Pending any specific application, we may initially invest funds in short-term marketable securities or apply them to the reduction of other short-term indebtedness. We cannot estimate the amount of any such proceeds at this time.

PLAN OF DISTRIBUTION

Prior to the Spin-off and the Merger, options to purchase Tyco common shares ("Tyco Options") with respect to Tyco common shares had been granted to various Tyco employees and directors. The Tyco Compensation Committee authorized that various adjustments be made to the Tyco Options to prevent the dilution or enlargement of the benefits or potential benefits intended to be made available under the Tyco Options

following the Spin-off, as discussed below.

Table of Contents

Each Tyco Option that was granted prior to October 12, 2011, and that was held, as of the Distribution, by a Tyco director or by certain specified corporate-level employees of Tyco who did not become our employees following the Spin-off, or by former Tyco employees, was converted into an option to separately acquire our common shares, Tyco common shares, and shares of common stock of The ADT Corporation (ADT), subject to the adjustments described below under Description of Award Adjustments. The options to purchase our common shares became subject to the Plan, in accordance with the terms of the separation and distribution agreement that we entered into with Tyco in connection with the Spin-off, and were made in partial substitution of the awards that were previously granted under Tyco's equity compensation program. The registration statement of which this prospectus forms a part covers only such awards held by certain current and former employees and directors of Tyco (including its subsidiaries) who did not become our employees or directors, and any of such individuals donees, pledgees, permitted transferees, assignees, successors and others who come to hold any such awards. The registration statement does not cover any awards that were granted to any individual who, upon completion of the Spin-off, was employed by us or was serving on our board of directors, or any other awards that we may grant under the Plan in the future.

DESCRIPTION OF OPTION ADJUSTMENTS

In connection with the Spin-off, each Tyco Option that was granted prior to October 12, 2011, and that was held, as of the Distribution, by a Tyco director or by certain specified corporate-level employees of Tyco who did not become our employees following the Spin-off, or by former Tyco employees, was converted into an option to separately acquire our common shares, Tyco common shares, and ADT common stock, in the following manner:

the adjusted number of shares subject to each option to acquire:

Tyco shares was determined by multiplying the number of Tyco shares for which the Tyco Option was exercisable by a fraction, the numerator of which was the aggregate spread of the original Tyco Option, calculated by reference to the closing regular-way trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the Spin-off, and the denominator of which was the sum of (a) the ex-distribution closing trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the Spin-off minus the adjusted exercise price for Tyco options described below, (b) the product of (1) the when-issued closing trading price of our common shares on the NYSE on the last trading day immediately prior to the Spin-off minus the adjusted exercise price for options to purchase our common shares described below and (2) the distribution ratio for our common shares of approximately 0.239943 (which was determined on the date of the Spin-off), and (c) the product of (1) the when-issued closing trading price of ADT shares of common stock on the NYSE on the last trading day immediately prior to Spin-off minus the adjusted exercise price for ADT options described below and (2) the distribution ratio for shares of ADT of 0.5 (based on one share of ADT common stock for every two shares of Tyco common stock outstanding as of the record date), rounded down to the nearest whole share;

Our common shares was determined by multiplying the number of Tyco shares subject to the converted option by the distribution ratio for our common shares of approximately 0.239943 (which was determined on the date of the Spin-off); and

ADT shares was determined by multiplying the number of Tyco shares subject to the converted option by the distribution ratio for shares of ADT of 0.5 (based on one share of ADT common stock for every two shares of Tyco common stock outstanding as of the record date).

Table of Contents

each converted option's exercise price was determined as follows:

the exercise price of each option to purchase our common shares was equal to the exercise price of the applicable Tyco Option prior to the Spin-off multiplied by a fraction, the numerator of which was the when-issued closing trading price of our common shares on the NYSE on the last trading day immediately prior to the Spin-off and the denominator of which was the closing regular-way trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the Spin-off, rounded up to the nearest hundredth of a cent;

the exercise price of each ADT option was equal to the exercise price of the applicable Tyco Option prior to the Spin-off of ADT multiplied by a fraction, the numerator of which was the when-issued closing trading price of ADT common shares on the NYSE on the last trading day immediately prior to the ADT Spin-off and the denominator of which was the closing regular-way trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the ADT distribution, rounded up to the nearest hundredth of a cent; and

the exercise price of each Tyco option was equal to the exercise price of the Tyco option prior to the Spin-off multiplied by a fraction, the numerator of which is the ex-distribution closing trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the Spin-off and the denominator of which was the closing regular-way trading price of Tyco common shares on the NYSE on the last trading day immediately prior to the Spin-off, rounded up to the nearest hundredth of a cent.

The mechanics for conversion and adjustment of the equity awards summarized above are more fully described in Section 6.01 of the Amended and Restated Separation and Distribution Agreement, dated as of September 27, 2012, by and among Tyco, us and ADT, which is filed as Exhibit 2.3 to our Registration Statement on Form S-3 of which this prospectus is a part and which is incorporated in this prospectus by reference.

The Company's articles of association provide that it will indemnify and hold harmless, to the fullest extent permitted by Swiss law, the existing and former members of the board of directors and officers from and against all costs, charges, losses, damages and expenses actually incurred in connection with any threatened, pending or completed actions, suits or proceedings whether civil, criminal, administrative or investigative by reason of the fact that such individual was a director or officer; provided, however, that this indemnity shall not extend to any matter in which any of said persons is found, in a final judgment or decree of a court or governmental or administrative authority of competent jurisdiction not subject to appeal, to have committed an intentional or grossly negligent breach of his statutory duties as a member of the board of directors or officer.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

Table of Contents

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

Table of Contents

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
