or (b) a majority of the officers having the power to represent the corporation are non-resident individuals.

The following is a summary of the pertinent regulations under the Foreign Exchange Act insofar as they affect debt securities of the Company, shares of the Company's Common Stock or Depositary Receipts representing such shares.

Debt Securities

The Foreign Exchange Act requires that a resident of Japan whose debt securities are being issued or offered outside of Japan file a post facto report of capital transaction with the Minister of Finance. Under the Foreign Exchange Act, payment of the principal of and interest on these debt securities (including any additional amounts payable pursuant to the terms of the securities) may in general be made by the issuer without any restrictions. The Foreign Exchange Act gives the Minister of Finance the power in certain limited and exceptional circumstances to require prior approval for any such capital transaction (or for such payment).

On March 28, 1996, the Company, Komatsu Finance America Inc. and Komatsu Finance (Netherlands) B.V. (the Issuers) established and registered the U.S.\$1,000 million EMTN Program on the London Stock Exchange. The aggregate nominal amount of the Notes under the Program was increased to U.S.\$1,200 million on April 1, 1999, Komatsu Australia Holdings Pty. Ltd. joined the Program as an additional Issuer on March 31, 2000 and Komatsu Europe Coordination Center NV joined the Program as another additional Issuer on October 14, 2003. In 2004, Komatsu Finance (Netherlands) B.V. and Komatsu Australia Holdings Pty. Ltd. ceased to be Issuers under this program. Under this program, each of the Issuers may from time to time issue notes denominated in any currency.

Table of Contents

Acquisition of Shares

The Foreign Exchange Act requires that a resident of Japan whose shares are being issued or offered outside of Japan file a post facto report of capital transaction with the Minister of Finance.

In general, the acquisition of shares in a Japanese corporation listed on any stock exchange in Japan or traded on the over-the-counter market in Japan (the listed shares) from a resident of Japan by a non-resident of Japan requires the resident of Japan to file a post facto report with the Minister of Finance of the transaction. The Foreign Exchange Act gives the Minister of Finance the power in certain limited and exceptional circumstances to require prior approval for any such acquisition.

If a foreign investor intends to acquire the listed shares and as a result of such acquisition the aggregate of the shares in the relevant corporation already held by that foreign investor and certain related parties (as specified under the Foreign Exchange Act) and the number of such shares proposed to be acquired by that foreign investor would be 10% or more of the total issued shares, such foreign investor will generally be subject to a post facto reporting requirement or a prior notification requirement to the Minister of Finance and any other competent Minister, depending on the business purposes of the issuer. According to the Komatsu's business purposes stipulated in its Articles of Incorporation, the foreign investor who acquires 10% or more of the total issued shares will be subject to the prior notification requirement. In case the prior notification requirement is applicable, the Minister of Finance and the competent Minister will ultimately have a power to order the alternation or suspension of the acquisition in certain special circumstances.

Under the Foreign Exchange Act and the regulations thereunder currently in effect, a holder of bonds with share acquisition rights or share acquisition rights which were issued or offered outside of Japan may acquire the listed shares upon the conversion or exercise of such share acquisition rights without being subject to any of the aforesaid prior notification and/or post facto reporting requirements.

Dividends and Proceeds of Sale

Under the Foreign Exchange Act and regulations thereunder, dividends paid on the shares of a Japanese corporation (including those in the form of Depository Receipts) held by non-residents of Japan and the proceeds of any sale of such shares within Japan may in general be converted into any foreign currency and repatriated abroad. The acquisition of shares by non-resident shareholders by way of stock splits is not subject to any of the prior notification and/or post facto reporting requirements. See Taxation Section for information about the applicable withholding tax.

Exercise or Transfer of Share acquisition Rights

The acquisition by a foreign investor of shares in a Japanese corporation upon the exercise of acquisition rights in respect of share acquisition rights or bonds with share acquisition rights issued in Japan is subject to the formalities and restrictions described in the second paragraph under Acquisitions of Shares above. However, if a foreign investor wishes to dispose of, rather than exercise, any acquisition rights, he may sell the rights inside or outside of Japan without material foreign exchange restriction.

Depository Receipts

When shares are deposited with a Depository located outside of Japan and Depository Receipts are issued in exchange therefor, the Depository is treated like any other foreign investor acquiring Shares.

Table of Contents

E. Taxation

Debt Securities

Except as mentioned below, under the Japanese tax laws currently in effect, the interest on debt securities or corporate bonds (*shasai*) issued by a Japanese corporation is generally subject to the withholding of Japanese income tax and, in the case of a corporation (other than a non-Japanese corporation having no permanent establishment in Japan), to corporation tax, and premium (if any) on such debt securities is generally subject to Japanese income or corporation tax, depending on the status of the recipient.

Under Japanese tax laws currently in effect, the payment of interest on debt securities issued outside Japan by a Japanese corporation (on or after April 1, 1998 and on or before March 31, 2008) and the difference, if any, between the issue price and the amount payable upon redemption of such debt securities (hereinafter referred to as *Redemption Profit*) will not be subject to the withholding of Japanese income tax, if such interest or difference is payable outside of Japan to a non-resident of Japan or non-Japanese corporation (hereinafter referred to as *Non-Residents* or *Non-Resident* collectively) which (in the case of interest) has submitted documents certifying its non-Japanese residency in accordance with the requirements set out in Japanese tax laws, provided that certain conditions are also met at the time of offering. Furthermore, such payment will not be subject to any other Japanese income or corporation tax, unless Non-Resident has a permanent establishment in Japan and the payment is attributable to the business of such Non-Resident carried on in Japan through such permanent establishment.

The Convention Between the Government of Japan and the United States of America for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income, as presently in effect (the *Tax Convention*), provides that the interest income (including *Redemption Profit*) of a United States resident or corporation from debt securities may be taxable by Japan if and to the extent that interest is paid by a resident of Japan or otherwise is from sources within Japan. Under the Tax Convention, the maximum rate of Japanese tax on interest income of United States residents or corporations is 10% unless the recipient has a permanent establishment in Japan and the debt securities in respect of which such interest is paid are effectively connected with such permanent establishment, in which case such income will be taxed at the normal rates provided by the Japanese income or corporate tax laws. However, certain US entities such as banks, insurance companies and registered security dealers may be entitled to an exemption from the Japanese withholding tax on interest on bonds issued by a Japanese company pursuant to Article 11, Paragraph 3(c) of the Tax Convention, subject to the procedural requirements provided for under Japanese law, assuming that such entity has no permanent establishment in Japan and the issuer (payer) has no permanent establishment in US.

There are no Japanese taxes payable on conversion of convertible bonds into shares of Common Stock or Depository Receipts.

Gains derived from the sales of debt securities of the Company outside of Japan by Non-Residents, will not be subject to Japanese income or corporation taxes. Gains derived by a Non-Resident from the sale in Japan of debt securities of the Company will be exempt from Japanese taxes on income if the Non-Resident does not have a permanent establishment in Japan.

Japanese inheritance and gift taxes at progressive rates may be payable by an individual who has acquired debt securities of the Company as legatee, heir or donee.

H. Documents on Display

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended. In accordance with these requirements, the Company files annual reports on Form 20-F and other reports on Form 6-K with the U.S. Securities and Exchange Commission (the "SEC"). These materials, including this annual report and exhibits thereto, may be inspected and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Copies of the materials may be obtained from the SEC's Public Reference Room at prescribed rates. The public may obtain information on the operation of the Public Reference Room by calling the SEC in the U.S. at 1-800-SEC-0330. The documents filed via the Electronic Data Gathering, Analysis, and Retrieval system are also available for inspection on the SEC's website (<http://www.sec.gov>).

Table of Contents**Item 11. Quantitative and Qualitative Disclosures About Market Risk**

Market Risk Exposure

Komatsu is exposed to market risk primarily from changes in foreign currency exchange rates and interest rates with respect to international operations and foreign currency denominated credits and debts. In order to manage these risks that arise in the normal course of business, Komatsu has entered into various derivative financial transactions pursuant to its policies and procedures. Komatsu does not enter into derivative financial transactions for trading or speculative purposes. Komatsu is exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments. However, because of the counterparties' satisfactory credit ratings, none are expected to fail to meet their obligations.

Foreign Exchange Risk

To reduce foreign exchange risks against foreign currency denominated assets and liabilities, Komatsu has executed forward exchange contracts and option contracts in a range of 50% to 100% based on its projected cash flow in foreign currencies. The following table provides information concerning derivative financial instruments of Komatsu in relation to foreign currency exchange transactions existing as of March 31, 2007, which are translated into Yen at the rate used on that date, together with the related weighted average contractual exchange rates as of March 31, 2007.

Table of Contents

Interest Rate Risk

To reduce risks and hedge variability of cash flow, Komatsu has engaged in certain interest rate swaps, cross-currency swaps and cap option transactions for interest payment and interest receipt. Certain interest rate swap contracts are not qualified as hedges and are recorded at the fair value and the resultant gains and losses are recognized as income and expenses. The following tables provide information concerning debt obligations excluding capital lease obligations (including due within one year), interest rate swaps, cross-currency swaps and interest caps. For debt obligations, the tables present fair value, principal cash flows and average interest rates by expected maturity dates. For interest rate and cross-currency swaps, the following tables present fair value, notional amounts and average receive and pay interest rates. For interest caps, the following tables present fair value, notional amounts and average strike rates.

Item 15. Controls and Procedures

Evaluation of disclosure controls and procedures

Komatsu's management performed an evaluation under the supervision and with the participation of its Chief Executive Officer and Chief Financial Officer of the effectiveness of the design and operation of its disclosure controls and procedures. Based on Komatsu's evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of March 31, 2007, the end of the period covered by this report, the disclosure controls and procedures were adequate and effective.

Management's report on internal control over financial reporting

The management of Komatsu is responsible for establishing and maintaining adequate internal control over financial reporting. Komatsu's internal control over financial reporting is a process designed to provide reasonable assurances regarding the reliability of its financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Komatsu's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Komatsu, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that receipts and expenditures of Komatsu are being made only in accordance with authorizations of management and directors of Komatsu and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of Komatsu's assets that could have a material effect on its financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of the Komatsu's internal control over financial reporting as of March 31, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework. Based on its assessment Komatsu concluded that, as of March 31, 2007, Komatsu's internal control over financial reporting was effective based on those criteria.

Komatsu's assessment of the effectiveness of its internal control over financial reporting as of March 31, 2007, has been audited by KPMG AZSA & Co., an independent registered public accounting firm. The report appears in Item 18.

Changes in internal controls over financial reporting

There has been no change in Komatsu's internal control over financial reporting that occurred during the period covered by this Form 20-F that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

Item 16. [Reserved]

Item 16A. Audit Committee Financial Expert

The Board of Corporate Auditors of the Company has determined that Mr. Masafumi Kanemoto qualifies as an audit committee financial expert as defined by the rules of the SEC. Mr. Kanemoto meets the independence requirements imposed on corporate auditors under the Corporation Act of Japan. Mr. Kanemoto has long engaged in accounting-related duties at the Company, and has a considerably profound knowledge concerning financial affairs and accounting. Since joining the Company in 1970, Mr. Kanemoto has worked in the field of accounting and finance. From 1994 to 1996 Mr. Kanemoto served as the senior manager of the Controlling Dept., Accounting Division and from 1999 to 2002 Mr. Kanemoto served as the general manager of the Internal Audit Department. Mr. Kanemoto was elected as one of the Corporate Auditors of the Company at the ordinary general meeting of shareholders held in June 2002. See Item 6.A. for additional information regarding Mr. Kanemoto.

Item 16B. Code of Ethics

In order to ensure that Komatsu's business is conducted honestly, ethically and in compliance with the law by its senior officers (including directors, executive officers, presidents of divisions, general managers of administrative departments at the Company as well as managers of the Finance & Treasury and Corporate Accounting departments), Komatsu has adopted the Code of Ethics for Senior Officers that stipulates the ethical duties and rules of conduct that its senior officers must obey. Such Code of Ethics for Senior Officers is incorporated herein as Exhibit 11.

In addition, starting in 1998, Komatsu has published a booklet entitled Komatsu's Code of Worldwide Business Conduct. Komatsu distributes such booklet to all of its worldwide employees and management officers in order to ensure that they understand how important it is to observe the rules of the business community. The content of the latest edition of this booklet published in December 2004 is available at the Company's website at <http://www.komatsu.com/CompanyInfo/profile/conduct/>.

Table of Contents**Item 16C. Principal Accountant Fees and Services**

Audit and Non-Audit Fees

KPMG AZSA & Co. and the various member firms of KPMG International served as Komatsu's principal independent registered public accounting firm for the fiscal years ended March 31, 2007 and 2006. Set forth below are the fees for services provided by KPMG AZSA & Co. for the fiscal years ended March 31, 2007 and 2006.

	(Millions of Yen)	
	Fiscal Year ended March 31,	
	2007	2006
Audit fees	1,388	660
Audit-related fees	58	120
Tax fees	35	42
All other fees	17	56
Total	1,498	878

Audit fees include fees billed for services rendered in connection with the audit of Komatsu's annual and semiannual consolidated financial statements, the review of consolidated quarterly financial statements and the review of associated documents filed with regulatory organizations.

Audit-related fees include fees billed for due diligence services related to mergers and acquisitions, agreed-upon or expanded audit procedures and the review of Komatsu's internal control procedures.

Tax fees include fees billed for tax compliance, the review of tax return documents, documentation relating to transfer pricing, international and domestic indirect tax. All other fees consist of fees for all other services not included in any of the above categories. One of the fees included in this category for the fiscal year ended March 31, 2007 was for advice in connection with Komatsu's preparation of its audited financial statements in accordance with U.S. GAAP.

Pre-Approval Policies and Procedures of the Board of Corporate Auditors

In accordance with the SEC rules regarding auditor independence, the Board of Corporate Auditors of the Company has established pre-approval policies and procedures for audit and non-audit services that are provided by its principal independent registered public accounting firm. These policies and procedures apply when the Company and/or its consolidated subsidiaries wish to engage an accounting firm for audit services and when the Company and/or its consolidated subsidiaries wish to engage the principal independent registered public accounting firm for permissible non-audit services.

When engaging an accounting firm for audit services, pre-approval is required prior to the commencement of such services. Similarly, when engaging the principal independent registered public accounting firm for permissible non-audit services (i.e., audit-related services, tax services and all other services), pre-approval must be obtained prior to the commencement of the services.

No services were provided for which pre-approval was waived pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Komatsu Ltd.:

We have audited the accompanying consolidated balance sheets of Komatsu Ltd. and subsidiaries as of March 31, 2007 and 2006, and the related consolidated statements of income, shareholders' equity and cash flows for each of the years in the three-year period ended March 31, 2007, expressed in Japanese yen. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Komatsu Ltd. and subsidiaries as of March 31, 2007 and 2006, and the results of their operations and their cash flows for each of the years in the three-year period ended March 31, 2007, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of March 31, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated June 29, 2007 expressed an unqualified opinion on management's assessment of, and the effective operation of, internal control over financial reporting.

The accompanying consolidated financial statements as of and for the year ended March 31, 2007 have been translated into United States dollars solely for convenience of the reader. We have audited the translation and, in our opinion, the consolidated financial statements, expressed in yen, have been translated into dollars on the basis set forth in Note 1 to the consolidated financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Komatsu Ltd.:

We have audited management's assessment, included in the Management's Report on Internal Control over Financial Reporting, which appears in Item 15, that Komatsu Ltd. and subsidiaries maintained effective internal control over financial reporting as of March 31, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Komatsu Ltd. and subsidiaries maintained effective internal control over financial reporting as of March 31, 2007, is fairly stated, in all material respects, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, Komatsu Ltd. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of March 31, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Komatsu Ltd. and subsidiaries as of March 31, 2007 and 2006, and the related consolidated statements of income, shareholders equity and cash flows for each of the years in the three-year period ended March 31, 2007, expressed in Japanese yen, and our report dated June 29, 2007 expressed an unqualified opinion on those consolidated financial statements.

Notes to Consolidated Financial Statements

Komatsu Ltd. and Consolidated Subsidiaries

1. Description of Business, Basis of Financial Statements and Summary of Significant Accounting Policies

Description of Business

Komatsu Ltd. (Company) and consolidated subsidiaries (together Komatsu) primarily manufacture and market various types of construction and mining equipment throughout the world. Komatsu is also engaged in the manufacture and sale of industrial machinery, and vehicles and electronics products including temperature-control equipments.

The consolidated net sales of Komatsu for the year ended March 31, 2007, consisted of the following: Construction and mining equipment 82.8%, Industrial Machinery, Vehicles and Others 15.7%, Electronics 1.5%.

Sales are made principally under the Komatsu brand name, and are almost entirely through sales subsidiaries and sales distributors. These subsidiaries and distributors are responsible for marketing and distribution and primarily sell to retail dealers in their geographical area. Of consolidated net sales for the year ended March 31, 2007, 74.3% were generated outside Japan, with 28.4% in the Americas, 17.1% in Europe and CIS, 6.8% in China, 13.4% in Asia (excluding Japan and China) and Oceania, and 8.6% in the Middle East and Africa.

The manufacturing operations of Komatsu are conducted primarily at plants in Japan, United States, Germany, United Kingdom, Sweden, Indonesia, Brazil, Italy, and China.

Basis of Financial Statements

The accompanying consolidated financial statements are stated in Japanese yen, the functional currency of the country in which the Company is incorporated and principally operates. The translation of Japanese yen amounts into United States dollar amounts for the year ended March 31, 2007, is included solely for the convenience of readers and has been made at the rate of ¥118 to \$1, the approximate rate of exchange prevailing at the Federal Reserve Bank of New York on March 30, 2007. Such translation should not be construed as a representation that Japanese yen amounts could be converted into United States dollars at the above or any other rate.

The Company and its domestic subsidiaries maintain their books of account in conformity with accounting principles generally accepted in Japan, and its foreign subsidiaries generally maintain their books of account in conformity with those in the country of their domicile. The accompanying consolidated financial statements reflect certain adjustments, not recorded in Komatsu's books, to present them in conformity with U.S. generally accepted accounting principles. These adjustments are made mainly in connection with accounting for liability for pension and

other retirement benefits, leases, derivative financial instruments, and recognition of certain accrued expenses. Certain reclassifications have been made to prior year amounts to conform with current year presentation.

Summary of Significant Accounting Policies

(1) Consolidation and Investments in Affiliated Companies

The consolidated financial statements include the accounts of the Company and all of its majority-owned domestic and foreign subsidiaries, except for certain immaterial subsidiaries.

The accounts of any variable interest entities that must be consolidated under Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities (FIN 46R) because the Company has been determined to be the primary beneficiary, are included in the consolidated financial statements.

Investments in 20 to 50% owned affiliated companies whereby Komatsu has the ability to exercise significant influence over the operational and financial policies of a company are accounted for by the equity method.

(2) Translation of Foreign Currency Accounts

Under the provisions of Statement of Financial Accounting Standards (SFAS) No. 52, Foreign Currency Translation, assets and liabilities are translated at the exchange rates in effect at each fiscal year-end, and income and expenses are translated at the average rates of exchange prevailing during each fiscal year in consolidating the financial statements of overseas subsidiaries. The resulting translation adjustments are included as a separate component of accumulated other comprehensive income (loss) in the accompanying consolidated financial statements. All foreign currency transaction gains and losses are included in other income (expenses) in the period incurred.

(3) Allowance for Doubtful Trade Receivables

Komatsu records allowance for doubtful receivables as the best estimate of the amount of probable credit losses in Komatsu's existing receivables. The amount is determined based on historical experience, credit information of individual customers, and assessment of overdue receivables. An additional reserve for individual receivable is recorded when Komatsu becomes aware of a customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration of the customer's business performance. The amount of estimated credit losses is further adjusted to reflect changes in customer circumstances.

(4) Inventories

Edgar Filing: KOMATSU LTD - Form 20-F

Inventories are stated at the lower of cost or market. Komatsu determines cost of work in process and finished products using the specific identification method based on actual costs accumulated under a job-order cost system. The cost of finished parts is determined principally using the first-in first-out method, with certain immaterial amounts using the last-in first-out method. Cost of materials and supplies is stated at average cost.

F-9

Table of Contents**(5) Investment Securities**

In compliance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, Komatsu's investments in debt and marketable equity securities are categorized as available-for-sale securities which are stated at fair value. Changes in fair values are included as a separate component of accumulated other comprehensive income (loss) in the accompanying consolidated financial statements.

Unrealized losses on marketable securities are charged against net earnings when a decline in market value below cost is determined to be other than temporary based primarily on the financial condition and near term prospects of the issuer and the extent and length of the time of the decline. Investments with unrealized losses that continue for six months or more are written down to fair value.

In assessing other-than-temporary impairment of investment securities which are stated at cost, the Company considers the financial condition and prospects of each investee company and other relevant factors. Impairment to be recognized is measured based on the amount by which the carrying amount of the investment securities exceeds its estimated fair value which is determined using discounted cash flows or other valuation techniques considered appropriate.

(6) Property, Plant and Equipment, and Related Depreciation

Property, plant and equipment are stated at cost. Depreciation is computed principally using the declining-balance method at rates based on the estimated useful lives of the assets. The average depreciation periods are 26 years for buildings and 7 years for machinery and equipment. Effective rates of depreciation for buildings, machinery and equipment for the years ended March 31, 2007, 2006 and 2005, were as follows:

	2007	2006	2005
Buildings	8%	8%	8%
Machinery and equipment	27%	26%	25%

Certain leased machinery and equipment are accounted for as capital leases in conformity with SFAS No. 13, *Accounting for Leases*. The aggregate cost included in property, plant and equipment and related accumulated depreciation as of March 31, 2007 and 2006 were as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Aggregate cost	¥ 81,618	¥ 72,700	\$ 691,678
Accumulated depreciation	26,145	26,864	221,568

Ordinary maintenance and repairs are charged to expense as incurred. Major replacements and improvements are capitalized. When properties are retired or otherwise disposed of, the costs of those properties and the related accumulated depreciation are relieved from the consolidated balance sheets and the differences between the costs of those properties and the related accumulated depreciation are recognized in other operating income (expenses) of the consolidated statements of income.

(7) Goodwill and Other Intangible Assets

Komatsu applies the provisions of SFAS No.141 Business Combinations and SFAS No.142 Goodwill and Other Intangible Assets. SFAS No. 141 requires the use of the purchase method of accounting for business combinations and establishes a basis for the determination of intangible assets acquired in a purchase business combination. SFAS No. 142 precludes the amortization of goodwill and instead requires annual impairment testing thereof. SFAS No. 142 also requires recognized intangible assets with a definite useful life to be amortized over their respective estimated useful lives and reviewed for impairment in accordance with SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets. An impairment loss would be recognized when the carrying amount of an asset exceeds the estimated undiscounted cash flows expected to be generated by the assets. The amount of the impairment loss to be recorded is determined by the difference between the fair value of the asset using a discounted cash flow valuation model and carrying value. Any recognized intangible asset determined to have an indefinite useful life is not to be amortized, but instead tested for impairment annually based on its fair value until its life is determined to no longer be indefinite.

(8) Revenue Recognition

Komatsu recognizes revenue when (1) persuasive evidence of an arrangement exists, (2) delivery has occurred or services have been rendered for customers or dealers, (3) sales price is fixed or determinable, and (4) collectibility is reasonably assured.

Revenue from sales of products including construction and mining equipment, industrial machinery, and vehicles is recognized when title and risk of ownership is transferred to independently owned and operated customers or dealers, which occurs upon the attainment of customer acceptance or when installation is completed. The conditions of acceptance are governed by the terms of the contract or arrangement. For arrangements with multiple elements, which may include any combination of products, installation and maintenance, Komatsu allocates revenue to each element based on its relative fair value if such elements meet the criteria for treatment as a separate unit of accounting as prescribed in the Emerging Issues Task Force (EITF) Issue No. 00-21, Revenue Arrangements with Multiple Deliverables. When Komatsu enters into a separate contract to render transportation or technical advice, principally related to a sale of large-sized industrial machinery such as large presses, these service revenues are accounted for separately from the product sale and recognized at the completion of the service delivery specified in the contract.

Table of Contents

Service revenues from repair and maintenance and from transportation are recognized at the completion of service delivery. Revenues from long-term fixed price maintenance contracts are recognized ratably over the contract period.

Certain of consolidated subsidiaries rent construction equipments to customers. Rent revenue is recognized on a straight-line basis over the rental period.

Revenues are recorded net of discounts.

(9) Income Taxes

In accordance with SFAS No. 109, Accounting for Income Taxes, income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carryforwards are expected to be realized or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Komatsu uses a specific identification method to release the residual tax effects associated with components of accumulated other comprehensive income (loss) resulting from a change in tax law or rate.

(10) Product Warranties

Komatsu establishes a liability for estimated product warranty cost after sales. Estimates for accrued product warranty cost are primarily based on historical experience and are classified as other current liabilities.

(11) Pension and Retirement Benefits

The defined benefit plans are accounted for in accordance with SFAS No. 87, Employers Accounting for Pensions and SFAS No. 158, Employer s Accounting for Defined Benefit Pension and Other Postretirement Plans-an amendment of SFAS No. 87, 88, 106 and 132(R) except for certain subsidiaries pension plans which in the aggregate are not significant. Certain domestic subsidiaries also have local severance payment plans under which accrued severance liabilities are stated on a vested benefit obligation basis, which is the amount required to be paid if all eligible employees voluntarily terminated their employment as of the balance-sheet date.

Amortization of actuarial net gain or loss is included as a component of the Company s net periodic pension cost for a year if, as of the beginning of the year, that unrecognized net gain or loss exceeds 10 percent of the greater of (1) the projected benefit obligation or (2) the fair value of that

plan's assets.

In such case, the amount of amortization recognized is the resulting excess divided by average remaining service period of active employees expected to receive benefits under the plan. The expected return on plan assets is determined based on the historical long-term rate of return on plan assets. The discount rate is determined based on the rates of return of high-quality fixed income investments currently available and expected to be available during the period to maturity of the pension benefits.

(12) Stock-Based Compensation

Effective April 1, 2006, Komatsu adopted SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R) for the year ended March 31, 2007 using the modified prospective method. In accordance with SFAS No. 123R, Komatsu recognizes compensation expense using the fair value method. Compensation expense is measured at grant-date fair value of the stock option and charged to expense over the vesting period.

For the years ended March 31, 2006 and 2005, Komatsu had applied the intrinsic value method under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. No compensation expense was recognized as the exercise price was at least equal to the market price on the date of grant.

The following table summarizes pro forma net income of Komatsu if compensation expense for stock options granted under the plan had been determined in accordance with the fair value based method prescribed by SFAS No. 123R for the years ended March 31, 2006 and 2005:

		Millions of yen	
		2006	2005
Net income, as reported		¥ 114,290	¥ 59,010
Compensation expense		699	256
Pro forma net income		113,591	58,754
		Yen	
Net income per share, basic and diluted:		2006	2005
Basic earnings per share	As reported	¥ 115.13	¥ 59.51
	Pro forma	114.42	59.25
Diluted earnings per share	As reported	114.93	59.47
	Pro forma	114.23	59.21

Table of Contents

(13) Per Share Data

Basic net income per share has been computed by dividing net income by the weighted-average number of common shares outstanding during each fiscal year, after deducting treasury shares. Diluted net income per share reflects the potential dilution computed on the basis that all stock options were exercised (less the number of treasury shares assumed to be purchased from proceeds using the average market price of the Company's common shares) to the extent that each is not antidilutive.

Dividends per share shown in the accompanying consolidated statements of income are based on dividends approved and paid in each fiscal year.

(14) Consolidated Statements of Cash Flows

For the purpose of the consolidated statements of cash flows, cash and cash equivalents include highly liquid investments with an original maturity of three months or less at the date of purchase.

(15) Derivative Financial Instruments

Komatsu uses various derivative financial instruments to manage its interest rate and foreign exchange exposure.

Komatsu accounts for its investment in derivative financial instruments in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* as amended. SFAS No. 133 as amended requires that all derivatives, including derivatives embedded in other financial instruments, be measured at fair value and recognized as either assets or liabilities on the consolidated balance sheet. Changes in the fair values of derivative instruments not designated or not qualifying as hedges under SFAS No. 133 and any ineffective portion of qualified hedges are recognized in earnings in the current period. Changes in the fair values of derivative instruments used effectively as fair value hedges are recognized in earnings, along with changes in the fair value of the hedged item. Changes in the fair value of the effective portions of cash flow hedges are reported in accumulated other comprehensive income (loss), and recognized in earnings when the hedged item is recognized in earnings.

(16) Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

In accordance with SFAS No. 144, long-lived assets and certain identifiable intangibles to be held and used by Komatsu are reviewed for impairment based on a cash flow analysis of related operations whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The assets to be held for use are considered to be impaired when estimated undiscounted cash flows expected to result from the use of the assets and their eventual disposition is less than their carrying amounts. The impairment losses are measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset. Long-lived assets and certain identifiable intangibles to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

(17) Use of Estimates

Komatsu's management has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses presented in these financial statements prepared in conformity with U.S. generally accepted accounting principles. Actual results could differ from the estimates and assumptions.

Komatsu has identified six areas where it believes assumptions and estimates are particularly critical to the financial statements. These are the determination of the allowance for doubtful receivables, impairment loss on long-lived assets and goodwill, pension liabilities and expenses, fair value of financial instruments, realization of deferred tax assets and securitization of trade notes and account receivable.

(18) New Accounting Standards

In February 2006, the FASB issued SFAS No.155, *Accounting for Certain Hybrid Financial Instruments* an amendment of SFAS No.133 and 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No.155 permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative, and establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative. SFAS No.155 is effective for the fiscal periods beginning after September 15, 2006 and is required to be adopted by Komatsu in the fiscal year beginning April 1, 2007. Komatsu is currently evaluating the effect that the adoption of SFAS No.155 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In March 2006, the FASB issued SFAS No.156, *Accounting for Servicing of Financial Assets* an amendment of FASB Statement No.140. SFAS No.156 amends SFAS No.140 to clarify the accounting for servicing assets and servicing liabilities. Among other provisions, the new accounting standard requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable. SFAS No.156 is effective for the fiscal periods beginning after September 15, 2006 and is required to be adopted by Komatsu in the fiscal year beginning April 1, 2007. Komatsu is currently evaluating the effect that the adoption of SFAS No.156 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

Table of Contents

In June 2006, the FASB issued Interpretation No.48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of SFAS No.109, Accounting for Income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS No.109. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for the fiscal periods beginning after December 15, 2006 and is required to be adopted by Komatsu in the fiscal year beginning April 1, 2007. Komatsu is currently evaluating the effect that the adoption of FIN 48 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In September 2006, the FASB issued SFAS No.157, Fair Value Measurements. SFAS No.157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No.157 is effective for the fiscal periods beginning after November 15, 2007 and is required to be adopted by Komatsu in the fiscal year beginning April 1, 2008. Komatsu is currently evaluating the effect that the adoption of SFAS No.157 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

In February 2007, the FASB issued SFAS No.159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of SFAS No.115. SFAS No.159 permits entities to choose to measure certain financial assets and liabilities at fair value. The unrealized gains and losses on items for which the fair value option has been elected are required to be reported in earnings. SFAS No.159 is effective for the fiscal periods beginning after November 15, 2007 and is required to be adopted by Komatsu in the fiscal year beginning April 1, 2008. Komatsu is currently evaluating the effect that the adoption of SFAS No.159 will have on its consolidated results of operations and financial condition but expects it will not have a material impact.

(19) Reclassification

For the year ended March 31, 2007, Komatsu changed its form of consolidated statements of income from single- to multiple-step.

The consolidated statement of income for the years ended March 31, 2006 and 2005 have been reclassified to conform to the presentation for the year ended March 31, 2007.

This reclassification had no effect on the consolidated balance sheets or statements of cash flows.

(20) Discontinued Operation

Throughout the notes to consolidated financial statements, the amounts of discontinued operations related to consolidated statements of income have been excluded from past years, unless indicated otherwise.

2. Supplemental Cash Flow Information

Edgar Filing: KOMATSU LTD - Form 20-F

Additional cash flow information and noncash investing and financing activities for the years ended March 31, 2007, 2006 and 2005, are as follows:

	Millions of yen			Thousands of U.S. dollars
	2007	2006	2005	2007
Additional cash flow information:				
Interest paid	¥ 15,513	¥ 12,963	¥ 10,687	\$ 131,466
Income taxes paid	75,058	26,929	16,642	636,085
Noncash investing and financing activities:				
Capital lease obligations incurred	¥ 23,584	¥ 23,713	¥ 16,146	\$ 199,864

3. Acquisition and Divestiture

In July, 2005, the Company's wholly-owned subsidiary, Komatsu America Corp.(KAC), completed the sale of 75% of its ownership interest in Advanced Silicon Materials LLC (ASiMI) to Solar Grade Silicon Holdings Inc., a U.S. subsidiary of Renewable Energy Corporation AS, a Norwegian company and retained a 25% ownership interest. Simultaneously with the sale, the ownership interests in ASiMI were classified into Class A Units and Class B Units with the Class A Units having sole voting rights. Also simultaneously with the sale, Komatsu Electronic Metals Co., Ltd. entered into a long term materials supply agreement with ASiMI. KAC's retained 25% ownership interest in ASiMI in the form of Class B Units which do not have voting rights but whose consent is required for certain matters, including a liquidation of ASiMI and certain actions relating to the long term materials supply agreement. Ownership of the Class B Units does not entitle KAC to share prospectively in the underlying profits and losses of ASiMI.

As a result of such sale, Komatsu recognized a gain of ¥18,340 million which is included in other operating income (expenses) in the accompanying consolidated statement of income for the year ended March 31, 2006. The results of operations of ASiMI were included in Electronics segment through the date of sale. The value ascribed to the retained 25% non-voting interest held is not material to the accompanying consolidated financial statements and is being accounted for on the cost basis.

Komatsu has evaluated the terms and conditions of its remaining 25% ownership interest and ongoing supply agreement in conjunction with the provisions of EITF Issue No. 03-13, "Applying the Conditions in Paragraph 42 of SFAS No. 144 in Determining Whether to Report Discontinued Operations" and has concluded such interests represent significant continuing involvement in the business of ASiMI as contemplated by EITF Issue No. 03-13 and, accordingly, has not presented the financial position and results of operations of ASiMI as a discontinued operation in the accompanying consolidated financial statements.

Table of Contents**4. Discontinued Operations**

On October 18, 2006, the Company sold 51.0% of the shares of Komatsu Electronic Metals Co., Ltd. (KEM , currently SUMCO TECHXIV CORPORATION) allocated to a reporting unit in the electronics segment to SUMCO CORPORATION. Prior to this disposition, the Company held a 61.9% equity interest. Accordingly, KEM and its subsidiaries are no longer consolidated in Komatsu's results. On January 30, 2007, the Company signed a definitive agreement to sell the outdoor power equipment (OPE) business of Komatsu Zenoah Co. allocated to a reporting unit in the industrial machinery, vehicles and others segment to a Japanese subsidiary of Husqvarna AB of Sweden. Accordingly, the OPE business of Komatsu Zenoah Co. and its subsidiaries engaging in the OPE business are no longer consolidated in Komatsu's results. The concerned sale was completed on April 2, 2007. In accordance with SFAS No. 144, the gain on sale of KEM's shares and operating results, less applicable income taxes, minority interests and equity earnings of affiliated companies, related to KEM and its subsidiaries as well as the operating results, less applicable income taxes of the OPE business of Komatsu Zenoah Co. and its OPE business subsidiaries, are presented as one line, income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies in the consolidated statements of income. Assets and liabilities related to the OPE business of Komatsu Zenoah Co. and its OPE business subsidiaries are classified as held for sale on the consolidated balance sheet as of March 31, 2007. The cash flows attributable to the discontinued operations are not presented separately from the cash flows attributable to activities of the continuing operations in the consolidated statements of cash flows.

Selected financial information in connection with the discontinued operations for the years ended March 31, 2007, 2006 and 2005 are as follows:

	2007	Millions of yen 2006	2005	Thousands of U.S. dollars 2007
Net sales	¥ 63,416	¥ 89,829	¥ 78,717	\$ 537,424
Income before income taxes, minority interests and equity in earnings of affiliated companies (including gain on sale of KEM's shares of ¥18,769 million in 2007)	29,544	13,294	6,834	250,373
Income taxes	14,566	3,051	1,759	123,441
Minority interests in income of consolidated subsidiaries	(3,613)	(5,132)	(1,985)	(30,619)
Equity in earnings of affiliated companies	9	38	52	77
Income from discontinued operations less applicable income taxes, minority interests and equity in earnings of affiliated companies	¥ 11,374	¥ 5,149	¥ 3,142	\$ 96,390

Assets held for sale and liabilities held for sale at March 31, 2007 are summarized as follows:

	Millions of yen 2007	Thousands of U.S. dollars 2007
Assets held for sale		
Trade notes and accounts receivable	¥ 9,088	\$ 77,017
Inventories	3,567	30,229

Other assets	1,792	15,187
Total	¥ 16,321	\$ 138,314

Edgar Filing: KOMATSU LTD - Form 20-F

	Millions of yen 2007	Thousands of U.S. dollars 2007
Liabilities held for sale		
Short-term debt	¥ 1,294	\$ 10,966
Trade notes and accounts payable	4,242	35,949
Other Liabilities	2,383	20,195
 Total	 ¥ 7,919	 \$ 67,110

F-14

Table of Contents**5. Trade Notes and Accounts Receivable**

Receivables at March 31, 2007 and 2006 are summarized as follows:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Trade notes	¥ 136,837	¥ 98,085	\$ 1,159,636
Accounts receivable	353,034	311,699	2,991,813
Total	489,871	409,784	4,151,449
Less: allowance	(11,808)	(11,786)	(100,068)
Trade receivables-current	¥ 478,063	¥ 397,998	\$ 4,051,381
Long-term trade receivables	¥ 73,669	¥ 72,844	\$ 624,314

Installment and lease receivables (less unearned interest) are included in trade notes and accounts receivable and long-term trade receivables.

Lease receivables primarily represent receivables from customers for equipment leased by Komatsu Forklift Co., Ltd. These leases are accounted for as sales-type leases in conformity with SFAS No. 13. Equipment sales revenue from sales-type leases are recognized at the inception of the lease.

At March 31, 2007 and 2006, lease receivables comprised the following:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Minimum lease payments receivable	¥ 22,935	¥ 20,298	\$ 194,365
Unearned income	(2,212)	(1,842)	(18,746)
Net lease receivables	¥ 20,723	¥ 18,456	\$ 175,619

Cash flows received from the sale of trade notes and accounts receivable for the years ended March 31, 2007, 2006 and 2005 were ¥355,627 million (\$3,013,788 thousand), ¥382,669 million and ¥339,469 million.

The Company and certain consolidated subsidiaries retain responsibility to service sold trade notes and accounts receivable that are sold pursuant to a securitization transaction, however contractual servicing fees are not received from the third parties separately. The investors and the trusts that hold the receivables have no or limited recourse rights to the Company and its consolidated subsidiaries' assets in case of debtors default. Appropriate reserves have been established for potential losses relating to the limited recourse of the sold receivables. Also the

Edgar Filing: KOMATSU LTD - Form 20-F

Company and its consolidated subsidiaries, except for a certain U.S. subsidiary, as transferor do not retain any interest in the receivables sold.

The components of securitized trade receivables and other assets managed together at March 31, 2007 and 2006 were as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Total amount of trade receivables that are managed and securitized	¥ 748,478	¥ 654,638	\$ 6,343,034
Assets transferred	(184,938)	(172,010)	(1,567,271)
Total amount of trade receivable on balance sheet	¥ 563,540	¥ 482,628	\$ 4,775,763

A certain U.S. subsidiary's retained interests, which are included in the recourse provisions, are subordinate to investor's interests. Their values are estimated based on the present value of future expected cash flows, using certain key assumptions such as a weighted average life, prepayment speed over the life and expected credit losses over the life. Key assumptions used in measuring the fair value of retained interests related to securitization transactions completed during the year ended March 31, 2007 and 2006 were as follows:

	2007	2006
	30 months	31 months
Weighted-average life		
Prepayment speed over the life	0.7%	0.6%
Expected credit losses over the life	1.0%	1.6%

The carrying amount of retained interest was ¥202 million (\$1,712 thousand) liability and ¥817 million liability as of March 31, 2007 and 2006, respectively. The impacts of 10% and 20% changes to the key assumptions on the fair value of retained interest as of March 31, 2007 are immaterial.

Table of Contents**6. Inventories**

At March 31, 2007 and 2006, inventories comprised the following:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars
Finished products, including finished parts held for sale	¥ 294,154	¥ 243,164	\$ 2,492,830
Work in process	85,687	78,869	726,161
Materials and supplies	58,053	48,041	491,975
Total	¥ 437,894	¥ 370,074	\$ 3,710,966

7. Investment Securities

Investment securities at March 31, 2007 and 2006, primarily consisted of securities available for sale. Komatsu does not have intentions to sell these securities within a year as of the balance sheet date.

The cost, gross unrealized holding gains and losses, and fair value for such investment securities by major security types at March 31, 2007 and 2006, are as follows:

	Cost	Millions of yen		Fair value
		Gross unrealized holding Gains	Losses	
At March 31, 2007				
Investment securities available for sale:				
Marketable equity securities	¥ 24,589	¥ 68,167	¥ 57	¥ 92,699
Other investment securities at cost	15,474			15,474
Current portion of other investment securities at cost	417			417
	¥ 40,480	¥ 68,167	¥ 57	¥ 108,590

At March 31, 2006

Investment securities available for sale:				
Marketable equity securities	¥ 18,341	¥ 63,514	¥ 111	¥ 81,744
Other investment securities at cost	13,000			13,000
Current portion of other investment securities at cost	415			415
	¥ 31,756	¥ 63,514	¥ 111	¥ 95,159

Cost	Thousands of U.S. dollars		Fair value
	Gross unrealized holding Gains	Losses	

At March 31, 2007

Investment securities available for sale:

Marketable equity securities	\$ 208,381	\$ 577,686	\$ 483	\$ 785,584
Other investment securities at cost	131,136			131,136
Current portion of other investment securities at cost	3,534			3,534
	\$ 343,051	\$ 577,686	\$ 483	\$ 920,254

Other investment securities primarily include non-marketable equity securities.

Unrealized holding gains and losses deemed to be temporary are included as a component of accumulated other comprehensive income (loss) until realized.

Proceeds from the sales of investment securities available for sale were ¥1,844 million (\$15,627 thousand), ¥4,112 million and ¥2,593 million for the years ended March 31, 2007, 2006 and 2005, respectively.

Net realized gains on sale of investment securities available for sale during the years ended March 31, 2007, 2006 and 2005, amounted to gains of ¥344 million (\$2,915 thousand), gains of ¥18 million and losses of ¥126 million, respectively. Such gains and losses were included in other income (expenses) in the accompanying consolidated statements of income. The cost of the marketable securities and investment securities sold was computed based on the average-cost method.

Table of Contents**8. Investments in and Advances to Affiliated Companies**

At March 31, 2007 and 2006, investments in and advances to affiliated companies comprised the following:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Investments in capital stock	¥ 32,647	¥ 16,559	\$ 276,669
Advances	4,041	5,167	34,246
Total	¥ 36,688	¥ 21,726	\$ 310,915

The investments in and advances to affiliated companies relate to 20% to 50% owned companies whereby Komatsu has the ability to exercise significant influence over the operational and financial policies.

Dividends received from affiliated companies were ¥679 million (\$5,754 thousand), ¥130 million and ¥80 million during the years ended March 31, 2007, 2006 and 2005, respectively.

Trade notes and accounts receivable from affiliated companies at March 31, 2007 and 2006, were ¥30,919 million (\$ 262,025 thousand) and ¥27,763 million, respectively.

Short-term loans receivable from affiliated companies at March 31, 2007 and 2006, were ¥2,764 million (\$23,424 thousand) and ¥2,064 million, respectively.

Trade notes and accounts payable to affiliated companies at March 31, 2007 and 2006, were ¥9,164 million (\$77,661 thousand) and ¥7,560 million, respectively.

Net sales for the years ended March 31, 2007, 2006 and 2005, included net sales to affiliated companies in the amounts of ¥54,731 million (\$463,822 thousand), ¥56,916 million and ¥54,446 million, respectively.

Intercompany profits (losses) have been eliminated in the consolidated financial statements.

As of March 31, 2007, consolidated unappropriated retained earnings included Komatsu's share of undistributed earnings of 50% or less owned companies accounted for by the equity method in the amount of ¥6,068 million (\$51,424 thousand).

Edgar Filing: KOMATSU LTD - Form 20-F

The carrying value of the investments in affiliated companies exceeded Komatsu's equity in the underlying net assets of such associated companies by ¥5,487 million at March 31, 2007. The excess is attributed primarily to the goodwill at the time of the initial investments in those companies.

Investments in affiliated companies include certain equity securities which have been quoted on an established market. The carrying amount and the quoted market value of the equity securities at March 31, 2007 were ¥13,288 and ¥20,294 million, respectively.

Summarized financial information for affiliated companies at March 31, 2007 and 2006, and for the years ended March 31, 2007, 2006 and 2005, is as follows:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Current assets	¥ 163,411	¥ 98,735	\$ 1,384,839
Net property, plant and equipment less accumulated depreciation	64,245	35,992	544,449
Investments and other assets	18,785	7,272	159,195
Total assets	¥ 246,441	¥ 141,999	\$ 2,088,483
Current liabilities	¥ 139,661	¥ 77,376	\$ 1,183,568
Noncurrent liabilities	33,515	23,625	284,025
Shareholders' equity	73,265	40,998	620,890
Total liabilities and shareholders' equity	¥ 246,441	¥ 141,999	\$ 2,088,483

	Millions of yen			Thousands of
	2007	2006	2005	U.S. dollars 2007
Net sales	¥ 197,434	¥ 176,250	¥ 175,593	\$ 1,673,169
Net income	¥ 6,486	¥ 4,700	¥ 2,511	\$ 54,966

Table of Contents**9. Property, Plant and Equipment**

The major classes of property, plant and equipment at March 31, 2007 and 2006, are as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Land	¥ 78,437	¥ 83,119	\$ 664,720
Buildings	278,214	278,696	2,357,746
Machinery and equipment	561,416	611,725	4,757,763
Construction in progress	8,250	14,737	69,915
Total	926,317	988,277	7,850,144
Less: accumulated depreciation	(537,924)	(587,610)	(4,558,678)
Net property, plant and equipment	¥ 388,393	¥ 400,667	\$ 3,291,466

10. Pledged Assets

At March 31, 2007, assets pledged as collateral for long-term debt and guarantees for debt are as follows:

	Millions of yen	Thousands of U.S. dollars
Cash and cash equivalents	¥ 881	\$ 7,466
Property, plant and equipment less accumulated depreciation	500	4,237
Total	¥ 1,381	\$ 11,703

The above assets were pledged against the following liabilities:

	Millions of yen	Thousands of U.S. dollars
Appearing in the consolidated balance sheets as:		
Long-term debt	¥ 500	\$ 4,237
Guarantees for debt	881	7,466
Total	¥ 1,381	\$ 11,703

11. Goodwill and Other Intangible Assets

Edgar Filing: KOMATSU LTD - Form 20-F

The information for intangible assets other than goodwill at March 31, 2007 and 2006 are as follows:

	Millions of yen

Total other intangible assets			\$ 213,924

The aggregate amortization expense of other intangible assets subject to amortization for the year ended March 31, 2007, 2006 and 2005 were ¥5,656 million (\$47,932 thousand), ¥5,665 million and ¥6,440 million, respectively. (In accordance with SFAS No. 144, the amortization expense in connection with the discontinued operations is not included in the aggregate amortization expense for the year ended March 31, 2007, 2006 and 2005.) The future estimated amortization expenses for each of five years relating to amounts currently recorded in the consolidated balance sheet are as follows:

Year ending March 31	Millions of yen	Thousands of U.S. dollars
2008	¥ 4,517	\$ 38,280
2009	4,186	35,475
2010	3,567	30,229
2011	2,503	21,212
2012	1,513	12,822

The changes in carrying amounts of goodwill for the year ended March 31, 2007 and 2006 were as follow:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Balance at beginning of the year	¥ 22,000	¥ 21,277	\$ 186,441
Goodwill acquired during the year	124	3,904	1,051
Impairment loss		(3,581)	
Recognition of deferred income taxes	(1,387)		(11,754)
Foreign exchange impact	57	400	482
Other	(200)		(1,695)
Balance at end of the year	¥ 20,594	¥ 22,000	\$ 174,525

At March 31, 2007, the amounts of goodwill allocated to the construction and mining equipment segment and the industrial machinery, vehicles and others segment were ¥20,569 million (\$174,314 thousand) and ¥25 million (\$211 thousand), respectively.

Edgar Filing: KOMATSU LTD - Form 20-F

For the fiscal year ended March 31, 2007, Komatsu recognized ¥1,387 million (\$11,754 thousand) of deferred income taxes relating to preexisting net operating tax losses and temporary differences deductible in the future. In connection therewith, Komatsu reduced the related goodwill by the same amount.

For the fiscal year ended March 31, 2006, Komatsu recognized an impairment loss of ¥3,041 million, on goodwill allocated to a reporting unit in the construction and mining equipment segment due to unfavorable business circumstance where the net assets of the reporting unit was located. In addition, an impairment loss of ¥540 million was recognized in the electronics segment. The impairment losses were recognized based on the difference by which the net book value of the reporting unit to which the goodwill was assigned exceeded the estimated fair value of the same reporting unit as determined based on estimated future discounted cash flows.

Goodwill acquired during the fiscal year ended March 31, 2006 principally resulted from the acquisition of additional shares of PT Komatsu Indonesia Tbk, and was allocated to the construction and mining equipment segment and the industrial machinery, vehicles and others segment.

Table of Contents**12. Short-Term and Long-Term Debt**

Short-term debt primarily consists of short-term bank loans. The weighted-average annual interest rates applicable to short-term debt outstanding at March 31, 2007 and 2006, were 5.0% and 3.8%, respectively. The Company and certain consolidated subsidiaries have entered into contracts for committed credit lines totaling ¥43,192 million (\$366,034 thousand) and have unused committed lines of credit amounting to ¥36,438 million (\$308,797 thousand) with certain financial institutions at March 31, 2007, which are available for full and immediate borrowings. The Company is party to a committed ¥80,000 million (\$677,966 thousand) commercial paper program of which the entire amount was unused as of March 31, 2007. Financing under this program is available upon the satisfaction of certain customary procedural requirements. Long-term debt at March 31, 2007 and 2006, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Long-term debt with collateral (Note 10):			
Banks, insurance companies and other financial institutions, maturing serially through 2007 2012, weighted-average rate 9.7%	¥ 339	¥ 417	\$ 2,873
Long-term debt without collateral:			
Banks, insurance companies and other financial institutions, maturing serially through 2007 2017, weighted-average rate 2.2%	86,914	137,226	736,559
Euro Medium-Term Notes maturing serially through 2007 2012, weighted-average rate 5.1%	64,486	57,071	546,492
1.07% Unsecured Bonds due 2007	20,000	20,000	169,492
1.45% Unsecured Bonds due 2009	10,000	10,000	84,746
Capital lease obligations (Note 17)	55,882	47,692	473,576
Other	9,205	7,377	78,008
Total	246,826	279,783	2,091,746
Less: current maturities	(72,486)	(84,580)	(614,288)
Long-term debt	¥ 174,340	¥ 195,203	\$ 1,477,458

In 1996, the Company, Komatsu Finance America Inc. and Komatsu Finance (Netherlands) B.V. registered the US\$1.0 billion Euro Medium-Term Note Program (the Program) on the London Stock Exchange. On April 1, 1999, the registered amount of the Program was increased to US\$1.2 billion. On October 14, 2003, Komatsu Europe Coordination Center N.V. was added as an issuer under the Program. At March 31, 2007, the issuers under the Program were the Company, Komatsu Finance America Inc. and Komatsu Europe Coordination Center N.V. Under the Program, each of the issuers may from time to time issue notes denominated in any currency as may be agreed between the relevant issuers and dealers. Komatsu Finance America Inc. issued ¥26,500 million (\$224,576 thousand) during fiscal year ended March 31, 2007, and ¥12,000 million during fiscal year ended March 31, 2006 of Euro Medium-Term Notes with various interest rates and maturity dates. Komatsu Europe Coordination Center N.V. issued ¥13,500 million (\$114,407 thousand) during fiscal year ended March 31, 2007, and ¥6,500 million during fiscal year ended March 31, 2006 of Euro Medium-Term Notes with various interest rates and maturity dates.

The Company has established a program to issue up to ¥100,000 million (\$847,458 thousand) of variable term bonds. As is customary in Japan, substantially all bank loans are made under agreements which provide that the banks may require, under certain conditions, the borrower to provide collateral, additional collateral or guarantors for its loans.

Lending banks have a right to offset cash deposited with them against any debt or obligation that becomes due and, in the case of default and certain other specified events, against all other debt payable to the banks.

Table of Contents

Under certain loan agreements, the lender may require the borrower to submit proposals for the payment of dividends and other appropriations of earnings for the lender's review and approval before presentation to the shareholders. The companies have never received such a request.

Annual maturities of long-term debt subsequent to March 31, 2007, excluding market value adjustments for balances subject to qualifying fair value hedges of ¥1,581 million (\$13,398 thousand) are as follows:

Year ending March 31	Millions of yen	Thousands of U.S. dollars
2008	¥ 73,528	\$ 623,119
2009	83,191	705,008
2010	50,594	428,763
2011	17,450	147,881
2012	21,018	178,119
2013 and thereafter	2,626	22,254
Total	¥ 248,407	\$ 2,105,144

13. Liability for Pension and Other Retirement Benefits

The Company's employees, with certain minor exceptions, are covered by a severance payment and a defined benefit cash balance pension plan. The plan provides that approximately 60% of the employee benefits are payable as a pension payment, commencing upon retirement at age 60 (mandatory retirement age) and that the remaining benefits are payable as a lump-sum severance payment based on remuneration, years of service and certain other factors at the time of retirement. The plan also provides for lump-sum severance payments, payable upon earlier termination of employment.

Under the cash balance pension plan, each employee has an account which is credited yearly based on the current rate of pay and market-related interest rate.

Certain subsidiaries have various funded pension plans and/or unfunded severance payment plans for their employees, which are based on years of service and certain other factors. The Company and certain subsidiaries' funding policy is to contribute the amounts to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

At March 31, 2007, Komatsu adopted the recognition and disclosure provisions of SFAS No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans" an amendment of SFAS No. 87, 88, 106, and 132(R) (SFAS No. 158). SFAS No. 158 required Komatsu to recognize the funded status (i.e. the difference between the projected benefit obligations and the fair value of plan assets) of their pension plans in the March 31, 2007 consolidated balance sheet, with a corresponding adjustment to accumulated other comprehensive income, net of tax.

The adjustment to accumulated other comprehensive income (loss) at adoption represents the unrecognized actuarial net gain or loss and unrecognized prior service cost, both of which were previously netted against the plans' funded status in the consolidated balance sheet pursuant

Edgar Filing: KOMATSU LTD - Form 20-F

to the provisions of SFAS No. 87. These amounts will be subsequently recognized as net periodic benefit cost pursuant to Komatsu's historical accounting policy for amortizing such amounts. Further, actuarial gains and losses that arise in subsequent periods and are not recognized as net periodic benefit cost in the same periods will be recognized as a component of other comprehensive income (loss). Those amounts will be subsequently recognized as a component of net periodic benefit cost on the same basis as the amounts recognized in accumulated other comprehensive income (loss) at adoption of SFAS No. 158.

SFAS No. 158 also requires that the benefit obligations and the fair value of plan assets be measured as of the balance sheet date. Komatsu will adopt the provisions of measurement date in the year ending March 31, 2008. The change in the measurement date of defined benefit pension and other postretirement benefit plans is not expected to have a material impact on Komatsu's consolidated results of operations and financial condition as Komatsu already uses a measurement date of March 31 for substantially all of its plans.

The incremental effects of adopting the provisions of SFAS No. 158 on the accompanying consolidated balance sheet at March 31, 2007 are presented in the following table.

	Millions of yen			Thousands of U.S. dollars		
	Before Application of SFAS No. 158	Adjustments	After Application of SFAS No. 158	Before Application of SFAS No. 158	Adjustments	After Application of SFAS No. 158

Net periodic cost	¥ 8,699	¥ 11,023	¥ 11,137	\$ 73,720

The estimated actuarial loss and prior service cost for the defined benefit plans that will be amortized from accumulated other comprehensive income into net periodic cost over the next fiscal year are summarized as follows.

	Millions of yen	Thousands of
	¥	U.S. dollars
Actuarial loss	1,577	\$ 13,364
Prior service cost	630	5,339

Information with respect to the defined benefit plans is as follows:

Measurement date

Edgar Filing: KOMATSU LTD - Form 20-F

The Company and certain subsidiaries use a measurement date of March 31 for substantially all of its defined benefit plans.

Assumptions

Weighted-average assumptions used to determine benefit obligations at March 31:

	Domestic plans		Foreign plans	
	2007	2006	2007	2006
Discount rate	1.9%	2.0%	5.6%	5.3%
Assumed rate of increase in future compensation levels (Point-based benefit system)	3.7%	3.7%		
Assumed rate of increase in future compensation levels	2.3%	2.4%	4.1%	4.3%

Weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31:

	Domestic plans			Foreign plans		
	2007	2006	2005	2007	2006	2005
Discount rate	2.0%	2.0%	2.2%	5.3%	5.9%	6.2%
Assumed rate of increase in future compensation levels (Point-based benefit system)	3.7%	3.9%	3.9%			
Assumed rate of increase in future compensation levels	2.4%	2.4%	2.3%	4.3%	4.4%	4.1%
Expected long-term rate of return on plan assets	2.0%	1.9%	1.9%	7.6%	7.7%	8.4%

Table of Contents

The Company and a certain domestic subsidiary adopt defined benefit cash balance pension plans. These companies adopt the assumed rate of increase in future compensation levels under the point-based benefit system.

The Company and certain subsidiaries determine the expected long-term rate of return on plan assets based on the consideration of the current expectations for future returns and actual historical returns of each plan asset category.

Plan assets

The benefit plan weighted-average asset allocations at March 31, 2007 and 2006 were as follows:

	2007	2006
Equity securities	46.3%	45.9%
Debt securities	36.3%	33.7%
Life insurance company general accounts	15.4%	18.2%
Others	2.0%	2.2%
Total	100.0%	100.0%

In order to secure long-term comprehensive earnings, the Company and certain subsidiaries' investment policies are designed to ensure adequate plan assets to provide future payments of pension benefits to eligible participants. Taking into account the expected long-term rate of return on plan assets, the Company and certain subsidiaries formulate a basic portfolio comprised of the judged optimum combination of equity and debt securities. Plan assets are invested in individual equity and debt securities in accordance with the guidelines of the basic portfolio in order to produce a total return that will match the expected return on a mid-term to long-term basis. The Company and certain subsidiaries evaluate the gap between expected return and actual return of invested plan assets on an annual basis to determine if such differences necessitate a revision in the formulation of the basic portfolio. The Company and certain subsidiaries revise the basic portfolio when and to the extent considered necessary to achieve the expected long-term rate of return on plan assets.

The Pension and Retirement Benefit Committee is organized in the Company in order to periodically monitor the employment of such plan assets.

Equity securities include common stock of the Company in the amount of ¥13 million (0.02% of the Company's total plan assets) at March 31, 2007. Equity securities include common stock of the Company and certain of its domestic listed subsidiaries in the amount of ¥41 million (0.05% of the Company's total plan assets) at March 31, 2006.

Cash flows**(1) Contributions**

The Company and certain subsidiaries expect to contribute ¥4,347 million (\$36,839 thousand) to their benefit plans in the year ending March 31, 2008.

(2) Estimated future benefit payments

The benefits expected to be paid in each of the next five years, and in the aggregate for the five years thereafter which reflect estimated future employee service are as follows:

Year ending March 31	Millions of yen	Thousands of U.S. dollars
2008	¥ 12,787	\$ 108,364
2009	12,535	106,229
2010	12,956	109,797
2011	12,088	102,441
2012	12,779	108,297
Through 2013-2017	¥ 42,966	\$ 364,119

Table of Contents**Other postretirement benefit plan**

Some U.S. subsidiaries provide certain postretirement health care and life insurance benefits for substantially all of their employees. The plans are contributory, with contributions indexed to salary levels. Employee contributions are adjusted to provide for any costs of the plans in excess of those paid for by the subsidiaries. The policy is to fund the cost of these benefits as claims and premiums are paid. These benefits are currently unfunded.

Accumulated postretirement benefit obligation and funded status of the U.S. subsidiaries plans at March 31, 2007 and 2006:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Accumulated postretirement benefit obligation	¥ 11,614	¥ 12,224	\$ 98,424
Funded status, end of year	¥ (11,614)	¥ (12,224)	\$ (98,424)
Current liability	¥ (756)		\$ (6,407)
Accrued benefit liability	(10,858)		(92,017)
	¥ (11,614)		\$ (98,424)

Amounts recognized in accumulated other comprehensive income (loss) at March 31, 2007:

Actuarial loss	¥ 1,733	\$ 14,686
Prior service cost	3,534	29,949
	¥ 5,267	\$ 44,635

Funded status of the postretirement benefit plan at March 31, 2006:

Funded status	¥ (12,224)
Unrecognized net loss	4,561
Unrecognized prior service cost	1,976
Accrued benefit liability	¥ (5,687)

Components of net periodic postretirement benefit cost

Net periodic postretirement benefit cost of the U.S. subsidiaries plans for the years ended March 31, 2007, 2006 and 2005, included the following components:

	Millions of yen			Thousands of U.S. dollars
	2007	2006	2005	2007
Service cost	¥ 329	¥ 266	¥ 253	\$ 2,788

Edgar Filing: KOMATSU LTD - Form 20-F

Interest cost	608	625	663	5,153
Net amortization	419	369	353	3,551
Net periodic postretirement benefit cost	¥ 1,356	¥ 1,260	¥ 1,269	\$ 11,492

The estimated actuarial loss and prior service cost for the postretirement benefit plans that will be amortized from accumulated other comprehensive income into net periodic postretirement benefit cost over the next fiscal year are summarized as follows.

	Millions of yen		Thousands of U.S. dollars
Actuarial loss	¥	226	\$ 1,915
Prior service cost		148	1,254

Table of Contents

Information with respect to the plans is as follows:

Measurement date

The U.S. subsidiaries use December 31 as a measurement date for their post retirement benefit plan.

Assumptions

Weighted-average assumptions used to determine accumulated postretirement benefit obligations at March 31:

	2007	2006
Discount rate	5.5%	5.3%

Weighted average assumptions used to determine net periodic postretirement benefit cost for the years ended March 31:

	2007	2006	2005
Discount rate	5.3%	5.8%	6.3%

At March 31, 2007 and 2006, the impact of a one percentage point change in the assumed health care cost trend rates was not material to Komatsu's consolidated financial position or results of operations.

Cash flows**(1) Contributions**

The U.S. subsidiaries expect to contribute ¥749 million (\$6,347 thousand) to their post retirement benefit plan participant in the year ending March 31, 2008.

(2) Estimated future benefit payments

Edgar Filing: KOMATSU LTD - Form 20-F

The benefits expected to be paid in each of the next five years, and in the aggregate for the five years thereafter which reflect estimated future employee service are as follows:

Year ending March 31	Millions of yen	Thousands of U.S. dollars
2008	¥ 749	\$ 6,347
2009	760	6,441
2010	781	6,619
2011	796	6,746
2012	811	6,873
2013-2017	¥ 4,322	\$ 36,627

In addition to the aforementioned plans, certain other subsidiaries provide retirement benefits to certain employees. These retirement benefit plans are generally not funded. At March 31, 2007, 2006 and 2005, these subsidiaries have fully provided for the benefits. Such amounts are not material to Komatsu's consolidated financial position or results of operations for any of the periods presented. Directors of the Company and domestic subsidiaries are primarily covered by unfunded retirement allowance plans. At March 31, 2007, 2006 and 2005, the amounts required if all directors covered by the plans had terminated their service have been fully accrued. Such amounts are not material to Komatsu's consolidated financial position or results of operations for any of the periods presented.

Certain foreign subsidiaries maintain various defined contribution plans covering certain employees. The amount of cost recognized for all periods presented is not material to Komatsu's consolidated financial position or results of operations.

Table of Contents

14. Shareholders' Equity

(1) Common Stock and Capital Surplus

The Commercial Code of Japan (the Code) permitted, upon approval of the Board of Directors, transfer of amounts from capital surplus to common stock. Prior to October 2001, the Company from time to time made free share distributions that were accounted for by a transfer from capital surplus to common stock of the aggregate par value of shares issued. Effective on October 2001, the Code requires no accounting recognition for such free share distribution. Publicly owned corporations in the United States issuing shares in similar transactions would be required to account for them as stock dividends as of the shareholders' record date by reducing retained earnings and increasing appropriate capital accounts by an amount equal to the fair value of the shares issued.

If such United States practice had been applied to the cumulative free distributions made by the Company, capital surplus at March 31, 2007, would have been increased by ¥103,189 million (\$874,483 thousand) with a corresponding decrease in unappropriated retained earnings. At March 31, 2007 and 2006, affiliated companies owned 1,010,200 and 1,134,000 shares which represent 0.10% and 0.11% of the Company's common stock outstanding, respectively.

The Corporate Act, which has been in force since May 1, 2006 (the Act), requires a company to obtain the approval of shareholders for transferring an amount between common stock and capital surplus. Common stock and capital surplus also are available for being transferred to other capital surplus or being used to reduce a deficit mainly upon an approval of shareholders.

(2) Retained Earnings Appropriated for Legal Reserve

The Act provides that an amount equal to 10% of retained earnings distributed each fiscal period shall be appropriated as a capital surplus or a legal reserve until the total amount of capital surplus and legal reserve becomes equal to 25% of the amount of common stock.

Legal reserve is available for being transferred to other retained earnings or being used to reduce a deficit mainly upon an approval of shareholders.

(3) Retained Earnings and Dividends

The amount of retained earnings available for dividends under the Act is based on the amount recorded in the Company's general books of account maintained in accordance with accounting principles generally accepted in Japan. In addition to the Act provision requiring an appropriation for capital surplus or legal reserve as discussed above, the Act imposes certain limitations on the amount of retained earnings available for dividends. Accordingly, total shareholders' equity of ¥305,568 million (\$2,589,559 thousand), included in the Company's general books of account as of March 31, 2007 is available for dividends under the Act.

Edgar Filing: KOMATSU LTD - Form 20-F

The Board of Directors recommended to and approved by the shareholders, at the general meeting held on June 22, 2007, payment of a cash dividend totaling ¥17,898 million (\$151,678 thousand) to shareholders of record on March 31, 2007. In accordance with the Act, the approved dividend has not been reflected in the consolidated financial statements as of March 31, 2007. Dividends are reported in the consolidated statements of shareholders' equity when approved and paid.

The Act provides that a company can make dividends of earnings anytime with resolution of the shareholders. It also provides that a company can declare an interim dividend once a fiscal year according to its charter of corporation.

(4) Stock Option Plan

On June 24, 2005, the Board of Directors authorized the acquisition of 1,700,000 shares of the Company's common stock for the total consideration not exceeding ¥1,800 million by July 29, 2005. On June 25, 2004, the Board of Directors authorized the acquisition of 1,500,000 shares of the Company's common stock for the total consideration not exceeding ¥1,200 million by July 30, 2004. The Company intends to transfer such treasury shares to directors and certain employees and certain directors of subsidiaries under an agreement granting the right for them to request such transfers at a predetermined price. The purchase price is set to equal an amount obtained by multiplying by 1.05 an average of the closing prices applicable to ordinary transactions of shares of the Company on the Tokyo Stock Exchange on all days for a month immediately preceding the month in which the date of grant of the right falls, provided that the exercise price shall not be less than the closing price of the shares of the Company on the Tokyo Stock Exchange on the date of the grant. Based on the resolutions of the shareholders' meeting on June 23, 2006, June 24, 2005 and June 25, 2004 and the Board of Directors on July 11, 2006, the Company issued 833 rights, 1,610 rights and 1,430 rights of its share acquisition rights during the years ended March 31, 2007, 2006 and 2005, respectively. The options vest 100% on each of the grant dates and are exercisable from August 1, 2007, August 1, 2006 and August 1, 2005, respectively.

For periods prior to April 1, 2006, Komatsu accounted for stock options using the intrinsic value method prescribed by APB opinion No. 25. Effective April 1, 2006, Komatsu adopted SFAS No. 123R for the year ended March 31, 2007 using the modified prospective method. In accordance with SFAS No. 123R, Komatsu recognizes compensation expense of ¥663 million (\$5,619 thousand). As a result, income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies, and net income are decreased by ¥663 million (\$5,619 thousand) and ¥394 million (\$3,339 thousand) respectively for the year ended March 31, 2007. The impact on the net income per share is immaterial.

For the years ended March 31, 2006 and 2005, no compensation expense was recognized using the intrinsic value method as the exercise price was at least equal to the market price on the date of grant.

The Company transfers treasury stock without issuance of new stock when the share acquisition rights are exercised.

Table of Contents

The following table summarizes information about stock option activity for the years ended March 31, 2007, 2006 and 2005:

	Number of shares	2007 Weighted average exercise price		Number of shares	2006 Weighted average exercise price		Number of shares	2005 Weighted average exercise price	
		Yen	U.S. dollars		Yen	Yen		Yen	
Outstanding at beginning of year	3,665,000	¥ 848	\$ 7.19	6,409,000	¥ 665		6,460,000	¥ 659	
Granted	833,000	2,325	19.70	1,610,000	1,126		1,430,000	673	
Exercised	(845,000)	855	7.25	(4,254,000)	678		(491,000)	542	
Cancelled or Expired	(5,000)	2,325	19.70	(100,000)	820		(990,000)	700	
Outstanding at end of year	3,648,000	1,182	10.02	3,665,000	848		6,409,000	665	
Exercisable at end of year	2,820,000	846	7.17	2,055,000	630		4,979,000	662	

The intrinsic values were ¥1,180 million (\$10,000 thousand), ¥2,093 million and ¥83 million for the years ended March 31, 2007, 2006 and 2005, respectively.

The information for options outstanding and options exercisable at March 31, 2007 is as follows.

Exercise Prices	Outstanding Weighted average						Options Exercisable Weighted average					
	Number of shares	exercise price		Intrinsic value		Weighted average remaining contractual life	Number of shares	exercise price		Intrinsic value		Weighted average remaining contractual life

The fair value of each share option award is estimated on the date of grant using a discrete-time model (a binomial model) for the year ended March 31, 2007 and the Black-Scholes option pricing model for the years ended March 31, 2006 and 2005 based on the assumptions noted in the following table. Because a discrete-time model incorporates ranges of assumptions for inputs, those ranges are disclosed. Expected volatilities are based on implied volatilities from historical volatility of the Company's shares.

The Company uses historical data to estimate share option exercise and employee departure behavior used in the discrete-time model. The expected term of share options granted is derived from the output of the option pricing model and represents the period of time that share options granted are expected to be outstanding. The risk-free rate for periods within the contractual term of the share option is based on the Japanese government bond yield curve in effect at the time of grant.

Edgar Filing: KOMATSU LTD - Form 20-F

	2007	2006	2005
Grant-date fair value	¥801 (\$6.79)	¥ 434	¥ 179
Expected term	6 years		
Expected life		8 years	8 years

Undistributed earnings of foreign subsidiaries and affiliated companies accounted for by the equity method	3,633	3,557	30,789
Total deferred tax liabilities	¥ 43,537	¥ 42,251	\$ 368,958
Net deferred tax assets	¥ 36,403	¥ 43,558	\$ 308,500

Net deferred tax assets and liabilities as of March 31, 2007 and 2006 are reflected on the consolidated balance sheets under the following captions:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Deferred income taxes and other current assets	¥ 49,717	¥ 48,750	\$ 421,331
Deferred income taxes and other assets	20,335	30,298	172,331
Deferred income taxes and other current liabilities	(24)	(16)	(204)
Deferred income taxes and other liabilities	(33,625)	(35,474)	(284,958)
	¥ 36,403	¥ 43,558	\$ 308,500

The valuation allowance was ¥50,273 million as of March 31, 2004. The net changes in the total valuation allowance for the years ended March 31, 2007, 2006 and 2005 were a decrease of ¥4,611 million (\$39,076 thousand), a decrease of ¥21,118 million and an increase of ¥6,335 million, respectively.

Subsequently recognized tax benefits relating to the valuation allowance for deferred tax assets in the amount of ¥719 million (\$6,093 thousand) as of March 31, 2007 will be allocated to goodwill and other intangible assets.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible and net operating losses available to be utilized. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes it is more likely than not the companies will realize the benefits of these deductible differences and net operating loss carryforwards, net of the existing valuation allowances at March 31, 2007 and 2006. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

The Company and its domestic subsidiaries are subject to a National Corporate tax rate of 30%, an inhabitant tax of approximately 6% and a deductible Enterprise tax of approximately 8%, which in the aggregate resulted in a combined statutory income tax rate of approximately 40.8%. The inhabitant tax rate and Enterprise tax rate vary by local jurisdiction.

Table of Contents

The differences between the combined statutory tax rates and the effective tax rates for the years ended March 31, 2007, 2006 and 2005, are summarized as follows:

	2007	2006	2005
Combined statutory tax rate	40.8%	40.8%	40.8%
Increase (decrease) in tax rates resulting from:			
Increase in valuation allowance	0.7	5.5	7.4
Expenses not deductible for tax purposes	2.4	3.5	3.4
Realization of tax benefits on operating losses of subsidiaries	(2.2)	(14.0)	(5.6)
Income of foreign subsidiaries taxed at lower than Japanese normal rate	(6.2)	(5.5)	(7.1)
Tax credit for research and development expenses	(1.5)	(2.2)	
Other, net	(0.3)	0.1	(1.6)
Effective tax rate	33.7%	28.2%	37.3%

Realization of tax benefits on operating losses of subsidiaries during the year ended March 31, 2006, which represented 14.0% of the difference between the statutory and effective tax rate, related to the tax benefits recognized by Komatsu America Corp. amounting to ¥18,357 million on net operating loss carry-forwards of its subsidiaries.

Foreign subsidiaries are subject to income taxes of the countries in which they operate. At March 31, 2007 and 2006, undistributed earnings of foreign subsidiaries aggregated ¥239,400 million (\$2,028,814 thousand) and ¥171,391 million, respectively. At March 31, 2005, no deferred tax liabilities were recognized because the Company considered those earnings to be indefinitely reinvested. In the year ended March 31, 2006, the Company changed its policy to distribute a certain portion of undistributed earnings of a foreign subsidiary. As of March 31, 2007 and 2006, Komatsu recognized deferred tax liabilities of ¥913 million (\$7,738 thousand) and ¥1,090 million, respectively, associated with those earnings. As of March 31, 2007 and 2006, Komatsu has not recognized deferred tax liabilities of ¥16,785 million (\$142,246 thousand) and ¥11,551 million, respectively, for such portion of undistributed earnings of foreign subsidiaries that the Company intends to reinvest indefinitely. At March 31, 2007, the Company and certain subsidiaries had net operating loss carryforwards aggregating approximately ¥49,810 million (\$422,119 thousand), which may be used as a deduction in determining taxable income in future periods. The period available to offset future taxable income varies in each tax jurisdiction as follows:

Year ending March 31	Millions of yen	Thousands of U.S. dollars
Within 5 years	¥ 6,155	\$ 52,161
6 to 20 years	34,691	293,992
Indefinite periods	8,964	75,966
Total	¥ 49,810	\$ 422,119

17. Rent Expenses

Komatsu leases office space and equipment and employee housing under cancelable and non-cancelable lease agreements. Rent expenses under cancelable and non-cancelable operating leases amounted to ¥6,740 million (\$57,119 thousand), ¥6,370 million and ¥5,588 million, respectively, for the years ended March 31, 2007, 2006 and 2005. Lease contracts for equipment that qualify as capital leases in conformity with SFAS No. 13 have been capitalized. At March 31, 2007, the future minimum lease payments under non-cancelable operating leases and capital leases are as

follows:

Year ending March 31	Millions of yen			Thousands of U.S. dollars		
	Capital leases	Operating lease commitments	Total	Capital leases	Operating lease commitments	Total
2008	¥ 21,931	¥ 3,220	¥ 25,151	\$ 185,856	\$ 27,288	\$ 213,144

19. Commitments and Contingent Liabilities

At March 31, 2007, Komatsu was contingently liable for discounted and transferred receivables on a recourse basis with the financial institutions of ¥11,671 million (\$98,907 thousand) (Note 5).

Komatsu provides guarantees to third parties of loans of the employees, affiliated companies and other companies. The guarantees relating to the employees are mainly made for their housing loans. The guarantees of loans relating to the affiliated companies and other companies are made to enhance the credit of those companies.

Edgar Filing: KOMATSU LTD - Form 20-F

For each guarantee provided, Komatsu would have to perform under a guarantee, if the borrower defaults on a payment within the contract terms. The contract terms are from 10 years to 30 years in the case of employees with housing loans, and from 1 year to 5 years in the case of loans relating to the affiliated companies and other companies. The maximum amount of undiscounted payments Komatsu would have had to make in the event of default is ¥57,063 million (\$483,585 thousand) at March 31, 2007. The fair value of the liabilities recognized for Komatsu's obligations as guarantors under those guarantees at March 31, 2007 were insignificant. Certain of those guarantees were secured by collateral and insurance issued to the Company.

Management of Komatsu believes that losses from those contingent liabilities, if any, would not have a material effect on the consolidated financial statements.

Commitments for capital investment outstanding at March 31, 2007, aggregated approximately ¥12,900 million (\$ 109,322 thousand).

Komatsu is involved in certain legal actions and claims arising in the ordinary course of its business. It is the opinion of management and legal counsel that such litigation and claims will be resolved without material effect on Komatsu's financial position.

Komatsu has business activities with customers, dealers and associates around the world and its trade receivables from such parties are well diversified to minimize concentrations of credit risks. Management does not anticipate incurring losses on its trade receivables in excess of established allowances.

Komatsu also issues contractual product warranties under which it generally guarantee the performance of products delivered and services rendered for a certain period or term. Change in accrued product warranty cost for the years ended March 31, 2007 and 2006 is summarized as follows:

	Millions of yen		Thousands of U.S. dollars
	2007	2006	2007
Balance at beginning of year	¥ 26,582	¥ 21,251	\$ 225,271

Other	523	855	4,432
Balance at end of year	¥ 28,999	¥ 26,582	\$ 245,754

Table of Contents

20. Derivative Financial Instruments

Risk Management Policy

Komatsu is exposed to market risk primarily from changes in foreign currency exchange and interest rates with respect to debt obligations, international operations and foreign currency denominated credits and debts. In order to manage these risks that arise in the normal course of business, Komatsu enters into various derivative transactions for hedging pursuant to its policies and procedures. Komatsu does not enter into derivative financial transactions for trading or speculative purposes.

Komatsu has entered into interest rate swap and cap agreements, partly concurrent with currency swap agreements for the purpose of managing the risk resulting from changes in cash flow or fair value that arise in their interest rate and foreign currency exposure with respect to certain short-term and long-term debts.

Komatsu operates internationally which expose Komatsu to the foreign exchange risk against existing assets and liabilities and transactions denominated in foreign currencies (principally the U.S. dollar and the Euro). In order to reduce these risks, Komatsu executes forward exchange contracts and option contracts based on its projected cash flow in foreign currencies.

Komatsu is exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments, but Komatsu does not expect any counterparties to fail to meet their obligations because of the high credit rating of the counterparties.

Fair Value Hedges

Komatsu uses derivative financial instruments designated as fair value hedges to manage primarily interest rate and foreign exchange risks associated with debt obligations. Principally interest rate swaps and cross-currency swaps are used to hedge such risk for debt obligations. Changes in fair value of the hedged debt obligations and derivative instruments designated as fair value hedge are offset and recognized in other expense. For the years ended March 31, 2007, 2006 and 2005, hedge ineffectiveness resulting from fair value hedging activities was not material to Komatsu's result of operations. During the same period, no fair value hedges were discontinued.

Cash Flow Hedges

Komatsu uses derivative financial instruments designated as cash flow hedges to manage Komatsu's foreign exchange risks associated with forecasted transactions and Komatsu's interest risks associated with debt obligations. For transactions denominated in foreign currencies, Komatsu typically hedges forecasted and firm commitment exposures to the variability in cash flow basically up to one year. For the variable rate debt obligations, Komatsu enters into interest rate swap contracts to manage the changes in cash flows. Komatsu records the changes in fair value of derivative instruments designated as cash flow hedges in other comprehensive income (loss). These amounts are reclassified into earnings through other income (expenses) when the hedged items impact earnings. Approximately ¥189 million (\$1,602 thousand) of existing loss included in accumulated other comprehensive income (loss) at March 31, 2007 will be reclassified into earnings within twelve months from

that date. No cash flow hedges were discontinued during the years ended March 31, 2007 as a result of anticipated transactions that are no longer probable of occurring.

Undesignated Derivative Instruments

Komatsu has entered into interest rate swap contracts not designated as hedging instruments under SFAS No. 133 as a means of managing Komatsu's interest rate exposures for short-term and long-term debts. Forward contracts and option contracts not designated as hedging instruments under SFAS No. 133 are also used to hedge certain foreign currency exposures. The changes in fair value of such instruments are recognized currently in earnings.

Notional Principal Amounts of Derivative Financial Instruments

Notional principal amounts of derivative financial instruments outstanding at March 31, 2007 and 2006 are as follows.

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Forwards and options:			
Sale of foreign currencies	¥ 82,015	¥ 69,675	\$ 695,042
Purchase of foreign currencies	41,778	35,656	354,051
Option contracts (purchased)	2,532	2,128	21,458
Interest rate swap, cross-currency swap and interest rate cap agreements	253,372	212,882	2,147,220

Table of Contents

21. The Fair Value of Financial Instruments

(1) Cash and Cash Equivalents, Time Deposits, Trade Notes and Accounts Receivables, Other Current Assets, Short-Term Debt, Trade Notes and Accounts Payables, and Other Current Liabilities

The carrying amount approximates fair value because of the short maturity of these instruments.

(2) Investment Securities

The fair values of investment securities available for sale for which it is practicable to estimate fair value are based on quoted market prices.

(3) Installment Receivables

The fair values of installment receivables are based on the present value of future cash flows through maturity, discounted using estimated current interest rates. The fair values computed on such a basis approximate the carrying amounts (Note 5).

(4) Long-Term Debt

The fair values of each of the long-term debts are based on the quoted price in the most active market or the present value of future cash flows associated with each instrument discounted using the current borrowing rate for similar debt of comparable maturity.

(5) Derivative Financial Instruments

The fair values of derivative financial instruments, consisting principally of foreign currency contracts and interest swap agreements, are estimated by obtaining quotes from brokers.

The carrying amounts and the estimated fair values of the financial instruments, including financial instruments not qualifying as hedge, as of March 31, 2007 and 2006, are summarized as follows:

Millions of yen

Thousands of U.S. dollars

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could affect the estimates.

22. Business Segment Information

Under SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and in assessing performance. The operating segments are managed separately because each operating segment represents a strategic business unit that offers different products and services.

Komatsu operates on a worldwide basis with three operating segments: 1) Construction and mining equipment, 2) Industrial Machinery, Vehicles and Others, 3) Electronics.

Table of Contents

The following tables present certain information regarding Komatsu's operating segments and geographic information at March 31, 2007, 2006 and 2005, and for the years then ended:

Table of Contents

Transfers between segments are made at estimated arm's-length prices. Segment profit represents net sales less cost of sales and selling, general and administrative expenses. Identifiable assets are those assets used in the operations of each segment. Unallocated corporate assets consist primarily of cash and cash equivalents and marketable investment securities maintained for general corporate purposes. Depreciation and amortization for the years ended March 31, 2007, 2006 and 2005 do not include amortization of long-term prepaid expenses of ¥913 million (\$7,737 thousand), ¥1,225 million and ¥1,416 million, and do not include those for discontinued operations of ¥6,375 million (\$54,026 thousand), ¥14,013 million and ¥11,922 million. The term Capital investment should be distinguished from the term Capital expenditures as used in the consolidated statements of cash flows. The term Capital investment is defined to refer to the acquisition of property, plant and equipment including properties under capital leases on an accrual basis which reflects the effects of timing differences between acquisition dates and payment dates.

Certain amounts in the segment information do not reflect discontinued operations. Accordingly, segment information for the years ended March 31, 2006 and 2005 has been reclassified to conform to the presentation for the year ended March 31, 2007. Industrial Machinery, Vehicles and Others segment does not include net sales to customers of discontinued operations amounting to ¥22,067 million (\$187,008 thousand), ¥20,663 million and ¥17,968 million and segment profit amounting to ¥1,730 million (\$14,661 thousand), ¥1,753 million and ¥1,417 million for the years ended March 31, 2007, 2006 and 2005, respectively. Electronics segment does not include net sales to customers of discontinued operations amounting to ¥41,349 million (\$350,415 thousand), ¥69,166 million and ¥60,749 million and segment profit amounting to ¥9,288 million (\$78,712 thousand), ¥10,199 million and ¥6,305 million for the years ended March 31, 2007, 2006 and 2005, respectively.

Geographic information:

Net sales to customers recognized by sales destination for the years ended March 31, 2007, 2006 and 2005 are as follows:

	Millions of yen			Thousands of U.S. dollars
	2007	2006	2005	2007

Transfers between segments are made at estimated arm's-length prices. Segment profit represents net sales less cost of sales and selling, general and administrative expenses. Identifiable assets are those assets used in the operations of each segment. Unallocated corporate assets consist primarily of cash and cash equivalents and investment securities maintained for general corporate purposes.

Table of Contents**23. Supplementary Information to Balance Sheets**

At March 31, 2007 and 2006, deferred income taxes and other current assets were comprised of the following:

	Millions of yen		Thousands of
	2007	2006	U.S. dollars 2007
Prepaid expenses	¥ 3,663	¥ 4,282	\$ 31,042

Balance at end of fiscal period	¥ 30,879	¥ 35,490	¥ 56,608	\$ 261,686

Deductions were principally realization or expiration of net operating loss carryforwards.

26. Subsequent Event

Komatsu Zenoah Co., a subsidiary of the Company, split off its outdoor power equipment (OPE) business, and Zenoah Co., Ltd., a subsidiary of Komatsu Zenoah Co., took over the OPE business. All shares of Zenoah Co., Ltd. were sold to a Japanese subsidiary of Husqvarna AB of Sweden on April 2, 2007. After the sale of the OPE business which has few synergy effects with the construction and mining equipment business, Komatsu is better positioned to further improve management efficiency.

Name and Line of Business of the Sub-Subsidiary Sold

Name:	Zenoah Co., Ltd.
Line of Business:	Manufacture and sale of outdoor power equipment

Name of the Acquisition Company

Name:	Husqvarna Japan Ltd.
-------	----------------------

Sale Price

Sale Price:	¥18,250 million
-------------	-----------------

Gain on sale

Gain on sale (Pre-Tax):	Approximately ¥8.4 billion
