CORPORATE GOVERNANCE

On September 27, 2013, following the consummation of certain dispositions of HGI's common stock by the HCP Stockholders, we ceased to qualify as a controlled company for the purposes of Section 303A of the New York Stock Exchange Listed Company Manual (the NYSE Rules). Prior to September 27, 2013, the HCP Stockholders controlled more than 50% of the voting power of HGI, and, accordingly, we availed ourselves of the controlled company exceptions. During such time, we had determined to voluntarily form a compensation committee (the Compensation Committee) with a written charter and composed entirely of independent directors, and not to have a nominating and corporate governance committee (NCG Committee). See Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters herein for the HCP Stockholders ownership of HGI common stock.

In accordance with the NYSE Rules, we currently have a NCG Committee and a Compensation Committee, each of which have written charters addressing each such committee's purpose and responsibilities and are comprised entirely of independent directors. Both prior to and after September 27, 2013, our audit committee (Audit Committee) has, and continues to have, a written charter and is comprised entirely of independent directors.

Director Independence

Our Board has determined that Messrs. Chan, Ianna and Luterman are independent directors under the NYSE Rules. Under the NYSE Rules, no director qualifies as independent unless the board of directors affirmatively determines that the director has no material relationship with HGI. Based upon information requested from and provided by each director concerning their background, employment and affiliations, our Board has determined that each of the directors named above has no material relationship with HGI, nor has any such person entered into any material transactions or arrangements with HGI or its subsidiaries, and is therefore independent under the NYSE Rules.

Corporate Governance Guidelines and Code of Ethics and Business Conduct

Our Board has adopted Corporate Governance Guidelines to assist it in the exercise of its responsibilities. These guidelines reflect our Board's commitment to monitor the effectiveness of policy and decision making both at our Board and management level, with a view to enhancing stockholder value over the long term. The Corporate Governance Guidelines address, among other things, our Board and Board committee composition and responsibilities, director qualifications standards and selection of the Chairman of our Board and our Chief Executive Officer.

Our Board has adopted a Code of Business Conduct and Ethics for Directors, Officers and Employees and a Code of Ethics for Chief Executive and Senior Financial Officers to provide guidance to all our directors, officers and employees, including our principal executive officer, principal accounting officer or controller or persons performing similar functions. Our Board has adopted a corporate governance policy prohibiting HGI's directors and executive officers from (i) hedging the economic risk associated with the ownership of HGI's common stock, or (ii) pledging our common stock, after the date the policy was adopted, unless first pre-approved by HGI's legal department. In Fiscal 2013 our Board adopted an equity retention policy for the Company's senior management.

Meetings of Independent Directors

We generally hold executive sessions at each Board and committee meeting. The Chairman of the Audit Committee presides over executive sessions of the entire Board and the chairman of each committee presides over the executive session of that committee.

Board Structure and Risk Oversight

Mr. Falcone serves as the Chairman of our Board and our Chief Executive Officer. Mr. Falcone has extensive investment and leadership expertise. The Board believes that HGI has benefited from this structure and, based upon Mr. Falcone's extensive investment and leadership expertise, Mr. Falcone's continuation as our Chairman and Chief Executive Officer is in the best interests of our stockholders.

Our management is responsible for understanding and managing the risks that we face in our business, and our Board is responsible for overseeing management's overall approach to risk management. Starting as of September 27, 2013, our Board has been assisted by our NCG Committee with, among other things, its oversight of risk. Our Board receives reports on the operations of our businesses from members of management and members of management of our subsidiaries as appropriate and discusses related risks. Our Board also fulfills its oversight role through the operations of our NCG Committee, Audit Committee and Compensation Committee. As appropriate, these committees of the Board provide periodic reports to our Board on their activities. Our Audit Committee is responsible for oversight of corporate finance and financial reporting related risks, including those related to our accounting, auditing and financial reporting practices. Our Compensation Committee is responsible for the oversight of our compensation policies and practices, including conducting annual risk assessments of our compensation policies and practices. Our NCG Committee is responsible for assisting our Board with the oversight of risks and reviewing and making recommendations to our Board regarding our overall corporate governance, including board and committee composition, board nominees, size and structure and director independence, our corporate governance profile and ratings, and our political participation and contributions.

Summary of Sound Governance Features of our Compensation Programs

Our compensation programs, practices, and policies are reviewed and re-evaluated periodically, and are subject to change from time to time. Our executive compensation philosophy is focused on pay for performance and is designed to reflect appropriate governance practices aligned with the needs of our business. Listed below are some of the Company's more significant practices and policies that were in effect during Fiscal 2013, which were adopted to drive performance and to align our executives' interests with those of our stockholders.

What We Did For Fiscal 2013

Pay for Performance Philosophy: Our executive compensation programs are designed to pay for performance, with a significant portion of executive compensation not guaranteed. Target compensation is established for our executive officers at the beginning of the performance period by our Compensation Committee. Our named executive officers (excluding Mr. Falcone, who, other than minor perquisites discussed in Compensation and Benefits Summary Compensation Table herein, did not receive compensation from the Company for his services in Fiscal 2013) had an opportunity to earn actual compensation that varied from target, based on achievement against pre-established performance targets. Variable compensation rewards performance and contribution to both short-term and long-term corporate financial performance. For Fiscal 2013, variable pay represented 97.6%, 93.7%, 97.5% and 80.0% of total compensation for Messrs. Asali, Williams, Maura and Sena, respectively, each of whom participated in our Fiscal 2013 bonus program.

Independent Executive Compensation Consultants: The Compensation Committee works with Mercer, Inc. (Mercer), Inc. and Hodak Value Advisors (Hodak), two independent executive compensation consultant firms, and separate outside counsel, Wilmer Cutler Pickering Hale and Dorr LLP (WilmerHale).

Mitigation of Undue Risk: Our compensation plans have provisions to mitigate undue risk, including bonus plan mechanisms that defer significant portions of awards, partially subject to forfeiture (see **Clawback Policy** and **Malus Provision** below), and relate future target performance to past performance in a manner that closely ties awards to sustainable performance over time.

Postemployment Restrictive Covenants: Our employment agreements provide for post employment non-competition, non-solicitation and non-disparagement provisions.

Clawback Policy: Our equity awards allow the Company to recover payouts in the event that recoupment is required by applicable law (including pursuant to Sarbanes-Oxley and the Dodd-Frank

Table of Contents

Wall Street Reform and Consumer Protection Act) or a participant receives for any reason any amount in excess of what should have been received (including, without limitation, by reason of a financial restatement, mistake in calculations or other administrative error).

Malus Provision: Our annual bonus program provides for an automatic deferral of payouts in excess of two times the target bonus pool, with cash deferrals subject to reduction if the Company does not meet certain specified performance criteria in subsequent years.

Negative Discretion: Our Compensation Committee reserves the right to exercise negative discretion to reduce awards under the annual bonus plan. For Fiscal 2013, the Chief Executive Officer recommended the use of negative discretion to reduce the corporate bonus pool by \$24.268 million to \$60.663 million. The Compensation Committee reviewed and accepted the Chief Executive Officer's recommendations.

Award Caps: Amounts that can be earned by any individual under the annual bonus program are capped at \$20 million per year (Award Cap).

Equity Retention: Our Board adopted an equity retention policy during Fiscal 2013 for senior management, requiring each member of senior management to retain ownership of at least 25% of his or her covered shares, net of taxes and transaction costs, until the earlier of (i) the date of such senior management member's termination of employment with the Company or (ii) the date such person is no longer a member of senior management.

What We Did Not Do for Fiscal 2013

No 280G or Section 409A Excise Tax Gross-Ups: We do not provide gross-ups for any taxes imposed with respect to Section 280G (change of control) or Section 409A (nonqualified deferred compensation) of the Internal Revenue Code.

No Pensions or Supplemental Pensions: Our named executive officers are not provided with pension or supplemental executive retirement plans.

No Change in Control Enhanced Payments or Single Trigger Equity Acceleration: In Fiscal 2013, we did not provide single-trigger equity vesting or enhanced payments upon a change of control of the Company.

No Repricing of Underwater Stock Options without Stockholder Approval: We do not lower the exercise price of any outstanding stock options, unless stockholders approve this.

No Discounted Stock Options: The exercise price of our stock options is not less than 100% of the fair market value of our common stock on the date of grant.

No Unauthorized Hedging or Pledging: The Board has adopted a corporate governance policy prohibiting our directors and executive officers from (i) hedging the economic risk associated with the ownership of our common stock and (ii) pledging our common stock, after the date the policy was adopted, unless first pre-approved by the Company's legal department.

Compensation Philosophy and General Objectives

Our executive compensation philosophy is focused on pay for performance and is designed to reflect appropriate governance practices aligned with the needs of our business. We grant target levels of compensation that are designed to attract and retain employees who are able to meaningfully contribute to our success. Our Compensation Committee considers several factors in designing target levels of compensation, including, but not limited to, historical levels of pay for each executive, actual turnover in the executive ranks, market data on the compensation of executive officers at similar companies, and its judgment about retention risk with regards to each executive relative to their importance to the Company. In reviewing market data, our Compensation Committee has reviewed the total compensation for each executive officer relative to executives in the same or

Table of Contents

similar positions in an appropriate market comparison group, which includes seventeen business development or private equity companies, adjusting the total compensation observed at these peers for their size relative to the Company. The seventeen companies are American Capital, Ltd., Apollo Global Mgmt., Blackstone Group LP, Capital Southwest Corp, Carlyle Group, Compass Diversified Holdings, Harris & Harris Group, Hercules Tech Growth Cap, Icahn Enterprises, KKR, Kohlberg Capital Corp, Leucadia National Corp, Loews Corp, Main Street Capital Corp, MCG Capital Corp, Safeguard Scientifics Inc., and Triangle Capital Corp. While median, size-adjusted total compensation is initially presumed to be competitive market pay, the Compensation Committee does not attempt to target a specific percentile within a peer group or otherwise rely exclusively on that data to determine named executive officer compensation. The Compensation Committee does not use market data to target specific components of total compensation, such as salary or bonuses, and instead determines the target total level of compensation necessary to be competitive for each executive in the relevant market for that executive's talent.

The Company's mix of fixed versus variable compensation, within the target total level of pay, is driven by the Company's emphasis on pay for performance. The Company uses variable compensation, including performance-based equity grants, as well as management's accumulated equity holdings, both vested and unvested, to enhance alignment of our named executive officers' and stockholders' interests.

Components of Executive Compensation

Our compensation program has four basic elements: salary, initial equity grants, incentive compensation, and other benefits. Salary and benefits are designed to aid in the retention of our employees. Initial equity grants are generally, though not necessarily, awarded upon hiring or promotion, and may consist of restricted stock or stock options with a vesting period. Incentive compensation generally consists of bonuses for individual and company performance, and may be awarded as cash or equity. Equity awards will typically be vested over a period of years to enhance both retention and alignment of interests.

We believe that the various components of our executive compensation program are effective in attracting and retaining our employees and providing a strong alignment of their interests with those of our stockholders. Although each element of compensation described below is considered separately, our Compensation Committee makes its determinations regarding each individual component of the compensation program in the context of the aggregate effect on total compensation for each named executive officer.

During Fiscal 2013, other than minor perquisites discussed in Compensation and Benefits Summary Compensation Table herein, Mr. Falcone did not receive compensation from the Company for his services. The Compensation Committee is currently considering entering into an employment agreement with Mr. Falcone and providing him with compensation. While the Compensation Committee is discussing potential arrangements with Mr. Falcone, there can be no assurances on the outcome of such discussions.

The principal elements of compensation for our named executive officers in Fiscal 2013, other than Mr. Falcone, were:

base salary;

variable compensation potential consisting of cash and equity payouts; and

limited benefits.

In addition, Mr. Sena was granted an initial long-term equity grant consisting of a stock option and restricted stock award.

How We Determine Each Element of Compensation

Role of Our Compensation Committee and Compensation Consultants

Our Compensation Committee is responsible for our executive compensation program design and administration, including a regular review of our compensation programs and evaluation of management performance and awards consistent with our bonus plan. In approving the compensation program and awards for Fiscal 2013, our Compensation Committee considered a number of factors including, but not limited to, the responsibilities of the position, the executives' experience and contributions, the competitive marketplace for executive talent, and corporate performance.

Since July 2011 and through the date of this report, our Compensation Committee has been advised by independent compensation consultants, Hodak, a consulting and research firm specializing in designing and implementing performance measures and management incentives, and Mercer, a global leader for human resources, in its review of the Company's compensation elements, levels of pay and potential programs for short and long term compensation and by separate outside legal counsel, Wilmer Hale. Throughout Fiscal 2013, Mercer, Hodak and WilmerHale worked with our Compensation Committee on the Company's compensation program, including target levels of compensation for current and new employees, bonus plans or equity awards, and other compensation policies affecting executive officers and directors. Our Compensation Committee met 15 times during Fiscal 2013.

In light of new SEC rules and new NYSE Rules, our Compensation Committee considered the independence of each of our compensation consultants, Hodak and Mercer, including assessment of the following factors: (i) other services provided to the Company by the consultant; (ii) fees paid as a percentage of the consulting firm's total revenue; (iii) policies or procedures maintained by the consulting firm that are designed to prevent a conflict of interest; (iv) any business or personal relationships between the individual consultants involved in the engagement and any member of our Compensation Committee; (v) any Company stock owned by the individual consultants involved in the engagement; and (vi) any business or personal relationships between our executive officers and the consulting firm or the individual consultants involved in the engagement. Our Compensation Committee has concluded that no conflict of interest exists that would prevent our consultants from independently representing our Compensation Committee.

Base Salary

The base salary of our named executive officers is intended to provide a level of fixed compensation that contributes to the attraction or retention of our executive officers. For Fiscal 2013, our Compensation Committee determined that, at \$500,000 per year for each of Messrs. Asali, Williams and Maura and \$250,000 per year for Mr. Sena, the salaries represented an appropriate level of fixed compensation relative to each such named executive officer's respective target total compensation, which varies by position in accordance with each such executive officer's job responsibilities and contributions to our Company.

During Fiscal 2012, the Company entered into an employment agreement with each of Messrs. Asali, Williams and Maura, and during Fiscal 2013 the Company entered into an employment agreement with Mr. Sena. These employment agreements provide for a fixed base salary and other compensation and were negotiated in connection with Messrs. Asali, Williams, Maura and Sena joining the Company and were approved by our Compensation Committee.

Annual Bonus Plan

Messrs. Asali, Williams, Maura and Sena participated in the bonus plan for Fiscal 2013 (the 2013 Bonus Plan) along with other key employees of the Company. The 2013 Bonus Plan is designed to (i) offer target variable compensation that provide competitive levels of total pay to executives if they achieve target results and (ii) reward and encourage value creation by executives. It provides for annual bonuses comprised of two components. The first component is an individual bonus (the individual bonus) based on the achievement of

Table of Contents

personal performance goals. The second component is a corporate bonus (the corporate bonus) based on the achievement of corporate performance measured in terms of the change in the Company's Net Asset Value (as defined below) from the beginning of the Company's fiscal year to the end of the Company's fiscal year end (NAV Return), in excess of a threshold NAV Return, which for Fiscal 2013 was set at \$96.6 million (the Fiscal 2013 Threshold NAV Return), representing a 7% increase in the Compensation Committee's approved Net Asset Value per share at the beginning of Fiscal 2013. Please see the discussion below for additional details for the calculation of the NAV Return.

NAV Return is believed to be a good proxy for creation of value for the Company and its stockholders because it encourages, among other things, the generation of cash flow by the Company's subsidiaries and transactions resulting in appreciation of the assets of the Company and its subsidiaries. Corporate bonuses are awarded annually with a portion immediately vested and a portion subject to vesting over a number of years. A portion of the unvested amounts are subject to forfeiture if the NAV Return thresholds are not satisfied in the following years. Our Compensation Committee believes that paying a corporate bonus consistently based on NAV Return, subject to vesting over a number of years, encourages a long-term focus on value creation for the benefit of our stockholders. If in Fiscal 2013, the Company had not produced a NAV Return greater than \$96.6 million, no corporate bonuses would have been earned.

For Fiscal 2013, NAV Return was based on the amount calculated as the product of (i) the percentage increase in the Net Asset Value per share of the Company from the beginning of Fiscal 2013 to the end of Fiscal 2013 multiplied by (ii) the Net Asset Value at the beginning of Fiscal 2013. The 2013 Bonus Plan provides that 12% of the excess, if any, of the NAV Return for Fiscal 2013 over the Fiscal 2013 Threshold NAV Return is to be allocated to fund the corporate bonus pool for bonuses to all named executive officers and other key employees. This amount was then reduced (as discussed in greater detail below) by our Compensation Committee pursuant to its exercise of its negative discretion.

For the purpose of the foregoing calculation, the Company's Net Asset Value is generally calculated by (i) starting with the value of the Company's Net Asset Value, as such term is defined in the Company's Certificate of Designation of Series A Participating Convertible Preferred Stock of the Company dated as of May 12, 2011 (the Preferred Stock Certificate), (ii) then subtracting from such amount the Company's deferred tax liabilities, (iii) then adding to such amount the Company's capital contributions to fund start-up businesses, which is subject to a \$20 million cap, (iv) then adding to such amount the Company's deferred financing costs, (v) then adding to such amount the value of the Company's assets that have not been appraised, which is subject to a \$50 million cap, (vi) then eliminating the effect of any increase in legacy liabilities associated with our predecessor entity, Zapata Corporation and its subsidiaries, (vii) then adding to such amount expenses incurred in connection with completing any acquisitions by the Company within the past twelve months, and (viii) excluding any accretion on preferred stock (calculated in the manner contained in the Preferred Stock Certificate). The Company then makes adjustments to eliminate the effects of any conversion of preferred stock into common stock.

Our Company achieved a NAV Return of \$804,360,494 during Fiscal 2013. Accordingly, pursuant to the 2013 Bonus Plan, 12% of the portion of the Fiscal 2013 NAV Return that is in excess of \$96.6 million, or \$84.931 million, was allocated to fund the corporate bonus pool for bonuses to all named executive officers and other key employees. The overall bonus pool was preliminarily divided among all plan participants based on their individual target bonuses as a proportion to the sum of target bonuses. Our Chief Executive Officer, who did not participate in the 2013 bonus plan, then made recommendations to our Compensation Committee with regard to the overall bonus pool and the allocation of awards to all plan participants relative to their respective contributions. For Fiscal 2013, our Chief Executive Officer recommended the use of negative discretion to reduce the corporate bonus pool by \$24.268 million to \$60.663 million. Our Compensation Committee reviewed and accepted our Chief Executive Officer's recommendations. There were no adjustments to the corporate bonus award for any named executive officer in Fiscal 2013, except for

Mr. Asali, whose total bonus award for Fiscal 2013 was limited to \$20 million by the Award Cap.

Table of Contents

Pursuant to the 2013 Bonus Plan, awards are paid out in a mix of cash (40%) and equity (60%). The 2013 Bonus Plan was designed such that all awards for Fiscal 2013 greater than two times the target bonus for each plan participant are deferred to subsequent years, in each case, in the proportions as set forth in the charts below. Deferred cash payments may be reduced in subsequent years, if the NAV Return in such years is below a threshold return.

The corporate bonus earned is distributed to participants as follows:

Up to two times the target corporate bonus pool could be paid out in Fiscal 2013 in the following proportion:

1. Cash

2. Fully Vested Stock

3. Restricted stock (subject to continued employment) vests on the first anniversary of the grant date.

4. Fully vested stock options.

5. Stock options (subject to continued employment) vest on the first anniversary of the grant.

As stated above, for Fiscal 2013 a portion of the annual bonus (namely, the individual bonus), was based on individual performance achievement against certain pre-established goals. For Messrs. Asali and Maura, for Fiscal 2013 85% of their target annual bonus was the corporate bonus (based on NAV Return) and 15% was the individual bonus based on performance of individual goals. For Mr. Williams, for Fiscal 2013 60% of his target annual bonus consisted of a corporate bonus and 40% was an individual bonus. For Mr. Sena, for Fiscal 2013 50% of his target annual bonus consisted of a corporate bonus and 50% was an individual bonus. The performance goals for the individual bonus were determined by our Compensation Committee on an individual basis. Participants earned between 0 and 200% of their individual target bonus based on achievement of the individual performance goals, and the individual bonuses could be earned even if NAV Return during Fiscal 2013 did not exceed the Fiscal 2013 Threshold NAV Return. Each of the named executive officers earned 200% of their individual target bonuses based on achievement of their individual performance goals during Fiscal 2013.

Amounts in excess of two times the corporate bonus pool could be paid out in the following proportion:

1. Cash paid on the first anniversary of the original payment date.

2. Cash paid on the second anniversary of the original payment date.

3. Restricted stock (subject to continued employment) vests in substantially equal installments on the second and third anniversaries of the grant date.

4. Stock options (subject to continued employment) vest in substantially equal installments on the second and third anniversaries of the grant date.

For Fiscal 2013, our Compensation Committee established only objective performance goals for Mr. Asali's individual bonus, which were (i) receipt of \$100 million of dividends by the Company from its subsidiaries, (ii) the Company raising capital to replace the \$500 million of senior debt and (iii) the improvement of the

Table of Contents

Company's credit rating by at least one major credit rating agency. For Fiscal 2013, Mr. Asali's total target bonus was \$2.5 million. Our Compensation Committee determined that Mr. Asali achieved or exceeded each of his individual performance measures. Accordingly, for Fiscal 2013, our Compensation Committee awarded Mr. Asali an individual bonus and corporate bonus in excess of his target amounts, which were comprised of immediately vested and deferred cash and equity. See Compensation and Benefits Summary Compensation Table and Significant Events after Fiscal 2013 Equity Grants Pursuant to the 2013 Bonus Plan for details regarding the amount of Mr. Asali's individual bonus and corporate bonus and its allocation among immediately vested and deferred cash and equity.

For Fiscal 2013, our Compensation Committee established only objective performance goals for Mr. Williams' individual bonus, which were (i) receipt of \$100 million of dividends by the Company from its subsidiaries, (ii) the Company raising capital to replace the \$500 million of senior debt, (iii) the improvement of the Company's credit rating by at least one major credit rating agency, (iv) the Company's compliance with all existing or new debt covenants and (v) timely and accurate completion of all external financial reporting by the Company. For Fiscal 2013, Mr. Williams' total target bonus was \$1 million. Our Compensation Committee determined that Mr. Williams achieved or exceeded each of his individual performance measures. Accordingly, for Fiscal 2013, our Compensation Committee awarded Mr. Williams an individual bonus and corporate bonus in excess of his target amounts, which were comprised of immediately vested and deferred cash and equity. See Compensation and Benefits Summary Compensation Table and Significant Events after Fiscal 2013 Equity Grants Pursuant to the 2013 Bonus Plan for details regarding the amount of Mr. Williams' individual bonus and corporate bonus and its allocation among immediately vested and deferred cash and equity.

For Fiscal 2013, our Compensation Committee established only objective performance goals for Mr. Maura's individual bonus, which were (i) Spectrum Brands' achievement of \$495 million of adjusted EBITDA (as defined below), (ii) Spectrum Brands' achievement of \$210 million of adjusted free cash flow and (iii) receipt of \$30 million of dividends by the Company from Spectrum Brands. For the purposes of Mr. Maura's performance measure, adjusted EBITDA was defined as reported operating income plus certain defined add-backs for depreciation, amortization, acquisition, integration and restructuring related charges. For Fiscal 2013, Mr. Maura's total target bonus was \$2 million. Our Compensation Committee determined that Mr. Maura achieved or exceeded each of his individual performance measures. Accordingly, for Fiscal 2013, our Compensation Committee awarded Mr. Maura an individual bonus and corporate bonus in excess of his target amounts, which were comprised of immediately vested and deferred cash and equity. See Compensation and Benefits Summary Compensation Table and Significant Events after Fiscal 2013 Equity Grants Pursuant to the 2013 Bonus Plan for details regarding the amount of Mr. Maura's individual bonus and corporate bonus and its allocation among immediately vested and deferred cash and equity.

For Fiscal 2013, our Compensation Committee established both objective and subjective performance goals for Mr. Sena's individual bonus, which were (i) preparing debt and equity offering memorandums and debt and equity registrations as directed by the Company's Chief Financial Officer (ii) timely and successful completion of all external auditor reviews and audits of the Company, and (iii) timely and accurate completion of all financial reporting by the Company. For Fiscal 2013, Mr. Sena's total target bonus was \$200,000. Our Compensation Committee determined that Mr. Sena achieved or exceeded each of his individual performance measures. Accordingly, for Fiscal 2013, our Compensation Committee awarded Mr. Sena an individual bonus and corporate bonus in excess of his target amounts, which were comprised of immediately vested and deferred cash and equity. See Compensation and Benefits Summary Compensation Table and Significant Events after Fiscal 2013 Equity Grants Pursuant to the 2013 Bonus Plan for details regarding the amount of Mr. Sena's individual bonus and corporate bonus and its allocation among immediately vested and deferred cash and equity.

The maximum bonus payment to any individual under our Bonus Plan with respect to any year is subject to the \$20 million Award Cap. For Fiscal 2013, this cap limited the total bonus awarded to Mr. Asali in contrast to the amount he

would have otherwise earned for Fiscal 2013.

Table of Contents

Cash amounts payable pursuant to the 2013 Bonus Plan are included in the column titled "Non-Equity Incentive Plan Compensation" in the Summary Compensation Table for Fiscal 2013 (although no amounts are actually payable until after the end of Fiscal 2013). However, in the case of equity awards, the SEC disclosure rules require that the Summary Compensation Table and the Grants of Plan-Based Awards Table include for each fiscal year the aggregate fair value, as of the grant date, of equity awards granted only during the applicable fiscal year. The equity awards that were earned by our named executive officers pursuant to the 2013 Bonus Plan in respect of Fiscal 2013 performance were granted on November 29, 2013 and December 2, 2013. As these equity awards will be granted after the end of Fiscal 2013, they are not included in the Summary Compensation Table and Grants of Plan-Based Awards Table in this report, but in accordance with SEC rules will be included in next year's table for our named executive officers in Fiscal 2014. Notwithstanding the foregoing, we do disclose these awards in this report under "Significant Events after Fiscal 2013 - Equity Grants Pursuant to the 2013 Bonus Plan."

Initial Long Term Equity Grant

Our practice is to grant service-based equity to named executive officers when our Compensation Committee or Board determines that it would be to the advantage and in the best interests of the Company and its stockholders to grant such equity as an inducement to enter into or remain in the employ of the Company and as an incentive for increased efforts during such employment.

In Fiscal 2013, in accordance with the execution of his employment agreement, Mr. Sena received a one-time initial grant of shares of restricted stock and nonqualified stock options, pursuant to the Harbinger Group Inc. 2011 Omnibus Equity Award Plan (the "2011 Plan"). The number of equity awards granted was determined pursuant to his employment agreement. On November 19, 2012, Mr. Sena was granted 10,000 shares of restricted stock and nonqualified stock options to purchase 30,000 shares of our common stock. Subject to his continued employment, Mr. Sena's restricted stock will vest on November 19, 2015 and his option awards will vest 25% per year on the first, second, third and fourth anniversaries of November 19, 2012.

Benefits

During Fiscal 2013, we provided our named executive officers with standard medical, dental, vision, disability and life insurance benefits available to employees generally.

We limit the use of perquisites as a method of compensation and provide executive officers with only those perquisites that we believe are reasonable and consistent with our overall compensation program to better enable us to attract and retain superior employees for key positions. Our named executive officers are eligible to participate in a flexible perquisite account under our FlexNet Program, which permits them to be reimbursed for certain eligible personal expenses, up to a per year cap of \$50,000 for Messrs. Asali, Williams and Maura and \$10,000 for Mr. Sena. Eligible expenses include, but are not limited to, reimbursement for tax preparation, legal services, education programs, health and wellness programs, technology and personal computers, wills and estate planning services and transportation services. Participants are responsible for payment of taxes on FlexNet payments. Reimbursements, at participants' elections, can be net of taxes and/or include an estimated tax payment, subject to the annual maximum reimbursement cap. The perquisites provided to the named executive officers are quantified in the Summary Compensation Table below.

We sponsor a 401(k) Retirement Savings Plan (the "401(k) Plan") in which eligible participants may defer a fixed amount or a percentage of their eligible compensation, subject to limitations. In Fiscal 2013 we made discretionary matching contributions of up to 5% of eligible compensation.

Risk Review

Our Compensation Committee has reviewed, analyzed and discussed the incentives created by our executive compensation program. Our Compensation Committee does not believe that any aspect of our executive compensation encourages the named executive officers to take unnecessary or excessive risks.

Table of Contents

Our compensation program has provisions to mitigate undue risk, including bonus plan mechanisms that defer significant portions of awards, which are partially subject to forfeiture if the performance that merited the award is not sustained. Furthermore, a significant portion of the deferred awards consist of unvested equity, and the vested portion is subject to the Company's stock ownership guidelines. We believe that the additional alignment created by this exposure to the Company's stock price serves to moderate an appetite for undue risk. We also relate future target performance to past actual performance in a manner that closely ties awards to performance over multiple years, which we believe reduces the incentive for short-term decisions or actions that increase current performance at the expense of future growth.

Compensation in Connection with Termination of Employment and Change-In-Control

In determining our employees' compensation packages, our Compensation Committee recognizes that an appropriate incentive in attracting talent is to provide reasonable protection against loss of income in the event the employment relationship terminates without fault of the employee. Thus, compensation practices in connection with termination of employment generally have been designed to achieve our goal of attracting highly qualified executive talent. Messrs. Asali, Williams, Maura and Sena have employment agreements which provide for termination compensation in the form of payment of bonuses and salary and benefit continuation ranging from six to twelve months following involuntary termination of employment. During Fiscal 2013, our compensation programs did not provide for any golden parachute tax gross-ups to any named executive officer. During Fiscal 2013, we also did not provide any single-trigger payments due to the occurrence of a change of control to any of our named executive officers.

You can find additional information regarding our practices in providing compensation in connection with termination of employment to our named executive officers under the heading "Payments Upon Termination and Change of Control" below.

Impact of Tax Considerations

With respect to taxes, Section 162(m) of the Internal Revenue Code imposes a \$1 million limit on the deduction that a company may claim in any tax year with respect to compensation paid to each of its Chief Executive Officer and three other named executive officers (other than the Chief Financial Officer), unless certain conditions are satisfied. Certain types of performance-based compensation are generally exempted from the \$1 million limit. Performance-based compensation can include income from stock options, performance-based restricted stock, and certain formula driven compensation that meets the requirements of Section 162(m). One of the factors that we may consider in structuring the compensation for our named executive officers is the deductibility of such compensation under Section 162(m), to the extent applicable. However, this is not the driving or most influential factor. Our Compensation Committee may approve non-deductible compensation arrangements after taking into account several factors, including our ability to utilize deductions based on projected taxable income, and specifically reserves the right to do so.

Advisory Vote on Executive Compensation

Our Compensation Committee and our Board considered the results of our stockholder vote regarding the non-binding resolution on executive compensation presented at the 2011 Annual Meeting, where 97.31% of votes cast approved the compensation program described in the Company's proxy statement for the 2011 Annual Meeting. Our Compensation Committee and our Board have continued to maintain a generally similar compensation philosophy but have implemented new compensation plans, including annual bonus plans, commensurate with the expansion of our roster of executives since the 2011 Annual Meeting.

At the 2011 Annual Meeting, a majority of our stockholders approved, as recommended by our Board, a proposal for our stockholders to be provided with the opportunity to cast a non-binding advisory vote on compensation of our named executive officers every three years. Our Board believed that this frequency is appropriate as a triennial vote would provide the Company with sufficient time to engage with stockholders to

understand and respond to the say-on-pay vote results and to put in place any changes to the Company's compensation program as a result of such discussions, if necessary. The next stockholder advisory (non-binding) vote on executive compensation will be held at our upcoming 2014 Annual Meeting.

In addition, the Company shall pay the executive any accrued but unpaid base salary and vacation time and any properly incurred but unreimbursed business expenses.

Pursuant to his employment agreement, Mr. Kuritzkes will also be subject to certain non-solicitation restrictions ranging from twelve (12) to eighteen (18) months post termination of employment, as well as perpetual confidentiality provisions. Mr. Kuritzkes will also be subject to a perpetual non-disparagement covenant and subject to Mr. Kuritzkes signing a release of claims, the non-disparagement covenant will be mutual.

Mr. Kuritzkes' employment agreement was approved by our Board following its approval and recommendation by our Compensation Committee, who were advised by the Company's compensation consultants. We may enter into other compensation arrangements (such as salary, bonus and retention arrangements, if any) with existing and future officers and employees depending on the circumstances and relevant factors.

Table of Contents**Nonqualified Deferred Compensation**

Our annual bonus program provides for an automatic deferral of payouts in excess of two times the target bonus pool. These cash amounts, payable on a deferred basis pursuant to the 2012 Bonus Plan, were previously included as Non-Equity Incentive Plan Compensation in the Summary Compensation Table for Fiscal 2012, but were not reflected in the Nonqualified Deferred Compensation table for Fiscal 2012 because these amounts were awarded in November 2012, which was after the completion of Fiscal 2012. Similarly, the portion of the cash bonuses earned under the 2013 Bonus Plan but payable on a deferred basis were awarded in November 2013, which was after the completion of Fiscal 2013, and are therefore not included in the table below.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Our Board has adopted a Statement of Policy with Respect to Related Party Transactions (the Related Party Transactions Policy). A Related Party Transaction is defined in the Related Party Transactions Policy as any financial transaction or any series of similar transactions in which we are a participant and in which a related person (*i.e.*, a director, officer, beneficial owner of more than 5% of any class of our capital stock or a family member or controlling or controlled entity of the foregoing persons) has a direct or indirect interest, other than: (i) our payment of compensation to a related person for the related person's service in the capacity that give rise to the person's status as a related person; (ii) transactions available to all of our employees or all of our stockholders on the same terms; and (iii) transactions which, when aggregated with the amount of all other transactions between us and the related person, involve in a fiscal year the lesser of (a) \$100,000 or (b) 1% of the average of our total assets at year-end for the last two completed fiscal years. Pursuant to the Related Party Transaction Policy, the Related Party Transaction proposed to be entered into must be reported to our Board for review. In reviewing and determining whether to approve a proposed Related Party Transaction presented to our Board, the disinterested members of our Board will analyze such factors as they deem appropriate. We may only enter into a Related Party Transaction upon approval by our Board. Our Board may delegate its authority to review and approve Related Party Transactions to the Audit Committee, a special committee or other committee of our Board.

Services Arrangements

In November 2012, HGI and Harbinger Capital entered into a reciprocal services agreement (the Services Agreement) with respect to the provision of services to each other going forward. Pursuant to the Services Agreement, the parties each agreed to provide or cause to be provided services to each other, including their respective affiliates and subsidiaries. The services may include providing office space and operational support and each party making available their respective employees to provide services as reasonably requested by the other party, subject to any limitations contained in applicable employment agreements and the terms of the Services Agreement. Each party will pay the other party a service fee for the services provided and such service fee is intended to be the actual cost of the service without profit but including, as applicable, one-time costs, out-of pocket costs, costs of consents, fully loaded hourly rates and any pass through or allocation of payments. The Services Agreement provides that the parties are subject to confidentiality obligations and that the parties will indemnify each other and their related parties against certain costs and liabilities arising out of the performance of the Services Agreement. The Services Agreement will continue in effect until terminated by either party, following thirty (30) days advance written notice. A special committee of HGI's Board, comprised of independent directors under the NYSE Rules, advised by separate outside counsel, determined that it is in the best interests of HGI and its stockholders (not including Harbinger Capital and its affiliates) for HGI to enter into the Services Agreement and recommended to HGI's Board that they approve entry into the Services Agreement. Following such determination, HGI's Board approved the Services Agreement. HGI recognized \$4.7 million of expenses under the Service Agreement with respect to Fiscal 2013. The Company believes that the amount of expenses recognized is reasonable; however, it does not necessarily represent the costs that would have been incurred by the Company on a stand-alone basis.

Registration Rights Agreement

Pursuant to the terms of an existing registration rights agreement between HRG and the HCP Stockholders, HRG undertook a registered secondary offering of 23.0 million shares of HRG's common stock owned by the HCP Stockholders. HRG incurred \$0.4 million related to such offering during Fiscal 2013. HRG also provided customary representations, warranties and indemnifications to the underwriters.

Table of Contents**Repurchases of Securities**

In August 2013, HRG repurchased 1,700,000 shares of its common stock from the Special Situation Fund, under the terms of a publicly announced general repurchase program of its outstanding common stock. See Part II, Item 5. of the Original 10-K Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities Share Repurchases.

DIRECTOR INDEPENDENCE

Our Board has determined that Messrs. Chan, Ianna and Luterman are independent directors under the NYSE Rules. Under the NYSE Rules, no director qualifies as independent unless our Board affirmatively determines that the director has no material relationship with HGI. Based upon information requested from and provided by each director concerning their background, employment and affiliations, including commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, our Board has determined that each of the independent directors named above has no material relationship with HGI, nor has any such person entered into any material transactions or arrangements with HGI or its subsidiaries, either directly or as a partner, stockholder or officer of an organization that has a relationship with HGI, and is therefore independent under the NYSE Rules.

Item 14. Principal Accounting Fees and Services

In accordance with Sarbanes-Oxley, the Audit Committee Charter provides that the Audit Committee of our Board has the sole authority and responsibility to pre-approve all audit services, audit-related tax services and other permitted services to be performed for the Company by our independent registered public accounting firm and the related fees. Pursuant to its charter and in compliance with rules of the SEC and Public Company Accounting Oversight Board (PCAOB), the Audit Committee has established a pre-approval policy and procedures that require the pre-approval of all services to be performed by the independent registered public accounting firm. The independent registered public accounting firm may be considered for other services not specifically approved as audit services or audit-related services and tax services so long as the services are not prohibited by SEC or PCAOB rules and would not otherwise impair the independence of the independent registered public accounting firm. The Audit Committee has also delegated pre-approval to the Audit Committee Chairman to pre-approve audit services of up to \$200,000 and certain permitted non-audit services up to \$50,000 per engagement; however, any services pre-approved by the Audit Committee Chairman must be reported to the full Audit Committee at its next meeting.

The table below sets forth the professional fees we paid to our independent registered public accounting firm for professional services rendered (i) during Fiscal 2013 to the Company, HGI Funding, HFG, and HGI Energy and (ii) during Fiscal 2012 to the Company, HGI Funding and to HFG after its acquisition by the Company. Professional fees paid for such services by our other reporting affiliates, Spectrum Brands and its subsidiaries and Zap.Com, are disclosed in such affiliates' Annual Report on Form 10-K or amendments thereto.
