REASONS FOR SOLICITATION

For more than a decade, Pure Bioscience, Inc. (Pure or the Company) has owned rights to an innovative, nontoxic antimicrobial molecule (silver dihydrogen citrate, or SDC). We believe there is viable market opportunity for SDC in several industries internationally, including water treatment and industrial applications in the energy sector. In spite of these opportunities, Pure s leadership has:

amassed substantial operating losses in 14 of the past 15 fiscal years since going public in August 1996;

failed to develop an effective go-to-market strategy for SDC;

paid total compensation to executive management and board members exceeding Pure s revenues for the fiscal year ended July 31, 2011, CEO Michael Krall s cash compensation alone exceeded the Company s revenue;

delivered to stockholders a steep decline in share price and significant and accelerating dilution.

Since acquiring the rights to the SDC technology over 11 years ago, Pure has reported only approximately \$6 million in *total* SDC sales revenue. Meanwhile, Pure s own investor materials have estimated that the addressable market size for worldwide SDC industrial applications alone is in the billions of dollars. Unfortunately for stockholders, operating losses have substantially exceeded relatively flat revenues during this period and are escalating:¹

In light of these facts, we find the Company s performance unacceptable. It is clear that bringing SDC from the laboratory into the real world will require a proactive and capable board and management team. After more than 11 years, stockholders have good reason to ask themselves: How long is too long?

The Coalition to Save Pure believes that this poor sales performance is a result of the Company s lack of an effective sales and marketing strategy. In this regard, we believe that it was a mistake for the Company to purportedly terminate sales and marketing agreements it had entered into with an affiliate of one of our nominees, John Rochon, and Richmond Corporation, a participant in our solicitation. We believe these arrangements facilitated a broader marketing platform for SDC. For information about Pure s relationships with affiliates of Richmond and related litigation, see Additional Background and Nominee Information.

¹ Source: February 17, 2011 *LHA Life Sciences & Med Tech Day Investor Presentation*, slide 25.

For years, Pure's management has issued press release after press release touting anticipated sales, deals or impending breakthroughs that have failed to materialize. But stockholders' hopes for SDC have gone unfulfilled. Operating losses during the past 15 years have totaled more than \$55 million, over half of which were borne in the past four fiscal years.

Despite a lack of meaningful revenue and a history of operating losses, Pure's management has rewarded itself and other insiders with compensation and equity awards that exceed even the standard of the companies it has claimed as peers in its SEC filings.

Based on Pure's SEC filings, in the six years ended July 31, 2011 those who exercised stock options reaped \$20.9 million in intrinsic value gains (the excess of the market price of the stock at the time of exercise over the option exercise price), including about \$3 million for CEO Michael Krall alone.

During the past four completed fiscal years, while Pure suffered nearly \$30 million in operating losses, CEO Michael Krall and other directors and executives were awarded approximately \$7.6 million in total compensation, and Pure optionholders realized approximately \$17 million in intrinsic value gains on option exercises related to past option awards.

The peer group that Pure has used to try to justify its executive compensation includes companies such as drug development firms that have substantially larger market capitalizations. As of June 22, 2012, Pure's market capitalization is approximately 11% of the average of its purported peer group. This size differential makes the cost of capital to pay the 50th percentile compensation level (Pure's stated target level) significantly more burdensome to Pure than to its purported peers. Furthermore, the intrinsic value of options exercised during the five most recent fiscal years by all Pure optionholders was more than five times the purported peer group average per company.

Compounding these excesses, Pure implemented a program in late 2004 to materially cut outstanding option exercise prices (without stockholder approval) for eight officers and directors from \$1.90 to \$3.20 down to \$0.53 (\$0.50 for two people) per share on 2.9 million options. This measure alone cost the Company up to \$4.5 million in lost option exercise proceeds, money that is sorely needed now.

Pure's generous equity compensation for management, diminished revenues and bloated operating expenses have combined to cause substantial stockholder dilution and a 57% decrease in share price during the 12-month period ended June 22, 2012, and much larger decreases from its highs in 2007 and 2010 of \$8.72 and \$3.74, respectively. Pure had approximately six million shares outstanding when it acquired the SDC technology in November 2000 and a market capitalization of approximately \$15.5 million. Today, with approximately the same market capitalization, Pure now has approximately 50 million shares outstanding eight times the November 2000 amount.

The Coalition to Save Pure brings stockholders an alternative to more of the same: A new board of directors who will bring much-needed change for the benefit of all stockholders.

Our nominees are accomplished individuals who represent a broad range of expertise, including finance, operations, sales, marketing, science and technology. They will bring to Pure's board decades of business experience across a spectrum of industries, including international business expertise.

If elected, our nominees plan to take the following initial steps:

Pursue water treatment and industrial applications for SDC such as biofilm utilized in oil and gas pipelines and energy infrastructure, and work directly with potential customers to test, prove, demonstrate and operationalize SDC within those applications. Our nominees believe that, while there are other viable market opportunities for SDC (such as agricultural, household and medical applications), water treatment and industrial applications are attractive due to the potential for use of higher volumes of SDC.

Identify and eliminate excess payroll, facility, vendor and other costs that do not support the Company's business activities and make immediate reductions in Pure's bloated overhead. We do not expect to sell any significant assets of the Company or the rights to any of its products as part of our cost reduction strategy.

Replace CEO Michael Krall with a new CEO who is well qualified to guide Pure and support sales. We have identified an individual within the Company who we believe would serve well as an interim CEO if this individual were agreeable to do so. Meanwhile, we would conduct a search for a permanent CEO with executive management, customer service and international sales experience. We currently do not expect the participants in this solicitation to be candidates for the CEO position.

Initiate a forensic audit of Pure's current contracts, business relationships and obligations and examine the role and compensation of every employee at the Company.

Initiate a program to provide needed technical implementation help to customers, particularly for potential industrial and water treatment applications. We believe that Pure has failed to adequately respond to potential customers' requests for this type of assistance in foreign countries, which has negatively impacted opportunities for these applications.

Take steps to shore up the Company's capital structure, focusing on existing stockholders. Any capital plan will be subject to market conditions and needs of the Company at the time, but the nominees favor raising equity capital with existing stockholders, such as a rights offering, as a means of strengthening the balance sheet while providing stockholders the opportunity to maintain their percentage ownership of the Company.

Revive Pure's international business prospects for SDC through re-establishing Pure's relationship and terminating litigation with Richmond Sciences, LLC and emphasizing to the global commercial markets that Pure is prepared to negotiate arrangements for the production of SDC internationally as part of a new global sales strategy.

The voting stock of Richmond Sciences is wholly owned by nominee John Rochon, and Richmond Sciences is an affiliate of Richmond Corporation, a participant in our solicitation of proxies. For information about Pure's relationships with affiliates of Richmond and related litigation, see Additional Background and Nominee Information.

We are aware that there are challenges facing the successful marketing of SDC, and there can be no assurance that our nominees, if elected, will be able to successfully carry out plans to maximize stockholder value that have been outlined in this proxy statement. Antimicrobial products are subject to intense competition and governmental regulation, and many of the companies that produce these products are substantially larger, and have greater financial resources, than Pure. Further, Pure's intellectual property rights in SDC are limited in duration and could be challenged. In spite of these challenges, we believe that with the right team, SDC has the potential to generate real value for Pure and its stockholders. We estimate that, if additional market penetration of \$6 million in incremental annual revenues from fiscal 2011 could be achieved together with a reduction of cash operating expenses to levels that actually prevailed in 2007, Pure could be cash flow positive. We further believe that, simply, Pure's incumbent board and CEO are the wrong team. They have had more than enough opportunity to prove themselves, but have saddled the Company with operating losses and inflicted substantially diminished share value upon stockholders.

We offer Pure's long-suffering stockholders a choice: to continue with the same board and management which have delivered unacceptable results for many years, or to bring in new leadership, fresh perspectives and a departure from the past.

We believe that new leadership at Pure can unlock SDC's potential for the benefit of the Company and its stockholders. We respectfully ask for your vote to provide that new leadership.

Sincerely,

THE COALITION TO SAVE PURE

At any time following the second anniversary of the Alliance Agreement, the Company had the right to terminate the agreement upon payment to Sciences of the fair market value of commissions due Sciences under the Alliance Agreement. Mr. Rochon is the sole voting stockholder and Chairman of Sciences and its wholly owned subsidiary IV-7 Direct, LLC (IV-7).

In February 2010, the Company and Sciences agreed to a joint venture whereby Sciences would launch a direct sales program with an independent sales force as an additional channel for sales of Company products to consumers, and the two companies would equally share the profits and expenses of the program. Sciences launched the direct selling program through IV-7 in May 2010.

In September 2010, Sciences entered into a Commercial Sales Dealer Agreement (Dealer Agreement) with High Scope General Trading, LLC (High Scope), an entity unaffiliated with the Company and Sciences, under which High Scope agreed to act as an exclusive sales and marketing dealer for Sciences in various Middle Eastern countries for an initial term of ten years, provided that High Scope met yearly minimum sales requirements (\$9 million in sales for 2011, increasing each year to approximately \$21 million in 2020). Shortly thereafter, the Company, Sciences and High Scope entered into an addendum that made the Company a party to the Dealer Agreement and incorporated specified terms and conditions relating to the Company's products. Sciences estimated that, if the 2011 minimum sales requirement under the Dealer Agreement were met with Company products, it would have earned approximately \$2.5 million in commissions and proceeds under the Dealer Agreement, Alliance Agreement and the direct sales program for the year.

In October 2010, a commercial dispute arose between the parties over a purchase order. In March 2011, the Company began to develop and market its own brand Pure Hard Surface which would be sold in competition with the IV-7 direct sales program and Alliance Agreement sales. Also in March 2011, the Company ceased providing its products under these agreements with Sciences, and the disagreement between the parties continued in the succeeding months. On April 25, 2011, the Company provided notice to Sciences of a purported breach of the Alliance Agreement. By letters dated June 27, 2011, the Company purported to terminate the Alliance Agreement, the agreement for the IV-7 direct sales program and its rights and obligations under the Dealer Agreement.

On June 29, 2011 the Company filed a complaint against Sciences in Superior Court of California, County of San Diego (East County Division) alleging that Sciences did not pay for specified products delivered under the agreements described above and seeking an accounting of the parties' financial dealings. The complaint seeks approximately \$360,000 in damages plus interest, fees and costs, as well as additional amounts the Company alleges would result from the accounting it seeks. We refer to this matter and the related lawsuits discussed below as the proceeding.

On June 30, 2011, Mr. William Rochon, the Vice Chairman and President of Richmond Corporation and the son of Mr. John Rochon, had a meeting with Mr. Krall, Chief Executive Officer of the Company, at Pure's office in El Cajon, California. Mr. William Rochon, who was not aware of the complaint filed by Pure the previous day, asked Mr. Krall if he saw any way to resolve the commercial dispute, and Mr. Krall responded that he did not. Mr. William Rochon indicated to Mr. Krall that if the Company continued to treat its commercial partners poorly, its directors may face a proxy contest. Mr. Krall stated that he had faced several proxy contests and would oppose any such contest. Mr. Krall then informed Mr. William Rochon of the complaint in the proceeding filed by the Company against Sciences the preceding day.

On July 11, 2011, Mr. John Rochon sent a letter on behalf of a stockholder he controlled of the stockholder's intention to nominate candidates for election as directors of Pure for terms expiring in 2013 and to solicit proxies from Pure's stockholders to elect such candidates at the next annual or special meeting of the Company. The letter asserted that any attempt to impede the voting rights of stockholders would be contested.

On August 1, 2011, Sciences filed an answer to the complaint initially filed by the Company in the proceeding denying the claims made and asserting multiple affirmative defenses.

On September 29, 2011, the Stockholder gave notice to Pure in accordance with its by-laws of the Stockholder's nomination of six individuals as its nominees to stand for election as directors of the Company for terms expiring in 2013. The Stockholder redelivered the notice on April 26, 2012. Between September 30, 2011 and October 13, 2011, representatives of Richmond Corporation, Sciences, Holdings and the Company exchanged several letters regarding disclosures under the Alliance Agreement, the inspection of Pure's books and records under Delaware law and director questionnaires.

On October 21, 2011, Sciences and Richmond Holdings, Inc. (Holdings), an affiliate wholly owned by Mr. Rochon, filed a cross-complaint against the Company in the proceeding, alleging breach of contract, tortious interference with contract, breach of fiduciary duty, violation of the California Uniform Trade Secrets Act and defamation. The cross-complaint seeks general and special damages, interest, fees and further relief as the court may deem just and proper. On November 15, 2011, the Company filed (and subsequently amended) a cross-complaint against Sciences and Holdings alleging fraud and breach of contract and seeking compensatory damages for an amount to be determined at trial and punitive damages, plus fees, costs and further relief as the court may deem just and proper.

On May 8, 2012, Mr. Krall called Mr. John Rochon seeking to begin settlement discussions to end the proxy contest and to resolve the proceeding. Between May 8, 2012 and June 15, 2012, representatives of Richmond Corporation, Sciences, Holdings and the Company participated in conversations on the subject of settlement of the proxy contest and the proceeding. As of the date hereof, no settlement on either issue has been reached.

By letter dated June 22, 2012, Richmond Corporation renewed its request for the inspection of Pure's books and records under Delaware law.

As of the date hereof, discovery in the proceeding has commenced and The San Diego County Superior Court has ordered that the parties participate in mediation to attempt to resolve the dispute, which must commence no later than August 30, 2012. If such mediation is not successful and the dispute continues to trial, the court has established November 26, 2012 as the date for the commencement of the trial.

The Coalition's nominees believe that the commercial arrangements with Sciences and its affiliates at issue in the proceeding facilitate a broader marketing platform for SDC and therefore would be beneficial to Pure. If elected, our nominees intend to reestablish, to the extent possible, commercial relationships with Sciences and its affiliates. In the event that a commercial arrangement satisfactory to both Pure (and our nominees in their capacity as directors), on the one hand, and Sciences and its affiliates (which are controlled by one of our nominees), on the other hand, is reestablished, our nominees intend to terminate on behalf of the Company the

litigation described above, and Sciences and its affiliates would also terminate the litigation on their own behalf. If elected, the Coalition's nominees will owe fiduciary duties to the Company and its stockholders when making decisions regarding actions the Company will take.

Additional Nominee Information

Dr. Reynolds has been a business partner of Mr. Rochon's and his affiliates for over 15 years. Recently, Holdings engaged Dr. Reynolds to provide strategic advisory services. Mr. Rochon and Dr. Reynolds expect that the total fees Dr. Reynolds will receive for providing these services will exceed \$120,000. In September 2011, Mr. Bash was appointed Vice President of Richmond Corporation. Mr. Bash is not paid a salary for being a Vice President of Richmond Corporation.

In June 2009, Nukote International, Inc. (NI), a privately owned Delaware corporation and certain of its subsidiaries and affiliates voluntarily filed for protection under Chapter 11 of the U.S. Bankruptcy Code. Mr. Rochon was Chief Executive Officer, president and a director of NI at the time of filing and he held an approximate 59% beneficial equity interest in NI and its subsidiaries and affiliates through various limited partnerships.

Other than as set forth herein, there are no arrangements or understandings between our nominees and any other member of the Coalition or any other person or persons pursuant to which the nomination described herein is to be made, other than the consent by each of our nominees to be named in this proxy statement and to serve as a director of the Company upon election at the Annual Meeting. Our nominees who own shares as of the Record Date have informed the Coalition that they expect to vote such shares for our nominees.

Except as set forth herein, there are no material proceedings to which any of our nominees or any of their associates is a party adverse to the Company or any of its subsidiaries or has a material interest adverse to the Company or any of its subsidiaries. Except as set forth herein, none of the events enumerated in Item 401(f)(1) (8) of the Exchange Act occurred during the past ten years with respect to our nominees.

Independence

We expect that, if elected, Messrs. Bash, Coburn, Jensen and Dr. Kassir would be determined by the Board to be independent directors under NASDAQ Stock Market listing standards. These standards include objective tests that can preclude a director from being considered as independent, as well as a subjective element under which the Board must determine that an independent director does not have a relationship with the Company that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. For purposes of the subjective element, the Board would take into account facts and circumstances it deems relevant, including relationships such as those described above under Additional Nominee Information. Accordingly, in making its assessment, the Board could make the subjective determination that a nominee is not independent under NASDAQ Stock Market listing standards as a result of such a relationship.

PROPOSAL 2 AMENDMENT TO

CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE STOCK SPLIT

As discussed in further detail in the Company's proxy statement in connection with the Annual Meeting, the Board has proposed an amendment to the Company's Certificate of Incorporation to consolidate the number of issued and outstanding shares of its common stock with a reverse stock split, the Reverse Stock Split, provided that the ratio for the Reverse Stock Split will not be (i) less than one new, post-Reverse Stock Split share of the Company's common stock, or a New Common Share, for each four shares of common stock outstanding before the Reverse Stock Split, nor (ii) more than one New Common Share for each ten shares of common stock outstanding before the Reverse Stock Split.

The Company has stated that the primary purpose of the Reverse Stock Split is to attempt to increase the per share trading value of its common stock in an effort to maintain the listing of the Company's common stock on the NASDAQ Capital Market.

Please refer to the Company's proxy statement for the Annual Meeting for a more detailed discussion of this proposal. We do not object to this proposal, and if you sign and return a WHITE proxy card and do not indicate how you want your shares voted on Proposal 2, your shares will be voted FOR the amendment to the Company's Certificate of Incorporation to effect a reverse stock split.

Our nominees reserve their right, if elected, to elect not to proceed with, and abandon, the Reverse Stock Split if they determine, in their sole discretion, that it is no longer in the best interests of the Company's stockholders.

PROPOSAL 3 RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board has selected Mayer Hoffman McCann P.C. as the Company's independent registered public accounting firm for the year ending July 31, 2012. The Company is submitting the selection of Mayer Hoffman McCann P.C. for ratification by the stockholders at the Annual Meeting.

Please refer to the Company's proxy statement for the Annual Meeting for a more detailed discussion of this proposal. We do not object to this proposal, and if you sign and return a WHITE proxy card and do not indicate how you want your shares voted on Proposal 3, your shares will be voted FOR ratification of the selection of Mayer Hoffman McCann P.C. as the Company's independent registered public accounting firm for the year ending July 31, 2012.

VOTING AND PROXY PROCEDURES

Only stockholders of record on the Record Date will be entitled to notice of and to vote at the Annual Meeting. Each stockholder may cast one vote for each share that such stockholder held on the Record Date. Stockholders who sold shares before the Record Date or acquire them without voting rights after the Record Date may not vote such shares. The Company has stated that it will make a list of stockholders entitled to vote at the Annual Meeting available for examination by any stockholder for any purposes germane to the Annual Meeting during normal business hours for ten days prior to the date of the Annual Meeting.

Shares represented by properly executed WHITE proxy cards will be voted at the Annual Meeting as marked and, in the absence of specific instructions, will be voted (i) FOR the election of our nominees to the Board, (ii) FOR the amendment to the Company's Certificate of Incorporation to effect a reverse stock split and (iii) FOR the ratification of the selection of Mayer Hoffman McCann P.C. as the Company's independent registered public accounting firm and in the discretion of the persons named as proxies on all other matters as may properly come before the Annual Meeting.

According to the Company's proxy statement for the Annual Meeting, the incumbent members of the Board of Directors of the Company intend to nominate the incumbent nominees for election as directors. This proxy statement is soliciting proxies to elect our nominees and none of the incumbent nominees.

Quorum

The by-laws of the Company provide that the holders of a majority of the outstanding shares of stock entitled to vote, present in person or by duly authorized proxy, constitute a quorum for the transaction of business. A share present at the meeting, but for which there is an abstention or as to which a stockholder gives no authority or direction as to a particular proposal or director nominee (including a broker non-vote), will be counted as present for the purpose of establishing a quorum. Please see "Broker Non-Votes" below.

Votes Required for Approval

Election of Directors. Pursuant to the by-laws of the Company and the Delaware General Corporation Law, if a quorum is present at the Annual Meeting, directors will be elected by a plurality of the votes of the shares present in person or represented by proxy and entitled to vote on the election of directors. This means that the six persons who receive the highest number of FOR votes will be elected to fill the available seats on the Board. A properly executed proxy marked withhold with respect to the election of any or all director nominees will be counted for purposes of determining whether there is a quorum, but will not be considered to have been voted for or against such director nominee(s). Therefore, a proxy marked withhold with respect to a specific director nominee will result in such director nominee receiving fewer FOR votes.

Approval of Amendment to Certificate of Incorporation to Effect Reverse Stock Split. The proposal to authorize the amendment of the Company's Certificate of Incorporation in order to effect a reverse stock split will be approved if the holders of a majority of the outstanding shares of the Company's common stock affirmatively vote to approve such proposal. Each outstanding share will be entitled to one vote. Abstentions will have the same effect as a vote against this proposal.

Ratification of Selection of Mayer Hoffman McCann P.C. The by-laws of the Company provide that the affirmative vote of a majority of the votes cast on a matter, at which a quorum is present either in person or by proxy, is required to ratify the appointment of Mayer Hoffman McCann P.C. Abstentions will be counted as present for the purpose of establishing a quorum but are not counted as a vote cast and, accordingly, will not effect the outcome of the vote.

Broker Non-Votes

Proxies submitted by brokers that do not indicate a vote because they do not have discretionary authority and have not received instructions as to how to vote on a proposal are so-called broker non-votes. Brokers holding shares must vote according to specific instructions they receive from the beneficial owners of those shares. If brokers do not receive specific instructions, brokers may in some cases vote the shares in their discretion. However, applicable exchange rules preclude brokers from exercising voting discretion on non-routine matters without specific instructions from the beneficial owner. The contested nature of the election of directors renders all matters at the Annual Meeting non-routine. Broker non-votes will have: (i) no impact on the election of directors; (ii) the same effect as a vote against the proposal to amend the Company's Certificate of Incorporation to effect a reverse stock split; and (iii) no impact on the ratification of the Company's independent registered public accounting firm.

Revocation of Proxies

Stockholders of the Company may revoke their proxies at any time prior to exercise by attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute revocation of a proxy) or by delivering a written notice of revocation. The delivery of a subsequently dated proxy that is properly completed will constitute a revocation of any earlier proxy. The revocation may be delivered either to the Coalition c/o MacKenzie Partners, Inc. at the address set forth on the back cover of this proxy statement or to the Company at 1725 Gillespie Way, El Cajon, California 92020 or any other address provided by the Company. Although a revocation is effective if delivered to the Company, we request that either the original or photostatic copies of all revocations be mailed to the Coalition c/o MacKenzie Partners, Inc. at the address set forth on the back cover of this proxy statement so that we will be aware of all revocations and can more accurately determine if and when proxies have been received from the holders of record on the Record Date of a majority of the outstanding shares. Additionally, MacKenzie Partners, Inc. may use this information to contact stockholders who have revoked their proxies in order to solicit later dated proxies for the election of our nominees.

IF YOU WISH TO VOTE FOR THE ELECTION OF OUR NOMINEES, PLEASE SIGN, DATE AND RETURN PROMPTLY THE ENCLOSED WHITE PROXY CARD IN THE POSTAGE-PAID ENVELOPE PROVIDED OR FOLLOW THE INSTRUCTIONS LOCATED ON THE WHITE PROXY CARD TO VOTE BY TELEPHONE OR INTERNET.

SOLICITATION OF PROXIES

The solicitation of proxies pursuant to this proxy statement is being made by the Coalition. Proxies may be solicited by mail, facsimile, telephone, Internet, e-mail, in person and by advertisements.

On behalf of the Coalition, Richmond Corporation has entered into an agreement with MacKenzie Partners, Inc. for solicitation and advisory services in connection with this solicitation, for which MacKenzie Partners, Inc. has received a retainer of \$25,000 and will receive a subsequent fee to be mutually agreed upon after the

completion of the engagement, together with reimbursement for its reasonable out-of-pocket expenses. Pursuant to their agreement, MacKenzie Partners, Inc. will also be indemnified against certain claims in connection with its retention. MacKenzie Partners, Inc. will solicit proxies from individuals, brokers, banks, bank nominees and other institutional holders. We have requested banks, brokerage houses and other custodians, nominees and fiduciaries to forward all solicitation materials to the beneficial owners of the shares they hold of record. We will reimburse these record holders for their reasonable out-of-pocket expenses in so doing. It is anticipated that MacKenzie Partners, Inc. will employ approximately 25 persons to solicit the Company's stockholders for the Annual Meeting.

The expense of preparing, assembling, printing and mailing this proxy statement and related materials and the cost of soliciting proxies for our nominees will be borne by Richmond Corporation. Costs of this solicitation of proxies are currently estimated to be approximately \$500,000. It is estimated that through the date hereof, the expenses in connection with this solicitation are approximately \$265,000. If successful, Richmond Corporation intends to seek reimbursement from the Company of all expenses it incurs in connection with the solicitation of proxies for the election of our nominees to the Board at the Annual Meeting. Richmond Corporation does not intend to submit the question of such reimbursement to a vote of stockholders of the Company.
