NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except per share data)

(unaudited)

NOTE (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial reporting pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). While these statements reflect all normal recurring adjustments which are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. Therefore, the interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company s annual report filed on Form 10-K for the fiscal year ended September 2, 2007.

The condensed consolidated financial statements include the accounts of Costco Wholesale Corporation, a Washington corporation, and its subsidiaries (Costco or the Company). All material inter-company transactions between the Company and its subsidiaries have been eliminated in consolidation.

Costco operates membership warehouses that offer low prices on a limited selection of nationally branded and selected private label products in a wide range of merchandise categories in no-frills, self-service facilities. At May 11, 2008, Costco operated 505 warehouses: 388 in the United States and four in Puerto Rico; 75 in Canada; 19 in the United Kingdom; eight in Japan; six in Korea; and five in Taiwan. The Company s 50%-owned unconsolidated joint venture in Mexico operates 31 warehouses.

In connection with the adoption of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN 48), the Company adjusted its beginning retained earnings balance for fiscal 2008 in the accompanying condensed consolidated financial statements. See discussion below under Income Taxes for additional information on FIN 48.

Fiscal Year End

Costco operates on a 52/53-week fiscal year basis with the fiscal year ending on the Sunday closest to August 31. The fiscal quarters ended May 11, 2008 and May 13, 2007 included 12 weeks.

Merchandise Inventories

Merchandise inventories are valued at the lower of cost or market, as determined primarily by the retail inventory method, and are stated using the last-in, first-out (LIFO) method for substantially all U.S. merchandise inventories. Merchandise inventories for all foreign operations are primarily valued by the retail inventory method and are stated using the first-in, first-out (FIFO) method. The Company believes the LIFO method more fairly presents the results of operations by more closely matching current costs with current revenues. The Company records an adjustment each quarter, if necessary, for the expected annual effect of inflation, and these estimates are adjusted to actual results determined at year-end. At both May 11, 2008 and September 2, 2007, merchandise inventories valued at LIFO approximated FIFO after considering the lower of cost or market principle.

Stock Repurchase Programs

Shares repurchased are retired in accordance with the Washington Business Corporation Act. The par value of repurchased shares is deducted from common stock and the remaining excess repurchase price over par value is deducted from additional paid-in capital and retained earnings. See Note 4 for additional information.

Income Taxes

Effective September 3, 2007, the Company adopted FIN 48, which clarified the accounting for uncertainty in income taxes recognized in financial statements. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

The cumulative effect of the initial adoption of FIN 48 was an increase of $6,008 to the Company s liability for uncertain tax positions. The impact of this adjustment was to decrease the beginning balance of retained earnings and to increase our liability for uncertain tax positions and related interest by a corresponding amount.

Upon adoption of FIN 48, the Company had approximately $56,352 of gross unrecognized tax benefits. The total amount of such unrecognized tax benefits upon adoption that, if recognized, would favorably affect the effective income tax rate in future periods was $41,749. Interest and penalties related to income tax matters are classified as a component of income tax expense. Accrued interest and penalties upon adoption were $22,882.

The Company is currently under audit by several taxing jurisdictions in the United States and in several foreign countries. During fiscal 2008, it is reasonably possible that approximately $16,000 of the unrecognized tax benefit will decrease in connection with a settlement related to the deductibility of inter-company interest in a foreign jurisdiction. In addition, some audits may conclude in the next 12 months and the unrecognized tax benefits we have recorded in relation to the audits may differ from actual settlement amounts. It is not possible to estimate the effect, if any, of any amount of such change during the next 12 months to previously recorded uncertain tax positions.

The Company files income tax returns in the United States, various state and local jurisdictions, in Canada and in several other foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state or local examination for years before fiscal 2004. The Company is currently subject to examination in Canada for fiscal years 2002 to present and in California for fiscal years 2000 to present. No other examinations are believed to be material.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair-value measurements required under other accounting pronouncements. It does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company must adopt these new requirements in its first quarter of fiscal 2009. In February 2008, the FASB issued Staff Position No. 157-2, which provides a one-year delayed application of SFAS 157 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

Table of Contents

NOTE (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment to FASB No. 115 (SFAS 159). Under SFAS 159, entities may elect to measure specified financial instruments and warranty and insurance contracts at fair value on a contract-by-contract basis, with changes in fair value recognized in earnings each reporting period. The election, called the fair value option, will enable entities to achieve an offset accounting effect for changes in fair value of certain related assets and liabilities without having to apply more complex hedge accounting provisions. SFAS 159 is effective as of the beginning of a company s first fiscal year that begins after November 15, 2007. The Company must adopt these new requirements in its first quarter of fiscal 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of Accounting Research Bulletin No 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, changes in a parent s ownership of a noncontrolling interest, calculation and disclosure of the consolidated net income attributable to the parent and the noncontrolling interest, changes in a parent s ownership interest while the parent retains its controlling financial interest and fair value measurement of any retained noncontrolling equity investment. SFAS 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The Company must adopt these new requirements in its first quarter of fiscal 2010.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations (SFAS 141R), which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. This statement also establishes disclosure requirements. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, and interim periods within those fiscal years. The Company must adopt these new requirements in its first quarter of fiscal 2010.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an Amendment of FASB Statement No. 133 (SFAS 161), which requires enhanced disclosures about derivative and hedging activities. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Early adoption is permitted. The Company must provide these new disclosures no later than its second quarter of fiscal 2009.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS 162), which identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of non-governmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States. SFAS 162 is effective sixty days following the SEC s approval of The Public Company Accounting Oversight Board s related amendments to remove the GAAP hierarchy from auditing standards.

The Company is in the process of evaluating the impact that adoption of these standards will have on its future consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure

Table of Contents

NOTE (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to prior fiscal period amounts or balances to conform to the presentation adopted in the current fiscal period.

NOTE (2) SHORT-TERM INVESTMENTS

Last quarter, one of the Company s enhanced money fund investments, Columbia Strategic Cash Portfolio Fund, ceased accepting cash redemption requests and changed to a floating net asset value. In light of the restricted liquidity, the Company elected to receive a pro-rata allocation of the underlying securities in a separately managed account. The Company assessed the fair value of the underlying securities in this account through market quotations and review of current investment ratings, as available, coupled with an evaluation of the liquidation value of each investment and its current performance in meeting scheduled payments of principal and interest. In the third quarter and the first thirty-six weeks of fiscal 2008, the Company recognized an impairment loss of $1,431 and $4,204, respectively, related to these securities that were considered to be other-than-temporary. The loss is included in interest income and other in the accompanying condensed consolidated statements of income. The markets relating to these investments remain uncertain, and there may be further declines in the value of these investments that may cause additional losses in future periods.

Additionally, in December 2007, two other enhanced cash money fund investments, BlackRock Cash Strategies, LLC (BlackRock) and Merrill Lynch Capital Reserve Fund, LLC (Merrill Lynch), ceased accepting redemption requests. These two funds are being liquidated with periodic distributions and the expectation is that the funds will be completely liquidated by 2010. To date, the funds have maintained a one-dollar per unit net asset value. The Company received cash redemptions of $17,012 from the BlackRock and Merrill Lynch funds subsequent to the end of the third quarter and through June 6, 2008.

During the second quarter of fiscal 2008, the Company reclassified $371,062 related to these three funds from cash and cash equivalents. This reclassification is shown in cash flows from investing activities in the condensed consolidated statements of cash flows. At the end of the third quarter of fiscal 2008, $306,884 remained, with $214,986 in short-term investments and $91,898 in other assets on the consolidated balance sheet, reflecting the timing of the expected distributions.

NOTE (3) LONG-TERM DEBT

During the third quarter of fiscal 2008, $24 in face amount of the Company s 3.5% Zero Coupon Convertible Subordinated Notes (Zero Coupon Notes) was converted by note holders into 1,000 shares of common stock, and during the first thirty-six weeks of fiscal 2008, $307 in face amount of the Company s Zero Coupon Notes was converted by note holders into 7,000 shares of common stock.

During the third quarter of fiscal 2007, $407 in face amount of the Company s Zero Coupon Notes was converted by note holders into 9,000 shares of common stock, and during the first thirty-six weeks of fiscal 2007, $20,972 in face amount of the Company s Zero Coupon Notes was converted by note holders into 476,000 shares of common stock.

These amounts differ from those in the supplemental disclosure of non-cash items in the statements of cash flows due to the related discount and issuance costs.

NOTE (4) STOCKHOLDERS EQUITY

Dividends

In the third quarter of fiscal 2008, the Company s Board of Directors declared a quarterly cash dividend to shareholders of record as of May 16, 2008 and approved an increase from $0.145 to $0.16 per share, or $0.64 on an annualized basis. The dividend was paid on May 30, 2008.

Payment of future dividends is subject to declaration by the Board of Directors. Factors considered in determining the size of the dividends are profitability and expected capital needs of the Company. The Company presently expects to continue to pay dividends on a quarterly basis.

Stock Repurchase Programs

In the third quarter of fiscal 2008, the Company purchased 3,750,000 shares of its common stock, at an average price of $64.25, for a total cost of $240,931. During the first thirty-six weeks of fiscal 2008, the Company purchased 10,112,000 shares, at an average price of $63.42, for a total cost of $641,299. In the third quarter of fiscal 2007, the Company purchased 11,315,000 shares, at an average price of $54.31, for a total cost of $614,483. During the first thirty-six weeks of fiscal 2007, the Company purchased 28,476,000 shares at an average price of $53.39, for a total cost of $1,520,213. These amounts differ from the stock repurchase balances in the statements of cash flows due to repurchases that had not settled at the end of each period. Purchases are made from time-to-time as conditions warrant in the open market or in block purchases, or pursuant to plans under SEC Rule 10b5-1. Repurchased shares are retired.

Comprehensive Income

Comprehensive income includes net income, plus certain other items that are recorded directly to stockholders equity. Accumulated other comprehensive income reported on the Company s consolidated balance sheets consists of foreign currency translation adjustments and unrealized gains and losses on short-term investments and their related tax effects.

The following table shows the components of comprehensive income, net of related tax effects:

NOTE (5) STOCK-BASED COMPENSATION PLANS

Through the first quarter of fiscal 2006, the Company granted stock options under the Amended and Restated 2002 Stock Incentive Plan (Second Restated 2002 Plan) and predecessor plans. Since the fourth quarter of fiscal 2006, the Company has granted restricted stock units (RSUs) under the Second Restated 2002 Plan. In the second quarter of fiscal 2008, the Second Restated 2002 Plan was amended following shareholder approval and is now referred to as the Third Restated 2002 Plan. The Third Restated 2002 Plan authorizes the issuance of an additional eight million shares of common stock for future grants in addition to grants currently authorized. Each share issued in respect of stock bonuses or stock units will be counted as 1.75 shares toward the share limit. The Company issues new shares of common stock upon exercise of stock options and vesting of RSUs.

Compensation expense for all stock-based awards granted subsequent to fiscal 2002 is recognized using the straight-line method. SFAS No. 123R, Share-Based Payment (as amended) (SFAS 123R) requires the estimation of the number of stock-based awards that will ultimately not complete their vesting requirements (forfeitures) and requires that the compensation expense recognized equals or exceeds the number of stock-based awards vested. While options and RSUs generally vest over five years with an equal amount vesting on each anniversary of the grant date, the Company s plans allow for daily vesting of the pro-rata number of stock-based awards that would vest on the next anniversary of the grant date in the event of retirement or voluntary termination. As such, the Company does not reduce stock-based compensation for an estimate of forfeitures because this would result in less compensation expense recognized than the number of stock-based awards vested. The impact of actual forfeitures arising in the event of involuntary termination is recognized as actual forfeitures occur, which generally is infrequent.

Summary of Stock Option Activity

The following table summarizes stock option transactions during the first thirty-six weeks of fiscal 2008:

	Shares (in 000 s)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value[1]
Outstanding at September 3, 2007	30,088	$ 39.26

Employee tax consequences on Certain Stock Options

As previously disclosed, in fiscal 2006, a special committee of independent directors was formed to determine whether the stated grant dates of options were supported by the Company s books and records. In connection with this review the Company has, among other things, recorded a liability for the estimated payment the Company would make to compensate Canadian employees for the expected disallowance of a tax deduction previously allowed for options exercised, primarily from 2005 through the end of the third quarter of fiscal 2008. During the third quarter of fiscal 2008, the Company made payments of approximately $10,700 to employees in Canada related to options exercised in calendar year 2007 and is in the process of settling the obligation for options exercised in calendar years 2004, 2005, and 2006. The related liability as of May 11, 2008 and September 2, 2007 was $40,062 and $40,200, respectively. The Company is examining alternatives to mitigate the potential adverse tax consequences associated with unexercised options held by Canadian employees.

Summary of Restricted Stock Unit Activity

RSUs are granted to employees and consultants, which generally vest over five years, and to non-employee directors, which generally vest over three years; however, the Company provides for accelerated vesting upon qualified retirement for recipients that have attained certain years of service with the Company. Recipients are not entitled to vote or receive dividends on unvested shares. The fair value of RSUs is the market value of the common stock on the date of grant less the present value of the expected dividends forgone during the vesting period. At May 11, 2008, 8.7 million RSUs were available to be granted under the Third Restated 2002 Plan.

The following awards were outstanding as of May 11, 2008:

- 6,268,500 shares of time-based RSUs, in which the restrictions lapse upon the achievement of continued employment over a specified period of time; and

- 496,500 performance RSUs, of which 305,000 were approved in the first quarter of fiscal 2008 and will formally be granted to certain executive officers of the Company upon the achievement of specified performance targets for fiscal 2008. Once formally granted, restrictions lapse upon achievement of continued employment over a specified period of time.

The following table summarizes RSU transactions during the first thirty-six weeks of fiscal 2008:

	Number of Units (in 000 s)	Weighted-Average Grant Date Fair Value
Non-vested at September 3, 2007	4,779	$ 50.63

NOTE (7) COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is involved from time to time in claims, proceedings and litigation arising from its business and property ownership. The Company is a defendant in the following matters, among others:

Two cases purportedly brought as class actions on behalf of certain present and former Costco managers in California, in which plaintiffs principally allege that they have not been properly compensated for overtime work. Scott M. Williams v. Costco Wholesale Corp., United States District Court (San Diego), Case No. 02-CV-2003 NAJ (JFS); Greg Randall v. Costco Wholesale Corp., Superior Court for the County of Los Angeles, Case No. BC-296369. On February 21, 2008 the court in Randall tentatively granted in part and denied in part plaintiffs motion for class certification. That order was signed/finalized by the court on May 13, 2008. The Company is seeking appellate review in part of that decision. Williams has been stayed pending the class certification outcome in Randall, but the stay has not yet been lifted.

On December 26, 2007, another putative class action was filed, also principally alleging denial of overtime. The complaint alleges misclassification of certain California managers. On March 6, 2008, Costco filed a motion to dismiss/strike certain claims for relief. On May 15, 2008, the Court partially granted Costco s motion, thereby dismissing the Labor Code 226 claims and refusing to expand the statute of limitations for the remaining Claims. Costco filed its Answer on May 27, 2008. The Court set the Initial Scheduling Conference for July 28, 2008. Jesse Drenckhahn v. Costco Wholesale Corp., United States District Court (Los Angeles), Case No. CV08-1408 FMC (JMJ).

An overtime compensation case certified as a class action on behalf of present and former hourly employees in California, in which plaintiffs principally allege that Costco s semi-annual bonus formula is improper with regard to retroactive overtime pay. Anthony Marin v. Costco Wholesale Corp., Superior Court for the County of Alameda, Case No. RG-04150447. Costco has filed an appeal challenging the entry of a $5.3 million judgment in favor of the class.

A case purportedly brought as a class action on behalf of present and former hourly employees in California, in which the plaintiff principally alleges that the Company s routine closing procedures and security checks cause employees to incur delays that qualify as uncompensated working time and that effectively deny them statutorily guaranteed meal periods and rest breaks. Elizabeth Alvarado v. Costco Wholesale Corp., United States District Court (San Francisco), Case No. C-06-04015-MJJ. Discovery is ongoing.

A putative class action, filed on January 24, 2008, purportedly brought on behalf of two groups of former California employees an Unpaid Wage Class and a Wage Statement Class. The Unpaid Wage Class focuses on an allegation that Costco improperly deducts employee credit card balances from final paychecks, while the Wage Statement Class focuses on an allegation that Costco s final paychecks do not contain the accurate and itemized information required for wage statements by applicable law. On May 29, 2008, the Court granted Costco s motion to dismiss/strike certain claims, dismissing with prejudice the Labor Code 2236 (wage-itemization) claims. Thus, only the unpaid Wage Class remains. The parties expect an Initial Scheduling Conference to be set by the Court for early August. Carrie Ward v. Costco Wholesale Corp., United States District Court (Los Angeles), Case No. CV08-02013 FMC (FFM).

Claims in these six actions are made under various provisions of the California Labor Code and the California Business and Professions Code. Plaintiffs seek restitution/disgorgement, compensatory damages, various statutory penalties, punitive damages, interest, and attorneys fees.

NOTE (7) COMMITMENTS AND CONTINGENCIES (Continued)

A case brought as a class action on behalf of certain present and former female managers, in which plaintiffs allege denial of promotion based on gender in violation of Title VII of the Civil Rights Act of 1964 and California state law. Shirley Rae Ellis v. Costco Wholesale Corp., United States District Court (San Francisco), Case No. C-04-3341-MHP. Plaintiffs seek compensatory damages, punitive damages, injunctive relief, interest and attorneys fees. Class certification was granted by the district court on January 11, 2007. On May 11, 2007, the United States Court of Appeals for the Ninth Circuit granted a petition to hear the Company s appeal of the certification. Proceedings in the district court have been stayed during the appeal.

Class actions stated to have been brought on behalf of certain present and former Costco members.

In Barmak v. Costco Wholesale Corp., et al., No. BC348857 (Superior Court for the County of Los Angeles), it is asserted that the Company violated various provisions of the common law and California statutes in connection with its former practice of paying Executive Members who downgraded or terminated their memberships a 2% Reward for less than twelve months of eligible purchases. Plaintiff seeks compensatory damages, restitution, injunctive relief, attorneys fees and costs, prejudgment interest, and punitive damages. On August 31, 2007, the Court certified a nationwide class in respect of the breach of contract claim and a California class for the remaining claims. The Company has agreed in principle to settle this action, which will involve providing reward certificates to most class members. A reserve was established during the second quarter of fiscal 2008 in the amount $5.5 million to cover the expected cost of the certificates, payment of attorneys fees to class counsel, and the expenses of settlement administration. The reserve was increased by an immaterial amount during the third quarter.

In Evans, et ano., v. Costco Wholesale Corp., No. BC351869 (Superior Court for the County of Los Angeles), and Dupler v. Costco Wholesale Corp., Index No. 06-007555 (commenced in the Supreme Court of Nassau County, New York and removed to the United States District Court for the Eastern District of New York), it is asserted that the Company violated various provisions of California and New York common law and statutes in connection with a membership renewal practice. Under that practice, members who pay their renewal fees late generally have their twelve-month membership renewal periods commence at the time of the prior year s expiration rather than the time of the late payment. Plaintiffs in these two actions seek compensatory damages, restitution, disgorgement, preliminary and permanent injunctive and declaratory relief, attorneys fees and costs, prejudgment interest and, in Evans, punitive damages. The court has certified a class in the Dupler action.

Numerous putative class actions have been brought around the United States against motor fuel retailers, including the Company, alleging that they have been overcharging consumers by selling gasoline or diesel that is warmer than 60 degrees without adjusting the volume sold to compensate for heat-related expansion or disclosing the effect of such expansion on the energy equivalent received by the consumer. The Company is named in the following actions: Raphael Sagalyn, et al., v. Chevron USA, Inc., et al., Case No. 07-430 (D. Md.); Phyllis Lerner, et al., v. Costco Wholesale Corporation, et al., Case No. 07-1216 (C.D. Cal.); Linda A. Williams, et al., v. BP Corporation North America, Inc., et al., Case No. 07-179 (M.D. Ala.); James Graham, et al. v. Chevron USA, Inc., et al., Civil Action No. 07-193 (E.D. Va.); Betty A. Delgado, et al., v. Allsups, Convenience Stores, Inc., et al., Case No. 07-202 (D.N.M.); Gary Kohut, et al. v. Chevron USA, Inc., et al., Case No. 07-285 (D. Nev.); Mark Rushing, et al., v. Alon USA, Inc., et al., Case No. 06-7621 (N.D. Cal.); James Vanderbilt, et al., v. BP Corporation North America, Inc., et al., Case No. 06-1052 (W.D. Mo.); Zachary Wilson, et al., v. Ampride, Inc., et al., Case No. 06-2582 (D. Kan.); Diane Foster, et al., v. BP North America Petroleum, Inc., et al., Case No. 07-02059 (W.D. Tenn.); Mara Redstone, et al., v. Chevron USA, Inc., et al., Case No. 07-20751 (S.D. Fla.); Fred Aguirre, et al. v. BP West Coast Products LLC, et al., Case No. 07-1534

(N.D. Cal.); J.C. Wash, et al., v. Chevron USA, Inc., et al.; Case No. 4:07cv37 (E.D. Mo.); Jonathan Charles Conlin, et al., v. Chevron USA, Inc., et al.; Case No. 07 0317 (M.D. Tenn.); William Barker, et al. v. Chevron USA, Inc., et al.; Case No. 07-cv-00293 (D.N.M.); Melissa J. Couch, et al. v. BP Products North America, Inc., et al., Case No. 07cv291 (E.D. Tex.); S. Garrett Cook, Jr., et al., v. Hess Corporation, et al., Case No. 07cv750 (M.D. Ala.); Jeff Jenkins, et al. v. Amoco Oil Company, et al., Case No. 07-cv-00661 (D. Utah); and Mark Wyatt, et al., v. B. P. America Corp., et al., Case No. 07-1754 (S.D. Cal.). On June 18, 2007, the Judicial Panel on Multidistrict Litigation assigned the action, entitled In re Motor Fuel Temperature Sales Practices Litigation, MDL Docket No 1840, to Judge Kathryn Vratil in the United States District Court for the District of Kansas. On February 21, 2008, the court denied a motion to dismiss the consolidated amended complaint.

Mimi Serna, Timothy Herrock, et al., v. Costco Wholesale Corp., Case No. 2:07-CV-1491-AHM (JWJx). This is a consumer class action filed in March 2007 in the United States District Court for the Central District of California alleging willful violations of the 15 U.S.C. §1681c(g) of the Fair Credit Reporting Act (FCRA). Section 1681c(g), enacted December 4, 2003, provides that no person that accepts credit cards or debit cards for the transaction of business shall print more than the last five digits of the card number or the expiration date upon any receipt provided to the cardholder at the point of the sale or transaction. Plaintiffs allege that, on or after January 1, 2005, Costco printed the expiration date and/or more than the last five digits of their credit card or debit card number on electronically printed receipts provided at the point of sale involving transactions at Costco s gasoline dispensers throughout the United States. The lawsuit seeks statutory damages, punitive damages, and attorneys fees. On January 2, 2008, the court denied plaintiff s motion for class certification. The action has since been stayed pending the resolution of an appeal in the United States Court of Appeals for the Ninth Circuit in an action with related subject matter.

The Company has been named as a defendant in two purported class actions relating to sales of organic milk. Hesse v. Costco Wholesale Corp., No. C07-1975 (W.D. Wash.); Snell v. Aurora Dairy Corp., et al., No. 07-CV-2449 (D. Col.). Both actions claim violations of the laws of various states, essentially alleging that milk provided to Costco by its supplier Aurora Dairy Corp. was improperly labeled organic. Costco has not yet responded to the complaints; Aurora has maintained that it has held and continues to hold valid organic certifications. The complaints seek, among other things, actual, compensatory, statutory, punitive and/or exemplary damages in unspecified amounts, as well as costs and attorneys fees.

On October 4, 2006, the Company received a grand jury subpoena from the United States Attorney s Office for the Central District of California, seeking records relating to the Company s receipt and handling of hazardous merchandise returned by Costco members and other records. The Company is cooperating with the inquiry and at this time cannot reasonably estimate any loss that may arise from this matter.

On March 15, 2007, the Company was informed by the U.S. Attorney s Office in the Western District of Washington that the office is conducting an investigation of the Company s past stock option granting practices to determine whether there have been any violations of federal law. As part of this investigation, the U.S. Attorney s Office has served a grand jury subpoena on the Company seeking documents and information relating to its stock option grants. The Company is cooperating with the inquiry and at this time cannot reasonably estimate any loss that may arise from this matter.

The Environmental Protection Agency (EPA) issued an Information Request to the Company, dated November 1, 2007, under the Clean Air Act. The EPA is seeking records regarding warehouses in the states of Arizona, California, Hawaii, and Nevada relating to compliance with regulations concerning

Table of Contents

air-conditioning and refrigeration equipment. A similar request, dated January 14, 2008, has been received concerning a warehouse in New Hampshire. If the EPA determines that violations have occurred, substantial penalties may be levied. In April 2008 the Company received a similar request from the South Coast Air Quality Management District concerning certain locations in Southern California. The Company has responded to that request. The Company is cooperating with these inquiries and at this time cannot reasonably estimate any loss that might arise from these matters.

Except where indicated otherwise above, a reasonable estimate of the possible loss or range of loss cannot be made at this time for the matters described. The Company does not believe that any pending claim, proceeding or litigation, either alone or in the aggregate, will have a material adverse effect on the Company s financial position; however, it is possible that an unfavorable outcome of some or all of the matters, however unlikely, could result in a charge that might be material to the results of an individual fiscal quarter.

NOTE (8) SEGMENT REPORTING

The Company and its subsidiaries are principally engaged in the operation of membership warehouses in the United States, Canada, Japan, the United Kingdom and through majority-owned subsidiaries in Taiwan and Korea and through a 50%-owned joint-venture in Mexico. The Company s reportable segments are based on management responsibility. The investment in the Mexico joint-venture is included only in total assets under United States Operations in the table below, as it is accounted for under the equity method and its operations are not consolidated in the Company s financial statements.

The accounting policies of the segments are the same as those described in the notes to the consolidated financial statements included in the Company s annual report filed on Form 10-K for the fiscal year ended September 2, 2007, after considering newly adopted accounting pronouncements described elsewhere herein. All inter-segment net sales and expenses are immaterial and have been eliminated in computing total revenue and operating income.

(a) Certain home office operating expenses are incurred on behalf of our Canadian operations, but are included in the United States operations above as those costs are not allocated internally and generally come under the responsibility of our United States management team.

Forward-looking Statements

Certain statements contained in this document constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. For these purposes, forward-looking statements are statements that address activities, events, conditions or developments that we expect or anticipate may occur in the future. Such forward-looking statements involve risks and uncertainties that may cause actual events, results or performance to differ materially from those indicated by such statements. These risks and uncertainties include, but are not limited to, domestic and international economic conditions, including exchange rates, the effects of competition and regulation, uncertainties in the financial markets, consumer and small business spending patterns and debt levels, conditions affecting the acquisition, development, ownership or use of real estate, actions of vendors, rising costs associated with employees (including health care and workers compensation costs), rising costs associated with the acquisition of merchandise (including the direct and indirect effects of the rising cost of petroleum-based products and fuel and energy costs), geopolitical conditions and other risks identified from time to time in the Company s public statements and reports filed with the SEC.

This management discussion should be read in conjunction with the management discussion included in our fiscal 2007 annual report on Form 10-K, previously filed with the SEC.

Overview

We operate membership warehouses based on the concept that offering our members low prices on a limited selection of nationally branded and selected private label products will produce high sales volumes and rapid inventory turnover. This rapid inventory turnover, when combined with the operating efficiencies achieved by volume purchasing, efficient distribution and reduced handling of merchandise in no-frills, self-service warehouse facilities, enables us to operate profitably at significantly lower gross margins than many competitors.

Key items for the third quarter of fiscal 2008 included:

- Net sales increased 13.4% over the prior year, driven by a 8% increase in comparable sales (sales in warehouses open for at least one year) and the opening of 25 new warehouses (29 opened and 4 closed due to relocations) since the end of the third quarter of fiscal year 2007;

- Membership fees increased 10.4%, primarily due to new membership sign-ups at warehouses opened since the end of the third quarter of fiscal 2007 and increased penetration of our higher-fee Executive Membership program;

- Gross margin (net sales less merchandise costs) as a percentage of net sales increased 33 basis points over the prior year s third quarter;

- Selling, general and administrative (SG&A) expenses as a percentage of net sales decreased 26 basis points over the prior year s third quarter;

- Net income increased 31.7% to $295.1 million from $224.0 million in the third quarter of fiscal 2007;

- The Board of Directors declared a quarterly cash dividend in the amount of $0.16 per share, reflecting an 10.3% increase, from $0.58 to $0.64 per share on an annualized basis; and

We repurchased 3.7 million shares of our common stock, at an average cost of $64.25 per share, totaling approximately $240.9 million.

Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations (Continued)

As previously reported, the second and third quarters of fiscal 2007 were impacted by the following unusual item:

Sales returns review: In connection with changes to our consumer electronics returns policy, we completed a review of historical data of trends in sales returns, which indicated a longer timeframe over which returns are received than was previously estimated. We revised our estimate of sales returns reserve to include the longer timeframe, as well as a lower realization rate on certain returned items. The effect of the revisions to our estimated reserve in the third quarter of fiscal 2007 and the first thirty-six weeks of fiscal 2007 are reflected in the table below.

Employee tax consequences on stock options: The Compensation Committee of the Board of Directors approved a program intended to protect approximately 1,000 employees who are United States taxpayers from certain adverse tax consequences arising from a review of stock option practices. The program involved increasing the exercise prices on certain stock options granted from 2000 to 2003 and, in turn, making payments to employees in an amount approximately equal to the increase in the exercise price. We also recorded a charge for the estimated amount to remedy adverse tax consequences related to stock options held and previously exercised by employees outside the United States. In the aggregate, these charges totaled $47.3 million.

Excise tax refund: We received a $10.1 million refund, related to fiscal 2002 through 2006, as a result of a settlement with the U.S. Internal Revenue Service relating to excise taxes previously paid.

We believe it is helpful to disclose the effects of these items for purposes of providing a meaningful comparison of our current fiscal year results to prior fiscal years, as well as provide a more representative expectation of future operating results. The impact of each of these items noted above is presented below.

Net Sales

	12 Weeks Ended		36 Weeks Ended	
	May 11, 2008	May 13, 2007	May 11, 2008	May 13, 2007
Net sales	$ 16,262,793	$ 14,341,520	$ 48,351,255	$ 42,998,537
Effect of change in estimated sales returns reserve		228,169		452,553
Net sales, as adjusted	$ 16,262,793	$ 14,569,689	$ 48,351,255	$ 43,451,090
Increase in comparable warehouse sales	8%	7%	7%	6%

Net sales increased 13.4% to $16.26 billion during the third quarter of fiscal 2008, from $14.34 billion during the third quarter of fiscal 2007. Excluding the impact of the change in the estimated sales returns reserve in the third quarter of fiscal 2007, net sales increased $1.69 billion, or 11.6% in the third quarter of fiscal 2008 as compared to the previous year. The $1.69 billion increase in adjusted net sales is comprised of $1.16 billion from the increase in comparable warehouse sales and $534.7 million primarily from sales at 25 new warehouses opened (29 opened and 4 closed due to relocations) since the end of the third quarter of fiscal 2007. Significantly stronger foreign currencies, particularly in Canada, positively impacted adjusted net sales by approximately $307.7 million, or 210 basis points.

Gasoline sales contributed to the $1.69 billion adjusted net sales growth by approximately $463.8 million, with approximately $274.5 million related to the increase in gasoline sales prices. Additionally, we experienced price increases in certain foods and fresh foods categories that positively impacted net sales, which were slightly offset by price decreases in certain hardlines categories.

Most of the comparable sales growth was derived from increased amounts spent by members, with a smaller contribution from increases in shopping frequency. Gasoline sales positively impacted comparable warehouse sales growth by approximately $390.0 million. Comparable warehouse sales growth excluding gasoline would have been lower by approximately 225 basis points. Significantly stronger foreign currencies, particularly in Canada, positively impacted comparable sales by approx-

imately $285.3 million, or 195 basis points. Reported comparable sales growth includes the negative impact of cannibalization (established warehouses losing sales to our newly opened locations). While sales in the quarter were not materially affected by general economic conditions, the risk of such effects continue, including those arising from price increases due to rising fuel and commodity costs and other factors that may reduce consumer spending.

For the first thirty-six weeks of fiscal 2008, net sales increased 12.4% to $48.35 billion from $43.00 billion during the first thirty-six weeks of fiscal 2007. Excluding the impact of the change in the estimated sales returns reserve in the second and third quarters of fiscal 2007, net sales increased $4.90 billion, or 11.3% in the first thirty-six weeks of fiscal 2008 as compared to the previous year. The $4.90 billion increase in adjusted net sales is comprised of $3.35 billion from the increase in comparable warehouse sales and $1.55 billion primarily from sales at 25 new warehouses opened (29 opened and 4 closed due to relocations) since the end of the third quarter of fiscal 2007. Significantly stronger foreign currencies, particularly in Canada, positively impacted adjusted net sales by approximately $1.01 billion, or 235 basis points.

Gasoline sales contributed to the $4.90 billion adjusted net sales growth by approximately $1.17 billion, with approximately $770.4 million related to the increase in gasoline sales prices. Additionally, we experienced price increases in certain foods and fresh foods categories that positively impacted net sales, which were slightly offset by price decreases in certain hardlines categories.

Most of the comparable sales growth was derived from increased amounts spent by members, with a smaller contribution from increases in shopping frequency. Gasoline sales positively impacted comparable warehouse sales growth by approximately $982.1 million. Comparable warehouse sales growth excluding gasoline would have been lower by approximately 189 basis points. Significantly stronger foreign currencies, particularly in Canada, positively impacted comparable sales by approximately $961.5 million, or 220 basis points.

Total cardholders (000 s)	52,600	49,600	52,600	49,600

Membership fees increased 10.4% to $350.9 million, or 2.16% of net sales, in the third quarter of fiscal 2008, from $317.7 million, or 2.22% of net sales, in the third quarter of fiscal 2007, and increased 11.6% to $1.03 billion, or 2.13% of net sales, in the first thirty-six weeks of fiscal 2008 from $924.4 million, or 2.15% of net sales, in the first thirty-six weeks of fiscal 2007. The increase in membership fee income reflected new membership sign-ups at the 25 new warehouses opened since the third quarter of fiscal 2007, increased penetration of the higher-fee Executive Membership program, as well as the $5 increase in our annual membership fee in the second half of fiscal 2006 for non-Executive members. Our member renewal rate, currently at 87%, is consistent with recent years.

Adjusted gross margin as a percent of adjusted net sales	10.54%	10.36%	10.64%	10.51%

Gross margin was $1.71 billion, or 10.54% of net sales, in the third quarter of fiscal 2008, compared to $1.46 billion, or 10.21% of net sales, in the third quarter of fiscal 2007. Excluding the unusual items affecting net sales and gross margin, gross margin as a percentage of net sales increased 18 basis points in the third quarter of fiscal 2008, from 10.36% in the third quarter of fiscal 2007. This increase was due to a 28 basis point increase in our merchandise departments, particularly fresh foods and food and sundries, partially offset by a decrease in softlines. This increase was partially offset by a net nine basis point decrease from our warehouse ancillary businesses, primarily in one-hour photo, food services and tire shop, partially offset by an increase in our gasoline and pharmacy businesses. In addition, increased penetration of the Executive Membership two-percent reward program and increased spending by Executive members negatively affected gross margin by one basis point. We ve experienced price increases from our suppliers at an increased rate, which may continue. Those increases generally are reflected in our selling prices, but to the extent they are not our gross margins will be adversely affected.

Gross margin was $5.15 billion, or 10.64% of net sales, in the first thirty-six weeks of fiscal 2008, compared to $4.48 billion, or 10.42% of net sales, in the first thirty-six weeks of fiscal 2007. Excluding the unusual items affecting net sales and gross margin, gross margin as a percentage of net sales increased 13 basis points in the first thirty-six weeks of fiscal 2008, from 10.51% in the first thirty-six weeks of fiscal 2007. This 13 basis point increase reflected a 31 basis point increase in our merchandise departments, particularly food and sundries and fresh foods, partially offset by a decrease in softlines. This increase was also offset by a decrease of 15 basis points in our warehouse ancillary businesses; primarily tire shop, gas and food services. In addition, increased penetration of the Executive Membership two-percent reward program and increased spending by Executive members negatively affected gross margin by three basis points.

affecting net sales and SG&A expenses in the third quarter of fiscal 2007, SG&A as a percentage of net sales decreased 10 basis points in the third quarter of fiscal 2008 as compared to the previous year. Warehouse operating and central administrative costs positively impacted SG&A comparisons, on a net basis, by approximately 12 basis points, primarily due to decreased payroll and benefits costs as a percent of adjusted net sales. Stock-based compensation expense increased two basis points in the third quarter of fiscal 2008 as compared to fiscal 2007, primarily due to a higher closing stock price on the date that our October 2007 RSU grant was valued as compared to previous grants.

SG&A totaled $4.77 billion, or 9.86% of net sales, during the first thirty-six weeks of fiscal 2008, compared to $4.30 billion, or 10.01% of net sales, during the first thirty-six weeks of fiscal 2007. Excluding the unusual items affecting net sales and SG&A expenses in the first thirty-six weeks of fiscal 2007, SG&A as a percentage of net sales increased six basis points in the first thirty-six weeks of fiscal 2008 as compared to the previous year. Stock-based compensation expense increased four basis points in the first thirty-six weeks of fiscal 2008 as compared to fiscal 2007. Additionally, in the first quarter of fiscal 2008, we accrued approximately $9 million, or two basis points, for compensation adjustments we made to employees enrolled in our medical and dental plans related to a decision to share a portion of the health plan s savings that we achieved, beyond what was expected in fiscal 2007.

Preopening Expenses

Preopening expenses include costs incurred for startup operations related to new warehouses and the expansion of ancillary operations at existing warehouses. Preopening expenses can vary due to the timing of the opening relative to our fiscal quarter end, whether the warehouse is owned or leased, whether the opening is in an existing, new or international market, as well as the number and magnitude of warehouse remodel projects.

of real property, largely comprised of former warehouse locations. In the third quarter of fiscal 2008, we recognized a charge of $8.9 million, primarily related to a location in Michigan that will be demolished and rebuilt.

	May 11, 2008	May 13, 2007	May 11, 2008	May 13, 2007
Interest expense	$ 24,140	$ 26,016	$ 70,579	$ 31,776

Interest expense totaled $24.1 million in the third quarter of fiscal 2008, compared to $26.0 million in the third quarter of fiscal 2007. The decrease is primarily due to an increase in capitalized interest related to our new warehouse and remodel construction activity.

Interest expense totaled $70.6 million in the first thirty-six weeks of fiscal 2008 compared to $31.8 million in the first thirty-six weeks of fiscal 2007. The increases in interest expense as compared to the prior year resulted primarily from the issuance of our $900 million of 5.3% and $1.1 billion of 5.5% Senior Notes (2007 Senior Notes) in February 2007, partially offset by lower interest expense resulting from the repayment of the $300 Million 5.5% Senior Notes in March 2007.

Interest income and other	$ 23,888	$ 42,838	$ 97,769	$ 106,475

Interest income and other totaled $23.9 million in the third quarter of fiscal 2008, compared to $42.8 million in the third quarter of fiscal 2007. This decrease was largely due to lower interest rates, quarter over quarter, on our cash and cash equivalents and short-term investment balances, as well as a $1.4 million charge for impairment on certain securities within our investment portfolio.

Interest income and other totaled $97.8 million in the first thirty-six weeks of fiscal 2008 compared to $106.5 million in the first thirty-six weeks of fiscal 2007. This decrease was largely due to lower interest rates and a $4.2 million charge for impairment on certain securities within our investment portfolio.

Shares used to calculate diluted net income per common share	443,281	455,889	444,379	461,702

Net income for the third quarter of fiscal 2008 was $295.1 million, or $0.67 per diluted share, compared to $224.0 million, or $0.49 per diluted share, during the third quarter of fiscal 2007. Net income for the first thirty-six weeks of fiscal 2008 was $884.9 million, or $1.99 per diluted share, compared to net income for the first thirty-six weeks of fiscal 2007 of $710.4 million, or $1.54 per diluted share.

The unusual items previously discussed totaled $30.3 million, net of tax, or $0.07 per diluted share and $83.4 million, net of tax, or $0.18 per diluted share in the third quarter and first thirty-six weeks of fiscal 2007, respectively. Excluding these items, net income per diluted share was $0.56 per diluted share and $1.72 per diluted share for the third quarter and first thirty-six weeks of fiscal 2007, respectively. Net income per diluted share in the third quarter and first thirty-six weeks of fiscal 2008 represent an increase of 20% and 16%, respectively, over these adjusted amounts.

We have repurchased 18.0 million shares of common stock since the end of the third quarter of fiscal 2007, favorably impacting net income per diluted share by approximately $0.02 and $0.03 in the third quarter and first thirty-six weeks of fiscal 2008, respectively.

Liquidity and Capital Resources

Cash Flows

The following table itemizes components of our most liquid assets (dollars in thousands):

	May 11, 2008	September 2, 2007
Cash and cash equivalents	$ 2,848,658	$ 2,779,733
Short-term investments	805,963	575,787
Total	$ 3,654,621	$ 3,355,520

Our primary sources of liquidity are cash flows generated from warehouse operations and existing cash and cash equivalents and short-term investments balances, which were $3.65 billion and $3.36 billion at May 11, 2008 and September 2, 2007, respectively. Of these balances, approximately $795.3 million and $655.2 million at May 11, 2008 and September 2, 2007, respectively, represented debit and credit card receivables, primarily related to sales in the week prior to the quarter-end close.

Net cash provided by operating activities totaled $1.76 billion in the first thirty-six weeks of fiscal 2008, compared to $1.55 billion in the first thirty-six weeks of fiscal 2007. This increase of $209.6 million was primarily attributable to an increase in net income of $174.5 million.

Table of Contents

Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Net cash used in investing activities totaled $1.47 billion in the first thirty-six weeks of fiscal 2008, compared to $241.2 million in the first thirty-six weeks of fiscal 2007, an increase of $1.22 billion. The increase in investing activities relates primarily to a decrease in cash provided by the net investment in short-term investments of $620.7 million and an increase of $260.7 million in additions to property and equipment related to warehouse expansion and remodel projects. The decrease in cash provided by our net investment activity largely relates to less cash required for the repurchase of common stock year over year. Additionally, in the second quarter of fiscal 2008, $371.1 million formerly classified as cash and cash equivalents was reclassfied to short-term investments and other assets.

In December 2007, one of our enhanced money fund investments, Columbia Strategic Cash Portfolio Fund, ceased accepting cash redemption requests and changed to a floating net asset value. In light of the restricted liquidity, we elected to receive a pro-rata allocation of the underlying securities in a separately managed account. We assessed the fair value of the underlying securities in this account through market quotations and review of current investment ratings, as available, coupled with the evaluation of the liquidation value of each investment and its current performance in meeting scheduled payments of principal and interest. In the third quarter and the first thirty-six weeks of fiscal 2008, we recognized an impairment loss of $1.4 million and $4.2 million, respectively, related to these securities that were considered to be other-than-temporary. The loss is included in interest income and other in the accompanying condensed consolidated statements of income. The markets relating to these investments remain uncertain, and there may be further declines in the value of these investments that may cause additional losses in future periods.

Additionally, in December 2007, two other enhanced cash money fund investments, BlackRock Cash Strategies, LLC (BlackRock) and Merrill Lynch Capital Reserve Fund, LLC (Merrill Lynch), ceased accepting redemption requests. These two funds are being liquidated with periodic distributions and the expectation is that the funds will be completely liquidated by 2010. To date, the funds have maintained a one-dollar per unit net asset value. We received cash redemptions of $17.0 million from the BlackRock and Merrill Lynch funds subsequent to the end of the third quarter and through June 6, 2008. Although future market conditions cannot be predicted, we currently do not expect future losses in our investment portfolio to be material to our condensed consolidated financial statements, or that we will experience a detriment to our overall liquidity.

During the second quarter of fiscal 2008, we reclassified $371.1 million related to these three funds from cash and cash equivalents. This reclassification is shown in cash flows from investing activities in the condensed consolidated statements of cash flows. At the end of the third quarter of fiscal 2008, $306.9 million remained, with $215.0 million in short-term investments and $91.9 million in other assets on the consolidated balance sheet, reflecting the timing of the expected distributions.

Net cash used by financing activities totaled $238.1 million in the first thirty-six weeks of fiscal 2008, compared to $339.5 million provided in the first thirty-six weeks of fiscal 2007, a decrease of $577.6 million. The decrease primarily resulted from a net decrease in cash provided by the issuance of long-term debt, net of repayments, of $1.65 billion, largely relating to the issuance of the 2007 Senior Notes. This decrease was offset by a reduction in the repurchase of common stock of $844.9 million, an increase in cash from the exercise of stock options of $106.7 million and an increase in the change in bank checks outstanding of $87.0 million.

Dividends

In the third quarter of fiscal 2008, our Board of Directors declared a quarterly cash dividend to shareholders of record as of May 16, 2008, and approved an increase from $0.145 to $0.16 per share, or $0.64 per share on an annualized basis. The dividend was paid on May 30, 2008.

Expansion Plans

Our primary requirement for capital is the financing of the land, building and equipment costs for new and remodeled warehouses. Capital is also required for initial warehouse operations and working capital. While there can be no assurance that current expectations will be realized, and plans are subject to change upon further review, it is our current intention to spend approximately $1.6 billion to $1.7 billion during fiscal 2008 for real estate, construction, remodeling and equipment for warehouses and related operations. These expenditures are expected to be financed with a combination of cash provided from operations and existing cash and cash equivalents and short-term investments. Through the end of the third quarter of fiscal 2008, we have spent approximately $1.15 billion.

We opened four new warehouses in the third quarter of fiscal 2008. Expansion plans during the remainder of fiscal 2008 are to open an additional 12 to 14 new warehouses, including four to five relocations to larger and better-located facilities.

(1) We guarantee this entity s credit facility.

(2) The letter of guarantee is fully cash-collateralized by the United Kingdom subsidiary.

(3) The amount shown for short-term borrowings under this facility is net of a note issue discount, which is excluded from the available credit amount.

Note: We have letter of credit facilities (for commercial and standby letters of credit) totaling $241.3 million. The outstanding commitments under these facilities at May 11, 2008 totaled $77.0 million, including $70.9 million in standby letters of credit. For those entities with multi-purpose lines, any increase in either letter of credit (standby and/or commercial) issuance and or short-term borrowing will result in a corresponding decrease in available credit.

Financing Activities

During the third quarter of fiscal 2008, $0.02 million in face amount of our 3.5% Zero Coupon Convertible Subordinated Notes (Zero Coupon Notes) were converted by note holders into 1,000 shares of common stock, and during the first thirty-six weeks of fiscal 2008, $0.3 million in face amount of our Zero Coupon Notes were converted by note holders into 7,000 shares of common stock.

During the third quarter of fiscal 2007, $0.4 million in face amount of our Zero Coupon Notes were converted by note holders into 9,000 shares of common stock, and during the first thirty-six weeks of fiscal 2007, $21.0 million in face amount of our Zero Coupon Notes were converted by note holders into 476,000 shares of common stock.

Derivatives

We use derivative and hedging arrangements only to manage well-defined risks. Forward foreign exchange contracts are used to hedge the impact of fluctuations of foreign exchange on inventory purchases and typically have very short terms. These forward contracts do not qualify for derivative hedge accounting. The aggregate notional amount, which approximates the fair value, of foreign exchange contracts outstanding was $71.0 million and $75.0 million at May 11, 2008 and September 2, 2007, respectively. The mark-to-market adjustment related to these contracts was a charge of $1.8 million and $0.9 million at May 11, 2008 and September 2, 2007, respectively. The majority of the forward foreign exchange contracts were entered into by our United Kingdom subsidiary, primarily to hedge U.S. dollar merchandise inventory purchases.

Stock Repurchase Programs

During the third quarters of fiscal 2008 and 2007, we repurchased 3.7 million and 11.3 million shares of our common stock at an average price of $64.25 and $54.31, totaling approximately $240.9 million and $614.5 million, respectively. In the first thirty-six weeks of fiscal 2008 and 2007, we repurchased 10.1 million and 28.5 million shares at an average price of $63.42 and $53.39, for a total amount of $641.3 million and $1.5 billion, respectively. In September 2007 and November 2007, our Board of Directors approved an additional $300.0 million and $1.0 billion respectively, of stock repurchases, both expiring in 2010. The remaining amount available for stock repurchases under the approved plans was approximately $1.31 billion at May 11, 2008. Purchases are made from time-to-time as conditions warrant in the open market or in block purchases, or pursuant to plans under SEC Rule 10b5-1. Repurchased shares are retired.

Critical Accounting Policies

The preparation of our financial statements requires that we make estimates and judgments. We base our estimates on historical experience and on other assumptions that we believe to be reasonable. Our critical accounting policies are discussed in Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations section of our Annual Report on Form 10-K for the fiscal year ended September 2, 2007. There have been no material changes to the critical accounting policies previously disclosed in that report.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair-value

measurements required under other accounting pronouncements. It does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We must adopt these new requirements in our first quarter of fiscal 2009 In February 2008, the FASB issued Staff Position No. 157-2 which provided a one-year delayed application of SFAS 157 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment to FASB No. 115 (SFAS 159). Under SFAS 159, entities may elect to measure specified financial instruments and warranty and insurance contracts at fair value on a contract-by-contract basis, with changes in fair value recognized in earnings each reporting period. The election, called the fair value option, will enable entities to achieve an offset accounting effect for changes in fair value of certain related assets and liabilities without having to apply more complex hedge accounting provisions. SFAS 159 is effective as of the beginning of a company s first fiscal year that begins after November 15, 2007. We must adopt these new requirements in our first quarter of fiscal 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of Accounting Research Bulletin No 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, changes in a parent s ownership of a noncontrolling interest, calculation and disclosure of the consolidated net income attributable to the parent and the noncontrolling interest, changes in a parent s ownership interest while the parent retains its controlling financial interest and fair value measurement of any retained noncontrolling equity investment. SFAS 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. We must adopt these new requirements in our first quarter of fiscal 2010.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations (SFAS 141R), which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. This statement also establishes disclosure requirements. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, and interim periods within those fiscal years. We must adopt these new requirements in our first quarter of fiscal 2010.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an Amendment of FASB Statement No. 133 (SFAS 161), which requires enhanced disclosures about derivative and hedging activities. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Early adoption is permitted. We must provide these new disclosures no later than our second quarter of fiscal 2009.

Table of Contents

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS 162), which identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of non-governmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States. SFAS 162 is effective sixty days following the SEC s approval of The Public Company Accounting Oversight Board s related amendments to remove the GAAP hierarchy from auditing standards.

We are in the process of evaluating the impact that adoption of these standards will have on our future consolidated financial statements.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk for changes in interest rates relates primarily to our investment portfolio, which consists primarily of money market funds, debt securities, corporate notes and bonds and enhanced money market funds with maturities of three months to five years at the date of purchase. The primary objective of our investment activities is to preserve principal while generating yields without significantly increasing risk. Historically, this was accomplished by investing in high investment grade securities with a minimum overall portfolio average credit rating of AA- as well as investment diversification. The revised investment policy was recently approved by our Board of Directors, limiting future investments to direct U.S. Government and Government Agency obligations, repurchase agreements collateralized by U.S. Government and Government Agency obligations and U.S Government and Government Agency Money Market funds. The investment policies of our subsidiaries are currently under review in light of market conditions.

Item 4 Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we performed an evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities and Exchange Act of 1934 (the Exchange Act)). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures are effective.

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as Exhibit 31.1 to this report.
