Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

As previously reported, on October 4, 2010, we entered into a COFACE Facility Agreement with a syndicate of bank lenders (the Facility), which provides for borrowings up to \$1.8 billion to fund (i) 85% of the costs of the construction of the satellites for our next-generation satellite constellation, Iridium NEXT, (ii) premiums for the COFACE insurance of 95% of the principal and interest under the Facility, and (iii) a substantial portion of the interest under the Facility during the construction and launch phase of Iridium NEXT. The Facility is comprised of two tranches:

Tranche A \$1,537,500,000 at a fixed rate of 4.96%; and

Tranche B \$262,500,000 at a floating rate equal to the London Interbank Offer Rate (LIBOR) plus 1.95%.

As previously disclosed, we also pay a commitment fee of 0.80% per year, in semi-annual installments, on the undrawn portion of the Facility. Scheduled semi-annual principal repayments will begin six months after the earlier of (i) the launch of a specified number of satellites or (ii) September 30, 2017, and the Facility will mature seven years after the first repayment date. Our obligations under the Facility are secured on a senior basis by a lien on substantially all of our assets. The Facility contains standard representations, conditions precedent to drawing of funds, events of default, acceleration provisions and covenants, including financial performance covenants.

In a series of borrowings under the Facility from May 11 through July 21, 2011, we borrowed an aggregate of approximately \$112.1 million, bringing our total outstanding borrowings under the Facility to approximately \$307.3 million as of the date of this filing.
