Approximate date of commencement of proposed sale to the public: As soon as practicable after this Registration Statement becomes effective.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act of 1933, as amended, or the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. "

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. "

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer) "

Exchange Act Rule 14d-1(d) (Cross-Border Third-Party Tender Offer) "

Table of Contents

CALCULATION OF REGISTRATION FEE

Title of Each Class of	Amount to be	Proposed Aggregate	Amount of
Securities to be Registered	Registered	Offering	Registration
		Price Per Note(1)	Fee
5.750% Senior Secured Notes due 2020	\$3,250,000,000	\$3,250,000,000	\$443,300(2)
Guarantees of 5.750% Senior Secured Notes due 2020(3)	\$3,250,000,000		None(4)

(1) Estimated solely for the purpose of calculating the registration fee in accordance with Rule 457(f) promulgated under the Securities Act.

(2) Previously paid.

(3) See the following page for a table of guarantor registrants.

(4) Pursuant to Rule 457(n) promulgated under the Securities Act, no separate filing fee is required for the guarantors.

The Registrants hereby amend this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until this Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

Table of Contents

The information contained in this prospectus is not complete and may be changed. We may not complete this exchange offer or issue these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities nor a solicitation of an offer to buy these securities in any jurisdiction where such offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED DECEMBER 21, 2012

PROSPECTUS

Reynolds Group Issuer Inc.

Reynolds Group Issuer LLC

Reynolds Group Issuer (Luxembourg) S.A.

Offer to Exchange

\$3,250,000,000 Outstanding 5.750% Senior Secured Notes due 2020

(the old notes) and Related Guarantees for

\$3,250,000,000 Registered 5.750% Senior Secured Notes due 2020

(the new notes) and Related Guarantees

Reynolds Group Issuer Inc., or the US Issuer, Reynolds Group Issuer LLC, or the US Co-Issuer, and Reynolds Group Issuer (Luxembourg) S.A., or the Lux Issuer, which collectively we refer to as the Issuers, are offering to exchange the old notes, as defined in this prospectus, for a like principal amount of new notes, as defined in this prospectus.

The terms of the new notes are identical in all material respects to the terms of the old notes, except that, among other differences, the new notes are registered under the Securities Act of 1933, as amended, which we refer to as the Securities Act, and the transfer restrictions and registration rights relating to the old notes will not apply to the new notes. The old notes and the new notes are joint and several obligations of the Issuers. The new notes will be issued under the same indenture governing the old notes. See Description of the Senior Secured Notes General.

The exchange offer will expire at 5:00 p.m., New York City time, on _____, 2013, which date and time we refer to as the expiration date, unless the Issuers extend the expiration date, in which case expiration date means the latest date and time to which the exchange offer is extended. You should read the section called The Exchange Offer for further information on how to exchange your old notes for new notes.

The old notes are, and the new notes will be, guaranteed (subject to certain customary guarantee release provisions set forth in the indenture governing the notes), on a joint and several basis, by Reynolds Group Holdings Limited, or RGHL, Beverage Packaging Holdings (Luxembourg) I S.A., or BP I, and certain of BP I's subsidiaries that, subject to certain exceptions, are borrowers under or guarantee the Senior Secured Credit Facilities (as defined herein) of RGHL, BP I and certain subsidiaries of BP I, which collectively we refer to as the guarantors. Each guarantor is 100% owned by RGHL. The registration statement, of which this prospectus forms a part, registers the guarantees as well as the notes. The notes and the related guarantees are senior obligations of the Issuers and the guarantors and are secured on a first lien priority basis by existing and future assets of certain of the guarantors, including RGHL and certain of its subsidiaries, as described in this prospectus. In the event of enforcement of the liens securing the notes, the proceeds thereof will be applied (subject to repaying certain agent and transfer fees

Edgar Filing: BRPP LLC - Form F-4/A

and costs of enforcement) first to repay on a ratable basis the notes and other indebtedness secured on a first lien priority basis by those liens, including under BP I s and its subsidiaries senior secured credit facilities. The priority of all liens securing the notes and the related guarantees is subject to certain exceptions and prior permitted liens.

See Risk Factors beginning on page 44 for a discussion of risk factors that you should consider prior to tendering your old notes in the exchange offer.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for the old notes where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. The Issuers have agreed that, for a period of 180 days after the expiration date, they will make this prospectus available to any exchanging dealer or initial purchaser and for a period of 90 days after the expiration day to any broker-dealer for use in connection with any such resale. See Plan of Distribution.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2012

Table of Contents

NOTICE TO EEA INVESTORS

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) there shall be no offer of notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that, with effect from and including the Relevant Implementation Date, an offer of notes may be made to the public in that Relevant Member State at any time:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive subject to obtaining the prior consent of the representatives for any such offer; or

in any other circumstances which do not require the publication by the Issuers or any guarantor of a prospectus pursuant to Article 3(2) of the Prospectus Directive.

For the purposes of this provision, (a) the expression an offer of notes to the public in relation to any of the notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, (b) the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in each Relevant Member State and (c) the expression 2010 PD Amending Directive means Directive 2010/73/EU.

NOTICE TO CERTAIN NON-U.S. INVESTORS

Austria. The notes may be offered and sold in the Republic of Austria only in accordance with the provisions of Capital Markets Act (*Kapitalmarktgesetz*), the Banking Act (*Bankwesengesetz*), the Securities Supervision Act 2007 (*Wertpapieraufsichtsgesetz 2007*) of Austria and any other applicable Austrian law governing the offer and sale of the notes in the Republic of Austria. The notes have not been admitted for a public offer in Austria either under the provisions of the Capital Markets Act (*Kapitalmarktgesetz*), or the Investment Funds Act (*Investmentfondsgesetz*) or the Stock Exchange Act (*Börsegesetz*). Neither this document nor any other document in connection with the notes is a prospectus according to the Capital Markets Act (*Kapitalmarktgesetz*), the Stock Exchange Act (*Börsegesetz*) or the Investment Funds Act (*Investmentfondsgesetz*) and has therefore not been drawn up, audited, approved, pass-ported and/or published in accordance with the aforesaid acts. Consequently, the notes may not be, and are not being, offered, re-sold or otherwise transferred directly or indirectly by way of a public offering in the Republic of Austria. No steps may be taken that would constitute a public offer of the notes in Austria and the offer of the notes may not be advertised publicly in the Republic of Austria.

Brazil. The notes have not been, and will not be, registered with the Brazilian Securities Commission (*Comissão de Valores Mobiliários*), or the CVM. The notes may not be offered or sold in Brazil, except in circumstances that do not constitute a public offering or unauthorized distribution under Brazilian laws and regulations. The notes are not being offered into Brazil. Documents relating to the offering of the notes, as well as information contained therein, may not be supplied to the public in Brazil, nor be used in connection with any offer for subscription or sale of the notes to the public in Brazil.

Denmark. This prospectus does not constitute a prospectus under Danish law or regulations and has not been and will not be filed with or approved by the Danish Financial Supervisory Authority or any other regulatory

Table of Contents

authority in Denmark, and the notes have not been and are not intended to be listed on a Danish stock exchange or a Danish authorized market place. Furthermore, the notes have not been and will not be offered to the public in Denmark. Consequently, this prospectus may not be made available nor may the notes otherwise be marketed or offered for sale directly or indirectly in Denmark, except to qualified investors within the meaning of, or otherwise in compliance with an exemption set forth in, Executive Order No. 306 of April 28, 2005.

France. The notes have not been and will not be offered or sold, directly or indirectly, to the public in France (*offre au public de titres financiers*), and no offering or marketing materials relating to the notes must be made available or distributed in any way that would constitute, directly or indirectly, an offer to the public in France.

The notes may only be offered or sold in France to qualified investors (*investisseurs qualifiés*) and/or to a limited group of investors (*cercle restreint d'investisseurs*) as defined in and in accordance with articles L.411-1, L.411-2 and D.411-1 to D.411-3 of the French *Code monétaire et financier* and article 211-2 of the *Règlement Général* of the French financial market authority (*Autorité des Marchés Financiers*).

Prospective investors are informed that:

this prospectus has not been submitted for clearance to the *Autorité des Marchés Financiers*;

in compliance with article D.411-1 of the French *Code monétaire et financier*, any investors subscribing for the notes should be acting for their own account; and

the direct and indirect distribution or sale to the public of the notes acquired by them may only be made in compliance with articles L.411-1, L.411-2, L.412-1 and L.621-8 of the French *Code monétaire et financier*.

Germany. The notes may be offered and sold in the Federal Republic of Germany only in accordance with the provisions of the Securities Prospectus Act of the Federal Republic of Germany (*Wertpapierprospektgesetz, WpPG*) and any other applicable German law. This prospectus has not been and will not be filed with or approved by the German Financial Services Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin*) or any other regulatory authority in Germany, and the notes have not been and will not be admitted for public offering in Germany. Consequently, in Germany the notes will only be available to, and this prospectus and any other offering material in relation to the notes is directed only at, persons who are qualified investors (*qualifizierte Anleger*) within the meaning of Section 2 No. 6 of the Securities Prospectus Act. Any resale of the notes in Germany may only be made in accordance with the Securities Prospectus Act and other applicable German laws.

Hungary. The offering of the notes is not a public offering in Hungary. Therefore, no license has been or will be issued by the Hungarian Financial Supervisory Authority or any other authority for the public offering of the notes in Hungary. Any marketing, subsequent transfer or on-sale of the notes must be carried out in accordance with the private placement exemptions of the Capital Markets Act (Act CXX of 2001) and any other applicable Hungarian law.

Ireland. This document does not comprise a prospectus for the purposes of the Investment Funds, Companies and Miscellaneous Provisions Act 2005 of Ireland, the Prospectus (Directive 2003/71/EC) Regulations 2005 of Ireland or the Prospectus Rules issued by the Central Bank of Ireland in March 2006. No person may: (i) underwrite the issue of, or place, the notes, otherwise than in conformity with the provisions of the Irish Investment Intermediaries Act 1995 (as amended), including, without limitation, Sections 9 and 23 thereof and any codes of conduct rules made under Section 37 thereof, and the provisions of the Investor Compensation Act 1998; (ii) underwrite the issue of, or place, the notes, otherwise than in conformity with the provisions of the Irish Central Bank Acts 1942-2003 (as amended) and any codes of conduct rules made under Section 117(1) thereof; and (iii) underwrite the issue of, or place, or otherwise act in Ireland in respect of, the notes, otherwise than in conformity with the provisions of the Irish Market Abuse (Directive 2003/6/EC) Regulations 2005 and any rules issued by The Central Bank of Ireland pursuant thereto.

Table of Contents

Italy. The offering of the notes has not been cleared by the *Commissione Nazionale per la Società e la Borsa* (CONSOB) (the Italian Securities Exchange Commission), pursuant to Italian securities legislation and, accordingly, in the Republic of Italy the notes may not be offered, sold or delivered, nor may copies of the prospectus or of any other document relating to the notes be distributed in the Republic of Italy, except:

to professional investors (*operatori qualificati*), as defined in Article 31, second paragraph, of CONSOB Regulation No. 11522 of July 1, 1998 (Regulation 11522), as amended; or

in circumstances which are exempted from the rules on solicitation of investments pursuant to Article 100 of Legislative Decree No. 58 of February 24, 1998 (the Financial Services Act) and Article 33, first paragraph, of CONSOB Regulation No. 11971 of May 14, 1999, as amended; and

provided, however, that any such offer, sale or delivery of notes or distribution of copies of this prospectus or any other document relating to the notes in the Republic of Italy is:

made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with Legislative Decree No. 385 of September 1, 1993, the Financial Services Act, Regulation 11522 and any other applicable laws and regulations; and

in compliance with any and all other applicable laws and regulations.

Grand Duchy of Luxembourg. The notes may not be offered or sold within the territory of the Grand Duchy of Luxembourg unless:

a prospectus has been duly approved by the Commission de Surveillance du Secteur Financier in accordance with the Law of July 10, 2005 on prospectuses for securities as amended from time to time (the Prospectus Law) and implementing the Prospectus Directive, as amended by the Law of July 3, 2012 which has implemented in Luxembourg law the 2010 PD Amending Directive; or

if Luxembourg is not the home member State, the Commission de Surveillance du Secteur Financier has been notified by the competent authority in the home member state that the prospectus has been duly approved in accordance with the Prospectus Directive and the 2010 PD Amending Directive; or

the offer is made to qualified investors as described in points (1) to (4) of Section I of Annex II to Directive 2004/39/EC of the European Parliament and of the Council of April 21, 2004 on markets in financial instruments, and persons or entities who are, on request, treated as professional clients in accordance with Annex II to Directive 2004/39/EC, or recognized as eligible counterparties in accordance with Article 24 of Directive 2004/39/EC unless they have requested that they be treated as non-professional clients; or

the offer benefits from any other exemption to, or constitutes a transaction otherwise not subject to, the requirement to publish a prospectus.

Spain. The notes may not be offered or sold in Spain except in accordance with the requirements of the Spanish Securities Market Law (*Ley 24/1988, de 28 de julio, del Mercado de Valores*), as amended and restated, and Royal Decree 1310/2005 (*Real Decreto 1310/2005, de 4 de noviembre de 2005, en materia de admisión a negociación de valores en mercados secundarios oficiales, de ofertas públicas de venta o suscripción y del folleto exigible a tales efectos*), as amended and restated, and the decrees and regulations made thereunder. The notes may not be sold, offered or distributed to persons in Spain except in circumstances which do not constitute an offer of securities in Spain within the meaning of the Spanish Securities Market Law and further relevant legislation. This prospectus has not been registered with the Spanish Securities Market Commission (*Comisión Nacional del Mercado de Valores*) and therefore it is not intended for the offering or sale of the notes in Spain.

Edgar Filing: BRPP LLC - Form F-4/A

Switzerland. The notes may be offered in Switzerland on the basis of a private placement and not as a public offering. The notes will neither be listed on the SIX Swiss Exchange or any other stock exchange or regulated trading facility in Switzerland, nor are they subject to Swiss Law. This prospectus does not constitute a prospectus within the meaning of Art. 1156 of the Swiss Federal Code of Obligations, Art. 27, et seq. of the Listing Rules of the SIX Swiss Exchange or the listing rules of any other stock exchange or regulated trading

Table of Contents

facility in Switzerland, and does not comply with the Directive for notes of Foreign Borrowers of the Swiss Bankers Association. Neither this document nor any other offering or marketing material relating to the notes or this offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering of the notes, the Issuers or the notes have been or will be registered with the Swiss Financial Market Supervisory Authority (FINMA) or any other Swiss authority for any purpose whatsoever.

United Kingdom. The notes may not be offered or sold and will not be offered or sold to any persons in the United Kingdom other than persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses and in compliance with all applicable provisions of the Financial Services and Markets Act 2000 (FSMA) with respect to anything done in relation to the notes in, from or otherwise involving the United Kingdom.

In addition, no person may communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who do not have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act of 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to the Issuers or any guarantor. The offering of the notes has complied with and will comply with all applicable provisions of FSMA with respect to anything done in, from or otherwise involving the United Kingdom.

MARKET DATA

We operate in markets for which it is difficult to obtain precise and current industry and market information. All statements made in this prospectus regarding our position in the markets in which we operate, including market data, certain economics data and forecasts, were estimated or derived based upon assumptions we deem reasonable and from our own research, surveys or studies conducted by third parties, and other industry or general publications. There is no single third party source for any of our market shares or total market size. Industry publications and surveys generally state that they have obtained information from sources believed to be reliable. While we believe that each of these studies and publications is reliable, we have not independently verified data from third-party sources, nor have we ascertained the underlying economic assumptions relied upon therein. Similarly, we believe our internal research with respect to our markets is reliable, but it has not been verified by any independent sources. Historical data on the food and beverage packaging manufacturing market do not have a universally recognized authoritative source.

In addition, in many cases we have made statements in this prospectus regarding our markets and our position in such markets based on our experience and investigation of market conditions. None of our internal surveys or information has been verified by any independent sources.

TRADEMARKS

SUMMARY

This summary highlights selected information contained elsewhere in this prospectus. You should read this entire prospectus carefully, including Summary Presentation of Financial Information, Risk Factors, Special Note of Caution Regarding Forward-Looking Statements, and Operations and Financial Review and Prospects.

In this prospectus, unless otherwise indicated or the context otherwise requires (a) references to we, us or our are to RGHL and its consolidated subsidiaries, (b) references to Graham Packaging are to Graham Packaging Company Inc. and, unless the context otherwise requires, its consolidated subsidiaries and (c) references to the RGHL Group are to RGHL and its consolidated subsidiaries. We describe the six segments that comprise the RGHL Group following the consummation of the Graham Packaging Acquisition ((i) our aseptic carton packaging segment, or SIG, (ii) our fresh carton packaging, liquid packaging board, carton board and freesheet segment, or Evergreen, (iii) our caps and closures segment, or Closures, (iv) our consumer products segment, or Reynolds Consumer Products, (v) our foodservice packaging segment, or Pactiv Foodservice, and (vi) our custom blow molded plastic container segment, or Graham Packaging) as if they were the RGHL Group's segments for all historical periods described in this prospectus, unless otherwise indicated.

For a discussion of the terms used to describe our transactions (e.g. November 2012 Refinancing Transactions, September 2012 Refinancing Transactions, February 2012 Refinancing Transactions, Graham Packaging Change of Control Offer, Graham Packaging Acquisition, Dopac Acquisition, 2011 Refinancing Transactions, Pactiv Acquisition, Reynolds Foodservice Acquisition, Evergreen Acquisition, RGHL Acquisition, SIG Acquisition and Initial Evergreen Acquisition), refer to The Transactions.

For ease of reference, you may also refer to the Glossary of Selected Terms for many of the defined terms used in this prospectus. Certain other terms used herein have the meanings indicated within this prospectus.

Our Company

We are a leading global manufacturer and supplier of consumer, beverage and foodservice packaging products. We sell our products to customers globally, including to a diversified mix of leading multinational companies, large national and regional companies and small local businesses. We primarily serve the consumer food, beverage and foodservice market segments.

Our Segments

We operate through six segments: SIG, Evergreen, Closures, Reynolds Consumer Products, Pactiv Foodservice and Graham Packaging.

SIG Overview

SIG is a leading manufacturer of aseptic carton packaging systems for both beverage and liquid food products, ranging from juices and milk to soups and sauces. Aseptic carton packaging, most prevalent in Europe and Asia, is designed to allow beverages or liquid food to be stored for extended periods of time without refrigeration. SIG supplies complete aseptic carton packaging systems, which include aseptic filling machines, aseptic cartons, spouts, caps and closures and related services. SIG has a large global customer base with its largest presence in Europe.

Evergreen Overview

Evergreen is a vertically integrated, leading manufacturer of fresh carton packaging for beverage products, primarily serving the juice and milk end-markets. Fresh carton packaging, most predominant in North America, is designed for beverages that require a cold-chain distribution system, and therefore have a more limited shelf life

Table of Contents

than beverages in aseptic carton packaging. Evergreen supplies integrated fresh carton packaging systems, which can include fresh cartons, spouts and filling machines. Evergreen produces liquid packaging board for its internal requirements and to sell to other manufacturers. Evergreen also produces coated groundwood primarily for catalogs, inserts, magazine and commercial printing, as well as uncoated freesheet primarily for envelope, specialty and offset printing paper. Evergreen has a large customer base and operates primarily in North America.

Closures Overview

Closures is a leading manufacturer of plastic beverage caps and closures, primarily serving the carbonated soft drink, non-carbonated soft drink and bottled water segments of the global beverage market. Closures products also serve the liquid dairy, food, beer and liquor and automotive fluid markets. In addition to supplying plastic caps and closures, Closures also offers high speed rotary capping equipment, which secure caps on a variety of packaging, and related services. Closures has a large global customer base with its largest presence in North America.

Reynolds Consumer Products Overview

Reynolds Consumer Products is a leading manufacturer in the U.S. of branded and store branded consumer products such as aluminum foil, wraps, waste bags, food storage bags, and disposable tableware and cookware. These products are typically used by consumers in their homes and are sold through a variety of retailers, including grocery stores, mass-merchandisers, warehouse clubs, drug stores, discount chains and military channels. Reynolds Consumer Products has a large customer base and operates primarily in North America.

Pactiv Foodservice Overview

Pactiv Foodservice is a leading manufacturer of foodservice and food packaging products. Pactiv Foodservice offers a comprehensive range of products including tableware items, takeout service containers, clear rigid-display packaging, microwaveable containers, foam trays, dual-ovenable paperboard containers, cups, molded fiber egg cartons, meat and poultry trays, plastic film and aluminum containers. Pactiv Foodservice distributes its foodservice and food packaging products through foodservice distributors, food processors, supermarket distributors, supermarkets and restaurants. Pactiv Foodservice has a large customer base and operates primarily in North America.

Graham Packaging Overview

Graham Packaging, including the operations and activities of Graham Packaging Holdings Company, or Graham Holdings, is a worldwide leader in the design, manufacture and sale of value-added, custom blow molded plastic containers for branded consumer products. Based on our analysis of industry data, we believe that Graham Packaging has the number one market share positions in North America for hot-fill juices, sports drinks/isotonics, yogurt drinks, liquid fabric care, dish detergents, motor oil and certain other products measured by volume. Graham Packaging operates in product categories where customers and end-users value the technology and innovation that Graham Packaging's custom plastic containers offer as an alternative to traditional packaging materials such as glass, metal and paperboard. Graham Packaging has a large global customer base with its largest presence in North America.

Risk Factors

Our ability to successfully operate our business is subject to certain risks, including those that are generally associated with operating in the packaging industry. These risks include, but are not limited to, the following:

risks related to acquisitions, including completed and future acquisitions, such as the risks that we may be unable to complete an acquisition in the timeframe anticipated, on its original terms, or at all, or that we may not be able to achieve some or all of the benefits that we expect to achieve from such acquisitions, including risks related to integration of our acquired businesses;

Table of Contents

risks related to the future costs of energy, raw materials and freight;

risks related to our substantial indebtedness and our ability to service our current and future indebtedness;

risks related to our hedging activities, which may result in significant losses and in period-to-period earnings volatility;

risks related to our suppliers of raw materials and any interruption in our supply of raw materials;

risks related to downturns in our target markets;

risks related to increases in interest rates, which would increase the cost of servicing our debt;

risks related to dependence on the protection of our intellectual property and the development of new products;

risks related to exchange rate fluctuations;

risks related to the consolidation of our customer bases, competition and pricing pressure;

risks related to the impact of a loss of one of our key manufacturing facilities;

risks related to our exposure to environmental liabilities and potential changes in legislation or regulation;

risks related to complying with environmental, health and safety laws or as a result of satisfying any liability or obligation imposed under such laws;

risks related to changes in consumer lifestyle, eating habits, nutritional preferences and health-related and environmental concerns that may harm our business and financial performance;

risks related to restrictive covenants in the notes and our other indebtedness, which could adversely affect our business by limiting our operating and strategic flexibility;

risks related to our dependence on key management and other highly skilled personnel;

risks related to our pension plans; and

Edgar Filing: BRPP LLC - Form F-4/A

risks related to other factors discussed or referred to in this prospectus, including in the section titled Risk Factors. We operate in a very competitive and rapidly changing environment. Investing in the notes involves substantial risk. You should consider carefully all of the information in this prospectus and, in particular, you should evaluate the specific risk factors set forth in the Risk Factors section of this prospectus in evaluating the exchange offer and making a decision whether to invest in the new notes.

Our Strategic Owner

We are part of a group of private companies based in New Zealand that are wholly-owned by Mr. Graeme Hart, our strategic owner.

Between January 31, 2007 and August 1, 2007, entities beneficially owned by Mr. Graeme Hart acquired the businesses that now constitute our Evergreen segment in a series of transactions for \$618 million. On May 4, 2010, we acquired the equity of the businesses that now constitute our Evergreen segment from these entities for a total purchase price of \$1,612 million. The purchase price was paid to entities controlled by Mr. Graeme Hart.

Through a series of acquisitions that occurred from February 29, 2008 to July 31, 2008, certain entities beneficially owned by Mr. Graeme Hart acquired from Alcoa Inc. the businesses that now constitute our Closures segment, our Reynolds consumer products business and our Reynolds foodservice packaging business for a total purchase price of \$2.7 billion.

Table of Contents

On November 5, 2009, we acquired the equity of the businesses that now constitute our Closures segment for a total purchase price of \$708 million and our Reynolds consumer products business for a total purchase price of \$984 million from these entities. The purchase price was paid to entities controlled by Mr. Graeme Hart.

On September 1, 2010, we acquired the equity of the businesses that now constitute our Reynolds foodservice packaging business from these entities for a total purchase price of \$342 million. The purchase price was paid to entities controlled by Mr. Graeme Hart.

In each case, the difference between the consideration paid to initially acquire a business from a third-party and the consideration paid by the RGHL Group to acquire the same business from entities that are beneficially owned by Mr. Graeme Hart reflects changes in fair value. The changes in fair value of the net assets acquired plus debt issued from the original purchase price relate to indebtedness assumed as well as changes in the underlying value of the equity of the business. The change in the underlying value of the business relates to the realization of the cost savings initiatives and operational synergies combined with improvements in industry and general market conditions. Cash payments made by us to acquire these businesses either reduced our available cash or were funded by increases in the principal amount of our outstanding indebtedness.

RGHL

Reynolds Group Holdings Limited was incorporated under the Companies Act 1993 of New Zealand on May 30, 2006. Its registered office is located at Level Nine, 148 Quay Street, Auckland 1010 New Zealand, and its telephone number is +1 (847) 482 2409.

The Issuers

US Issuer is a corporation, incorporated under the laws of the State of Delaware, United States, on September 29, 2009 as an indirect special purpose finance subsidiary of RGHL to facilitate the offering of the notes and the Existing Notes. Other than its financing activities as a co-issuer of the notes and the Existing Notes, and guaranteeing the Senior Secured Credit Facilities and the 2007 Notes, US Issuer has no material assets, operations or revenue. Accordingly, we have not included any financial statements or other information about the US Issuer. Its registered office is located at 160 Greentree Drive, Suite 101, Dover, Delaware 19904, and its telephone number is (804) 281-2630.

US Co-Issuer is a limited liability company formed under the laws of the State of Delaware, United States, on September 17, 2009 as an indirect special purpose finance subsidiary of RGHL to facilitate the offering of the notes and the Existing Notes. Other than its financing activities as a co-issuer of the notes and the Existing Notes, and guaranteeing the Senior Secured Credit Facilities and the 2007 Notes, US Co-Issuer has no material assets (other than certain intercompany loans), operations or revenue. Accordingly, we have not included any financial statements or other information about the US Co-Issuer. Its registered office is located at 160 Greentree Drive, Suite 101, Dover, Delaware 19904, and its telephone number is (804) 281-2630.

Lux Issuer is a public limited liability company (société anonyme), formed under the laws of Luxembourg on September 24, 2009 as an indirect special purpose finance subsidiary of RGHL to facilitate the offering of the notes and the Existing Notes. Other than its financing activities as a co-issuer of the notes and the Existing Notes, and guaranteeing the Senior Secured Credit Facilities and the 2007 Notes, Lux Issuer has no material assets (other than certain intercompany loans), operations or revenue. Accordingly, we have not included any financial statements or other information about the Lux Issuer. Its registered office is located at 6C Rue Gabriel Lippmann, L-5365 Munsbach, Grand Duchy of Luxembourg, and its telephone number is +352-26-258-8883.

Table of Contents

Corporate Structure

RGHL is a holding company that conducts its business operations through its controlled entities. The following diagram provides a simplified overview of our corporate structure. For a detailed list of RGHL's controlled entities (including the guarantors of the notes), their country of incorporation and the proportion of ownership and voting interest held, directly or indirectly, in them by RGHL, refer to Annex A to this prospectus. Unless indicated below, all depicted entities are issuers or guarantors of the notes.

The following diagram sets forth a summary of our corporate structure and certain financing arrangements.

The (i) 8.0% senior notes due 2016 issued by Beverage Packaging Holdings (Luxembourg) II S.A., or BP II, or the 2007 Senior Notes, the 9.5% senior subordinated notes due 2017 issued by BP II, or the 2007 Senior Subordinated Notes, which together with the 2007 Senior Notes, we refer to as the 2007 Notes, (ii) the 8.135% Debentures due 2017, the 6.400% Notes due 2018, the 7.950% Debentures due 2025 and the 8.375% Debentures due 2027, each issued by Pactiv, which collectively we refer to as the Pactiv Notes, and (iii) (a) the 8.500% senior notes due 2018, or the May 2010 Notes, (b) the 7.125% senior secured notes due 2019, or the October 2010 Senior Secured Notes and the 9.000% senior notes due 2019, or the October 2010 Senior Notes, which together with the October 2010 Senior Secured Notes, we refer to as the October 2010 Notes, (c) the 6.875% senior secured notes due 2021, or the February 2011 Senior Secured Notes, and the 8.250% senior notes due 2021, or the February 2011 Senior Notes, which together with the February 2011 Senior Secured Notes, we refer to as the February 2011 Notes, (d) the 7.875% senior secured notes due 2019, or the August 2011 Senior Secured Notes and the 9.875% senior notes due 2019 (originally issued on August 9, 2011), or the August 2011 Senior Notes, which together with the August 2011 Senior Secured Notes, we refer to as the August 2011 Notes, and (e) the 9.875% senior notes due 2019 (originally issued on February 15, 2012), or the February 2012 Senior Notes each issued by the Issuers are not part of and are not being registered in connection with this offering. We refer to the October 2010 Senior Secured Notes, the February 2011 Senior Secured Notes and the August 2011 Senior Secured Notes collectively as the Existing Senior Secured Notes. We refer to the May 2010 Notes, the October 2010 Senior Notes, the February 2011 Senior Notes, the August 2011 Senior Notes and the February 2012 Senior Notes collectively as the Existing Senior Notes. We refer to the Existing Senior Secured Notes and the Existing Senior Notes collectively as the Existing Notes.

conditions, you cannot rely on the position of the SEC set forth in the interpretive letters referred to above and you must comply with the registration and prospectus

Table of Contents

delivery requirements of the Securities Act in connection with a resale of the new notes. You should read the discussion under the heading "The Exchange Offer" for further information regarding the exchange offer and resale of the new notes.

Registration Rights Agreement

We have undertaken the exchange offer pursuant to the terms of the registration rights agreement that the Issuers entered into with the initial purchasers of the old notes. See "The Exchange Offer" Purpose of the Exchange Offer.

Consequences of Failure to Exchange the Old Notes

You will continue to hold old notes that remain subject to their existing transfer restrictions if:

you do not tender your old notes; or

you tender your old notes and they are not accepted for exchange.

With some limited exceptions, we will have no obligation to register the old notes after we consummate the exchange offer. See "The Exchange Offer" Terms of the Exchange Offer and "The Exchange Offer" Consequences of Failure to Exchange.

Expiration Date

The exchange offer will expire at 5:00 p.m., New York City time, on , 2013, unless we extend it, in which case "expiration date" means the latest date and time to which the exchange offer is extended.

Interest on the New Notes

The new notes will accrue interest from the last interest payment date on which interest was paid on the old notes or, if no interest has been paid on the old notes, from the date of original issue of the old notes.

Conditions to the Exchange Offer

The exchange offer is subject to several customary conditions. We will not be required to accept for exchange, or to issue new notes in exchange for, any old notes, and we may terminate or amend the exchange offer, if we determine at any time before the expiration date that the exchange offer would violate applicable law, any applicable interpretation of the SEC or its staff or any order of any governmental agency or court of competent jurisdiction. The foregoing conditions are for our sole benefit and, except those conditions related to the receipt of government regulatory approvals necessary to consummate the exchange offer, will be satisfied or waived by us at or before the expiration of the exchange offer. In addition, we will not accept for exchange any old notes tendered, and no new notes will be issued in exchange for any such old notes, if at any time any stop order is threatened or in effect with respect to:

the registration statement of which this prospectus constitutes a part; or

the qualification of the indenture governing the notes under the Trust Indenture Act of 1939, as amended, which we refer to as the "Trust Indenture Act."

Edgar Filing: BRPP LLC - Form F-4/A

See The Exchange Offer Conditions. We reserve the right to terminate or amend the exchange offer at any time prior to the expiration date upon the occurrence of any of the foregoing events.

Table of Contents

If we amend the exchange offer in a manner that we determine to constitute a material change, including the waiver of a material condition, we will promptly disclose the amendment in a manner reasonably calculated to inform the holders of outstanding notes of that amendment and we will extend the exchange offer if necessary so that at least five business days remain in the offer following notice of the material change.

Procedures for Tendering Old Notes

If you wish to participate in the exchange offer, you must submit required documentation and effect a tender of old notes pursuant to the procedures for book-entry transfer (or other applicable procedures), all in accordance with the instructions described in this prospectus and in the relevant letter of transmittal or electronic acceptance instruction. See *The Exchange Offer* Procedures for Tendering.

Guaranteed Delivery Procedures

None.

Withdrawal Rights

Tenders of old notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date. To withdraw a tender of old notes, a notice of withdrawal must be received by the exchange agent at its address set forth in *The Exchange Offer* Exchange Agent prior to the expiration date. See *The Exchange Offer* Withdrawal of Tenders.

Acceptance of Old Notes and Delivery of New Notes

Except in some circumstances, any and all old notes that are validly tendered in the exchange offer prior to 5:00 p.m., New York City time, on the expiration date will be accepted for exchange. The new notes issued pursuant to the exchange offer will be delivered promptly after such acceptance. We reserve the absolute right to reject any and all old notes not properly tendered or any old notes which, if accepted, would, in the opinion of counsel for us, be unlawful. See *The Exchange Offer* Terms of the Exchange Offer and *The Exchange Offer* Acceptance of Old Notes for Exchange; Delivery of New Notes.

Certain U.S. Federal Tax Considerations

We believe that the exchange of the old notes for the new notes will not constitute a taxable exchange for U.S. federal income tax purposes. See *Tax Considerations* United States Federal Income Tax Considerations.

Exchange Agent

The Bank of New York Mellon is serving as the exchange agent for the notes.

Table of Contents

Summary of the Terms of the New Notes

The terms of the new notes are identical in all material respects to the terms of the old notes, except that the new notes:

are registered under the Securities Act and therefore will not be subject to restrictions on transfer;

will not be subject to provisions relating to additional interest;

will bear a different CUSIP and ISIN number than the old notes;

will not entitle their holders to registration rights; and

will be subject to terms relating to book-entry procedures and administrative terms relating to transfers that differ from those of the old notes.

Issuers

The new notes will be the joint and several obligations of Reynolds Group Issuer Inc., Reynolds Group Issuer LLC and Reynolds Group Issuer (Luxembourg) S.A.

Maturity Date

The new notes will mature on the same date as the old notes.

Interest Rates and Payment Dates

The new notes will bear interest accruing at the same coupon rate and payable at the same times as the old notes.

Guarantees

The old notes are and the new notes will be guaranteed (subject to certain customary guarantee release provisions set forth in the indenture governing the notes) on a senior and joint and several basis by RGHL, BP I and, subject to certain conditions and exceptions, by certain subsidiaries of BP I that are or will be borrowers under or guarantee or will guarantee the Senior Secured Credit Facilities. Non-U.S. subsidiaries of our U.S. subsidiaries do not and will not guarantee the notes. Each guarantor is 100% owned by RGHL. See Description of the Senior Secured Notes Senior Secured Note Guarantees, and Description of the Senior Secured Notes Certain Covenants Future Senior Secured Note Guarantors. The laws of certain jurisdictions may limit the enforceability of certain guarantees and security with respect to the new notes. See Risk Factors Risks Related to Our Structure, the Guarantees, the Collateral and the Notes and Certain Insolvency and Other Local Law Considerations.

We refer to our senior secured credit facilities, which, as of September 30, 2012, consist of \$2,235 million in senior secured term loans, 300 million in senior secured term loans, and a \$120 million and 80 million senior secured revolving credit facility, as the Senior Secured Credit Facilities.

Edgar Filing: BRPP LLC - Form F-4/A

Ranking

The notes are senior secured obligations of the Issuers and:

are effectively senior to all existing and future unsecured indebtedness of the Issuers to the extent of the value of the collateral securing the notes;

rank *pari passu* in right of payment with all existing and future senior indebtedness of the Issuers, including indebtedness under, or in respect to their guarantees of, the Existing Notes and the Senior Secured Credit Facilities;

Table of Contents

are effectively subordinated to First Lien Obligations of the Issuers (as defined in Description of the Senior Secured Notes – Certain Definitions), including amounts outstanding under the Senior Secured Credit Facilities, to the extent such First Lien Obligations are secured by property that does not also secure the notes to the extent of the value of all such property;

are senior in right of payment to all existing and future subordinated indebtedness of the Issuers, including the Issuers' respective guarantees of the 2007 Senior Notes and the 2007 Senior Subordinated Notes; and

are effectively subordinated to all claims of creditors, including trade creditors, and claims of preferred stockholders (if any) of each of the subsidiaries of RGHL (including BP II) that is not a guarantor.

The guarantees related to the notes are senior obligations of each guarantor and:

are effectively senior to all existing and future unsecured indebtedness of the guarantors that have provided security interests in respect of their assets to the extent of the value of the collateral securing the notes;

rank *pari passu* in right of payment with all existing and future senior indebtedness of such guarantor, including indebtedness under, or in respect of its guarantee of, the Existing Notes and the Senior Secured Credit Facilities;

are effectively subordinated to the other First Lien Obligations (as defined in Description of the Senior Secured Notes – Certain Definitions) of such guarantor, including indebtedness of such guarantor under, or with respect to its guarantee of, the Senior Secured Credit Facilities, to the extent such First Lien Obligations are secured by property that does not also secure the notes to the extent of the value of all such property; and

are senior in right of payment to all existing or future subordinated indebtedness of such guarantor, including such guarantor's guarantee of the 2007 Senior Notes and the 2007 Senior Subordinated Notes.

As of September 30, 2012, the RGHL Group had:

\$12,006 million aggregate principal amount of outstanding indebtedness secured by any lien;

\$10,842 million aggregate principal amount of outstanding indebtedness that share a *pari passu* lien in the collateral with the notes (excluding letters of credit which have been issued, but not drawn upon). The RGHL Group has \$65 million and \$42 million of availability under the revolving credit facility under the Senior Secured Credit

Edgar Filing: BRPP LLC - Form F-4/A

Facilities and the ability to incur up to 77 million of secured indebtedness under certain local facilities; and

\$18,006 million of unsubordinated indebtedness, whether secured or unsecured, consisting of amounts outstanding under the Senior Secured Credit Facilities, the notes (including the guarantees with

Table of Contents

respect thereto), the Existing Notes, the 2007 Senior Notes (but not including the guarantees with respect thereto), the outstanding Pactiv Notes and debentures, certain local working capital facilities, certain other local overdrafts, derivative liabilities and finance leases.

The notes and the related guarantees constitute Senior Indebtedness (as defined in Description of the Senior Secured Notes - Certain Definitions) for purposes of the indenture governing the 2007 Senior Subordinated Notes and, as such, in a liquidation, dissolution or bankruptcy of the Issuers or the note guarantors, holders of the notes and related guarantees will be entitled to receive payment in full of such notes and related guarantees before holders of the guarantees of the 2007 Senior Subordinated Notes are entitled to receive any payment, other than certain permitted junior securities, in respect of such guarantees.

As of September 30, 2012, on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions, the RGHL Combined Group would have had:

\$2,235 million and 300 million of indebtedness outstanding under the Senior Secured Credit Facilities;

an assumed \$600 million of indebtedness under the Securitization Facility (as defined in The Transactions);

utilized \$5 million of indebtedness under Local Facilities (as defined in Description of the Senior Secured Notes);

\$4,000 million of indebtedness outstanding under the Existing Senior Secured Notes;

\$5,750 million of indebtedness outstanding under the Existing Senior Notes;

\$3,250 million of indebtedness outstanding under the notes;

480 million of indebtedness outstanding under the 2007 Senior Notes;

420 million of indebtedness outstanding under the 2007 Senior Subordinated Notes;
and

\$792 million of indebtedness outstanding under Pactiv s notes and debentures.

Edgar Filing: BRPP LLC - Form F-4/A

Subject to the terms of the security documents, the notes and the related guarantees are secured by a security interest granted on a first priority basis (subject to certain exceptions and to permitted liens) in certain assets of RGHL, BP I and certain of BP I's subsidiaries. These security interests are, subject to certain exceptions, of equal priority with the liens on such assets securing the Senior Secured Credit Facilities, the Existing Senior Secured Notes and other future first lien obligations. BP II has also granted a second and third priority security interest in respect of the proceeds loans in relation to the 2007 Notes.

Table of Contents

The collateral consists of substantially all of the assets of the Issuers and the guarantors, including their capital stock and the capital stock of their direct subsidiaries, real property, bank accounts, investments, receivables, equipment and inventory, intellectual property and insurance policies, but excluding, among others (i) real property with a value equal to or less than \$5 million or in which such entity only has a leasehold interest, (ii) a number of Pactiv's real properties, which are estimated to have a book value as of September 30, 2012 of approximately \$68 million, (iii) intellectual property with a value of less than \$1 million (unless subject to all-asset security documents), (iv) insurance policies that are not material to the RGHL Group as a whole, (v) equity of inactive subsidiaries with a book value of less than \$100,000 and (vi) equity of subsidiaries that are not guarantors, are organized in jurisdictions in which no guarantor is organized and have (a) gross assets below 1.0% of the consolidated total assets of the RGHL Group and (b) EBITDA below 1.0% of the consolidated EBITDA of the RGHL Group.

The pledge of the securities of any first tier non-U.S. subsidiaries of our U.S. subsidiaries is also limited to 100% of their non-voting capital stock and 65% of their voting capital stock. First-tier non-U.S. subsidiaries refers to the subsidiaries of RGHL that are domiciled outside the United States that are directly owned by subsidiaries of RGHL that are domiciled in the United States. The notes and the Existing Senior Secured Notes are not secured by a pledge of (i) any of the assets of the non-U.S. subsidiaries of our U.S. subsidiaries or (ii) the capital stock of non-U.S. subsidiaries of our U.S. subsidiaries (other than first tier non-U.S. subsidiaries). In addition, the notes and the Existing Senior Secured Notes are not secured by any principal manufacturing properties (as defined in the Pactiv indentures).

Liens on assets are also limited to the extent deemed necessary to comply with legal limitations, avoid significant tax disadvantages, comply with certain third-party arrangements, satisfy fiduciary duties of directors and minimize fees, taxes and duties. Liens over assets are also not granted to the extent the granting of such lien would have a material adverse effect on the ability of the relevant Issuer or guarantor to conduct business in the ordinary course.

In addition, the indentures that govern the notes and the Existing Senior Secured Notes provide that any portion of the capital stock and other securities of any of our subsidiaries will be excluded from the collateral to the extent that it exceeds the maximum amount of such capital stock or other securities that can be pledged to secure the notes and the Existing Senior Secured Notes without causing such subsidiary to be required to file separate financial statements with the SEC. This collateral cutback provision does not apply to BP I with respect to the notes or the Existing Senior Secured Notes. Under the SEC regulations in effect as of the issue date of the new notes, if the par value, book value or market value, whichever is greatest, of the capital stock or securities of a subsidiary pledged as part of the

Table of Contents

collateral is greater than or equal to 20% of the aggregate principal amount of the notes then outstanding, such a subsidiary would be required to provide separate financial statements to the SEC. As a result, pursuant to the collateral cutback provision, the value of the capital stock of any of our subsidiaries that is equal to or greater than 20% of the aggregate principal amount of the notes and the Existing Senior Secured Notes would be excluded from the collateral securing the notes.

We estimate that the aggregate book value and market value of the capital stock of our subsidiaries, as of September 30, 2012 and measured in accordance with IFRS after giving effect to consolidation, are approximately \$1.4 billion and \$5 billion, respectively, which is equivalent to the book value and market value of the capital stock of our subsidiary BP I – the ultimate parent of all of our other subsidiaries (other than BP II). While the capital stock of BP I’s subsidiaries that is pledged to secure the notes and the Existing Senior Secured Notes is generally subject to the collateral cutback provision as described above, the capital stock of BP I is not subject to the collateral cutback provision. Accordingly, the aggregate book value or market value of the capital stock of our pledged subsidiaries is equivalent to the book value or market value of the capital stock of BP I. We estimated the market value of the capital stock of BP I using the fair value less cost to sell methodology. Under this methodology, we used an EBITDA measure for each of our segments and a market-based EBITDA multiple for each segment to determine the estimated initial fair value of the capital stock of BP I, which was further adjusted for the net debt of BP I and its controlled entities.

The granting of a lien in an asset and the priority of any lien are subject to exceptions. We estimate that the assets of RGHL and its subsidiaries that are part of the collateral securing the notes and the Existing Senior Secured Notes have a book value greater than the principal amount of our outstanding secured indebtedness, which totaled \$10,842 million as of September 30, 2012 and measured in accordance with IFRS. See Description of the Senior Secured Notes – Security, Description of the Senior Secured Notes – Certain Definitions – Agreed Security Principles, Description of the Senior Secured Notes – Certain Covenants – Future Collateral, Description of the Senior Secured Notes – Certain Covenants – Liens, Description of the Senior Secured Notes – Certain Definitions – Permitted Liens and Risk Factors – Risks Related to Our Structure, the Guarantees, the Collateral and the Notes.

Intercreditor Agreements

We are party to two intercreditor agreements that govern the relative rights of the obligors under our existing and future financing arrangements with respect to the collateral: (1) the 2007 UK Intercreditor Agreement (as defined in Description of the Senior Secured Notes) which sets forth the relative rights and obligations with respect to the holders of the notes, the holders of the Existing Senior Secured Notes, the lenders and other secured parties (including certain local facility providers, hedging counterparties and cash

Table of Contents

management services providers) under the Senior Secured Credit Facilities and the holders of the 2007 Notes, and (2) the First Lien Intercreditor Agreement (as defined in Description of the Senior Secured Notes) which sets forth the relative rights and obligations with respect to the holders of the notes, the holders of the Existing Senior Secured Notes and the lenders under the Senior Secured Credit Facilities and other secured parties (including certain local facility providers, hedging counterparties and cash management services providers).

Optional Redemption

The Issuers may redeem some or all of the notes at any time and from time to time on or after October 15, 2015, at the redemption prices described in this prospectus. Prior to October 15, 2015, the Issuers may redeem some or all of the notes at a redemption price equal to 100% of the principal amount of the notes plus accrued and unpaid interest, if any, to the applicable redemption date plus the applicable make-whole premium described in this prospectus. See Description of the Senior Secured Notes Optional Redemption. In addition, at any time prior to October 15, 2015, the Issuers may redeem up to 40% of the aggregate principal amount of the notes with the proceeds of certain equity offerings at a redemption price of 105.750%, plus accrued and unpaid interest, if any, to the applicable redemption date. See Description of the Senior Secured Notes Optional Redemption.

Redemption for Taxation Reasons

In the event of certain developments affecting taxation, the Issuers may redeem all, but not less than all, of the notes at 100% of the outstanding principal amount thereof, plus accrued and unpaid interest, if any, to the date of redemption. See Description of the Senior Secured Notes Redemption for Taxation Reasons.

Change of Control

If a change of control occurs, each holder of the notes may require us to repurchase all or a portion of such holder's notes at a purchase price of 101% of the principal amount of such notes, plus accrued and unpaid interest, if any, to the date of repurchase. The term Change of Control is defined under Description of the Senior Secured Notes Change of Control.

Certain Covenants

The indenture that governs the notes contains covenants that, among other things, limit the ability of BP I, BP II and their restricted subsidiaries to:

incur additional indebtedness and issue disqualified and preferred stock;

make restricted payments, including dividends or other distributions;

create certain liens;

sell assets;

in the case of BP I, BP II and their respective restricted subsidiaries, enter into arrangements that limit any restricted subsidiary's ability to pay dividends or other payments to BP I, BP II, or any other restricted subsidiary;

Table of Contents

engage in transactions with affiliates; and

consolidate, merge or transfer all or substantially all of their assets and the assets of their subsidiaries on a consolidated basis.

These covenants are subject to a number of important limitations and exceptions as described under [Description of the Senior Secured Notes](#) [Certain Covenants](#).

No Public Market

The new notes will be new securities for which there is currently no public market.

Governing Law of the Indenture, the Notes, the Related Guarantees, the Intercreditor Agreements and the Security Documents

The notes, the related indenture, the related guarantees and certain of the intercreditor agreements are governed by the laws of the State of New York. The intercreditor agreements not governed by the laws of the State of New York are governed by the laws of England. For the avoidance of doubt, the provisions of articles 86 to 94-8 of the Luxembourg law of August 10, 1915, as amended, on commercial companies are excluded. The security documents related to the notes are, in most cases, governed by the laws of the jurisdiction in which the relevant Issuer or guarantor is organized with certain exceptions including, as necessary, in respect of security over equity interests, bank accounts and receivables or security documents in respect of property located in Quebec. Accordingly, the security documents are subject to the laws of multiple jurisdictions. See [Risk Factors](#) [Risks Related to Our Structure](#), the [Guarantees](#), the [Collateral](#) and the [Notes](#) [Enforcing your rights as a holder of the notes or under the guarantees or the security across multiple jurisdictions may be difficult](#), [Description of the Senior Secured Notes](#) [Governing Law](#) and [Certain Insolvency and Other Local Law Considerations](#).

Table of Contents**Presentation of Financial Information**

The segments that comprise the RGHL Group have not been owned, directly or indirectly, by a single company that consolidates their financial results or operates them as a single combined business for all the periods for which financial results are presented in this prospectus. RGHL, through an indirect wholly-owned subsidiary, acquired (i) SIG, on May 11, 2007 as part of the SIG Acquisition, (ii) our Reynolds consumer products business and Closures, on November 5, 2009, as part of the RGHL Transaction, (iii) Evergreen, on May 4, 2010, as part of the Evergreen Transaction, (iv) our Reynolds foodservice packaging business, on September 1, 2010, as part of the Reynolds Foodservice Acquisition, (v) Pactiv on November 16, 2010, as part of the Pactiv Transaction, (vi) Dopaco, on May 2, 2011, as part of the Dopaco Acquisition and (vii) Graham Packaging, on September 8, 2011, as part of the Graham Packaging Acquisition. Graham Packaging has become the sixth segment of the RGHL Group. In addition, as a result of the Initial Evergreen Acquisition, the beverage packaging business of International Paper Company, or IP's Bev Pack Business, is our predecessor for accounting purposes.

The table below summarizes the financial statements and information that are presented herein as well as the applicable accounting standards pursuant to which such financials statements and information were prepared:

- (1) The financial statements of BP I are included in this prospectus pursuant to Rule 3-16 of Regulation S-X because the book value of the capital stock of BP I constitutes a substantial portion of the collateral of the notes being registered.
- (2) The financial statements of the Beverage Packaging Holdings Group, which consists of BP I, BP I's consolidated subsidiaries and BP II, are included in this prospectus to satisfy reporting requirements under the indenture governing the notes.
- (3) The financial statements of Pactiv, Dopaco and Graham Packaging are included in this prospectus pursuant to Rule 3-05 of Regulation S-X because each of these acquired businesses constitutes a significant subsidiary.

* Includes the operations of Dopaco for the period from May 2, 2011 to the end of the period presented and Graham Packaging for the period from September 8, 2011 to the end of the period presented.

** Includes the operations of Pactiv for the period from November 16, 2010 to December 31, 2010.

Edgar Filing: BRPP LLC - Form F-4/A

Includes a full year of operations for Evergreen and SIG and ten months of operations for Closures, the Reynolds consumer products business prior to the Pactiv Acquisition and the Reynolds foodservice packaging business prior to the Pactiv Acquisition and the Dopaco Acquisition.

**** Includes 11 months of operations for Evergreen (including five months of operations of Blue Ridge Holding Corp. and its consolidated subsidiaries) and seven months of operations for SIG.
Financial statements not included in this prospectus.

Table of Contents

RGHL

On January 31, 2007, Rank Group Limited, an entity that is wholly-owned by our strategic owner, Mr. Graeme Hart, commenced the acquisition of IP's Bev Pack Business. This process occurred in stages from January 31, 2007 to April 30, 2007. See The Transactions The Initial Evergreen Acquisition. On May 4, 2010, Rank Group's investment in Evergreen (which was IP's Bev Pack Business prior to the Initial Evergreen Acquisition) was acquired by the RGHL Group. See The Transactions The Evergreen Transaction. Through the purchase of Evergreen, the RGHL Group became the owner of IP's Bev Pack Business which is our predecessor for accounting purposes. Prior to the Initial Evergreen Acquisition, the RGHL Group had no significant operations.

In May 2007, RGHL acquired SIG Combibloc Group AG (formerly known as SIG Holding AG), or SIG Combibloc, a company that was listed on the SIX Swiss Exchange, pursuant to a public tender offer that was concluded on May 11, 2007 and a subsequent squeeze-out of minority shareholders that was completed on November 7, 2007. See The Transactions The SIG Transaction.

In 2008, as part of the Reynolds Acquisition, certain affiliated entities that are ultimately owned by Mr. Graeme Hart acquired the closures, consumer products and food and flexible packaging business of Alcoa Inc., or Alcoa, that became our Reynolds consumer products business and Closures segment following the RGHL Transaction and our Reynolds foodservice packaging business following the Reynolds Foodservice Acquisition. See The Transactions The Reynolds Acquisition. On November 5, 2009, RGHL acquired Closures and the Reynolds consumer products business from such affiliated entities. See The Transactions The RGHL Transaction. Separately on September 1, 2010, RGHL acquired the Reynolds foodservice packaging business from such affiliated entities. See The Transactions The Reynolds Foodservice Acquisition.

On November 16, 2010, RGHL acquired Pactiv for a total enterprise value, including net debt, of \$5.8 billion. In connection with the Pactiv Acquisition, we also paid additional amounts for the cancellation of outstanding stock options and other equity-based awards. Pactiv had historically prepared its financial statements in accordance with the generally accepted accounting principles in the United States of America, or U.S. GAAP. See The Transactions The Pactiv Transaction.

On May 2, 2011, RGHL acquired Dopaco from Cascades Inc. The consideration for the acquisition was \$395 million in cash. The purchase price was paid from existing cash of the RGHL Group. Dopaco's combined financial statements included elsewhere in this prospectus were prepared on a carve-out basis and are in accordance with U.S. GAAP. See The Transactions The Dopaco Acquisition.

On September 8, 2011, RGHL acquired Graham Packaging Company Inc., or Graham Company, for a total enterprise value, including net debt, of \$4.5 billion. In connection with the Graham Packaging Acquisition, we also paid additional amounts for the cancellation of outstanding stock options and other equity-based awards and for the satisfaction of income tax receivable agreements with certain of Graham Company's pre-initial public offering shareholders. Graham Company had historically prepared its financial statements in accordance with U.S. GAAP. Graham Holdings, an indirect wholly-owned subsidiary of RGHL and Graham Company, suspended its reporting obligations under the Exchange Act and has ceased to file any reports with the SEC. See The Transactions The Graham Packaging Transaction.

Our Evergreen, SIG and Closures segments and our Reynolds consumer products and Reynolds foodservice packaging businesses, which are part of our Reynolds Consumer Products and Pactiv Foodservice segments, have been under common ownership and control through entities ultimately 100% owned by Mr. Graeme Hart for four years, but they have not been owned, directly or indirectly, by a single company that consolidated their financial results or operated them as a single combined business for that period of time. We have determined that the Evergreen Acquisition, RGHL Acquisition and Reynolds Foodservice Acquisition constituted business combinations of entities under common control. International Financial Reporting Standards, or IFRS, as issued by the International Accounting Standards Board, or IASB, are silent on the accounting required for business combinations involving entities that are under common control, but requires that entities develop and consistently apply an accounting policy for such transactions. Accordingly, we have chosen to account for RGHL's acquisitions of Evergreen, Closures and the Reynolds consumer products and Reynolds foodservice

Table of Contents

packaging businesses, which were acquired from entities under the common control of our ultimate shareholder, Mr. Graeme Hart, using the carry-over or book value method. Under the carry-over or book value method, the business combination does not change the historical carrying value of the assets and liabilities in the business acquired. The excess of the purchase price over the consolidated carrying value of net assets acquired is recognized directly in equity. No additional goodwill separately arose as a result of the Evergreen Transaction, the RGHL Transaction or the Reynolds Foodservice Acquisition.

We account for business combinations under common control from the date Mr. Graeme Hart, our strategic owner and sole ultimate shareholder, originally obtained control of each of the businesses presented.

We account for business combinations, other than business combinations under common control, using the purchase method of accounting. Under the purchase method of accounting, the purchase price is required to be allocated to the underlying tangible and intangible assets acquired and liabilities assumed based on their respective fair market values as of the date of the acquisition, with any excess purchase price allocated to goodwill. We have accounted for the Pactiv Acquisition, the Dopaco Acquisition and the Graham Packaging Acquisition using the purchase method of accounting.

The audited financial statements of the RGHL Group as of December 31, 2010 and 2011 and for the years ended December 31, 2009, 2010 and 2011 are included elsewhere in this prospectus. The audited financial statements of the RGHL Group as of December 31, 2008 and 2009 and for the years ended December 31, 2008 and 2007 are not included in this prospectus. The interim unaudited condensed financial statements of the RGHL Group as of September 30, 2012 and for the three and nine month periods ended September 30, 2012 and 2011 are included elsewhere in this prospectus.

The selected financial data of the North American operations of IP's Bev Pack Business for the period from January 1 to January 31, 2007 have been derived from the North America operations of IP's Bev Pack Business audited combined financial statements, which are not included in this prospectus.

Pactiv

The audited consolidated financial statements of Pactiv as of December 31, 2008 and 2009 and for the years ended December 31, 2007, 2008 and 2009 are included elsewhere in this prospectus. The interim consolidated financial statements of Pactiv as of September 30, 2010 and for the three and nine month periods ended September 30, 2009 and 2010, included in this prospectus, are unaudited. Pactiv has historically prepared its financial statements in accordance with U.S. GAAP. Upon the consummation of the Pactiv Acquisition, Pactiv no longer separately reports its financial statements, but rather, its financial results are included in the RGHL Group's financial statements in accordance with the RGHL Group's accounting principles and policies.

Dopaco

The audited carve-out combined financial statements of Dopaco as of May 1, 2011 and December 26, 2010 and for the 126-day period ended May 1, 2011 and the years ended December 26, 2010 and December 27, 2009 are included elsewhere in this prospectus. Dopaco's combined financial statements included elsewhere in this prospectus were prepared on a carve-out basis and are in accordance with U.S. GAAP. Following the consummation of the Dopaco Acquisition, Dopaco no longer separately reports its financial statements, but rather, beginning from May 2, 2011, its financial results are included in the RGHL Group's financial statements in accordance with the RGHL Group's accounting principles and policies.

Graham Packaging

The audited financial statements of Graham Packaging as of December 31, 2009 and 2010 and for the years ended December 31, 2008, 2009 and 2010 are included elsewhere in this prospectus. The audited financial statements of Graham Packaging as of December 31, 2007 and 2008 and for the year ended December 31, 2007, are not included in this prospectus. The interim financial statements of Graham Packaging as of June 30, 2011 and for the three and six month periods ended June 30, 2010 and 2011, included elsewhere in this prospectus, are

Table of Contents

unaudited. Graham Packaging's financial statements have been prepared in accordance with U.S. GAAP. Following the consummation of the Graham Packaging Acquisition, Graham Packaging no longer separately reports its financial statements, but rather, beginning on September 8, 2011, its financial results are included in the RGHL Group's financial statements in accordance with the RGHL Group's accounting principles and policies.

Non-GAAP Financial Measures

In this prospectus, we utilize certain non-GAAP financial measures and ratios, including earnings before interest, tax, depreciation and amortization, or EBITDA and Adjusted EBITDA, each with the meanings and as calculated as set forth in Summary Summary Historical and Pro Forma Combined Financial Information, as well as leverage and coverage ratios and the aggregation of predecessor and successor period financial statements, that in each case are not recognized under IFRS or U.S. GAAP. These measures are presented as we believe that they and similar measures are widely used in the markets in which we operate as a means of evaluating a company's operating performance and financing structure and, in certain cases, because those measures are used to determine compliance with covenants in our debt agreements. They may not be comparable to other similarly titled measures of other companies and are not measurements under IFRS, U.S. GAAP or other generally accepted accounting principles, nor should they be considered as substitutes for the information contained in our historical financial statements prepared in accordance with IFRS and U.S. GAAP, as applicable, included in this prospectus. See Risk Factors Risks Related to Our Business Our unaudited pro forma combined financial information is not intended to reflect what our actual results of operations and financial condition would have been had the RGHL Group been a consolidated company with Pactiv, Dopaco and Graham Packaging for the periods presented, and therefore these results may not be indicative of our future operating performance and Risk Factors Risks Related to Our Structure, the Guarantees and the Notes The calculation of EBITDA pursuant to the indenture that will govern the new notes permits certain estimates and assumptions that may differ materially from actual results, and the estimated savings expected from our cost saving plans may not be achieved.

Currency Presentation

References in this prospectus to dollars or \$ are to the lawful currency of the United States of America. References in this prospectus to euro or are to the single currency of the participating Member States in the Third Stage of European Economic and Monetary Union of the Treaty Establishing the European Community, as amended from time to time.

IFRS does not require that our financial reporting be presented in a particular currency. Based on our current business mix and other facts and circumstances that our board of directors considers relevant, we have determined that the dollar is currently the most appropriate currency for our financial reporting.

Table of Contents**Summary of Certain Differences Between IFRS and U.S. GAAP**

The financial information of the RGHL Group and the summary unaudited pro forma combined financial information presented in this prospectus has been prepared and presented in accordance with IFRS. Certain differences exist between IFRS and U.S. GAAP, some of which may be material to the financial information herein. Certain financial information related to Graham Packaging, Dopaco and Pactiv has been preliminarily converted from U.S. GAAP to IFRS. See Unaudited Pro Forma Combined Financial Information.

The table below summarizes the material differences between IFRS and U.S. GAAP.

The differences highlighted below reflect only those differences in accounting policies in force at the time of the preparation of the IFRS financial information. We have not attempted to identify future differences between U.S. GAAP and IFRS as a result of prescribed changes in accounting standards or transactions or events that may occur in the future and that could have a significant impact on the presentation below. You should consult your own professional advisor for an understanding of the differences between IFRS and U.S. GAAP, and how these differences might affect the financial information presented in this prospectus.

Topic	IFRS	U.S. GAAP
<i>Business Combinations</i>	<p>Business combinations are accounted for on the basis of the purchase method. However, this excludes businesses brought together to form a joint venture, business combinations involving businesses or entities under common control or involving two or more mutual entities and business combinations in which separate entities or businesses are brought together to form a reporting entity by contract alone without obtaining an ownership interest.</p> <p>IFRS provides a choice in respect of the initial measurement, as at the date of acquisition, of non-controlling interests (previously referred to as minority interests). The initial recognition of a non-controlling interest can be measured at either:</p> <p>(a) its percentage of the fair value of the net assets of the acquired entity; or</p> <p>(b) its percentage of the fair value of the identifiable net assets of the acquired entity.</p> <p>This election is applied on an acquisition by acquisition basis. The cost of an intangible asset acquired in a business combination is its fair value. Fair value reflects market participants' views about the probability of future economic benefits. Fair value is measured using valuation techniques if there is no active market for the acquired intangible asset. There is no specific guidance under IFRS on valuation approaches for intangible assets.</p>	<p>Business combinations are accounted for by the purchase method only. In the event of combinations of entities under common control the accounting for the combination is done on a historical cost basis in a manner similar to a pooling of interests for all periods presented.</p> <p>Unlike IFRS, U.S. GAAP requires that the initial measurement as of the date of acquisition of non-controlling interests represents the percentage of the fair value of the net assets of the acquired entity.</p> <p>Like IFRS, intangible assets acquired in a business combination are recognized initially at fair value. Fair value reflects market participants' views about the probability of future economic benefits, and fair value is measured using valuation techniques if there is no active market for the acquired intangible asset. However, unlike IFRS, U.S. GAAP includes guidance on valuation approaches for identifiable intangible assets.</p> <p>Under U.S. GAAP, push down accounting is required whereby fair value adjustments are recognized in the financial statements of the acquiree.</p>

Table of Contents

Topic	IFRS	U.S. GAAP
Post-Retirement Benefits	<p>Unlike under U.S. GAAP, push down accounting, whereby fair value adjustments are recognized in the financial statements of the acquiree, is not required.</p> <p>A liability is recognized for an employer's obligation under a defined benefit plan. The liability and expense are measured actuarially using the projected unit credit method. If plan assets exceed the defined benefit obligation, the amount of any net asset recognized is limited to available future benefits from the plan and unrecognized actuarial losses and past service costs.</p> <p>The discount rate to be used for determining defined benefit obligations is by reference to market yields at the balance sheet date in high-quality corporate bonds of a currency and term consistent with the currency and term of the post-employment benefit obligations.</p> <p>Actuarial gains and losses are recognized either in profit or loss using the corridor approach, whereby gains and losses are not recognized until they exceed 10% of the greater of the plan assets or funding obligations, or immediately in other comprehensive income. Amounts recognized in other comprehensive income are not subsequently recorded within profit or loss. When recognized in the profit or loss, the gains and losses are recognized over the employees' expected average remaining service lives, although faster recognition is permitted. If the benefit has vested, immediate recognition is required.</p> <p>Plan assets should always be measured at fair value and fair value should be used to determine the expected return on plan assets.</p>	<p>Like IFRS, a liability is recognized for an employer's obligation under a defined benefit plan. The liability and expense generally are measured actuarially using the projected unit credit method for pay-related plans. However, unlike IFRS, the liability and expense are measured for non-pay-related plans using the traditional unit credit method which excludes the impact of future increases in salary. Additionally, unlike IFRS, U.S. GAAP does not restrict the recognition of an asset in respect of a defined benefit plan.</p> <p>Under U.S. GAAP, the discount rate to be used for determining defined benefit obligations is based on the rate at which the obligation could be effectively settled. SEC guidance directs entities to look to the rate of return on high-quality fixed-income investments with similar durations to those of the benefit obligation and further defines high-quality as an investment which has received one of the two highest ratings given by recognized rating agencies.</p> <p>U.S. GAAP permits entities to either record actuarial gains and losses in profit or loss during the period they were incurred or to defer actuarial gains and losses through the use of the corridor approach or any systematic method that results in faster recognition than the corridor approach. Regardless of whether actuarial gains and losses are recognized immediately or are amortized in a systematic fashion, they are ultimately recorded within the profit or loss.</p> <p>Like IFRS, plan assets should be measured at fair value for balance sheet recognition and for disclosure purposes. However, unlike IFRS, for the purposes of determining the expected return on plan assets, plan assets can be measured at either fair value or a calculated value that recognizes changes in fair value in a systematic and rational manner over not more than five years.</p>

Table of Contents

Topic	IFRS	U.S. GAAP
Consolidation	<p>Consolidation is based on a control model. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. For control to exist an entity must have the ability to have majority power and be receiving benefits. IFRS requires control to be assessed using a power-to-control model or a de facto control model. Potential voting rights that are currently exercisable are considered in assessing control.</p> <p>IFRS requires that uniform accounting policies are used throughout the consolidated group. A special purpose entity, or SPE, is an entity created to accomplish a narrow and well-defined objective. SPEs are consolidated when the substance of the relationship between an entity and the SPE indicates that the SPE is controlled by that entity. Control may arise through the predetermination of the activities of the SPE or otherwise. The application of the control concept requires judgment of all relevant factors, including the purpose of the SPE, any autopilot mechanisms, where the majority of the benefits go and what entity retains the majority of residual or ownership risks.</p> <p>IFRS does not have a concept of variable interest entities, or VIEs, or qualifying SPEs, or QSPEs.</p>	<p>Consolidation is based on a controlling financial interest model, which differs in certain respects from IFRS. For non-variable interest entities, control is the continuing power to govern the financial and operating policies of an entity, like IFRS. However, unlike IFRS, there is no explicit linkage between control and ownership benefits. Potential voting rights are not considered in assessing control for non-variable interest entities under U.S. GAAP.</p> <p>There is no requirement to use uniform accounting policies within the consolidated group under U.S. GAAP. Although U.S. GAAP has the concepts of VIEs and QSPEs, which may meet the definition of an SPE under IFRS, the control model that applies to VIEs and QSPEs differs from the control model that applies to SPEs under IFRS. Additionally, unlike IFRS, entities are evaluated as VIEs based on the amount and characteristics of their equity investment at risk and not on whether they have a narrow and well-defined objective.</p>
Goodwill	<p>After the initial recognition, the goodwill acquired in a business combination is measured at cost less any accumulated impairment loss. Goodwill is not required to be amortized.</p> <p>An impairment review of Cash Generating Units, or CGUs, with allocated goodwill is required annually or whenever an indication of impairment exists. The impairment review does not need to take place at the balance sheet date. If newly acquired goodwill is allocated to a CGU that has already been tested for impairment during the period, a further impairment test is required before the balance sheet date.</p>	<p>Like IFRS, goodwill is not amortized but is tested for impairment annually. Goodwill is reviewed for impairment, at the reporting unit level, at least annually or whenever events or changes in circumstances indicate that the recoverability of the carrying amount should be assessed.</p> <p>A two-step impairment test is required:</p> <p>(1) The fair value and the carrying amount of the reporting unit including goodwill are compared. Goodwill is considered to be impaired if the fair value of the reporting unit is less than its book value; and</p>

Table of Contents

Topic	IFRS	U.S. GAAP
	A one-step impairment test is performed. The recoverable amount of the CGU (i.e. the higher of its fair value less costs to sell and its value in use) is compared to its carrying amount. The impairment loss is recognized in operating results as the excess of the carrying amount over the recoverable amount. Impairment is allocated first to goodwill. Allocation is made on a pro rata basis to the CGU's assets if the impairment loss exceeds the book value of goodwill.	(2) If goodwill is determined to be impaired based on step one, goodwill impairment is measured as the excess of the carrying amount of goodwill over its implied fair value. The implied fair value of goodwill is determined by calculating the fair value of the various assets and liabilities included in the reporting unit in the same manner as goodwill is determined in a business combination. The impairment charge is included as a reduction to operating income.
<i>Property, Plant and Equipment</i>	Property, plant and equipment comprises tangible items held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, that are expected to be used during more than one accounting period. Software that is not integral to the operation of the related hardware does not qualify as property, plant and equipment. Instead it is classified as an intangible asset.	Property, plant and equipment is defined similarly to IFRS; however, under U.S. GAAP computer software is often included in property, plant and equipment. Unlike IFRS, revaluation of fixed assets is prohibited under U.S. GAAP, except in connection with purchase accounting.
	Fixed assets are recorded at cost or as revalued to market. If carried at revalued amounts, assets should be annually revalued to match the carrying amount of such assets with the fair values.	All foreign exchange gains or losses relating to the payables for the procurement of property, plant and equipment are recorded in the income statement.
	Foreign exchange gains or losses relating to the procurement of property, plant and equipment, under very restrictive conditions, can be capitalized as part of the asset.	Unlike IFRS, estimates of useful life and residual value, and the method of depreciation, are reviewed only when events or changes in circumstances indicate that the current estimates or depreciation method no longer are appropriate. Any changes are accounted for prospectively as a change in estimate. Component depreciation is permitted by U.S. GAAP, but not required.
	Estimates of useful life and residual value, and the method of depreciation, are reviewed at least at each annual reporting date. Any changes are accounted for prospectively as a change in estimate. When an item of property, plant and equipment comprises individual components for which different depreciation methods or rates are appropriate, each component is depreciated separately.	Like IFRS, borrowing costs incurred while a qualifying asset is being prepared for its intended use form part of the cost of that asset. However, U.S. GAAP allows for more judgment in determination of the capitalization rate that could lead to differences in the amount of costs capitalized.
	Borrowing costs that are directly attributable to the acquisition, construction, or production of a qualifying asset form part of the cost of that asset.	

Table of Contents

Topic	IFRS	U.S. GAAP
Impairment Testing	<p>An entity shall assess at each reporting date whether there is any indication that an asset/CGU may be impaired. The impairment loss is the difference between the asset s/CGU s carrying amount and its recoverable amount. The recoverable amount is the higher of the asset s/CGU s fair value less costs to sell and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.</p>	<p>Like IFRS, impairment testing is required when there is an indication of impairment. An impairment loss shall be recognized only if the carrying amount of a long-lived asset (asset group) is not recoverable and exceeds its fair value. The carrying amount of a long-lived asset (asset group) is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset (asset group).</p>
	<p>The impairment loss recognized in prior periods for an asset shall be reversed if there has been a change in the estimates used to determine the asset s/CGU s recoverable amount since the last impairment loss was recognized. Impairment losses on goodwill recognized in a prior period cannot be reversed.</p>	<p>An impairment loss shall be measured as the amount by which the carrying amount of a long-lived asset (asset group) exceeds its fair value (which is determined based on discounted cash flows).</p>
		<p>Unlike IFRS, reversal of impairment losses recognized in a prior period is prohibited under U.S. GAAP.</p>
Stock-Based Compensation	<p>The fair value of shares and options awarded to employees is recognized over the period to which the employees services relate. The award is presumed to be for past services if it is unconditional without any performance criteria.</p>	<p>Like IFRS, the fair value of stock-based compensation is recognized over the requisite service period, which may be explicit, implicit or derived depending on the terms of the awards (e.g. service conditions, market conditions, performance conditions or a combination of conditions).</p>
	<p>An entity should treat each installment of a graded vesting award as a separate share option grant. This means that each installment will be separately measured and attributed to expense, resulting in accelerated recognition of total expense.</p>	<p>Unlike IFRS, entities are allowed to make an accounting policy choice regarding recognition of an award with service conditions and a graded vesting schedule. Specifically, an entity can elect to recognize compensation expense:</p>
	<p>Employers social security liability arising from share-based payment transactions is recognized over the same period or periods as the share-based payment charge.</p>	<p>on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance multiple awards; or</p>
		<p>on a straight-line basis over the requisite service period for the entire award (i.e. over the requisite service period of the last separately vesting portion of the award). Employer payroll taxes due on employee stock-based compensation are recognized as an expense on the date of the event triggering the measurement and payment of the tax to the taxing authority (generally the exercise date and vesting date for options and restricted stock, respectively).</p>

Table of Contents

Topic	IFRS	U.S. GAAP
Leases	A finance lease is a lease that transfers substantially all of the risks and rewards incidental to ownership of the leased asset from the lessor to the lessee; title to the asset may or may not transfer. IFRS applies a substance over legal form approach and requires judgment. An operating lease is a lease other than a finance lease.	Similar concepts are generally applied under U.S. GAAP when determining whether a lease is a capital (finance) lease to a lessee. However, U.S. GAAP provides explicit quantitative thresholds that define when certain of these criteria are met. An operating lease is a lease other than a finance lease.
Income Taxes	Income taxes are calculated using the tax rates that are either enacted or substantively enacted at the balance sheet date.	Income taxes are calculated using enacted tax rates at the balance sheet date.
	Deferred tax assets should be recognized when it is probable (i.e. more likely than not) that they will be utilized. Deferred tax assets and liabilities are classified as non-current on the balance sheet.	Deferred tax assets are recognized in full, with valuation allowances established to reduce the asset to an amount considered more likely than not to be realized. Unlike IFRS, deferred tax assets and liabilities are separated into current and non-current based on the nature of assets and liabilities causing a temporary difference and reported as such in the balance sheet if an entity presents a classified balance sheet.
	A deferred tax liability (asset) is recognized for the difference in tax bases between jurisdictions as a result of an intra-group transfer of assets.	
	Unlike U.S. GAAP, IFRS does not specifically address uncertain tax positions. In certain circumstances where the uncertain tax positions lead to future expected payments to settle, they may be recognized as part of current tax liabilities using a probability weighted or best estimate approach.	Unlike IFRS, a deferred tax liability (asset) is not recognized for the difference in tax bases between jurisdictions as a result of an intra-group transfer of assets.
Financial Instruments	A derivative is defined as a financial instrument (1) whose value changes in response to changes in a specified underlying security, (2) requires little or no net investment and (3) is settled at a future date.	U.S. GAAP has specific guidance for accounting for and disclosure of uncertain tax positions which requires that they be measured using a cumulative probability approach. Uncertain tax positions are reported in other non-current liabilities.
	Evaluating whether a transfer of a financial asset qualifies for derecognition requires consideration of whether substantially all risks and rewards and, in certain circumstances control, has been transferred.	Derivatives are defined similarly to IFRS; however, U.S. GAAP also requires that the derivative contract provide for net settlement.
	IFRS does not allow the use of the short-cut method and, therefore, requires for all hedge accounting relationships that an entity demonstrate at inception and in subsequent periods that the hedge is expected to be highly effective.	The derecognition model for transfers of financial assets focuses on surrendering control over the transferred assets. The transferor has surrendered control over transferred assets only if certain conditions are met.
		Unlike IFRS, U.S. GAAP provides for the use of a short-cut (effectiveness is assumed) method for applying hedge accounting when certain conditions are met.

Table of Contents

Topic	IFRS	U.S. GAAP
	<p>An embedded derivative is separated from the host contract if it is determined that the embedded derivative is not closely related to the host contract. An evaluation of the nature (i.e. economic risks and characteristics) of the host contract and the underlying derivative must be made.</p>	<p>Like IFRS, determining whether an embedded derivative is clearly and closely related to the host contract requires the nature of the host contract and the underlying derivative to be considered. However, the U.S. GAAP guidance for the term clearly and closely related differs from the IFRS guidance</p> <p>and as a result, certain embedded derivatives recognized under IFRS may not be recognized under U.S. GAAP.</p>
<i>Inventories</i>	<p>Inventories are measured at the lower of cost and net realizable value.</p> <p>The cost of inventory is determined using the FIFO (first-in, first-out) or weighted average cost method. The LIFO (last-in, first-out) method is prohibited. The same cost formula is applied to all inventories having a similar nature and use to the entity.</p> <p>Net realizable value is the estimated selling price less the estimated costs of completion and sale.</p> <p>If the net realizable value of an item that has been written down increases subsequently, then the write-down is reversed.</p>	<p>Inventories are measured at the lower of cost and market.</p> <p>Unlike IFRS, the cost of inventory can be determined using the LIFO method in addition to the FIFO or weighted average method. The same cost formula need not be applied to all inventories having a similar nature and use to the entity.</p> <p>Net realizable value is the estimated selling price less the estimated costs of completion and sale. Unlike IFRS, market is replacement cost limited by net realizable value (ceiling) and net realizable value less a normal profit margin (floor).</p> <p>Under U.S. GAAP, a write-down of inventory to market is not reversed for subsequent recoveries in value.</p>
<i>Provisions</i>	<p>Provisions relating to present obligations from past events are recorded if an outflow of resources is probable and can be reliably estimated. The amount recognized as a provision is the best estimate of the expenditure required to settle the present obligation at the balance sheet date.</p> <p>The anticipated cash flows are discounted using a pre-tax discount rate (or rates) that reflect(s) current market assessments of the time value of money and those risks specific to the liability if the effect is material. If a range of estimates is predicted and no amount in the range is more likely than any other amount in the range, the mid-point of the range is used to measure the liability.</p>	<p>Specific rules exist for the recognition of employee termination costs, environmental liabilities and loss contingencies. Unlike IFRS, if a range of estimates is present and no amount in the range is more likely than any other amount in the range, the minimum (rather than the mid-point) amount is used to measure the liability. Unlike IFRS, a provision is only discounted when the timing of the cash flows is fixed. Differences may arise in the selection of the discount rate, particularly in the area of asset retirement obligations.</p>

Topic	IFRS	U.S. GAAP
<i>Debt Issuance Costs</i>	Debt issuance costs are capitalized and presented in the balance sheet as a deduction from the carrying value of the borrowings. The deferred costs are amortized to the income statement using the effective interest method.	Like IFRS, debt issuance costs are capitalized. However, unlike IFRS, debt issuance costs are classified on the balance sheet as an asset. Like IFRS, the deferred costs are amortized to the income statement using the effective interest method.

Summary Historical and Pro Forma Combined Financial Information

The following tables set forth (i) summary unaudited RGHL Combined Group pro forma financial information, as of the dates and for the periods indicated and (ii) summary historical RGHL Group financial information, as of the dates and for the periods indicated.

RGHL Combined Group refers to RGHL and its consolidated subsidiaries, including Graham Packaging and Dopaco, as a combined company following the consummation of, and after giving pro forma effect to, the November 2012 Refinancing Transactions, the September 2012 Refinancing Transactions, the February 2012 Refinancing Transactions, the Graham Packaging Transaction, the Dopaco Acquisition, and the 2011 Refinancing Transactions. For information regarding these transactions, see The Transactions.

The summary historical and pro forma combined financial information should be read together with the respective financial statements and the notes thereto, along with the Glossary of Selected Terms, Summary Presentation of Financial Information, Risk Factors, Capitalization, Unaudited Pro Forma Combined Financial Information, Selected Historical Consolidated and Historical Combined Financial Data, and Operating and Financial Review and Prospects. You should regard the summary financial information below only as an introduction and should base your investment decision on a review of the entire prospectus.

RGHL Group

On January 31, 2007, Rank Group commenced the acquisition of IP's Bev Pack Business. This process occurred in stages from January 31, 2007 to April 30, 2007. See The Transactions The Initial Evergreen Acquisition.

On May 4, 2010, Rank Group's investment in Evergreen (which was IP's Bev Pack Business prior to the Initial Evergreen Acquisition) was acquired by the RGHL Group. See The Transactions The Evergreen Transaction. As a result of the Evergreen Transaction, we refer to IP's Bev Pack Business prior to January 31, 2007 as the RGHL Group Predecessor. Prior to the Initial Evergreen Acquisition, the RGHL Group had no significant operations.

RGHL acquired SIG Combibloc on May 11, 2007 pursuant to a public tender offer and a subsequent squeeze-out of minority shareholders that was completed on November 7, 2007. See The Transactions The SIG Transaction.

In 2008, as part of the Reynolds Acquisition, certain affiliated entities that are ultimately owned by our strategic owner, Mr. Graeme Hart, acquired the closures, consumer products and food and flexible packaging business of Alcoa that became our Reynolds consumer products business and Closures segment following the RGHL Transaction and our Reynolds foodservice packaging business following the Reynolds Foodservice Acquisition. See The Transactions The Reynolds Acquisition. On November 5, 2009, RGHL acquired Closures and the Reynolds consumer products business from such affiliated entities. See The Transactions The RGHL Transaction. Separately on September 1, 2010, RGHL acquired the Reynolds foodservice packaging business from such affiliated entities. See The Transactions The Reynolds Foodservice Acquisition.

On November 16, 2010, RGHL acquired Pactiv for a total enterprise value, including net debt, of \$5.8 billion. See The Transactions The Pactiv Transaction.

On May 2, 2011, RGHL acquired Dopaco from Cascades Inc. The consideration for the acquisition was \$395 million in cash. The purchase price was paid from existing cash of the RGHL Group. See The Transactions The Dopaco Acquisition.

On September 8, 2011, RGHL acquired Graham Company for a total enterprise value, including net debt, of \$4.5 billion. See The Transactions The Graham Packaging Transaction.

Our Evergreen, SIG and Closures segments and our Reynolds consumer products and Reynolds foodservice packaging businesses, which are part of our Reynolds Consumer Products and Pactiv Foodservice segments, respectively, have been under common ownership and control through entities ultimately 100% owned by

Table of Contents

Mr. Graeme Hart, our strategic owner, for four years, but they have not been owned, directly or indirectly, by a single company that consolidated their financial results or operated them as a single combined business for that period of time. We have determined that the Evergreen Acquisition, the RGHL Acquisition and the Reynolds Foodservice Acquisition constituted business combinations of entities under common control. IFRS is silent on the accounting required for business combinations involving entities that are under common control, but requires that entities develop and consistently apply an accounting policy for such transactions. Accordingly, we have chosen to account for RGHL's acquisitions of Evergreen, Closures and the Reynolds consumer products and Reynolds foodservice packaging businesses, which were acquired from entities under the common control of our ultimate shareholder, Mr. Graeme Hart, using the carry-over or book value method. Under the carry-over or book value method, the business combination does not change the historical carrying value of the assets and liabilities in the business acquired. The excess of the purchase price over the consolidated carrying value of net assets acquired is recognized directly in equity. No additional goodwill separately arose as a result of the Evergreen Transaction, the RGHL Transaction or the Reynolds Foodservice Acquisition.

We account for business combinations under common control from the date Mr. Graeme Hart, our strategic owner and sole ultimate shareholder, originally obtained control of each of the businesses presented.

We account for business combinations, other than business combinations under common control, using the purchase method of accounting. We have accounted for the Pactiv Acquisition, the Dopaco Acquisition and the Graham Packaging Acquisition using the purchase method of accounting.

The summary historical financial information of the RGHL Group as of December 31, 2011 and 2010 and for the years ended December 31, 2011, 2010 and 2009 has been derived from the RGHL Group's audited financial statements as of and for the year ended December 31, 2011 included elsewhere in this prospectus. The summary historical financial data of the RGHL Group as of September 30, 2012 and for the nine month periods ended September 30, 2012 and 2011 has been derived from the RGHL Group's interim unaudited condensed financial statements, included elsewhere in this prospectus.

Pro Forma Combined Financial Information

The summary unaudited pro forma combined financial information is based on the historical financial information of the RGHL Group, Dopaco and Graham Packaging, each of which is included elsewhere in this prospectus, as adjusted to illustrate the impact of the November 2012 Refinancing Transactions, the September 2012 Refinancing Transactions, the February 2012 Refinancing Transactions, the 2011 Refinancing Transactions, the Dopaco Acquisition and the Graham Packaging Transaction (collectively, the Pro Forma Transactions). For further information regarding the Pro Forma Transactions, see The Transactions. The unaudited pro forma combined income statements give effect to the Pro Forma Transactions as if they had been completed as of January 1, 2011. The unaudited pro forma combined balance sheet gives effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions as if they had been completed as of September 30, 2012.

The unaudited pro forma adjustments are based upon current available information and assumptions that we believe to be reasonable. The pro forma adjustments and related assumptions are described in the accompanying notes presented on the following pages.

The summary historical financial and pro forma information is for informational purposes only and is not intended to represent or to be indicative of the results of operations or financial position that the RGHL Group or the pro forma combined group would have reported had the Pro Forma Transactions been completed as of the dates set forth in the unaudited pro forma combined financial information and is not necessarily indicative of our future consolidated results of operations or financial position. Our actual results may differ significantly from those reflected in the unaudited pro forma combined financial information for a number of reasons, including, but not limited to, differences between the assumptions used to prepare the unaudited pro forma combined financial information and actual amounts. As a result,

Table of Contents

the unaudited pro forma combined financial information does not purport to be indicative of what our financial condition or results of operations would have been had the Pro Forma Transactions been completed on the applicable dates of the unaudited pro forma combined financial information.

The unaudited pro forma combined income statements (i) do not include adjustments for any prospective revenue or cost saving synergies that may be achieved, in addition to those reflected in the historical financial information, since the completion of the Dopaco Acquisition or the Graham Packaging Acquisition or as a result of any of the other acquisitions we have completed, and (ii) do not include non-recurring items directly related to the Pro Forma Transactions. In addition, the unaudited pro forma combined financial information does not give effect to any of the adjustments made to derive the RGHL Combined Group Adjusted EBITDA, which are each described under Summary Summary Historical and Pro Forma Combined Financial Information.

We have adjusted the financial data of Dopaco and Graham Packaging for the periods presented by applying IFRS in all material respects to such financial data.

Summary Unaudited RGHL Combined Group Pro Forma Financial Information

	RGHL Combined Group(1)		
	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012 (IFRS)	
	(In \$ million)

(1) Refer to Unaudited Pro Forma Combined Financial Information for details regarding the basis of preparation and description of the pro forma adjustments.

(2) RGHL Combined Group EBITDA is defined as profit (loss) from continuing operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and amortization of intangible assets. EBITDA is not a measure of our financial condition, liquidity or profitability and should not be considered as a substitute for profit (loss) from continuing operations for the period, operating profit or any other performance measures derived in accordance with IFRS or as a substitute for cash flow from operating

Edgar Filing: BRPP LLC - Form F-4/A

activities as a measure of our liquidity in accordance with IFRS. Additionally, EBITDA is not intended to be a measure of free cash flow, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax

Table of Contents

payments and capital expenditures. We believe that the inclusion of EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA identically, this presentation of the RGHL Combined Group EBITDA may not be comparable to other similarly titled measures used by other companies. The following table reconciles the RGHL Combined Group EBITDA calculation presented above to the RGHL Combined Group profit (loss) from continuing operations for the periods presented:

	RGHL Combined Group(1)		
	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (IFRS) 2012	
	(In \$ million)		
Profit (loss) from continuing operations before non-recurring charges directly attributable to the Pro Forma Transactions	\$ (433)	\$ (379)	\$ 120
Income tax (benefit) expense	(25)	(27)	(29)
Net financial expenses	1,531	1,157	940
Depreciation and amortization	1,233	915	856
RGHL Combined Group EBITDA(2)	\$ 2,306	\$ 1,666	\$ 1,887

- (3) RGHL Combined Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Combined Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write downs and equity method profit not distributed in cash. Adjusted EBITDA is not a presentation made in accordance with IFRS, is not a measure of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) from continuing operations for the periods determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. See Risk Factors. Additionally, Adjusted EBITDA is not intended to be a measure of free cash flow, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present Adjusted EBITDA and other pro forma measures of Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate Adjusted EBITDA identically, this presentation of Adjusted EBITDA may not be comparable to the similarly titled measures of other companies. The

following table reconciles the RGHL Combined Group EBITDA calculation presented above to the RGHL Combined Group Adjusted EBITDA for the periods presented:

	RGHL Combined Group		
	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (IFRS)	2012
	(In \$ million)		
RGHL Combined Group EBITDA	\$ 2,306	\$ 1,666	\$ 1,887
Asset impairment charges(a)	15	13	26
Business acquisition and integration costs(b)	59	30	37
Business interruption costs (net of recoveries)(c)	2	2	1
Equity method profit not distributed in cash(d)	(10)	(9)	(12)
Fixed asset write-down(e)			10
Gain on modification of retiree medical plan benefits(f)	(25)	(18)	
Gain on sale of businesses(g)	(5)	(5)	(66)
Impact of purchase price accounting on inventories(h)	33	32	
ITR agreements(i)	13	13	
Manufacturing plant fire, net of insurance recoveries(j)			11
Non-cash inventory charge(k)	3	3	9
Non-cash pension income(l)	(42)	(31)	(37)
Operational process engineering related consultancy costs(m)	42	34	18
Restructuring costs(n)	93	85	48
SEC registration costs(o)	6	2	7
Unrealized (gain) loss on derivatives(p)	26	26	(17)
VAT and customs duties on historical imports(q)	1	6	(1)
Other(r)	12	12	(5)
RGHL Combined Group Adjusted EBITDA	\$ 2,529	\$ 1,861	\$ 1,916

(a) Reflects impairment charges relating to the write-down of non-current assets to their recoverable amount in the RGHL Group and Graham Packaging.

(b) Reflects costs incurred by the RGHL Group related to business acquisitions and integrations.

(c) Reflects business interruption costs (net of insurance recoveries) as a result of natural disasters at various plants.

(d) Reflects adjustments to deduct equity accounted results of joint ventures to the extent that they are not distributed in cash.

(e) Reflects the adjustment to correct certain of RGHL Group's fixed assets.

(f) Represents the gain from modification of retiree medical plan benefits.

Edgar Filing: BRPP LLC - Form F-4/A

- (g) For the year ended December 31, 2011, the gain on sale of business was \$5 million, on disposal of one of Closures European businesses. For the nine months ended September 30, 2012, the gain on sale of business was \$66 million on disposal of Pactiv Foodservice's laminating operations in Louisville, Kentucky.
- (h) Reflects the fair value adjustment to inventories as a result of the purchase price accounting exercise against cost of sales.
- (i) Reflects amounts in respect of the ITR agreements, which were accrued for by Graham Packaging prior to and unrelated to the consummation of the Graham Packaging Acquisition.

Table of Contents

- (j) Reflects business interruption costs at Pactiv Foodservice in 2012 as a result of fire damage at its manufacturing plant in Moorehead, Minnesota.
- (k) Reflects non-cash charges related to the alignment of inventory standard costs at the Pactiv Foodservice and Reynolds Consumer Products segments as a result of the Pactiv Acquisition.
- (l) Reflects non-cash pension income included in the results of operations.
- (m) Reflects consulting fees incurred at our SIG, Reynolds Consumer Products and Pactiv Foodservice segments to optimize business processes, including the purchase of raw material and other inputs.
- (n) Reflects restructuring costs relating to cost saving programs associated with implementing workforce reductions and plant closures.
- (o) Reflects costs incurred by the RGHL Group related to the SEC registration process.
- (p) Reflects the adjustments for unrealized gains or losses on derivatives.
- (q) Reflects customs duties and VAT on historical imports (net of provision reductions).
- (r) Other items include Graham Packaging reorganization costs, Dopaco employee benefit plan modification costs, insurance claims and proceeds received from patent use claims.
- (4) For purposes of calculating the pro forma ratio of earnings to fixed charges, earnings represent income before income taxes from continuing operations before adjustments for minority interests and equity from affiliates plus fixed charges and distributed income of equity investees. Fixed charges include the sum of (a) interest expensed and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, and (c) an estimate of the interest within rental expense. This ratio does not have the same definition as any similarly titled ratio with respect to the notes. For certain of the periods presented, the ratio coverage was less than 1.0x. The RGHL Combined Group would have needed to generate additional earnings of \$473 million and \$418 million for the year ended December 31, 2011 and for the nine months ended September 30, 2011, respectively, to achieve a coverage of 1.0x.

Derived from the interim unaudited condensed financial statements of the RGHL Group.

- (1) RGHL Group EBITDA is defined as profit (loss) from continuing operations before income tax expenses, net financial expenses, depreciation of property, plant and equipment and amortization of intangible assets. EBITDA is not a measure of our financial condition, liquidity or profitability and should not be considered as a substitute for profit (loss) for the year, operating profit or any other performance measures derived in accordance with IFRS or as a substitute for cash flow from operating activities as a measure of our liquidity in accordance with IFRS. Additionally, EBITDA is not intended to be a measure of free cash flow, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA identically, this presentation of the RGHL Group EBITDA may not be comparable to other similarly titled measures of other companies.
- (2) RGHL Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write downs and equity method profit not distributed in cash.

Adjusted EBITDA is not a presentation made in accordance with IFRS, is not a measure of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. See Risk Factors. Additionally, Adjusted EBITDA is not intended to be a measure of free cash flow, as it does not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present Adjusted EBITDA and other pro forma measures of Adjusted EBITDA because investors, analysts and rating agencies consider these

* Represents data for the SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice segments. Reynolds Consumer Products and Pactiv Foodservice include data for our Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010.

** Includes the operations of Dopaco for the period from May 2, 2011 to December 31, 2011 and Graham Packaging for the period from September 8, 2011 to December 31, 2011.

Table of Contents

*** Represents nine months of operations for the SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice segments and includes the operations of Dopaco for the period from May 2, 2011 to September 30, 2011 and Graham Packaging for the period from September 8, 2011 to September 30, 2011.

**** Represents nine months of operations for the SIG, Evergreen, Closures, Reynolds Consumer Products, Pactiv Foodservice and Graham Packaging segments.

Derived from the audited financial statements of the RGHL Group.

Derived from the interim unaudited condensed financial statements of the RGHL Group.

- (a) Reflects impairment charges relating to the write-down of non-current assets to their recoverable amount, predominantly in relation to the sale of a plant in Venezuela at Evergreen in 2009, impairment charges relating to the write-down of property, plant and equipment and intangible assets to their recoverable amount in relation to the sale or closure of certain of Pactiv Foodservice's operations in 2010 and 2011, impairment charges relating to the write-down of investment properties at SIG in 2011, and impairment charges at Pactiv Foodservice and Graham Packaging during the nine month period ended September 30, 2012.
- (b) Reflects tax credits, net of related expenses, received for the use of alternative fuel mixtures to produce energy to operate the Evergreen business during the 2009 and 2010 years. See Operating and Financial Review and Prospects.
- (c) Reflects costs incurred by the RGHL Group related to business acquisitions and integrations.
- (d) Reflects business interruption costs (net of insurance recoveries) as a result of natural disasters at various plants.
- (e) Reflects change of control payments to former Graham Packaging employees.
- (f) Reflects the difference between the net assets acquired and consideration paid on the acquisition of Closure Systems International Americas Inc. (see note 33 of the RGHL Group's audited financial statements as of and for the year ended December 31, 2011).
- (g) Reflects the impact of the elimination of the historical hedging policy in 2009.
- (h) Reflects adjustments to deduct equity accounted results of joint ventures to the extent that they are not distributed in cash, as disclosed in the reconciliation of the profit for the period with the net cash from operating activities of the RGHL Group's audited financial statements as of and for the years ended December 31, 2009, 2010 and 2011 and the RGHL Group's interim unaudited condensed financial statements as of September 30, 2012 and for the nine month periods ended September 30, 2011 and 2012.
- (i) Reflects the adjustment to correct certain of the RGHL Group's fixed assets.
- (j) Represents the gain from modification of retiree medical plan benefits.

- (k) Reflects a total gain on sale of businesses of \$16 million for the year ended December 31, 2010, comprised of \$8 million on disposal of the Reynolds foodservice packaging business's interest in its envelope window film operations, \$6 million on other business disposals and the gain on sale of investment properties of \$2 million at SIG. For the year ended December 31, 2011, the gain on sale of business was \$5 million on disposal of one of Closures' European businesses. For the nine months ended September 30, 2012, the gain on sale of business was \$66 million on disposal of Pactiv Foodservice's laminating operations in Louisville, Kentucky.
- (l) Reflects the fair value adjustment to inventories as a result of the purchase price accounting exercise against cost of sales.
- (m) Reflects business interruption costs at Pactiv Foodservice in 2012 as a result of fire damage at its manufacturing plant in Moorhead, Minnesota.
- (n) Reflects non-cash charges related to the alignment of inventory standard costs at the Pactiv Foodservice and Reynolds Consumer Products segments as a result of the Pactiv Acquisition.
- (o) Reflects non-cash pension expense or income included in the results of operations.
- (p) Reflects consulting fees incurred at our Evergreen, Reynolds Consumer Products and Pactiv Foodservice segments to optimize business processes, including the purchase of raw material and other inputs.

Table of Contents

- (q) Reflects an expense for management fees relating to executives of Evergreen.

- (r) Reflects restructuring costs relating to cost saving programs associated with implementing workforce reductions and plant closures, as disclosed in note 10 of the RGHL Group's audited financial statements as of December 31, 2011 and note 8 of the RGHL Group's interim unaudited condensed financial statements as of September 30, 2012 and for the nine month periods ended September 30, 2011 and 2012.

- (s) Reflects costs incurred by the RGHL Group related to the SEC registration process.

- (t) Reflects amounts paid to settle the termination of a supply contract at Pactiv Foodservice.

- (u) Reflects incremental costs incurred by the RGHL Group associated with transitioning the Reynolds consumer products business from Alcoa, including costs related to IT systems and duplicative shared services during the transition period.

- (v) Reflects the adjustments for unrealized gains or losses on derivatives.

- (w) Reflects customs duties and VAT on historical imports.

- (x) Other items include insurance claims, a loss on sale of a business, plant realignment costs, the write-off of certain receivables, and proceeds received from patent use claims.

- (3) For purposes of calculating the ratio of earnings to fixed charges, earnings represent income before income taxes from continuing operations before adjustments for minority interests and equity from affiliates plus fixed charges and distributed income of equity investees. Fixed charges include the sum of (a) interest expensed and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, and (c) an estimate of the interest within rental expense. This ratio does not have the same definition as any similarly titled ratio with respect to the notes. For certain periods presented where the ratio coverage was less than 1.0x, the RGHL Group would have needed to generate additional earnings of \$34 million, \$488 million, \$463 million and \$229 million for the years ended December 31, 2010 and 2011 and for the nine months ended September 30, 2011 and 2012, respectively, to achieve a coverage of 1.0x.

Table of Contents

RISK FACTORS

You should carefully consider the following risk factors, in addition to the other information presented in this prospectus, including all the financial statements and related notes, in evaluating our business and an investment in the notes. Any of the following risks, as well as other risks and uncertainties, could harm our business and financial results and cause the value of the notes to decline, which in turn could cause you to lose all or part of your investment. The risks below are not the only ones facing our company. Additional risks not currently known to us or that we currently deem immaterial also may materially and adversely impact our business, financial condition or results of operations.

Risks Related to Our Business

The RGHL Group's lack of an operating history as a single company combining all of the RGHL Group's segments, including the businesses of Dopaco and Graham Packaging, and the challenge of integrating previously independent businesses make evaluating our business and our future financial prospects difficult.

The RGHL Group's lack of an operating history as a single company combining all of the RGHL Group's segments, including the businesses of Pactiv, Dopaco and Graham Packaging, makes evaluating our business and our future financial prospects difficult. Our potential for future business success and operating profitability must be considered in light of the risks, uncertainties, expenses and difficulties typically encountered by recently organized or combined companies.

In this prospectus, we have presented financial statements and financial information of the RGHL Group, Pactiv, Dopaco and Graham Packaging.

Although the financial statements of the RGHL Group included in this prospectus reflect the operations of our SIG, Evergreen and Closures segments and the operations of our Reynolds foodservice packaging business and Reynolds consumer products business, which are part of our Pactiv Foodservice and Reynolds Consumer Products segments, respectively, we did not operate these businesses during all of the periods presented, even though they are presented as combined in the RGHL Group's financial statements. These businesses have been under common ownership and control through entities ultimately 100% owned by Mr. Graeme Hart for several years. However, these businesses were not owned, directly or indirectly, by a single company that consolidated their financial results or managed them on a combined basis prior to the completion of the Reynolds Foodservice Acquisition on September 1, 2010.

In addition, the RGHL Group's financial statements reflect the operations of our Pactiv foodservice packaging and Hefty consumer products businesses only from November 16, 2010.

We acquired Dopaco on May 2, 2011 and, as a result, its results are only reflected in the RGHL Group's financial statements from May 2, 2011.

We acquired Graham Packaging on September 8, 2011 and, as a result, its results are only reflected in the RGHL Group's financial statements from September 8, 2011.

Our unaudited pro forma combined financial information is not intended to reflect what our actual results of operations and financial condition would have been had the RGHL Group been a consolidated company with Pactiv, Dopaco and Graham Packaging for the periods presented, and therefore these results may not be indicative of our future operating performance.

Because we acquired Graham Packaging on September 8, 2011, Dopaco on May 2, 2011 and Pactiv on November 16, 2010, our historical financial information does not consolidate the financial results for the RGHL Group, Graham Packaging, Dopaco and Pactiv for all the periods presented. The financial results of Graham Packaging, Dopaco and Pactiv are only reflected in the historical financial statements of the RGHL Group from the dates they were acquired by RGHL. The historical financial statements consist of the financial statements of the RGHL Group, the separate financial statements of Pactiv for periods prior to the Pactiv Transaction, the separate financial statements for Dopaco prior to the Dopaco Acquisition and the separate financial statements

Table of Contents

and financial information for Graham Packaging prior to the Graham Packaging Acquisition, each included elsewhere in this prospectus. In addition, Pactiv's, Dopaco's and Graham Packaging's historical financial statements included elsewhere in this prospectus are presented in accordance with U.S. GAAP, which differs in certain respects from IFRS, the accounting principles used by the RGHL Group.

The unaudited pro forma combined financial information presented in this prospectus is for illustrative purposes only and is not intended to, and does not purport to, represent what our actual results or financial condition would have been if each of the Pro Forma Transactions had occurred on the relevant dates. The unaudited pro forma combined financial information has been prepared using the purchase method of accounting, pursuant to which the purchase price in connection with acquisitions is required to be allocated to the

underlying tangible and intangible assets acquired and liabilities assumed based on their respective fair market values as of the date of the acquisition, with any excess purchase price allocated to goodwill.

In addition, the RGHL Group incurred costs associated with completing the Graham Packaging Acquisition and the Pactiv Acquisition. We incurred approximately \$130 million of additional cash outlays to achieve the expected cost savings and synergies from the Pactiv Acquisition. We expect to incur approximately \$75 million of cash outlays by the end of 2013 to achieve the expected cost savings and synergies from the Graham Packaging Acquisition of which we have incurred \$36 million from the date of the acquisition to September 30, 2012. We expect to incur approximately \$22 million of cash outlays by the end of 2012 to achieve the expected costs savings and synergies from the Dopaco Acquisition, of which we have incurred \$21 million from the date of acquisition to September 30, 2012. Because these future cash outlays are not recurring and certain costs are capital in nature, they are not reflected in the unaudited pro forma combined income statements included elsewhere in this prospectus. Accordingly, the historical and pro forma financial information included in this prospectus does not reflect what the RGHL Group's results of operations and financial condition would have been had the RGHL Group been a consolidated entity with Pactiv, Dopaco and Graham Packaging during all periods presented, or what our results of operations and financial condition will be in the future.

Other important information about the presentation of our financial information is included under the heading **Summary Presentation of Financial Information**. Although EBITDA, along with Adjusted EBITDA, as the case may be, is derived from the financial statements of the RGHL Group, Pactiv, Dopaco and Graham Packaging, the calculation of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and may differ materially from actual results. For example, raw materials pricing, synergies, cost savings and the determination of foreign currency conversions contain significant estimates and assumptions. Although we believe these estimates and assumptions are reasonable and correct, investors should not place undue reliance upon Adjusted EBITDA as an indicator of current and future performance given how it is calculated and the possibility that actual results may differ from the underlying estimates and assumptions.

Our business and financial performance may be harmed by future increases in raw material, energy and freight costs.

Raw material costs historically have represented a significant portion of our cost of sales, so changes in raw material prices may impact our results of operations. The primary raw materials used to manufacture our products are resin (particularly high-density polyethylene, or HDPE, polypropylene, or PP, polyethylene, or PE, polystyrene, or PS, and polyethylene terephthalate, or PET), aluminum, fiber (principally raw wood and wood chips) and paperboard (principally cartonboard and cupstock). The prices of our raw materials, particularly resin, have fluctuated significantly in recent years. See **Operating and Financial Review and Prospects Key Factors Influencing our Financial Condition and Results of Operations Raw Materials and Energy Prices**.

Fluctuations in raw material costs can adversely affect our business because most of our purchases of raw materials are based on negotiated rates with suppliers, which are tied to published indices. While we sometimes enter into hedging agreements for some of our raw materials and energy sources, such as aluminum, resins and natural gas, to minimize the impact of such fluctuations, we generally have not entered into hedging arrangements for other raw materials and energy sources. In addition, we typically do not enter into long-term purchase contracts that provide for fixed quantities or prices for our principal raw materials. Although our

Table of Contents

revenue is directly impacted by changes in raw material costs as a result of raw material cost pass-through mechanisms in many of the customer pricing agreements entered into by each of our segments other than our SIG segment and branded products, which represent the majority of aluminum foil products sold by our Reynolds Consumer Products segment, the contractual price adjustments do not occur simultaneously with commodity price fluctuations, but rather on a mutually agreed upon schedule. Due to differences in timing between purchases of raw materials and sales to customers, there is often a lead-lag effect, during which margins are negatively impacted in periods of rising raw material costs and positively impacted in periods of falling raw material costs. Even where our contracts provide for price adjustments based on changes in raw material costs, such adjustments are not immediate and may not fully offset our increased costs. We also use price increases, where possible, to mitigate the effect of raw material cost increases for customers that are not subject to raw material cost pass-through agreements. However, there is no assurance that increases in raw material costs may be covered by increases in pricing. As a result, we often are not able to pass on price increases to our customers on a timely basis, if at all, and consequently do not always recover the lost margin resulting from the price increases. Moreover, an increase in the selling prices for the products we produce resulting from a pass-through of increased raw material costs or freight costs could have an adverse impact on the volume of units we sell and decrease our revenue.

In addition to our dependence on primary raw materials, we are also dependent on different sources of energy for our operations, such as coal, fuel oil, electricity and natural gas. In particular, our Evergreen segment is susceptible to price fluctuations in natural gas, as it incurs significant natural gas costs to convert raw wood and wood chips to paper products and liquid packaging board. Historically, we have been able to mitigate the effect of higher energy-related costs with productivity improvements and other cost reductions. However, there is no assurance that we can sustain the level of productivity improvements and cost reduction measures in the future. In addition, if some of our large contracts were to be terminated for any reason or not renewed upon expiration, or if market conditions were to substantially change resulting in a significant increase in the price of coal, fuel oil, electricity and/or natural gas, we may not be able to find alternative, comparable suppliers or suppliers capable of providing coal, fuel, electricity and/or natural gas on terms or in amounts satisfactory to us. As a result of any of these events, our business, financial condition and operating results may suffer.

We are also dependent on third parties for the transportation of both our raw materials and the products we sell. In certain jurisdictions, we are exposed to import duties and freight costs, the latter of which is influenced by carrier availability and the fluctuating costs of oil and other transportation costs.

Our operating results depend upon a steady supply of wood fiber and any impairment in our ability to procure wood fiber at cost-effective prices may adversely affect our business, financial condition and operating results.

Evergreen does not own or control any timberlands and must buy its fiber either through supply agreements or on the open market. One of Evergreen's supply agreements for wood fiber, which expires on May 14, 2014, currently accounts for 22% of its total requirements for the supply of wood chips and the prices that Evergreen pays for wood fiber under that agreement at any particular time may be greater or less than spot market prices. Evergreen also has agreements with numerous other suppliers to purchase wood fiber at market prices. If any of these agreements were to be terminated for any reason, or not renewed upon expiration, or if market conditions were to substantially change, we may not be able to find alternative, comparable suppliers or suppliers capable of providing our wood fiber needs on terms or in amounts satisfactory to us. As a result, our business, financial condition and operating results could suffer.

In addition, the cost and availability of wood fiber have at times fluctuated greatly because of weather, economic or general industry conditions. From time to time, timber harvesting may be limited by natural events, such as fire, insect infestation, disease, ice storms, excessive rainfall and windstorms, or by harvesting restrictions. Production levels within the forest products industry are also affected by such factors as currency fluctuations, duties and finished lumber prices. All of these factors can increase the price we pay for wood fiber from our existing suppliers or from any new suppliers and we may not be able to immediately pass on raw material price increases to our customers, if at all. Due to differences in the timing of the pricing mechanism trigger points between our sales and purchase contracts, there is often a lead-lag impact during which margins are

Table of Contents

negatively impacted for the short term in periods of rising raw material prices and positively impacted in periods of falling raw material prices. Therefore, selling prices of our finished products may not increase in response to raw material price increases. Our operating results may be materially and adversely affected if we are unable to pass through any raw material price increases to our customers.

We depend on a small number of suppliers for our raw materials and any interruption in our supply of raw materials would harm our business and financial performance.

Most of our raw material requirements are sourced from a relatively small number of suppliers. In addition, we do not have written contracts with some of our suppliers and many of our contracts can be terminated on short notice. As a consequence, we are highly dependent on these suppliers for an uninterrupted supply of our key raw materials. Such supply could be disrupted for a wide variety of reasons, many of which are beyond our control. Any interruption in the supply of raw materials could have an adverse impact on our business and results of operations. In addition, SIG relies on a small number of suppliers for its cartonboard requirements for its aseptic carton packaging business. Specifically, SIG purchases nearly all of its cartonboard requirements from Stora Enso Oyj. SIG has purchased cartonboard from Stora Enso Oyj for several years, generally pursuant to written contracts, but from time to time without a written contract in place. SIG's current contract with Stora Enso Oyj expires on December 31, 2013. However, if Stora Enso Oyj is unwilling or unable to supply cartonboard to SIG at any time and SIG is unable to obtain a replacement supplier or manufacturer within a reasonable amount of time, SIG may experience a significant interruption in its production of aseptic carton packaging sleeves, which may adversely affect our business and results of operations.

Our ability to expand our operations could be adversely affected if we lose access to additional blow molding equipment.

Graham Packaging's access to blow molding equipment is important to its ability to expand its operations. Graham Packaging has access to a broad array of blow molding equipment and suppliers. However, if we fail to continue to have access to this new blow molding equipment or these suppliers, our ability to expand our operations may be materially and adversely affected until alternative sources of technology can be arranged.

Our business and financial performance may be adversely affected by downturns in the target markets that we serve.

Many of our products are packaging for products manufactured by other companies, so demand for our products is directly affected by consumer consumption of the products sold in the packages we produce. General economic conditions affect consumption in SIG's, Evergreen's, Closures and Graham Packaging's primary end-use markets, including beverage products, such as milk, other dairy products, juices, bottled water and carbonated and non-carbonated soft drinks, as well as the liquid food market and other packaged consumer products. Reynolds Consumer Products depends on the market conditions in the retail industry and consumer demand for its products, such as aluminum foil, wraps, and bags, which are also affected by general economic conditions. Similarly, demand for our Pactiv Foodservice products depends on the market conditions in the foodservice industry and consumer demand for their products.

Downturns or periods of economic weakness or increased prices in these consumer markets have resulted in the past, and could result in the future, in decreased demand for our products. In particular, our business has been in the past, and could be in the future, adversely affected by any economic downturn that results in difficulties for any of our major customers, including retailers. For example, the continuing uncertainty about future economic conditions globally, and in the United States and Europe in particular, could negatively impact our customers and adversely affect our results of operations. These conditions are beyond our control and may have an impact on our sales and results of operations. Macro-economic issues involving the broader financial markets, including the housing and credit systems and general liquidity issues in the securities markets, have negatively impacted the economy and may negatively affect our growth. In addition, weak economic conditions and declines in consumer spending and consumption have in the past harmed, and may in the future harm, our operating results. For example, during the latter part of 2008, melamine contamination in China impacted a significant number of milk products; as a result, consumer confidence within the Chinese market significantly declined, resulting in lower

Table of Contents

milk sales. In Russia, the recent economic downturn significantly reduced the demand for liquid packaging in the juice division in 2009. In the United States, the economic downturn also reduced demand for branded consumer products such as waste and storage bags, with customers shifting towards purchases of lower priced store branded products.

Increased competition could reduce our sales and profitability and adversely affect our financial condition and results of operations.

All of our segments operate in highly competitive markets. Some of our segments, such as SIG and Evergreen, operate in markets with a limited number of key global competitors. Certain of those competitors have a significantly higher market share than we do globally or in the geographic markets in which we compete and may have substantially greater financial and other resources than we do. The global beverage caps and closures market is highly fragmented, with Closures being one of a relatively small number of key global participants. Reynolds Consumer Products faces significant competition in all of its product lines from numerous national and regional companies of various sizes and cost structures. The foodservice market is also highly fragmented, with Pactiv Foodservice being one of the few participants with a product range that spans most of the foodservice product categories. Some competitors offer a more specialized variety of packaging materials and concepts and may serve more geographic regions through various distribution channels. Graham Packaging has a significant market share in rigid blow-molded plastic containers in North America but faces increasing competition in the market.

We believe that the aseptic and fresh carton packaging, paper and beverage caps and closures businesses are highly competitive, and product pricing is a key competitive factor. Besides product pricing, we also compete by offering customers volume rebates, marketing allowances and extended payment terms for purchases of our filling machines. As a result, unless we are able to control our operating costs, our gross margin may be adversely affected. In 2008, as a result of competitive pricing, one of Closures' major customers significantly reduced its purchasing of beverage caps and closures from us in the United States, which adversely affected Closures' business and results of operations. It is possible that we will lose additional customers in the future, which would adversely affect our business and results of operations.

Although capital costs in many of our businesses, particularly in the aseptic and fresh carton packaging and beverage caps and closures industries, are high and there are intellectual property and technological barriers to entry, we also face the threat of competition in the future from new entrants from other segments in the packaging market or outside the packaging market, as well as from existing suppliers. We also face potential competition, particularly in emerging markets like Russia and East Asia, from companies that supply carton sleeves to customers who already own filling machines. These competitors do not incur the capital costs associated with the production and supply of filling machines and are, therefore, able to provide carton sleeves at a lower cost. As a result, to the extent there are new entrants, it may become difficult for us to increase or even maintain our prices. In addition to other aseptic and fresh carton packaging suppliers, our aseptic and fresh carton packaging businesses also face competition from packaging made from PET and other substrates. The prices that we can charge for our products and systems are therefore constrained by the availability and cost of substitutes. For example, in the German market, PET substitution in the juice segment has impacted adversely our results of operations. Some customers or potential customers of our caps and closures business, especially in emerging markets, might explore the option to self-manufacture caps and closures, which may adversely affect our financial condition and results of operations.

We also compete in the paper, cup stock and ovenable packaging board markets. Some of our competitors in these markets have lower costs than we do and may be less adversely affected than we are by price declines or by increases in raw material costs. In addition, several of our competitors in these markets have significantly greater financial and other resources and a lower product cost basis than we have and thus can better withstand adverse economic or market conditions. Moreover, changes within the paper industry have occurred, including the consolidation of producers of products that compete with us and consolidation within the distribution channels for our products, and may continue to occur, and may adversely affect our business and financial performance.

Reynolds Consumer Products is subject to intense competition in a marketplace dominated by large retailers. We compete with diverse manufacturers of consumer products including large and well established

Table of Contents

multinational companies, as well as regional and local companies. Our principal customers are grocery stores, mass-merchants, clubs, discount stores and drug stores. The rapid growth of these large retailers, together with changes in consumer purchasing patterns, have contributed to the formation of dominant multi-category retailers that have strong negotiating power with suppliers. Current trends among such retailers include fostering high levels of competition among suppliers, demanding innovative new products from suppliers and requiring suppliers to maintain or reduce product prices and deliver products with shorter lead times. Other trends include consumers shifting purchasing channels by moving away from grocery stores and towards clubs and mass-merchants and retailers importing products directly from foreign sources and sourcing and selling products under their own store brands, which compete with our Reynolds and Hefty branded products.

Pactiv Foodservice is subject to intense competition mainly from significantly smaller competitors, many of whom have lower fixed costs. Certain competitors offer a more specialized variety of packaging materials and concepts. Our success in obtaining business in the foodservice market is driven primarily by our breadth of product offerings, price, product features, performance, speed to market, distribution capabilities and value-added services.

Graham Packaging operates in a competitive environment. In the past, Graham Packaging has encountered pricing pressures in its markets and could experience further declines in prices of plastic packaging as a result of competition. Although Graham Packaging has been able over time to partially offset pricing pressures by reducing its cost structure and making the manufacturing process more efficient, Graham Packaging may not be able to continue to do so in the future.

The combination of these market influences has created an intensely competitive environment in which our customers continuously evaluate their suppliers, often resulting in downward pricing pressures and the need for large, consumer-meaningful brands, continuous introduction and commercialization of innovative new products, continuing improvements in customer service and the maintenance of strong relationships with large, high-volume purchasers. We also face intense competition from consumer product companies, as most of our products compete with other widely advertised brands within each product category and with store branded products. We also face the risk of changes in the strategy or structure of our major retailer customers, such as overall store and inventory reductions and retailer consolidation. The intense competition in the retail sector combined with the current economic environment may result in a number of retailers experiencing financial difficulty or failing in the future. As a result of these factors, we may experience reduced sales and profitability and a limited ability to recover our cost increases through price increases.

We are affected by seasonality and cyclicity in certain of our businesses.

Demand for beverages and consequently the related packaging, caps and closures, may be affected by adverse weather conditions, especially during the summer months when prolonged periods of unseasonably cool or wet weather in a particular market may affect sales volumes and therefore our financial condition and the results of our operations. In addition, demand for our consumer products, and in some instances our packaging products, typically increases during the holiday season which leads to increased sales in the fourth quarter, and our school milk carton business is typically stronger during the North American school semesters and decreases during the holiday periods.

The market for non-packaging paper products, such as Evergreen's coated groundwood or uncoated free sheet products, is highly cyclical and sensitive to changes in general business conditions, industry capacity, consumer preferences and other factors. We have no control over these factors and they can significantly influence our financial performance. Many of our products in the paper segment are commodities and thus are readily substitutable and are subject to robust competition. The prices for our products may fluctuate substantially in the future, and continued or sustained weakness in prices or continued or sustained downturns in market conditions could have a material adverse effect on our business, financial condition and operating results.

Table of Contents

Our business and financial performance may be harmed by changes in consumer lifestyle, eating habits, nutritional preferences and health-related and environmental concerns.

Many of our products are used by consumers in connection with food or beverage products. Any reduction in consumer demand for these product types as a result of lifestyle, environmental, nutritional or health considerations could have a significant impact on our customers and hence on our financial condition and results of operations. For example, there have been recent concerns about the environmental impact resulting from the manufacturing, shipping and/or disposal of resin-based products, such as plastic water bottles and polystyrene containers and packaging that are considered harmful to the environment by consumers. Product stewardship and resource sustainability concerns, including the recycling of products and product packaging and restrictions on the use of potentially harmful materials in products, have received increased attention in recent years and are likely to play an increasing role in brand management and consumer purchasing decisions. In addition, changes in consumer lifestyle, such as the gradual decline of home cooking, may result in decreasing demand for certain of our consumer products and increasing demand for our foodservice products. Our financial position and results of operations might be adversely affected to the extent that such environmental concerns or changes in consumer lifestyle reduce demand for our products.

If Reynolds Consumer Products does not continue to develop and maintain brands that are meaningful to consumers, our results of operations may suffer.

The ability of Reynolds Consumer Products to compete successfully increasingly depends on its ability to develop and maintain brands that are meaningful to consumers. The development and maintenance of such brands requires significant investment in product innovation, brand-building, advertising and marketing initiatives. Reynolds Consumer Products focuses on developing innovative products to address consumers' unmet needs as well as introducing store branded products that emulate other popular branded consumer products and may increase its expenditures for advertising and other brand-building or marketing initiatives. However, these initiatives may not deliver the desired results which could adversely affect our business.

If we fail to maintain satisfactory relationships with our major customers, our results of operations could be adversely affected.

Many of our customers are large and possess significant market leverage, which results in significant downward pricing pressure, and generally constrains our ability to pass through price increases. SIG's, Evergreen's and Closures' products are sold under multi-year supply agreements with many of their customers, while Reynolds Consumer Products generally sells its branded products pursuant to informal trading policies and its store branded products under one year or multi-year agreements. Pactiv Foodservice sells the majority of its products under agreements ranging from a few months to one year, with the balance sold pursuant to purchase orders or informal trading policies. In addition, we do not have written agreements with some of our customers and many of our agreements can be terminated on short notice. Graham Packaging's sales are made pursuant to long-term customer purchase orders and contracts which typically vary in length with terms up to ten years. The contracts are requirements contracts which do not obligate the customer to purchase any given amount of product from Graham Packaging. Prices under Graham Packaging's arrangements are tied to market standards and therefore vary with market conditions. SIG, Evergreen and Closures typically offer their major customers a variety of incentives to purchase their filling and capping machines or lease their filling machines. If our major customers reduce purchasing volumes or stop purchasing our products, our business and results of operations would likely be adversely affected. For example, in 2008, one of Closures' major customers significantly reduced its purchasing of beverage caps and closures from us in the United States, which adversely affected Closures' business and results of operations. It is possible that we will lose customers in the future, which may adversely affect our business and results of operations.

We could incur significant costs in complying with environmental, health and safety laws or permits or as a result of satisfying any liability or obligation imposed under such laws or permits.

Our operations are subject to various federal, state, local and foreign environmental, health and safety laws and regulations. Among other things, these laws regulate the emission or discharge of materials into the

Table of Contents

environment, govern the use, storage, treatment, disposal and management of hazardous substances and wastes, protect the health and safety of our employees and the end-users of our products, regulate the materials used in and the recycling of products and impose liability for the costs of investigating and remediating, and damages resulting from, present and past releases of hazardous substances. Violations of these laws and regulations or non-compliance with any conditions contained in any environmental permit can result in substantial fines or penalties, injunctive relief, requirements to install pollution or other controls or equipment, civil and criminal sanctions, permit revocations and/or facility shutdowns. We could be held liable for the costs to address contamination of any real property we have ever owned, operated or used as a disposal site. We also could incur fines, penalties, sanctions or be subject to third-party claims for property damage, personal injury or nuisance or otherwise as a result of violations of or liabilities under environmental laws or in connection with releases of hazardous or other materials. In addition, changes in, or new interpretations of, existing laws, regulations or enforcement policies, the discovery of previously unknown contamination, or the imposition of other environmental liabilities or obligations in the future, including additional investigation or other obligations with respect to any potential health hazards of our products or business activities or the imposition of new permit requirements, may lead to additional compliance or other costs that could have a material adverse effect on our business, financial condition or results of operations.

Moreover, as environmental issues, such as climate change, have become more prevalent, federal, state and local governments, as well as foreign governments, have responded, and are expected to continue to respond, to these issues with increased legislation and regulation, which could negatively affect us. For example, the United States Congress has considered legislation to reduce emissions of greenhouse gases. In addition, the United States Environmental Protection Agency, or EPA, is regulating certain greenhouse gas emissions under existing laws such as the Clean Air Act. These and other foreign, federal and state climate change initiatives may cause us to incur additional direct costs in complying with new environmental legislation or regulations, such as costs to upgrade or replace equipment, as well as increased indirect costs resulting from our suppliers, customers or both incurring additional compliance costs that could get passed through to us or impact product demand. Additionally, the EPA is continuing the development of other new standards and programs that may be applicable to our operations. For example, the EPA has issued but is currently reconsidering regulations under the Clean Air Act governing emissions from industrial boilers. These or other rules promulgated in the future could result in additional material costs to us.

In addition, a number of governmental authorities, both in the United States and abroad, have considered, and are expected to consider, legislation aimed at reducing the amount of plastic wastes disposed. Programs have included, for example, mandating certain rates of recycling and/or the use of recycled materials, imposing deposits or taxes on plastic packaging material and requiring retailers or manufacturers to take back packaging used for their products. Legislation, as well as voluntary initiatives similarly aimed at reducing the level of plastic wastes, could reduce the demand for certain plastic packaging, result in greater costs for plastic packaging manufacturers or otherwise impact our business. Some consumer products companies, including some of our customers, have responded to these governmental initiatives and to perceived environmental concerns of consumers by using containers made in whole or in part of recycled plastic. Future legislation and initiatives could adversely affect us in a manner that would be material to our results of operations.

In early September 2012, we learned that emissions of Volatile Organic Compounds (VOC) from foil rolling operations at the Reynolds Consumer Products segment's Louisville, Kentucky facility may have been close to the annual limit imposed under the facility's air emissions permit. We voluntarily reported the emissions level to the Louisville Metro Air Pollution Control District (the LMAPCD) and, to avoid exceeding the annual limit under the facility's air emissions permit, ceased foil rolling operations at our Louisville facility on September 6, 2012 (other operations at the facility continued). We reached an agreement with the LMAPCD with regard to recommencing and continuing foil rolling operations, and on September 19, 2012, we recommenced all operations. The agreement will require incremental capital costs for the facility and other expenses that could reduce our operating margins and could involve penalties, similar costs or enforcement action imposed by the LMAPCD or other regulatory authorities, but we do not expect that their impact on our business, financial condition or results of operations will be material.

Table of Contents

Loss of any of our key manufacturing facilities could have an adverse effect on our financial condition or results of operations.

While we manufacture most of our products in a large number of diversified facilities, and maintain insurance covering these facilities, a loss of the use of all or a portion of any of our key manufacturing facilities due to an accident, labor issues, weather conditions, natural disaster or otherwise, may have a material adverse effect on our financial condition or results of operations. In addition, certain of our products are produced at only one location or at a small number of facilities, increasing the risks associated with a loss of use of such facilities. For example, after the consolidation of Reynolds Consumer Products' Richmond and Louisville manufacturing facilities in late 2009, we can only perform the foil rolling phase of our foil manufacturing process in our Louisville plant and the melting and casting phase in our Hot Springs facility. Loss or disruption of either of these two facilities would significantly interrupt our production process and adversely affect our business and results of operations. We recently ceased foil rolling operations at our Louisville plant for 13 days in order to avoid exceeding the annual limit under the plant's air emissions permit. This is the only facility at which we currently produce our foil products. Because we were able to recommence operations within a relatively short period of time, the impact of this event on our business was not material. However, an event that triggered a larger disruption of production at that facility could have a material adverse effect on our financial condition or results of operations. Additionally, we experienced a flood at our Louisville plant in 2009, which required us to suspend production at that facility for a short period of time. Similarly, we were affected by earthquakes in Chile in 2010 and Japan in 2011, which caused one of our Closures facilities to suspend its operations for approximately two months.

We may be unable to achieve some or all of the benefits that we expect to achieve from our restructuring and cost savings programs.

We may not be able to realize some or all of the cost savings and other adjustments we expect to achieve in the future as a result of our restructuring and cost savings programs in the time frame we anticipate. For a detailed description of these cost savings measures and other adjustments expected, refer to "Operating and Financial Review and Prospects." A variety of factors could cause us not to realize some of the expected cost savings, including, among others, delays in the anticipated timing of activities related to our cost savings programs, lack of sustainability in cost savings over time, unexpected costs associated with operating our business, our ability to eliminate duplicative back office overhead and redundant selling, general and administrative functions, obtain procurement related savings, rationalize our distribution and warehousing networks, rationalize manufacturing capacity and shift production to more economical facilities and our ability to avoid labor disruptions in connection with any integration, particularly in connection with any headcount reduction.

Our insurance may not protect us against business and operating risks.

We maintain insurance for some, but not all, of the potential risks and liabilities associated with our business. For some risks, we may not obtain insurance if we believe the cost of available insurance is excessive relative to the risks presented. As a result of market conditions, premiums and deductibles for certain insurance policies can increase substantially, and in some instances, certain insurance policies are economically unavailable or available only for reduced amounts of coverage. For example, we will not be fully insured against all risks associated with pollution and other environmental incidents or impacts. Moreover, we may not be able to maintain adequate insurance in the future at rates we consider reasonable or obtain or renew insurance against certain risks. Any significant uninsured liability may require us to pay substantial amounts which would adversely affect our cash position and results of operations.

We may be involved in a number of legal proceedings that could result in substantial liabilities for us.

We are involved in several legal proceedings. It is difficult to predict with certainty the cost of defense or the outcome of these proceedings and their impact on our business, including remedies or damage awards. The outcomes of these legal proceedings and other contingencies could require us to take or refrain from taking certain actions, which actions or inactions could adversely affect our operations or could require us to pay

Table of Contents

substantial amounts of money or restrict our operations. If liabilities or fines resulting from these proceedings are substantial or exceed our expectations, our business, financial condition or results of operations may be adversely affected.

Loss of our key management and other personnel, or an inability to attract new management and other personnel, could impact our business.

We depend on our senior executive officers and other key personnel to operate our businesses and on our in-house technical experts to develop new products and technologies and to service our customers. The loss of any of these officers or other key personnel could adversely affect our operations. Competition for qualified employees among companies that rely heavily on engineering and technology is intense, and the loss of qualified employees or an inability to attract, retain and motivate additional highly skilled employees required for the operation and expansion of our business could hinder our ability to conduct research and development activities successfully or develop and support marketable products.

Future government regulations and judicial decisions affecting products we produce or the products contained in or sealed with the packaging, caps or closures we produce could significantly reduce demand for our products.

Government regulations and judicial decisions that affect the products we produce or the products contained in or sealed with the packaging, caps or closures we produce could significantly reduce demand for our products. For example, German legislation has been passed that requires a deposit to be paid for certain disposable beverage packages. It is possible that in the future our products may become subject to such deposit requirements if the recycling of our products falls below acceptable thresholds. Future legislation could also limit the use of our products or impose certain taxes on the use of our products. Such legislation could significantly reduce demand for many of our products and adversely affect our sales.

Changes to health and food safety regulations could increase costs and may also have a material adverse effect on our sales if, as a result, the public's attitude towards our consumer products or the end products for which we provide packaging, caps or closures is substantially affected.

Significant consolidation among our customers or the loss of a significant customer could decrease demand for our products or our profitability.

Consolidation among our customers could adversely affect our profitability. We have observed that over the last ten years, there has been a trend toward consolidation among our customers in the food and beverage industry and in the retail and foodservice industries, and we expect that this trend will continue. In particular, consolidation among our customers could increase their ability to apply price pressure, and thereby force us to reduce our selling prices or lose sales, which would impact our results of operations. Following a consolidation, our customers in the food and beverage industry may also close production facilities or switch suppliers of packaging, caps or closures which could impact sales of our filling and capping machines and other products, while our customers in the retail industry may close stores, reduce inventory or switch suppliers of consumer products.

Additionally, Reynolds Consumer Products, Pactiv Foodservice and Graham Packaging rely on a relatively small number of customers for a significant portion of their revenue. In 2011, Reynolds Consumer Products' top ten customers accounted for approximately 67% of its revenue, with two customers accounting for approximately 27% and 13% of revenue. In 2011, Pactiv Foodservice's top ten customers accounted for approximately 45% of its revenue, with one customer accounting for approximately 12% of revenue. In 2011, Graham Packaging's top ten customers accounted for approximately 48% of its revenue. The loss of any of our significant customers could have a material adverse effect on our business, financial condition and results of operations.

Supply of faulty or contaminated products could harm our reputation and business.

We have control measures and systems in place to ensure the maximum safety and quality of our products is maintained. The consequences of not being able to do so, due to accidental or malicious raw material contamination, or

Table of Contents

due to supply chain contamination caused by human error or faulty equipment, could be severe. Such consequences may include adverse effects on consumer health, reputation, loss of customers and market share, financial costs or loss of revenue. In addition, if any of our competitors or customers supply faulty or contaminated products to the market, or if manufacturers of the end-products that utilize our packaging produce faulty or contaminated products, our industry, or our end-products industries, could be negatively impacted, which could have adverse effects on our business.

In addition, if any of our products are found to be defective, we could be required to recall such products, which could result in adverse publicity, significant expenses and a disruption in sales and could affect our reputation and that of our products. Although we maintain product liability insurance coverage, potential product liability claims may exceed the amount of insurance coverage or potential product liability claims may be excluded under the terms of the policy.

Developments in electronic data transmission as well as rising postal costs could weaken demand for our paper products.

Recent trends in electronic data transmission and storage and in the use of the internet have tended to reduce the demand for paper products, particularly traditional print media. These trends could hurt our paper business. In addition, there has also been a trend toward on-line invoice payment. An increase in the cost of postage, or an increased availability and acceptance of on-line invoice payment options, could lessen demand for paper.

Currency exchange rate fluctuations could adversely affect our results of operations.

Our business is exposed to fluctuations in exchange rates. Although our reporting currency is U.S. dollars, we operate in different geographical areas and transact in a range of currencies in addition to dollars. Our other transacting currencies include the euro, the Brazilian real, the British pound, the Canadian dollar, the Chinese yuan renminbi, the Japanese yen, the Korean won, the Mexican peso, the New Zealand dollar, or NZ\$, the Polish zloty, the Russian ruble, the Singapore dollar, the Swiss franc, the Taiwanese dollar and the Thai baht. Where possible, we try to minimize the impact of exchange rate fluctuations by transacting in local currencies so as to create natural hedges. We cannot assure you, however, that we will be successful in protecting against these risks. Under certain circumstances in which we are unable to naturally offset our exposure to these currency risks, we enter into derivative transactions to reduce such exposures. Nevertheless, exchange rate fluctuations may either increase or decrease our revenue and expenses as reported in dollars. Given the volatility of exchange rates, particularly as a result of uncertainty surrounding the euro due to the European debt crisis, we may not be able to manage our currency transaction risks effectively, and volatility in currency exchange rates may materially adversely affect our financial condition or results of operations.

We may not be successful in adequately protecting our intellectual property rights, including our unpatented proprietary knowledge and trade secrets, or in avoiding claims that we infringed on the intellectual property rights of others.

In addition to relying on the patent and trademark rights granted under the laws of countries in Europe, the United States and various other countries in which we operate, we rely on unpatented proprietary knowledge and trade secrets and employ various methods, including confidentiality agreements with employees and third parties to protect our knowledge and trade secrets. However, these precautions and our patents and trademarks may not afford complete protection against infringement by third parties, and there can be no assurance that others will not independently develop the knowledge and trade secrets. Patent and trademark rights are territorial; thus, the patent and trademark protection we do have will only extend to those countries in which we have been issued patents and have registered trademarks. Even so, the laws of certain countries do not protect our intellectual property rights to the same extent as do the laws of various European countries and the United States. Further, we may not be able to prevent current and former employees, contractors and other parties from breaching confidentiality agreements and misappropriating proprietary information. It is possible that third parties may copy or otherwise obtain and use our information and proprietary technology without authorization or otherwise infringe on our intellectual property rights. Infringement of our intellectual property may adversely affect our results of operations and make it more difficult for us to establish a strong market position in countries which

Table of Contents

may not afford adequate protection of intellectual property. Additionally, we have licensed, and may license in the future, patents, trademarks, trade secrets and similar proprietary rights to third parties. While we attempt to ensure that our intellectual property and similar proprietary rights are protected when entering into business relationships, third parties may take actions that could materially and adversely affect our rights or the value of our intellectual property, similar proprietary rights or reputation. If necessary, we also rely on litigation to enforce our intellectual property rights and contractual rights, and, if not successful, we may not be able to protect the value of our intellectual property. Any litigation could be protracted and costly and could have a material adverse effect on our business and results of operations regardless of its outcome.

Our success depends in part on our ability to obtain, or license from third parties, patents, trademarks, trade secrets and similar proprietary rights without infringing on the proprietary rights of third parties. Although we believe that our intellectual property rights are sufficient to allow us to conduct our business without incurring liability to third parties, our products may infringe on the intellectual property rights of such persons and we may be subject to claims asserting infringement of intellectual property rights. No assurance can be given that we will not be subject to such additional claims seeking damages, the payment of royalties or licensing fees and/or injunctions against the sale of our products. Any such litigation could be protracted and costly and could have a material adverse effect on our business and results of operations.

If we are unable to stay abreast of changing technology in our industry, our profits may decline.

Our businesses are subject to frequent and sometimes significant changes in technology, and if we fail to anticipate or respond adequately to such changes, or do not have sufficient capital to invest in these developments, our profits may decline. Our future financial performance will depend in part upon our ability to develop and market new products and to implement and utilize technology successfully to improve our business operations. We cannot predict all the effects of future technological changes. The cost of implementing new technologies could be significant, and our ability to potentially finance these technological developments may be adversely affected by our debt servicing requirements or our inability to obtain the financing we require to develop or acquire competing technologies.

Employee slowdowns, strikes and similar actions could have a material adverse effect on our business and operations.

A significant portion of our employees in several locations globally are subject to collective bargaining agreements. Many of our employees in Asia, Europe, Mexico and South America are represented by works councils. In addition, the transportation and delivery of raw materials to our manufacturing facilities and of our products to our customers by workers that are members of labor unions is critical to our business. In many cases, before we take significant actions with respect to our production facilities, such as workforce reductions or closures, we must reach agreement with applicable labor unions and employee works councils. The failure to maintain satisfactory relationships with our employees and their representatives, or prolonged labor disputes, slowdowns, strikes or similar actions could have a material adverse effect on our business and results of operations.

We face risks associated with certain pension obligations.

We have pension plans that cover many of our employees, former employees, and employees of formerly affiliated businesses. Many of these pension plans are defined benefit pension plans, pursuant to which the participants receive defined payment amounts regardless of the value or investment performance of the assets held by such plans. Deterioration in the value of plan assets, including equity and debt securities, resulting from a general financial downturn or otherwise, could cause an increase in the underfunded status of our defined benefit pension plans, thereby increasing our obligation to make contributions to the plans, which in turn would reduce the cash available for our business.

Our largest pension plan is the Pactiv Retirement Plan, of which Pactiv became the sponsor at the time of the Pactiv spin-off from Tenneco Inc. (now Pactiv) in 1999. This plan covers most of Pactiv's employees as well as employees (or their beneficiaries) of certain companies previously owned by Tenneco but not currently owned

Table of Contents

by us. As a result, while persons who are not current Pactiv employees do not accrue benefits under the plan, the total number of individuals/beneficiaries covered by this plan is much larger than if only Pactiv personnel were participants. For this reason, the impact of the pension plan on our net income and cash from operations is greater than the impact typically found at similarly sized companies. Changes in the following factors can have a disproportionate effect on our results compared with similarly sized companies: (i) assumptions regarding the long-term rate of return on pension assets and other factors, (ii) interest rate used to discount projected benefit obligations, (iii) level of amortization of actuarial gains and losses, (iv) governmental regulations relating to funding of retirement plans in the United States and foreign countries and (v) financial market performance. As of December 31, 2011, Pactiv's U.S. pension plan was underfunded by \$892 million and subsequent financial market performance and decreases in interest rates may have significantly increased this deficit. Future contributions to our pension plans, including Pactiv's U.S. pension plan, could reduce the cash otherwise available to operate our business and could have an adverse effect on our results of operations.

In addition, certain of our businesses participate in various multi-employer pension plans administered by labor unions representing some of our current or former employees. We make periodic contributions to these plans, and if we withdraw from participation in these plans, we could be required to make an additional lump-sum contribution to the plan. If other participating employers withdraw from these plans or become insolvent, our liability could increase. Some multi-employer plans, including some of those in which we participate, are reported to have significant underfunded liabilities, which could increase the size of our potential withdrawal liability.

We may not be able to successfully integrate businesses we have acquired in the past or may acquire in the future, and we may not be able to realize anticipated cost savings, revenue enhancements or other synergies from such acquisitions.

Our ability to successfully implement our business plan and achieve targeted financial results depends on our ability to successfully integrate businesses we have acquired in the past or may acquire in the future. Acquisitions inherently involve risks, including those associated with assimilating and integrating different business operations, corporate cultures, personnel, infrastructure and technologies or products and increasing the scope, geographic diversity and complexity of operations. There may be additional costs or liabilities associated with the acquisitions that we have consummated in recent years that we did not anticipate at the time such acquisitions were consummated, including an unexpected loss of key employees or customers and hiring additional management and other critical personnel. These acquisitions may also be disruptive to our ongoing business and may not be successfully received by our customers. Any of these risks could adversely affect our business, financial condition and results of operations.

Changes in global conditions could adversely affect our business and results of operations.

Our financial results could be substantially affected by global market risks in the countries outside the United States in which we have manufacturing facilities or sell our products. Our business and results of operations are materially affected by conditions in the European economy. Adverse economic conditions in Europe have adversely affected consumer confidence and, as a result, have impacted demand for our packaging products that are used for discretionary consumer products sold in that region. There can be no assurance that a continuing economic downturn in Europe would not result in further adverse effects that may be material to our cash flows, competitive position, financial condition, results of operations, or our ability to access capital. In addition, we have substantial manufacturing facilities in certain countries that are exposed to economic and political instability. For example, Evergreen ceased operations in Venezuela due to political turmoil in the region. Many of our raw materials, particularly plastic resins, are affected by changes in oil prices, and economic or political unrest in petroleum producing countries, such as those in the Middle East, will affect oil prices, which could affect our cost of raw materials and our results. Downturns in economic activity, adverse foreign tax consequences or any changes in social, political or labor conditions in any of these countries or regions could negatively affect our results of operations.

Table of Contents

Our third-party equipment leasing arrangements may increase our exposure to credit risk from customer defaults.

SIG enters into arrangements under which filling machines are sold to third-party finance companies that lease the machines to their customers. In the event that a customer defaults under the terms of its lease, under certain circumstances, these finance companies could require us to repurchase the filling machine. As a result, we are exposed to the credit risk of our customers under these leasing arrangements. The potential obligation to buy back filling machines exposed us to a potential maximum liability of \$15 million as of December 31, 2011 and \$32 million as of December 31, 2010. If we have to repurchase filling machines, we may have to utilize our available cash or our availability under our revolving credit facility.

We expect to pursue and execute acquisitions, which, if not successful, could adversely affect our business.

As part of our strategy, we plan to consider the acquisition of other companies, assets and product lines that either complement or expand our existing business. These acquisitions may be significant in size, scope or otherwise. However, we may not be able to continue to grow through acquisitions and cannot assure you that we will be able to consummate any acquisitions or that any future acquisitions will be consummated at acceptable prices and terms or that the acquired businesses will be successfully integrated into our current operations. Acquisitions involve a number of specific risks, including:

the diversion of management's attention to the assimilation of the acquired companies and their employees and on the management of expanding operations;

the incorporation of acquired products into our product lines;

demands on our operational and financial systems;

demands on our financial resources;

possible adverse effects on our operating results;

the potential loss of customers of the acquired business;

the inability to retain key employees of the acquired business; and

failure to achieve the results we anticipate from such acquisitions.

There are or may be liabilities associated with the businesses we have acquired or may acquire. Acquisitions have the risk that the obligations and liabilities of an acquired company may not be adequately released, indemnified or reflected in the historical financial statements of such company and the risk that such historical financial statements may contain errors. We may also become responsible for liabilities that we failed or were unable to discover in the course of performing due diligence procedures in connection with our historical acquisitions and any future acquisitions. When possible, we require the sellers to indemnify us against certain undisclosed liabilities; however, we cannot be certain that these indemnification rights that we have obtained, or will obtain in the future, will be enforceable, collectible or sufficient in amount, scope or duration to fully offset the possible liabilities associated with the business or property acquired. Any of these liabilities, individually or in the aggregate, could have a material adverse effect on our business, financial condition or results of operations.

In addition, we may not be able to successfully integrate future acquisitions without substantial costs, delays or other problems. The costs or the failure of any such integration effort could have a material adverse effect on our operating results and financial condition.

We have given warranties and indemnities to the purchasers in connection with business disposals, and agreed in some instances to non-compete provisions, which have not yet expired and may give rise to claims against us or our controlled entities or limit our ability to engage in business in certain geographical areas.

From time to time we have disposed of segments or elements of our businesses, and we may dispose of other segments or elements of our businesses in the future. As part of these types of transactions, we are generally required to indemnify the purchasers of such businesses for various liabilities, and the resulting

Table of Contents

indemnification obligations may be significant. These types of transactions may also restrict our ability to engage in certain operations or conduct business in certain geographical areas for a certain period of time. Some of the time periods within which a claim can be brought under warranty and indemnity provisions have not expired, and we have experienced several indemnity claims based on disposal transactions. If any material claims in respect of these types of dispositions are successfully brought against us in the future, such claims may have a material adverse effect on our business, financial condition and results of our operations.

Conditions in the global capital and credit markets and the economy in general may have a material adverse effect on our business, results of operations or financial position.

The global capital and credit markets have recently undergone a period of unprecedented volatility and disruption and the global economy recently experienced a recession. Our results of operations and financial position were, and may continue to be, negatively affected by adverse changes in the global capital and credit markets and the economy in general, both in the United States and elsewhere around the world. Economic conditions may also adversely affect the ability of our lenders, customers and suppliers to continue to conduct their respective businesses and may affect our ability to operate our production facilities in an economical manner. Many of our customers rely on access to credit to fund their operations. The inability of our customers to access credit facilities may adversely affect our business by reducing our sales, increasing our exposure to accounts receivable bad debts and reducing our profitability.

Concerns about consumer confidence, the availability and cost of credit, reduced consumer spending and business investment, the volatility and strength of global capital and credit markets and inflation have affected, and may continue to affect, the business and economic environment and ultimately the profitability of our business. Economic downturns characterized by higher unemployment, lower family income, lower corporate earnings, lower business investment and lower consumer spending have resulted, and may continue to result, in decreased demand for our products. We are unable to predict the likely duration or severity of any disruption in global capital and credit markets and the economy in general, all of which are beyond our control and may have a significant impact on our business, results of operations, cash flows and financial position.

The impairment of our trade receivable financings could adversely impact our liquidity.

On November 7, 2012, certain members of the RGHL Group entered into the Securitization Facility. The Securitization Facility is for an amount up to \$600 million. As of the date of this prospectus, the RGHL Group had drawn \$500 million under this facility. The amount that can be borrowed is calculated by reference to a funding base determined by the amount of eligible trade receivables of certain members of the RGHL Group. The funding base may vary, on a monthly basis, throughout the term of the Securitization Facility. To the extent the amount of eligible trade receivables decreases, we may be required to pay down existing borrowings under the Securitization Facility, which could require us to use cash on hand or revolver availability which may not be available or may be more expensive than the Securitization Facility.

In addition, SIG currently sells, and our other segments may in the future sell, a significant portion of its trade receivables through separate factoring programs to finance our working capital needs. As of December 31, 2011 and December 31, 2010, 39% and 46%, respectively, of SIG's trade receivables were subject to non-recourse factoring programs. The factoring programs are an important source of liquidity, even though the SIG program is not reflected on our balance sheet.

Our access to factoring programs depends on the availability of receivables insurance, and on our credit rating and the credit ratings of our customers and insurers. We may be unable to continue to utilize factoring programs or may only be able to do so on less desirable terms if either we are unable to obtain or renew receivables insurance or our credit rating or the credit ratings of our customers or insurers are negatively impacted. An inability to utilize factoring programs would slow our conversion of trade receivables to cash and increase our working capital requirements, which could require us to use revolver availability or cash on hand or seek alternative sources of financing which may not be available or may be more expensive than our existing financing.

Table of Contents

The impairment of financial institutions may adversely affect us.

We, our customers and our suppliers have transactions and borrowing arrangements with U.S. and foreign commercial banks and other financial institutions, some of which may be exposed to ratings downgrade, bankruptcy, lack of liquidity, default or similar risks, especially in times of financial market turmoil. A ratings downgrade, bankruptcy, receivership, default or similar event involving such institutions may adversely affect the institution's performance under letters of credit, limit our access to capital, impact the ability of our suppliers to provide us with raw materials needed for our production, impact the ability of our customers to meet obligations to us or adversely affect our liquidity, future business and results of operations.

The international scope of our operations and our corporate and financing structure may expose us to potentially adverse tax consequences.

We are subject to taxation in and to the tax laws and regulations of multiple jurisdictions as a result of the international scope of our operations and our corporate and financing structure. We are also subject to intercompany pricing laws, including those relating to the flow of funds among our companies pursuant to, for example, purchase agreements, licensing agreements or other arrangements. Adverse developments in these laws or regulations, or any change in position regarding the application, administration or interpretation of these laws or regulations in any applicable jurisdiction, could have a material adverse effect on our business, financial condition and results of operations. In addition, the tax authorities in any applicable jurisdiction, including the United States, may disagree with the positions we have taken or intend to take regarding the tax treatment or characterization of any of our transactions, including the tax treatment or characterization of our indebtedness, including the notes, intercompany loans and guarantees. If any applicable tax authorities, including the U.S. tax authorities, were to successfully challenge the tax treatment or characterization of any of our transactions, it could result in the disallowance of deductions, the imposition of withholding taxes on internal deemed transfers or other consequences that could have a material adverse effect on our business, financial condition and results of operations.

Our aluminum hedging activities may result in significant losses and in period-to-period earnings volatility.

We regularly enter into hedging transactions to limit our exposure to raw material price risks primarily relating to aluminum purchases. For example, in the past, our hedging strategies have proven to be ineffective and as a result of changes in the fair value of outstanding aluminum hedging contracts, the Reynolds consumer products business of our Reynolds Consumer Products segment incurred an unrealized loss of \$131 million for the year ended December 31, 2008, an unrealized gain of \$102 million for the year ended December 31, 2009, an unrealized gain of \$2 million for the year ended December 31, 2010 and an unrealized loss of \$17 million for the year ended December 31, 2011 on derivative financial instruments. In October 2009, Reynolds Consumer Products terminated its previous hedging policy, which was not necessarily aligned with its production requirements. After the termination of its previous hedging policy, Reynolds Consumer Products adopted a new hedging policy. Under the new policy, Reynolds Consumer Products hedges a smaller portion of its aluminum purchases for a shorter average term than under its previous policy, which the RGHL Group believes is more appropriate for the business and is designed to reduce the impact of changing aluminum prices on the RGHL Group's results of operations. See *Operating and Financial Review and Prospects* Key Factors Influencing Our Financial Condition and Results of Operations Hedging Activities. If, in the future, our hedging strategies prove to be ineffective or if we fail to effectively monitor and manage our hedging activities, we could incur significant losses which could adversely affect our financial position and results of operations.

Our accounting and other management systems resources may not be adequately prepared to meet financial reporting and other requirements in the future. Our failure to achieve and maintain effective controls could adversely affect our business, financial position and results of operations.

Before we acquired certain of the businesses that now comprise our segments, the financial results of such businesses were reported under U.S. GAAP. Following the acquisition of such businesses, we reported our consolidated results, which include the financial results of such acquired businesses, under IFRS.

Table of Contents

The changes in reporting required as a result of the acquisition of certain businesses that now comprise our segments, changes in reporting required as a result of the Dopaco Acquisition and the Graham Packaging Acquisition and the additional reporting obligations under the respective indentures governing the notes, the Existing Notes and the 2007 Notes and the agreement governing the Senior Secured Credit Facilities have placed, and will place, significant additional demand on our management and administrative and operational resources, including our accounting resources. The additional reporting and other requirements of the Exchange Act place further demand on our management and administrative and operational resources, including our accounting resources. In the future, we may not be able to timely prepare and deliver the financial statements required by the Exchange Act and the indentures governing the notes, the Existing Notes and the 2007 Notes and the agreement governing the Senior Secured Credit Facilities. Such failure would constitute an event of default under the notes, the Existing Notes, the 2007 Notes and the Senior Secured Credit Facilities and could affect our business, financial position and results of operations.

We have had material weaknesses in our internal control over financial reporting in the past. If material weaknesses are detected in the future and if we fail to remediate these material weaknesses or if we fail to maintain effective internal controls over financial reporting, our business could be materially and adversely affected.

We have had material weakness in our internal controls over financial reporting in the past. For example, certain of our business operations were acquired through transactions that resulted in the businesses being carved out from other companies. In the process of undertaking these carve-out acquisitions, certain accounting and internal control functions that were performed by the seller's corporate and shared services functions were not acquired or were provided by the seller on a limited basis through transitional service arrangements.

During the financial statement audits for the Reynolds consumer products business of our Reynolds Consumer Products segment and our Closures segment for the year ended December 31, 2008, our auditors identified four material weaknesses in our internal control for the Reynolds consumer products business and two material weaknesses in our internal control for Closures, in addition to other significant deficiencies in each case. During the re-issuance of their audit opinion on the financial statements for the years ended December 31, 2007 and 2008 in connection with the Evergreen Transaction, Evergreen's auditors for such periods identified and reported a material weakness in Evergreen's internal control.

The four material weaknesses for the Reynolds consumer products business for the year ended December 31, 2008 related to inadequate account reconciliation processes, inappropriate accounting for aluminum derivatives contracts under IFRS, inadequate controls for our inventory costing and valuation and an aggregation of various control weaknesses related to international operations of the Reynolds consumer products business. The two material weaknesses for Closures for the year ended December 31, 2008 related to inappropriate accounting for certain contracts under the applicable derivatives accounting policy and the aggregation of various control weaknesses related to Closures' international operations. The material weakness for Evergreen in each of the 2007 and 2008 fiscal years related to inadequate preparation and review of Evergreen's consolidated statements of cash flows, which resulted in misstatements not being detected in a timely manner and the improper classification of certain cash flow items, including certain related party borrowings. As a consequence of the material weakness for the 2007 and 2008 fiscal periods, Evergreen restated its historical statements of cash flows for the years ended December 31, 2007 and 2008.

Beginning in the second half of 2009, we initiated a number of activities aimed at addressing the material weaknesses of, and enhancing the overall control environment within, the RGHL Group, including our Closures segment and the Reynolds consumer products business of our Reynolds Consumer Products segment. Separately, Evergreen developed and executed a remediation plan for its material weakness. Based on the actions taken with respect to these remediation plans, these material weaknesses were remediated as of December 31, 2010.

If we discover material weaknesses or significant deficiencies in the future, our ability to record, process, summarize and report financial information accurately and within the time periods specified in the rules and forms of the SEC, and to prevent fraud, will be adversely affected, and our financial statements could prove to be unreliable. The discovery of further material weaknesses or significant deficiencies in the future could require the

Table of Contents

restatement of prior period operating results. Any of the foregoing could negatively affect the market price and trading liquidity of the notes, result in a breach of the covenants under our debt agreements, cause investors to lose confidence in our reported financial information, subject us to regulatory investigations and penalties and generally materially and adversely impact our business, financial condition, results of operations or cash flows.

Risks Related to Our Structure, the Guarantees, the Collateral and the Notes

Our substantial indebtedness could adversely affect our ability to fulfill our obligations under the notes.

We have a substantial amount of outstanding indebtedness which would have totaled \$18,219 million as of September 30, 2012 on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions. Refer to note 14 of the RGHL Group's interim unaudited condensed financial statements as of September 30, 2012, included elsewhere in this prospectus, for details of the RGHL Group's borrowings as of September 30, 2012.

Our substantial indebtedness could have significant consequences for you. For example, it could:

make it more difficult for us to generate sufficient cash to satisfy our obligations with respect to the notes and our other indebtedness;

increase our vulnerability to general adverse economic and market conditions;

limit our ability to obtain additional financing necessary for our business;

require us to dedicate a substantial portion of our cash flow from operations to payments in relation to indebtedness, reducing the amount of cash flow available for other purposes, including working capital, capital expenditures, acquisitions and other general corporate purposes;

require us to sell debt or equity securities or to sell some of our core assets, possibly on unfavorable terms, to meet debt payment obligations;

restrict us from making strategic acquisitions or exploiting business opportunities;

limit our flexibility in planning for, or reacting to, changes in our business and industry;

place us at a possible competitive disadvantage compared to our competitors that have less debt;

expose us to risks that are inherent in interest rate and currency fluctuations because certain of our indebtedness bears variable rates of interest and is in various currencies; and

subject us to financial and other restrictive covenants, and, if we fail to comply with these covenants and that failure is not waived or cured, could result in an event of default under our indebtedness.

Despite our substantial indebtedness we may be able to incur substantially more debt.

Edgar Filing: BRPP LLC - Form F-4/A

Despite our substantial indebtedness we may be able to incur or issue substantial additional debt in the future. Although restrictions on the incurrence of additional debt are contained in the indentures governing the notes and certain of our other outstanding debt securities, in the terms of our Senior Secured Credit Facilities and in our other financing arrangements, these restrictions are subject to a number of qualifications and exceptions. Also, these restrictions do not prevent us from incurring obligations that do not constitute indebtedness as defined in such restrictions, such as certain contingent obligations incurred in the ordinary course of business and deferred or prepaid revenues or marketing fees.

Our ability to incur indebtedness depends, in part, upon our satisfaction of certain financial covenants in the indentures governing the notes and certain of our other outstanding debt securities and in the terms of our Senior Secured Credit Facilities. The indentures governing the notes and certain of our other outstanding debt securities permit us to incur additional indebtedness either by satisfying certain incurrence tests or by incurring such additional indebtedness under certain specific categories of permitted debt. Indebtedness may be incurred under the incurrence tests if the fixed charge coverage ratio is at least 2.00 to 1.00 on a pro forma basis and, (i) under the indentures that govern the notes and the Existing Senior Secured Notes, the liens securing first lien secured

Table of Contents

indebtedness do not exceed a 3.50 to 1.00 senior secured leverage ratio and (ii) under the indentures that govern the Existing Senior Notes and the 2007 Notes, the liens securing any secured indebtedness do not exceed a 4.50 to 1.00 secured leverage ratio.

Under the credit agreement governing the Senior Secured Credit Facilities, we may incur additional indebtedness either by satisfying certain incurrence tests or by incurring such additional indebtedness under certain specific categories of permitted debt. Incremental senior secured indebtedness under the Senior Secured Credit Facilities and senior secured notes in lieu thereof are permitted to be incurred up to an aggregate principal amount of \$750 million, subject to pro forma compliance with the Senior Secured Credit Facilities' financial covenant. In addition, we may incur incremental senior secured indebtedness under the Senior Secured Credit Facilities and senior secured notes in an unlimited amount so long as our senior secured first lien leverage ratio does not exceed 3.50 to 1.00 on a pro forma basis and (in the case of incremental senior secured indebtedness under the Senior Secured Credit Facilities only) we are in pro forma compliance with the Senior Secured Credit Facilities' financial covenant. The incurrence of unsecured indebtedness, including the issuance of senior notes, and unsecured subordinated indebtedness is also permitted subject to pro forma compliance with the Senior Secured Credit Facilities' financial covenant.

The amount of indebtedness that we can incur at any point in time will vary materially as a result of historical and pro forma changes in our earnings, cash flows and performance against agreed ratios and other results and factors.

Restrictive covenants in the notes and our other indebtedness could adversely affect our business by limiting our operating and strategic flexibility.

The respective indentures governing the notes and certain of our other outstanding debt securities contain restrictive covenants that limit our ability to, among other things:

incur or guarantee additional indebtedness or issue preferred stock or disqualified stock, including to refinance existing indebtedness;

pay dividends or make distributions in respect of capital stock;

purchase or redeem capital stock;

make certain investments or certain other restricted payments;

create or incur liens;

sell assets;

agree to limitations on the ability of certain of our subsidiaries to make distributions;

enter into transactions with affiliates; and

effect a consolidation, amalgamation or merger.

These restrictive covenants could have an adverse effect on our business by limiting our ability to take advantage of financing, mergers and acquisitions, joint ventures or other corporate opportunities. In addition, the Senior Secured Credit Facilities contain, and our future indebtedness may contain, other and more restrictive covenants and also prohibit us from prepaying certain of our other indebtedness, including the notes, the Existing Notes and the 2007 Notes, prior to discharge of the Senior Secured Credit Facilities or such future indebtedness. The Existing Senior

Edgar Filing: BRPP LLC - Form F-4/A

Secured Notes and the 2007 UK Intercreditor Agreement also contain restrictions on our ability to prepay the 2007 Notes prior to the redemption of the Existing Senior Secured Notes and, in the case of the 2007 UK Intercreditor Agreement, the Senior Secured Credit Facilities. The Senior Secured Credit Facilities require us to maintain leverage ratios and interest coverage ratios. Our future indebtedness may contain similar or other financial ratios set at levels determined by us and our future lenders. The ability to meet those financial ratios could be affected by a deterioration in our operating results, as well as by events beyond our control, including increases in raw material prices and unfavorable economic conditions, and we cannot assure you that those ratios will be met. It may be necessary to obtain waivers or amendments with respect to covenants under

Table of Contents

the indentures governing the notes and certain of our other outstanding debt securities, the terms of the Senior Secured Credit Facilities or our future indebtedness from time to time, but we cannot assure you that we will be able to obtain such waivers or amendments. A breach of any of these covenants, ratios or restrictions could result in an event of default under the indentures governing the notes and certain of our other outstanding debt securities, the terms of the Senior Secured Credit Facilities or our future indebtedness and any of our other indebtedness or result in cross-defaults under certain of our indebtedness. Upon the occurrence of an event of default under the indentures governing the notes and certain of our other outstanding debt securities, the terms of the Senior Secured Credit Facilities or such other indebtedness, the lenders could terminate their commitment to lend and elect to declare all amounts outstanding under such indebtedness, together with accrued interest, to be immediately due and payable. If the lenders accelerate the payment of that indebtedness or foreclose on the assets securing that indebtedness, including the collateral, we cannot assure you that our assets would be sufficient to repay in full that indebtedness and our other indebtedness then outstanding, including the notes.

Our ability to generate the significant amount of cash needed to pay interest and principal on the notes and service our other debt and the ability to refinance all or a portion of our indebtedness or obtain additional financing depends on many factors beyond our control.

Our ability to generate sufficient cash flow from operations to make scheduled payments on, or to refinance obligations under, our debt will depend on our financial and operating performance, which, in turn, will be subject to prevailing economic and competitive conditions and to financial and business-related factors, many of which may be beyond our control. See **Risks Related to Our Business** above.

As of September 30, 2012, on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions, we would have had \$18,219 million of outstanding indebtedness. Our annual cash interest obligations on our Senior Secured Credit Facilities, the notes, the Existing Notes and our other indebtedness are expected to be \$1,310 million on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions. If our cash flow and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce working capital levels, reduce or delay capital expenditures, sell assets, seek to obtain additional equity capital or restructure all or a portion of our debt. In the future, our cash flow and capital resources may not be sufficient to allow us to make payments of principal and interest on our debt. Any alternative measures we may take may not be successful or be on commercially reasonable terms and may not permit us to meet our scheduled debt service obligations, including the payment of interest or principal in respect of the notes. In addition, we may want or need to refinance some or all of our indebtedness prior to maturity. We cannot assure you that we will be able to refinance any of our indebtedness or obtain additional financing, particularly because of our anticipated high levels of debt, prevailing market conditions and the debt incurrence restrictions imposed by the agreements governing our debt. In the absence of sufficient cash flow and capital resources, we could face substantial liquidity problems and may be required to dispose of material assets or operations to meet our debt service and other obligations. The indentures governing the notes and the Existing Notes, the terms of the Senior Secured Credit Facilities and the agreements governing our other debt restrict, and our future indebtedness is likely to restrict, both our ability to dispose of assets and the use of proceeds from any such disposition. We cannot assure you that we will be able to consummate any asset sales, or if we do, what the timing of the sales will be or whether the proceeds that we realize will be adequate to meet our debt service obligations when due or that we will be contractually permitted to apply such proceeds for that purpose. Our inability to generate sufficient cash flow to satisfy our debt obligations, or to implement any of these alternative measures, would have a material adverse effect on our business, financial condition and results of operations.

Mr. Graeme Hart, our strategic owner, controls us through a number of holding companies, including Packaging Holdings Limited, and may have conflicts of interest with the holders of our debt or us in the future.

Mr. Graeme Hart indirectly owns through Packaging Holdings Limited all of our common stock and the actions he is able to undertake as our sole ultimate shareholder may differ from or adversely affect the interests of our debt holders. Because Mr. Hart ultimately controls our voting shares and those of all of our subsidiaries,

Table of Contents

he has and will continue to have the power, among other things, to affect our legal and capital structure and our day-to-day operations, as well as to elect our directors and those of our subsidiaries, to change our management and to approve any other changes to our operations. Additionally, Mr. Hart is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete, directly or indirectly, with us. Mr. Hart may also pursue acquisition opportunities that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us. Finally, because none of our securities are listed on a securities exchange in the United States, we are not subject to certain of the corporate governance requirements of a U.S. securities exchange, including any requirement to have any independent directors.

An increase in interest rates would increase the cost of servicing our debt and could reduce our profitability.

A significant portion of our outstanding debt, including the indebtedness we have incurred under the Senior Secured Credit Facilities and, potentially, our future indebtedness, bears interest at variable rates. As of September 30, 2012, net of hedging instruments, we would have had \$3,232 million of variable rate debt outstanding on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions. As a result, an increase in interest rates, whether because of an increase in market interest rates or an increase in our cost of borrowing, would increase the cost of servicing this debt and could materially reduce our profitability and adversely affect our ability to meet our obligations under the notes. The impact on us of such an increase would be more significant than it would be on some other companies because of our substantial debt.

The notes are joint and several obligations of a Luxembourg-based société anonyme (public limited liability company), a United States-based corporation and a United States-based limited liability company, each having no independent operations or subsidiaries, and as a result, the Issuers' ability to service the notes is dependent on cash flow generated by members of the RGHL Group and their ability and willingness to make distributions to the Issuers.

US Issuer is a finance company with no operations of its own, and it has no material assets. US Co-Issuer is a finance company with no operations of its own, and its only material assets are certain intercompany proceeds loans to which it is a party. Lux Issuer is a finance company with no operations of its own, and its only material assets are certain intercompany proceeds loans to which it is a party. As a result of the foregoing, the Issuers' cash flows and their ability to service their indebtedness, including their ability to pay the interest and principal amount in respect of the notes when due, depend on the performance of the RGHL Group and the ability of members of the RGHL Group to provide funds to the Issuers.

Accordingly, repayment of the Issuers' indebtedness, including the notes, depends on the generation of cash flow by the RGHL Group, and (if they are not guarantors of the notes) the ability of RGHL Group members to make such cash available to the Issuers whether by dividend, debt repayment, investment, loan, advance or otherwise. Unless they are guarantors of the notes, members of the RGHL Group do not have any obligation to pay amounts due on such notes or to make funds available for that purpose. Our subsidiaries may not be able to make payments to each Issuer to enable it to make payments in respect of its indebtedness, including the notes. Each subsidiary is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit the Issuers' ability to obtain cash from our subsidiaries. While the indentures governing the notes and certain of our other outstanding debt securities limit the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to the Issuers, these limitations are subject to certain qualifications and exceptions. In the event that the Issuers do not receive payments from our subsidiaries, they may be unable to make required principal and interest payments on their indebtedness, including the notes. In addition, any payment of interest, dividends, distributions, debt repayments, investments, loans or advances by our subsidiaries to the Issuers could be subject to restrictions on such payments under applicable local law, monetary transfer restrictions, withholding taxes and foreign currency exchange regulations in the jurisdictions in which the subsidiaries operate or under arrangements with local partners.

Table of Contents

A failure to comply with the debt covenants in the agreements governing our indebtedness could lead to an acceleration of our debt and possibly bankruptcy.

The Senior Secured Credit Facilities, the indentures governing the notes and the Existing Notes and the terms of our other indebtedness require us, and the terms of our future indebtedness are also likely to require us, to meet certain covenants. A default under any of our debt instruments could result in the accelerated repayment of our debt and possibly bankruptcy. This will negatively impact our ability to fulfill our obligations on the notes and you will not recover your investment in the notes.

The RGHL Group is required to comply with covenants under its various debt agreements, which may be subject to multiple interpretations.

The RGHL Group is subject to covenants under its various debt agreements, such as the indentures governing the notes and the Existing Notes and the credit agreement governing the Senior Secured Credit Facilities. These covenants may be subject to multiple interpretations, and, from time to time, parties to our debt agreements may disagree with our interpretation of these covenants. Disagreements with respect to the interpretation of these covenants may result in allegations of non-compliance which could result in a default or event of default under our indebtedness, either of which could materially adversely affect our financial condition.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness that is not cured or waived, as applicable, by the required lenders or noteholders thereunder, and the remedies sought by the holders of such indebtedness, could prevent us from making payments of principal, premium, if any, or interest on the notes and could substantially decrease the market value of the notes. In the event of any such default, the holders of such indebtedness could elect to declare all outstanding amounts thereunder to be due and payable, together with accrued and unpaid interest, and this may also cause a cross default in our other indebtedness. If our operating performance declines, and we breach our covenants under the agreements governing such indebtedness, we may need to seek waivers from the noteholders and the lenders under the Senior Secured Credit Facilities, or holders of our other indebtedness to avoid being in default. We may not be able to obtain a waiver from the required number of lenders or noteholders. If this occurs, we would be in default under such indebtedness, the lenders or noteholders could exercise their rights as described above, and we could be forced into bankruptcy or liquidation. See Description of Certain Other Indebtedness and Intercreditor Agreements and Description of the Senior Secured Notes.

We may be unable to raise the funds necessary to finance the change of control repurchase offers required by the indenture governing the notes and similar requirements in the agreements governing our other indebtedness.

If a specified change of control occurs in relation to us, the Issuers (with respect to the notes and the Existing Notes) and the issuer of the 2007 Notes (with respect to the 2007 Notes) would be required to make an offer to purchase all of the outstanding notes, the Existing Notes and the 2007 Notes (as applicable), at a price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase. The occurrence of a change of control under the notes would require that the Senior Secured Credit Facilities, and may require that any of our future indebtedness, be immediately repaid or that we make an offer to repurchase it, possibly at a premium or subject to penalties. The Issuers and the issuer of the 2007 Notes may be dependent on RGHL and its subsidiaries for the funds necessary to cure the events of default, or fund any mandatory prepayment or redemption caused by such change of control event. RGHL and its subsidiaries may not have sufficient financial resources to purchase all of the notes, the Existing Notes and the 2007 Notes that are tendered upon a change of control offer or to redeem such notes. A failure by the Issuers or the issuer of the 2007 Notes to purchase the notes, the Existing Notes and the 2007 Notes after a change of control in accordance with the terms of the applicable indenture requiring such purchases would result in a default under the agreement governing the Senior Secured Credit Facilities and the indentures governing the notes, the Existing Notes and the 2007 Notes and may result in a default under any future indebtedness.

Table of Contents

The occurrence of a change of control may not be under our control and may occur at any time. For example, Packaging Finance Limited, the direct parent of RGHL, has pledged 100% of its shares in RGHL to certain lenders in connection with a financing arrangement. Consequently, it is possible that such lenders may enforce the pledge against Packaging Finance Limited and foreclose on the RGHL shares for reasons outside of our control. Such foreclosure may result in a change of control under the terms of the indenture governing the notes. In the event of a change of control, we cannot assure you that we will have sufficient assets to satisfy all of our obligations under the Senior Secured Credit Facilities, the notes, the Existing Notes, the 2007 Notes, any future indebtedness and any other debt requiring repayment upon such event.

The terms of the Senior Secured Credit Facilities limit, and our future indebtedness may limit, our right to purchase or redeem certain indebtedness. In the event any purchase or redemption is prohibited, we may seek to obtain waivers from the required lenders under the Senior Secured Credit Facilities or our future lenders to permit the required repurchase or redemption, but the required lenders do not have, and our future lenders are unlikely to have, any obligation to grant, and may refuse to grant, such a waiver. See Description of the Senior Secured Notes Change of Control.

The notes will mature in close proximity to our other indebtedness.

The notes will mature on October 15, 2020. The February 2012 Senior Notes and the August 2011 Notes will mature on August 15, 2019, the February 2011 Notes will mature on August 15, 2021, the October 2010 Notes will mature on April 15, 2019, the May 2010 Notes will mature on May 15, 2018, the term loans under the Senior Secured Credit Facilities will mature on February 9, 2018, the Pactiv 2018 Notes, will mature on January 15, 2018, Pactiv's 8.125% Debentures due 2017 will mature on June 15, 2017, the 2007 Senior Notes will mature on December 15, 2016, the 2007 Senior Subordinated Notes will mature on June 15, 2017 and the revolving facilities under the Senior Secured Credit Facilities will mature on November 5, 2014. As a result, we may not have sufficient cash to repay all amounts owing on the notes, the Existing Notes, the 2007 Notes or Pactiv's notes and debentures at maturity. Given that the notes, each series of our Existing Notes, the 2007 Notes, the Senior Secured Credit Facilities and certain of Pactiv's indebtedness will mature in close proximity to each other, there can be no assurance that we will have the ability to borrow or otherwise raise the amounts necessary to repay such amounts, and the prior maturity of such other indebtedness may make it difficult to refinance the notes and our other indebtedness.

Not all of our subsidiaries guarantee the notes, and the notes and the guarantees of the notes will be structurally subordinated to all of the claims of creditors of those non-guarantor subsidiaries.

The notes are guaranteed by RGHL, BP I and subsidiaries of BP I that guarantee the Senior Secured Credit Facilities. In the future, other subsidiaries will be required to guarantee the notes only under certain limited circumstances. See Description of the Senior Secured Notes Certain Covenants Future Senior Secured Note Guarantors. The indenture governing the notes does not limit the transfer of assets to, or the making of investments in, any of our restricted subsidiaries, including our non-guarantor subsidiaries.

In the event that any non-guarantor subsidiary becomes insolvent, is liquidated, reorganized or dissolved, or is otherwise wound up other than as part of a solvent transaction, the assets of such non-guarantor subsidiary will be used first to satisfy the claims of its creditors, including its trade creditors, banks and other lenders. Only the residual equity value will be available to the Issuers and any other guarantor, and only to the extent the Issuers or any guarantor are parent companies of such non-guarantor subsidiary. Consequently, the notes and each guarantee of the notes will be structurally subordinated to claims of creditors of non-guarantor subsidiaries. The indenture governing the notes permits our subsidiaries, including our non-guarantor subsidiaries, to incur additional debt (subject to certain conditions and limitations with respect to restricted subsidiaries) and does not limit their ability to incur trade payables and similar liabilities.

Table of Contents

Fraudulent conveyance laws and other limitations on the enforceability of the notes, the guarantees and any security securing the notes or related guarantees, may adversely affect the validity and enforceability of the notes, the guarantees and any security securing the notes or related guarantees.

The notes, the related guarantees and any security securing the notes or the related guarantees may be subject to claims that they should be limited or voided in favor of our existing and future creditors under applicable law, including laws in Australia, Austria, Brazil, British Virgin Islands, Canada, Costa Rica, Germany, Guernsey, Hong Kong, Hungary, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Switzerland, Thailand, England and Wales and the United States. In addition, the enforcement of the notes and the guarantees and the amount that can be recovered under a security interest in respect of any asset is limited to the extent of the amount which can be guaranteed by a particular guarantor, security provider, or the Issuers without rendering the applicable guarantee or security voidable or otherwise ineffective under applicable law. Moreover, the enforcement of the notes, guarantees or security against any Issuer, a relevant guarantor or security provider will be subject to certain defenses available to the Issuers, guarantors or security providers generally under (i) the laws of New York, which govern the notes and the guarantees, (ii) the laws governing the relevant security document, and (iii) laws applicable to companies and other corporate entities in the jurisdiction in which the relevant Issuer or guarantor or, if applicable, security provider is organized. These laws and defenses include those that relate to fraudulent conveyance or transfer, fraudulent or voidable preference, financial assistance, corporate purpose or benefit, preservation of share capital, thin capitalization, unlawful dividend and defenses affecting the rights of creditors or other stakeholders generally. See [Certain Insolvency and Other Local Law Considerations](#) for additional information.

Although laws differ significantly among jurisdictions, in general, under fraudulent conveyance and similar laws, a court could subordinate or void any note obligation, guarantee or security obligation if it found that at the time any Issuer, guarantor or security provider, as applicable, issued the notes or incurred obligations under a guarantee or any security, such Issuer, guarantor or security provider did so with the intent of preferring, hindering, delaying or defrauding current or future creditors, or received less than reasonably equivalent value or fair consideration for issuing the notes, incurring the guarantee or providing the security, as applicable, and:

was insolvent or was rendered insolvent by reason of the incurrence of the indebtedness constituting the notes or the guarantee or providing the security, as applicable;

was engaged, or about to engage, in a business or transaction for which its assets constituted unreasonably small capital;

intended to incur, or believed that it would incur, debts beyond its ability to pay as such debts matured;

was a defendant in an action for money damages, or had a judgment for money damages docketed against it if, in either case, after final judgment the judgment is unsatisfied; or

in the case of a guarantee or security, the guarantee or security was not in the best interests or for the benefit of the guarantor or security provider.

The measure of insolvency for purposes of the foregoing considerations will vary depending upon the law of the jurisdiction that is being applied in the relevant legal proceeding. Generally, however, an issuer, guarantor or security provider could be considered insolvent if:

it has failed to pay an amount that is due and in relation to which the creditor has served a written demand;

it has failed to pay its liabilities generally as they become due;

the sum of its debts, including contingent liabilities, is greater than its assets, at a fair valuation; or

the present fair saleable value of its assets is less than the amount required to pay the probable liability on its total existing debts and liabilities, including contingent liabilities, as they become absolute and mature.

We cannot give you any assurance as to what standards a court would use to determine whether the issuer of the 2007 Notes or any Issuer, guarantor or security provider was solvent at the relevant time, or whether, notwithstanding the standard used, the notes or the applicable guarantee or security would not be avoided on other grounds, including those described above.

Table of Contents

A company's guarantee of the notes could be subject to the claim that, since the guarantor incurred its guarantee for the benefit of its affiliates (the issuers of the notes), and only indirectly for the benefit of the guarantor, its obligations under its guarantee were incurred for less than reasonably equivalent value or fair consideration. If a court held that the guarantee should be avoided as a fraudulent conveyance, the court could avoid, or hold unenforceable, the guarantee, which would mean that noteholders would not receive any payments under such guarantee, and the court could direct holders of the notes to return any amounts that they had already received from the applicable guarantor.

Each guarantee of the notes will contain a provision, referred to as the savings clause, intended to limit the guarantor's liability to the maximum amount that it could incur without causing its guarantee to be a fraudulent transfer. However, this provision may automatically reduce the guarantor's obligations to an amount that effectively makes the guarantee worthless and, in any case, this provision may not be effective to protect a guarantee from being avoided under fraudulent transfer laws. For example, in 2009, the U.S. Bankruptcy Court in the Southern District of Florida in *Official Committee of Unsecured Creditors of TOUSA, Inc. v. Citicorp N. Am., Inc.* found a savings clause provision in that case to be ineffective and held these guarantees to be fraudulent transfers and voided them in their entirety.

Laws similar to those described above may also apply to any future guarantee or security granted by one of our subsidiaries. For information about certain insolvency and other local law considerations of different jurisdictions that we or our subsidiaries are subject to, see *Certain Insolvency and Other Local Law Considerations*.

Insolvency laws could limit your ability to enforce your rights under the notes, the guarantees and the security.

Any insolvency proceedings with regard to any Issuer, guarantor or security provider would most likely be based on and governed by the insolvency laws of the jurisdiction under which the relevant entity is organized. As a result, in the event of insolvency with regard to any of these entities, the claims of holders of the notes against any Issuer, guarantor or security provider may be subject to the insolvency laws of its jurisdiction of organization. The provisions of such insolvency laws differ substantially from each other, including with respect to rights of creditors, priority of claims and procedure and may contain provisions that are unfavorable to holders of notes. In addition, there can be no assurance as to how the insolvency laws of these jurisdictions will be applied in cross-border insolvency proceedings. See *Certain Insolvency and Other Local Law Considerations*.

As a general matter, under insolvency law, any Issuer's, any guarantor's or any security provider's liabilities in respect of the notes, the guarantees and security may, in the event of insolvency or similar proceedings, rank junior to certain of such Issuer's, guarantor's or security provider's debts that are entitled to priority under the laws of such jurisdiction. Debts entitled to priority may include (i) amounts owed in respect of employee pension schemes, (ii) certain amounts owed to employees, (iii) amounts owed to governmental agencies, including tax authorities, and (iv) expenses of an insolvency practitioner. In addition, in some jurisdictions, an examiner or administrator or similar party may be legally required to consider the interest of third parties (including, for example, employees) or the best interests of the relevant company in connection with the proceedings. In certain cases, the ability of a holder to collect interest accruing on the notes in respect of any period after the commencement of liquidation proceedings and a holder's rights in respect of the guarantees may be limited.

Enforcing your rights as a holder of the notes or under the guarantees or the security across multiple jurisdictions may be difficult.

The notes are joint and several obligations of the Issuers. The notes are guaranteed by certain of our subsidiaries which are organized under the laws of Australia, Austria, Brazil, British Virgin Islands, Canada, Costa Rica, Germany, Guernsey, Hong Kong, Hungary, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Switzerland, Thailand, England and Wales and the United States. In the event of bankruptcy, insolvency or a similar event, proceedings could be initiated in any of these jurisdictions or in the jurisdiction of organization of a future guarantor. The rights of holders under the notes, the guarantees and the security granted will be subject to the laws of several jurisdictions and holders of the notes may not be able to enforce effectively

Table of Contents

their rights in multiple bankruptcy, insolvency and other similar proceedings. Moreover, such multi-jurisdictional proceedings are typically complex and costly for creditors and often result in substantial uncertainty and delay in the enforcement of creditors' rights. See *Certain Insolvency and Other Local Law Considerations*.

In addition, the bankruptcy, insolvency, foreign exchange, administration and other laws of the various jurisdictions in which the Issuers, guarantors and security providers are located may be materially different from or in conflict with one another and those of the United States, including in respect of creditors' rights, priority of creditors, the ability to obtain post-petition interest and the duration of the insolvency proceeding. The consequences of the multiple jurisdictions involved in the transaction could trigger disputes over which jurisdiction's law should apply and choice of law disputes which could adversely affect the ability of noteholders to enforce their rights and to collect payment in full under the notes, the guarantees and any security. See *Certain Insolvency and Other Local Law Considerations*.

The beneficial owners of the notes are not party to any of the security documents. Therefore, in certain jurisdictions, such as Germany, Austria, Switzerland, Hungary and the Netherlands, there are risks regarding the enforceability of the security interests granted by an issuer or guarantor in favor of the holders of the notes. Under the First Lien Intercreditor Agreement and certain of the security documents with respect to the collateral securing the Existing Senior Secured Notes and the Senior Secured Credit Facilities, the collateral agents hold secured claims equal to the amount of the Existing Senior Secured Notes and the Senior Secured Credit Facilities, for the benefit of the applicable secured parties thereunder pursuant to a parallel debt undertaking. This parallel debt undertaking will extend to the obligations with respect to the notes for the benefit of the trustee and the holders of the notes. Accordingly, the rights of the holders of the notes are not directly secured by the pledges of the collateral but through this parallel claim. The parallel claim is acknowledged by the applicable issuer or guarantor by way of a parallel debt undertaking to the collateral agent. The parallel debt undertaking secures the notes and the relevant guarantees and the collateral secures claims under the parallel debt undertaking. There is uncertainty as to the enforceability of this procedure in many jurisdictions, including Germany, Austria, Switzerland, Hungary and the Netherlands. For example, this procedure has not yet been tested under German, Austrian, Swiss, Hungarian or Dutch law, and we cannot assure you that it will eliminate or mitigate the risk of unenforceability posed by German, Austrian, Swiss, Hungarian, or Dutch law or the law of any other jurisdiction where parallel debt is used. See *Enforcement of Civil Liabilities* and *Certain Insolvency and Other Local Law Considerations*.

You may be unable to enforce judgments obtained in the United States and foreign courts against us, certain of the guarantors or our or their respective directors and executive officers.

Many of our directors and executive officers and many of the guarantors as well as the Lux Issuer are, and will continue to be, non-residents of the United States, and most of the assets of these companies are located outside of the United States. As a consequence, you may not be able to effect service of process on the Lux Issuer and guarantors located outside the United States or the non-United States resident directors and officers in the United States or to enforce judgments of United States courts in any civil liabilities proceedings under the United States federal securities laws. Moreover, any judgment obtained in the United States against the non-resident directors, the executive officers, the Lux Issuer, the issuer of the 2007 Notes or the guarantors, including judgments with respect to the payment of principal, premium, if any, and interest on the notes, may not be collectible in the United States. There is also uncertainty about the enforceability in the courts of certain jurisdictions, including judgments obtained in the United States against certain of the guarantors, whether or not predicated upon the federal securities laws of the United States. See *Enforcement of Civil Liabilities*.

In particular, Lux Issuer is a public limited liability company (société anonyme) organized under the laws of Luxembourg. Certain of its officers and directors are residents of various jurisdictions outside the United States. All or a substantial portion of their assets may be located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon such persons or to enforce judgments obtained against such persons in United States courts and predicated upon the civil liability provisions of the United States federal securities laws.

In addition, since the United States and Luxembourg are not currently party to a treaty with respect to the mutual recognition and enforcement of civil judgments, a judgment obtained against a Luxembourg company in

Table of Contents

the United States courts in a dispute with respect to which the parties have validly agreed that such courts are to have jurisdiction, will not be directly enforced by the courts in Luxembourg. In order to obtain a judgment which is enforceable in Luxembourg, the claim must be re-litigated before a competent court of Luxembourg. The relevant Luxembourg court will have discretion to attach such weight to a judgment of the courts of the United States as it deems appropriate based on Luxembourg case law. The courts of Luxembourg may recognize the binding effect of a final, conclusive and enforceable money judgment of a court of competent jurisdiction in the United States provided that certain conditions as set forth in Article 678 *et seq.* of the Luxembourg New Code of Civil Procedure are satisfied. As a result, even if a favorable judgment is obtained against the Lux Issuer in the United States, such judgment might not be enforced by the courts in Luxembourg and may need to be re-litigated in Luxembourg. See Enforcement of Civil Liabilities Luxembourg.

The calculation of EBITDA pursuant to the indenture governing the notes permits certain estimates and assumptions that may differ materially from actual results, and the estimated savings expected from our cost saving plans may not be achieved.

Although all of the combined and stand-alone EBITDA and Adjusted EBITDA presentations included in this prospectus are derived from our or our acquired companies' financial statements, pro forma or historical, as the case may be, the various combined and stand-alone calculations of EBITDA and Adjusted EBITDA presented in this prospectus permit certain estimates and assumptions that may differ materially from actual results. Although we believe these estimates and assumptions are reasonable, investors should not place undue reliance upon any of these calculations given how they are calculated and the possibility that the underlying estimates and assumptions ultimately may not reflect actual results.

Potential investors should regard the assumptions with considerable caution and are urged to evaluate the potential for our results to deviate from the assumptions set out in Summary Summary Historical and Pro Forma Combined Financial Information and the implications of deviations in different assumptions on other assumptions and on our income and cash flows.

We have not presented individual financial statements or summary financial data for the guarantors of the notes (other than RGHL and BP I), the Issuers or other members of the RGHL Group and are not required to do so in the future under the indenture governing the notes.

We have not presented individual financial statements or summary financial data for the guarantors of the notes (other than RGHL and BP I), the Issuers or other members of the RGHL Group in this prospectus and may not be required to do so in the future under the indenture governing the notes. The absence of financial statements for the Issuers and the guarantors (other than RGHL and BP I) may make it difficult for holders of the notes to assess the financial condition or results of the Issuers and the guarantors or their compliance with the covenants in the indenture governing the notes.

Non-U.S. subsidiaries of our U.S. subsidiaries have not and will not guarantee the notes.

Non-U.S. subsidiaries of our U.S. subsidiaries have not and will not guarantee the notes and the notes are and will be structurally subordinated to all claims of creditors, including trade creditors, of such non-U.S. subsidiaries.

In addition, any pledge of the securities of any first tier non-U.S. subsidiaries of our U.S. subsidiaries will be limited to 100% of their non-voting capital stock and 65% of their voting capital stock. There will be no pledge of the capital stock of non-U.S. subsidiaries of our U.S. subsidiaries other than with respect to certain of our first-tier non-U.S. subsidiaries. The notes have not and will not be secured by a pledge of the assets of any non-U.S. subsidiary of our U.S. subsidiaries. Accordingly, the notes are and will be effectively subordinated to such non-U.S. subsidiaries' secured liabilities and obligations to the extent of the value of any assets that secure such liabilities and obligations.

We are not required to reorganize our corporate structure such that any non-U.S. subsidiaries of our U.S. subsidiaries will provide a guarantee or a pledge of their assets or such that a pledge of 100% of their voting capital stock can be granted.

Table of Contents

Certain jurisdictions may impose withholding taxes on payments under the notes, guarantees or security documents or impose foreign exchange restrictions which may alter or reduce the amount recoverable by noteholders.

Payments made under the notes, guarantees or security granted by guarantors, security providers and the Issuers in certain jurisdictions may be subject to withholding tax, the amount of which will vary depending on the residency of the recipient, the availability of double-tax treaty relief and your legal relationship with the relevant guarantor, Issuer or security provider. In certain circumstances holders may be entitled to receive additional amounts in respect of such withholding tax, other than withholding tax imposed or levied by or on behalf of the United States or any political subdivision or governmental authority thereof or therein having power to tax. See Description of the Senior Secured Notes Withholding Taxes. In addition, government or central bank approvals may be required in order for a guarantor, Issuer or security provider organized under the laws of certain jurisdictions, such as Thailand, to remit payments outside that jurisdiction under its guarantee or security.

In addition, foreign exchange controls applicable in certain jurisdictions may limit the amount of local currency that can be converted into other currencies, including dollars, upon enforcement of a guarantee or security interest.

You may face currency exchange risks by investing in the notes.

The notes are denominated and payable in dollars. If you measure your investment returns by reference to a currency other than dollars, investment in such notes entails foreign currency exchange-related risks due to, among other factors, possible significant changes in the value of the dollar relative to the currency you use to measure your investment returns, caused by economic, political and other factors which affect exchange rates and over which we have no control. Depreciation of the dollar against the currency in which you measure your investment returns would cause a decrease in the effective yield of the notes below their stated coupon rates and could result in a loss to you when the return on the notes is translated into the currency in which you measure your investment returns. There may be tax consequences for you as a result of any foreign exchange gains or losses resulting from your investment in the notes. You should consult your tax advisor concerning the tax consequences to you of acquiring, holding and disposing of the notes.

Our access to capital markets, our ability to enter into new financing arrangements and our business operations could be significantly impaired if our credit ratings are downgraded.

Downgrades in our credit ratings could adversely affect our ability to access the capital markets and/or lead to increased borrowing costs in the future, although the interest rates on our current indebtedness would not be affected. Some rating agencies that provide corporate ratings on us or provide ratings on our debt may downgrade their corporate or debt ratings with respect to us. In addition, perceptions of us by investors, producers, other businesses and consumers could also be significantly impaired.

Because each guarantor's or security provider's liability under its guarantee or security may be reduced to zero, avoided or released under certain circumstances, you may not receive any payments from some or all of the guarantors or security providers.

The notes have the benefit of the guarantees of and security from RGHL, BP I and certain of its subsidiaries, including the Issuers. However, the guarantees and the security are limited to the maximum amount that the guarantors or the security providers are permitted to guarantee and secure under applicable law. As a result, a guarantor's or a security provider's liability under a guarantee or in respect of security could be reduced to zero depending on the amount of other obligations of such entity. Further, under certain circumstances, a court under applicable fraudulent conveyance and transfer statutes or other applicable laws could void the obligations under a guarantee or in respect of security, or subordinate the guarantee or security to other obligations of the guarantor or security provider. See Fraudulent conveyance laws and other limitations on the enforceability of the notes, the guarantees and any security securing the notes or related guarantees, may adversely affect the validity and enforceability of the notes, the guarantees and any security securing the notes or related guarantees. In addition, you will lose the benefit of a particular guarantee and security if it is released under certain circumstances described under Description of the Senior Secured Notes Senior Secured Note Guarantees.

Table of Contents

As a result, an entity's liability under its guarantee or its security, could be materially reduced or eliminated depending upon the amounts of its other obligations and upon applicable laws. In particular, in certain jurisdictions, a guarantee or security interest granted by a company that is not in the company's corporate interests or where the burden of that guarantee or security exceeds the benefit to the company may not be valid and enforceable. It is possible that a creditor of an entity or the insolvency administrator in the case of an insolvency of an entity may contest the validity and enforceability of the guarantee or security and that the applicable court may determine that the guarantee or security should be limited or voided. In the event that any guarantees or security are deemed invalid or unenforceable, in whole or in part, or to the extent that agreed limitations on the guarantee or secured obligation apply, the notes would rank *pari passu* with, or be effectively subordinated to, all liabilities of the applicable guarantor, including trade payables of such guarantor.

Relevant local insolvency laws may not be as favorable to you as U.S. bankruptcy laws and may preclude holders of the notes from recovering payments due.

Certain members of the RGHL Group that are either an issuer or guarantors or security providers (subject to certain exceptions) are organized under the laws of Australia, Austria, Brazil, British Virgin Islands, Canada, Costa Rica, Germany, Guernsey, Hong Kong, Hungary, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Switzerland, Thailand or England and Wales. The procedural and substantive provisions of the insolvency laws of these countries may not be as favorable to creditors as the provisions of U.S. law.

See "Certain Insolvency and Other Local Law Considerations" for a description of the insolvency laws in Australia, Austria, Brazil, British Virgin Islands, Canada, Germany, Guernsey, Hungary, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Switzerland, Thailand and England and Wales that could limit the enforceability of the guarantees or the security.

In the event that any one or more of the Issuers, the guarantors, security providers, any future guarantors or security providers or any other of our subsidiaries experience financial difficulty, it is not possible to predict with certainty in which jurisdiction or jurisdictions insolvency or similar proceedings would be commenced, or the outcome of such proceedings. Pursuant to the European Union regulation on insolvency proceedings, any insolvency proceeding with regard to any Issuer, guarantor or security provider located within the European Union would most likely be held in, based on and governed by the insolvency laws of the jurisdiction of the relevant entity's center of main interests, which will not necessarily be the country in which it is incorporated. We cannot assure you as to how that regulation will be applied in insolvency proceedings relating to several jurisdictions within the European Union.

Primary note obligations, guarantees and security provided by entities organized in jurisdictions not summarized in this prospectus and, in the case of a security governed by the laws of a jurisdiction not summarized in this prospectus, are also subject to material limitations pursuant to their terms, by statute or otherwise. Any enforcement of the primary note obligations, the guarantees and security after bankruptcy or an insolvency event in such other jurisdictions will possibly be subject to the insolvency laws of the relevant entity's jurisdiction of organization or other jurisdictions. The insolvency and other laws of each of these jurisdictions may be materially different from, or in conflict with, each other, including in the areas of rights of creditors, the ability to void preferential transfer, priority of governmental and other creditors, ability to obtain post-petition interest and duration of the proceeding. The application of these laws, or any conflict among them, could call into question whether any particular jurisdiction's laws should apply, adversely affect your ability to enforce your rights under the guarantees and security in these jurisdictions and limit any amounts that you may receive.

Holders of the notes will not control certain decisions regarding collateral.

The trustee and collateral agents for the holders of the notes and the Existing Notes and the administrative agent under the Senior Secured Credit Facilities have entered into the First Lien Intercreditor Agreement. The First Lien Intercreditor Agreement provides, among other things, that the lenders under the Senior Secured Credit Facilities will control substantially all matters related to the collateral that secures the Senior Secured Credit Facilities, which collateral also secures the Existing Senior Secured Notes and the notes, and the lenders under the Senior Secured Credit Facilities may direct the collateral agents to foreclose on or take other actions with

Table of Contents

respect to such collateral with which holders of the notes may disagree or that may be contrary to the interests of holders of the notes. In addition, the First Lien Intercreditor Agreement provides that, to the extent any collateral securing our obligations under the Senior Secured Credit Facilities is released to satisfy such creditor's claims in connection with such a foreclosure, the liens on such collateral securing the notes will also automatically be released without any further action by the trustee, collateral agents or the holders of the notes and the holders of the notes will agree to waive certain of their rights relating to such collateral in connection with a bankruptcy or insolvency proceeding involving us or any guarantor of the notes. The First Lien Intercreditor Agreement provides that the holders of the notes may not take any actions to direct foreclosures or take other remedial actions following an event of default under the Senior Secured Credit Facilities or the notes for at least 90 days and longer if the administrative agent under the Senior Secured Credit Facilities takes action to direct foreclosures or other actions following such event of default.

After the discharge of the obligations with respect to the Senior Secured Credit Facilities whether on enforcement or repayment (other than repayment with indebtedness incurred under an agreement designated as a Credit Agreement for the purposes of the First Lien Intercreditor Agreement), at which time the parties to the Senior Secured Credit Facilities will no longer have the right to direct the actions of any collateral agent with respect to the collateral pursuant to the First Lien Intercreditor Agreement, that right passes to the authorized representative of holders of the next largest outstanding principal amount of indebtedness secured by a first lien on the collateral. If the aggregate principal amount of any series of the Existing Senior Secured Notes outstanding at such time exceeds the aggregate principal amount of the notes or if we issue additional first lien indebtedness in the future in a principal amount greater than the outstanding principal amount of the notes, then the trustee for such series of the Existing Senior Secured Notes or the authorized representative for such additional indebtedness, as applicable, would be next in line to direct the senior collateral agent to exercise rights under the First Lien Intercreditor Agreement, rather than the trustee for the notes.

In addition, subject to certain conditions, the security documents generally allow us and our subsidiaries to remain in possession of, retain exclusive control over, freely operate, and collect, invest and dispose of any income from, the collateral. This may impact the type and quality of the security interest granted in respect of the collateral. In addition, to the extent we sell any assets that constitute collateral, the proceeds from such sale will be subject to a lien securing the notes only to the extent such proceeds would otherwise constitute collateral securing the notes under the security documents. To the extent the proceeds from any sale of collateral do not constitute collateral under the security documents, the pool of assets securing the notes would be reduced and the notes would not be secured by the proceeds of the sale.

There may not be sufficient collateral to satisfy our obligations under all or any of the notes.

Much of our assets are not and will not be collateral for the notes, and no appraisals of the fair market value of any assets that are collateral were prepared in connection with the offering of the notes. The assets that will be excluded from the collateral include all assets of foreign subsidiaries of our U.S. subsidiaries and a number of Pactiv's real properties. The value of the collateral at any time will depend on market and other economic conditions, including the availability of suitable buyers for the collateral. The book value of our assets may not be indicative of the fair market value of such assets, which could be substantially lower. In addition, a substantial portion of our assets will not constitute collateral for the notes or our other secured indebtedness. Accordingly, the value of the collateral securing our indebtedness, including the notes, the Existing Senior Secured Notes and the Senior Secured Credit Facilities and our other indebtedness that shares in the collateral, could be substantially less than the aggregate principal amount of our secured indebtedness. By their nature, some or all of the pledged assets may be illiquid and may have no readily ascertainable market value or market. While we do not presently believe the Existing Senior Secured Notes or our other secured indebtedness are under-collateralized, the value of the assets pledged as collateral for the notes or our other secured indebtedness could be impaired in the future as a result of changing economic conditions in the relevant jurisdictions, changing legal regimes, our failure to implement our business strategy, competition and other future trends. In the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the proceeds from any sale or liquidation of the collateral may be insufficient to pay our obligations under the notes, the Existing Senior Secured Notes or our other secured indebtedness.

Table of Contents

Most of the collateral is subject to the prior or equal claims of other creditors which could diminish any recovery from the collateral. Certain other creditors may have permitted liens which rank prior to the liens of the noteholders in the collateral. In addition, certain other creditors may have permitted liens which rank junior to the liens of the noteholders in the collateral. The indenture governing the notes also permits us to incur additional indebtedness that may share in the collateral on a senior or equal lien priority basis. Any additional obligations secured by a lien on the collateral securing the notes, whether effectively or actually senior to or equal with the lien in favor of the notes will adversely affect the relative position of the holders of such notes with respect to the collateral securing such notes. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding against us, the proceeds of the enforcement against the collateral will be used first to pay the secured parties under any indebtedness secured on a senior lien priority basis over the collateral in full before making any payments on the notes and any other indebtedness with an equal lien on the collateral. Any notes remaining outstanding will be general unsecured claims that are equal in right of payment with our other unsecured unsubordinated or subordinated indebtedness, as relevant. The presence of junior liens may also impair the value recoverable from the collateral.

As of September 30, 2012, on a pro forma basis after giving effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions, we would have had outstanding \$9,912 million of secured indebtedness with an equal claim to the collateral as the holders of the notes.

The value of the collateral securing the notes may not be sufficient to secure post-petition interest.

In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding against any issuer, guarantor or security provider located in the United States, holders of the notes will only be entitled to post-petition interest under the U.S. federal bankruptcy code to the extent that the value of their security interest in the collateral is greater than their pre-bankruptcy claim. Holders of the notes may be deemed to have an unsecured claim to the extent that our obligations in respect of the notes exceed the fair market value of the collateral securing the notes. As a result, holders of the notes that have a security interest in collateral with a value equal to or less than their pre-bankruptcy claim will not be entitled to post-petition interest under the bankruptcy code. In addition, it is possible that the bankruptcy trustee, the debtor-in-possession or competing creditors will assert that the fair market value of the collateral with respect to the notes on the date of the bankruptcy filing was less than the then-current principal amount of the notes. Upon a finding by a bankruptcy court that the notes are under-collateralized, the claims in the bankruptcy proceeding with respect to the notes would be bifurcated between a secured claim and an unsecured claim, and the unsecured claim would not be entitled to the benefits of security in the collateral. Other consequences of a finding of under-collateralization would be, among other things, a lack of entitlement for holders of the notes to receive post-petition interest and a lack of entitlement for holders of the unsecured portion of the notes to receive other adequate protection under U.S. federal bankruptcy laws. In addition, if any payments of post-petition interest had been made at the time of such a finding of under-collateralization, those payments could be re-characterized by the bankruptcy court as a reduction of the principal amount of the secured claim with respect to the notes. No appraisal of the fair market value of the collateral was prepared in connection with the offering of the notes and we therefore cannot assure you that the value of the noteholders interest in the collateral equals or exceeds the principal amount of the notes. See There may not be sufficient collateral to satisfy our obligations under all or any of the notes. In addition, in certain other jurisdictions, holders of notes may not be entitled to post-petition interest. See Certain Insolvency and Other Local Law Considerations.

The pledge of the securities of our subsidiaries that secures the notes, subject to certain exceptions, will automatically be released to the extent and for so long as that pledge would require the filing of separate financial statements with the SEC for that subsidiary. As a result of any such release, the notes could be secured by less collateral than our other first-lien indebtedness, including the Senior Secured Credit Facilities.

The notes are secured by a pledge of the stock and other securities of certain of our subsidiaries held by the Issuers or the guarantors of the notes. Under the SEC regulations in effect as of the issue date of the notes, if the par value, book value as carried by us or market value, whichever is greatest, of the capital stock, other securities

Table of Contents

or similar items of a subsidiary pledged as part of the collateral is greater than or equal to 20% of the aggregate principal amount of the notes then outstanding, such a subsidiary would be required to provide separate financial statements to the SEC. The indenture governing the notes provides that any portion of the capital stock and other securities of any of our subsidiaries will be excluded from the collateral to the extent that it exceeds the maximum amount of such capital stock or other security that can be pledged to secure the notes without causing such subsidiary to be required to file separate financial statements with the SEC pursuant to Rule 3-16 of Regulation S-X or another similar rule, except that such exclusion will not apply to shares of BP I at any time. As a result, holders of the notes could lose a portion or all of their security interest in the capital stock or other securities of those subsidiaries during that period. We conduct substantially all of our business through our subsidiaries, many of which have capital stock with a value in excess of 20% of the aggregate principal amount of the notes. Accordingly, the pledge of stock and securities with respect to each such subsidiary will be limited in value to less than 20% of the aggregate principal amount of the notes. As a result, holders of the notes could lose a portion or all of their security interest in the capital stock or other securities of those subsidiaries during that period. It may be more difficult, costly and time-consuming for holders of the notes to foreclose on the assets of a subsidiary than to foreclose on its capital stock or other securities, so the proceeds realized upon any such foreclosure could be significantly less than those that would have been received upon any sale of the capital stock or other securities of such subsidiary. In addition, the lenders under the Senior Secured Credit Facilities are not subject to such limitation and may have security interests which are substantially more valuable as a result thereof.

The collateral securing the notes may be diluted under certain circumstances.

The collateral that secures the notes, subject to certain limited exceptions, also secures obligations under our Senior Secured Credit Facilities. In addition, this collateral may secure additional senior indebtedness that we or our restricted subsidiaries incur in the future, subject to restrictions on our or their ability to incur debt and liens under the indenture governing the notes and other agreements governing our indebtedness. Your rights would be diluted by any increase in the amount of indebtedness secured by this collateral.

The collateral is subject to casualty risk.

Even if we maintain insurance, there are certain losses that may be either uninsurable or not economically insurable, in whole or part. Insurance proceeds may not compensate us fully for our losses. If there is a complete or partial loss of any collateral, the insurance proceeds may not be sufficient to satisfy all of our obligations, including the notes and related guarantees.

We may not complete lien searches on the collateral securing the notes.

As of the date of this prospectus, we may not have completed lien searches on the collateral securing the notes in those jurisdictions where it is possible to conduct such lien searches. Such lien searches could reveal a prior lien or multiple prior liens on the collateral securing the notes and such liens may prevent or inhibit the collateral agents from foreclosing on the liens securing the notes and may impair the value of the collateral securing the notes. We cannot guarantee that the completed lien searches will not reveal any prior liens on the collateral securing notes or that there are no prior liens in jurisdictions where lien searches are not possible. Any prior lien could be significant, could be prior to the liens securing the notes and could have an adverse effect on the ability of the collateral agents to realize or foreclose upon the collateral securing the notes.

Any security granted over collateral might be avoided by a trustee in bankruptcy.

Any security granted over collateral in favor of any collateral agents, including pursuant to security documents delivered after the date of the indenture governing the notes, might be avoided by the grantor, as debtor-in-possession, or by its trustee in bankruptcy if certain events or circumstances exist or occur, including, among others, if the grantor is insolvent at the time of granting the security or becomes insolvent as a result of entering into the security or associated documentation, including a guarantee, or a bankruptcy proceeding in respect of the security provider is commenced within a specified number of days following the granting of the security.

Table of Contents

In the event that the First Lien Intercreditor Agreement is found to be invalid or unenforceable, the liens in favor of the notes in some foreign jurisdictions will not rank pari passu with the liens in favor of the Existing Senior Secured Notes and the Senior Secured Credit Facilities.

The security documents that create the liens in favor of the notes, the Existing Senior Secured Notes and the Senior Secured Credit Facilities with respect to certain foreign collateral rely on the First Lien Intercreditor Agreement for establishing the relative priorities of the holders of the notes, the holders of the Existing Senior Secured Notes and the lenders and other secured parties under the Senior Secured Credit Facilities. Because the priority of the notes with respect to such foreign collateral as compared to the Existing Senior Secured Notes and the Senior Secured Credit Facilities depends, in certain instances, on the enforceability of the First Lien Intercreditor Agreement, if the First Lien Intercreditor Agreement is found to be invalid or unenforceable, the liens in favor of the notes, in certain jurisdictions, will not rank *pari passu* with the liens in favor of the Existing Senior Secured Notes and the Senior Secured Credit Facilities. In such a situation the claims of the holders of the notes will be effectively subordinated to claims of the holders of the Existing Senior Secured Notes and the lenders and other secured parties under the Senior Secured Credit Facilities to the extent of the value of the assets secured by such liens.

Security interests in respect of the collateral may be adversely affected by the failure to perfect security interests in certain collateral presently owned or acquired in the future.

The security interest in the collateral securing the notes includes assets now owned or, to the extent permitted by applicable laws, acquired or arising in the future. Applicable law requires that certain property and rights acquired after the grant of a general security interest can only be perfected at the time such property and rights are acquired and identified. There can be no assurance that the trustee or any collateral agent will monitor, or that we will inform the relevant trustee or any collateral agent of, the future acquisition of property and rights that constitute collateral, and that the necessary action will be taken to properly create or perfect the security interest in such after-acquired collateral. Such failure may result in the loss of the security interest therein or the priority of the security interest in favor of the notes against third parties. In addition, we are not required to take certain perfection steps in respect of particular assets, whether owned now or acquired in the future, in certain jurisdictions for cost or commercial reasons or such perfection steps may only occur at the time of enforcement. For example, although certain of our trade receivables may be assigned by way of security, we are not required, and do not intend, to notify the obligor of such receivables of the existence of such security, which may impair the effectiveness of the security interest.

Certain of the jurisdictions where you have the benefit of a security interest in collateral securing the notes do not have public, or other third party, registers where liens, pledges or other forms of security interests may be centrally recorded and if they do have such registers, registration may not be compulsory to protect a secured party's interests or any registration may not be made or, when made, may not be effective to create priority over other security granted prior to the registration being made. As a result, in these jurisdictions the trustee or collateral agent must rely on any representations and warranties given by us that there are no liens, pledges or applicable other security interests already in place. There can be no assurance that we will accurately inform the relevant trustee or any collateral agent of the status of the collateral securing the notes and the value of the security interest may be adversely affected thereby.

In addition, in certain jurisdictions security interests created over particular assets can only be perfected by possession of the asset by the secured party. The terms of the security documents may not require possession to be granted to the secured party until enforcement, meaning that the security interest will remain unperfected until possession is granted.

Rights of holders of the notes may be adversely affected by bankruptcy proceedings in the United States.

The right of the collateral agents to repossess and dispose of the collateral securing the notes upon acceleration is likely to be significantly impaired by U.S. federal bankruptcy law if bankruptcy proceedings are commenced by or against us prior to or possibly even after any collateral agent has repossessed and disposed of the collateral. Under the U.S. Bankruptcy Code, a secured creditor, such as any collateral agent, is prohibited

Table of Contents

from repossessing its security from a debtor in a bankruptcy case, or from disposing of security repossessed from a debtor, without bankruptcy court approval. Moreover, U.S. bankruptcy law permits the debtor to continue to retain and to use collateral, and the proceeds, products, rents or profits of the collateral, even though the debtor is in default under the applicable debt instruments, provided that the secured creditor is given adequate protection. The meaning of the term adequate protection may vary according to circumstances, but it is intended in general to protect the value of the secured creditor's interest in the collateral and may include cash payments or the granting of additional security, if and at such time as the court in its discretion determines, for any diminution in the value of the collateral as a result of the stay of repossession or disposition or any use of the collateral by the debtor during the pendency of the bankruptcy case. In view of the broad discretionary powers of a bankruptcy court, it is impossible to predict how long payments under the notes could be delayed following commencement of a bankruptcy case, whether or when any collateral agent would repossess or dispose of the collateral, or whether or to what extent holders of the notes would be compensated for any delay in payment of loss of value of the collateral through the requirements of adequate protection. Furthermore, in the event the bankruptcy court determines that the value of the collateral is not sufficient to repay all amounts due on the notes, the holders of the notes would have undersecured claims as to the difference. U.S. federal bankruptcy laws do not permit the payment or accrual of interest, costs and attorneys' fees for undersecured claims during the debtor's bankruptcy case.

We may not obtain consents and notifications required in order to enable us to grant certain of the security proposed to be granted to secure the notes.

In order to perfect security interests over certain of the collateral it may be necessary to obtain third-party consents and provide certain notifications. These include consents and notifications in respect of contracts such as those with trade creditors and insurance contracts where the consent of the counterparties is required before any security can be perfected in respect of such contracts. We cannot assure you that we will obtain such consents and if they are not obtained the security interests in such collateral may not be enforceable. In certain cases the terms of the security documents do not require us to obtain such consents at all or, if they do, it is not required until enforcement occurs.

Security providers may own assets outside the respective jurisdictions in which they were formed.

The guarantors, security providers and issuers granting security in respect of the notes may own collateral located outside the respective jurisdictions in which such guarantors, security providers or issuers were formed. Where this is the case, the relevant security documents may not purport to create security interests over such collateral. In circumstances where the security documents purport to create security interests over such collateral, such security interests may not be effective, or the enforcement of such security interests in the jurisdiction in which the collateral is located may not be possible.

The use of collateral agents may diminish the rights that a secured creditor would otherwise have with respect to the collateral.

In most cases, the collateral will be taken in the name of a collateral agent for the benefit of the holders of the notes and the trustee. As a result, any collateral agent may effectively control actions with respect to collateral which may impair the rights that a noteholder would otherwise have as a secured creditor. Any collateral agent may take actions that a noteholder disagrees with or may fail to take actions that a noteholder wishes to pursue. For example, a collateral agent could decide to credit bid using the value of a noteholder's secured claim even if such noteholder would not individually have done so.

Furthermore, any collateral agent may fail to act in a timely manner, which could impair the recovery of the noteholders.

In addition, in instances where any collateral agent cannot, or it is impractical for it to, hold a security interest, a gratuitous bailee may hold the security interest for the benefit of the noteholders. The holders will have no rights against any such gratuitous bailee.

Table of Contents

The collateral agents may not be able to possess certain collateral on enforcement and may also be prevented from holding security interests in certain collateral.

Applicable laws may restrict the ability of a foreign entity that holds a security interest in particular collateral from taking possession of that collateral on enforcement. In addition, certain jurisdictions restrict the ability of foreign entities to hold the benefit of security interests over certain assets. This may mean that any collateral agent may be unable to benefit from security interests in certain collateral and may also restrict the ability of such collateral agent to transfer collateral into its name on enforcement.

Intercompany movements of collateral may diminish the assets that serve as collateral and the priority of noteholder liens with respect to collateral.

We are generally permitted to freely move assets within the RGHL Group subject to certain restrictions. However, not all members of the RGHL Group are or will be guarantors, security providers or issuers or grant security over the same type of assets. If collateral is transferred to an entity that is not a guarantor, security provider, or issuer, the interests of the noteholders will cease to be secured by such assets.

If collateral is moved to another entity that is a guarantor, security provider or issuer, the asset may cease to be collateral or your priority in the asset may be impaired. If a type of collateral is transferred to a guarantor that does not grant security interests, as is the case with respect to guarantors organized in Japan, Costa Rica and Australia, or does not grant security interests with respect to that particular type of asset, then the noteholders will lose the benefit of such collateral. Even if the asset continues as collateral in the hands of the recipient entity, there may be hardening periods or notification requirements before the security interest becomes effective or the security interest might not be as beneficial to noteholders as it was in the possession of the transferring entity.

The notes are subject to complex intercreditor agreements governing the relationship between numerous creditors with respect to rights to payments and collateral across several jurisdictions, and there is no certainty as to how or if any court would enforce the intercreditor agreements.

The relationship among the holders of the notes and our other creditors is governed by two intercreditor agreements. The relationship among the holders of the notes, the holders of the Existing Senior Secured Notes, the lenders and other secured parties under the Senior Secured Credit Facilities and creditors under any other series of future first lien indebtedness is governed by the First Lien Intercreditor Agreement which is governed by New York law. See Description of Certain Other Indebtedness and Intercreditor Agreements First Lien Intercreditor Agreement. The relationship among the holders of the notes, the holders of the Existing Senior Secured Notes and the lenders and other secured parties under the Senior Secured Credit Facilities on the one hand and the holders of the 2007 Notes on the other hand is subject to the 2007 UK Intercreditor Agreement, which is governed by English law. See Description of Certain Other Indebtedness and Intercreditor Agreements 2007 UK Intercreditor Agreement.

These intercreditor agreements collectively govern the relationship among certain of our creditors which are located in several countries and have disparate interests. In addition, they govern creditor rights with respect to payment obligations from members of the RGHL Group and collateral located in different countries. Due to the complexity of the agreements, there is no certainty how a court would interpret the interaction among the parties. The complexity may also increase the time required to resolve any disputes among creditors and may impair or delay any recovery under the notes and guarantees. Also, given that the agreements govern matters in several countries, there is no certainty to what extent, if at all, any court would enforce the provisions.

There is currently no public market for the notes. We cannot assure you that an active trading market will develop for the notes, in which case your ability to transfer the notes, as applicable, will be limited.

The new notes are new securities for which there presently is no established public market. We cannot give you any assurance as to the development or maintenance of any active trading market for the notes or, if a market does develop for the notes, the liquidity of such market, your ability to sell your notes or the price at which you may be able to sell your notes. Future prices of the notes will depend on many factors, including:

our operating performance and financial conditions;

Table of Contents

the interest of securities dealers in making a market; and

the market for similar securities.

In addition, the liquidity of the trading markets for the new notes, and the market prices quoted for the new notes, may be adversely affected by changes in the overall market for high-yield securities and by changes in our financial performance or in the prospects of companies in our industry generally. As a result, you cannot be certain that active trading markets will develop for the notes or, if such markets develop, that they will be maintained.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices and liquidity of securities similar to the notes. The market, if any, for the new notes may be subject to similar disruptions and any such disruptions may adversely affect the value of the notes.

Since the outstanding old notes will continue to have restrictions on transfer and cannot be sold without registration under securities laws or exemptions from registration requirements, you may have difficulty selling the old notes that you do not exchange.

If a large number of the old notes are exchanged for the new notes issued in the exchange offer, it may be difficult for holders of outstanding old notes that are not exchanged in the exchange offer to sell their old notes, since those old notes may not be offered or sold unless they are registered or unless there are exemptions from registration requirements under the Securities Act or state laws that apply to them. In addition, if there are only a small number of old notes outstanding, there may not be a very liquid market for those old notes. There may be few investors that will purchase unregistered securities for which there is not a liquid market.

In addition, if you do not tender your outstanding old notes or if we do not accept some outstanding old notes, those old notes will continue to be subject to the existing restrictions on transfer and exchange set forth in the indenture.

You may not receive the new notes in the exchange offer if the exchange offer procedures are not properly followed.

We will issue the new notes in exchange for your old notes only if you properly tender the old notes before expiration of the exchange offer. Neither we nor the exchange agent are under any duty to give notification of defects or irregularities with respect to the tenders of the old notes for exchange. If you are the beneficial holder of old notes that are held through your broker, dealer, commercial bank, trust company or other nominee, and you wish to tender such notes in the exchange offer, then you should promptly contact the person through whom your old notes are held and instruct that person to tender your old notes on your behalf.

SPECIAL NOTE OF CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This prospectus includes forward-looking statements. Forward-looking statements include statements regarding our goals, beliefs, plans or current expectations, taking into account the information currently available to our management. Forward-looking statements are not statements of historical fact. For example, when we use words such as believe, anticipate, expect, estimate, intend, should, would, could, may, words that convey uncertainty of future events or outcomes, we are making forward-looking statements. We have based these forward-looking statements on our management's current view with respect to future events and financial performance. These views reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those predicted in our forward-looking statements and from past results, performance or achievements. Although we believe that the estimates and the projections reflected in the forward-looking statements are reasonable, such estimates and projections may prove to be incorrect, and our actual results may differ from those described in our forward-looking statements as a result of the following risks, uncertainties and assumptions, among others:

risks related to acquisitions, including completed and future acquisitions, such as the risks that we may be unable to complete an acquisition in the timeframe anticipated, on its original terms, or at all, or that we may not be able to achieve some or all of the benefits that we expect to achieve from such acquisitions, including risks related to integration of our acquired businesses;

risks related to the future costs of energy, raw materials and freight;

risks related to our substantial indebtedness and our ability to service our current and future indebtedness;

risks related to our hedging activities, which may result in significant losses and in period-to-period earnings volatility;

risks related to our suppliers of raw materials and any interruption in our supply of raw materials;

risks related to downturns in our target markets;

risks related to increases in interest rates, which would increase the cost of servicing our debt;

risks related to dependence on the protection of our intellectual property and the development of new products;

risks related to exchange rate fluctuations;

risks related to the consolidation of our customer bases, competition and pricing pressure;

risks related to the impact of a loss of one of our key manufacturing facilities;

risks related to our exposure to environmental liabilities and potential changes in legislation or regulation;

Edgar Filing: BRPP LLC - Form F-4/A

risks related to complying with environmental, health and safety laws or as a result of satisfying any liability or obligation imposed under such laws;

risks related to changes in consumer lifestyle, eating habits, nutritional preferences and health-related and environmental concerns that may harm our business and financial performance;

risks related to restrictive covenants in the notes and our other indebtedness, which could adversely affect our business by limiting our operating and strategic flexibility;

risks related to our dependence on key management and other highly skilled personnel;

risks related to our pension plans; and

risks related to other factors discussed or referred to in this prospectus, including in the section titled **Risk Factors**.

The risks described above and the risks disclosed in or referred to in the **Risk Factors** section in this prospectus are not exhaustive. Other sections of this prospectus describe additional factors that could adversely affect our business, financial condition or results of operations. Moreover, we operate in a very competitive and

Table of Contents

rapidly changing environment. New risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by the cautionary statements referred to above and included elsewhere in this prospectus.

Table of Contents

THE EXCHANGE OFFER

The following contains a summary of the material provisions of the exchange offer being made pursuant to the registration rights agreement with respect to the old notes, among the issuers, certain guarantors and the initial purchasers of the old notes, which we refer to as the registration rights agreement. Reference is made to the provisions of the registration rights agreement, which has been filed as an exhibit to the registration statement. Copies are available as set forth under the heading Where You Can Find More Information.

The terms of the new notes are identical in all material respects to the terms of the old notes, except that the new notes are registered under the Securities Act and will not be subject to restrictions on transfer or provisions relating to additional interest, will bear a different CUSIP or ISIN number from the old notes, will not entitle their holders to registration rights and will be subject to terms relating to book-entry procedures and administrative terms relating to transfers that differ from those of the old notes.

Purpose of the Exchange Offer

We sold the old notes to initial purchasers who subsequently sold the old notes to qualified institutional buyers under Rule 144A of the Securities Act and to certain sophisticated investors in offshore transactions in reliance on Regulation S of the Securities Act. The exchange offer will give holders of old notes and related guarantees the opportunity to exchange the old notes for new notes and related guarantees that have been registered under the Securities Act. The new notes will be substantially similar in all material respects to the old notes.

Under the registration rights agreement, we have agreed to use our commercially reasonable efforts to cause the registration statement, of which this prospectus is a part, to become effective under the Securities Act within 365 days of the date of original issue of the old notes. We have also agreed to use our commercially reasonable efforts to keep the exchange offer open for the period required by applicable law, including pursuant to any applicable interpretation by the staff of the SEC, but in any event for at least 20 business days.

Terms of the Exchange Offer

Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, all old notes validly tendered and not withdrawn prior to 5:00 p.m., New York City time, on the expiration date will be accepted for exchange. We will issue new notes in exchange for an equal principal amount of outstanding old notes accepted in the exchange offer. Old notes may be tendered only in denominations of \$2,000 and in integral multiples of \$1,000 in excess thereof. This prospectus, together with the letter of transmittal, is being sent to all registered holders as of _____, 2012. The exchange offer is not conditioned upon any minimum principal amount of old notes being tendered for exchange. However, our obligation to accept old notes for exchange pursuant to the exchange offer is subject to certain customary conditions as set forth below under _____ Conditions.

Old notes shall be deemed to have been accepted as validly tendered when, as and if we have given oral or written notice of such acceptance to the exchange agent. The exchange agent will act as agent for the tendering holders of old notes for the purposes of receiving the old notes and delivering new notes to such holders.

Based on interpretations by the staff of the SEC as set forth in no-action letters issued to third parties (including Exxon Capital Holdings Corporation (available May 13, 1988), Morgan Stanley & Co. Incorporated (available June 5, 1991), K-111 Communications Corporation (available May 14, 1993) and Shearman & Sterling (available July 2, 1993)), we believe that the new notes issued pursuant to the exchange offer may be offered for resale, resold and otherwise transferred by any holder of such new notes, other than any such holder that is a broker-dealer or an affiliate of us within the meaning of Rule 405 under the Securities Act, without compliance with the registration and prospectus delivery requirements of the Securities Act, provided that:

such new notes are acquired in the ordinary course of business;

at the time of the commencement of the exchange offer such holder has no arrangement or understanding with any person to participate in a distribution of such new notes; and

Table of Contents

such holder is not engaged in and does not intend to engage in a distribution of such new notes.

We have not sought, and do not intend to seek, a no-action letter from the SEC, with respect to the effects of the exchange offer, and there can be no assurance that the staff of the SEC would make a similar determination with respect to the new notes as it has in previous no-action letters.

By tendering old notes in exchange for relevant new notes, you will represent to us that:

any new notes to be received by you will be acquired in the ordinary course of business;

you have no arrangements or understandings with any person to participate in the distribution of the old notes or new notes within the meaning of the Securities Act;

you are not engaged in and do not intend to engage in a distribution of the new notes; and

you are not our affiliate, as defined in Rule 405 under the Securities Act.

Each broker-dealer that receives new notes for its own account in exchange for old notes, where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. See Plan of Distribution. If you are not a broker-dealer, you will be required to represent that you are not engaged in and do not intend to engage in the distribution of the new notes. Whether or not you are a broker-dealer, you must also represent that you are not acting on behalf of any person that could not truthfully make any of the foregoing representations contained in this paragraph. If you are unable to make the foregoing representations, you may not rely on the applicable interpretations of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any secondary resale transaction unless such sale is made pursuant to an exemption from such requirements.

The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. The Issuers have agreed that, for a period of (i) in the case of an exchange dealer or initial purchaser, 180 days after the expiration date and (ii) in the case of any broker-dealer, 90 days after the expiration date, it will make this prospectus available to any such exchange dealer, initial purchaser or broker-dealer for use in connection with any such resale. See Plan of Distribution.

Upon consummation of the exchange offer, any old notes not tendered will remain outstanding and continue to accrue interest, but, with limited exceptions, holders of old notes who do not exchange their old notes for new notes pursuant to the exchange offer will no longer be entitled to registration rights and will not be able to offer or sell their old notes unless such old notes are subsequently registered under the Securities Act, except pursuant to an exemption from or in a transaction not subject to the Securities Act and applicable state securities laws. With limited exceptions, we will have no obligation to effect a subsequent registration of the old notes.

Expiration Date; Extensions; Amendments; Termination

The expiration date for the exchange offer shall be 5:00 p.m., New York City time, on _____, 2013, unless we, in our sole discretion, extend the exchange offer in which case the expiration date for the exchange offer shall be the latest date to which the exchange offer is extended.

To extend an expiration date, we will notify the exchange agent of any extension by oral or written notice and will notify the holders of the old notes by means of a press release or other public announcement prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date for the exchange offer. Such notice to noteholders will disclose the aggregate principal amount of the outstanding notes that have been tendered as of the date of such notice and may state that we are extending the exchange offer for a specified period of time.

Table of Contents

In relation to the exchange offer, we reserve the right to:

- (1) delay acceptance of any old notes due to an extension of the exchange offer, to extend the exchange offer or to terminate the exchange offer and not permit acceptance of old notes not previously accepted if any of the conditions set forth under Conditions shall have occurred and shall not have been waived by us prior to 5:00 p.m., New York City time, on the expiration date, by giving oral or written notice of such delay, extension or termination to the exchange agent; or
- (2) amend the terms of the exchange offer in any manner deemed by us to be advantageous to the holders of the old notes.

Any such delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by oral or written notice of such delay, extension, termination or amendment to the exchange agent. If we amend the exchange offer in a manner that we determine to constitute a material change, including the waiver of a material condition, we will promptly disclose the amendment in a manner reasonably calculated to inform the holders of outstanding notes of that amendment and we will extend the exchange offer if necessary so that at least five business days remain in the offer following notice of the material change.

Without limiting the manner in which we may choose to make public an announcement of any delay, extension or termination of the exchange offer, we shall have no obligations to publish, advertise or otherwise communicate any such public announcement, other than by making a timely release to an appropriate news agency.

Interest on the New Notes

The new notes will accrue interest from the last interest payment date on which interest was paid on the old notes to the day before the consummation of the exchange offer or, if no interest has been paid on the old notes, from the date of original issuance of the old notes, and thereafter, provided that if the old notes are surrendered for exchange on or after a record date for an interest payment that will occur on or after the date of such exchange and as to which interest will be paid, interest on the new note received in exchange for such old note will accrue from the date of such interest payment date. No additional interest will be paid on old notes tendered and accepted for exchange except as provided in the registration rights agreement.

Procedures for Tendering

The old notes were issued in book-entry form, and the old notes are currently represented by one or more global certificates held for the account of a nominee of The Depository Trust Company, DTC. If you desire to tender old notes, you may tender such old notes to the exchange agent by (i) transmitting an agent's message to the exchange agent through the facilities of DTC or (ii) submitting a signed letter of transmittal, if an agent's message is not delivered and the tenders of old notes are to be made by book-entry transfer to the account of the exchange agent at DTC, together with a confirmation of book-entry transfer of the old notes and any other required documents.

Any beneficial owner whose old notes are held of record by a broker, dealer, commercial bank, trust company or other nominee and who wishes to take action with respect to the old notes should contact such nominee promptly and instruct such entity to tender old notes on such beneficial owner's behalf.

The term agent's message means a message, transmitted by DTC and received by the exchange agent and forming part of a book-entry confirmation, which states that the book-entry transfer facility has received an express acknowledgement from a participant tendering old notes that are the subject of such book-entry confirmation that such participant has received and agrees to be bound by the terms of the letter of transmittal, and that we may enforce such agreement against such participant.

Table of Contents

How to Tender Your Notes

To tender in the exchange offer, you must:

complete, sign and date the letter of transmittal, or a facsimile of such letter of transmittal, have the signatures on such letter of transmittal guaranteed if required by such letter of transmittal, and mail or otherwise deliver such letter of transmittal or such facsimile, together with any other required documents, to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date; or

comply with the ATOP procedures of DTC described below.

In addition, either:

certificates of old notes must be received by the exchange agent along with the applicable letter of transmittal; or

a timely confirmation of a book-entry transfer of old notes, if such procedures are available, into the exchange agent's account at DTC, pursuant to the procedure for book-entry transfer described below, must be received by the exchange agent prior to the expiration date with the letter of transmittal.

There is no procedure for guaranteed delivery of old notes.

Book-Entry Transfer

Promptly after the date of this prospectus, the exchange agent for the notes will make a request to establish an account with respect to the old notes at DTC as book-entry transfer facility for tenders of the old notes. Any financial institution that is a participant in DTC's systems including Euroclear Bank, S.A./N.V., as operator of the Euroclear System, or Clearstream Banking, société anonyme, may make book-entry delivery of the old notes by causing DTC to transfer such old notes into the exchange agent's account for such notes at DTC in accordance with DTC procedures for transfer. In addition, although delivery of old notes may be effected through book-entry transfer at DTC, the letter of transmittal or facsimile thereof with any required signature guarantees, or an agent's message, and any other required documents, must, in any case, be transmitted to and received by the exchange agent at one of the addresses set forth below under Exchange Agent prior to 5:00 p.m., New York City time, on the applicable expiration date.

DTC's Automated Tender Offer Program

The exchange agent and DTC have confirmed that any financial institution that is a participant in the book-entry transfer facility may utilize DTC's ATOP to tender old notes.

Any participant in DTC may make book-entry delivery of old notes by causing DTC to transfer such old notes into the exchange agent's account for the relevant notes in accordance with the book-entry transfer facility's ATOP procedures for transfer. However, the exchange for the old notes so tendered will only be made after a book-entry confirmation of the book-entry transfer of such old notes into the exchange agent's account for the relevant notes, and timely receipt by the exchange agent of an agent's message and any other documents required by the letter of transmittal.

Signature Guarantees

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by any member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States or an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act (each an Eligible Institution) unless the old notes tendered pursuant to such letter of transmittal or notice of withdrawal, as the case may be, are tendered (1) by a registered holder of old notes who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal or (2) for the account of an Eligible Institution.

Table of Contents

If a letter of transmittal is signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing, and unless waived by us, submit with such letter of transmittal evidence satisfactory to us of their authority to so act.

Determination of Validity

We will only issue new notes in exchange for old notes that are timely and properly tendered. The method of delivery of old notes, letter of transmittal and all other required documents is at your election and risk. Rather than mail these items, we recommend that you use an overnight or hand-delivery service. If such delivery is by mail, it is recommended that registered mail, properly insured, with return receipt requested, be used. In all cases, sufficient time should be allowed to assure timely delivery and you should carefully follow the instructions on how to tender the old notes. No old notes, letters of transmittal or other required documents should be sent to us. Delivery of all old notes, if applicable, letters of transmittal and other documents must be made to the exchange agent at its address set forth below under Exchange Agent. You may also request your respective brokers, dealers, commercial banks, trust companies or nominees to effect such tender on your behalf. Neither we nor the exchange agent are required to tell you of any defects or irregularities with respect to your old notes or the tenders thereof.

Your tender of old notes will constitute an agreement between you and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal. Any beneficial owner whose old notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact such registered holder promptly and instruct such registered holder to tender on his behalf.

All questions as to the validity, form, eligibility, time of receipt and withdrawal of the tendered old notes will be determined by us in our sole discretion, such determination being final and binding on all parties. We reserve the absolute right to reject any and all old notes not properly tendered or any old notes which, if accepted, would, in the opinion of counsel for us, be unlawful. We also reserve the absolute right to waive any irregularities or defects with respect to tender as to particular old notes. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of old notes must be cured within such time as we shall determine. Neither we, the exchange agent nor any other person shall be under any duty to give notification of defects or irregularities with respect to tenders of old notes, nor shall any of them incur any liability for failure to give such notification. Tenders of old notes will not be deemed to have been made until such irregularities have been cured or waived. Any old notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned without cost to such holder by the exchange agent, unless otherwise provided in the letter of transmittal, promptly following the expiration date.

Other Transactions Relating to the Old Notes

In addition, we reserve the right in our sole discretion, subject to the provisions of the indenture pursuant to which the old notes are issued:

to purchase or make offers for any old notes that remain outstanding subsequent to the expiration date or, as set forth under Conditions, to terminate the exchange offer;

to redeem the old notes as a whole or in part at any time and from time to time, as set forth under the Description of the Senior Secured Notes Optional Redemption ; and

to the extent permitted under applicable law, purchase the old notes in the open market, in privately negotiated transactions or otherwise.

The terms of any such purchases or offers could differ from the terms of the exchange offer.

Table of Contents

Broker-Dealers

Each broker-dealer that receives new notes for its own account in exchange for old notes must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes which the broker-dealer acquired as a result of market-making activities or other trading activities. See Plan of Distribution.

Acceptance of Old Notes for Exchange; Delivery of New Notes

Upon satisfaction or waiver of all of the conditions to the exchange offer all old notes properly tendered will be accepted promptly after the expiration date, and the new notes will be issued promptly after the expiration date. See Conditions. For purposes of the exchange offer, old notes shall be deemed to have been accepted as validly tendered for exchange when, as and if we have given oral or written notice thereof to the exchange agent. For each old note accepted for exchange, the holder of such note will receive a new note having a principal amount equal to that of the surrendered old note.

In all cases, issuance of new notes for old notes that are accepted for exchange pursuant to the exchange offer will be made only after timely receipt by the exchange agent of:

certificates for such old notes or a timely book-entry confirmation of such old notes into the exchange agent's account at the book-entry transfer facility;

a properly completed and duly executed letter of transmittal; and

all other required documents.

If any tendered old notes are not accepted for any reason set forth in the terms and conditions of the exchange offer, such unaccepted or such non-exchanged old notes will be returned without expense to the tendering holder of such notes, if in certificated form, or credited to an account maintained with such book-entry transfer facility promptly after the expiration or termination of the exchange offer.

Withdrawal of Tenders

Tenders of old notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

For a withdrawal to be effective, a written notice of withdrawal must be received by the exchange agent prior to 5:00 p.m., New York City time, on the expiration date at the address set forth below under Exchange Agent. Any such notice of withdrawal must:

specify the name of the person having tendered the old notes to be withdrawn;

identify the old notes to be withdrawn, including the principal amount of such old notes;

in the case of old notes tendered by book-entry transfer, specify the number of the account at the book-entry transfer facility from which the old notes were tendered and specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn old notes and otherwise comply with the procedures of such facility;

contain a statement that such holder is withdrawing its election to have such old notes exchanged;

be signed by the holder in the same manner as the original signature on the letter of transmittal by which such old notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer to have the trustee with respect to the old notes register the transfer of such old notes in the name of the person withdrawing the tender; and

specify the name in which such old notes are registered, if different from the person who tendered such old notes.

Table of Contents

All questions as to the validity, form, eligibility and time of receipt of such notice will be determined by us, in our sole discretion, such determination being final and binding on all parties. Any old notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any old notes which have been tendered for exchange but which are not exchanged for any reason will be returned to the tendering holder of such notes without cost to such holder, in the case of physically tendered old notes, or credited to an account maintained with the book-entry transfer facility for the old notes promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn old notes may be retendered by following one of the procedures described under **Procedures for Tendering** above at any time on or prior to 5:00 p.m., New York City time, on the expiration date.

Conditions

Notwithstanding any other provision in the exchange offer, we shall not be required to accept for exchange, or to issue new notes in exchange for, any old notes and may terminate or amend the exchange offer if at any time prior to 5:00 p.m., New York City time, on the expiration date, we determine in our reasonable judgment that the exchange offer violates applicable law, any applicable interpretation of the staff of the SEC or any order of any governmental agency or court of competent jurisdiction.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any such condition or may be waived by us in whole or in part at any time and from time to time, prior to the expiration date, in our reasonable discretion. Our failure at any time to exercise any of the foregoing rights prior to 5:00 p.m., New York City time, on the expiration date shall not be deemed a waiver of any such right and each such right shall be deemed an ongoing right which may be asserted at any time and from time to time prior to 5:00 p.m., New York City time, on the expiration date.

In addition, we will not accept for exchange any old notes tendered, and no new notes will be issued in exchange for any such old notes, if at any such time any stop order shall be threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or the qualification of the indenture governing the notes under the Trust Indenture Act. Pursuant to the registration rights agreement, we are required to use our commercially reasonable efforts to obtain the withdrawal of any order suspending the effectiveness of the registration statement at the earliest possible time.

Exchange Agent

The Bank of New York Mellon has been appointed as exchange agent for the exchange offer for the notes. The Bank of New York Mellon also acts as trustee under the indenture governing the old notes, which is the same indenture that will govern the new notes. Questions and requests for assistance and requests for additional copies of this prospectus or of letters of transmittal should be directed to the exchange agent addressed as follows:

Deliver To:

<p><i>By registered or certified mail, hand delivery or overnight courier:</i></p> <p>The Bank of New York Mellon</p> <p>Corporate Trust Reorganization Unit</p> <p>111 Sanders Creek Parkway</p> <p>East Syracuse, NY 13057</p>	<p><i>By facsimile: (Eligible Institutions Only)</i></p> <p>+1 732-667-9408</p> <p>Attention: Mr. Christopher Landers</p>	<p><i>To confirm by telephone or for information call:</i></p> <p>+1 315-414-3362</p>
--	---	---

Fees and Expenses

The expenses of soliciting tenders pursuant to the exchange offer will be borne by us. The principal solicitation for tenders pursuant to the exchange offer is being made by mail; however, additional solicitations may be made by telegraph, telephone, telecopy or in person by our

officers and regular employees.

Table of Contents

We will not make any payments to or extend any commissions or concessions to any broker or dealer. We will, however, pay the exchange agent reasonable and customary fees for its services and will reimburse the exchange agent for its reasonable out-of-pocket expenses in connection therewith. We may also pay brokerage houses and other custodians, nominees and fiduciaries the reasonable out-of-pocket expenses incurred by them in forwarding copies of the prospectus and related documents to the beneficial owners of the old notes and in handling or forwarding tenders for exchange.

The expenses to be incurred by us in connection with the exchange offer will be paid by us, including fees and expenses of the exchange agent and trustee and accounting, legal, printing and related fees and expenses.

We will pay all transfer taxes, if any, applicable to the exchange of old notes pursuant to the exchange offer. If, however, new notes or old notes for principal amounts not tendered or accepted for exchange are to be registered or issued in the name of any person other than the registered holder of the old notes tendered, or if tendered old notes are registered in the name of any person other than the person signing the letter of transmittal, or if a transfer tax is imposed for any reason other than the exchange of old notes pursuant to the exchange offer, then the amount of any such transfer taxes imposed on the registered holder or any other person will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption therefrom is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to such tendering holder.

Accounting Treatment

The new notes will be recorded as carrying the same value as the old notes, which is face value, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes as a result of the exchange offer. The expenses of the exchange offer will be expensed.

Consequences of Failure to Exchange

Holders of old notes who do not exchange their old notes for new notes pursuant to the exchange offer will continue to be subject to the restrictions on transfer of such old notes as set forth in the legend on such old notes as a consequence of the old notes having been issued pursuant to exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the old notes may only be offered or sold pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities laws or in a transaction not subject to the Securities Act and applicable state

securities laws. We do not currently anticipate that we will register the old notes under the Securities Act. To the extent that old notes are tendered and accepted pursuant to the exchange offer, there may be little or no trading market for untendered and tendered but unaccepted old notes. The restrictions on transfer will make the old notes less attractive to potential investors than the new notes.

Table of Contents

THE TRANSACTIONS

The November 2012 Refinancing Transactions

On November 7, 2012, certain members of the RGHL Group entered into a receivables loan and security agreement pursuant to which the RGHL Group can borrow up to \$600 million (the Securitization Facility). The amount that can be borrowed is calculated by reference to a funding base determined by the amount of eligible trade receivables of certain members of the RGHL Group. The Securitization Facility matures on November 7, 2017 and bears interest at a floating rate. The Securitization Facility is secured by all of the assets of the borrower (including the eligible trade receivables and cash).

On November 13, 2012, the RGHL Group issued a notice of redemption in respect of the 450 million aggregate principal amount outstanding of the Euro 2009 Notes. The proceeds from the Securitization Facility and available cash resources were used to redeem the Euro 2009 Notes and to pay fees and expenses related to the transaction. The Euro 2009 Notes were redeemed on December 13, 2012 at 1,038.75 per 1,000 of face value plus accrued and unpaid interest.

We refer to these refinancing transactions as the November 2012 Refinancing Transactions.

The September 2012 Refinancing Transactions

On September 28, 2012, the Issuers completed the sale of \$3,250 million aggregate principal amount of old notes in a private offering. The notes will mature on October 15, 2020.

The net proceeds of the offering of the old notes were used to repay a portion of the existing term loans under the Senior Secured Credit Facilities and to repay the Dollar 2009 Notes. On September 28, 2012, the Issuers repurchased \$777 million aggregate principal amount of Dollar 2009 Notes pursuant to a tender offer. On October 29, 2012, the Issuers redeemed the remaining \$348 million aggregate principal amount of Dollar 2009 Notes. RGHL intends to use the remaining net proceeds from the offering of the old notes for general corporate purposes.

On September 28, 2012, we entered into Amendment No. 7 and Incremental Term Loan Assumption Agreement (Amendment No. 7) to the Senior Secured Credit Facilities and incurred thereunder \$2,235 million and 300 million of term loans. Prior to September 28, 2012, certain amounts outstanding under the Tranche C term loan facility under the Senior Secured Credit Facilities were repaid with available cash, and concurrent with the effectiveness of Amendment No. 7, the borrowers under the Senior Secured Credit Facilities repaid in full the remaining term loan facilities under the existing Senior Secured Credit Facilities. The term loans drawn under Amendment No. 7 have a maturity date of September 28, 2018. Amendment No. 7 removed the restrictions on capital expenditures, the annual cap on asset sales and the interest coverage test contained in the Senior Secured Credit Facilities. In addition, the senior secured leverage ratio test in the Senior Secured Credit Facilities was amended so that it is now a senior secured first lien leverage ratio test.

Amendment No. 7 also effected other amendments to the Senior Secured Credit Facilities, including amendments that reduced the interest rates in respect of the term loans, added a mechanism to allow subsidiaries to be designated as unrestricted, increased flexibility in the type of indebtedness that can be incurred by the RGHL Group and its subsidiaries, increased flexibility with respect to the terms of any future incremental borrowings, increased flexibility to repay senior secured notes, restricted the application of the soft call protection, resized and added new baskets, removed the holding company restrictions on Reynolds Group Holdings Limited, allowed for lenders to assign their debt to the RGHL Group in open market transactions and gave increased flexibility with respect to the resignation of guarantors and ancillary borrowers.

We refer to these refinancing transactions as the September 2012 Refinancing Transactions.

The February 2012 Refinancing Transactions

On February 15, 2012, the Issuers completed the sale of \$1,250 million aggregate principal amount of February 2012 Senior Notes in a private offering. The February 2012 Senior Notes will mature on August 15, 2019.

Table of Contents

The net proceeds from the offering of the February 2012 Senior Notes were used to refinance the \$14 million outstanding aggregate principal amount of the Graham Packaging 2017 Notes, the \$19 million outstanding aggregate principal amount of the Graham Packaging 2018 Notes, the \$355 million outstanding aggregate principal amount of the Graham Packaging Senior Subordinated Notes and the \$249 million outstanding aggregate principal amount of Pactiv 2012 Notes and pay fees associated with the early repayment of

these notes by depositing funds, on February 15, 2012, with the trustees of the Graham Packaging Notes and of the Pactiv 2012 Notes, respectively, to satisfy and discharge their obligations pursuant to the indentures governing these notes. In addition, the issuers of the Graham Packaging Notes and of the Pactiv 2012 Notes redeemed such notes on March 16, 2012. RGHL used the remaining net proceeds from the offering of the February 2012 Senior Notes for general corporate purposes.

We refer to (i) the offering of the February 2012 Senior Notes, (ii) the application of the net proceeds from the offering of the February 2012 Senior Notes to satisfy and discharge the obligations of the issuers of the Graham Packaging Notes and of the Pactiv 2012 Notes under the applicable indentures and (iii) the payment of related fees and expenses as the February 2012 Refinancing Transactions.

The Graham Packaging Transaction

Graham Packaging Acquisition

On September 8, 2011, a wholly-owned indirect subsidiary of RGHL merged with and into Graham Company, with Graham Company surviving the merger as an indirect wholly-owned subsidiary of RGHL. We refer to this acquisition as the Graham Packaging Acquisition. Graham Company's stockholders received \$25.50 in cash for each share of Graham Company common stock, for a total enterprise value, including net debt, of \$4.5 billion.

We financed the Graham Packaging Acquisition with (i) the \$1,500 million principal amount of August 2011 Senior Secured Notes, (ii) \$500 million principal amount of the August 2011 Senior Notes, (iii) the \$2,000 million principal amount of the incremental term loans under new incremental senior secured credit facilities, or the New Incremental Senior Secured Credit Facilities, and (iv) available cash. We used the proceeds from the issuance of the additional \$500 million principal amount of August 2011 Senior Notes to repurchase the Graham Packaging 2017 Notes and the Graham Packaging 2018 Notes that tendered in connection with the change of control offers for such notes. See Change of Control Offer.

We refer to the financing arrangements related to the Graham Packaging Acquisition as the Graham Packaging Acquisition Financing Arrangements.

Graham Packaging Tender Offers and Consent Solicitations

The issuers of the Graham Packaging Notes, Graham Packaging Company, L.P. and GPC Capital Corp. I, commenced tender offers for any and all of the outstanding Graham Packaging Notes and also solicited the consents of holders of each series of the Graham Packaging Notes to make certain amendments to the indentures governing the Graham Packaging Notes. We refer to these tenders offers and consent solicitations as the Graham Packaging Tender Offers.

The Graham Packaging Tender Offers collectively offered holders of Graham Packaging Notes an opportunity to receive consideration that represented a premium to the consideration that they would have received if they were to require the issuers of the Graham Packaging Notes to purchase such notes in a change of control offer resulting from the Graham Packaging Acquisition, assuming a 30 day notice period following the change of control, and to provide RGHL and its affiliates with Permitted Holder status under the indentures governing the Graham Packaging Notes that is substantially similar to the status that they would have if a change of control offer were consummated.

On July 19, 2011, Graham Packaging announced that it had received the requisite consents from holders of the Graham Packaging Senior Subordinated Notes to adopt the proposed amendments that were the subject of the related Graham Packaging Tender Offer. On August 25, 2011, the issuers of the Graham Packaging Senior Subordinated Notes purchased \$21 million aggregate principal amount of Graham Packaging Senior

Table of Contents

Subordinated Notes that were tendered. Accordingly, the indenture governing the Graham Packaging Senior Subordinated Notes no longer requires the issuers of such notes to make a change of control offer with respect to the consummation of the Graham Packaging Acquisition.

Graham Packaging did not receive the requisite consents from holders of the Graham Packaging 2017 Notes or the Graham Packaging 2018 Notes with respect to the proposed amendments. On August 4, 2011 the Graham Packaging Tender Offers related to the Graham Packaging 2017 Notes and the Graham Packaging 2018 Notes expired.

Senior Secured Intercompany Loan Agreement

In connection with the Graham Packaging Acquisition, Reynolds Group Holdings Inc., an indirect wholly-owned subsidiary of RGHL, loaned \$2,078 million to certain subsidiaries of Graham Holdings pursuant to an intercompany loan agreement, the proceeds of which were used to repay Graham Packaging's senior secured credit facilities. This intercompany loan was guaranteed by the guarantors of Graham Packaging's former senior secured credit facilities and was secured by a first priority perfected security interest in certain assets of Graham Holdings and certain of its subsidiaries.

Following the redemption of all outstanding Graham Packaging Notes in March 2012, the intercompany loan agreement was amended and restated, the related guarantees were released and the related security arrangements were terminated. Concurrently, Graham Holdings and certain of its U.S. subsidiaries became guarantors of the Existing Notes and our Senior Secured Credit Facilities and pledged certain assets for the benefit of the holders of the Existing Senior Secured Notes and the lenders under our Senior Secured Credit Facilities.

Change of Control Offer

On September 16, 2011, Graham Packaging commenced a change of control offer with respect to the Graham Packaging 2017 Notes and the Graham Packaging 2018 Notes to repurchase for cash at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase, as required by the applicable indentures. Holders of \$240 million aggregate principal amount of Graham Packaging 2017 Notes and \$231 million aggregate principal amount of Graham Packaging 2018 Notes tendered their notes in the change of control offer prior to its expiration on October 17, 2011, and the tendered notes were purchased on October 20, 2011. We refer to this change of control offer as the Graham Packaging Change of Control Offer.

We refer to the Graham Packaging Acquisition, the Graham Packaging Acquisition Financing Arrangements and the other related transactions, including the Graham Packaging Change of Control Offer, as the Graham Packaging Transaction.

The Dopaco Acquisition

On May 2, 2011, we acquired Dopaco from Cascades Inc. The consideration for the acquisition was \$395 million in cash. The purchase price was paid from existing cash of the RGHL Group. We refer to this acquisition as the Dopaco Acquisition. We have combined Dopaco with our Pactiv Foodservice segment.

The 2011 Refinancing Transactions

On February 1, 2011, the Issuers issued \$1,000 million principal amount of February 2011 Senior Secured Notes and \$1,000 million principal amount of February 2011 Senior Notes. Proceeds from the offering of the February 2011 Notes were used to fully repay the Original Tranche D Term Loans, and the remaining proceeds were used for general corporate purposes.

On February 9, 2011, we entered into an amended and restated credit agreement and borrowed \$2,325 million in U.S. term loans and 250 million in European term loans. The proceeds from the term loans under the Senior Secured Credit Facilities were applied to refinance all term loans outstanding under the original senior secured credit facilities which consisted of (i) \$1,035 million of U.S. term loans, or the Original U.S.

Table of Contents

Term Loans, which were borrowed on November 5, 2009; (ii) \$800 million of U.S. Tranche C term loans, or the Original Tranche C Term Loans, which were borrowed on May 4, 2010; (iii) \$500 million of U.S. Tranche A term loans, or the Original Tranche A Term Loans, and \$1,520 million of U.S. Tranche D term loans, or the Original Tranche D Term Loans, which were borrowed on November 16, 2010; (iv) 250 million of European term loans, or the Original European Term Loans, which were borrowed on November 5, 2009; (v) a U.S. revolving credit facility of \$120 million; and (vi) a European revolving credit facility of \$80 million. This refinancing resulted in reducing the interest rates and extending the repayment terms and maturity date of our term loans.

We refer to these refinancing transactions as the 2011 Refinancing Transactions.

The Pactiv Transaction

On November 16, 2010, a wholly-owned indirect subsidiary of RGHL merged with and into Pactiv, with Pactiv surviving the merger as an indirect wholly-owned subsidiary of RGHL. We refer to this merger as the Pactiv Acquisition. Pactiv's stockholders received \$33.25 in cash for each share of Pactiv common stock, for a total enterprise value, including net debt, of \$5.8 billion.

In connection with the Pactiv Acquisition, we commenced an offer to purchase and consent solicitation with respect to the Pactiv 2018 Notes. Pursuant to such tender offer, Pactiv purchased for cash \$234 million in aggregate principal amount of tendered Pactiv 2018 Notes, with \$16 million in aggregate principal amount remaining outstanding as of September 30, 2012. Pursuant to such tender offer, Pactiv obtained the requisite consents to eliminate the covenant requiring Pactiv to make an offer to purchase the Pactiv 2018 Notes if a change of control triggering event occurs, as defined in the applicable indenture.

We also commenced a change of control offer with respect to the Pactiv 2012 Notes, as required by the applicable indenture. Pursuant to the change of control offer, Pactiv purchased for cash \$1 million in aggregate principal amount of tendered Pactiv 2012 Notes. On March 16, 2012, the Pactiv 2012 Notes were redeemed. See The February 2012 Refinancing Transactions.

We financed the Pactiv Acquisition with (i) the \$1,500 million principal amount of October 2010 Senior Secured Notes, (ii) the \$1,500 million principal amount of October 2010 Senior Notes, (iii) the \$2,020 million principal amount of the Original Tranche A Term Loans and Original Tranche D Term Loans and (iv) \$322 million in cash contributed to RGHL. See Description of Certain Other Indebtedness and Intercreditor Agreements.

We refer to the Pactiv Acquisition and the related financing and other transactions as the Pactiv Transaction.

The Reynolds Foodservice Acquisition

On September 1, 2010, certain indirect wholly-owned subsidiaries of RGHL acquired the equity of the Reynolds foodservice packaging business from an affiliated entity that is beneficially owned by our strategic owner, Mr. Graeme Hart. The total purchase price was \$342 million, which was paid with existing cash. We refer to this acquisition as the Reynolds Foodservice Acquisition. See Shareholders and Related Party Transactions Related Party Transactions Acquisitions Reynolds Foodservice Acquisition.

The Evergreen Transaction

On May 4, 2010, certain indirect wholly-owned subsidiaries of RGHL acquired the equity of the business that constitutes our Evergreen segment from affiliated entities that are beneficially owned by our strategic owner, Mr. Graeme Hart, for a total purchase price of \$1,612 million. We refer to this acquisition as the Evergreen Acquisition. See Shareholders and Related Party Transactions Related Party Transactions Acquisitions Evergreen Acquisition.

On the same date, an indirect wholly-owned subsidiary of RGHL acquired the assets and liabilities associated with the Whakatane paper mill from Carter Holt Harvey Limited, a New Zealand Company and an

Table of Contents

indirect wholly-owned subsidiary of Rank Group, or CHH, for a total purchase price of \$46 million. We refer to this acquisition as the Whakatane Acquisition. After the consummation of the Whakatane Acquisition, the Whakatane paper mill became a part of our SIG segment. See Shareholders and Related Party Transactions Related Party Transactions Acquisitions Whakatane Acquisition.

We financed the Evergreen Acquisition and the Whakatane Acquisition with (i) the \$1,000 million principal amount of the May 2010 Notes, (ii) the \$800 million principal amount of the Original Tranche C Term Loans and (iii) available cash. On the date of the closing of the acquisitions, certain credit facilities of the acquired businesses were fully repaid.

We refer to the Evergreen Acquisition, the Whakatane Acquisition and the related financing and other transactions as the Evergreen Transaction.

The RGHL Transaction

On November 5, 2009, Beverage Packaging Holdings III S.a.r.l, or BP III, acquired the equity of the business that constitutes our Closures segment from an affiliated entity that is beneficially owned by our strategic owner, Mr. Graeme Hart, for a total purchase price of \$708 million. We refer to this acquisition as the Closures Acquisition. See Shareholders and Related Party Transactions Related Party Transactions Acquisitions Closures Acquisition.

On the same date, BP III acquired the equity of the Reynolds consumer products business from an affiliated entity that is beneficially owned by our strategic owner Mr. Graeme Hart, for a total purchase price of \$984 million. We refer to this acquisition as the Reynolds Consumer Acquisition and together with the Closures Acquisition as the RGHL Acquisition. See Shareholders and Related Party Transactions Related Party Transactions Acquisitions Reynolds Consumer Acquisition.

We financed the RGHL Acquisition with (i) a \$544 million cash contribution by RGHL to BP I, (ii) the \$1,125 million and the 450 million principal amount of 2009 Notes, (iii) the \$1,035 million principal amount of the Original U.S. Term Loans, (iv) the 250 million principal amount of the Original European Term Loans, and (v) 116 million of cash from SIG.

We refer to the RGHL Acquisition and the related financing and other transactions as the RGHL Transaction.

The Reynolds Acquisition

Through a series of acquisitions that occurred from February 29, 2008 to July 31, 2008, certain entities that are ultimately owned by our strategic owner, Mr. Graeme Hart, acquired Alcoa's closures, consumer products and food and flexible packaging businesses for a total purchase price of \$2.7 billion. We refer to this acquisition as the Reynolds Acquisition.

The businesses acquired pursuant to the Reynolds Acquisition became our Closures segment and Reynolds consumer products business following the RGHL Transaction and our Reynolds foodservice packaging business following the Reynolds Foodservice Acquisition. See The RGHL Transaction and The Reynolds Foodservice Acquisition.

The SIG Transaction

On May 11, 2007, RGHL consummated a public tender offer for all publicly traded shares of SIG Combibloc at a price of CHF 435 per share. At that time, SIG Combibloc was listed on the SIX Swiss Exchange. Following the consummation of the tender offer (the rights to which were assigned to BP III), RGHL, through its indirect subsidiary BP III, held 98.3% of the SIG Combibloc shares. RGHL, indirectly through BP III, completed a squeeze-out of the remaining publicly owned shares of SIG Combibloc on November 7, 2007 and SIG Combibloc became a wholly-owned subsidiary of BP III. The aggregate purchase price for 100% of the SIG Combibloc shares was 1.7 billion. As of December 31, 2007, BP III held all of the shares of SIG Combibloc. The shares of SIG Combibloc were delisted from the SIX Swiss Exchange on November 2, 2007. We refer to this acquisition as the SIG Acquisition.

Table of Contents

The purchase of the SIG Combibloc shares, the refinancing of certain existing indebtedness and the payment of related fees and expenses were financed with the proceeds of a 740 million term loan made available under SIG Combibloc's senior credit facilities (which were repaid in full and terminated in connection with the RGHL Transaction), the proceeds of a 770 million bridge facility and 405 million in equity contributions by affiliates of RGHL. The bridge facility was subsequently repaid with the proceeds of the 2007 Notes and SIG Combibloc's senior credit facilities were prepaid in an amount of 130 million with the balance of the proceeds of the 2007 Notes. For additional information regarding the 2007 Notes, see Description of Certain Other Indebtedness and Intercreditor Agreements.

We refer to the acquisition of SIG and the related financing and other transactions as the SIG Transaction.

The Initial Evergreen Acquisition

Through a series of acquisitions that occurred from January 31, 2007 to April 30, 2007, certain entities that were ultimately owned by our strategic owner, Mr. Graeme Hart, acquired IP's Bev Pack Business for \$497 million in cash. We refer to this acquisition as the Initial Evergreen Acquisition.

The businesses acquired pursuant to the Initial Evergreen Acquisition became part of our Evergreen segment following the Evergreen Acquisition, and IP's Bev Pack Business became our predecessor for accounting purposes. See The Evergreen Transaction.

The Initial Evergreen Acquisition was financed with a total of \$425 million drawn under a facility agreement.

Table of Contents

USE OF PROCEEDS

The exchange offer is intended to satisfy our obligations under the registration rights agreement we entered into in connection with the private offering of the old notes. We will not receive any cash proceeds from the issuance of the new notes under the exchange offer. In consideration for issuing the new notes as contemplated by this prospectus, we will receive old notes in like principal amount, the terms of which are identical in all material respects to the new notes, subject to limited exceptions. Old notes surrendered in exchange for new notes will be retired and canceled and cannot be reissued. Accordingly, the issuance of the new notes will not result in any increase in our indebtedness or capital stock.

The net proceeds from the sale of the old notes were approximately \$3,197 million. We used the net proceeds from the issuance of the old notes to repay a portion of the existing term loans under the Senior Secured Credit Facilities and to repay the Dollar 2009 Notes. We intend to use the remaining net proceeds from the offering of the old notes for general corporate purposes.

Table of Contents

SELECTED HISTORICAL CONSOLIDATED AND HISTORICAL COMBINED FINANCIAL DATA

RGHL Group

The following tables set forth the selected historical combined financial data of the RGHL Group Predecessor (prepared on a U.S. GAAP basis) and the selected historical financial data of the RGHL Group Successor (prepared on an IFRS basis). On January 31, 2007, Rank Group, through its indirect wholly-owned subsidiary Evergreen Packaging New Zealand Limited, commenced the acquisition of IP's Bev Pack Business. The acquisition occurred in stages from January 31, 2007 to April 30, 2007. Prior to the Initial Evergreen Acquisition, the RGHL Group had no significant operations. We refer to IP's Bev Pack Business (or a subset thereof) prior to January 31, 2007 as the "RGHL Group Predecessor" and the RGHL Group as the "RGHL Group Successor" for purposes of the presentation of the financial information below.

The selected historical financial data of the RGHL Group Successor as of December 31, 2007, 2008 and 2009 and for the period from January 31, 2007 to December 31, 2007 and for the year ended December 31, 2008 have been derived from the RGHL Group Successor's audited financial statements which are not included in this prospectus. The selected historical financial data of the RGHL Group Successor as of December 31, 2010 and 2011 and for the years ended December 31, 2009, 2010 and 2011 have been derived from the RGHL Group Successor's audited financial statements included elsewhere in this prospectus.

Given the potential for differences between IFRS and U.S. GAAP, caution is required when comparing financial data across periods. Furthermore, certain presentations and classifications in the RGHL Group Predecessor financial statements that were prepared based on U.S. GAAP are inconsistent with the RGHL Group Successor IFRS presentations. See "Summary Presentation of Financial Information" and "Summary Summary of Certain Differences Between IFRS and U.S. GAAP."

The following data should be read in conjunction with the financial statements and related notes, and other information included elsewhere in this prospectus, including "Operating and Financial Review and Prospects" and "Risk Factors."

IFRS Selected Financial Data

The following selected financial data as of December 31, 2010 and 2011 and for the years ended December 31, 2009, 2010 and 2011 have been derived from the audited IFRS financial statements of the RGHL Group Successor included elsewhere in this prospectus. The following selected financial data as of December 31, 2007, 2008 and 2009 and for the years ended December 31, 2007 and 2008 have been derived from audited IFRS financial statements of the RGHL Group Successor that are not included in this prospectus. The following selected financial data as of September 30, 2012 and for the nine months ended September 30, 2011 and 2012

Table of Contents

have been derived from the unaudited IFRS financial statements of the RGHL Group Successor, included elsewhere in this prospectus.

UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

The following unaudited pro forma combined financial information is based on the historical financial information of the RGHL Group, Dopaco and Graham Packaging, each of which is included elsewhere in this prospectus, as adjusted to illustrate the impact of the 2011 Refinancing Transactions, the Dopaco Acquisition, the Graham Packaging Transaction, the February 2012 Refinancing Transactions, the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions (collectively, the Pro Forma Transactions). For further information regarding the Pro Forma Transactions, see the section titled The Transactions. The unaudited pro forma combined balance sheet gives effect to the finalization of the September 2012 Refinancing Transactions and the November 2012 Refinancing Transactions as if they had been completed as of September 30, 2012. The unaudited pro forma combined income statements give effect to the Pro Forma Transactions as if they had been completed as of January 1, 2011.

The unaudited pro forma combined financial information is prepared in accordance with IFRS.

The unaudited pro forma combined financial information has been compiled from the following sources with the following unaudited adjustments:

IFRS financial information for the RGHL Group under the column titled Historical RGHL Group has been derived without adjustment from the RGHL Group's audited financial statements as of and for the year ended December 31, 2011 and the RGHL Group's interim unaudited condensed financial statements as of September 30, 2012 and for the nine month periods ended September 30, 2011 and 2012, each of which is included elsewhere in this prospectus.

The column titled Adjustments for the Full Period Effect of the 2011 and February 2012 Financing Transactions in the unaudited pro forma combined income statements reflects the adjustments associated with the financing components of the Graham Packaging Transaction, the 2011 Refinancing Transactions and the February 2012 Refinancing Transactions. Specifically, this column gives effect to (a) the issuance of the August 2011 Notes, the drawings under the New Incremental Senior Secured Credit Facilities and incremental interest on the Senior Secured Credit Facilities, (b) the issuance of the February 2011 Notes, the drawings under the Senior Secured Credit Facilities and the repayment of the Original Senior Secured Credit Facilities, each of which was completed during February 2011, (c) the issuance of the February 2012 Senior Notes with a portion of the gross proceeds used to redeem and discharge the remaining balance of the Graham Packaging Notes and the Pactiv 2012 Notes and (d) the transaction fees and expenses associated with these transactions. The basis for these adjustments is explained in the notes accompanying the unaudited pro forma combined financial information.

U.S. GAAP financial information for Dopaco under the column titled Historical Dopaco as Adjusted has been derived from Dopaco's audited combined financial statements as of May 1, 2011 and for the 126-day period ended May 1, 2011, which are included elsewhere in this prospectus and which have been reclassified to conform with the RGHL Group reporting format.

The column titled Adjustments related to Dopaco on Conversion from U.S. GAAP to IFRS, Fair Value and Other Adjustments for the Dopaco Acquisition reflects certain adjustments to convert Dopaco's U.S. GAAP financial information to IFRS, to align Dopaco's U.S. GAAP accounting policies with the RGHL Group's IFRS accounting policies and to reflect management's assessment of the impact of fair values on periods prior to the acquisition by the RGHL Group. The basis for these adjustments is explained in the notes accompanying the unaudited pro forma combined financial information. For a discussion of certain differences between IFRS and U.S. GAAP see Summary Summary of Certain Differences Between IFRS and U.S. GAAP.

U.S. GAAP financial information for Graham Packaging under the column titled Historical Graham Packaging as Adjusted has been derived from Graham Packaging's unaudited accounting records for the period from January 1, 2011 to September 7, 2011, which incorporate the unaudited condensed consolidated financial statements as of and for the six month period ended June 30, 2011, which are included elsewhere in this prospectus, and which have been reclassified to conform with the RGHL Group reporting format.

Table of Contents

The column titled "Adjustments related to Graham Packaging on Conversion from U.S. GAAP to IFRS, Fair Value and Other Adjustments for the Graham Packaging Acquisition" reflects certain adjustments to convert Graham Packaging's U.S. GAAP financial information to IFRS, to align Graham Packaging's U.S. GAAP accounting policies with the RGHL Group's IFRS accounting policies and to reflect the impact of fair values on the periods prior to the acquisition by the RGHL Group. The basis for these adjustments is explained in the notes accompanying the unaudited pro forma combined financial information. For a discussion of certain differences between IFRS and U.S. GAAP see "Summary of Certain Differences Between IFRS and U.S. GAAP."

The column titled "The September 2012 Refinancing Transactions" reflects (a) the issuance of the notes, (b) the drawings under the U.S. Term Loans and European Term Loans under the Senior Secured Credit Facilities, (c) the repayment of the Dollar 2009 Notes, including the finalization of the redemption of \$348 million of remaining Dollar 2009 Notes on October 29, 2012, (d) the repayment of amounts outstanding under the Second Amended and Restated Senior Secured Credit Facilities and (e) the payment of related fees and expenses. See "The Transactions - The September 2012 Refinancing Transactions." The basis for these adjustments is explained in the notes accompanying the unaudited pro forma combined financial information.

The column titled "The November 2012 Refinancing Transactions" reflects (a) the assumed drawdown of \$600 million under the Securitization Facility, (b) the application of the assumed net proceeds from the Securitization Facility and available cash to redeem the Euro 2009 Notes and (c) the payment of fees and expenses related to the transactions. See "The Transactions - The November 2012 Refinancing Transactions." The Securitization Facility is for an assumed drawdown of \$600 million, which represents the maximum availability under the Securitization Facility. As of the date of this prospectus, the RGHL Group had drawn \$500 million under this facility. The amount that can be drawn depends on the balance of eligible receivables that form the funding base. The funding base may vary, on a monthly basis, throughout the term of the Securitization Facility. Each \$10 million of additional drawings under this facility will result in an additional \$10 million of cash, up to the maximum amount of the facility. Each \$10 million decrease in borrowings under this facility will result in a \$10 million decrease in cash. The basis for these adjustments is explained in the notes accompanying the unaudited pro forma combined financial information.

The unaudited pro forma adjustments are based upon current available information and assumptions that we believe to be reasonable. The pro forma adjustments and related assumptions are described in the notes accompanying the unaudited pro forma combined financial information.

The unaudited pro forma combined financial information is for informational purposes only and is not intended to represent or to be indicative of the results of operations or financial position that the RGHL Group or the pro forma combined group would have reported had the Pro Forma Transactions been completed as of the dates set forth in this unaudited pro forma combined financial information and is not necessarily indicative of our future consolidated results of operations or financial position. Our actual results may differ significantly from those reflected in the unaudited pro forma combined financial information for a number of reasons, including, but not limited to, differences between the assumptions used to prepare the unaudited pro forma combined financial information and actual amounts. As a result, the unaudited pro forma combined financial information does not purport to be indicative of what the results of operations would have been had the Pro Forma Transactions been completed on the applicable dates of the unaudited pro forma combined financial information.

With respect to the fair value and other adjustments related to the Dopaco Acquisition, the unaudited pro forma combined financial information has been prepared using the purchase method of accounting as if the Dopaco Acquisition had been completed as of January 1, 2011 for the purposes of the unaudited pro forma combined income statements and as of May 2, 2011 (the date of the Dopaco Acquisition) for purposes of the unaudited pro forma combined balance sheet. Under the purchase method of accounting, the purchase price is required to be allocated to the underlying tangible and intangible assets acquired and liabilities assumed based on their respective fair market values as of the date of the Dopaco Acquisition, with any excess purchase price

Table of Contents

allocated to goodwill. As of December 31, 2011, the RGHL Group's audited financial statements, and as of September 30, 2012, the RGHL Group's interim unaudited condensed financial statements, include the effects of the allocation of the purchase price from the date of the Dopaco Acquisition. In accordance with IFRS, we have finalized and presented the impact of the fair values from the date of acquisition which also includes confirmation of the remaining useful lives of property, plant and equipment and intangibles.

With respect to the fair value and other adjustments related to the Graham Packaging Transaction, the unaudited pro forma combined financial information has been prepared using the purchase method of accounting as if the Graham Packaging Transaction had been completed as of January 1, 2011 for the purposes of the unaudited pro forma combined income statements and as of September 8, 2011 (the date of the Graham Packaging Acquisition) for purposes of the unaudited pro forma combined balance sheet. Under the purchase method of accounting, the purchase price is required to be allocated to the underlying tangible and intangible assets acquired and liabilities assumed based on their respective fair market values as of the date of the Graham Packaging Acquisition, with any excess purchase price allocated to goodwill. As of December 31, 2011, the RGHL Group's audited financial statements, and as of September 30, 2012, the RGHL Group's interim unaudited condensed financial statements, include the effects of the allocation of the purchase price from the date of the Graham Packaging Acquisition. In accordance with IFRS, we have finalized and presented the impact of the fair values from the date of acquisition which also includes confirmation of the remaining useful lives of property, plant and equipment and intangibles.

The unaudited pro forma combined income statements (i) do not include adjustments for any prospective revenue or cost saving synergies that may be achieved, in addition to those reflected in the historical financial information, since the completion of the Dopaco Acquisition or the Graham Packaging Acquisition or as a result of any of the other acquisitions we have completed and (ii) do not include non-recurring items directly related to the Pro Forma Transactions. In addition, the unaudited pro forma combined financial information does not give effect to any of the adjustments made to derive the RGHL Combined Group Adjusted EBITDA, which are each described under Summary Summary Historical and Pro Forma Combined Financial Information.

The unaudited pro forma combined financial information only shows profit (loss) from continuing operations before non-recurring charges directly attributable to the Pro Forma Transactions.

The unaudited pro forma combined financial information should be read in conjunction with the Glossary of Selected Terms, Summary Presentation of Financial Information, Risk Factors, The Transactions, Operating and Financial Review and Prospects and the historical financial statements and the notes thereto, which are included elsewhere in this prospectus.

Table of Contents**(1) Historical RGHL Group**

The historical financial information of the RGHL Group is derived from:

The unaudited historical balance sheet of the RGHL Group as of September 30, 2012; and

The audited historical income statement of the RGHL Group for the year ended December 31, 2011, and the unaudited historical income statements for the nine months ended September 30, 2011 and 2012, which are included elsewhere in this prospectus.

(2) Adjustments for the Full Period Effect of the 2011 and February 2012 Financing Transactions

The following table summarizes the components of the net adjustment to financial expenses:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012	
		(In \$ million)	
2011 Refinancing Transactions(a)	\$ 127	\$ 127	\$
Graham Packaging Transaction(b)	(268)	(268)	
February 2012 Refinancing Transactions(c)	(92)	(64)	(7)
Net adjustment to financial expenses	\$ (233)	\$ (205)	\$ (7)

(a) 2011 Refinancing Transactions

As part of the 2011 Refinancing Transactions which were completed during February 2011, the RGHL Group (a) issued the February 2011 Notes with a portion of the gross proceeds used to repay in full the Original Tranche D Term Loans, (b) entered into the Senior Secured Credit Facilities and drew the proceeds which were applied to refinance all of the remaining term loans (the Original Tranche A Term Loans, the Original U.S. Term Loans, the Original Tranche C Term Loans and the Original European Term Loans) outstanding under the Original Senior Secured Credit Facilities with the remaining proceeds available for general corporate purposes and (c) incurred certain fees and expenses.

The unaudited pro forma combined income statements include the adjustments to illustrate the 2011 Refinancing Transactions as if they had been completed as of January 1, 2011, comprising:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012	
		(In \$ million)	
Interest expense on the February 2011 Senior Secured Notes(i)	\$ (6)	\$ (6)	\$
Interest expense on the February 2011 Senior Notes(ii)	(7)	(7)	
Total interest expense on the February 2011 Notes	(13)	(13)	
Interest expense on the Senior Secured Credit Facilities (Dollar)(iii)	(11)	(11)	
Interest expense on the Senior Secured Credit Facilities (Euro)(iii)	(2)	(2)	
Total interest expense on the Senior Secured Credit Facilities	(13)	(13)	

Edgar Filing: BRPP LLC - Form F-4/A

Adjustment for interest expense on the Original Senior Secured Credit Facilities repaid(iv)	29	29	
Adjustment for unamortized debt issuance costs on the Original Senior Secured Credit Facilities repaid(iv)	124	124	
Net adjustment to financial expenses	\$ 127	\$ 127	\$

Table of Contents

- (i) Reflects the incremental cash interest expense of 6.875% on the \$1,000 million principal amount of the February 2011 Senior Secured Notes.
- (ii) Reflects the incremental cash interest expense of 8.250% on the \$1,000 million principal amount of the February 2011 Senior Notes.
- (iii) Reflects the incremental cash interest expense of 4.25% and 5.00% for the Dollar and Euro tranches of the Senior Secured Credit Facilities, respectively (based on an adjusted LIBOR floor of 1.00% and a margin of 3.25%, and on an adjusted LIBOR floor of 1.50% and a margin of 3.50%, respectively).
- (iv) Reflects the adjustment for interest expense and non-cash amortization expenses with respect to the debt issuance costs associated with the Original Senior Secured Credit Facilities repaid as part of the 2011 Refinancing Transactions.

(b) Graham Packaging Transaction

As part of the Graham Packaging Transaction, the RGHL Group (i) entered into an amendment to the Senior Secured Credit Facilities under which it agreed to certain new terms including incremental interest on the term loans of the Senior Secured Credit Facilities and drew \$2,000 million under the Incremental Senior Secured Credit Facilities, (ii) issued the August 2011 Notes and (iii) incurred certain fees and expenses.

The unaudited pro forma combined income statements include the net adjustment to financial expenses as if the Graham Packaging Transaction had been completed as of January 1, 2011, comprising:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011	2012
	(In \$ million)		
Interest expense on the August 2011 Senior Secured Notes(i)	\$ (72)	\$ (72)	\$
Interest expense on the August 2011 Senior Notes(ii)	(60)	(60)	
Amortization of the August 2011 Notes issuance costs and original issue discount(iii)	(4)	(4)	
Total interest expense on the August 2011 Notes	(136)	(136)	
Interest expense on the New Incremental Senior Secured Credit Facilities(iv)	(90)	(90)	
Incremental interest expense on the Senior Secured Credit Facilities(v)	(34)	(34)	
Interest expense on the new related party loan with Reynolds Treasury (NZ) Limited(vi)	(1)	(1)	
Amortization of the New Incremental Senior Secured Credit Facilities debt issuance costs(vii)	(7)	(7)	
Net adjustment to financial expenses	\$ (268)	\$ (268)	\$

- (i) Reflects the incremental cash interest expense of 7.875% on the \$1,500 million principal amount of the August 2011 Senior Secured Notes.

Edgar Filing: BRPP LLC - Form F-4/A

- (ii) Reflects the incremental cash interest expense of 9.875% on the \$1,000 million principal amount of the August 2011 Senior Notes.
- (iii) Reflects non-cash amortization expense on \$62 million of aggregate debt issuance costs and original issue discount of \$18 million associated with the August 2011 Notes. This non-cash expense has been calculated using the effective interest rate method.
- (iv) The interest rates used for pro forma purposes are based on the rates in effect upon the closing of the Graham Packaging Acquisition. The interest rate on the term loans under the New Incremental Senior Secured Credit Facilities was 6.50% on the closing date of the Graham Packaging Acquisition (based on an

Table of Contents

adjusted LIBOR (\$ tranche) floor of 1.25% and a margin of 5.25%). Refer to items (7) and (8) below for discussions of interest rate sensitivities.

(v) Reflects the incremental interest of 6.50% on the Dollar Tranche of the Senior Secured Credit Facilities (based on an adjusted LIBOR floor of 1.25% and a margin of 5.25%) and the incremental interest of 6.75% on the Euro Tranche of the Senior Secured Credit Facilities (based on an adjusted EURIBOR floor of 1.50% and a margin of 5.25%), both as of the closing date of the Graham Packaging Acquisition.

(vi) Reflects an interest rate of 6.875% on the principal amount of the related party loan with Reynolds Treasury (NZ) Limited of \$25 million.

(vii) Reflects non-cash amortization expense with respect to an aggregate \$71 million of debt issuance costs associated with the term loans under the New Incremental Senior Secured Credit Facilities. This non-cash expense has been calculated using the effective interest rate method.

(c) February 2012 Refinancing Transactions

As part of the February 2012 Refinancing Transactions, the RGHL Group issued the February 2012 Senior Notes with a portion of the gross proceeds used (i) to redeem and discharge the remaining balance of the Graham Packaging 2017 Notes, the Graham Packaging 2018 Notes and the Graham Packaging Senior Subordinated Notes, (ii) to redeem and discharge the Pactiv 2012 Notes and (iii) to pay certain fees and expenses. The remaining proceeds were used for general corporate purposes.

(a) Represents the net adjustment to net financial expenses as if the February 2012 Refinancing Transactions had been completed as of January 1, 2011, comprising:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012	
		(In \$ million)	
Interest expense on the February 2012 Senior Notes(i)	\$ (124)	\$ (93)	\$ (15)
Amortization of the debt issuance costs related to the February 2012 Senior Notes(ii)	(3)	(2)	
Net adjustment to financial expenses from the issuance of the February 2012 Senior Notes	(127)	(95)	(15)
Adjustment for interest expense on the remaining balance of the Graham Packaging 2017 Notes(iii)	4	2	
Adjustment for interest expense on the remaining balance of the Graham Packaging 2018 Notes(iii)	4	3	
Adjustment for interest expense on the Graham Packaging Senior Subordinated Notes(iii)	28	19	7
Adjustment for interest expense on the Pactiv 2012 Notes(iii)	15	11	3
Adjustment for the amortization of the debt issuance costs, original issue discounts, fair value adjustments and embedded derivatives on the remaining balance of the Graham Packaging 2017 Notes, the Graham Packaging 2018 Notes, the Graham Packaging Senior Subordinated Notes and the Pactiv 2012 Notes(iii)	(16)	(4)	(2)
Net adjustment to financial expenses	\$ (92)	\$ (64)	\$ (7)

Edgar Filing: BRPP LLC - Form F-4/A

- (i) Reflects the incremental cash interest expense of 9.875% on the principal amount of the February 2012 Senior Notes of \$1,250 million.
- (ii) Reflects non-cash amortization expense of debt issuance costs of \$34 million on the February 2012 Senior Notes. This non-cash expense has been calculated using the effective interest rate method.

Table of Contents

(iii) Reflects the adjustment to interest expense and non-cash amortization expense, with respect to the debt issuance costs, original issue discount/premium, fair value adjustments and embedded derivatives, associated with the remaining balances of the Graham Packaging Notes and the Pactiv 2012 Notes.

(d) Income Tax Benefit (Expense)

Represents the net adjustment to income tax benefit (expense) as if the financing components of the Graham Packaging Transaction, the 2011 Refinancing Transactions and the February 2012 Refinancing Transactions had been completed as of January 1, 2011. The tax expense has been calculated using respective local statutory tax rates which range from 28% to 37%. A portion of the tax adjustment arising from the net adjustment to financial expenses has not been recognized as this potential tax benefit would be generated by entities that are unable to satisfy the criteria required for the recognition of a tax loss asset.

(3) Historical Dopaco as Adjusted

The historical financial information of Dopaco is derived from the audited historical combined financial statements of Dopaco as of May 1, 2011 and for the 126-day period ended May 1, 2011, which are included elsewhere in this prospectus.

The historical financial information extracted from the combined financial statements of Dopaco is prepared in accordance with U.S. GAAP. For the purpose of presenting the historical information of Dopaco in a reporting format that is consistent with that of the RGHL Group, certain components of Dopaco's combined statement of earnings have been reclassified.

The following reclassification has been made in the combined statement of earnings for the 126-day period ended May 1, 2011:

Selling and administrative expenses of \$14 million as reported by Dopaco on the face of the income statement have been reclassified to Selling, marketing and distribution expenses (\$3 million) and General and administration expenses (\$11 million) based on the nature of the expenses.

(4) Adjustments related to Dopaco on Conversion from U.S. GAAP to IFRS, Fair Value and Other Adjustments for the Dopaco Acquisition***Adjustments to Historical Dopaco Balances and Results on Conversion from U.S. GAAP to IFRS***

The historical financial information extracted from the audited combined statement of earnings for the 126-day period ended May 1, 2011 is prepared in accordance with U.S. GAAP. Based on our analysis, we have not identified any material differences between U.S. GAAP and IFRS for Dopaco's financial information for the period presented.

See Summary Summary of Certain Differences Between IFRS and U.S. GAAP.

Fair Value Adjustments for the Dopaco Acquisition

The Dopaco Acquisition was an acquisition of a business from third parties. Accordingly, IFRS requires that the RGHL Group recognize the identifiable assets acquired and liabilities assumed as part of the Dopaco Acquisition at their fair values. Goodwill is then recognized for the excess of the consideration paid over the net of the identifiable assets acquired and liabilities assumed measured at their fair values.

The Dopaco Acquisition closed on May 2, 2011. The RGHL Group's audited financial statements as of and for the year ended December 31, 2011 and interim unaudited condensed financial statements as of and for the nine month periods ended September 30, 2011 and 2012, each of which are included elsewhere in this prospectus, include the effects of the final allocation of the purchase price as of the date of the acquisition.

The following adjustments reflect the impact on the historical Dopaco results from the fair value adjustments arising as a result of the acquisition of Dopaco by the RGHL Group:

(a) Reflects the income statement impact of the fair value adjustment to property, plant and equipment and finite life intangible assets as part of the acquisition of Dopaco by the RGHL Group.

Table of Contents

To recognize the impact of the Dopaco Acquisition as if it had been completed as of January 1, 2011, depreciation expense would decrease and amortization expense would increase in the pro forma combined income statements for the year ended December 31, 2011 and for the nine month period ended September 30, 2011, as follows:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012 (In \$ million)	
Amortization of identifiable intangible assets	\$ (3)	\$ (3)	\$
Depreciation of property, plant and equipment	3	3	
Total	\$	\$	\$
Recognized in:			
Cost of sales	\$ 3	\$ 3	\$
General and administration expenses	(3)	(3)	
Total	\$	\$	\$

Due to the final assessment of the acquired property, plant and equipment, the average estimated useful life of depreciable property, plant and equipment has increased from a historical value of 6 years to 11 years. The reduction in the fair value of the assets acquired (when compared to the predecessor historical gross book values) coupled with the increase in the estimated useful lives of the assets acquired has resulted in pro forma depreciation being less than the amount recorded in the historical Dopaco financial statements.

In addition, pro forma amortization expense has increased compared to the amount that was recorded in Dopaco's historical financial statements as a result of the final fair value assessment of the acquired identifiable amortizable intangible assets combined with the weighted average useful life of 11 years.

(b) Reflects the tax effect of the above fair value adjustments determined using a statutory tax rate of 34%.

Other Adjustments for the Dopaco Acquisition

The following other adjustments reflect (i) the impact on the historical Dopaco income statements for the year ended December 31, 2011 and for the nine month period ended September 30, 2011, resulting from the elimination of the historical intercompany sales and cost of sales between the RGHL Group and Dopaco and (ii) the elimination of certain non-recurring charges directly related to the Dopaco Acquisition that were recorded in the historical RGHL Group income statements for the year ended December 31, 2011 and for the nine month period ended September 30, 2011.

(c) Represents the elimination of historical intercompany sales and cost of sales between the RGHL Group and Dopaco, as follows:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012 (In \$ million)	
Revenue	\$ (4)	\$ (4)	\$
Cost of sales	4	4	
Gross profit	\$	\$	\$

Table of Contents

(d) Elimination of non-recurring charges directly related to the Dopaco Acquisition

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (In \$ million)	For the Nine Months Ended September 30, 2012
Other expenses(i)	\$ 6	\$ 6	\$

(i) Reflects the elimination of incremental acquisition-related costs incurred by the RGHL Group consisting primarily of legal and other professional advisor fees that were directly attributable to the Dopaco Acquisition and non-recurring in nature.

(5) Historical Graham Packaging as Adjusted

The historical financial information of Graham Packaging is derived from the unaudited accounting records for the period from January 1, 2011 to September 7, 2011, which incorporates the unaudited condensed consolidated statements of operations for the six month period ended June 30, 2011 (the composition of which is shown below), which is included elsewhere in this prospectus.

	Historical Graham Packaging Income Statements as Adjusted		
	For the period from January 1, 2011 to June 30, 2011	For the period from July 1, 2011 to September 7, 2011 (In \$ million)	For the period from January 1, 2011 to September 7, 2011
Revenue	\$ 1,578	\$ 552	\$ 2,130
Cost of sales	(1,338)	(478)	(1,816)
Gross profit	240	74	314
Other income			
Selling, marketing and distribution expenses	(48)	(26)	(74)
General and administration expenses	(66)	(35)	(101)
Other expenses	(16)	(224)	(240)
Share of profit of associates and joint ventures, net of income tax (equity method)			
Profit (loss) from operating activities	110	(211)	(101)
Financial income	1		1
Financial expenses	(106)	(36)	(142)
Net financial expenses	(105)	(36)	(141)
Profit (loss) before income tax	5	(247)	(242)
Income tax benefit (expense)	(24)	(3)	(27)
Profit (loss) from continuing operations before non-recurring charges directly attributable to the Pro Forma Transactions	\$ (19)	\$ (250)	\$ (269)

Edgar Filing: BRPP LLC - Form F-4/A

The historical consolidated financial information of Graham Packaging is prepared in accordance with U.S. GAAP. For the purpose of presenting the historical information in a reporting format that is consistent with that of the RGHL Group, certain components of Graham Packaging's income statements have been reclassified.

The following reclassifications have been made in the consolidated statement of operations for the period from January 1, 2011 to June 30, 2011:

Asset impairment charges of \$3 million has been reclassified to Other expenses ;

Table of Contents

Interest expense of \$106 million has been reclassified to Financial expenses ;

Increase in income tax receivable obligations of \$13 million has been reclassified to Other expenses ; and

Selling, general and administrative expenses of \$114 million have been reclassified to Selling, marketing and distribution expenses (\$48 million) and General and administration expenses (\$66 million) based on the nature of the expenses.

The following reclassifications have been made in the consolidated statement of operations for the period from July 1, 2011 to September 7, 2011:

Other income (expense) net of (\$1 million) as reported by Graham Packaging on the face of the income statement has been reclassified to Other expenses ;

Asset impairment charges of \$1 million has been reclassified to Other expenses ;

Interest expense of \$36 million has been reclassified to Financial expenses ;

Increase in income tax receivable obligations of \$221 million has been reclassified to Other expenses ; and

Selling, general and administrative expenses of \$61 million have been reclassified to Selling, marketing and distribution expenses (\$26 million) and General and administration expenses (\$35 million) based on the nature of the expenses.

(6) Adjustments related to Graham Packaging on Conversion from U.S. GAAP to IFRS, Fair Value and Other Adjustments for the Graham Packaging Acquisition

Adjustments to Historical Graham Packaging Balances and Results on Conversion from U.S. GAAP to IFRS

The historical financial information of Graham Packaging was prepared in accordance with U.S. GAAP. For the purpose of presenting the unaudited pro forma combined financial information for the year ended December 31, 2011, and for the nine month period ended September 30, 2011, the reclassified income statement information for the period from January 1, 2011 to September 7, 2011 has been converted to IFRS by applying the accounting policies of the RGHL Group as of January 1, 2011. In converting this data, management has made adjustments to amounts previously reported in Graham Packaging's financial statements under U.S. GAAP. See Summary Summary of Certain Differences Between IFRS and U.S. GAAP. An explanation of how the conversion of Graham Packaging from U.S. GAAP to IFRS has affected pro forma profit from continuing operations is set out below:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012 (In \$ million)	
Income (loss) from continuing operations for the period January 1, 2011 to September 7, 2011, as reported under U.S. GAAP	\$ (269)	\$ (269)	\$
<i>Adjustments for the conversion from U.S. GAAP to IFRS</i>			
Employee benefits(a)	1	1	
Income tax expense(e)			

Edgar Filing: BRPP LLC - Form F-4/A

Change in results	1	1	
Profit (loss) after income taxes under IFRS	\$ (268)	\$ (268)	\$

(a) Graham Packaging has certain defined benefit pension plans that require actuarial valuations to determine pension income (expense) and the plan's net asset or liability position.

Under U.S. GAAP, Graham Packaging's net pension income (expense) included the amortization of unrecognized actuarial gains and losses. On transition to IFRS, all unrecognized actuarial gains and losses may

Table of Contents

be recognized directly in retained earnings. Accordingly, the IFRS periodic pension expense has no amortization component.

The net adjustment of \$1 million to pension income (expense) arises from the reversal of amortized prior service costs and net loss and is recognized as a decrease to general and administrative expenses in the pro forma income statements.

There is no impact on net assets arising from this adjustment.

Fair Value and Other Adjustments for the Graham Packaging Acquisition

The Graham Packaging Acquisition was an acquisition of a business from third parties. Accordingly, IFRS requires that the RGHL Group recognize the identifiable assets acquired and liabilities assumed as part of the Graham Packaging Acquisition at their fair values. Goodwill is then recognized as the excess of the consideration paid over the net of the identifiable assets acquired and liabilities assumed measured at their fair values.

The Graham Packaging Acquisition closed on September 8, 2011. The RGHL Group's audited financial statements as of and for the year ended December 31, 2011 and interim unaudited condensed financial statements as of and for the nine month periods ended September 30, 2012 and 2011, which are included elsewhere in this prospectus, include the final effects of the allocation of the purchase price as of the date of the acquisition.

The following adjustments reflect the impact on the historical Graham Packaging results from the fair value adjustments arising from the Graham Packaging Acquisition and from the Graham Packaging Change of Control Offer:

(b) Represents the adjustment to net financial expenses resulting from the repayment of certain historical indebtedness of Graham Packaging in connection with the Graham Packaging Transaction:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011	2012
	(In \$ million)		
Elimination of historical interest, amortization of debt issuance costs and original issue discount on Graham Packaging's senior secured credit facilities, a portion of the Graham Packaging 2017 Notes, a portion of the Graham Packaging 2018 Notes and a portion of the Graham Packaging Senior Subordinated Notes(i)	\$ 124	\$ 124	\$
Amortization of fair value adjustment to existing Graham Packaging borrowings(ii)	1	1	
Net adjustment to financial expenses	\$ 125	\$ 125	\$

(i) Represents the elimination of historical interest on Graham Packaging's former senior secured credit facilities for the period from January 1, 2011 to September 7, 2011 of \$92 million, the Graham Packaging 2017 Notes of \$13 million, the Graham Packaging 2018 Notes of \$13 million, and the Graham Packaging Senior Subordinated Notes of \$1 million, and amortization of the associated debt issuance costs and original issue discount of \$5 million.

(ii) Represents the accretion to the non-cash interest expense on the amortization of the fair value adjustment to the Graham Packaging borrowings that remained outstanding following the Graham Packaging Transaction.

(c) Reflects the income statement impact of the fair value adjustment to property, plant and equipment and finite life intangible assets as part of the acquisition of Graham Packaging by the RGHL Group.

Edgar Filing: BRPP LLC - Form F-4/A

Graham Packaging's historical depreciation and amortization expense has been adjusted in the pro forma income statements based on fair values of \$1,402 million associated with property, plant and equipment, of which \$1,266 million are depreciable over their estimated useful lives, and of \$2,375 million associated with identifiable intangible assets, of which \$2,125 million are amortizable over their respective estimated useful

Table of Contents

lives. To recognize the transaction as if it had been completed as of January 1, 2011, depreciation and amortization expense would increase in the pro forma combined income statements for the year ended December 31, 2011 and for the nine month period ended September 30, 2011, as follows:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (In \$ million)	For the Nine Months Ended September 30, 2012
Amortization of identifiable intangible assets	\$ (58)	\$ (58)	\$
Depreciation of property, plant and equipment	(52)	(52)	
Total	\$ (110)	\$ (110)	\$
Recognized in:			
Cost of sales	\$ (73)	\$ (73)	\$
General and administration expenses	(37)	(37)	
Total	\$ (110)	\$ (110)	\$

Other Adjustments for the Graham Packaging Acquisition

(d) The following other adjustments reflect the elimination of certain non-recurring charges directly related to the Graham Packaging Acquisition that were recorded in the historical RGHL Group or Graham Packaging income statements for the year ended December 31, 2011 and for the nine month period ended September 30, 2011.

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (In \$ million)	For the Nine Months Ended September 30, 2012
General and administration expenses(i)	\$ 101	\$ 101	\$
Other expenses(ii)	\$ 245	\$ 245	\$

- (i) Reflects the elimination of incremental acquisition-related costs incurred by the RGHL Group or Graham Packaging. The adjustment for the year ended December 31, 2011 and for the nine months ended September 30, 2011 comprises (a) \$89 million of incremental direct costs incurred by Graham Packaging, including the non-recurring charge of \$40 million paid by Graham Packaging to terminate its merger with Silgan Holdings Inc. in order to be acquired by the RGHL Group, and legal and other professional advisor fees of \$26 million that were directly attributable to the Graham Packaging Acquisition and (b) change of control payments of \$12 million recognized by the RGHL Group in relation to non-recurring amounts payable to certain members of Graham Packaging management.
- (ii) Reflects the elimination of incremental acquisition-related costs incurred by the RGHL Group or Graham Packaging. The adjustments for the year ended December 31, 2011 and for the nine months ended September 30, 2011 comprises (a) a one-time payment of \$221 million accrued for and paid by Graham Packaging as a pre-acquisition liability to certain shareholders subject to an income tax receivable agreement (ITR) that required payment as a result of the acquisition and (b) legal and other professional advisor fees of \$24 million incurred by the RGHL Group that were directly attributable to the Graham Packaging Acquisition and non-recurring in nature.
- (e) The adjustments to income tax expense in the pro forma income statements reflect the tax effect of the above U.S. GAAP to IFRS adjustments, the fair value adjustments and the other adjustments for the Graham Acquisition. These tax adjustments have been calculated using

a statutory tax rate of 36%.

Table of Contents**(7) The September 2012 Refinancing Transactions**

(a) Represents the net adjustment to cash calculated as follows:

	(In \$ million)
Redemption of the remaining Dollar 2009 Notes(i)	\$ (348)
Payment of premium associated with the redemption of the remaining Dollar 2009 Notes(ii)	(13)
Net adjustment to cash	\$ (361)

(i) Represents the use of \$348 million of available cash to redeem the remaining Dollar 2009 Notes.

(ii) Represents the payment of a \$13 million premium associated with the redemption of the remaining Dollar 2009 Notes.

(b) Represents the net decrease in current interest-bearing borrowings, calculated as follows:

	(In \$ million)
Redemption of the remaining Dollar 2009 Notes(i)	\$ (348)
Write-off of deferred debt issuance costs, embedded derivatives and redemption premium(ii)	(12)
Net adjustment to current interest bearing borrowings	\$ (360)

(i) Represents the redemption of the remaining Dollar 2009 Notes.

(ii) Represents the write-off of unamortized deferred debt issuance costs and embedded derivatives, and extinguishment of the redemption premium in connection with the redemption of the remaining Dollar 2009 Notes.

(c) Represents the adjustment to retained earnings, comprised of the write-off of \$2 million of unamortized deferred debt issuance costs, offset by the release of \$1 million of unamortized embedded derivative, in connection with the redemption of the remaining Dollar 2009 Notes.

(d) Represents the net adjustment to net financial expenses as if the September 2012 Refinancing Transactions had been completed as of January 1, 2011, comprising:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30,	
		2011	2012
		(In \$ million)	
Interest expense on the notes(i)	\$ (187)	\$ (140)	\$ (140)
Amortization of the debt issuance costs related to the notes(ii)	(5)	(5)	(5)
Net adjustment to financial expenses from the notes	(192)	(145)	(145)

Edgar Filing: BRPP LLC - Form F-4/A

Interest expense on the Senior Secured Credit Facilities(iii)	(126)	(95)	(95)
Amortization of the debt issuance costs related to the Senior Secured Credit Facilities(iv)	(1)	(1)	(1)
Net adjustment to financial expenses from the Senior Secured Credit Facilities	(127)	(96)	(96)

Table of Contents

	For the Year Ended	For the Nine Months Ended September 30,	
	December 31, 2011	2011 (In \$ million)	2012
Adjustment for interest expense on the repaid Senior Secured Credit Facilities(v)	305	227	225
Adjustment for amortization of the debt issuance costs on the repaid Senior Secured Credit Facilities(vi)	12	9	9
Adjustment for the loss on the repayment of the Senior Secured Credit Facilities(vii)			90
Net adjustment to financial expenses on the repaid Senior Secured Credit Facilities	317	236	324
Adjustment for interest expense on the Dollar 2009 Notes(viii)	93	70	66
Adjustment for amortization of the debt issuance costs, original issue discount and embedded derivatives and changes in the fair value of the embedded derivative associated with the Dollar 2009 Notes(ix)	(12)	18	44
Adjustment for the loss on the repayment of the Dollar 2009 Notes(x)			94
Net adjustment to financial expenses for the repayment of the Dollar 2009 Notes	81	88	204
Net adjustment to financial expenses	\$ 79	\$ 83	\$ 287

The net adjustment to net financial expenses comprises:

	For the Year Ended	For the Nine Months Ended September 30,	
	December 31, 2011	2011 (In \$ million)	2012
Adjustment to financial income	\$	\$	\$ 37
Adjustment to financial expenses	79	83	250
Total	\$ 79	\$ 83	\$ 287

- (i) Reflects an interest rate of 5.750% on the principal amount of the notes of \$3,250 million.
- (ii) Reflects non-cash amortization expense on an estimated \$51 million of debt issuance costs on the notes. This non-cash expense has been calculated using the effective interest rate method.
- (iii) The interest rates used for pro forma purposes are based on the rates in effect upon the closing of the September 2012 Refinancing Transactions. The interest rate on the U.S. Term Loans under the Senior Secured Credit Facilities following the September 2012 Refinancing Transactions was 4.750% (based on a LIBOR floor of 1.000% and a margin of 3.750%). Each 0.125% increase in the assumed interest rate used in the pro forma income statements would increase interest expense on the U.S. Term Loans under the Senior Secured Credit Facilities by \$3 million in the year ended December 31, 2011 and \$1 million in each of the nine month periods ended September 30, 2011 and 2012. The interest rate on the European Term Loans under the Senior Secured Credit Facilities following the

Edgar Filing: BRPP LLC - Form F-4/A

September 2012 Refinancing Transactions was 5.000% (based on a LIBOR floor of 1.000% and a margin of 4.000%). Each 0.125% increase in the assumed interest rate used in the pro forma income statements would increase the interest expense on the European Term Loans under the Senior Secured Credit Facilities by less than \$1 million in the year ended December 31, 2011 and in each of the nine month periods ended September 30, 2011 and 2012. A decrease in the assumed interest rates would not change interest expense.

Table of Contents

- (iv) Reflects non-cash amortization expense on an estimated \$13 million of debt issuance costs on the Senior Secured Credit Facilities. This non-cash expense has been calculated using the effective interest rate method.
- (v) Reflects the adjustment for interest expense associated with the Senior Secured Credit Facilities repaid.
- (vi) Reflects the adjustment for non-cash amortization expense with respect to the debt issuance costs associated with the Senior Secured Credit Facilities repaid.
- (vii) Represents the adjustment for the loss on the repayment of the Senior Secured Credit Facilities comprised of early repayment penalties of \$15 million and the write-off of unamortized deferred debt issuance costs of \$75 million.
- (viii) Represents the adjustment for interest expense associated with the repayment of the Dollar 2009 Notes.
- (ix) Represents the adjustment for the amortization of deferred debt issuance costs, original issue discounts and embedded derivatives in connection with the repayment of the Dollar 2009 Notes and the adjustment for income/expense related to changes in the fair value of embedded derivatives on the Dollar 2009 Notes.
- (x) Represents the adjustment for the loss on extinguishment of the Dollar 2009 Notes, comprised of redemption premiums of \$48 million, the write-off of unamortized deferred debt issuance costs of \$43 million and original issue discount of \$10 million offset by the write-off of an embedded derivative of \$7 million.
- (e) Represents the net adjustment to income tax (expense) benefit as if the September 2012 Refinancing Transactions had been completed as of January 1, 2011. The tax benefit has been calculated using local statutory tax rates which range from 28% to 37%. A portion of the tax adjustment arising from the September 2012 Refinancing Transactions has not been recognized as this potential benefit would be generated by entities that are unable to satisfy the criteria required for the recognition of a tax loss asset.

(8) The November 2012 Refinancing Transactions

- (a) Represents the net adjustment to cash calculated as follows:

	(In \$ million)
Assumed proceeds from the Securitization Facility(i)	\$ 600
Redemption of the Euro 2009 Notes(ii)	(582)
Payment of the estimated fees, expenses and premiums(iii)	(30)
Net adjustment to cash	\$ (12)

- (i) Represents the assumed gross proceeds from the Securitization Facility in aggregate principal amount of \$600 million representing the maximum availability under the Securitization Facility. The amount that can be borrowed is calculated by reference to a funding base which may vary on a monthly basis. Due to the funding base variability, the unaudited pro forma combined financial information was prepared as if the full \$600 million available under the Securitization Facility had been drawn. As of the date of this prospectus, the RGHL Group had drawn \$500 million.

Edgar Filing: BRPP LLC - Form F-4/A

- (ii) Represents the redemption of the Euro 2009 Notes.

- (iii) Represents the payment of an estimated \$8 million of fees and expenses associated with establishing the Securitization Facility and \$22 million of premiums and penalties associated with the redemption of the Euro 2009 Notes.
- (b) Represents the portion of the embedded derivative asset extinguished in connection with the redemption of the Euro 2009 Notes.

Table of Contents

(c) Represents the net increase in current interest bearing borrowings, calculated as follows:

	(In \$ million)
Assumed proceeds from the Securitization Facility(i)	\$ 600
Estimated fees and expenses from the Securitization Facility(ii)	(8)
Net adjustment to current interest bearing borrowings	\$ 592

(i) Represents the assumed gross proceeds from the Securitization Facility in aggregate principal amount of \$600 million representing the maximum availability under the Securitization Facility.

(ii) Represents the payment of an estimated \$8 million of fees and expenses associated with establishing the Securitization Facility.

(d) Represents the net decrease in non-current interest bearing borrowings, calculated as follows:

	(In \$ million)
Redemption of the Euro 2009 Notes(i)	\$ (582)
Write-off of unamortized deferred debt issuance costs, original issue discount and embedded derivative(ii)	11
Net adjustment to non-current interest bearing borrowings	\$ (571)

(i) Represents the adjustment for the redemption of the Euro 2009 Notes.

(ii) Represents the write-off of unamortized deferred debt issuance costs, original issue discount and embedded derivative in connection with the redemption of the Euro 2009 Notes.

(e) Represents the revised assessment of deferred tax asset recoverability as a result of the November 2012 Refinancing Transactions.

(f) Represents the adjustments to retained earnings, calculated as follows:

	(In \$ million)
Write-off of unamortized deferred debt issuance costs, original issue discount and embedded derivative in connection with the redemption of the Euro 2009 Notes(i)	\$ (11)
Extinguishment of embedded derivative asset in connection with the redemption of the Euro 2009 Notes(ii)	(9)
Premiums and penalties in connection with the redemption of the Euro 2009 Notes(iii)	(22)
Adjustment to deferred taxes (iv)	3
Net adjustment to retained earnings	\$ (39)

Edgar Filing: BRPP LLC - Form F-4/A

- (i) Represents the adjustment to write-off \$7 million of unamortized deferred debt issuance costs and \$5 million of original issue discount, offset by \$1 million of embedded derivative in connection with the redemption of the Euro 2009 Notes.
- (ii) Represents the adjustment for extinguishment of the embedded derivative asset in connection with the redemption of the Euro 2009 Notes.
- (iii) Represents the adjustment for premiums and penalties in connection with the redemption of the Euro 2009 Notes.
- (iv) Represents the adjustment for the revised assessment of deferred tax asset recoverability as a result of the November 2012 Refinancing Transactions.

Table of Contents

(g) Represents the net adjustment to net financial expenses as if the November 2012 Refinancing Transactions had been completed as of January 1, 2011, comprising:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 2012 (In \$ million)	
Interest expense on the Securitization Facility(i)	\$ (13)	\$ (10)	\$ (10)
Amortization of the debt issuance costs related to the Securitization Facility(ii)	(2)	(1)	(1)
Net adjustment to financial expenses from the Securitization Facility	(15)	(11)	(11)
Adjustment for interest expense on the Euro 2009 Notes(iii)	54	41	33
Adjustment for amortization of the debt issuance costs and original issue discount and changes in the fair value of embedded derivative on the Euro 2009 Notes(iv)	(2)	5	2
Net adjustment to financial expenses for redemption of the Euro 2009 Notes	52	46	35
Net adjustment to financial expenses	\$ 37	\$ 35	\$ 24

(i) Reflects an interest rate of 2.160% on the assumed principal amount of the Securitization Facility of \$600 million. The interest rate used for pro forma purposes reflects the interest rate on the Securitization Facility at the time of the drawdown, which was 2.160%. Each 0.125% increase in the assumed interest rate used in the pro forma income statements would increase interest expense under the Securitization Facility by \$1 million in the year ended December 31, 2011 and in each of the nine month periods ended September 30, 2011 and 2012. Each 0.125% decrease in the assumed interest rate used in the pro forma income statements would decrease interest expense under the Securitization Facility by \$1 million in the year ended December 31, 2011 and in each of the nine month periods ended September 30, 2011 and 2012.

(ii) Reflects non-cash amortization expense on an estimated \$8 million of debt issuance costs on the Securitization Facility. This non-cash expense has been calculated using the effective interest rate method.

(iii) Represents the adjustment for interest expense associated with the redemption of the Euro 2009 Notes.

(iv) Represents the adjustment for the amortization of deferred debt issuance costs and original issue discounts and changes in the fair value of the embedded derivatives in connection with the redemption of the Euro 2009 Notes.

(h) Represents the net adjustment to income tax (expense) benefit as if the November 2012 Refinancing Transactions had been completed as of January 1, 2011. The tax benefit has been calculated using local statutory tax rates which range from 28% to 37%. A portion of the tax adjustment arising from the November 2012 Refinancing Transactions has not been recognized as this potential benefit would be generated by entities that are unable to satisfy the criteria required for the recognition of a tax loss asset.

(9) Pro Forma RGHL Combined Group Depreciation and Amortization

The pro forma income statements include both cost of sales and general and administration expenses, and included in each of these line items are depreciation and amortization expense. The following table presents the

Table of Contents

calculation of the pro forma depreciation and amortization expense derived from the applicable accounting records for the respective time periods:

	For the Year Ended December 31, 2011	For the Nine Months Ended September 30, 2011 (In \$ million)	
		2011	2012
RGHL Group	\$ 972	\$ 654	\$ 856
Dopaco	8	8	
Graham Packaging	253	253	
Total for the period	\$ 1,233	\$ 915	\$ 856

(10) Pro Forma RGHL Combined Group Borrowings

The following table identifies as of September 30, 2012, the components of our current and non-current borrowings, net of the respective unamortized debt issuance costs, and original issue discounts and embedded derivatives:

	(In \$ million)
Notes(i)	\$ 3,221
February 2012 Senior Notes(ii)	9
August 2011 Senior Secured Notes(iii)	1,470
August 2011 Senior Notes(iv)	2,188
February 2011 Senior Secured Notes(v)	997
February 2011 Senior Notes(vi)	995
October 2010 Senior Secured Notes(vii)	1,475
October 2010 Senior Notes(viii)	1,469
May 2010 Notes(ix)	983
Securitization Facility(x)	592
Senior Secured Credit Facilities(xi)	2,610
2007 Senior Notes(xii)	609
2007 Senior Subordinated Notes(xiii)	531
Existing Pactiv Indebtedness(xiv)	795
Other borrowings	32
Total borrowings	\$ 17,976
Fixed rate borrowings	\$ 14,765
Variable rate borrowings	3,211
Total borrowings	\$ 17,976
Current borrowings	\$ 625
Non-current borrowings	17,351
Total borrowings	\$ 17,976

Edgar Filing: BRPP LLC - Form F-4/A

- (i) Reflects the proceeds from the aggregate principal amount of \$3,250 million of the notes, net of \$51 million of estimated debt issuance costs, plus \$22 million of embedded derivatives. A portion of the notes were

Table of Contents

allocated to the Lux Issuer with some of the cash proceeds used to repay the Dollar 2009 Notes held by the Lux Issuer. The net monetary liability exposed to changes in foreign exchange rates will remain the same on the notes as the net monetary liability that was attributable to the Dollar 2009 Notes that were repaid. Accordingly, the historical financial statements of the RGHL Group for all periods presented herein reflect the foreign currency gains and losses on the net monetary liability that exist after completion of the offering of the notes. Consequently, a portion of the proceeds of the notes are exposed to changes in foreign exchange rates. A 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased financial expenses by \$19 million, \$18 million and \$18 million, respectively, whereas a 5% weakening of the euro against the dollar would have increased financial expenses by \$21 million, \$21 million and \$19 million, respectively.

- (ii) Reflects the remaining aggregate principal amount of \$9 million of February 2012 Senior Notes after \$1,241 million aggregate principal amount was exchanged for registered August 2011 Senior Notes on August 10, 2012.
- (iii) Reflects the proceeds from the aggregate principal amount of \$1,500 million of August 2011 Senior Secured Notes, net of \$10 million of original issue discount, \$31 million of unamortized debt issuance costs, plus \$11 million of embedded derivatives.
- (iv) Reflects the proceeds from the aggregate principal amount of \$2,241 million of August 2011 Senior Notes, net of \$6 million of original issue discount, \$58 million of unamortized debt issuance costs, plus \$11 million of embedded derivatives.
- (v) Reflects the proceeds from the aggregate principal amount of \$1,000 million of February 2011 Senior Secured Notes, net of \$14 million of unamortized debt issuance costs, plus \$11 million of embedded derivatives.
- (vi) Reflects the proceeds from the aggregate principal amount of \$1,000 million of February 2011 Senior Notes, net of \$15 million of unamortized debt issuance costs, plus \$10 million of embedded derivatives.
- (vii) Reflects the proceeds from the aggregate principal amount of \$1,500 million of October 2010 Senior Secured Notes, net of \$33 million of unamortized debt issuance costs, plus \$8 million of embedded derivatives.
- (viii) Reflects the proceeds from the aggregate principal amount of \$1,500 million of October 2010 Senior Notes, net of \$39 million of unamortized debt issuance costs, plus \$8 million of embedded derivatives. As a portion of the October 2010 Senior Notes were issued by the Lux Issuer, which uses the euro as its functional currency, a portion of the proceeds of these notes are exposed to changes in foreign exchange rates. A 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased financial expenses by \$38 million, \$37 million and \$34 million, respectively, whereas a 5% weakening of the euro against the dollar would have increased financial expenses by \$41 million, \$39 million and \$38 million, respectively. On translation of the euro functional currency results of the Lux Issuer to the RGHL Group's reporting currency, these changes would have an equal but offsetting effect on the foreign currency translation reserve, which is a component of equity.
- (ix) Reflects the proceeds from the aggregate principal amount of \$1,000 million of May 2010 Notes, net of \$25 million of unamortized debt issuance costs, plus \$8 million of embedded derivatives. As a portion of the May 2010 Notes were issued by the Lux Issuer, which uses the euro as its functional currency, a portion of the proceeds of these notes are exposed to changes in foreign exchange rates. A 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased financial expenses by \$25 million, \$24 million and \$23 million, respectively, whereas a 5% weakening of the euro against the dollar would have an increased financial expenses by \$27 million, \$27 million and \$25 million, respectively. On translation of the euro functional currency results of the Lux Issuer to the RGHL Group's reporting currency, these changes would have an equal but offsetting effect on the foreign currency translation reserve, which is a component of equity.

- (x) Reflects the assumed proceeds of \$600 million from the Securitization Facility, net of \$8 million of deferred debt issuance costs.

Table of Contents

- (xi) Reflects the balances outstanding under the Senior Secured Credit Facilities after the September 2012 Refinancing Transactions, net of \$13 million of unamortized debt issuance costs. Amounts outstanding under the Senior Secured Credit Facilities comprise both the U.S. Term Loans and the European Term Loans. The 300 million of borrowings are drawn by entities with the euro as their functional currency. A 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased the foreign currency translation reserve, which is a component of equity, by \$19 million, \$20 million and \$19 million, respectively, whereas a 5% weakening of the euro against the dollar would have the opposite effect.
- (xii) Reflects the proceeds from the aggregate principal amount of 480 million of 2007 Senior Notes, net of \$12 million of unamortized debt issuance costs. As the 2007 Senior Notes have been issued as euro denominated notes by entities with the euro as their functional currency, a 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased the foreign currency translation reserve, which is a component of equity, by \$31 million, \$32 million and \$31 million, respectively, whereas a 5% weakening of the euro against the dollar would have the opposite effect.
- (xiii) Reflects the proceeds from the aggregate principal amount of 420 million of 2007 Senior Subordinated Notes, net of \$12 million of unamortized debt issuance costs. As the 2007 Senior Subordinated Notes have been issued as euro denominated notes by entities with the euro as their functional currency, a 5% strengthening of the euro against the dollar at December 31, 2011, September 30, 2011 and September 30, 2012 would have decreased the foreign currency translation reserve, which is a component of equity, by \$27 million, \$28 million and \$27 million, respectively, whereas a 5% weakening of the dollar against the euro would have the opposite effect.
- (xiv) Reflects the notes as previously issued by Pactiv.
Our total pro forma third-party indebtedness as of September 30, 2012 of \$17,984 million includes (a)(i) total interest bearing borrowings of \$18,210 million, (ii) related party borrowings of \$1 million, (iii) derivative liabilities of \$5 million and (iv) bank overdrafts of \$3 million, for a total of \$18,219 million of outstanding indebtedness, offset by (b) unamortized debt issuance costs and original issue discounts of \$327 million, plus (c)(i) embedded derivatives of \$89 million and (ii) fair value adjustments of \$3 million.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our historical financial statements covers certain periods before the consummation of the Graham Packaging Transaction on September 8, 2011 and does not reflect the results generated by Graham Company or the impact that the Graham Packaging Transaction may have on the RGHL Group for those periods. The following discussion should be read in conjunction with Business Description of Business and our historical financial statements and the notes thereto, in each case included elsewhere in this prospectus. The following discussion and analysis also includes forward-looking statements. These forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements with respect to us. Our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this prospectus. See Special Note of Caution Regarding Forward-Looking Statements and Risk Factors.

Overview

RGHL was incorporated in New Zealand under the Companies Act 1993 on May 30, 2006. We are a leading global manufacturer and supplier of consumer, beverage and foodservice packaging products. We sell our products to customers globally, including to a diversified mix of leading multinational companies, large national and regional companies and small local businesses. We primarily serve the consumer food, beverage and foodservice market segments. We operate through six segments: SIG, Evergreen, Closures, Reynolds Consumer Products, Pactiv Foodservice and Graham Packaging. We acquired these businesses in a series of transactions.

Recent Acquisitions and Integration

Our most recent significant acquisitions are described below.

Graham Packaging Acquisition

On September 8, 2011, we acquired Graham Company for a total enterprise value, including net debt, of \$4.5 billion. We financed the purchase of shares, the repayment at acquisition of certain of Graham Packaging's indebtedness and associated transaction costs, with new indebtedness. Graham Packaging is reported as a separate segment within the RGHL Group.

Graham Packaging is a leading global supplier of value-added rigid plastic containers for the hot food, specialty beverage and consumer products markets. We expect to realize significant cost savings by optimizing procurement of certain raw materials, consolidating facilities, eliminating duplicative operations and overhead, improving supply chain management and achieving other efficiencies. Once we fully integrate Graham Packaging, we expect to generate annual operational synergies and cost savings of approximately \$75 million by the end of 2013, of which we have achieved \$33 million from the date of acquisition through September 30, 2012. In order to achieve these synergies and cost savings, we expect to incur cash outlays of approximately \$75 million by the end of 2013, of which we have incurred \$36 million from the date of acquisition through September 30, 2012. Expenses incurred under our integration program generally include severance, exit, disposal, and other costs.

The valuation of the assets acquired and liabilities assumed in connection with the Graham Packaging Acquisition has been finalized. In accordance with IFRS 3 (Revised), Business Combinations, all adjustments resulting from the finalization of the purchase accounting have been recognized retrospectively to the date of the acquisition. For details of assets acquired and liabilities assumed, refer to note 33 of the RGHL Group's audited financial statements as of and for the year ended December 31, 2011, included elsewhere in this prospectus.

Dopaco Acquisition

On May 2, 2011, we acquired Dopaco from Cascades Inc. Dopaco is a manufacturer of paper cups and folding cartons for the quick-service restaurant and foodservice industries in the U.S. and Canada. The purchase consideration for the acquisition was \$395 million in cash. The consideration was funded from the existing cash

Table of Contents

of the RGHL Group. Dopaco's business has been integrated into the Pactiv Foodservice segment. We expect to generate annual operational synergies and cost savings of approximately \$30 million by the end of 2012, of which we have achieved \$24 million from the date of acquisition through September 30, 2012. In order to achieve these synergies and cost savings, we expect to incur cash outlays of approximately \$22 million by the end of 2012, of which we have incurred \$21 million from the date of the acquisition through September 30, 2012. Expenses incurred under our integration program generally include severance and other costs.

Pactiv Acquisition

On November 16, 2010, we acquired Pactiv for a total enterprise value, including net debt, of \$5.8 billion. We have substantially completed the process of combining our Reynolds consumer products and Reynolds foodservice packaging businesses with our Hefty consumer products and Pactiv foodservice packaging businesses, respectively, to form integrated Reynolds Consumer Products and Pactiv Foodservice segments. We expect to generate annual operational synergies and cost savings of approximately \$230 million by the end of 2012 from the consolidation of facilities, elimination of duplicative operations, improvement of supply chain management and from achieving other efficiencies, of which we have achieved \$217 million from the date of acquisition through September 30, 2012. For example, from the date of the Pactiv Acquisition to the date of this prospectus, we have announced the closure of eight manufacturing sites in North America. In order to achieve these synergies and cost savings, we incurred cash outlays of approximately \$130 million from the date of acquisition through September 30, 2012. Cash outlays incurred under our integration program generally include severance, exit, disposal and other costs associated with combining the companies of the acquired consumer products and foodservice packaging businesses into our current Reynolds Consumer Products and Pactiv Foodservice segments.

The valuation of the assets acquired and liabilities assumed in connection with the Pactiv Acquisition has been finalized. In accordance with IFRS 3 (Revised), Business Combinations, all adjustments resulting from the finalization of the purchase accounting have been recognized retrospectively as of the date of the acquisition. For details of assets acquired and liabilities assumed, refer to note 33 of the RGHL Group's audited financial statements as of and for the year ended December 31, 2011, included elsewhere in this prospectus.

Refer to note 18 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus for additional information related to the acquisitions of Graham Packaging and Dopaco.

Key Factors Influencing Our Financial Condition and Results of Operations

Acquisitions, Substantial Leverage and Other Transaction-Related Effects

The six segments in which we operate have all been acquired through a series of transactions. Our results of operations, financial position and cash flows are significantly impacted by the effects of these acquisitions which were financed primarily through borrowings, including transaction-related debt commitment fees and recurring interest costs. In addition, from time to time, we refinance our borrowings which also can have a significant impact on the results of our operations.

As of September 30, 2012, our total indebtedness of \$18,544 million, comprised of borrowings, overdrafts and derivative liabilities, is presented in our statement of financial position net of unamortized debt issuance costs, original issue discounts, embedded derivatives and fair value adjustments at acquisition. For more information regarding our external borrowings, refer to note 14 of the RGHL Group's interim unaudited condensed financial statements as of September 30, 2012, included elsewhere in this prospectus. Our future results of operations, including our net financial expenses, will be significantly affected by our substantial indebtedness. The servicing of this indebtedness has had and will continue to have an impact on our cash flows and cash balance. For more information, refer to Liquidity and Capital Resources.

Restructuring and Cost Saving Programs

We have implemented a number of restructuring and cost saving programs over the past three years in order to reduce our operating costs. During the nine month period ended September 30, 2012 and the year ended

Table of Contents

December 31, 2011, we incurred restructuring charges of \$48 million and \$88 million, respectively, business integration costs of \$32 million and \$47 million, respectively, and operational process engineering-related consultancy costs of \$18 million and \$42 million, respectively. These costs are largely related to workforce reductions, improving supply chain management, achieving other efficiencies and consolidation of facilities.

As discussed under [Overview](#) [Recent Acquisitions and Integration](#), we expect to incur additional restructuring costs as well as integration costs through the end of 2013 that will largely relate to the integration of Graham Packaging into the RGHL Group and the integration of the Pactiv foodservice packaging and Dopaco businesses into the Pactiv Foodservice segment. Outlays related to integration include both expenses and capital expenditures associated with combining the new acquisitions with the RGHL Group's operations and generally include severance, exit, disposal and other costs associated with combining the businesses. We expect to realize cost savings and operational synergies by the end of 2013 by consolidating facilities, eliminating duplicative operations, improving supply chain management and achieving other efficiencies. For additional information related to the quantification of the synergies to be achieved and cash outlays, refer to [Overview](#) [Recent Acquisitions and Integration](#).

Raw Materials and Energy Prices

Our results of operations are impacted by changes in the costs of our raw materials and energy prices. The primary raw materials used to manufacture our products are resins, aluminum, fiber (principally raw wood and wood chips) and paperboard (principally cartonboard and cupstock). We also use commodity chemicals, steel and energy, including fuel oil, electricity, natural gas and coal, to manufacture our products. The prices for raw materials, particularly resins and aluminum, have fluctuated significantly in recent years.

Principal raw materials used by each of our segments are as follows (in order of cost significance within each segment):

SIG cartonboard, resin, aluminum

Evergreen fiber, resin

Closures resin

Reynolds Consumer Products resin, aluminum

Pactiv Foodservice resin, aluminum, paperboard

Graham Packaging resin

Table of Contents

Historical index prices of resin, aluminum and paperboard from January 1, 2009 through September 30, 2012 are shown in the charts below. The following charts present index prices and do not represent the prices at which we purchased these raw materials.

Source: Chemical Market Associates Inc.

Resin prices can fluctuate significantly with fluctuations in crude oil and natural gas prices, as well as changes in refining capacity and the demand for other petroleum-based products.

Source: Platts Metal Weekly

Table of Contents

Aluminum prices can fluctuate significantly as aluminum is a cyclical commodity with prices subject to global market factors. These factors include speculative activities by market participants, production capacity, strength or weakness in key end markets such as housing and transportation, political and economic conditions and production costs in major production regions.

Source: Pulp and Paper Work

The prices of cupstock and cartonboard may fluctuate due to external conditions such as weather, product scarcity, currency and commodity market fluctuations and changes in governmental policies and regulations.

Purchases of most of our raw materials are based on negotiated rates with suppliers, which are tied to published indices. Typically, we do not enter into long-term purchase contracts that provide for fixed quantities or prices for our principal raw materials.

Changes in raw material prices impact our results of operations. Revenue is directly impacted by changes in raw material costs as a result of raw material cost pass-through mechanisms in many of the customer pricing agreements entered into by most of our segments. Generally, the contractual price adjustments do not occur simultaneously with commodity price fluctuations, but rather on a mutually agreed upon schedule. Due to differences in timing between purchases of raw materials and sales to customers, there is often a lead-lag effect, during which margins are negatively impacted in periods of rising raw material costs and positively impacted in periods of falling raw material costs. Historically, the average lag time in implementing raw material cost pass-through mechanisms (where contractually permitted) has been approximately three months.

Contracts for SIG's products and for the branded products sold by Reynolds Consumer Products generally do not contain raw material cost pass-through mechanisms. We use price increases, where possible, to mitigate the effects of raw material cost increases for customers that are not subject to raw material cost pass-through agreements.

The prices for some of our raw materials, particularly resins and aluminum, have fluctuated significantly in recent years. Prices for raw wood and wood chips have fluctuated less than the prices of resins and aluminum. Raw wood and wood chips are typically purchased from sources close to our mills and, as a result, prices are established locally based on factors such as weather conditions and local competitive conditions.

Volatility in resin, aluminum and paper prices has had an effect on our results of operations. Historically, raw material price increases have resulted in increases in cost of sales and any subsequent pass-through to

Table of Contents

customers has resulted in increases in revenue. Raw material cost decreases and any subsequent pass-through to customers have historically had an opposite effect on cost of sales and revenue.

Management expects continued volatility in raw material prices as a result of the continued uncertainty in the global economic environment, and such volatility may impact our results of operations. We continue to take steps to minimize the impact of the volatility of raw material prices through commodity hedging, fixed supplier pricing, reducing the lag time in contractual raw material cost pass-through mechanisms and entering into additional indexed customer contracts that include raw material cost pass-through provisions.

Our segments are also sensitive to energy-related cost movements, particularly those that affect transportation and utility costs. In particular, our Evergreen segment is susceptible to price fluctuations in natural gas, as Evergreen incurs significant natural gas costs to convert raw wood and wood chips to paper products and liquid packaging board. Historically, we have been able to mitigate the effect of higher energy-related costs with productivity improvements and other cost reductions. Further, energy costs (excluding transportation costs) are generally included in Evergreen's indexed customer contracts.

Hedging Activities

Our business is exposed to commodity and other price risk principally from the purchase of resin, aluminum, natural gas, electricity and cartonboard. From time to time we enter into hedging agreements for some of our raw materials and energy sources to minimize the impact of price fluctuations. We use various strategies to manage cost exposures on certain raw material purchases with the objective of obtaining more predictable costs for these commodities. We generally enter into commodity financial instruments or derivatives to hedge commodity prices primarily related to aluminum, resin and natural gas, including resin futures, aluminum swaps and natural gas swaps.

We may selectively enter into hedges for short contract periods at the request of customers who want to mitigate the risk of changes in raw material costs in their purchase pricing.

The realized gains or losses arising from derivative instruments are recognized in cost of sales while the unrealized gains or losses associated with derivative instruments are recognized in other income/expenses.

While we currently employ the hedging strategy discussed above, we may decide to increase or decrease our level of hedging depending on management's assessment of current market conditions.

Black Liquor Credit and Cellulosic Biofuel Producer Credits

Black Liquor Credit was an excise tax credit that benefited companies that used alternative fuel mixtures for energy production to operate their businesses in the United States. Black Liquor Credit, equal to \$0.50 per gallon of alternative fuel contained in the applicable mixture, was refundable to the taxpayer. For the year ended December 31, 2009, Evergreen filed claims for alternative fuel mixture credits at its Canton and Pine Bluff mills covering eligible periods from January 2009 to December 2009, totaling \$235 million. As a result of these claims, for the year ended December 31, 2009, Evergreen recognized a reduction of \$214 million in its cost of sales, which equated to the claim value net of applicable expenses. The tax credit, as it related to alternative fuel mixtures, expired on December 31, 2009.

During 2010, the Internal Revenue Service issued an IRS General Counsel Memo which further clarified how to determine the volume of alternative fuel mixture used in the production process that qualified for the tax credit. Based on these clarifications and related studies commissioned by management, Evergreen determined that an additional claim was available related to the volume of Black Liquor used during 2009. As a result of these claims, for the year ended December 31, 2010, Evergreen recognized a reduction of \$10 million in its cost of sales, which equates to the claim value net of applicable expenses.

On July 9, 2010, the IRS published Chief Counsel Advice Memorandum 2010-002, concluding that Black Liquor sold or used before January 1, 2010 qualifies for the Cellulosic Biofuel Producer Credits, or CBPC. In October 2010, the IRS provided additional guidance on the qualification of CBPC. The CBPC is separate from the Black Liquor Credit recognized by Evergreen in 2009 and 2010. The CBPC allows for a tax credit equal to \$1.01 for each gallon of qualified biofuel produced and used by Evergreen and not claimed as a Black Liquor

Table of Contents

Credit. Based upon this guidance, it was determined that Evergreen qualified for the CBPC in regards to Black Liquor Credit produced in 2009 that was not included in the calculation of the original Black Liquor Credit. Evergreen recorded a \$29 million CBPC credit to income tax expense in 2010.

The benefits of the Black Liquor Credit and CBPC were recognized in the results of operations for the years ended December 31, 2010 and 2009. The results for the nine months ended September 30, 2012 and for the year ended December 31, 2011 are not impacted by the Black Liquor Credit or CBPC and based on our knowledge at this time, we do not expect any benefits in future periods.

Effect of Currency Fluctuations

Four of our segments operate in a number of geographical areas and transact business in a range of currencies. As a result, these segments (SIG, Closures, Pactiv Foodservice and Graham Packaging) are affected more by currency fluctuations than our Evergreen and Reynolds Consumer Products segments, which predominantly operate in North America. In addition to the dollar, the currencies in which our transactions are primarily denominated include the euro, Swiss franc, Canadian dollar, Thai baht, Chinese yuan renminbi, Brazilian real, British pound, Japanese yen, Mexican peso, Polish zloty and New Zealand dollar. Exchange rate fluctuations can therefore either increase or decrease revenue and expense items when reported in dollars. For most financial periods, the impact on revenue due to fluctuations in exchange rates has been partially offset by the impact on expenses, as most of our business units incur revenue and expenses in their respective local currencies, creating a natural hedge to currency fluctuations.

Seasonality and Working Capital Fluctuations

Our business is impacted by seasonal fluctuations.

SIG

SIG's operations are moderately seasonal. SIG's customers are principally engaged in providing products such as beverages and food that are generally less sensitive to seasonal effects, although SIG experiences some seasonality as a result of increased consumption of juices and tea during the summer months in Europe. SIG therefore typically experiences a greater level of carton sleeve sales in the second and third quarters. Sales in the fourth quarter can increase due to additional purchases by customers prior to the end of the year to achieve annual volume rebates that SIG offers.

Evergreen

Evergreen's operations are moderately seasonal. Evergreen's customers are principally engaged in providing products that are generally less sensitive to seasonal effects, although Evergreen does experience some seasonality as a result of increased consumption of milk by school children during the North American academic year. Evergreen therefore typically experiences a greater level of carton product sales in the first and fourth quarters when North American schools are in session.

Closures

Closures' operations are moderately seasonal. Closures experiences some seasonality as a result of increased consumption of bottled beverages during the summer months. In order to avoid capacity shortfalls in the summer months, Closures' customers typically begin building inventories in advance of the summer season. Therefore, Closures typically experiences a greater level of closure sales in the second and third quarters in the Northern Hemisphere, which represented 83% of Closures' total revenue in 2011, and in the fourth and first quarters in the Southern Hemisphere, which represented 17% of Closures' total revenue in 2011.

Reynolds Consumer Products

Reynolds Consumer Products' operations are moderately seasonal based on the different product lines. Sales in cooking products are typically higher in the fourth quarter of the year, primarily due to the holiday use of

Table of Contents

Reynolds Wrap foil, Reynolds Oven Bags and Reynolds Parchment Paper. Sales in waste and storage products are typically higher in the second half of the year in North America, coinciding with the harvest season and outdoor fall cleanup.

Pactiv Foodservice

Pactiv Foodservice's operations are moderately seasonal, peaking during the summer and fall months in the Northern Hemisphere when the favorable weather, harvest, and the holiday season lead to increased consumption. Pactiv Foodservice therefore typically experiences a greater level of sales in the second through fourth quarters.

Graham Packaging

Graham Packaging's operations are slightly seasonal with higher levels of unit volume sales in the second and third quarters. Graham Packaging experiences some seasonality of bottled beverages during the summer months, most significantly in North America. Typically the business begins to build inventory in the first and early second quarters to prepare for the summer demand.

Results of Operations

The following discussion should be read in conjunction with our financial statements included elsewhere in this prospectus. Detailed comparisons of revenue and results are presented in the discussions of the operating segments, which follow the RGHL Group results discussion. Results for interim periods may not be indicative of the results for the full year.

*Nine Month Period Ended September 30, 2012 Compared with the Nine Month Period Ended September 30, 2011**Reynolds Group Holdings Limited*

Table of Contents

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the nine month period ended September 30, 2011, the results of operations of Dopaco from May 2, 2011 to September 30, 2011 and the results of operations of Graham Packaging from September 8, 2011 to September 30, 2011.
- (2) In accordance with IFRS 3 (revised) Business Combinations, the information presented for the nine month period ended September 30, 2011 has been revised to reflect the effect of the finalization of the purchase price accounting for the Graham Packaging acquisition. Refer to note 2.5 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.
- (3) RGHL Group EBITDA is defined as profit from operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and investment properties and amortization of intangible assets. RGHL Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write-downs and equity method profit not distributed in cash. EBITDA and Adjusted EBITDA are not presentations made in accordance with IFRS, are not measures of financial condition, liquidity or profitability and should not be considered as an alternative to profit from operations for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. Refer to Risk Factors. Additionally, RGHL Group EBITDA and RGHL Group Adjusted EBITDA are not intended to be measures of free cash flow, as they do not take into account certain items such as interest and principal payments on our indebtedness, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA and Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We believe that issuers of high yield debt securities present EBITDA and Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA and Adjusted EBITDA identically, this presentation of EBITDA and Adjusted EBITDA may not be comparable to the similarly titled measures of other companies.

As more fully described under Overview Recent Acquisitions and Integration, we acquired Graham Packaging on September 8, 2011. The results of operations of Graham Packaging have been included in the RGHL Group's results of operations as a separate segment since the consummation of the Graham Packaging acquisition. For the nine month period ended September 30, 2012, Graham Packaging's revenue, profit from operating activities, EBITDA and Adjusted EBITDA included in the RGHL Group's results were \$2,357 million, \$31 million, \$319 million and \$373 million, respectively. For the period from September 8, 2011 to September 30, 2011, Graham Packaging's revenue, loss from operating activities, EBITDA and Adjusted EBITDA included in the RGHL Group's results were \$256 million, \$30 million, \$2 million and \$41 million, respectively.

In addition, the operating results of Dopaco have been combined with the operating results of our Pactiv Foodservice segment since May 2, 2011, the date of the Dopaco acquisition. For the nine month periods ended September 30, 2012 and September 30, 2011, Dopaco's revenue, included in the results of the Pactiv Foodservice segment, was \$362 million and \$206 million, respectively.

For further details on the above acquisitions, refer to note 18 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.

Revenue. Revenue increased by \$2,078 million, or 25%, to \$10,357 million for the nine month period ended September 30, 2012 compared to \$8,279 million for the nine month period ended September 30, 2011. The increase was largely attributable to incremental revenue from the acquisitions of Graham Packaging and Dopaco. In addition, revenue increased at (a) Evergreen driven by sales in paper products and cartons, and (b) Reynolds Consumer Products driven primarily by price increases. These increases in revenue were partially offset by

Table of Contents

decreases at (a) Closures driven by changes in product mix and pricing related to price concessions and the pass-through of resin price changes to customers, and (b) Pactiv Foodservice driven primarily by lower volumes as a result of the sale of the laminating operations and exiting certain low margin non-strategic product offerings as well as lower volume principally driven by lower sales in mature, declining and non-strategic categories, partially offset by pricing strategies to recover higher resin costs. Foreign currency exchange rates had an unfavorable impact of \$132 million largely resulting from the strengthening of the dollar against the euro, Mexican peso and Brazilian real in the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011.

Cost of Sales. Cost of sales increased by \$1,599 million, or 23%, to \$8,429 million for the nine month period ended September 30, 2012 compared to \$6,830 million for the nine month period ended September 30, 2011. The increase was largely attributable to incremental cost of sales from the acquisitions of Graham Packaging and Dopaco. The increases were offset by the sale of the laminating operations at Pactiv Foodservice, lower raw material costs and benefits from actual synergies realized and improved operational performance. Foreign currency exchange rates had a favorable impact of \$112 million largely resulting from the strengthening of the dollar against the euro, Mexican peso and Brazilian real in the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011. Cost of sales as a percentage of revenue decreased across all segments.

Gross Profit. Gross profit increased by \$479 million, or 33%, to \$1,928 million for the nine month period ended September 30, 2012 compared to \$1,449 million for the nine month period ended September 30, 2011. Gross profit margin increased to 19% for the nine month period ended September 30, 2012 compared to 18% for the nine month period ended September 30, 2011. Compared to the prior year period, gross profit margin increased across all segments. These increases were driven primarily by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$193 million, or 27%, to \$897 million for the nine month period ended September 30, 2012 compared to \$704 million for the nine month period ended September 30, 2011. This increase in expenses was primarily attributable to the acquisitions of Graham Packaging and Dopaco. However, selling, marketing and distribution expenses and general and administration expenses as a percentage of revenue remained unchanged at 9% for the nine month period ended September 30, 2012 compared to 9% for the nine month period ended September 30, 2011. Selling, marketing and distribution expenses and general and administration expenses also increased by a \$27 million adjustment at SIG, a \$17 million reclassification from cost of sales at Closures and a \$16 million reclassification from cost of sales at Reynolds Consumer Products, during the nine month period ended September 30, 2012.

Net Other. Net other expense decreased by \$137 million to \$19 million for the nine month period ended September 30, 2012 compared to net other expense of \$156 million for the nine month period ended September 30, 2011. This change was primarily attributable to a \$66 million gain on sale of the Louisville laminating operations in the Pactiv Foodservice segment, a \$43 million decrease in unrealized loss on derivatives as the unrealized hedge position moved from a net loss position in 2011 to a net gain position in 2012, a \$33 million decrease in business restructuring expenses, a \$21 million decrease in operational process engineering-related consultancy costs and a \$19 million decrease in business acquisition and integration costs in the current year period compared to the prior year period. These benefits were partially offset by a \$16 million increase in asset impairment charges, as well as an increase of \$10 million in costs due to fire damage at one of our facilities in March 2012. For additional information, refer to note 7 and note 8 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.

Net Financial Expenses. Net financial expenses increased by \$190 million, or 18%, to \$1,244 million for the nine month period ended September 30, 2012 compared to \$1,054 million for the nine month period ended September 30, 2011. The primary factors contributing to the increase include:

an increase of \$315 million in interest expense mainly as a result of additional borrowings incurred in August 2011 to fund the acquisition of Graham Packaging;

Table of Contents

a \$26 million fair value adjustment on the remaining Dollar 2009 Notes; and

a decrease of \$13 million in foreign currency exchange gains.

These increases were partially offset by \$135 million of gains from the change in fair value of derivatives and \$79 million of fees incurred in 2011 in connection with the financing of the Graham Packaging acquisition.

Additionally, in 2012 we had a loss on extinguishment of debt of \$159 million as a result of the September 2012 Refinancing Transactions which included the repayment of the Second Amended and Restated Senior Secured Credit Facilities and the tendered Dollar 2009 Notes. In 2011, we had a loss on extinguishment of debt of \$129 million due to the extinguishment of the Original Senior Secured Credit Facilities. The loss on extinguishment included early repayment penalties and write-off of unamortized transaction costs.

We are primarily exposed to foreign currency exchange risk that impacts the reported financial income and financial expenses of the RGHL Group as a result of the remeasurement at each reporting date of indebtedness that is denominated in currencies other than the functional currencies of the respective issuers or borrowers. As of September 30, 2012 and September 30, 2011, the RGHL Group had dollar-denominated external borrowings of \$3,272 million and \$1,583 million, respectively, owed by entities whose functional currency was the euro, of which \$1,950 million was issued on September 28, 2012 as part of the September 2012 Refinancing Transactions. As a result of the changes in the prevailing foreign currency exchange rates, the RGHL Group recognized a foreign currency exchange gain in connection with such borrowings during the nine month period ended September 30, 2012 compared to a foreign currency exchange gain during the nine month period ended September 30, 2011. For more information regarding the RGHL Group's financial expenses and borrowings, refer to notes 9 and 14, respectively, of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus. For more information regarding the sensitivity of the foreign currency exchange gains and losses on the borrowings, refer to Quantitative and Qualitative Disclosures about Market Risk Foreign Currency Exchange Rate Risk.

Income Tax Expense. For the nine month period ended September 30, 2012, we recognized an income tax benefit of \$125 million on a loss before income tax of \$213 million (an effective tax rate of 59%) compared to an income tax benefit of \$64 million on a loss before income tax of \$451 million (an effective tax rate of 14%) for the nine month period ended September 30, 2011. The increase in the effective tax rate was primarily due to the favorable resolution of Evergreen's 2009 tax year Alternative Fuel Mixture Credits (AFMC) refund claim and the mix of book income and losses across the various taxing jurisdictions in which the RGHL Group operates, offset by an increase in unrecognized non-U.S. tax losses, mostly in Luxembourg. For a reconciliation of the effective tax rate, refer to note 10 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.

In May 2012, Evergreen submitted a refund claim to the Internal Revenue Service (IRS) to exclude \$235 million of AFMC from 2009 taxable income. The refund claim was submitted to the IRS in the course of Evergreen's 2009 federal tax examination. In the same month, Evergreen received a Notice of Proposed Adjustment from the IRS, allowing the refund claim in full. As a result, the RGHL Group recognized \$96 million of tax benefit in the nine month period ended September 30, 2012.

Depreciation and Amortization. Depreciation of property, plant and equipment and investment properties and amortization of intangible assets increased by \$202 million, or 31%, to \$856 million for the nine month period ended September 30, 2012 compared to \$654 million for the nine month period ended September 30, 2011, primarily due to additional depreciation and amortization expense from the acquisitions of Graham Packaging and Dopaco.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$1,031 million, \$1,887 million and \$1,916 million, respectively, compared to \$603 million, \$1,257 million and \$1,456 million, respectively, for the nine month period ended September 30, 2011.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for the RGHL Group is as follows:

	For the nine month period ended September 30,	
	2012	2011(1)(2)
	(In \$ million)	
Profit from operating activities	1,031	603

SIG segment EBITDA	362	24%	330	22%	32	10%
SIG segment Adjusted EBITDA	376	25%	336	22%	40	12%

Table of Contents

Revenue. Revenue increased by \$8 million, or 1%, to \$1,506 million for the nine month period ended September 30, 2012 compared to \$1,498 million for the nine month period ended September 30, 2011. As discussed in more detail below, the change in revenue was attributable to higher sales volume of \$103 million largely from increased sales in South America, the Middle East and Asia. This increase was partially offset by an unfavorable foreign currency impact of \$95 million largely due to the strengthening of the dollar against the euro.

Revenue in Europe decreased by \$82 million, or 10%, to \$754 million for the nine month period ended September 30, 2012 compared to \$836 million for the nine month period ended September 30, 2011 driven by an unfavorable foreign currency impact of \$71 million due to the strengthening of the dollar against the euro and lower sales volume of \$11 million.

Revenue in the rest of the world increased by \$90 million, or 14%, to \$752 million for the nine month period ended September 30, 2012 compared to \$662 million for the nine month period ended September 30, 2011. The increase was primarily related to higher volumes of \$114 million due to much stronger demand in the Middle East and South America, largely due to new customers, and strong growth in Asia and North America. Foreign currency impact was an unfavorable \$24 million.

Cost of Sales. Cost of sales decreased by \$63 million, or 5%, to \$1,126 million for the nine month period ended September 30, 2012 compared to \$1,189 million for the nine month period ended September 30, 2011. The net decrease in cost of sales included a \$76 million favorable foreign currency impact, resulting from the strengthening of the dollar against the euro and lower manufacturing costs of \$34 million during the nine month period ended September 30, 2012 as compared to the nine month period ended September 30, 2011, due to better utilization of our plants and higher start-up costs of the new plant in Brazil during 2011. Raw material costs also improved by \$14 million compared to the prior year period, mostly due to higher raw material prices in the prior year period. These decreases in cost of sales were partially offset by a \$82 million increase related primarily to higher sales volume. For the nine month periods ended September 30, 2012 and September 30, 2011, raw material costs accounted for 68% and 66% of SIG's cost of sales, respectively. The net decrease in cost of sales also included a \$21 million benefit arising from adjustments to correct for period costs inappropriately capitalized and for a misclassification of expenses between cost of sales and general and administration expenses. These adjustments resulted in a reduction of EBITDA of \$10 million for the nine month period ended September 30, 2012. There was no impact on Adjusted EBITDA for the nine month period ended September 30, 2012.

Gross Profit. Gross profit increased by \$71 million, or 23%, to \$380 million for the nine month period ended September 30, 2012 compared to \$309 million for the nine month period ended September 30, 2011. Gross profit margin increased to 25% for the nine month period ended September 30, 2012 compared to 21% for the nine month period ended September 30, 2011. These increases were driven by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses decreased by \$2 million, or 1%, to \$192 million for the nine month period ended September 30, 2012 compared to \$194 million for the nine month period ended September 30, 2011. The decrease was primarily due to favorable foreign currency impact of \$13 million from the strengthening of the dollar against the euro and lower amortization expense of \$20 million due to fully amortized patents. These decreases were offset primarily by the accounting adjustment explained above.

Net Other. Net other changed by \$15 million, to net other expense of \$6 million for the nine month period ended September 30, 2012 compared to net other income of \$9 million for the nine month period ended September 30, 2011. This change was primarily attributable to an increase of \$18 million in restructuring costs in the current period. The increase was partially offset by \$2 million in net unrealized gains on open hedge positions, \$6 million of prior year charges related to VAT and customs duties on historical imports in China, \$4 million of prior year charges related to asset impairment and \$2 million of prior year charges related to storm damage in Germany not incurred during the current period. These items have been included in the segment's Adjusted EBITDA calculation. In addition, other miscellaneous income decreased by \$11 million, primarily related to facility management for a property sold in 2011.

Table of Contents

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$200 million, \$362 million and \$376 million, respectively, compared to \$137 million, \$330 million and \$336 million, respectively, for the nine month period ended September 30, 2011.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our SIG segment is as follows:

	For the nine month period ended September 30, 2012 2011 (In \$ million)	
Profit from operating activities	200	137
Depreciation and amortization	162	193
EBITDA	362	330
Included in SIG segment EBITDA:

Revenue. Revenue increased by \$39 million, or 3%, to \$1,236 million for the nine month period ended September 30, 2012 compared to \$1,197 million for nine month period ended September 30, 2011. This increase

Table of Contents

was attributable to a \$27 million increase in sales of paper products, along with an increase of \$15 million in sales of cartons, partially offset by a decrease of \$3 million in sales of liquid packaging board. The increase in sales of paper products was comprised of an increase of \$44 million due to higher volumes, primarily as a result of higher export and market demand for certain of our paper products, partially offset by a decrease of \$17 million as pricing declined in the current period. The increase in sales of cartons was due to \$14 million in price increases, as well as an increase of \$1 million attributable to higher sales volumes. The decrease in sales of liquid packaging board was primarily due to lower volumes of \$4 million, partially offset by an increase of \$1 million due to price increases.

Cost of Sales. Cost of sales increased by \$28 million, or 3%, to \$1,064 million for the nine month period ended September 30, 2012 compared to \$1,036 million for the nine month period ended September 30, 2011. This change was driven by a \$54 million increase primarily due to higher paper volumes, which consisted of higher export shipments in the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011, partially offset by a \$26 million decrease primarily as a result of lower raw materials and other input costs, primarily energy, resins and fiber, and maintenance costs. Evergreen completed two planned mill outages during both the nine month period ended September 30, 2012 and the nine month period ended September 30, 2011; however, the outages completed during 2011 were much larger in scale than the outages completed during 2012. The 2011 outages led to higher maintenance costs during that period as compared to the nine months ended September 30, 2012. For the nine month periods ended September 30, 2012 and September 30, 2011, raw material costs accounted for 42% and 44% of Evergreen's cost of sales, respectively.

Gross Profit. Gross profit increased by \$11 million, or 7%, to \$172 million for the nine month period ended September 30, 2012 compared to \$161 million for the nine month period ended September 30, 2011. Gross profit margin increased to 14% for the nine month period ended September 30, 2012 compared to 13% for the nine month period ended September 30, 2011. These increases were driven by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Evergreen's gross profit is impacted by changes in the costs of raw materials, including fiber, resin, commodity chemicals, and energy, including fuel oil, electricity, natural gas and coal. Evergreen purchases most of its raw materials and other input costs on the spot market and generally cannot immediately pass through price increases or declines to certain of its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Evergreen's purchases of raw materials from its suppliers and sales to certain of its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses decreased by \$3 million, or 4%, to \$68 million for the nine month period ended September 30, 2012 compared to \$71 million for the nine month period ended September 30, 2011.

Net Other. Net other income decreased by \$5 million, to \$23 million for the nine month period ended September 30, 2012 compared to net other income of \$28 million for the nine month period ended September 30, 2011. This decrease is mainly attributable to landfill tipping fees earned during the nine month period ended September 30, 2011. There were no landfill tipping fees earned in the current period. Net other income is primarily comprised of sales of by-products.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$128 million, \$170 million and \$168 million, respectively, compared to \$119 million, \$164 million and \$162 million, respectively, for the nine month period ended September 30, 2011.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our Evergreen segment is as follows:

	For the nine month period ended September 30, 2012 2011 (In \$ million)	
	2012	2011
Profit from operating activities	128	119
Depreciation and amortization	42	45
EBITDA	170	164
Included in Evergreen segment EBITDA:		
Equity method profit not distributed in cash		(2)
Restructuring costs (recoveries)	1	
Unrealized gain on derivatives	(3)	
Evergreen segment Adjusted EBITDA	168	162

Closures Segment

	For the nine month period ended September 30,					
	2012	% of segment revenue	2011 (In \$ million, except for %)	% of segment revenue	Change	% change
External revenue	956	99%	1,017	99%	(61)	(6)%
Inter-segment revenue	10	1%	9	1%	1	11%
Total segment revenue	966	100%	1,026	100%	(60)	(6)%

Gross profit	182	19%	161	16%	21	13%
Selling, marketing and distribution expenses/ General and administration expenses	(91)	(9)%	(71)	(7)%	(20)	28%
Net other income (expense)	(2)		2		(4)	NM
Profit from operating activities	89	9%	92	9%	(3)	(3)%
Closures segment EBITDA	143	15%	150	15%	(7)	(5)%
Closures segment Adjusted EBITDA	147	15%	150	15%	(3)	(2)%

Revenue. Revenue decreased by \$60 million, or 6%, to \$966 million for the nine month period ended September 30, 2012 compared to \$1,026 million for the nine month period ended September 30, 2011. This decrease was attributable to a \$40 million decrease as a result of changes in product mix and pricing related to price concessions and the pass-through of resin price changes to customers. In addition, revenue decreased by \$37 million as a result of an unfavorable foreign currency impact, primarily due to the strengthening of the dollar against the euro, Brazilian real and Mexican peso. These decreases were partially offset by the impact of higher sales volumes of \$17 million, primarily due to the stabilization of the political environment in the Middle East and market share growth.

Revenue from North America decreased by \$40 million, or 9%, to \$392 million for the nine month period ended September 30, 2012 compared to \$432 million for the nine month period ended September 30, 2011. This decrease was attributable to a decrease of \$30 million due to changes in product mix and pricing related to price concessions and the pass-through of resin price changes to customers. In addition revenue decreased by \$9

Table of Contents

million as a result of an unfavorable foreign currency impact, primarily due to the strengthening of the dollar against the Mexican peso, and a decrease of \$1 million due to lower sales volumes, which was primarily due to decreased customer demand as a result of market conditions.

Revenue from the rest of the world decreased by \$20 million, or 3%, to \$574 million for the nine month period ended September 30, 2012 compared to \$594 million for the nine month period ended September 30, 2011. This decrease was attributable to an unfavorable foreign currency impact of \$28 million, primarily due to the strengthening of the dollar against the euro and Brazilian real and a decrease of \$10 million due to changes in pricing related to the pass-through of resin price changes to customers as well as the unfavorable impact of changes in product mix, partially attributable to the sale of one of Closures European businesses in June 2011 which sold higher priced closures compared to the ongoing European business. These decreases were partially offset by an increase of \$18 million due to higher sales volumes. During 2011, the Middle East experienced a decrease in sales due to the impact of the political turmoil in the region. With the relative stabilization of the political environment, sales volumes have increased in comparison to the prior year period. The Asia region experienced an increase in sales volumes as a result of market share growth.

Cost of Sales. Cost of sales decreased by \$81 million, or 9%, to \$784 million for the nine month period ended September 30, 2012 compared to \$865 million for the nine month period ended September 30, 2011.

Closures cost of sales is impacted by changes in product mix and raw material costs. The decrease in cost of sales included a \$36 million favorable foreign currency impact due to the strengthening of the dollar as noted above, and lower costs of \$32 million due to changes in raw material costs, including resin, for the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011. In addition, cost of sales decreased by \$4 million due to lower manufacturing costs, including labor, overhead, utilities and depreciation, during the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011. For the nine month periods ended September 30, 2012 and September 30, 2011, raw material costs accounted for 63% and 62% of Closures cost of sales, respectively. Cost of sales also included a decrease of \$17 million as a result of a reclassification of certain plant administration expenses from cost of sales to general and administration expenses in the nine month period ended September 30, 2012. These decreases were partially offset by an increase of \$8 million in sales volumes as discussed above.

Gross Profit. Gross profit increased by \$21 million, or 13%, to \$182 million for the nine month period ended September 30, 2012 compared to \$161 million for the nine month period ended September 30, 2011. Gross profit margin increased to 19% for the nine month period ended September 30, 2012 compared to 16% for the nine month period ended September 30, 2011. These increases were driven primarily by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Closures gross profit is also impacted by the pass-through of resin price increases to customers. Contractual price adjustments with customers do not occur simultaneously with actual resin purchase price fluctuations, but rather on a monthly, quarterly, semi-annual or other basis. Therefore, due to the difference in timing between Closures purchase of resin from its suppliers and sales of closures to its customers, pricing related to the pass-through of resin price fluctuations to customers directly impacts gross profit.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$20 million, or 28%, to \$91 million for the nine month period ended September 30, 2012 compared to \$71 million for the nine month period ended September 30, 2011. This increase was primarily attributable to the \$17 million reclassification of certain plant administration expenses from cost of sales to general and administration expenses in the nine month period ended September 30, 2012, as discussed above.

Net Other. Net other changed by \$4 million to net other expense of \$2 million for the nine month period ended September 30, 2012 compared to net other income of \$2 million for the nine month period ended September 30, 2011. This change was primarily attributable to a gain of \$5 million on the sale of one of Closures European businesses in the nine month period ended September 30, 2011, which has been included in the segment's Adjusted EBITDA calculation.

Table of Contents

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$89 million, \$143 million and \$147 million, respectively, compared to \$92 million, \$150 million and \$150 million, respectively, for the nine month period ended September 30, 2011.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our Closures segment is as follows:

	For the nine month period ended September 30, 2012 2011 (In \$ million)	
Profit from operating activities	89	92
Depreciation and amortization	54	58
EBITDA	143	150
Included in Closures segment EBITDA:		
Business interruption costs	1	1
Gain on sale of business		(5)
Restructuring costs	1	3
Unrealized loss on derivatives	1	1
Other	1	
Closures segment Adjusted EBITDA	147	150

Reynolds Consumer Products Segment

	For the nine month period ended September 30,					
	2012	% of segment revenue	2011	% of segment revenue	Change	% change
	(In \$ million, except for %)					
External revenue	1,816	96%	1,808	98%	8	
Inter-segment revenue	77	4%	43	2%	34	79%
Total segment revenue	1,893	100%	1,851	100%	42	2%
Cost of sales	(1,391)	(73)%	(1,424)	(77)%	33	(2)%
Gross profit	502	27%	427	23%	75	18%
Selling, marketing and distribution expenses/ General and administration expenses	(188)	(10)%	(165)	(9)%	(23)	14%
Net other income (expense)	10	1%	(49)	(3)%	59	NM
Profit from operating activities	324	17%	213	12%	111	52%
Reynolds Consumer Products segment EBITDA	421	22%	325	18%	96	30%
Reynolds Consumer Products segment Adjusted EBITDA	416	22%	382	21%	34	9%

The discussions below include references to actual synergies that have been achieved during the nine month period ended September 30, 2012 as a result of integrating the Hefty consumer products business into the Reynolds Consumer Products segment. These actual benefits realized resulted from a combination of cost savings, including procurement, distribution efficiencies and integration of the sales-force and various administration functions across the combined segment. The benefits are measured based on clear and quantifiable

Table of Contents

measures, such as observable reductions in fixed overhead costs, the elimination of distribution costs and the elimination of salaries and benefits related to headcount reductions.

Revenue. Revenue increased by \$42 million, or 2%, to \$1,893 million for the nine month period ended September 30, 2012 compared to \$1,851 million for the nine month period ended September 30, 2011. The increase was driven by the benefit of \$51 million from product and price mix largely driven by price increases implemented during 2011, partially offset by lower volumes of \$8 million across all product groups and higher trade and promotional spending of \$1 million.

Cost of Sales. Cost of sales decreased by \$33 million, or 2%, to \$1,391 million for the nine month period ended September 30, 2012 compared to \$1,424 million for the nine month period ended September 30, 2011. The decrease in cost of sales was attributable to benefits from actual synergies realized, largely related to a net decrease in raw material and operational costs. For the nine month periods ended September 30, 2012 and September 30, 2011, raw material costs accounted for 67% and 66% of Reynolds Consumer Products' cost of sales, respectively.

Gross Profit. Gross profit increased by \$75 million, or 18%, to \$502 million for the nine month period ended September 30, 2012 compared to \$427 million for the nine month period ended September 30, 2011. Gross profit margin increased to 27% for the nine month period ended September 30, 2012 compared to 23% for the nine month period ended September 30, 2011. These increases were primarily driven by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Reynolds Consumer Products generally cannot immediately pass through price increases or declines to its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. For most resin based products, there is a lag time between the purchase of raw materials by Reynolds Consumer Products and the pass-through of raw material price fluctuations to customers. For branded products, contracts with customers do not contain contractual price protection for raw material cost fluctuations. Due to the differences in timing between Reynolds Consumer Products' purchases of resin from its suppliers and sales to its customers, there is often a lead-lag impact, during which margins are negatively impacted in periods of rising resin prices and positively impacted in periods of falling resin prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$23 million, or 14%, to \$188 million for the nine month period ended September 30, 2012 compared to \$165 million for the nine month period ended September 30, 2011. This increase was attributable to higher advertising and marketing related costs of \$17 million during the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011. Higher advertising expenses during the nine month period ended September 30, 2012 largely related to a new product launch. In addition, selling, marketing and distribution expenses and general and administration expenses also increased \$16 million as a result of a reclassification of certain plant administration expenses from cost of sales to general and administration expenses in the nine month period ended September 30, 2012. These increases were partially offset by benefits from actual synergies realized from the integration of the sales-force and various administration functions across the combined segment.

Net Other. Net other changed by \$59 million to net other income of \$10 million for the nine month period ended September 30, 2012 compared to net other expense of \$49 million for the nine month period ended September 30, 2011. This change was mainly attributable to a decrease of \$33 million in unrealized loss on derivatives, as the unrealized hedge position moved from a net loss position in 2011 to a net gain position in 2012, a decrease of \$18 million in operational process engineering-related consultancy costs and a decrease of \$11 million in restructuring costs. These items have been included in the segment's Adjusted EBITDA calculation.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$324 million, \$421 million and \$416 million, respectively, compared to \$213 million, \$325 million and \$382 million, respectively, for the nine month period ended September 30, 2011.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our Reynolds Consumer Products segment is as follows:

	For the nine month period ended September 30, 2012 2011 (In \$ million)	
Profit from operating activities	324	213
Depreciation and amortization	97	112
EBITDA	421	325
Included in Reynolds Consumer Products segment EBITDA:		
Business acquisition and integration costs	2	3
Business interruption recoveries		(1)
Non-cash inventory charge	3	1
Non-cash pension expense		2
Operational process engineering-related consultancy costs	1	19
Restructuring costs		11
Unrealized (gain) loss on derivatives	(11)	22
Reynolds Consumer Products segment Adjusted EBITDA	416	382

Pactiv Foodservice Segment

	For the nine month period ended September 30,					
	2012	% of segment revenue	2011(1)	% of segment revenue	Change	% change
	(In \$ million, except for %)					
External revenue	2,547	88%	2,532	86%	15	1%

Pactiv Foodservice segment Adjusted EBITDA	469	16%	406	14%	63	16%

(1) Inter-segment revenue for the nine month period ended September 30, 2011 has been revised to conform to the presentation of the nine month period ended September 30, 2012. Refer to note 2.5 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus for additional information.

We acquired Dopaco on May 2, 2011. The operating results of Dopaco have been included in the Pactiv Foodservice segment since the date of the Dopaco Acquisition. Accordingly, approximately five months of Dopaco operations were included in the nine month period ended September 30, 2011. For the nine month

Table of Contents

periods ended September 30, 2012 and September 30, 2011, Dopaco's revenue was \$362 million and \$206 million, respectively.

On January 27, 2012, we sold the Pactiv Foodservice laminating operations in Louisville, Kentucky for cash proceeds of \$80 million (subject to customary post-closing working capital adjustments), resulting in a gain on sale of \$66 million.

The discussions below include references to actual synergies that have been achieved during the nine month period ended September 30, 2012 as a result of integrating the Pactiv foodservice packaging business and Dopaco into the Pactiv Foodservice segment (formerly the Reynolds foodservice packaging business prior to the Pactiv Acquisition). These actual benefits realized resulted from a combination of cost savings, including procurement, distribution efficiencies, plant rationalization and integration of the sales force and various administration functions across the combined segment. The benefits are measured based on clear and quantifiable measures, such as observable reductions in fixed overhead costs, the elimination of costs specific to production facilities that have been closed and the elimination of salaries and benefits related to headcount reductions.

Revenue. Revenue decreased by \$34 million, or 1%, to \$2,905 million for the nine month period ended September 30, 2012 compared to \$2,939 million for the nine month period ended September 30, 2011. This decrease was primarily attributable to a volume decrease of \$145 million driven by the sale of the laminating operations and exiting certain low margin non-strategic product offerings. In addition, revenue decreased by \$101 million due to lower volume, principally driven by lower sales in ongoing product offerings. This was partially offset by incremental revenue of \$156 million generated from the acquired Dopaco operations and a \$67 million impact from pricing related to the pass-through of resin price changes to customers.

Cost of Sales. Cost of sales decreased by \$102 million, or 4%, to \$2,442 million for the nine month period ended September 30, 2012 compared to \$2,544 million for the nine month period ended September 30, 2011. This was primarily attributable to a decrease of \$87 million due to the sale of the laminating operations, lower volume primarily due to exiting certain low margin non-strategic product offerings and lower volume in ongoing product offering categories. The remaining decrease was largely due to improved operational performance driven by benefits from actual synergies realized from the acquisitions of Pactiv and Dopaco, partially offset by an increase in cost of sales due to higher paper cup and carton sales. In addition to these factors, during the nine month period ended September 30, 2012, Pactiv Foodservice has reduced inventory levels in an effort to streamline operations and optimize working capital levels. As a result, while the process of decreasing inventory levels is underway, there is a lower level of inventory produced to absorb fixed manufacturing costs than during the nine month period ended September 30, 2011. This results in greater cost of sales per product and lower gross margin in the period of decreasing inventory.

Raw material costs accounted for 55% of Pactiv Foodservice's cost of sales for both of the nine month periods ended September 30, 2012 and September 30, 2011. Raw material costs for the nine month period ended September 30, 2012 decreased by \$45 million compared to the nine month period ended September 30, 2011, primarily due to a decrease in raw material costs, primarily resin, and \$72 million from decreased volume due to the sale of the laminating operations, as well as from lower volume primarily due to exiting certain low margin non-strategic product offerings, partially offset by the incremental volume attributable to paper cup and carton sales.

Gross Profit. Gross profit increased by \$68 million, or 17%, to \$463 million for the nine month period ended September 30, 2012 compared to \$395 million for the nine month period ended September 30, 2011. Gross profit margin increased to 16% (18% as a percentage of external revenue) for the nine month period ended September 30, 2012 compared to 13% (16% as a percentage of external revenue) for the nine month period ended September 30, 2011. These increases were primarily driven by the changes in revenue and cost of sales as discussed above. The reduction in inventory levels during the nine month period ended September 30, 2012 has decreased gross profit by \$14 million as discussed in the preceding paragraphs.

Pactiv Foodservice's gross profit is impacted by changes in the costs of raw materials, including resin and aluminum. Pactiv Foodservice generally cannot immediately pass through price increases or declines to its customers because the price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Pactiv Foodservice's purchases of

Table of Contents

raw materials from its suppliers and sales to its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$4 million, or 2%, to \$217 million for the nine month period ended September 30, 2012 compared to \$213 million for the nine month period ended September 30, 2011, primarily due to increased expenses related to higher paper cup and carton sales, partially offset by benefits from actual synergies realized from the Pactiv Acquisition.

Net Other. Net other changed by \$117 million to net other income of \$23 million for the nine month period ended September 30, 2012 compared to net other expense of \$94 million for the nine month period ended September 30, 2011. This change was primarily attributable to a \$66 million gain on sale of the laminating operations discussed above, a decrease of \$43 million in business restructuring expenses, a decrease of \$9 million in business acquisition and integration costs and a decrease of \$5 million in unrealized loss on derivatives, as the unrealized hedge position moved from a net loss position in 2011 to a net gain position in 2012. These benefits were partially offset by an increase of \$11 million due to fire damage at one of our facilities in March 2012 and an increase of \$5 million in asset impairment charges. These items have been included in the segment's Adjusted EBITDA calculation.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$269 million, \$482 million and \$469 million, respectively, compared to \$88 million, \$302 million and \$406 million, respectively, for the nine month period ended September 30, 2011.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our Pactiv Foodservice segment is as follows:

	For the nine month period ended September 30, 2012 2011 (In \$ million)	
Profit from operating activities	269	88
Depreciation and amortization	213	214
EBITDA	482	302
Included in Pactiv Foodservice segment EBITDA:		
Asset impairment charges	11	6
Business acquisition and integration costs	18	27
Gain on sale of business	(66)	
Impact of purchase price accounting on inventories		6
Manufacturing plant fire, net of insurance recoveries	11	
Non-cash inventory charge	6	2
Non-cash pension expense		3
Operational process engineering-related consultancy costs	11	12
Restructuring costs	3	46
Unrealized (gain) loss on derivatives	(2)	3
Other	(5)	(1)
Pactiv Foodservice segment Adjusted EBITDA	469	406

(2) In accordance with IFRS 3 (revised) Business Combinations, the information presented for the nine month period ended September 30, 2011 has been revised to reflect the effect of the finalization of the purchase price accounting for the Graham Packaging acquisition. Refer to note 2.5 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.

We acquired Graham Packaging on September 8, 2011. The operating results of Graham Packaging have been included in the RGHL Group's operating results as a separate reporting segment since the date of the acquisition.

For the period from January 1, 2011 to September 7, 2011, revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, net other expense, loss from operating activities, EBITDA and Adjusted EBITDA for Graham Packaging were \$2,130 million, \$1,817 million, \$173 million, \$239 million, \$99 million, \$43 million and \$388 million, respectively. These amounts include IFRS adjustments to Graham Packaging's historical results that were previously reported under U.S. GAAP.

The following discussion of our Graham Packaging operating results provides comparisons on a supplemental pro forma basis as if the operating results of the Graham Packaging business had been included in our operating results for the full nine month period ended September 30, 2011. Given the relative size and timing of this acquisition, we believe a discussion of the operating results on a supplemental pro forma basis provides a reasonable comparison of the operating results for the periods presented. The comparison assists in understanding the current period segment results including the underlying factors affecting the results of operations, the changes in these factors that occurred in the nine month period ended September 30, 2012 compared to the nine month period ended September 30, 2011 and the impact of our integration activities. The supplemental pro forma amounts were derived from Graham Packaging's historical operating results that were previously reported under U.S. GAAP as adjusted for IFRS and from operating results since the date of the acquisition of Graham Packaging. The Graham Packaging pro forma historical operating results for the nine month period ended September 30, 2011 reflect the purchase accounting effects of the acquisition of Graham Packaging.

The supplemental pro forma information is for informational purposes only and is not intended to represent, or to be indicative of, the results of operations that we would have reported had the Graham Packaging Acquisition been completed on January 1, 2011 and should not be taken as being indicative of our future results of operations.

Table of Contents

Revenue. Revenue was \$2,357 million for the nine month period ended September 30, 2012 and \$256 million for the nine month period ended September 30, 2011.

On a pro forma basis, revenue would have decreased by \$29 million, or 1%, to \$2,357 million for the nine month period ended September 30, 2012 compared to an estimated \$2,386 million for the nine month period ended September 30, 2011. The estimated decrease in revenue would have been primarily attributable to decreases in unit volume sales to customers as well as an unfavorable foreign currency impact, largely due to the strengthening of the dollar against the euro, the Brazilian real and the Mexican peso, partially offset by an increase in resin pricing passed through to our customers.

Cost of Sales. Cost of sales was \$2,129 million for the nine month period ended September 30, 2012 and \$257 million for the nine month period ended September 30, 2011. For the nine month period ended September 30, 2012, raw material costs accounted for 58% of Graham Packaging's cost of sales compared to 52% for the nine month period ended September 30, 2011.

On a pro forma basis, cost of sales would have increased by \$55 million, or 3%, to \$2,129 million for the nine month period ended September 30, 2012 compared to an estimated \$2,074 million for the nine month period ended September 30, 2011. The estimated increase in cost of sales would have been primarily attributable to an overall increase in raw material and operations costs, and incremental depreciation and amortization of \$77 million as a result of the revaluation of fixed assets and identifiable intangible assets in conjunction with the Graham Packaging Acquisition during the prior year period, partially offset by the inventory revaluation impact of \$26 million resulting from the purchase accounting for the acquisition. For the nine month period ended September 30, 2011, raw material costs would have accounted for 59% of Graham Packaging's cost of sales.

Gross Profit (Loss). For the nine month period ended September 30, 2012, gross profit was \$228 million and gross profit margin was 10%. For the nine month period ended September 30, 2011, gross loss was \$1 million.

On a pro forma basis, gross profit would have decreased by \$84 million, or 27%, to \$228 million for the nine month period ended September 30, 2012 compared to an estimated \$312 million for the nine month period ended September 30, 2011. Gross profit margin was 10% for the nine month period ended September 30, 2012 compared to an estimated 13% for the nine month period ended September 30, 2011. These estimated decreases would have been driven by the changes in revenue and cost of sales as discussed in the preceding paragraphs.

Graham Packaging's gross profit is impacted by changes in the costs of raw materials, including resin, and energy-related costs. Graham Packaging purchases most of its raw materials and other input costs on the spot market and generally cannot immediately pass through price increases or declines to certain of its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Graham Packaging's purchases of raw materials from its suppliers and sales to certain of its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses were \$138 million for the nine month period ended September 30, 2012 and \$26 million for the nine month period ended September 30, 2011.

On a pro forma basis, selling, marketing and distribution expenses and general and administration expenses would have decreased by \$61 million, or 31%, to \$138 million for the nine month period ended September 30, 2012 compared to an estimated \$199 million for the nine month period ended September 30, 2011. The estimated decrease in selling, marketing and distribution expenses and general and administration expenses would have been primarily attributable to approximately \$102 million of acquisition-related costs in the nine month period ended September 30, 2011 in connection with the Graham Packaging Acquisition, partially offset by incremental amortization expense of \$43 million related to the fair value of identifiable intangible assets recorded as part of the Graham Packaging Acquisition.

Table of Contents

Net Other. Net other expense was \$59 million for the nine month period ended September 30, 2012 and \$3 million for the nine month period ended September 30, 2011. Net other expense for the nine month period ended September 30, 2012 included restructuring costs of \$25 million, asset impairment charges of \$15 million and business acquisition and integration costs of \$14 million. These items have been included in the segment's Adjusted EBITDA calculation.

On a pro forma basis, net other expense would have decreased by \$183 million, or 76%, to \$59 million for the nine month period ended September 30, 2012 compared to an estimated \$242 million for the nine month period ended September 30, 2011. The estimated decrease in net other expense would have been primarily attributable to a \$234 million expense for the termination of income tax receivable agreements during the nine month period ended September 30, 2011, as a result of the Graham Packaging Acquisition, which has been included in the segment's estimated pro forma Adjusted EBITDA calculation.

Profit (Loss) from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2012 were \$31 million, \$319 million and \$373 million, respectively. Loss from operating activities, EBITDA and Adjusted EBITDA for the nine month period ended September 30, 2011 were \$30 million, \$2 million and \$41 million, respectively.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit (loss) from operating activities to EBITDA and Adjusted EBITDA for the nine month periods ended September 30, 2012 and September 30, 2011 for our Graham Packaging segment is as follows:

	For the nine month period ended September 30,	
	2012	2011(1)(2)
	(In \$ million)	
Profit (loss) from operating activities	31	(30)
Depreciation and amortization	288	32
EBITDA	319	2
Included in Graham Packaging segment EBITDA:		
Asset impairment charges	15	
Business acquisition and integration costs	14	1
Change of control payments		12
Impact of purchase price accounting on inventories		26
Restructuring costs	25	
Graham Packaging segment Adjusted EBITDA	373	41

(1) Represents the results of operations of Graham Packaging from September 8, 2011 to September 30, 2011.

(2) In accordance with IFRS 3 (revised) Business Combinations, the information presented for the nine month period ended September 30, 2011 has been revised to reflect the effect of the finalization of the purchase price accounting for the Graham Packaging acquisition. Refer to note 2.5 of the RGHL Group's interim unaudited condensed financial statements included elsewhere in this prospectus.

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2011, the results of Graham Packaging from September 8, 2011 to December 31, 2011 and the results of Dopaco from May 2, 2011 to December 31, 2011. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the full year ended December 31, 2011.
- (2) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2010. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010. The results of Graham Packaging and Dopaco are not included as those businesses were acquired on September 8, 2011 and May 2, 2011, respectively.
- (3) RGHL Group EBITDA is defined as profit from operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and investment properties and amortization of intangible assets. RGHL Group Adjusted EBITDA, a

Edgar Filing: BRPP LLC - Form F-4/A

measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write downs and equity method profit not distributed in cash. EBITDA and Adjusted EBITDA are not presentations made in accordance with IFRS, are not measures of financial condition, liquidity or profitability and should not be considered as an alternative to profit from operations for the period determined in accordance with IFRS or operating cash flows determined in accordance with

Table of Contents

IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. Refer to Risk Factors. Additionally, RGHL Group EBITDA and RGHL Group Adjusted EBITDA are not intended to be measures of free cash flow, as they do not take into account certain items such as interest and principal payments on our indebtedness, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA and Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA and Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA and Adjusted EBITDA identically, this presentation of EBITDA and Adjusted EBITDA may not be comparable to the similarly titled measures of other companies.

As more fully described under Overview Recent Acquisitions and Integration, we acquired Graham Packaging on September 8, 2011. The results of operations of Graham Packaging have been included in the RGHL Group's results of operations as a separate segment since the consummation of the Graham Packaging Acquisition. For the year ended December 31, 2011, Graham Packaging's revenue, loss from operating activities, EBITDA and Adjusted EBITDA included as a separate segment in the RGHL Group's results were \$967 million, \$24 million, \$105 million and \$156 million, respectively.

We acquired Pactiv on November 16, 2010. The operating results of Pactiv's consumer products and foodservice packaging businesses have been combined with the operating results of our Reynolds Consumer Products and Pactiv Foodservice segments, respectively, since the consummation of the Pactiv Acquisition. As the products and systems of these businesses are now integrated within each related segment, other than revenue, we are unable to quantify the results of the acquired businesses on a stand-alone basis for the year ended December 31, 2011. However, we have in a number of instances provided Pactiv's results for the year ended December 31, 2010 to illustrate the magnitude of the impact that the Pactiv Acquisition may have had on our results of operations for the year ended December 31, 2011. For the period from January 1, 2010 to November 16, 2010, Pactiv's revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA were \$3,198 million, \$2,464 million, \$421 million, \$285 million, \$455 million and \$567 million, respectively. These amounts include IFRS adjustments to Pactiv's historical results that were previously reported under U.S. GAAP. For the period from January 1, 2011 to November 16, 2011, legacy Pactiv product revenue was \$3,494 million. In addition, the operating results of Dopaco have been combined with the operating results of our Pactiv Foodservice segment since May 2, 2011, the date of the Dopaco Acquisition. For the period from May 2, 2011 to December 31, 2011, Dopaco's revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA included in the results of the Pactiv Foodservice segment were \$331 million, \$300 million, \$9 million, \$10 million, \$28 million and \$45 million, respectively. For further details on the RGHL Group's acquisitions, refer to note 33 of the RGHL Group's audited financial statements included elsewhere in this prospectus.

Revenue. Revenue increased by \$5,015 million, or 74%, to \$11,789 million for the year ended December 31, 2011 compared to \$6,774 million for the year ended December 31, 2010. The increase was largely attributable to incremental revenue generated from the operations of Graham Packaging and Dopaco which were acquired in 2011 and the benefit from the full year results of operations from the acquisition of Pactiv as discussed above. In addition, revenue increased at (a) SIG driven by increased sales in China, Brazil, South Asia and the Middle East, (b) Evergreen driven by increased sales in liquid packaging board and cartons that were partially offset by a decrease in sales of paper products, (c) Closures driven by market growth in North America, China and Japan, (d) Reynolds Consumer Products driven by price increases partially offset by volume declines in tableware and cooking product lines due to lower market demand and (e) Pactiv Foodservice driven by the impact from improved pricing primarily due to the flow-through of resin purchase price increases. Foreign exchange rates had a favorable impact of \$128 million largely resulting from the strengthening of the euro, Japanese yen, Mexican peso and Brazilian real against the dollar.

Table of Contents

Cost of Sales. Cost of sales increased by \$4,201 million, or 76%, to \$9,725 million for the year ended December 31, 2011 compared to \$5,524 million for the year ended December 31, 2010. The increase in cost of sales was largely attributable to the acquired operations of Pactiv, Dopaco and Graham Packaging noted above as well as higher raw material costs. The increases were offset by benefits from actual synergies realized and improved operational performance and a net positive impact of \$30 million resulting from the difference in the fair value adjustment of inventories acquired in 2011 compared to 2010. Cost of sales as a percentage of revenue remained relatively flat at 82%. There was an increase in cost of sales as a percentage of revenue at SIG which was more than offset by a decrease in cost of sales as a percentage of revenue at Evergreen and at Pactiv Foodservice. Cost of sales as a percentage of the respective segment revenue at Closures and Reynolds Consumer Products were relatively flat compared to the prior year.

Gross Profit. Gross profit increased by \$814 million, or 65%, to \$2,064 million for the year ended December 31, 2011 compared to \$1,250 million for the year ended December 31, 2010. However, gross profit margin remained flat at 18% for the year ended December 31, 2011 compared to the year ended December 31, 2010. Increases in raw material costs across all segments and higher depreciation expense resulting from the Pactiv, Dopaco and Graham Packaging acquisitions were offset by benefits from actual synergies realized and improved operational performance as well as the time lag in the pass-through of raw material costs to the customers. Compared to the prior year, gross profit margin declined at SIG and increased at both Evergreen and Pactiv Foodservice. Gross profit margin at both Closures and Reynolds Consumer Products remained unchanged compared to the prior year.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$352 million, or 57%, to \$975 million for the year ended December 31, 2011 compared to \$623 million for the year ended December 31, 2010. The increase in expenses was primarily attributable to the operations of Pactiv, Dopaco and Graham Packaging. There was an increase in selling, marketing and distribution expenses and general and administration expenses at SIG driven by expanding SIG's operations in China and Brazil which was more than offset by declines at Reynolds Consumer Products (excluding the acquisition impact) and Pactiv Foodservice (excluding the acquisition impact), reflecting benefits from actual synergies realized as part of the integration of the acquired Pactiv businesses into the RGHL Group. Selling, marketing and distribution expenses and general and administration expenses also reflect an increase of \$37 million in pension income and a gain of \$25 million recorded in 2011 from the modification of retiree medical plan benefits.

Other. Net other expense was \$181 million for the year ended December 31, 2011 compared to net other income of \$22 million for the year ended December 31, 2010. The change was primarily attributable to a \$79 million increase in business restructuring costs related to severance, a \$73 million increase in business acquisition and integration costs, a \$34 million increase in consultancy costs for operational process engineering projects and an increase of \$29 million in unrealized losses on open hedge positions for the year ended December 31, 2011 compared to unrealized gains for the year ended December 31, 2010. These increases in net other expenses were partially offset by a reduction of \$16 million in asset impairment charges and a reduction of \$7 million for a supply agreement termination charge.

Net Financial Expenses. Net financial expenses increased by \$712 million, or 104%, to \$1,398 million for the year ended December 31, 2011 compared to \$686 million for the year ended December 31, 2010. The increase was largely related to an increase in interest expense of \$609 million due to increases in the principal amount of the RGHL Group's fixed and floating rate borrowings of \$4,843 million and \$464 million, respectively, as of December 31, 2011 compared to December 31, 2010. Interest rate changes on the floating rate borrowings had no significant impact on net financial expenses for the year ended December 31, 2011. Our total borrowings (net of original issue discount, unamortized debt issuance costs and embedded derivatives) as of December 31, 2011 were \$17,146 million compared to \$11,842 million as of December 30, 2010. The increase in net financial expenses for the period also included a \$64 million increase in the unrealized net loss from the change in fair values of derivatives and increases of \$92 million and \$36 million in the amortization of debt issuance costs and original issue discounts, respectively, primarily related to the write off of costs related to the Original Senior Secured Credit Facilities that were extinguished. These were partially offset by a \$30 million

Table of Contents

decrease in fees associated with the RGHL Group's debt commitment letters and a \$48 million decrease in foreign exchange loss resulting from borrowings denominated in currencies other than the functional currency of the borrowers or issuers.

We are primarily exposed to foreign exchange risk that impacts the reported financial income or financial expenses of the RGHL Group as a result of the remeasurement at each balance sheet date of indebtedness that is denominated in currencies other than the functional currencies of the respective issuers or borrowers. As of December 31, 2011 and 2010, the RGHL Group had dollar-denominated external borrowings of \$1,583 million held by entities whose functional currency was the euro. As a result of the changes in the prevailing foreign exchange rates, the RGHL Group recognized a foreign exchange loss in connection with such borrowings during both of the years ended December 31, 2011 and 2010. For more information regarding the RGHL Group's financial expenses and borrowings, refer to notes 12 and 25, respectively, of the RGHL Group's audited financial statements, included elsewhere in this prospectus. For more information regarding the sensitivity of the foreign exchange gains and losses on the borrowings, refer to **Qualitative and Quantitative Disclosure about Market Risk - Foreign Currency Exchange Rate Risk**.

Income Tax Expense. For the year ended December 31, 2011, we recognized an income tax benefit of \$56 million on a loss before income tax of \$473 million compared to an income tax expense of \$78 million on a loss before income tax of \$19 million for the year ended December 31, 2010. The effective tax rate of 12% for the year ended December 31, 2011 differs from the statutory New Zealand rate of 28% primarily due to the impact of non-deductible expenses and permanent differences. For a reconciliation of the effective tax rate, refer to note 13 of the RGHL Group's audited financial statements, included elsewhere in this prospectus.

Depreciation and Amortization. Depreciation of property, plant and equipment and investment properties and amortization of intangible assets increased by \$468 million, or 93%, to \$972 million for the year ended December 31, 2011 compared to \$504 million for the year ended December 31, 2010, primarily due to additional depreciation and amortization expense from the Pactiv Acquisition, the Dopaco Acquisition and the Graham Packaging Acquisition.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were \$925 million, \$1,897 million and \$2,124 million, respectively, compared to \$667 million, \$1,171 million and \$1,251 million, respectively, for the year ended December 31, 2010.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the RGHL Group is as follows:

	For the Year Ended December 31,	
	2011(1)	2010(2)
	(In \$ million)	
Profit from operating activities	925	667
Depreciation and amortization	972	504
EBITDA(3)	1,897	1,171
Included in the RGHL Group EBITDA:		
Adjustment related to settlement of a lease obligation		(2)
Asset impairment charges	12	28
Black Liquor Credit		(10)

Table of Contents

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2011, the results of Graham Packaging from September 8, 2011 to December 31, 2011 and the results of Dopaco from May 2, 2011 to December 31, 2011. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the full year ended December 31, 2011.
- (2) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2010. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010. The results of Graham Packaging and Dopaco are not included as those businesses were acquired on September 8, 2011 and May 2, 2011, respectively.
- (3) RGHL Group EBITDA is defined as profit (loss) from continuing operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and investment properties and amortization of intangible assets. RGHL Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write-downs and equity method profit not distributed in cash. EBITDA and Adjusted EBITDA are not presentations made in accordance with IFRS, are not measures of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) from continuing operations for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. Refer to Risk Factors. Additionally, RGHL Group EBITDA and RGHL Group Adjusted EBITDA are not intended to be measures of free cash flow, as they do not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA and Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA, Adjusted EBITDA and other pro forma measures of Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA and Adjusted EBITDA identically, this presentation of EBITDA and Adjusted EBITDA may not be comparable to the similarly titled measures of other companies.

SIG Segment

	For the Year Ended December 31,					
	2011	% of Segment Revenue	2010 (In \$ million, except for %)	% of Segment Revenue	Change	% Change
Segment revenue	2,036	100%	1,846	100%	190	10%

SIG segment Adjusted EBITDA	483	24%	513	28%	(30)	(6)%

Table of Contents

Revenue. Revenue increased by \$190 million, or 10%, to \$2,036 million for the year ended December 31, 2011 compared to \$1,846 million for the year ended December 31, 2010. As discussed in more detail below, the increase in revenue was attributable to higher sales volume of \$178 million largely from sales in China, Brazil, South Asia and the Middle East, incremental revenue of \$26 million generated from the operations of the Whakatane paper mill, which was acquired in May 2010, and a favorable foreign currency impact of \$85 million largely due to the strengthening of the euro against the dollar. These increases were partially offset by \$99 million of lower average sales prices from the growing market for smaller sleeve formats, particularly in China, increasing regional competition with the entry of new manufacturers in the aseptic packaging market and higher volume driven rebates.

Revenue in Europe increased by \$52 million, or 5%, to \$1,141 million for the year ended December 31, 2011 compared to \$1,089 million for the year ended December 31, 2010 primarily driven by a favorable foreign currency impact of \$50 million due to the strengthening of the euro against the dollar.

Revenue in the rest of the world increased by \$138 million, or 18%, to \$895 million for the year ended December 31, 2011 compared to \$757 million for the year ended December 31, 2010. The increase was primarily related to higher volumes due to market growth in China and gains in market share in Brazil, South Asia and the Middle East as well as incremental revenue generated from the operations of the Whakatane paper mill that was acquired in May 2010. As a result of increased demand for aseptic packaging products, we expanded our plant in China and constructed a new plant in Brazil. Despite volume growth, revenue was negatively impacted by lower pricing in Asia, mainly China, due to the growing market for smaller sleeve cartons, increasing regional competition with the entry of new manufacturers in the aseptic packaging market and higher volume driven rebates. In addition, revenue increased by \$35 million due to favorable foreign currency impacts, largely due to the strengthening of the Chinese yuan renminbi, Brazilian real, Thai baht and New Zealand dollar against the dollar.

Cost of Sales. Cost of sales increased by \$215 million, or 16%, to \$1,597 million for the year ended December 31, 2011 compared to \$1,382 million for the year ended December 31, 2010. The increase in cost of sales was mainly attributable to an increase of \$82 million of higher sales volume and an increase of \$73 million in raw material costs, primarily resin and aluminum. For the years ended December 31, 2011 and 2010, raw material costs accounted for 65% and 63% of SIG's cost of sales, respectively. Unfavorable foreign currency impacts due to the strengthening of the euro against the dollar also increased cost of sales by \$60 million.

Gross Profit. Gross profit decreased by \$25 million, or 5%, to \$439 million for the year ended December 31, 2011 compared to \$464 million for the year ended December 31, 2010 and gross profit margin decreased to 22% for the year ended December 31, 2011 compared to 25% for the year ended December 31, 2010. The decrease in gross profit and gross profit margin is primarily due to the increase in raw material costs, mainly resin and aluminum, which SIG has not been able to pass through to its customers. The increase in raw material costs accounted for approximately 4 percentage points of the gross profit margin decline.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$25 million, or 11%, to \$260 million for the year ended December 31, 2011 compared to \$235 million for the year ended December 31, 2010. The increase is primarily due to unfavorable foreign currency impact of \$13 million primarily related to the strengthening of the euro against the dollar. The remaining increase is mainly a result of market expansion in China and Brazil.

Net Other. Net other income increased by \$4 million to \$26 million for the year ended December 31, 2011 compared to \$22 million for the year ended December 31, 2010. The increase is mainly due to a \$9 million decline in restructuring expenses related to redundancy and consulting costs.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were \$220 million, \$480 million and \$483 million, respectively, compared to \$267 million, \$510 million and \$513 million, respectively, for the year ended December 31, 2010.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the SIG segment is as follows:

	For the	
	Year Ended December 31, 2011	2010
	(In \$ million)	
Profit from operating activities	220	267
Depreciation and amortization	260	243
EBITDA	480	510
Included in SIG segment EBITDA:		
Asset impairment charges (reversals)	4	(1)
Business interruption costs	2	
Equity method profit not distributed in cash	(8)	(11)
Gain on sale of businesses and investment properties		(6)
Restructuring costs	2	11
Unrealized loss on derivatives	2	
VAT and custom duties on historical imports	1	10
SIG segment Adjusted EBITDA	483	513

Evergreen Segment

	For the Year Ended December 31,					
	2011	% of	2010	% of	Change	% Change
		Segment Revenue		Segment Revenue		
	(In \$ million, except for %)					
Segment revenue	1,603	100%	1,583	100%	20	1%
Cost of sales	(1,379)	(86)%	(1,374)	(87)%	(5)	%
Gross profit	224	14%	209	13%	15	7%
Selling, marketing and distribution expense/General and administration expense	(102)	(6)%	(94)	(6)%	(8)	9%
Net other income	33	2%	27	2%	6	22%
Profit from operating activities	157	10%	144	9%	13	9%
Evergreen segment EBITDA	217	14%	206	13%	11	5%
Evergreen segment Adjusted EBITDA	217	14%	196	12%	21	11%

Revenue. Revenue increased by \$20 million, or 1%, to \$1,603 million for the year ended December 31, 2011 compared to \$1,583 million for the year ended December 31, 2010. This increase was largely attributable to a \$25 million increase in external sales of liquid packaging board and an increase of \$20 million in sales of cartons, partially offset by a decrease of \$25 million in sales of paper products. The increase in sales of liquid packaging board is due to higher sales prices of \$32 million as a result of the pass-through of raw material price fluctuations to customers, partially offset by an impact of \$7 million attributable to lower sales volumes. The increase in sales of cartons is due to \$32 million in higher prices as a result of the pass-through of raw material cost increases to customers partially offset by an impact of \$12 million attributable to lower sales volumes. The decline in sales of paper products is comprised of a decrease of \$43 million due to lower sales volumes attributable to lower demand in the market, which was offset by an increase of \$18 million as pricing improved in the current period.

Table of Contents

Cost of Sales. Cost of sales increased by \$5 million to \$1,379 million for the year ended December 31, 2011 compared to \$1,374 million for the year ended December 31, 2010. This increase in cost of sales is mainly attributable to the recognition of \$10 million of Black Liquor Credit for the year ended December 31, 2010. No Black Liquor Credit was recognized for the year ended December 31, 2011. For further information on Black Liquor Credit, see Key Factors Influencing Our Financial Condition and Results of Operations Raw Materials and Energy Prices.

Excluding the impact of Black Liquor Credit, cost of sales would have decreased by \$5 million to \$1,379 million for the year ended December 31, 2011 compared to \$1,384 million for the year ended December 31, 2010. This decrease in cost of sales was mainly due to a \$73 million decrease related to lower sales volume in liquid packaging board, paper products, and cartons partially offset by a \$68 million increase in raw material costs, primarily resin, and other input costs, primarily specialty chemicals. For the years ended December 31, 2011 and 2010, raw material costs accounted for 44% and 41% of Evergreen's cost of sales, respectively.

Gross Profit. Gross profit increased by \$15 million, or 7%, to \$224 million for the year ended December 31, 2011 compared to \$209 million for the year ended December 31, 2010. Excluding the impact of Black Liquor Credit, gross profit would have increased by \$25 million, or 13%, to \$224 million for the year ended December 31, 2011 compared to \$199 million for the year ended December 31, 2010. Gross profit margin increased to 14% for the year ended December 31, 2011 compared to 13% for the year ended December 31, 2010. The increase in gross profit and gross profit margin was largely due to higher sales prices and productivity efficiencies, partially offset by higher costs for raw materials and other input costs as a result of the lag time between the purchase of raw materials by Evergreen and the pass-through of raw material price fluctuations to certain of its customers.

Evergreen's gross profit has been in the past, and will continue to be in the future, impacted by changes in the costs of raw materials, including wood fiber, resin, commodity chemicals, and energy, including fuel oil, electricity, natural gas and coal. Evergreen purchases most of its raw materials and other input costs on the spot market and generally cannot immediately pass through price increases or declines to certain of its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Evergreen's purchases of raw materials from its suppliers and sales to its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$8 million, or 9%, to \$102 million for the year ended December 31, 2011 compared to \$94 million for the year ended December 31, 2010, due to \$4 million of increased spending on marketing and new product development and \$4 million of higher compensation costs, primarily as additional positions were filled.

Net Other. Net other income increased by \$6 million, or 22%, to \$33 million for the year ended December 31, 2011 compared to \$27 million for the year ended December 31, 2010, primarily due to increases in by-product sales of \$4 million and landfill tipping fees of \$5 million earned in 2011.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were \$157 million, \$217 million and \$217 million, respectively, compared to \$144 million, \$206 million and \$196 million, respectively, for the year ended December 31, 2010.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the Evergreen segment is as follows:

	For the Year Ended December 31, 2011 2010 (In \$ million)	
Profit from operating activities	157	144
Depreciation and amortization	60	62
EBITDA	217	206
Included in Evergreen segment EBITDA:

Equity method profit not distributed in cash	(2)	(3)
Gain on sale of businesses and investment properties		(2)
Operational process engineering-related consultancy costs		2
Related party management fees		1
Unrealized loss on derivatives	2	1
Evergreen segment Adjusted EBITDA	217	196

Closures Segment

	For the Year Ended December 31,					
	2011	% of Segment Revenue	2010	% of Segment Revenue	Change	% Change
	(In \$ million, except for %)					
Segment revenue	1,329	100%	1,174	100%	155	13%
Cost of sales	(1,122)	(84)%	(989)	(84)%	(133)	13%
Gross profit	207	16%	185	16%	22	12%
Selling, marketing and distribution expense/General and administration expense	(95)	(7)%	(96)	(8)%	1	(1)%
Net other income (expense)	(2)	%	7	1%	(9)	NM
Profit from operating activities	110	8%	96	8%	14	15%
Closures segment EBITDA	191	14%	175	15%	16	9%
Closures segment Adjusted EBITDA	195	15%	170	14%	25	15%

Revenue. Revenue increased by \$155 million, or 13%, to \$1,329 million for the year ended December 31, 2011 compared to \$1,174 million for the year ended December 31, 2010. As discussed in more detail below, \$84 million of this increase in revenue was due to increased sales volumes, primarily attributable to market share growth in North America and China and in Japan following the recovery from the natural disaster in March 2011. Favorable foreign currency impact also increased revenue by \$43 million, primarily due to the strengthening of the Japanese yen, Mexican peso, euro and Brazilian real against the dollar.

Closures revenue is also impacted by changes in product mix and pricing related to the pass-through of resin price increases to customers. Within its beverage caps and closures market, Closures sells both short-height and traditional standard-height one-piece and two-piece plastic closures. Prices are generally lower on the short-height closure compared to the traditional standard-height closure, therefore product mix in the period directly impacts revenue. In addition, contractual price adjustments with customers do not occur simultaneously with

Table of Contents

actual resin purchase price fluctuations, but rather on a monthly, quarterly, semi-annual or other basis. Therefore, due to the differences in timing between Closures' purchase of resin from its suppliers and sales of closures to its customers, pricing related to the pass-through of resin price fluctuations to customers also directly impacts revenue. The net increase in revenue as a result of changes in product mix, and pricing related to the pass-through of resin price increases to customers, was \$28 million.

Revenue from North America increased by \$92 million, or 20%, to \$555 million for the year ended December 31, 2011 compared to \$463 million for the year ended December 31, 2010. Higher sales volumes, primarily due to growth in market share, contributed \$60 million to the increase in revenue. The growth in market share was primarily due to the CSI Americas acquisition in February 2010, additional market share gained from existing competitors and new product expansion. The net increase in revenue as a result of changes in product mix and pricing related to the pass-through of resin price increases to customers was \$28 million. Favorable foreign currency impact also increased revenue by \$4 million, primarily due to the strengthening of the Mexican peso against the dollar.

Revenue from the rest of the world increased by \$63 million, or 9%, to \$774 million for the year ended December 31, 2011 compared to \$711 million for the year ended December 31, 2010. Higher sales volume, primarily due to growth in market share in China and market penetration in Japan following the recovery from the natural disaster in March 2011, contributed \$19 million to the increase in revenue. Favorable foreign currency impact also contributed \$39 million to the increase in revenue, which was primarily due to the strengthening of the Japanese yen, euro and Brazilian real against the dollar. The net increase in revenue as a result of changes in product mix, and pricing related to the pass-through of resin price increases to customers, was \$5 million.

Cost of Sales. Cost of sales increased by \$133 million, or 13%, to \$1,122 million for the year ended December 31, 2011 compared to \$989 million for the year ended December 31, 2010. Increased sales volume, as discussed above, resulted in an increase of \$67 million in cost of sales. In addition, unfavorable foreign currency impact, primarily due to the strengthening of the Japanese yen, Mexican peso, euro, and Brazilian real against the dollar, increased cost of sales by \$38 million. Closures' cost of sales is also impacted by changes in product mix and raw material costs. Gross raw materials costs, primarily resin, increased by \$107 million for the year ended December 31, 2011 compared to the year ended December 31, 2010, a significant portion of which was passed through to Closures' customers as discussed above. The net increase in cost of sales as a result of changes in product mix and raw material costs was \$30 million. For the years ended December 31, 2011 and 2010, raw material costs accounted for 61% and 59% of Closures' cost of sales, respectively.

Gross Profit. Gross profit increased by \$22 million, or 12%, to \$207 million for the year ended December 31, 2011 compared to \$185 million for the year ended December 31, 2010 and gross profit margin remained flat at 16%.

Higher sales volumes, primarily due to growth in market share, increased gross profit by \$17 million. In addition, favorable foreign currency impact also increased gross profit by \$5 million primarily due to the strengthening of the Japanese yen, Mexican peso, euro and Brazilian real against the dollar. These increases were partially offset by the impact of increased raw material costs and the lag in the pass-through of resin price increases to customers as discussed above.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses slightly decreased to \$95 million for the year ended December 31, 2011 compared to \$96 million for the year ended December 31, 2010.

Net Other. Other expenses increased by \$9 million to \$2 million compared to other income of \$7 million for the year ended December 31, 2010. The increase is mainly attributable to a \$10 million gain on acquisition from the purchase of CSI Americas in February 2010, a \$2 million increase in restructuring costs related to Closures' business in Germany and the consolidation of one plant in North America, offset by a \$5 million gain on sale of one of Closures' businesses in Europe. These items have been included in the segment's Adjusted EBITDA calculation.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were

Table of Contents

\$110 million, \$191 million and \$195 million, respectively, compared to \$96 million, \$175 million and \$170 million, respectively, for the year ended December 31, 2010.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the Closures segment is as follows:

	For the Year Ended December 31, 2011 2010 (In \$ million)	
Profit from operating activities	110	96
Depreciation and amortization	81	79
EBITDA	191	175
Included in Closures segment EBITDA:		
Asset impairment charges	1	
Business acquisition costs		1
Business interruption costs	1	2
CSI Americas gain on acquisition		(10)
Gain on sale of business	(5)	
Restructuring costs	5	3
Unrealized (gain) loss on derivatives	2	(1)
Closures segment Adjusted EBITDA	195	170

Reynolds Consumer Products Segment

	For the Year ended December 31,					
	2011	% of Segment Revenue	2010	% of Segment Revenue	Change	% Change
	(In \$ million, except for %)					
Segment revenue	2,559	100%	1,378	100%	1,181	86%
Cost of sales	(1,948)	(76)%	(1,051)	(76)%	(897)	85%
Gross profit	611	24%	327	24%	284	87%
Selling, marketing and distribution expense/General and administration expense	(215)	(8)%	(116)	(8)%	(99)	85%
Net other income (expense)	(43)	(2)%	3	%	(46)	NM
Profit from operating activities	353	14%	214	16%	139	65%
Reynolds Consumer Products segment EBITDA	503	20%	276	20%	227	82%
Reynolds Consumer Products segment Adjusted EBITDA	556	22%	299	22%	257	86%

We acquired Pactiv on November 16, 2010. The operating results of the Hefty consumer products business have been combined with the operating results of the Reynolds consumer products business since the consummation of the Pactiv Acquisition. As the products and systems of these businesses are now integrated within the Reynolds Consumer Products segment, other than revenue, we are unable to quantify the results of the Hefty consumer products business on a stand-alone basis for the year ended December 31, 2011. However, we have in a number of instances provided the results of Pactiv's Hefty consumer products business for the year ended December 31, 2010 to illustrate the magnitude of the impact that the Pactiv Acquisition may have had on

Table of Contents

the results of operations for the year ended December 31, 2011. For the period from January 1, 2010 to November 16, 2010, revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA for the Hefty consumer products business were \$1,162 million, \$823 million, \$141 million, \$198 million, \$253 million and \$264 million, respectively. These amounts include IFRS adjustments to Pactiv's historical results that were previously reported under U.S. GAAP. For the period from January 1, 2011 to November 16, 2011 the legacy Hefty consumer products revenue was \$1,177 million.

The following discussion of our Reynolds Consumer Products operating results provides comparisons of our reported results for the periods ended December 31, 2011 and December 31, 2010 as well as comparisons on a supplemental pro forma basis as if the pre-acquisition operating results of the Hefty consumer products business had been included in the operating results of the Reynolds Consumer Products segment for the twelve months ended December 31, 2010. We acquired the Hefty consumer products business in November 2010. Given the relative size and timing of this acquisition, we believe a discussion of the results on a supplemental pro forma basis provides a reasonable comparison of the operating results for the periods presented. This comparison assists in understanding the current period segment results, including the underlying factors affecting the results of operations, the changes in these factors that occurred in 2011 compared to 2010 and the impact of our integration activities. The supplemental pro forma amounts were derived from Pactiv's historical results that were previously reported under U.S. GAAP as adjusted for IFRS. The Hefty consumer products pre-acquisition historical operating results have not been adjusted for the pro forma purchase accounting effects of our acquisition of the Hefty consumer products business.

This supplemental pro forma information is for informational purposes only and is not intended to represent or to be indicative of the results of operations that we would have reported had the Pactiv Acquisition been completed on January 1, 2010 and should not be taken as being indicative of our future results of operations.

The discussions below also include references to actual cost saving synergies that have been achieved during the period ended December 31, 2011 as a result of integrating the Hefty consumer products business into the Reynolds Consumer Products segment. These actual benefits realized resulted from a combination of cost savings, including procurement, distribution efficiencies and integration of the sales force and various administration functions across the combined segment. The benefits are measured based on clear and quantifiable measures, such as observable reductions in fixed overhead costs, the elimination of distribution costs and the elimination of salaries and benefits related to headcount reductions across the segment.

Revenue. Revenue increased by \$1,181 million, or 86%, to \$2,559 million for the year ended December 31, 2011 compared to \$1,378 million for the year ended December 31, 2010. This increase was largely attributable to revenue from the Hefty consumer products business that was acquired as part of the Pactiv Acquisition in November 2010.

If the results of the Hefty consumer products business had been included in the results of the Reynolds Consumer Products segment for the year ended December 31, 2010, we estimate that revenue would have increased by \$19 million, or 1%, to \$2,559 million for the year ended December 31, 2011. The increase in revenue would have been attributable to price increases across all product groups due to rising raw material costs that would have been partially offset by volume declines in our tableware and cooking product lines due to lower market demand.

Cost of Sales. Cost of sales increased by \$897 million, or 85%, to \$1,948 million for the year ended December 31, 2011 compared to \$1,051 million for the year ended December 31, 2010. The increase in cost of sales is attributable to the Hefty consumer products business which was acquired as part of the Pactiv Acquisition, including increased depreciation expense of \$61 million.

If the results of the Hefty consumer products business had been included in the results of the Reynolds Consumer Products segment for the year ended December 31, 2010, we estimate that cost of sales would have increased by \$74 million to \$1,948 million for the year ended December 31, 2011. This increase would have been largely attributable to increased raw material costs of approximately \$140 million, primarily related to resin and aluminum. The increase in raw material costs would have been partially offset by actual synergies resulting from the Pactiv Acquisition and productivity efficiencies.

Table of Contents

Reynolds Consumer Products experienced increases in raw material costs. For the years ended December 31, 2011 and 2010, raw material costs accounted for 63% and 58% of Reynolds Consumer Products cost of sales, respectively.

Gross Profit. Gross profit increased by \$284 million, or 87%, to \$611 million for the year ended December 31, 2011 compared to \$327 million for the year ended December 31, 2010, while gross profit margin remained flat at 24%. For the period from January 1, 2010 to November 16, 2010, the gross profit of the Hefty consumer products business was \$339 million.

If the results of the Hefty consumer products business had been included in the results of the Reynolds Consumer Products segment for the year ended December 31, 2010, we estimate that gross profit would have decreased by \$55 million to \$611 million and gross profit margin would have decreased to 24% compared to 26% for the year ended December 31, 2010. The decrease in the gross profit margin would have been primarily due to the increase in raw material costs, mainly resin and aluminum, that Reynolds Consumer Products had not been able to fully pass through to its customers partially offset by benefits from actual synergies resulting from the Pactiv Acquisition.

Reynolds Consumer Products gross profit has been in the past, and will continue to be in the future, impacted by changes in the costs of raw materials, including resin and aluminum. Reynolds Consumer Products generally cannot immediately pass through price increases or declines to its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. For most resin based products, there is a lag time between the purchase of raw materials by Reynolds Consumer Products and the pass through of raw material price fluctuations to customers. For aluminum based products, contracts with customers do not contain contractual price protection for raw material cost fluctuations. Due to the differences in timing between Reynolds Consumer Products purchases of resin from its suppliers and sales to its customers, there is often a lead-lag impact, during which margins are negatively impacted in periods of rising resin prices and positively impacted in periods of falling resin prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$99 million, or 85%, to \$215 million for the year ended December 31, 2011 compared to \$116 million for the year ended December 31, 2010. This increase was primarily attributable to the Hefty consumer products business.

If the results of the Hefty consumer products business had been included in the results of the Reynolds Consumer Products segment for the year ended December 31, 2010, we estimate that selling, marketing and distribution expenses and general and administration expenses would have decreased by \$42 million to \$215 million for the year ended December 31, 2011. The decrease in selling, marketing and distribution expenses and general and administration expenses would have been attributable to decreased advertising spending and benefits from the actual synergies realized as part of the integration of the Hefty consumer products business into the Reynolds Consumer Products segment.

Net Other. Net other expense was \$43 million for the year ended December 31, 2011 compared to net other income of \$3 million for the year ended December 31, 2010. The change is mainly attributable to an increase of \$19 million of net unrealized losses on open hedge positions, an increase of \$15 million in restructuring costs related to severance and an increase of \$11 million in operational process engineering-related consultancy costs. These items have been included in the segment's Adjusted EBITDA calculation. As discussed in more detail in Key Factors Influencing our Financial Condition and Results of Operations, we expect to incur additional costs of this type in 2012.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were \$353 million, \$503 million and \$556 million, respectively, compared to \$214 million, \$276 million and \$299 million, respectively, for the year ended December 31, 2010. If the results of the Hefty consumer products business had been included in the results of the Reynolds Consumer Products segment for the year ended December 31, 2010, we estimate that Adjusted EBITDA for the year ended December 31, 2010 would have been \$563 million.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the Reynolds Consumer Products segment is as follows:

	For the Year Ended December 31, 2011 2010 (In \$ million)	
	2011	2010
Profit from operating activities	353	214

Pactiv Foodservice segment Adjusted EBITDA	549	16%	81	9%	468	578%

We acquired Pactiv on November 16, 2010. The operating results of the Pactiv foodservice packaging business have been combined with the operating results of the Reynolds foodservice packaging business since the consummation of the Pactiv Acquisition. As the products and systems of these businesses are now integrated within the Pactiv Foodservice segment, other than revenue, we are unable to quantify the results of the Pactiv foodservice packaging business on a stand-alone basis for the year ended December 31, 2011. However, we have in a number of instances provided the results of the Pactiv foodservice packaging business for the year ended December 31, 2010 to illustrate the magnitude of the impact that the Pactiv Acquisition may have had on the results of operations for the year ended December 31, 2011. For the period from January 1, 2010 to November 16, 2010, revenue, cost of sales, selling, marketing and distribution expenses/general and

Table of Contents

administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA for the Pactiv foodservice packaging business were \$2,036 million, \$1,640 million, \$215 million, \$153 million, \$261 million and \$315 million, respectively. These amounts include IFRS adjustments to Pactiv's historical results that were previously reported under U.S. GAAP. For the period from January 1, 2011 to November 16, 2011 the legacy Pactiv foodservice product revenue was \$2,317 million.

The following discussion of our Pactiv Foodservice operating results provides comparisons of our reported results for the periods ended December 31, 2011 and December 31, 2010 as well as comparisons on a supplemental pro forma basis as if the pre-acquisition operating results of the Pactiv foodservice packaging business had been included in the operating results of the Pactiv Foodservice segment for the twelve months ended December 31, 2010. We acquired the Pactiv foodservice packaging business in November 2010. Given the relative size and timing of this acquisition, we believe a discussion of the results on a supplemental pro forma basis provides a reasonable comparison of the operating results for the periods presented. This comparison assists in understanding the current period segment results including the underlying factors affecting the results of operations, the changes in these factors that occurred in 2011 compared to 2010 and the impact of our integration activities. The supplemental pro forma amounts were derived from Pactiv's historical results that were previously reported under U.S. GAAP as adjusted for IFRS. The Pactiv foodservice packaging business pre-acquisition historical operating results have not been adjusted for the pro forma purchase accounting effects of our acquisition of the Pactiv foodservice packaging business.

This supplemental pro forma information is for informational purposes only and is not intended to represent or to be indicative of the results of operations that we would have reported had the Pactiv Acquisition been completed on January 1, 2010 and should not be taken as being indicative of our future results of operations.

The discussions below also include references to actual cost saving synergies that have been achieved during the period ended December 31, 2011 as a result of integrating the Pactiv foodservice packaging business into the Pactiv Foodservice segment. These actual benefits realized resulted from a combination of cost savings, including procurement, distribution efficiencies, plant rationalization and integration of the sales force and various administration functions across the combined segment. The benefits are measured based on clear and quantifiable measures, such as observable reductions in fixed overhead costs, the elimination of costs specific to production facilities that have been closed and the elimination of salaries and benefits related to headcount reductions across the segment.

We acquired Dopaco on May 2, 2011. The operating results of Dopaco have been included in the Pactiv Foodservice segment since the date of the Dopaco Acquisition. For the period from May 2, 2011 to December 31, 2011, Dopaco's revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA were \$331 million, \$300 million, \$9 million, \$10 million, \$28 million and \$45 million, respectively.

Revenue. Revenue increased by \$2,524 million, or 273%, to \$3,448 million for the year ended December 31, 2011 compared to \$924 million for the year ended December 31, 2010. This increase was attributable to the revenue from foam, tableware, and specialty products generated from the operations of the Pactiv foodservice packaging business that was acquired as part of the Pactiv Acquisition in November 2010. Prior to this acquisition, none of these products were offered by the Reynolds foodservice packaging business. Clear plastics, paper and aluminum product offerings were also significantly expanded as a result of the Pactiv Acquisition.

If the results of the Pactiv foodservice packaging business had been included in the results of the Pactiv Foodservice segment for the year ended December 31, 2010, we estimate that revenue would have increased by \$488 million, or 16%, to \$3,448 million for the year ended December 31, 2011. This revenue increase would have been attributable to incremental revenue of \$331 million generated from the operations of Dopaco, incremental revenue of \$34 million related to the integration of a clear plastic business acquired by Pactiv in April 2010, and a \$296 million impact from improved pricing primarily due to the pass-through of resin purchase price increases. These increases were partially offset by declines of \$128 million due to lower volumes primarily as a result of exiting non-strategic product lines and \$39 million due to the transfer of certain operations to our Reynolds Consumer Products segment on January 1, 2011.

Table of Contents

Cost of Sales. Cost of sales increased by \$2,065 million, or 240%, to \$2,924 million for the year ended December 31, 2011 compared to \$859 million for the year ended December 31, 2010. The increase is primarily attributable to the cost of sales incurred by the Pactiv foodservice packaging business and the Dopaco business which was acquired as part of the Pactiv Acquisition and the Dopaco Acquisition, respectively, including increased depreciation expense of \$164 million as a result of property, plant and equipment acquired at fair value.

Pactiv Foodservice experienced increases in the purchase price of raw materials, primarily resin, aluminum and paper, for the year ended December 31, 2011 compared to the year ended December 31, 2010. Raw material costs accounted for 63% and 61% of Pactiv Foodservice's cost of sales, respectively, for those periods. Raw material costs for the year ended December 31, 2011 increased by \$1,317 million compared to the year ended December 31, 2010, primarily due to the incremental volume attributable to the Pactiv Acquisition and the Dopaco Acquisition, partially offset by benefits from actual synergies realized from these acquisitions.

If the results of the Pactiv foodservice packaging business had been included in the results of the Pactiv Foodservice segment for the year ended December 31, 2010, we estimate that cost of sales would have increased by \$425 million, or 17%, to \$2,924 million for the year ended December 31, 2011. This cost of sales increase would have been attributable to incremental cost of sales of \$300 million incurred by Dopaco, incremental cost of sales of \$30 million related to the integration of a clear plastic business acquired by Pactiv in April 2010 and the remaining increase would have been primarily attributable to the impact of higher raw material costs.

Gross Profit. Gross profit increased by \$459 million, or 706%, to \$524 million for the year ended December 31, 2011 compared to \$65 million for the year ended December 31, 2010 and gross profit margin increased to 15% for the year ended December 31, 2011 compared to 7% for the year ended December 31, 2010, which reflects the impact of the Pactiv foodservice packaging business acquired in the Pactiv Acquisition.

If the Pactiv foodservice packaging business had been included in the results of the Pactiv Foodservice segment for the year ended December 31, 2010, we estimate the gross profit margin would have declined slightly to 15% for the year ended December 31, 2011 compared to 16% for the year ended December 31, 2010 primarily due to the increase in depreciation expense as a result of property, plant and equipment acquired at fair value as discussed above, offset by actual synergies realized, productivity efficiencies and improved net pricing.

Pactiv Foodservice's gross profit has been, and will continue to be, impacted by changes in the costs of raw materials, including resin, aluminum and paper. Pactiv Foodservice generally cannot immediately pass through price increases or declines to its customers because the price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Pactiv Foodservice's purchases of raw materials from its suppliers and sales to its customers, there is often a lead-lag impact, during which margins are negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$198 million, or 248%, to \$278 million for the year ended December 31, 2011 compared to \$80 million for the year ended December 31, 2010, primarily due to expenses attributable to the Pactiv foodservice packaging business.

If the Pactiv foodservice packaging business had been included in the results of the Pactiv Foodservice segment for the year ended December 31, 2010, we estimate that selling, marketing and distribution expenses and general and administration expenses would have decreased by \$17 million to \$278 million for the year ended December 31, 2011 compared to the year ended December 31, 2010. The decrease in selling, marketing and distribution expenses and general and administration expenses would have been largely attributable to benefits from both actual synergies realized and cost saving initiatives partially offset by increased intangible asset amortization expense incurred during the year ended December 31, 2011, resulting from the Pactiv Acquisition.

Net Other. Net other expenses increased by \$98 million to \$124 million for the year ended December 31, 2011 compared to \$26 million for the year ended December 31, 2010. The increase is mainly attributable to an increase of \$49 million in restructuring costs primarily related to severance, business acquisition and integration costs of \$45 million, a charge of \$21 million related to operational process engineering-related consultancy costs,

Table of Contents

a decrease of \$8 million from a gain on sale of businesses and an increase of \$4 million in unrealized losses on open hedge positions. These increases to net other expenses were partially offset by a reduction of \$22 million in asset impairment charges and a reduction of \$7 million on a supply termination charge. These items have been included in the segment's Adjusted EBITDA calculation.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2011 were \$122 million, \$414 million and \$549 million, respectively, compared to loss from operating activities, EBITDA and Adjusted EBITDA of \$41 million, \$17 million and \$81 million, respectively, for the year ended December 31, 2010.

If the Pactiv foodservice packaging business had been included in the results of the Pactiv Foodservice segment for the year ended December 31, 2010, we estimate that Adjusted EBITDA for the year ended December 31, 2010 would have been \$396 million.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit (loss) from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 for the Pactiv Foodservice segment is as follows:

	For the year ended December 31, 2011 2010 (In \$ million)	
Profit (loss) from operating activities	122	(41)
Depreciation and amortization	292	58
EBITDA	414	17
Included in Pactiv Foodservice segment EBITDA:		
Asset impairment charges	7	29
Business acquisition and integration costs	45	
Gain on sale of businesses and investment properties		(8)
Impact of purchase price accounting on inventories and leases	5	38
Non-cash pension expense	4	
Non-cash inventory charge	2	
Operational process engineering-related consultancy costs	21	
Restructuring costs (recoveries)	48	(1)
Termination of supply agreement		7
Unrealized (gain) loss on derivatives	3	(1)
Pactiv Foodservice segment Adjusted EBITDA	549	81

Graham Packaging segment EBITDA	105	11%
Graham Packaging segment Adjusted EBITDA	156	16%

We acquired Graham Packaging on September 8, 2011. The operating results of Graham Packaging from September 8, 2011 to December 31, 2011 have been included in the RGHL Group's operating results for the year ended December 31, 2011 as a separate reporting segment. For the period from January 1, 2010 to December 31, 2010, revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA for Graham Packaging were \$2,513 million, \$2,077 million, \$122 million, \$235 million, \$406 million and \$505 million, respectively. For the period from January 1, 2011 to September 7, 2011, revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, loss from operating activities, EBITDA and Adjusted EBITDA for Graham Packaging were \$2,130 million, \$1,817 million, \$173 million, \$99 million, \$46 million and \$388 million respectively. These amounts include IFRS adjustments to Graham Packaging's historical results that were previously reported under U.S. GAAP.

The following discussion of our Graham Packaging operating results provides comparisons on a supplemental pro forma basis as if the operating results of the Graham Packaging business had been included in our operating results for the periods ended December 31, 2011 and December 31, 2010. We acquired Graham Packaging in September 2011. Given the relative size and timing of this acquisition, we believe a discussion of the operating results on a supplemental pro forma basis provides a reasonable comparison of the operating results for the periods presented. This comparison assists in understanding the current period segment results including the underlying factors affecting the results of operations, the changes in these factors that occurred in 2011 compared to 2010 and the impact of our integration activities. The supplemental pro forma amounts were derived from Graham Packaging's historical operating results that were previously reported under U.S. GAAP as adjusted for IFRS. The Graham Packaging pre-acquisition historical operating results have not been adjusted for the pro forma purchase accounting effects of our acquisition of Graham Packaging.

This supplemental pro forma information is for informational purposes only and is not intended to represent or to be indicative of the results of operations that we would have reported had the Graham Packaging Acquisition been completed on January 1, 2010 and should not be taken as being indicative of our future results of operations.

Revenue. Revenue for the period from September 8, 2011 to December 31, 2011 was \$967 million. On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that revenue would have increased by \$584 million, or 23%, to \$3,097 million for the year ended December 31, 2011. The increase in estimated revenue would have been attributable to \$316 million generated from Graham Packaging's acquisitions, primarily from Liquid Container, as well as favorable changes in pricing related to the pass-through of resin price increases to customers. These increases, together with volume-related increases of \$18 million and favorable currency impact of \$19 million, would have been partially offset by net price reductions from operational cost savings shared with Graham Packaging's customers.

Table of Contents

Cost of Sales. Cost of sales for the period from September 8, 2011 to December 31, 2011 was \$905 million. Cost of sales was negatively impacted by purchase price accounting adjustments of \$27 million for inventories acquired as part of the Graham Packaging Acquisition. Graham Packaging has experienced increases in raw material costs primarily related to resin. For the period from September 8, 2011 to December 31, 2011, raw material costs accounted for 56% of Graham Packaging's cost of sales.

On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that cost of sales would have increased by \$645 million, or 31%, to \$2,722 million for the year ended December 31, 2011. The increase in estimated cost of sales would have been attributable to higher revenue as described above, an overall increase in raw material costs, primarily resin, and the impact of purchase price accounting adjustments of \$27 million as noted above. For the years ended December 31, 2011 and 2010, raw material costs would have accounted for 59% and 66% of Graham Packaging's cost of sales, respectively.

Gross Profit. Gross profit for the period from September 8, 2011 to December 31, 2011 was \$62 million and gross profit margin was 6%. Gross profit margin was negatively impacted by purchase price accounting adjustments on inventories as discussed above. Excluding the impact of the purchase price accounting adjustments on inventories, the gross profit margin would have been 9%.

On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that gross profit would have decreased by \$61 million, or 14%, to \$375 million for the year ended December 31, 2011, and gross margin would have decreased to 12% from 17%. The decrease in estimated gross profit and gross margin would have been attributable to the purchase price accounting adjustments of \$27 million related to inventories as noted above and net price reductions, partially offset by contributions from higher revenues discussed above and productivity improvements. In addition to the impact of these factors, the gross profit margin would have decreased due to higher resin costs and additional depreciation and amortization related to the step-up on acquired fixed assets and identifiable intangible assets.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses for the period from September 8, 2011 to December 31, 2011 were \$72 million. Included in selling, marketing and distribution expenses was a \$12 million change in control payment related to the Graham Packaging Acquisition.

On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that selling, marketing and distribution expenses and general and administration expenses would have increased by \$123 million, or 101%, to \$245 million for the year ended December 31, 2011. The increase in estimated selling, marketing and distribution expenses and general and administration expenses would have been primarily attributable to acquisition-related expenses of \$103 million and an increase in amortization expense of \$28 million related to the step-up in identifiable intangible assets as a result of acquisitions, partially offset by bonuses and other costs paid in connection with the initial public offering during the year ended December 31, 2010.

Net Other. Other expenses for the period from September 8, 2011 to December 31, 2011 were \$14 million. Included in other expenses are business acquisition and integration costs of \$9 million and restructuring costs of \$3 million. These items have been included in the segment's Adjusted EBITDA calculation.

On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that net other expenses would have increased by \$174 million, or 220%, to \$253 million for the year ended December 31, 2011. The increase in estimated net other expenses would have been primarily attributable to the payment of \$229 million for the termination of the income tax receivable agreements, partially offset by a fee of \$35 million to affiliates of Blackstone and the Graham family to terminate a monitoring agreement.

Loss from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, loss from operating activities, EBITDA and Adjusted EBITDA for the period from September 8, 2011 to December 31, 2011 were \$24 million, \$105 million and \$156 million, respectively.

Table of Contents

On a pro forma basis, as if we owned Graham Packaging for each of the years ended December 31, 2011 and December 31, 2010, we estimate that Adjusted EBITDA for the years ended December 31, 2011 and December 31, 2010 would have been \$544 million and \$505 million, respectively.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of loss from operating activities to EBITDA and Adjusted EBITDA for the period from September 8, 2011 to December 31, 2011 for the Graham Packaging segment is as follows:

	For the period ended December 31, 2011 (In \$ million)
Loss from operating activities	(24)
Depreciation and amortization	129
EBITDA	105
Included in Graham Packaging segment EBITDA:	
Business acquisition and integration costs	9
Change in control payments	12
Impact of purchase price accounting on inventories and leases	27
Restructuring costs	3
Graham Packaging segment Adjusted EBITDA	156

Table of Contents

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2010. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010.
- (2) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2009.
- (3) RGHL Group EBITDA is defined as profit (loss) from continuing operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and investment properties and amortization of intangible assets. RGHL Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write-downs and equity method profit not distributed in cash. EBITDA and Adjusted EBITDA are not presentations made in accordance with IFRS, are not measures of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) from continuing operations for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. Refer to Risk Factors. Additionally, RGHL Group EBITDA and RGHL Group Adjusted EBITDA are not intended to be measures of free cash flow, as they do not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA and Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA, Adjusted EBITDA and other pro forma measures of Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA and Adjusted EBITDA identically, this presentation of EBITDA and Adjusted EBITDA may not be comparable to the similarly titled measures of other companies.

As more fully described under the heading Overview Recent Acquisitions and Integration, we acquired Pactiv on November 16, 2010. The operating results of Pactiv have been included in our results and in the results of the Reynolds Consumer Products and Pactiv Foodservice segments since the consummation of the Pactiv Acquisition. For the period from November 16, 2010 to December 31, 2010, Pactiv's revenue, cost of sales, selling, marketing and distribution/general and administration expenses, loss from operating activities, EBITDA and Adjusted EBITDA were \$481 million, \$444 million, \$48 million, \$31 million, \$10 million and \$89 million, respectively. For further details on the Pactiv Acquisition, refer to note 33 of the RGHL Group's audited financial statements included elsewhere in this prospectus.

Revenue. Revenue increased by \$864 million, or 15%, to \$6,774 million for the year ended December 31, 2010 compared to \$5,910 million for the year ended December 31, 2009. This increase was largely attributable to \$481 million of incremental revenue generated from the operations of Pactiv, \$82 million of incremental revenue generated from the Whakatane paper mill and \$52 million of incremental revenue generated from CSI Americas, each of which was acquired in 2010.

All of our segments, other than Pactiv Foodservice, experienced increases in sales volume during 2010. Pactiv Foodservice experienced lower sales volume in 2010 due to its planned exits from non-strategic and lower margin products. Price increases also contributed to our increased revenue in 2010 and were primarily driven by the flow-through of higher resin prices to customers in our Closures and Pactiv Foodservice segments.

Revenue increases were partially offset by a net unfavorable foreign currency impact of \$47 million primarily due to the weakening of the euro against the dollar, which had a \$72 million unfavorable impact in the SIG segment and a \$25 million favorable impact due to the strengthening of other currencies against the dollar in

Table of Contents

the Closures segment. For a detailed explanation of the variations in revenue for each of our segments, see the individual segment discussions below.

Cost of Sales. Cost of sales for the year ended December 31, 2010 increased by \$833 million, or 18%, to \$5,524 million for the year ended December 31, 2010 compared to \$4,691 million for the year ended December 31, 2009. The increase in cost of sales is largely attributable to an additional \$444 million in cost of sales associated with the operations of Pactiv including \$64 million related to the impact of purchase price accounting on inventories, and the impact of the expiration of the Black Liquor Credit within the Evergreen segment. For the year ended December 31, 2009, cost of sales included a benefit of \$214 million while the year ended December 31, 2010 included a benefit of \$10 million relating to Black Liquor Credit. Cost of sales also increased primarily due to higher sales volume across all segments other than Pactiv Foodservice. These increases were partially offset by \$95 million of expenses in 2009 within the Reynolds Consumer Products and Pactiv Foodservice segments resulting from the settlement of unfavorable historical aluminum hedge positions under the segments' historical hedging policy, which was terminated in the three months ended December 31, 2009.

In addition, cost of sales was impacted by favorable foreign currency impact of \$43 million primarily due to the weakening of the euro against the dollar, which had a \$64 million favorable impact at the SIG segment and a \$21 million unfavorable impact at the Closures segment.

For a detailed explanation of the variations in cost of sales for each of our segments, see the individual segment discussions below.

Gross Profit. Gross profit increased by \$31 million, or 3%, to \$1,250 million for the year ended December 31, 2010 compared to \$1,219 million for the year ended December 31, 2009. However, gross profit margin decreased to 18% for the year ended December 31, 2010 compared to 21% for the year ended December 31, 2009 due to the impact of the Black Liquor Credit, the unfavorable historical aluminum hedge positions and a purchase price accounting adjustment on inventory as discussed above.

Excluding these non-recurring credits and losses recorded in cost of sales, gross profit margin would have remained constant at 19% for the year ended December 31, 2010 compared to the year ended December 31, 2009. For further information on the variations in gross profit for each of our segments, see the individual segment discussions below.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$46 million, or 8%, to \$623 million for the year ended December 31, 2010 compared to \$577 million for the year ended December 31, 2009. This increase was primarily due to \$48 million in expenses attributable to Pactiv.

For a detailed explanation of the variations in selling, marketing and distribution expenses and general and administration expenses for each of our segments, see the individual segment discussions below.

Net Other Income and Other Expenses. Net other income decreased by \$83 million, or 79%, to \$22 million for the year ended December 31, 2010 compared to \$105 million for the year ended December 31, 2009. This decline in net other income was primarily attributable to a \$125 million decrease in unrealized gains on derivatives used to hedge exposure to commodity prices partially offset by a \$49 million decrease in business restructuring expenses during 2010. Refer to note 8 and note 10 of the RGHL Group's audited financial statements as of and for the year ended December 31, 2011 included elsewhere in this prospectus.

Other. The increase of \$7 million in the share of profits of associates and joint ventures for the year ended December 31, 2010 was primarily due to continued improvement in the results of operations of the Obeikan joint venture operations within our SIG segment.

Net Financial Expenses. Net financial expenses increased by \$194 million, or 39%, to \$686 million for the year ended December 31, 2010 compared to \$492 million for the year ended December 31, 2009. The increase was largely related to an increase of \$191 million in interest expense due to increases in the principal amount of the RGHL Group's fixed and floating rate borrowings of \$4,896 million and \$2,116 million, respectively, resulting from the issuance or acquisition of additional indebtedness. Interest rate changes on the floating rate

Table of Contents

borrowings had no significant impact on net financial expenses for the year ended December 31, 2010. Net financial expenses for the year ended December 31, 2010 also included \$109 million of debt financing related costs that were partially offset by a \$42 million change in the fair value of derivative financial instruments. Our borrowings (net of original issue discount, unamortized debt issuance costs and embedded derivatives) as of December 31, 2010 were \$11,842 million compared to \$4,954 million as of December 31, 2009. In November 2009 and May 2010, we completed the financings associated with the RGHL Acquisition and the Evergreen Acquisition, respectively. In November 2010, we incurred additional borrowings of \$5,020 million, the proceeds of which were used to finance the Pactiv Acquisition and repay existing indebtedness. Following the Pactiv Acquisition, \$1,482 million of Pactiv's indebtedness remained outstanding. The timing of these financings has resulted in our historical interest expense not being representative of our interest expense in future periods. Refer to Key Factors Influencing Our Financial Condition and Results of Operations - Acquisitions, Substantial Leverage and Other Transaction-Related Effects. For more information regarding the RGHL Group's financial expenses and borrowings, refer to notes 12 and 25, respectively, of the RGHL Group's audited financial statements as of and for the year ended December 31, 2011 included elsewhere in this prospectus.

Income Tax Expense. For the year ended December 31, 2010, the income tax expense of \$78 million on a loss before income tax of \$19 million was largely due to the inability of certain subsidiaries to claim deductions for certain expense items, such as interest and other associated financing costs, due to local jurisdictional limitations. For a reconciliation of pre-tax profit (loss) to tax expense, refer to note 13 of the RGHL Group's audited financial statements, included elsewhere in this prospectus.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$667 million, \$1,171 million and \$1,251 million, respectively, compared to \$758 million, \$1,260 million and \$1,130 million, respectively, for the year ended December 31, 2009.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the RGHL Group is as follows:

	For the Year Ended December 31, 2010(1) 2009(2) (In \$ million)	
	2010(1)	2009(2)
Profit from operating activities	667	758
Depreciation and amortization	504	502
EBITDA(3)	1,171	1,260
Included in the RGHL Group EBITDA:		
Adjustment related to settlement of a lease obligation	(2)	
Asset impairment charges	28	13
Black Liquor Credit	(10)	(214)
Business acquisition costs	12	1
Business interruption costs	2	
CSI Americas gain on acquisition	(10)	
Elimination of the effect of the historical Reynolds Consumer hedging policy		95
Equity method profit not distributed in cash	(14)	(10)
Gain on sale of businesses and investment properties	(16)	
Impact of purchase price accounting on inventories	63	5
Korean insurance claim		(2)
Loss on sale of Baco assets		1
Manufacturing plant flood impact		5
Operational process engineering-related consultancy costs	8	13
Non-cash pension income	(5)	
Plant realignment costs		2
Related party management fees	1	3
Restructuring costs	9	58
Termination of supply agreements	7	
Transition costs		24

Reynolds Consumer Products	299	280
Pactiv Foodservice	81	60
Corporate/Unallocated	(8)	
RGHL Group Adjusted EBITDA(3)	1,251	1,130

Edgar Filing: BRPP LLC - Form F-4/A

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2010. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010.

Table of Contents

- (2) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2009.
- (3) RGHL Group EBITDA is defined as profit (loss) from continuing operations for the period plus income tax expenses, net financial expenses, depreciation of property, plant and equipment and investment properties and amortization of intangible assets. RGHL Group Adjusted EBITDA, a measure used by our management to measure operating performance, is defined as RGHL Group EBITDA, adjusted to exclude certain items of a significant or unusual nature, including but not limited to acquisition costs, non-cash pension income, restructuring costs, unrealized gains or losses on derivatives, gains or losses on the sale of non-strategic assets, asset impairments and write downs and equity method profit not distributed in cash. EBITDA and Adjusted EBITDA are not presentations made in accordance with IFRS, are not measures of financial condition, liquidity or profitability and should not be considered as an alternative to profit (loss) from continuing operations for the period determined in accordance with IFRS or operating cash flows determined in accordance with IFRS. The determination of Adjusted EBITDA contains a number of estimates and assumptions that may prove to be incorrect and differ materially from actual results. Refer to Risk Factors. Additionally, RGHL Group EBITDA and RGHL Group Adjusted EBITDA are not intended to be measures of free cash flow, as they do not take into account certain items such as interest and principal payments on our indebtedness, depreciation and amortization expense, working capital needs, tax payments, and capital expenditures. We believe that the inclusion of EBITDA and Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about our operating performance and to provide a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. We additionally believe that issuers of high yield debt securities also present EBITDA, Adjusted EBITDA and other pro forma measures of Adjusted EBITDA because investors, analysts and rating agencies consider these measures useful. Because not all companies calculate EBITDA and Adjusted EBITDA identically, this presentation of EBITDA and Adjusted EBITDA may not be comparable to the similarly titled measures of other companies.

SIG Segment

	For the Year Ended December 31,					
	2010	% of Segment Revenue	2009	% of Segment Revenue	Change	% Change
	(In \$ million, except for %)					
Segment revenue	1,846	100%	1,668	100%	178	11%
Cost of sales	(1,382)	(75)%	(1,258)	(75)%	(124)	10%
Gross profit	464	25%	410	25%	54	13%
Selling, marketing and distribution expense/General and administration expense	(235)	(13)%	(224)	(13)%	(11)	5%
Net other income (expense)	22	1%	(5)	%	27	NM
Profit from operating activities	267	14%	190	11%	77	41%
SIG segment EBITDA	510	28%	440	26%	70	16%
SIG segment Adjusted EBITDA	513	28%	475	28%	38	8%

Revenue. Revenue increased by \$178 million, or 11%, to \$1,846 million for the year ended December 31, 2010 compared to \$1,668 million for the year ended December 31, 2009. As discussed in more detail below, \$171 million of this increase in revenue was attributable to an increase in volume, primarily due to the recovery of consumer confidence in milk products in China following the melamine contamination of dairy products that occurred in 2008, new customers in Southern Europe, South America and the Middle East and growth with existing customers in Eastern Europe. In addition, the increase in revenue is partially attributable to \$82 million of incremental revenue generated from the operations of the Whakatane paper mill which was acquired in May 2010. The increases in revenue were offset by an unfavorable foreign currency impact of \$72 million largely attributable to the weakening of the euro against the dollar and a \$3 million unfavorable impact due to lower prices as a result of market competition.

Table of Contents

Revenue in Europe decreased by \$28 million, or 3%, to \$1,089 million for the year ended December 31, 2010 compared to \$1,117 million for the year ended December 31, 2009. Revenue for the year ended December 31, 2010 included an unfavorable foreign currency impact of \$49 million largely attributable to the weakening of the euro against the dollar. Excluding this foreign currency impact, revenue increased by \$21 million primarily as a result of revenue growth of \$33 million in the Southern and Eastern European markets during the year ended December 31, 2010 largely due to an increase in sales volume in the liquid dairy, food packaging and juice markets due to higher demand. The increase was partially offset by a \$13 million revenue decrease in the Western European market largely due to lower volumes from a market shift to the use of lower cost PET instead of cartonboard in the juice market.

Revenue in the rest of the world increased by \$206 million, or 37%, to \$757 million for the year ended December 31, 2010 compared to \$551 million for the year ended December 31, 2009. The increase in revenue is partially attributable to \$82 million of incremental revenue generated from the operations of the Whakatane paper mill which was acquired in May 2010. Additionally, revenue increased by \$147 million mainly due to an increase in sales volume in China resulting from the recovery of consumer confidence in milk products following the melamine contamination of dairy products that occurred in 2008 in South America primarily due to new customers and in the Middle East primarily due to a significant increase in volume and the number of filler machines deployed to meet the needs of new customers. Revenue for the year ended December 31, 2010 included an unfavorable foreign currency impact of \$23 million largely attributable to the strengthening of the Thai baht and Brazilian real against the dollar.

Cost of Sales. Cost of sales increased by \$124 million, or 10%, to \$1,382 million for the year ended December 31, 2010 compared to \$1,258 million for the year ended December 31, 2009. Cost of sales increased by \$187 million due to the impact of volume increases primarily attributable to the operations of the Whakatane paper mill as discussed above. The increase in cost of sales was partially offset by a \$64 million favorable foreign currency impact largely attributable to the weakening of the euro against the dollar. Raw materials costs, primarily resin and aluminum, increased by \$117 million during the year ended December 31, 2010. For the years ended December 31, 2010 and 2009, raw material costs accounted for 63% and 60% of SIG's cost of sales, respectively.

Gross Profit. Gross profit increased by \$54 million or 13% to \$464 million for the year ended December 31, 2010 compared to \$410 million for the year ended December 31, 2009. Gross profit margin for the year ended December 31, 2010 remained stable at 25% compared to the year ended December 31, 2009. Besides positive volume growth, the margin benefitted from improvement of the profit margin in China, due to relatively lower manufacturing costs as a result of a plant expansion in China, which yielded better fixed cost absorption. These were partially offset by increases in raw material costs that were not passed through to customers. Gross profit for the year ended December 31, 2010 reflected an unfavorable foreign currency impact of \$8 million compared to the year ended December 31, 2009, largely attributable to the weakening of the euro against the dollar.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$11 million, or 5%, to \$235 million for the year ended December 31, 2010 compared to \$224 million for the year ended December 31, 2009 primarily due to \$9 million in additional expenses related to SIG's developing business in the growing China and South American markets.

Other. Other expenses reflect a \$26 million decline in restructuring expenses related to redundancy and related consulting costs.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$267 million, \$510 million and \$513 million, respectively, compared to \$190 million, \$440 million and \$475 million, respectively, for the year ended December 31, 2009.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the SIG segment is as follows:

	For the Year Ended December 31, 2010 2009 (In \$ million)	
Profit from operating activities	267	190
Depreciation and amortization	243	250
EBITDA	510	440
Included in SIG segment EBITDA:		
Asset impairment charges (reversals)	(1)	6
Equity method profit not distributed in cash	(11)	(8)
(Gain) on sale of businesses and investment properties	(6)	
Restructuring costs	11	38
Unrealized gain on derivatives		(4)
VAT and customs duties on historical imports	10	3
SIG segment Adjusted EBITDA	513	475

Evergreen Segment

	For the Year Ended December 31,					
	2010	% of Segment Revenue	2009	% of Segment Revenue	Change	% Change
	(In \$ million, except for %)					
Segment revenue	1,583	100%	1,429	100%	154	11%
Cost of sales	(1,374)	(87)%	(1,053)	(74)%	(321)	30%
Gross profit	209	13%	376	26%	(167)	(44)%
Selling, marketing and distribution expense General and administration expense	(94)	(6)%	(83)	(6)%	(11)	13%
Net other income (expense)	27	2%	(2)	%	29	NM
Profit from operating activities	144	9%	293	21%	(149)	(51)%
Evergreen segment EBITDA	206	13%	357	25%	(151)	(42)%
Evergreen segment Adjusted EBITDA	196	12%	167	12%	29	17%

Revenue. Revenue increased by \$154 million, or 11%, to \$1,583 million for the year ended December 31, 2010 compared to \$1,429 million for the year ended December 31, 2009. This increase was largely attributable to a \$80 million increase in external sales of liquid packaging board and an increase of \$75 million in sales of paper products, partially offset by a \$1 million decrease in sales of cartons. The increase in sales of liquid packaging board is due to higher sales volume of \$62 million, resulting from higher consumer demand due to the recovery from the economic slowdown experienced in the year ended December 31, 2009, and \$18 million of higher sales prices as a result of the pass through of raw material price fluctuations to customers. The increase in sales of paper products is due to higher volume of \$56 million and higher sales prices of \$19 million as demand for envelopes and other commercial paper products recovered from the economic slowdown experienced in the year ended December 31, 2009. The decline in sales of cartons is due to a decrease in volume of \$18 million due to lower customer demand, partially offset by higher prices of \$17 million as a result of the pass through of raw material price fluctuations to customers.

Table of Contents

Cost of Sales. Cost of sales increased by \$321 million, or 30%, to \$1,374 million for the year ended December 31, 2010 compared to \$1,053 million for the year ended December 31, 2009. The increase in cost of sales is mainly attributable to the recognition of \$10 million of Black Liquor Credit for the year ended December 31, 2010 compared to \$214 million of Black Liquor Credit for the year ended December 31, 2009. For further information on Black Liquor Credit see Key Factors Influencing Our Financial Condition and Results of Operations Raw Materials and Energy Prices.

Excluding the impact of Black Liquor Credit, cost of sales would have increased by \$117 million, or 9%, to \$1,384 million for the year ended December 31, 2010 compared to \$1,267 million for the year ended December 31, 2009. The increase in cost of sales would have been attributable to a \$136 million increase related to higher sales volume, primarily of liquid packaging board and paper products, partially offset by a \$19 million benefit from cost savings initiatives. Excluding the impact of Black Liquor Credit, raw material costs for the years ended December 31, 2010 and 2009 accounted for 41% and 42% of Evergreen's cost of sales, respectively.

Gross Profit. Gross profit decreased by \$167 million, or 44%, to \$209 million for the year ended December 31, 2010 compared to \$376 million for the year ended December 31, 2009. Gross profit margin for the year ended December 31, 2010 decreased to 13% of the segment's revenue compared to 26% for the year ended December 31, 2009. This decrease was due to a decline in the impact of Black Liquor Credit on cost of sales as discussed above.

Excluding the impact of Black Liquor Credit, gross profit would have been 13% of the segment's revenue for the year ended December 31, 2010 compared to 11% for the year ended December 31, 2009. This improvement in gross profit margin was largely driven by higher sales volume, partially offset by an increase in raw material costs and other input costs as a result of the lag time between the purchase of raw materials by Evergreen and the pass through of raw material price fluctuations to customers.

Evergreen's gross profit has been in the past, and will continue to be in the future, impacted by changes in the costs of raw materials, including fiber, resin and commodity chemicals, and energy, including fuel oil, electricity, natural gas and coal. Evergreen purchases most of its raw materials on the spot market and generally cannot immediately pass through price increases or declines to its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Evergreen's purchases of raw materials from its suppliers and sales to its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$11 million, or 13%, to \$94 million for the year ended December 31, 2010 compared to \$83 million for the year ended December 31, 2009, largely due to increased compensation expense.

Other. Net other expenses decreased by \$29 million to net other income of \$27 million for the year ended December 31, 2010 compared to net other expense of \$2 million for the year ended December 31, 2009 due to an \$11 million decline in operational process engineering-related consultancy costs, an increase in by-product sales of \$7 million, a \$2 million gain on sale of businesses, a \$6 million decline in asset impairment charges and a \$3 million decrease in restructuring charges incurred in 2009 due to exit costs and the disposal of certain manufacturing facilities.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$144 million, \$206 million and \$196 million, respectively, compared to \$293 million, \$357 million and \$167 million, respectively, for the year ended December 31, 2009.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the Evergreen segment is as follows:

	For the Year Ended December 31, 2010 2009 (In \$ million)	
Profit from operating activities	144	293
Depreciation and amortization	62	64
EBITDA	206	357

Write-down of assets held for sale		1
Write-off of receivables related to the sale of Venezuela operations		1
Evergreen segment Adjusted EBITDA	196	167

Closures Segment

	For the Year Ended December 31,					
	2010	% of Segment Revenue	2009	% of Segment Revenue	Change	% Change
	(In \$ million, except for %)					
Segment revenue	1,174	100%	980	100%	194	20%
Cost of sales	(989)	(84)%	(819)	(84)%	(170)	21%
Gross profit	185	16%	161	16%	24	15%
Selling, marketing and distribution expense/General and administration expense	(96)	(8)%	(87)	(9)%	(9)	10%
Net other income (expense)	7	1%	8	1%	(1)	(13)%
Profit from operating activities	96	8%	82	8%	14	17%
Closures segment EBITDA	175	15%	155	16%	20	13%
Closures segment Adjusted EBITDA	170	14%	148	15%	22	15%

Revenue. Revenue increased by \$194 million, or 20%, to \$1,174 million for the year ended December 31, 2010 compared to \$980 million for the year ended December 31, 2009. As discussed in more detail below, \$73 million of this increase in revenue was due to increased sales volumes, largely attributable to market growth in Europe and Asia. In addition, the increase in revenue is also attributable to \$52 million of incremental revenue generated from the operations of CSI Americas which was acquired in February 2010. Favorable foreign

Table of Contents

currency impact also increased revenue by \$25 million primarily due to the strengthening of the Japanese yen, Mexican peso and Brazilian real against the dollar.

Closures revenue is also impacted by changes in product mix and pricing related to the pass-through of resin price increases to customers. Within its beverage caps and closures market, Closures sells both a short height closure and a traditional two-piece closure. Prices are generally lower on the short height closure compared to the traditional two-piece closure, therefore, product mix in the period directly impacts revenue. In addition, contractual price adjustments with customers do not occur simultaneously with actual resin purchase price fluctuations, but rather on a monthly, quarterly, semi-annual or other basis. Therefore, due to the differences in timing between Closures purchase of resin from its suppliers and sales of closures to its customers, pricing related to the pass-through of resin price fluctuations to customers also directly impacts revenue. The net increase in revenue as a result of product mix and pricing related to the pass-through of resin price increases to customers was \$44 million.

Revenue from North America increased by \$103 million, or 29%, to \$464 million for the year ended December 31, 2010 compared to \$361 million for the year ended December 31, 2009. This increase was primarily attributable to \$52 million of incremental revenue generated from the operations of CSI Americas. In addition, higher sales volume, primarily due to increased market share in North America, increased revenue by \$6 million. Favorable foreign currency impact increased revenue by \$9 million, primarily due to the strengthening of the Mexican peso against the dollar. The net increase in revenue as a result of changes in product mix and pricing related to the pass-through of resin price increases to customers was \$36 million.

Revenue in the rest of the world markets increased by \$92 million, or 15%, to \$711 million for the year ended December 31, 2010 compared to \$619 million for the year ended December 31, 2009. Increased volume, largely attributable to growth in Europe and Asia, contributed \$68 million to the increase in revenue. These increases were primarily attributable to increased market penetration, introduction of new products, including short height closures, and increased market share in Europe and Asia. Favorable foreign currency impact, primarily due to the strengthening of the Japanese yen and Brazilian real against the dollar, increased revenue in the rest of the world by \$16 million. The net increase in revenue as a result of changes in product mix and pricing related to the pass-through of resin price increases to customers was \$8 million.

Cost of Sales. Cost of sales increased by \$170 million, or 21%, to \$989 million for the year ended December 31, 2010 compared to \$819 million for the year ended December 31, 2009. The increase in cost of sales was primarily attributable to a \$57 million increase due to higher sales volumes, as discussed above, as well as \$49 million of incremental costs associated with the operations of CSI Americas. In addition, unfavorable foreign currency impact increased cost of sales by \$21 million, primarily due to the strengthening of the Japanese yen, Mexican peso and Brazilian real against the dollar.

Closures cost of sales is also impacted by changes in product mix and raw material costs. Gross raw materials costs, primarily resin, increased by \$130 million for the year ended December 31, 2010 compared to the year ended December 31, 2009, a significant portion of which is passed through to Closures customers as discussed above. The net increase in cost of sales as a result of changes in product mix and increases in raw material costs was \$42 million. For the years ended December 31, 2010 and 2009, raw material costs accounted for 59% and 55% of Closures cost of sales, respectively.

Gross Profit. Gross profit increased by \$24 million, or 15%, to \$185 million for the year ended December 31, 2010 compared to \$161 million for the year ended December 31, 2009 and gross profit margin remained flat at 16% for the year ended December 31, 2010 compared to the year ended December 31, 2009.

Gross profit increased by \$16 million as a result of sales volume growth and \$3 million as a result of incremental gross profit generated from the operations of CSI Americas which was acquired in February 2010. Favorable foreign currency impact increased gross profit by \$4 million, primarily due to the strengthening of the Japanese yen, Mexican peso and Brazilian real against the dollar. These increases were partially offset by the net impact of increased raw material costs, changes in product mix and pricing related to the pass-through of resin price increases to customers as discussed above.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$9 million, or 10%, to

Table of Contents

\$96 million for the year ended December 31, 2010 compared to \$87 million for the year ended December 31, 2009. This increase was largely due to \$3 million of higher amortization expense primarily as a result of the implementation of software during the second half of 2009, as well as \$4 million of higher advertising and other marketing expenses primarily associated with market expansion.

Other. Other income included a gain of \$10 million on the purchase of CSI Americas in February 2010 and \$3 million of restructuring costs. The results of operations for the year ended December 31, 2009 included \$10 million of unrealized gains on derivative instruments and \$3 million of restructuring costs. These items have been included in the segment's Adjusted EBITDA calculation.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$96 million, \$175 million and \$170 million, respectively, compared to \$82 million, \$155 million and \$148 million, respectively, for the year ended December 31, 2009.

EBITDA/Adjusted EBITDA Reconciliation

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the Closures segment is as follows:

	For the Year Ended December 31, 2010 2009 (In \$ million)	
Profit from operating activities	96	82
Depreciation and amortization	79	73
EBITDA	175	155
Included in Closures segment EBITDA:		
Business acquisition costs	1	
Business interruption costs	2	
CSI Americas gain on acquisition	(10)	
Restructuring costs	3	3
Unrealized gain on derivatives	(1)	(10)
Closures segment Adjusted EBITDA	170	148

Reynolds Consumer Products Segment

	For the Year Ended December 31,					
	2010(1)	% of Segment Revenue	2009(2)	% of Segment Revenue	Change	% Change

Reynolds Consumer Products segment EBITDA	276	20%	254	21%	22	9%
Reynolds Consumer Products segment Adjusted EBITDA	299	22%	280	24%	19	7%

Table of Contents

(1) Represents the results of operations for Reynolds Consumer Products for the full year ended December 31, 2010 which includes the results of operations of the Hefty consumer products business for the period from November 16, 2010 to December 31, 2010.

(2) Represents the results of operations for Reynolds Consumer Products for the full year ended December 31, 2009, which consists of the results of operations for the Reynolds consumer products business and does not include the results of operations for the Hefty consumer products business acquired in November 2010 as part of the Pactiv Acquisition.

We acquired Pactiv on November 16, 2010. The operating results of the Hefty consumer products business have been included within the Reynolds Consumer Products segment since the consummation of the Pactiv Acquisition. For the period from November 16, 2010 to December 31, 2010, the Hefty consumer products business revenue, cost of sales, selling, marketing and distribution expenses/general and administration expenses, profit from operating activities, EBITDA and Adjusted EBITDA included in the Reynolds Consumer Products segment were \$177 million, \$156 million, \$17 million, \$4 million, \$17 million and \$42 million, respectively.

Revenue. Revenue increased by \$188 million, or 16%, to \$1,378 million for the year ended December 31, 2010 compared to \$1,190 million for the year ended December 31, 2009. This increase was largely attributable to \$177 million of incremental revenue from waste and storage and tableware products generated from the operations of the Hefty consumer products business which was acquired as part of the Pactiv Acquisition in November 2010. The remaining \$11 million increase in revenue was mainly due to an increase in selling prices resulting from the pass-through of resin price increases to customers and increases in sales volume, partially offset by a decrease in revenue resulting from the planned exit from certain low margin or unprofitable product lines in the second half of 2009.

Cost of Sales. Cost of sales increased by \$83 million, or 9%, to \$1,051 million for the year ended December 31, 2010 compared to \$968 million for the year ended December 31, 2009. The increase in cost of sales was due to incremental cost of sales of \$156 million incurred by the Hefty consumer products business, which included purchase price accounting adjustments of \$25 million for inventories acquired as part of the Pactiv Acquisition. The increase was partially offset by realized hedging losses recognized for the year ended December 31, 2009, partially offset by increased raw material costs for the year ended December 31, 2010. Cost of sales for the year ended December 31, 2009 was negatively impacted by realized losses of \$91 million related to the settlement of unfavorable aluminum hedge positions under the segment's historical hedging policy, which has since been terminated. As a result of this hedging policy and the steep decline in the price of aluminum during the second half of 2008 and into early 2009, Reynolds Consumer Products realized \$91 million of hedging losses, which is reflected in cost of sales for the year ended December 31, 2009.

Excluding the impact of the realized losses related to the unfavorable aluminum hedge positions in 2009 and the increased cost of sales incurred by the Hefty consumer products business which was acquired in November 2010, cost of sales would have increased by \$18 million from \$877 million for the year ended December 31, 2009 to \$895 million for the year ended December 31, 2010. This increase would have been primarily due to increased raw material costs, which increased by approximately \$22 million and represented 58% of cost of sales for the year ended December 31, 2009 compared to 59% of cost of sales for the year ended December 31, 2010.

Gross Profit. Gross profit increased by \$105 million, or 47%, to \$327 million for the year ended December 31, 2010 compared to \$222 million for the year ended December 31, 2009, with the gross profit margin for the year ended December 31, 2010 increasing to 24% of the segment's revenue compared to 19% for the year ended December 31, 2009. The increase in gross profit reflects the incremental gross profit of \$21 million generated from the operations of the Hefty consumer products business which was acquired as part of the Pactiv Acquisition in November 2010, and takes into effect the negative impact of purchase price accounting adjustments as discussed above. Gross profit and gross profit margin also increased due to the impact of the realized losses associated with the settlement of unfavorable aluminum hedge positions as discussed above.

Table of Contents

Excluding the impact of these items, gross profit margin would have been 26% for the year ended December 31, 2010, consistent with the year ended December 31, 2009. This decrease is primarily due to increased raw material costs that Reynolds Consumer Products has not been able to fully pass through to its customers.

Reynolds Consumer Products' gross profit has been in the past, and will continue to be in the future, impacted by changes in the costs of raw materials, including resin and aluminum. Reynolds Consumer Products generally cannot immediately pass through price increases or declines to its customers because the contractual price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. For most resin based products, there is a lag time between the purchase of raw materials by Reynolds Consumer Products and the pass-through of raw material price fluctuations to customers. For aluminum based products, contracts with customers do not contain contractual price protection for raw material cost fluctuations. Due to the differences in timing between Reynolds Consumer Products' purchases of resin from its suppliers and sales to its customers, there is often a lead-lag impact, during which margins are negatively impacted in periods of rising resin prices and positively impacted in periods of falling resin prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses decreased by \$10 million, or 8%, to \$116 million for the year ended December 31, 2010 compared to \$126 million for the year ended December 31, 2009. The decrease in selling, marketing and distribution expenses and general and administration expenses was primarily due to the costs incurred in the year ended December 31, 2009 related to the transition from Alcoa's systems, networks and services to those of Reynolds Consumer Products and costs related to a flood at one of the segment's locations, partially offset by additional expenses of \$17 million attributable to the Hefty consumer products business.

Other. Net other income decreased by \$92 million to \$3 million net other income compared to \$95 million net other income for the year ended December 31, 2009. The decrease in other income reflects a decrease of \$100 million in unrealized gains on open aluminum hedge positions and a decrease of \$9 million in restructuring costs associated with plant rationalizations.

Profit from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, profit from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$214 million, \$276 million and \$299 million, respectively, compared to \$191 million, \$254 million and \$280 million, respectively, for the year ended December 31, 2009.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the Reynolds Consumer Products segment is as follows:

	For the Year Ended December 31,	
	2010(1)	2009(2)
	(In \$ million)

Table of Contents

(1) Represents the results of operations of Pactiv Foodservice for the full year ended December 31, 2010 which includes the results of operations of the Pactiv foodservice packaging business for the period from November 16, 2010 to December 31, 2010.

(2) Represents the results of operations of Pactiv Foodservice for the full year ended December 31, 2009, which consists of the results of operations for the Reynolds foodservice packaging business and does not include the results of operations for the Pactiv foodservice packaging business acquired in November 2010 as part of the Pactiv Acquisition.

We acquired Pactiv on November 16, 2010. The operating results of the Pactiv foodservice packaging business have been included within the Pactiv Foodservice segment since the consummation of the Pactiv Acquisition. For the period from November 16, 2010 to December 31, 2010, the Pactiv foodservice packaging business revenues, cost of sales, selling, marketing and distribution expenses/general and administration expenses, loss from operating activities, loss before interest, taxes, depreciation and amortization and Adjusted EBITDA included in the Pactiv Foodservice segment for 2010 were \$304 million, \$288 million, \$34 million, \$38 million, \$9 million and \$49 million, respectively.

Revenue. Revenue increased by \$185 million, or 25%, to \$924 million for the year ended December 31, 2010 compared to \$739 million for the year ended December 31, 2009. This increase was largely attributable to \$304 million of incremental revenue generated from foam, tableware, and specialty products generated from the operations of the Pactiv foodservice packaging business which was acquired as part of the Pactiv Acquisition in November 2010. Prior to this acquisition, none of these products were offered by the Reynolds foodservice packaging business. Clear plastics, paper and aluminum product offerings were also significantly expanded as a result of the Pactiv Acquisition. Excluding the incremental revenue associated with the Pactiv Acquisition, revenue decreased by \$118 million due to a decline in revenue of \$76 million due to the sale of Pactiv Foodservice's envelope window film business in January 2010, \$69 million due to lower sales volume resulting from planned exits from non-core and lower margin products in 2009, and an overall decrease in demand of \$39 million due to depressed market conditions in the United States. These decreases were partially offset by improved pricing of \$66 million from the flow-through of resin price increases to customers.

Cost of Sales. Cost of sales increased by \$167 million, or 24%, to \$859 million for the year ended December 31, 2010 compared to \$692 million for the year ended December 31, 2009. The increase is primarily attributable to the incremental cost of sales of \$288 million incurred by the Pactiv foodservice packaging business that was acquired as part of the Pactiv Acquisition in November 2010, including the negative impact of \$38 million related to the fair value adjustment of inventories acquired which were subsequently sold in the normal course of business.

Excluding the incremental cost of sales incurred by the Pactiv foodservice packaging business, cost of sales decreased by \$121 million, primarily as a result of the sale of Pactiv Foodservice's envelope window film business in January 2010 and exits from non-core and lower margin products.

Pactiv Foodservice experienced increases in the purchase price of raw materials, primarily resin and aluminum, for the year ended December 31, 2010 compared to the year ended December 31, 2009. However, raw material costs accounted for 61% and 65% of Pactiv Foodservice's cost of sales, respectively, for the same periods. This decrease in raw material costs as a percentage of cost of sales is primarily attributable to increased depreciation and amortization expense as a result of increases in the fair values of property, plant and equipment that were acquired as part of the Pactiv Acquisition. Raw material costs for the year ended December 31, 2010 increased by \$77 million compared to the year ended December 31, 2009, primarily due to \$141 million of incremental raw material costs incurred by the Pactiv foodservice packaging business, partially offset by a \$64 million decrease in raw material costs as a result of the sale of Pactiv Foodservice's envelope window film business in January 2010 and the exit from non-core and lower margin products.

Gross Profit. Gross profit increased by \$18 million, or 38%, to \$65 million for the year ended December 31, 2010 compared to \$47 million for the year ended December 31, 2009, with gross profit margin for the year ended December 31, 2010 increasing to 7% of the segment's revenue compared to 6% for the year ended December 31, 2009. This increase in gross profit was largely attributable to \$15 million of incremental gross

Table of Contents

profit generated from the operations of the Pactiv foodservice packaging business which was acquired as part of the Pactiv Acquisition in November 2010. The gross profit margin impact attributable to the Pactiv foodservice packaging business includes a negative impact of \$38 million related to the fair value adjustment of inventories acquired which were subsequently sold in the normal course of business.

Excluding the impact from this fair value adjustment in inventories acquired, gross profit margin would have increased by \$56 million, or 119%, to \$103 million for the year ended December 31, 2010 compared to \$47 million for the year ended December 31, 2009. Gross profit margin would have increased to 11% of the segment's revenue for the year ended December 31, 2010 compared to 6% for the year ended December 31, 2009.

Excluding the incremental gross profit associated with the Pactiv foodservice packaging business that was acquired as part of the Pactiv Acquisition in November 2010, gross profit would have increased by \$3 million and gross profit margin would have increased to 8% of the segment's revenue for the year ended December 31, 2010 compared to 6% for the year ended December 31, 2009. This increase would have been driven by productivity efficiencies and the exit from lower margin products as discussed above.

Pactiv Foodservice's gross profit has been in the past, and will continue to be in the future, impacted by changes in the costs of raw materials, including resin and aluminum. Pactiv Foodservice generally cannot immediately pass through price increases or declines to its customers because the price adjustments do not occur simultaneously with market price fluctuations, but rather on a mutually agreed upon schedule. Due to the differences in timing between Pactiv Foodservice's purchases of raw materials from its suppliers and sales to its customers, there is often a lead-lag impact, with margins being negatively impacted in periods of rising raw material prices and positively impacted in periods of falling raw material prices.

Selling, Marketing and Distribution Expenses/General and Administration Expenses. Selling, marketing and distribution expenses and general and administration expenses increased by \$30 million, or 60%, to \$80 million for the year ended December 31, 2010 compared to \$50 million for the year ended December 31, 2009. The increase in selling, marketing and distribution expenses and general and administration expenses was primarily due to additional expenses of \$34 million attributable to the operations of the Pactiv foodservice packaging business, which was partially offset by benefits from previously implemented restructuring programs related to headcount reductions.

Other. Net other expenses increased by \$31 million to \$26 million net other expense compared to \$5 million net other income for the year ended December 31, 2009. The increase in other expenses was mainly attributed to an increase of \$28 million in impairment charges, comprised of \$23 million in impairment charges related to plant closures attributable to the integration of the Pactiv foodservice packaging business which was acquired as part of the Pactiv Acquisition in November 2010, \$7 million in impairment charges on assets classified as held-for-sale, a decrease of \$12 million of unrealized gains on open hedge positions of aluminum and resin due to changes in fair value and an increase of \$7 million related to the termination of redundant supply agreements. This was partially offset by a decrease of \$10 million in severance expense as part of a restructuring initiative and an increase of \$8 million resulting from a gain on sale of a business.

Loss from Operating Activities, EBITDA and Adjusted EBITDA. As a result of the above factors, loss from operating activities, EBITDA and Adjusted EBITDA for the year ended December 31, 2010 were \$41 million, \$17 million and \$81 million, respectively, compared to a profit from operating activities of \$2 million, EBITDA of \$54 million and Adjusted EBITDA of \$60 million for the year ended December 31, 2009.

Table of Contents**EBITDA/Adjusted EBITDA Reconciliation**

The reconciliation of profit (loss) from operating activities to EBITDA and Adjusted EBITDA for the years ended December 31, 2010 and December 31, 2009 for the Pactiv Foodservice segment is as follows:

	For the Year Ended December 31, 2010 2009 (In \$ million)	
Profit (loss) from operating activities	(41)	2
Depreciation and amortization	58	52
EBITDA	17	54
Included in Pactiv Foodservice segment EBITDA:		
Asset impairment charges	29	1
Elimination of the effect of the historical Reynolds Consumer hedging policy		4
Gain on sale of businesses and investment properties	(8)	
Impact of purchase price accounting on inventories	38	
Inventory write-off arising on restructure		5
Restructuring costs (recoveries)	(1)	9
Termination of supply agreement	7	
Unrealized gain on derivatives	(1)	(13)
Pactiv Foodservice segment Adjusted EBITDA	81	60

Differences Between the RGHL Group and Beverage Packaging Holdings Group Results of Operations

There are certain differences between the RGHL Group's financial statements and the Beverage Packaging Holdings Group's financial statements, each included elsewhere in this prospectus. The Beverage Packaging Holdings Group consists of BP I, BP I's consolidated subsidiaries and BP II.

RGHL is a non-operating holding company. Consequently, there are no differences between the revenue and gross profit amounts presented in the RGHL Group's financial statements and the Beverage Packaging Holdings Group's financial statements. The differences in the reported profit (loss) before income tax between the RGHL Group's financial statements and the Beverage Packaging Holdings Group's financial statements are primarily due to related party interest income and expenses that are recognized by RGHL, intercompany amounts between RGHL and the members of the Beverage Packaging Holdings Group that eliminate on consolidation of the RGHL Group, foreign exchange movements on the related party balances of RGHL and incidental RGHL corporate expenses.

Differences between the RGHL Group's balance sheet and Beverage Packaging Holdings Group's balance sheet are primarily attributable to the related party receivables and borrowings of RGHL.

Table of Contents**Liquidity and Capital Resources*****Historical Cash Flows***

The following table discloses the RGHL Group's cash flows from continuing operations for the periods presented:

	For the Nine Month		For the Year Ended December 31,		
	Period Ended		2011(3)	2010(4)	2009(5)
	September 30,	September 30,	(In \$ million)		
	2012(1)	2011(2)			
Net cash flows from operating activities	531	163	443	383	770
Net cash used in investing activities	(339)	(2,388)	(2,502)	(4,588)	(135)
Net cash flows from (used in) financing activities	998	2,608	2,006	4,345	(501)

- (1) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products, Pactiv Foodservice and Graham Packaging for the nine month period ended September 30, 2012.
- (2) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the nine month period ended September 30, 2011. Includes the operations of Dopaco for the period from May 2, 2011 to September 30, 2011 and Graham Packaging for the period from September 8, 2011 to September 30, 2011.
- (3) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2011, the results of Graham Packaging from September 8, 2011 to December 31, 2011 and the results of Dopaco from May 2, 2011 to December 31, 2011.
- (4) Represents the results of operations of SIG, Evergreen, Closures, Reynolds Consumer Products and Pactiv Foodservice for the full year ended December 31, 2010. Reynolds Consumer Products and Pactiv Foodservice include the results of operations of the Hefty consumer products and Pactiv foodservice packaging businesses, respectively, for the period from November 16, 2010 to December 31, 2010.
