**Note 1 Business and Recent Accounting Pronouncements**

***Description of Business***

Cott Corporation, together with its consolidated subsidiaries ( Cott, the Company, our Company, Cott Corporation, we, us, or our ), is the largest retailer brand beverage company. Our product lines include carbonated soft drinks ( CSDs ), clear, still and sparkling flavored waters, energy-related drinks, juice, juice-based products, bottled water and ready-to drink teas.

***Basis of Presentation***

The accompanying interim unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and in accordance with U.S. generally accepted accounting principles ( GAAP ) for interim financial reporting. Accordingly, they do not include all information and notes presented in the annual consolidated financial statements in conformity with U.S. GAAP. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of our results of operations for the interim periods reported and of our financial condition as of the date of the interim balance sheet have been included. This Quarterly Report on Form 10-Q should be read in conjunction with the annual audited consolidated financial statements and accompanying notes in our Annual Report on Form 10-K for the year ended January 1, 2011. The accounting policies used in these interim consolidated financial statements are consistent with those used in the annual consolidated financial statements.

The presentation of these interim consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes.

***Recent Accounting Pronouncements***

***ASU 2010-13 Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades***

In April 2010, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2010-13, Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades, to address the classification of an employee share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. This update provides amendments to Topic 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. We adopted the provisions of this standard during the first quarter of 2011. This standard does not have an impact on our consolidated financial statements.

**Table of Contents****Note 2 Acquisition**

On August 17, 2010, we completed the acquisition (the Cliffstar Acquisition) of substantially all of the assets and liabilities of Cliffstar Corporation (Cliffstar) and its affiliated companies for approximately \$500.0 million payable in cash, \$14.0 million in deferred consideration to be paid over three years and contingent consideration of up to \$55.0 million. The first \$15.0 million of the contingent consideration is based upon the achievement of milestones in certain expansion projects in 2010, which were achieved in 2010. The remainder of the contingent consideration is based on the achievement of certain performance measures during the fiscal year ending January 1, 2011. The contingent consideration was \$32.9 million as of April 2, 2011, and is payable no later than July 29, 2011.

We were notified on May 9, 2011 by the seller of Cliffstar Corporation of certain objections to the performance measures used to calculate the contingent consideration, and the seller asserted a claim for amounts in excess of the amounts accrued as contingent consideration at April 2, 2011. We believe the contingent consideration has been properly calculated in accordance with the asset purchase agreement and we have not adjusted our estimated fair value of the contingent consideration for the objections raised by the seller. We believe that our estimated fair value and assumptions are reasonable, but there is significant judgment involved. We will resolve these matters in accordance with the asset purchase agreement and final amounts paid may materially vary from our current estimated fair value. Changes in the fair value of contingent consideration will be recorded in our Statement of Operations

**Supplemental Pro Forma Data (unaudited)**

The following unaudited pro forma financial information for the three months ended April 3, 2010 represent the combined results of our operations as if the Cliffstar Acquisition had occurred on January 3, 2010. The unaudited pro forma results reflect certain adjustments related to the Cliffstar Acquisition such as increased amortization expense on acquired intangible assets resulting from the preliminary fair valuation of assets acquired. The unaudited pro forma financial information does not necessarily reflect the results of operations that would have occurred had we operated as a single entity during such period.

**Note 3 Share-Based Compensation**

The table below summarizes the share-based compensation expense for the three months ended April 2, 2011 and April 3, 2010. This share-based compensation expense was recorded in selling, general, and administrative expenses in our Consolidated Statements of Operations. As used below, PSUs mean performance share units granted under our Amended and Restated Performance Share Unit Plan. As used below: (i) Performance-based RSUs mean restricted share units with performance-based vesting granted under the Company's 2010 Equity Incentive Plan (the 2010 Equity Incentive Plan); and (ii) Time-based RSUs mean restricted share units with time-based vesting granted under the 2010 Equity Incentive Plan.

**Average Canadian to U.S. Dollar Exchange Rate for the Three Months Ended April 2, 2011**

Various compensation components in Note 3 are disclosed in Canadian dollars. The table below represents the average Canadian dollar to U.S. dollar exchange rate for the three months ended April 2, 2011:

|                       | <b>For the Three Months Ended<br/>April 2, 2011</b> |
|-----------------------|---|
| Average exchange rate | \$ 1.014  |

**Note 4 Income Taxes**

Income tax expense was \$1.6 million on pretax income of \$9.3 million for the three months ended April 2, 2011, as compared to an income tax expense of \$4.4 million on pretax income of \$17.1 million for the three months ended April 3, 2010. The estimated effective tax rate applied to income from operations for the three months ended April 2, 2011 differs from the statutory rate due mostly to foreign tax rate differentials and tax exempt income.

**Table of Contents****Note 5 Net Income Per Common Share**

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is calculated using the weighted average number of common shares outstanding adjusted to include the effect, if dilutive, of the exercise of in-the-money stock options, PSUs, Performance-based RSUs and Time-based RSUs.

A reconciliation of the denominators of the basic and diluted net income per common share computations is as follows:

| <i>(in thousands)</i>                                   | For the Three Months Ended |               |
|---|----------------------------|---------------|
|   | April 2, 2011              | April 3, 2010 |
| Weighted average number of shares outstanding - basic   | 94,076                     | 80,374        |
| Dilutive effect of stock options                        | 196                        | 278           |
| Dilutive effect of PSUs                                 |                            | 188           |
| Dilutive effect of Performance-based RSUs               | 430                        |               |
| Dilutive effect of Time-based RSUs                      | 626                        |               |
| Weighted average number of shares outstanding - diluted | 95,328                     | 80,840        |

We excluded 354,000 (April 3, 2010 452,150) options from the computation of diluted net income per share because the options exercise price was greater than the average market price of the common shares. Shares purchased on the open market and held by independent trusts are categorized as treasury shares under applicable accounting rules. We excluded 674,397 (April 3, 2010 957,104) of treasury shares held in various trusts in the calculation of basic and diluted earnings per share.

For the three months ended April 2, 2011, sales to Wal-Mart accounted for 33.0% (April 3, 2010 32.9%) of our total revenues, 36.7% of our North America operating segment revenues (April 3, 2010 36.7%), 15.4% of our U.K. operating segment revenues (April 3, 2010 16.8%), and 52.0% of our Mexico operating segment revenues (April 3, 2010 45.6%).

Credit risk arises from the potential default of a customer in meeting its financial obligations to us. Concentrations of credit exposure may arise with a group of customers that have similar economic characteristics or that are located in the same geographic region. The ability of such customers to meet obligations would be similarly affected by changing economic, political or other conditions. We are not currently aware of any facts that would create a material credit risk.

Revenues are attributed to countries based on the location of the plant. Revenues by reporting unit were as follows:

Amortization expense of intangible and other assets for the three months ended April 2, 2011 and April 3, 2010 was \$8.9 million and \$5.3 million, respectively.

The estimated amortization expense for intangibles over the next five years is:

| <i>(in millions of U.S. dollars)</i> |          |
|--------------------------------------|----------|
| Remainder of 2011                    | \$ 23.8  |

|                                      | \$ 289.3 |

Goodwill is not subject to amortization and the change in goodwill reflects fluctuations in foreign currency exchange rates.

**Debt***Asset Based Lending Facility*

On March 31, 2008, we entered into a credit agreement with JPMorgan Chase Bank N.A. as Agent that created an asset-based lending credit facility (the ABL facility) to provide financing for our North America, United Kingdom and Mexico operating segments. In connection with the Cliffstar Acquisition, we refinanced the ABL facility on August 17, 2010 to, among other things, provide for the Cliffstar Acquisition, the issuance of \$375.0 million of 8.125% senior notes that are due on September 1, 2018 (the 2018 Notes) and the application of net proceeds therefrom, the underwritten public offering of 13,340,000 common shares at a price of \$5.67 per share and the application of net proceeds therefrom and to increase the amount available for borrowings to \$275.0 million. We drew down a portion of the indebtedness under the ABL facility in order to fund the Cliffstar Acquisition. We incurred \$5.4 million of financing fees in connection with the refinancing of the ABL facility. The financing fees are being amortized using the straight-line method over a four-year period.

As of April 2, 2011, we had \$35.2 million in borrowings under the ABL facility outstanding. The commitment fee was 0.5% per annum of the unused commitment, which was \$227.6 million as of April 2, 2011.

*8.125% Senior Notes due in 2018*

On August 17, 2010, we issued the 2018 Notes. The issuer of the 2018 Notes is Cott Beverages Inc., but we and most of our U.S., Canadian and United Kingdom subsidiaries guarantee the 2018 Notes. The interest on the 2018 Notes is payable semi-annually on March 1<sup>st</sup> and September 1<sup>st</sup> of each year.

## Edgar Filing: COTT CORP /CN/ - Form 10-Q

We incurred \$8.6 million of financing fees in connection with the 2018 Notes. The financing fees are being amortized using the straight-line method over an eight-year period, which represents the duration of the 2018 Notes. The amortization expense calculated under the straight-line method does not differ materially from the effective-interest method.

### *8.375% Senior Notes due in 2017*

On November 13, 2009, we issued \$215.0 million of senior notes that are due on November 15, 2017 (the 2017 Notes ). The 2017 Notes were issued at a \$3.1 million discount. The issuer of the 2017 Notes is Cott Beverages Inc., but we and most of our U.S., Canadian and United Kingdom subsidiaries guarantee the 2017 Notes. The interest on the 2017 Notes is payable semi-annually on May 15<sup>th</sup> and November 15<sup>th</sup> of each year.

---

## **Table of Contents**

We incurred \$5.1 million of financing fees in connection with the 2017 Notes. The financing fees are being amortized using the straight-line method over an eight-year period, which represents the duration of the 2017 Notes. The amortization expense calculated under the straight-line method does not differ materially from the effective-interest method.

### *8% Senior Subordinated Notes due in 2011*

We repurchased the remaining outstanding 8% senior subordinated notes due December 15, 2011 (the 2011 Notes ) for \$11.1 million on February 1, 2010, and recorded a loss on buyback of \$0.1 million. The 2011 Notes acquired by us have been retired, and we have discontinued the payment of interest.

## **Note 10 Commitments and Contingencies**

We are subject to various claims and legal proceedings with respect to matters such as governmental regulations, and other actions arising out of the normal course of business. Management believes that the resolution of these matters will not have a material adverse effect on our financial position, results of operations, or cash flow.

We had \$9.1 million in standby letters of credit outstanding as of April 2, 2011 (April 3, 2010 \$7.5 million).

## **Note 11 Shares Held in Trust Treated as Treasury Shares**

In May 2008, an independent trustee acting under certain of our benefit plans purchased 2.3 million of our common shares to be used to satisfy future liabilities under the Amended and Restated Performance Share Unit Plan (the PSU Plan ) and the Restated Executive Incentive Share Purchase Plan (the Restated EISPP ). During the three months ended April 2, 2011, we distributed 0.2 million shares from the trust to satisfy certain PSU obligations that had vested. During the three months ended April 2, 2011, we distributed 0.2 million shares from the trust to satisfy certain Restated EISPP obligations that had vested. As of April 2, 2011, 0.4 million and 0.3 million shares were held in trust, and accounted for as treasury shares under applicable accounting rules. Treasury shares are reported at cost.

Subsequent to the adoption of the 2010 Equity Incentive Plan on May 4, 2010, the Human Resources and Compensation Committee of the Board of Directors (the HRCC ) determined that certain of Cott 's long-term incentive plans were no longer needed and terminated the PSU Plan and the Restated EISPP effective February 23, 2011. No further awards will be granted under such plans, as future awards will be made under the Company 's 2010 Equity Incentive Plan.

## **Note 12 Hedging Transactions and Derivative Financial Instruments**

The Company is directly and indirectly affected by changes in foreign currency market conditions. These changes in market conditions may adversely impact the Company 's financial performance and are referred to as market risks. The Company, when deemed appropriate by management, uses derivatives as a risk management tool to mitigate the potential impact of foreign currency market risks. The Company 's foreign currency market risks are managed by the Company through the use of derivative instruments.

The Company purchases forward contract derivative instruments. Forward contracts are agreements to buy or sell a quantity of a currency at a predetermined future date, and at a predetermined rate or price. We do not enter into derivative financial instruments for trading purposes.

All derivatives are carried at fair value in the Consolidated Balance Sheets in the line item accounts payable and accrued liabilities. The carrying values of the derivatives reflect the impact of legally enforceable agreements with the same counterparties. These allow the Company to net settle positive and negative positions (assets and liabilities) arising from different transactions with the same counterparty.

The accounting for gains and losses that result from changes in the fair values of derivative instruments depends on whether the derivatives have been designated and qualify as hedging instruments and the type of hedging relationships. The changes in fair values of derivatives that have been designated and qualify as cash flow hedges are recorded in accumulated other comprehensive income (loss) ( AOCI ) and are reclassified into the line item in the Consolidated Statements of Operations in which the hedged items are recorded in the same period the hedged items affect earnings. Due to the high degree of effectiveness between the hedging instruments and the underlying exposures being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the fair values or cash flows of the underlying exposures being hedged.

**Table of Contents**

The Company formally designates and documents, at inception, the financial instrument as a hedge of a specific underlying exposure, the risk management objective and the strategy for undertaking the hedge transaction. In addition, the Company formally assesses both at the inception and at least quarterly thereafter, whether the financial instruments used in hedging transactions are effective at offsetting changes in either the fair values or cash flows of the related underlying exposures. Any ineffective portion of a financial instrument's change in fair value is immediately recognized into earnings.

The Company estimates the fair values of its derivatives based on quoted market prices or pricing models using current market rates (refer to Note 13). The notional amounts of the derivative financial instruments do not necessarily represent amounts exchanged by the parties and, therefore, are not a direct measure of our exposure to the financial risks described above. The amounts exchanged are calculated by reference to the notional amounts and by other terms of the derivatives, such as interest rates, foreign currency exchange rates or other financial indices. The Company does not view the fair values of its derivatives in isolation, but rather in relation to the fair values or cash flows of the underlying hedged transactions. All of our derivatives are straightforward over-the-counter instruments with liquid markets.

**Credit Risk Associated with Derivatives**

We have established strict counterparty credit guidelines and enter into transactions only with financial institutions of investment grade or better. We mitigate pre-settlement risk by being permitted to net settle for transactions with the same counterparty.

**Cash Flow Hedging Strategy**

The Company uses cash flow hedges to minimize the variability in cash flows of assets or liabilities or forecasted transactions caused by fluctuations in foreign currency exchange rates. The changes in the fair values of derivatives designated as cash flow hedges are recorded in AOCI and are reclassified into the line item in the Consolidated Statements of Operations in which the hedged items are recorded in the same period the hedged items affect earnings. The changes in fair values of hedges that are determined to be ineffective are immediately reclassified from AOCI into earnings. The Company did not discontinue any cash flow hedging relationships during the three months ended April 2, 2011. The maximum length of time over which the Company hedges its exposure to future cash flows is typically one year.

The Company maintains a foreign currency cash flow hedging program to reduce the risk that our procurement activities will be adversely affected by changes in foreign currency exchange rates. We enter into forward contracts to hedge certain portions of forecasted cash flows denominated in foreign currencies. When the U.S. dollar strengthens significantly against foreign currencies, the decline in the present value of future foreign currency cash flows is partially offset by gains in the fair value of the derivative instruments. Conversely, when the U.S. dollar weakens as compared to other currencies, the increase in the present value of future foreign currency cash flows is partially offset by losses in the fair value of the derivative instruments. The total notional value of derivatives that have been designated and qualify for the Company's foreign currency cash flow hedging program as of April 2, 2011 was approximately \$16.0 million.

The following table summarizes the Company's derivative instruments as of April 2, 2011:

| <i>(in millions of U.S. dollars)</i><br>Derivatives designated as cash flow hedging instruments | Liability Derivatives                    |            |
|---|--|------------|
|   | Balance Sheet location                   | Fair Value |
| Foreign exchange contracts  | Accounts payable and accrued liabilities | \$ 1.0     |

The settlement of our derivative instruments resulted in a charge to cost of sales of less than \$0.2 million for the three months ended April 2, 2011.

**Table of Contents****Note 13 Fair Value Measurements**

ASC No. 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Additionally, the inputs used to measure fair value are prioritized based on a three-level hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of inputs used to measure fair value are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

We have certain assets and liabilities that are required to be recorded at fair value on a recurring basis in accordance with U.S. GAAP.

The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of April 2, 2011:

| <i>(in millions of U.S. dollars)</i> | April 2, 2011 |         |         |                    | Fair Value Measurements |

**Fair Value of Financial Instruments**

The carrying amounts reflected in the Consolidated Balance Sheets for cash, receivables, payables, short-term borrowings and long-term debt approximate their respective fair values, except as otherwise indicated. The carrying values and estimated fair values of our significant outstanding debt as of April 2, 2011 were as follows:

**Fair value of contingent consideration**

The fair value of the contingent consideration, which is payable no later than July 29, 2011, was based on significant inputs not observed in the market and thus represented a Level 3 instrument. Level 3 instruments are valued based on unobservable inputs that are supported by little or no market activity and reflect our own assumptions in measuring fair value.

We were notified on May 9, 2011 by the seller of Cliffstar Corporation of certain objections to the performance measures used to calculate the contingent consideration, and the seller asserted a claim for amounts in excess of the amounts accrued as contingent consideration at April 2, 2011. We believe the contingent consideration has been properly calculated in accordance with the asset purchase agreement and we have not adjusted our estimated fair value of the contingent consideration for the objections raised by the seller. We believe that our estimated fair value and assumptions are reasonable, but there is significant judgment involved. We will resolve these matters in accordance with the asset purchase agreement and final amounts paid may materially vary from our current estimated fair value. Changes in the fair value of contingent consideration will be recorded in our Statement of Operations

**Note 14 Guarantor Subsidiaries**

The 2017 Notes and 2018 Notes issued by our wholly owned subsidiary, Cott Beverages, Inc., are unconditionally guaranteed on a senior basis pursuant to guarantees by Cott Corporation and certain other wholly owned subsidiaries (the Guarantor Subsidiaries ). Such guarantees are full, unconditional and joint and several.

We have not presented separate financial statements and separate disclosures have not been provided concerning subsidiary guarantors because management has determined such information is not material to the holders of the above-mentioned notes.

The following supplemental financial information sets forth on an unconsolidated basis, our Balance Sheets, Statements of Operations and Cash Flows for Cott Corporation, Cott Beverages Inc., Guarantor Subsidiaries and our other subsidiaries (the Non-guarantor Subsidiaries ). The supplemental financial information reflects our investments and those of Cott Beverages Inc. in their respective subsidiaries using the equity method of accounting.

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This discussion is intended to further the reader's understanding of the consolidated financial condition and results of operations of our Company. It should be read in conjunction with the financial statements included in this quarterly report on Form 10-Q and our annual report on Form 10-K for the year ended January 1, 2011 (the 2010 Annual Report). These historical financial statements may not be indicative of our future performance. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risks referred to under Risk Factors in Item 1A: Risk Factors in our 2010 Annual Report.

#### **Overview**

We are the world's largest retailer brand beverage company. Our objective of creating sustainable long-term growth in revenue and profitability is predicated on working closely with our retailer partners to provide proven profitable products. As a fast follower of innovative products, our goal is to identify which new products are succeeding in the marketplace and develop similar private label products to provide our retail partners and their consumers with high quality products at a better value. This objective is increasingly relevant in more difficult economic times.

The beverage market is subject to some seasonal variations. Our beverage sales are generally higher during the warmer months and also can be influenced by the timing of holidays, and weather fluctuations. This seasonality also causes our working capital needs to fluctuate with inventory being higher in the first half of the year to meet the peak summer demand and accounts receivable declining in the fall as customers pay their higher-than-average outstanding balances from the summer deliveries.

Retailer brand suppliers, such as us, typically operate at low margins and therefore relatively small changes in cost structures can materially impact results.

Ingredient and packaging costs represent a significant portion of our cost of sales. These costs are subject to global and regional commodity price trends. Our three largest commodities are aluminum, polyethylene terephthalate ( PET ) resin, and corn. We attempt to manage our exposure to fluctuations in ingredient and packaging costs of our products by implementing price increases as needed and entering into fixed price commitments for a portion of our ingredient and packaging requirements. In 2010, we entered into fixed price commitments for a majority of our forecasted aluminum requirements for 2010, as well as more than half of our requirements for 2011.

On August 17, 2010, we completed the acquisition (the Cliffstar Acquisition) of substantially all of the assets and liabilities of Cliffstar Corporation ( Cliffstar ) and its affiliated companies for approximately \$500.0 million payable in cash, \$14.0 million in deferred consideration to be paid over three years and contingent consideration of up to \$55.0 million. The first \$15.0 million of the contingent consideration is based upon the achievement of milestones in certain expansion projects in 2010, which were achieved in 2010. The remainder of the contingent consideration is based on the achievement of certain performance measures during the fiscal year ending January 1, 2011. The contingent consideration was \$32.9 million as of April 2, 2011, and is payable no later than July 29, 2011.

We were notified on May 9, 2011 by the seller of Cliffstar Corporation of certain objections to the performance measures used to calculate the contingent consideration, and the seller asserted a claim for amounts in excess of the amounts accrued as contingent consideration at April 2, 2011. We believe the contingent consideration has been properly calculated in accordance with the asset purchase agreement and we have not adjusted our estimated fair value of the contingent consideration for the objections raised by the seller. We believe that our estimated fair value and assumptions are reasonable, but there is significant judgment involved. We will resolve these matters in accordance with the asset purchase agreement and final amounts paid may materially vary from our current estimated fair value. Changes in the fair value of contingent consideration will be recorded in our Statement of Operations

During the first quarter of 2011, our revenues increased 47.2%, or 45.8% excluding the impact of foreign exchange. This increase was due primarily to the Cliffstar Acquisition. Excluding the impact of the Cliffstar Acquisition, and the impact of foreign exchange, revenue was flat.

In the U.S., we have been supplying Wal-Mart with private label carbonated soft drinks ( CSDs ) under an exclusive supply agreement dated December 21, 1998, between our wholly-owned subsidiary Cott Beverages Inc. and Wal-Mart Stores, Inc. (the Exclusive U.S. Supply Contract). We also supply Wal-Mart and its affiliated companies with a variety of products on a non-exclusive basis in the U.S., Canada, United Kingdom and Mexico, including CSDs, clear, still and sparkling flavored waters, juice, juice-based products, bottled water, energy drinks and ready-to-drink teas. On January 27, 2009, we received written notice from Wal-Mart stating that Wal-Mart was exercising its right to terminate, without cause, the Exclusive U.S. Supply Contract. The termination is effective on January 28, 2012. This has the effect of returning our relationship to more typical market terms over time, and allows Wal-Mart to introduce other suppliers in the future, if it so desires. The termination provision of the Exclusive U.S. Supply Contract provides for our exclusive right to supply CSDs to Wal-Mart in the U.S. to be phased out over a period of three years following notice of termination (the Notice Period). Accordingly, we had the exclusive right to supply at

## Edgar Filing: COTT CORP /CN/ - Form 10-Q

least two-thirds of Wal-Mart's total CSD volumes in the U.S. during the first 12 months of the Notice Period, and we had the exclusive right to supply at least one-third of Wal-Mart's total CSD volumes in the U.S. during the second 12 months of the Notice Period. During the final 12 months of the Notice Period, there is no minimum supply requirement. Notwithstanding the notice of termination of the Exclusive U.S. Supply Contract, we continue to supply Wal-Mart with all of its private label CSDs in the U.S. However, should Wal-Mart choose to introduce an additional supplier to fulfill a portion of its requirements for its private label CSDs, our operating results could be materially adversely affected. Sales to Wal-Mart for the three months ended April 2, 2011 and April 3, 2010 accounted for 33.0% and 32.9% of total revenue.

**Summary financial results**

Our net income for the three months ended April 2, 2011 (the first quarter ) was \$6.8 million or \$0.07 per diluted share, compared with \$11.5 million or \$0.14 per diluted share for the three months ended April 3, 2010.

**The following items of significance impacted our financial results for the first quarter of 2011:**

the Cliffstar Acquisition contributed \$166.3 million to revenue and, \$11.6 million to operating income;

gross profit declined to 13.0% for the first quarter compared to 15.8% for the comparable prior year period primarily due to higher commodity and freight costs;

our revenue increased 47.2% from the comparable prior year period. Absent foreign exchange impact, revenue increased 45.8% in the first quarter, due to the Cliffstar Acquisition. Excluding the impact of the Cliffstar Acquisition and the impact of foreign exchange, revenue was flat;

our filled beverage 8-ounce equivalents ( beverage case volume ) increased 22.5% primarily due to the Cliffstar Acquisition which contributed a 30.1% increase in the North America operating segment;

our selling, general and administrative ( SG&A ) expenses increased to \$45.1 million from \$32.4 million in the comparable prior year period, primarily due to the Cliffstar Acquisition, information technology costs, certain employee related costs and professional fees;

our interest expense increased to \$14.4 million from \$6.2 million in the comparable prior year period primarily due to the issuance of \$375.0 million of senior notes that are due on September 1, 2018 (the 2018 Notes );

the decrease in other expense of \$1.0 million was primarily due to the write-off of financing fees of \$1.4 million in the comparable prior year period; and

our income tax expense decreased \$2.8 million in the first quarter from the comparable prior year period, primarily due to lower pretax income.

**The following items of significance impacted our financial results for the first quarter of 2010:**

increased competition in North America led to beverage case volume declines in that segment of 7.9% from the comparable prior year period;

new customer gains and improved product mix in the U.K. led to a beverage case volume improvement in that segment of 12.3% from the comparable prior year period;

decreased gross profit margins to 15.8% as compared to 15.9% from the comparable prior year period;

an increase in the foreign exchange rate for the Canadian dollar, pound sterling and Mexican peso as compared to the U.S. dollar that resulted in a \$12.5 million favorable impact on revenues and a \$1.2 million favorable impact on gross profit;

continued SG&A savings; and

tax expense of \$4.4 million in the current year as compared to a prior tax benefit of \$6.2 million.

**Non-GAAP Measures**

In this report, we supplement our reporting of revenue determined in accordance with GAAP by excluding the impact of foreign exchange to separate the impact of currency exchange rate changes from Cott's results of operations and, in some cases, by excluding the impact of Cliffstar. Additionally, Cott supplements its reporting of selling, general and administrative expenses, cost of sales, gross profit, and operating income in accordance with GAAP by excluding the impact of the Cliffstar Acquisition. Cott excludes these items to better understand trends in the business and the impact of the Cliffstar Acquisition. Because Cott uses these adjusted financial results in the management of its business and to understand business performance independent of the Cliffstar Acquisition, management believes this supplemental information is useful to investors for their independent evaluation and understanding of Cott's core business performance and the performance of its management. The non-GAAP financial measures described above are in addition to, and not meant to be considered superior to, or a substitute for, Cott's financial statements prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this report reflect management's judgment of particular items, and may be different from, and therefore may not be comparable to, similarly titled measures reported by other companies.
