The information in this preliminary prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

Subject to Completion. Dated November 4, 2010

MagnaChip Semiconductor Corporation

Depositary Shares

Representing Shares of Common Stock

This is the initial public offering of common stock of MagnaChip Semiconductor Corporation. MagnaChip Semiconductor Corporation is offering _____ shares of common stock. The selling stockholders identified in this prospectus are offering _____ shares of common stock. We will not receive any of the proceeds from the sale of the shares by the selling stockholders.

All of the shares of common stock sold in this offering will be sold in the form of depositary shares. Each depositary share represents an ownership interest in one share of common stock. On _____, 2010 (45 days after the date of this prospectus), each holder of depositary shares will be credited with a number of shares of common stock equal to the number of depositary shares held by such holder on that date, and the depositary shares will be canceled. Until the cancellation of the depositary shares on _____, 2010, holders of depositary shares will be entitled to all proportional rights and preferences of the shares of common stock.

Prior to this offering, there has been no public market for our depositary shares or our common stock. We currently estimate that the initial public offering price per depositary share will be between \$ _____ and \$ _____. The depositary shares and the common stock have been approved for listing on the New York Stock Exchange under the symbol **MX** with the listing being only for the depositary shares upon the completion of this offering and only for the common stock following the cancellation of the depositary shares.

See Risk Factors beginning on page 17 to read about factors you should consider before buying the depositary shares and shares of the common stock.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

	Per depositary share	Total
Initial public offering price	\$	\$
Underwriting discounts and commissions	\$	\$
Proceeds, before expenses to MagnaChip Semiconductor Corporation	\$	\$
Proceeds, before expenses to Selling Stockholders	\$	\$

To the extent that the underwriters sell more than _____ depositary shares, the underwriters have the option to purchase up to an additional _____ depositary shares from us and up to an additional _____ depositary shares from the selling stockholders at the initial public offering price less the underwriting discount.

The underwriters expect to deliver the depositary shares against payment in New York, New York on _____, 2010.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary does not contain all of the information that you should consider before deciding to invest in our common stock. You should read this entire prospectus carefully, including the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections contained in this prospectus and our consolidated financial statements before making an investment decision. In this prospectus, unless the context otherwise requires, the terms we, us, our and MagnaChip refer to MagnaChip Semiconductor LLC and its consolidated subsidiaries for the periods prior to the consummation of the corporate conversion (as described below), and such terms refer to MagnaChip Semiconductor Corporation and its consolidated subsidiaries for the periods after the consummation of the corporate conversion. The term Korea refers to the Republic of Korea or South Korea. All references to shares of common stock being sold in this offering include shares held in the form of depositary shares, as described under Description of Depositary Shares.

Prior to the effectiveness of the registration statement of which this prospectus is a part, we will complete a number of transactions pursuant to which MagnaChip Semiconductor Corporation will succeed to the business of MagnaChip Semiconductor LLC and its consolidated subsidiaries and the members of MagnaChip Semiconductor LLC will become stockholders of MagnaChip Semiconductor Corporation. In this prospectus, we refer to such transactions as the corporate conversion.

Overview

MagnaChip is a Korea-based designer and manufacturer of analog and mixed-signal semiconductor products for high-volume consumer applications. We believe we have one of the broadest and deepest analog and mixed-signal semiconductor technology platforms in the industry, supported by our 30-year operating history, large portfolio of approximately 2,675 novel registered patents and 875 pending novel patent applications, and extensive engineering and manufacturing process expertise. Our business is comprised of three key segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. Our Display Solutions products include display drivers that cover a wide range of flat panel displays and mobile multimedia devices. Our Power Solutions products include discrete and integrated circuit solutions for power management in high-volume consumer applications. Our Semiconductor Manufacturing Services segment provides specialty analog and mixed-signal foundry services for fabless semiconductor companies that serve the consumer, computing and wireless end markets.

Our wide variety of analog and mixed-signal semiconductor products and manufacturing services combined with our deep technology platform allows us to address multiple high-growth end markets and to rapidly develop and introduce new products and services in response to market demands. Our substantial manufacturing operations in Korea and design centers in Korea and Japan place us at the core of the global consumer electronics supply chain. We believe this enables us to quickly and efficiently respond to our customers' needs and allows us to better service and capture additional demand from existing and new customers.

We have a long history of supplying and collaborating on product and technology development with leading innovators in the consumer electronics market. As a result, we have been able to strengthen our technology platform and develop products and services that are in high demand by our customers and end consumers. We sold over 2,200 and 2,300 distinct products to over 420 and 185 customers for the nine months ended September 30, 2010 and combined twelve-month period ended December 31, 2009, respectively, with a substantial portion of our revenues derived from a concentrated number of customers. The increase in number of customers is due to the continuing

Table of Contents

growth of our Power Solutions business. Our largest semiconductor manufacturing services customers include some of the fastest growing and leading semiconductor companies that design analog and mixed-signal products for the consumer, computing and wireless end markets.

Our business is largely driven by innovation in the consumer electronics markets and the growing adoption by consumers worldwide of electronic devices for use in their daily lives. The consumer electronics market is large and growing rapidly, largely due to consumers increasingly accessing a wide variety of available rich media content, such as high definition audio and video, mobile television and games on advanced consumer electronic devices. According to Gartner, production of liquid crystal display, or LCD televisions, smartphones, mobile personal computers, or PCs, and mini-notebooks is expected to grow from 2009 to 2013 by a compound annual growth rate of 12%, 36%, 24%, and 20%, respectively. Electronics manufacturers are continuously implementing advanced technologies in new generations of electronic devices using analog and mixed-signal semiconductor components, such as display drivers that enable display of high resolution images, encoding and decoding devices that allow playback of high definition audio and video, and power management semiconductors that increase power efficiency, thereby reducing heat dissipation and extending battery life. According to iSuppli Corporation, in 2009, the display driver semiconductor market was \$6.0 billion and the power management semiconductor market was \$21.9 billion.

For the nine months ended September 30, 2010, on a pro forma basis, we generated net sales of \$583.6 million, income from continuing operations of \$57.8 million, Adjusted EBITDA of \$118.2 million and Adjusted Net Income of \$67.0 million. For 2009 on a combined pro forma basis, we generated net sales of \$560.1 million, income from continuing operations of \$46.6 million, Adjusted EBITDA of \$98.7 million and Adjusted Net Income of \$33.7 million. On June 12, 2009, we filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code and our plan of reorganization became effective on November 9, 2009. For 2008, we generated net sales of \$601.7 million, losses from continuing operations of \$325.8 million, Adjusted EBITDA of \$59.8 million and Adjusted Net Loss of \$71.7 million. See Unaudited Pro Forma Consolidated Financial Information beginning on page 49 for an explanation regarding our pro forma presentation and Prospectus Summary Summary Historical and Unaudited Pro Forma Consolidated Financial Data, beginning on page 9 for an explanation of our use of Adjusted EBITDA and Adjusted Net Income.

Our Products and Services

Our Display Solutions products include source and gate drivers and timing controllers that cover a wide range of flat panel displays used in LCD televisions and light emitting diode, or LED, televisions and displays, mobile PCs and mobile communications and entertainment devices. Our display solutions support the industry's most advanced display technologies, such as low temperature polysilicon, or LTPS, and active matrix organic light emitting diode, or AMOLED, as well as high-volume display technologies such as thin film transistor, or TFT. Our Display Solutions business represented 50.5%, 50.5% and 46.7% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis), 2008 and 2007, respectively, and 40.3% and 52.6% of our net sales for the nine months ended September 30, 2010 and September 27, 2009, respectively.

We expanded our business and market opportunity by establishing our Power Solutions business in late 2007. We have introduced a number of products for power management applications, including metal oxide semiconductor field effect transistors, or MOSFETs, analog switches, LED drivers, DC-DC converters and linear regulators for a range of devices, including LCD and LED digital televisions, mobile phones, computers and other consumer electronics products. Our Power Solutions business

Table of Contents

represented 2.2% and 0.9% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis) and 2008, respectively, and 6.7% and 1.6% of our net sales for the nine months ended September 30, 2010 and September 27, 2009, respectively.

We offer semiconductor manufacturing services to fabless analog and mixed-signal semiconductor companies that require differentiated, specialty analog and mixed-signal process technologies. We believe the majority of our top twenty semiconductor manufacturing services customers use us as their primary manufacturing source for the products that we manufacture for them. Our process technologies are optimized for analog and mixed-signal devices and include standard complementary metal-oxide semiconductor, or CMOS, high voltage CMOS, ultra-low leakage high voltage CMOS and bipolar complementary double-diffused metal oxide semiconductor, or BCDMOS. Our semiconductor manufacturing services customers use us to manufacture a wide range of products, including display drivers, LED drivers, audio encoding and decoding devices, microcontrollers, electronic tags and power management semiconductors. Our Semiconductor Manufacturing Services business represented 46.7%, 47.7% and 45.2% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis), 2008 and 2007, respectively, and 52.8% and 45.1% of our net sales for the nine months ended September 30, 2010 and September 27, 2009, respectively.

We manufacture all of our products at our three fabrication facilities located in Korea. We have approximately 200 proprietary process flows we can utilize for our products and offer to our semiconductor manufacturing services customers. Our manufacturing base serves both our display driver and power management businesses and semiconductor manufacturing services customers, allowing us to optimize our asset utilization and leverage our investments across our product and service offerings. Analog and mixed-signal manufacturing facilities and processes are typically distinguished by design and process implementation expertise rather than the use of the most advanced equipment. These processes also tend to migrate more slowly to smaller geometries due to technological barriers and increased costs. For example, some of our products use high-voltage technology that requires larger geometries and that may not migrate to smaller geometries for several years, if at all. As a result, our manufacturing base and strategy does not require substantial investment in leading edge process equipment, allowing us to utilize our facilities and equipment over an extended period of time with moderate required capital investments.

Our Competitive Strengths

We believe our strengths include:

Broad and advanced analog and mixed-signal semiconductor technology and intellectual property platform that allows us to develop new products and meet market demands quickly;

Established relationships and close collaboration with leading global consumer electronics companies, which enhance our visibility into new product opportunities, markets and technology trends;

Longstanding presence of our management, personnel and manufacturing base in Asia and proximity to our largest customers and to the core of the global consumer electronics supply chain, which allows us to respond rapidly and efficiently to our customers' needs;

Flexible, service-oriented culture and approach to customers;

Distinctive analog and mixed-signal process technology and manufacturing expertise; and

Manufacturing facilities with specialty processes and a low-cost operating structure, which allow us to maintain price competitiveness across our product and service offerings.

Table of Contents

Our Strategy

Our objective is to grow our business, our cash flow and profitability and to establish our position as a leading provider of analog and mixed-signal semiconductor products and services for high-volume markets. Our business strategy emphasizes the following key elements:

Leverage our advanced analog and mixed-signal technology platform to continuously innovate and deliver products with high levels of performance and integration, as well as to expand our technology offerings within our target markets, such as our power management products;

Increase business with our global customer base of leading consumer electronics original equipment manufacturers, or OEMs, and fabless companies by collaborating on critical design, product and manufacturing process development and leveraging our deep knowledge of customer needs;

Broaden our customer base by expanding our global design centers and local application engineering support and sales presence, particularly in China and other high-growth regions;

Aggressively grow our power management product portfolio business by introducing new products, expanding distribution and cross-selling products to our existing customers;

Drive execution excellence in new product development, manufacturing efficiency and quality, customer service and personnel development; and

Optimize asset utilization and return on capital investments by maintaining our focus on specialty process technologies that do not require substantial investment in leading edge process equipment and by utilizing our manufacturing facilities for both our display driver and power management businesses and manufacturing services customers.

Recent Changes to Our Business

We have executed a significant restructuring over the last 18 months that refocused our business strategy, enhanced our operating efficiency and improved our cash flow and profitability. By closing our Imaging Solutions business, restructuring our balance sheet and refining our business processes and strategy, we believe we have made significant structural improvements to our operating model and have enabled better flexibility to manage our business through fluctuations in the economy and our markets.

Specifically, our business optimization initiatives included:

Closing our Imaging Solutions business, which had been a source of substantial ongoing operating losses amounting to \$91.5 million and \$51.7 million in 2008 and 2007, respectively, and which required substantial ongoing capital investment;

Through our reorganization proceedings, reducing our indebtedness from \$845 million immediately prior to the effectiveness of our plan of reorganization to \$61.8 million as of December 31, 2009 and retiring \$149 million of redeemable convertible preferred units;

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

Streamlining our cost structure to reduce ongoing fixed and variable expenses;

Entering into a hedging program to mitigate the impact of currency fluctuation on our financial results; and

Focusing on major customers, key product lines, growth segments and areas of competitive differentiation.

Table of Contents

On April 9, 2010, we completed the sale of \$250 million in aggregate principal amount of 10.500% senior notes due 2018, which we refer to as our senior notes. Of the \$238.4 million of net proceeds, which represents \$250 million of principal amount net of \$3.3 million of original issue discount and \$8.3 million of debt issuance costs, \$130.7 million was used to make a distribution to our unitholders and \$61.6 million was used to repay all outstanding borrowings under our term loan. The remaining proceeds of \$46.1 million were retained to fund working capital and for general corporate purposes. As a result of our higher level of indebtedness from our senior notes offering, our interest expense will increase above that which was reported for the nine months ended September 30, 2010 to approximately \$20.8 million per nine months period.

Risks Related to Our Company

Investing in our company entails a high degree of risk, including those summarized below and those more fully described in the Risk Factors section beginning on page 17 of this prospectus. You should consider carefully these risks before deciding to invest in our common stock.

We have a history of losses and may not be profitable in the future;

On June 12, 2009, we filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code and our plan of reorganization became effective on November 9, 2009;

In connection with our audit for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009, our auditors identified two control deficiencies which represent a material weakness in our internal control over financial reporting; if we fail to effectively remediate this weakness, the accuracy and timing of our financial reporting may be adversely affected;

The cyclical nature of the semiconductor industry may limit our ability to maintain or increase net sales and profit levels during industry downturns;

If we fail to develop new products and process technologies or enhance our existing products and services in order to react to rapid technological change and market demands, our business will suffer;

A significant portion of our sales comes from a relatively limited number of customers and the loss of any of such customers or a significant decrease in sales to any of such customers would harm our revenue and gross profit;

The average selling prices of our semiconductor products have at times declined rapidly and will likely do so in the future, which could harm our revenue and gross profit; and

Upon completion of this offering, our largest stockholder, consisting of affiliated funds of Avenue Capital Management II, L.P., will control approximately % of our outstanding common stock, assuming no exercise by the underwriters of their option to purchase additional shares.

Corporate Information

Prior to the effectiveness of the registration statement of which this prospectus is a part, MagnaChip Semiconductor LLC will convert from a Delaware limited liability company to a Delaware corporation. We refer to this as the corporate conversion. In connection with the corporate conversion, each common unit of MagnaChip Semiconductor LLC will be converted into 0.125 shares of common stock of MagnaChip Semiconductor Corporation, the members of MagnaChip Semiconductor LLC will become stockholders of MagnaChip Semiconductor Corporation and MagnaChip Semiconductor

Table of Contents

Corporation will succeed to the business of MagnaChip Semiconductor LLC and its consolidated subsidiaries. See [Corporate Conversion](#) for further information regarding the corporate conversion.

Our principal executive offices are located at: c/o MagnaChip Semiconductor S.A., 74, rue de Merl, B.P. 709 L-2146 Luxembourg R.C.S., Luxembourg B-97483, and our telephone number is (352) 45-62-62. Our website address is www.magnachip.com. You should not consider the information contained on our website to be part of this prospectus or in deciding whether to purchase shares of our common stock.

Our business was named MagnaChip Semiconductor when it was acquired from Hynix Semiconductor, Inc., or Hynix, in October 2004. We refer to this acquisition as the Original Acquisition.

On June 12, 2009, MagnaChip Semiconductor LLC, along with certain of its subsidiaries, including MagnaChip Semiconductor S.A., filed a voluntary petition for relief in the United States Bankruptcy Court for the District of Delaware under Chapter 11 of the United States Bankruptcy Code, which we refer to as the reorganization proceedings. On November 9, 2009, our plan of reorganization became effective and we emerged from the reorganization proceedings with our management team remaining in place. Our Chapter 11 plan of reorganization implemented a comprehensive financial reorganization that significantly reduced our outstanding indebtedness. Additionally, on that date, a new board of directors of MagnaChip Semiconductor LLC was appointed, MagnaChip Semiconductor LLC's previously outstanding common and preferred units, and options were cancelled, MagnaChip Semiconductor LLC issued approximately 300 million common units (approximately 37.5 million shares of common stock following the corporate conversion) and warrants to purchase 15 million common units (approximately 1.9 million shares of common stock following the corporate conversion) to two classes of creditors and affiliated funds of Avenue Capital Management II, L.P. became the majority unitholder of MagnaChip Semiconductor LLC.

Avenue Capital Management II, L.P. is a global investment management firm, and it and its affiliated funds specialize in investing in high yield debt, debt of insolvent or financially distressed companies and equity of companies undergoing financial or operational turnarounds or reorganizations. In this prospectus, we refer to funds affiliated with Avenue Capital Management II, L.P. collectively as Avenue. Avenue generally does not manage or operate the companies in which it invests; however, in connection with some of its equity investments, Avenue will appoint one or more representatives to serve on the board of directors. Avenue was a holder of a significant portion of our indebtedness which was outstanding prior to our reorganization proceedings. In connection with our emergence from our reorganization proceedings, Avenue became our majority unitholder as a result of its participation in our rights offering and continued as a lender under our new term loan. In connection with our April 2010 senior notes offering, Avenue purchased notes in the aggregate principal amount of \$35.0 million, was repaid \$42.8 million in connection with the repayment of our new term loan and received \$91.2 million in connection with our distribution to unitholders. Avenue has the right to appoint a majority of our board pursuant to our Fifth Amended and Restated Limited Liability Company Operating Agreement which will terminate upon the completion of the corporate conversion. Following the offering Avenue will continue to be able to elect a majority of our board as long as Avenue continues to hold or control a majority of our outstanding shares. See [Certain Relationships and Related Transactions](#) for additional information.

Use of proceeds	We intend to use the net proceeds received by us in connection with this offering, including any net proceeds received by us in connection with the underwriters option to purchase additional shares, to make employee incentive payments, to fund working capital and for general corporate purposes. We will not receive any proceeds from the sale of shares of common stock offered by the selling stockholders, including upon the sale of shares if the underwriters exercise their option to purchase additional shares from the selling stockholder in this offering.
Risk factors	See Risk Factors beginning on page 17 and the other information included in this prospectus for a discussion of the factors you should consider carefully before deciding to invest in shares of our common stock.
Dividend policy	We do not anticipate paying any cash dividends on our common stock after this offering.
Depositary shares	All of the shares of common stock sold in this offering will be sold in the form of depositary shares. Each depositary share represents an ownership interest in one share of common stock. On _____, 2010 (45 days after the date of this prospectus), each holder of depositary shares will be credited with a number of shares of common stock equal to the number of depositary shares held by such holder on that date, and the depositary shares will be canceled. Until the cancellation of the depositary shares on _____, 2010, holders of depositary shares will be entitled to all proportional rights and preferences
(1)	We have provided the underwriters an option to purchase up to _____ additional depositary shares and the selling stockholders have provided the underwriters an option to purchase up to _____ additional depositary shares. If the underwriters exercise their option to

purchase additional shares, we will not receive any of the proceeds from the additional sale of depositary shares by the selling stockholders.

Table of Contents

of the shares of common stock. This offering has been structured using depositary shares to enable our unitholders to obtain the preferred income tax treatment for the corporate conversion. For more information regarding the depositary shares, see Description of Depositary Shares.

Depositary American Stock Transfer & Trust Company, LLC

Proposed New York Stock Exchange symbol MX with the listing being only for the depositary shares upon the completion of this offering and only for the common stock following the cancellation of the depositary shares.

The number of shares of our common stock outstanding after this offering is based on common units of MagnaChip Semiconductor LLC outstanding as of the date of this prospectus and:

reflects the consummation of the corporate conversion, pursuant to which all of the outstanding common units of MagnaChip Semiconductor LLC will be automatically converted into shares of our common stock at a ratio of eight-for-one and all of the outstanding options and warrants to purchase common units of MagnaChip Semiconductor LLC will be automatically converted into options and warrants to purchase shares of our common stock;

excludes 1,875,016 shares of our common stock reserved for issuance upon exercise of warrants outstanding as of September 30, 2010 at a weighted average exercise price of \$15.76 per share, assuming the conversion of all such warrants into warrants to purchase shares of our common stock at a ratio of eight-for-one;

excludes 1,971,875 shares of our common stock reserved for issuance upon exercise of options outstanding as of September 30, 2010 at a weighted average exercise price of \$6.32 per share, assuming the conversion of all such options into options to purchase shares of our common stock at a ratio of eight-for-one; and

excludes shares of our common stock reserved for issuance following the offering pursuant to future grants under our 2010 Equity Incentive Plan and 2010 Employee Stock Purchase Plan, which does not include the additional shares which may become available for issuance pursuant to the automatic share reserve increase provisions of such plans described below.

The number of shares authorized for future issuance under our 2010 Equity Incentive Plan and our 2010 Employee Stock Purchase Plan reflected above does not include additional shares that may become available for future issuance pursuant to the automatic share reserve increase provisions of these plans. On January 1 of each year from 2011 through 2020, up to 2% and 1%, respectively, of the shares of our common stock issued and outstanding on the immediately preceding December 31 or, in each case, a lesser amount determined by our board of directors, will be added automatically to the number of shares remaining available for future grants under the 2010 Equity Incentive Plan and the 2010 Employee Stock Purchase Plan.

Unless specifically stated otherwise, the information in this prospectus:

assumes completion of the corporate conversion;

assumes no exercise of the underwriters' option to purchase up to additional depositary shares from us and up to additional depositary shares from our selling stockholders; and

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

assumes an initial public offering price of \$ per depositary share, which is the midpoint of the range set forth on the front cover of this prospectus.

Table of Contents

Summary Historical and Unaudited Pro Forma Consolidated Financial Data

The following tables set forth summary historical and unaudited pro forma consolidated financial data of MagnaChip Semiconductor LLC (to be converted into MagnaChip Semiconductor Corporation prior to consummation of this offering) on or as of the dates and for the periods indicated. The summary historical and unaudited pro forma consolidated financial data presented below should be read together with Selected Historical Consolidated Financial and Operating Data, Unaudited Pro Forma Consolidated Financial Information, Management's Discussion and Analysis of Financial Condition and Results of Operations and our audited and unaudited consolidated financial statements, including the notes to those consolidated financial statements, appearing elsewhere in this prospectus.

We have derived the summary historical consolidated financial data as of December 31, 2009 and 2008, and for the two-month period ended December 31, 2009, the ten-month period ended October 25, 2009 and the years ended December 31, 2008 and 2007 from the historical audited consolidated financial statements of MagnaChip Semiconductor LLC prepared in accordance with generally accepted accounting principles in the United States, or GAAP, included elsewhere in this prospectus. We have derived the summary historical consolidated financial data as of December 31, 2007 from the historical audited financial statements of MagnaChip Semiconductor LLC not included in this prospectus. We derived the unaudited consolidated statement of operations data for the nine months ended September 30, 2010 and September 27, 2009, as well as unaudited consolidated balance sheet data as of September 30, 2010, from our unaudited interim consolidated financial statements included elsewhere in this prospectus. We derived the unaudited consolidated balance sheet data as of September 27, 2009 from our unaudited interim consolidated financial statements not included in this prospectus. The summary historical financial data for the nine months ended September 30, 2010 and the two-month period ended December 31, 2009 give retroactive effect to the corporate conversion. The historical results of MagnaChip Semiconductor LLC for any prior period are not necessarily indicative of the results to be expected in any future period, and financial results for any interim period are not necessarily indicative of results for a full year.

In connection with our emergence from reorganization proceedings, we implemented fresh-start reporting, or fresh-start accounting, in accordance with applicable Accounting Standards Codification, or ASC 852 governing reorganizations. We elected to adopt a convenience date of October 25, 2009 (a month end for our financial reporting purposes) for application of fresh-start accounting. In accordance with the ASC 852 rules governing reorganizations, we recorded largely non-cash reorganization income and expense items directly associated with our reorganization proceedings including professional fees, the revaluation of assets, the effects of our reorganization plan and fresh-start accounting and write-off of debt issuance costs. As a result of the application of fresh-start accounting, our financial statements prior to and including October 25, 2009 represent the operations of our pre-reorganization predecessor company and are presented separately from the financial statements of our post-reorganization successor company. As a result of the application of fresh-start accounting, the financial statements prior to and including October 25, 2009 are not fully comparable with the financial statements for periods on or after October 26, 2009.

We have prepared the summarized unaudited pro forma financial data as of and for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009 to give pro forma effect to the reorganization proceedings and related events, the corporate conversion and the issuance of \$250 million senior notes and the application of the net proceeds therefrom, in each case as if they had occurred at January 1, 2009 with respect to consolidated statement of operations data. The summary unaudited pro forma financial data set forth below are presented for informational purposes only, should not be considered indicative of actual results of operations that would have been achieved had the reorganization proceedings and related events, the corporate conversion and the issuance of

Table of Contents

\$250 million senior notes and the application of the net proceeds therefrom been consummated on the dates indicated, and do not purport to be indicative of our results of operations for any future period.

Table of Contents

- * Derived from our unaudited interim consolidated financial statements.
- ** Derived from our audited consolidated financial statements.
- (1) Gives effect to the reorganization proceedings and related events, the corporate conversion and the issuance of \$250 million senior notes and the application of the net proceeds therefrom. For details regarding these pro forma adjustments, see the notes to the unaudited pro forma condensed consolidated financial information in Unaudited Pro Forma Consolidated Financial Information.
- (2) Total indebtedness is calculated as long and short-term borrowings, including the current portion of long-term borrowings and interest-bearing liabilities subject to compromise.
- (3) Long-term obligations include long-term borrowings, capital leases and redeemable convertible preferred units, including interest-bearing liabilities subject to compromise.
- (4) We define Adjusted EBITDA as net income (loss) less income (loss) from discontinued operations, net of taxes, adjusted to exclude (i) depreciation and amortization associated with continuing operations, (ii) interest expense, net, (iii) income tax expense, (iv) restructuring and impairment charges, (v) other restructuring charges, (vi) abandoned IPO expenses, (vii) subcontractor claim settlement, (viii) the increase in cost of sales resulting from the fresh-start accounting inventory step-up, (ix) equity-based compensation expense, (x) reorganization items, net, (xi) foreign currency gain (loss), net and (xii) derivative valuation gain (loss), net. See the footnotes to the table below for further information regarding these items. In the case of pro forma Adjusted EBITDA, we exclude the items above from income (loss) from continuing operations. We present Adjusted EBITDA as a supplemental measure of our performance because:

Adjusted EBITDA eliminates the impact of a number of items that may be either one time or recurring that we do not consider to be indicative of our core ongoing operating performance;

we believe that Adjusted EBITDA is an enterprise level performance measure commonly reported and widely used by analysts and investors in our industry;

we anticipate that our investor and analyst presentations after we are public will include Adjusted EBITDA; and

we believe that Adjusted EBITDA provides investors with a more consistent measurement of period to period performance of our core operations, as well as a comparison of our operating performance to that of other companies in our industry.

We use Adjusted EBITDA in a number of ways, including:

for planning purposes, including the preparation of our annual operating budget;

to evaluate the effectiveness of our enterprise level business strategies;

in communications with our board of directors concerning our consolidated financial performance; and

in certain of our compensation plans as a performance measure for determining incentive compensation payments.

We encourage you to evaluate each adjustment and the reasons we consider them appropriate. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses similar to the adjustments in this presentation. Adjusted EBITDA is not a measure defined in accordance with GAAP and should not be construed as an alternative to income from continuing operations, cash flows from operating activities or net income (loss), as determined in accordance with GAAP. A reconciliation of net income (loss) to Adjusted EBITDA is as follows:

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, (ii) for the nine months ended September 27, 2009, the closure of our research and development facilities in Japan, (iii) for 2009, termination benefits and other related costs, for the ten-month period ended October 25, 2009 in connection with the closure of one of our research and development facilities in Japan, (iv) for 2008, goodwill impairment triggered by the significant adverse change in the revenue of our mobile display solutions, or MDS reporting unit, and a reversal of a portion of the restructuring accrual related to the closure of our Gumi five-inch wafer fabrication facilities in 2007, and (v) for 2007, the closure of our Gumi five-inch wafer fabrication facilities. We do not believe these restructuring and impairment charges are indicative of our core ongoing operating performance because we do not anticipate similar facility closures and market driven events in our ongoing operations, although we cannot guarantee that similar events will not occur in the future.
- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are comprised of the following: (i) for the nine months ended September 27, 2009, a charge of \$12.2 million for restructuring-related professional fees and related expenses, (ii) for 2009, a charge of \$13.3 million for restructuring-related professional fees and related expenses and (iii) for 2008, a charge of \$6.2 million for restructuring-related professional fees and related expenses. We do not believe these other restructuring charges are indicative of our core ongoing operating performance because these charges were related, in significant part, to actions we took in response to the impacts on our business resulting from the global economic recession that persisted through 2008 and 2009. We cannot guarantee that similar charges will not be incurred in the future.
- (c) This adjustment eliminates a \$3.7 million charge in 2008 related to expenses incurred in connection with our abandoned initial public offering in 2008. We do not believe that these charges are indicative of our core operating performance. We expect to incur similar costs in connection with this offering.
- (d) This adjustment eliminates a \$1.3 million charge attributable to a one-time settlement of claims with a subcontractor. We no longer obtain services from this subcontractor and do not expect to incur similar charges in the future.
- (e) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others, professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. Included in reorganization items, net for the period from January 1 to October 25, 2009 was our predecessor's gain recognized from the effects of our reorganization proceedings. The gain results from the difference between our predecessor's carrying value of remaining pre-petition liabilities subject to compromise and the amounts to be distributed pursuant to the reorganization proceedings. The gain from the effects of the reorganization proceedings and the application of fresh-start accounting principles is comprised of the discharge of liabilities subject to compromise, net of the issuance of new common units and new warrants and the accrual of amounts to be settled in cash. For details regarding this adjustment, see note 5 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus. We do not believe these items are indicative of our core ongoing operating performance because they were incurred as a result of our Chapter 11 reorganization.
- (f) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (g) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

effects of these non-cash expenses, as supplemental information.

- (h) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables. Although we expect to incur foreign currency translation gains or losses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these primarily non-cash gains or losses, as supplemental information.

Table of Contents

- (i) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

Adjusted EBITDA does not consider the potentially dilutive impact of issuing equity-based compensation to our management team and employees;

Adjusted EBITDA does not reflect the costs of holding certain assets and liabilities in foreign currencies; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally.

- (5) We present Adjusted Net Income as a further supplemental measure of our performance. We prepare Adjusted Net Income by adjusting net income (loss) to eliminate the impact of a number of non-cash expenses and other items that may be either one time or recurring that we do not consider to be indicative of our core ongoing operating performance. We believe that Adjusted Net Income is particularly useful because it reflects the impact of our asset base and capital structure on our operating performance.

We present Adjusted Net Income for a number of reasons, including:

we use Adjusted Net Income in communications with our board of directors concerning our consolidated financial performance;

we believe that Adjusted Net Income is an enterprise level performance measure commonly reported and widely used by analysts and investors in our industry; and

we anticipate that our investor and analyst presentations after we are public will include Adjusted Net Income.

Adjusted Net Income is not a measure defined in accordance with GAAP and should not be construed as an alternative to income from continuing operations, cash flows from operating activities or net income (loss), as determined in accordance with GAAP. We encourage you to evaluate each adjustment and the reasons we consider them appropriate. Other companies in our industry may calculate Adjusted Net Income differently than we do, limiting its usefulness as a comparative measure. In addition, in evaluating Adjusted Net Income, you should be aware that in the future we may incur expenses similar to the adjustments in this presentation. We define Adjusted Net Income as net income (loss) less income (loss) from discontinued operations, net of taxes, excluding (i) restructuring and impairment charges, (ii) other restructuring charges, (iii) abandoned IPO expenses, (vi) subcontractor claim settlement, (v) reorganization items, net, (vi) the increase in cost of sales resulting from the fresh-start accounting inventory step-up, (vii) equity based compensation expense, (viii) amortization of intangibles associated with continuing operations, (ix) foreign currency gain (loss), net and (x) derivative valuation gain (loss), net.

Table of Contents

The following table summarizes the adjustments to net income (loss) that we make in order to calculate Adjusted Net Income for the periods indicated:

	Pro Forma		Successor		Historical		Predecessor	
	Nine Months Ended September 30, 2010	Year Ended December 31, 2009	Nine Months Ended September 30, 2010	Two-Month Period Ended December 31, 2009	Ten-Month Period Ended October 25, 2009	Nine Months Ended September 27, 2009	Years Ended December 31, 2008 2007

Table of Contents

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, (ii) for the nine months ended September 27, 2009, the closure of our research and development facilities in Japan, (iii) for 2009, termination benefits and other related costs, for the ten-month period ended October 25, 2009 in connection with the closure of one of our research and development facilities in Japan, (iv) for 2008, goodwill impairment triggered by the significant adverse change in the revenue of our MDS reporting unit and a reversal of a portion of the restructuring accrual related to the closure of our Gumi five-inch wafer fabrication facilities in 2007, and (v) for 2007, the closure of our Gumi five-inch wafer fabrication facilities. We do not believe these restructuring and impairment charges are indicative of our core ongoing operating performance because we do not anticipate similar facility closures and market driven events in our ongoing operations, although we cannot guarantee that similar events will not occur in the future.
- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are comprised of the following: (i) for the nine months ended September 27, 2009, a charge of \$12.2 million for restructuring-related professional fees and related expenses, (ii) for 2009, a charge of \$13.3 million for restructuring-related professional fees and related expenses, and (iii) for 2008, a charge of \$6.2 million for restructuring-related professional fees and related expenses. We do not believe these other restructuring charges are indicative of our core ongoing operating performance because these charges were related, in significant part, to actions we took in response to the impacts on our business resulting from the global economic recession that persisted through 2008 and 2009. We cannot guarantee that similar charges will not be incurred in the future.
- (c) This adjustment eliminates a \$3.7 million charge in 2008 related to expenses incurred in connection with our abandoned initial public offering in 2008. We do not believe that these charges are indicative of our core operating performance. We expect to incur similar costs in connection with this offering.
- (d) This adjustment eliminates a \$1.3 million charge attributable to a one-time settlement of claims with a subcontractor. We no longer obtain services from this subcontractor and do not expect to incur similar charges in the future.
- (e) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others, professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. Included in reorganization items, net for the ten-month period ended October 25, 2009 was our predecessor's gain recognized from the effects of our reorganization proceedings. The gain results from the difference between our predecessor's carrying value of remaining pre-petition liabilities subject to compromise and the amounts to be distributed pursuant to the reorganization proceedings. The gain from the effects of the reorganization proceedings and the application of fresh-start accounting principles is comprised of the discharge of liabilities subject to compromise, net of the issuance of new common units and new warrants and the accrual of amounts to be settled in cash. For details regarding this adjustment, see note 5 to the

Table of Contents

consolidated financial statements of MagnaChip Semiconductor LLC for the ten months ended October 25, 2009 and the two months ended December 31, 2009 included elsewhere in this prospectus. We do not believe these items are indicative of our core ongoing operating performance because they were incurred as a result of our reorganization proceedings.

- (f) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (g) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these non-cash expenses, as supplemental information.
- (h) This adjustment eliminates the non-cash impact of amortization expense for intangible assets created as a result of the purchase accounting treatment of the Original Acquisition and other subsequent acquisitions, and from the application of fresh-start accounting in connection with the reorganization proceedings. We do not believe these non-cash amortization expenses for intangibles are indicative of our core ongoing operating performance because the assets would not have been capitalized on our balance sheet but for the application of purchase accounting or fresh-start accounting, as applicable.
- (i) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables. Although we expect to incur foreign currency translation gains or losses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these primarily non-cash gains or losses, as supplemental information.
- (j) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

Adjusted Net Income has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted Net Income does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted Net Income does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted Net Income does not consider the potentially dilutive impact of issuing equity-based compensation to our management team and employees;

Adjusted Net Income does not reflect the costs of holding certain assets and liabilities in foreign currencies; and

other companies in our industry may calculate Adjusted Net Income differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted Net Income should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted Net Income only supplementally.

Table of Contents

RISK FACTORS

You should carefully consider the risk factors set forth below as well as the other information contained in this prospectus before investing in our common stock. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. As a result, the price of our common stock could decline and you could lose all or part of your investment in our common stock. Additional risks and uncertainties not currently known to us or those currently viewed by us to be immaterial may also materially and adversely affect our business, financial condition or results of operations.

Risks Related to Our Business

We have a history of losses and may not achieve or sustain profitability in the future.

Since we began operations as a separate entity in 2004, we have not generated a profit for a full fiscal year and have generated significant net losses. As of October 25, 2009, prior to our emergence from reorganization proceedings, we had an accumulated deficit of \$964.8 million and negative unitholders' equity. We may increase spending and we currently expect to incur higher expenses in each of the next several quarters to support increased research and development and sales and marketing efforts. These expenditures may not result in increased revenue or an increase in the number of customers immediately or at all. Because many of our expenses are fixed in the short term, or are incurred in advance of anticipated sales, we may not be able to decrease our expenses in a timely manner to offset any shortfall of sales.

We recently emerged from Chapter 11 reorganization proceedings; because our consolidated financial statements reflect fresh-start accounting adjustments, our future consolidated financial statements will not be comparable in many respects to our financial information from prior periods.

On June 12, 2009, we filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code in order to obtain relief from our debt, which was \$845 million as of December 31, 2008. Our plan of reorganization became effective on November 9, 2009. In connection with our emergence from the reorganization proceedings, we implemented fresh-start accounting in accordance with ASC 852 effective from October 25, 2009, which had a material effect on our consolidated financial statements. Thus, our future consolidated financial statements will not be comparable in many respects to our consolidated financial statements for periods prior to our adoption of fresh-start accounting and prior to accounting for the effects of the reorganization proceedings. Our past financial difficulties and bankruptcy filing may have harmed, and may continue to have a negative effect on, our relationships with investors, customers and suppliers.

Our independent registered public accounting firm identified two control deficiencies which represent a material weakness in our internal control over financial reporting in connection with our audits for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009. If we fail to effectively remediate this weakness and maintain effective internal control over financial reporting in the future, the accuracy and timing of our financial reporting may be adversely affected.

In connection with the audit of our consolidated financial statements for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009, our independent registered public accounting firm reported two control deficiencies, which represent a material weakness in our internal control over financial reporting. The two control deficiencies which represent a material weakness that our independent registered public accounting firm reported to our board of

Table of Contents

directors (as we then did not have a separate audit committee) are that we do not have a sufficient number of financial personnel with the requisite financial accounting experience and that our internal controls over non-routine transactions are not effective to ensure that accounting considerations are identified and appropriately recorded.

As we prepare for the completion of this offering, we have identified and are taking steps intended to remediate this material weakness. Upon being notified of the material weakness, we retained the services of an international accounting firm to temporarily supplement our internal resources. We also recently recruited a director of financial reporting who has experience in public reporting in the U.S. security markets and overseeing internal control pursuant to Section 404 of the Sarbanes-Oxley Act of 2002. Although we believe we have lowered the possibility of our finance and accounting organization being unable for any reason to respond adequately to the increased demands that result from being a public company, the quality and timeliness of our financial reporting may still suffer, which could result in the identification of additional material weaknesses in our internal controls. Any consequences resulting from inaccuracies or delays in our reported financial statements could have an adverse effect on our business, operating results and financial condition, our ability to run our business effectively and our ability to meet our financial reporting requirements, and could cause investors to lose confidence in our financial reporting. Our management is committed to undertaking any additional remediation initiatives required to prevent inaccuracies or delays in our reported financial statements. See Management's Discussion and Analysis of Financial Condition and Results of Operations Controls and Procedures.

We operate in the highly cyclical semiconductor industry, which is subject to significant downturns that may negatively impact our results of operations.

The semiconductor industry is highly cyclical and is characterized by constant and rapid technological change and price erosion, evolving technical standards, short product life cycles (for semiconductors and for the end-user products in which they are used) and wide fluctuations in product supply and demand. From time to time, these and other factors, together with changes in general economic conditions, cause significant upturns and downturns in the industry in general and in our business in particular. Periods of industry downturns, including the recent economic downturn, have been characterized by diminished demand for end-user products, high inventory levels, underutilization of manufacturing capacity, changes in revenue mix and accelerated erosion of average selling prices. We have experienced these conditions in our business in the past and may experience renewed, and possibly more severe and prolonged, downturns in the future as a result of such cyclical changes. This may reduce our results of operations.

We base our planned operating expenses in part on our expectations of future revenue, and a significant portion of our expenses is relatively fixed in the short term. If revenue for a particular quarter is lower than we expect, we likely will be unable to proportionately reduce our operating expenses for that quarter, which would harm our operating results for that quarter.

If we fail to develop new products and process technologies or enhance our existing products and services in order to react to rapid technological change and market demands, our business will suffer.

Our industry is subject to constant and rapid technological change and product obsolescence as customers and competitors create new and innovative products and technologies. Products or technologies developed by other companies may render our products or technologies obsolete or noncompetitive, and we may not be able to access advanced process technologies, including smaller geometries, or to license or otherwise obtain essential intellectual property required by our customers.

We must develop new products and services and enhance our existing products and services to meet rapidly evolving customer requirements. We design products for customers who continually

Table of Contents

require higher performance and functionality at lower costs. We must, therefore, continue to enhance the performance and functionality of our products. The development process for these advancements is lengthy and requires us to accurately anticipate technological changes and market trends. Developing and enhancing these products is uncertain and can be time-consuming, costly and complex. If we do not continue to develop and maintain process technologies that are in demand by our semiconductor manufacturing services customers, we may be unable to maintain existing customers or attract new customers.

Customer and market requirements can change during the development process. There is a risk that these developments and enhancements will be late, fail to meet customer or market specifications or not be competitive with products or services from our competitors that offer comparable or superior performance and functionality. Any new products, such as our new line of power management solutions, which we began marketing in 2008, or product or service enhancements, may not be accepted in new or existing markets. Our business will suffer if we fail to develop and introduce new products and services or product and service enhancements on a timely and cost-effective basis.

We manufacture our products based on our estimates of customer demand, and if our estimates are incorrect our financial results could be negatively impacted.

We make significant decisions, including determining the levels of business that we will seek and accept, production schedules, component procurement commitments, personnel needs and other resource requirements based on our estimates of customer demand and expected demand for and success of their products. The short-term nature of commitments by many of our customers and the possibility of rapid changes in demand for their products reduces our ability to estimate accurately future customer demand for our products. On occasion, customers may require rapid increases in supply, which can challenge our production resources and reduce margins. We may not have sufficient capacity at any given time to meet our customers' increased demand for our products. Conversely, downturns in the semiconductor industry have caused and may in the future cause our customers to reduce significantly the amount of products they order from us. Because many of our costs and operating expenses are relatively fixed, a reduction in customer demand would decrease our results of operations, including our gross profit.

Our customers may cancel their orders, reduce quantities or delay production, which would adversely affect our margins and results of operations.

We generally do not obtain firm, long-term purchase commitments from our customers. Customers may cancel their orders, reduce quantities or delay production for a number of reasons. Cancellations, reductions or delays by a significant customer or by a group of customers, which we have experienced as a result of periodic downturns in the semiconductor industry or failure to achieve design wins, have affected and may continue to affect our results of operations adversely. These risks are exacerbated because many of our products are customized, which hampers our ability to sell excess inventory to the general market. We may incur charges resulting from the write-off of obsolete inventory. In addition, while we do not obtain long-term purchase commitments, we generally agree to the pricing of a particular product over a set period of time. If we underestimate our costs when determining pricing, our margins and results of operations would be adversely affected.

We depend on high utilization of our manufacturing capacity, a reduction of which could have a material adverse effect on our business, financial condition and the results of our operations.

An important factor in our success is the extent to which we are able to utilize the available capacity in our fabrication facilities. As many of our costs are fixed, a reduction in capacity utilization, as well as changes in other factors, such as reduced yield or unfavorable product mix, could reduce

Table of Contents

our profit margins and adversely affect our operating results. A number of factors and circumstances may reduce utilization rates, including periods of industry overcapacity, low levels of customer orders, operating inefficiencies, mechanical failures and disruption of operations due to expansion or relocation of operations, power interruptions and fire, flood or other natural disasters or calamities. The potential delays and costs resulting from these steps could have a material adverse effect on our business, financial condition and results of operations.

A significant portion of our sales comes from a relatively limited number of customers, the loss of which would adversely affect our financial results.

Historically, we have relied on a limited number of customers for a substantial portion of our total revenue. If we were to lose key customers or if customers cease to place orders for our high-volume products or services, our financial results would be adversely affected. Net sales to our ten largest customers represented 64%, 66%, 69% and 63% of our net sales for the nine months ended September 30, 2010, the two-month period ended December 31, 2009, the ten-month period ended October 25, 2009 and the year ended December 31, 2008, respectively. LG Display represented 17% and 26% of our net sales and a substantial portion of the net sales generated by our top ten customers for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009. Significant reductions in sales to any of these customers, especially our few largest customers, the loss of other major customers or a general curtailment in orders for our high-volume products or services within a short period of time would adversely affect our business.

The average selling prices of our semiconductor products have at times declined rapidly and will likely do so in the future, which could harm our revenue and gross profit.

The semiconductor products we develop and sell are subject to rapid declines in average selling prices. From time to time, we have had to reduce our prices significantly to meet customer requirements, and we may be required to reduce our prices in the future. This would cause our gross profit to decrease. Our financial results will suffer if we are unable to offset any reductions in our average selling prices by increasing our sales volumes, reducing our costs or developing new or enhanced products on a timely basis with higher selling prices or gross profit.

Our industry is highly competitive and our ability to compete could be negatively impacted by a variety of factors.

The semiconductor industry is highly competitive and includes hundreds of companies, a number of which have achieved substantial market share both within our product categories and end markets. Current and prospective customers for our products and services evaluate our capabilities against the merits of our competitors. Some of our competitors are well established as independent companies and have substantially greater market share and manufacturing, financial, research and development and marketing resources than we do. We also compete with emerging companies that are attempting to sell their products in certain of our end markets and with the internal semiconductor design and manufacturing capabilities of many of our significant customers. We expect to experience continuing competitive pressures in our markets from existing competitors and new entrants.

Any consolidation among our competitors could enhance their product offerings and financial resources, further enhancing their competitive position. Our ability to compete will depend on a number of factors, including the following:

our ability to offer cost-effective and high quality products and services on a timely basis using our technologies;

our ability to accurately identify and respond to emerging technological trends and demand for product features and performance characteristics;

Table of Contents

our ability to continue to rapidly introduce new products that are accepted by the market;

our ability to adopt or adapt to emerging industry standards;

the number and nature of our competitors and competitiveness of their products and services in a given market;

entrance of new competitors into our markets;

our ability to enter the highly competitive power management market; and

our ability to continue to offer in demand semiconductor manufacturing services at competitive prices.

Many of these factors are outside of our control. In the future, our competitors may replace us as a supplier to our existing or potential customers, and our customers may satisfy more of their requirements internally. As a result, we may experience declining revenues and results of operations.

Changes in demand for consumer electronics in our end markets can impact our results of operations.

Demand for our products will depend in part on the demand for various consumer electronics products, in particular, mobile phones and multimedia devices, digital televisions, flat panel displays, mobile PCs and digital cameras, which in turn depends on general economic conditions and other factors beyond our control. If our customers fail to introduce new products that employ our products or component parts, demand for our products will suffer. To the extent that we cannot offset periods of reduced demand that may occur in these markets through greater penetration of these markets or reduction in our production and costs, our sales and gross profit may decline, which would negatively impact our business, financial condition and results of operations.

If we fail to achieve design wins for our semiconductor products, we may lose the opportunity for sales to customers for a significant period of time and be unable to recoup our investments in our products.

We expend considerable resources on winning competitive selection processes, known as design wins, to develop semiconductor products for use in our customers' products. These selection processes are typically lengthy and can require us to incur significant design and development expenditures. We may not win the competitive selection process and may never generate any revenue despite incurring significant design and development expenditures. Once a customer designs a semiconductor into a product, that customer is likely to continue to use the same semiconductor or enhanced versions of that semiconductor from the same supplier across a number of similar and successor products for a lengthy period of time due to the significant costs associated with qualifying a new supplier and potentially redesigning the product to incorporate a different semiconductor. If we fail to achieve an initial design win in a customer's qualification process, we may lose the opportunity for significant sales to that customer for a number of products and for a lengthy period of time. This may cause us to be unable to recoup our investments in our semiconductor products, which would harm our business.

We have lengthy and expensive design-to-mass production and manufacturing process development cycles that may cause us to incur significant expenses without realizing meaningful sales, the occurrence of which would harm our business.

The cycle time from the design stage to mass production for some of our products is long and requires the investment of significant resources with many potential customers without any guarantee of sales. Our design-to-mass production cycle typically begins with a three-to-twelve month

Table of Contents

semiconductor development stage and test period followed by a three-to-twelve month end-product qualification period by our customers. The fairly lengthy front end of our sales cycle creates a risk that we may incur significant expenses but may be unable to realize meaningful sales. Moreover, prior to mass production, customers may decide to cancel their products or change production specifications, resulting in sudden changes in our product specifications, increasing our production time and costs. Failure to meet such specifications may also delay the launch of our products or result in lost sales.

In addition, we collaborate and jointly develop certain process technologies and manufacturing process flows custom to certain of our semiconductor manufacturing services customers. To the extent that our semiconductor manufacturing services customers fail to achieve market acceptance for their products, we may be unable to recoup our engineering resources commitment and our investment in process technology development, which would harm our business.

Research and development investments may not yield profitable and commercially viable product and service offerings and thus will not necessarily result in increases in revenues for us.

We invest significant resources in our research and development. Our research and development efforts, however, may not yield commercially viable products or enhance our semiconductor manufacturing services offerings. During each stage of research and development there is a substantial risk that we will have to abandon a potential product or service offering that is no longer marketable and in which we have invested significant resources. In the event we are able to develop viable new products or service offerings, a significant amount of time will have elapsed between our investment in the necessary research and development effort and the receipt of any related revenues.

We face numerous challenges relating to executing our growth strategy, and if we are unable to execute our growth strategy effectively, our business and financial results could be materially and adversely affected.

Our growth strategy is to leverage our advanced analog and mixed-signal technology platform, continue to innovate and deliver new products and services, increase business with existing customers, broaden our customer base, aggressively grow our power business, drive execution excellence and focus on specialty process technologies. As part of our growth strategy, we began marketing a new line of power management semiconductor products in 2008 and expect to introduce other new products and services in the future. If we are unable to execute our growth strategy effectively, we may not be able to take advantage of market opportunities, execute our business plan or respond to competitive pressures. Moreover, if our allocation of resources does not correspond with future demand for particular products, we could miss market opportunities and our business and financial results could be materially and adversely affected.

We are subject to risks associated with currency fluctuations, and changes in the exchange rates of applicable currencies could impact our results of operations.

Historically, a portion of our revenues and greater than the majority of our operating expenses and costs of sales have been denominated in non-U.S. currencies, principally the Korean won, and we expect that this will remain true in the future. Because we report our results of operations in U.S. dollars, changes in the exchange rate between the Korean won and the U.S. dollar could materially impact our reported results of operations and distort period to period comparisons. In particular, because of the difference in the amount of our consolidated revenues and expenses that are in U.S. dollars relative to Korean won, a depreciation in the U.S. dollar relative to the Korean won could result in a material increase in reported costs relative to revenues, and therefore could cause our profit margins and operating income to appear to decline materially, particularly relative to prior periods. The

Table of Contents

converse is true if the U.S. dollar were to appreciate relative to the Korean won. Fluctuations in foreign currency exchange rates also impact the reporting of our receivables and payables in non-U.S. currencies. Foreign currency fluctuations had a materially beneficial impact on our results of operations in the fiscal year ended December 31, 2008 relative to the fiscal year ended December 31, 2007, as well as in the combined twelve-month period ended December 31, 2009 relative to the fiscal year ended December 31, 2008. However, foreign currency fluctuation had an unfavorable impact on our reported profit margins and operating income from continuing operations for the nine months ended September 30, 2010 compared to the nine months ended September 27, 2009. As a result of foreign currency fluctuations, it could be more difficult to detect underlying trends in our business and results of operations. In addition, to the extent that fluctuations in currency exchange rates cause our results of operations to differ from our expectations or the expectations of our investors, the trading price of our stock following the completion of this offering could be adversely affected.

From time to time, we may engage in exchange rate hedging activities in an effort to mitigate the impact of exchange rate fluctuations. For example, in January 2010 and May 2010 our Korean subsidiary entered into foreign currency option and forward contracts in order to mitigate a portion of the impact of U.S. dollar-Korean won exchange rate fluctuations on our operating results. The January 2010 option and forward contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during each month of 2010 commencing February 2010 to our counterparty, in each case, in exchange for Korean won at specified exchange rates. The May 2010 option and forward contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during the months of January 2011 through June 2011 to our counterparty, in each case, in exchange for Korean won at specified fixed exchange rates. In August 2010 our Korean subsidiary additionally entered into zero cost collar contracts for the same purpose as the above hedge contracts. The August 2010 zero cost collar contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during the months of July 2011 through December 2011 to our counterparty, in each case, in exchange for Korean won at specified fixed exchange rates. Obligations under these foreign currency option and forward contracts must be cash collateralized if our exposure exceeds certain specified thresholds. These option, forward and zero cost collar contracts may be terminated by the counterparty in a number of circumstances, including if our long-term debt rating falls below B-/B3 or if our total cash and cash equivalents is less than \$30 million at the end of a fiscal quarter. We cannot assure you that any hedging technique we implement will be effective. If our hedging activities are not effective, changes in currency exchange rates may have a more significant impact on our results of operations. See Management's Discussion and Analysis of Financial Condition and Results of Operations Factors Affecting our Results of Operations.

The global recession and related financial crisis negatively affected our business. Poor economic conditions may negatively affect our future business, results of operations and financial condition.

The global recession and related financial crisis led to slower economic activity, increased unemployment, concerns about inflation and energy costs, decreased business and consumer confidence, reduced corporate profits and capital spending, adverse business conditions and lower levels of liquidity in many financial markets. Consumers and businesses deferred purchases in response to tighter credit and negative financial news, which has in turn negatively affected product demand and other related matters. The global recession led to reduced customer spending in the semiconductor market and in our target markets, made it difficult for our customers, our vendors and us to accurately forecast and plan future business activities, and caused U.S. and foreign businesses to slow spending on our products. Although recently there have been indications of improved economic conditions generally and in the semiconductor industry specifically, we cannot assure you of the extent to which such conditions will continue to improve or whether the improvement will be sustainable. If the

Table of Contents

global economic recovery is not sustained or the global economy experiences another recession, such adverse economic conditions could lead to the insolvency of key suppliers resulting in product delays, limit the ability of customers to obtain credit to finance purchases of our products, lead to customer insolvencies, and also result in counterparty failures that may negatively impact our treasury operations. As a result, our business, financial condition and result of operations could be materially adversely affected in future periods as a result of economic downturns.

The loss of our key employees would materially adversely affect our business, and we may not be able to attract or retain the technical or management employees necessary to compete in our industry.

Our key executives have substantial experience and have made significant contributions to our business, and our continued success is dependent upon the retention of our key management executives, including our Chief Executive Officer and Chairman, Sang Park. The loss of such key personnel would have a material adverse effect on our business. In addition, our future success depends on our ability to attract and retain skilled technical and managerial personnel. We do not know whether we will be able to retain all of these employees as we continue to pursue our business strategy. The loss of the services of key employees, especially our key design and technical personnel, or our inability to retain, attract and motivate qualified design and technical personnel could have a material adverse effect on our business, financial condition and results of operations. This could hinder our research and product development programs or otherwise have a material adverse effect on our business.

If we encounter future labor problems, we may fail to deliver our products and services in a timely manner, which could adversely affect our revenues and profitability.

As of September 30, 2010, 2,199 employees, or approximately 65.1% of our employees, were represented by the MagnaChip Semiconductor Labor Union, which is a member of the Federation of Korean Metal Workers Trade Unions. We can offer no assurance that issues with the labor union and other employees will be resolved favorably for us in the future, that we will not experience work stoppages or other labor problems in future years or that we will not incur significant expenses related to such issues.

We may incur costs to engage in future business combinations or strategic investments, and we may not realize the anticipated benefits of those transactions.

As part of our business strategy, we may seek to enter into business combinations, investments, joint ventures and other strategic alliances with other companies in order to maintain and grow revenue and market presence as well as to provide us with access to technology, products and services. Any such transaction would be accompanied by risks that may harm our business, such as difficulties in assimilating the operations, personnel and products of an acquired business or in realizing the projected benefits, disruption of our ongoing business, potential increases in our indebtedness and contingent liabilities and charges if the acquired company or assets are later determined to be worth less than the amount paid for them in an earlier original acquisition. In addition, our indebtedness may restrict us from making acquisitions that we may otherwise wish to pursue.

The failure to achieve acceptable manufacturing yields could adversely affect our business.

The manufacture of semiconductors involves highly complex processes that require precision, a highly regulated and sterile environment and specialized equipment. Defects or other difficulties in the manufacturing process can prevent us from achieving acceptable yields in the manufacture of our products or those of our semiconductor manufacturing services customers, which could lead to higher costs, a loss of customers or delay in market acceptance of our products. Slight impurities or defects in the photomasks used to print circuits on a wafer or other factors can cause significant difficulties,

Table of Contents

particularly in connection with the production of a new product, the adoption of a new manufacturing process or any expansion of our manufacturing capacity and related transitions. We may also experience manufacturing problems in achieving acceptable yields as a result of, among other things, transferring production to other facilities, upgrading or expanding existing facilities or changing our process technologies. Yields below our target levels can negatively impact our gross profit and may cause us to eliminate underperforming products.

We rely on a number of independent subcontractors and the failure of any of these independent subcontractors to perform as required could adversely affect our operating results.

A substantial portion of our net sales are derived from semiconductor devices assembled in packages or on film. The packaging and testing of semiconductors require technical skill and specialized equipment. For the portion of packaging and testing that we outsource, we use subcontractors located in Korea, China, Taiwan, Malaysia and Thailand. We rely on these subcontractors to package and test our devices with acceptable quality and yield levels. We could be adversely affected by political disorders, labor disruptions, and natural disasters where our subcontractors are located. If our semiconductor packagers and test service providers experience problems in packaging and testing our semiconductor devices, experience prolonged quality or yield problems or decrease the capacity available to us, our operating results could be adversely affected.

We depend on successful parts and materials procurement for our manufacturing processes, and a shortage or increase in the price of these materials could interrupt our operations and result in a decline of revenues and results of operations.

We procure materials and electronic and mechanical components from international sources and original equipment manufacturers. We use a wide range of parts and materials in the production of our semiconductors, including silicon, processing chemicals, processing gases, precious metals and electronic and mechanical components, some of which, such as silicon wafers, are specialized raw materials that are generally only available from a limited number of suppliers. We do not have long-term agreements providing for all of these materials, thus, if demand increases or supply decreases, the costs of our raw materials could significantly increase. For example, worldwide supplies of silicon wafers, an important raw material for the semiconductors we manufacture, were constrained in recent years due to an increased demand for silicon. Silicon is also a key raw material for solar cells, the demand for which has increased in recent years. Although supplies of silicon have recently improved due to the entrance of additional suppliers and capacity expansion by existing suppliers, we cannot assure you that such supply increases will match demand increases. If we cannot obtain adequate materials in a timely manner or on favorable terms for the manufacture of our products, revenues and results of operations will decline.

We face warranty claims, product return, litigation and liability risks and the risk of negative publicity if our products fail.

Our semiconductors are incorporated into a number of end products, and our business is exposed to product return, warranty and product liability risk and the risk of negative publicity if our products fail. Although we maintain insurance for product liability claims, the amount and scope of our insurance may not be adequate to cover a product liability claim that is asserted against us. In addition, product liability insurance could become more expensive and difficult to maintain and, in the future, may not be available on commercially reasonable terms, or at all.

In addition, we are exposed to the product liability risk and the risk of negative publicity affecting our customers. Our sales may decline if any of our customers are sued on a product liability claim. We also may suffer a decline in sales from the negative publicity associated with such a lawsuit or with

Table of Contents

adverse public perceptions in general regarding our customers' products. Further, if our products are delivered with impurities or defects, we could incur additional development, repair or replacement costs, and our credibility and the market's acceptance of our products could be harmed.

We could suffer adverse tax and other financial consequences as a result of changes in, or differences in the interpretation of, applicable tax laws.

Our company organizational structure was created in part based on certain interpretations and conclusions regarding various tax laws, including withholding tax, and other tax laws of applicable jurisdictions. Our Korean subsidiary, MagnaChip Semiconductor, Ltd., or MagnaChip Korea, was granted a limited tax holiday under Korean law in October 2004. This grant provided for certain tax exemptions for corporate taxes and withholding taxes until December 31, 2008, and for acquisition taxes, property and land use taxes and certain other taxes until December 31, 2013. Our interpretations and conclusions regarding tax laws, however, are not binding on any taxing authority and, if these interpretations and conclusions are incorrect, if our business were to be operated in a way that rendered us ineligible for tax exemptions or caused us to become subject to incremental tax, or if the authorities were to change, modify, or have a different interpretation of the relevant tax laws, we could suffer adverse tax and other financial consequences and the anticipated benefits of our organizational structure could be materially impaired.

Our ability to compete successfully and achieve future growth will depend, in part, on our ability to protect our proprietary technology and know-how, as well as our ability to operate without infringing the proprietary rights of others.

We seek to protect our proprietary technologies and know-how through the use of patents, trade secrets, confidentiality agreements and other security measures. The process of seeking patent protection takes a long time and is expensive. There can be no assurance that patents will issue from pending or future applications or that, if patents issue, they will not be challenged, invalidated or circumvented, or that the rights granted under the patents will provide us with meaningful protection or any commercial advantage. Some of our technologies are not covered by any patent or patent application. The confidentiality agreements on which we rely to protect these technologies may be breached and may not be adequate to protect our proprietary technologies. We cannot assure you that other countries in which we market our services will protect our intellectual property rights to the same extent as the United States. In particular, the validity, enforceability and scope of protection of intellectual property in China, where we derive a significant portion of our net sales, and certain other countries where we derive net sales, are uncertain and still evolving and historically have not protected and may not protect in the future, intellectual property rights to the same extent as do the laws and enforcement procedures in the United States.

Our ability to compete successfully depends on our ability to operate without infringing the proprietary rights of others. We have no means of knowing what patent applications have been filed in the United States until they are published. In addition, the semiconductor industry is characterized by frequent litigation regarding patent and other intellectual property rights. We may need to file lawsuits to enforce our patents or intellectual property rights, and we may need to defend against claimed infringement of the rights of others. Any litigation could result in substantial costs to us and divert our resources. Despite our efforts in bringing or defending lawsuits, we may not be able to prevent third parties from infringing upon or misappropriating our intellectual property. In the event of an adverse outcome in any such litigation, we may be required to:

pay substantial damages or indemnify customers or licensees for damages they may suffer if the products they purchase from us or the technology they license from us violate the intellectual property rights of others;

Table of Contents

stop our manufacture, use, sale or importation of infringing products; expend significant resources to develop or acquire non-infringing technologies;

discontinue processes; or

obtain licenses to the intellectual property we are found to have infringed.

There can be no assurance that we would be successful in such development or acquisition or that such licenses would be available under reasonable terms, or at all. The termination of key third party licenses relating to the use of intellectual property in our products and our design processes, such as our agreements with Silicon Works Co., Ltd. and ARM Limited, would materially and adversely affect our business.

Our competitors may develop, patent or gain access to know-how and technology similar to our own. In addition, many of our patents are subject to cross licenses, several of which are with our competitors. The noncompetition arrangement agreed to by Hynix in connection with the Original Acquisition expired on October 1, 2007. Under that arrangement, Hynix retained a perpetual license to use the intellectual property that we acquired from Hynix in the Original Acquisition. Since noncompetition restrictions have expired, Hynix and its subsidiaries are free to develop products that may incorporate or embody intellectual property developed by us prior to October 2004.

Our expenses could increase if Hynix were unwilling or unable to provide certain services related to our shared facilities with Hynix, and if Hynix were to become insolvent, we could lose certain of our leases.

We are party to a land lease and easement agreement with Hynix pursuant to which we lease the land for our facilities in Cheongju, Korea. If this agreement were terminated for any reason, including the insolvency of Hynix, we would have to renegotiate new lease terms with Hynix or the new owner of the land. We cannot assure you that we could negotiate new lease terms on favorable terms or at all. Because we share certain facilities with Hynix, several services that are essential to our business are provided to us by or through Hynix under our general service supply agreement with Hynix. These services include electricity, bulk gases and de-ionized water, campus facilities and housing, wastewater and sewage management, environmental safety and certain utilities and infrastructure support services. If any of our agreements with Hynix were terminated or if Hynix were unwilling or unable to fulfill its obligations to us under the terms of these agreements, we would have to procure these services on our own and as a result may experience an increase in our expenses.

We are subject to many environmental laws and regulations that could affect our operations or result in significant expenses.

We are subject to requirements of environmental, health and safety laws and regulations in each of the jurisdictions in which we operate, governing air emissions, wastewater discharges, the generation, use, handling, storage and disposal of, and exposure to, hazardous substances (including asbestos) and wastes, soil and groundwater contamination and employee health and safety. These laws and regulations are complex, change frequently and have tended to become more stringent over time. There can be no assurance that we have been, or will be, in compliance with all such laws and regulations or that we will not incur material costs or liabilities in connection with these laws and regulations in the future. The adoption of new environmental, health and safety laws, the failure to comply with new or existing laws, or issues relating to hazardous substances could subject us to material liability (including substantial fines or penalties), impose the need for additional capital equipment or other process requirements upon us, curtail our operations or restrict our ability to expand operations.

Table of Contents

Our Korean subsidiary has been designated as a regulated business under Korean environmental law, and such designation could have an adverse effect on our financial position and results of operations.

In April 2010, the Korean government's Enforcement Decree to the Framework Act on Low Carbon Green Growth, or the Enforcement Decree, became effective. Businesses that exceed 25,000 tons of greenhouse gas emissions and 100 terajoules of energy consumption for the prior three years will be subject to regulation and will be required to submit plans to reduce greenhouse emissions and energy consumption as well as performance reports and will be subject to government requirements to take further action. Our Korean subsidiary meets the thresholds under the Enforcement Decree and was designated as a regulated business on September 28, 2010. Our Korean subsidiary will have until September 2011 and December 2011 to cooperate and negotiate with Korean governmental authorities to set reduction targets and draft an implementation plan, respectively. If the ultimate implementation plan agreed upon with Korean governmental authorities requires us to reduce our emissions or energy consumption, we could be subject to additional and potentially costly compliance or remediation expenses, including potentially the installation of equipment and changes in the type of materials we use in manufacturing, that could adversely affect our financial position and results of operations.

We will likely need additional capital in the future, and such capital may not be available on acceptable terms or at all, which would have a material adverse effect on our business, financial condition and results of operations.

We will likely require more capital in the future from equity or debt financings to fund operating expenses, such as research and development costs, finance investments in equipment and infrastructure, acquire complementary businesses and technologies, and respond to competitive pressures and potential strategic opportunities. If we raise additional funds through further issuances of equity or other securities convertible into equity, our existing stockholders could suffer significant dilution, and any new shares we issue could have rights, preferences or privileges senior to those of the holders of our common stock, including the shares of common stock sold in this offering. In addition, additional capital may not be available when needed or, if available, may not be available on favorable terms. In addition, our indebtedness limits our ability to incur additional indebtedness under certain circumstances. If we are unable to obtain capital on favorable terms, or if we are unable to obtain capital at all, we may have to reduce our operations or forego opportunities, and this may have a material adverse effect on our business, financial condition and results of operations.

Our business depends on international customers, suppliers and operations in Asia, and as a result we are subject to regulatory, operational, financial and political risks, which could adversely affect our financial results.

We rely on, and expect to continue to rely on, suppliers, subcontractors and operations located primarily in Asia. As a result, we face risks inherent in international operations, such as unexpected changes in regulatory requirements, tariffs and other market barriers, political, social and economic instability, adverse tax consequences, war, civil disturbances and acts of terrorism, difficulties in accounts receivable collection, extended payment terms and differing labor standards, enforcement of contractual obligations and protection of intellectual property. These risks may lead to increased costs or decreased revenue growth, or both. Although we do not derive any revenue from, nor sell any products in, North Korea, any future increase in tensions between South Korea and North Korea that may occur, such as an outbreak of military hostilities, would adversely affect our business, financial condition and results of operations.

Table of Contents

You may not be able to bring an action or enforce any judgment obtained in United States courts, or bring an action in any other jurisdiction, against us or our subsidiaries or our directors, officers or independent auditors that are organized or residing in jurisdictions other than the United States.

Most of our subsidiaries are organized or incorporated outside of the United States and some of our directors and executive officers as well as our independent auditors are organized or reside outside of the United States. Most of our and our subsidiaries' assets are located outside of the United States and in particular, in Korea. Accordingly, any judgment obtained in the United States against us or our subsidiaries may not be collectible in the United States. As a result, it may not be possible for you to effect service of process within the United States upon these persons or to enforce against them or us court judgments obtained in the United States that are predicated upon the civil liability provisions of the federal securities laws of the United States or of the securities laws of any state of the United States. In particular, there is doubt as to the enforceability in Korea or any other jurisdictions outside the United States, either in original actions or in actions for enforcement of judgments of United States courts, of civil liabilities predicated on the federal securities laws of the United States or the securities laws of any state of the United States.

Our level of indebtedness is substantial, and we may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful. A decline in the ratings of our existing or future indebtedness may make the terms of any new indebtedness we choose to incur more costly.

As of September 30, 2010, our total indebtedness was \$246.8 million. See "Capitalization" for additional information. Our substantial debt could have important consequences, including:

increasing our vulnerability to general economic and industry conditions;

requiring a substantial portion of our cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;

limiting our ability to obtain additional financing for working capital, capital expenditures, debt service requirements, acquisitions and general corporate or other purposes; and

limiting our ability to adjust to changing market conditions and placing us at a competitive disadvantage compared to our competitors who have less debt.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot assure you that we will generate a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

The credit ratings assigned to our debt reflect each rating agency's opinion of our ability to make payments on the debt obligations when such payments are due. The current rating of our senior notes is B2 by Moody's and B+ by Standard and Poors, both of which are below investment grade. A rating may be subject to revision or withdrawal at any time by the assigning rating agency. We may experience downgrades in our debt ratings in the future. Any lowering of our debt ratings would adversely impact our ability to raise additional debt financing and increase the cost of any such financing that is obtained. In the event any ratings downgrades are significant, we may choose not to incur new debt or refinance existing debt if we are unable to incur or refinance such debt at favorable interest rates or on favorable terms.

Table of Contents

If our cash flows and capital resources are insufficient to fund our debt service obligations or if we are unable to refinance existing indebtedness on favorable terms, we may be forced to reduce or delay capital expenditures, sell assets, seek additional capital or restructure or refinance our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. The indentures governing our notes restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or be able to obtain the proceeds which we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due.

We are a holding company and will depend on the business of our subsidiaries to satisfy our obligations under our outstanding notes and other obligations.

Each of MagnaChip Semiconductor LLC, MagnaChip Semiconductor S.A. and MagnaChip Semiconductor B.V. is a holding company with no independent operations of its own. Our subsidiaries, including our principal manufacturing subsidiary, MagnaChip Korea, own all of our operating businesses. Our subsidiaries will conduct substantially all of the operations necessary to fund payments on our outstanding notes, other debt and any other obligations. Our ability to make payments on the notes and our other obligations will depend on our subsidiaries' cash flow and their payment of funds to us. Our subsidiaries' ability to make payments to us will depend on:

their earnings;

covenants contained in our debt agreements (including the indenture governing the notes) and the debt agreements of our subsidiaries;

covenants contained in other agreements to which we or our subsidiaries are or may become subject;

business and tax considerations; and

applicable law, including any restrictions under Korean law that may be imposed on MagnaChip Korea that would restrict its ability to make payments on intercompany loans from MagnaChip Semiconductor B.V.

We cannot assure you that the operating results of our subsidiaries at any given time will be sufficient to make distributions or other payments to us or that any distributions or payments will be adequate to pay principal and interest, and any other payments, on our outstanding notes, other debt or any other obligations when due, and the failure to make such payments could have a material adverse effect on our business, financial condition and results of operations.

Restrictions on MagnaChip Korea's ability to make payments on its intercompany loans from MagnaChip Semiconductor B.V., or on its ability to pay dividends in excess of statutory limitations, could hinder our ability to make payments on our 10.500% senior notes due 2018.

We anticipate that payments under our 10.500% senior notes due 2018 will be funded in part by MagnaChip Korea's repayment of its existing loans from MagnaChip Semiconductor B.V., with MagnaChip Semiconductor B.V. using such repayments in turn to repay the loans owed to MagnaChip Semiconductor S.A. Under the Korean Foreign Exchange Transaction Act, the minister of the Ministry of Strategy and Finance is authorized to temporarily suspend payments in foreign currencies in the event of natural calamities, wars, conflicts of arms, grave and sudden changes in domestic or foreign economic conditions, or other similar situations. In addition, under the Korean Commercial Code, a Korean company is permitted to make a dividend payment in accordance with the provisions in its articles of incorporation out of retained earnings (as determined in accordance with the Korean Commercial Code and the generally accepted accounting principles in Korea), but no more than twice

Table of Contents

a year. If MagnaChip Korea is prevented from making payments under its intercompany loans due to restrictions on payments of foreign currency or if it has an insufficient amount of retained earnings under the Korean Commercial Code to make dividend payments to MagnaChip Semiconductor B.V., we may not have sufficient funds to make payments on the notes.

The indenture governing the senior notes contains, and our future debt agreements will likely contain, covenants that significantly restrict our operations.

The indenture governing our outstanding senior notes contains, and our future debt agreements will likely contain, numerous covenants imposing financial and operating restrictions on our business. These restrictions may affect our ability to operate our business, may limit our ability to take advantage of potential business opportunities as they arise and may adversely affect the conduct of our current business, including by restricting our ability to finance future operations and capital needs and by limiting our ability to engage in other business activities. These covenants will place restrictions on our ability and the ability of our operating subsidiaries to, among other things:

pay dividends, redeem shares or make other distributions with respect to equity interests, make payments with respect to subordinated indebtedness or other restricted payments;

incur debt or issue preferred stock;

create liens;

make certain investments;

consolidate, merge or dispose of all or substantially all of our assets, taken as a whole;

sell or otherwise transfer or dispose of assets, including equity interests of our subsidiaries;

enter into sale-leaseback transactions;

enter into transactions with our affiliates; and

designate our subsidiaries as unrestricted subsidiaries.

In addition, our future debt agreements will likely contain financial ratios and other financial conditions tests. Our ability to meet those financial ratios and tests could be affected by events beyond our control, and we cannot assure you that we will meet those ratios and tests. A breach of any of these covenants could result in a default under such debt agreements. Upon the occurrence of an event of default under such debt agreements, our lenders under such agreements could elect to declare all amounts outstanding under such debt agreements to be immediately due and payable and terminate all commitments to extend further credit.

Investor confidence may be adversely impacted if we are unable to comply with Section 404 of the Sarbanes-Oxley Act of 2002, and as a result, our stock price could decline.

We will be subject to rules adopted by the Securities Exchange Commission, or SEC, pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, or Sarbanes-Oxley Act, which require us to include in our Annual Report on Form 10-K our management's report on, and assessment of the effectiveness of, our internal controls over financial reporting. We may also in the future become subject to the requirement that our

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

independent auditors attest to and report on the effectiveness of our internal control over financial reporting. In connection with audits of our consolidated financial statements for the ten-month period ended October 25, 2009 and two-month period ended December 31, 2009, our independent registered public accounting firm has reported two control deficiencies that existed prior to their review, which represent a material weakness in our internal control over financial reporting. The two control deficiencies which represent a material weakness that our independent registered public accounting firm reported to our board of directors are that we do not have a sufficient number of

Table of Contents

financial personnel with the requisite financial accounting experience and that our controls over non-routine transactions are not effective to ensure that accounting considerations are identified and appropriately recorded.

If we fail to achieve and maintain the adequacy of our internal controls, there is a risk that we will not comply with all of the requirements imposed by Section 404. Moreover, effective internal controls, particularly those related to revenue recognition, are necessary for us to produce reliable financial reports and are important to helping prevent financial fraud. Any of these possible outcomes could result in an adverse reaction in the financial marketplace due to a loss of investor confidence in the reliability of our consolidated financial statements and could result in investigations or sanctions by the SEC, the New York Stock Exchange, or NYSE, or other regulatory authorities or in stockholder litigation. Any of these factors ultimately could harm our business and could negatively impact the market price of our securities. Ineffective control over financial reporting could also cause investors to lose confidence in our reported financial information, which could adversely affect the trading price of our common stock.

Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. However, our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

We may need to incur impairment and other restructuring charges, which could materially affect our results of operations and financial conditions.

During industry downturns and for other reasons, we may need to record impairment or restructuring charges. From April 4, 2005 through September 30, 2010, we recognized aggregate restructuring and impairment charges of \$64.7 million, which consisted of \$59.1 million of impairment charges and \$5.6 million of restructuring charges. In the future, we may need to record additional impairment charges or to further restructure our business or incur additional restructuring charges, any of which could have a material adverse effect on our results of operations or financial condition.

We are subject to litigation risks, which may be costly to defend and the outcome of which is uncertain.

All industries, including the semiconductor industry, are subject to legal claims, with and without merit, that may be particularly costly and which may divert the attention of our management and our resources in general. We are involved in a variety of legal matters, most of which we consider routine matters that arise in the normal course of business. These routine matters typically fall into broad categories such as those involving customers, employment and labor and intellectual property. Even if the final outcome of these legal claims does not have a material adverse effect on our financial position, results of operations or cash flows, defense and settlement costs can be substantial. Due to the inherent uncertainty of the litigation process, the resolution of any particular legal claim or proceeding could have a material effect on our business, financial condition, results of operations or cash flows.

Table of Contents

Risks Related to Our Common Stock

The price of our depositary shares and common stock may be volatile and you may lose all or a part of your investment.

Prior to this offering, there has not been a public market for our depositary shares or common stock. Even though we anticipate that our shares will be quoted on the New York Stock Exchange, an active trading market for our depositary shares or common stock may not develop following this offering. You may not be able to sell your shares quickly or at the current market price if trading in our depositary shares or common stock is not active. The initial public offering price for the shares will be determined by negotiations between the underwriters, the selling stockholders and us, and may not be indicative of prices that will prevail in the trading market.

In addition, the trading price of our depositary shares and common stock might be subject to wide fluctuations. Factors, some of which are beyond our control, that could affect the trading price of our depositary shares or common stock may include:

actual or anticipated variations in our results of operations from quarter to quarter or year to year;

announcements by us or our competitors of significant agreements, technological innovations or strategic alliances;

changes in recommendations or estimates by any securities analysts who follow our securities;

addition or loss of significant customers;

recruitment or departure of key personnel;

changes in economic performance or market valuations of competing companies in our industry;

price and volume fluctuations in the overall stock market;

market conditions in our industry, end markets and the economy as a whole;

subsequent sales of stock and other financings;

litigation, legislation, regulation or technological developments that adversely affect our business; and

the expiration of contractual lock-up agreements with our executive officers, directors and greater than 1% stockholders.

In the past, following periods of volatility in the market price of a public company's securities, securities class action litigation often has been instituted against the public company. Regardless of its outcome, this type of litigation could result in substantial costs to us and a likely diversion of our management's attention. You may not receive a positive return on your investment when you sell your shares, and you could lose some or the entire amount of your investment.

Control by principal stockholders could adversely affect our other stockholders.

Based upon the MagnaChip Semiconductor LLC units outstanding as of September 30, 2010, our executive officers, directors and greater than 5% unitholders collectively beneficially owned approximately 85.8% of the common units of MagnaChip Semiconductor LLC, excluding units issuable upon exercise of outstanding options and warrants, and 86.0% of the common units, including units issuable upon exercise of outstanding options and warrants that are exercisable within sixty days of September 30, 2010. After giving effect to the corporate conversion and the sale of shares in this

Table of Contents

offering, our executive officers, directors and greater than 5% stockholders, collectively, would have owned approximately % of our common stock as of September 30, 2010, assuming no exercise of the underwriters' option to purchase additional shares from us or the selling stockholders. On the same adjusted basis, and assuming exercise of the underwriters' option to purchase an additional shares from us and shares from the selling stockholders, our executive officers, directors and greater than 5% stockholders, collectively, would have owned approximately % of our common stock as of September 30, 2010. In the event that we sell less than shares in this offering, the ownership percentage of our executive officers, directors and greater than 5% stockholders will increase. In addition, Avenue has three designees serving as members of our seven-member board of directors. Therefore, Avenue will continue to have significant influence over our affairs for the foreseeable future, including influence over the election of directors and significant corporate transactions, such as a merger or other sale of our company or our assets.

Our concentration of ownership will limit the ability of other stockholders to influence corporate matters and, as a result, we may take actions that our non-sponsor stockholders do not view as beneficial. For example, our concentration of ownership could have the effect of delaying or preventing a change in control or otherwise discouraging a potential acquirer from attempting to obtain control of us, which in turn could cause the market price of our common stock to decline or prevent our stockholders from realizing a premium over the market price for their shares of our common stock.

Under our certificate of incorporation, our non-employee directors and non-employee holders of five percent or more of our outstanding common stock do not have a duty to refrain from engaging in a corporate opportunity in the same or similar activities or lines of business as those engaged in by us, our subsidiaries and other related parties. Also, we have renounced any interest or expectancy in such business opportunities even if the opportunity is one that we might reasonably have pursued or had the ability or desire to pursue if granted an opportunity to do so.

We are a controlled company within the meaning of NYSE rules, controlled by Avenue whose interests in our business may conflict with yours.

Upon completion of this offering, Avenue will beneficially own approximately shares, or %, of our outstanding common stock assuming no exercise of the underwriters' option to purchase additional shares. Accordingly, Avenue will be able to control most matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, including mergers and sales of substantially all of our assets. Because of the equity ownership of Avenue, we will be considered a controlled company for purposes of the NYSE listing requirements. As such, we will be exempt from the NYSE corporate governance requirements that our board of directors meet the standards of independence established by those corporate governance requirements and exempt from the requirements that we have separate Compensation and Nominating and Corporate Governance Committees made up entirely of directors who meet such independence standards. Although we do not intend to rely upon the exemption available for controlled companies, we may choose to utilize the exemption at any time that we remain a controlled company. The NYSE independence standards are intended to ensure that directors who meet the independence standards are free of any conflicting interest with management that could influence their actions as directors. It is possible that the interests of Avenue may in some circumstances conflict with our interests and the interests of our other stockholders.

The future sale of significant amounts of our common stock may negatively affect our stock price, even if our business is doing well.

Sales of substantial amounts of shares of our common stock in the public market, or the prospect of such sales, could adversely affect the market price of our common stock. After giving effect to the corporate conversion and the sale of shares in this offering, we would have had shares of

Table of Contents

common stock outstanding as of September 30, 2010, based on the number of MagnaChip Semiconductor LLC units outstanding as of that date. All of the shares outstanding prior to this offering are subject to lock-up agreements under which the holders of such shares have agreed not to sell or otherwise dispose of any of their shares for a period of 180 days after the date of this prospectus without the prior written consent of Goldman, Sachs & Co., and Barclays Capital Inc. (or other agreements which impose similar restrictions), other than any shares such holders may sell to the underwriters in this offering after the date of this prospectus pursuant to the underwriters' option to purchase up to additional shares of our common stock from us and _____ shares from the selling stockholders; provided, that these agreements do not restrict the ability of the stockholders party to the registration rights agreement to cause a resale registration statement to be filed in accordance with the demand registration rights described under Description of Capital Stock Registration Rights. After the 180-day period, all currently outstanding shares will be eligible for sale from time to time in the future under Rule 144, Rule 701 or Section 4(1) of the Securities Act with respect to shares covered by Section 1145 of the U.S. Bankruptcy Code.

Goldman, Sachs & Co. and Barclays Capital Inc. can together waive the restrictions of the lock-up agreements at an earlier time without prior notice or announcement and allow stockholders to sell their shares. As restrictions on resale end, the market price of our common stock could drop significantly if the holders of the restricted shares sell such restricted shares or are perceived by the market as intending to sell such restricted shares.

Provisions in our charter documents and Delaware Law may make it difficult for a third party to acquire us and could depress the price of our common stock.

Provisions in our certificate of incorporation and bylaws may have the effect of delaying or preventing a change of control or changes in our management. Among other things, our certificate of incorporation and bylaws:

authorize our board of directors to issue, without stockholder approval, preferred stock with such terms as the board of directors may determine;

divide our board of directors into three classes so that only approximately one-third of the total number of directors is elected each year;

permit directors to be removed only for cause by a majority vote;

prohibit action by written consent of our stockholders;

prohibit any person other than our board of directors, the chairman of our board of directors, our Chief Executive Officer or holders of at least 25% of the voting power of all then outstanding shares of capital stock of the corporation entitled to vote generally in the election of directors to call a special meeting of our stockholders; and

specify advance notice requirements for stockholder proposals and director nominations.

In addition, following this offering, we will be subject to the provisions of Section 203 of the Delaware General Corporation Law, or DGCL, regulating corporate takeovers and which has an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging takeover attempts that might result in a premium over the market price for shares of our common stock. In general, those provisions prohibit a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

the transaction is approved by the board of directors before the date the interested stockholder attained that status;

Table of Contents

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or after such date, the business combination is approved by the board of directors and authorized at a meeting of stockholders, and not by written consent, by at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

In general, Section 203 defines a business combination to include the following:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by any such entity or person.

A Delaware corporation may opt out of this provision by express provision in its original certificate of incorporation or by amendment to its certificate of incorporation or bylaws approved by its stockholders. However, we have not opted out of, and do not currently intend to opt out of, this provision.

We may apply the proceeds of this offering to uses that do not improve our operating results or increase the value of your investment.

We intend to use the net proceeds from this offering to pay certain employee incentive payments payable upon the closing of this offering, to pay certain expenses of this offering, and for general corporate purposes, including working capital and capital expenditures. We may also use a portion of the net proceeds to acquire or invest in companies and technologies that we believe will complement our business although we have no specific plans at this time to do so. However, we will have broad discretion in how we use the net proceeds of this offering. These proceeds could be applied in ways that do not improve our operating results or increase the value of your investment. Until the net proceeds are used, they may be placed in investments that do not produce income or that lose value.

You will incur immediate and substantial dilution and may experience further dilution immediately upon the sale of our common stock in this offering.

The initial public offering price of our common stock is substantially higher than \$ _____, the net tangible book value per share of our common stock as of September 30, 2010, calculated on a pro forma basis for the sale of shares in this offering. Therefore, if you purchase our common stock in this offering, you will incur an immediate dilution of \$ _____ in net tangible book value per share from the price you paid, based on the assumed initial offering price of \$ _____ per share. The exercise of outstanding options and warrants to purchase shares of our common stock at a weighted average

Table of Contents

exercise price of \$6.32 and \$15.76 per share, respectively (assuming a conversion ratio of eight-for-one between the common units of MagnaChip Semiconductor LLC and our shares of common stock), will result in further dilution.

The U.S. federal income tax consequences of the cancellation of the depositary shares are not specifically addressed by applicable law.

Applicable law does not specifically address, under circumstances comparable to ours, the U.S. federal income tax consequences of cancellation of the depositary shares, and the issuance of a credit for the number of shares of common stock equal to the number of cancelled depositary shares. Further, we have not, and will not, obtain a ruling from the Internal Revenue Service, or IRS, with respect to the U.S. federal income tax consequences of the cancellation of the depositary shares and issuance of a credit for common stock. If the IRS were to conclude that a holder of our depositary shares did not own the underlying shares, the cancellation of the depositary shares might be a taxable transaction to the holder, causing the holder to recognize gain or loss in an amount equal to the fair market value of the underlying common stock at the time of cancellation of the depositary shares and the holder's tax basis in the depositary shares.

We will incur increased costs as a result of being a publicly listed company, and these additional costs could harm our business and results of operations.

The Sarbanes-Oxley Act, as well as rules promulgated by the SEC and the NYSE, require us to adopt corporate governance practices applicable to U.S. public companies. These rules and regulations will increase our legal and financial compliance costs and make certain compliance and reporting activities more time-consuming. We also expect it to be more difficult and more expensive for us to obtain and maintain director and officer liability insurance, which may cause us to accept reduced policy limits and reduced coverage or to incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers. We cannot predict or estimate the amount of additional costs we may incur, but these additional costs and demands on management time and attention may harm our business and results of operations.

We do not intend to pay dividends for the foreseeable future after this offering, and therefore, investors should rely on sales of their common stock as the only way to realize any future gains on their investments.

We do not intend to pay any cash dividends in the foreseeable future after this offering. The payment of cash dividends on common stock is restricted under the terms of the indenture for our senior notes. We anticipate that we will retain all of our future earnings after this offering for use in the development of our business and for general corporate purposes. Any determination to pay dividends in the future will be at the discretion of our board of directors. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any future gains on their investments.

Table of Contents

INDUSTRY AND MARKET DATA

In this prospectus, we rely on and refer to information regarding the semiconductor market from iSuppli Corporation, or iSuppli, and Gartner, Inc., or Gartner. Market data attributed to iSuppli is from Display Driver ICs Q4 2009 Market Tracker and Power Management Q4 2009 Market Tracker and market data attributed to Gartner is from Semiconductor Forecast Worldwide: Forecast Database, 24 Feb 2010. Although we believe that this information is reliable, we have not independently verified it. We do not have any obligation to announce or otherwise make publicly available updates or revisions to forecasts contained in these documents. In addition, in many cases, we have made statements in this prospectus regarding our industry and our position in the industry based on our experience in the industry and our own investigation of market conditions.

SPECIAL CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Information concerning us and this offering is subject to risks and uncertainties. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. These statements can be identified by the fact that they do not relate strictly to historical or current facts. These statements may include words such as anticipate, estimate, expect, project, intend, plan, believe and other words and terms of similar meaning in connection with any discussion of the time nature of future operating or financial performance or other events. All statements other than statements of historical facts included in this prospectus that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements.

These forward-looking statements are largely based on our expectations and beliefs concerning future events, which reflect estimates and assumptions made by our management. These estimates and assumptions reflect our best judgment based on currently known market conditions and other factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Although we believe our estimates and assumptions to be reasonable, they are inherently uncertain and involve a number of risks and uncertainties that are beyond our control. In addition, management's assumptions about future events may prove to be inaccurate. Management cautions all readers that the forward-looking statements contained in this prospectus are not guarantees of future performance, and we cannot assure any reader that those statements will be realized or the forward-looking events and circumstances will occur. Actual results may differ materially from those anticipated or implied in the forward-looking statements due to the factors listed in the Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations and Business sections and elsewhere in this prospectus.

All forward-looking statements speak only as of the date of this prospectus. We do not intend to publicly update or revise any forward-looking statements as a result of new information or future events or otherwise, except as required by law. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf.

Table of Contents

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the common stock that we are offering will be approximately \$ million, after deducting the underwriting discounts and commissions and the estimated offering expenses payable by us (assuming an initial public offering price of \$ per share, the midpoint of the range set forth on the cover page of this prospectus). We will not receive any of the proceeds from the sale of our common stock by the selling stockholders.

We intend to use the net proceeds to us from this offering as follows:

approximately \$12 million to fund discretionary incentive payments to all of our employees, excluding our executive officers; and

approximately \$ million to fund working capital and for general corporate purposes.

Pending such uses, we intend to invest the net proceeds of this offering in short-term, investment-grade, interest-bearing securities.

If we raise more or fewer proceeds from this offering than anticipated, including any additional proceeds raised as a result of the exercise of the underwriters' option to purchase additional depository shares, we expect to increase or reduce the amount that we use to fund working capital and for general corporate purposes by a commensurate amount.

DIVIDEND POLICY

We do not intend to pay any cash dividends on our common stock in the foreseeable future after this offering. We anticipate that we will retain all of our future earnings after this offering for use in the development of our business and for general corporate purposes. Any determination to pay dividends in the future will be at the discretion of our board of directors. The payment of cash dividends on our common stock is restricted under the terms of the indenture governing our senior notes.

On April 19, 2010, we made a \$130.7 million cash distribution to our unitholders using proceeds from the sale of our senior notes. The per common unit distribution was \$0.4254.

CORPORATE CONVERSION

In connection with this offering, our board of directors and the holders of a majority of our outstanding common units will elect to convert MagnaChip Semiconductor LLC from a Delaware limited liability company to a Delaware corporation. In order to consummate such a conversion, a certificate of conversion will be filed with the Secretary of State of the State of Delaware prior to the effectiveness of the registration statement of which this prospectus is a part. In connection with the corporate conversion, outstanding common units of MagnaChip Semiconductor LLC will be automatically converted into shares of common stock of MagnaChip Semiconductor Corporation, outstanding options to purchase common units of MagnaChip Semiconductor LLC will be automatically converted into options to purchase shares of common stock of MagnaChip Semiconductor Corporation and outstanding warrants to purchase common units of MagnaChip Semiconductor LLC will be automatically converted into warrants to purchase shares of common stock of MagnaChip Semiconductor Corporation, all at a ratio of eight-for-one.

Table of Contents**CAPITALIZATION**

The following table sets forth the following information:

the actual capitalization of MagnaChip Semiconductor LLC as of September 30, 2010; and

our pro forma capitalization as of September 30, 2010 after giving effect to the sale of _____ shares of our common stock in this offering at an initial public offering price of \$ _____ per share (the midpoint of the range set forth on the front cover of this prospectus), after the deduction of the underwriting discounts and commissions of \$ _____ million and the estimated offering expenses of \$ _____ million payable by us, and the application of the related proceeds as described under Use of Proceeds.

This table should be read together with Use of Proceeds, Selected Historical Consolidated Financial and Operating Data, Unaudited Pro Forma Consolidated Financial Information, Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and related notes included elsewhere in this prospectus.

	As of September 30, 2010	
	Actual	Pro Forma(1)
	(in millions)	
Indebtedness (including current maturities)		
10.500% senior notes due 2018(2)	\$ 246.8	\$ 246.8
Stockholders' equity:		
Common stock, \$0.01 par value; 150,000,000 shares authorized, 38,401,984 shares issued and outstanding, actual; and _____ shares issued and outstanding, pro forma	0.4	
Preferred stock, \$0.01 par value, no shares authorized, issued and outstanding, actual; 5,000,000 shares authorized, no shares issued and outstanding, pro forma		
Additional paid-in capital	95.0	
Retained earnings	59.9	59.9
Accumulated other comprehensive loss	8.1	8.1
Total stockholders' equity	147.1	
Total capitalization	\$ 393.9	\$

- (1) A \$1.00 decrease or increase in the assumed initial public offering price would result in approximately a \$ _____ million decrease or increase in each of pro forma additional paid-in capital, total stockholders' equity and total capitalization, assuming the total number of shares offered by us remains the same and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.
- (2) Represents principal amount of notes net of original issue discount of \$3.2 million.

Table of Contents**DILUTION**

Our net tangible book value as of September 30, 2010 was approximately \$107.6 million, or \$2.80 per share of our common stock. Net tangible book value represents our total tangible assets reduced by our total liabilities as of September 30, 2010. Net tangible book value per share represents net tangible book value divided by the number of shares of common stock outstanding as of September 30, 2010. Dilution in net tangible book value per share represents the difference between the amount per share that you pay in this offering and the pro forma net tangible book value per share immediately after this offering.

After giving effect to the receipt of the estimated net proceeds from the sale by us of _____ shares, our net tangible book value as of September 30, 2010 on a pro forma basis would have been \$ _____ million, or \$ _____ per share of common stock. This represents an immediate increase in pro forma net tangible book value per share of \$ _____ to existing stockholders and an immediate decrease in pro forma net tangible book value per share of \$ _____ to you. The following table illustrates the dilution.

Assumed initial public offering price per share	\$
Net tangible book value per share as of September 30, 2010	\$ 2.80
Increase in pro forma net tangible book value per share attributable to new investors	
Pro forma net tangible book value per share after giving effect to this offering	
Dilution per share to new investors	\$

A \$1.00 increase or decrease in the assumed initial public offering price of \$ _____ per share would increase or decrease the pro forma net tangible book value per share after giving effect to this offering by \$ _____ per share and would increase or decrease the dilution in pro forma net tangible book value per share to investors in this offering by \$ _____ per share. This calculation assumes that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and reflects the deduction of the underwriting discounts and commissions and estimated expenses of this offering.

If the underwriters exercise their option to purchase additional shares of our common stock from us in full in this offering, the pro forma net tangible book value per share after the offering would be \$ _____ per share, the increase in pro forma net tangible book value per share to existing stockholders would be \$ _____ per share and the dilution to new investors purchasing shares in this offering would be \$ _____ per share.

The following table sets forth, as of September 30, 2010, on the pro forma basis giving effect to this offering, the differences between the amounts paid or to be paid by the groups set forth in the table with respect to the aggregate number of shares of our common stock acquired or to be acquired by each group.

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	% (2)	Amount	% (2)	
(In millions, except share and % data)					
Existing stockholders	38,401,984	%	\$ 46.8	%	\$
New investors(1)					
Total		%	\$	%	\$

- (1) Before deduction of the underwriting discounts and commissions and estimated offering expenses payable by us.
(2) Sales by the selling stockholders in this offering will reduce the number of shares held by existing stockholders to _____, or _____% of the total number of shares of our common stock to be outstanding after the offering, and will increase the number of shares held by new

investors to , or % of the total number of shares of our common stock to be outstanding after the offering.

Table of Contents

If the underwriters' option to purchase additional shares from us and the selling stockholders is exercised in full, the number of shares of common stock held by existing stockholders will be reduced to _____ shares, or _____ % of the aggregate number of shares of common stock outstanding after this offering, and the number of shares of common stock held by new investors will be increased to _____ shares, or _____ % of the aggregate number of shares of common stock outstanding after this offering. The total consideration paid by our existing stockholders would be \$ _____ million, or _____ %, and the total consideration paid by our new investors would be \$ _____ million, or _____ % and the average price per share paid by our existing stockholders and new investors would be \$ _____ and \$ _____, respectively.

To the extent that any outstanding options and warrants to purchase shares of our common stock are exercised, investors in this offering will experience further dilution. The table below sets forth the matters described with respect to the table above and assumes the exercise of all options and warrants outstanding or exercisable as of September 30, 2010. Assuming such exercise, the total number of shares purchased would be increased as a result of the additional shares underlying the options and warrants being issued. Therefore the percentage of shares purchased by the existing stockholders and new investors relative to all three groups would be decreased. Similarly, as a result of the option and warrant exercises, the total consideration to be received by us would be increased because of the additional cash received by us from option and warrant exercises. Such increase in total consideration would have the effect of decreasing the percentage of total consideration paid by the existing stockholders and new investors relative to all three groups. The average price per share for the existing stockholders and new investors would remain unchanged.

	Shares Purchased Number	% (3)	Total Consideration Amount	% (3)	Average Price Per Share
	(In millions, except share and % data)				
Existing stockholders	38,401,984	%	\$ 46.8	%	\$
New investors(1)					
Option and warrant holders(2)	3,846,891		42.0		10.92
Total		%	\$	%	\$

- (1) Before deduction of the underwriting discounts and commissions and estimated offering expenses payable by us.
- (2) Includes shares of common stock issuable upon exercise of options previously granted to our officers, directors and employees and warrants issued in connection with our reorganization proceedings.
- (3) Sales by the selling stockholders in this offering will reduce the number of shares held by existing stockholders to _____, or _____ % of the total number of shares of our common stock to be outstanding after the offering, and will increase the number of shares held by new investors to _____, or _____ % of the total number of shares of our common stock to be outstanding after the offering.

If the underwriters' option to purchase additional shares from us and the selling stockholders is exercised in full, the number of shares of common stock held by existing stockholders will be reduced to _____ shares, or _____ % of the aggregate number of shares of common stock outstanding after this offering, and the number of shares of common stock held by new investors will be increased to _____ shares, or _____ % of the aggregate number of shares of common stock outstanding after this offering. The total consideration paid by our existing stockholders would be \$ _____ million, or _____ %, and the total consideration paid by our new investors would be \$ _____ million, or _____ % and the average price per share paid by our existing stockholders and new investors would be \$ _____ and \$ _____, respectively.

Table of Contents

SELECTED HISTORICAL CONSOLIDATED FINANCIAL AND OPERATING DATA

The following tables set forth selected historical consolidated financial data of MagnaChip Semiconductor LLC (to be converted into MagnaChip Semiconductor Corporation in connection with this offering) on or as of the dates and for the periods indicated. The selected historical consolidated financial data presented below should be read together with Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements, including the notes to those consolidated financial statements, appearing elsewhere in this prospectus.

We have derived the selected consolidated financial data as of December 31, 2009 and 2008 and for the two-month period ended December 31, 2009, the ten-month period ended October 25, 2009 and the years ended December 31, 2008 and 2007 from the historical audited consolidated financial statements of MagnaChip Semiconductor LLC included elsewhere in this prospectus. We have derived the unaudited consolidated statement of operations data for the nine months ended September 30, 2010 and September 27, 2009 from the unaudited interim consolidated financial statements of MagnaChip Semiconductor LLC included elsewhere in this prospectus. We have derived the selected consolidated financial data as of December 31, 2007, 2006 and 2005 and for the years ended December 31, 2006 and 2005 from the historical audited consolidated financial statements of MagnaChip Semiconductor LLC not included in this prospectus. We have derived the selected consolidated financial data as of September 30, 2010 from the unaudited interim consolidated financial statements of MagnaChip Semiconductor LLC included elsewhere in this prospectus. We derived the unaudited consolidated balance sheet data as of September 27, 2009 from our unaudited interim consolidated financial statements not included in this prospectus. The historical consolidated financial data for the nine months ended September 30, 2010 and the two-month period ended December 31, 2009 give retroactive effect to the corporate conversion. The historical results of MagnaChip Semiconductor LLC for any prior period are not necessarily indicative of the results to be expected in any future period, and financial results for any interim period are not necessarily indicative of results for a full year.

In connection with our emergence from reorganization proceedings, we implemented fresh-start accounting in accordance with applicable ASC 852 governing reorganizations. We elected to adopt a convenience date of October 25, 2009 (a month end for our financial reporting purposes) for application of fresh-start accounting. In accordance with the ASC 852 governing reorganizations, we recorded largely non-cash reorganization income and expense items directly associated with our reorganization proceedings including professional fees, the revaluation of assets, the effects of our reorganization plan and fresh-start accounting and write-off of debt issuance costs. As a result of the application of fresh-start accounting, our financial statements prior to and including October 25, 2009 represent the operations of our pre-reorganization predecessor company and are presented separately from the financial statements of our post-reorganization successor company. As a result of the application of fresh-start accounting, the financial statements prior to and including October 25, 2009 are not fully comparable with the financial statements for periods on or after October 25, 2009.

* Derived from our unaudited interim consolidated financial statements.

** Derived from our audited consolidated financial statements.

- (1) As of October 25, 2009, the fresh-start adoption date, we adopted fresh-start accounting for our consolidated financial statements. Because of the emergence from reorganization proceedings and adoption of fresh-start accounting, the historical financial information for periods after October 25, 2009 is not fully comparable to periods before October 25, 2009. See Management's Discussion and Analysis of Financial Condition and Results of Operations - Recent Changes to Our Business.
- (2) Total indebtedness is calculated as long and short-term borrowings, including the current portion of long-term borrowings and interest-bearing liabilities subject to compromise.
- (3) Long-term obligations include long-term borrowings, capital leases and redeemable convertible preferred units, including interest-bearing liabilities subject to compromise.
- (4) We define Adjusted EBITDA as net income (loss) less income (loss) from discontinued operations, net of taxes, adjusted to exclude (i) depreciation and amortization associated with continuing operations, (ii) interest expense, net, (iii) income tax expenses, (iv) restructuring and impairment charges, (v) other restructuring charges, (vi) abandoned IPO expenses, (vii) subcontractor claim

Table of Contents

settlement, (viii) the increase in cost of sales resulting from the fresh-start inventory accounting step-up, (ix) equity-based compensation expense, (x) reorganization items, net, (xi) foreign currency gain (loss), net and (xii) derivative valuation gain (loss), net. See the footnotes to the table below for further information regarding these items. We present Adjusted EBITDA as a supplemental measure of our performance because:

Adjusted EBITDA eliminates the impact of a number of items that may be either one time or recurring items that we do not consider to be indicative of our core ongoing operating performance;

we believe that Adjusted EBITDA is an enterprise level performance measure commonly reported and widely used by analysts and investors in our industry;

we anticipate that our investor and analyst presentations after we are public will include Adjusted EBITDA; and

we believe that Adjusted EBITDA provides investors with a more consistent measurement of period to period performance of our core operations, as well as a comparison of our operating performance to that of other companies in our industry.

We use Adjusted EBITDA in a number of ways, including:

for planning purposes, including the preparation of our annual operating budget;

to evaluate the effectiveness of our enterprise level business strategies;

in communications with our board of directors concerning our consolidated financial performance; and

in certain of our compensation plans as a performance measure for determining incentive compensation payments.

We encourage you to evaluate each adjustment and the reasons we consider them appropriate. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses similar to the adjustments in this presentation. Adjusted EBITDA is not a measure defined in accordance with GAAP and should not be construed as an alternative to income from continuing operations, cash flows from operating activities or net income (loss), as determined in accordance with GAAP. A reconciliation of net income (loss) to Adjusted EBITDA is as follows:

	Successor		Historical	Predecessor		Years Ended	
	Nine Months Ended September 30, 2010	Two-Month Period Ended December 31, 2009	Ten-Month Period Ended October 25, 2009	Nine Months Ended September 27, 2009	2008	2007	December 31, 2007
Net income (loss)	\$ 61.8	\$ (2.0)	\$ 841.1	\$ 20.4	\$ (417.3)	\$ (180.6)

Derivative valuation loss, net(i)	0.7					
Adjusted EBITDA	\$ 118.2	\$ 22.1	\$ 76.6	\$ 66.1	\$ 59.8	\$ 111.2

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, (ii) for the nine months ended September 27, 2009, the closure of our research and development facilities in Japan, (iii) for 2009, termination benefits and other related costs, for the ten-month period ended October 25, 2009 in connection with the closure of one of our research and development facilities in Japan, (iv) for 2008, goodwill impairment triggered by the significant adverse change in the revenue of our mobile display solutions, or MDS reporting unit, and a reversal of a portion of the restructuring accrual related to the closure of our Gumi five-inch wafer fabrication facilities in 2007, and (v) for 2007, the closure of our Gumi five-inch wafer fabrication facilities. We do not believe these restructuring and impairment charges are indicative of our core ongoing operating performance because we do not anticipate similar facility closures and market driven events in our ongoing operations, although we cannot guarantee that similar events will not occur in the future.

Table of Contents

- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are comprised of the following: (i) for the nine months ended September 27, 2009, a charge of \$12.2 million for restructuring-related professional fees and related expenses, (ii) for 2009, a charge of \$13.3 million for restructuring-related professional fees and related expenses, and (iii) for 2008, a charge of \$6.2 million for restructuring-related professional fees and related expenses. We do not believe these other restructuring charges are indicative of our core ongoing operating performance because these charges were related, in significant part, to actions we took in response to the impacts on our business resulting from the global economic recession that persisted through 2008 and 2009. We cannot guarantee that similar charges will not be incurred in the future.
- (c) This adjustment eliminates a \$3.7 million charge in 2008 related to expenses incurred in connection with our abandoned initial public offering in 2008. We do not believe that these charges are indicative of our core operating performance. We expect to incur similar costs in connection with this offering.
- (d) This adjustment eliminates a \$1.3 million charge attributable to a one-time settlement of claims with a subcontractor. We no longer obtain services from this subcontractor and do not expect to incur similar charges in the future.
- (e) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others, professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. Included in reorganization items, net for the ten-month period ended October 25, 2009 was our predecessor's gain recognized from the effects of our reorganization proceedings. The gain results from the difference between our predecessor's carrying value of remaining pre-petition liabilities subject to compromise and the amounts to be distributed pursuant to the reorganization proceedings. The gain from the effects of the reorganization proceedings and the application of fresh-start accounting principles is comprised of the discharge of liabilities subject to compromise, net of the issuance of new common units and new warrants and the accrual of amounts to be settled in cash. For details regarding this adjustment, see note 5 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus. We do not believe these items are indicative of our core ongoing operating performance because they were incurred as a result of our Chapter 11 reorganization.
- (f) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (g) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these non-cash expenses, as supplemental information.
- (h) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables. Although we expect to incur foreign currency translation gains or losses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these primarily non-cash gains or losses, as supplemental information.
- (i) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

Adjusted EBITDA does not consider the potentially dilutive impact of issuing equity-based compensation to our management team and employees;

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

Adjusted EBITDA does not reflect the costs of holding certain assets and liabilities in foreign currencies; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally.

- (5) We present Adjusted Net Income as a further supplemental measure of our performance. We prepare Adjusted Net Income by adjusting net income (loss) to eliminate the impact of a number of non-cash expenses and other items that may be either one time or recurring that we do not consider to be indicative of our core ongoing operating performance. We believe that Adjusted Net Income is particularly useful because it reflects the impact of our asset base and capital structure on our operating performance.

Table of Contents

We present Adjusted Net Income for a number of reasons, including:

we use Adjusted Net Income in communications with our board of directors concerning our consolidated financial performance;

we believe that Adjusted Net Income is an enterprise level performance measure commonly reported and widely used by analysts and investors in our industry; and

we anticipate that our investor and analyst presentations after we are public will include Adjusted Net Income.

Adjusted Net Income is not a measure defined in accordance with GAAP and should not be construed as an alternative to income from continuing operations, cash flows from operating activities or net income (loss), as determined in accordance with GAAP. We encourage you to evaluate each adjustment and the reasons we consider them appropriate. Other companies in our industry may calculate Adjusted Net Income differently than we do, limiting its usefulness as a comparative measure. In addition, in evaluating Adjusted Net Income, you should be aware that in the future we may incur expenses similar to the adjustments in this presentation. We define Adjusted Net Income as net income (loss) less income (loss) from discontinued operations, net of taxes, excluding (i) restructuring and impairment charges, (ii) other restructuring charges, (iii) abandoned IPO expenses, (vi) subcontractor claim settlement, (v) reorganization items, net, (vi) the increase in cost of sales resulting from the fresh-start accounting inventory step-up, (vii) equity based compensation expense, (viii) amortization of intangibles associated with continuing operations, (ix) foreign currency gain (loss) and (x) derivative valuation gain (loss), net.

The following table summarizes the adjustments to net income (loss) that we make in order to calculate Adjusted Net Income for the periods indicated:

	Successor		Historical	Predecessor		Years Ended December 31,	
	Nine Months Ended September 30, 2010	Two-Month Period Ended December 31, 2009	Ten-Month Period Ended October 25, 2009	Nine Months Ended September 27, 2009	2008	2007	
Net income (loss)	\$ 61.8	\$ (2.0)	\$ 841.1	\$ 20.4	\$ (417.3)	\$ (180.6)	
Less: Income (loss) from discontinued operations, net of taxes		0.5	6.6	7.2	(91.5)	(51.7)	
Income (loss) from continuing operations	61.8	(2.5)	834.5	13.2	(325.8)	(128.8)	
Adjustments:							
Restructuring and impairment charges(a)	1.0		0.4	0.4	13.4	12.1	
Other restructuring charges(b)			13.3	12.2	6.2		
Abandoned IPO expenses(c)					3.7		
Subcontractor claim settlement(d)						1.3	
Reorganization items, net(e)			(804.6)	4.5			
Inventory step-up(f)	0.9	17.2					
Equity based compensation expense(g)	4.1	2.2	0.2	0.2	0.5	0.6	
Amortization of intangibles associated with continuing operations(h)	18.1	5.6	8.8	8.0	20.0	27.5	
Foreign currency loss (gain), net(i)	(14.7)	(9.3)	(43.4)	(36.0)	210.4	4.7	
Derivative valuation loss, net(j)	0.7						
Adjusted Net Income (Loss)	\$ 71.9	\$ 13.3	\$ 9.3	\$ 2.5	\$ (71.7)	\$ (82.6)	

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, (ii) for the nine months ended September 27, 2009, the closure of our research and development facilities in Japan, (iii) for 2009, termination benefits and other related costs, for the ten-month period ended October 25, 2009 in connection with the closure of one of our research and development facilities in Japan, (iv) for 2008, goodwill impairment triggered by the significant adverse change in the revenue of our MDS reporting unit and a reversal of a portion of the restructuring accrual related to the closure of our Gumi five-inch wafer fabrication facilities in 2007, and (v) for 2007, the closure of our Gumi five-inch wafer fabrication facilities. We do not believe these restructuring and impairment charges are indicative of our core ongoing operating performance because we do not anticipate similar facility closures and market driven events in our ongoing operations, although we cannot guarantee that similar events will not occur in the future.
- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are comprised of the

Table of Contents

following: (i) for the nine months ended September 27, 2009, a charge of \$12.2 million for restructuring-related professional fees and related expenses, (ii) for 2009, a charge of \$13.3 million for restructuring-related professional fees and related expenses, and (iii) for 2008, a charge of \$6.2 million for restructuring-related professional fees and related expenses. We do not believe these other restructuring charges are indicative of our core ongoing operating performance because these charges were related, in significant part, to actions we took in response to the impacts on our business resulting from the global economic recession that persisted through 2008 and 2009. We cannot guarantee that similar charges will not be incurred in the future.

- (c) This adjustment eliminates a \$3.7 million charge in 2008 related to expenses incurred in connection with our abandoned initial public offering in 2008. We do not believe that these charges are indicative of our core operating performance. We expect to incur costs in connection with this offering.
- (d) This adjustment eliminates a \$1.3 million charge attributable to a one-time settlement of claims with a subcontractor. We no longer obtain services from this subcontractor and do not expect to incur similar charges in the future.
- (e) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others, professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. Included in reorganization items, net for the ten-month period ended October 25, 2009 was our predecessor's gain recognized from the effects of our reorganization proceedings. The gain results from the difference between our predecessor's carrying value of remaining pre-petition liabilities subject to compromise and the amounts to be distributed pursuant to the reorganization proceedings. The gain from the effects of the reorganization proceedings and the application of fresh-start accounting principles is comprised of the discharge of liabilities subject to compromise, net of the issuance of new common units and new warrants and the accrual of amounts to be settled in cash. For details regarding this adjustment, see note 5 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus. We do not believe these items are indicative of our core ongoing operating performance because they were incurred as a result of our reorganization proceedings.
- (f) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (g) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these non-cash expenses, as supplemental information.
- (h) This adjustment eliminates the non-cash impact of amortization expense for intangible assets created as a result of the purchase accounting treatment of the Original Acquisition and other subsequent acquisitions, and from the application of fresh-start accounting in connection with the reorganization proceedings. We do not believe these non-cash amortization expenses for intangibles are indicative of our core ongoing operating performance because the assets would not have been capitalized on our balance sheet but for the application of purchase accounting or fresh-start accounting, as applicable.
- (i) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables. Although we expect to incur foreign currency translation gains or losses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these primarily non-cash gains or losses, as supplemental information.
- (j) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

Adjusted Net Income has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted Net Income does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted Net Income does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted Net Income does not consider the potentially dilutive impact of issuing equity-based compensation to our management team and employees;

Adjusted Net Income does not reflect the costs of holding certain assets and liabilities in foreign currencies; and

other companies in our industry may calculate Adjusted Net Income differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted Net Income should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted Net Income only supplementally.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL INFORMATION

We have prepared the unaudited pro forma condensed consolidated financial information of MagnaChip for the combined twelve-month period ended December 31, 2009 and for the nine months ended September 30, 2010 and in accordance with Article 11 of Regulation S-X.

The unaudited pro forma condensed consolidated statements of operations for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009 is derived from the historical consolidated financial statements of MagnaChip Semiconductor LLC and gives pro forma effect to the following as if these events had occurred on January 1, 2009:

the reorganization proceedings and adoption of fresh-start reporting;

the corporate conversion; and

the issuance of \$250 million senior notes by MagnaChip Semiconductor S.A. and MagnaChip Semiconductor Finance Company, our wholly-owned subsidiaries, and the application of the net proceeds therefrom.

Basis of Presentation

The following information should be read in conjunction with Selected Historical Consolidated Financial and Operating Data, Management's Discussion and Analysis of Financial Condition and Results of Operations, Risk Factors, Capitalization and the audited and unaudited consolidated financial statements of MagnaChip Semiconductor LLC and the related notes included elsewhere in this prospectus. The unaudited pro forma consolidated financial information is not necessarily indicative of operating results or the financial position that would have been achieved if the transactions identified above had occurred on the dates indicated, nor does it purport to represent the results we will obtain in the future.

Management has prepared the accompanying unaudited pro forma condensed consolidated statements of operations for the combined twelve-month period ended December 31, 2009 and the nine months ended September 30, 2010 in accordance with Article 11 of Regulation S-X for inclusion in this prospectus.

The accounting policies used in the preparation of the unaudited pro forma consolidated financial statements are those disclosed in the audited consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009.

The following unaudited pro forma condensed consolidated financial information should be read in conjunction with Capitalization, Selected Historical Consolidated Financial and Operating Data, Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements, including the notes to those consolidated financial statements, included elsewhere in this prospectus.

The Reorganization Proceedings and Fresh-Start Reporting

On June 12, 2009 MagnaChip Semiconductor LLC, along with certain of its subsidiaries, including MagnaChip Semiconductor S.A., filed a voluntary petition for relief in the United States Bankruptcy Court for the District of Delaware under Chapter 11 of the United States Bankruptcy Code. On November 9, 2009, our plan of reorganization became effective and we emerged from the reorganization proceedings.

Table of Contents

In connection with our emergence from the reorganization proceedings, we implemented fresh-start accounting in accordance with ASC 852. We elected to adopt a convenience date of October 25, 2009 (a month end for our financial reporting purposes) for application of fresh-start accounting. In accordance with ASC 852, we recorded largely non-cash reorganization income and expense items directly associated with our reorganization proceedings including the revaluation of assets, the effects of our reorganization plan and fresh-start accounting, the write-off of debt issuance costs and professional fees.

In implementing fresh-start accounting, we re-measured our asset values and stated all liabilities, other than deferred taxes and severance benefits, at fair value or at present values of the amounts to be paid using appropriate market interest rates. As of October 25, 2009, the fair value of our assets and the fair value or present value of our liabilities were as follows:

	Successor October 25, 2009
Assets:	
Cash and cash equivalents	\$ 67.6
Inventories	69.3
Other current assets	110.5
Property plant and equipment	158.4
Intangible assets	55.2
Other non-current assets	24.5
Total Assets	485.5
Liabilities:	
Current portion long term debt	0.5
Other current liabilities	123.9
Long-term debt	61.3
Other non-current liabilities	81.5
Total liabilities	267.2
Net Assets acquired	\$ 218.4

The intangible assets recognized as part of fresh-start accounting and the related estimated useful lives are as follows:

Intangible Assets	Fair Value	Estimated Useful lives
Technology	\$ 14.7	1-5
Customer relationships	26.1	0.5-5
Intellectual property assets	4.7	4
In-process research and development	9.7	
Total Intangible Assets	\$ 55.2	

The adjustments made for the reorganization proceedings in the unaudited pro forma condensed consolidated statements of operations for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009 assumes the financial effects on us resulting from the implementation of the Chapter 11 plan of reorganization and the adoption of fresh-start accounting as described above.

Table of Contents**The Corporate Conversion**

Prior to the effectiveness of the registration statement of which this prospectus is a part, MagnaChip Semiconductor LLC will convert from a Delaware limited liability company to a Delaware corporation. The corporate conversion adjustments in the unaudited pro forma consolidated financial information for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009 assume the consummation of the corporate conversion of MagnaChip Semiconductor LLC and the effectiveness of our certificate of incorporation, which is expected to occur prior to the effectiveness of the registration statement of which this prospectus is a part. No U.S. federal taxable income or taxable gain is expected to be recognized by MagnaChip Semiconductor Corporation as a result of our conversion from a limited liability company to a corporation.

Issuance of \$250 Million Senior Notes and Applications of Net Proceeds

On April 9, 2010, MagnaChip Semiconductor S.A. and MagnaChip Semiconductor Finance Company, our wholly-owned subsidiaries, completed the sale of \$250 million in aggregate principal amount of 10.500% senior notes due 2018 at an offering price of 98.674%. Net proceeds from the notes offering were \$238.4 million which represents \$250 million of principal amount net of \$3.3 million of original issue discount and \$8.3 million of debt issuance costs, including professional fees. Of the \$238.4 million of net proceeds, \$130.7 million was used to make a distribution to our unitholders and \$61.6 million was used to repay all outstanding borrowings under our term loan. The remaining proceeds of \$46.1 million were retained to fund working capital and for general corporate purposes.

Table of Contents

Notes to Unaudited Pro Forma Consolidated Financial Information for the Nine Months Ended September 30, 2010

- (1) To eliminate the \$0.9 million one-time impact on cost of sales associated with the step up of our inventory resulting from implementation of fresh-start accounting in 2009 which was charged to cost of sales in the historical statement of operations for the nine months ended September 30, 2010. The pro forma financial statements assume the transaction occurred as of January 1, 2009 and as such this amount is being eliminated from the historical statement of operations in presenting the unaudited pro forma statement of operations, as for pro forma purposes, this charge would not have occurred in the nine months ended September 30, 2010.
- (2) To eliminate interest expense of \$2.1 million which was incurred on our \$61.6 million aggregate principal amount new term loan and \$0.2 million write-off of debt issuance costs in connection with repayment of our new term loan which was recognized in the nine months ended September 30, 2010. In addition, the pro forma adjustment assumes the 10.500% senior notes in the aggregate principal amount of \$250.0 million, issued on April 9, 2010, were outstanding as of January 1, 2009. The resulting additional interest expense from our 10.500% senior notes would have been \$7.3 million using the effective interest rate method.
- (3) We believe that the pro forma adjustments related to the issuance of \$250 million aggregate principal amount of senior notes and the application of the net proceeds should not have an impact on income tax expense for the nine months ended September 30, 2010. The pro forma adjustment resulting in an increase in interest expense, net is primarily related to our foreign subsidiaries that have sufficient amounts of operating loss carry forwards and, accordingly, such pro forma adjustment will have no income tax impact.

In addition, we believe that there would be no or minimal tax impact from the corporate conversion and the change in tax status to a corporation. The corporate conversion does not impact MagnaChip Semiconductor LLC's operating structure which is a holding company without its own revenue or income generating activities with a history of consecutive losses. Accordingly, the converted MagnaChip Semiconductor Corporation is expected to have minimal net taxable income or loss for the nine months ended September 30, 2010 and in subsequent periods and therefore any tax consequences would be immaterial. Consequently, even if the corporate conversion had occurred as of January 1, 2009, we would expect that any tax consequences would have been immaterial.

Notes to Unaudited Pro Forma Consolidated Financial Information for the Twelve Month Period Ended December 31, 2009

- (1) To reflect the net change in historical cost of sales and selling, general and administrative expenses and research and development expenses of the predecessor company due to the application of fresh-start accounting as of January 1, 2009 which resulted in a reduction of \$13.9 million of tangible assets and an increase of \$28.3 million in intangible assets. The corresponding change in depreciation and amortization would have been a decrease in depreciation expense for tangible assets by \$7.4 million for the ten-month period ended October 25, 2009 and an increase in amortization expense for intangible assets by \$9.1 million for the same period. The useful lives were determined for each tangible asset, which are depreciated on a straight-line basis and range from two to 35 years with a weighted average useful life of 14 years. Technology and customer relationships are amortized on a straight-line

Table of Contents

basis over one-half to five years based on expected benefit periods. Patents, trademarks and property use rights are amortized on a straight-line basis over the periods of benefits for four years. The estimated useful life of tangibles and intangibles were determined based on expected benefits and/or economic availability for service periods. The aggregate depreciation and amortization expense was allocated to cost of sales and selling, general and administrative expenses and research and development expenses by (\$5.4) million, \$0.8 million, and \$6.4 million, respectively, in respect of the purpose of property, plant and equipment and intangible assets.

The adjustments referred to above are summarized as follows:

	Amortization	Depreciation (In millions)	Total
Cost of sales	\$	\$ (5.4)	\$ (5.4)
Selling, general and administrative expenses	1.3	(0.5)	0.8
Research and development expenses	7.9	(1.4)	6.4
	\$ 9.1	\$ (7.4)	\$ 1.8

- (2) To eliminate the one-time impact on cost of sales associated with the step up of our inventory of \$17.9 million, of which \$17.2 million was charged to cost of sales in the historical statement of operations for the two-month period ended December 31, 2009, applying the first in, first out method, or FIFO. This adjustment is considered a material non-recurring charge which is directly attributable to the reorganization proceedings and fresh-start accounting and as such is being eliminated from the historical statement of operations in presenting the unaudited pro forma statement of operations.
- (3) To eliminate interest expense of \$30.8 million of which \$29.6 million was incurred on our indebtedness outstanding prior to our reorganization proceedings which was recognized in the ten-month period ended October 25, 2009 and \$1.2 million was incurred on our new term loan which was recognized in the two-month period ended December 31, 2009. The \$29.6 million incurred on our indebtedness outstanding prior to our reorganization proceedings was comprised of \$21.6 million incurred on notes of \$750.0 million and \$8.0 million incurred under the senior secured credit facility of \$95.0 million which was recognized in the ten-month period ended October 25, 2009. In addition, the pro forma adjustment assumes the 10.500% senior notes in the aggregate principal amount of \$250.0 million, issued on April 9, 2010, were outstanding as of January 1, 2009. The resulting additional interest expense from our 10.500% senior notes would have been \$27.2 million using the effective interest rate method.
- (4) To reflect the elimination of the impact of the reorganization items, net recorded in the predecessor period in accordance with ASC 852 upon emergence from the reorganization proceedings, assumed to have occurred January 1, 2009 for the unaudited pro forma statement of operations. As such no adjustment for reorganization items should be reflected.
- (5) We believe that the pro forma adjustments related to the reorganization proceedings and adoption of fresh-start reporting and the issuance of \$250 million aggregate principal amount of senior notes and the application of the net proceeds should not have an impact on income tax expense for 2009. Those pro forma adjustments which would have income tax impacts, such as increase or decrease in depreciation and amortization expenses and decrease in interest expenses, net are primarily related to our foreign subsidiaries that have sufficient amounts of operating loss carry forwards and, accordingly, such pro forma adjustments will have no income tax impact.

In addition, we believe that there would be no income tax impact from the corporate conversion and the change in tax status to a corporation. The corporate conversion does not impact MagnaChip Semiconductor LLC's operating structure which is a holding company without its own revenue or income generating activities with a history of consecutive losses. Accordingly,

Table of Contents

the converted MagnaChip Semiconductor Corporation is expected to have minimal net taxable income or loss in 2009 and in subsequent years and therefore any tax consequences would be immaterial. Consequently, even if the corporate conversion had occurred as of January 1, 2009, we would expect that any tax consequences would have been immaterial.

- (6) To eliminate dividends accrued on preferred units, cancelled in connection with our emergence from reorganization proceedings, in the amount of \$6.3 million as of October 25, 2009.
- (7) Basic and diluted pro forma income per common share from continuing operations reflects the impact from the implementation of our plan of reorganization which represents the cancellation of our old common units and issuance of new common stock. The following table sets forth the computation of unaudited pro forma basic and diluted income per common share from continuing operations:

	Weighted Average Common Units/ Shares	Earnings per Common Unit/Share from Continuing Operations
Historical ten-month period ended October 25, 2009	52,923,483	\$ 15.65
Historical two-month period ended December 31, 2009	37,607,846	(0.07)
Pro forma adjustment for the ten-month period ended October 25, 2009 in conjunction with the implementation of the Plan of Reorganization		
Basic	(53,011,533)	
Diluted	(53,010,585)	
Pro forma for the combined twelve-month period ended December 31, 2009		
Basic	37,519,796	\$ 1.24
Diluted	37,520,744	\$ 1.24

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following discussion and analysis should be read in conjunction with the Selected Historical Consolidated Financial and Operating Data and our consolidated financial statements and the related notes included elsewhere in this prospectus. This discussion and analysis contains, in addition to historical information, forward-looking statements that include risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under the heading Risk Factors and elsewhere in this prospectus.

Overview

We are a Korea-based designer and manufacturer of analog and mixed-signal semiconductor products for high-volume consumer applications. We believe we have one of the broadest and deepest analog and mixed-signal semiconductor technology platforms in the industry, supported by our 30-year operating history, large portfolio of approximately 2,675 novel registered patents and 875 pending novel patent applications and extensive engineering and manufacturing process expertise. Our business is comprised of three key segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. Our Display Solutions products include display drivers that cover a wide range of flat panel displays and multimedia devices. Our Power Solutions products include discrete and integrated circuit solutions for power management in high-volume consumer applications. Our Semiconductor Manufacturing Services segment provides specialty analog and mixed-signal foundry services for fabless semiconductor companies that serve the consumer, computing and wireless end markets.

Our wide variety of analog and mixed-signal semiconductor products and manufacturing services combined with our deep technology platform allows us to address multiple high-growth end markets and to rapidly develop and introduce new products and services in response to market demands. Our substantial manufacturing operations in Korea and design centers in Korea and Japan place us at the core of the global consumer electronics supply chain. We believe this enables us to quickly and efficiently respond to our customers' needs and allows us to better service and capture additional demand from existing and new customers.

To maintain and increase our profitability, we must accurately forecast trends in demand for consumer electronics products that incorporate semiconductor products we produce. We must understand our customers' needs as well as the likely end market trends and demand in the markets they serve. We must balance the likely manufacturing utilization demand of our product businesses and foundry business to optimize our facilities utilization. We must also invest in relevant research and development activities and manufacturing capacity and purchase necessary materials on a timely basis to meet our customers' demand while maintaining our target margins and cash flow.

The semiconductor markets in which we participate are highly competitive. The prices of our products tend to decrease regularly over their useful lives, and such price decreases can be significant as new generations of products are introduced by us or our competitors. We strive to offset the impact of declining selling prices for existing products through cost reductions and the introduction of new products that command selling prices above the average selling price of our existing products. In addition, we seek to manage our inventories and manufacturing capacity so as to mitigate the risk of losses from product obsolescence.

Demand for our products and services is driven primarily by overall demand for consumer electronics products and can be adversely affected by periods of weak consumer spending or by

Table of Contents

market share losses by our customers. To mitigate the impact of market volatility on our business, we seek to address market segments and geographies with higher growth rates than the overall consumer electronics industry. For example, in recent years, we have experienced increasing demand from OEMs and consumers in China and Taiwan relative to overall demand for our products and services. We expect to derive a meaningful portion of our growth from growing demand in such markets. We also expect that new competitors will emerge in these markets that may place increased pressure on the pricing for our products and services, but we believe that we will be able to successfully compete based upon our higher quality products and services and that the impact from the increased competition will be more than offset by increased demand arising from such markets. Further, we believe we are well-positioned competitively as a result of our long operating history, existing manufacturing capacity and our Korea-based operations.

Within our Display Solutions and Power Solutions segments, net sales are driven by design wins in which we or another company is selected by an electronics OEM or other potential customer to supply its demand for a particular product. A customer will often have more than one supplier designed in to multi-source components for a particular product line. Once designed in, we often specify the pricing of a particular product for a set period of time, with periodic discussions and renegotiations of pricing with our customers. In any given period, our net sales depend heavily upon the end-market demand for the goods in which our products are used, the inventory levels maintained by our customers and in some cases, allocation of demand for components for a particular product among selected qualified suppliers.

Within the Semiconductor Manufacturing Services business, net sales are driven by customers' decisions on which manufacturing services provider to use for a particular product. Most of our semiconductor manufacturing services customers are fabless and depend upon service providers like us to manufacture their products. A customer will often have more than one supplier of manufacturing services; however, they tend to allocate a majority of manufacturing volume to one of their suppliers. We strive to be the primary supplier of manufacturing services to our customers. Once selected as a primary supplier, we often specify the pricing of a particular service on a per wafer basis for a set period of time, with periodic discussions and renegotiations of pricing with our customers. In any given period, our net sales depend heavily upon the end-market demand for the goods in which the products we manufacture for customers are used, the inventory levels maintained by our customers and in some cases, allocation of demand for manufacturing services among selected qualified suppliers.

In contrast to fabless semiconductor companies, our internal manufacturing capacity provides us with greater control over manufacturing costs and the ability to implement process and production improvements which can favorably impact gross profit margins. Our internal manufacturing capacity also allows for better control over delivery schedules, improved consistency over product quality and reliability and improved ability to protect intellectual property from misappropriation. However, having internal manufacturing capacity exposes us to the risk of under-utilization of manufacturing capacity which results in lower gross profit margins, particularly during downturns in the semiconductor industry.

Our products and services require investments in capital equipment. Analog and mixed-signal manufacturing facilities and processes are typically distinguished by the design and process implementation expertise rather than the use of the most advanced equipment. These processes also tend to migrate more slowly to smaller geometries due to technological barriers and increased costs. For example, some of our products use high-voltage technology that requires larger geometries and that may not migrate to smaller geometries for several years, if at all. Additionally, the performance of many of our products is not necessarily dependent on geometry. As a result, our manufacturing base and strategy does not require substantial investment in leading edge process equipment, allowing us to utilize our facilities and equipment over an extended period of time with moderate required capital investments. Generally, incremental capacity expansions in our segment of the market result in more

Table of Contents

moderate industry capacity expansion as compared to leading edge processes. As a result, this market, and we, specifically, are less likely to experience significant industry overcapacity, which can cause product prices to plunge dramatically. In general, we seek to invest in manufacturing capacity that can be used for multiple high-value applications over an extended period of time. We believe this capital investment strategy enables us to optimize our capital investments and facilitates deeper and more diversified product and service offerings.

Our success going forward will depend upon our ability to adapt to future challenges such as the emergence of new competitors for our products and services or the consolidation of current competitors. Additionally, we must innovate to remain ahead of, or at least rapidly adapt to, technological breakthroughs that may lead to a significant change in the technology necessary to deliver our products and services. We believe that our established relationships and close collaboration with leading customers enhance our visibility into new product opportunities, market and technology trends and improve our ability to meet these challenges successfully. In our Semiconductor Manufacturing Services business, we strive to maintain competitiveness and our position as a primary manufacturing services provider to our customers by offering high value added, unique processes, high flexibility and excellent service.

Controls and Procedures

In connection with the audits of our consolidated financial statements for the ten-month period ended October 25, 2009 and two-month period ended December 31, 2009, our independent registered public accounting firm has reported two control deficiencies which represent a material weakness in our internal control over financial reporting. The two control deficiencies that our independent registered public accounting firm reported to our board of directors (as we then did not have a separate audit committee) are that we do not have a sufficient number of financial personnel with requisite financial accounting experience and that our internal controls over non-routine transactions are not effective to ensure that accounting considerations are identified and appropriately recorded. We have identified and are taking steps intended to remediate this material weakness. See Management's Discussion and Analysis of Financial Condition and Results of Operations Controls and Procedures for management's remediation initiatives.

Recent Changes to Our Business

Beginning in the second half of 2008, we began to take steps to refocus our business strategy, enhance our operating efficiency and improve our cash flow and profitability. We restructured our continuing operations by reducing our cost structure, increasing our focus on our core, profitable technologies, products and customers, and implemented various initiatives to lower our manufacturing costs and improve our gross margins. In connection with these initiatives, we closed our Imaging Solutions business segment, which had been a source of substantial ongoing operating losses amounting to \$91.5 million and \$51.7 million in 2008 and 2007, respectively, and which required substantial ongoing capital investment. Our employee headcount has declined from 3,648 as of the end of July 2008 to 3,156 at the end of 2009. As a result of these actions, we were able to reduce our costs and improve our margins. Although our goal is to continue to focus on lower costs and improved margins on an ongoing basis, we expect that the financial benefits derived from our ongoing efforts will be incremental and any such benefits may be offset by other negative factors affecting our operations.

On June 12, 2009, we filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code in order to address the growing demands on our cash flow resulting from our long-term indebtedness. Our plan of reorganization went effective and we emerged from the reorganization proceeding on November 9, 2009. As a result of the plan of reorganization, our indebtedness was reduced from \$845.0 million immediately prior to the effectiveness of our plan of reorganization to \$61.8 million as of December 31, 2009.

Table of Contents

During the first half of 2009, we instituted company-wide voluntary salary reductions, which resulted in one-time savings for our continuing operations during 2009 and which in turn contributed to the decrease in salaries and related expenses in 2009 relative to 2008. In June 2009, we returned to our employees one-third of the amount by which their salaries had been reduced. We reinstated salaries to prior levels in July 2009.

In connection with our emergence from reorganization proceedings, we implemented fresh-start accounting in accordance with ASC 852 governing reorganizations. We elected to adopt a convenience date of October 25, 2009 (a month end for our financial reporting purposes) for application of fresh-start accounting. In accordance with ASC 852 governing reorganizations, we recorded largely non-cash reorganization income and expense items directly associated with our reorganization proceedings including professional fees, the revaluation of assets, the effects of our reorganization plan and fresh-start accounting, and write-off of debt issuance costs.

In implementing fresh-start accounting, we re-measured our asset values and stated all liabilities, other than deferred taxes and severance benefits, at fair value. Our reorganization value was determined based on consideration of numerous factors and various valuation methodologies, including discounted cash flows, believed by management and our financial advisors to be representative of our business and industry. Information regarding the determination of the reorganization value and application of fresh-start accounting is included in note 3 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus. In addition, under fresh-start accounting, accumulated deficit and accumulated other comprehensive income were eliminated.

Under fresh-start accounting, our inventory, net, and intangible assets, net, increased by \$17.9 million and \$28.3 million, respectively, and property, plant and equipment decreased by \$13.9 million, in each case to reflect the estimated fair value as of our emergence from our reorganization proceedings. As a result, our cost of sales for the two-month period ended December 31, 2009 included \$17.2 million of additional costs from the inventory step-up. This resulted in our gross margin for the two-month period ended December 31, 2009 being significantly lower than for the ten-month period ended October 25, 2009 and prior periods. The increase in intangible assets results in higher amortization expenses following our emergence from our reorganization proceedings which are included in cost of sales, selling general and administrative expenses and research and development expenses. The decrease in property, plant and equipment results in lower depreciation expenses, which are included in cost of sales, selling general and administrative expenses and research and development expenses following our emergence from our reorganization proceedings.

As a result of the application of fresh-start accounting, our consolidated financial statements prior to and including October 25, 2009 represent the operations of our pre-reorganization predecessor company and are presented separately from the consolidated financial statements of our post-reorganization successor company. For the purposes of our discussion and analysis of our results of operations, we often refer to results of operations for 2009 on a combined basis, including both the period before (predecessor company) and after (successor company) effectiveness of the plan of reorganization. We believe this comparison provides useful information as the principal impact of the plan of reorganization was on our debt and capital structure and not on our core operations; and many of the steps taken to improve our core operations had commenced prior to the commencement of our reorganization proceedings.

On April 9, 2010, we completed the sale of \$250 million in aggregate principal amount of 10.500% senior notes due 2018. Of the \$238.4 million of net proceeds, \$130.7 million was used to

Table of Contents

make a distribution to our unitholders and \$61.6 million was used to repay all outstanding borrowings under our term loan. The remaining proceeds of \$46.1 million were retained to fund working capital and for general corporate purposes. As a result of the higher level of indebtedness from our senior note offering, our interest expense will increase above that which was reported for the nine months ended September 30, 2010 to approximately \$20.8 million per nine months period.

Business Segments

We report in three separate business segments because we derive our revenues from three principal business lines: Display Solutions, Power Solutions, and Semiconductor Manufacturing Services. We have identified these segments based on how we allocate resources and assess our performance.

Display Solutions: Our Display Solutions products include source and gate drivers and timing controllers that cover a wide range of flat panel displays used in LCD televisions and LED televisions and displays, mobile PCs and mobile communications and entertainment devices. Our display solutions support the industry's most advanced display technologies, such as LTPS and AMOLED, as well as high-volume display technologies such as TFT. Our Display Solutions business represented 50.5%, 50.5% and 46.7% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis), 2008 and 2007, respectively and 40.3% and 52.6% of our net sales for the nine months ended September 30, 2010 and September 27, 2009, respectively.

Power Solutions: Our Power Solutions segment produces power management semiconductor products including discrete and integrated circuit solutions for power management in high-volume consumer applications. These products include MOSFETs, LED drivers, DC-DC converters, analog switches and linear regulators, such as low-dropout regulators, or LDOs. Our power solutions products are designed for applications such as mobile phones, LCD televisions, and desktop computers, and allow electronics manufacturers to achieve specific design goals of high efficiency and low standby power consumption. Going forward, we expect to continue to expand our power management product portfolio. Our Power Solutions business represented 2.2% and 0.9% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis) and 2008, respectively and 6.7% and 1.6% of our net sales for nine months ended September 30, 2010 and September 27, 2009, respectively.

Semiconductor Manufacturing Services: Our Semiconductor Manufacturing Services segment provides specialty analog and mixed-signal foundry services to fabless semiconductor companies that serve the consumer, computing and wireless end markets. We manufacture wafers based on our customers' product designs. We do not market these products directly to end customers but rather supply manufactured wafers and products to our customers to market to their end customers. We offer approximately 200 process flows to our manufacturing services customers. We also often partner with key customers to jointly develop or customize specialized processes that enable our customers to improve their products and allow us to develop unique manufacturing expertise. Our manufacturing services are targeted at customers who require differentiated, specialty analog and mixed-signal process technologies such as high voltage CMOS, embedded memory and power. These customers typically serve high-growth and high-volume applications in the consumer, computing and wireless end markets. Our Semiconductor Manufacturing Services business represented 46.7%, 47.7% and 45.2% of our net sales for the fiscal years ended December 31, 2009 (on a combined basis), 2008 and 2007, respectively and 52.8% and 45.1% of our net sales for the nine months ended September 30, 2010 and September 27, 2009, respectively.

Table of Contents

Additional Business Metrics Evaluated by Management

Adjusted EBITDA and Adjusted Net Income

We use the terms Adjusted EBITDA and Adjusted Net Income throughout this prospectus. Adjusted EBITDA, as we define it, is a non-GAAP measure. We define Adjusted EBITDA as net income (loss) less income (loss) from discontinued operations, net of taxes excluding (i) depreciation and amortization associated with continuing operations, (ii) interest expense, net, (iii) income tax expense, (iv) restructuring and impairment charges, (v) other restructuring charges, (vi) abandoned IPO expenses, (vii) subcontractor claim settlement, (viii) reorganization items, net, (ix) the increase in cost of sales resulting from the fresh-start inventory accounting step-up, (x) equity-based compensation expense, (xi) foreign currency gain (loss), net and (xii) derivative valuation gain (loss), net.

We define Adjusted Net Income as net income (loss) less income (loss) from discontinued operations, net of taxes excluding (i) restructuring and impairment charges, (ii) other restructuring charges, (iii) reorganization items, net, (iv) the increase in cost of sales resulting from the fresh-start inventory accounting step-up, (v) equity-based compensation expense, (vi) amortization of intangibles, (vii) foreign currency gain (loss), net and (viii) derivative valuation gain (loss), net.

We present Adjusted EBITDA as a supplemental measure of our performance because:

Adjusted EBITDA eliminates the impact of a number of items that may be either one time or recurring that we do not consider to be indicative of our core ongoing operating performance;

we believe that Adjusted EBITDA is an enterprise level performance measure commonly reported and widely used by analysts and investors in our industry;

we anticipate that our investor and analyst presentations after we are public will include Adjusted EBITDA; and

we believe that Adjusted EBITDA provides investors with a more consistent measurement of period to period performance of our core operations, as well as a comparison of our operating performance to companies in our industry.

We use Adjusted EBITDA in a number of ways, including:

for planning purposes, including the preparation of our annual operating budget;

to evaluate the effectiveness of our enterprise level business strategies;

in communications with our board of directors concerning our consolidated financial performance; and

in certain of our compensation plans as a performance measure for determining incentive compensation payments.

In evaluating Adjusted EBITDA and Adjusted Net Income, you should be aware that in the future we may incur expenses similar to the adjustments in our presentation of Adjusted EBITDA. Our presentation of Adjusted EBITDA and Adjusted Net Income should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA and Adjusted Net Income are not measures defined in accordance with GAAP and should not be construed as an alternative to operating income, cash flows from operating

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

activities or net income (loss), as determined in accordance with GAAP. For additional information regarding how we calculate Adjusted EBITDA and Adjusted Net Income, please see Prospectus Summary Summary Historical and Unaudited Pro Forma Consolidated Financial Data.

Table of Contents

On a pro forma basis, our Adjusted EBITDA and Adjusted Net Income for the nine months ended September 30, 2010 were \$118.2 million and \$67.0 million, respectively. On a pro forma basis, our Adjusted EBITDA and Adjusted Net Income for the combined twelve-month period ended December 31, 2009 were \$98.7 million and \$33.7 million, respectively. Our Adjusted EBITDA and Adjusted Net Income for the year ended December 31, 2008 were \$59.8 million and a loss of \$71.7 million, respectively. This improvement resulted from our restructuring efforts and improvements in market conditions.

Factors Affecting Our Results of Operations

Net Sales. We derive a majority of our sales (net of sales returns and allowances) from three reportable segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. Our product inventory is primarily located in Korea and is available for drop shipment globally. Outside of Korea, we maintain limited product inventory, and our sales representatives generally relay orders to our factories in Korea for fulfillment. We have strategically located our sales and technical support offices near concentrations of major customers. Our sales offices are located in Hong Kong, Japan, Korea, Taiwan, China, the United Kingdom and the United States. Our network of authorized agents and distributors consists of agents in the United States and Europe and distributors and agents in the Asia Pacific region. Our net sales from All other consist principally of rental income and, for 2007 and to a limited extent in 2008, semiconductor processing services for one customer where we completed a limited number of process steps, rather than the entire production process, which we refer to as unit processing.

We recognize revenue when risk and reward of ownership passes to the customer either upon shipment, upon product delivery at the customer's location or upon customer acceptance, depending on the terms of the arrangement. For the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, we sold products to over 420 and 185 customers, respectively, and our net sales to our ten largest customers represented 64% and 69% of our net sales for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, respectively. The increase in number of customers is due to the continuing growth of our Power Solutions business. We have a combined production capacity of over 131,000 eight-inch equivalent semiconductor wafers per month. We believe our large-scale, cost-effective fabrication facilities enable us to rapidly adjust our production levels to meet shifts in demand by our end customers.

Gross Profit. Our overall gross profit generally fluctuates as a result of changes in overall sales volumes and in the average selling prices of our products and services. Other factors that influence our gross profit include changes in product mix, the introduction of new products and services and subsequent generations of existing products and services, shifts in the utilization of our manufacturing facilities and the yields achieved by our manufacturing operations, changes in material, labor and other manufacturing costs and variation in depreciation expense. Gross profit varies by our operating segments.

Average Selling Prices. Average selling prices for our products tend to be highest at the time of introduction of new products which utilize the latest technology and tend to decrease over time as such products mature in the market and are replaced by next generation products. We strive to offset the impact of declining selling prices for existing products through our product development activities and by introducing new products that command selling prices above the average selling price of our existing products. In addition, we seek to manage our inventories and manufacturing capacity so as to preclude losses from product and productive capacity obsolescence.

Material Costs. Our cost of sales consists of costs of raw materials, such as silicon wafers, chemicals, gases and tape, packaging supplies, equipment maintenance and depreciation expenses. We use processes that require specialized raw materials, such as silicon wafers, that are generally available from a limited number of suppliers. If demand increases or supplies decrease, the costs of our raw materials could significantly increase.

Table of Contents

Labor Costs. A significant portion of our employees are located in Korea. Under Korean labor laws, most employees and certain executive officers with one or more years of service are entitled to severance benefits upon the termination of their employment based on their length of service and rate of pay. As of September 30, 2010, approximately 98% of our employees were eligible for severance benefits. We have in the past implemented temporary reductions in salaries to manage through downturns in the industry. We expect to and have reversed such temporary reductions when business conditions improve.

Depreciation Expense. We periodically evaluate the carrying values of long-lived assets, including property, plant and equipment and intangible assets, as well as the related depreciation periods. At September 30, 2010, we depreciated our property, plant and equipment using the straight-line method over the estimated useful lives of our assets. Depreciation rates vary from 30-40 years on buildings to five years for certain equipment and assets. Our evaluation of carrying values is based on various analyses including cash flow and profitability projections. If our projections indicate that future undiscounted cash flows are not sufficient to recover the carrying values of the related long-lived assets, the carrying value of the assets is impaired and will be reduced, with the reduction charged to expense so that the carrying value is equal to fair value.

Selling Expenses. We sell our products worldwide through a direct sales force as well as a network of sales agents and representatives to OEMs, including major branded customers and contract manufacturers, and indirectly through distributors. Selling expenses consist primarily of the personnel costs for the members of our direct sales force, a network of sales representatives and other costs of distribution. Personnel costs include base salary, benefits and incentive compensation. As incentive compensation is tied to various net sales goals, it will increase or decrease with net sales.

General and Administrative Expenses. General and administrative expenses consist of the costs of various corporate operations, including finance, legal, human resources and other administrative functions. These expenses primarily consist of payroll-related expenses, consulting and other professional fees and office facility-related expenses. Historically, our selling, general and administrative expenses have remained relatively constant as a percentage of net sales, and we expect this trend to continue in the future.

Research and Development. The rapid technological change and product obsolescence that characterize our industry require us to make continuous investments in research and development. Product development time frames vary but, in general, we incur research and development costs one to two years before generating sales from the associated new products. These expenses include personnel costs for members of our engineering workforce, cost of photomasks, silicon wafers and other non-recurring engineering charges related to product design. Additionally, we develop base-line process technology through experimentation and through the design and use of characterization wafers that help achieve commercially feasible yields for new products. The majority of research and development expenses are for process development that serves as a common technology platform for all of our product segments. Consequently, we do not allocate these expenses to individual segments. Although our research and development expenses declined significantly from 2008 to 2009, the expenses increased in the nine months ended September 30, 2010 and we expect the expenses to increase in future periods and to remain a relatively constant percentage of our net sales as we continue to increase our investments in research and development to develop additional products and expand our business.

Restructuring and Impairment Charges. We evaluate the recoverability of certain long-lived assets and in-process research and development assets on a periodic basis or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In our efforts to improve our overall profitability in future periods, we have closed or otherwise impaired, and may in the future close or impair, facilities that are underutilized and that are no longer aligned with our long-term business goals. For example, in 2007 we closed our five-inch fabrication facilities in Gumi, Korea and in 2008 we discontinued our Imaging Solutions business segment.

Table of Contents

Interest Expense, Net. Our interest expense was incurred under the Predecessor Company's senior secured credit facility, the Predecessor Company's second priority senior secured notes and senior subordinated notes and the Successor Company's new term loan under the Successor Company. Our new term loan bore interest at six-month LIBOR plus 12%, and was minimally offset by interest income on cash balances. In April 2010, we repaid our new term loan with a portion of the proceeds from our sale of \$250 million in aggregate principal amount of 10.500% senior notes due 2018. As a result of our reorganization, we expect that our interest expense will decrease in amount and as a percentage of net sales relative to historical periods. However, as a result of our senior notes offering, our interest expense will increase above that which was reported for the nine months ended September 30, 2010 to approximately \$20.8 million per nine months period.

Impact of Foreign Currency Exchange Rates on Reported Results of Operations. Historically, a portion of our revenues and greater than the majority of our operating expenses and costs of sales have been denominated in non-U.S. currencies, principally the Korean won, and we expect that this will remain true in the future. Because we report our results of operations in U.S. dollars, changes in the exchange rate between the Korean won and the U.S. dollar could materially impact our reported results of operations and distort period to period comparisons. In particular, because of the difference in the amount of our consolidated revenues and expenses that are in U.S. dollars relative to Korean won, depreciation in the U.S. dollar relative to the Korean won could result in a material increase in reported costs relative to revenues, and therefore could cause our profit margins and operating income (loss) from continuing operations to appear to decline materially, particularly relative to prior periods. The converse is true if the U.S. dollar were to appreciate relative to the Korean won. As a result of such foreign currency fluctuations, it could be more difficult to detect underlying trends in our business and results of operations. In addition, to the extent that fluctuations in currency exchange rates cause our results of operations to differ from our expectations or the expectations of our investors, the trading price of our stock could be adversely affected.

For periods ended on or prior to October 25, 2009, we converted our non-U.S. revenues and expenses into U.S. dollars based on cumulative average exchange rates over the periods presented. Beginning on October 25, 2009, we convert our non-U.S. revenues and expenses into U.S. dollars based on monthly average exchange rates. The following table provides the cumulative average exchange rates that we used to convert Korean won into U.S. dollars for each of the periods ended on or prior to October 25, 2009, as well as the monthly average exchange rates used for the two-month period ended December 31, 2009 and for the nine months ended September 30, 2010:

Period	Rate
Year ended December 31, 2007	929:1
Year ended December 31, 2008	1,099:1
Ten-month period ended October 25, 2009	1,302:1
Two-month period ended December 31, 2009	
November 2009	1,172:1
December 2009	1,165:1
Nine months ended September 27, 2009	1,315:1
Nine months ended September 30, 2010	
January 2010	1,139:1
February 2010	1,157:1
March 2010	1,138:1
April 2010	1,117:1
May 2010	1,163:1
June 2010	1,212:1
July 2010	1,207:1
August 2010	1,180:1
September 2010	1,167:1

Table of Contents

As a result of the depreciation of the Korean won against the U.S. dollar from 2007 to 2008 and from 2008 to 2009, foreign currency fluctuations generally had a materially beneficial impact on our reported profit margins and operating income (loss) from continuing operations for such periods. In contrast, as a result of the appreciation of the Korean won against the U.S. dollar from the nine months ended September 27, 2009 to the nine months ended September 30, 2010, foreign currency fluctuations had an unfavorable impact on our reported profit margins and operating income (loss) from continuing operations for the current year period. In order to provide more detailed information regarding the impact of foreign currency fluctuations on our results of operations, in our discussion of period to period comparisons under the heading Results of Operations, we have included information regarding the impact of the year-to-year and nine months period-to-nine months period change in the Korean won/U.S. dollar exchange rate. The information, which is described below as the impact of the depreciation or appreciation of the Korean won against the U.S. dollar, measures the impact in the change in applicable monthly average exchange rate for the most recent period discussed as compared to the applicable cumulative average exchange rate during the prior period. For net sales that were originally denominated in Korean won, we have compared the applicable cumulative average exchange rate in effect for the prior period against the applicable monthly average exchange rate for the period in which the sale took place on a transaction-by-transaction basis. For cost of sales and other expenses, we have compared the applicable cumulative average exchange rate during the prior period to the applicable monthly average exchange rate during the current period and applied that to the amount of our aggregate cost of sales and other expenses for the period that were originally denominated in Korean won. A substantial portion of the net sales recorded at our Korean subsidiary are in U.S. dollars and are converted into Korean won for reporting purposes at the subsidiary level. Although this approach does not reflect the fluctuations of the currency exchange rates for every transaction on a day-to-day basis, we believe that it provides a useful indication of the magnitude of the exchange rate impact for the periods presented.

From time to time, we may engage in exchange rate hedging activities in an effort to mitigate the impact of exchange rate fluctuations. For example, in January 2010 and May 2010 our Korean subsidiary entered into foreign currency option and forward contracts in order to mitigate a portion of the impact of U.S. dollar-Korean won exchange rate fluctuations on our operating results. The January 2010 option and forward contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during each month of 2010 commencing February 2010 to our counterparty, in each case, in exchange for Korean won at specified fixed exchange rates. The May 2010 option and forward contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during the months of January 2011 through June 2011 to our counterparty, in each case, in exchange for Korean won at specified fixed exchange rates. In August 2010 our Korean subsidiary additionally entered into zero cost collar contracts for the same purpose with the above hedge contracts. The August 2010 zero cost collar contracts require us to sell specified notional amounts in U.S. dollars and provide us the option to sell specified notional amounts in U.S. dollars during the months of July 2011 through December 2011 to our counterparty, in each case, in exchange for Korean won at specified fixed exchange rates. Obligations under these foreign currency option and forward contracts must be cash collateralized if our exposure exceeds certain specified thresholds. These option and forward contracts may be terminated by the counterparty in a number of circumstances, including if our long-term debt rating falls below B-/B3 or if our total qualified and unrestricted cash and cash equivalents is less than \$30 million at the end of a fiscal quarter. For further information regarding the derivative financial instruments, see note 7 to our unaudited interim consolidated financial statements for the nine months ended September 30, 2010 elsewhere in this prospectus.

Foreign Currency Gain or Loss. Foreign currency translation gains or losses on transactions by us or our subsidiaries in a currency other than our or our subsidiaries' functional currency are

Table of Contents

included in our statements of operations as a component of other income (expense). A substantial portion of this net foreign currency gain or loss relates to non-cash translation gain or loss related to the principal balance of intercompany borrowings at our Korean subsidiary that are denominated in U.S. dollars. This gain or loss results from fluctuations in the exchange rate between the Korean won and U.S. dollar.

Income Taxes. We record our income taxes in each of the tax jurisdictions in which we operate. This process involves using an asset and liability approach whereby deferred tax assets and liabilities are recorded for differences in the financial reporting bases and tax bases of our assets and liabilities. We exercise significant management judgment in determining our provision for income taxes, deferred tax assets and liabilities. We periodically evaluate our deferred tax assets to ascertain whether it is more likely than not that the deferred tax assets will be realized. Our income tax expense has been low in absolute dollars and as a percentage of net sales principally due to the availability of tax loss carry-forwards and we expect such rate to remain low for at least the next few years.

Our operations are subject to income and transaction taxes in Korea and in multiple foreign jurisdictions. Significant estimates and judgments are required in determining our worldwide provision for income taxes. Some of these estimates are based on interpretations of existing tax laws or regulations. The ultimate amount of tax liability may be uncertain as a result.

Capital Expenditures. We invest in manufacturing equipment, software design tools and other tangible and intangible assets for capacity expansion and technology improvement. Capacity expansions and technology improvements typically occur in anticipation of seasonal increases in demand. We typically pay for capital expenditures in partial installments with portions due on order, delivery and final acceptance. Our capital expenditures include our payments for the purchase of property, plant and equipment as well as payments for the registration of intellectual property rights.

Inventories. We monitor our inventory levels in light of product development changes and market expectations. We may be required to take additional charges for quantities in excess of demand, cost in excess of market value and product age. Our analysis may take into consideration historical usage, expected demand, anticipated sales price, new product development schedules, the effect new products might have on the sales of existing products, product age, customer design activity, customer concentration and other factors. These forecasts require us to estimate our ability to predict demand for current and future products and compare those estimates with our current inventory levels and inventory purchase commitments. Our forecasts for our inventory may differ from actual inventory use.

Principles of Consolidation. Our consolidated financial statements include the accounts of our company and our wholly-owned subsidiaries. All intercompany transactions and balances are eliminated in consolidation.

Segments. We operate in three segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. Our Power Solutions segment began to generate net sales in the second quarter of 2008. Net sales and gross profit for the All other category primarily relate to certain business activities that do not constitute operating or reportable segments.

Table of Contents**Results of Operations**

The following table sets forth, for the periods indicated, certain information related to our operations, expressed in U.S. dollars and as a percentage of our net sales:

	Successor Company				Predecessor Company

Net Sales

	Successor Company Nine Months Ended September 30, 2010		Predecessor Company Nine Months Ended September 27, 2009		Change Amount
	Amount	% of Net Sales	Amount	% of Net Sales	
	(In millions)				
Display Solutions	\$ 235.3	40.3%	\$ 209.4	52.6%	\$ 25.9
Power Solutions	38.9	6.7	6.4	1.6	32.4
Semiconductor Manufacturing Services	307.9	52.8	179.5	45.1	128.5

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

All other	1.5	0.3	2.5	0.6	(1.0)
	\$ 583.6	100.0%	\$ 397.8	100.0%	\$ 185.9

Net sales were \$583.6 million for the nine months ended September 30, 2010, a \$185.9 million, or 46.7%, increase, compared to \$397.8 million for the nine months ended September 27, 2009. This increase was primarily due to increases in our product sales volume driven by overall business recovery in the market, an improved product mix and a \$15.9 million favorable impact resulting from the appreciation of the Korean won against the U.S. dollar, which were partially offset by a decrease in average selling prices.

Table of Contents

Display Solutions. Net sales from our Display Solutions segment were \$235.3 million for the nine months ended September 30, 2010, a \$25.9 million, or 12.4%, increase from \$209.4 million for the nine months ended September 27, 2009. The increase was primarily due to a 35.4% increase in sales volume. Sales volume increased as the consumer electronics industry began to recover from the economic slowdown and demand and shipments for certain consumer electronics products such as digital televisions, PCs and smart phones increased. This increase was partially offset by a 17.3% decrease in average selling prices, which was primarily from display driver products for LCD televisions, PC monitors and mobile devices.

Power Solutions. Net sales from our Power Solutions segment were \$38.9 million for the nine months ended September 30, 2010, a \$32.4 million, or 504.6%, increase from \$6.4 million for the nine months ended September 27, 2009. The increase was primarily due to a 217.9% increase in sales volume and a 90.2% increase in average selling prices driven by an improved product mix and higher demand for MOSFET products from existing and new customers as we grew this business.

Semiconductor Manufacturing Services. Net sales from our Semiconductor Manufacturing Services segment were \$307.9 million for the nine months ended September 30, 2010, a \$128.5 million, or 71.6%, increase compared to net sales of \$179.5 million for the nine months ended September 27, 2009. This increase was primarily due to a 68.2% increase in sales volume and 2.2% increase in average selling prices of eight-inch equivalent wafers driven by a strong market demand upside due to the recovery from economic slowdown and an improved product mix of advanced process geometry.

All Other. Net sales from All other were \$1.5 million for the nine months ended September 30, 2010, \$1.0 million or 39.2% decrease compared to \$2.5 million for the nine months ended September 27, 2009. This decrease resulted from lower rental income due to the relocation of one lessee of our building.

Net Sales by Geographic Region

The following table sets forth our net sales by geographic region and the percentage of total net sales represented by each geographic region for the nine months ended September 30, 2010 and September 27, 2009:

	Successor Company Nine Months Ended September 30, 2010		Predecessor Company Nine Months Ended September 27, 2009		Change Amount
	Amount	% of Net Sales	Amount	% of Net Sales	
	(In millions)				
Korea	\$ 297.6	51.0%	\$ 218.1	54.8%	\$ 79.5
Asia Pacific	163.4	28.0	105.6	26.6	57.8
Japan	41.9	7.2	28.1	7.1	13.7
North America	68.8	11.8	39.3	9.9	29.4
Europe	10.8	1.9	6.6	1.6	4.3
Africa	1.1	0.2			1.1
	\$ 583.6	100.0%	\$ 397.8	100.0%	\$ 185.9

Net sales in Korea for the nine months ended September 30, 2010 increased compared to the nine months ended September 27, 2009, primarily due to the overall business recovery in the market and increased demand for Display Solutions products and Semiconductor Manufacturing Services. Net sales in Asia Pacific and North America for the nine months ended September 30, 2010 increased compared to the nine months ended September 27, 2009, primarily due to the overall business recovery in the market and increased demand for Semiconductor Manufacturing Services and Power Solution products.

Table of Contents**Gross Profit**

	Successor Company Nine Months Ended September 30, 2010		Predecessor Company Nine Months Ended September 27, 2009		Change Amount
	Amount	% of Net Sales	Amount	% of Net Sales	
	(In millions)				
Display Solutions	\$ 59.3	25.2%	\$ 56.8	27.1%	\$ 2.4
Power Solutions	5.7	14.7	1.1	16.7	4.6
Semiconductor Manufacturing Services	116.7	37.9	61.0	34.0	55.7
All other	1.5	100.0	2.5	100.0	(1.0)
	\$ 183.2	31.4%	\$ 121.4	30.5%	\$ 61.8

Total gross profit was \$183.2 million for the nine months ended September 30, 2010 as compared to \$121.4 million for the nine months ended September 27, 2009, a \$61.8 million, or 50.9%, increase. Gross profit as a percentage of net sales for the nine months ended September 30, 2010 was 31.4%, an increase of 0.9% from 30.5% for the nine months ended September 27, 2009. This increase in gross margin was primarily attributable to increased sales volume, partially offset by lower average selling prices and a \$14.6 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar as an unfavorable impact on cost of sales was in excess of a favorable impact on net sales. Gross margin during the nine months ended September 30, 2010 was adversely affected by a \$0.9 million increase in cost of sales associated with the step up of our inventory resulting from implementation of fresh-start accounting in 2009; higher costs associated with the sale of inventory which was manufactured in late 2009 at higher unit costs; and higher volume of sales of products with lower average sales prices due to a slower than expected transition from one of our legacy products to our latest generation of the product. Cost of sales for the nine months ended September 30, 2010 increased by \$124.0 million compared to the nine months ended September 27, 2009. The increase in cost of sales was primarily due to a \$30.5 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar, a \$26.8 million increase in material costs, a \$28.6 million increase in labor costs resulting from the increased sales volume and the reinstatement of our salary level from our company-wide voluntary salary reductions that were in effect in the first half of 2009, a \$12.6 million increase in subcontractor costs due to the increased sales volume and a \$25.6 million increase in overhead costs related to maintenance, repair and supplies expense incurred for maintaining higher level of utilization of our manufacturing facilities.

Display Solutions. Gross margin for our Display Solutions segment for the nine months ended September 30, 2010 decreased to 25.2% compared to 27.1% for the nine months ended September 27, 2009 primarily due to a 17.3% decrease in average selling prices. However, gross profit increased by \$2.4 million due to the increased sales volume. Cost of sales for the nine months ended September 30, 2010 increased by \$23.5 million compared to the nine months ended September 27, 2009, primarily due to a \$11.9 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar, a \$1.8 million increase in material costs, a \$6.5 million increase in labor costs resulting from the increased sales volume and the reinstatement of our salary level from our company-wide voluntary salary reductions that were in effect in the first half of 2009 and a \$1.3 million increase in subcontract costs.

Power Solutions. Gross margin for our Power Solutions segment for the nine months ended September 30, 2010 decreased to 14.7% compared to 16.7% for the nine months ended September 27, 2009. However, gross profit increased by \$4.6 million due to the increased sales volume and average selling prices. Cost of sales for the nine months ended September 30, 2010 increased by \$27.8 million compared to the nine months ended September 27, 2009, primarily due to a \$7.0 million increase in material costs, a \$2.7 million increase in labor costs, a \$11.1 million increase in

Table of Contents

subcontractor costs due to the increased sales volume, a \$3.0 million increase in overhead costs related to maintenance, repair and supplies expenses incurred for maintaining higher level of utilization of our manufacturing facilities, and a \$2.1 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar.

Semiconductor Manufacturing Services. Gross margin for our Semiconductor Manufacturing Services segment increased to 37.9% in the nine months ended September 30, 2010 from 34.0% in the nine months ended September 27, 2009. This increase was primarily due to a decrease in unit cost of sales resulting from higher utilization of our manufacturing facilities and improved product mix. Gross profit increased by \$55.7 million due to the increased sales volume and average selling prices. Cost of sales for the nine months ended September 30, 2010 increased by \$72.8 million compared to the nine months ended September 27, 2009, which was primarily attributable to a \$16.5 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar, a \$18.0 million increase in material costs and a \$19.4 million increase in labor costs resulting from the increased sales volume and the reinstatement of our salary level from our company-wide voluntary salary reductions that were in effect in the first half of 2009 and \$18.9 million increase in overhead costs related to maintenance, repair and supplies expense incurred for maintaining higher level of utilization of our manufacturing facilities.

All Other. Gross margin for All other remained the same as there is no cost of sales in either period.

Operating Expenses

Selling, General and Administrative Expenses. Selling, general, and administrative expenses were \$50.1 million, or 8.6% of net sales for the nine months ended September 30, 2010, compared to \$50.8 million, or 12.8% of net sales for the nine months ended September 27, 2009. The decrease of \$0.7 million, or 1.5%, was primarily attributable to a \$14.5 million decrease in outside service expenses, primarily due to a decrease in restructuring-related professional fees and related expenses. These decreases were partially offset by a \$4.1 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar, a \$7.5 million increase in salaries and severance benefits resulting from the reinstatement of our salary levels from our company-wide voluntary salary reductions that were in effect in the first half of 2009, and a \$0.6 million increase in amortization expenses due to the write-up of our intangible assets in accordance with fresh-start accounting.

Research and Development Expenses. Research and development expenses for the nine months ended September 30, 2010 were \$64.2 million, an increase of \$13.3 million, or 26.0%, from \$50.9 million for the nine months ended September 27, 2009. This increase was due to a \$5.7 million unfavorable impact resulting from the appreciation of the Korean won against the U.S. dollar, a \$4.4 million increase in salaries and related expenses resulting from the reinstatement of our salary levels from our company-wide voluntary salary reductions that were in effect in the first half of 2009, a \$1.8 million increase in material costs, a \$1.2 million increase in outside service fee and a \$5.1 million increase in amortization expenses due to the write-up of our intangible assets in accordance with fresh-start accounting. These increases were partially offset by a \$4.9 million decrease in costs transferred from manufacturing to research and development expenses due to improved facilities utilization resulting from our higher net sales. Research and development expenses as a percentage of net sales were 11.0% in the nine months ended September 30, 2010, compared to 12.8% in the nine months ended September 27, 2009.

Restructuring and Impairment Charges. Restructuring and impairment charges increased by \$0.6 million in the nine months ended September 30, 2010 compared to the nine months ended September 27, 2009. Impairment charges of \$1.0 million recorded in the nine months ended September 30, 2010 were related to impairment of in-process research and development projects,

Table of Contents

which were accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting projects. Of the impairment charges of \$1.0 million, \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of our annual impairment test of in-process research and development. Restructuring charges of \$0.4 million recorded in the nine months ended September 27, 2009 were related to the closure of our research and development facilities in Japan.

Operating Income from Continuing Operations

As a result of the foregoing, operating income from continuing operations increased by \$48.7 million, or 253.4%, in the nine months ended September 30, 2010 compared to the nine months ended September 27, 2009. As discussed above, the increase in operating income from continuing operations was primarily a result of the 46.7% increase in net sales over the prior period, partially offset by a \$13.3 million increase in research and development expenses during the same period. The increase in net sales for the nine months ended September 30, 2010 is mainly due to increased sales volume driven by overall business recovery in the market and an improved product mix, primarily in connection with our Semiconductor Manufacturing Services segment.

Other Income (Expense)

Interest Expense, Net. Net interest expense was \$15.9 million during the nine months ended September 30, 2010, a decrease of \$14.2 million compared to \$30.1 million for the nine months ended September 27, 2009. Interest expense for the nine months ended September 30, 2010 was incurred under our \$250.0 million principal amount senior notes issued on April 9, 2010 and partially incurred under our new term loan, which was fully repaid on April 9, 2010. Interest expense for the nine months ended September 27, 2009 was incurred under our \$750.0 million principal amount of notes and \$95.0 million senior secured credit facility. Upon our emergence from our reorganization proceedings, our \$750.0 million notes were discharged pursuant to the reorganization plan. \$33.3 million out of our senior secured credit facility was repaid in cash and \$61.8 million was refinanced with the new term loan on November 6, 2009.

Foreign Currency Gain (Loss), Net. Net foreign currency gain for the nine months ended September 30, 2010 was \$14.7 million, compared to net foreign currency gain of \$36.0 million for the nine months ended September 27, 2009. A substantial portion of our net foreign currency gain or loss is non-cash translation gain or loss recorded for intercompany borrowings at our Korean subsidiary and is affected by changes in the exchange rate between the Korean won and the U.S. dollar. Foreign currency translation gain from the intercompany borrowings was included in determining our consolidated net income since the intercompany borrowings were not considered long-term investments in nature because management intended to repay these intercompany borrowings at their respective maturity dates. The Korean won to U.S. dollar exchange rates were 1,142.0:1 and 1,196.4:1 using the first base rate as of September 30, 2010 and September 27, 2009, respectively, as quoted by the Korea Exchange Bank.

Others. Others for the nine months ended September 30, 2010 was comprised of dividend income from our investment in equity instruments and loss on valuation of derivatives which were designated as hedging instruments. The majority of the loss was loss on valuation of derivatives which represents either hedge ineffectiveness or components of changes in fair value of derivatives excluded from the assessments of hedge effectiveness.

Income Tax Expenses. Income tax expenses for the nine months ended September 30, 2010 were \$4.2 million, compared to income tax expenses of \$7.4 million for the nine months ended September 27, 2009. Income tax expenses for the nine months ended September 30, 2010 were

Table of Contents

comprised of \$0.9 million of current income tax expenses, net incurred in various jurisdictions in which our overseas subsidiaries are located, \$3.8 million of withholding taxes mostly accrued on intercompany interest payments, and a \$1.1 million income tax effect from the change of deferred tax assets less \$1.6 million reversal of liabilities for uncertain tax positions due to the lapse of the applicable statute of limitations. Due to the uncertainty of the utilization of foreign tax credits, we recognized full valuation allowance for the withholding taxes (deferred tax assets).

Income from Discontinued Operations, Net of Taxes

Income from Discontinued Operations, Net of Taxes. During 2008, we closed our Imaging Solutions business segment. During the nine months ended September 27, 2009, we recognized net income of \$7.2 million relating to our discontinued operations, largely due to the sales of patents related to our closed Imaging Solutions business segment, which resulted in an \$8.3 million gain.

Net Income

As a result of the foregoing, net income increased by \$41.5 million, or 203.8%, in the nine months ended September 30, 2010 compared to the nine months ended September 27, 2009. As discussed above, the increase in net income was primarily a result of a \$48.7, or 253.4% increase in operating income from continuing operations and a \$14.2 million, or 47.2% decrease in interest expense, net, partially offset by a \$21.3, or 59.1% decrease in foreign currency gain (loss), net and a \$7.2 million of income from discontinued operation recognized for the nine months ended September 30, 2009.

Table of Contents**Results of Operations Comparison of Years Ended December 31, 2009 and December 31, 2008**

The following table sets forth consolidated results of operations for the two-month period ended December 31, 2009, the ten-month period ended October 25, 2009 and the year ended December 31, 2008:

	Successor Company		Predecessor Company				Change Amount

Table of Contents*Net Sales*

	Successor Company		Predecessor Company				
	Two-Month Period Ended		Ten-Month Period Ended		Year Ended		
	December 31, 2009		October 25, 2009		December 31, 2008		
	Amount	% of net sales	Amount	% of net sales	Amount	% of net sales	Change Amount
	(In millions)						
Display Solutions	\$ 51.0	46.0%	\$ 231.9	51.6%	\$ 304.1	50.5%	\$ (21.2)
Power Solutions	4.7	4.3	7.6	1.7	5.4	0.9	6.9
Semiconductor Manufacturing Services	54.8	49.3	206.7	46.0	287.1	47.7	(25.7)
All other	0.5	0.5	2.8	0.6	5.0	0.8	(1.7)
	\$ 111.1	100.0%	\$ 449.0	100.0%	\$ 601.7	100.0%	\$ (41.6)

Net sales were \$111.1 million for the two-month period ended December 31, 2009 and \$449.0 million for the ten-month period ended October 25, 2009, or \$560.1 million in aggregate, a \$41.6 million, or 6.9%, decrease, compared to \$601.7 million in 2008. Net sales generated in our three operating segments during 2009 in aggregate were \$556.7 million, a decrease of \$39.9 million, or 6.7%, from 2008. This decrease was principally due to the impact of the depreciation of the Korean won against the U.S. dollar in the amount of \$17.6 million and a decrease in average selling prices of our products, both of which were partially offset by increases in product sales volume. Among our segments, net sales decreased for our Display Solutions and our Semiconductor Manufacturing Service segments which was offset in part by an increase in net sales from our Power Solutions segment.

Display Solutions. Net sales from Display Solutions were \$51.0 million for the two-month period ended December 31, 2009 and \$231.9 million for the ten-month period ended October 25, 2009, or \$282.9 million in aggregate, a \$21.2 million, or 7.0%, decrease from \$304.1 million for 2008. The decrease resulted from a 24.9% decrease in average selling prices, primarily from display driver products for LCD televisions, PC monitors and mobile devices. The reduction in average selling prices in 2009 resulted in part from reduced demand for consumer electronics products generally, and new products in particular, during the first half of 2009 as a result of the worldwide economic slowdown. These decreases in average selling prices were partially offset by a 24.6% increase in sales volume. Volume increased in the second half of 2009 as the consumer electronics industry began to recover from the economic slowdown as demand and shipments for consumer electronics products such as digital televisions, PCs, and smartphones increased.

Power Solutions. Net sales from Power Solutions were \$4.7 million for the two-month period ended December 31, 2009 and \$7.6 million for the ten-month period ended October 25, 2009, or \$12.4 million in aggregate, a \$6.9 million, or 127.6%, increase from \$5.4 million for 2008. The increase resulted from a 221.3% increase in sales volume, most of which was attributable to higher demand for MOSFET products driven by our existing and new customers. Such increases in volume were partially offset by a 29.4% decrease in average sales prices. We were able to attract new customers, largely due to MOSFET products utilized in high voltage technologies and computing solutions.

Semiconductor Manufacturing Services. Net sales from Semiconductor Manufacturing Services were \$54.8 million for the two-month period ended December 31, 2009 and \$206.7 million for the ten-month period ended October 25, 2009, or \$261.4 million in aggregate, a \$25.7 million, or 8.9%,

Table of Contents

decrease compared to net sales of \$287.1 million for 2008. This decrease was primarily due to a 0.5% decrease in sales volume and 3.4% decrease in average selling price of eight-inch equivalent wafers given decreased market demand for such products.

All other. Net sales from All other were \$0.5 million for the two-month period ended December 31, 2009 and \$2.8 million for the ten-month period ended October 25, 2009, or \$3.3 million in aggregate compared to \$5.0 million for 2008. This decrease of \$1.7 million, or 33.6%, resulted from lower rental income due to the relocation of one of the lessees of one of our buildings.

Net Sales by Geographic Region

The following table sets forth our net sales by geographic region and the percentage of total net sales represented by each geographic region for the two-month period ended December 31, 2009, the ten-month period ended October 25, 2009 and the year ended December 31, 2008:

	Successor Company		Predecessor Company				Change Amount
	Two-Month Period Ended	% of net sales	Ten-Month Period Ended	% of net sales	Year Ended	% of net sales	
	December 31, 2009		October 25, 2009		December 31, 2008		
	Amount		Amount		Amount		
	(In millions)						
Korea	\$ 62.2	56.0%	\$ 244.3	54.4%	\$ 301.0	50.0%	\$ 5.5
Asia Pacific	25.6	23.0	116.9	26.0	144.5	24.0	(2.0)
Japan	6.5	5.8	31.6	7.0	79.9	13.3	(41.8)
North America	14.9	13.4	48.5	10.8	61.3	10.2	2.0
Europe	1.9	1.7	7.7	1.7	14.9	2.5	(5.4)
	\$ 111.1	100.0%	\$ 449.0	100.0%	\$ 601.7	100.0%	\$ (41.6)

Net sales in Japan in 2009 declined as a percentage of total net sales principally as a result of declines in customer sales relating to electronic games due to the overall slowness in that market.

Gross Profit

	Successor Company		Predecessor Company				Change Amount
	Two-Month Period Ended	% of net sales	Ten-Month Period Ended	% of net sales	Year Ended	% of net sales	
	December 31, 2009		October 25, 2009		December 31, 2008		
	Amount		Amount		Amount		
	(In millions)						
Display Solutions	\$ 8.7	17.1%	\$ 61.8	26.6%	\$ 57.4	18.9%	\$ 13.1
Power Solutions	0.7	15.5	1.4	18.8	(4.3)	(78.6)	6.4

All other	0.5	100.0	2.8	100.0	4.9	97.3	(1.6)
	\$ 20.7	18.6%	\$ 137.8	30.7%	\$ 156.4	26.0%	\$ 2.1

Table of Contents

Total gross profit was \$20.7 million for the two-month period ended December 31, 2009 and \$137.8 million for the ten-month period ended October 25, 2009, or \$158.5 million in aggregate as compared to \$156.4 million for 2008, a \$2.1 million, or 1.3%, increase. Gross margin, or gross profit as a percentage of net sales, in 2009 was 28.3%, an increase of 2.3% from 26.0% for the year ended December 31, 2008. This increase in gross margin was primarily attributable to a \$22.8 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar and an increase in sales volume. These increases were partially offset by lower average selling prices and the impact of a \$17.2 million increase in our cost of sales as a result of the write-up of our inventory in accordance with the principles of fresh-start accounting upon the consummation of our reorganization proceedings. Cost of sales for the combined twelve-month period ended December 31, 2009 decreased by \$43.7 million compared to 2008. The decreases in cost of sales were primarily due to a \$40.4 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar, a \$10.2 million decrease in labor costs, a \$9.6 million decrease in subcontractor costs and a \$3.2 million decrease in depreciation, which were partially offset by a \$6.4 million increase in material costs resulting from the increase in sales volume and a \$1.8 million increase of overhead costs. Gross margin for the two-month period ended December 31, 2009 was 18.6% as compared to 30.7% for the ten-month period ended October 25, 2009. Gross margin was higher in the ten-month period ended October 25, 2009 compared to the two-month period ended December 31, 2009 principally due to a \$17.2 million one-time impact on cost of sales which is recorded in the two-month period ended December 31, 2009 associated with the step up of our inventory as a result of adoption of fresh-start accounting. As of December 31, 2009, \$0.7 million of the total increase in inventory valuation remained. We included the remaining increase in inventory valuation in cost of sales for the quarter ending March 31, 2010. As a result, we expect gross margin in future periods to return to historical levels, excluding foreign currency fluctuation impacts.

Display Solutions. Gross margin for Display Solutions for the combined twelve-month period ended December 31, 2009 improved to 24.9% compared to 18.9% for the year ended December 31, 2008 primarily due to a decrease in unit costs resulting from a 24.6% increase in sales volume compared to 2008 offset in part by lower average selling prices and the impact of the write-up of our inventory in accordance with fresh-start accounting. Cost of sales for the combined twelve-month period ended December 31, 2009 decreased by \$34.3 million compared to 2008, primarily due to a \$17.8 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar, a \$7.1 million decrease in labor costs, a \$8.2 million decrease in subcontractor costs and a \$3.8 million decrease in depreciation, which were partially offset by a \$3.8 million increase in material costs due to increased sales volume and a \$7.2 million increase resulting from the step-up of our inventory valuation as a result of our adoption of fresh-start accounting.

Power Solutions. Gross margin for Power Solutions for the combined twelve-month period ended December 31, 2009 improved to 17.5% compared to (78.6)% for the year ended December 31, 2008 primarily due to lower unit costs resulting from the 221.3% increase in sales volume offset in part by lower average selling prices and the impact of the write-up of our inventory in accordance with fresh-start accounting. Cost of sales for the combined twelve-month period ended December 31, 2009 increased by \$0.5 million compared to 2008, primarily due to a \$2.3 million increase in material costs and a \$1.1 million increase in overhead costs, which were partially offset by a \$0.7 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar. Gross margin was negative in 2008 as we first began operating the segment in late 2007 and had not yet achieved sales volumes required to generate a positive gross margin.

Semiconductor Manufacturing Services. Gross margin for Semiconductor Manufacturing Services decreased to 31.6% in the combined twelve-month period ended December 31, 2009 from 34.3% in the year ended December 31, 2008. This decrease was primarily due to an overall decrease in production volume and average selling prices in an aggregate amount of \$29.5 million, partially

Table of Contents

offset by a \$13.6 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar. Cost of sales for the combined twelve-month period ended December 31, 2009 decreased by \$9.8 million compared to 2008, which was primarily attributable to a \$21.9 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar, which was offset in part by a \$0.4 million increase in material costs and a \$10.9 million increase resulting from the step-up of our inventory valuation as a result of our adoption of fresh-start accounting.

All other. Gross margin for All other for the combined twelve-month period ended December 31, 2009 increased to 100.0% from 97.3% for the year ended December 31, 2008. All net sales included in All other in 2009 represent rent revenues for which there is no cost of sales. For 2008, All other included limited revenue from unit processing which resulted in a gross margin of 97.3%.

Operating Expenses

Selling, General and Administrative Expenses. Selling, general, and administrative expenses were \$70.8 million, or 12.6%, of net sales for the combined twelve-month period ended December 31, 2009 compared to \$81.3 million, or 13.5%, for 2008. The decrease of \$10.5 million, or 12.9%, from the prior-year period was attributable to a decrease of \$7.2 million due to the depreciation of the Korean won against the U.S. dollar and a decrease of \$3.6 million due to a reduction in headcount and a short-term decrease in salaries and related expenses in connection with our cost-reduction efforts in 2009 as well as a decrease in depreciation and amortization expenses of \$4.9 million. These decreases were partially offset by a \$6.1 million increase in outside service expenses.

Research and Development Expenses. Research and development expenses for the combined twelve-month period ended December 31, 2009 were \$70.9 million, a decrease of \$18.6 million, or 20.8%, from \$89.5 million for the year ended December 31, 2008. This decrease was due to the depreciation of the Korean won against the U.S. dollar of \$8.5 million, a \$3.2 million decrease in salaries and related expenses due to lower headcount and our short-term decrease in salaries. Through our cost reduction initiatives, material costs decreased by \$4.8 million and outside service fees decreased by \$2.6 million. The remaining decrease in research and development expenses was attributable to reductions in various overhead expenses. Research and development expenses as a percentage of net sales were 12.7% in 2009, compared to 14.9% in 2008.

Restructuring and Impairment Charges. Restructuring and impairment charges decreased by \$12.9 million in the combined twelve-month period ended December 31, 2009 compared to the year ended December 31, 2008. Restructuring charges of \$0.4 million recorded in the ten-month period ended October 25, 2009 were related to the closure of one of our research and development facilities in Japan. Restructuring charges of \$13.4 million for the year ended December 31, 2008 reflected an impairment charge of \$14.2 million as a result of the significant reduction in net sales attributable to our Display Solutions products, offset in part by an \$0.9 million reversal of unused accrued restructuring charges from prior periods.

Operating Income (Loss) from Continuing Operations

As a result of the foregoing, operating income (loss) from continuing operations increased by \$44.1 million in the combined twelve-month period ended December 31, 2009 compared to a loss of \$27.7 million the year ended December 31, 2008. As discussed above, the increase in operating income from continuing operations was primarily a result of the decreases in Selling, general and administrative expenses and Research and development expenses, which are primarily due to the depreciation of the Korean won against the U.S. dollar, a decrease in depreciation and amortization expenses, and our cost reduction efforts to enhance our operating efficiency and improve our

Table of Contents

profitability. In connection with cost reduction, we implemented several restructuring plans including headcount reductions and a short-term decrease in salaries and related expenses, which had a positive effect on operating income.

Other Income (Expense)

Interest Expense, net. Net interest expense was \$32.4 million during the combined twelve-month period ended December 31, 2009, a decrease of \$43.7 million compared to \$76.1 million for the year ended December 31, 2008. Interest expense was incurred under our \$750 million principal amount of notes and our senior secured credit facility. From June 12, 2009, the date of our initial reorganization filing, to October 25, 2009, we did not accrue interest expenses related to our notes, which were categorized as liabilities subject to compromise. Upon our emergence from our reorganization proceedings, our \$750.0 million notes were discharged pursuant to the reorganization plan. Net interest expense in 2008 included a write-off of remaining debt issuance costs of \$12.3 million related to our notes since we were not compliant with certain financial covenants under the terms of our notes and therefore, amounts outstanding were reclassified as current portion of long-term debt in our balance sheet as of December 31, 2008.

Foreign Currency Gain (Loss), net. Net foreign currency gain for the combined twelve-month period ended December 31, 2009 was \$52.8 million, compared to net foreign exchange loss of \$210.4 million for the year ended December 31, 2008. A substantial portion of our net foreign currency gain or loss is non-cash translation gain or loss recorded for intercompany borrowings at our Korean subsidiary and is affected by changes in the exchange rate between the Korean won and the U.S. dollar. Foreign currency translation gain from the intercompany borrowings was included in determining our consolidated net income since the intercompany borrowings were not considered long-term investments in nature because management intended to repay these intercompany borrowings at their respective maturity dates. The Korean won to U.S. dollar exchange rates were 1,167.6:1 and 1,262.0:1 using the first base rate as of December 31, 2009 as quoted by the Korea Exchange Bank and the noon buying rate in effect as of December 31, 2008 as quoted by the Federal Reserve Bank of New York, respectively. The exchange rate quotation from the Federal Reserve Bank was available on or before December 31, 2008.

Reorganization items, net. Net reorganization gain of \$804.6 million in the ten-month period ended October 25, 2009 represents the impact of non-cash reorganization income and expense items directly associated with our reorganization proceedings and primarily reflects the discharge of liabilities of \$798.0 million. Net reorganization gain also includes professional fees, the revaluation of assets and the write-off of debt issuance costs. These items are related primarily to our reorganization proceedings, and are not the result of our current operations. Accordingly, we do not expect these items to continue on an ongoing basis. Further information on reorganization related items is discussed in note 5 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus.

Income Tax Expenses

Income Tax Expenses. Income tax expenses for the combined twelve-month period ended December 31, 2009 were \$9.2 million, compared to income tax expenses of \$11.6 million for the year ended December 31, 2008. Income tax expense for 2009 was comprised of \$6.7 million of withholding taxes mostly paid on intercompany interest payments, \$0.8 million of current income taxes incurred in various jurisdictions in which we operate and a \$1.7 million income tax effect from the change of deferred tax assets. Due to the uncertainty of the utilization of foreign tax credits, we did not recognize these withholding taxes as deferred tax assets.

Table of Contents**Income from discontinued operations, net of taxes**

Income from discontinued operations, net of taxes. During 2008, we closed our Imaging Solutions business segment, recognizing a net loss of \$91.5 million from discontinued operations, of which \$15.9 million was from negative gross margin, \$37.5 million was from research and development cost and \$34.2 million was attributable to restructuring and impairment charges incurred during the third quarter of 2008. During the combined twelve-month period ended December 31, 2009, we recognized net income of \$7.1 million relating to our discontinued operations, largely due to the sale of patents related to our closed Imaging Solutions business segment, which resulted in a \$8.3 million gain.

Net Income (Loss)

As a result of the foregoing, net income increased by \$1,256.4 million, in the combined twelve-month period ended December 31, 2009 compared to a loss of \$417.3 million the year ended December 31, 2008. As discussed above, the increase in net income was primarily a result of our emergence from reorganization proceedings. Upon emergence from reorganization proceedings, a substantial majority of our indebtedness was discharged and recorded as reorganization gain of \$804.6 million and such discharged liabilities resulted in a reduction in interest expense as well in the combined twelve-month period ended December 2009. In addition, for the year ended December 31, 2008, a substantial foreign currency loss of \$210.4 million due to the depreciation of the Korean won against the U.S. dollar and a net loss of \$91.5 million from the closure of our Imaging Solutions Business segment were recorded.

Results of Operations Comparison of Years Ended December 31, 2008 and December 31, 2007

The following table sets forth consolidated results of operations for the years ended December 31, 2008 and December 31, 2007:

	Predecessor Company				Change Amount
	Year Ended December 31, 2008	% of net sales	Year Ended December 31, 2007	% of net sales	
	Amount		Amount (In millions)		
Net sales	\$ 601.7	100.0%	\$ 709.5	100.0%	\$ (107.8)
Cost of sales	445.3	74.0	578.9	81.6	(133.6)
Gross profit	156.4	26.0	130.7	18.4	25.8
Selling, general and administrative expenses	81.3	13.5	82.7	11.7	(1.4)
Research and development expenses	89.5	14.9	90.8	12.8	(1.4)

Net income (loss)	\$ (417.3)	(69.4)%	\$ (180.6)	(25.4)%	\$ (236.7)
-------------------	------------	---------	------------	---------	------------

Table of Contents*Net Sales*

	Predecessor Company		Predecessor Company		Change Amount
	Year Ended		Year Ended		
	December 31, 2008	% of Total	December 31, 2007	% of total	
	Amount		Amount (In millions)		
Display Solutions	\$ 304.1	50.5%	\$ 331.7	46.7%	\$ (27.6)
Power Solutions	5.4	0.9			5.4
Semiconductor Manufacturing Services	287.1	47.7	321.0	45.2	(33.9)
All other	5.0	0.8	56.8	8.0	(51.8)
	\$ 601.7	100.0%	\$ 709.5	100.0%	\$ (107.8)

Net sales for the year ended December 31, 2008 decreased \$107.8 million, or 15.2%, compared to 2007. Net sales generated in our three operating segments during the year ended December 31, 2008 were \$596.6 million, a decrease of \$56.1 million, or 8.6%, from the net sales for 2007, primarily due to a \$27.6 million, or 8.3%, decrease in net sales from our Display Solutions segment and a \$33.9 million, or 10.6%, decrease in net sales from our Semiconductor Manufacturing Services segment. Net sales from All other decreased \$51.8 million, or 91.2%, compared to the year ended December 31, 2007. Our Korean-based net sales were also lower due to a \$21.8 million unfavorable impact resulting from the depreciation of the Korean won against the U.S. dollar.

Display Solutions. Net sales from our Display Solutions segment for the year ended December 31, 2008 were \$304.1 million, a \$27.6 million, or 8.3%, decrease, from \$331.7 million for 2007. The decrease resulted primarily from a 15.6% decline in average selling prices which was due to a higher percentage of our net sales of products with lower sales prices and a 4.6% decline in sales volume.

Power Solutions. Net sales from our Power Solutions segment for the year ended December 31, 2008 were \$5.4 million. No sales occurred for the year ended December 31, 2007 as our Power Solutions segment was launched in late 2007 and did not start making sales until 2008.

Semiconductor Manufacturing Services. Net sales from our Semiconductor Manufacturing Services segment for the year ended December 31, 2008 were \$287.1 million, a \$33.9 million, or 10.6%, decrease compared to net sales of \$321.0 million for 2007. This decrease was primarily due to a 5.5% decrease in average selling prices and 3.0% decrease in sales volume. During the fourth quarter of 2008 our net sales were adversely impacted by the worldwide economic slowdown.

All other. Net sales from All other for 2008 were \$5.0 million compared to \$56.8 million for 2007. This decrease of \$51.8 million, or 91.2%, represents the revenue decrease from our unit processing services as such services were no longer required by our sole customer for the service.

Table of Contents**Net Sales by Geographic Region**

The following table sets forth our net sales by geographic region and the percentage of total net sales represented by each geographic region for the years ended December 31, 2008 and December 31, 2007:

	Predecessor Company		Predecessor Company		Change Amount
	Year Ended December 31, 2008	% of Total	Year Ended December 31, 2007	% of Total	
	Amount		Amount (In millions)		
Korea	\$ 301.0	50.0%	\$ 404.3	57.0%	(103.3)
Asia Pacific	144.5	24.0	155.5	21.9	(11.0)
Japan	79.9	13.3	71.2	10.0	8.7
North America	61.3	10.2	58.5	8.2	2.8
Europe	14.9	2.5	20.0	2.8	(5.1)
Total net revenues	\$ 601.7	100.0%	\$ 709.5	100.0%	(107.8)

Net sales in Korea in 2008 declined as a percentage of total net sales, principally due to reduced revenue from unit processing services and the overall slowness in the semiconductor manufacturing market. The sales were also affected by lower demand for large display driver products.

Gross Profit

	Predecessor Company		Predecessor Company		Change Amount
	Year Ended December 31, 2008	% of net sales	Year Ended December 31, 2007	% of net sales	
	Amount		Amount (In millions)		
Display Solutions	\$ 57.4	18.9%	\$ 41.5	12.5%	\$ 15.9
Power Solutions	(4.3)	(78.6)			(4.3)
Semiconductor Manufacturing Services	98.4	34.3	67.1	20.9	31.3
All other	4.9	97.3	22.0	38.7	(17.1)
	\$ 156.4	26.0%	\$ 130.7	18.4%	\$ 25.8

Total gross profit increased \$25.8 million for the year ended December 31, 2008, or 19.7%, compared to the gross profit generated for the year ended December 31, 2007. Gross margin for the year ended December 31, 2008 was 26.0% of net sales, an increase of 7.6% from 18.4% for the year ended December 31, 2007. This increase in gross margin was attributable to a \$30.9 favorable impact due to the depreciation of the Korean won against the U.S. dollar and an overall decrease in unit costs which offset lower average sales prices. Cost of sales in 2008 decreased by \$133.6 million compared to 2007, primarily due to a \$52.7 million favorable impact resulting from the depreciation of Korean won against U.S. dollar, a \$17.4 million decrease in depreciation and a \$11.2 million decrease in overhead costs, which were partially offset by a \$6.3 million increase in labor costs. In addition, \$34.2 million in cost of sales for unit processing services which were incurred during 2007 were not incurred in 2008 as we no longer rendered the services.

Display Solutions. Gross margin for our Display Solutions segment for the year ended December 31, 2008 increased to 18.9% compared to 12.5% for 2007. This increase was primarily due

Table of Contents

to a \$18.3 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar. Cost of sales for 2008 decreased by \$43.5 million compared to 2007, which was primarily attributable to a \$24.8 million favorable impact resulting from the depreciation of Korean won against U.S. dollar and a \$5.5 million decrease in depreciation and a \$9.6 million decrease in subcontractor costs which were offset in part by a \$5.7 million increase in labor costs.

Power Solutions. Gross margin for our Power Solutions segment for the year ended December 31, 2008 was (78.6)%. This negative gross margin was due to high fixed production costs per unit resulting from low production volume as we commenced sales in our Power Solutions segment in 2008.

Semiconductor Manufacturing Services. Gross margin for our Semiconductor Manufacturing Services segment increased to 34.3% in the year ended December 31, 2008 from 20.9% for 2007. This increase was due to a decrease in cost of sales, primarily due to a \$13.0 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar. Cost of sales for 2008 decreased by \$65.2 million compared to 2007. The decrease was primarily attributable to a \$26.9 million favorable impact resulting from the depreciation of Korean won against U.S. dollar, a \$12.3 million decrease in depreciation and a \$11.6 million decrease in overhead costs, which were partially offset by a \$1.3 million increase in material costs.

All other. Gross margin for All other for the year ended December 31, 2008 increased to 97.3% from 38.7% for 2007. The improvement was primarily attributable to a decrease in sales volume for unit processing while rental revenue, for which there are no allocated cost of sales, remained comparable to the prior year.

Operating Expenses

Selling, General and Administrative Expenses. Selling, general, and administrative expenses were \$81.3 million, or 13.5%, of net sales for the year ended December 31, 2008 compared to \$82.7 million, or 11.7%, for 2007. The decrease of \$1.4 million, or 1.7%, was primarily attributable to a \$10.4 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar and a \$3.1 million decrease in depreciation and amortization expenses. These decreases were partially offset by a \$9.9 million increase in outside service fees and a \$3.6 million increase in salaries.

Research and Development Expenses. Research and development expenses for the year ended December 31, 2008 were \$89.5 million, a decrease of \$1.4 million, or 1.5%, from \$90.8 million for 2007. This decrease was primarily attributable to a \$11.3 million favorable impact resulting from the depreciation of the Korean won against the U.S. dollar partially offset by a \$7.1 million increase in salaries and a \$1.9 million increase in outside service fees.

Restructuring and Impairment Charges. Restructuring and impairment charges for the year ended December 31, 2008 included an impairment charge of \$14.2 million related to our Display Solutions segment. During the three months ended July 1, 2007, we recognized \$2.0 million of restructuring accruals related to the closure of our five-inch wafer fabrication facilities, including termination benefits and other associated costs. Through the first quarter of 2008, actual payments of \$1.1 million were charged against the restructuring accruals. As of March 30, 2008, the restructuring activities were substantially completed and we reversed \$0.9 million of unused restructuring accruals.

During the year ended December 31, 2007, we recognized restructuring and impairment charges of \$12.1 million, which consisted of \$10.1 million of impairment charges and \$2.0 million of restructuring charges. The impairment charges recorded related to the closure of our five-inch wafer fabrication facility.

Table of Contents***Operating Loss from Continuing Operations***

As a result of the foregoing, operating loss from continuing operations decreased by \$27.2 million, or 49.5%, in the year ended December 31, 2008 compared to the year ended December 31, 2007. As discussed above, the decrease in operating loss from continuing operations was primarily a result of a \$25.8 million increase in gross profit for the year ended December 31, 2008 in spite of a decrease in net sales due to the decline in average selling price and sales volume. Gross margin as a percentage of net sales for the year ended December 31, 2008 was 26.0%, improved from 18.4% for the year ended December 31, 2007, which was primarily due to a decrease in unit cost of sales resulting from decreases in depreciation and overhead costs and a favorable impact of depreciation of the Korean won against the U.S. dollar.

Other Income (Expense)

Interest Expense, net. Net interest expense was \$76.1 million during the year ended December 31, 2008, compared to \$60.3 million for 2007. Interest expense was incurred to service our notes and our senior secured credit facility. At December 31, 2008, the notes and our senior secured credit facility bore interest at a weighted average interest rate of 7.14% and 7.90%, respectively. The increase in net interest expense was mainly due to a write-off of remaining debt issuance costs of \$12.3 million related to our notes as of December 31, 2008 since we were not in compliance with certain financial covenants under the terms of our notes and therefore, amounts outstanding were reclassified as current in our balance sheet as of December 31, 2008.

Foreign Currency Gain (Loss), net. Net foreign currency loss for the year ended December 31, 2008 was \$210.4 million, compared to net foreign exchange loss of \$4.7 million for the year ended December 31, 2007. A substantial portion of our net foreign currency gain or loss is non-cash translation gain or loss recorded for intercompany borrowings at our Korean subsidiary and is affected by changes in the exchange rate between the Korean won and the U.S. dollar. Foreign currency translation gain from the intercompany borrowings was included in determining our consolidated net income since the intercompany borrowings were not considered long-term investments in nature because management intended to repay these intercompany borrowings at their respective maturity dates. The Korean won to U.S. dollar exchange rates were 1,262.0:1 and 935.8:1 using the noon buying rate in effect as of December 31, 2008 and December 31, 2007, respectively, as quoted by the Federal Reserve Bank of New York.

Income Tax Expenses

Income Tax Expenses. Income tax expenses for the year ended December 31, 2008 were \$11.6 million, compared to income tax expenses of \$8.8 million for 2007. Income tax expenses for 2008 were comprised of \$6.1 million of withholding taxes mostly paid on intercompany interest payments, \$4.0 million of current income taxes incurred in various jurisdictions in which we operate and a \$1.5 million income tax effect from a change of deferred tax assets. Due to the uncertainty of the utilization of foreign tax credits, we did not recognize these withholding taxes as deferred tax assets.

Loss from discontinued operations, net of taxes

Loss from discontinued operations, net of taxes. During 2008, we closed our Imaging Solutions business segment that was classified as a discontinued operation, recognizing net losses of \$91.5 million and \$51.7 million from discontinued operations for 2008 and for 2007, respectively. Of the recorded net loss of \$91.5 million in 2008, \$15.9 million was from negative gross margin, \$37.5 million was from research and development costs and \$34.2 million was attributable to restructuring and impairment charges incurred during the third quarter of 2008.

Table of Contents**Net Loss**

As a result of the foregoing, net loss increased by \$236.7 million, or 131.1%, in the year ended December 31, 2008 compared to the year ended December 31, 2007. As discussed above, the increase in net loss was primarily a result of a \$205.7 million increase in foreign currency loss due to unfavorable impact of depreciation of the Korean won against the U.S. dollar and a \$39.7 million increase in loss from discontinued operations, net of taxes.

Periodic Results of Operations

The following tables set forth unaudited selected consolidated financial data for each of the quarters in the seven-quarter period ended September 30, 2010. The information for each of these periods has been prepared on the same basis as the audited financial statements included elsewhere in this prospectus and, in the opinion of management, includes adjustments for normal recurring items, necessary for the fair statement of the results of operations for these periods. This data should be read in conjunction with our audited consolidated financial statements and related notes included elsewhere in this prospectus. These operating results are not necessarily indicative of our operating results for any future period.

* Derived from our unaudited interim consolidated financial statements.

** Derived from our audited consolidated financial statements.

(1) As of October 25, 2009, the fresh-start adoption date, we adopted fresh-start accounting for our consolidated financial statements. Because of the emergence from reorganization proceedings and adoption of fresh-start accounting, the historical financial information for periods after October 25, 2009 is not fully comparable to periods before October 25, 2009. See Management's Discussion and Analysis of Financial Condition and Results of Operations Recent Changes to Our Business.

Table of Contents

- (2) We define Adjusted EBITDA as net income (loss) less income (loss) from discontinued operations, net of taxes, adjusted to exclude (i) depreciation and amortization associated with continuing operations, (ii) interest expense, net, (iii) income tax expenses (benefits), (iv) restructuring and impairment charges, (v) other restructuring charges, (vi) abandoned IPO expenses, (vii) subcontractor claim settlement, (viii) the increase in cost of sales resulting from the fresh-start inventory accounting step-up, (ix) equity-based compensation expense, (x) reorganization items, net, (xi) foreign currency gain (loss), net and (xii) derivative valuation gain (loss), net. A reconciliation of net income (loss) to Adjusted EBITDA is as follows:

	Successor(1)			Two-Month Period Ended December 31, 2009**	One-Month Period Ended October 25, 2009*	Predecessor(1)

Adjusted EBITDA	\$ 45.7	\$ 43.8	\$ 28.7	\$ 22.1	\$ 10.6	\$ 34.5	\$ 29.3	\$ 2.3	

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, and (ii) for the three months ended June 28 and March 29, 2009, termination benefits and other related costs in connection with the closure of one of our research and development facilities in Japan.
- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are restructuring-related professional fees and related expenses incurred during each period.
- (c) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others,

Table of Contents

professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. These items are comprised of the following: (i) for the one-month period ended October 25, 2009, our predecessor's gain recognized upon the effectiveness of the reorganization plan which was primarily composed of debt discharge gains and net of reorganization related professional fees and other charges, and (ii) for three months ended September 27 and June 28, 2009, professional fees incurred in connection with our reorganization proceedings.

- (d) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (e) This adjustment eliminates the impact of non-cash equity-based compensation expenses.
- (f) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables.
- (g) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.
- (3) We define Adjusted Net Income as net income (loss) less income (loss) from discontinued operations, net of taxes, excluding (i) restructuring and impairment charges, (ii) other restructuring charges, (iii) abandoned IPO expenses, (vi) subcontractor claim settlement, (v) reorganization items, net, (vi) the increase in cost of sales resulting from the fresh-start accounting inventory step-up, (vii) equity based compensation expense, (viii) amortization of intangibles associated with continuing operations, (ix) foreign currency gain (loss) and (x) derivative valuation gain (loss), net. The following table summarizes the adjustments to net income (loss) that we make in order to calculate Adjusted Net Income for the periods indicated:

	Successor(1)			Two-Month Period Ended December 31, 2009**	One-Month Period Ended October 25, 2009*	Predecessor(1)		
	Three Months Ended					Three Months Ended

Table of Contents

- (a) This adjustment is comprised of all items included in the restructuring and impairment charges line item on our consolidated statements of operations, and eliminates the impact of restructuring and impairment charges related to (i) for the nine months ended September 30, 2010, impairment charges of \$1.0 million recorded, of which \$0.6 million of impairment charges were recognized for abandoned in-process research and development projects and \$0.4 million of impairment charges were recognized as a result of an annual impairment test of in-process research and development, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting, and (ii) for the three months ended June 28 and March 29, 2009, termination benefits and other related costs in connection with the closure of one of our research and development facilities in Japan.
- (b) This adjustment relates to certain restructuring charges that are not included in the restructuring and impairment charges line item on our consolidated statements of operations. These items are included in selling, general and administrative expenses in our consolidated statements of operations. These charges are restructuring-related professional fees and related expenses incurred during each period.
- (c) This adjustment eliminates the impact of largely non-cash reorganization income and expense items directly associated with our reorganization proceedings from our ongoing operations including, among others, professional fees, the revaluation of assets, the effects of the Chapter 11 reorganization plan and fresh-start accounting principles and the write-off of debt issuance costs. These items are comprised of the following: (i) for the one-month period ended October 25, 2009, our predecessor's gain recognized upon the effectiveness of the reorganization plan which was primarily composed of debt discharge gains and net of reorganization related professional fees and other charges, and (ii) for three months ended September 27 and June 28, 2009, professional fees incurred in connection with our reorganization proceedings.
- (d) This adjustment eliminates the one-time impact on cost of sales associated with the write-up of our inventory in accordance with the principles of fresh-start accounting upon consummation of the Chapter 11 reorganization.
- (e) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these non-cash expenses, as supplemental information.
- (f) This adjustment eliminates the non-cash impact of amortization expense for intangible assets created as a result of the purchase accounting treatment of the Original Acquisition and other subsequent acquisitions, and from the application of fresh-start accounting in connection with the reorganization proceedings.
- (g) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables.
- (h) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

Net sales have increased quarter over quarter since the first quarter of 2009, primarily as a result of increases in sales volume resulting from increased demand as the consumer electronics industry began to recover from the economic slowdown. Net sales increased 54.4% from the three months ended March 29, 2009 to the three months ended September 27, 2009 partially due to the fact that the first quarter is traditionally a seasonally slow quarter for us due to reduced demand for consumer products after the end of the holiday season. Our net sales for the three months ended March 31, 2010 increased by 10.6% from the combined three-month period ended December 31, 2009 as the overall recovery from the economic slowdown had a greater impact than our typical seasonal weakness. Our net sales for the three months ended June 30, 2010 increased by 8.5% from the three months ended March 31, 2010 due to the improved product mix and increased market demand as the consumer electronics industry continues to recover from the economic slowdown. Our net sales for the three months ended September 30, 2010 increased by 7.6% from the three months ended June 30, 2010, primarily due to the improved product mix and increased market demand for Semiconductor Manufacturing Services and Power Solutions products.

Gross margin increased to 34.6% and 33.3% in the three months ended June 28 and September 27, 2009, respectively, from 20.6% in the three months ended March 29, 2009. The increase was primarily related to an increase in sales volume resulting from increased demand in connection with the global economic recovery and the impact of our cost reduction efforts. Gross

Table of Contents

margin in the combined three-month period ended December 31, 2009 decreased primarily due to a \$17.2 million unfavorable impact which resulted from the write-up of our inventory in accordance with the principles of fresh-start accounting upon our emergence from reorganization proceedings. Gross margin in the three months ended March 31, 2010 improved as compared to the combined three-month period ended December 31, 2009 as the unfavorable impact from the inventory write-up of our inventory was limited to \$0.9 million which had not yet been recognized as of December 31, 2009. Gross margin increased to 33.1% in the three months ended June 30, 2010 from 27.5% in the three months ended March 31, 2010. The increase was primarily due to increased sales volume and improved utilization of our manufacturing facilities. Gross margin was 33.1% as a percent of revenue in the three months ended September 30, 2010, remained the same as the three months ended June 30, 2010.

Selling, general and administrative expenses for the three months ended June 28 and September 27, 2009 increased compared to the three months ended March 29, 2009 primarily due to the increase in outside service fees for restructuring-related professional fees and related expenses. Selling, general and administrative expenses for the combined three-month period ended December 31, 2009 increased compared to the three months ended September 27, 2009 due to an increase in salaries resulting from incentive payments made to our employees following our successful emergence from our reorganization proceedings and an increase in amortization expenses resulting from the write-up of certain intangible assets in accordance with the application of fresh-start accounting. Selling, general and administrative expenses for the three months ended June 30, 2010 decreased compared to the three months ended March 31, 2010 primarily due to decreases in depreciation and amortization as amortization of certain intangible assets was completed in April 2010. Selling, general and administrative expenses for the three months ended September 30, 2010 increased compared to the three months ended June 30, 2010 primarily due to increase in salaries and severance benefits, which was partially offset by decreases in depreciation and amortization resulted from the completion of amortization of certain intangible assets in April 2010 and a decrease in outside service fee for mainly legal, accounting and tax services.

Research and development expenses remained relatively constant in absolute dollars over the seven quarter period. Research and development expense as a percentage of net sales was 16.7% in the three months ended March 29, 2009, which was higher than other quarters due to the substantially lower net sales in the three months ended March 29, 2009.

Restructuring and impairment charges for the three months ended June 28 and March 29, 2009, were related to termination benefits and other related costs in connection with the closure of one of our research and development facilities in Japan. Restructuring and impairment charges for the three months ended September 30, June 30 and March 31, 2010 were related to impairment of in-process research and development projects in each period, accounted for as indefinite-lived intangible assets as part of the application of fresh-start accounting.

Interest expense, net decreased in the three months ended September 27, 2009 as we did not accrue for interest expense related to our \$750.0 million notes from June 12, 2009, the date of our initial reorganization filing, to October 25, 2009, as they were categorized as liabilities subject to compromise. These notes were discharged pursuant to the reorganization plan upon our emergence from our reorganization proceedings. As a result of our April 2010 senior notes offering and repayment of new term loan, our interest expense, net for the three months ended June 30, 2010 increased compared to the three months ended March 31, 2010. Interest expenses for the three months ended September 30, 2010 increased compared to the three months ended June 30, 2010 as interest for the senior notes was fully recognized during the period.

A substantial portion of our net foreign currency gain or loss is non-cash translation gain or loss recorded for intercompany borrowing at our Korean subsidiary and is affected by changes in the exchange rate between Korean won and the U.S. dollar. During the three months ended March 29, 2009 and the three months ended June 30, 2010, foreign currency loss was recognized due to the depreciation

Table of Contents

of the Korean won against the U.S. dollar. During the three months ended June 28, 2009, the three months ended September 27, 2009, the combined three-month period ended December 31, 2009, the three months ended March 31, 2010, and the three months ended September 30, 2010, foreign currency gains have been recognized due to the appreciation of the Korean won against the U.S. dollar.

Reorganization items, net were incurred from the Reorganization Proceedings, implementation of our Plan of Reorganization, and the adoption of fresh-start reporting, and consisted mainly of the discharge of liabilities subject to compromise.

The majority of others for the nine months ended September 30, 2010 were comprised of on valuation of derivatives, which represents either hedge ineffectiveness or components of changes in fair value of derivatives excluded from the assessments of hedge effectiveness.

Income tax expense for 2009 and the nine months ended September 30, 2010 was primarily comprised of withholding taxes paid on intercompany interest payments, current income taxes incurred in various jurisdictions in which we operate and the income tax effect from the change of deferred tax assets. Income tax benefits in the three months ended March 31, 2010 were primarily derived from the reversal of liabilities for uncertain tax positions due to the lapse of the applicable statute of limitations.

Income (loss) from discontinued operations during 2009 related to our former Imaging Solutions business segment. Income from discontinued operations in the three months ended September 27, 2009 was primarily derived from the sale of patents related to Imaging Solutions business segment.

Liquidity and Capital Resources

Our principal capital requirements are to invest in research and development and capital equipment, to make debt service payments and to fund working capital needs. We calculate working capital as current assets less current liabilities.

Our principal sources of liquidity are our cash and cash equivalents, our cash flows from operations and our financing activities, including \$46.1 million of net proceeds from the \$250 million aggregate principal amount senior notes offering and a portion of the net proceeds from this offering. The principal purpose of the senior notes offering was to fund a \$130.7 million distribution to our unitholders. Most of our current equity holders are former creditors and the distribution allowed us to provide a return to creditors that supported us during our reorganization proceedings. The distribution to our unitholders was approved by our board of directors and was not required due to any contractual or other obligation. In addition to the distribution, we used the proceeds of the senior notes offering to increase our cash reserves and pay down current debt that was accruing interest at a higher rate than the notes. We funded the distribution and other uses of proceeds through the senior notes offering because we believed that the debt market at the time would be receptive to the offering and because we could effect a debt offering faster than other forms of financing, including equity financing. Although we currently anticipate these sources of liquidity will be sufficient to meet our cash needs through the next twelve months, we were cash flow negative for the two-month period ended December 31, 2009 as well as for 2008 and 2007 and we may require or choose to obtain additional financing. Our ability to obtain financing will depend, among other things, on our business plans, operating performance, and the condition of the capital markets at the time we seek financing and could be adversely impacted by our 2009 reorganization proceedings and our non-compliance with bank covenants that preceded the filing. We cannot assure you that additional financing will be available to us on favorable terms when required, or at all. The current rating of our senior notes is B2 by Moody's and B+ by Standard and Poors, both of which are below investment grade. Any lowering of these ratings would adversely impact our ability to raise additional debt financing and increase the cost of any such financing that is obtained. If we raise additional funds through the issuance of equity, equity-linked or debt securities, those securities may have rights, preferences or privileges senior to the rights of our common stock,

Table of Contents

and our stockholders may experience dilution. If we need to raise additional funds in the future and are unable to do so or obtain additional financing on unfavorable terms in the future, it is possible we would have to limit certain planned activities including sales and marketing and research and development activities. As of September 30, 2010, our cash and cash equivalents balance was \$161.4 million, a \$96.5 million increase, compared to \$64.9 million as of December 31, 2009. The increase resulted from \$81.6 million of cash inflow provided by operating activities and \$44.1 million of cash inflow provided by financing activities, which was offset by \$29.6 million cash outflow used in investing activities. As of December 31, 2009, our cash and cash equivalents balance was \$64.9 million, a \$49.1 million increase from our cash, cash equivalents and restricted cash balance of \$15.8 million as of December 31, 2008. The increase in cash and cash equivalents for the combined twelve-month period ended December 31, 2009 was primarily attributable to a cash inflow of \$41.5 million from operating activities, coupled with a cash inflow of \$11.5 million from investing activities.

Cash Flows from Operating Activities

Cash inflows generated by operating activities totaled \$81.6 million for the nine months ended September 30, 2010, compared to \$30.1 million of cash provided by operating activities in the nine months ended September 27, 2009. The increase was primarily attributable to increase in gross profit of \$61.8 million resulting from higher net sales. The net operating cash inflow for the nine months ended September 30, 2010 reflects our net income of \$61.8 million adjusted by non-cash charges of \$49.5 million which mainly consisted of depreciation and amortization charges and gain on foreign currency translation, net of which was partially offset by an increase in net operating assets of \$29.7 million.

Cash flows generated by operating activities totaled \$41.5 million in the combined twelve-month period ended December 31, 2009, compared to \$18.4 million of cash used in operating activities in 2008. This increase in cash flows was primarily attributable to income from continuing operations which improved due to the restructuring of our operations and our reorganization plan as described above. The net operating cash inflow for the combined twelve-month period ended December 31, 2009 principally reflected our net income of \$839.1 million adjusted by non-cash charges of \$799.4 million, which mainly consisted of non-cash reorganization items derived from our reorganization plan.

In 2008, cash flows used in operating activities totaled \$18.4 million, compared to \$23.7 million in 2007. The decrease was primarily driven by lower operating results adjusted by non-cash charges, which mainly consisted of depreciation and amortization charges and loss on foreign currency translation.

Our working capital balance as of September 30, 2010 was \$252.2 million compared to \$128.5 million as of December 31, 2009. The \$123.7 million increase was primarily attributable to a \$96.5 million increase in cash and cash equivalents provided by operating activities and financing activities, a \$62.7 million increase in accounts receivable due to increase in net sales, which was partially offset by a \$12.3 million increase in accounts payable and a \$25.9 million increase in accrued expenses.

Our working capital balance as of December 31, 2009 was \$128.5 million, compared to negative \$814.5 million as of December 31, 2008. The significant increase in our working capital balance was principally due to the discharge of \$750.0 million in debt recorded in current liabilities resulting from our reorganization plan in 2009 as well as cash generated from operations and investing activities.

Our working capital balance as of December 31, 2008 was negative \$814.5 million, compared to \$55.6 million as of December 31, 2007. The significant decrease in our working capital balance was mainly due to the reclassification of long-term debt to current in 2008. In addition, as a result of our operating performance in the quarter ended December 31, 2008, our cash balances, accounts receivable and inventory were significantly lower as compared to December 31, 2007.

Table of Contents

Cash Flows from Investing Activities

Cash flows used in investing activities totaled \$29.6 million in the nine months ended September 30, 2010, compared to \$31.8 million of cash used in investing activities in the nine months ended September 27, 2009. The decrease was primarily due to a decrease in restricted cash of \$34.1 million, which was partially offset by an increase in capital expenditure of \$22.6 million.

Cash flows generated by investing activities totaled \$11.5 million in the combined twelve-month period ended December 31, 2009, compared to \$39.6 million of cash used in investing activities in the 2008. In 2009, we had a decrease in capital expenditures of \$20.5 million from \$29.7 million in 2008 to \$9.2 million in the combined twelve-month period ended December 31, 2009. In 2008, cash of \$11.8 million was restricted pursuant to the terms of a forbearance agreement in relation to short-term borrowings; in 2009, it was released from restriction in connection with our reorganization plan. Cash flow from investing activities in 2009 also included cash proceeds of \$9.4 million from the sale of intangible assets.

In 2007, cash flows used in investing activities totaled \$81.8 million, primarily due to capital expenditures of \$86.6 million related to capacity expansion and technology improvements at a fabrication facility in anticipation of sales growth in future periods. A significant portion of this capital investment was originally targeted for use by our discontinued Imaging Solutions segment and has since been repurposed for the other segments of our business, allowing us to maintain a relatively low level of capital investment in 2008 and 2009.

Cash Flows from Financing Activities

Cash flows provided by financing activities totaled \$44.1 million in the nine months ended September 30, 2010, compared to nil in the nine months ended September 27, 2009. In the nine months ended September 30, 2010, we completed the sales of \$250 million in aggregate principal amount of 10.5% senior notes due 2018, which we refer to as our senior notes. Of the \$238.4 million of net proceeds, which represents \$250 million of principal amount net of \$3.3 million of original issue discount and \$8.3 million of debt issuance costs, \$130.7 million was used to make a distribution to our unitholders and \$61.8 million was used to repay all outstanding borrowings under our term loan.

Cash flows provided by financing activities totaled \$2.0 million in the combined twelve-month period ended December 31, 2009, compared to \$14.7 million in 2008. There were no significant financing activities in 2009 other than the repayment of short-term borrowings and the issuance of common units as part of our reorganization in 2009.

During the year ended December 31, 2007, we borrowed \$130.1 million under our senior secured credit facility which offset repayments under the same facility of \$50.1 million during the same period. At December 31, 2007, we had borrowed \$80.0 million under our senior secured credit facility and had additional letters of credit of \$15.5 million issued under the facility.

Capital Expenditures

We routinely make capital expenditures to enhance our existing facilities and reinforce our global research and development capability.

For the nine months ended September 30, 2010, capital expenditures were \$30.2 million, a \$22.6 million, or 297.7%, increase from \$7.6 million in the nine months ended September 27, 2009. The increase was due to supporting capacity expansion and technology improvements at our fabrication facilities in anticipation of sales growth.

For the combined twelve-month period ended December 31, 2009, capital expenditures were \$9.2 million, a \$20.5 million, or 69.0%, decrease from \$29.7 million in 2008.

Table of Contents

For the year ended December 31, 2008, capital expenditures were \$29.7 million, a \$56.9 million, or 65.7%, decrease from \$86.6 million in 2007. Significant capital expenditures in 2007 were used to support capacity expansion and technology improvements at our fabrication facilities in anticipation of sales growth in future periods. Since then, these expenditures have been reduced. This year-over-year decrease was a result of managing our capital expenditure timing in order to better support the growth of our business from new customers and to optimize asset utilization and return on capital investments.

Seasonality

Our net sales and number of distinct products sold are affected by market variations from quarter to quarter due to business cycles, and resulting product demand, of our customers. Our Display Solutions business typically experiences demand increases in the third and fourth calendar quarters due to increased holiday demand for the consumer products that serve as the end markets for our products. During the first quarter, by contrast, consumer products manufacturers generally reduce orders in order to reduce excess inventory remaining from the holiday season. In our Semiconductor Manufacturing Services business, the supply-demand cycle is usually one quarter ahead of the broader semiconductor market due to lead time from wafer input to shipment to our customers, so the demand for these products tends to peak in the third quarter and is slower in the fourth and first quarters.

Contractual Obligations

The following summarizes our contractual obligations as of September 30, 2010:

	Total	Remainder of 2010	Payments Due by Period				Thereafter
			2011	2012	2013	2014	
			(In millions)				
Senior notes(1)	\$ 460.4	\$ 13.6	\$ 26.3	\$ 26.3	\$ 26.3	\$ 26.3	\$ 341.9
Capital lease(2)	10.4	1.5	6.0	3.0			
Operating lease(2)	47.7	1.3	2.6	1.9	1.9	1.9	38.1
Others(3)	11.8	1.4	6.4	4.0			

- (1) \$250 million aggregate principal amount as well as interest payments of senior notes issued in April 2010, which bear interest at a rate of 10.5% per annum and mature in 2018.
- (2) Assumes constant currency exchange rate for Korean won to U.S. dollars of 1,142.0:1.
- (3) Includes license agreements and other contractual obligations.

The indenture relating to our \$250 million senior notes contains covenants that limit our ability and the ability of our restricted subsidiaries to: (i) declare or pay any dividend or make any payment or distribution on account of or purchase or redeem our capital stock or equity interests of our restricted subsidiaries; (ii) make any principal payment on, or redeem or repurchase, prior to any scheduled repayment, sinking fund payment or maturity, any subordinated indebtedness; (iii) make certain investments, including capital expenditures; (iv) incur additional indebtedness and issue certain types of capital stock; (v) create or incur any lien (except for permitted liens) that secures obligations under any indebtedness or related guarantee; (vi) merge with or into or sell all or substantially all of our assets to other companies; (vii) enter into certain types of transactions with affiliates; (viii) guarantee the payment of any indebtedness; (ix) enter into sale-leaseback transactions; (x) enter into agreements that would restrict the ability of the restricted subsidiaries to make distributions with respect to their equity, to make loans to us or other restricted subsidiaries or to transfer assets to us or other restricted subsidiaries; and (xi) designate unrestricted subsidiaries.

On August 31, 2010, our Korean subsidiary (the lessee) entered into a capital lease agreement with MMT First Company Limited for the use of semiconductor equipment. The lease term is two years, and lease payments are to be paid on a quarterly basis over the lease term. The lease was

Table of Contents

categorized as a capital lease because the lease provides that the ownership of the equipment transfers to the lessee upon expiration of the lease term.

We follow ASC guidance on uncertain tax positions. Our unrecognized tax benefits totaled \$0.9 million as of September 30, 2010. These unrecognized tax benefits have been excluded from the above table because we cannot estimate the period of cash settlement with the respective taxing authorities.

Quantitative and Qualitative Disclosures about Market Risk

We are exposed to the market risk that the value of a financial instrument will fluctuate due to changes in market conditions, primarily from changes in foreign currency exchange rates and interest rates. In the normal course of our business, we are subject to market risks associated with interest rate movements and currency movements on our assets and liabilities.

Foreign Currency Exposures

We have exposure to foreign currency exchange rate fluctuations on net income from our subsidiaries denominated in currencies other than U.S. dollars, as our foreign subsidiaries in Korea, Taiwan, China, Japan and Hong Kong use local currency as their functional currency. From time to time these subsidiaries have cash and financial instruments in local currency. The amounts held in Japan, Taiwan, Hong Kong and China are not material in regards to foreign currency movements. However, based on the cash and financial instruments balance at September 30, 2010 for our Korean subsidiary, a 10% devaluation of the Korean won against the U.S. dollar would have resulted in a decrease of \$3.6 million in our U.S. dollar financial instruments and cash balances. Based on the Japanese yen cash balance at September 30, 2010, a 10% devaluation of the Japanese yen against the U.S. dollar would have resulted in a decrease of \$0.3 million in our U.S. dollar cash balance.

Interest Rate Exposures

On April 9, 2010, we completed the sale of \$250 million in aggregate principal amount of 10.500% senior notes due 2018. The \$61.6 million of total outstanding borrowings under our term loan was repaid on the same date. The \$250 million 10.500% senior notes due 2018 are subject to changes in fair value due to interest rate changes. If the market interest rate increases by 10% and all other variables were held constant from their levels at September 30, 2010, we estimate that the fair value of this fixed rate note would decrease by \$13.1 million and we would have additional interest expense costs over the market rate of \$1.1 million (on a 360-day basis). If the market interest rate decreased by 10% and all other variables were held constant from their levels at September 30, 2010, we estimate that the fair value of this fixed rate note would increase by \$14.0 million and we would have a reduction in interest expense costs over the market rate of \$1.3 million (on a 360-day basis).

Critical Accounting Policies and Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of revenues and expenses during the reporting periods and the related disclosures in our consolidated financial statements and accompanying notes.

We believe that our significant accounting policies, which are described in notes 3 and 4 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus, are critical due to the fact that they involve a high degree of judgment and estimates about the effects of matters that are inherently uncertain. We base these estimates and judgments on

Table of Contents

historical experience, knowledge of current conditions and other assumptions and information that we believe to be reasonable. Estimates and assumptions about future events and their effects cannot be determined with certainty. Accordingly, these estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as the business environment in which we operate changes.

Revenue Recognition and Accounts Receivable Valuation

Our revenue is primarily derived from the sale of semiconductor products that we design and the manufacture of semiconductor wafers for third parties. We recognize revenue when persuasive evidence of an arrangement exists, the product has been delivered and title and risk of loss have transferred, the price is fixed and determinable and collection of resulting receivables is reasonably assured.

We recognize revenue upon shipment, upon delivery of the product at the customer's location or upon customer acceptance depending on terms of the arrangements, when the risks and rewards of ownership have passed to the customer. Certain sale arrangements include customer acceptance provisions that require written notification of acceptance within the pre-determined period from the date of delivery of the product. If the pre-determined period has ended without written notification, customer acceptance is deemed to have occurred pursuant to the underlying sales arrangements. In such cases, we recognize revenue the earlier of the written notification or the pre-determined period from date of delivery. Specialty semiconductor manufacturing services are performed pursuant to manufacturing agreements and purchase orders. Standard products are shipped and sold based upon purchase orders from customers. Our revenue recognition policy is consistent across our product lines, marketing venues and all geographic areas. All amounts billed to a customer related to shipping and handling are classified as sales, while all costs incurred by us for shipping and handling are classified as expenses. We currently manufacture a substantial portion of our products internally at our wafer fabrication facilities. In the future, we expect to rely, to some extent, on outside wafer foundries for additional capacity and advanced technologies.

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make payment. If the financial condition of our customers were to deteriorate, additional allowances may be required. The establishment of reserves for sales discounts is based on management judgments that require significant estimates of a variety of factors, including forecasted demand, returns and industry pricing assumptions.

Accrual of Warranty Cost

We record warranty liabilities for the estimated costs that may be incurred under limited warranties. Our warranties generally cover product defects based on compliance with our specifications and are normally applicable for twelve months from the date of product delivery. These liabilities are accrued when revenues are recognized. Warranty costs include the costs to replace the defective products. Factors that affect our warranty liability include historical and anticipated rates of warranty claims on those repairs and the cost per claim to satisfy our warranty obligations. As these factors are impacted by actual experience and future expectations, we periodically assess the adequacy of our recorded warranty liabilities and adjust the amounts as necessary.

Inventory Valuation

Inventories are valued at the lower of cost or market, using the average method, which approximates the first in, first out method. Because of the cyclical nature of the semiconductor industry, changes in inventory levels, obsolescence of technology and product life cycles, we write down inventories to net realizable value. When there is a difference in the carrying value and the net realizable value the difference is recognized as a loss on valuation of inventories within cost of sales.

Table of Contents

We estimate the net realizable value for such finished goods and work-in-progress based primarily upon the latest invoice prices and current market conditions.

We employ a variety of methodologies to determine the amount of inventory reserves necessary. While a portion of the reserve is determined based upon the age of inventory and lower of cost or market calculations, an element of the reserve is subject to significant judgments made by us about future demand for our inventory. For example, reserves are established for excess inventory based on inventory levels in excess of six months of projected demand, as judged by management, for each specific product. If actual demand for our products is less than our estimates, additional reserves for existing inventories may need to be recorded in future periods.

In addition, as prescribed in ASC guidance on inventory costs, the cost of inventories is determined based on the normal capacity of each fabrication facility. If the capacity utilization is lower than a level that management believes to be normal, the fixed overhead costs per production unit which exceed those which would be incurred when the fabrication facilities are running under normal capacity are charged to cost of sales rather than capitalized as inventories.

Long-Lived Assets

We assess long-lived assets for impairment when events or changes in circumstances indicate that the carrying value of the assets or the asset group may not be recoverable. Factors that we consider in deciding when to perform an impairment review include significant under-performance of a business or product line in relation to expectations, significant negative industry or economic trends, and significant changes or planned changes in our use of the assets. Recoverability of assets that will continue to be used in our operations is measured by comparing the carrying value of the asset group to our estimate of the related total future undiscounted net cash flows. If an asset group's carrying value is not recoverable through the related undiscounted cash flows, the asset group is considered to be impaired. The impairment is measured by the difference between the asset group's carrying value and its fair value determined by either a quoted market price, if any, or a value determined by utilizing a discounted cash flow technique.

Impairments of long-lived assets are determined for groups of assets related to the lowest level of identifiable independent cash flows. We must make subjective judgments in determining the independent cash flows that can be related to specific asset groupings. Additionally, an evaluation of impairment of long-lived assets requires estimates of future operating results that are used in the preparation of the expected future undiscounted cash flows. Actual future operating results and the remaining economic lives of our long-lived assets could differ from the estimates used in assessing the recoverability of these assets.

Intangible Assets

The fair value of our intangible assets was recorded in connection with fresh-start reporting on October 25, 2009 and was determined based on the present value of each research project's projected cash flows using an income approach. Future cash flows are predominately based on the net income forecast of each project, consistent with historical pricing, margins and expense levels of similar products. Revenues are estimated based on relevant market size and growth factors, expected industry trends and individual project life cycles. The resulting cash flows are then discounted at a rate approximating our weighted average cost of capital.

In-process research and development, or IPR&D, is considered an indefinite-lived intangible asset and is not subject to amortization. IPR&D assets must be tested for impairment annually or more frequently if events or changes in circumstances indicate that the assets might be impaired. The impairment test consists of a comparison of the fair value of the IPR&D asset with its carrying amount.

Table of Contents

If the carrying amount of the IPR&D asset exceeds its fair value, an impairment loss must be recognized in an amount equal to that excess. After an impairment loss is recognized, the adjusted carrying amount of the IPR&D asset will be its new accounting basis. Subsequent reversal of a previously recognized impairment loss is prohibited. The initial determination and subsequent evaluation for impairment of the IPR&D asset requires management to make significant judgments and estimates. Once the IPR&D projects have been completed or abandoned, the useful life of the IPR&D asset is determined and amortized accordingly.

Technology, customer relationships and intellectual property assets are considered definite-lived assets and are amortized on a straight-line basis over their respective useful lives, ranging from 4 to 10 years.

Income Taxes

We account for income taxes in accordance with ASC guidance addressing accounting for income taxes. The guidance requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in a company's financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement carrying values and the tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable for the period and the change during the period in deferred tax assets and liabilities.

We regularly review our deferred tax assets for recoverability considering historical profitability, projected future taxable income, the expected timing of the reversals of existing temporary differences and expiration of tax credits and net operating loss carry-forwards. We established valuation allowances for deferred tax assets at most of our subsidiaries since, other than with respect to one particular subsidiary, it is not probable that a majority of the deferred tax assets will be realizable. The valuation allowance at this particular subsidiary was not established since it is more likely than not that the deferred tax assets at this subsidiary will be realizable based on the current prospects for its future taxable income.

Changes in our evaluation of our deferred income tax assets from period to period could have a significant effect on our net operating results and financial condition.

In addition, beginning January 1, 2007, we account for uncertainties related to income taxes in compliance with ASC guidance on uncertain tax positions. Under this guidance, we evaluate our tax positions taken or expected to be taken in a tax return for recognition and measurement on our consolidated financial statements. Only those tax positions that meet the more likely than not threshold are recognized on the consolidated financial statements at the largest amount of benefit that has a greater than 50 percent likelihood of ultimately being realized. Assumptions, judgment and the use of estimates are required in determining if the more likely than not standard has been met when developing the provision for income taxes. A change in the assessment of the more likely than not standard could materially impact our consolidated financial statements.

Accounting for Stock/Unit-based Compensation

In 2006, we adopted ASC guidance addressing accounting for unit-based compensation based on a fair value method. Under this guidance, unit-based compensation cost is estimated at the grant date based on the fair value of the award and is recognized as expense over the requisite service period of the award. We use the Black-Scholes option pricing model to value unit options. In developing assumptions for fair value calculation under the guidance, we use estimates based on

Table of Contents

historical data and market information. A small change in the assumptions used in the estimate can cause a relatively significant change in the fair value calculation.

The determination of the fair value of our common units on each grant date was a two-step process. First, management estimated our enterprise value in consultation with such advisers as we deemed appropriate. Second, this business enterprise value was allocated to all sources of capital invested in us based on each type of security's respective rights and claims to our total business enterprise value. This allocation included a calculation of the fair value of our common units on a non-marketable basis. The business enterprise value was determined based on an income approach and a market approach using the revenue multiples of comparable companies, giving appropriate weight to each approach. The income approach was based on the discounted cash flow method and an estimated weighted average cost of capital.

Determination of the fair value of our common units involves complex and subjective judgments regarding projected financial and operating results, our unique business risks, the liquidity of our units and our operating history and prospects at the time of grant. If we make different judgments or adopt different assumptions, material differences could result in the amount of the share-based compensation expenses recorded because the estimated fair value of the underlying units for the options granted would be different.

Fresh-Start Reporting

Upon emergence from the Reorganization Proceedings, the Company adopted fresh-start reporting in accordance with ASC 852. The Company's emergence from the Reorganization Proceedings resulted in a new reporting entity with no retained earnings or accumulated deficit. Accordingly, the Company's consolidated financial statements for periods prior to and including October 25, 2009 are not comparable to consolidated financial statements presented on or after October 25, 2009.

Fresh-start reporting reflects the value of the Company as determined in the confirmed Plan of Reorganization. Under fresh-start reporting, the Company's asset values were remeasured and allocated in conformity with ASC 805, *Business Combinations*, formerly Statements of Financial Accounting Standards (SFAS) No. 141(R) *Business Combinations* (ASC 805). Fresh-start reporting required that all liabilities, other than deferred taxes and severance benefits, be stated at fair value. Deferred taxes are determined in conformity with ASC 740, *Income Taxes*, formerly SFAS No. 109, *Accounting for Income Taxes* (ASC 740).

Cash Flow Hedges

We are exposed to non-functional currency denominated cash flow fluctuations in connection with third party sales. We use foreign currency forward and option contracts to hedge certain of these risks. Throughout the term of the designated cash flow hedge relationship, but at least quarterly, a retrospective evaluation and prospective assessment of hedge effectiveness is performed. Designated components of our derivative instruments' gains or losses are included in the assessment of hedge effectiveness. In conjunction with our effectiveness testing, we also evaluate ineffectiveness associated with the hedge relationship. Resulting ineffectiveness, if any, is recognized immediately in our consolidated statements of operations.

We record the fair value of our foreign currency derivative contracts qualifying for cash flow hedge accounting treatment in our consolidated balance sheet with the effective portion of the related gain or loss on those contracts deferred in unitholders' equity as a component of accumulated other comprehensive income. These deferred gains or losses are recognized in our consolidated statements of operations in the same period in which the underlying hedged sales transactions are recognized and on the same line item as the underlying hedged items. However, in the event the relationship is no

Table of Contents

longer effective, we recognize the change in the fair value of the hedging derivative instrument from the date the hedging derivative instrument becomes no longer effective immediately in the consolidated statements of operations.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, or ASU 2010-06, which amends the disclosure requirements of ASC 820, *Fair Value Measurements and Disclosures*, as of January 1, 2010, or ASC 820. ASU 2010-06 requires new disclosures for any transfers of fair value into and out of Level 1 and 2 fair value measurements and separate presentation of purchases, sales, issuances and settlements within the reconciliation of Level 3 unobservable inputs. We previously adopted ASC 820 on January 1, 2008 and January 1, 2009 for financial assets and liabilities and for nonfinancial assets and liabilities, respectively. ASU 2010-06 is effective for annual and interim periods beginning after December 15, 2009, except for the Level 3 reconciliation which is effective for annual and interim periods beginning after December 15, 2010. The adoption of ASU 2010-06 as of January 1, 2010 did not have a material effect on our financial condition or results of operations. We do not expect the adoption of ASU 2010-06 in relation to the Level 3 reconciliation to have a material impact on our financial condition or results of operations.

In June 2009, the FASB issued ASC 810, *Consolidation*, or ASC 810, which (1) replaces the quantitative-based risks and rewards calculation for determining whether an enterprise is the primary beneficiary in a variable interest entity with an approach that is primarily qualitative, (2) requires ongoing assessments of whether an enterprise is the primary beneficiary of a variable interest entity and (3) requires additional disclosures about an enterprise's involvement in variable interest entities. We were required to adopt ASC 810 as of the beginning of 2010. The adoption of ASC 810 did not have a material impact on our consolidated financial position, results of operations or cash flows.

Controls and Procedures

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and is effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. As a private company we have designed our internal control over financial reporting to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of financial statements. As a public company, under Section 404 of the Sarbanes-Oxley Act, we will also be required to include a report of management on our internal control over financial reporting in our Annual Reports on Form 10-K. This requirement will first apply to our Annual Report on Form 10-K for our fiscal year ending December 31, 2011. We may also in the future become subject to the requirement that our independent auditors attest to and report on the effectiveness of our internal control over financial reporting. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

In connection with audits of our consolidated financial statements for the ten-month period ended October 25, 2009 and two-month period ended December 31, 2009, our independent registered public accounting firm has reported two control deficiencies which represent a material weakness in our internal control over financial reporting. The two control deficiencies which represent a material weakness that our independent registered public accounting firm reported to our board of directors (as we then did not have a separate audit committee) are that we do not have a sufficient number of financial personnel with the requisite financial accounting experience and our controls over non-routine transactions are not effective to ensure that accounting considerations are identified and appropriately recorded.

Table of Contents

Our management and our board of directors agree that the control deficiencies identified by our independent registered public accounting firm represent a material weakness. We have identified and are taking steps intended to remediate this material weakness. Upon being notified of the material weakness, we retained the services of an international accounting firm to temporarily supplement our internal resources. We recently recruited a new director of financial reporting. We are also actively recruiting additional financial staff with experiences with public reporting to increase the number of our financial personnel with the requisite financial accounting expertise. These actions are subject to ongoing senior management review, as well as audit committee oversight.

Although management has not remediated the material weakness mentioned above, management believes substantial progress has been made up to the date of this report. Executive officers assigned to each control deficiencies continue to oversee the necessary remedial changes to the overall design of our internal control environment. Management is responsible for and is committed to achieving and maintaining a strong control environment, high ethical standards, and financial reporting integrity. This commitment continues to be communicated to and reinforced with our employees.

Management's remediation initiatives are summarized below and are intended to address our material weaknesses in internal control over financial reporting:

Management continues to enhance our financial accounting capability. This includes:

- (i) recruiting a director of financial reporting for reviews and controls over financial reporting and expanding staffing and resources dedicated to financial reporting,
- (ii) providing additional training to accounting personnel to strengthen their GAAP knowledge and ability to identify potential errors in the underlying financial reporting process, and
- (iii) maintaining professional services from external professional firms to supplement internal resources during the transition period.

Management continues to improve our period end closing process to identify non-routine and significant transactions earlier and to take appropriate financial reporting actions. This includes:

- (i) defining key financial reporting schedule and action items,
- (ii) redefining our book closing checklist for each key responsible person and for each reviewer,
- (iii) having regular meetings with financial reporting parties to update the significant accounting events and to review the identified accounting issues,
- (iv) communicating with other non-financial reporting parties to ensure all non-routine and significant transactions are captured and analyzed by the accounting team, and
- (v) monitoring key changes in GAAP and financial reporting requirements and analyzing the impact of changed GAAP or related regulation on the company.

BUSINESS

Our Business

We are a Korea-based designer and manufacturer of analog and mixed-signal semiconductor products for high-volume consumer applications. We believe we have one of the broadest and deepest analog and mixed-signal semiconductor technology platforms in the industry, supported by our 30-year operating history, large portfolio of approximately 2,675 registered novel patents and 875 pending novel patent applications and extensive engineering and manufacturing process expertise. Our business is comprised of three key segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. Our Display Solutions products include display drivers that cover a wide range of flat panel displays and mobile multimedia devices. Our Power Solutions products include discrete and integrated circuit solutions for power management in high-volume consumer applications. Our Semiconductor Manufacturing Services segment provides specialty analog and mixed-signal foundry services for fabless semiconductor companies that serve the consumer, computing and wireless end markets.

Our wide variety of analog and mixed-signal semiconductor products and manufacturing services combined with our deep technology platform allows us to address multiple high-growth end markets and to rapidly develop and introduce new products and services in response to market demands. Our substantial manufacturing operations in Korea and design centers in Korea and Japan place us at the core of the global consumer electronics supply chain. We believe this enables us to quickly and efficiently respond to our customers' needs and allows us to better service and capture additional demand from existing and new customers.

We have a long history of supplying and collaborating on product and technology development with leading innovators in the consumer electronics market. As a result, we have been able to strengthen our technology platform and develop products and services that are in high demand by our customers and end consumers. We sold over 2,200 and 2,300 distinct products to over 420 and 185 customers for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, with a substantial portion of our revenues derived from a concentrated number of customers. The increase in number of customers is due to the continuing growth of our Power Solutions business. Our largest semiconductor manufacturing services customers include some of the fastest growing and leading semiconductor companies that design analog and mixed-signal products for the consumer, computing, and wireless end markets.

For the nine months ended September 30, 2010, on a pro forma basis, we generated net sales of \$583.6 million, income from continuing operations of \$57.8 million, Adjusted EBITDA of \$118.2 million and Adjusted Net Income of \$67.0 million. For 2009, on an a combined pro forma basis, we generated net sales of \$560.1 million, income from continuing operations of \$46.6 million, Adjusted EBITDA of \$98.7 million and Adjusted Net Income of \$33.7 million. On June 12, 2009, we filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code and our plan of reorganization became effective on November 9, 2009. For 2008, we generated net sales of \$601.7 million, losses from continuing operations of \$325.8 million, Adjusted EBITDA of \$59.8 million and Adjusted Net Loss of \$71.7 million. See Unaudited Pro Forma Consolidated Financial Information beginning on page 49 for an explanation regarding our pro forma presentation and Prospectus Summary Summary Historical and Unaudited Pro Forma Consolidated Financial Data, beginning on page 9 for an explanation of our use of Adjusted EBITDA and Adjusted Net Income.

Market Opportunity

The consumer electronics market is large and growing rapidly. Growth in this market is being driven by consumers seeking to enjoy a wide variety of available rich media content, such as high definition audio and video, mobile television and games. Consumer electronics manufacturers

Table of Contents

recognize that the consumer entertainment experience plays a critical role in differentiating their products. To address and further stimulate consumer demand, electronics manufacturers have been driving rapid advances in the technology, functionality, form factor, cost, quality, reliability and power consumption of their products. Electronics manufacturers are continuously implementing advanced technologies in new generations of electronic devices using analog and mixed-signal semiconductor components, such as display drivers that enable display of high resolution images, encoding and decoding devices that allow playback of high definition audio and video, and power management semiconductors that increase power efficiency, thereby reducing heat dissipation and extending battery life. These advanced generations of consumer devices are growing faster than the overall consumer electronics market. For example, according to Gartner, production of LCD televisions, smartphones, mobile PCs, and mini-notebooks is expected to grow from 2009 to 2013 by a compound annual growth rate of 12%, 36%, 24%, and 20%, respectively.

The user experience delivered by a consumer electronic device is substantially driven by the quality of the display, audio and video processing capabilities and power efficiency of the device. Analog and mixed-signal semiconductors enable and enhance these capabilities. Examples of these analog and mixed-signal semiconductors include display drivers, timing controllers, audio encoding and decoding devices, or codecs, and interface circuits, as well as power management semiconductors such as voltage regulators, converters, and switches. According to iSuppli, in 2009, the display driver semiconductor market was \$6.0 billion and the power management semiconductor market was \$21.9 billion.

Requirements of Leading Consumer Electronics Manufacturers

We believe our target customers view the following characteristics and capabilities as key differentiating factors among available analog and mixed-signal semiconductor suppliers and manufacturing service providers:

Broad Offering of Differentiated Products with Advanced System-Level Features and Functions. Leading consumer electronics manufacturers seek to differentiate their products by incorporating innovative semiconductor products that enable unique system-level functionality and enhance performance. These consumer electronics manufacturers seek to closely collaborate with semiconductor solutions providers that continuously develop new and advanced products, technologies, and manufacturing processes that enable state of the art features and functions, such as bright and thin displays, small form factor and energy efficiency.

Fast Time to Market with New Products. As a result of rapid technological advancements and short product lifecycles, our target customers typically prefer suppliers who have a compelling pipeline of new products and can leverage a substantial intellectual property and technology base to accelerate product design and manufacturing when needed.

Nimble, Stable and Reliable Manufacturing Services. Fabless semiconductor providers who rely on external manufacturing services often face rapidly changing product cycles. If these fabless companies are unable to meet the demand for their products due to issues with their manufacturing services providers, their profitability and market share can be significantly impacted. As a result, they prefer semiconductor manufacturing services providers who can increase production quickly and meet demand consistently through periods of constrained industry capacity. Furthermore, many fabless semiconductor providers serving the consumer electronics and industrial sectors need specialized analog and mixed-signal manufacturing capabilities to address their product performance and cost requirements.

Ability to Deliver Cost Competitive Solutions. Electronics manufacturers are under constant pressure to deliver cost competitive solutions. To accomplish this objective, they need strategic semiconductor suppliers that have the ability to provide system-level solutions, highly

Table of Contents

integrated products, a broad product offering at a range of price points and have the design and manufacturing infrastructure and logistical support to deliver cost competitive products.

Focus on Delivering Highly Energy Efficient Products. Consumers increasingly seek longer run time, environmentally friendly and energy efficient consumer electronic products. In addition, there is increasing regulatory focus on reducing energy consumption of consumer electronic products. For instance, the California Energy Commission recently adopted standards that require televisions sold in California to consume 33% less energy by 2011 and 49% less energy by 2013. As a result of global focus on more environmentally friendly products, our customers are seeking analog and mixed-signal semiconductor suppliers that have the technological expertise to deliver solutions that satisfy these ever increasing regulatory and consumer power efficiency demands.

Our Competitive Strengths

Designing and manufacturing analog and mixed-signal semiconductors capable of meeting the evolving functionality requirements for consumer electronics devices is challenging. In order to grow and succeed in the industry, we believe semiconductor suppliers must have a broad, advanced intellectual property portfolio, product design expertise, comprehensive product offerings and specialized manufacturing process technologies and capabilities. Our competitive strengths enable us to offer our customers solutions to solve their key challenges. We believe our strengths include:

Advanced Analog and Mixed-Signal Semiconductor Technology and Intellectual Property Platform. We believe we have one of the broadest and deepest analog and mixed-signal semiconductor technology platforms in the industry. Our long operating history, large patent portfolio, extensive engineering and manufacturing process expertise and wide selection of analog and mixed-signal intellectual property libraries allow us to leverage our technology and develop new products across multiple end markets. Our product development efforts are supported by a team of approximately 395 engineers. Our platform allows us to develop and introduce new products quickly as well as to integrate numerous functions into a single product. For example, we were one of the first companies to introduce a commercial AMOLED display driver for mobile phones.

Established Relationships and Close Collaboration with Leading Global Electronics Companies. We have a long history of supplying and collaborating on product and technology development with leading innovators in the consumer electronics market. Our close customer relationships have been built based on many years of close collaborative product development which provides us with deep system level knowledge and key insights into our customers' needs. As a result, we are able to continuously strengthen our technology platform in areas of strategic interest for our customers and focus on those products and services that our customers and end consumers demand the most.

Longstanding Presence in Asia and Proximity to Global Consumer Electronics Supply Chain. Our presence in Asia facilitates close contact with our customers, fast response to their needs and enhances our visibility into new product opportunities, markets and technology trends. According to Gartner, semiconductor consumption in Asia, excluding Japan, has increased from 49% of global production in 2004 to 60% in 2009 and is projected to grow to 65% by 2013. Our substantial manufacturing operations in Korea and design centers in Korea and Japan place us close to many of our largest customers and to the core of the global consumer electronics supply chain. We have active applications, engineering, product design, and customer support resources, as well as senior management and marketing resources, in geographic locations close to our customers. This allows us to strengthen our relationship with customers through better service, faster turnaround time and improved product design collaboration. We believe this also helps our customers to deliver products faster than their competitors and to solve problems more efficiently than would be possible with other suppliers.

Table of Contents

Broad Portfolio of Product and Service Offerings Targeting Large, High-Growth Markets. We continue to develop a wide variety of analog and mixed-signal semiconductor solutions for multiple high-growth consumer electronics end markets. We believe our expanding product and service offerings allow us to provide additional products to new and existing customers and to cross-sell our products and services to our established customers. For example, we have leveraged our technology expertise and customer relationships to develop and grow a new business offering power management solutions to customers. Our power management solutions enable our customers to increase system stability and reduce heat dissipation and energy use, resulting in cost savings for our customers, as well as environmental benefits. We have been able to sell these new products to our existing customers as well as expand our customer base.

Distinctive Analog and Mixed-Signal Process Technology Expertise and Manufacturing Capabilities. We have developed specialty analog and mixed-signal manufacturing processes such as high voltage CMOS, power and embedded memory. These processes enable us to flexibly ramp mass production of display, power and mixed-signal products, and shorten the duration from design to delivery of highly integrated, high-performance analog and mixed-signal semiconductors. As a result of the depth of our process technology, captive manufacturing facilities and customer support capabilities, we believe the majority of our top twenty manufacturing services customers by revenue currently use us as their primary manufacturing source for the products that we manufacture for them.

Highly Efficient Manufacturing Capabilities. Our manufacturing strategy is focused on maintaining the price competitiveness of our products and services through our low-cost operating structure. We believe the location of our primary manufacturing and research and development facilities in Asia and relatively low required ongoing capital expenditures provide us with a number of cost advantages. We offer specialty analog process technologies that do not require substantial investment in leading edge, smaller geometry process equipment. We are able to utilize our manufacturing base over an extended period of time and thereby minimize our capital expenditure requirements. Our internal manufacturing facilities serve both our solutions products and manufacturing services customers, allowing us to optimize our asset utilization and improve our operational efficiency.

Strong Financial Model with a Low-Cost Structure. We have executed a significant restructuring over the last 18 months, which combined with our relatively low capital investment requirements, has improved our cash flow and profitability. By closing our Imaging Solutions business, restructuring our balance sheet, and refining our business processes and strategy, we believe we have made significant structural improvements to our operating model and have enabled better flexibility to manage the fluctuations in the economy and our markets. In addition, the long lifecycles of our manufacturing processes, equipment and facilities allow us to keep our new capital requirements relatively low. We believe that our low-cost but highly skilled design and support engineers and manufacturing base position us favorably to compete in the marketplace and provide operating leverage in our operating model.

Our Strategy

Our objective is to grow our business, our cash flow and profitability and to establish our position as a leading provider of analog and mixed-signal semiconductor products and services for high-volume markets. Our business strategy emphasizes the following key elements:

Leverage Our Advanced Analog and Mixed-Signal Technology Platform to Innovate and Deliver New Products and Services. We intend to continue to utilize our extensive patent and technology portfolio, analog and mixed-signal design and manufacturing expertise and specific end-market applications and system-level design expertise to deliver products with high levels of performance by utilizing our systems expertise and leveraging our deep knowledge of our customers' needs. For example, we have recently utilized our extensive

Table of Contents

patent portfolio, process technologies and analog and mixed-signal technology platform to develop cost-effective Super Junction MOSFETs as well as low power integrated power solutions for AC-DC offline switchers to address more of our customers' needs. In Display Solutions, we continue to invest in research and development to introduce new technologies to support our customers' technology roadmaps such as their transition to 240Hz 3D LED televisions. In Semiconductor Manufacturing Services, we are developing cost-effective processes that substantially reduce die size using deep trench isolation.

Increase Business with Existing Customers. We have a global customer base consisting of leading consumer electronics OEMs who sell into multiple end markets. We intend to continue to strengthen our relationships with our customers by collaborating on critical design and product development in order to improve our design win rates. We will seek to increase our customer penetration by more closely aligning our product roadmap with those of our key customers and by taking advantage of our broad product portfolio, our deep knowledge of customer needs and existing relationships to sell more existing and new products. For example, two of our largest display driver customers have display modules in production using our power management products. These power management products have been purchased and evaluated via their key subcontractors for LCD backlight units and LCD integrated power supplies.

Broaden Our Customer Base. We expect to continue to expand our global design centers, local application engineering support and sales presence, particularly in China, Hong Kong, Taiwan and Macau, or collectively, Greater China, and other high-growth geographies, to penetrate new accounts. In addition, we intend to introduce new products and variations of existing products to address a broader customer base. In order to broaden our market penetration, we are complementing our direct customer relationships and sales with an expanded base of distributors, especially to aid the growth of our power management business. We expect to continue to expand our distribution channels as we broaden our power management penetration beyond existing customers.

Aggressively Grow the Power Business. We have utilized our extensive patent portfolio, process technologies, captive manufacturing facilities and analog and mixed-signal technology platform to develop power management solutions that expand our market opportunity and address more of our customers' needs. We intend to increase the pace of our new power product introductions by continuing to collaborate closely with our industry-leading customers. For example, we recently began mass production of our first integrated power solution for LCD televisions at one of our major Korean customers. We also intend to capitalize on the market needs and regulatory requirements for power management products that reduce energy consumption of consumer electronic products by introducing products that are more energy efficient than those of competitors. We believe our integrated designs, unique low-cost process technologies and deep customer relationships will enable us to increase sales of our power solutions to our current power solutions customers, and as an extension of our other product offerings, to our other customers.

Drive Execution Excellence. We have significantly improved our execution through a number of management initiatives implemented under the direction of our Chief Executive Officer and Chairman, Sang Park. As an example, we have introduced new processes for product development, customer service and personnel development. We expect these ongoing initiatives will continue to improve our new product development and customer service as well as enhance our commitment to a culture of quick action and execution by our workforce. In addition, we have focused on and continually improved our manufacturing efficiency during the past several years. As a result of our focus on execution excellence, we have also meaningfully reduced our time from new product definition to development completion. For example, we have improved our average development turnaround time by over 40% over the last three years for semiconductor manufacturing services by implementing continuous business process improvement initiatives and we improved our manufacturing productivity per operator by 22% from the fourth quarter of 2008 to the fourth quarter of 2009.

Table of Contents

Optimize Asset Utilization, Return on Capital Investments and Cash Flow Generation. We intend to keep our capital expenditures relatively low by maintaining our focus on specialty process technologies that do not require substantial investment in frequent upgrades to the latest manufacturing equipment. We also believe our power management business should increase our utilization and return on capital as the manufacturing of these products primarily relies on our 0.35µm geometry and low-cost equipment. By utilizing our manufacturing facilities for both our display solutions and power solutions products and our semiconductor manufacturing services customers, we will seek to maximize return on our capital investments and our cash flow generation.

Our Technology

We continuously strengthen our advanced analog and mixed-signal semiconductor technology platform by developing innovative technologies and integrated circuit building blocks that enhance the functionality of consumer electronics products through brighter displays, enhanced image quality, smaller form factor and longer battery life. We seek to further build our technology platform through proprietary research and development and selective licensing and acquisition of complementary technologies, as well as disciplined process improvements in our manufacturing operations. Our goal is to leverage our experience and development initiatives across multiple end markets and utilize our understanding of system-level issues our customers face to introduce new technologies that enable our customers to develop more advanced, higher performance products.

Our display technology portfolio includes building blocks for display drivers and timing controllers, processor and interface technologies, as well as sophisticated production techniques, such as chip-on-glass, or COG, which enables the manufacture of thinner displays. Our advanced display drivers incorporate LTPS and AMOLED panel technologies that enable the highest resolution displays. Furthermore, we are developing a broad intellectual property portfolio to improve the power efficiency of displays, including the development of our smart mobile luminance control, or SMLC, algorithm.

We have a long history of specialized process technology development and have a number of distinctive process implementations. We have approximately 200 process flows we can utilize for our products and offer to our semiconductor manufacturing services customers. Our process technologies include standard CMOS, high voltage CMOS, ultra-low leakage high voltage CMOS and BCDMOS. Our manufacturing processes incorporate embedded memory solutions such as static random access memory, or SRAM, one-time programmable, or OTP, memory, multiple-time programmable, or MTP, memory, electronically erasable programmable read only memory, or EEPROM, and single-transistor random access memory, or 1TRAM. More broadly, we focus extensively on processes that reduce die size across all of the products we manufacture, in order to deliver cost-effective solutions to our customers.

Expertise in high voltage and deep trench BCDMOS process technologies, low power analog and mixed-signal design capabilities and packaging know-how are key requirements in the power management market. We are currently leveraging our capabilities in these areas with products such as DC-DC converters, linear regulators, including LDO, regulators and analog switches, and power MOSFETs. We believe our system level understanding of applications such as LCD televisions and mobile phones will allow us to more quickly develop and customize power management solutions for our customers in these markets.

Our Products and Services

Our broad portfolio of products and services addresses multiple high-growth, consumer-focused end markets. A key component of our product strategy is to supply multiple related product and service offerings to each of the end markets that we serve.

Table of Contents

Display Solutions

Display Driver Characteristics. Display drivers deliver defined analog voltages and currents that activate pixels to exhibit images on displays. The following key characteristics determine display driver performance and end-market application:

Resolution and Number of Channels. Resolution determines the level of detail displayed within an image and is defined by the number of pixels per line multiplied by the number of lines on a display. For large displays, higher resolution typically requires more display drivers for each panel. Display drivers that have a greater number of channels, however, generally require fewer display drivers for each panel and command a higher selling price per unit. Mobile displays, conversely, are typically single chip solutions designed to deliver a specific resolution. We cover resolutions ranging from QVGA (240RGB x 320) to QHD (960RGB x 540).

Color Depth. Color depth is the number of colors that can be displayed on a panel. For example, for TFT-LCD panels, 262 thousand colors are supported by 6-bit source drivers; 16 million colors are supported by 8-bit source drivers; and 1 billion colors are supported by 10-bit and 12-bit source drivers.

Operational Voltage. Display drivers are characterized by input and output voltages. Source drivers typically operate at input voltages from 2.0 to 3.6 volts and output voltages between 4.5 and 18 volts. Gate drivers typically operate at input voltages from 2.0 to 3.6 volts and output voltages of up to 40 volts. Lower input voltage results in lower power consumption and electromagnetic interference, or EMI.

Gamma Curve. The relationship between the light passing through a pixel and the voltage applied to the pixel by the source driver is referred to as the gamma curve. The gamma curve of the source driver can correct some imperfections in picture quality in a process generally known as gamma correction. Some advanced display drivers feature up to three independent gamma curves to facilitate this correction.

Driver Interface. Driver interface refers to the connection between the timing controller and the display drivers. Display drivers increasingly require higher bandwidth interface technology to address the larger data transfer rate necessary for higher definition images. The principal types of interface technologies are transistor-to-transistor logic, or TTL, reduced swing differential signaling, or RSDS, advance intra panel I/F, or AIPI, and mini-low voltage differential signaling, or m-LVDS.

Package Type. The assembly of display drivers typically uses chip-on-film, or COF, tape carrier package, or TCP, and COG package types.

Large Display Solutions. We provide display solutions for a wide range of flat panel display sizes used in LCD televisions, including high definition televisions, or HDTVs, LED TVs, LCD monitors and mobile PCs.

Our large display solutions include source and gate drivers and timing controllers with a variety of interfaces, voltages, frequencies and packages to meet customers' needs. These products include advanced technologies such as high channel count, with products under development to provide up to 960 channels. We also offer a distinctive interface technology known as LCDS, which supports thinner displays for mobile PCs. Our large display solutions are designed to allow customers to cost-effectively meet the increasing demand for high resolution displays. We focus extensively on reducing the die size of our large display drivers and other solutions products to reduce costs without having to migrate to smaller geometries. For example, we have implemented several solutions to reduce die size in large display drivers, such as optimizing design schemes and design rules and applying specific technologies that we have developed internally. We have recently introduced a number of new large display drivers with reduced die size.

Table of Contents

The table below sets forth the features of our products, both in mass production and in customer qualification, which is the final stage of product development, for large-sized displays:

Product	Key Features	Applications
TFT-LCD Source Drivers	480 to 960 output channels 6-bit (262 thousand colors), 8-bit (16 million colors), 10-bit (1 billion colors) Output voltage ranging from 3.3V to 18V Low power consumption and low EMI Supports COF package types Supports RSDS, m-LVDS, AiPi* interface technologies Geometries of 0.18 μ m to 0.22 μ m	LCD monitors, including widescreens Mobile PCs, including netbooks Digital televisions, including LED TVs
TFT-LCD Gate Drivers	272 to 768 output channels Output voltage ranging up to 40V Supports COF and COG package types Geometries of 0.35 μ m	LCD monitors, including widescreens Mobile PCs, including netbooks Digital televisions, including LED TVs
Timing Controllers	Product portfolio supports a wide range of resolutions Supports m-LVDS interface technologies Input voltage ranging from 2.3V to 3.6V Geometries of 0.18 μ m	LCD monitors, including widescreens Mobile PCs, including netbooks

* In customer qualification stage

Mobile Display Solutions. Our mobile display solutions incorporate the industry's most advanced display technologies, such as LTPS and AMOLED, as well as high-volume technologies such as a-Si (amorphous silicon) TFT. Our mobile display products offer specialized capabilities, including high speed serial interfaces, such as mobile display digital interface, or MDDI, and mobile industry processor interface, or MIPI, as well as multi-time programmable, or MTP, memories, using EEPROM and logic-based OTP memory. We focus extensively on reducing the die size of our mobile display drivers and other solutions products to reduce costs without having to migrate to smaller geometries. For example, we have implemented several solutions to reduce die size in mobile display drivers, such as optimizing design schemes and design rules and applying specific technologies that we have developed internally. Further, we are building a distinctive intellectual property portfolio that allows us to provide features that reduce power consumption, such as SMLC, ambient light-based brightness control, or LABC, automatic brightness control, or ABC, and automatic current limit, or ACL. This intellectual property portfolio will also support our power management product development initiatives, as we leverage our system level understanding of power efficiency.

Table of Contents

The following table summarizes the features of our products, both in mass production and in customer qualification, which is the final stage of product development, for mobile displays:

Product	Key Features	Applications
LTPS	Resolutions of QVGA, WQVGA, VGA, NHD*, SVGA Color depth ranging from 262 thousand to 16 million MDDI, MIPI interface EEPROM and logic-based OTP, separated gamma control	Mobile phones Digital still cameras
AMOLED	Resolutions of WQVGA, HVGA, NHD*, WVGA, QHD Color depth ranging from 262 thousand to 16 million Geometries of 0.11µm to 0.15µm MDDI, MIPI interface EEPROM and logic-based OTP ABC, ACL, Pentile	Mobile phones Game consoles Digital still cameras Personal digital assistants Portable media players
a-Si TFT	Resolutions of QVGA, WQVGA, HVGA, WVGA, WSVGA, HD Color depth ranging from 262 thousand to 16 million MDDI, MIPI interface Content adaptive brightness control, or CABC LVDS, I(2)C*, DCDC* Separated gamma control	Mobile phones Game consoles Netbooks Portable navigation devices

* In customer qualification stage

Power Solutions

We develop, manufacture and market power management solutions for a wide range of end market customers. The products include MOSFETs, LED Drivers, DC-DC converters, analog switches and linear regulators, such as LDOs.

MOSFET. Our MOSFETs include low-voltage Trench MOSFETs, 20V to 100V, and high-voltage Planar MOSFETs, 400V through 600V. MOSFETs are used in applications to switch, shape or transfer electricity under varying power requirements. The key application segments are mobile phones, LCD televisions, desktop computers and power supplies for consumer electronics and industrial equipment. MOSFETs allow electronics manufacturers to achieve specific design goals of high efficiency and low standby power consumption. For example, computing solutions focus on delivering efficient controllers and MOSFETs for power management in VCORE, DDR and chipsets for audio, video and graphics processing systems.

LED Drivers. LED driver solutions serve the fast-growing LCD panel backlighting market for LCD televisions and mobile PCs. Our products are designed to provide high efficiency and wide input voltage range as well as PWM dimming for accurate white LED

dimming control.

Table of Contents

DC-DC Converters. We plan to release DC-DC converters targeting mobile applications and high power applications like LCD televisions, set-top boxes, DVD/Blu-ray players and display modules. We expect our DC-DC converters will meet customer green power requirements by featuring wide input voltage ranges, high efficiency and small size.

Analog Switches and Linear Regulators. We also provide analog switches and linear regulators for mobile applications. Our products are designed for high efficiency and low power consumption in mobile applications. Our power management solutions enable customers to increase system stability and reduce heat dissipation and energy use, resulting in cost savings for our customers and consumers, as well as environmental benefits. Our in-house process technology capabilities and eight-inch wafer production lines increase efficiency and contribute to the competitiveness of our products.

The following table summarizes the features of our products, both in mass production and in customer qualification, which is the final stage of product development:

Product	Key Features	Applications
Low Voltage MOSFET	V(ds)(V) options of 20V 100V	Mobile phones
	R(ds)(on) options of Max 5m W 50m W at 10V	Desktop computers
	Advanced 0.35 μ m Trench MOSFET Process	Mobile PCs
	High cell density of 268Mcell/inch(2) Advanced packages to enable reduction of PCB mounting area	Digital TVs
High Voltage MOSFET	Voltage options of 400, 500, and 600V	Power supplies for consumer electronics
	Drain current options of 1A 18A.	Industrial charger and adaptors
	R(ds)(on) options of 0.22~8.0* W (typical)	Lighting (ballast, HID, LED)
	R(2)FET (rapid recovery) option to shorten reverse diode recovery time Zenor FET option for MOSFET protection for abnormal input Advanced 0.50 μ m Planar MOSFET Process	Industrial equipment
LED Drivers	High efficiency, wide input voltage range Proven 0.35 μ m BCDMOS process 40V modular BCDMOS OCP, SCP, OVP and UVLO protections Accurate LED current control and multi-channel matching	LED backlights

Table of Contents

Product	Key Features	Applications
	Programmable current limit, boost up frequency	
DC-DC Converters*	High efficiency, wide input voltage range Proven 0.35µm BCDMOS process 30V modular BCDMOS Fast load and line regulation Accurate output voltage OCP, SCP and thermal protections	LCD TVs Set-top boxes DVD/Blu-ray players
Analog Switches	<i>USB Switches</i> Low C(on), 7.0pF (typical) limits signal distortion Low R(on), 4.0 W (typical) 0.35µm CMOS process <i>Audio Switches</i> Negative Swing Support Low R(on), 0.4 W (typical) High ESD protection, 13kV 0.35µm CMOS process	Mobile phones
Linear Regulators	Single and dual* LDOs Low Noise Output Linear µCap LDO Regulator 2.3V to 5.5V input voltage and 150mA, 300mA* output current Small package size of DFN type 0.35µm CMOS process	Mobile phones

* In customer qualification stage

Semiconductor Manufacturing Services

We provide semiconductor manufacturing services to analog and mixed-signal semiconductor companies. We have approximately 200 process flows we offer to our semiconductor manufacturing services customers. We also often partner with key customers to jointly develop or customize specialized processes that enable our customers to improve their products and allow us to develop unique manufacturing expertise.

Our semiconductor manufacturing services offering is targeted at customers who require differentiated, specialty analog and mixed-signal process technologies such as high voltage CMOS, embedded memory and power. We refer to our approach of delivering specialized services to our customers as our application-specific technology, or AS Tech, strategy. We differentiate ourselves through the depth of our intellectual property portfolio, ability to customize process technology to meet the customers requirements effectively, long history in this business and reputation for excellence.

Our semiconductor manufacturing services customers typically serve high-growth and high-volume applications in the consumer, computing and wireless end markets. We strive to be the primary manufacturing source for our semiconductor manufacturing services customers.

Table of Contents**Process Technology Overview**

Mixed-Signal. Mixed-signal process technology is used in devices that require conversion of light and sound into electrical signals for processing and display. Our mixed-signal processes include advanced technologies such as low noise process using triple gate, which uses less power at any given performance level. MEMS process technology allows the manufacture of components that use electrical energy to generate a mechanical response. For example, MEMS devices are used in the accelerometers and gyroscopes of mobile phones.

Power. Power process technology, such as BCD, includes high voltage capabilities as well as the ability to integrate functionality such as self-regulation, internal protection, and other intelligent features. The unique process features such as deep trench isolation are suited for chip shrink and device performance enhancement.

High Voltage CMOS. High voltage CMOS process technology facilitates the use of high voltage levels in conjunction with smaller transistor sizes. This process technology includes several variations, such as bipolar processes, which use transistors with qualities well suited for amplifying and switching applications, mixed mode processes, which incorporate denser, more power efficient FETs, and thick metal processes.

Non-Volatile Memory. Non-volatile memory, or NVM, process technology enables the integration of non-volatile memory cells that allow retention of the stored information even when power is removed from the circuit. This type of memory is typically used for long-term persistent storage.

The table below sets forth the key process technologies in Semiconductor Manufacturing Services currently in mass production:

Process	Technology	Device	End Markets
Mixed-signal	0.13-0.8 μ m	Analog to digital converter	Consumer
	Multipurpose	Digital to analog converter	Wireless
	Low noise	Audio codec	Computing
	Ultra low power	Chipset	
	Triple gate		
Power	0.18-0.35 μ m	Power management	Consumer
	aBCD	Mobile PMIC	Wireless
	Deep Trench Isolation	LED drivers	Computing
	Trench MOSFET		
	Planar MOSFET		
	Schottky Diode		
High Voltage CMOS	Zener Diode		
	0.13-2.0 μ m	Display drivers	Consumer
	5V-250V	CSTN drivers	Wireless
	Bipolar, Thick Metal		Computing
NVM	0.18-0.5 μ m	Microcontroller	Consumer
	EEPROM	Touch screen controller	Medical
	eFlash	Electronic tag	Automotive
	OTP	Hearing aid	

Table of Contents

Manufacturing and Facilities

Our manufacturing operations consist of three fabrication facilities located at two sites in Cheongju and Gumi in Korea. These sites have a combined capacity of approximately 131,000 eight-inch equivalent wafers per month. We manufacture wafers utilizing geometries ranging from 0.11 to 2.0 micron. The Cheongju facilities have three main buildings totaling 164,058 square meters devoted to manufacturing and development. The Gumi facilities have one main building with 41,022 square meters devoted to manufacturing, testing and packaging.

In addition to our fabrication facilities, we lease facilities in Seoul, Korea, Cupertino, California, and Osaka, Japan. Each of these facilities includes administration, sales and marketing and research and development functions. We lease sales and marketing offices at our subsidiaries in several other countries.

The ownership of our wafer manufacturing assets is an important component of our business strategy. Maintaining manufacturing control enables us to develop proprietary, differentiated products and results in higher production yields, as well as shortened design and production cycles. We believe our facilities are suitable and adequate for the conduct of our business for the foreseeable future and that we have sufficient production capacity to service our business as currently contemplated without significant capital investment.

A substantial majority of our assembly, test and packaging services for our Display Solutions business and all of such services for our Power Solutions business are outsourced with the balance handled in-house. Our independent providers of these services are located in Korea, China, Taiwan, Malaysia and Thailand. The relative cost of outsourced services, as compared to in-house services, depends upon many factors specific to each product and circumstance. However, we generally incur higher costs for outsourced services, which can result in lower margins.

We use processes that require specialized raw materials that are generally available from a limited number of suppliers. Tape is one of the process materials required for our display drivers. We continue to attempt to qualify additional suppliers for our raw materials.

Although we own our manufacturing facilities, we are party to a land lease and easement agreement with Hynix pursuant to which we lease the land for our facilities in Cheongju, Korea from Hynix for an indefinite term. Because we share certain facilities with Hynix, several services that are essential to our business are provided to us by or through Hynix under our general service supply agreement with Hynix. These services include electricity, bulk gases and de-ionized water, campus facilities and housing, wastewater and sewage management, environmental safety and certain utilities and infrastructure support services. The services agreement continues for an indefinite term subject to each party having a right to terminate in the event of an uncured breach by the other party.

Sales and Marketing

We focus our sales and marketing strategy on creating and strengthening our relationships with leading consumer electronics OEMs, as well as analog and mixed-signal semiconductor companies. We believe our close collaboration with customers allows us to align our product and process technology development with our customers' existing and future needs. Because our customers often service multiple end markets, our product sales teams are organized by customers within the major geographies. We believe this facilitates the sale of products that address multiple end-market applications to each of our customers. Our semiconductor manufacturing services sales teams focus on marketing our services to analog and mixed-signal semiconductor companies that require specialty manufacturing processes.

Table of Contents

We sell our products through a direct sales force and a network of authorized agents and distributors. We have strategically located our sales and technical support offices near our customers. Our direct sales force consists primarily of representatives co-located with our design centers in Korea and Japan, as well as our local sales and support offices in Greater China and Europe. We have a network of agents and distributors in Korea, Japan, Europe and Greater China. With the expansion of the Power Solutions division portfolio, we expect to expand our sales agents and distributor franchises into Europe and the United States in 2010. For the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, we derived 77% and 82% of net sales through our direct sales force, respectively, and 23% and 18% of net sales through our network of authorized agents and distributors, respectively.

Research and Development

Our research and development efforts focus on intellectual property, design methodology and process technology for our complex analog and mixed-signal semiconductor products and services. Research and development expenses for the nine months ended September 30, 2010, the combined twelve-month period ended December 31, 2009 and the years ended December 31, 2008 and 2007 were \$64.2 million, \$70.9 million, \$89.5 million and \$90.8 million, respectively, representing 11.0%, 12.7%, 14.9% and 12.8% of net sales, respectively.

Customers

We sell our display solutions and power solutions products to consumer electronics OEMs as well as subsystem designers and contract manufacturers. We sell our semiconductor manufacturing services to analog and mixed-signal semiconductor companies. For the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, our ten largest customers accounted for 64% and 69% of our net sales, respectively, and we had one customer, LG Display, representing 17% and 26% of our consolidated net sales, for the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, respectively. Substantially all of our sales to LG Display are in our Display Solutions segment and sales to LG Display represented 42% and 51% of net sales in our Display Solutions segment in the nine months ended September 30, 2010 and the combined twelve-month period ended December 31, 2009, respectively. Our relationships with some of our ten largest customers were and may continue to be adversely impacted by our reorganization proceedings. Some of these customers did not offer us the opportunity to compete for new design wins during the pendency of our reorganization proceedings. However, subsequent to our emergence from our reorganization proceedings we have again been provided an opportunity to compete for these projects. For the nine months ended September 30, 2010, we received revenues of \$66.1 million from customers in the United States and \$517.5 million from all foreign countries, of which 57.5% was from Korea, 22.5% from Taiwan, 8.1% from Japan and 8.9% from China, Hong Kong and Macau. For the combined twelve-month period ended December 31, 2009, we received revenues of \$59.0 million from customers in the United States and \$501.1 million from all foreign countries, of which 61.2% was from Korea, 18.5% from Taiwan, 7.6% from Japan and 9.6% from China, Hong Kong and Macau.

Intellectual Property

As of September 30, 2010, our portfolio of intellectual property assets included approximately 3,415 registered patents and 1,160 pending patent applications. Approximately 2,675 and 875 of our patents and pending patents are novel in that they are not a foreign counterpart of an existing patent or patent application. Because we file patents in multiple jurisdictions, we additionally have approximately 1,025 registered and pending patents that relate to identical technical claims in our base patent portfolio. Our patents expire at various times over the next 18 years. While these patents are in the aggregate important to our competitive position, we do not believe that any single registered or pending patent is material to us.

Table of Contents

We have entered into exclusive and non-exclusive licenses and development agreements with third parties relating to the use of intellectual property of the third parties in our products and our design processes, including licenses related to embedded memory technology, design tools, process simulation tools, circuit designs and processor cores. Some of these licenses, including our agreements with Silicon Works Co., Ltd. and ARM Limited, are material to our business and may be terminated prior to the expiration of these licenses by the licensors should we fail to cure any breach under such licenses. Our license with Silicon Works Co., Ltd. relates to our large display drivers and our license from ARM Limited primarily relates to product lines in our Semiconductor Manufacturing Services business. The loss of either license could have a material adverse impact on our results of operations. Additionally, in connection with the Original Acquisition, Hynix retained a perpetual license to use the intellectual property that we acquired from Hynix in the Original Acquisition. Under this license, Hynix and its subsidiaries are free to develop products that may incorporate or embody intellectual property developed by us prior to October 2004.

Competition

We operate in highly competitive markets characterized by rapid technological change and continually advancing customer requirements. Although no one company competes with us in all of our product lines, we face significant competition in each of our market segments. Our competitors include other independent and captive manufacturers and designers of analog and mixed-signal integrated circuits including display driver and power management semiconductor devices, as well as companies providing specialty manufacturing services.

We compete based on design experience, manufacturing capabilities, the ability to service customer needs from the design phase through the shipping of a completed product, length of design cycle and quality of technical support and sales personnel. Our ability to compete successfully will depend on internal and external variables, both within and outside of our control. These variables include the timeliness with which we can develop new products and technologies, product performance and quality, manufacturing yields, capacity availability, customer service, pricing, industry trends and general economic trends.

Employees

Our worldwide workforce consisted of 3,379 employees (full- and part-time) as of September 30, 2010, of which 387 were involved in sales, marketing, general and administrative, 395 were in research and development (including 206 with advanced degrees), 109 were in quality, reliability and assurance and 2,488 were in manufacturing (comprised of 350 in engineering and 2,138 in operations). As of September 30, 2010, 2,199 employees, or approximately 65.1% of our workforce, were represented by the MagnaChip Semiconductor Labor Union, which is a member of the Federation of Korean Metal Workers Trade Unions. We believe our labor relations are good.

Environmental

Our operations are subject to a variety of environmental, health and safety laws and regulations in each of the jurisdictions in which we operate, governing, among other things, air emissions, wastewater discharges, the generation, use, handling, storage and disposal of, and exposure to, hazardous substances (including asbestos) and waste, soil and groundwater contamination and employee health and safety. These laws and regulations are complex, constantly changing and have tended to become more stringent over time. For example, the Korean government recently adopted the Enforcement Decree to the Framework Act on Low Carbon Growth which we expect will result in additional compliance obligations and costs. There can be no assurance that we have been or will be in compliance with all these laws and regulations, or that we will not incur material costs or liabilities in

Table of Contents

connection with these laws and regulations in the future. The adoption of new environmental, health and safety laws, any failure to comply with new or existing laws or issues relating to hazardous substances could subject us to material liability (including substantial fines or penalties), impose the need for additional capital equipment or other process requirements upon us, curtail our operations or restrict our ability to expand operations.

Legal Proceedings

We are subject to lawsuits and claims that arise in the ordinary course of business and intellectual property litigation and infringement claims. Intellectual property litigation and infringement claims, in particular, could cause us to incur significant expenses or prevent us from selling our products. We are currently not involved in any legal proceedings the outcome of which we believe would have a material adverse effect on our business, financial condition or results of operations.

Segments

For a description of our business and the distribution of our assets by geographic regions and reporting segments, see note 15 to the interim consolidated financial statements for MagnaChip Semiconductor LLC for nine months ended September 30, 2010 and note 23 to the consolidated financial statements of MagnaChip Semiconductor LLC for the ten-month period ended October 25, 2009 and the two-month period ended December 31, 2009 included elsewhere in this prospectus.

Table of Contents**MANAGEMENT****Directors and Executive Officers and Corporate Governance.**

The following table is a list of the current directors and executive officers of MagnaChip and their respective ages as of September 30, 2010:

Name	Age	Position
Sang Park	63	Chairman of the Board of Directors and Chief Executive Officer
Tae Young Hwang	54	Chief Operating Officer and President
Brent Rowe	49	Senior Vice President, Worldwide Sales
Margaret Sakai	53	Senior Vice President and Chief Financial Officer
Heung Kyu Kim	47	Senior Vice President and General Manager, Power Solutions Division
Tae Jong Lee	47	Senior Vice President and General Manager, Corporate Engineering
John McFarland	43	Senior Vice President, General Counsel and Secretary
Michael Elkins	42	Director
Randal Klein	45	Director
R. Douglas Norby	74	Director
Gidu Shroff	65	Director
Steven Tan	34	Director
Nader Tavakoli	52	Director

Sang Park, Chairman of the Board of Directors and Chief Executive Officer. Mr. Park became our Chairman of the board of directors and Chief Executive Officer on January 1, 2007, after serving as President, Chief Executive Officer and director since May 2006. Mr. Park served as an executive fellow for iSuppli Corporation from January 2005 to May 2006. Prior to joining iSuppli, he was founder and president of SP Associates, a consulting services provider for technology companies, from September 2003 to December 2004. Mr. Park served as Chief Executive Officer of Hynix from May 2002 to March 2003, and as Chief Operating Officer and President of the Semiconductor Division of Hynix from July 1999 to April 2002. Prior to his service at Hynix, Mr. Park was Vice President of Procurement Engineering at IBM in New York from 1995 to 1999, and he held various positions in procurement and operations at Hewlett Packard in California from 1979 to 1995. Our board of directors has concluded that Mr. Park should serve as a director and as chairman of the board of directors based on his extensive experience as an executive, investor and director in our industry and his experience and insight as our Chief Executive Officer.

Tae Young Hwang, Chief Operating Officer and President. Mr. Hwang became our Chief Operating Officer and President in November 2009. He previously served as our Executive Vice President, Manufacturing Division, and General Manager, Display Solutions from January 2007, and our Executive Vice President of Manufacturing Operations from October 2004. Prior to that time, Mr. Hwang served as Hynix's Senior Vice President of Manufacturing Operations, System IC, from 2002 to 2003. From 1999 to 2001, he was Vice President of Cheongju Operations for Hynix. Mr. Hwang holds a B.S. degree in Mechanical Engineering from Pusan National University and an M.B.A. from Cheongju University.

Brent Rowe, Senior Vice President, Worldwide Sales. Mr. Rowe became our Senior Vice President, Worldwide Sales in April 2006. Prior to joining our company, Mr. Rowe served at Fairchild Semiconductor International, Inc., a semiconductor manufacturer, as Vice President, Americas Sales and Marketing from August 2003 to October 2005; Vice President, Europe Sales and Marketing from August 2002 to August 2003; and Vice President, Japan Sales and Marketing from April 2002 to August 2002. Mr. Rowe holds a B.S. degree in Chemical Engineering from the University of Illinois.

Table of Contents

Margaret Sakai, Senior Vice President and Chief Financial Officer. Ms. Sakai became our Senior Vice President, Finance, on November 1, 2006 and our Chief Financial Officer on April 10, 2009. Prior to joining our company, she served as Chief Financial Officer of Asia Finance and Vice President of Photonics, Inc., a manufacturer of reticles and photomasks for semiconductor and microelectronic applications, since November 2003. From June 1999 to October 2003, Ms. Sakai was Executive Vice President and Chief Financial Officer of PKL Corporation, a photomask manufacturer. From October 1995 to May 1999, Ms. Sakai served as Director of Finance of Acqutek International Limited, a lead-frame manufacturer, and from March 1992 to September 1995, Ms. Sakai served as Financial Manager at National Semiconductor Corporation. Ms. Sakai worked as an Audit Supervisor at Coopers & Lybrand from January 1988 to March 1992. Ms. Sakai is a Certified Public Accountant in the State of California and holds a B.A. degree in Accounting from Babson College.

Heung Kyu Kim, Senior Vice President and General Manager, Power Solutions Division. Mr. Kim became our Senior Vice President and General Manager, Power Solutions Division, in July 2007. Prior to joining our company, Mr. Kim served at Fairchild Semiconductor International, Inc., a semiconductor manufacturer, as Vice President of the Power Conversion Product Line from July 2003 to June 2007, and as Director of Korea Sales and Marketing from April 1999 to June 2003. Mr. Kim holds a B.S. degree in Metallurgical Engineering from Korea University.

Tae Jong Lee, Senior Vice President and General Manager, Corporate Engineering. Mr. Lee became our Senior Vice President and General Manager, Corporate Engineering, in August 2009. He previously served as our Vice President, Corporate Engineering from September 2007. Prior to joining our company, Mr. Lee served as Director of the Technology Development Division, Chartered Semiconductor Manufacturing, in Singapore from 1999 to August 2007. Mr. Lee holds B.S. and M.S. degrees from Seoul National University, and a Ph.D in Physics from the University of Texas at Dallas.

John McFarland, Senior Vice President, General Counsel and Secretary. Mr. McFarland became our Senior Vice President, General Counsel and Secretary in April 2006, after serving as Vice President, General Counsel and Secretary since November 2004. Prior to joining our company, Mr. McFarland served as a foreign legal consultant at Bae, Kim & Lee, a law firm, from August 2003 to November 2004 and an associate at Wilson Sonsini Goodrich & Rosati, P.C., a law firm, from August 2000 to July 2003. Mr. McFarland holds a B.A. degree in Asian Studies, conferred with highest distinction from the University of Michigan, and a J.D. degree from the University of California, Los Angeles, School of Law.

Michael Elkins, Director. Mr. Elkins became our director in November 2009. Mr. Elkins joined Avenue in 2004 and is currently a Portfolio Manager of the Avenue U.S. Funds. In such capacity, Mr. Elkins is responsible for assisting with the direction of the investment activities of the Avenue U.S. strategy. Due to the percentage of our equity owned or controlled by Avenue, Avenue is considered our affiliate. Prior to joining Avenue, Mr. Elkins was a Portfolio Manager and Trader with ABP Investments US, Inc. While at ABP, he was responsible for actively managing high yield investments using a total return-special situations overlay strategy. Prior to ABP, Mr. Elkins served as a Portfolio Manager and Trader for UBK Asset Management, after joining the company as a High Yield Credit Analyst. Previously, Mr. Elkins was a Credit Analyst for both Oppenheimer & Co., Inc. and Smith Barney, Inc. Mr. Elkins has served on the board of directors of Vertis Communication, an advertising services company, since October 2008, and Milacron LLC, a plastics-processing technologies and industrial fluids supplier, since April 2009. Mr. Elkins serves on the board of directors of each of these companies, both of which are private companies, in connection with a reorganization or refinancing involving affiliates of Avenue and serves as a result of his position with Avenue. Mr. Elkins holds a B.A. in Marketing from George Washington University and an M.B.A. in Finance from the Goizueta Business School at Emory University. Mr. Elkins was appointed to our board of directors by Avenue pursuant to our plan of reorganization and pursuant to our Fifth Amended and Restated Limited

Table of Contents

Liability Company Operating Agreement, which we refer to as our Operating Agreement. Our board of directors has concluded that Mr. Elkins should serve on the board based upon his 15 years of investment portfolio management experience, including 10 years investing in technology companies, including the semiconductor sector.

Randal Klein, Director. Mr. Klein became our director in November 2009. Mr. Klein joined Avenue, our affiliate, in 2004 and is currently a Portfolio Manager at Avenue focused on investments in trade claims and vendor financing. Previously, he was a Senior Vice President of the Avenue U.S. Funds. In such capacity, Mr. Klein was responsible for managing restructuring activities and identifying, analyzing and modeling investment opportunities for the Avenue U.S. strategy. Prior to joining Avenue, Mr. Klein was a Senior Vice President at Lehman Brothers, where his responsibilities included restructuring advisory work, financial sponsors coverage, mergers and acquisitions and corporate finance. Prior to Lehman, Mr. Klein worked in sales, marketing and engineering as an aerospace engineer for The Boeing Company. Mr. Klein holds a B.S. in Aerospace Engineering, conferred with Highest Distinction from the University of Virginia, and an M.B.A. in Finance from the Wharton School of the University of Pennsylvania. Mr. Klein was appointed to our board of directors by Avenue pursuant to our plan of reorganization and pursuant to our Operating Agreement. Our board of directors has concluded that Mr. Klein should serve on the board based upon his 15 years of experience as a financial advisor and investment manager.

R. Douglas Norby, Director and Chairman of the Audit Committee. Mr. Norby became our director and Chairman of the Audit Committee in March 2010. Mr. Norby retired from full time employment in July 2006. Mr. Norby previously served as our director and Chairman of the Audit Committee from May 2006 until October 2008. Mr. Norby served as Senior Vice President and Chief Financial Officer of Tessera Technologies, Inc., a public semiconductor intellectual property company, from July 2003 to January 2006. Mr. Norby worked as a management consultant with Tessera from May 2003 until July 2003 and from January 2006 to July 2006. Mr. Norby served as Chief Financial Officer of Zambeel, Inc., a data storage systems company, from March 2002 until February 2003, and as Senior Vice President and Chief Financial Officer of Novalux, Inc., an optoelectronics company, from December 2000 to March 2002. Prior to his tenure with Novalux, Inc., Mr. Norby served as Executive Vice President and Chief Financial Officer of LSI Logic Corporation from November 1996 to December 2000. Mr. Norby is a director of Alexion Pharmaceuticals, Inc. and STATS ChipPAC Ltd. Mr. Norby received a B.A. degree in Economics from Harvard University and an M.B.A. from Harvard Business School. Our board of directors has concluded that Mr. Norby should serve on our board based upon his extensive experience as a chief financial officer, his extensive experience in accounting and his experience as a public company director and audit committee chair.

Gidu Shroff, Director. Mr. Shroff became our director in March 2010. Mr. Shroff retired from full time employment in July 2009. Mr. Shroff served in various positions at Intel Corporation from 1980 to July 2009. He served as a Corporate Vice President from January 2002 to July 2009, as Vice President of Materials from December 1997 to January 2002, and as General Manager of Outsourcing from January 1990 until December 1997. Mr. Shroff holds a B.S. in Metallurgy from Poona Engineering University in India, an M.S. in Materials Science from Stanford University and an M.B.A. from Santa Clara University. Our board of directors has concluded that Mr. Shroff should serve on the board based upon his extensive experience in the semiconductor industry.

Steven Tan, Director. Mr. Tan became our director in November 2009. Mr. Tan joined Avenue, our affiliate, in 2005 and is currently a Vice President of the Avenue U.S. Funds. In such capacity, Mr. Tan is responsible for identifying and analyzing investment opportunities in the technology and telecommunications sectors for the Avenue U.S. strategy. Previously, Mr. Tan was a research analyst in the Avenue Event Driven Group where he was responsible for investments related to long/short equity, special situations and risk arbitrage. Prior to Avenue, Mr. Tan worked at Wasserstein Perella &

Table of Contents

Co., an investment and merchant bank, where he was a Mergers & Acquisitions analyst with the Industrial Group focusing on the automotive and industrial sectors. Mr. Tan holds a B.A. in Mathematics and Economics from Wesleyan University and an M.B.A. from the Harvard Business School. Mr. Tan was appointed to our board of directors by Avenue pursuant to our plan of reorganization and pursuant to our Operating Agreement. Our board of directors has concluded that Mr. Tan should serve on the board based on his five years of experience as an analyst and investment manager.

Nader Tavakoli, Director. Mr. Tavakoli became our director in November 2009. Mr. Tavakoli has been Chairman and Chief Executive Officer of EagleRock Capital Management, a private investment firm based in New York City since January 2002. Prior to founding EagleRock, Mr. Tavakoli was a portfolio manager at Odyssey Partners, Highbridge Capital and Cowen and Co. Mr. Tavakoli holds a B.A. in History from Montclair State University and a J.D. from Rutgers School of Law. Our board of directors has concluded that Mr. Tavakoli should serve on the board based upon his extensive investing experience.

Involvement in Certain Legal Proceedings

Sang Park was the Chairman of our board of directors and Chief Executive Officer and Tae Young Hwang, Brent Rowe, Margaret Sakai, Heung Kyu Kim, Tae Jong Lee and John McFarland were each officers during our Chapter 11 reorganization proceedings. R. Douglas Norby was one of our directors until September 2008. Mr. Norby was also an officer of Novalux, Inc., a private company, which filed a voluntary petition for reorganization under Chapter 11 in March 2003, approximately one year after Mr. Norby's departure from Novalux, Inc.

Board Composition

Our bylaws will provide that our board of directors will consist of seven members. Mr. Park, our Chief Executive Officer, is the Chairman of our board of directors. Messrs. Elkins, Klein, and Tan have been designated to serve on our board by our largest equity holder, which consists of funds affiliated with Avenue Capital Management II, L.P. Avenue has the right to appoint a majority of our board pursuant to our Operating Agreement which will terminate upon the completion of the corporate conversion. Messrs. Norby, Shroff and Tavakoli serve as independent directors elected by a majority vote of the directors then in office at the time of their election in accordance with our Operating Agreement. A majority of our board is not currently independent as defined under SEC and NYSE rules. In accordance with applicable rules of the NYSE, we are relying upon an exception that does not require us to satisfy the requirement that a majority of our board be independent until one year following initial listing. We expect that prior to the one year anniversary of our initial NYSE listing, the composition of our board will be changed such that a majority of our directors will be independent. If we fail to comply with the NYSE listing rules, our common stock could be delisted from the NYSE.

Upon the completion of this offering, our board of directors will be divided into three classes with staggered three-year terms as follows:

Class I directors will be Messrs. Norby and Shroff, and their terms will expire at the annual general meeting of stockholders to be held in 2011;

Class II directors will be Messrs. Klein and Tavakoli, and their terms will expire at the annual general meeting of stockholders to be held in 2012; and

Class III directors will be Messrs. Elkins, Park and Tan, and their terms will expire at the annual general meeting of stockholders to be held in 2013.

Table of Contents

Audit Committee

Our audit committee consists of Mr. Norby as Chairman and Messrs. Klein and Tavakoli. Our board of directors has determined that Mr. Norby is an audit committee financial expert as defined in Item 407(d)(5) of Regulation S-K promulgated under the Securities Act. Our board has also determined that Messrs. Norby and Tavakoli are independent as that term is defined in both Rule 303A of the NYSE rules and Rule 10A-3 promulgated under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and, upon the closing of this offering, will each be an independent director as that term is defined in Rule 303A of the NYSE rules. In making this determination, our board of directors considered the relationships that Messrs. Norby and Tavakoli have with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence, including any beneficial ownership of our equity. The board has determined that Mr. Klein is not an independent director. In accordance with applicable rules of the NYSE, we are relying upon an exception that allows us to phase in our compliance with the independent audit committee requirement as follows, (i) one independent member at the time of listing; (ii) a majority of independent members within 90 days of listing; and (iii) all independent members within one year of listing. We expect that prior to the one year anniversary of our initial NYSE listing, Mr. Klein will resign from the audit committee and at least one new independent director will be appointed. If we fail to comply with the NYSE listing rules, our common stock could be delisted from the NYSE.

Compensation Committee

The compensation committee of the board has overall responsibility for evaluating and approving our executive officer and director compensation plans, policies and programs, as well as all equity-based compensation plans and policies. We expect that our compensation committee will consist of Messrs. Elkins, Klein and Tavakoli as of the effectiveness of the offering. Our board has determined that Mr. Tavakoli is independent under NYSE and SEC rules. In making this determination, our board of directors considered the relationships that Mr. Tavakoli has with our company and all other facts and circumstances our board of directors deemed relevant in determining his independence, including any beneficial ownership of our equity. The board has determined that Messrs. Elkins and Klein are not independent directors. In accordance with applicable rules of the NYSE, we are relying upon an exception that allows us to phase in our compliance with the independent compensation committee requirement as follows, (i) one independent member at the time of listing; (ii) a majority of independent members within 90 days of listing; and (iii) all independent members within one year of listing. We expect that prior to the applicable dates, the composition of our compensation committee will be changed such that we will be in compliance with the independent compensation committee requirement.

Nominating and Governance Committee

The nominating and governance committee has the responsibility to identify qualified individuals to become members of the board, to oversee an annual evaluation of the board of directors and its committees, to periodically review and recommend to the board any proposed changes to our corporate governance guidelines and to monitor our corporate governance structure. We expect that our nominating and corporate governance committee will consist of Messrs. Elkins, Shroff and Tan as of the effectiveness of the offering. Our board has determined that Mr. Shroff is independent under NYSE and SEC rules. In making this determination, our board of directors considered the relationships that Mr. Shroff has with our company and all other facts and circumstances our board of directors deemed relevant in determining his independence, including any beneficial ownership of our equity. The board has determined that Messrs. Elkins and Tan are not independent directors. In accordance with applicable rules of the NYSE, we are relying upon an exception that allows us to phase in our compliance with the independent nominating and corporate governance committee requirement as follows, (i) one independent member at the time of listing; (ii) a majority of independent members within

Table of Contents

90 days of listing; and (iii) all independent members within one year of listing. We expect that prior to the applicable dates, the composition of our nominating and corporate governance committee will be changed such that we will be in compliance with the independent nominating and corporate governance committee requirement.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers and employees. We will provide a copy of our Code of Business Conduct and Ethics without charge to any person upon written request made to our Senior Vice President, General Counsel and Secretary at c/o MagnaChip Semiconductor, Ltd., 891 Daechi-dong, Gangnam-gu, Seoul, 135-738, Korea. Our Code of Business Conduct and Ethics is also available on our website at www.magnachip.com.

Assessment of Risk

Our board of directors believes that our compensation programs are designed such that they will not incentivize unnecessary risk-taking. The base salary component of our compensation program is a fixed amount and does not depend on performance. Our cash incentive program takes into account multiple factors, thus diversifying the risk associated with any single performance factor, and we believe it does not incentivize our executive officers to focus exclusively on short-term outcomes. Our equity awards are limited by the terms of our equity plans to a fixed maximum specified in the plan, and are subject to vesting to align the long-term interests of our executive officers with those of our equityholders.

Compensation Discussion and Analysis

Executive Compensation

Compensation Philosophy and Objectives

The compensation committee of our board of directors, or the Committee, has overall responsibility for administering our compensation program for our named executive officers. The Committee's responsibilities consist of evaluating, approving and monitoring our executive officer and director compensation plans, policies and programs, as well as each of our equity-based compensation plans and policies. Prior to 2010, compensation decisions were made by the entire board of directors and for the discussion that follows, references to the Committee during such period refer to the entire board. For 2009, our named executive officers who continue to serve as executive officers were:

Sang Park, Chairman of the Board of Directors and Chief Executive Officer;

Tae Young Hwang, Chief Operating Officer and President;

Brent Rowe, Senior Vice President, Worldwide Sales;

Margaret Sakai, Senior Vice President and Chief Financial Officer; and

John McFarland, Senior Vice President, General Counsel and Secretary.

The Committee seeks to establish total compensation for executive officers that is fair, reasonable and competitive. The Committee evaluates our compensation packages to ensure that:

we maintain our ability to attract and retain superior executives in critical positions;

our executives are incentivized and rewarded for aggressive corporate growth, achievement of long-term corporate objectives and individual performance that meets or exceeds our expectations without encouraging unnecessary risk-taking; and

Table of Contents

compensation provided to critical executives remains competitive relative to the compensation paid to similarly situated executives of companies in the semiconductor industry.

The Committee believes that the most effective executive compensation packages align executives' interests with those of our unitholders by rewarding performance that exceeds specific annual, long-term and strategic goals that are intended to improve unitholder value. These objectives include the achievement of financial performance goals and progress on projects that our board of directors anticipates will lead to future growth, as discussed more fully below.

The information set forth below in this Compensation Discussion and Analysis describes the Committee's general philosophy and historical approach. However, given our financial challenges, in the beginning of 2009, the Committee determined to continue the arrangements from the prior year and did not perform any in depth analysis.

Until April 2009, Robert J. Krakauer served as our President, Chief Financial Officer, and director. In April 2009, we entered into a Senior Advisor Agreement with Mr. Krakauer pursuant to which he resigned from his employment and as a director but remains available to consult with us in a limited capacity until April 2010 to one year thereafter. Although Mr. Krakauer is no longer one of our executive officers, his 2009 compensation is reported herein in accordance with SEC rules.

Role of Executive Officers in Compensation Decisions

For named executive officers other than our chief executive officer, we have historically sought and considered input from our chief executive officer in making determinations regarding executive compensation. Our chief executive officer annually reviews the performance of our other named executive officers. Our chief executive officer subsequently presents conclusions and recommendations regarding such officers, including proposed salary adjustments and incentive amounts, to the Committee. The Committee then takes this information into account when it makes final decisions regarding any adjustments or awards.

The review of performance by the Committee and our chief executive officer of other executive officers is both an objective and subjective assessment of each executive's contribution to our performance, leadership qualities, strengths and weaknesses and the individual's performance relative to goals set by the Committee or our chief executive officer, as applicable. The Committee and our chief executive officer do not systematically assign a weight to the factors, and may, in their discretion, consider or disregard any one factor which, in their sole discretion, is important to or irrelevant for a particular executive.

The Committee's annual determinations regarding executive compensation are subject to the terms of the respective service agreements between us and the named executive officers (as set forth in more detail below). In addition to the annual reviews, the Committee also typically considers compensation changes upon a named executive officer's promotion or other change in job responsibility. Neither our chief executive officer nor any of our other executives participates in deliberations relating to their own compensation.

Role of Compensation Consultants

The Committee has the authority to retain the services of third-party executive compensation specialists in connection with the establishment of cash and equity compensation and related policies. Historically, we have engaged compensation consultants to provide information and recommendations relating to executive pay and equity compensation or otherwise obtained third party compensation surveys. In light of the financial challenges we were facing, we did not use a compensation consultant, or review any formal industry data, in connection with setting 2009 executive compensation. The Committee has not retained a compensation consultant for 2010.

Table of Contents

Timing of Compensation Decisions

At the end of each fiscal year, our chief executive officer will review the performance of the other executive officers and present his conclusions and recommendations to the Committee. At that time and throughout the year, the Committee will also evaluate the performance of our chief executive officer, which is measured in substantial part against our consolidated financial performance. In January of the following fiscal year, the Committee will then assess the overall functioning of our compensation plans against our goals, and determine whether any changes to the allocation of compensation elements, or the structure or level of any particular compensation element, are warranted.

In connection with this process, our Committee generally establishes the elements of its performance-based cash bonus plan for the upcoming year. With respect to newly hired employees, our practice is typically to approve equity grants at the first meeting of the Committee following such employee's hire date. We do not have any program, plan or practice to time equity award grants in coordination with the release of material non-public information. From time to time, additional equity awards may be granted to executive officers during the fiscal year. For example, in December 2009, our executive officers were granted restricted unit bonuses and nonstatutory options for common units, as further described below.

Elements of Compensation

In making decisions regarding the pay of the named executive officers, the Committee looks to set a total compensation package for each officer that will retain high-quality talent and motivate executives to achieve the goals set by our board of directors. Our 2009 compensation package was composed of the following elements:

annual base salary;

short-term cash incentives;

long-term equity incentives;

a benefits package that is generally available to all of our employees; and

expatriate and other executive benefits.

Determination of Amount of Each Element of Compensation

General Background

Historically, the Committee has taken a variety of factors into consideration when determining changes to overall compensation levels and levels of individual annual compensation elements, as further described below. In the beginning of 2009, however, the Committee assessed the overall functioning of our compensation plans against our goals, and, due to our financial condition and impending reorganization proceedings, determined no changes from the prior year to the allocation of compensation elements, or the structure or level of any particular compensation element, were warranted for 2009. Subsequently, in connection with our emergence from our reorganization proceedings, the Committee made certain determinations with respect to executive compensation. Accordingly, unless otherwise referenced in the context of our emergence from our reorganization proceedings and the Committee's compensation decisions made thereafter, the below disclosure is a general discussion of the manner in which the Committee has made decisions regarding compensation levels in prior years, and the underlying reasons for those decisions.

The Committee seeks to establish a total cash compensation package for our named executive officers that is competitive with the compensation reflected in compensation data for similarly-situated executives in the peer group reviewed by the Committee, subject to adjustments based on

each

124

Table of Contents

executive's experience and performance. Historically, based on the recommendations provided by outside advisors, our review of industry specific survey data and the professional and market experience of our Committee members, we measured total cash compensation for our named executive officers against cash compensation paid to executives at similarly situated companies which we determined to be our select peer group. Base salaries for our named executive officers were benchmarked to median levels for companies in the select peer group, and were adjusted upward or downward for performance, and short-term cash incentives were put in place to provide for opportunities that may result in higher than median levels of cash compensation as compared to our select peer group if, and depending upon the extent to which, our performance and that of our named executive officers exceeded expectations and the goals established by the Committee for the year in question.

Historically, our select peer group has included other major Korean based semiconductor companies, including Fairchild Korea, Dongbu Hitek, ChipPac Korea and Hynix Semiconductor. In addition, we also reviewed compensation data from TowersPerrin Korea, an independent compensation consultant, which surveyed the companies listed below, to assess how compensation for our select peer group related to compensation paid to executives in a broader range of technology companies.

Accenture	CommVerge	Lam Research	NXP Semiconductors
Advanced Micro Devices	CSR	Lexmark International	Orange Business Services
Applied Materials	Dell	Microsoft	Sony Computer Entertainment
ASML	Electronic Arts	NCsoft	Tokyo Electron
Blizzard	GCT Semiconductor	Neowiz Games	Toshiba Group
Cisco Systems	Gravity	NHN Games	Verizon Business
CJ Internet	JCEntertainment	Npluto	

KLA-Tencor

The Committee makes annual determinations regarding cash incentive compensation based on our annual operating plan, which is adopted in the December preceding each fiscal year, including the expected performance of our business in the coming fiscal year. The Committee makes all equity compensation decisions for our officers based on existing compensation arrangements for other of our executives at the same level of responsibility and based on our review of the select peer group with a view to maintaining internal consistency and parity.

Equity awards are not tied to base salary or cash incentive amounts and will constitute lesser or greater proportions of total compensation depending on the fair value of the awards. The Committee, relying on the professional and market experience of our Committee members, generally seeks to set equity awards at median levels of equity compensation at the select peer group companies. The Committee does not apply a formula or assign relative weight in making its determination. Instead, it makes a subjective determination after considering all information

collectively.

The Committee may approve additional incentive payments or equity compensation grants from time to time during the year in its discretion.

Base Salary

Base salary is the guaranteed element of an employee's annual cash compensation. Changes in base salary may be approved by the Committee for an executive if the median levels of base salary compensation for similarly-situated executives in our select peer group have changed, and may be

Table of Contents

further adjusted based upon the employee's long-term performance, skill set and the value of that skill. The Committee evaluates the performance of each named executive officer on an annual basis based on the accomplishment of performance objectives that were established at the beginning of the prior fiscal year as well as its own subjective evaluation of the officer's performance. In making its evaluation, the Committee makes a subjective qualitative assessment of the officer's contribution to our performance during the preceding year, including leadership, success in attaining particular goals of a division for which that officer has responsibility, our overall financial performance and such other criteria as the Committee may deem relevant, including input from our Chief Executive Officer. The Committee then makes a subjective decision regarding any changes in base salary based on these factors and the data from our select peer group. The Committee does not systematically assign weights to any of the factors it considers, and may, in its discretion, ignore any factors or deem any one factor to have greater importance for a particular executive officer.

Based upon our financial condition at the time, the Committee determined not to change compensation arrangements at the beginning of 2009. The current base salaries of the Company's named executive officers compare to the median of the Company's select peer group as follows: Mr. Park is at or slightly above, Mr. Hwang is slightly below, Ms. Sakai is slightly above, Mr. Rowe is slightly below and Mr. McFarland is generally in line. Our employees, including our executive officers, voluntarily accepted a 20% reduction in base salary from 2008 levels from January to June 2009, as part of austerity measures implemented to assist in our recovery. Mr. Park voluntarily accepted a 40% reduction in base salary from January to March 2009, and a 20% reduction from April to June 2009. In June 2009, our board of directors approved a one-time payment of 10% of base salary paid from April to June 2009 to all employees who voluntarily accepted pay reductions earlier in the year, which group included all of our named executive officers. This amount is reported as salary in the Summary Compensation Table below. We restored salaries to 2008 levels in July 2009. In December 2009, as a reward for the successful completion of our reorganization proceedings, our board of directors approved a one-time payment of 30% of then monthly base salary to all employees who voluntarily accepted pay reductions earlier in the year, which group included all of our named executive officers. The amount paid to named executive officers are reported as bonus in the Summary Compensation Table below. The Committee also granted additional special discretionary incentives to Mr. Hwang, Mr. Rowe, Ms. Sakai and Mr. McFarland, as described in more detail below.

Cash Incentives

Short-term cash incentives comprise a significant portion of the total target compensation package and are designed to reward executives for their contributions to meeting and exceeding our goals and to recognize and reward our executives in achieving these goals. Incentives are designed as a percentage of base salary and are awarded based on individual performance and our achievement of the annual, long-term and strategic quantitative goals set by our Committee.

Given our financial position at the beginning of 2009, we did not modify the annual targets for our cash incentive plans for 2009. As a result, our short-term cash incentive plan was effectively suspended for the year. In December 2009, our board of directors implemented a cash incentive plan effective as of January 1, 2010, which we call the Profit Sharing Plan. Each of our employees is eligible to participate in the Profit Sharing Plan, and our board of directors intends for the Profit Sharing Plan to incentivize our named executive officers, officers and employees to exceed expectations throughout our entire fiscal year. Our board of directors has empowered the Committee to administer the Profit Sharing Plan.

Under the Profit Sharing Plan, the Committee will review our business plan in December of each year and determine an annual consolidated Adjusted EBITDA target, or the Base Target, for the upcoming fiscal year and set the targeted amount to be awarded to our named executive officers and employees, or the Profit Share, for meeting the Base Target and for achievement in excess of the Base Target.

Table of Contents

The Base Target is calculated as a percentage of our forecasted gross annual revenue for the upcoming fiscal year. We determine our revenue forecast by looking at several factors, including existing orders from our customers, quarterly and annual forecasts from our customers, our product roadmap and how it corresponds with our projected customer needs, and the overall industry forecasts for the semiconductor market. The Committee's goal is to set a Base Target that is difficult but not unreasonable to achieve. To determine the percentage of gross annual revenue for purposes of setting the Base Target, the Committee, in consultation with our board of directors, first determines a range of Adjusted EBITDA growth and gross margin that is competitive based upon the select peer group and will ensure that we build unitholder value, then sets a percentage such that the forecasted Adjusted EBITDA growth and gross margin is within that range. See Prospectus Summary Summary Historical and Unaudited Pro Forma Consolidated Financial Data for a discussion of how we define and why we use Adjusted EBITDA.

Each named executive officer receives as a Profit Share a set percentage of their annual base salary once the Base Target is achieved. For 2010, our Chief Executive Officer is eligible to receive 40% of annual base salary, our President is eligible to receive 33.3% of annual base salary, our General Managers are eligible to receive 26.7% of annual base salary, our Senior Vice Presidents are eligible to receive 23.3% of annual base salary and our Vice Presidents are eligible to receive 20% of annual base salary. In the event we exceed the Base Target, we will pay to our executive officers and employees an additional Profit Share of 25% of our annual consolidated Adjusted EBITDA in excess of the Base Target.

We pay the Profit Share during the normal pay period in the January following the conclusion of each fiscal year for which the Profit Share is calculated, and the Profit Share is only payable to those executives who have been employed by us during the entire fiscal year for which the Profit Share is calculated and who are employed by us on the Profit Share payment date, provided that the Profit Share is payable pro rata to any named executive officers who begin their employment during the fiscal year for which the Profit Share is calculated.

The Committee retains the sole discretion to (i) authorize the payment of the Profit Share in December of the relevant fiscal year when the Committee believes the Base Target will be achieved, (ii) pay Profit Shares when we achieve slightly less than the Base Target, and (iii) make interim Profit Share payments during the fiscal year. In addition to the Profit Sharing Plan, the Committee retains the right to grant discretionary incentives to our named executive officers as a reward for extraordinary performance. For example, Mr. Hwang, Ms. Sakai and Mr. McFarland were paid a discretionary incentive in December 2009 in recognition of their role in our successful reorganization proceedings. These amounts were not based upon any numerical or formulaic factors, but rather were determined by the Committee based upon a subjective assessment of their respective individual contributions and are reported in the Summary Compensation Table in the column labeled Bonus. In addition, Messrs. Park and Rowe were each entitled to fixed bonuses pursuant to their employment agreements subject to continued employment. In the case of Mr. Park, he elected to forego \$298,000 of the bonus otherwise payable to him in order for such amounts to be available for bonuses to other executives, including discretionary bonuses paid to Mr. Hwang, Ms. Sakai and Mr. McFarland.

For 2010, the implementation of the Profit Sharing Plan has been modified to provide our employees with an opportunity to share in our success earlier in the fiscal year than under the existing Profit Sharing Plan. In addition to setting the Base Target, two interim targets for our first and second fiscal quarters have been set. We will make Profit Share payments in the first normal pay period following the conclusion of each of the first two fiscal quarters in which we reach the corresponding quarterly target. The total Profit Share payable for meeting the Base Target for 2010 is capped for each employee at his or her respective percentage of annual base salary, such that the amount of any Profit Share payable for 2010 performance after the end of 2010 will be offset by any portion of the Profit

Table of Contents

Share paid during 2010 for reaching either or both of the quarterly targets. In addition, for 2010, if we exceed the Base Target our employees will not be eligible to earn the additional Profit Share of 25% of our annual consolidated Adjusted EBITDA in excess of the Base Target. As a result, our executive officers and employees will only be entitled to receive a cash incentive equal to the percentage of their salary disclosed above. Under the Profit Sharing Plan, we recognized bonuses for our named executive officers in our consolidated statement of operations for the six months ended June 30, 2010 in an aggregate amount of \$69,559, ranging individually from \$9,372 to \$22,442. The bonuses were paid in April and July 2010. For the three months ended September 30, 2010, we recognized bonuses accrual for our named executive officers for annual incentive awards in our consolidated statement of operations in an amount of \$288,832, ranging individually from \$39,202 to \$97,979. The bonuses will be paid in January 2011.

Equity Compensation

In addition to cash incentives, we offer equity incentives as a way to enhance the link between the creation of unitholder value and executive incentive compensation and to give our executives appropriate motivation and rewards for achieving increases in enterprise value. Under our 2009 Common Unit Plan, our board of directors granted options to acquire MagnaChip Semiconductor LLC common units and restricted unit bonus awards. Awards under our 2009 Common Unit Plan will be converted into options for common stock and restricted common stock of MagnaChip Semiconductor Corporation upon our corporate conversion. Such options vest in installments over three years following grant, with approximately one-third of the restricted unit awards vested at grant and the remainder vesting in two subsequent annual installments, as set forth in more detail below.

Under our 2010 Equity Incentive Plan, which will replace the 2009 Common Unit Plan immediately following our corporation conversion, the Committee may grant participants stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares and units, and other stock-based and cash-based awards. In granting equity awards, the Committee may establish any conditions or restrictions it deems appropriate. Stock options and stock appreciation rights must have exercise prices at least equal to the fair market value of the stock at the time of their grant pursuant to the 2010 Equity Incentive Plan. Following the completion of this offering, the fair market value of the stock at the time of grant will generally be the closing price of a share of stock as quoted on the national or regional securities exchange or quotation system constituting the primary market for the stock on the date any grant is made. Prior to the exercise of a stock option or stock appreciation or settlement of an award denominated in units, the holder has no rights as a stockholder with respect to the stock subject to the award, including voting rights and the right to receive dividends. Participants receiving restricted stock awards are stockholders and have both voting rights and the right to receive dividends, except that dividends paid on unvested shares may remain subject to forfeiture until vested. Award vesting ceases upon termination of employment, and vested options and stock appreciation rights remain exercisable only for a limited period following such termination.

The Committee considers granting additional equity compensation in the event of new employment, a promotion or change in job responsibility or a change in median levels of equity compensation for similarly-situated executives at companies in our select peer group or in its discretion to reward or incentivize individual officers. The option award levels vary among participants based on their job grade and position. The Committee generally seeks to award equity compensation at levels consistent with the median levels for executives at companies in our select peer group, and will also make subjective determinations regarding adjustments to award amounts in light of factors such as the available pool, individual performance and role of executives. For example, the Committee may adjust the size of an award for an individual executive above the option award level for his or her position if the Committee determines that the executive has provided exceptional performance, or may increase the option award level for a position above the median level reflected in the select peer group if the

Table of Contents

position is considered by the Committee to be more critical to our long-term success. The Committee will generally maintain substantially equivalent award levels for executives at equivalent job grades. Stock option awards are not tied to base salary or cash incentive amounts.

As a result of our reorganization proceedings, all previously outstanding common and preferred units and options held by our named executive officers were cancelled. In December 2009, we granted new options to our executives with the option award amounts generally determined based upon the median levels of our select peer group. Thirty-four percent of the common units subject to the options will vest and become exercisable on the first anniversary of grant date, with 8 or 9% of the common units subject to the options vesting on completion of each three-month period thereafter through December 2012. In December 2009, in recognition of services provided in guiding us through our reorganization proceedings, our board of directors also granted each of our current named executive officers a restricted unit bonus in addition to an option. The amount of the restricted unit bonuses were not based upon any numerical or formulaic factors, nor based upon any comparative peer group, data or the number of options granted, but rather were determined based upon our board of directors' subjective assessment of individual contributions to the successful completion of the reorganization proceedings. We granted restricted unit bonuses in order to provide our executives with an equity incentive with a built-in gain equal to the value of the units as of the date of grant while still incentivizing them to contribute toward increasing our enterprise value. See *Grant of Plan-Based Awards* below for information regarding the number and value of units granted to each named executive officer. Thirty-four percent of each restricted unit bonus vested upon grant, with the remaining portion vesting in equal installments on the first and second anniversary of the grant date.

Upon the recommendation of our board of directors or chief executive officer, or otherwise, the Committee may in the future consider granting additional performance-based equity incentives.

Perquisites and Other Benefits

We provide the named executive officers with perquisites and other personal benefits, including expatriate benefits, that the Committee believes are reasonable and consistent with our overall compensation program to better enable us to attract and retain superior employees for key positions. Generally perquisites are determined based upon what the Committee considers to be the most customary perquisites offered by the select peer group and are not based upon a median cost for specific perquisites or for the perquisites in aggregate. The Committee determines the level and types of expatriate benefits for the executive officers based on local market surveys taken by our human resources group. These surveys are not limited to our select peer group, but include a broad range of non-Korea based companies with significant operations in Korea. Attributed costs of the personal benefits for the named executive officers are as set forth in the Summary Compensation Table below.

Mr. Park, Ms. Sakai and Mr. McFarland were expatriates during all or part of 2009 and received expatriate benefits commensurate with market practice in Korea. These perquisites, which were determined on an individual basis, included housing allowances, relocation allowances, insurance premiums, reimbursement for the use of a car, home leave flights, living expenses, tax equalization payments and tax advisory services, each as we deemed appropriate.

In addition, pursuant to the Employee Retirement Benefit Security Act, certain executive officers resident in Korea with one or more years of service are entitled to severance benefits upon the termination of their employment for any reason. For purposes of this section, we call this benefit statutory severance. The base statutory severance is approximately one month of base salary per year of service. Mr. Hwang, Ms. Sakai and Mr. McFarland accrue statutory severance.

Table of Contents**Summary Compensation Table**

The following table sets forth certain information concerning the compensation earned during the years ended December 31, 2007, 2008 and 2009, of our named executive officers:

Name and Principal Position	Year	Salary (\$)(1)	Bonus (\$)	Stock Awards (\$)(2)	Option Awards (\$)(2)	Change in Pension Value and Non- qualified Deferred Compen- sation Earnings (\$)(3)	All Other Compen- sation (\$)	Total (\$)
Sang Park Chairman and Chief Executive Officer	2009	979,611(4)	11,262	1,769,600	488,070		314,785(5)	3,563,328
	2008	442,128					351,897(6)	794,025
	2007	450,148	309,330				244,468(7)	1,003,946
Tae Young Hwang, Chief Operating Officer and President	2009	189,748	106,544	663,600	305,044	119,541	10,884(8)	1,395,361
	2008	212,307				99,095	20,293(9)	331,695
	2007	236,830	119,339			19,735	11,476(10)	387,380
Brent Rowe Senior Vice President, Worldwide Sales	2009	398,554(11)	70,500	442,400	183,026		12,231(12)	1,106,711

	2007	201,839	75,930		23,195	22,802	97,334(22)	421,100
Robert J. Krakauer, Former President and Chief Financial Officer	2009	467,265					176,554(23)	643,819
	2008	468,426					820,236(24)	1,288,662
	2007	375,123	270,903				707,831(25)	1,353,857

Note: Amounts set forth in the above table that were originally paid in Korean won from January 1 to October 25, 2009 and during the fiscal years ended December 31, 2008 and 2007 have been converted into U.S. dollars using average exchange rates during the respective periods. After October 25, 2009, a monthly average exchange rate was used.

Footnotes:

- (1) Includes one-time payment of 10% of base salary paid from April to June 2009 to all employees that voluntarily accepted pay reductions earlier in the year, including \$22,204, \$4,897, \$6,000 and \$6,415 paid to Mr. Park, Mr. Hwang, Mr. Rowe and Ms. Sakai, respectively.
- (2) Represents grant date fair value with respect to the fiscal year determined in accordance with FASB ASC 718. See Note 4 Summary of Significant Accounting Policies Unit-Based Compensation, and Note 19 Equity Incentive Plans, to the MagnaChip Semiconductor LLC audited consolidated financial statements for the two months ended December 31, 2009, the ten months ended October 25, 2009 and the years ended 2008 and 2007.
- (3) Consists of statutory severance accrued during the two months ended December 31, 2009, ten months ended October 25, 2009 and the years ended December 31, 2008 and 2007, as applicable. See the section subtitled Compensation Discussion and Analysis for a description of the statutory severance benefit.
- (4) Includes a fixed one-time bonus payment of \$602,631 made in December 2009 pursuant to Mr. Park's Amended and Restated Service Agreement. Mr. Park elected to forego \$298,000 of the bonus payable pursuant to his service agreement in order for such amounts to be available for bonuses to other executives.
- (5) Includes the following personal benefits paid to Mr. Park: (a) \$125,073, which is the annual aggregate monthly pro rata amount of prepaid housing expenses for Mr. Park's housing lease; (b) \$28,386 for insurance premiums; (c) \$48,319 for other personal benefits (including reimbursement of the use of a car, home leave flights, living expenses and personal tax advisory expenses); and (d) \$89,252 of reimbursement for the difference between the actual tax Mr. Park already paid and the hypothetical tax he had to pay for the fiscal year 2008; and (e) \$23,755 for reimbursement of Korean tax.
- (6) Includes the following personal benefits paid to Mr. Park: (a) \$70,838, which is the aggregate monthly pro rata amount of prepaid housing expenses for Mr. Park's housing lease for six months, \$82,828, which is the total monthly rental payments for seven months' rent for Mr. Park's housing, and \$8,192, which is the imputed benefit to Mr. Park from a refundable deposit held by the lessor of Mr. Park's housing during the lease term; (b) \$27,290 for insurance premiums; (c) \$35,787 for other personal benefits (including reimbursement of the use of a car, home leave flights and personal tax advisory expenses); (d) \$78,913 of reimbursement for the difference

Table of Contents

- between the actual tax Mr. Park already paid and the hypothetical tax he had to pay for the fiscal year 2006 and 2007; (e) \$24,962 for Mr. Park's living expenses; and (f) \$23,087 for reimbursement of Korean tax and employee fringe benefits.
- (7) Includes the following personal benefits paid to Mr. Park: (a) \$154,798 which is the annual aggregate monthly pro rata amount of prepaid housing expenses for Mr. Park's housing lease; (b) \$42,684 for insurance premiums (c) \$31,750 for other personal benefits (including personal tax advisory expenses); (d) \$1,188 of reimbursement in relation to a Korean tax payment in 2006; and (e) \$14,048 for reimbursement of Korean tax, the employee contribution portion of the Korean national health insurance program and employee fringe benefits.
- (8) Includes the following personal benefits paid to Mr. Hwang: (a) \$7,832 for reimbursement of the use of a car; and (b) \$3,052 for insurance premiums.
- (9) Includes the following personal benefits paid to Mr. Hwang: (a) \$9,541 for reimbursement of the use of a car; (b) \$9,070 for insurance premiums; and (c) \$1,682 for employee fringe benefits.
- (10) Includes the following personal benefits paid to Mr. Hwang: (a) \$11,056 for reimbursement of the use of a car; and (b) \$420 for employee fringe benefits.
- (11) Includes a \$176,000 fixed non-discretionary payment under Mr. Rowe's offer letter (as supplemented), pursuant to which in 2007 Mr. Rowe elected to receive a \$528,000 advance on his first three years of potential annual bonus payments at a rate of 80% of base pay. Effective as of April 2009, the right to receive the bonus became fixed and was no longer discretionary.
- (12) Includes the following personal benefits paid to Mr. Rowe: (a) \$1,597 for reimbursement of the use of a car; and (b) \$10,634 for insurance premiums.
- (13) Under Mr. Rowe's offer letter (as supplemented), in 2007, Mr. Rowe elected to receive a \$528,000 advance on his first three years of potential annual bonus payments at a rate of 80% of base pay. One-third of this amount (\$176,000) was earned in 2008.
- (14) Includes the following personal benefits paid to Mr. Rowe: (a) \$1,983 for reimbursement of the use of a car; (b) \$13,027 for insurance premiums; and (c) \$10,663 for personal tax advisory expenses.
- (15) Under Mr. Rowe's offer letter (as supplemented), in 2007, Mr. Rowe elected to receive a \$528,000 advance on his first three years of potential annual bonus payments at a rate of 80% of base pay. One-third of this amount (\$176,000) was earned in 2007.
- (16) Includes the following personal benefits paid to Mr. Rowe: (a) \$121,826 of Mr. Rowe's relocation allowance when he returned to the U.S. from an expatriate assignment in Korea; (b) \$3,000 for contributions to a pension plan; (c) \$4,967 for personal tax advisory expenses; (d) \$12,130 for insurance premiums; and (e) \$268 for reimbursement of the use of a car.
- (17) Includes the following personal benefits paid to Ms. Sakai: (a) \$25,590, which is the total monthly rental payments for four months rent for Ms. Sakai's housing, and \$32,650, which is the imputed benefit to Ms. Sakai from a refundable deposit held by the lessor of Ms. Sakai's housing during the lease term; (b) \$33,735 for reimbursement of tuition expenses for Ms. Sakai's children; (c) \$21,352 for Ms. Sakai's home leave flights; (d) \$28,238 for insurance premiums; (e) \$8,568 for other personal benefits (including reimbursement of the use of a car, personal tax advisory expenses, and communication expenses); and (f) \$13,535 for reimbursement of Korean tax.
- (18) Includes the following personal benefits paid to Ms. Sakai: (a) \$61,438, which is the imputed benefit to Ms. Sakai from a refundable deposit held by the lessor of Ms. Sakai's housing during the lease term; (b) \$38,046 for reimbursement of tuition expenses for Ms. Sakai's children; (c) \$23,420 for Ms. Sakai's home leave flights; (d) \$27,211 for insurance premiums; (e) \$21,460 for other personal benefits (including reimbursement of the use of a car, personal tax advisory expenses, and communication expenses); and (f) \$8,450 for reimbursement of Korean tax and employee fringe benefits.
- (19) Includes the following personal benefits paid to Ms. Sakai: (a) \$72,661, which is the imputed benefit to Ms. Sakai from a refundable deposit held by the lessor of Ms. Sakai's housing during the lease term; (b) \$30,649 for reimbursement of tuition expenses for Ms. Sakai's children; (c) \$18,709 for Ms. Sakai's home leave flights; (d) \$28,140 for insurance premiums; (e) \$13,673 for other personal benefits (including reimbursement of the use of a car, personal tax advisory expenses, and communication expenses); and (f) \$3,959 for reimbursement of the employee contribution portion of the Korean national health insurance program and employee fringe benefits.
- (20) Includes the following personal benefits paid to Mr. McFarland: (a) \$23,351 for reimbursement of tuition expenses for Mr. McFarland's child; (b) \$19,978 of reimbursement for the difference between the actual tax Mr. McFarland already paid and the hypothetical tax he had to pay for the fiscal year 2008; (c) \$20,227 for insurance premiums; (d) \$1,089 for other personal benefits (including reimbursement of the use of a car and personal tax advisory expenses); and (e) \$34,970 for reimbursement of Korean tax.
- (21) Includes the following personal benefits paid to Mr. McFarland: (a) \$21,334 for reimbursement of tuition expenses for Mr. McFarland's child; (b) \$13,382 of reimbursement for the difference between the actual tax Mr. McFarland already paid and the hypothetical tax he had to pay for the fiscal year 2007; (c) \$19,736 for insurance premiums; (d) \$12,296 for other personal benefits (including reimbursement of the use of a car and personal tax advisory expenses); and (e) \$13,042 for reimbursement of Korean tax and employee fringe benefits.
- (22) Includes the following personal benefits paid to Mr. McFarland: (a) \$35,837 for reimbursement of tuition expenses for Mr. McFarland's child; (b) \$20,292 of reimbursement for the difference between the actual tax Mr. McFarland already paid and the hypothetical tax he had to pay for the fiscal year 2006; (c) \$23,534 for insurance premiums; (d) \$5,050 for other personal benefits (including reimbursement of the use of a car and personal tax advisory expenses); and (e) \$12,621 for reimbursement of Korean tax, the employee contribution portion of the Korean national health insurance program and employee fringe benefits.

Table of Contents

- (23) Includes the following personal benefits paid to Mr. Krakauer: (a) \$145,460 for Mr. Krakauer’s housing expenses; (b) \$24,329 for insurance premiums; and (c) \$6,765 for other personal benefits (including reimbursement of the use of a car and living expenses).
- (24) Includes the following personal benefits paid to Mr. Krakauer: (a) \$225,940 for Mr. Krakauer’s housing expenses; (b) \$97,827 for reimbursement of living expenses; (c) \$29,246 for reimbursement of tuition expenses for Mr. Krakauer’s children; (d) \$23,860 for Mr. Krakauer’s home leave flights; (e) \$22,842 for insurance premiums; (f) \$22,404 for reimbursement of the use of two cars; (g) \$49,789 for personal tax advisory expenses; (h) \$248,302 of reimbursement for the difference between the actual tax Mr. Krakauer already paid and the hypothetical tax he had to pay for the fiscal year 2006, 2007 and 2008; (i) \$29,604 for repatriation allowance paid to Mr. Krakauer; and (j) \$70,422 for reimbursement of Korean tax and employee fringe benefits.
- (25) Includes the following personal benefits paid to Mr. Krakauer: (a) \$208,962, which is the annual aggregate monthly pro rata amount of prepaid housing expenses for Mr. Krakauer’s housing lease; (b) \$30,643 for reimbursement of living expenses; (c) \$71,683 for reimbursement of tuition expenses for Mr. Krakauer’s children; (d) \$20,242 for Mr. Krakauer’s home leave flights; (e) \$43,823 for insurance premiums; (f) \$63,791 of reimbursement for all commission and closing costs for the sale of Mr. Krakauer’s house in the United States; (g) \$12,581 for personal tax advisory expenses; (h) \$21,748 for reimbursement of the use of two cars; (i) \$147,490 of reimbursement for the difference between the actual tax Mr. Krakauer already paid and the hypothetical tax he had to pay for the fiscal year 2006; and (j) \$86,868 for reimbursement of Korean tax, the employee contribution portion of the Korean national health insurance program and employee fringe benefits.

Grants of Plan-Based Awards

The following table sets forth certain information with respect to stock and option awards and other plan-based awards granted during the year ended December 31, 2009 to our named executive officers after giving effect to the corporate conversion:

Name	Grant Date	All Other Stock Awards: Number of Shares of Stock (#)(1)	All Other Option Awards: Number of Securities Underlying Options (#)(1)	Exercise or Base Price of Option Awards (\$/sh)(2)	Grant Date Fair Value of Stock and Option Awards \$(3)
Sang Park	12/08/2009	280,000			\$ 1,769,600
	12/08/2009		280,000	9.28	\$ 488,070
Tae Young Hwang	12/08/2009	105,000			\$ 663,600
	12/08/2009		175,000	9.28	\$ 305,044
Brent Rowe	12/08/2009	70,000			\$ 442,400
	12/08/2009		105,000	9.28	\$ 183,026
Margaret Sakai	12/08/2009	42,000			\$ 265,440
	12/08/2009		42,000	9.28	\$ 73,211
John McFarland	12/08/2009	42,000			\$ 265,440
	12/08/2009		28,000	9.28	\$ 48,807

- (1) The vesting schedule applicable to each award is set forth below in the section entitled Outstanding Equity Awards at Fiscal Year End 2009.
- (2) Exceeds the per share fair market value of our common stock on the grant date (\$6.32), as determined by our board of directors based on various factors.
- (3) Represents ASC 718 grant date fair value. See Management’s Discussion and Analysis of Financial Condition and Results of Operations Accounting for Stock/Unit-based Compensation for a description of how we valued our stock as a private company.

Table of Contents

Name	Outstanding Equity Awards at Fiscal Year End 2009(1)				Unit Awards	
	Option Awards				Number of Shares or Units of Stock That Have Not Vested (#)(3)	Market Value of Shares or Units of Stock That Have Not Vested (\$)(4)

Brent Rowe		105,000	9.28	12/8/2019	46,200	291,984
Margaret Sakai		42,000	9.28	12/8/2019	27,720	175,190
John McFarland		28,000	9.28	12/8/2019	27,720	175,190

- (1) All of our outstanding common and preferred units and outstanding options as of November 9, 2009 were terminated as of November 9, 2009 pursuant to our reorganization proceedings.
- (2) An installment of 34% of the shares of common stock subject to the options will vest and become exercisable on December 8, 2010, an additional 9% of the options vest on the completion of the next period of three months, an additional 8% of the options vest upon the completion of each of the next three-month periods, an additional 9% of the options vest upon the completion of the next quarter, and an additional 8% of the options vest upon the completion of each of the next three quarters.
- (3) The restrictions on the shares of common stock lapse on December 8, 2010 as to 33% of the total amount of restricted shares of common stock originally awarded and on December 8, 2011 as to 33% of the total amount of restricted shares of common stock originally awarded.
- (4) During fiscal year 2009, there was no established public trading market for our outstanding common equity. The reported value represents the product of multiplying the number of shares of unvested common stock by the value of our common stock determined on an as converted basis of \$6.32 as of December 31, 2009, the last day of our fiscal year. See Management's Discussion and Analysis of Financial Condition and Results of Operations Accounting for Unit-based Compensation for a description of how we valued our common stock while as a private company.

Option Exercises and Stock Vested at Fiscal Year End 2009(1)

Name	Number of Shares Acquired on Vesting (#)(2)	Value Realized on Vesting (\$)(3)
	Sang Park	95,200
Tae Young Hwang	35,700	225,624
Brent Rowe	23,800	150,416
John McFarland	14,280	90,250
Margaret Sakai	14,280	90,250

- (1) All of our outstanding common and preferred units and outstanding options as of November 9, 2009 were terminated as of November 9, 2009 pursuant to our reorganization proceedings.
- (2) The restrictions on the awards lapsed on December 8, 2009 as to 34% of the total number of restricted shares of common stock originally awarded.
- (3) During fiscal year 2009, there was no established public trading market for our outstanding common equity. The reported value represents the product of multiplying the number of vested shares by the value of our shares of \$6.32 as of the date of vesting determined on an as converted basis.

Table of Contents

MagnaChip Semiconductor LLC 2009 Common Unit Plan

All of our outstanding common and preferred units and options and related plans were terminated as of November 9, 2009 pursuant to our reorganization proceedings. Following our emergence from our reorganization proceedings, in December 2009, our board of directors adopted, and our equityholders approved, the MagnaChip Semiconductor LLC 2009 Common Unit Plan, which we refer to as the 2009 Plan. The 2009 Plan provides for the grant of nonstatutory options, restricted unit bonus and purchase right awards, and deferred unit awards to employees and consultants of our company and our subsidiaries and to members of our board of directors. However, only options and restricted unit bonus awards have been granted under the 2009 Plan. Subject to adjustment in the event of certain changes in capital structure, the maximum aggregate number of MagnaChip Semiconductor LLC common units that are available for grant under the 2009 Plan is 30,000,000. Units subject to awards that expire, are forfeited or otherwise terminate will again be available for grant under the 2009 Plan.

In connection with our corporate conversion, we will assume the rights and obligations of MagnaChip Semiconductor LLC under the 2009 Plan and convert MagnaChip Semiconductor LLC common unit options and restricted common units outstanding under the 2009 Plan into options to acquire a number of shares of our common stock and shares of restricted common stock at a ratio of eight-for-one on substantially equivalent terms and conditions. Based upon our common units outstanding as of September 30, 2010, and after giving effect to the corporate conversion, there would have been outstanding under the 2009 Plan options to purchase 1,982,375 shares of common stock, at a weighted average exercise price of \$6.32 per share. The 2009 Plan will terminate immediately following our corporate conversion, and no additional options or other equity awards may be granted under the 2009 Plan following its termination. However, options granted under the 2009 Plan prior to its termination will remain outstanding until they are either exercised or expire.

The 2009 Plan is administered by the Committee. Subject to the provisions of the 2009 Plan, the Committee determines in its discretion the persons to whom and the times at which awards are granted, the sizes of such awards, and all of their terms and conditions. All awards are evidenced by a written agreement between us and the holder of the award. The Committee has the authority to construe and interpret the terms of the 2009 Plan and awards granted under it.

In the event of a change in control of our company, the vesting of all outstanding awards held by participants whose employment has not previously terminated will accelerate in full. In addition, the Committee has the authority to require that outstanding awards be assumed or replaced with substantially equivalent awards by the successor corporation or to cancel the outstanding awards in exchange for a payment in cash or other property equal to the fair market value of restricted units or the excess, if any, of the fair market value of the units subject to an option over the exercise price per unit of such option.

2010 Equity Incentive Plan

Our 2010 Equity Incentive Plan, or the 2010 Plan, was approved by our board of directors in March 2010 and will be effective upon our corporate conversion, subject to its approval by our equityholders, which is expected prior to the closing of this offering.

A number of shares of our common stock equal to the total number of shares of common stock (as adjusted by the conversion ratio in the corporate conversion) remaining available for grant under the 2009 Plan upon its termination immediately following the corporate conversion will be initially authorized and reserved for issuance under the 2010 Plan. As of September 30, 2010, 863,375 shares of common stock were reserved for future issuance under the 2009 Plan. This reserve will automatically increase on January 1, 2011 and each subsequent anniversary through 2020, by an

Table of Contents

amount equal to the smaller of 2% of the number of shares of common stock issued and outstanding on the immediately preceding December 31 or an amount determined by our board of directors. The number of shares authorized for issuance under the 2010 Plan will also be increased from time to time by up to that number of shares of common stock (as adjusted by the conversion ratio in corporate conversion) remaining subject to options and restricted stock awards outstanding under the 2009 Plan at the time of its termination immediately following the corporate conversion that expire or terminate or are forfeited for any reason after the effective date of the 2010 Plan. Appropriate adjustments will be made in the number of authorized shares and other numerical limits in the 2010 Plan and in outstanding awards to prevent dilution or enlargement of participants' rights in the event of a stock split or other change in our capital structure. Shares subject to awards granted under our 2010 Plan which expire, are repurchased, or are cancelled or forfeited will again become available for issuance under the 2010 Plan. The shares available will not be reduced by awards settled in cash. Shares withheld to satisfy tax withholding obligations will not again become available for grant. The gross number of shares issued upon the exercise of stock appreciation rights or options exercised by means of a net exercise or by tender of previously owned shares will be deducted from the shares available under the 2010 Plan.

Awards may be granted under the 2010 Plan to our employees, including officers, directors, or consultants or those of any present or future parent or subsidiary corporation or other affiliated entity. While we may grant incentive stock options only to employees, we may grant nonstatutory stock options, stock appreciation rights, restricted stock purchase rights or bonuses, restricted stock units, performance shares, performance units and cash-based awards or other stock-based awards to any eligible participant.

The 2010 Plan is administered by the Committee. Subject to the provisions of the 2010 Plan, the Committee determines in its discretion the persons to whom and the times at which awards are granted, the sizes of such awards, and all of their terms and conditions. All awards are evidenced by a written agreement between us and the holder of the award. The Committee has the authority to construe and interpret the terms of the 2010 Plan and awards granted under it.

In the event of a change in control as described in the 2010 Plan, the acquiring or successor entity may assume or continue all or any awards outstanding under the 2010 Plan or substitute substantially equivalent awards. Any awards which are not assumed or continued in connection with a change in control or are not exercised or settled prior to the change in control will terminate effective as of the time of the change in control. The Committee may provide for the acceleration of vesting of any or all outstanding awards upon such terms and to such extent as it determines, except that the vesting of all awards held by members of our board of directors who are not employees will automatically be accelerated in full. The 2010 Plan also authorizes the Committee, in its discretion and without the consent of any participant, to cancel each or any outstanding award denominated in shares upon a change in control in exchange for a payment to the participant with respect to each share subject to the cancelled award of an amount equal to the excess of the consideration to be paid per share of common stock in the change in control transaction over the exercise price per share, if any, under the award.

2010 Employee Stock Purchase Plan

Our 2010 Employee Stock Purchase Plan, or the Purchase Plan, was approved by our board of directors in March 2010 and, subject to its approval by our equityholders, will become effective upon the commencement of this offering.

A number of shares of our common stock equal to 2% of the number of shares of common stock estimated to be outstanding immediately after completion of this offering, including the exercise of the underwriters' option to purchase additional shares will be initially authorized and reserved for sale under the Purchase Plan. In addition, the Purchase Plan provides for an automatic annual increase in

Table of Contents

the number of shares available for issuance under the plan on January 1 of each year beginning in 2011 and continuing through and including January 1, 2020 equal to the lesser of (i) 1% of our then issued and outstanding shares of common stock on the immediately preceding December 31, (ii) a number of shares of our common stock equal to 2% of the number of shares of common stock estimated to be outstanding immediately after completion of this offering, including the exercise of the underwriters' option to purchase additional shares or (iii) a number of shares as our board may determine. Appropriate adjustments will be made in the number of authorized shares and in outstanding purchase rights to prevent dilution or enlargement of participants' rights in the event of a stock split or other change in our capital structure. Shares subject to purchase rights which expire or are canceled will again become available for issuance under the Purchase Plan.

Our employees and employees of any parent or subsidiary corporation designated by the Committee are eligible to participate in the Purchase Plan if they are customarily employed by us for more than 20 hours per week and more than five months in any calendar year. However, an employee may not be granted a right to purchase stock under the Purchase Plan if: (i) the employee immediately after such grant would own stock possessing 5% or more of the total combined voting power or value of all classes of our capital stock or of any parent or subsidiary corporation, or (ii) the employee's rights to purchase stock under all of our employee stock purchase plans would accrue at a rate that exceeds \$25,000 in value for each calendar year of participation in such plans.

The Purchase Plan is implemented through a series of sequential offering periods, generally three months in duration beginning on the first trading days of February, May, August, and November each year. However, the Committee may establish an offering period to commence on the effective date of the Purchase Plan that will end on a date determined by the Committee. The Committee is authorized to establish additional or alternative concurrent, sequential or overlapping offering periods and offering periods having a different duration or different starting or ending dates, provided that no offering period may have a duration exceeding 27 months.

Amounts accumulated for each participant, generally through payroll deductions, are credited toward the purchase of shares of our common stock at the end of each offering period at a price generally equal to 95% of the fair market value of our common stock on the purchase date. Prior to commencement of an offering period, the Committee is authorized to change the purchase price discount for that offering period, but the purchase price may not be less than 85% of the lower of the fair market value of our common stock at the beginning of the offering period or on the purchase date.

No participant may purchase under the Purchase Plan in any calendar year shares having a value of more than \$25,000 measured by the fair market value per share of our common stock on the first day of the applicable offering period. Prior to the beginning of any offering period, the Committee may alter the maximum number of shares that may be purchased by any participant during the offering period or specify a maximum aggregate number of shares that may be purchased by all participants in the offering period. If insufficient shares remain available under the plan to permit all participants to purchase the number of shares to which they would otherwise be entitled, the Committee will make a pro rata allocation of the available shares. Any amounts withheld from participants' compensation in excess of the amounts used to purchase shares will be refunded, without interest.

In the event of a change in control, an acquiring or successor corporation may assume our rights and obligations under the Purchase Plan. If the acquiring or successor corporation does not assume such rights and obligations, then the purchase date of the offering periods then in progress will be accelerated to a date prior to the change in control as specified by the Committee, but the number of shares subject to outstanding purchase rights shall not be adjusted.

Table of Contents

Agreements with Executives and Potential Payments Upon Termination or Change in Control

We are obligated to make certain payments to our named executive officers upon termination or a change in control as further described below.

Sang Park. We are party to an Amended and Restated Services Agreement, dated as of May 8, 2008, with Mr. Park pursuant to which he serves as our Chairman and Chief Executive Officer. Under the agreement, Mr. Park was to receive an initial base salary of \$450,000 and a one-time performance bonus payment of \$900,000. Mr. Park is also entitled to an annual incentive award of 100% of his annual salary based upon the achievement of performance goals, provided that the actual bonus paid may be higher or lower dependent on over- or under-achievement of his performance goals, as determined by the Committee. Mr. Park is entitled to customary employee benefits and certain expatriate, repatriation and international service benefits, including relocation benefits, tax equalization benefits, the cost of housing accommodations and expenses, transportation benefits and repatriation benefits. Pursuant to the agreement Mr. Park was granted options to purchase restricted common units but they were subsequently terminated in connection with our reorganization proceedings. The restated service agreement also contains customary non-competition and non-solicitation covenants lasting two and three years, respectively, from the date of termination of employment and confidentiality covenants of unlimited duration.

If Mr. Park's employment is terminated without Cause or if he resigns for good reason, Mr. Park is entitled to receive (i) payment of all salary and benefits accrued up to the date of termination, (ii) payment of his then-current base salary for twelve months, (iii) the annual incentive award to which Mr. Park would have been entitled for the year in which his employment terminates, (iv) twelve months' accelerated vesting on outstanding equity awards and a twelve-month post-termination equity award exercise period, and (v) continued participation for Mr. Park and his eligible dependents in our benefit plans for twelve months, including certain international service benefits.

If such termination occurs within nine months of a change in control, Mr. Park is entitled to receive (i) payment of all salary and benefits accrued and unpaid up to the date of termination, (ii) payment of his then-current base salary for twenty-four months, (iii) the annual incentive award to which Mr. Park would have been entitled for the year in which his employment terminates, (iv) two years' accelerated vesting on outstanding equity awards, other than awards granted pursuant to the 2009 Plan, which accelerate in full, (v) a twelve-month post-termination equity award exercise period, and (vi) continued participation for Mr. Park and his eligible dependents in our benefit plans for two years, including certain international service benefits.

The severance described above payable to Mr. Park upon his termination without Cause or in connection with a change in control shall be reduced to the extent that we pay any statutory severance payments to Mr. Park pursuant to the Korean Commercial Code or any other statute.

As used in the agreement, the term "Cause" means the termination of Mr. Park's employment because of (i) a failure by Mr. Park to substantially perform his customary duties (other than such failure resulting from incapacity due to physical or mental illness); (ii) Mr. Park's gross negligence, intentional misconduct or material fraud in the performance of Mr. Park's employment; (iii) Mr. Park's conviction of, or plea of nolo contendere to, a felony or to a crime involving fraud or dishonesty; (iv) a judicial determination that Mr. Park committed fraud or dishonesty against any natural person, firm, partnership, limited liability company, association, corporation, company, trust, business trust, governmental authority or other entity; or (v) Mr. Park's material violation of the agreement or of one or more of the material policies applicable to his employment. Resignation for "good reason" means a resignation upon any of the following events that remains uncured for 30 days after Mr. Park delivers a demand to us: (i) a salary reduction other than a reduction of less than 10% applied to our other officers, (ii) material reduction in benefits, (iii) failure to provide housing, (iv) nature or status of

Table of Contents

Mr. Park's authorities, duties or responsibilities are materially and adversely altered, (v) removal from our board of directors without cause, or (vi) Mr. Park is not reappointed as Chief Executive Officer following our initial public offering.

In the event we terminate Mr. Park's employment due to Disability, Mr. Park shall be entitled to (i) payment of his Salary and accrued vacation up to and including the date of termination, (ii) payment of any unpaid expense reimbursements, (iii) the prorated amount of any cash incentive to which Mr. Park would have been entitled, and (iv) other benefits due to Mr. Park through his termination date. As used in the agreement, the term "Disability" means that we determine that due to physical or mental illness or incapacity, whether total or partial, Mr. Park is substantially unable to perform his duties for a period of 180 consecutive days or shorter periods aggregating 180 days during any period of 365 consecutive days.

In the event of Mr. Park's death while employed by us, Mr. Park's estate or named beneficiary shall be entitled to (i) payment of Mr. Park's salary and accrued vacation up to and including the date of termination, (ii) payment of any unpaid expense reimbursements, (iii) the prorated amount of any cash incentive to which Mr. Park would have been entitled, and (iv) other benefits due to Mr. Park through his termination date.

Tae Young Hwang. We entered into an Entrustment Agreement with Mr. Hwang, effective as of October 1, 2004, under which he serves as our Chief Operating Officer and President, with an initial base salary of 220 million Korean won per year and with a target annual incentive bonus to be determined by management based on performance. Mr. Hwang is entitled to customary employee benefits and expatriate benefits. The agreement also contains customary non-competition covenants lasting one year from the date of termination of employment and confidentiality covenants of unlimited duration.

If Mr. Hwang's employment is terminated for any reason, he is entitled to statutory severance payments pursuant to the Korean Commercial Code.

Brent Rowe. We entered into an Offer Letter with Mr. Rowe, dated as of March 7, 2006, pursuant to which Mr. Rowe serves as our Senior Vice President, Worldwide Sales, with an initial base salary of \$220,000 per year, a sign on bonus of \$50,000 and with a target annual incentive bonus opportunity of 80% of his base salary. Mr. Rowe is entitled to customary employee benefits. Pursuant to the Offer Letter, Mr. Rowe received an initial grant of options to purchase our common units, but the grant was subsequently terminated in connection with our reorganization proceedings.

If Mr. Rowe's employment is terminated without cause, he is entitled to a severance payment equal to six months' salary.

Margaret Sakai. We entered into an Offer Letter with Ms. Sakai, dated as of September 5, 2006, pursuant to which Ms. Sakai served as our Senior Vice President, Finance, with an initial base salary of \$250,000 per year and with a target annual incentive bonus opportunity of 50% of her base salary. Ms. Sakai's title was changed to Senior Vice President and Chief Financial officer in 2009. Ms. Sakai is entitled to customary employee benefits and expatriate benefits. Pursuant to her Offer Letter, Ms. Sakai received an initial grant of options to purchase our common units, but the grant was subsequently terminated in connection with our reorganization proceedings.

If Ms. Sakai's employment is terminated by us without cause, Ms. Sakai is entitled to receive payment of all salary and benefits accrued and unpaid up to the date of termination, continued payment of her salary for six months at the rate in effect on the date of termination, payment of a prorated portion of the annual incentive bonus for the year in which termination occurs and paid benefits for Ms. Sakai and her dependents for six months. The severance payable to Ms. Sakai under her Offer Letter will be reduced to the extent we make any statutory severance payments to Ms. Sakai pursuant to the Korean Commercial Code or any other statute.

Table of Contents

John McFarland. We are party to a Service Agreement, dated as of April 1, 2006, with Mr. McFarland pursuant to which he serves as our Senior Vice President, General Counsel and Secretary. Under the agreement, Mr. McFarland was eligible to receive an initial base salary of 175 million Korean won per year, with a target annual incentive bonus opportunity of 50% of his base salary. Mr. McFarland is entitled to customary employee benefits and certain expatriate, repatriation and international service benefits. Mr. McFarland received an initial grant of options to purchase our common units, but the grant was subsequently terminated in connection with our reorganization proceedings. The agreement also contains customary non-competition and non-solicitation covenants lasting one and two years, respectively, from the date of termination of employment and confidentiality covenants of unlimited duration.

Pursuant to the agreement, if Mr. McFarland's employment is terminated for any reason other than Disability, death or Cause, he shall be entitled to (i) payment of all salary and benefits accrued up to the date of termination, (ii) a severance payment, consisting of the continuation of his then current salary for a period of six months, (iii) six months of paid benefits for Mr. McFarland and his eligible dependents and (iv) the prorated amount of any cash incentive to which Mr. McFarland would have been entitled. The severance payable to Mr. McFarland under his agreement will be reduced to the extent we make any statutory severance payments to Mr. McFarland pursuant to the Korean Commercial Code or any other statute.

In the event we terminate Mr. McFarland's employment due to Disability, Mr. McFarland shall be entitled to (i) payment of his then current salary up to and including the date of termination, (ii) the dollar value of all accrued and unused vacation benefits based upon Mr. McFarland's most recent level of salary, (iii) any cash incentive amount actually earned but not previously paid to Mr. McFarland, (iv) payment of any unpaid expense reimbursements, and (v) the prorated amount of any cash incentive to which Mr. McFarland would have been entitled. As used in the agreement, the term "Disability" means that we reasonably determine that due to physical or mental illness or incapacity, whether total or partial, Mr. McFarland is substantially unable to perform his duties for a period of 180 consecutive days or shorter periods aggregating 180 days during any period of 365 consecutive days.

In the event of Mr. McFarland's death while employed by us, Mr. McFarland's estate or named beneficiary shall be entitled to (i) payment of Mr. McFarland's then current salary up to and including the date of termination, (ii) the dollar value of all accrued and unused vacation benefits based upon Mr. McFarland's then current salary, (iii) any cash incentive amount actually earned but not previously paid to Mr. McFarland, (iv) payment of any unpaid expense reimbursements, and (v) the prorated amount of any cash incentive to which Mr. McFarland would have been entitled.

If Mr. McFarland's employment is terminated for Cause, he will be entitled to receive payment of all salary and benefits and unreimbursed expenses accrued up to the date of termination and will not be entitled to any other compensation. As used in the agreement, the term "Cause" has substantially the same definition as that in Mr. Park's agreement.

Robert J. Krakauer. Until April 10, 2009, Robert J. Krakauer served as our President, Chief Financial Officer and director. In April 2009, we entered into a Senior Advisor Agreement with Mr. Krakauer. Under this agreement, Mr. Krakauer resigned from employment and as a director with us but remains available to consult with us on a limited capacity until April 10, 2010. Pursuant to the Senior Advisor Agreement, Mr. Krakauer is entitled to payments in the aggregate amount of \$375,000, payable over a one-year period, plus the re-payment of amounts of reduced salary for the first three months of 2009, in addition to the continuation of certain benefits and perquisites, including health insurance benefits, and the continuation of auto lease payments for a certain number of months. In addition, we waived any right we had to repurchase any restricted units held by Mr. Krakauer at the time of his resignation. All common units held by Mr. Krakauer were terminated in connection with our reorganization proceedings.

Table of Contents**Potential Payments upon Termination or Change in Control.**

Termination. Our named executive officers are eligible to receive certain payments and benefits in connection with certain service termination events pursuant to the terms of our employment agreements with them, as further described under the section entitled Agreements with Executives and Potential Payments Upon Termination or Change in Control. The terms cause and resignation for good reason used below have the meanings given to them in the applicable agreements with us.

Change in Control. Mr. Park is entitled to receive certain payments and benefits in connection with a change in control of our company pursuant to our employment agreement with him, as further described under the section entitled Agreements with Executives and Potential Payments Upon Termination or Change in Control. In addition, in the event of a change in control of our company, the vesting of all outstanding awards issued under the 2009 Plan held by participants whose employment has not previously terminated will accelerate in full. In addition, the Committee has the authority to require that outstanding awards be assumed or replaced with substantially equivalent awards by the successor corporation or to cancel the outstanding awards in exchange for a payment in cash or other property equal to the fair market value of restricted units or the excess, if any, of the fair market value of the units subject to an option over the exercise price per unit of such option. For purposes of the foregoing, a change in control is generally defined as the acquisition by a person or entity of more than 51% of the combined voting power of our then outstanding voting securities or a sale or transfer of all or substantially all of our consolidated assets to a person or entity that is not our affiliate. The offering will not constitute a change of control for the purposes of these provisions.

The following table presents our estimate of the dollar value of the payments and benefits payable to our named executive officers upon the occurrence of the following events, assuming that each such event occurred on December 31, 2009. The disclosure in the following table does not include:

any accrued benefits that were earned and payable as of December 31, 2009, including any short-term cash incentive amounts earned by, or any discretionary bonus amounts payable to, the executive officer for 2009 performance; or

payments and benefits to the extent they are provided generally to all salaried employees and do not discriminate in scope, terms or operation in favor of the named executive officers.

Name	Event	Cash	Continuation	Value of	Total
		Severance	of Benefits	Equity	
		Payment		Award	
		(\$)(1)	(\$)(2)	Acceleration	(\$)
				(\$)(3)	
Sang Park	(a)(4)	450,000	314,785(5)	583,968	1,348,753
	(b)(4)	900,000	629,570(6)	1,167,936	2,697,506
	(c)			1,167,936	1,167,936
Tae Young Hwang	(c)			437,976	437,976
Brent Rowe	(a)	110,000			110,000
	(c)			291,984	291,984
Margaret Sakai	(a)	130,000	81,834(7)		211,834
	(c)			175,190	175,190
John McFarland	(a)	94,210	49,808(8)		144,018
	(c)			175,190	175,190

(a) Termination without cause in absence of change in control

- (b) Termination without cause within 9 months following a change in control
- (c) Change in control

Table of Contents

- (1) Represents cash severance payments payable to our named executive officers pursuant to our employment agreements with them, prior to giving effect to the terms thereof relating to the Employee Retirement Benefit Security Act of Korea. Other than Mr. Rowe, who is entitled to a lump sum cash severance payment, cash severance payments are paid monthly in accordance with our regular payroll procedures.

Pursuant to the Employee Retirement Benefit Security Act, Mr. Hwang, Ms. Sakai and Mr. McFarland are entitled to certain statutory severance benefits from us upon the termination of their employment with us for any reason. See Management Compensation Discussion and Analysis Perquisites and Other Benefits for additional information. For these executives, the amounts reflected in this column would be reduced to the extent we are obligated to make these statutory severance payments.

- (2) Calculated assuming the continuation of benefits for the applicable period at the same dollar value of 2009 benefits.
 (3) Reflects the aggregate value of the accelerated vesting of the named executive officer's unvested options and restricted common units, as applicable.

Because all of our options outstanding as of December 31, 2009 have an exercise price greater than the fair market value of our common stock of \$6.32 as of December 31, 2009, no additional value is represented by the acceleration of outstanding unvested common stock subject to such awards and therefore, the value of accelerated vesting of unvested options is \$0.00.

Because all of our restricted common units issued under the 2009 Plan outstanding as of December 31, 2009 were issued without any required monetary payment, the amounts were calculated by multiplying (i) the number of outstanding restricted common stock subject to award vesting on December 31, 2009 by (ii) the fair market value of our common stock of \$6.32 as of December 31, 2009.

- (4) Reflected benefits are also payable in connection with Mr. Park's resignation for good reason. See Management Agreements with Executives and Potential Payments Upon Termination or Change in Control Sang Park.
 (5) Represents the aggregate value of the continuation of health insurance benefits for Mr. Park and his eligible dependents for twelve months following the date of termination. Mr. Park is also entitled to tax equalization benefits, tax preparation services, the reimbursement of costs associated with one home leave flight and, for a period of twelve months post-termination, international health insurance benefits, paid housing and the use of a car and a driver.
 (6) Represents the aggregate value of the continuation of health insurance benefits for Mr. Park and his eligible dependents for twenty-four months following the date of termination. Mr. Park is also entitled to tax equalization benefits, tax preparation services, the reimbursement of costs associated with two home leave flights and, for a period of twenty-four months post-termination, international health insurance benefits, paid housing and the use of a car and a driver.
 (7) Represents the aggregate value of the continuation of health insurance benefits for Ms. Sakai and her eligible dependents for six months following the date of termination. Ms. Sakai is also entitled to tax equalization benefits, tax preparation services, reimbursement of costs associated with one home leave flight and, for a period of six months post-termination, paid housing, the use of a car and a driver and child tuition benefits.
 (8) Represents the aggregate value of continuation of health insurance benefits for Mr. McFarland and his eligible dependents for six months following the date of termination. Mr. McFarland is also entitled to tax equalization, tax preparation services and, for a period of six months post-termination, child tuition benefits.

Pension Benefits for the Fiscal Year Ended December 31, 2009

Pursuant to the Employee Retirement Benefit Security Act, certain executive officers resident in Korea with one or more years of service are entitled to severance benefits upon the termination of their employment for any reason. The base statutory severance accrues at the rate of approximately one

Table of Contents

month of base salary per year of service and is calculated on a monthly basis based upon the officer's salary for the prior three-month period. Accordingly, if the named executive officers in the following table had retired on the last day of our fiscal year ended December 31, 2009, they would have been entitled to the statutory severance payments described below. Assuming no change in the applicable law, each of these executives will continue to accrue additional statutory severance benefits at the rate described above until his or her service with us terminates.

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$)	Payments During the Last Fiscal Year
Tae Young Hwang	Statutory Severance with Multiplier for Partial Period	14(1)	686,058	
Margaret Sakai	Statutory Severance	3	68,155	
John McFarland	Statutory Severance	5	81,129	

Footnote:

- (1) Mr. Hwang accrued severance for his fourteen years of service at MagnaChip and its predecessor corporation. Although the minimum legal severance accrual is one month of base salary per year of service, Mr. Hwang was eligible for accrual of a multiple of two to three months of base salary per year of service during approximately the first ten of his fourteen years of service, or \$389,867 in aggregate.

Nonqualified Deferred Compensation

We do not maintain any nonqualified deferred compensation plans.

Director Compensation for the Fiscal Year Ended December 31, 2009

Name	Fees Earned or Paid in Cash (\$)	Option Awards (\$)(1)	All Other Compensation (\$)	Total (\$)
Jerry M. Baker(2)(3)	50,000		25,751(4)	75,751
Armando Geday(2)(3)	50,000			50,000
Michael Elkins(5)				
Randal Klein(5)				
Steven Tan(5)				
Nader Tavakoli(5)				

Note: Amounts set forth in the above table that were originally paid in Korean won have been converted into U.S. dollars at the exchange rate as of each payment date during the two-month period ended December 31, 2009 and the ten-month period ended October 25, 2009.

Footnotes:

- (1)

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

All of our common and preferred units and outstanding options, including grants made to our directors outstanding prior to the effective date of our Chapter 11 reorganization of November 9, 2009, were terminated as of such date pursuant to our reorganization proceedings.

- (2) Resigned as a director effective November 9, 2009.
- (3) Consists of annual retainer of \$50,000 paid to non-employee directors prior to our reorganization proceedings.
- (4) Represents payments for insurance premiums.
- (5) Each of our non-employee directors appointed to our board of directors subsequent to the effective date of our Chapter 11 reorganization did not receive any compensation in 2009.

Table of Contents

Further Information Regarding Director Compensation Table

In March 2010, we issued to our director Nader Tavakoli 18,750 shares of restricted common stock pursuant to the 2009 Plan for service as a director to date. In March 2010, we also adopted a new director compensation policy. Under the new policy, each of our non-employee directors is entitled to receive an annual fee of \$50,000. In addition, the chairman of our audit committee is entitled to an additional fee of \$5,000. We expect to issue each non-employee director an option to purchase 25,000 shares of common stock, which shall vest on the same terms as option grants to our other grantees. In March 2010, pursuant to this policy, we issued options to purchase 25,000 shares of common stock to each of our directors R. Douglas Norby, Gidu Shroff and Nader Tavakoli pursuant to the 2009 Plan at an exercise price of \$16.96 per share.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee will be appointed prior to the completion of this offering. We do not anticipate that any of the members of the Compensation Committee will have been an officer or employee of our company during the last fiscal year. During 2009, decisions regarding executive officer compensation were made by our full board of directors. Mr. Sang Park, Chairman of our board of directors and our Chief Executive Officer, participated in deliberations of our board of directors regarding the determination of compensation of our executive officers other than himself. None of our executive officers currently serves, or in the past has served, as a member of the board of directors or the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS****Selling Stockholders**

The following table and accompanying footnotes set forth information regarding the beneficial ownership of our common stock by each of the following selling stockholders based on the outstanding common units of MagnaChip Semiconductor LLC as of September 30, 2010 as adjusted to reflect the corporate conversion.

As of September 30, 2010, MagnaChip Semiconductor LLC's outstanding securities consisted of 307,215,516 common units, options to purchase 15,775,000 common units and warrants to purchase 15,000,000 common units and, after giving effect to the corporate conversion, we would have had outstanding 38,401,984 shares of common stock, options to purchase 1,971,875 shares of common stock and warrants to purchase 1,875,016 shares of common stock.

The amounts and percentages of common stock beneficially owned are reported on the basis of SEC regulations governing the determination of beneficial ownership of securities. Under SEC rules, a person is deemed to be a beneficial owner of a security if that person has or shares voting power, which includes the power to vote or to direct the voting of such security, or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has the right to acquire beneficial ownership within 60 days. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which he or she has no economic interest.

The selling stockholder is a wholly-owned subsidiary of Deutsche Bank AG and will be deemed an underwriter within the meaning of the Securities Act of 1933, as amended, with respect to its shares.

The selling stockholder is an affiliate of a broker-dealer and has certified that it acquired the shares of common stock in the ordinary course of business, with no arrangement or understanding with any person to distribute such shares.

- (1) Includes any outstanding shares of common stock held and, to the extent applicable, shares issuable upon the exercise or conversion of any securities that are exercisable or convertible within 60 days of September 30, 2010.
- (2) Affiliated with the Company as described in Certain Relationships and Related Transactions. As described in Management, three of our directors, Messrs. Elkins, Klein and Tan are employed by Avenue.
- (3) The following entities and person are collectively referred to in this table as the Avenue Capital Group : (i) Avenue Investments, L.P. (Avenue Investments), (ii) Avenue International Master, L.P. (Avenue International Master), (iii) Avenue International, Ltd. (Avenue International), the sole limited partner of Avenue International Master, (iv) Avenue International Master GenPar, Ltd. (Avenue International GenPar), the general partner of Avenue International Master, (v) Avenue Partners, LLC (Avenue Partners), the general partner of Avenue Investments and the sole shareholder of Avenue International GenPar, (vi) Avenue-CDP Global Opportunities Fund, L.P. (CDP Global), (vii) Avenue Global Opportunities Fund GenPar, LLC (CDP Global GenPar), the general partner of CDP Global, (viii) Avenue Special Situations Fund IV, L.P. (Avenue Fund IV), (ix) Avenue Capital Partners IV, LLC (Avenue Capital IV), the general partner of Avenue Fund IV, (x) GL Partners IV, LLC (GL IV), the managing member of Avenue Capital IV, (xi) Avenue Special Situations Fund V, L.P. (Avenue Fund V), (xii) Avenue Capital Partners V, LLC (Avenue Capital V), the general partner of Avenue Fund V, (xiii) GL Partners V, LLC (GL V), the managing member of Avenue Capital V, (xiv) Avenue Capital Management II, L.P. (Avenue Capital II), the investment advisor to Avenue Investments, Avenue International Master, CDP Global, Avenue Fund IV and Avenue Fund V (collectively, the Avenue Funds), (xv) Avenue Capital Management II GenPar, LLC (GenPar), the general partner of Avenue Capital II, and (xvi) Marc Lasry, the managing member of GenPar, GL V, GL IV, CDP Global GenPar and Avenue Partners and a director of Avenue International GenPar. Prior to the offering, the Avenue Capital Group beneficially owns 27,365,928 shares of common stock, including 555,961 shares of common stock the Avenue Capital Group may receive through the exercise of outstanding warrants. The Avenue Funds have the sole power to vote and dispose of the shares of common stock and warrants held by them. Avenue International, Avenue International GenPar, Avenue Partners, CDP Global GenPar, Avenue Capital IV, GL IV, Avenue Capital V, GL V, Avenue Capital II, GenPar and Marc Lasry have the shared power to vote and dispose of the shares of common stock and warrants held by the Avenue Funds, all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest.
- (4) Prior to the offering, Avenue Fund V beneficially owns 11,117,266 shares of common stock, including 272,715 shares of common stock issuable upon the exercise of warrants held by Avenue Fund V. The securities owned by Avenue Fund V may also be deemed to be beneficially owned by Avenue Capital V, its general partner; GL V, the managing member of Avenue Capital V; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and GL V; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Fund V, please see footnote (3).
- (5) Prior to the offering, Avenue Fund IV beneficially owns 8,807,283 shares of common stock, including 158,910 shares of common stock issuable upon the exercise of warrants held by Avenue Fund IV. The securities owned by Avenue Fund IV may also be deemed to be beneficially owned by Avenue Capital IV, its general partner; GL IV, the managing member of Avenue Capital IV; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and GL IV; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Fund IV, please see footnote (3).
- (6) Prior to the offering, Avenue International Master beneficially owns 4,446,037 shares of common stock, including 70,448 shares of common stock issuable upon the exercise of warrants held by Avenue International Master. The securities owned by Avenue International Master may also be deemed to be beneficially owned by Avenue International, its sole limited partner; Avenue International GenPar, its general partner; Avenue Partners, the sole shareholder of Avenue International GenPar; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and

Table of Contents

- Mr. Lasry, the managing member of GenPar and Avenue Partners and a director of Avenue International GenPar; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue International Master, please see footnote (3).
- (7) Prior to the offering, CDP Global beneficially owns 1,513,085 shares of common stock, including 30,315 shares of common stock issuable upon the exercise of warrants held by CDP Global. The securities owned by CDP Global may also be deemed to be beneficially owned by CDP Global GenPar, its general partner; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and CDP Global GenPar; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding CDP Global, please see footnote (3).
- (8) Prior to the offering, Avenue Investments beneficially owns 1,482,257 shares of common stock, including 23,573 shares of common stock issuable upon the exercise of warrants held by Avenue Investments. The securities owned by Avenue Investments may also be deemed to be beneficially owned by Avenue Partners, its general partner; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and Avenue Partners; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Investments, please see footnote (3).
- (9) Prior to the offering, Southpaw Asset Management LP (Southpaw Management) may be deemed to beneficially own 2,944,405 shares of common stock as it serves as the discretionary investment manager or investment adviser for Southpaw Credit Opportunity Master Fund, L.P. (Southpaw Master Fund), Wilshire Institutional Master Fund SPC Wilshire Southpaw Opportunity Segregated Portfolio (Wilshire Opportunity Segregated Portfolio) and GPC 76, LLC (GPC 76, and together with Southpaw Master Fund and Wilshire Opportunity Segregated Portfolio, the Southpaw Client Accounts). The securities deemed beneficially owned by Southpaw Management may be deemed beneficially owned by Southpaw Holdings LLC (Southpaw Holdings), which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings. For the avoidance of doubt, none of Southpaw Management, Southpaw Holdings, or Messrs. Wyman and Golden hold common stock for their personal accounts, and each reports beneficial ownership of securities held by the Southpaw Client Accounts due solely to the fact that such persons have the ability to vote and/or dispose of the common stock held by Southpaw Client Accounts.
- (10) Prior to the offering, Southpaw Master Fund beneficially owns 2,860,659 shares of common stock. The securities owned by Southpaw Master Fund may also be deemed beneficially owned by Southpaw Management, in its capacity as the investment manager of Southpaw Master Fund, and Southpaw GP LLC (Southpaw GP), in its capacity as general partner of Southpaw Master Fund. The shares deemed beneficially owned by Southpaw Management may also be deemed beneficially owned by Southpaw Holdings, which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings and Southpaw GP, all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Southpaw Management, please see footnote (10).
- (11) Prior to the offering, Wilshire Opportunity Segregated Portfolio beneficially owns 72,379 shares of common stock. The securities owned by Wilshire Opportunity Segregated Portfolio may also be deemed beneficially owned by Southpaw Management, in its capacity as the investment adviser of Wilshire Opportunity Segregated Portfolio. The shares deemed beneficially owned by Southpaw Management may also be deemed beneficially owned by Southpaw Holdings, which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings, all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Southpaw Management, please see footnote (10).
- (12) Prior to the offering, GPC 76 beneficially owns 11,367 shares of common stock. The securities owned by GPC 76 may also be deemed beneficially owned by Southpaw Management, in its capacity as the investment adviser of GPC 76. The shares deemed beneficially owned by Southpaw Management may also be deemed beneficially owned by Southpaw Holdings, which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings, all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Southpaw Management, please see footnote (10).
- (13) Prior to the offering, Tennenbaum Multi-Strategy Fund SPV (Cayman) Ltd. (Tennenbaum Cayman SPV) beneficially owns 2,588,756 shares of common stock. Tennenbaum Capital Partners, LLC, as the investment manager of Tennenbaum Cayman SPV, and Eric Pagel, as a director of Tennenbaum Cayman SPV, may each be deemed to be the beneficial owner of the common units held by Tennenbaum Cayman SPV. Tennenbaum Capital Partners, LLC and Mr. Pagel disclaim beneficial ownership of these common units, except to the extent of their pecuniary interest therein.
- (14) Prior to the offering, O Connor Capital Structure Opportunity Master Limited beneficially owns 1,591,791 shares of common stock. UBS O Connor LLC is the investment manager for O Connor Capital Structure Opportunity Master Limited and, as such, has the ability to direct decisions made by O Connor Capital Structure Opportunity Master Limited. UBS O Connor LLC is a wholly owned subsidiary of UBS AG, a publicly held entity traded on the New York Stock Exchange. UBS O Connor LLC and UBS AG both disclaim any beneficial ownership, except to the extent of their respective pecuniary interest, if any. Both the selling stockholder and UBS O Connor LLC are associated with the following FINRA members: UBS Financial Services Inc., UBS Financial Services Incorporated of Puerto Rico, UBS Fund Services (USA) LLC, UBS Global Asset Management (US) Inc. and UBS Securities LLC. The selling stockholder, UBS O Connor LLC and UBS AG are also affiliated with UBS Securities LLC, a registered broker-dealer, and an underwriter in this offering.
- (15) Prior to the offering, JP Morgan High Yield Fund beneficially owns 418,073 shares of common stock. J.P. Morgan Investment Management Inc. (JPMIM) is the investment manager for the selling stockholder and has sole voting and dispositive power over the common stock held by the selling stockholder. JPMIM is a registered investment advisor under the Investment Advisors Act of 1940. JPMIM disclaims beneficial ownership as to all of such shares held by the selling stockholder. JPMIM is a wholly-owned subsidiary of JPMorgan Chase & Co., which is a publicly held entity.
- (16) Prior to the offering, Principal Funds Inc. High Yield Fund I beneficially owns 133,522 shares of common stock. JPMIM is the investment manager for the selling stockholder and has sole voting and dispositive power over the common stock held by the selling stockholder. JPMIM is a registered investment advisor under the Investment Advisors Act of 1940. JPMIM disclaims beneficial ownership as to all of such shares held by the selling stockholder. JPMIM is a wholly-owned subsidiary of JPMorgan Chase & Co., which is a publicly held entity.

Table of Contents

- (17) Prior to the offering, Pacholder High Yield Fund, Inc beneficially owns 99,140 shares of common stock. JPMIM is the investment manager for the selling stockholder and has sole voting and dispositive power over the common stock held by the selling stockholder. JPMIM is a wholly-owned subsidiary of JPMorgan Chase & Co., which is a publicly held entity.
- (20) Prior to the offering, Deutsche Bank Securities Inc. beneficially owns 660,272 shares of common stock, including 551,720 shares of common stock issuable upon the exercise of warrants held by it. Deutsche Bank Securities Inc. is an indirect wholly-owned subsidiary of Deutsche Bank AG, a publicly held entity. Deutsche Bank Securities Inc. is an underwriter in this offering.
- (21) Prior to the offering, Carlyle Strategic Partners, L.P. beneficially owns 533,668 shares of common stock. Carlyle Strategic Partners, L.P. is controlled by its general partner, CSP General Partner, L.P., a Delaware limited liability company (CSP General Partner). All decisions pertaining to investments held by Carlyle Strategic Partners, L.P. are made through CSP General Partner s investment committee comprising the following individuals: William E. Conway, Jr., Mitch Petrick, James Hance, Raymond Whiteman and Brett Wyard. In addition, Carlyle Investment Management L.L.C. serves as the investment advisor to Carlyle Strategic Partners, L.P. Carlyle Investment Management L.L.C. is registered with the Securities and Exchange Commission as an investment advisor under the Investment Advisers Act of 1940, as amended.
- (22) Prior to the offering, Caspian Capital Partners LP beneficially owns 83,516 shares of common stock. Mariner Investment Group, LLC (Mariner), an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, furnishes investment advice to several pooled investment vehicles exempt from the Investment Company Act of 1940, and serves as investment manager to certain other separate accounts. In its role as investment adviser, Mariner, and William J. Michaelcheck, as chairman of Mariner, possess voting and/or investment power over the securities that are owned by the selling stockholder. Mariner and Mr. Michaelcheck disclaim beneficial ownership of these shares of common stock, except to the extent of their pecuniary interest therein.
- (23) Prior to the offering, Mariner LDC beneficially owns 83,516 shares of common stock. Mariner Investment Group, LLC (Mariner), an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, furnishes investment advice to several pooled investment vehicles exempt from the Investment Company Act of 1940, and serves as investment manager to certain other separate accounts. In its role as investment adviser, Mariner, and William J. Michaelcheck, as chairman of Mariner, possess voting and/or investment power over the securities that are owned by the selling stockholder. Mariner and Mr. Michaelcheck disclaim beneficial ownership of these shares of common stock, except to the extent of their pecuniary interest therein.
- (24) Prior to the offering, Quattro Fund, Ltd. beneficially owns 93,392 shares of common stock. Andrew Kaplan, Brian Swain and Louis Napoli, as the managing members of Quattro Global Capital, LLC, the investment adviser to the selling stockholder, have voting and investment control over these securities. Quattro Global Capital, LLC and Messrs. Kaplan, Swain and Napoli all disclaim any beneficial ownership, except to the extent of their respective pecuniary interest.
- (25) Prior to the offering, Quattro Distressed Opportunities Fund LP beneficially owns 20,013 shares of common stock. Andrew Kaplan, Brian Swain and Louis Napoli, as the managing members of Quattro Global Capital, LLC, the investment adviser to the selling stockholder, have voting and investment control over these securities. Quattro Global Capital, LLC and Messrs. Kaplan, Swain and Napoli all disclaim any beneficial ownership over the securities held by the selling stockholder, except to the extent of their respective pecuniary interest.

Each of the selling stockholders will acquire the shares of common stock to be sold by such stockholders in this offering pursuant to the conversion of common units of MagnaChip Semiconductor LLC into common shares of MagnaChip Semiconductor Corporation pursuant to the corporate conversion, which will occur prior to the effectiveness of the registration statement of which this prospectus is a part. Such selling stockholders acquired such common units under our plan of reorganization in November 2009. In accordance with our plan of reorganization, in exchange for the claims, (i) holders of our Floating Rate Second Priority Senior Secured Notes due 2011, or the Floating Rate Notes, and 6⁷/₈% Second Priority Senior Secured Notes due 2011, or the 6⁷/₈% Notes, received their pro rata share of newly issued common units equal to five percent of the then outstanding common units, which was equal to 29.667627 common units (approximately 3.7 shares of common stock following the corporate conversion) per \$1,000 principal amount of Floating Rate Notes and 30.498559 common units (approximately 3.8 shares of common stock following the corporate conversion) per \$1,000 principal amount of 6⁷/₈% Notes, and (ii) the holders of our 8% Senior Subordinated Notes due 2014, or the Subordinated Notes, received their pro rata share of (a) newly issued common units equal to one percent of the then outstanding common units, which was equal to 12 common units (approximately 1.5 shares of common stock following the corporate conversion) per

Table of Contents

\$1,000 principal amount of Subordinated Notes and (b) warrants to purchase five percent of MagnaChip Semiconductor LLC's then outstanding equity, which was equal to 60 warrants (approximately 7.5 warrants following the corporate conversion) per \$1,000 principal amount of Subordinated Notes.

In addition, under our plan of reorganization, holders of the Floating Rate Notes and the 6^{7/8}% Notes who were accredited investors received a pro-rata right to participate in an offering of up to \$35 million in new common units, which we refer to as the rights offering, which was equal to 84% of the outstanding common units following the completion of the rights offering at a price per common unit of \$0.14 or \$1.12 per share after reflecting the corporate conversion. Subject to certain conditions, Avenue agreed to purchase any unsubscribed common units. In consideration of this obligation, Avenue received a backstop fee equal to 10% of the then outstanding common units, or 3,750,000 shares of common stock. No additional cash consideration was paid by Avenue for the 3,750,000 shares received as a backstop fee. In addition, Avenue acquired 176,131,368 common units, or 22,016,423 shares of common stock after reflecting the corporate conversion, in the rights offering at a price per common unit of \$0.14 or \$1.12 per share of common stock. Avenue also received 4,260,449 common units, or 532,557 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the Floating Rate Notes, 3,198,353 common units, or 399,795 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the 6^{7/8}% Notes and 889,536 common units, or 111,192 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the Subordinated Notes. Tennenbaum Multi-Strategy Fund SPV (Cayman) Ltd., or Tennenbaum, acquired 19,540,080 common units, or 2,442,510 shares of common stock after reflecting the corporate conversion, in the rights offering at a price per common unit of \$0.14 or \$1.12 per share of common stock and received 445,014 common units, or 55,627 shares of common stock after reflecting the corporate conversion, in exchange for the release of its claims on the Floating Rate Notes and 724,951 common units, or 90,619 shares of common stock after reflecting the corporate conversion, in exchange for the release of its claims on the 6^{7/8}% Notes. Southpaw Credit Opportunity Master Fund LP acquired 21,613,032 common units, or 2,701,629 shares of common stock after reflecting the corporate conversion, in the rights offering at a price per common unit of \$0.14 or \$1.12 per share of common stock and received 1,272,237 common units, or 159,030 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the Floating Rate Notes. Wilshire Institutional Master Fund SPC Wilshire Southpaw Opportunity Segregated Portfolio acquired 546,840 common units, or 68,355 shares of common stock after reflecting the corporate conversion, in the rights offering at a price per common unit of \$0.14 or \$1.12 per share of common stock and 32,189 common units, or 4,024 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the Floating Rate Notes. GPC 76, LLC received 90,931 common units, or 11,367 shares of common stock after reflecting the corporate conversion, in exchange for the release of their claims on the Floating Rate Notes.

Principal Stockholders

The following table sets forth information regarding the beneficial ownership of our outstanding common stock after giving effect to the corporate conversion by: (1) each person or entity known to us to beneficially own more than 5% of any class of our outstanding securities; (2) each member of our board of directors; (3) each of our named executive officers; and (4) all of the members of our board of directors and executive officers, as a group. As of September 30, 2010, our outstanding securities consisted of 38,401,984 shares of common stock, options to purchase 1,971,875 shares of common stock and warrants to purchase 1,875,016 shares of common stock.

The amounts and percentages of equity interests beneficially owned are reported on the basis of SEC regulations governing the determination of beneficial ownership of securities. Under SEC rules, a

Table of Contents

person is deemed to be a beneficial owner of a security if that person has or shares voting power, which includes the power to vote or to direct the voting of such security, or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has the right to acquire beneficial ownership within 60 days. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which he or she has no economic interest.

Except as indicated by footnote, the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them. Unless otherwise indicated, the address of each person listed in the table below is c/o MagnaChip Semiconductor Ltd., 1 Hyang jeong-dong, Hungduk-gu, Cheongju-si, 361-725, Korea.

Table of Contents

Partners V, LLC (GL V), the managing member of Avenue Capital V, (xiv) Avenue Capital Management II, L.P. (Avenue Capital II), the investment advisor to Avenue Investments, Avenue International Master, CDP Global, Avenue Fund IV and Avenue Fund V (collectively, the Avenue Funds), (xv) Avenue Capital Management II GenPar, LLC (GenPar), the general partner of Avenue Capital II, and (xvi) Marc Lasry, the managing member of GenPar, GL V, GL IV, CDP Global GenPar and Avenue Partners and a director of Avenue International GenPar.

The Avenue Capital Group beneficially owns 27,365,928 shares of common stock, including the 555,961 shares of common stock the Avenue Capital Group may receive through the exercise of outstanding warrants.

The Avenue Funds have the sole power to vote and dispose of the common units held by them. Avenue International, Avenue International GenPar, Avenue Partners, CDP Global GenPar, Avenue Capital IV, GL IV, Avenue Capital V, GL V, Avenue Capital II, GenPar and Marc Lasry have the shared power to vote and dispose of the common units held by the Avenue Funds, all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. The address for all of the Avenue Funds is 399 Park Avenue, 6th Floor, New York, NY 10022.

Avenue Fund V beneficially owns 11,117,266 shares of common stock, or 28.7%, which represents 10,844,551 shares of common stock and 272,715 shares of common stock issuable upon the exercise of warrants held by Avenue Fund V. The securities owned by Avenue Fund V may also be deemed to be beneficially owned by Avenue Capital V, its general partner; GL V, the managing member of Avenue Capital V; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and GL V; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Fund V, please see above.

Avenue Fund IV beneficially owns 8,807,283 shares of common stock, or 22.8%, which represents 8,648,373 shares of common stock and 158,910 shares of common stock issuable upon the exercise of warrants held by Avenue Fund IV. The securities owned by Avenue Fund IV may also be deemed to be beneficially owned by Avenue Capital IV, its general partner; GL IV, the managing member of Avenue Capital IV; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and GL IV; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Fund IV, please see above.

Avenue International Master beneficially owns 4,446,037 shares of common stock, or 11.6%, which represents 4,375,589 shares of common stock and 70,448 shares of common stock issuable upon the exercise of warrants held by Avenue International Master. The securities owned by Avenue International Master may also be deemed to be beneficially owned by Avenue International, its sole limited partner; Avenue International GenPar, its general partner; Avenue Partners, the sole shareholder of Avenue International GenPar; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and Avenue Partners and a director of Avenue International GenPar; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue International Master, please see above.

CDP Global beneficially owns 1,513,085 shares of common stock, or 3.9%, which represents 1,482,770 shares of common stock and 30,315 shares of common stock issuable upon the exercise of warrants held by CDP Global. The securities owned by CDP Global may also be deemed to be beneficially owned by CDP Global GenPar, its general partner; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and CDP Global GenPar; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding CDP Global, please see above.

Table of Contents

Avenue Investments beneficially owns 1,482,257 shares of common stock, or 3.9%, which represents 1,458,684 shares of common stock and 23,573 shares of common stock issuable upon the exercise of warrants held by Avenue Investments. The securities owned by Avenue Investments may also be deemed to be beneficially owned by Avenue Partners, its general partner; Avenue Capital II, its investment adviser; GenPar, the general partner of Avenue Capital II; and Mr. Lasry, the managing member of GenPar and Avenue Partners; all of whom disclaim any beneficial ownership except to the extent of their respective pecuniary interest. For further information regarding Avenue Investments, please see above.

- (3) Represents 2,944,405 shares of common stock that may be deemed to be beneficially owned by Southpaw Asset Management LP (Southpaw Management) as it serves as the discretionary investment manager for several funds and accounts (the Managed Accounts). The common units deemed beneficially owned by Southpaw Management may be deemed beneficially owned by Southpaw Holdings LLC (Southpaw Holdings), which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings.
- Southpaw Credit Opportunity Master Fund, L.P (Southpaw Master Fund) beneficially owns 2,860,659 shares of common stock. The securities owned by Southpaw Master Fund may also be deemed beneficially owned by Southpaw Management, in its capacity as the investment manager of Southpaw Master Fund, and Southpaw GP LLC (Southpaw GP), in its capacity as general partner of Southpaw Master Fund. The shares deemed beneficially owned by Southpaw Management may also be deemed beneficially owned by Southpaw Holdings, which is the general partner of Southpaw Management, and by each of Kevin Wyman and Howard Golden, who are principals of Southpaw Holdings and Southpaw GP.
- The business address of each of Southpaw Master Fund, Southpaw Management, Southpaw GP, Southpaw Holdings, and Messrs. Wyman and Golden is 2 Greenwich Office Park, 1st floor, Greenwich, CT 06831. For the avoidance of doubt, none of Southpaw Management, Southpaw GP, Southpaw Holdings, or Messrs. Wyman and Golden hold common stock for their personal accounts, and each reports beneficial ownership of common stock held by Southpaw Master Fund and the Managed Accounts due solely to the fact that such persons have the ability to vote and/or dispose of the common stock held by Southpaw Master Fund and the Managed Accounts.
- (4) Represents 2,588,756 shares of common stock held by Tennenbaum Multi-Strategy Fund SPV (Cayman) Ltd. (Tennenbaum Cayman SPV). Tennenbaum Capital Partners, LLC is the investment manager of Tennenbaum Cayman SPV, and may be deemed to be the beneficial owner of the common stock held by such principal unitholders. Tennenbaum Capital Partners, LLC, however, disclaims beneficial ownership of these shares at common stock, except to the extent of its pecuniary interest therein. The address for Tennenbaum Cayman SPV is 2951 28th Street, Suite 1000, Santa Monica, CA 90405.
- (5) Represents 280,000 shares of common stock, of which 184,800 are subject to a right of repurchase by MagnaChip.
- (6) Represents 105,000 shares of common stock, of which 69,300 are subject to a right of repurchase by MagnaChip.
- (7) Represents 70,000 shares of common stock, of which 46,200 are subject to a right of repurchase by MagnaChip.
- (8) Represents 42,000 shares of common stock, of which 27,720 are subject to a right of repurchase by MagnaChip.
- (9) Represents 42,000 shares of common stock, of which 27,720 are subject to a right of repurchase by MagnaChip.
- (10) The address for Messrs. Elkins, Klein and Tan is 399 Park Avenue, 6th Floor, New York, NY 10022.
- (11) Represents 18,750 shares of common stock.
- (12) Mr. Krakauer resigned as our President, Chief Financial Officer and director on April 10, 2009.
- (13) Represents 613,750 shares of common stock, of which 392,700 are subject to a right of repurchase by MagnaChip.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Code of Business Conduct and Ethics

Under our Code of Business Conduct and Ethics, all conflicts of interest and related party transactions involving our directors or executive officers must be reviewed and approved in writing by our full board of directors. In the approval process, the approving authority will review all aspects of the conflict of interest or related party transaction, including but not limited to: (i) compliance with laws, rules and regulations, (ii) the adverse affect on our business and results of operations, (iii) the adverse affect on our relationships with third parties such as customers, vendors and potential investors, (iv) the benefit to the director, officer or employee at issue, and (v) the creation of morale problems among other employees. Our board of directors will only approve those related party transactions that, in light of known circumstances, are in, or are not inconsistent with, our best interests.

Senior Debt

Avenue Investments, L.P. (one of the Funds affiliated with Avenue Capital Management II, L.P., which is, together with other affiliates, our majority stockholder, and an affiliate of our directors Messrs. Elkins, Klein and Tan) was a lender under our senior secured credit facility. On November 6, 2009, in connection with the reorganization proceedings, our senior secured credit agreement was amended and restated to, among other things, reduce the outstanding principal amount from \$95 million to \$61.8 million, pursuant to which we repaid \$33.2 million in principal, \$22.6 million of which was paid to Avenue Investments, L.P. As of December 31, 2009, the outstanding indebtedness under our senior secured credit facility was \$61.8 million, of which \$42.1 million was held by Avenue Investments, L.P. As of December 31, 2009, the interest rate for all borrowings under the senior secured credit facility was 6 month LIBOR plus 12% per annum and we accrued \$1.2 million in interest under the senior secured credit facility as of December 31, 2009, of which \$0.8 million was accrued for Avenue Investments, L.P. Other Funds affiliated with Avenue Capital Management II, L.P. participate in the loan from Avenue Investments, L.P. under our senior secured credit agreement pursuant to a master participation agreement. Our senior secured credit agreement was repaid in April 2010 with a portion of the proceeds from our \$250 million senior notes offering, \$42.8 million of which was paid to Avenue Investments, L.P., including \$0.9 million of accrued interest. Avenue purchased \$35 million in principal amount our \$250 million senior notes. See [Description of Certain Indebtedness](#) for additional information.

Issuance of Common Stock

Prior to the completion of the corporate conversion, all of our outstanding equity securities were issued in the form of units by MagnaChip Semiconductor LLC. The following paragraphs discuss the number of shares of our common stock that will be issued in conversion of the units upon the completion of the corporate conversion.

In connection with our plan of reorganization, Avenue received an aggregate of 1,043,544 shares of common stock and warrants to purchase up to an aggregate of 555,961 shares of common stock in exchange for the release of claims relating to outstanding indebtedness in an aggregate principal amount of approximately \$322.6 million. Avenue also acquired 22,016,423 shares of common stock at \$1.12 per share pursuant to a \$35 million rights offering that we completed in November 2009 and an additional 3,750,000 shares of common stock for providing a backstop service in agreeing to purchase any unsubscribed units in the offering.

In connection with our plan of reorganization, Tennenbaum Multi-Strategy Fund SPV (Cayman) Ltd., or Tennenbaum, received 146,246 shares of common stock in exchange for the release of claims relating to approximately the principal amount of \$38.8 million of outstanding indebtedness. Tennenbaum also acquired 2,442,510 shares of common stock in the rights offering.

Table of Contents

In connection with our plan of reorganization, Southpaw Credit Opportunity Master Fund LP, or Southpaw Master Fund, received 159,030 shares of common stock in exchange for the release of their claims relating to approximately the principal amount of \$42.9 million of outstanding indebtedness. Southpaw Master Fund also acquired 2,701,629 shares of common stock in the rights offering. Wilshire Institutional Master Fund SPC Wilshire Southpaw Opportunity Segregated Portfolio, or Wilshire Institutional, received 4,024 shares of common stock in exchange for the release of their claims relating to approximately the principal amount of \$1.1 million of outstanding indebtedness. Wilshire Institutional also acquired 68,355 shares of common stock in the rights offering. Lastly, GPC 76, LLC received 11,367 shares of common stock in exchange for the release of their claims relating to approximately the principal amount of \$3.1 million of outstanding indebtedness.

Registration Rights Agreement

On November 9, 2009, we entered into a registration rights agreement with the holders of MagnaChip Semiconductor LLC's common units issued in our reorganization proceedings, including Avenue, where we granted them registration rights with respect to our common stock. See Description of Capital Stock Registration Rights.

Warrant Agreement

On November 9, 2009, we entered into a warrant agreement with American Stock Transfer & Trust Company, LLC whereby we issued warrants to purchase an aggregate of 1,875,016 shares of common stock pursuant to the reorganization proceedings to certain former creditors, which included Avenue.

Senior Advisor Agreement

In April 2009, we entered into a Senior Advisor Agreement with Mr. Krakauer, who formerly served as our President, Chief Financial Officer and director, pursuant to which he remained available to consult with us through April 10, 2010. Under this agreement, Mr. Krakauer was entitled to payments in the aggregate amount of \$375,000, payable over a one-year period, plus the repayment of amounts of reduced salary for the first three months of 2009, in addition to the continuation of certain benefits and perquisites, including health insurance benefits, and the continuation of auto lease payments for a certain number of months. In addition, we waived any right we had to repurchase any restricted units held by Mr. Krakauer at the time of his resignation. All common units held by Mr. Krakauer were terminated in connection with our reorganization proceedings.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following description of our capital stock and provisions of our certificate of incorporation and our bylaws are summaries and are qualified by reference to the certificate of incorporation and the bylaws that will be in effect upon the closing of this offering. We have filed copies of these documents with the SEC as exhibits to our registration statement of which this prospectus forms a part. The descriptions of the common stock and preferred stock reflect changes to our capital structure that will occur prior to and upon the closing of this offering.

Upon the closing of this offering, our authorized capital stock will consist of 150,000,000 shares of common stock, par value \$0.01 per share, and 5,000,000 shares of undesignated preferred stock, par value \$0.01 per share, the rights and preferences of which may be established from time to time by our board of directors.

As of September 30, 2010, after giving effect to the corporate conversion, we had issued and outstanding 38,401,984 shares of common stock held by 133 holders of record. As of September 30, 2010, we also had outstanding options to purchase 1,971,875 shares of common stock at a weighted average exercise price of \$6.32 per unit and warrants to purchase 1,875,016 shares of common stock at an exercise price of \$15.76 per unit.

Prior to the effectiveness of the registration statement of which this prospectus is a part, we will consummate the corporate conversion. As part of the corporate conversion:

all of the outstanding common units of MagnaChip Semiconductor LLC will be automatically converted into shares of our common stock at a ratio of eight-for-one;

each outstanding option to purchase common units of MagnaChip Semiconductor LLC will be automatically converted into an option to purchase 0.125 shares of our common stock at a weighted average exercise price of \$6.32 per share; and

each outstanding warrant to purchase common units of MagnaChip Semiconductor LLC will be automatically converted into a warrant to purchase 0.125 shares of our common stock at a weighted average exercise price of \$15.76 per share.

The following description summarizes the terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our certificate of incorporation and bylaws, as in effect immediately following the closing of this offering, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

Common Stock

Assuming the automatic conversion of all of the common units of MagnaChip Semiconductor LLC for our common stock prior to the closing of this offering, there will be _____ shares of our common stock outstanding upon the closing of this offering. MagnaChip Semiconductor LLC has reserved an aggregate of 3,750,000 shares of common stock for issuance to current and future directors, employees and consultants of MagnaChip Semiconductor LLC and its subsidiaries pursuant to the MagnaChip Semiconductor LLC 2009 Common Unit Plan. Of this amount, at September 30, 2010, 1,971,875 shares of common stock were subject to outstanding options, 876,185 were available for future issuance and no shares of common stock have been purchased in connection with the exercise of previously issued options. Following the offering, our board of directors may issue options exercisable for up to _____ shares of our common stock under our 2010 Equity Incentive Plan and

Table of Contents

2010 Employee Stock Purchase Plan. MagnaChip Semiconductor LLC issued warrants to purchase an aggregate of 1,875,016 shares of common stock (after giving effect to the corporate conversion) pursuant to the reorganization proceedings, which are subject to a warrant agreement dated November 9, 2009 between us and American Stock Transfer & Trust Company, LLC, our warrant agent. At September 30, 2010, 1,875,016 shares of common stock were subject to outstanding warrants and no shares of common stock had been purchased in connection with the exercise of previously issued warrants.

Holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Our stockholders do not have cumulative voting rights in the election of directors. Except as required by law or our certificate of incorporation and bylaws, the vote of a majority of the shares represented in person or by proxy at any meeting at which a quorum is present will be sufficient for the transaction of any business at a meeting. Subject to preferences held by, or that may be granted to, any outstanding shares of preferred stock, holders of our common stock will be entitled to receive ratably those dividends as may be declared by our board of directors out of funds legally available for such distributions, as well as any other distributions made to our stockholders. See Dividend Policy. In the event of our liquidation, dissolution or winding up, holders of our common stock are entitled to share ratably in all of our assets remaining after we pay our liabilities and any liquidation preferences granted to the holders of outstanding shares of preferred stock. Holders of our common stock have no preemptive or other subscription or conversion rights. There are no redemption or sinking fund provisions applicable to our common stock. All shares of our common stock that will be outstanding at the time of the completion of the offering will be fully paid and non-assessable.

Preferred Stock

Our certificate of incorporation authorizes the issuance of 5,000,000 shares of blank check preferred stock with such designation, rights and preferences as may be determined from time to time by our board of directors. No shares of preferred stock are being issued or registered in this offering. Accordingly, our board of directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of common stock. The preferred stock could be utilized as a method of discouraging, delaying or preventing a change in control of us. Although we do not currently intend to issue any shares of preferred stock, there can be no assurance that we will not do so in the future.

Registration Rights

Upon the closing of this offering, holders of _____ shares of our common stock will be entitled to certain rights with respect to the registration of their shares under the Securities Act.

Demand Registration Rights. Commencing 90 days following the completion of a firm commitment underwritten public offering of our securities pursuant to an effective registration statement filed by us under the Securities Act resulting in gross proceeds of at least \$75.0 million to us, any holder who is a party to the equity registration rights agreement and who holds a minimum of 20% of the common stock covered by the equity registration rights agreement, has the right to demand that we file a registration statement covering the resale of its common stock, subject to a maximum of four such demands in the aggregate for all holders and to other specified exceptions. After we become eligible for the use of SEC Form S-3, any holder who is a party to the equity registration rights agreement, has the right to demand that we file with the SEC a registration statement under SEC Form S-3 or any similar short-form registration statement covering the shares of common stock held by these stockholders to be offered to the public, subject to specified exceptions. At the request of the holders, a demand registration may be a shelf registration pursuant to Rule 415 of the Securities Act.

Table of Contents

The underwriters of any such offerings will have the right to limit the number of shares to be offered except that if a limit is imposed, then only shares held by holders who are parties to the registration rights agreement will be included in such offering and the number of shares to be included in such offering will be allocated pro rata among those same parties. In any event, we will not include any securities of any other person (including us) in any demand registration statement without the prior written consent of the holders of a majority of the shares of common stock covered by such demand registration statement.

In no event will we be required to effect more than one demand registration under the registration rights agreement within any three-month period (or within a given one-month period, in the case of any registration under Form S-3 or any similar short-form registration statement), and we will not be obligated to effect any demand registration unless the aggregate gross proceeds to be received from the sale of common stock equals or exceeds \$10.0 million (or \$1.0 million, in the case of any registration under Form S-3 or any similar short-form registration statement).

Piggyback Registration Rights. If we register any equity securities for our own account for public sale, stockholders with registration rights will, with specified exceptions, have the right to include their shares in the registration statement. The underwriters of any underwritten offering will have the right to limit the number of such shares to be included in the registration statement if the inclusion of all common stock of the holders who are a party to the registration rights agreement proposed to be included in such offering would materially and adversely interfere with the successful marketing of our securities. Priority of inclusion in the registration shall be given first to us, second to stockholders with registration rights, *pro rata* on the basis of the relative number of securities requested to be registered by such stockholder, and third to any other participating person on such basis as we determine.

Expenses of Registration. Other than underwriting fees, discounts, commissions, stock transfer taxes and fees and disbursements of legal counsel to participating holders (excluding the fees of one firm of legal counsel to all of the participating holders participating in an underwritten public offering), we will pay all expenses relating to demand registrations and all expenses relating to piggyback registrations.

Indemnification and Contribution. The registration rights agreement contains indemnification and contribution arrangements between us and stockholders who are a party to the registration rights agreement with respect to each registration statement.

Anti-takeover Effects of Delaware Law and our Certificate of Incorporation and Bylaws

The provisions of Delaware law, our certificate of incorporation and our bylaws described below may have the effect of delaying, deferring or discouraging another party from acquiring control of us.

Delaware Law. We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers. In general, those provisions prohibit a public Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

the transaction is approved by the board of directors before the date the interested stockholder attained that status;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or after the date the business combination is approved by the board of directors and authorized at a meeting of stockholders, and not by written consent, by at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

Table of Contents

In general, Section 203 defines a business combination to include the following:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by any such entity or person.

A Delaware corporation may opt out of this provision by express provision in its original certificate of incorporation or by amendment to its certificate of incorporation or bylaws approved by its stockholders. However, we have not opted out of, and do not currently intend to opt out of, this provision. The statute could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us.

Charter and Bylaws. Our certificate of incorporation and bylaws contain certain provisions that are intended to enhance the likelihood of continuity and stability in the composition of the board of directors and which may have the effect of delaying, deferring or preventing a future takeover or change in control of our company unless such takeover or change in control is approved by the board of directors, including:

Authorized but Unissued Preferred Stock. Our board of directors is authorized to issue, without stockholder approval, preferred stock with such terms as the board of directors may determine. For more information, see [Description of Capital Stock Preferred Stock](#).

Calling Special Stockholder Meetings. Our bylaws provide that special meetings of our stockholders may be called only pursuant to the request of our board of directors, by the chairman of our board of directors, by our chief executive officer or by the holders of at least 25% of the voting power of all then outstanding shares of our common stock. In addition, stockholders may not fill vacancies on the board of directors and may not act by written consent.

Advanced Notice Procedures. Stockholders must timely provide advance notice, with specific requirements as to form and content, of nominations of directors or the proposal of business to be voted on at an annual meeting.

Classified Board of Directors. Our bylaws provide that our board of directors will be divided into three classes of directors, with the classes to be as nearly equal in number as possible. Prior to consummation of this offering, our board will assign each of the current members to their respective class as the board shall determine in its sole discretion, subject to the foregoing requirement that the

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

classes be nearly equal in size. We anticipate we will have a classified board, with two directors in Class I, two directors in Class II and three directors in Class III. The members of each class will serve for a term expiring at the third succeeding annual meeting of stockholders. As a result, approximately one-third of our board will be elected each year. A

Table of Contents

replacement director shall serve in the same class as the former director he or she is replacing. The classification of our board will have the effect of making it more difficult for stockholders to change the composition of our board.

Other Board of Director Requirements. Our authorized number of directors may be changed only by resolution of the board of directors and all vacancies, including newly created directorships, may, except as otherwise required by law, be filled by the affirmative vote of a majority of directors then in office, even if less than a quorum. In addition, directors may only be removed for cause and then only by a vote of holders of a majority of the shares entitled to vote at an election of directors.

Conflicts of Interest. Delaware law permits corporations to adopt provisions renouncing any interest or expectancy in certain opportunities that are presented to the corporation or its officers, directors or stockholders. Our certificate of incorporation renounces any interest or expectancy that we have in, or right to be offered an opportunity to participate in, specified business opportunities. Our certificate of incorporation provides that none of our non-employee directors, non-employee 5% or greater stockholders or their affiliates will have any duty to refrain from engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage. In addition, in the event that any such director, stockholder or affiliate acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for us or our affiliates, such person will have no duty to communicate or offer such transaction or business opportunity to us and may take any such opportunity for themselves or offer it to another person or entity. Our certificate of incorporation does not renounce our interest in any business opportunity that is expressly offered to a director solely in his or her capacity as our director.

Director and Officer Indemnification. We will indemnify officers and directors against losses that they may incur in investigations and legal proceedings resulting from their services to us, which may include services in connection with takeover defense measures.

Supermajority Voting Requirements. The affirmative vote of the holders of at least 66²/₃% in voting power of all shares of our stock entitled to vote generally in the election of directors, voting together as a single class, is required in order for our stockholders to alter, amend or repeal the provisions of our bylaws or amend or repeal of certain provisions of our certificate of incorporation including the following:

classified board (the election and term of our directors);

the resignation and removal of directors;

the provisions regarding competition and corporate opportunities;

the provisions regarding stockholder action by written consent;

the provisions regarding calling special meetings of stockholders;

filling vacancies on our board and newly created directorships;

the advance notice requirements for stockholder proposals and director nominations; and

indemnification provisions.

In addition, our certificate of incorporation grants our board the authority to amend and repeal our bylaws without a stockholder vote in any manner not inconsistent with the laws of the State of Delaware or our certificate of incorporation.

Table of Contents

Limitations on Liability and Indemnification of Officers and Directors

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. Our certificate of incorporation includes a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director, except to the extent such exemption from liability is not permitted by the DGCL.

Our certificate of incorporation and bylaws provide that we must indemnify our directors and officers to the fullest extent authorized by the DGCL. We are also expressly obligated to advance certain expenses (including attorneys' fees and disbursements and court costs) and carry directors' and officers' insurance providing indemnification for our directors, officers and certain employees for some liabilities. We believe that these indemnification provisions and insurance are useful to attract and retain qualified directors and executive officers.

The limitation of liability and indemnification provisions in our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

Listing

Our depositary shares and common stock have been approved for listing on the NYSE under the symbol **MX**.

Transfer Agent and Registrar; Warrant Agent

The transfer agent and registrar for our common stock and the warrant agent for our warrants is American Stock Transfer & Trust Company, LLC and its telephone number is (800) 937-5449.

Table of Contents

DESCRIPTION OF DEPOSITARY SHARES

General

All of the shares of common stock sold in this offering will be sold in the form of depositary shares. Each depositary share represents an ownership interest in one share of common stock and will be evidenced by a depositary receipt in the form described below. The shares of common stock represented by depositary shares will be deposited under a deposit agreement among MagnaChip Semiconductor Corporation, American Stock Transfer & Trust Company, LLC, as the depositary, and the holders from time to time of the depositary shares. Each holder of a depositary share will be entitled, through the depositary, to all the rights and preferences of the shares of common stock represented thereby.

To enable our unitholders to obtain the preferred income tax treatment for the corporate conversion, this offering has been structured so that each purchaser will purchase a combination of shares sold by us (primary shares) and shares sold by the selling stockholders (secondary shares) in a specified ratio. Each depositary share sold in this offering represents a fraction of a primary share and a fraction of a secondary share in such specified ratio. The offering of depositary shares will enable us and our unitholders to establish that each purchaser will purchase such fixed ratio of primary to secondary shares.

All of the shares of common stock sold in this offering will be deposited with the depositary prior to the completion of this offering. We then will issue the depositary shares to the underwriters via the depositary pursuant to the deposit agreement. A copy of the form of the deposit agreement has been filed as an exhibit to the registration statement of which this prospectus is a part.

Cancellation of Depositary Shares

On _____, 2010 (45 days after the date of this prospectus), each holder of depositary shares will be credited with a number of shares of common stock equal to the number of depositary shares held by such holder on that date, and the depositary shares will be canceled.

Fees and Expenses

Except as described under **Withdrawal**, we will pay all fees, charges and expenses of the depositary and any agent of the depositary, including any fees, charges and expenses payable in connection with the cancellation of the depositary shares on _____, 2010.

Dividends and Other Distributions

We do not expect to pay any dividends or other distribution prior to the cancellation of the depositary shares on _____, 2010.

Listing

Our depositary shares and common stock have been approved for listing on the New York Stock Exchange under the symbol **MX**. Before the cancellation of the depositary shares on _____, 2010, all of the shares of common stock sold in this offering will be deposited with the depositary and there will not be any separate public trading market for our shares of common stock, except as represented by the depositary shares and only the depositary shares will be listed on the New York Stock Exchange. After the cancellation of the depositary shares on _____, 2010, we expect that our shares of common stock will be listed on the New York Stock Exchange under the symbol **MX**.

Table of Contents

Withdrawal

Holders of depositary shares have the right to cancel their depositary shares and withdraw the underlying common shares at any time subject only to:

temporary delays caused by closing of our or the depositary's transfer books;

the payment of fees, charges, taxes and other governmental charges; or

where deemed necessary or advisable by the depositary or us in good faith due to any requirement of any U.S. or foreign laws, government, governmental body or commission, any securities exchange on which the depositary shares are listed or governmental regulations relating to the depositary shares or the withdrawal of the underlying shares of common stock.

However, until , 2010, our common stock will not be listed on any exchange. Therefore, until that date, it may be more difficult to dispose of our shares of common stock than it will be to dispose of our depositary shares.

If you elect to withdraw the shares of common stock underlying your depositary shares from the depositary, you will be required to pay any taxes or charges, such as stamp taxes or stock transfer taxes or fees, in connection with the withdrawal.

Form of Depositary Shares and Depositary Receipts

The depositary shares shall be issued in book-entry form and American Stock Transfer & Trust Company, LLC will serve as depositary. Ownership of the depositary shares shall be recorded in the depositary's book-entry system. The depositary receipts shall be statements delivered by the depositary evidencing the depositary shares held under the terms of the deposit agreement and shall not be physical certificated depositary receipts. The shares of common stock sold in this offering will be issued in registered form and held by the depositary.

Limitations on Obligations and Liability

The deposit agreement expressly limits our and the depositary's obligations and liability.

We and the depositary:

have agreed to perform our respective obligations specifically set forth in the deposit agreement without gross negligence or bad faith;

are not liable if either of us by law or circumstances beyond our control is prevented from, or delayed in, performing any obligation under the deposit agreement, including, without limitation, requirements of any present or future law, regulation, governmental or regulatory authority or stock exchange of any applicable jurisdiction, any present or future provision of our certificate of incorporation and bylaws, on account of possible civil or criminal penalties or restraint, any provisions of or governing the deposited securities, any act of God, war or other circumstances beyond each of our control as set forth in the deposit agreement;

are not liable if either of us exercises or fails to exercise the discretion permitted under the deposit agreement, the provisions of or governing the deposited shares of common stock or our certificate of incorporation and bylaws;

Edgar Filing: MAGNACHIP SEMICONDUCTOR LLC - Form S-1/A

are not liable for any action or inaction on the advice or information of legal counsel, accountants, any person presenting common shares for deposit, holders and beneficial owners (or authorized representatives) of depositary shares, or any person believed in good faith to be competent to give such advice or information;

Table of Contents

are not liable for the inability of any holder to benefit from any distribution, offering, right or other benefit if made in accordance with the provisions of the deposit agreement;

have no obligation to become involved in a lawsuit or other proceeding related to any deposited shares of common stock or the depositary shares or the deposit agreement on behalf of holders of depositary shares or on behalf of any other party;

may rely upon any documents we believe in good faith to be genuine and to have been signed or presented by the proper party; and

shall not incur any liability for any indirect, special, punitive or consequential damages for any breach of the terms of the deposit agreement.

The depositary and its agents will not incur any liability under the deposit agreement for the failure to determine that any action may be lawful or reasonably practicable, allowing any rights to lapse in accordance with the provisions of the deposit agreement, the failure or timeliness of any notice from us, the content of any information submitted to it by us for distribution to holders of depositary shares, any investment risk associated with the acquisition of an interest in our shares of common stock, the validity or worth of the deposited shares of common stock, any tax consequences that may result from ownership of depositary shares or shares of common stock, the creditworthiness of any third party and for any indirect, special, punitive or consequential damage. We also have agreed to indemnify the depositary under certain circumstances. The depositary may own and deal in any class of our securities, including the depositary shares.

Notwithstanding the foregoing, the deposit agreement does not limit our liability under federal securities laws.

Table of Contents

DESCRIPTION OF CERTAIN INDEBTEDNESS

On April 9, 2010, MagnaChip Semiconductor S.A. and MagnaChip Semiconductor Finance Company, or the Issuers, two of our wholly-owned subsidiaries, issued \$250 million aggregate principal amount of 10.500% Senior Notes due 2018, or the senior notes. The senior notes mature on April 15, 2018, at which time the principal amount outstanding thereunder will be due and payable. The Issuers may issue additional senior notes from time to time under the indenture governing the senior notes, or the Indenture, subject to compliance with the terms of the Indenture.

Ranking

The senior notes are the Issuers' general unsecured senior obligations, rank equally in right of payment with all of their existing and future unsecured senior indebtedness, are effectively subordinated to all their secured indebtedness, to the extent of the value of the collateral securing such indebtedness, and rank senior in right of payment to all of their subordinated indebtedness.

Interest

Interest on the senior notes accrues at the rate of 10.500% per annum and is payable semi-annually in arrears on April 15 and October 15 to the holders of the senior notes of record on the immediately preceding April 1 and October 1. Interest on the senior notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. Special interest may accrue on the senior notes in certain circumstances if we fail to comply with our registration obligations with respect to the senior notes pursuant to an exchange and registration rights agreement. Any special interest on the senior notes will be payable in cash.

Guarantees

The obligations under the senior notes are fully and unconditionally guaranteed on an unsecured senior basis by us and all of our subsidiaries, other than our insignificant subsidiaries, as defined in the Indenture, our unrestricted subsidiaries, as defined in the Indenture, our subsidiaries organized under the laws of the People's Republic of China, and MagnaChip Korea. The guarantees of the senior notes rank equally in right of payment with or senior to all indebtedness of us and all such subsidiaries. Such guarantees are effectively subordinated in right of payment to all secured indebtedness of us and all such subsidiaries, to the extent of the value of the collateral securing such indebtedness, and rank senior in right of payment to all of subordinated indebtedness of us and all such subsidiaries.

Optional Redemption

At any time prior to April 15, 2013, the Issuers may, on one or more occasions, redeem up to 35% of the aggregate principal amount of the senior notes with the net cash proceeds of certain qualified equity offerings by us, at a redemption price equal to 110.500% of the principal amount of the senior notes to be redeemed, plus accrued and unpaid interest and special interest, if any, to the redemption date.

Also, at any time prior to April 15, 2014, the Issuers may, on one or more occasions, redeem some or all of the senior notes at a redemption price equal to 100% of the principal amount of the senior notes redeemed, plus accrued and unpaid interest and special interest, if any, to the redemption date and a make-whole premium calculated as provided in the Indenture.

Table of Contents

In addition, on or after April 15, 2014, the Issuers may, on one or more occasions, redeem some or all of the senior notes at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and special interest, if any, to the redemption date, if redeemed during the twelve-month period beginning on April 15 of each of the years indicated below:

Year	Percentage
2014	105.250%
2015	102.625%
2016 and thereafter	100.000%

Change of Control

Upon the occurrence of a change of control, as defined in the Indenture, unless the Issuers have mailed a redemption notice with respect to the senior notes and do not default in the payment of the applicable redemption price or a third party makes a similar offer to purchase all of the senior notes, we must make an offer to purchase all of the senior notes at a price in cash equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest and special interest, if any, to the date of purchase.

Asset Sales

The Indenture provides that we and our restricted subsidiaries (including MagnaChip Korea but excluding unrestricted subsidiaries, as defined in the Indenture) will not consummate an asset sale, as defined in the Indenture, unless certain conditions are met, including that the consideration received is at least equal to the fair market value of the assets sold, and that a specified percentage of such consideration is in the form of cash. If we do not use the sale proceeds in our business as specified in the Indenture, we must apply such proceeds to an offer to repurchase senior notes at a price in cash equal to 100% of the aggregate principal amount thereof plus accrued and unpaid interest and special interest, if any, to the repurchase date.

Additional Amounts; Redemption Upon Changes in Withholding Taxes

Payments on the senior notes are to be made without withholding or deduction for any current or future taxes, unless required by law. If such withholding is required, we will pay such additional amounts as are needed for the net amounts received by the holders of the senior notes to equal the amount that they would have received if the taxes had not been withheld. We may redeem all of the senior notes at a redemption price equal to the aggregate principal amount of the senior notes outstanding plus accrued and unpaid interest, special interest, if any, and the additional amounts due, if any, to the redemption date, if we are required to pay such amounts as a result of certain changes in law.

Covenants

The Indenture contains covenants that limit our ability and the ability of our restricted subsidiaries to:

declare or pay any dividend or make any payment or distribution on account of or purchase or redeem our capital stock or equity interests of our restricted subsidiaries;

make any principal payment on, or redeem or repurchase, prior to any scheduled repayment, sinking fund payment or maturity, any subordinated indebtedness;

make certain investments, including capital expenditures;

Table of Contents

incur additional indebtedness and issue certain types of capital stock;

create or incur any lien (except for permitted liens) that secures obligations under any indebtedness or related guarantee;

merge with or into or sell all or substantially all of our assets to other companies;

enter into certain types of transactions with affiliates;

guarantee the payment of any indebtedness;

enter into sale-leaseback transactions;

enter into agreements that would restrict the ability of the restricted subsidiaries to make distributions with respect to their equity, to make loans to us or other restricted subsidiaries or to transfer assets to us or other restricted subsidiaries; and

designate unrestricted subsidiaries.

Certain of these covenant restrictions will be suspended during any time period that the senior notes are rated investment grade. The current rating of our senior notes is B2 by Moody's and B+ by Standard and Poors, both of which are below investment grade.

Events of Default

The Indenture includes certain events of default, including payment defaults, covenant defaults, cross-defaults to certain indebtedness, certain events of bankruptcy with respect to us, the Issuers and the restricted subsidiaries that are defined in the Indenture as significant subsidiaries, failure to pay certain judgments, and invalidation or unenforceability of the guarantees of the senior notes.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no public market for our common stock, and a significant public market for our common stock may not develop or be sustained after this offering. Future sales of significant amounts of our common stock, including shares of our outstanding common stock and shares of our common stock issued upon exercise of outstanding options and warrants, in the public market after this offering could adversely affect the prevailing market price of our common stock and could impair our future ability to raise capital through the sale of securities.

Sale of Restricted Shares and Lock-Up Agreements

Upon the closing of this offering, we will have outstanding _____ shares of common stock, based upon the common units of MagnaChip Semiconductor LLC outstanding as of September 30, 2010 after giving effect to the corporate conversion pursuant to which each common unit will be automatically converted into shares of our common stock at a ratio of eight-for-one.

Of these shares, _____ the shares of common stock sold in this offering, or _____ shares if the underwriters exercise their option to purchase additional shares in full, will be freely tradable without restriction under the Securities Act, unless purchased by affiliates of our company, as that term is defined in Rule 144 under the Securities Act.

The _____ remaining shares of common stock are subject to a registration rights agreement or restricted unit agreements that restricts their sale for 180 days after the date of this prospectus unless Goldman, Sachs & Co. and Barclays Capital Inc., the representatives of the underwriters, agree to a lesser period. These lock-up agreements do not restrict the ability of the stockholders party to the registration rights agreement to cause a resale registration statement to be filed in accordance with the demand registration rights described above under Description of Capital Stock Registration Rights.

Goldman, Sachs & Co. and Barclays Capital Inc., as representatives of the underwriters, may, at any time without notice, release all or any portion of the securities subject to the lock-up agreements. We have been advised by the representatives of the underwriters that, when determining whether or not to release shares from the lock-up agreements, the representatives of the underwriters will consider, among other factors, the stockholder's reasons for requesting the release, the number of shares for which the release is being requested and market conditions at the time. The representatives of the underwriters have advised us that they have no present intention to release any of the shares subject to the lock-up agreements prior to the expiration of the lock-up period.

Following expiration of the lock-up agreements or upon any earlier release of the shares, all of the shares subject to such agreements will be eligible for resale in compliance with Rule 144 or Rule 701 of the Securities Act.

Rule 144

In general, Rule 144 allows a stockholder (or stockholders where shares of common stock are aggregated) who has beneficially owned shares of our common stock for at least six months to sell an unlimited number of shares of our common stock provided current public information about us is available and, after one year, an unlimited number of shares of our common stock without restriction. Our affiliates who have beneficially owned shares of our common stock for at least six months are entitled to sell within any three-month period commencing 90 days after the date of this prospectus a number of those shares that does not exceed the greater of:

one percent of the number of shares of common stock then outstanding, which will equal approximately _____ shares immediately after this offering; or

Table of Contents

the average weekly trading volume of the common stock on all national securities exchanges and/or reported through the automated quotation system of a registered securities association during the four calendar weeks preceding the sale.

Sales under Rule 144 by our affiliates are subject to specific manner of sales provisions, notice requirements and the availability of current information about us. We cannot estimate the number of shares of common stock our existing stockholders will sell under Rule 144, as this will depend on the market price for our common stock, the personal circumstances of the stockholders and other factors.

Options

In addition to the _____ shares of common stock outstanding immediately after this offering, based upon the common units of MagnaChip Semiconductor LLC outstanding as of September 30, 2010 after giving effect to the corporate conversion pursuant to which each common unit will be automatically converted into shares of our common stock at a ratio of eight-for-one, there were outstanding options to purchase 1,971,875 shares of our common stock. As soon as practicable after the closing of this offering, we intend to file a registration statement on Form S-8 under the Securities Act covering shares of our common stock reserved for issuance upon exercise of stock options outstanding as of September 30, 2010 at a weighted average exercise price of \$6.32 per share and _____ shares of our common stock reserved for issuance pursuant to future grants under our 2010 Equity Incentive Plan and 2010 Employee Stock Purchase Plan. Accordingly, shares of our common stock registered under such registration statement will be available for sale in the open market upon exercise by the holders, subject to vesting restrictions with us, contractual lock-up restrictions, our securities trading policy and/or market stand-off provisions applicable to each other agreement that prohibits the sale or other disposition of the shares of common stock underlying the options for a period of 180 days after the date of this prospectus without the prior written consent from us or Goldman, Sachs & Co. and Barclays Capital Inc.

Warrants

In addition to the _____ shares of common stock outstanding immediately after this offering after giving effect to the corporate conversion, as of September 30, 2010, there were outstanding warrants to purchase 1,875,016 shares of our common stock. The warrants were issued under Section 1145 of the U.S. Bankruptcy Code in connection with our reorganization proceedings and such warrants were deemed to have been issued, and shares of common stock issued upon exercise of such warrants will be deemed to be issued, in a public offering and may be resold as freely tradeable securities under Section 4(1) of the Securities Act, except for such warrants and shares of common stock issued upon exercise of such warrants held by our affiliates or holders deemed to be _____ underwriters, as that term is defined in Section 1145(b) of the U.S. Bankruptcy Code, who may be subject to applicable resale limitations under Rule 144. The warrants and shares of common stock issued upon exercise of such warrants are subject to a warrant agreement that restricts their sale for 180 days after the date of this prospectus unless we and the managing underwriters, agree to a lesser period.

Registration Rights

Upon the closing of this offering, certain holders of our shares of common stock will have the right to register their remaining shares of common stock pursuant to a registration rights agreement. In addition, some holders will have certain piggyback registration rights, pursuant to that agreement. See Description of Capital Stock.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of the material U.S. federal income tax consequences of the ownership and disposition of shares of our common stock to a U.S. holder or non-U.S. holder (each, as defined below) who purchases our common stock in this offering. For purposes of this discussion, a U.S. holder is any beneficial owner (other than an entity treated as a partnership for U.S. federal income tax purposes) of our common stock that for U.S. federal income tax purposes is:

an individual citizen or resident of the United States;

a corporation or other entity taxable as a corporation created or organized in the United States or under the laws of the United States or any state thereof or the District of Columbia;

an estate whose income is subject to U.S. federal income tax regardless of its source; or

a trust (x) whose administration is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (y) which has made a valid election to be treated as a U.S. person.

A non-U.S. holder is any beneficial owner of our common stock that is not a U.S. holder and is not an entity treated as a partnership for U.S. federal income tax purposes.

If a partnership or other pass-through entity holds our common stock, the tax treatment of a partner or member in the partnership or other entity will generally depend on the status of the partner or member and upon the activities of the partnership or other entity. Accordingly, we urge partnerships or other pass-through entities which hold shares of our common stock and partners or members in these partnerships or other entities to consult their tax advisors.

This discussion assumes that shares of our common stock issued pursuant to the offering will be held as a capital asset (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be relevant in light of a holder's special tax status or special tax situations. U.S. expatriates, life insurance companies, tax-exempt organizations, dealers in securities or currency, banks or other financial institutions, pension funds and investors that hold our shares of common stock as part of a hedge, straddle or conversion transaction are among those categories of potential investors that are subject to special rules not covered in this discussion. This discussion does not address any non-income tax consequences or any income tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction. Furthermore, the following discussion is based on current provisions of the Internal Revenue Code, Treasury Regulations and administrative and judicial interpretations thereof, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect. Additionally, we have not sought any ruling from the Internal Revenue Service or IRS, with respect to statements made and conclusions reached in this discussion, and there can be no assurance that the IRS will agree with these statements and conclusions. We urge each prospective purchaser to consult a tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax consequences of acquiring, holding and disposing of shares of our common stock.

The U.S. federal income tax consequences of cancellation of the depositary shares, and issuance of a credit for the number of shares of common stock equal to the number of cancelled depositary shares, under circumstances comparable to ours are not specifically addressed in the Internal Revenue Code, Treasury Regulations or administrative or judicial interpretations thereof. The IRS, however, has ruled for various purposes of the Internal Revenue Code that a holder of an American Depositary Receipt representing shares of a foreign corporation is treated as if such holder held the underlying shares of stock directly, based in part on the fact that such holder had full voting rights with respect to the corporation stock represented by the receipts, was entitled to dividends paid, and was entitled to surrender the receipts and have the stock delivered to the holder. Based on this analogous authority, it is reasonable to conclude that depositary shares sold in this offering should represent

Table of Contents

beneficial ownership in the underlying shares of our common stock for U.S. federal income tax purposes because, among other things, the holders of the depositary shares will have the right to receive dividends, if declared and paid, with respect to the underlying shares, the right to vote with respect to the underlying shares, and the right to receive the underlying shares upon demand or upon cancellation of the depositary shares. On the date that the depositary shares are cancelled and each holder is credited with a number of shares of common stock equal to the number of depositary shares held by such holder, the holder should retain ownership in the shares of common stock for U.S. federal income tax purposes without recognition of gain or loss and with such holder's holding period of the underlying common stock including the period during which the depositary shares are outstanding. Because the Company will not be obtaining a ruling from the IRS regarding the treatment of the depositary share cancellation, there can be no assurance that the IRS will not adopt a contrary position. Although unlikely, if the IRS were to conclude that a holder of our depositary shares did not own the underlying shares, the cancellation of the depositary shares might be a taxable transaction to the holder, causing the holder to recognize gain or loss in an amount equal to the fair market value of the underlying common stock at the time of cancellation of the depositary shares and the holder's tax basis in the depositary shares.

All references in this discussion to our common stock include references to the depositary shares representing ownership rights in the underlying common stock.

U.S. Holders

Distributions

If we make distributions on our common stock, those payments will generally constitute dividends for U.S. tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. With respect to certain non-corporate U.S. holders, including individual U.S. holders, for taxable years beginning before January 1, 2011, dividends will be taxed at the lower capital gains rate applicable to qualified dividend income, provided that certain holding period requirements are met. To the extent those distributions exceed our current and accumulated earnings and profits, the distributions will first constitute a return of capital and will reduce a U.S. holder's basis, but not below zero, and then will be treated as gain from the sale of shares and may be subject to U.S. federal income tax as described below. Dividends received by a corporation may be eligible for a dividends received deduction, subject to applicable limitations.

Disposition of Shares of Common Stock

A U.S. holder generally will recognize gain or loss upon the taxable sale or other disposition of shares of our common stock in an amount equal to the difference between the amount realized upon such sale or disposition and the U.S. holder's tax basis in the shares of our common stock. Such gain or loss generally will be capital gain or loss. Capital gain will be long-term capital gain if the U.S. holder's holding period for such shares is more than one year at the time of disposition. Long-term capital gains are generally subject to a reduced rate of taxation for non-corporate U.S. holders. A deduction with respect to a capital loss may be subject to limitation.

Non-U.S. Holders

Distributions

If we make distributions on our common stock, those payments will constitute dividends for U.S. tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, the distributions will first constitute a return of capital and will reduce a holder's basis, but not below zero, and then will be treated as gain from the sale of shares and may be subject to U.S. federal income tax as described below.

Table of Contents

Any distribution that is a dividend, as defined above, paid to a non-U.S. holder generally will be subject to U.S. withholding tax either at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable tax treaty. In order to receive a reduced treaty rate, a non-U.S. holder must timely provide us with an IRS Form W-8BEN or other appropriate version of IRS Form W-8 properly certifying qualification for the reduced rate.

Dividends received by a non-U.S. holder that are effectively connected with a U.S. trade or business conducted by the non-U.S. holder (and dividends attributable to a non-U.S. holder's permanent establishment in the United States if a tax treaty applies) are exempt from this withholding tax. In order to obtain this exemption, a non-U.S. holder must timely provide us with an IRS Form W-8ECI properly certifying this exemption. Dividends that are so effectively connected (and, if required by an applicable tax treaty, attributable to a permanent establishment), although not subject to withholding tax, are taxed at the same graduated rates applicable to U.S. persons, net of specified deductions and credits. In addition, such dividends received by a corporate non-U.S. holder may also be subject to a branch profits tax at a rate of 30% (or such lower rate as may be specified in a tax treaty).

A non-U.S. holder of common stock that is eligible for a reduced rate of withholding tax pursuant to a tax treaty may obtain a refund of any excess amounts withheld if an appropriate claim for refund is filed with the IRS.

Gain on Disposition of Shares of Common Stock

A non-U.S. holder generally will not be subject to United States federal income tax on gain realized upon the sale or other disposition of shares of our common stock unless:

the gain is effectively connected with a U.S. trade or business of the non-U.S. holder (and attributable to a permanent establishment in the United States if a tax treaty applies);

the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the taxable year in which the sale or disposition occurs and certain other conditions are met; or

our common stock constitutes a U.S. real property interest by reason of our status as a United States real property holding corporation for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding the date of disposition or the holder's holding period for shares of our common stock. We believe that we will not be, immediately after our conversion to a corporation, and we believe that we will not become, a United States real property holding corporation for U.S. federal income tax purposes. If we become a United States real property holding corporation, so long as our common stock is regularly traded on an established securities market, only a non-U.S. holder who, actually or constructively, holds or held (at any time during the shorter of the five year period preceding the date of disposition or the holder's holding period) more than 5% of shares of our common stock will be subject to U.S. federal income tax on the disposition of shares of our common stock.

If the recipient is a non-U.S. holder described in the first bullet above, the recipient will be required to pay tax on the net gain derived from the sale under regular graduated U.S. federal income tax rates, and corporate non-U.S. holders described in the first bullet above may be subject to the branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. Non-U.S. holders should consult their tax advisors regarding any applicable income tax treaties that may provide for different rules.

If the recipient is an individual non-U.S. holder described in the second bullet above, the recipient will be required to pay a flat 30% tax on the gain derived from the sale, which gain may be offset by U.S. source capital losses provided that the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

Table of Contents

Backup Withholding and Information Reporting

Payments of dividends or of proceeds on the disposition of shares made to a U.S. holder may be subject to information reporting and backup withholding at the then effective rate unless the U.S. holder provides a correct taxpayer identification number (which, in the case of an individual, is his or her social security number) and certifies whether such U.S. holder is subject to backup withholding of U.S. federal income tax by completing Form W-9 or otherwise establishing a basis for exemption from backup withholding. U.S. holders who fail to provide their correct taxpayer identification numbers and the appropriate certifications or fail to establish an exemption as described above will be subject to backup withholding and may be subject to a penalty imposed by the IRS.

Payments of dividends or of proceeds on the disposition of shares made to a non-U.S. holder may be subject to information reporting and backup withholding at the then effective rate unless the non-U.S. holder establishes an exemption, for example, by properly certifying its non-U.S. status on a Form W-8BEN or another appropriate version of Form W-8. Notwithstanding the foregoing, information reporting and backup withholding may apply if either we or our paying agent has actual knowledge, or reason to know, that the holder is a U.S. person.

Even if a non-U.S. holder establishes an exemption from information reporting, we may still be required to report annually to the IRS the amount of dividends paid, the name and address of the recipient, and the amount, if any, of tax withheld. A similar report is sent to the holder. Pursuant to tax treaties or other agreements, the IRS may make its reports available to tax authorities in the recipient's country of residence.

Backup withholding is not an additional tax. Rather, the U.S. income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund or credit may be obtained, so long as the required information is furnished to the IRS in a timely manner.

New Legislation Relating to Foreign Accounts

Newly enacted legislation may impose withholding taxes on certain types of payments made to foreign financial institutions and certain other non-U.S. entities. Under this legislation, the failure to comply with additional certification, information reporting and other specified requirements could result in withholding tax being imposed on payments of dividends and sales proceeds to U.S. holders who own the shares through foreign accounts or foreign intermediaries and certain non-U.S. holders. The legislation imposes a 30% withholding tax on dividends on, or gross proceeds from the sale or other disposition of, our common stock paid to a foreign financial institution or to a foreign non-financial entity, unless (i) the foreign financial institution undertakes certain diligence and reporting obligations or (ii) the foreign non-financial entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. In addition, if the payee is a foreign financial institution, it must enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. The legislation applies to payments made after December 31, 2012. Prospective investors should consult their tax advisors regarding this legislation.

Surtax on Certain Net Investment Income.

Under recent legislation, certain U.S. holders who are individuals, estates or trusts will be required to pay an additional 3.8% tax on, among other things, dividends and capital gains from the sale or other disposition of stock for taxable years beginning after December 31, 2012.

Table of Contents**UNDERWRITING**

We, the selling stockholders and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Goldman, Sachs & Co. and Barclays Capital Inc. are the representatives of the underwriters.

Underwriters	Number of Shares
Goldman, Sachs & Co.	
Barclays Capital Inc.	
Deutsche Bank Securities Inc.	
Citigroup Global Markets Inc.	
UBS Securities LLC	

Total
The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised. If the underwriters sell more shares than the total number set forth in the table above, the underwriters have an option to buy up to an additional _____ shares from us and _____ shares from the selling stockholders. They may exercise that option in whole or in part and from time to time for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discount to be paid to the underwriters by us and the selling stockholders. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase _____ additional shares.

	No Exercise	Full Exercise
Paid by Us		
Per share	\$	\$
Total	\$	\$

	No Exercise	Full Exercise
Paid by the Selling Stockholders		
Per share	\$	\$
Total	\$	\$

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the initial public offering price. If all the shares are not sold at the initial public offering price, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We and our executive officers, directors, selling stockholders and certain other stockholders have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of the representatives; provided, that this agreement does not restrict the ability of the stockholders party to the registration rights agreement to cause a resale registration statement to be filed in accordance with the demand registration rights described above under Description of Capital Stock Registration Rights. See Shares Eligible for Future Sale for a discussion of certain transfer restrictions.

Table of Contents

The 180-day restricted period described in the preceding paragraph will be automatically extended if: (1) during the last 17 days of the 180-day restricted period we issue an earnings release or announce material news or a material event; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 15-day period following the last day of the 180-day period, in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Prior to the offering, there has been no public market for the shares. The initial public offering price has been negotiated among us and the representatives. Among the factors to be considered in determining the initial public offering price of the shares, in addition to prevailing market conditions, will be our historical performance, estimates of our business potential and earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

Our depositary shares and common stock have been approved for listing on the NYSE under the symbol **MX** with the listing being only for the depositary shares upon the completion of this offering and only for the common stock following cancellation of the depositary shares.

In connection with the offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from us and the selling stockholders in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option granted to them. Naked short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the closing of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of our common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive, or a Relevant Member State, each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State, or the Relevant Implementation Date, it has not made and will not make an

Table of Contents

offer of shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

(a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

(b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43 million and (3) an annual net turnover of more than 50 million, as shown in its last annual or consolidated accounts;

(c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or

(d) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of shares to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, or the FSMA) received by it in connection with the issue or sale of the shares in circumstances in which Section 21(1) of the FSMA does not apply to the issuer; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or

Table of Contents

distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore, or the SFA, (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan, or the Financial Instruments and Exchange Law, and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

A prospectus in electronic format will be available on the websites maintained by one or more of the underwriters participating in this offering. The representatives may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters that make internet distributions on the same basis as other allocations.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

We estimate that our share of the total expenses of the offering, excluding underwriting discount but including the expenses of the selling stockholders, will be approximately \$6.4 million.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, and to contribute to payments that the underwriters may be required to make for any such liabilities.

If you purchase shares of common stock offered in this prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus.

Certain of the underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and

Table of Contents

expenses. Goldman, Sachs & Co., Barclays Capital Inc., Deutsche Bank Securities Inc., Citigroup Global Markets Inc. and UBS Securities LLC are managing underwriters in this offering. An affiliate of Goldman, Sachs & Co. is the counterparty to our currency hedging transactions. An affiliate of UBS Securities LLC holds 4.1% and Deutsche Bank Securities Inc. holds 1.7% of our outstanding common stock as of September 30, 2010 and are participating as selling stockholders in the offering as described under Principal and Selling Stockholders. Neither UBS Securities LLC, together with its affiliates and associated persons, or Deutsche Bank Securities Inc., together with its affiliates and associated persons, will receive 5% or more of the net proceeds from this offering, not including underwriting compensation. Goldman, Sachs & Co., Barclays Capital Inc., Deutsche Bank Securities, Inc., Citigroup Global Markets Inc. and UBS Securities LLC acted as initial purchasers in our private placement of \$250 million in aggregate principal amount of senior notes, which closed on April 9, 2010 and for which they received discounts and commissions. The principal amount of senior notes purchased by each of the managing underwriters in this offering were as follows: (i) Goldman, Sachs & Co., \$125 million; (ii) Barclays Capital Inc., \$45.0 million; (iii) Deutsche Bank Securities Inc., \$16.0 million; (iv) Citigroup Global Markets Inc., \$11.5 million and (v) UBS Securities LLC, \$11.5 million. In connection with the sale of the senior notes, we entered into an exchange and registration rights agreement with the managing underwriters and the other initial purchasers thereto pursuant to which we have certain registration obligations, including the obligation to file a registration statement with the SEC to register notes for which the senior notes sold in the offering may be exchanged. As a portion of the proceeds from the sale of the senior notes were used to repay all outstanding borrowings under our new term loan, Goldman Sachs Lending Partners LLC, an affiliate of Goldman, Sachs & Co., and Citicorp North America, Inc., an affiliate of Citigroup Global Markets Inc., as lenders under the new term loan, were repaid \$12.5 million and \$7.5 million, respectively, with proceeds from the sale of the senior notes.

Prior to the reorganization proceedings, affiliates of Citigroup Global Markets Inc. directly or indirectly held in excess of 10% of our outstanding common units and preferred units, and were considered our affiliates. In the reorganization proceedings, all equity interests in our company, including interests in common units and preferred units, were assigned to Class 8 of our plan of reorganization. Members of Class 8, including the affiliates of Citigroup Global Markets Inc. that directly or indirectly held common or preferred units in our company, received no distributions or recoveries on account of their equity interests and these equity interests were cancelled and extinguished as of the effective date of our plan of reorganization.

In the ordinary course of their various business activities, certain of the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

LEGAL MATTERS

The validity of our depositary shares and the common stock represented by the depositary shares offered hereby will be passed upon for us by Jones Day, Palo Alto, California. Certain matters will be passed upon for the underwriters by Latham & Watkins LLP, New York, New York.

EXPERTS

Our consolidated financial statements as of and for the two-month period ended December 31, 2009, and consolidated financial statements as of December 31, 2008 and for the ten-month period ended October 25, 2009 and for each of the two years in the period ended December 31, 2008 included in this prospectus have been so included in reliance on the reports of Samil PricewaterhouseCoopers, an independent registered public accounting firm, given on the authority of said firm as experts in accounting and auditing. The address of Samil PricewaterhouseCoopers is LS Yongsan Tower, 191 Hangangro 2ga, Yongsan-gu, Seoul 140-702, Korea. Samil PricewaterhouseCoopers is a member of the Korean Institute of Certified Public Accountants.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act of 1933, covering our depositary shares and our common stock to be issued pursuant to this offering (Registration No. 333-165467). This prospectus, which is a part of the registration statement, does not contain all of the information included in the registration statement. Any statement made in this prospectus concerning the contents of any contract, agreement or other document is not necessarily complete. For further information regarding MagnaChip and the depositary shares to be issued in the offering, please refer to the registration statement, including its exhibits. If we have filed any contract, agreement or other document as an exhibit to the registration statement, you should read the exhibit for a more complete understanding of the documents or matters involved.

You may read and copy any reports or other information filed by us at the SEC's public reference room at 100 F Street N.E., Washington, DC 20549. Copies of this material can be obtained from the Public Reference Section of the SEC upon payment of fees prescribed by the SEC. You may call the SEC at 800-SEC-0350 for further information on the operation of the public reference room. Our filings will also be available to the public from commercial document retrieval services and at the SEC website at www.sec.gov. In addition, you may request a copy of any of these filings, at no cost, by writing or telephoning us at the following address or phone number: c/o MagnaChip Semiconductor, Inc., 20400 Stevens Creek Boulevard
