NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2008

(unaudited)

Note 1 Organization and Summary of Significant Accounting Policies:

Organization and Nature of Business National Retail Properties, Inc., a Maryland corporation, is a fully integrated real estate investment trust (REIT) formed in 1984. The term NNN or the Company refers to National Retail Properties, Inc. and its majority owned and controlled subsidiaries. These subsidiaries include the wholly owned subsidiaries of National Retail Properties, Inc., including the taxable REIT subsidiaries and their majority owned and controlled subsidiaries (collectively, the TRS).

NNN s operations are divided into two primary business segments: (i) investment assets, including real estate assets, mortgages and notes receivable (including structured finance investments) on the condensed consolidated balance sheets and commercial mortgage residual interests (collectively, Investment Assets), and (ii) inventory real estate assets (Inventory Assets). NNN acquires, owns, invests in, manages and develops properties that are leased primarily to retail tenants under long-term net leases (Investment Properties or Investment Portfolio). As of June 30, 2008, NNN owned 959 Investment Properties, with an aggregate gross leasable area of 11,053,000 square feet, located in 44 states. Approximately 98 percent of NNN s Investment Portfolio was leased as of June 30, 2008. In addition to the Investment Properties, as of June 30, 2008, NNN had \$90,114,000 and \$22,314,000 in mortgages, notes and interest receivables (including structured finance investments) and commercial mortgage residual interests, respectively. The Inventory Assets are operated through the TRS. The TRS, directly and indirectly, through investment interests, acquires and develops real estate primarily for the purpose of selling the real estate (Inventory Properties or Inventory Portfolio). As of June 30, 2008, the TRS owned 46 Inventory Properties.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America. The unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. Operating results for the quarter and six months ended June 30, 2008 may not be indicative of the results that may be expected for the year ending December 31, 2008. Amounts as of December 31, 2007, included in the condensed consolidated financial statements, have been derived from the audited consolidated financial statements as of that date. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto as well as Management s Discussion and Analysis of Financial Condition and Results of Operations in NNN s Form 10-K, as amended, for the year ended December 31, 2007.

Principles of Consolidation In January 2003, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities (FIN 46R). This Interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements, addresses consolidation by business enterprises of variable interest entities.

NNN's condensed consolidated financial statements include the accounts of each of the respective majority owned and controlled affiliates. All significant intercompany account balances and transactions have been eliminated.

Investment in Unconsolidated Affiliate NNN accounts for its investment in an unconsolidated affiliate under the equity method of accounting (see Note 4).

Cash and Cash Equivalents NNN considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of cash and money market accounts. Cash equivalents are stated at cost plus accrued interest, which approximates fair value.

Cash accounts maintained on behalf of NNN in demand deposits at commercial banks and money market funds may exceed federally insured levels; however, NNN has not experienced any losses in such accounts. NNN limits investment of temporary cash investments to financial institutions with high credit standing; therefore, management believes it is not exposed to any significant credit risk on cash and cash equivalents.

Other Comprehensive Income The components for the change in other comprehensive income during the six months ended June 30, 2008 (dollars in thousands):

Balance at beginning of period	\$ 1,597
Interest rate hedge termination	(109)
Amortization of interest rate hedges	(85)
Unrealized gain commercial mortgage residual interests	1,829
Stock value adjustment	(17)

Total comprehensive income	\$ 31,285	\$ 49,793	\$ 65,559	\$ 76,871

Earnings Per Share Basic net earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding during each period. Diluted net earnings per common share is computed by dividing net earnings available to common stockholders for the period by the number of common shares that would have been outstanding assuming the issuance of common shares for all potentially dilutive common shares outstanding during each period.

Edgar Filing: NATIONAL RETAIL PROPERTIES, INC. - Form 10-Q

The following is a reconciliation of the denominator of the basic net earnings per common share computation to the denominator of the diluted net earnings per common share computation:

	Quarter Ended June 30,		Six Months Ended June 30,

New Accounting Standards In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Standards No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value and expands the disclosure requirements of fair value measurements. In February 2008, the FASB issued FASB Staff Position (FSP SFAS 157-1), Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13, which amended SFAS 157 by excluding FASB Statement No. 13, Accounting for Leases, (SFAS 13), and its related interpretive accounting pronouncements that address leasing transactions. FSP SFAS 157-1 was effective immediately upon issuance. The adoption of FSP SFAS 157-1 did not have any significant impact on NNN's financial position or results of operation.

In addition, in February 2008, the FASB issued FASB Staff Position (FSP SFAS 157-2), Effective Date of FASB Statement No. 157, which amended SFAS 157 to delay the effective date of SFAS 157 by one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The delay is intended to allow the FASB and constituents additional time to consider the effect of various implementation issues that have arisen, or that may arise, from the application of SFAS 157. SFAS 157 was issued in September 2006 and defined fair value, established a framework for measuring fair value in generally accepted accounting principles and expanded the disclosures about fair value measurements. SFAS 157 was issued with an effective date for financial statements issued for fiscal year beginning after November 15, 2007 and interim periods within those fiscal years. For items covered by FSP SFAS 157-2, SFAS 157 will now go into effect in fiscal years beginning after November 15, 2008 and in interim periods within those fiscal years. The amendment to SFAS 157 applies mainly to nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in an entity's financial statement on a recurring basis. NNN is currently evaluating the provisions for SFAS 157-2 to determine the potential impact, if any, the adoption will have on NNN's financial position or results of operation. Therefore, NNN has adopted the provisions of SFAS 157 with respect to only its financial assets and financial liabilities.

SFAS 157 specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The standard describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

NNN currently values its commercial mortgage residual interests based upon an independent valuation which provides a discounted cash flow analysis based upon prepayment speeds, expected loan losses and yield curves. These valuation inputs are generally considered unobservable; therefore, the commercial mortgage residual interests are considered Level 3 financial assets. The table below presents a reconciliation of the commercial mortgage residual interests during the six months ended June 30, 2008 (dollars in thousands):

Balance at beginning of period	\$ 24,340
Total gains (losses) realized/unrealized:

In December 2007, FASB issued Statements No. 141 (Revised 2007), Business Combinations (SFAS 141(R)) the objective of which is to improve and simplify the accounting for business combinations. SFAS 141(R) will improve reporting by creating greater consistency in the accounting and financial reporting of business combinations. This statement requires the new acquiring entity to recognize all assets acquired and liabilities assumed in business combination transactions, establishes an acquisition-date fair value for said assets and liabilities, and requires full disclosure of the financial effect the acquisition will have to investors. SFAS 141(R) applies to business combinations between mutual entities, including those combinations achieved in the absence of a transaction involving the acquirer such as through the lapse of minority veto rights and combinations achieved without the transfer of consideration, for example, by contract alone. FAS 141(R) specifically excludes joint ventures and common control transactions. SFAS 141(R) is effective for fiscal years beginning on or after December 15, 2008 and should be applied prospectively. NNN is currently evaluating the provisions for SFAS 141(R) to determine the potential impact, if any, the adoption will have on NNN's financial position or results of operations.

In December 2007, FASB issued Statements No. 160, Noncontrolling Interests in Consolidated Financial Statements, (SFAS 160), an amendment to Accounting Research Board No. 51 SFAS 160 the objective of which is to improve the relevance, comparability and transparency of financial information that a reporting entity provides in its consolidated financial statements. The key aspects of SFAS 160 are (i) the minority interests in subsidiaries should be presented in the consolidated balance sheet within equity of the consolidated group, separate from the parent's shareholders' equity, (ii) acquisitions or dispositions of noncontrolling interests in a subsidiary that do not result in a change of control should be accounted for as equity transactions, (iii) a parent recognizes a gain or loss in net income when a subsidiary is deconsolidated, measured using the fair value of the non-controlling equity investment, (iv) the acquirer should attribute net income and each component of other comprehensive income between controlling and noncontrolling interests based on any contractual arrangements or relative ownership interests, and (v) a reconciliation of beginning to ending total equity is required for both controlling and noncontrolling interests. SFAS 160 is effective for fiscal years beginning on or after December 15, 2008 and should be applied prospectively. NNN is currently evaluating the provisions for SFAS 160 to determine the potential impact, if any, the adoption will have on NNN's financial position or results of operations.

In February 2008, a FASB Staff Position (FSP), Accounting for Transfers of Financial Assets and Repurchase Financing Transactions (FSP SFAS 140-3), was issued to provide guidance for determining whether an initial transfer of a financial asset and a repurchase financing should be considered a linked transaction for the purposes of assessing whether sale accounting is appropriate under FASB Statement 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, (SFAS 140). For transactions within its scope, FSP SFAS 140-3 presumes that an initial transfer of a financial asset and a repurchase financing are considered part of the same arrangement, as a linked transaction. However, if certain criteria are met, the initial transfer and repurchase financing should not be evaluated as a linked transaction and should be evaluated separately under SFAS 140. This FSP is effective for financial statements issued for fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. Earlier application is not permitted. FSP SFAS 140-3 should be applied prospectively to initial transfers and repurchase financings for which the initial transfer is executed on or after the beginning of the fiscal year in which the FSP is initially applied. NNN is currently evaluating the provisions for this FSP to determine potential impact, if any, the adoption will have on NNN's financial position or results of operations.

In March 2008, FASB issued Statement No. 161, (SFAS 161), Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities, (SFAS 133). SFAS 161 provides for enhanced disclosures about how and why an entity uses derivatives and how and where those derivatives and related hedged items are reported in the entity's financial statements. The statement requires disclosure of the fair values of derivative instruments and their gains and losses in a tabular format and the cross referencing in footnotes to enable financial statement users to locate important information about derivative instruments. SFAS 161 applies to all entities and all derivative instruments and related hedged items accounted for under SFAS 133. The statement requires an entity to disclose by primary underlying risk, its objectives and strategies for using derivatives. SFAS 161 intent is to capture information about only the reporting entity's credit-risk-related contingent features for derivatives that are in a liability position at period end, to distinguish between collateral that is already posted at the end of the reporting period and additional collateral that would be required to be posted if the credit-risk-related contingent features were triggered at the end of the reporting period. Entities are also required to disclose the volume of its derivative activity. SFAS 161 amends and clarifies FASB Statement No. 107, Disclosures about Fair Value of Financial Instruments, (SFAS 107) by stating that derivatives accounted for under SFAS 133 should be included in an entity's disclosures of concentration of credit risk acquired under SFAS 107. SFAS 161 is effective

prospectively for the financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Early application is encouraged. NNN is currently evaluating the provisions for SFAS 161 to determine the potential impact, if any, the adoption will have on NNN's financial position or results of operations.

In May 2008, FASB issued a FASB Staff Position Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement) (FSP APB 14-1). FSP APB 14-1 requires issuers to account separately for the liability and equity components of convertible debt instruments that have stated terms permitting settlement on conversion in cash and other assets unless the embedded conversion option is required to be accounted for as a derivative under SFAS 133. Convertible preferred shares accounted for in equity or temporary equity are not subject to FSP APB 14-1. This FASB Staff Position is effective for financial statements issued for fiscal years beginning after December 15, 2008 and interim periods within those fiscal years. NNN is currently evaluating the provisions for FSP APB 14-1 to determine the potential impact, if any, the adoption will have on its financial position or results of operations.

In May 2008, FASB issued Statement No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS 162), the objective of which is to improve financial reporting by identifying a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. generally accepted accounting principles (GAAP) for nongovernmental entities. Prior to the issuance of SFAS 162, GAAP hierarchy was defined in the American Institute of Certified Public Accountants (AICPA) Statement on Auditing Standards 69, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles (SAS 69). SAS 69 has been criticized because it is directed to the auditor rather than the entity. SFAS 162 addresses these issues by establishing that the GAAP hierarchy should be directed to entities because it is the entity (not its auditor) that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board Auditing (PCAOB) amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. NNN does not anticipate that the adoption of SFAS 162 will have an impact on its financial position or results of operations.

In June 2008, FASB issued an FSP on EITF 03-6-1 which addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in computing earnings per share (EPS) under the two-class method as discussed in FASB Statement No. 128, Earnings Per Share. The main principle of this FSP states that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. This FSP is effective for financial statements issued for the fiscal years beginning after December 15, 2008 and interim periods within those years. All prior period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform with the provision of this FSP. NNN is currently evaluating the provisions of this FSP to determine the potential impact, if any, the adoption of this FSP will have on NNN's financial position or results of operations.

Use of Estimates Management of NNN has made a number of estimates and assumptions relating to the reporting of assets and liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Significant estimates include provision for impairment and allowances for certain assets, accruals, useful lives of assets and capitalization of costs. Actual results could differ from those estimates.

Reclassification Certain items in the prior year's consolidated financial statements and notes to consolidated financial statements have been reclassified to conform to the 2008 presentation. These reclassifications had no effect on stockholders' equity or net earnings.

The statement of cash flow for the six months ended June 30, 2007 reflects a reclassification of \$2,388,000, to reclassify the cash received from commercial mortgage residual assets from cash flows from operating activities to cash flows from investing activities. The reclassification resulted in a change in the net cash provided by operating activities from \$124,080,000 to \$126,468,000 and a change in the net cash used in investing activities from \$339,793,000 to \$342,181,000. The reclassification has no impact on the condensed consolidated balance sheets, condensed consolidated statements of earnings and the related earnings per share amounts.

Note 2 Real Estate - Investment Portfolio:

Leases NNN generally leases its Investment Properties to established tenants. As of June 30, 2008, 951 of the Investment Property leases have been classified as operating leases, and 21 leases have been classified as direct financing leases. For the Investment Property leases classified as direct financing leases, the building portions of the property leases are accounted for as direct financing leases while the land portions of seven of these leases are accounted for as operating leases. Substantially all leases have initial terms of 10 to 20 years (expiring between 2008 and 2028) and provide for minimum rentals. In addition, the leases generally provide for increases in rent as a result of fixed increases, increases in the consumer price index, and/or increases in the tenant's sales volume. Generally, the tenant is also required to pay all property taxes and assessments, substantially maintain the interior and exterior of the building and carry property and liability insurance coverage. Certain of NNN's Investment Properties are subject to leases under which NNN retains responsibility for certain costs and expenses of the property. As of June 30, 2008, the weighted average remaining lease term was approximately 13 years. Generally, the leases of the Investment Properties provide the tenant with one or more multi-year renewal options subject to generally the same terms and conditions as in the initial lease term.

Investment Portfolio Accounted for Using the Operating Method Real estate subject to operating leases consisted of the following (dollars in thousands):

	June 30, 2008	December 31, 2007
Land and improvements	\$ 1,022,900	\$ 938,804
Buildings and improvements	1,352,768	1,201,999

Less impairment	(1,583)	(1,958)
	\$ 2,270,493	\$ 2,055,846

NNN has funding commitments (including construction and land costs) totaling \$67,411,000 related to the development of or tenant improvements on 19 Investment Properties. As of June 30, 2008, NNN has funded \$41,976,000 of this commitment, with \$25,435,000 remaining to be funded.

Note 3 Real Estate Inventory Portfolio:

As of June 30, 2008, the TRS owned 46 Inventory Properties: 37 completed inventory, two under construction and seven land parcels. As of December 31, 2007, the TRS owned 56 Inventory Properties: 41 completed inventory, nine under construction and six land parcels. The Inventory Portfolio consisted of the following (dollars in thousands):

	June 30, 2008	December 31, 2007
Completed Inventory Properties:		
Land	\$ 53,535	\$ 65,983

Note 4 Investment in Unconsolidated Affiliate:

In September 2007, NNN entered into a joint venture, NNN Retail Properties Fund I LLC (the NNN Crow JV), with an affiliate of Crow Holdings Realty Partners IV, L.P. NNN Crow JV plans to acquire real estate assets leased to convenience store operators from unrelated third parties. NNN owns a 15 percent equity interest in the joint venture which it accounts for under the equity method of accounting. Net income and

Edgar Filing: NATIONAL RETAIL PROPERTIES, INC. - Form 10-Q

losses of the joint venture are allocated to the members in accordance with their respective percentage interest. For the quarter and six months ended June 30, 2008, NNN recognized earnings of \$101,000 and \$180,000, respectively, from NNN Crow JV. NNN manages the joint venture pursuant to a management agreement and earned fees of \$98,000 and \$434,000 for the quarter and six months ended June 30, 2008, respectively.

Note 5 Mortgages, Notes and Accrued Interest Receivable:

Mortgage receivables and structured finance are loans secured by real estate, real estate securities or other assets.

Mortgages and notes receivable consisted of the following (dollars in thousands):

	June 30, 2008	December 31, 2007
Mortgages and notes receivable	\$ 82,906	\$ 58,556
Structured finance investments	6,677	14,359
Accrued interest receivables	605	578

Less loan origination fees, net	(150)	(100)
Less allowance	(49)	(396)
	\$ 90,114	\$ 73,162

The mortgage and notes receivables bear a weighted average interest rate of 9.67% with maturity dates ranging from July 2008 through October 2028.

As of June 30, 2008, the structured finance investments bear a weighted average interest rate of 11.38% per annum, of which 10.00% is payable monthly and the remaining 1.38% accrues and is due at maturity. The principal balance of each structured finance investment is due in full at maturity, which ranges between January 2009 and April 2009. The structured finance investments are typically secured by the borrowers' pledge of their respective membership interests in the certain subsidiaries which own the respective real estate.

Note 6 Commercial Mortgage Residual Interests:

NNN owns a 78.9 percent equity interest in Orange Avenue Mortgage Investments, Inc. (OAMI). OAMI holds the commercial mortgage residual interests (Residuals) from seven securitizations. Each of the Residuals is recorded at fair value based upon an independent valuation. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity and other than temporary losses as a result of a change in the timing or amount of estimated cash flows are recorded as an other than temporary valuation impairment. Due to changes in market conditions relating to residual assets, NNN recognized an other than temporary valuation impairment on the Residuals of \$758,000 for the six months ended June 30, 2008. NNN did not recognize an other than temporary valuation impairment for the quarters ended June 30, 2008 or 2007. NNN recorded \$1,829,000 and \$1,306,000 of unrealized gains as other comprehensive income for the six months ended June 30, 2008 and 2007, respectively.

Note 7 Line of Credit Payable:

NNN's \$400,000,000 revolving credit facility (the Credit Facility) had a weighted average outstanding balance of \$138,868,000 and a weighted average interest rate of 3.99% during the six months ended June 30, 2008. The interest rate on the Credit Facility is based on a tiered rate structure which is determined by the debt rating of the Company. NNN's current interest rate on its Credit Facility decreased to 65 basis points above LIBOR as a result of an upgrade in its debt rating. As of June 30, 2008, \$127,200,000 was outstanding, and approximately \$272,800,000 was available for future borrowings under the Credit Facility, excluding undrawn letters of credit totaling \$1,717,000.

Note 8 Note Payable Secured:

In February 2008, the outstanding principal amount on NNN's secured note payable was repaid. The note had a principal balance of \$12,000,000 at December 31, 2007 and a stated interest rate of 10.0%.

Note 9 Notes Payable Convertible:

In February 2008, NNN issued \$220,000,000 of 5.125% convertible senior notes due June 2028 (with a June 2013 put option) in a registered, underwritten public offering. Subsequently, in March 2008, NNN issued an additional \$14,035,000 in connection with the exercise of the underwriters' over-allotment option (collectively, the 2028 Convertible Notes). The 2028 Convertible Notes were sold at par with interest payable semi-annually commencing on June 15, 2008 (effective interest rate of 5.125%).

The notes are convertible at the option of the holder on or after June 15, 2027. Prior to June 15, 2027, holders may convert their 2028 Convertible Notes under certain circumstances. The initial conversion rate for each \$1,000 principal amount of the 2028 Convertible Notes is 39.3459 shares of NNN's common stock, which is equivalent to a conversion price of approximately \$25.42 per share of common stock. The initial conversion rate is subject to adjustment in certain circumstances.

The 2028 Convertible Notes are redeemable at the option of NNN, in whole or in part, on or after June 17, 2013 for cash equal to a 100 percent of the principal amount of the 2028 Convertible Notes being redeemed plus accrued interest. In addition, on June 17, 2013, June 15, 2018 and June 15, 2023, holders of the 2028 Convertible Notes may require NNN to repurchase the notes for cash equal to the principal amount of the convertible notes being repurchased plus accrued interest. The 2028 Convertible Notes rank equally with all of the Company's unsecured indebtedness but will be effectively subordinated to all of NNN's secured indebtedness to the extent of the value of the collateral securing such indebtedness.

NNN received net proceeds of \$228,576,000 in connection with the 2028 Convertible Notes offering and incurred debt issuance costs totaling \$5,459,000 consisting of underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. Debt issuance costs have been deferred and are being amortized over the period to the earliest put option of the holders, June 17, 2013, using the effective interest method.

Note 10 Notes Payable:

In March 2008, NNN repaid the 7.125% \$100,000,000 notes that were due in March 2008.

Note 11 Preferred Stock:

NNN declared and paid dividends to its Series C Preferred stockholders of \$3,392,000 or \$0.9218 per share during each six month period ending June 30, 2008 and 2007. The Series C Preferred Stock has no maturity date and will remain outstanding unless redeemed.

Note 12 Common Stock:

During the six months ended June 30, 2008 and 2007, NNN declared and paid dividends to its common shareholders of \$53,152,000 and \$43,753,000, respectively, or \$0.73 and \$0.69 per share, respectively, of common stock.

In July 2008, NNN declared a dividend of \$0.375 per share which is payable in August 2008 to its common stockholders of record as of July 31, 2008.

Dividend Reinvestment and Stock Purchase Plan. In February 2006, NNN filed a shelf registration statement with the Securities and Exchange Commission for its Dividend Reinvestment and Stock Purchase Plan (DRIP) which permits the issuance by NNN of 12,191,394 shares of common stock. The following outlines the common stock issuances pursuant to the DRIP for each of the six months ended June 30 (dollars in thousands):

	2008	2007
Shares of common stock	1,201,259	1,250,923
Net proceeds	\$ 26,493	\$ 29,858

Note 13 Income Taxes:

NNN elected to be taxed as a REIT under the Internal Revenue Code (Code), commencing with its taxable year ended December 31, 1984. To qualify as a REIT, NNN must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income to its stockholders. Also, at least 95% of gross income in any year must be derived from qualifying sources. NNN intends to adhere to these requirements and maintain its REIT status. As a REIT, NNN generally will not be subject to corporate level federal income tax on taxable income that it distributes currently to its stockholders. NNN may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income, if any. The provision for federal income taxes in NNN s consolidated financial statements relates to its TRS operations and any potential taxable built-in gain. NNN did not have significant tax provisions or deferred income tax items during the periods reported hereunder.

In June 2006, the FASB issued SFAS Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). In summary, FIN 48 requires that all tax positions subject to FASB issued Statement No. 109, Accounting for Income Taxes (SFAS 109), be analyzed using a two-step approach. The first step requires an entity to determine if a tax position would more likely than not be sustained upon examination. In the second step, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis that is more likely than not to be realized upon ultimate settlement. FIN 48 is effective for fiscal years beginning after December 15, 2006. The periods that remain open under federal statute are 2004 through 2007. NNN believes that its tax filing positions and deductions are well documented and supported, and that it is more likely than not that its tax positions would be sustained upon an examination. Therefore, NNN has not recorded a reserve pursuant to FIN 48 for uncertain income tax positions nor has it recorded a cumulative effect adjustment relating to the adoption of FIN 48. Further, no interest or penalties have been included since no reserves were recorded, and no significant increases or decreases are expected to occur within the next 12 months. When applicable, such interest and penalties will be recorded in non-operating expenses.

Note 14 Earnings from Discontinued Operations:

Real Estate Investment Portfolio In accordance with FASB issued Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), NNN has classified the revenues and expenses related to (i) all Investment Properties that were sold and leasehold interests which expired, and (ii) all Investment Properties that were held for sale as of June 30, 2008, as discontinued operations. The following is a summary of the earnings from discontinued operations from the Investment Portfolio (dollars in thousands):

NNN reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Events or circumstances that may occur include changes in real estate market conditions, the ability of NNN to re-lease properties that are currently vacant or become vacant, and the ability to sell properties at an attractive return. Generally, NNN makes a provision for impairment loss if estimated future undiscounted operating cash flows plus estimated disposition proceeds are less than the current book value. Impairment losses are measured as the amount by which the current book value of the asset exceeds the estimated fair value of the asset. After such review, NNN recognized a \$167,000 and \$189,000 impairment in discontinued operations during the six months ended June 30, 2008 and 2007, respectively, of which \$153,000 and \$95,000 was recognized during the quarters ended June 30, 2008 and 2007, respectively.

Edgar Filing: NATIONAL RETAIL PROPERTIES, INC. - Form 10-Q

Real Estate Inventory Portfolio NNN has classified as discontinued operations the revenues and expenses related to (i) Inventory Properties which generated rental revenues prior to disposition, and (ii) Inventory Properties which generated rental revenues and were held for sale as of June 30, 2008. The following is a summary of the earnings from discontinued operations from the Inventory Portfolio (dollars in thousands):

Note 15 Derivatives:

FASB issued Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. As required by SFAS 133, NNN records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

NNN's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, NNN primarily uses treasury locks and interest rate swaps as part of its cash flow hedging strategy. Treasury locks designated as cash flow hedges lock in the yield or price of a treasury security. Interest rate swaps designated as cash flow hedges involve the receipt of variable rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the

underlying principal amount. To date, such derivatives have been used to hedge the variable cash flows associated with floating rate debt and forecasted interest payments of a forecasted issuance of debt.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings.

NNN discontinues hedge accounting prospectively when it is determined that the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative expires or is sold, terminated, or exercised, the derivative is re-designated as a hedging instrument or management determines that designation of the derivative as a hedging instrument is no longer appropriate.

When hedge accounting is discontinued, NNN continues to carry the derivative at its fair value on the balance sheet, and recognizes any changes in its fair value in earnings or may choose to cash settle the derivative at that time.

In February 2008, NNN terminated its interest rate hedge with a notional amount of \$100,000,000 that was hedging the risk of changes in forecasted interest payments on a forecasted issuance of long-term debt. The fair value of the interest rate hedge when terminated was a liability of \$804,000, which NNN recorded as a loss on interest rate hedge.

Additionally, NNN recorded an immaterial amount of hedge ineffectiveness on the cash flow hedge as other interest expense.

NNN does not use derivatives for trading or speculative purposes or currently have any derivatives that are not designated as hedges. NNN had no derivative financial instruments outstanding at June 30, 2008.

Note 16 Segment Information:

NNN has identified two primary financial segments: (i) Investment Assets and (ii) Inventory Assets. The following tables represent the segment data and reconciliation to NNN's consolidated totals for the quarters ended June 30 (dollars in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in the Annual Report on Form 10-K, as amended, of National Retail Properties, Inc. for the year ended December 31, 2007. The information herein contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934. These statements generally are characterized by the use of terms such as believe, expect and may.

The term NNN or the Company refers to National Retail Properties, Inc. and its major consolidated subsidiaries including taxable real estate investment trust (REIT) subsidiaries, and their majority owned and controlled subsidiaries (collectively the TRS).

Overview

NNN's operations are divided into two primary business segments: (i) investment assets, including real estate assets, mortgages and notes receivable (including structured finance investments on the condensed consolidated balance sheets) and commercial mortgage residual interests (collectively, Investment Assets), and (ii) inventory real estate assets (Inventory Assets). NNN acquires, owns, invests in, manages and develops properties that are leased primarily to retail tenants under long-term net leases (Investment Properties or Investment Portfolio). As of June 30, 2008, NNN owned 959 Investment Properties, with an aggregate gross leasable area of approximately 11,053,000 square feet, located in 44 states. Approximately 98 percent of NNN's Investment Portfolio was leased as of June 30, 2008. In addition to the Investment Properties, as of June 30, 2008, NNN had \$90,114,000 and \$22,314,000 in mortgages and notes receivables (including structured finance investments) and commercial mortgage residuals interests, respectively.

The TRS, directly and indirectly, through investment interests, acquires and/or develops real estate primarily for the purpose of resale (Inventory Properties or Inventory Portfolio). The TRS acquires two types of properties, land for development (Development Properties or Development Portfolio) and improved properties (Exchange Properties or Exchange Portfolio). As of June 30, 2008, the TRS held 46 Inventory Properties, of which 22 were Development Properties (13 completed inventory, two under construction and seven land parcels) and 24 were Exchange Properties.

NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. The key indicators for NNN may include items such as: the composition of NNN's Investment Portfolio (such as tenant, geographic and lines of trade diversification), the occupancy rate of NNN's Investment Portfolio, certain financial performance ratios and profitability measures, and industry trends and performance compared to that of NNN.

NNN continues to maintain its diversification by tenant and line of trade. NNN's highest line of trade concentrations are the convenience store and restaurant sector. These sectors represent a large part of the free-standing retail property marketplace which NNN believes represents an area of attractive investment opportunity. However, any financial hardship within these sectors could have an adverse effect on the financial condition and operating performance of NNN. NNN has some geographic concentration in the south and southeast which NNN believes are generally areas of above-average population growth.

NNN formed a joint venture with an institutional investor in September 2007 in which NNN owns a 15 percent equity interest. The joint venture is focused on acquiring real estate assets leased to convenience store operators.

Revenue from Continuing Operations Analysis

General. During the six months ended June 30, 2008, NNN's revenue increased primarily due to the acquisition of Investment Properties (See Results of Operations Property Analysis Investment Portfolio Property Acquisitions) and base rent increases from existing Investment Properties. NNN anticipates any significant increase in rental income will continue to come primarily from additional Investment Property acquisitions.

The following summarizes NNN's revenues from continuing operations (dollars in thousands):

	Quarter Ended June 30,					Six Months Ended June 30,				
	2008	2007	2008	2007	Percent Increase (Decrease)	2008	2007	2008	2007	Percent Increase (Decrease)

⁽¹⁾ Includes rental income from operating leases, earned income from direct financing leases and percentage rent from continuing operations (Rental Income).

Revenue from Operations by Source of Income. NNN has identified two primary business segments, and thus, sources of revenue: (i) earnings from Investment Assets, and (ii) earnings from Inventory Assets. NNN's revenues from continuing operations come primarily from its Investment Assets. The revenues generated from NNN's Inventory Assets are typically classified as discontinued operations in accordance with FASB issued Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144).

Rental Income. Rental income increased during the quarter and six months ended June 30, 2008 as compared to the same periods in 2007 and is partially attributable to the acquisition of 34 Investment Properties with an aggregate gross leasable area of 208,000 square feet during the quarter ended June 30, 2008, and 61 Investment Properties with an aggregate gross leasable area of 598,000 square feet acquired for the six months ended June 30, 2008. In addition, the increase in Rental Income is also attributable to

the 235 Investment Properties with an aggregate gross leasable area of 2,205,000 square feet which were acquired during the year ended December 31, 2007. The Investment Portfolio occupancy rate remained stable at approximately 98 percent during each of the quarters and six months ended June 30, 2008 and 2007.

Real Estate Expense Reimbursements from Tenants. Real estate expense reimbursements from tenants remained fairly stable as a percentage of total revenue from continuing operations, but increased for the six months ended June 30, 2008 as compared to the same period in 2007. The increase in real estate expense reimbursements from tenants is attributable to expense reimbursements from certain properties acquired during 2007 and 2008.

Interest and Other Income from Real Estate Transactions. The increase in interest and other income from real estate transactions for the quarter and six months ended June 30, 2008 as compared to the same periods in 2007 is primarily a result of an increase in interest income on mortgages and notes receivables including structured finance investments). For the six months ended June 30, 2008 and 2007, the weighted average outstanding principal balance on NNN's mortgages and notes receivable was \$49,915,000 and \$34,164,000, respectively.

Interest Income on Commercial Mortgage Residual Interests. Interest income on commercial mortgage residual interests for the quarter ended June 30, 2008 as compared to the same period in 2007 was fairly stable. An increase in the discount rate from 17.00% to 25.00% during the third quarter of 2007 resulted in increased interest income recognition, which was partially offset by lower outstanding balances.

Analysis of Expenses from Continuing Operations

General. Operating expenses increased for the quarter and six months ended June 30, 2008. The following summarizes NNN's expenses from continuing operations for the quarters ended June 30 (dollars in thousands):

	2008	2007	Percent Increase (Decrease)	Percentage of Total		Percent of Revenues from Continuing Operations

General and Administrative Expenses. General and administrative expenses increased for the quarter and six months ended June 30, 2008 as compared to the same periods in 2007, but decreased both as a percentage of total operating expenses and as a percentage of revenues from continuing operations. The increase in general and administrative expenses for the six months ended June 30, 2008 is primarily attributable to an increase in lost pursuit costs.

Real Estate. Real estate expenses increased for the quarter and six months ended June 30, 2008 as compared to the same periods in 2007 but remained fairly stable as a percentage of revenues from continuing operations. The increase in real estate expenses for the quarter and six months ended June 30, 2008 is primarily attributable to an increase in tenant reimbursable expenses as well as an increase in expenses related to vacant properties.

Depreciation and Amortization. For the quarter and six months ended June 30, 2008, the increase in depreciation and amortization expenses is primarily attributable to the depreciation on (i) the 61 Investment Properties with an aggregate gross leasable area of 598,000 square feet which were acquired during the six months ended June 30, 2008, and (ii) the 235 Investment Properties with an aggregate gross leasable area of 2,205,000 square feet which were acquired during the year ended December 31, 2007.

Impairment Commercial Mortgage Residual Interests Valuation Adjustment. In connection with the independent valuations of the Residuals fair value, during the six months ended June 30, 2008, NNN recorded an other than temporary valuation adjustment of \$758,000 as a reduction of earnings from operations. NNN did not recognize an other than temporary valuation adjustment for the quarters ended June 30, 2008 and 2007.

Interest Expense. Interest expense increased for the quarter and six months ended June 30, 2008 as compared to the same periods in 2007, but remained fairly stable as a percentage of revenues from continuing operations.

The following represents the primary changes in debt that have impacted interest expense:

- (i) issuance of \$234,035,000 of convertible notes payable in March 2008, with an effective interest rate of 5.125%, due June 2028,
- (ii) payoff of the \$100,000,000 7.125% notes payable in March 2008,
- (iii) payoff of the \$12,000,000 secured note payable with stated interest rate of 10.00% in February 2008,

- (iv) payoff of \$26,041,000 10-year financing lease obligation with interest rate of 5.00% in November 2007,
- (v) payoff of the \$10,500,000 secured note payable with stated interest rate of 10.00% in November 2007,
- (vi) payoff of the \$20,800,000 variable rate term note in October 2007,
- (vii) repayment of mortgage in September 2007, with balance of \$7,305,000 at December 31, 2006 and an interest rate of 7.37%,
- (viii) issuance of \$250,000,000 of notes payable in September 2007, with an effective interest rate of 6.92% due in October 2017,
- (ix) the increase of \$32,259,000 in the weighted average debt outstanding on the revolving credit facility during the six months ended from June 30, 2008 as compared to the same period in 2007, and
- (x) the decrease in weighted average interest rate on the revolving credit facility from 6.23% for the six months ended June 30, 2007 to 3.99% for the six months ended June 30, 2008.

Earnings from Discontinued Operations

In accordance with SFAS 144, NNN classified as discontinued operations the revenues and expenses related to its Investment Properties that were sold and its leasehold interests that expired as well as the revenues and expenses related to any Investment Property that was held for sale at June 30, 2008. NNN also classified as discontinued operations the revenues and expenses of its revenue-generating Inventory Properties that were sold as well as the revenues and expenses related to its revenue-generating Inventory Properties held for sale as of June 30, 2008. NNN records discontinued operations by its identified segments: (i) Investment Assets and (ii) Inventory Assets. The following table summarizes the earnings from discontinued operations for each of the quarters ended June 30 (dollars in thousands):

	# of Sold Properties	2008		# of Sold Properties	2007	
		Gain	Earnings		Gain	Earnings
Investment Assets	7	\$ 2,709	\$ 3,629	9	\$ 22,646	\$ 26,169
Inventory Assets, net of minority interest	7	917	1,454	16	1,714	1,793
	14	\$ 3,626	\$ 5,083	25	\$ 24,360	\$ 27,962

The following table summarizes the earnings from discontinued operations for the six months ended June 30 (dollars in thousands):

	# of Sold Properties	2008		# of Sold Properties	2007	
		Gain	Earnings		Gain	Earnings
Investment Assets	11	\$ 6,586	\$ 9,006	14	\$ 24,409	\$ 30,804
Inventory Assets, net of minority interest	14	6,539	6,402	38	6,050	5,551
	25	\$ 13,125	\$ 15,408	52	\$ 30,459	\$ 36,355

NNN periodically sells Investment Properties and may reinvest the sale proceeds to purchase additional properties. NNN evaluates its ability to pay dividends to stockholders by considering the combined effect of income from continuing and discontinued operations.

Liquidity

General. NNN's demand for funds has been and will continue to be primarily for (i) payment of operating expenses and dividends; (ii) property acquisitions and development, mortgages and notes

receivable (including structured finance investments) and capital expenditures; (iii) payment of principal and interest on its outstanding indebtedness, and (iv) other investments.

Cash provided by operating activities represents cash received primarily from rental income from tenants, proceeds from the disposition of Inventory Properties and interest income less cash used for general and administrative expenses, interest expense and the acquisition of Inventory Properties. NNN's cash flow from operating activities, net of the cash used in and provided by the acquisition and disposition of its Inventory Properties, has been sufficient to pay the distribution in each of the periods presented. NNN uses proceeds from its credit facility to fund the acquisition of its Inventory Properties. The change in cash provided by operations for the six months ended June 30, 2008 and 2007 is primarily the result of changes in revenues and expenses as discussed in Results of Operations.

Changes in cash for investing activities are primarily attributable to the acquisitions and dispositions of Investment Properties.

NNN's financing activities for the six months ended June 30, 2008 include the following significant transactions:

\$100,000,000 repayment of 7.125% notes payable in March 2008,

\$228,576,000 in net proceeds from issuance of 2028 Convertible Notes,

\$53,152,000 in dividends paid to common stockholders,

\$3,392,000 in dividends paid to holders of the depositary shares of NNN's Series C Preferred Stock,

\$26,493,000 in net proceeds from the issuance of 1,201,259 shares of common stock in connection with the Dividend Reinvestment and Stock Purchase Plan ("DRIP"),

\$2,600,000 in net proceeds on NNN's revolving credit facility, and

\$12,000,000 repayment of secured note payable with stated interest rate of 10.0% in February 2008.

Contractual Obligations and Commercial Commitments. As of June 30, 2008, NNN has agreed to fund construction commitments in connection with the development of additional properties as outlined below (dollars in thousands):

	# of Properties	Total Commitment ⁽¹⁾	Amount Funded	Remaining Commitment
Investment Portfolio	19	\$ 67,411	\$ 41,976	\$ 25,435
Inventory Portfolio	2	5,252	3,596	1,656
	21	\$ 72,663	\$ 45,572	\$ 27,091

⁽¹⁾ Including construction and land costs.

As of June 30, 2008, NNN had outstanding letters of credit totaling \$1,717,000 under its revolving credit facility.

Management anticipates satisfying these obligations with a combination of NNN's current capital resources on hand, its revolving credit facility and debt or equity financing.

As of June 30, 2008, NNN did not have any other contractual cash obligations, such as purchase obligations, financing lease obligations or other long-term liabilities other than those reflected in the table. In addition to items reflected in the table, NNN has issued preferred stock with cumulative preferential cash distributions, as described below under *Dividends*.

The lost revenues and increased property expenses resulting from vacant properties could have a material adverse effect on the liquidity and results of operations if NNN is unable to release the Investment Properties at comparable rental rates and in a timely manner. As of June 30, 2008, NNN owned 16 vacant, unleased Investment Properties (including two land parcels) which accounted for approximately two percent of the total gross leasable area of NNN's Investment Portfolio.

In May 2008, one of the Company's tenants, Uni-Mart, Inc., which leases 69 Investment Properties and eight Inventory Properties, filed a petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. In July 2008, Uni-Mart elected to reject the leases of 13 properties owned by the Company with total annual base rent of approximately \$786,000. The Company is in the process of marketing these properties. Uni-Mart is current on its rental obligation for the remaining properties owned by the Company, but there is no assurance that Uni-Mart will continue to pay rent for the remainder of the lease term. The Company does not believe the Chapter 11 filing will have a material adverse effect on its operations and financial position.

Dividends. NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, and related regulations and intends to continue to operate so as to remain qualified as a REIT for federal income tax purposes. NNN generally will not be subject to federal income tax on income that it distributes to its stockholders, provided that it distributes 100 percent of its REIT taxable income and meets certain other requirements for qualifying as a REIT. If NNN fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost. Such an event could materially affect NNN's income and its ability to pay dividends. NNN believes it has been organized as, and its past and present operations qualify NNN as, a REIT.

One of NNN's primary objectives, consistent with its policy of retaining sufficient cash for reserves and working capital purposes and maintaining its status as a REIT, is to distribute a substantial portion of its funds available from operations to its stockholders in the form of dividends. During the six months ended June 30, 2008 and 2007, NNN declared and paid dividends to its common stockholders of \$53,152,000 and \$43,753,000, respectively, or \$0.73 and \$0.69 per share, respectively, of common stock.

In July 2008, NNN declared a dividend of \$0.375 per share which is payable in August 2008 to its common stockholders of record as of July 31, 2008.

NNN declared and paid dividends to its Series C Preferred stockholders of \$3,392,000 or \$0.9218 per share during each six month period ending June 30, 2008 and 2007, respectively. The Series C Preferred Stock has no maturity date and will remain outstanding unless redeemed.

Capital Resources

Generally, cash needs for property acquisitions, mortgages and notes receivable, structured finance investments, debt payments, dividends, capital expenditures, development and other investments have been funded by equity and debt offerings, bank borrowings, the sale of properties and, to a lesser extent, by internally generated funds. Cash needs for other items have been met from operations. Potential future sources of capital include proceeds from the public or private offering of NNN's debt or equity securities, secured or unsecured borrowings from banks or other lenders, proceeds from the sale of properties, as well as undistributed funds from operations.

Debt

The following is a summary of NNN's total outstanding debt (dollars in thousands):

	June 30, 2008	Percentage of Total	December 31, 2007	Percentage of Total
Line of credit payable	\$ 127,200	10.8%	\$ 129,800	12.2%
Mortgages payable	26,896	2.3%	27,480	2.6%
Notes payable - secured	-	-	12,000	1.1%
Notes payable - convertible	406,535	34.5%	172,500	16.3%
Notes payable	618,385	52.4%	718,290	67.8%
Total outstanding debt	\$ 1,179,016	100.0%	\$ 1,060,070	100.0%

Indebtedness. NNN expects to use indebtedness primarily for property acquisitions and development of single-tenant retail properties, either directly or through investment interests and mortgages and notes receivable (including structured finance investments).

Line of Credit Payable. NNN's \$400,000,000 revolving credit facility (the Credit Facility) had a weighted average outstanding balance of \$138,868,000 and a weighted average interest rate of 3.99% during the six months ended June 30, 2008. The interest rate on the Credit Facility is based on a tiered rate structure which is determined by the debt rating of the Company. As a result of an upgrade in its debt rating, NNN's current interest rate on its Credit Facility decreased to 65 basis points above LIBOR.

Note Payable - Secured. In February 2008, NNN repaid the outstanding principal amount on its secured note payable. NNN repaid the outstanding balance of the note payable with restricted cash that was released in December 2007. The note had an outstanding principal balance of \$12,000,000 at December 31, 2007, a stated interest rate of 10.0% and an original maturity date of June 2008.

Notes Payable - Convertible. In February 2008, NNN issued \$220,000,000 of 5.125% convertible senior notes due June 2028 (with a 2013 put option) in a registered, underwritten public offering. In March 2008, NNN issued an additional \$14,035,000 in connection with the exercise of the underwriters' over-allotment option (collectively, the 2028 Convertible Notes). The 2028 Convertible Notes were sold at par with interest payable semi-annually commencing on June 15, 2008 (effective interest rate of 5.125%).

The notes are convertible at the option of the holder on or after June 15, 2027. Prior to June 15, 2027, holders may convert their 2028 Convertible Notes under certain circumstances. The initial conversion rate for each \$1,000 principal amount of the 2028 Convertible Notes is 39.3459 shares of NNN's common stock, which is equivalent to a conversion price of approximately \$25.42 per share of common stock. The initial conversion rate is subject to adjustment in certain circumstances.

The 2028 Convertible Notes are redeemable at the option of NNN, in whole or in part, on or after June 17, 2013 for cash equal to a 100 percent of the principal amount of the 2028 Convertible Notes being redeemed plus accrued interest. In addition, on June 17, 2013, June 15, 2018 and June 15, 2023, holders of the 2028 Convertible Notes may require NNN to repurchase the notes for cash equal to the principal amount of the convertible notes being repurchased plus accrued interest. The 2028 Convertible Notes

rank equally with all of the Company's unsecured indebtedness but will be effectively subordinated to all of NNN's secured indebtedness to the extent of the value of the collateral securing such indebtedness.

NNN received net proceeds of \$228,576,000 in connection with the 2028 Convertible Notes offering and incurred debt issuance costs totaling \$5,459,000 consisting of underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. Debt issuance costs have been deferred and are being amortized over the period to the earliest put option of the holders, June 17, 2013, using the effective interest method.

NNN used the proceeds of the 2028 Convertible Notes to pay down outstanding indebtedness on its Credit Facility.

Notes Payable. In March 2008, NNN repaid the 7.125% \$100,000,000 notes that were due in March 2008, using proceeds from NNN's Credit Facility.

Equity

Dividend Reinvestment and Stock Purchase Plan. In February 2006, NNN filed a shelf registration statement with the Securities and Exchange Commission for the DRIP which permits the issuance by NNN of 12,191,394 shares of common stock. NNN's DRIP provides an economical and convenient way for current stockholders and other interested new investors to invest in NNN's common stock. The following outlines the common stock issuances pursuant to the DRIP for the six months ended June 30 (dollars in thousands):

	2008	2007
Shares of common stock	1,201,259	1,250,923
Net proceeds	\$ 26,493	\$ 29,858

Mortgages and Notes Receivable

Mortgages are loans secured by real estate, real estate securities or other assets.

Mortgages and notes receivable consisted of the following (dollars in thousands):

	June 30, 2008	December 31, 2007
Mortgages and notes receivable	\$ 82,906	\$ 58,556
Structured finance investments	6,677	14,359
Accrued interest receivables	605	578
Unamortized premium	125	165
	90,313	73,658
Less loan origination fees, net	(150)	(100)
Less allowance	(49)	(396)
	\$ 90,114	\$ 73,162

The mortgage and notes receivables bear a weighted average interest rate of 9.67% with maturity dates ranging from July 2008 through October 2028.

The structured finance investments outstanding as of June 30, 2008 bear a weighted average interest rate of 11.38% per annum, of which 10.00% is payable monthly and the remaining 1.38% accrues and is due at maturity. The principal balance of each structured finance investment is due in full at maturity, which ranges from January 2009 to April 2009. The structured finance investments are typically secured by the borrowers' pledge of their respective membership interests in the certain subsidiaries which own the respective real estate.

Commercial Mortgage Residual Interests

In connection with the independent valuations of the commercial mortgage residual interests (the Residuals) fair value, NNN adjusted the carrying value of the Residuals to reflect such fair value at June 30, 2008. The adjustments in the Residuals carrying value were recorded as an aggregate other than temporary valuation impairment of \$758,000 for the six months ended June 30, 2008. NNN did not recognize an other than temporary valuation impairment for the quarters ended June 30, 2008 and 2007. NNN recorded \$1,829,000 and \$1,306,000 of unrealized gains as other comprehensive income for the six months ended June 30, 2008 and 2007.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

NNN is exposed to interest rate risk primarily as a result of its variable rate Credit Facility and its long-term, fixed rate debt which is used to finance its development and acquisition activities, as well as for general corporate purposes. NNN's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, NNN borrows at both fixed and variable rates on its long-term debt. NNN had no outstanding derivatives as of June 30, 2008.

The information in the table below summarizes NNN's market risks associated with its debt obligations outstanding as of June 30, 2008 and December 31, 2007. The table presents principal payments and related interest rates by year for debt obligations outstanding as of June 30, 2008. The variable interest rates shown represent the weighted average rate for the Credit Facility during the periods. As the table incorporates only those exposures that exist as of June 30, 2008, it does not consider those exposures or positions which could arise after this date. Moreover, because firm commitments are not presented in the table below, the information presented therein has limited predictive value. As a result, NNN's ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the period, NNN's hedging strategies at that time and interest rates. Hypothetically, if interest rates on NNN's variable rate debt were increased by one percent, NNN's interest expense would have increased by approximately two percent for the six months ended June 30, 2008.

December 31, 2007 ⁽³⁾	\$ 129,800	6.24%	\$ 27,480	7.04%	\$ 921,507	6.17%

⁽¹⁾ The Credit Facility interest rate varies based upon a tiered rate structure ranging from 55 to 112.5 basis points above LIBOR based upon the debt rating of NNN.

⁽²⁾ Includes NNN's notes payable, net of unamortized note discounts and convertible notes payable.

⁽³⁾ In February 2008, NNN repaid the outstanding principal balance on its secured debt. As of December 31, 2007, the fair value of the secured debt obligations was \$12,000,000 with a 10.00% interest rate.

NNN is also exposed to market risks related to the Residuals. Factors that may impact the market value of the Residuals include delinquencies, loan losses, prepayment speeds and interest rates. The Residuals, which are reported at market value, had a carrying value of \$22,314,000 and \$24,340,000 as of June 30, 2008 and December 31, 2007, respectively. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity. Losses are considered other than temporary and reported as a valuation impairment in earnings from operations if and when there has been a change in the timing or amount of estimated cash flows that leads to a loss in value.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of NNN's management, including NNN's Chief Executive Officer and Chief Financial Officer, of the effectiveness as of June 30, 2008 of the design and operation of NNN's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting. There has been no change in NNN's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, NNN's internal control over financial reporting.

PART II. OTHER INFORMATION
