Hsinchu, Taiwan, March 16, 2011 - ChipMOS TECHNOLOGIES (Bermuda) LTD. (ChipMOS or the Company) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the fourth quarter and full year ended December 31, 2010. The fourth quarter sequential decline is in line with prior guidance and consistent with quarterly seasonal trends.

Net income under US GAAP includes non-cash loss for changes in the fair value of the embedded derivative liabilities of NT\$12.2 million or US\$0.4 million and amortization of discount on convertible notes of NT\$1.6 million or US\$0.1 million for the fourth quarter of 2010. Excluding the above special items regarding the convertible notes, non-GAAP adjusted net income for the fourth quarter of 2010 was NT\$1,360.6 million or US\$46.7 million, and NT\$52.93 or US\$1.82 per basic common share and US\$1.67 per diluted common share.

Excluding the above special items regarding the convertible notes, non-GAAP adjusted net income for the fiscal year ended December 31, 2010 was NT\$1,889.0 million or US\$64.8 million, and NT\$78.80 or US\$2.70 per basic common share and

Edgar Filing: CHIPMOS TECHNOLOGIES BERMUDA LTD - Form 6-K

US\$2.38 per diluted common share.

The unaudited consolidated financial results of ChipMOS for the fourth quarter and full year ended December 31, 2010 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, "We are pleased to report that we achieved the goals we set out for 2010, including implementing a disciplined business strategy based on high-revenue opportunities whilst simultaneously improving our financial position and generating positive cash assertively. We ended the year on a high note, with a year-over-year increase in net revenue of 41.6% and net income for the full-year 2010 of US\$2.28 per diluted common share as compared to a net loss of US\$8.12 per diluted common share in 2009. We have clearly re-established ChipMOS as one of the industry's most important outsourced semiconductor assembly and testing services companies. We are aggressively focused on building on our growth momentum and are highly optimistic for the Company's prospects in 2011."

S.K. Chen, Chief Financial Officer of ChipMOS, said, "I am pleased to add that we exited the year with a blended utilization rate of 68% in 4Q10 compared to 66% in the prior year corresponding period. For the full year 2010, our blended utilization rate was 74%, compared to 53% for the full year 2009. This reflects the considerable growth in our LCD driver segment, which was up 82% for the full year 2010 compared to 2009. Our balance of cash and cash equivalents improved to US\$245.1 million as of December 31, 2010, compared to US\$133.3 million as of December 31, 2009. This includes the receipt on October 13, 2010 from Citigroup Financial Products Inc. of US\$67.8 million from the successful settlement of our breach of contract damage claim with Spansion LLC. As a result, we were able to further reduce the Company's total debt by US\$61.2 million in the fourth quarter of 2010. While we had the balance sheet flexibility to reduce total debt by approximately US\$100 million in the quarter, an extension of our short-term loan repayment schedule pushed the timing out slightly. We remain fully committed to actively reducing our total debt and expect to reduce this level by at least US\$160 million in 2011, compared to our prior target of US\$110 million to US\$120 million. As of December 31, 2010, the Company's net debt to equity ratio was reduced to 66.8% from 191.3% at the end of 2009. By continuing to pay down our debt in 2011, we will benefit from reduced debt servicing costs, improved operating cash flows and margins, while also significantly improving the Company's financial strength."

First Quarter 2011 Outlook

Mr. Cheng continued, "The first quarter of the year is typically impacted by seasonal weakness. With the rebound in our business, however, and our focus on an increased number of higher margin opportunities, we currently expect that revenue for the first quarter of 2011 will increase by approximately 1% to 7%, as compared to the fourth quarter 2010. In addition, we currently expect gross margin on a consolidated basis for the first quarter of 2011 to be in the range of approximately 7% to 12%. These improvements are a reflection of the increased LCD driver business as well as our niche/mobile DRAM-focused strategy, which helped to maintain the growth rate of DRAM revenue at 74% in 2010. To meet customer demand, we recently announced a strategic investment into 12-inch gold bump manufacturing, which should help bring in more business from smartphone and tablet PC related applications. This positive move is expected to lead to additional LCD driver IC business, as well."

Use of Non-GAAP Financial Information

To supplement our consolidated income statement (unaudited) for the three months and the year ended Dec. 31, 2010 on a US GAAP basis, the Company uses a non-GAAP measure of net income (loss), which is US GAAP net income (loss) adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income (loss) and non-GAAP net income (loss) per share to evaluate the performance of our core businesses and to estimate future core performance. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.
