***Forward Looking Statements***

This Current Report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act and 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements are subject to uncertainties that could cause actual future events and results to differ materially from those expressed in the forward-looking statements. These forward-looking statements are based on estimates, projections, beliefs, and assumptions that the Company believes are reasonable but are not guarantees of future events and results. Actual future events and results of the Company may differ materially from those expressed in these forward-looking statements as a result of a number of important factors. Factors that could cause actual results to differ materially from those contemplated above include, among others: further adverse changes in economic conditions in the markets served by Windstream; the extent, timing and overall effects of competition in the communications business; continued access line loss; the impact of new, emerging or competing technologies; the adoption of intercarrier compensation and/or universal service reforms by the Federal Communications Commission or Congress that results in a significant loss of revenue to Windstream; the risks associated with the integration of acquired businesses or the ability to realize anticipated synergies, cost savings and growth opportunities; the availability and cost of financing in the corporate debt markets; the potential for adverse changes in the ratings given to Windstream's debt securities by nationally accredited ratings organizations; the effects of federal and state legislation, rules and regulations governing the communications industry; material changes in the communications industry generally that could adversely affect vendor relationships with equipment and network suppliers and customer relationships with wholesale customers; unexpected results of litigation; unexpected rulings by state public service commissions in proceedings regarding universal service funds, inter carrier compensation or other matters that could reduce revenues or increase expenses; the effects of work stoppages; the impact of equipment failure, natural disasters or terrorist acts; earnings on pension plan investments significantly below Windstream's expected long term rate of return for plan assets; unexpected adverse results relating to the relocation of Windstream's data center; and those additional factors under the caption Risk Factors in Windstream's Form 10-K for the year ended Dec. 31, 2008, and in subsequent filings with the Securities and Exchange Commission. In addition to these factors, actual future performance, outcomes and results may differ materially because of more general factors including, among others, general industry and market conditions and growth rates, economic conditions, and governmental and public policy changes. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The foregoing review of factors that could cause the Company's actual results to differ materially from those contemplated in the forward-looking statements contained in this Current Report on Form 8-K should be considered in connection with information regarding risks and uncertainties that may affect the Company's future results included in the Company's filings with the SEC at [www.sec.gov](http://www.sec.gov).
