PART I

ITEM 1. BUSINESS

General

Unisys Corporation is a worldwide information technology (IT) company. We provide a portfolio of IT services, software, and technology that solves critical problems for clients. We specialize in helping clients secure their operations, increase the efficiency and utilization of their data centers, enhance support to their end users and constituents, and modernize their enterprise applications. To provide these services and solutions, the company brings together offerings and capabilities in outsourcing services, systems integration and consulting services, infrastructure services, maintenance services, and high-end server technology. Unisys serves commercial organizations and government agencies throughout the world.

We operate in two business segments Services and Technology. Financial information concerning the two segments can be found in Note 15, Segment information , of the Notes to Consolidated Financial Statements appearing in our annual report to stockholders for the year ended December 31, 2009 (the Unisys 2009 Annual Report to Stockholders), and such information is incorporated herein by reference.

Principal Products and Services

Unisys brings together services and technology into solutions that solve critical problems for organizations around the world.

In the Services segment, we provide services to help our clients improve their competitiveness, security and cost efficiency. Our services include outsourcing, systems integration and consulting, infrastructure services and core maintenance.

In outsourcing, we manage customers data centers, computer servers and end-user computing environments as well as specific business processes, such as check processing, mortgage administration, citizen registry and cargo management.

In systems integration and consulting, we consult with clients to assess the security and cost effectiveness of their IT systems and help them design, integrate and modernize their mission-critical applications to achieve their business goals.

In infrastructure services, we provide design, warranty and support services for our customers IT infrastructure, including their networks, desktops, servers, and mobile and wireless systems.

In core maintenance, we provide maintenance of Unisys proprietary systems and products.

In the Technology segment, we design and develop servers and related products to help clients reduce costs and improve the efficiency of their data center environments. As a pioneer in large-scale computing, Unisys offers deep experience and rich technological capabilities in transaction-intensive, mission-critical environments. We provide a range of data center, infrastructure management and cloud computing offerings to help clients virtualize and automate their data-center environments. Product offerings include enterprise-class servers, such as the ClearPath family of servers and the ES7000 family of Intel-based servers, as well as operating system software and middleware.

To drive future growth, Unisys is focusing its resources and investments in four targeted market areas: security; data center transformation, including our server business; end user outsourcing; and applications modernization.

The primary vertical markets Unisys serves worldwide include the public sector (including the U.S. federal government), financial services and other commercial markets including communications and transportation.

We market our products and services primarily through a direct sales force. In certain foreign countries, we market primarily through distributors. Complementing our direct sales force, we make use of a select group of alliance partners to market and complement our services and product portfolio.

Materials

Unisys purchases components and supplies from a number of suppliers around the world. For certain technology products, we rely on a single or limited number of suppliers, although we make every effort to assure that alternative sources are available if the need arises. The failure of our suppliers to deliver components and supplies in sufficient quantities and in a timely manner could adversely affect our business.

Patents, Trademarks and Licenses

Unisys owns over 1,350 active U.S. patents and over 200 active patents granted in 10 non-U.S. jurisdictions. These patents cover systems and methods related to a wide variety of technologies, including, but not limited to computing systems, relational database management, information storage, device/circuit manufacture and design, imaging, data compression and document recognition/handling. We have granted licenses covering both single patents, and particular groups of patents to others. Likewise, we have active licensing agreements granting us rights under patents owned by other entities. However, our business is not materially dependent upon any single patent, patent license, or related group thereof.

Unisys also maintains over 20 U.S. trademark and service mark registrations, and over 1,600 additional trademark and service mark registrations in over 120 non-U.S. jurisdictions. These marks are valuable assets used on or in connection with our products and services, and as such are actively monitored, policed and protected by Unisys and its agents.

Seasonality

Our revenue is affected by such factors as the introduction of new products and services, the length of sales cycles and the seasonality of purchases. Seasonality has generally resulted in higher fourth quarter revenues than in other quarters.

Customers

No single customer accounts for more than 10% of our revenue. Sales of commercial products and services to various agencies of the U.S. government represented approximately 20% of total consolidated revenue in 2009. For more information on the risks associated with contracting with governmental entities, see *Factors that may affect future results* in *Management's Discussion and Analysis of Financial Condition and Results of Operations* in the Unisys 2009 Annual Report to Stockholders which is incorporated herein by reference.

Backlog

In the Services segment, firm order backlog at December 31, 2009 was \$6.5 billion, compared to \$6.1 billion at December 31, 2008. Approximately \$2.6 billion (41%) of 2009 backlog is expected to be filled in 2010. Although we believe that this backlog is firm, we may, for commercial reasons, allow the orders to be cancelled, with or without penalty. In addition, funded government contracts included in this backlog are generally subject to termination, in whole or part, at the convenience of the government or if funding becomes unavailable. In such cases, we are generally entitled to receive payment for work completed plus allowable termination or cancellation costs. Also, as discussed in Note 18,

Subsequent events, of the Notes to Consolidated Financial Statements appearing in the Unisys 2009 Annual Report to Stockholders, we entered into an agreement to sell our health information management (HIM) business in January 2010 and expect this transaction to be completed in the first half of 2010, subject to customary regulatory approvals and closing conditions, including receipt of customer consents. The information reported above includes \$0.4 billion of firm order backlog associated with the HIM business, approximately \$0.1 billion of which is expected to be filled in 2010. The amount of this backlog that we will fill in 2010 depends on when this transaction is completed.

Because of the relatively short cycle between order and shipment in our Technology segment, we believe that backlog information for this segment is not material to the understanding of our business.

Competition

Our business is affected by rapid change in technology in the information services and technology industries and aggressive competition from many domestic and foreign companies. Principal competitors are systems integrators, consulting and other professional services firms, outsourcing providers, infrastructure services providers, computer hardware manufacturers and software providers. We compete primarily on the basis of service, product performance, technological innovation, and price. We believe that our continued focused investment in engineering and research and development, coupled with our sales and marketing capabilities, will have a favorable impact on our competitive position. For more information on the competitive risks we face, see *Factors that may affect future results* in *Management's Discussion and Analysis of Financial Condition and Results of Operations* in the Unisys 2009 Annual Report to Stockholders which is incorporated herein by reference.

Research and Development

Unisys-sponsored research and development costs were \$101.9 million in 2009, \$129.0 million in 2008, and \$179.0 million in 2007.

Environmental Matters

Our capital expenditures, earnings and the competitive position have not been materially affected by compliance with federal, state and local laws regulating the protection of the environment. Capital expenditures for environmental control facilities are not expected to be material in 2010 and 2011.

Employees

At December 31, 2009, we employed approximately 25,600 people worldwide.

We use the title *partner* for certain members of our services business management. In using the term *partner* or *partners*, we do not mean to imply that these individuals are partners in the legal sense or to imply any intention to create a separate legal entity, such as a partnership.

International and Domestic Operations

Financial information by geographic area is set forth in Note 15, *Segment information*, of the Notes to Consolidated Financial Statements appearing in the Unisys 2009 Annual Report to Stockholders, and such information is incorporated herein by reference.

Available Information

Our Internet web site is located at http://www.unisys.com/about__unisys/investors/index.htm. Through our web site, we make available, free of charge, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after this material is electronically filed with or furnished to the SEC. We also make available on the web site our Guidelines on Significant Corporate Governance Issues, the charters of the Audit Committee, Compensation Committee, Finance Committee, and Nominating and Corporate Governance Committee of our board of directors, and our Code of Ethics and Business Conduct. This information is also available in print to stockholders upon request.

Mr. Hurley has been an officer since 2008.

ITEM 1A. RISK FACTORS

Discussion of risk factors is set forth under the heading "Factors that may affect future results" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Unisys 2009 Annual Report to Stockholders and is incorporated herein by reference.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

As of December 31, 2009, we had 18 major facilities in the United States with an aggregate floor space of approximately 3.6 million square feet, located primarily in California, Michigan, Minnesota, New Jersey, Pennsylvania, Texas, Utah and Virginia. We owned two of these facilities, with aggregate floor space of approximately 1.2 million square feet; 16 of these facilities, with approximately 2.4 million square feet of floor space, were leased to us. Approximately 2.8 million square feet of the U.S. facilities were in current operation, approximately 0.1 million square feet were subleased to others, and approximately 0.7 million square feet were declared surplus with disposition efforts in progress or held in reserve. During the first quarter of 2010, we sold a major facility in Michigan with approximately 0.9 million square feet of floor space.

As of December 31, 2009, we had 16 major facilities outside the United States with an aggregate floor space of approximately 1.7 million square feet, located primarily in Australia, Belgium, Brazil, Germany, India, Netherlands and the United Kingdom. We owned two of these facilities, with approximately 0.4 million square feet of floor space; 14 of these facilities, with approximately 1.3 million square feet of floor space, were leased to us. Approximately 1.2 million square feet were in current operation, approximately 0.4 million square feet were subleased to others, and approximately 0.1 million square feet were being held in reserve or were declared surplus with disposition efforts in progress.

Our major facilities include offices, data centers, call centers, manufacturing plants, warehouses, and distribution and sales centers. We believe that our facilities are suitable and adequate for current and presently projected needs. We continuously review our anticipated requirements for facilities and will from time to time acquire additional facilities, expand existing facilities, and dispose of existing facilities or parts thereof, as necessary.

ITEM 3. LEGAL PROCEEDINGS

Information with respect to litigation is set forth in Note 14, "Litigation and contingencies", of the Notes to Consolidated Financial Statements appearing in the Unisys 2009 Annual Report to Stockholders, and such information is incorporated herein by reference.

In addition, in July 2008, Lufthansa Systems Passenger Services GmbH sued Unisys Germany in the District Court of Frankfurt, Germany, in connection with a 2005 agreement under which Unisys Germany was to develop passenger management software for Lufthansa Systems. Lufthansa Systems purported to terminate the agreement for cause in July 2007 claiming that Unisys Germany failed to deliver satisfactory software in a timely manner. The lawsuit sought a monetary recovery of approximately 49 million euros. Unisys Germany filed its defense and a counterclaim in the amount of approximately 8.6 million euros. In August 2009, the district court dismissed all of Lufthansa Systems' claims except a claim for 1.9 million euros for delay of the project and entered judgment against Unisys Germany for this amount, plus interest and a small portion of Lufthansa Systems' attorneys' fees. Having dismissed Lufthansa Systems' claims, the court did not rule on the Unisys Germany counterclaim. During the fourth quarter of 2009, Unisys Germany and Lufthansa Systems settled all claims and counterclaims against each other relating to this matter. The settlement was immaterial to our financial position.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders of Unisys during the fourth quarter of 2009.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Supplementary financial data, consisting of information appearing under the heading Quarterly financial information in the Unisys 2009 Annual Report to Stockholders, is incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES***Evaluation of Disclosure Controls and Procedures***

As of the end of the period covered by this Annual Report, management performed, with the participation of the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), an evaluation of the effectiveness of the company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act). In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based upon that evaluation, the CEO and the CFO concluded that, as of December 31, 2009, the company's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC, and that such information is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Report of Management on Internal Control Over Financial Reporting

The management of the company is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management assessed the effectiveness of the company's internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, we concluded that the company maintained effective internal control over financial reporting as of December 31, 2009, based on the specified criteria.

KPMG LLP, an independent registered public accounting firm, has audited the company's internal control over financial reporting as of December 31, 2009, as stated in its report that appears in the Unisys 2009 Annual Report to Stockholders, and such report is incorporated herein by reference.

Changes in Internal Control over Financial Reporting

There have been no changes in the company's internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Unisys Corporation:

Under date of February 24, 2010, we reported on the consolidated balance sheets of Unisys Corporation and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, stockholders' equity (deficit) and cash flows for the years then ended, as contained in the Annual Report to Stockholders for the year ended December 31, 2009 incorporated in the Form 10-K. In connection with our audits of the aforementioned consolidated financial statements, we also audited for the years ended December 31, 2009 and 2008 the related consolidated financial statement schedule referred to in Item 15(2) in this Form 10-K. This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statement schedule based on our audits.

In our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

As discussed in Note 5 to the consolidated financial statements, as of January 1, 2009, the Company adopted a standard which changed the presentation and disclosure of noncontrolling interests in consolidated financial statements, and retroactively adjusted all periods presented in the consolidated financial statements for the change.
