PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
OF LOGILITY, INC.

TO BE HELD AT
LOGILITY, INC.
470 EAST PACES FERRY ROAD, N.E.
ATLANTA, GEORGIA 30305
ON AUGUST 19, 2008

This Proxy Statement is furnished to the stockholders by the Board of Directors of Logility, Inc., 470 East Paces Ferry Road, N.E., Atlanta, Georgia 30305 (the Company), in connection with the solicitation of proxies by the Board of Directors for use at the Annual Meeting of Stockholders on Tuesday, August 19, 2008 at 12:00 noon, and at any adjournment or adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. This Proxy Statement and accompanying proxy card and Notice of Annual Meeting are first being mailed to stockholders on or about July 28, 2008.

If the enclosed form of proxy is properly executed and returned, the shares represented thereby will be voted in accordance with its terms. If no choices are specified, the proxy will be voted:

FOR Election of James C. Edenfield as a director for a term ending with the 2011 Annual Meeting of Stockholders and until his successor is elected and qualified.

In addition, a properly executed and returned proxy card gives the authority to vote in accordance with the proxy-holders' best judgment on such other business as may properly come before the meeting or any adjournment or adjournments thereof. A stockholder giving a proxy pursuant to this solicitation may revoke that proxy, either in writing furnished to the Secretary of the Company prior to the meeting or personally by attending the meeting, insofar as the holders of the proxy have not exercised the proxy at the meeting and the stockholder attending the meeting informs the Secretary of the Company of his or her intent to revoke the proxy.

RECORD DATE AND VOTING OF SECURITIES

The Board of Directors has fixed the close of business on July 11, 2008 as the record date for determining the holders of common stock entitled to notice of and to vote at the meeting. On July 11, 2008, the Company had outstanding and entitled to vote a total of 12,893,237 shares of Common Stock, no par value (Common Stock).

Each outstanding share of Common Stock is entitled to one vote per share on all matters to come before the meeting. The affirmative vote of a majority of the shares represented at the meeting is necessary for election of directors. Any other matter submitted to the meeting also must be approved or ratified by the affirmative vote of a majority of the shares represented at the meeting. One-third of the outstanding shares of Common Stock will represent a quorum at the meeting. Votes that are withheld, broker or other nominee non-votes and votes of abstention cast by any shareholder on a particular action will be counted towards the quorum requirement, but will not be counted as a vote for or against the action.

PROPOSAL 1: ELECTION OF DIRECTORS

The Company's Bylaws provide that directors are divided into three classes, with staggered three-year terms. The term of one of the present directors, James C. Edenfield, will expire at the 2008 Annual Meeting of Stockholders. The Board of Directors has nominated Mr. Edenfield for a term expiring at the Annual Meeting of Stockholders in 2011 and until his successor is elected and qualified.

The following information is provided concerning the nominee for election as director:

James C. Edenfield, age 73, has served as Chairman of the Board of Directors of the Company since January 1997. He is a co-founder of American Software, where he has served as Chief Executive Officer and director since 1971. Prior to founding American Software, Mr. Edenfield held several executive positions at, and was a director of, Management Science America, Inc., an applications software development and sales company. He holds a Bachelor of Industrial Engineering degree from the Georgia Institute of Technology. Mr. Edenfield first became a director of the Company in 1997.

If this nominee becomes unwilling or unable to serve, which is not expected, the proxies will be voted for a substitute person to be designated by the Board of Directors or the Board will fill the resulting vacancy at a later date.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS OF THE COMPANY VOTE FOR THE PROPOSAL TO ELECT JAMES C. EDENFIELD AS A DIRECTOR OF THE COMPANY TO HOLD OFFICE UNTIL THE 2011 ANNUAL MEETING OF STOCKHOLDERS AND UNTIL HIS SUCCESSOR IS ELECTED AND QUALIFIED.

The following directors were elected in 2006 and their present terms expire with the Annual Meeting of Stockholders in 2009:

Frederick E. Cooper, age 66, has been Chairman of Cooper Capital, LLC, a private investment firm that he founded. Prior to joining Cooper Capital, Mr. Cooper was Chairman and Chief Executive Officer of CooperSmith, Inc., a producer and distributor of baked goods, which was sold to The Earthgrains Company in January 1998. Prior thereto, Mr. Cooper served for 16 years with Flowers Industries, Inc., a Fortune 500 food company, holding the positions of President and Vice Chairman and Executive Vice President and General Counsel. Mr. Cooper earned his B.A. in 1964 from Washington & Lee University and his J.D. in 1967 from the University of Georgia School of Law. Mr. Cooper first became a director of the Company in 1999.

Parker H. Petit, age 68, was the founder of Healthdyne, Inc. and served as its Chairman of the Board of Directors and Chief Executive Officer from 1970 until 1996 when a subsidiary of Healthdyne, Inc. merged with Tokos Medical Corporation to form Matria Healthcare, Inc. (Matria), a comprehensive disease management services company, at which time he became Chairman of Matria. He has served as Chairman, President and CEO of Matria since 2000. Mr. Petit also serves as a member of the Board of Directors of Intelligent Systems Corporation. He is also a director of the Georgia Research Alliance, a coalition of government and industry leaders formed to encourage development of high technology business in Georgia, and has been elected to the Georgia Technology Hall of Fame. Mr. Petit first became a director of the Company in 1997.

The following directors were elected in 2007 and their present terms expire with the Annual Meeting of Stockholders in 2010:

J. Michael Edenfield, age 50, has served as President and Chief Executive Officer of the Company since January 1997. He also serves as a director of INSIGHT, Inc., in which the Company owns a minority interest. Until the Company's initial public offering in October 1997, he served as Chief Operating Officer of American Software, Inc., a position he had held since June 1994. Mr. Edenfield has served as Executive Vice President of American Software from June 1994 to the present, and has been a director of American Software, Inc. since 2001. Prior to June 1994, Mr. Edenfield served in the following positions with American Software USA, Inc.:

Senior Vice President of North American Sales and Marketing from July 1993 to June 1994, Senior Vice President of North American Sales from August 1992 to July 1993, Group Vice President from May 1991 to August 1992 and Regional Vice President from May 1987 to May 1991. Mr. Edenfield holds a Bachelor of Industrial Management degree from the Georgia Institute of Technology. Mr. Edenfield is the son of James C. Edenfield, Chairman of the Board of Directors of the Company. Mr. Edenfield first became a director of the Company in 1997.

John A. White, age 68, is Chancellor Emeritus and Distinguished Professor of Industrial Engineering at the University of Arkansas. From July 1997 to July 2008, he served as Chancellor and Distinguished Professor of Industrial Engineering. A graduate of the University of Arkansas (BSIE), Virginia Tech (MSIE) and The Ohio State University (PhD), he also holds honorary doctorates from the Katholieke Universiteit of Leuven in Belgium and from George Washington University. Dr. White is a member of the National Academy of Engineering, a past President of the Institute of Industrial Engineers and past Chairman of the American Association of Engineering Societies. He also serves on the boards of directors and chairs the audit committees of Motorola, Inc. and J.B. Hunt Transport Services, Inc. Dr. White founded SysteCon, a logistics consulting firm, and served as its Chairman and Chief Executive Officer until its acquisition by Coopers and Lybrand. Dr. White first became a director of the Company in 1997.

CORPORATE GOVERNANCE

The Board of Directors held five meetings during fiscal 2008. One director, Parker Petit, attended fewer than 75% of the total number of meetings of the Board of Directors. No director of the Company attended fewer than 75% of the total number of committee meetings on which such Board member served and was eligible to attend during this period.

Because American Software owns more than 50% of the voting power of the Company, the Company qualifies as a controlled company as defined in Rule 4350(c)(5) of the Nasdaq Marketplace Rules. Please see Voting Securities Security Ownership of Management and Certain Beneficial Owners, below. Therefore, the Company is not subject to the provisions of Rule 4350(c) of the Nasdaq Marketplace Rules that would otherwise require the Company to have (i) a majority of independent directors on the Board; (ii) a compensation committee composed solely of independent directors; (iii) a nominating committee, composed solely of independent directors; (iv) compensation of the Company's executive officers determined by a majority of the independent directors or a compensation committee composed solely of independent directors; and (v) director nominees selected, or recommended for the Board's selection, either by a majority of the independent directors or a nominating committee composed solely of independent directors.

In light of the voting power of American Software, the Board has determined that the Board, rather than a nominating committee, is the most appropriate body for identifying director candidates and selecting nominees to be presented at the annual meeting of stockholders. Each member of the Board participates in this process. It is the view of the Board that this function has been performed effectively by the Board, and that it is appropriate for the Company not to have a separate nominating committee or charter for this purpose. The Board has further determined that it would not be productive to have a fixed policy with respect to consideration of candidates recommended by security holders. However, if a shareholder communication includes a recommendation of a candidate for director, the Board will consider that candidate along with any other candidates for a Board position.

Candidates for membership on the Board are recommended by current members of the Board or management. When evaluating candidates for membership on the Board, the Board considers a number of factors, including:

business expertise and skills;

understanding of the Company's business and industry;

judgment and integrity;

educational and professional background; and

commitments to other businesses and responsibilities.

Stockholders may contact the Board or any of the individual directors by writing to them c/o Mr. Vincent C. Klinges, Chief Financial Officer, Logility, Inc., 470 East Paces Ferry Road, N.E., Atlanta, Georgia 30305. Inquiries sent by mail may be sorted and summarized by Mr. Klinges or his designee before they are forwarded to the addressee.

Although the Company does not have a policy with regard to Board members' attendance at the Company's annual meetings of stockholders, all of the directors are encouraged to attend such meetings. All of the Company's directors were in attendance at the 2007 Annual Meeting, except for Messrs. Petit and White, who could not attend.

The Company has adopted a Code of Business Conduct and Ethics, which applies to all directors, officers and employees of the Company, including its Chief Executive Officer, Chief Financial Officer and Controller. The Code of Business Conduct and Ethics is available on the Company's website at http://www.logility.com/about/investor_relations.html.

The Board of Directors has an Audit Committee, which presently consists of John A. White (Chairman), Frederick E. Cooper, and Parker H. Petit. The Audit Committee held four meetings during fiscal 2008, in addition to its consultations with our independent registered public accounting firm and management in connection with review of interim financial statements. The Rules of the Nasdaq Stock Market (Nasdaq Rules) require audit committees to be composed of not less than three members who are independent, as that term is defined in the Nasdaq Rules. The Audit Committee complies with those requirements.

The Company s Audit Committee Charter outlines the composition requirements of the Audit Committee as described above, as well as its duties and responsibilities. The primary responsibility of the Audit Committee is to provide assistance to the Company in connection with the financial reporting process. The functions of the Audit Committee include making an annual recommendation of independent public accountants to the Company, reviewing the scope and results of the independent public accountants audit, monitoring the adequacy of the Company s accounting, financial and operating controls, reviewing from time to time the Company s periodic financial statements and other financial reports with management and with the independent registered public accounting firm, pre-approving audit services and permitted non-audit services and related fees, and reviewing with management and the independent registered public accounting firm the financial statements to be included in the Company s annual report. The Board of Directors has determined that John A. White is an audit committee financial expert as defined in the rules of the Securities and Exchange Commission.

The Company has a Stock Option Committee, consisting of James C. Edenfield and J. Michael Edenfield. During fiscal 2008, this Committee acted twice by unanimous consent and held no meetings. The functions of this Committee are to consider the grant of stock options under the Company s 1997 Stock Plan to employees other than directors and executive officers and establish the terms of those options, as well as to construe and interpret the Plan and to adopt rules in connection therewith.

The Company has a Compensation Committee, consisting of Frederick E. Cooper (Chairman) and Parker H. Petit. During fiscal 2008, the Compensation Committee met on one occasion. The Compensation Committee has authority to establish the compensation of Chief Executive Officer and to consult with the Chief Executive Officer about the compensation of the other named executive officers. In addition, the Compensation Committee, acting as the Special Stock Option Committee, has the authority to grant stock options to the Chief Executive Officer and the other named executive officers under the Company s 2007 Stock Plan. See Executive Compensation Compensation Discussion and Analysis, below, for a further discussion of the Compensation Committee and the functions it performs.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We believe that attracting, retaining and motivating effective executive officers is critical to the overall success of our business. To achieve these goals we have adopted executive compensation programs that we have designed to reward performance and emphasize the creation of shareholder value. Our Compensation Committee and Chief Executive Officer are responsible for establishing executive compensation policies and overseeing executive compensation practices. In the following Compensation Discussion and Analysis we describe the material elements of compensation for our executive officers identified in the Summary Compensation Table (the "named executive officers"). Our named executive officers are: J. Michael Edenfield, President and Chief Executive Officer; H. Allan Dow, Executive Vice President of Sales and Marketing; Vincent C. Klinges, Chief Financial Officer of the Company and of American Software, Inc.; and Don Thomas, Vice President, Customer Service. Please see the Summary Compensation Table below for detailed components of their fiscal 2008 compensation.

Oversight of Compensation Program

The Compensation Committee of the Board (the "Committee") is responsible for establishing and reviewing the overall compensation philosophy of the Company. The Committee and the Chief Executive Officer together review and establish executive compensation plans. The Committee and the Chief Executive Officer share these responsibilities in the manner described below.

Role of Compensation Committee. The Committee reviews and establishes all elements of compensation of the Chief Executive Officer. The Committee also reviews and consults with the Chief Executive Officer about salaries and other compensation of the other executive officers and acts as the stock option committee with respect to stock option grants to all executive officers, including the Chief Executive Officer. In making decisions about stock option grants, the Committee obtains from American Software information about, and takes into consideration, stock option grants made or proposed to be made by American Software under its own stock option plan to the named executive officers of the Company.

Role of Chief Executive Officer. The Chief Executive Officer reviews and establishes all non-equity related elements of compensation of the executive officers of the Company and its subsidiaries, other than his own compensation. With respect to the major elements of executive compensation plans, the Chief Executive Officer consults with and seeks input from the Committee. The Chief Executive Officer has no direct authority in connection with stock option or stock appreciation rights awards to executive officers, but makes recommendations to the Committee regarding levels of awards to specific individuals.

J. Michael Edenfield. J. Michael Edenfield is Chief Executive Officer of the Company and also serves as Executive Vice President of American Software, which owns 88% of the common stock of the Company. American Software's common stock is publicly held and is listed on the Nasdaq Stock Market. As Mr. Edenfield's day-to-day responsibilities focus primarily on Logility, the Compensation Committee of the Logility board of directors, by mutual agreement between the Company and American Software, has assumed responsibility for establishing most of the primary elements of his compensation, including his salary, annual bonus plan, participation in the Logility stock option plan and other employee benefits. The American Software compensation committee retains the authority to grant stock options to Mr. Edenfield under the American Software stock option plan, and communicates with the Committee in order to coordinate stock option decisions.

Vincent C. Klinges. Vincent Klinges serves both as our Chief Financial Officer and as Chief Financial Officer of American Software. By mutual agreement between the Company and American Software, American Software establishes Mr. Klinges' salary, annual bonus plan, participation in American Software's stock option plan and other employee benefits. The Committee retains the authority to grant stock options to Mr. Klinges under the Logility option plan, and communicates with the American Software compensation committee in order to coordinate stock option decisions.

Executive Compensation Philosophy

We believe that a compensation program which promotes our ability to attract, retain and motivate outstanding executives will help us meet our long-range objectives, thereby serving the interests of the Company's shareholders. Our executive officer compensation program is designed to achieve these objectives:

Provide compensation opportunities that are competitive with those of companies of a similar size.

Create a strong connection between executives' compensation and our annual and long-term financial performance.

Include above-average elements of financial risk through performance-based incentive compensation that offers an opportunity for above-average financial reward to executives.

Design incentive compensation benchmarks that closely align the interests of executive officers with those of our stockholders.

Elements of Compensation

Base Salaries. We establish the salaries of our named executive officers at levels that we believe are, when viewed in conjunction with their potential bonus income and stock option grants, competitive and reasonable in light of their experience, prior performance and level of responsibility. The Committee reviews and establishes the salary of our Chief Executive Officer, while the Chief Executive Officer reviews and establishes the salaries of our other officers, including the named executive officers, except that the compensation committee of the American Software Board of Directors establishes the salary of our Chief Financial Officer, Vincent C. Klinges, who also is a named executive officer of American Software.

Salaries of our named executive officers in fiscal 2008 are shown in the Salary column of the Summary Compensation Table, below.

Incentive Compensation. Each of our named executive officers has a bonus plan established during the first quarter of a fiscal year, covering that fiscal year. The Committee establishes the bonus plan for our Chief Executive Officer. Our Chief Executive Officer establishes the bonus plans for our other officers, including the other named executive officers, except that the compensation committee of the American Software Board of Directors establishes the bonus plan for our Chief Financial Officer, Vincent C. Klinges. In each case, the bonus plan is customized for the individual executive officer. We use these bonus plans, in tandem with stock option grants, as tools to attract and retain qualified executives while at the same time aligning their interests with those of our stockholders. To accomplish this, we establish bonus plans with attainable goals, using formulas tied to important factors that positively affect return on investment.

The following summarizes the incentive compensation arrangements for the named executive officers in the fiscal years ended April 30, 2008 and 2009:

J. Michael Edenfield. For fiscal 2008, the Committee established Mr. Edenfield's base salary at \$286,000 and approved certain perquisites, as set forth in the Summary Compensation Table, below. The Committee established that he would have the opportunity to receive a bonus targeted at \$370,000, based upon the Company achieving a specified target level of operating income, with a maximum potential bonus of \$600,000. For fiscal 2008, Mr. Edenfield did not receive a bonus, as the Company did not achieve the required operating income level. For fiscal 2009, the Committee has established an incentive compensation plan for Mr. Edenfield similar to the plan in effect for fiscal 2008. The potential bonus again is targeted at \$370,000, based upon the Company achieving the specified target level of operating income, with a maximum potential bonus of \$600,000. Mr. Edenfield will not receive an incentive bonus for 2009 unless the Company attains at least 84% of the operating income bonus target. If that level is reached, the minimum bonus will be \$100,000, with the actual incentive bonus being pro rated between \$100,000 and \$370,000 depending on the level of actual operating income between the minimum and the target level. If actual operating income exceeds the operating income bonus target, the bonus amount will be equal to

actual operating income divided by the operating earnings bonus target amount, multiplied by \$370,000. The above incentive plan reflects the Committee's belief that incentive compensation plans should provide for a minimum bonus if the Company achieves operating results that are reasonably attainable and a higher bonus if operating results reach exceptional levels.

H. Allan Dow. For fiscal 2008, the Company established an incentive compensation plan whereby Mr. Dow was eligible for a potential bonus targeted at \$240,000, based upon the Company's achieving specified target levels of license fee revenues and operating earnings. Based upon results achieved during fiscal 2008, he received a bonus of \$57,368. For fiscal 2009, the Company has established an incentive compensation plan for Mr. Dow similar to the plan in effect for fiscal 2008, providing for benchmark targets similar to those in place for fiscal 2008 and a potential bonus targeted at \$240,000.

Vincent C. Klinges. For fiscal 2008, Mr. Klinges received a bonus equal to 2.25% of the increase in operating income of American Software in fiscal 2008 over fiscal 2007, excluding stock option-related expenses, with a maximum bonus of \$75,000 and a minimum bonus of \$9,000, provided that he remained with American Software on June 30, 2008. For fiscal 2008, Mr. Klinges received a bonus of \$9,000. For fiscal 2009, his bonus arrangement remains the same, except that the maximum bonus is increased to \$85,000 and the minimum bonus is increased to \$10,000. His continuation requirement for bonus eligibility is June 30, 2009. Mr. Klinges' salary has been increased to \$198,000 for fiscal 2009.

Donald L. Thomas. For fiscal 2008, the Company established an incentive compensation plan whereby Mr. Thomas was eligible for a potential bonus targeted at \$60,000, based upon the Company's achieving specified target levels of services and maintenance revenues and operating earnings. Based upon results achieved during fiscal 2008, he received a bonus of \$15,304. For fiscal 2009, the Company has established an incentive compensation plan for Mr. Thomas similar to the plan in effect for fiscal 2008, providing for benchmark targets similar to those in place for fiscal 2008 and a potential bonus targeted at \$60,000.

Bonuses paid to our named executive officers in fiscal 2008 are shown in the "Bonuses" column of the Summary Compensation Table, below.

Stock Option Plan. The Committee, which is responsible for grants of stock options to the named executive officers, believes that granting stock options to executive officers is an effective means to reward them for their prior performance, to serve as incentive for promotion of Company profitability and other long-term objectives, and to maintain their overall compensation at competitive levels. Thus, option grants reflect both a retrospective and prospective approach to executive compensation. As compared to executive bonus plans, stock options address longer term compensation and incentives. To establish option grant levels, the Committee has monitored developments and trends among publicly held technology companies regarding equity and non-equity based incentive compensation. The Committee continues to believe that stock options represent the most efficient and effective means for the Company to achieve the compensatory and incentive objectives referred to above. The Committee has the authority under the current Stock Plan to award stock appreciation rights (SARs) in addition to stock options. To date, the Committee has not awarded any SARs.

The Committee typically considers whether to grant stock options to executive officers once annually, generally during the month of June or July, while the salary and bonus plans for executives are being considered and finalized. The option exercise prices are fixed as of the close of trading of our common stock on Nasdaq on the date on which the Committee meets to finalize its option decisions, which is the date of grant. Options granted to executives during the past several years have terms of six years and vest ratably over a five-year period. We expect this practice to continue. The Committee did not grant stock options to the named executive officers in fiscal 2008, and at this time has no plans to grant stock options to such individuals in fiscal 2009. The Committee understands that J. Michael Edenfield and Vincent C. Klinges received grants of American Software stock options in July 2008.

Personal Benefits and Perquisites. We provide a variety of health, retirement and other benefits to all employees. Our executive officers are eligible to participate in the benefit plans on the same basis as all other employees. These benefit plans include medical, dental, life and disability insurance. Our executive officers do

not receive any personal benefits or perquisites that are not available on a non-discriminatory basis to all employees except for limited supplemental insurance expense reimbursement and except for perquisites that the Committee has approved for J. Michael Edenfield and H. Allan Dow. The perquisites of the named executive officers in fiscal 2008 were as set forth in the All Other Compensation column and footnote 2 to the Summary Compensation Table, below.

Pension Benefits. We do not provide pension benefit plans to our employees or to our named executive officers.

Non-Qualified Defined Contribution or Other Non-Qualified Deferred Compensation Plans. We do not provide non-qualified contribution plans or other non-qualified deferred compensation options to any of our employees or to our named executive officers.

Stock Purchase Plan. We formerly had in place a stock purchase plan for our employees, providing to them an opportunity to acquire our shares at a discount to market prices. We discontinued this plan several years ago after concluding that the cost of maintaining and accounting for such a plan exceeded the benefit that we perceived our employees gained from such a plan.

Impact of Regulatory Requirements

Section 162(m) of the Code generally disallows a tax deduction to a public company for compensation in excess of \$1 million paid to the company's chief executive officer and any other executive officer required to be reported to its stockholders under the Exchange Act by reason of such executive officer being one of the four most highly compensated executive officers. However, qualifying performance-based compensation is not subject to the deduction limitation if certain requirements are met. Section 409A of the Code provides for certain requirements that a plan that provides for the deferral of compensation must meet, including requirements relating to when payments under such a plan may be made, acceleration of benefits, and the timing of elections under such a plan. Failure to satisfy these requirements will generally lead to an accelerated timing of inclusion in income of deferred compensation, as well as certain penalties and interest.

Although we consider the tax implications of Section 162(m) and Section 409A of the Code, we do not have a formal policy in place requiring that part or all compensation must qualify under these sections, in order to preserve flexibility with respect to the design of our compensation programs.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management, and based on the Committee's review and discussions with management, has recommended to the full Board of Directors that the Compensation Discussion and Analysis be included in our annual report on Form 10-K for the year ended April 30, 2008, as well as the Proxy Statement for the 2008 Annual Meeting.

Respectfully submitted by the Compensation Committee of the Board of Directors

Fredrick E. Cooper (Chairman)

Parker H. Petit

Compensation Committee Interlocks and Insider Participation

Messrs. Cooper and Petit have been selected by the Board of Directors to serve on the Compensation Committee. Neither member of the Committee was an officer or employee of the Company or had any relationship with the Company requiring disclosure under Securities and Exchange Commission regulations.

Employment Agreements

We do not have formal employment contracts with our executive officers covering compensation matters. Accordingly, we set their compensation annually, under compensation plans individualized for each executive officer.

Change of Control Agreements

We do not have contracts that provide for compensation of our executive officers, or any of our other employees, that are triggered by change of control events. Stock option grants to our employees do, however, include provisions that cause the vesting of those options to be accelerated in the event of a change of control, as defined in our stock option plan.

Stock Options

Stock Option Plans

We have outstanding stock options granted under two stock option plans. The 1997 Stock Plan was adopted by the Board of Directors, approved by the sole stockholder of the Company in August 1997 and amended by the stockholders of the Company at the 1998 and 2006 Annual Meetings. This plan terminated effective August 7, 2007 and was replaced with the Logility, Inc. 2007 Stock Plan, approved at the 2007 Annual Meeting. The following sections describe these stock option plans:

1997 Stock Plan. We have outstanding stock options granted under the Logility, Inc. 1997 Stock Plan. Options outstanding under the 1997 Stock Plan will remain in effect, but since its termination we will not grant new options under this Plan. As of April 30, 2008, there were outstanding under this Plan options to purchase 655,520 shares. The Company did not grant any SARs under the Plan.

2007 Stock Plan. On May 15, 2007, the Board of Directors adopted the 2007 Stock Plan, and the stockholders approved this Plan at the 2007 Annual Meeting. We have authorized a total of 500,000 shares for issuance pursuant to options granted under this Plan. As of April 30, 2008, under this Plan option holders have exercised no option shares, there are 14,000 option shares outstanding, and 486,000 shares remained available for stock option grants.

Under this Plan, the Company may grant options to acquire up to an aggregate of 500,000 shares of common stock. Options may be granted to executive officers or other key employees of the Company or any subsidiary, an advisor or consultant to the Company or any subsidiary, or a member of the Board of Directors. Option grants to directors and to officers who are subject to Section 16 of the Securities Exchange Act of 1934 are intended to comply with the requirements of Rule 16b-3. Options may be either incentive stock options or nonqualified stock options. The Plan also allows the Company to grant up to 300,000 stock appreciation right (SAR) units, with each unit being equivalent to one share of common stock. When a SAR unit is awarded, the unit grant price is established as the fair market value of one share of common stock on the date of the award. Upon exercise, the participant received, in cash (less tax and other withholdings) an amount equal to the excess of (i) the fair market value of the common stock on the date of exercise over (ii) the unit grant price, and with such excess being multiplied by (iii) the number of SAR units being exercised.

The number of options or SARs granted will be determined by the particular committee that administers such grants. See Administration, below. Option grants to nonemployee directors shall be nonqualified stock options, the number of which is fixed by the Plan as follows: each nonemployee director who is newly elected or appointed subsequent to the date on which the Plan becomes effective will be granted an option to purchase 2,000 shares of common stock upon his or her election or appointment, and thereafter will be granted an option to purchase 1,000 shares of common stock as of the last day of each fiscal quarter, beginning on the last day of the first full fiscal quarter following his or her election or appointment. The following sections describe the 2007 Stock Plan:

Purpose of Plan. The purpose of the Plan is to attract and retain the best available talent and encourage the highest level of performance by officers, employees, directors, advisors and consultants, and to provide them with incentives to put forth maximum efforts for the success of the Company's business.

Administration. The Plan is administered by the Board of Directors and by the Stock Option Committee and the Special Stock Option Committee. The Special Stock Option Committee, composed of nonemployee directors, is responsible for the administration and granting of stock options and SARs to executive officers of the Company. The Stock Option Committee, consisting of other directors of the Company, is responsible for the administration and granting of stock options and SARs (collectively, Awards) to other employees and eligible persons. The Stock Option Committee is composed of James C. Edenfield and J. Michael Edenfield. The Special Stock Option Committee is composed of Frederick E. Cooper and Parker H. Petit.

Eligibility. All directors and employees (141 persons as of April 30, 2008) are eligible to participate in the Plan. Additionally, advisors and consultants to the Company may be eligible for Award grants, if deemed appropriate by the Stock Option Committee.

Exercise Price. The exercise price per share of any stock option granted under the Plan is set in each case by the respective Committee that administers the Plan or the entire Board. For all stock options granted under the Plan, the exercise price must be at least 100% of the fair market value of common stock on the date of grant (110% for 10% stockholders if the stock option is an incentive stock option). For option grants to Nonemployee Directors, which will be nonqualified stock options, the exercise price per share shall be equal to 100% of the fair market value of the common stock on the date of grant.

Terms of Options. Option terms may be for up to ten years. The terms of individual option grants are determined by the particular Board committee granting the option, as discussed above in Administration . If the Committees continue their current practices, options granted pursuant to the Plan generally will expire on the sixth anniversary of the grant date and will become exercisable in equal portions over a five-year period (other than options granted to non-employee directors, which vest one year following the date of grant). Any SARs granted under the Plan would expire not later than the fifth anniversary of the date of the SAR award.

Death, Disability, Retirement or Termination of Employment. Following a participant's termination of employment, Awards held by such person pursuant to the Plan are generally exercisable only with respect to the portions thereof in which the participant is then vested. Under the Plan, upon termination of employment, stock options remain exercisable for 90 days, or twelve months if termination results from death or disability, but in any event not beyond the original option term. SARS may be exercised for 30 days after termination of employment other than termination for cause, or within one year if termination results from death or disability but not later than the expiration date of the SAR.

Change of Control. Currently, option agreements relating to options granted under the Plan generally provide for exercise of the option prior to normal vesting in the event the Company (i) is merged, consolidated or reorganized into or with another company and, as a result, less than two-thirds of the combined voting power of the then-outstanding securities entitled to vote generally in the election of directors (Voting Stock) of such corporation immediately after such transaction are held in the aggregate by the holders of Voting Stock of the Company immediately prior to such transaction; (ii) sells or transfers all or substantially all of the assets of the Company and as a result of such sale or transfer less than two-thirds of the combined voting power of the then-outstanding Voting Stock immediately after such sale or transfer is held in the aggregate by the holders of Voting Stock of the Company immediately prior to such sale or transfer; (iii) any person has become the beneficial owner of securities representing 50% or more of the combined voting power of the then-outstanding voting stock of the Company other than by gift or inheritance; or (iv) during any period of two consecutive years, individuals who at the beginning of any such period constitute the directors of the Company cease to constitute a majority thereof, subject to certain exceptions, including situations where continuing directors approve the addition of new directors. The Plan provides that in the event of a Change of Control, the Board may either accelerate vesting as described above or may cancel all current options and SARS and replace them with awards relating to the purchase of securities issued by the acquiring entity.

American Software Option Plan. As long as the Company remains a majority-owned subsidiary of American Software, officers and other employees of the Company will be eligible to receive grants of stock options under American Software's stock option plan. The grant of such options, if any, will be entirely within the discretion of the respective committees of the American Software Board of Directors. James C. Edenfield, a director of the Company, serves on one of the committees of the American Software Board that has authority over the American Software stock option plan.

These options become fully exercisable on the date of grant and expire six years after the grant date (ten years for options granted prior to March 2005). They do not terminate if the director ceases to serve on the Board of the Company after the options become exercisable. Under this program, Fredrick E. Cooper, Parker H. Petit and John A.
