**Saia, Inc. and Subsidiaries**

**Notes to Condensed Consolidated Financial Statements (unaudited)**

**(1) Summary of Significant Accounting Policies**

*Basis of Presentation*

The accompanying unaudited condensed consolidated financial statements include the accounts of Saia, Inc. and its wholly-owned subsidiaries (together, the Company or Saia). All significant intercompany accounts and transactions have been eliminated in the condensed consolidated financial statements. The condensed consolidated financial statements include the financial position and results of operations of Robart Transportation, Inc. and its subsidiary, The RL Service Group, LLC (the Robart Companies) since the acquisition date of July 2, 2012 (See Note 5 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012).

The condensed consolidated financial statements have been prepared by the Company without audit by the independent registered public accounting firm. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of the condensed consolidated statements of financial position, results of operations and cash flows for the interim periods included herein have been made. These interim condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information, the instructions to Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Certain information and note disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted from these statements. The accompanying condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2012. Operating results for the quarter and nine months ended September 30, 2013 are not necessarily indicative of the results of operations that may be expected for the year ended December 31, 2013.

*Business*

The Company offers customers a wide range of less-than-truckload, non-asset truckload, expedited and logistics services across the United States through its wholly-owned subsidiaries. Effective October 1, 2012, the Company's subsidiaries were as follows: Saia Motor Freight Line, LLC, doing business as Saia LTL Freight; Saia TL Plus, Inc., formerly Robart Transportation, Inc., and Saia Logistics Services, LLC, formerly The RL Services Group, LLC.

*Common Stock Split*

On May 16, 2013, the Company announced a three-for-two common stock split which was effected in the form of a 50 percent common stock dividend. The shares were distributed on June 13, 2013 to shareholders of record as of the close of business on the record date of May 31, 2013. In lieu of fractional shares, shareholders received a cash payment based on the closing share price of the Company's common stock on the record date. All references in this report on Form 10-Q to common shares outstanding, weighted average common shares and earnings per share amounts have been retroactively restated to reflect this stock split.

*New Accounting Pronouncements*

There are no new accounting pronouncements pending adoption as of September 30, 2013 that the Company believes would have a significant impact on its condensed consolidated financial statements.

**Table of Contents****(2) Computation of Earnings Per Share**

The calculation of basic earnings per common share and diluted earnings per common share was as follows (in thousands, except per share amounts):

	Third Quarter		Nine Months	
	2013	2012	2013	2012
<b>Numerator:</b>				
Net income	\$ 12,908	\$ 9,256	\$ 35,563	\$ 26,642
<b>Denominator:</b>				
Denominator for basic earnings per share weighted average common shares	24,220	23,850	24,123	23,810
Effect of dilutive stock options	286	203	300	171
Effect of other common stock equivalents	763	810	750	813
Denominator for diluted earnings per share adjusted weighted average common shares	25,269	24,863	25,173	24,794
<b>Basic Earnings Per Share</b>	\$ 0.53	\$ 0.39	\$ 1.47	\$ 1.12
<b>Diluted Earnings Per Share</b>	\$ 0.51	\$ 0.37	\$ 1.41	\$ 1.07

For the quarter and nine months ended September 30, 2013, respectively, options to purchase 148,647 and 84,129 shares of common stock of the Company were excluded from the calculation of diluted earnings per share because their effect was anti-dilutive. For the quarter and nine months ended September 30, 2012, respectively, options to purchase 162,045 and 164,699 shares of common stock of the Company were excluded from the calculation of diluted earnings per share because their effect was anti-dilutive.

**(3) Contingencies and Uncertainties**

The Company is subject to legal proceedings that arise in the ordinary course of its business. In the opinion of management, the aggregate liability, if any, with respect to these actions will not have a material adverse effect on our consolidated financial position but could have a material adverse effect on the results of operations in a quarter or annual period.

**(4) Fair Value of Financial Instruments**

The carrying amounts of financial instruments including cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximated fair value as of September 30, 2013 and December 31, 2012 because of the relatively short maturity of these instruments. Based on the borrowing rates currently available to the Company for debt with similar items and remaining maturities the estimated fair value of total debt at September 30, 2013 and December 31, 2012 was \$93.2 million and \$63.5 million, respectively, based upon level two in the fair value hierarchy. The carrying value of the debt was \$91.5 million at September 30, 2013 and was \$60.7 million at December 31, 2012.

**(5) Debt and Financing Arrangements**

At September 30, 2013 and December 31, 2012, debt consisted of the following (in thousands):

	September 30, 2013	December 31, 2012
Credit Agreement with Banks, described below	\$ 51,863	\$ 9,990
Senior Notes under a Master Shelf Agreement, described below	39,643	50,715

Edgar Filing: SAIA INC - Form 10-Q

Total debt	91,506	60,705
Less: current portion of long-term debt	14,643	22,143
Long-term debt, less current portion	\$ 76,863	\$ 38,562

**Table of Contents**

On June 28, 2013, the Company entered into the First Amendment to the Fourth Amended and Restated Credit Agreement with its banking group (as amended, the Restated Credit Agreement). The amendment increased the amount of the revolver from \$150 million to \$200 million and extended the term until June 2018. The amendment also reduced the interest rate pricing grid and, subject to the Company maintaining a specified leverage ratio, suspended the borrowing base. On June 28, 2013, the Company also entered into the Third Amendment to the Amended and Restated Master Shelf Agreement with its long term note holders (as amended, the Restated Master Shelf Agreement) that made changes to this agreement to conform with certain changes in the Restated Credit Agreement.

*Restated Credit Agreement*

The Restated Credit Agreement is a revolving credit facility for up to \$200 million expiring in June 2018. The Restated Credit Agreement also has an accordion feature that allows for an additional \$40 million availability, subject to lender approval. The Restated Credit Agreement provides for a LIBOR rate margin range from 125 basis points to 250 basis points, base rate margins from minus 12.5 to plus 50 basis points, letter of credit fee range from 137.5 basis points to 262.5 basis points and an unused portion fee from 20 basis points to 32.5 basis points in each case based on the Company's leverage ratio.

Under the Restated Credit Agreement, the Company must maintain certain financial covenants including a minimum fixed charge coverage ratio, a maximum leverage ratio and a minimum tangible net worth, among others. The Restated Credit Agreement also provides for a pledge by the Company of certain land and structures, certain tractors, trailers and other personal property and accounts receivable, as defined in the Restated Credit Agreement. Total bank commitments under the Restated Credit Agreement are \$200 million. If the Company's leverage ratio exceeds a 3-to-1 ratio, the bank commitments become subject to a borrowing base calculated utilizing certain pledged property, equipment and accounts receivable as defined in the Restated Credit Agreement.

At September 30, 2013, the Company had borrowings of \$51.9 million and outstanding letters of credit of \$59.1 million under the Restated Credit Agreement. At September 30, 2012, the Company had borrowings of \$19.4 million and outstanding letters of credit of \$58.6 million under the Restated Credit Agreement. The available portion of the Restated Credit Agreement may be used for general corporate purposes, including future capital expenditures, working capital and letter of credit requirements as needed.

*Restated Master Shelf Agreement*

On September 20, 2002, the Company issued \$100 million in Senior Notes under a \$125 million (amended to \$150 million in April 2005) Master Shelf Agreement with Prudential Investment Management, Inc. and certain of its affiliates. The Company issued another \$25 million in Senior Notes on November 30, 2007 and \$25 million in Senior Notes on January 31, 2008 under the same Master Shelf Agreement.

The initial \$100 million Senior Notes have a fixed interest rate of 7.38 percent. Payments due under the \$100 million Senior Notes were interest only until June 30, 2006 and at that time semi-annual principal payments began with the final payment due December 2013. The November 2007 issuance of \$25 million Senior Notes has a fixed interest rate of 6.14 percent. The January 2008 issuance of \$25 million Senior Notes has a fixed interest rate of 6.17 percent. Payments due for both \$25 million issuances were interest only until June 30, 2011 and at that time semi-annual principal payments began with the final payments due January 1, 2018. Under the terms of the Senior Notes, the Company must maintain certain financial covenants including a minimum fixed charge coverage ratio, a maximum leverage ratio and a minimum tangible net worth, among others.

The principal maturities of long-term debt (in thousands) are as follows:

	<b>Amount</b>
2013	\$ 11,071
2014	7,143
2015	7,143
2016	7,143
2017	7,143
Thereafter	51,863
<b>Total</b>	<b>\$ 91,506</b>

---

## **Table of Contents**

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This Management's Discussion and Analysis should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and our 2012 audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. Those consolidated financial statements include additional information about our significant accounting policies, practices and the transactions that underlie our financial results.

#### **Forward-Looking Statements**

The Securities and Exchange Commission (the SEC) encourages companies to disclose forward-looking information so that investors can better understand the future prospects of a company and make informed investment decisions. This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations, contains these types of statements, which are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as anticipate, estimate, expect, project, intend, may, plan, predict, believe, should and similar words or expressions are intended to identify forward-looking statements. Investors should not place undue reliance on forward-looking statements, and the Company undertakes no obligation to publicly update or revise any forward-looking statements. All forward-looking statements reflect the present expectation of future events of our management as of the date of this Quarterly Report on Form 10-Q and are subject to a number of important factors, risks, uncertainties and assumptions that could cause actual results to differ materially from those described in any forward-looking statements. These factors, risks, assumptions and uncertainties include, but are not limited to, general economic conditions including downturns in the business cycle; the creditworthiness of our customers and their ability to pay for services; competitive initiatives and pricing pressures, including in connection with fuel surcharge; the Company's need for capital and uncertainty of the current credit markets; the possibility of defaults under the Company's debt agreements (including violation of financial covenants); possible issuance of equity which would dilute stock ownership; integration risks; indemnification obligations associated with the 2006 sale of Jevic Transportation, Inc.; the effect of litigation including class action lawsuits; cost and availability of qualified drivers, fuel, purchased transportation, real property, revenue equipment and other assets; governmental regulations, including but not limited to Hours of Service, engine emissions, the Compliance, Safety, Accountability (CSA) initiative, compliance with legislation requiring companies to evaluate their internal control over financial reporting, changes in interpretation of accounting principles and Homeland Security; dependence on key employees; inclement weather; labor relations, including the adverse impact should a portion of the Company's workforce become unionized; effectiveness of Company-specific performance improvement initiatives; terrorism risks; self-insurance claims and other expense volatility; increased costs as a result of recently-enacted healthcare reform legislation and other financial, operational and legal risks and uncertainties detailed from time to time in the Company's SEC filings. These factors and risks are described in Part II, Item 1A. Risk Factors of the Company's Annual Report on Form 10-K for the year ended December 31, 2012, as updated by Part II, Item 1A. of this Quarterly Report on Form 10-Q.

As a result of these and other factors, no assurance can be given as to our future results and achievements. Accordingly, a forward-looking statement is neither a prediction nor a guarantee of future events or circumstances and those future events or circumstances may not occur. You should not place undue reliance on the forward-looking statements, which speak only as of the date of this Form 10-Q. We are under no obligation, and we expressly disclaim any obligation, to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

#### **Executive Overview**

The Company's business is highly correlated to non-service sectors of the general economy. The Company's strategy is to improve profitability by increasing yield along with volumes to build density in existing geography. The Company's business is labor intensive, capital intensive and service sensitive. The Company looks for opportunities to improve cost effectiveness, safety and asset utilization (primarily tractors and trailers). The pricing initiatives that were implemented in 2010 and continued since then have had a positive impact on yield and profitability. The Company continues to execute targeted sales and marketing programs along with initiatives to align costs with volumes and improve customer satisfaction. Technology continues to be an important investment that is facilitating operational efficiencies and improving Company image.

## **Table of Contents**

The Company's operating revenue increased by 5.4 percent in the third quarter of 2013 compared to the same period in 2012. The increase resulted primarily from effective yield management plus one additional workday in the third quarter of 2013.

Consolidated operating income was \$21.9 million for the third quarter of 2013 compared to consolidated operating income of \$16.4 million in the third quarter of 2012. In the third quarter of 2013, LTL tonnage per workday was down 0.1 percent versus the prior year quarter. Diluted earnings per share were \$0.51 in the third quarter of 2013, compared to diluted earnings per share of \$0.37 in the prior year quarter. The operating ratio (operating expenses divided by operating revenue) was 92.5 percent in the third quarter of 2013. This compares to 94.1 percent in the third quarter of 2012.

The Company generated \$67.6 million in cash provided by operating activities through the first nine months of 2013 compared with cash provided in the amount of \$77.4 million in the prior-year period largely due to working capital fluctuations. The Company had net cash used in investing activities of \$97.7 million during the first nine months of 2013 compared to \$86.9 million in the first nine months of 2012, which was primarily for the purchase of revenue equipment. The Company's cash provided by financing activities was \$33.9 million through the first nine months of 2013 compared to \$9.0 million provided by financing activities in the prior year period. The Company had \$51.9 million in borrowings under its revolving credit agreement, outstanding letters of credit of \$59.1 million and a cash and cash equivalents balance of \$4.1 million at September 30, 2013. The Company was in compliance with the debt covenants under its debt agreements at September 30, 2013.

## **General**

The following Management's Discussion and Analysis describes the principal factors affecting the results of operations, liquidity and capital resources, as well as the critical accounting policies of Saia, Inc. and Subsidiaries (also referred to as Saia or the Company).

The Company is a transportation company headquartered in Johns Creek, Georgia providing a wide range of less-than-truckload, non-asset truckload, expedited and logistics services across the United States.

Our business is highly correlated to non-service sectors of the general economy. It also is impacted by a number of other factors as discussed under Forward Looking Statements and Part II, Item 1A. Risk Factors. The key factors that affect our operating results are the volumes of shipments transported through our network, as measured by our average daily shipments and tonnage; the prices we obtain for our services, as measured by revenue per hundredweight (a measure of yield) and revenue per shipment; our ability to manage our cost structure for capital expenditures and operating expenses such as salaries, wages and benefits; purchased transportation; claims and insurance expense; fuel and maintenance; and our ability to match operating costs to shifting volume levels.

**Table of Contents****Results of Operations****Saia, Inc. and Subsidiaries****Selected Results of Operations and Operating Statistics****For the quarters ended September 30, 2013 and 2012****(unaudited)**

Operating Ratio	92.5%	94.1%	1.6
Nonoperating Expense	1,675	1,897	(11.7)
Working Capital (as of September 30, 2013 and 2012)	25,912	7,117	
Cash Flows provided by Operations (year to date)	67,557	77,425	
Net Acquisitions of Property and Equipment (year to date)	97,741	79,279	
Operating Statistics:			
LTL Tonnage	932	918	1.5
LTL Shipments	1,608	1,574	2.2
LTL Revenue per hundredweight	\$ 14.54	\$ 14.00	3.8

**Quarter and nine months ended September 30, 2013 Compared to Quarter and nine months ended September 30, 2012***Revenue and volume*

Consolidated revenue increased 5.4 percent to \$293.1 million primarily as a result of effective yield management plus one additional workday in the third quarter of 2013. In the third quarter of 2013, LTL tonnage per workday was down 0.1 percent versus the prior year quarter. Saia's LTL revenue per hundredweight (a measure of yield) increased 3.8 percent to \$14.54 per hundredweight for the third quarter of 2013 as a result of increased rates. Approximately 70 percent of Saia's operating revenue is subject to specific customer price adjustment negotiations that occur throughout the year. The remaining 30 percent of operating revenue is subject to a general rate increase which is typically taken once a year. On July 1, 2013, Saia implemented a 5.9 percent general rate increase for customers comprising this 30 percent of operating revenue. Competitive factors, customer turnover and mix changes, among other things, impact the extent to which customer rate increases are retained over time.

Operating revenue includes fuel surcharge revenue from the Company's fuel surcharge program. That program is designed to reduce the Company's exposure to fluctuations in fuel prices by adjusting total freight charges to account for changes in the price of fuel. The Company's fuel surcharge is based on the average national price for diesel fuel and is reset weekly. Fuel surcharges have remained in effect for several years, are widely accepted in the industry and are a significant component of revenue and pricing. Fuel surcharges are an integral part of annual customer contract renewals which blur the distinction between base price increases and recoveries under the fuel surcharge program. Fuel surcharges represent only one portion of overall competitive price negotiations as customers may negotiate increases in base rates instead of increases in fuel surcharges or vice versa. Fuel surcharge revenue decreased to 16.7% of operating revenue for the quarter ended September 30, 2013 compared to 16.9% for the quarter ended September 30, 2012.

---

**Table of Contents**

For the nine months ended September 30, 2013, operating revenues were \$859.4 million up 3.0 percent from \$834.3 million for the nine months ended September 30, 2012, primarily due to higher yield, which reflects increases in rates and fuel surcharge, partially offset by a decrease in tonnage.

***Operating expenses and margin***

Consolidated operating income was \$21.9 million in the third quarter of 2013 compared to operating income of \$16.4 million in the prior year quarter. Overall, the operations were favorably impacted in 2013 by higher yield combined with continued cost optimization initiatives throughout our network. The third quarter 2013 operating ratio (operating expenses divided by operating revenue) was 92.5 percent compared to 94.1 percent for the same period in 2012.

Salaries, wages and benefits increased \$8.8 million in the third quarter of 2013 compared to the prior year period largely due to a 3.0 percent wage increase in July 2012, increased headcount and increased healthcare cost. Maintenance costs increased \$1.3 million compared to the third quarter of 2012 due to more costly routine maintenance and higher parts costs. During the third quarter of 2013, claims and insurance expense was \$0.5 million higher than the previous year quarter due to increased accident expense. The Company can experience volatility in accident expense as a result of its self-insurance structure and \$2.0 million retention limits per occurrence. Purchased transportation increased \$0.1 million from the third quarter of 2012 primarily due to rate increases. Depreciation and amortization increased by \$1.4 million as a result of capital expenditures during the first nine months of 2013.

***Other***

Substantially all non-operating expenses represent interest expense. Interest expense in third quarter 2013 was lower due to a lower interest rate in 2013. The effective tax rate was 36.3 percent for the quarter ended September 30, 2013 and September 30, 2012. For the nine months ended September 30, 2013, the effective tax rate was 35.3 percent compared to 37.6 percent for the nine months ended September 2012. In January 2013, Congress enacted certain tax credits related to 2012 and 2013. The 2013 tax rate year to date reflects the recognition of \$1.0 million in tax credits in the first quarter of 2013 for 2012.

Net income was \$12.9 million or \$0.51 per diluted share in the third quarter of 2013 compared to net income of \$9.3 million, or \$0.37 per diluted share, in the third quarter of 2012.

***Working capital/capital expenditures***

Working capital at September 30, 2013 was \$25.9 million which increased from working capital at September 30, 2012 of \$7.1 million.

Current assets increased by \$12.4 million as compared to September 30, 2012 and include an increase in accounts receivable of \$2.7 million along with increases in other assets. Current liabilities decreased by \$6.4 million as compared to September 30, 2012 driven primarily by a decrease in the current portion of long term debt of \$7.5 million and accounts payable of \$3.5 million offset by increases in other liabilities. Cash flows provided by operating activities were \$67.6 million for the nine months ended September 30, 2013 versus \$77.4 million provided by operating activities for the nine months ended September 30, 2012 with the impact of higher net income being more than offset by the changes in working capital. For the nine months ended September 30, 2013, cash used in investing activities was \$97.7 million versus \$86.9 million in the prior year period. For the nine months ended September 30, 2013, net cash provided by financing activities was \$33.9 million compared to \$9.0 million of cash provided by financing activities in the prior year period. A significant portion of capital expenditures for 2013 were incurred in the second quarter and third quarter of 2013 compared to 2012 when a large portion were incurred in the first quarter. Capital expenditures are primarily for revenue equipment, information technology, land and structures.

***Outlook***

Our business remains highly correlated to the general economy and competitive pricing pressures, as well as the success of Company-specific improvement initiatives. While improved through 2011 and 2012, there remains uncertainty as to the timing and strength of economic recovery. We are continuing initiatives to increase yield, to reduce costs and improve productivity. We focus on providing top quality service and improving safety performance. If significant competitors were to cease operations and their capacity leave the market, current industry excess capacity conditions could improve. However, there can be no assurance that any industry consolidation will indeed happen or if such consolidation occurs that it will materially improve industry capacity.

---

## **Table of Contents**

The Company continues to pursue revenue and cost initiatives to improve profitability. Planned revenue initiatives include, but are not limited to, building density in our current geography, targeted marketing initiatives to grow revenue in more profitable segments, as well as pricing and yield management. On July 1, 2013, Saia implemented a 5.9 percent general rate increase for customers comprising approximately 30 percent of Saia's operating revenue. The extent of success of these revenue initiatives is impacted by what proves to be the underlying economic trends, competitor initiatives and other factors discussed under "Forward-Looking Statements" and Part II, Item 1A. "Risk Factors."

In 2009, the Company implemented certain cost reduction measures including: the suspension of the Company's 401(k) match; effective reduction in compensation equal to ten percent of salary for the Company's leadership team and a five percent wage and salary reduction for hourly, linehaul and salaried employees in operations, maintenance and administration; and a ten percent reduction in the annual retainer and meeting fees paid to the non-employee members of the Company's Board of Directors. Despite these necessary reductions, the Company's compensation philosophy remained committed to a market-based program. Based on the continued improvement in the Company's operating results and the Company's desire to attract and retain employees needed for the Company to continue to deliver best-in-class service to customers, management began taking steps in April 2011 to reinstate some or all of certain compensation programs and amounts subject to the 2009 reductions. One half of the 401(k) match suspension was reinstated effective April 1, 2011. The Company has announced the other half of the 401(k) match will be reinstated December 1, 2013. The Company implemented a two and one-half percent wage and salary increase for hourly, linehaul and salaried employees in operations, maintenance, administration and management effective December 1, 2011. Effective July 1, 2012, the Company implemented a salary and wage increase for all its employees of approximately three percent and increased Board of Directors compensation to market levels. Effective July 1, 2013, the Company implemented an approximately three percent salary and wage increase for all of its employees. The impact of the July 2013 compensation increase is expected to be approximately \$13 million annually. The Company anticipates the impact of the July 2013 compensation increase to be partially offset by further productivity and efficiency gains.

If the Company builds market share, there are numerous operating leverage cost benefits. Conversely, should the economy soften from present levels, the Company plans to attempt to match resources and capacity to shifting volume levels to lessen unfavorable operating leverage. The success of cost improvement initiatives is also impacted by the cost and availability of drivers and purchased transportation, fuel, insurance claims, regulatory changes, successful implementation of profit improvement initiatives and other factors discussed under "Forward-Looking Statements" and Part II, Item 1A. "Risk Factors."

See "Forward-Looking Statements" and Part II, Item 1A. "Risk Factors" for a more complete discussion of potential risks and uncertainties that could materially affect our future performance.

### **New Accounting Pronouncements**

There are no new accounting pronouncements pending adoption as of September 30, 2013 that the Company believes would have a significant impact on its condensed consolidated financial statements.

### **Financial Condition**

The Company's liquidity needs arise primarily from capital investment in new equipment, land and structures, information technology and letters of credit required under insurance programs, as well as funding working capital requirements.

The Company is party to a revolving credit agreement (the Restated Credit Agreement) with a group of banks to fund capital investments, letters of credit and working capital needs. The facility provides up to \$200 million in availability, subject to a borrowing base and expires in June 2018. The Company is also a party to a long-term note agreement (the Restated Master Shelf Agreement). The Company has pledged certain real estate and facilities, tractors and trailers, accounts receivable and other assets to secure indebtedness under both agreements.

---

## **Table of Contents**

### *Restated Credit Agreement*

The Restated Credit Agreement is a revolving credit facility for up to \$200 million expiring in June 2018. The Restated Credit Agreement also has an accordion feature that allows for an additional \$40 million availability, subject to lender approval. The Restated Credit Agreement provides for a LIBOR rate margin range from 125 basis points to 250 basis points, base rate margins from minus 12.5 to plus 50 basis points, letter of credit fee range from 137.5 basis points to 262.5 basis points and an unused portion fee from 20 basis points to 32.5 basis points in each case based on the Company's leverage ratio.

Under the Restated Credit Agreement, the Company must maintain certain financial covenants including a minimum fixed charge coverage ratio, a maximum leverage ratio and a minimum tangible net worth, among others. The Restated Credit Agreement also provides for a pledge by the Company of certain land and structures, certain tractors, trailers and other personal property and accounts receivable, as defined in the Restated Credit Agreement. Total bank commitments under the Restated Credit Agreement are \$200 million subject to a borrowing base calculated utilizing certain pledged property, equipment and accounts receivable as defined in the Restated Credit Agreement.

At September 30, 2013, the Company had borrowings of \$51.9 million and outstanding letters of credit of \$59.1 million under the Restated Credit Agreement. At September 30, 2012, the Company had borrowings of \$19.4 million and outstanding letters of credit of \$58.6 million under the Restated Credit Agreement. The available portion of the Restated Credit Agreement may be used for general corporate purposes, including future capital expenditures, working capital and letter of credit requirements as needed.

### *Restated Master Shelf Agreement*

On September 20, 2002, the Company issued \$100 million in Senior Notes under a \$125 million (amended to \$150 million in April 2005) Master Shelf Agreement with Prudential Investment Management, Inc. and certain of its affiliates. The Company issued another \$25 million in Senior Notes on November 30, 2007 and \$25 million in Senior Notes on January 31, 2008 under the same Master Shelf Agreement.

The initial \$100 million Senior Notes have a fixed interest rate of 7.38 percent. Payments due under the \$100 million Senior Notes were interest only until June 30, 2006 and at that time semi-annual principal payments began with the final payment due December 2013. The November 2007 issuance of \$25 million Senior Notes has a fixed interest rate of 6.14 percent. The January 2008 issuance of \$25 million Senior Notes has a fixed interest rate of 6.17 percent. Payments due for both \$25 million issuances were interest only until June 30, 2011 and at that time semi-annual principal payments began with the final payments due January 1, 2018. Under the terms of the Senior Notes, the Company must maintain certain financial covenants including a minimum fixed charge coverage ratio, a maximum leverage ratio and a minimum tangible net worth, among others.

### *Other*

Projected net capital expenditures for 2013 are approximately \$115 million. This represents an approximate \$32 million increase from 2012 net capital expenditures of \$82.8 million for property and equipment. Approximately \$19 million of the remaining 2013 capital budget was committed as of September 30, 2013. Net capital expenditures pertain primarily to investments in revenue equipment, information technology, land and structures.

The Company has historically generated cash flows from operations that have funded its capital expenditure requirements. Cash flows provided by operating activities were \$67.6 million for the nine months ended September 30, 2013, \$9.8 million lower than the prior year largely due to working capital fluctuations, especially related to accounts receivable. The timing of capital expenditures can largely be managed around the seasonal working capital requirements of the Company. The Company believes it has adequate sources of capital to meet short-term liquidity needs through its operating cash flows and availability under the Restated Credit Agreement, subject to the Company's borrowing base and satisfaction of existing debt covenants. Future operating cash flows are primarily dependent upon the Company's profitability and its ability to manage its working capital requirements, primarily accounts receivable, accounts payable and wage and benefit accruals. The Company was in compliance with its debt covenants at September 30, 2013.

At September 30, 2013, YRC Worldwide Inc., formerly Yellow Corporation (Yellow), provided guarantees on behalf of Saia primarily for open workers' compensation claims and casualty claims incurred prior to March 1, 2000. Under the Master Separation and Distribution Agreement entered into in connection with the 100 percent tax-free distribution of Saia shares to Yellow shareholders in 2002, Saia pays Yellow's actual cost of any collateral it provides to insurance underwriters in support of these claims at cost plus 125 basis points. At September 30, 2013, the portion of collateral allocated by Yellow to Saia in support of these claims was \$1.6 million.

**Table of Contents**

In accordance with U.S. generally accepted accounting principles, our operating leases are not recorded in our consolidated balance sheet; however, the future minimum lease payments are included in the Contractual Obligations table below. See the notes to our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 for additional information. In addition to the principal amounts disclosed in the tables below, the Company has interest obligations of approximately \$1.1 million for the remainder of 2013 and decreasing for each year thereafter based on borrowings outstanding at September 30, 2013.

**Contractual Obligations**

The following tables set forth a summary of our contractual obligations and other commercial commitments as of September 30, 2013 (in millions):

	2013	2014	Payments due by year			Thereafter	Total
			2015	2016	2017		
Contractual cash obligations:							
Long-term debt obligations:							
Revolving line of credit	\$	\$	\$	\$	\$	\$ 51.9	\$ 51.9
Long-term debt	11.1	7.1	7.1	7.1	7.2		39.6
Operating leases	3.7	13.4	11.6	9.3	8.2	24.4	70.6
Purchase obligations (1)	22.1						22.1
<b>Total contractual obligations</b>	<b>\$ 36.9</b>	<b>\$ 20.5</b>	<b>\$ 18.7</b>	<b>\$ 16.4</b>	<b>\$ 15.4</b>	<b>\$ 76.3</b>	<b>\$ 184.2</b>

(1) Includes commitments of \$19.1 million for capital expenditures.

	2013	Amount of commitment expiration by year					Total
		2014	2015	2016	2017	Thereafter	
Other commercial commitments:							
Available line of credit (1)	\$	\$	\$	\$	\$	\$ 89.0	\$ 89.0
Letters of credit		60.7					60.7
Surety bonds	0.1	22.4					22.5
<b>Total commercial commitments</b>	<b>\$ 0.1</b>	<b>\$ 83.1</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$ 89.0</b>	<b>\$ 172.2</b>

(1) Subject to the satisfaction of existing debt covenants and borrowing base requirements.

The Company has unrecognized tax benefits of approximately \$1.3 million and accrued interest and penalties of \$1.4 million related to the unrecognized tax benefits as of September 30, 2013. The Company cannot reasonably estimate the timing of cash settlement with respective taxing authorities beyond one year and accordingly has not included the amounts within the above contractual cash obligation and other commercial commitment tables.

The Company sold the stock of Jevic Transportation, Inc. (Jevic) on June 30, 2006 and remains a guarantor under indemnity agreements, primarily with certain insurance underwriters with respect to Jevic's self-insured retention (SIR) obligation for workers' compensation, bodily injury and property damage and general liability claims against Jevic arising out of occurrences prior to the transaction date. In September 2008, the Company entered into a settlement agreement with the debtors of Jevic, which was approved by the bankruptcy court, under which the Company assumed Jevic's SIR obligation on the workers' compensation, bodily injury and property damage, and general liability claims arising prior to the transaction date.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

## Edgar Filing: SAIA INC - Form 10-Q

The Company is exposed to a variety of market risks including the effects of interest rates and fuel prices. The detail of the Company's debt structure is more fully described in the notes to the consolidated financial statements set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. To help mitigate

**Table of Contents**

our risk to rising fuel prices, the Company has implemented a fuel surcharge program. This program is well established within the industry and customer acceptance of fuel surcharges remains high. Since the amount of fuel surcharge is based on average national fuel prices and is reset weekly, exposure of the Company to fuel price volatility is significantly reduced. However, the fuel surcharge may not fully offset fuel price fluctuations during periods of rapid increases or decreases in the price of fuel and is also subject to overall competitive pricing negotiations.

The following table provides information about the Company's third-party financial instruments as of September 30, 2013. The table presents principal cash flows (in millions) and related weighted average interest rates by contractual maturity dates. The fair value of the fixed rate debt (in millions) was estimated based upon the borrowing rates currently available to the Company for debt with similar terms and remaining maturities.

	Expected maturity date					Thereafter	2013	
	2013	2014	2015	2016	2017		Total	Fair Value
Fixed rate debt	\$ 11.1	\$ 7.1	\$ 7.1	\$ 7.1	\$ 7.2		\$ 39.6	\$ 41.2
Average interest rate	6.98%	6.16%	6.16%	6.16%	6.16%			
Variable rate debt						\$ 51.9	\$ 51.9	\$ 51.9
Average interest rate						3.3%		

**Item 4. Controls and Procedures***Quarterly Controls Evaluation and Related CEO and CFO Certifications*

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company conducted an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (Disclosure Controls). The Disclosure Controls evaluation was performed under the supervision and with the participation of management, including the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

Based upon the controls evaluation, the Company's CEO and CFO have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's Disclosure Controls are effective to ensure that information the Company is required to disclose in reports that the Company files or submits under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

During the period covered by this Quarterly Report on Form 10-Q, there were no changes in internal control over financial reporting that materially affected, or that are reasonably likely to materially affect, the Company's internal control over financial reporting.

Attached as Exhibits 31.1 and 31.2 to this Quarterly Report on Form 10-Q are certifications of the CEO and the CFO, which are required in accordance with Rule 13a-14 of the Exchange Act. This Controls and Procedures section includes the information concerning the controls evaluation referred to in the certifications and it should be read in conjunction with the certifications.

*Definition of Disclosure Controls*

Disclosure Controls are controls and procedures designed to ensure that information required to be disclosed in the Company's reports filed under the Exchange Act is recorded, processed, summarized and reported timely. Disclosure Controls are also designed to ensure that such information is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. The Company's Disclosure Controls include components of its internal control over financial reporting which consists of control processes designed to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of financial statements in accordance with U.S. generally accepted accounting principles.

*Limitations on the Effectiveness of Controls*

The Company's management, including the CEO and CFO, does not expect that its Disclosure Controls or its internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints and

**Table of Contents**

the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings** For a description of all material pending legal proceedings, see Note 3 Commitments and Contingencies of the accompanying condensed consolidated financial statements.

**Item 1A. Risk Factors** Risk Factors are described in Item 1A. Risk Factors of the Company's Annual Report on Form 10-K for the year ended December 31, 2012 and there have been no material changes.
