NOTES TO FINANCIAL STATEMENTS

June 30, 2003

1. ORGANIZATION

The Company was incorporated under the laws of the State of Florida on June 29, 1995 with the name RLN Realty Associates, Inc with authorized common shares of 7,500 with a par value of \$1.00. The Company had several name changes and authorized common share changes and on September 14, 2006 changed its name to Fintech Group, Inc. and changed its authorized common shares to 250,000,000 at a par value of \$.001 and added authorized preferred shares of 10,000,000 at par value of \$.001. The terms of the preferred shares have not been determined. On February 7, 2007 the name was changed to Capital Markets Technologies, Inc.

The principal business activity of the corporation was the development of an e-commerce web site and an e-commerce virtual department store. During 2001 the activity was discontinued and its remaining assets and related liabilities were transferred and the Company has remained inactive since that date.

The Company is a development stage company.

After 2001, the Company has been engaged in seeking viable business opportunities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not adopted a policy regarding payment of dividends.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recognized, when it is more likely than not, that such tax benefits will not be realized.

On June 30, 2003, the Company did not have a net operating loss available for carry forward.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values due to their short term maturities.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of any common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

Concentration of Credit Risk

There are no financial instruments that potentially subject the Company to significant concentration of credit risks.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition

Revenue will be recognized on the sale and delivery of a product or the completion of services provided.

Advertising and Market Development

The company expenses advertising and market development costs as incurred.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

Other Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

3. ACCOUNTS PAYABLE

The Statute of Limitations has run on a substantial part of the accounts payable.

4. CAPITAL STOCK

During 2001 the Company issued 2,548 post split restricted common shares for cash of \$2,217,388 and 173 for expenses of \$132,000.

On November 2, 2005 the Company completed a reverse common stock split of one share for 500 outstanding shares. This report has been prepared showing post split shares from inception.

5. SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

Officers-directors have not acquired any shares of the Company's outstanding common stock, however, control parties have acquired 30,000,000 shares during 2006.

6. GOING CONCERN

The Company does not have the necessary working capital to service its debt and for its planned activity, which raises substantial doubt about its ability to continue as a going concern. Continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through settlement of its debt by the issuance of common shares, loans from related parties, and equity funding which will enable the Company to conduct operations for the

coming year.

We are a financial technology solutions company providing innovative solutions to global financial institutions and major corporations. The company currently is operating in Chicago, and with its proposed acquisition of Simplex Consulting will operate out of London, England as well. We were founded initially to capitalize on the estimated US\$30 billion financial technology market opportunity which management believes exists within Europe between 2007-2010. Our management has an aggressive acquisitions strategy focusing on companies which are well positioned to take advantage of the paradigm shift occurring in the financial technology markets under the European Union regulatory directives: MiFID (Markets in Financial Instruments Directive) and SEPA (Single Euro Payments Area).
