Item 2.05. Costs Associated with Exit or Disposal Activities.

On March 30, 2010, the management of CommScope, Inc. (the Company) and the board of directors of its subsidiary, Connectivity Solutions Manufacturing, Inc. (CSMI), committed to a plan to discontinue operations at the Company's CSMI facility in Omaha, Nebraska and relocate manufacturing to one or more existing Company facilities in North America. The Company has elected to pursue this restructuring in order to better utilize its existing manufacturing capacity and reduce associated costs. The Company expects annualized pretax savings of approximately \$18 million to \$22 million upon completion of relocation and closure of the facility in late 2011. Approximately one-half of these annualized pretax savings are expected to be realized in 2011, primarily in the second half of the year.

The Company expects to incur total pretax restructuring costs of \$45 million to \$53 million to complete this facility relocation. Of this amount, cash costs are estimated to be \$35 million to \$40 million. The principal estimated costs related to this initiative are:

Employee-related costs of \$35 million to \$40 million;

Impairment charges of \$8 million to \$10 million related to the Omaha facility; and

Equipment relocation costs of \$2 million to \$3 million.

The Company expects to recognize the impairment charges and certain employee-related charges totaling approximately \$20 million in the first quarter of 2010. The remaining charges are expected to be recognized between April 2010 and December 2011. The Company does not anticipate any material increase in capital spending to complete this relocation.

The actual costs and benefits, as well as the timing of implementation of this Omaha initiative, will be dependent on issues encountered during implementation, future business conditions and sales volumes, among other factors.
