QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the Quarterly Period Ended March 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
Commission file number 001-11625

Pentair Ltd.

(Exact name of Registrant as specified in its charter)

Switzerland
(State or other jurisdiction of incorporation or organization)

98-1050812
(I.R.S. Employer Identification number)

Freier Platz 10, 8200 Schaffhausen, Switzerland
(Address of principal executive offices)

Registrant's telephone number, including area code: 41-52-630-48-00

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§223.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: PENTAIR LTD - Form 10-Q

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

On March 30, 2013, 204,522,310 shares of Registrant's common stock were outstanding.

Pentair Ltd. and Subsidiaries

Notes to condensed consolidated financial statements (unaudited)

1. Basis of Presentation and Responsibility for Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements of Pentair Ltd. and subsidiaries (we, us, our, Pentair, or the Company) have been prepared following the requirements of the U.S. Securities and Exchange Commission (SEC) for interim reporting. As permitted under those rules, certain footnotes or other financial information that are normally required by accounting principles generally accepted in the United States of America can be condensed or omitted.

We are responsible for the unaudited financial statements included in this document. The financial statements include all normal recurring adjustments that are considered necessary for the fair presentation of our financial position and operating results. As these are condensed financial statements, one should also read our consolidated financial statements and notes thereto, which are included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Revenues, expenses, cash flows, assets and liabilities can and do vary during each quarter of the year. Therefore, the results and trends in these interim financial statements may not be indicative of those for a full year.

Our fiscal year ends on December 31. We report our interim quarterly periods on a 13-week basis ending on a Saturday.

New Accounting Standards

In February 2013, the FASB issued authoritative guidance surrounding the presentation of items reclassified from *Accumulated other comprehensive income (loss)* (*AOCI*) to net income. This guidance requires entities to disclose, either in the notes to the consolidated financial statements or parenthetically on the face of the statement that reports comprehensive income, items reclassified out of AOCI and into net income in their entirety and the effect of the reclassification on each affected net income line item. In addition, for AOCI reclassification items that are not reclassified in their entirety into net income, a cross reference to other required disclosures is required. This guidance was effective for fiscal years and interim periods beginning after December 15, 2012. The adoption of this guidance on January 1, 2013 did not impact our financial condition or results of operations. The reclassifications out of *AOCI* and into net income were not material for the three months ended March 30, 2013.

2. Acquisitions and Divestitures

Material acquisitions

Pentair Ltd., formerly known as Tyco Flow Control International Ltd. (as used prior to the Merger (as defined below), Flow Control), took its current form on September 28, 2012 as a result of a spin-off of Flow Control from its parent, Tyco International Ltd. (Tyco), and a reverse acquisition involving Pentair, Inc. Prior to the spin-off, Tyco engaged in an internal restructuring whereby it transferred to Flow Control certain assets related to the flow control business of Tyco, and Flow Control assumed from Tyco certain liabilities related to the flow control business of Tyco. On September 28, 2012 prior to the Merger, Tyco effected a spin-off of Flow Control through the pro-rata distribution of 100% of the outstanding common shares of Flow Control to Tyco s shareholders (the Distribution), resulting in the distribution of approximately 110.9 million of our common shares to Tyco s shareholders. Immediately following the Distribution, an indirect, wholly-owned subsidiary of ours merged with and into Pentair, Inc., with Pentair, Inc. surviving as an indirect, wholly-owned subsidiary of ours (the Merger). The Merger was accounted for as a reverse acquisition under the purchase method of accounting with Pentair, Inc. treated as the acquirer. Flow Control s net sales and income for the three months ending March 30, 2013 were \$888 million and \$22 million, respectively.

During the first quarter of 2013, the Company recorded fair value adjustments to its preliminary allocation of purchase price, including increases to accounts receivable, current liabilities, and net deferred tax liabilities and decreases to inventory, other current assets, property, plant and equipment and other non-current assets. These adjustments were applied retrospectively back to the date of the Merger. The net impact of those adjustments increased the preliminary allocation of goodwill by less than \$1 million.

Edgar Filing: PENTAIR LTD - Form 10-Q

The purchase price has been preliminarily allocated based on the estimated fair value of net assets acquired and liabilities assumed at the date of the Merger. The preliminary purchase price allocation is subject to further refinement and may require significant adjustments to arrive at the final purchase price allocation. These adjustments will primarily relate to accounts receivable, inventories, property, plant and equipment, certain contingent liabilities and income tax-related items. We expect the purchase price allocation to be completed in the third quarter of 2013. There can be no assurance that such finalization will not result in material changes from the preliminary purchase price allocation. The purchase price is subject to a working capital and net indebtedness adjustment.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)***

The following table summarizes our preliminary fair values of the assets acquired and liabilities assumed in the Merger:

In millions

Cash and cash equivalents	\$	692
Accounts and notes receivable		774
Inventories		1,045
Other current assets		98
Property, plant and equipment		820
Goodwill		2,526
Intangibles		1,425
Other non-current assets		275
Current liabilities		(865)
Long-term debt		(915)
Income taxes, including current and deferred		(361)
Other liabilities and redeemable noncontrolling interest		(591)
Total purchase price	\$	4,923

The excess of purchase price over tangible net assets and identified intangible assets acquired was allocated to goodwill in the amount of \$2,526 million. Goodwill has been preliminarily allocated to our reporting segments as follows: \$321 million to Water & Fluid Solutions, \$1,334 million to Valves & Controls and \$871 million to Technical Solutions. None of the goodwill recognized from the Merger is expected to be deductible for income tax purposes. Goodwill recognized from the Merger reflects the value of future income resulting from synergies of our combined operations. Identifiable intangible assets acquired as part of the Merger were \$1,425 million and include \$362 million of indefinite life trade name intangibles and the following definite-lived intangibles: \$906 million of customer relationships with a weighted average useful life of 14.2 years, \$116 million of proprietary technology with a weighted average useful life of 13.7 years and \$41 million of customer backlog with a weighted average useful life of less than one year.

Pro forma results of material acquisitions

The following unaudited pro forma condensed consolidated financial results of operations are presented as if the Merger had been completed on January 1, 2011:

<i>In millions, except per-share data</i>	Three months ended March 31, 2012	
Pro forma net sales	\$	1,857
Pro forma net income attributable to Pentair Ltd.		107
Diluted earnings per common share attributable to Pentair Ltd.		0.51
The 2012 unaudited pro forma net income excludes the impact of \$12 million of transaction related costs associated with the Merger.		

The pro forma consolidated financial information was prepared for comparative purposes only and includes certain adjustments, as noted above. The adjustments are estimates based on currently available information and actual amounts may have differed materially from these estimates.

Edgar Filing: PENTAIR LTD - Form 10-Q

They do not reflect the effect of costs or synergies that would have been expected to result from the integration of Flow Control. The pro forma information does not purport to be indicative of the results of operations that actually would have resulted had the business combination occurred at the beginning of the period presented or of future results of the consolidated entities.

Other acquisitions

On October 4, 2012, we acquired, as part of Valves & Controls, the remaining 25% equity interest in Pentair Middle East Holding S.a.r.l. (KEF), a privately held company, for \$100 million in cash. Prior to the acquisition, we held a 75% equity interest in KEF, a vertically integrated valve manufacturer in the Middle East. There was no pro forma impact from this acquisition as the results of KEF were consolidated into Flow Control's financial statements prior to acquiring the remaining 25% interest in KEF.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)***

Additionally, during the year ended December 31, 2012, we completed other small acquisitions as part of Water & Fluid Solutions with purchase prices totaling \$121 million in cash, net of cash acquired. Total goodwill recorded as part of the purchase price allocations was \$81 million, \$67 million of which is tax deductible.

Divestitures

During the first quarter of 2013, we sold a business that was part of Technical Solutions for cash of \$30 million, net of transaction costs, resulting in a gain of \$17 million. Goodwill of \$5 million was included in the assets of the business sold. The sales price is subject to a working capital adjustment.

3. Share Plans

Total share-based compensation expense was \$10 million and \$5 million for the first quarter of 2013 and 2012, respectively. Total compensation expense for restricted stock units during the first quarter of 2013 and 2012 was \$7 million and \$3 million, respectively. Restricted stock units are valued at market value on the date of grant and are typically expensed over a three to four year vesting period. Total compensation expense for stock option awards was \$3 million and \$2 million for the first quarter of 2013 and 2012, respectively. Option awards are granted with an exercise price equal to the market price of our common shares on the date of grant. Option awards generally vest over a three-year period and are expensed over the vesting period.

During the first quarter of 2013, we issued our annual share-based compensation grants under the Pentair Ltd. 2012 Stock and Incentive Plan to eligible employees. The total number of awards issued was approximately 1.2 million, of which 0.9 million were stock options and 0.3 million were restricted stock units. The weighted-average grant date fair value of the stock options and restricted stock units issued was \$13.89 and \$50.60, respectively.

We estimated the fair value of each stock option award on the date of grant using a Black-Scholes option pricing model, modified for dividends and using the following assumptions:

	March 30, 2013	March 31, 2012
Risk-free interest rate	0.69%	0.96%
Expected dividend yield	2.01%	2.48%
Expected share price volatility	36.0%	36.5%
Expected term (years)	5.7	5.7

These estimates require us to make assumptions based on historical results, observance of trends in our share price, changes in option exercise behavior, future expectations and other relevant factors. If other assumptions had been used, share-based compensation expense, as calculated and recorded under the accounting guidance, could have been affected.

We based the expected life assumption on historical experience as well as the terms and vesting periods of the options granted. For purposes of determining expected share price volatility, we considered a rolling average of historical volatility measured over a period approximately equal to the expected option term. The risk-free interest rate for periods that coincide with the expected life of the options is based on the U.S. Treasury Department yield curve in effect at the time of grant.

4. Restructuring

During the three months ended March 30, 2013 and the year ended December 31, 2012, we initiated certain business restructuring initiatives aimed at reducing our fixed cost structure and realigning our business. The 2013 initiatives included the reduction in hourly and salaried headcount of approximately 400 employees, which included 100 in Water & Fluid Solutions, 100 in Valves & Controls and 200 in Technical Solutions. The 2012 initiatives included the reduction in hourly and salaried headcount of approximately 1,000 employees, which included 500 in Water & Fluid Solutions, 300 in Valves & Controls and 200 in Technical Solutions.

Table of Contents*Pentair Ltd. and Subsidiaries**Notes to condensed consolidated financial statements (unaudited)*

Restructuring related costs included in *Selling, general and administrative* expenses in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) included costs for severance and other restructuring costs as follows:

<i>In millions</i>	Three months ended	
	March 30, 2013	March 31, 2012
Severance and related costs	\$ 20	\$
Other	2	
Total restructuring costs	\$ 22	\$

Total restructuring costs related to Water & Fluid Solutions, Valves & Controls and Technical Solutions were \$7 million, \$5 million and \$10 million, respectively, for the three months ended March 30, 2013.

Activity in the restructuring accrual recorded in *Other current liabilities* and *Employee compensation and benefits* in the Condensed Consolidated Balance Sheets is summarized as follows for the three months ended March 30, 2013:

<i>In millions</i>	March 30, 2013
Beginning balance	\$ 57
Costs incurred	20
Cash payments and other	(18)
Ending balance	\$ 59

5. Earnings Per Share

Basic and diluted earnings per share were calculated as follows:

<i>In millions, except per-share data</i>	Three months ended	
	March 30, 2013	March 31, 2012

Net income attributable to Pentair Ltd.	\$	52	\$	62
Weighted average common shares outstanding				
Basic		204.8		98.6
Dilutive impact of stock options and restricted stock units ⁽¹⁾		3.4		1.8
Diluted		208.2		100.4
Earnings per common share attributable to Pentair Ltd.				
Basic earnings per common share	\$	0.25	\$	0.63
Diluted earnings per common share	\$	0.25	\$	0.62
Anti-dilutive stock options and restricted stock units ⁽²⁾		1.0		2.5

(1) The incremental share impact from stock options and restricted stock units was computed using the treasury stock method.

(2) Stock options and restricted stock units that were not dilutive were excluded from our calculation of diluted weighted average shares.

Intangible asset amortization expense was approximately \$42 million and \$10 million for the three months ended March 30, 2013 and March 31, 2012, respectively.

In the fourth quarter of 2012, we recorded an impairment charge for trade name intangible assets of \$49 million and \$12 million in Water & Fluid Solutions and Technical Solutions, respectively.

Estimated future amortization expense for identifiable intangible assets during the remainder of 2013 and the next five years is as follows:

Total debt			2,598	2,457
Less: Current maturities and short-term borrowings			(6)	(3)
Long-term debt			\$ 2,592	\$ 2,454

The 1.35% Senior Notes due 2015, 1.875% Senior Notes due 2017, 2.65% Senior Notes due 2019, 5.00% Senior Notes due 2021 and 3.15% Senior Notes due 2022 (collectively, the Notes) were all issued in transactions exempt from the registration requirements of the Securities Act of 1933, as amended. In March 2013, Pentair Ltd. and our 100 percent-owned subsidiary, Pentair Finance S.A. (PFSA), filed a Registration Statement with the SEC offering to exchange the Notes for new, registered Notes. The exchange offer expired on April 19, 2013 and did not impact the aggregate principal amount of the Notes outstanding. The new, registered Notes issued in such exchange offer are guaranteed as to payment by Pentair Ltd.

In September 2012, Pentair, Inc. entered into a credit agreement providing for an unsecured, committed revolving credit facility (the Credit Facility) with initial maximum aggregate availability of up to \$1,450 million. PFSA is authorized to sell short-term commercial paper notes to the extent availability exists under the Credit Facility. PFSA uses the Credit Facility as back-up liquidity to support 100% of commercial paper outstanding. As of March 30, 2013 and December 31, 2012, we had \$527 million and \$425 million, respectively, of commercial paper outstanding, all of which was classified as long-term as we have the intent and the ability to refinance such obligations on a long-term basis under the Credit Facility.

Total availability under the Credit Facility was \$886 million as of March 30, 2013, which was not limited by any covenants contained in the Credit Facility's credit agreement.

Our debt agreements contain certain financial covenants, the most restrictive of which are in the Credit Facility, including that we may not permit (i) the ratio of our consolidated debt plus synthetic lease obligations to our consolidated net income (excluding, among other things, non-cash gains and losses) before interest, taxes, depreciation, amortization, non-cash share-based compensation expense, and up to \$40 million of costs and expenses incurred in connection with the Merger (EBITDA) for the four consecutive fiscal quarters then ended (the Leverage Ratio) to exceed 3.50 to 1.00 on the last day of each fiscal quarter, and (ii) the ratio of our EBITDA for the four consecutive fiscal quarters then ended to our consolidated interest expense, including consolidated yield or discount accrued as to outstanding securitization obligations (if any), for the same period to be less than 3.00 to 1.00 as of the end of each fiscal quarter. For purposes of the Leverage Ratio, the Credit Facility provides for

Edgar Filing: PENTAIR LTD - Form 10-Q

the calculation of EBITDA giving pro forma effect to the Merger and certain acquisitions, divestitures and liquidations during the period to which such calculation relates. As of March 30, 2013, we were in compliance with all financial covenants in our debt agreements.

In addition to the Credit Facility, we have various other credit facilities with an aggregate availability of \$88 million, of which \$3 million was outstanding at March 30, 2013. Borrowings under these credit facilities bear interest at variable rates.

Table of Contents*Pentair Ltd. and Subsidiaries**Notes to condensed consolidated financial statements (unaudited)*

Debt outstanding at March 30, 2013 matures on a calendar year basis as follows:

<i>In millions</i>	Q2 - Q4 2013	2014	2015	2016	2017	2018	Thereafter	Total
Contractual debt obligation maturities	\$ 3	\$	\$ 350	\$	\$ 917	\$	\$ 1,306	\$ 2,576
Capital lease obligations	3	3	6	1	1	1	7	22
Total maturities	\$ 6	\$ 3	\$ 356	\$ 1	\$ 918	\$ 1	\$ 1,313	\$ 2,598

Capital lease obligations relate primarily to land and buildings and consist of total future minimum lease payments of \$24 million less the imputed interest of \$2 million as of March 30, 2013.

As of March 30, 2013 and December 31, 2012, assets under capital lease were \$39 million and \$36 million, respectively, less accumulated amortization of \$6 million and \$6 million, respectively, all of which were included in *Property, plant and equipment, net* on the Condensed Consolidated Balance Sheets.

9. Derivatives and Financial Instruments*Derivative financial instruments*

We are exposed to market risk related to changes in foreign currency exchange rates and interest rates on our floating rate indebtedness. To manage the volatility related to these exposures, we periodically enter into a variety of derivative financial instruments. Our objective is to reduce, where it is deemed appropriate to do so, fluctuations in earnings and cash flows associated with changes in foreign currency rates and interest rates. The derivative contracts contain credit risk to the extent that our bank counterparties may be unable to meet the terms of the agreements. The amount of such credit risk is generally limited to the unrealized gains, if any, in such contracts. Such risk is minimized by limiting those counterparties to major financial institutions of high credit quality.

Interest rate swaps

During 2012, we used floating to fixed rate interest rate swaps to mitigate our exposure to future changes in interest rates related to our floating rate indebtedness. We designated these interest rate swap arrangements as cash flow hedges. As a result, changes in the fair value of the interest rate swaps were recorded in *AOCI* on the Condensed Consolidated Balance Sheets throughout the contractual term of each of the interest rate swap arrangements. During 2012, all of our interest rate swaps expired or were terminated and, as a result, we had no outstanding interest rate swap arrangements at December 31, 2012 or March 30, 2013.

Derivative gains and losses included in *AOCI* were reclassified into earnings at the time the related interest expense was recognized or the settlement of the related commitment occurred. Interest expense from swaps was \$2 million for the three months ended March 31, 2012 and was recorded in *Net interest expense* in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss).

In April 2011, as part of our planned debt issuance to fund the Clean Process Technologies (CPT) acquisition, we entered into interest rate swap contracts to hedge movement in interest rates through the expected date of closing for a portion of the expected fixed rate debt offering. The swaps had a notional amount of \$400 million with an average interest rate of 3.65%. In May 2011, upon the sale of the 2021 Notes, the swaps were terminated at a cost of \$11 million. Because we used the contracts to hedge future interest payments, this was recorded in *AOCI* in the

Edgar Filing: PENTAIR LTD - Form 10-Q

Condensed Consolidated Balance Sheets and will be amortized as interest expense over the 10 year life of the 2021 Notes. The ending unrealized net loss in *AOCI* was \$9 million at March 30, 2013 and December 31, 2012.

Foreign currency contracts

We conduct business in various locations throughout the world and are subject to market risk due to changes in the value of foreign currencies in relation to our reporting currency, the U.S. dollar. We manage our economic and transaction exposure to certain market-based risks through the use of foreign currency derivative financial instruments. Our objective in holding these derivatives is to reduce the volatility of net earnings and cash flows associated with changes in foreign currency exchange rates. The majority of our foreign currency contracts have an original maturity date of less than one year. At March 30, 2013 and December 31, 2012, we had outstanding foreign currency derivative contracts with gross notional U.S. dollar equivalent amounts of \$175 million and \$164 million, respectively. The impact of these contracts on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) is not material for any period presented.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)***

Gains or losses on foreign currency contracts designated as hedges are reclassified out of *AOCI* and into *Selling, general and administrative* expense in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) upon settlement. Such reclassifications during the first quarter of 2013 were not material.

Fair value measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

Level 1: Valuation is based on observable inputs such as quoted market prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: Valuation is based on inputs such as quoted market prices for similar assets or liabilities in active markets or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Valuation is based upon other unobservable inputs that are significant to the fair value measurement.

In making fair value measurements, observable market data must be used when available. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Fair value of financial instruments

The recorded amounts and estimated fair values of total debt, excluding the effects of derivative financial instruments, were as follows:

<i>In millions</i>	March 30, 2013		December 31, 2012	
	Recorded Amount	Fair Value	Recorded Amount	Fair Value
Variable rate debt	\$ 570	\$ 570	\$ 428	\$ 428
Fixed rate debt	2,028	2,067	2,029	2,081
Total debt	\$ 2,598	\$ 2,637	\$ 2,457	\$ 2,509

The following methods were used to estimate the fair values of each class of financial instrument measured on a recurring basis:

short-term financial instruments (cash and cash equivalents, accounts and notes receivable, accounts and notes payable and variable-rate debt) recorded amount approximates fair value because of the short maturity period;

Edgar Filing: PENTAIR LTD - Form 10-Q

long-term fixed-rate debt, including current maturities fair value is based on market quotes available for issuance of debt with similar terms, which are inputs that are classified as Level 2 in the valuation hierarchy defined by the accounting guidance; and

interest rate swaps and foreign currency contract agreements fair values are determined through the use of models that consider various assumptions, including time value, yield curves, as well as other relevant economic measures, which are inputs that are classified as Level 2 in the valuation hierarchy defined by the accounting guidance.

Table of Contents*Pentair Ltd. and Subsidiaries**Notes to condensed consolidated financial statements (unaudited)*

Financial assets and liabilities measured at fair value on a recurring basis were as follows:

<i>In millions</i>	March 30, 2013			Total
	Level 1	Level 2	Level 3	
Recurring fair value measurements				
Foreign currency contract assets	\$	\$	3	\$ 3
Foreign currency contract liabilities			(1)	(1)
Deferred compensation plan ⁽¹⁾		28		28
Total recurring fair value measurements		28	2	30

<i>In millions</i>	December 31, 2012			Total
	Level 1	Level 2	Level 3	
Recurring fair value measurements				
Foreign currency contract assets	\$	\$	3	\$ 3
Foreign currency contract liabilities			(1)	(1)
Deferred compensation plan ⁽¹⁾		23		23
Total recurring fair value measurements	\$	23	\$ 2	\$ 25

Nonrecurring fair value measurements					
Trade name intangibles ⁽²⁾	\$	\$	\$	64	\$ 64
Total nonrecurring fair value measurement	\$	\$	\$	64	\$ 64

(1) Deferred compensation plan assets include mutual funds and cash equivalents for payment of certain non-qualified benefits for retired, terminated and active employees. The fair value of these assets was based on quoted market prices in active markets.

(2) In the fourth quarter of 2012, we completed our annual intangible assets impairment review. As a result, we recorded a pre-tax non-cash impairment charge of \$61 million for trade names intangibles. The fair value of trade names is measured using the relief-from-royalty method. This method assumes the trade name has value to the extent that the owner is relieved of the obligation to pay royalties for the benefits received from them. This method requires us to estimate the future revenue for the related brands, the appropriate royalty rate and the weighted average cost of capital.

10. Income Taxes

Edgar Filing: PENTAIR LTD - Form 10-Q

The provision for income taxes consists of provisions for Swiss federal and international income taxes. We operate in an international environment with operations in various locations outside Switzerland. Accordingly, the consolidated income tax rate is a composite rate reflecting the earnings in the various locations and the applicable rates.

The effective income tax rate for the three months ended March 30, 2013 was 28.4% compared to 13.7% for the three months ended March 31, 2012. Our effective tax rate was higher due to the favorable resolution of U.S. federal and state tax audits during the three months ended March 31, 2012 which was not recurring during the three months ended March 30, 2013, and the timing of losses in jurisdictions where we recognize no tax benefits. The increases were partially offset by the mix of global earnings, including the impact of the Merger.

We continue to actively pursue initiatives to reduce our effective tax rate. The tax rate in any quarter can be affected positively or negatively by adjustments that are required to be reported in the specific quarter of resolution.

The liability for uncertain tax positions was \$55 million and \$54 million at March 30, 2013 and December 31, 2012, respectively. We record penalties and interest related to unrecognized tax benefits in *Provision for income taxes* and *Net interest expense*, respectively, on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss), which is consistent with our past practices.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)******Tax sharing agreement and other income tax matters***

In connection with the Distribution, we entered into a tax sharing agreement (the 2012 Tax Sharing Agreement) with Tyco and The ADT Corporation (ADT), which governs the rights and obligations of Tyco, ADT and us for certain pre-Distribution tax liabilities, including Tyco's obligations under a separate tax sharing agreement (the 2007 Tax Sharing Agreement) that Tyco, Covidien Ltd. (Covidien) and TE Connectivity Ltd. (TE Connectivity) entered into in 2007. The 2012 Tax Sharing Agreement provides that we, Tyco and ADT will share (i) certain pre-Distribution income tax liabilities that arise from adjustments made by tax authorities to our, Tyco's and ADT's U.S. income tax returns, and (ii) payments required to be made by Tyco in respect to the 2007 Tax Sharing Agreement (collectively, Shared Tax Liabilities). Tyco is responsible for the first \$500 million of Shared Tax Liabilities. We and ADT will share 42% and 58%, respectively, of the next \$225 million of Shared Tax Liabilities. We, ADT and Tyco will share 20%, 27.5% and 52.5%, respectively, of Shared Tax Liabilities above \$725 million.

In the event the Distribution, the spin-off of ADT, or certain internal transactions undertaken in connection therewith were determined to be taxable as a result of actions taken after the Distribution by us, ADT or Tyco, the party responsible for such failure would be responsible for all taxes imposed on us, ADT or Tyco as a result thereof. Taxes resulting from the determination that the Distribution, the spin-off of ADT, or any internal transaction is taxable are referred to herein as Distribution Taxes. If such failure is not the result of actions taken after the Distribution by us, ADT or Tyco, then we, ADT and Tyco would be responsible for any Distribution Taxes imposed on us, ADT or Tyco as a result of such determination in the same manner and in the same proportions as the Shared Tax Liabilities. ADT will have sole responsibility for any income tax liability arising as a result of Tyco's acquisition of Brink's Home Security Holdings, Inc. (BHS) in May 2010, including any liability of BHS under the tax sharing agreement between BHS and The Brink's Company dated October 31, 2008 (collectively, the BHS Tax Liabilities). Costs and expenses associated with the management of Shared Tax Liabilities, Distribution Taxes and BHS Tax Liabilities will generally be shared 20% by us, 27.5% by ADT and 52.5% by Tyco. We are responsible for all of our own taxes that are not shared pursuant to the 2012 Tax Sharing Agreement's sharing formulae. In addition, Tyco and ADT are responsible for their tax liabilities that are not subject to the 2012 Tax Sharing Agreement's sharing formulae.

The 2012 Tax Sharing Agreement also provides that, if any party were to default in its obligation to another party to pay its share of the distribution taxes that arise as a result of no party's fault, each non-defaulting party would be required to pay, equally with any other non-defaulting party, the amounts in default. In addition, if another party to the 2012 Tax Sharing Agreement that is responsible for all or a portion of an income tax liability were to default in its payment of such liability to a taxing authority, we could be legally liable under applicable tax law for such liabilities and required to make additional tax payments. Accordingly, under certain circumstances, we may be obligated to pay amounts in excess of our agreed-upon share of our, Tyco's and ADT's tax liabilities.

With respect to years prior to and including the 2007 separation of Covidien and TE Connectivity by Tyco, tax authorities have raised issues and proposed tax adjustments that are generally subject to the sharing provisions of the 2007 Tax Sharing Agreement and which may require Tyco to make a payment to a taxing authority, Covidien or TE Connectivity. With respect to adjustments raised by the IRS, although Tyco has resolved a substantial number of these adjustments, a few significant items remain open with respect to the audit of the 1997 through 2004 years. As of the date hereof, it is unlikely that Tyco will be able to resolve all the open items, which primarily involve the treatment of certain intercompany debt issued during the period, through the IRS appeals process. As a result, Tyco expects to litigate these matters once it receives the requisite statutory notices from the IRS, which may occur as soon as within the next three months. However, the ultimate resolution of these matters is uncertain and could result in Tyco being responsible for a greater amount than it expects under the 2007 Tax Sharing Agreement. To the extent we are responsible for any Shared Tax Liability or Distribution Tax, there could be a material adverse impact on our financial condition, results of operations, or cash flows in future reporting periods.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)*****11. Benefit Plans**

Components of net periodic benefit cost for our pension plans for the three months ended March 30, 2013 and March 31, 2012 were as follows:

<i>In millions</i>	Three months ended			
	U.S. pension plans		Non-U.S. pension plans	
	March 30, 2013	March 31, 2012	March 30, 2013	March 31, 2012
Service cost	\$ 4	\$ 3	\$ 2	\$ 1
Interest cost	3	7	5	1
Expected return on plan assets	(2)	(7)	(4)	
Net periodic benefit cost	\$ 5	\$ 3	\$ 3	\$ 2

Components of net periodic benefit cost for our other post-retirement plans for the three months ended March 30, 2013 and March 31, 2012 were not material.

12. Shareholders Equity***Share repurchases***

Prior to the closing of the Merger, our board of directors, and Tyco as our sole shareholder, authorized the repurchase of our common shares with a maximum aggregate value of \$400 million following the closing of the Merger. This authorization does not have an expiration date. On October 1, 2012, our board of directors authorized the repurchase of our common shares with a maximum aggregate value of \$800 million. This authorization expires on December 31, 2015 and is in addition to the \$400 million share repurchase authorization. As of March 30, 2013, we had \$726 million remaining available for share repurchases under these authorizations. During the quarter ended March 30, 2013, we repurchased 2.7 million of our common shares for \$140 million pursuant to these authorizations.

Dividends payable

Prior to the consummation of the Merger, our board of directors proposed, and Tyco as our then sole shareholder, authorized us to pay quarterly cash dividends through the first annual general meeting of our shareholders in 2013. The authorization provided that dividends of \$0.68 per share will be made out of our *Capital contribution reserve* equity position in our statutory accounts to our shareholders in quarterly installments of \$0.22 for the fourth quarter of 2012 and \$0.23 for each of the first and second quarters of 2013. The balance of dividends payable included in *Other current liabilities* on our Consolidated Balance Sheets was \$47 million at March 30, 2013.

On February 26, 2013, our board of directors recommended that our shareholders approve at our 2013 annual meeting of shareholders a proposal to pay quarterly cash dividends through the second quarter of 2014. The proposal provides that dividends of \$1.00 per share will be made out of our *Capital contribution reserve* equity position in our statutory accounts to our shareholders in quarterly installments of \$0.25 for each of the third and fourth quarters of 2013 and first and second quarters of 2014.

Consolidated	\$ 74	\$ 86

14. Commitments and Contingencies*Asbestos Matters*

Our subsidiaries and numerous other companies are named as defendants in personal injury lawsuits based on alleged exposure to asbestos-containing materials. These cases typically involve product liability claims based primarily on allegations of manufacture, sale or distribution of industrial products that either contained asbestos or were attached to or used with asbestos-containing components manufactured by third-parties. Each case typically names between dozens to hundreds of corporate defendants. While we have observed an increase in the number of these lawsuits over the past several years, including lawsuits by plaintiffs with mesothelioma-related claims, a large percentage of these suits have not presented viable legal claims and, as a result, have been dismissed by the courts. Our historical strategy has been to mount a vigorous defense aimed at having unsubstantiated suits dismissed, and, where appropriate, settling suits before trial. Although a large percentage of litigated suits have been dismissed, we cannot predict the extent to which we will be successful in resolving lawsuits in the future.

As of March 30, 2013, there were approximately 1,900 lawsuits pending against our subsidiaries. A lawsuit might include several claims, and we have approximately 2,300 claims outstanding as of March 30, 2013. This amount is not adjusted for claims that are not actively being prosecuted, identified incorrect defendants, or duplicated other actions, which would ultimately reflect our current estimate of the number of viable claims made against us, our affiliates, or entities for which we assumed responsibility in connection with acquisitions or divestitures. In addition, the amount does not include certain claims pending against third parties for which we have provided an indemnification.

Edgar Filing: PENTAIR LTD - Form 10-Q

Periodically, we perform an analysis with the assistance of outside counsel and other experts to update our estimated asbestos-related assets and liabilities. Our estimate of the liability and corresponding insurance recovery for pending and future claims and defense costs is based on our historical claim experience and estimates of the number and resolution cost of potential future claims that may be filed. Our legal strategy for resolving claims also impacts these estimates.

Our estimate of asbestos-related insurance recoveries represents estimated amounts due to us for previously paid and settled claims and the probable reimbursements relating to our estimated liability for pending and future claims. In determining the amount of insurance recoverable, we consider a number of factors, including available insurance, allocation methodologies and the solvency and creditworthiness of insurers.

Our estimated liability for asbestos-related claims was \$234 million and \$235 million as of March 30, 2013 and December 31, 2012, respectively, and was recorded in *Other non-current liabilities* in the Condensed Consolidated Balance Sheets for pending and future claims and related defense costs. Our estimated receivable for insurance recoveries was \$157 million as of March 30, 2013 and December 31, 2012 and was recorded in *Other non-current assets* in the Condensed Consolidated Balance Sheets.

Table of Contents***Pentair Ltd. and Subsidiaries******Notes to condensed consolidated financial statements (unaudited)***

The amounts recorded by us for asbestos-related liabilities and insurance-related assets are based on our strategies for resolving our asbestos claims and currently available information as well as estimates and assumptions. Key variables and assumptions include the number and type of new claims filed each year, the average cost of resolution of claims, the resolution of coverage issues with insurance carriers, the amounts of insurance and the related solvency risk with respect to our insurance carriers, and the indemnifications we have provided to third parties. Furthermore, predictions with respect to these variables are subject to greater uncertainty in the latter portion of the projection period. Other factors that may affect our liability and cash payments for asbestos-related matters include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms of state or federal tort legislation and the applicability of insurance policies among subsidiaries. As a result, actual liabilities or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in our calculations vary significantly from actual results.

Environmental Matters

We are involved in or have retained responsibility and potential liability for environmental obligations and legal proceedings related to our current business and, including pursuant to certain indemnification obligations, related to certain formerly owned businesses. Our accruals for environmental matters are recorded on a site-by-site basis when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law and existing technologies. Based upon our experience, current information regarding known contingencies and applicable laws, we have recorded reserves for these environmental matters of \$36 million as of March 30, 2013 and December 31, 2012. We do not anticipate these environmental conditions will have a material adverse effect on our financial position, results of operations or cash flows.

Warranties and guarantees

In connection with the disposition of our businesses or product lines, we may agree to indemnify purchasers for various potential liabilities relating to the sold business, such as pre-closing tax, product liability, warranty, environmental, or other obligations. The subject matter, amounts and duration of any such indemnification obligations vary for each type of liability indemnified and may vary widely from transaction to transaction. Generally, the maximum obligation under such indemnifications is not explicitly stated and as a result, the overall amount of these obligations cannot be reasonably estimated. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our financial condition or results of operations.

We recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee.

We provide service and warranty policies on our products. Liability under service and warranty policies is based upon a review of historical warranty and service claim experience. Adjustments are made to accruals as claim data and historical experience warrant.

The changes in the carrying amount of service and product warranties for the three months ended March 30, 2013 were as follows:

<i>In millions</i>	March 30, 2013
Beginning balance	\$ 54
Service and product warranty provision	12
Payments	(13)
Ending balance	\$ 53

Stand-by Letters of Credit, Bank Guarantees and Bonds

Edgar Filing: PENTAIR LTD - Form 10-Q

In certain situations, Tyco guaranteed Flow Control's performance to third parties or provided financial guarantees for financial commitments of Flow Control. In situations where Flow Control and Tyco were unable to obtain a release from these guarantees in connection with the spin-off, we will indemnify Tyco for any losses it suffers as a result of such guarantees.

In disposing of assets or businesses, we often provide representations, warranties and indemnities to cover various risks including unknown damage to the assets, environmental risks involved in the sale of real estate, liability to investigate and remediate environmental contamination at waste disposal sites and manufacturing facilities and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not have the ability to reasonably estimate the potential liability due to the inchoate and unknown nature of these potential liabilities. However, we have no reason to believe that these uncertainties would have a material adverse effect on our financial position, results of operations or cash flows.

Pentair Ltd. and Subsidiaries

Notes to condensed consolidated financial statements (unaudited)

In the ordinary course of business, we are required to commit to bonds, letters of credit and bank guarantees that require payments to our customers for any non-performance. The outstanding face value of these instruments fluctuates with the value of our projects in process and in our backlog. In addition, we issue financial stand-by letters of credit primarily to secure our performance to third parties under self-insurance programs.

As of March 30, 2013 and December 31, 2012, the outstanding value of bonds, letters of credit and bank guarantees totaled \$514 million and \$493 million, respectively.

15. Financial Statements of Parent Company Guarantor

Pentair Ltd. (the Parent Company Guarantor), fully and unconditionally, guarantees the Notes of Pentair Finance S.A. (the Subsidiary Issuer). The Subsidiary Issuer is a Luxembourg public limited liability company formed in January 2012 and 100 percent-owned subsidiary of the Parent Company Guarantor.

The following supplemental financial information sets forth the financial information of:

Parent Company Guarantor;

Subsidiary Issuer;

Non-guarantor subsidiaries of Pentair Ltd. on a combined basis;

Consolidating entries and eliminations representing adjustments to:

- a. eliminate intercompany transactions between or among the Parent Company Guarantor, the Subsidiary Issuer and the non-guarantor subsidiaries;
- b. eliminate the investments in subsidiaries; and
- c. record consolidating entries.

Pentair Ltd. and subsidiaries on a consolidated basis.

The following present the Company's Condensed Consolidating Statement of Operations and Comprehensive Income (Loss), Condensed Consolidating Balance Sheets and Condensed Consolidating Statement of Cash Flows. Since the Parent Company Guarantor and the Subsidiary Issuer were acquired in the Merger, there was no guarantee of the Notes in effect in prior periods. The historical consolidated financial statements of Pentair Ltd. prior to the Merger include all non-guarantor subsidiaries. Consequently, no consolidating financial information for the three months ended March 31, 2012 is presented.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS*****Forward-looking Statements***

This report contains statements that we believe to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact are forward-looking statements. Without limitation, any statements preceded or followed by or that include the words targets, plans, believes, expects, intends, will, likely, may, anticipates, estimates, projections, would, positioned, strategy, future or words, phrases or terms of similar substance or the negative thereof, are forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond our control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the ability to successfully integrate Pentair, Inc. and the Flow Control (as defined below) business and achieve expected benefits from the Merger (as defined below); overall global economic and business conditions; competition and pricing pressures in the markets we serve; the strength of housing and related markets; volatility in currency exchange rates and commodity prices; inability to generate savings from excellence in operations initiatives consisting of lean enterprise, supply management and cash flow practices; increased risks associated with operating foreign businesses; the ability to deliver backlog and win future project work; failure of markets to accept new product introductions and enhancements; the impact of changes in laws and regulations, including those that limit U.S. tax benefits; the outcome of litigation and governmental proceedings; and the ability to achieve our long-term strategic operating goals. Additional information concerning these and other factors is contained in our filings with the U.S. Securities and Exchange Commission (SEC), including in Item 1A of this Quarterly Report on Form 10-Q and our 2012 Annual Report on Form 10-K. All forward-looking statements speak only as of the date of this report. Pentair Ltd. assumes no obligation, and disclaims any obligation, to update the information contained in this report.

Overview

Pentair Ltd., formerly known as Tyco Flow Control International Ltd. (as used prior to the Merger, Flow Control), is a company organized under the laws of Switzerland. The terms us, we or our refer to Pentair Ltd. and its consolidated subsidiaries. Our business took its current form on September 28, 2012 as a result of a spin-off of Flow Control from its parent, Tyco International Ltd. (Tyco), and a reverse acquisition involving Pentair, Inc. Prior to the spin-off, Tyco engaged in an internal restructuring whereby it transferred to Flow Control certain assets related to the flow control business of Tyco, and Flow Control assumed from Tyco certain liabilities related to the flow control business of Tyco. On September 28, 2012 prior to the Merger, Tyco effected a spin-off of Flow Control through the pro-rata distribution of 100% of the outstanding common shares of Flow Control to Tyco's shareholders (the Distribution), resulting in the distribution of 110.9 million of our common shares to Tyco's shareholders. Immediately following the Distribution, an indirect, wholly-owned subsidiary of ours merged with and into Pentair, Inc., with Pentair, Inc. surviving as an indirect, wholly-owned subsidiary of ours (the Merger). The Merger was accounted for as a reverse acquisition under the purchase method of accounting with Pentair, Inc. treated as the acquirer.

Following the Merger, we are a diversified industrial manufacturing company comprising three reporting segments: Water & Fluid Solutions, Valves & Controls and Technical Solutions. We classify our continuing operations into business segments based primarily on types of products offered and markets served:

The Water & Fluid Solutions segment designs, manufactures, markets and services innovative water management and fluid processing products and solutions. In select geographies, Water & Fluid Solutions offers a wide variety of pumps, valves and pipes for water transmission applications. The Flow Technologies, Filtration & Process, Aquatic Systems and Water & Environmental Systems global business units (GBUs) comprise this segment.

The Valves & Controls segment designs, manufactures, markets, and services valves, fittings, automation and controls, and actuators and operates as a stand-alone GBU.

The Technical Solutions segment designs, manufactures and markets products that guard and protect some of the world's most sensitive electronics and electronic equipment, as well as heat management solutions designed to provide thermal protection to temperature sensitive fluid applications. The Equipment Protection and Thermal Management GBUs comprise this segment.

During the fourth quarter of 2012 and first quarter of 2013, Water & Fluid Solutions, Valves & Controls and Technical Solutions represented approximately 44 percent, 32 percent and 24 percent of total revenues, respectively, reflecting our post-Merger revenue mix.

Table of Contents

Key Trends and Uncertainties Regarding Our Existing Business

The following trends and uncertainties affected our financial performance in 2012 and the first three months of 2013 and will likely impact our results in the future:

Since 2010, most markets we serve have shown signs of improvement since the global recession in 2008 and 2009. Because our businesses are significantly affected by general economic trends, a lack of continued improvement in our most important markets addressed below would likely have an adverse impact on our results of operations for the rest of 2013 and beyond.

In September 2012, we completed the Merger. With an acquisition of this magnitude and complexity, there are uncertainties and risks associated with realizing the amount and timing of anticipated growth opportunities and cost and tax synergies as described in ITEM 1A Risk Factors of our 2012 Annual Report on Form 10-K.

We identified specific market opportunities that we continue to pursue that we find attractive, both within and outside the United States. We are reinforcing our businesses to more effectively address these opportunities through research and development and additional sales and marketing resources. Unless we successfully penetrate these product and geographic markets, our organic growth would likely be limited.

End markets for new home building and new pool starts are showing signs of rebound from their historically low levels in 2007 - 2011. New product introductions, expanded distribution, channel penetration and a recovering housing market have resulted in volume increases for 2012 and the first quarter of 2013.

Despite the overall strength of our end-markets, some of them have exhibited differing levels of volatility and may continue to do so over the medium and longer term. While we believe the general trends are favorable, factors specific to each of our major end-markets may affect the capital spending plans of our customers.

Economic uncertainty in Western Europe has negatively impacted business results and may continue to do so for the foreseeable future.

Through 2012 and the first three months of 2013, we experienced material and other cost inflation. We strive for productivity improvements, and we may implement increases in selling prices to help mitigate this inflation. We expect the current economic environment will result in continuing price volatility for many of our raw materials. Commodity prices have begun to moderate, but we are uncertain as to the timing and impact of these market changes.

We have a long-term goal to consistently generate free cash flow that equals or exceeds 100 percent of our net income. We define free cash flow as cash flow from operating activities less capital expenditures plus proceeds from sale of property and equipment. Our free cash flow for the full year 2012 was \$(21) million. The negative free cash flow resulted primarily from accelerated pension funding of \$193 million, acquisition-related payments of \$126 million and repositioning payments of \$20 million. We continue to expect to generate free cash flow in excess of 100 percent of our net income before noncontrolling interest in 2013. We are continuing to target reductions in working capital, particularly inventory as a percentage of sales. See the discussion of *Other financial measures* under *Liquidity and Capital Resources* in this report for a reconciliation of our free cash flow.

In 2013, our operating objectives include the following:

Edgar Filing: PENTAIR LTD - Form 10-Q

Increasing our presence in fast growth regions and vertical focus to grow in those markets in which we have competitive advantages;

Optimizing our technological capabilities to increasingly generate innovative new products;

Driving operating excellence through lean enterprise initiatives, with specific focus on sourcing and supply management, cash flow management and lean operations;

Table of Contents

Focusing on developing global talent in light of our increased global presence; and

Integrating Pentair, Inc. and the Flow Control business.

We may seek to meet our objectives of expanding our geographic reach internationally and expanding our presence in our various channels to market by acquiring technologies and products to broaden our businesses' capabilities to serve additional markets and through acquisitions. We may also consider the divestiture of discrete business units to further focus our businesses on our most attractive markets.

RESULTS OF OPERATIONS*Net sales*

Consolidated net sales and the change from the prior year period were as follows:

<i>In millions</i>	Three months ended			
	March 30, 2013	March 31, 2012	\$ change	% change
Net sales	\$ 1,774	\$ 858	\$ 916	106.8%

Net sales by segment and the changes from prior year period were as follows:

<i>In millions</i>	Three months ended			
	March 30, 2013	March 31, 2012	\$ change	% change
Water & Fluid Solutions	\$ 782	\$ 587	\$ 195	33.2%
Valves & Controls	586		586	
Technical Solutions	410	273	137	51.2%
Other	(4)	(2)	(2)	
Net sales	\$ 1,774	\$ 858	\$ 916	106.8%

The components of the changes in net sales from the prior period were as follows:

<i>Percent change in net sales</i>	Three months ended March 30, 2013 over the prior year period			
	Water & Fluid Solutions	Valves & Controls	Technical Solutions	Total
Volume	7.6		(10.9)	1.4
Acquisition	24.2	100.0	59.9	103.7
Price	1.6		2.5	1.9
Currency	(0.2)		(0.3)	(0.2)

Total	33.2	100.0	51.2	106.8
-------	------	-------	------	-------

Consolidated net sales

The 106.8 percentage point increase in consolidated net sales in the first quarter of 2013 from 2012 was primarily driven by:

sales volume of the Flow Control businesses subsequent to the Merger of \$888 million;

organic sales growth in Water & Fluid Solutions related to higher sales of certain pool products primarily serving the North American residential housing market, and increased demand for agriculture products;

continued growth in fast growth regions led by strength in the Middle East and Latin America; and

selective increases in selling prices to mitigate inflationary cost increases.

These increases were partially offset by:

lower sales volume in developed portions of Asia and Europe.

Table of Contents

Water & Fluid Solutions

The 33.2 percentage point increase in Water & Fluid Solutions net sales in the first quarter of 2013 from 2012 was primarily driven by:

sales volume of the Flow Control businesses subsequent to the Merger of \$142 million;

organic sales growth in Water & Fluid Solutions related to higher sales of certain pool products primarily serving the North American residential housing market, and increased demand for agriculture products;

continued growth in fast growth regions led by strength in the Middle East and Latin America; and

selective increases in selling prices to mitigate inflationary cost increases.

These increases were partially offset by:

lower sales volume in developed portions of Asia and Europe.

Valves & Controls

The Valves & Controls net sales in the first quarter of 2013 were the result of:

sales volume of the Flow Control businesses subsequent to the Merger of \$586 million.

Technical Solutions

The 51.2 percentage point increase in Technical Solutions net sales in the first quarter of 2013 from 2012 was primarily driven by:

sales volume of the Flow Control businesses subsequent to Merger of \$162 million; and

selective increases in selling prices to mitigate inflationary cost increases.

These increases were partially offset by:

lower sales volume in Europe impacting the Infrastructure vertical.

Table of Contents**Gross profit**

<i>In millions</i>	March 30, 2013	Three months ended % of sales	March 31, 2012	% of sales
Gross profit	\$ 524	29.5%	\$ 281	32.7%

Percentage point change (3.2) pts

The 3.2 percentage point decrease in gross profit as a percentage of sales in the first quarter of 2013 from 2012 was primarily the result of:

higher cost of goods sold in the first quarter of 2013 as a result of \$77 million of inventory fair market value step-up and customer backlog recorded as part of the Merger purchase accounting; and

inflationary increases related to raw materials and labor costs.

These decreases were partially offset by:

higher margin percentage contribution associated with the Flow Control businesses in Valves & Controls and Technical Solutions;

selective increases in selling prices across all business segments to mitigate inflationary cost increases; and

savings generated from our Pentair Integrated Management System (PIMS) initiatives including lean and supply management practices.

Selling, general and administrative (SG&A)

<i>In millions</i>	March 30, 2013	Three months ended % of sales	March 31, 2012	% of sales
SG&A	\$ 416	23.4%	\$ 174	20.3%

Percentage point change 3.1 pts

The 3.1 percentage point increase in SG&A expense as a percentage of sales in the first quarter of 2013 from 2012 was primarily due to:

intangible asset amortization associated with the Merger;

Edgar Filing: PENTAIR LTD - Form 10-Q

higher costs related to the Merger, including integration, standardization and restructuring costs; and

certain increases for labor and related costs.

These increases were partially offset by:

sales volume of the Flow Control businesses subsequent to the Merger, which resulted in increased leverage on our fixed operating expenses.

Research and development (R&D)

<i>In millions</i>	March 30, 2013	Three months ended % of sales	March 31, 2012	% of sales
R&D	\$ 34	1.9%	\$ 21	2.4%

Percentage point change

(0.5) pts

The 0.5 percentage point decrease in R&D expense as a percentage of sales in the first quarter of 2013 from 2012 was primarily due to:

sales volume of the Flow Control businesses subsequent to the Merger, which resulted in increased leverage on the R&D spend.

Table of Contents**Operating income - Water & Fluid Solutions**

<i>In millions</i>	March 30, 2013	Three months ended		% of sales
		% of sales	March 31, 2012	
Operating income	\$ 75	9.6%	\$ 64	10.9%

Percentage point change (1.3) pts

The 1.3 percentage point decrease in Water & Fluid Solutions operating income as a percentage of net sales in the first quarter of 2013 from 2012 was primarily the result of:

lower margin from higher costs related to the Merger, including integration, standardization, and restructuring costs;

intangible asset amortization associated with the Merger;

continued investments in future growth with emphasis on international markets, including personnel and business infrastructure investments; and

higher cost of goods sold in the first quarter of 2013 as a result of inventory fair market value step-up and customer backlog recorded as part of the Merger purchase accounting.

These decreases were partially offset by:

higher sales volumes in Water & Fluid Solutions, which resulted in increased leverage on operating expenses;

selective increases in selling prices to mitigate inflationary cost increases; and

savings generated from our PIMS initiatives including lean and supply management practices.

Operating loss - Valves & Controls

<i>In millions</i>	March 30, 2013	Three months ended		% of sales
		% of sales	March 31, 2012	
Operating loss	\$ (19)	(3.2%)	\$	0.0%

Edgar Filing: PENTAIR LTD - Form 10-Q

Percentage point change (3.2) pts

The operating loss for Valves & Controls for the first quarter of 2013 was the result of:

Valves & Controls operations subsequent to the Merger. Valves & Controls is a new reporting segment effective with the Merger and, as a result, the first quarter of 2013 operating loss represents the segment's operating results for the quarter;

higher cost of goods sold in the first quarter of 2013 of \$70 million as a result of inventory fair market value step-up and customer backlog recorded as part of the Merger purchase accounting;

intangible asset amortization associated with the Merger; and

lower margin from higher costs related to the Merger including integration, standardization, and restructuring costs.

Operating income - Technical Solutions

<i>In millions</i>	Three months ended			
	March 30, 2013	% of sales	March 31, 2012	% of sales
Operating income	\$ 53	13.0%	\$ 50	18.3%
Percentage point change		(5.3) pts		

Table of Contents

The 5.3 percentage point decrease in Technical Solutions operating income as a percentage of sales in the first quarter of 2013 from 2012 was primarily the result of:

lower margin from higher costs related to the Merger, including integration, standardization and restructuring costs;

higher cost of goods sold in the first quarter of 2013 as a result of customer backlog recorded as part of the Merger purchase accounting;

intangible asset amortization associated with the Merger;

continued investments in future growth with emphasis on international markets, including personnel and business infrastructure investments; and

inflationary increases related to labor costs and certain raw materials.

These decreases were partially offset by:

selective increases in selling prices to mitigate inflationary cost increases; and

savings generated from our PIMS initiatives including lean and supply management practices.

Gain on sale of business

During the first quarter of 2013, we sold a business that was part of Technical Solutions for cash of \$30 million, net of transaction costs, resulting in a gain of \$17 million. Goodwill of \$5 million was included in the assets of the business sold. The sales price is subject to a working capital adjustment.

Net interest expense

<i>In millions</i>	Three months ended			
	March 30, 2013	March 31, 2012	\$ change	% change
Net interest expense	\$ 17	\$ 15	\$ 2	15.1%

The 15.1 percentage point increase in interest expense in the first quarter of 2013 from 2012 was primarily the result of:

the impact of higher debt levels following the Merger.

This increase was partially offset by:

Edgar Filing: PENTAIR LTD - Form 10-Q

reduced overall interest rates in effect on our outstanding debt; and

the impact of higher cash balances following the Merger.

Provision for income taxes

<i>In millions</i>	Three months ended	
	March 30, 2013	March 31, 2012
Income before income taxes and noncontrolling interest	\$ 74	\$ 73
Provision for income taxes	21	10
Effective tax rate	28.4%	13.7%

The 14.7 percentage point increase in the effective tax rate in the first quarter of 2013 from 2012 was primarily the result of:

the favorable resolution of U.S. federal and state tax audits in 2012 that did not occur in 2013; and

the timing of losses in jurisdictions where we recognize no tax benefits.

Table of Contents

These increases were partially offset by

the mix of global earnings, including the impact of the Merger.

LIQUIDITY AND CAPITAL RESOURCES

We generally fund cash requirements for working capital, capital expenditures, equity investments, acquisitions, debt repayments, dividend payments and share repurchases from cash generated from operations, availability under existing committed revolving credit facilities and in certain instances, public and private debt and equity offerings. We have grown our businesses in significant part in the past through acquisitions financed by credit provided under our revolving credit facilities and from time to time, by private or public debt and equity issuances. Our primary revolving credit facilities have generally been adequate for these purposes, although we have negotiated additional credit facilities as needed to allow us to complete acquisitions. We intend to issue commercial paper to fund our financing needs on a short-term basis and to use our revolving credit facility as back-up liquidity to support commercial paper.

We are focusing on increasing our cash flow and repaying existing debt, while continuing to fund our research and development, marketing and capital investment initiatives. Our intent is to maintain investment grade ratings and a solid liquidity position.

We experience seasonal cash flows primarily due to seasonal demand in a number of markets within Water & Fluid Solutions. We generally borrow in the first quarter of our fiscal year for operational purposes, which usage reverses in the second quarter as the seasonality of our businesses peaks. End-user demand for pool and certain pumping equipment follows warm weather trends and is at seasonal highs from April to August. The magnitude of the sales spike is partially mitigated by employing some advance sale early buy programs (generally including extended payment terms and/or additional discounts). Demand for residential and agricultural water systems is also impacted by weather patterns, particularly by heavy flooding and droughts.

Operating activities

Cash provided by operating activities was \$20 million in the first three months of 2013 compared to cash used for operating activities of \$68 million in the same period of 2012.

The \$20 million in net cash provided by operations in the first three months of 2013 was attributed to \$53 million of net income which principally reflects non-cash depreciation and amortization, share-based compensation and the gain on the sale of a business totaling \$75 million. Net cash provided by operating activities also reflects an aggregate decrease in net working capital totaling \$116 million. The decrease in the working capital position in the first three months of 2013 was primarily the result of increases in accounts receivable due to increased sales.

The \$68 million in net cash used for operations in the first three months of 2012 was attributed to \$63 million of net income which principally reflects non-cash depreciation and amortization and share-based compensation totaling \$27 million. Net cash used for operating activities also reflects an aggregate decrease in net working capital totaling \$130 million. The decrease in the working capital position in the first three months of 2012 was primarily the result of increases in accounts receivable due to increased sales and increases in inventories in anticipation of our peak sales season in the second and third quarters.

Investing activities

Cash used for investing activities was \$19 million in the first three months of 2013 compared to cash used for investing activities of \$17 million in the same period of 2012. The increase in cash used for investing activities was primarily due to an increase in capital expenditures, partially offset by \$30 million of proceeds, net of transaction costs, from the sale of a business within Technical Solutions in the first quarter of 2013.

Capital expenditures in the first three months of 2013 were \$50 million compared with \$16 million in the prior year period. The increase in capital spending primarily relates to the Merger. We anticipate capital expenditures for fiscal 2013 to be approximately \$200 million, primarily for capacity expansions of manufacturing facilities located in our low-cost countries, developing new products and general maintenance.

Financing activities

Edgar Filing: PENTAIR LTD - Form 10-Q

Net cash used for financing activities was \$38 million in the first three months of 2013 compared with net cash provided by financing activities of \$90 million in the prior year period. Net cash used for financing activities in the first three months of 2013 included share repurchases and payment of dividends, partially offset by net receipts of commercial paper and revolving long-term debt. Net cash provided for financing activities in the first three months of 2012 included net receipts of short-term borrowings, commercial paper and revolving long-term debt, partially offset by payment of dividends and repayments of long-term debt. Additionally, financing activities included draw downs and repayments on our revolving credit facilities to fund our operations in the normal course of business, cash received/used for shares issued to employees, and tax benefits related to share-based compensation.

Table of Contents

The 1.35% Senior Notes due 2015, 1.875% Senior Notes due 2017, 2.65% Senior Notes due 2019, 5.00% Senior Notes due 2021 and 3.15% Senior Notes due 2022 (collectively, the Notes) were all issued in transactions exempt from the registration requirements of the Securities Act of 1933, as amended. In March 2013, Pentair Ltd. and our 100 percent-owned subsidiary, Pentair Finance S.A. (PFSA), filed a Registration Statement with the SEC offering to exchange the Notes for new, registered Notes. The exchange offer expired on April 19, 2013 and did not impact the aggregate principal amount of the Notes outstanding. The new, registered Notes issued in such exchange offer are guaranteed as to payment by Pentair Ltd.

In September 2012, Pentair, Inc. entered into a credit agreement providing for an unsecured, committed revolving credit facility (the Credit Facility) with initial maximum aggregate availability of up to \$1,450 million. PFSA is authorized to sell short-term commercial paper notes to the extent availability exists under the Credit Facility. PFSA uses the Credit Facility as back-up liquidity to support 100% of commercial paper outstanding. As of March 30, 2013 and December 31, 2012, we had \$527 million and \$425 million, respectively, of commercial paper outstanding, all of which was classified as long-term as we have the intent and the ability to refinance such obligations on a long-term basis under the Credit Facility.

Total availability under the Credit Facility was \$886 million as of March 30, 2013, which was not limited by any covenants contained in the Credit Facility's credit agreement.

Our debt agreements contain certain financial covenants, the most restrictive of which are in the Credit Facility, including that we may not permit (i) the ratio of our consolidated debt plus synthetic lease obligations to our consolidated net income (excluding, among other things, non-cash gains and losses) before interest, taxes, depreciation, amortization, non-cash share-based compensation expense, and up to \$40 million of costs and expenses incurred in connection with the Merger (EBITDA) for the four consecutive fiscal quarters then ended (the Leverage Ratio) to exceed 3.50 to 1.00 on the last day of each fiscal quarter, and (ii) the ratio of our EBITDA for the four consecutive fiscal quarters then ended to our consolidated interest expense, including consolidated yield or discount accrued as to outstanding securitization obligations (if any), for the same period to be less than 3.00 to 1.00 as of the end of each fiscal quarter. For purposes of the Leverage Ratio, the Credit Facility provides for the calculation of EBITDA giving pro forma effect to the Merger and certain acquisitions, divestitures and liquidations during the period to which such calculation relates. As of March 30, 2013, we were in compliance with all financial covenants in our debt agreements.

In addition to the Credit Facility, we have various other credit facilities with an aggregate availability of \$88 million, of which \$3 million was outstanding at March 30, 2013. Borrowings under these credit facilities bear interest at variable rates.

As of March 30, 2013, we have \$141 million of cash held in certain countries in which the ability to repatriate is limited due to local regulations or significant potential tax consequences.

We expect to continue to have cash requirements to support working capital needs and capital expenditures, to pay interest and service debt and to pay dividends to shareholders quarterly. We believe we have the ability and sufficient capacity to meet these cash requirements by using available cash and internally generated funds and to borrow under our committed and uncommitted credit facilities.

We paid dividends in the first three months of 2013 of \$47 million, or \$0.23 per common share, compared with \$22 million, or \$0.22 per common share, in the prior year period. Prior to the completion of the Merger, our board of directors proposed, and Tyco as our sole shareholder authorized, us to pay cash dividends of \$0.23 per share on May 10, 2013, to shareholders of record on April 26, 2013 and we expect to continue paying dividends on a quarterly basis. On February 26, 2013, our board of directors recommended that our shareholders approve at our 2013 annual meeting of shareholders a proposal to pay quarterly cash dividends through the second quarter of 2014. The proposal provides that dividends of \$1.00 per share will be made out of our *Capital contribution reserve* equity position in our statutory accounts to our shareholders in quarterly installments of \$0.25 for each of the third and fourth quarters of 2013 and first and second quarters of 2014.

The liability for uncertain tax positions was \$55 million and \$54 million at March 30, 2013 and December 31, 2012, respectively. We record penalties and interest related to unrecognized tax benefits in *Provision for income taxes* and *Net interest expense*, respectively, on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss), which is consistent with our past practices.

Table of Contents**Other financial measures**

In addition to measuring our cash flow generation or usage based upon operating, investing and financing classifications included in the Consolidated Statements of Cash Flows, we also measure our free cash flow. We have a long-term goal to consistently generate free cash flow that equals or exceeds 100 percent conversion of net income from continuing operations. Free cash flow is a non-Generally Accepted Accounting Principles financial measure that we use to assess our cash flow performance. We believe free cash flow is an important measure of operating performance because it provides us and our investors a measurement of cash generated from operations that is available to pay dividends, make acquisitions, repay debt and repurchase shares. In addition, free cash flow is used as a criterion to measure and pay compensation-based incentives. Our measure of free cash flow may not be comparable to similarly titled measures reported by other companies. The following table is a reconciliation of free cash flow:

<i>In millions</i>	Three months ended	
	March 30, 2013	March 31, 2012
Net cash provided by (used for) operating activities	\$ 20	\$ (68)
Capital expenditures	(50)	(16)
Proceeds from sale of property and equipment	1	2
Free cash flow	\$ (29)	\$ (82)

NEW ACCOUNTING STANDARDS

In July 2012, the Financial Accounting Standards Board (FASB) issued an amendment to an existing accounting standard, which provides entities an option to perform a qualitative assessment to determine whether further impairment testing on indefinite-lived intangible assets is necessary. Specifically, an entity has the option to first assess qualitative factors to determine whether it is necessary to perform a quantitative impairment test. If an entity believes, as a result of its qualitative assessment, that it is more-likely-than-not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, the quantitative impairment test is required. Otherwise, no further testing is required. This guidance is effective for annual and interim indefinite-lived intangible asset impairment tests performed for fiscal years beginning after September 15, 2012. We believe that the adoption of this guidance will not have a material impact on our financial condition or results of operations.

In February 2013, the FASB issued authoritative guidance surrounding the presentation of items reclassified from *Accumulated other comprehensive income (loss)* (AOCI) to net income. This guidance requires entities to disclose, either in the notes to the consolidated financial statements or parenthetically on the face of the statement that reports comprehensive income, items reclassified out of AOCI and into net income in their entirety and the effect of the reclassification on each affected net income line item. In addition, for AOCI reclassification items that are not reclassified in their entirety into net income, a cross reference to other required disclosures is required. This guidance was effective for fiscal years and interim periods beginning after December 15, 2012. The adoption of this guidance on January 1, 2013 did not impact our financial condition or results of operations.

CRITICAL ACCOUNTING POLICIES

In our 2012 Annual Report on Form 10-K, we identified the critical accounting policies which affect our more significant estimates and assumptions used in preparing our consolidated financial statements. We have not changed these policies from those previously disclosed in our Annual Report.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our market risk during the quarter ended March 30, 2013. For additional information, refer to Item 7A of our 2012 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

We maintain a system of disclosure controls and procedures designed to provide reasonable assurance as to the reliability of our published financial statements and other disclosures included in this report. Our management evaluated, with the participation of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter ended March 30, 2013 pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act). Based upon their evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the quarter ended March 30, 2013 to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosures.

(b) Changes in Internal Controls

As part of our ongoing integration activities after the Merger, we are continuing to incorporate our controls and procedures into the Flow Control business and to augment our company-wide controls to reflect the risks inherent in an acquisition of this magnitude and complexity. There was no other change in our internal control over financial reporting that occurred during the quarter ended March 30, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. Legal Proceedings**

There have been no material developments from the disclosures contained in our 2012 Annual Report on Form 10-K.

ITEM 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in ITEM 1A. of our 2012 Annual Report on Form 10-K, except for the following:

Changes in the U.S. dollar/Swiss franc exchange rate could limit the amount of dividends authorized on our common shares, and there can be no assurance that we will be able to continue to pay dividends on our common shares.

On February 26, 2013, our board of directors proposed that our shareholders approve at our 2013 annual general meeting of shareholders a proposal to pay quarterly cash dividends through the second quarter of 2014. If approved by shareholders, the authorization will provide that a dividend will be made out of our contributed surplus equity position in our statutory accounts to our shareholders in the amount of \$0.25 for each of the third and fourth quarters of 2013 and the first and second quarters of 2014. The deduction to our contributed surplus in our statutory accounts, which is required to be made in Swiss francs, will be determined based on the aggregate amount of the dividend and will be calculated based on the U.S. dollar/Swiss franc exchange rate in effect on April 29, 2013. The U.S. dollar amount of the dividend will be capped at an amount such that the aggregate reduction to our contributed surplus will not exceed 396 million Swiss francs. To the extent that a dividend payment would exceed the cap, the U.S. dollar per share amount of the current or future dividends will be reduced on a pro rata basis so that the aggregate amount of all dividends paid does not exceed the cap. In addition, the aggregate reduction in contributed surplus will be increased for any shares issued, and decreased for any shares acquired, after April 29, 2013 and before the record date for the applicable dividend payment.

Any future dividends that may be proposed by our board of directors will be subject to approval by our shareholders at our annual general meeting. There can be no assurance that our shareholders will approve dividends. Whether our board of directors exercises its discretion to propose any dividends to holders of our common shares will depend on many factors, including our financial condition, earnings, capital requirements of our business, covenants associated with debt obligations, legal requirements, regulatory constraints, industry practice and other factors that our board of directors deems relevant. There can be no assurance that we will continue to pay any dividend in the future.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to purchases we made of our common shares during the first quarter of 2013:

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced plans or programs	(d) Dollar value of shares that may yet be purchased under the plans or programs
January 1 - January 26, 2013	1,705,026	\$51.05	1,664,500	\$780,877,876
January 27 - February 23, 2013	826,136	\$51.77	825,200	\$738,082,804
February 24 - March 30, 2013	394,368	\$52.32	240,928	\$725,542,079
Total	2,925,530		2,730,628	

Edgar Filing: PENTAIR LTD - Form 10-Q

- (a) The purchases in this column represent 40,526 shares for the period January 1 – January 26, 2013, 936 shares for the period January 27 – February 23, 2013 and 153,440 shares for the period February 24 – March 30, 2013 deemed surrendered to us by participants in our 2012 Stock and Incentive Plan (the 2012 Plan) and earlier stock incentive plans that are now outstanding under the 2012 Plan (collectively the Plans) to satisfy the exercise price or withholding of tax obligations related to the exercise of stock options and vesting of restricted shares.
- (b) The average price paid in this column includes shares deemed surrendered to us by participants in the Plans to satisfy the exercise price for the exercise price of stock options and withholding tax obligations due upon stock option exercises and vesting of restricted shares.
- (c) The number of shares in this column represents the number of shares repurchased as part of our publicly announced plans to repurchase shares of our common stock up to a maximum dollar limit of \$1,200 million.
- (d) Prior to the closing of the Merger, our board of directors, and Tyco as our sole shareholder, authorized the repurchase of our common shares with a maximum aggregate value of \$400 million following the closing of the Merger. This authorization does not have an expiration date. On October 1, 2012, our board of directors authorized the repurchase of our common shares with a maximum aggregate value of \$800 million. This authorization expires on December 31, 2015 and is in addition to the \$400 million share repurchase authorization.
