FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

We, Famous Dave s of America, Inc. (Famous Dave s or the Company), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave s . As of March 30, 2014, there were 193 Famous Dave s restaurants operating in 34 states, the Commonwealth of Puerto Rico, and 1 Canadian province, including 53 company-owned restaurants and 140 franchise-operated restaurants. An additional 61 franchise restaurants were committed to be developed through signed area development agreements as of March 30, 2014.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission (SEC) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave s and its subsidiaries as of March 30, 2014 and December 29, 2013 and for the three month periods ended March 30, 2014 and March 31, 2013. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 29, 2013 as filed with the SEC.

Due to the seasonality of our business, revenue and operating results for the three months ended March 30, 2014 are not necessarily indicative of the results to be expected for the full year.

Reclassifications Certain reclassifications have been made to prior year amounts to conform to the current year s presentation.

In fiscal 2013, to be more comparable to other public restaurant companies, the Company made the decision to reflect multi-unit supervision expenses within general and administrative expenses as opposed to operating expenses where it had been previously reflected. For the first three months of fiscal 2013, the reclassification from operating expenses to general and administrative expenses was approximately \$514,000.

(2) Net Income Per Common Share

Basic net income per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options and restricted stock units, when dilutive.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Following is a reconciliation of basic and diluted net income per common share:

	Three Months Ended	
	March 30,	March 31,
	2014	2013
<i>(in thousands, except per share data)</i>		
Net income per common share basic:		
Net income	\$ 516	\$ 62
Weighted average shares outstanding	7,312	7,370
Net income per common share basic	\$ 0.07	\$ 0.01
Net income per common share diluted:		
Net income	\$ 516	\$ 62
Weighted average shares outstanding	7,312	7,370
Dilutive impact of common stock equivalents outstanding	33	278
Adjusted weighted average shares outstanding	7,345	7,648
Net income per common share diluted	\$ 0.07	\$ 0.01

All options outstanding as of March 30, 2014 were included in the computation of diluted earnings per share. There were 15,000 stock options outstanding on March 31, 2013 that were excluded from the computation of diluted earnings per share because they were anti-dilutive.

(3) Restricted Cash and Marketing Fund

We have a system-wide Public Relations and Marketing Development Fund, to which Company-owned restaurants, in addition to the majority of franchise-operated restaurants, contribute a percentage of net sales, currently 0.75%, for use in public relations and marketing development efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflect the cash related to this fund in restricted cash and reflect the liability in accounts payable on our consolidated balance sheets as of March 30, 2014 and December 29, 2013. We had approximately \$779,000 and \$ 1.1 million in this fund as of March 30, 2014 and December 29, 2013, respectively.

(4) Allowance for Doubtful Accounts

Accounts Receivable, Net We provide an allowance for uncollectible accounts on accounts receivable based on historical losses and existing economic conditions, when relevant. We provide for a general bad debt reserve for franchise receivables due to increases in days sales outstanding and deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria and is adjusted each quarter based on past due receivable balances. Additionally, we have periodically established a specific reserve on certain receivables as necessary. Any changes to the reserve are recorded in general and administrative expenses. The allowance for uncollectible accounts was approximately \$160,000 and \$72,000, at March 30, 2014 and December 29, 2013, respectively. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivables are credited to allowance for doubtful accounts. Accounts receivable balances written off have not exceeded allowances provided. We believe all accounts receivable in excess of the allowance are fully collectible. If accounts receivable in excess of provided allowances are determined uncollectible, they are charged to expense in the period that determination is made. Outstanding past due accounts receivable are subject to a monthly interest charge on unpaid balances which is recorded as interest income in our consolidated statements of operations. In assessing recoverability of these receivables, we make judgments regarding the financial condition of the franchisees based primarily on past and current payment trends, as well as other variables, including without limitation annual financial information that the franchisees are required to submit to us.

The Company has intangible assets that consist of liquor licenses and lease interest assets. The liquor licenses are indefinite lived assets and are not subject to amortization. The lease interest assets are amortized to occupancy costs on a straight-line basis over the remaining term of each respective lease. Amortization for each of the next five years is expected to be approximately \$47,500.

A reconciliation of beginning and ending amounts of intangible assets at March 30, 2014 and December 29, 2013, respectively, are presented in the table below:

(1) The current portion is included in prepaid expenses and other current assets on the consolidated balance sheets.

(6) Credit Facility, Long-Term Debt and Debt Covenants

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender). The Credit Agreement was amended on March 14, 2013 and will expire on July 5, 2016 and contains a \$30.0 million revolving credit facility (the Facility) with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit, which reduce the availability of the Facility. At March 30, 2014, the principal amount outstanding under the Facility and the Term Loan was \$12.3 million and \$4.5 million, respectively, along with approximately \$620,000 in letters of credit for real estate locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. For the three months ended March 30, 2014 and March 31, 2013, our weighted average interest rate for the Facility was 2.85% and 3.09%, respectively. Unused portions of the Facility are subject to a fee, which was 0.375% of the unused amount at March 30, 2014. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the three months ended March 30, 2014 and March 31, 2013 was 2.33% and 2.75%, respectively. The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Facility contains various financial covenants as well as customary affirmative and negative covenants for credit facilities of this type. For more information regarding the details of the various financial covenants and customary affirmative and negative covenants, please read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 29, 2013. We were in compliance with all covenants as of March 30, 2014.

We have adopted a 2005 Stock Incentive Plan, pursuant to which we may grant stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance stock units and other stock and cash awards to eligible participants. We have also adopted a 1998 Director Stock Option Plan that expired on June 19, 2008. Although incentives are no longer eligible for grant under this plan, it will remain in effect until all outstanding incentives granted thereunder have either been satisfied or terminated. Together, the 2005 Stock Incentive Plan and the 1998 Director Stock Option Plan are referred to herein as the "Plans." Under the Plans, an aggregate of 403,342 shares of our Company's common stock remained unreserved and available for issuance at March 30, 2014.

We recognized stock-based compensation expense in our consolidated statements of operations for the three months ended March 30, 2014 and March 31, 2013, respectively, as follows:

(5) Includes the recapture of previously recorded stock-based compensation of approximately \$128,000 due to the recent departure of our prior CEO.

(6) Includes the recapture of previously recorded stock-based compensation of approximately \$20,000 due to the recent departure of our prior CEO.

(7) Includes the recapture of previously recorded stock-based compensation of approximately \$55,000.

Performance Shares and Performance Stock Units

During the first quarter of fiscal 2014, we issued 86,519 shares upon satisfaction of conditions under the 2011 performance share program, representing the achievement of approximately 86.7% of the target payout for this program. Recipients elected to forfeit 30,518 of those shares to satisfy tax withholding obligations, resulting in a net issuance of 56,001 shares.

For the 2011 and 2012 performance share programs, performance is measured by comparing actual earnings per share to a target earnings per share amount. For fiscal 2013, performance under the Company's performance share and performance stock unit programs were measured by using Adjusted EBITDA. For these

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

purposes, Adjusted EBITDA was defined as income from operations of the Company, plus depreciation and amortization, non-cash adjustments (such as asset impairment, lease termination and other closing costs) and other non-cash items as approved by the Company's Compensation Committee. Adjusted EBITDA was subject to adjustment by the Compensation Committee in its sole discretion for non-cash items. As of the end of the first quarter of fiscal 2014, the Compensation Committee was still determining the structure for a 2014 equity incentive program. As a result, no equity incentive program compensation expense was taken during the first quarter of 2014.

We recognize compensation cost for performance share awards over the requisite service period (i.e. fixed treatment) based on their fair value, which is the closing stock price at the date of grant. Participants in each performance share program are entitled to receive a number of shares of our common stock (Performance Shares) based upon the extent to which we achieve the cumulative total of the earnings per share or Adjusted EBITDA goals established by our Compensation Committee for each fiscal year within a three-year performance period (the Cumulative EPS Goal or Cumulative Adjusted EBITDA Goal). Receipt of any performance shares is contingent upon our achieving a specified minimum percentage of the Cumulative EPS Goal or Cumulative Adjusted EBITDA Goal (as applicable).

We recognize compensation cost for performance stock unit awards over the requisite service period based on their initial fair value, which is the closing stock price at the date of grant. This award is adjusted to fair value based on the closing stock price at the end of each fiscal quarter. Recipients of performance stock unit awards are entitled to receive a cash payout based on a number of our stock units awarded (Performance Stock Unit) to the extent we achieve the Cumulative Adjusted EBITDA Goal, and the market value of our common stock.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

At March 30, 2014, the following performance share programs were in progress:

Award Date	Program	Target No. of Performance Shares and Performance Stock Units (Originally Granted)⁽¹⁾⁽²⁾	Target No. of Performance Shares and Performance Stock Units (Outstanding at March 30, 2014)	Maximum Payout (as a percent of target number)

1/8/2013	2013 Program	69,180 ⁽⁶⁾	62,263 ⁽⁴⁾	100.0% ⁽⁷⁾

(1) Assumes achievement of 100% of the applicable Cumulative EPS Goal or Adjusted EBITDA Goal.

(2) Net of employee forfeitures.

(3) Assumes an estimated payout equal to 82.8% of the applicable Cumulative EPS Goal. Final payout amounts will be determined upon the Company filing its annual report on Form 10-K for the 2014 fiscal year.

(4) Consists of 55,679 performance shares and 6,584 performance stock units, assuming an estimated payout equal to 90.0% of the applicable Cumulative Adjusted EBITDA Goal. Final payout amounts will be determined upon the Company filing its annual report on Form 10-K for the 2015 fiscal year.

(5) The participants' rights to receive Performance Shares are contingent on the Company achieving cumulative earnings per share for fiscal 2012-2014 that are equal to at least the sum of the amounts achieved by the Company during fiscal 2011-2013 (as adjusted by the Compensation Committee, if applicable). If the Company achieves this minimum threshold, then participants will be entitled to receive a percentage of their Target number of Performance Shares equal to the percentage of the Cumulative EPS Goal achieved by the Company, up to 100%. If the Company achieves more than 100% of the Cumulative EPS Goal, then participants will be entitled to receive 100% of their Target number of Performance Shares, plus an additional percentage equal to twice the incremental percentage increase in the Cumulative EPS Goal achieved over 100% (e.g., if the Company achieves 103% of the Cumulative EPS Goal, then participants will be entitled to receive 106% of their Target number of Performance Shares); provided that the maximum payout under the fiscal 2012 program is capped at 110% of the Target number of Performance Shares.

(6) This program consists of 61,865 performance shares and 7,315 performance stock units originally granted (net of employee forfeitures).

(7) The participants' rights to receive Performance Shares or Performance Stock Units are contingent on the Company achieving Cumulative Adjusted EBITDA for fiscal 2013-2015 that are equal to at least the sum of the amounts achieved by the Company during fiscal 2012-2014 (as adjusted by the Compensation Committee, if applicable). If the Company achieves this threshold, then participants will be entitled to receive a percentage of their Target number of Performance Shares and Performance Stock Units equal to the percentage of the Adjusted EBITDA Goal achieved by the Company, up to 100%.

(10) Retirement Savings Plans**401(k) Plan**

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers team members meeting certain eligibility requirements. In fiscal 2014, the Company will match 25.0% of the team member's contribution up to 4.0% of their earnings, and in fiscal 2013, the Company matched 25.0% of the team member's contribution up to 4.0% of their earnings. Team Member contributions were approximately \$145,000 and \$135,000 for the first quarter of fiscal years 2014 and 2013, respectively. The employer match was approximately \$26,000 and \$23,000 for the first quarter of fiscal years 2014 and 2013, respectively. There were no discretionary contributions to the Plan during the first quarter of fiscal 2014 or 2013.

Non-Qualified Deferred Compensation Plan

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the "Plan"). Eligible participants are those team members who are at the director level and above and who are selected by the Company to participate in the Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Plan administrator and the Regulations promulgated by the IRS. During fiscal 2013, we matched 25.0%, of the first 4.0% contributed and paid a declared interest rate of 6.0% on balances outstanding. The match percentages and declared interest rate will remain the same for fiscal 2014. The Board of Directors administers the Plan and may change the rate or any other aspects of the Plan at any time.

Deferral periods are limited to the earlier of termination of employment or not less than three calendar years following the end of the applicable Plan year. Extensions of the deferral period for a minimum of five years are allowed provided an election for extension is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, participants entitled to future payments under the Plan would have no greater rights than that of an unsecured general creditor of the Company and the Plan confer no legal rights for interest or claim on any specific assets of the Company. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 (ERISA), because the pension insurance provisions of ERISA do not apply to the Plan.

For the quarters ended March 30, 2014 and March 31, 2013, eligible participants contributed approximately \$35,000 to the Plan in each respective quarter and the Company provided matching funds and interest of approximately \$19,000 and \$18,000, respectively, net of distributions of \$86,000 and \$115,000 respectively. The balance of the Plan for the quarter ended March 30, 2014 and December 29, 2013 was approximately \$862,000 and \$895,000, respectively. Of this balance approximately \$172,000 and \$179,000 was recorded in current liabilities and the remaining balance was recorded in other liabilities at March 30, 2014 and December 29, 2013, respectively.

(11) Asset Impairment and Estimated Lease Termination and Other Closing Costs

We evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant site exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms, discount rate and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Following is a summary of these events during the first quarter of fiscal 2014 and fiscal 2013.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

(12) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement framework establishes a three-tier hierarchy. The three levels, in order of priority, are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 1 measurements are determined by observable inputs which include data sources and market prices available and visible outside of the entity.

Level 2: Observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly.

Level 3: Inputs that are used to estimate the fair value of the asset or liability. Level 3 measurements are determined by unobservable inputs which include data and analyses developed within the entity to assess the fair value.

Transfers in and out of Levels will be based on our judgment of the availability of unadjusted quoted prices in active markets, other observable inputs, and non-observable inputs.

The following table (in thousands) summarizes the performance stock units measured at fair value in our consolidated balance sheet as of March 30, 2014 and December 29, 2013:

	Level 1	Level 2	Level 3	Total

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of March 30, 2014, there were 193 Famous Dave s restaurants operating in 34 states, the Commonwealth of Puerto Rico and 1 Canadian province, including 53 company-owned restaurants and 140 franchise-operated restaurants. An additional 61 franchise restaurants were in various stages of development as of March 30, 2014.

Fiscal Year

Our fiscal year ends on the Sunday closest to December 31st. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. The fiscal years ending December 28, 2014 (fiscal 2014) and December 29, 2013 (fiscal 2013) are both 52 week fiscal years.

Revenue

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of three separate and distinct earnings processes; area development fees, initial franchise fees, and continuing royalty payments. Currently, our domestic area development fee for domestic growth consists of a one-time, non-refundable payment of approximately \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. For our foreign area development agreements the one time, non-refundable payment is negotiated on a per development basis and is determined based on the costs incurred to sell that development agreement. Substantially all of these services, which include, but are not limited to, a review of the potential franchisee s current operations, conducting market and trade area analysis, a meeting with Famous Dave s Executive Team, and performing a potential franchise background investigation, are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Currently, our initial, non-refundable, franchise fee for domestic growth is \$45,000 per restaurant, of which approximately \$5,000 is recognized immediately when a franchise agreement is signed, reflecting expenses incurred related to the sale. The remaining non-refundable fee is included in deferred franchise fees and is recognized as revenue when we have performed substantially all of our obligations, which generally occurs upon the franchise entering into a lease agreement for the restaurant(s). Finally, franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. In general, new franchises pay us a monthly royalty of 5% of their net sales.

Costs and Expenses

Restaurant costs and expenses include food and beverage costs, labor and benefits costs, operating expenses which include occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. A certain number of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and team members gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control typically improve to levels similar to those at our more established restaurants.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****General and Administrative Expenses**

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, including restaurant-level supervision, bonuses, team member benefits, legal fees, accounting fees, consulting fees, travel, rent, and general insurance are major items in this category. Additionally, we record expense for Managers In Training (MIT's) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services, the revenue of which are included in other revenue and the expenses of which are included in general and administrative expenses.

The following table presents items in our unaudited consolidated statements of operations as a percentage of net restaurant sales or total revenue, as indicated, for the following periods:

	Three Months Ended	
	March 30, 2014	March 31, 2013
Food and beverage costs ⁽¹⁾	29.2%	30.8%
Labor and benefits ⁽¹⁾	33.3%	33.3%

(1) As a percentage of restaurant sales, net

(2) As a percentage of total revenue

(3) In order to be consistent with what the Company believes to be a more prevalent practice among other public restaurant companies, the Company decided to reflect multi-unit supervision expenses within general and administrative expenses, rather than as operating expenses, where they previously have been reflected. For the first quarter of fiscal 2013, this adjustment was approximately \$514,000.

(4) Restaurant level cash flow margins are equal to taking restaurant sales, net less restaurant level food and beverage costs, labor and benefit costs, and operating expenses.

(5) Restaurant level margin is equal to taking restaurant sales, net less restaurant level costs and expenses. Restaurant level costs and expenses include food and beverage costs, labor and benefit costs, operating expenses, restaurant level depreciation and amortization, asset impairment and estimated lease termination and other closing costs, pre-opening expenses and net loss on disposal of equipment.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and notes, and the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2013.

During the quarter we made a number of strategic decisions that may negatively impact 2014, but we believe will positively impact the organization going forward. We need to be able to evaluate and assess the various aspects of our business with a long-term view, and as such, have elected not to provide any forward looking guidance for fiscal 2014.

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

Results of Operations Three months ended March 30, 2014 compared to three months ended March 31, 2013.

Total Revenue

Total revenue of approximately \$35.7 million for the first quarter of fiscal 2014 decreased approximately \$938,000, or 2.6%, from total revenue of \$36.6 million in the comparable quarter of fiscal 2013.

Restaurant Sales, net

Restaurant sales were approximately \$31.2 million for the first quarter of fiscal 2014 compared to approximately \$32.3 million for the same period in fiscal 2013, reflecting a 3.2% decrease. The decrease reflected a comparable sales decrease of 4.9% partially offset by a restaurant that opened in Timonium, Maryland in the fourth quarter of fiscal 2013 and a weighted average price increase of 2.9%. We remain pleased with the gains made in To Go, which increased 3.1% over the prior year. We continued to be challenged during the first quarter, however, by declines in dine-in sales and catering sales. Off-premise sales were 31.9% of total sales for the first quarter of 2014, with catering at 4.9% and To Go at 27.0%. This compares to off-premise sales as a percent of total sales equal to 31.1%, with catering at 5.7% and To Go at 25.4%, for the same timeframe of fiscal 2013. As a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were approximately 10.2% and 9.5% for the first quarter of fiscal 2014 and 2013, respectively.

Franchise-Related Revenue

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.2 million for the first quarter of fiscal 2014, compared to \$4.1 million for the first quarter of 2013. There were 140 and 134 franchise-operated restaurants open at March 30, 2014 and March 31, 2013, respectively. The year over year increase primarily reflects six net new franchise restaurants that opened since the end of the first quarter of 2013, partially offset by a comparable sales decrease of 3.3%.

Licensing and Other Revenue

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the first quarter of fiscal 2014, the licensing royalty revenue was approximately \$165,000 compared to approximately \$174,000 for the comparable period of fiscal 2013. Other revenue for the fiscal 2014 first quarter was approximately \$11,000 compared to \$10,000.

Same Store Net Sales

It is our policy to include in our same store net sales base, restaurants that are open year round and have been open at least 24 months. Same store net sales for company-owned restaurants for the first quarter of fiscal 2014 decreased 4.9%, compared to fiscal 2013's first quarter decrease of 1.8%. At the end of the first quarter of fiscal 2014 and the first quarter of fiscal 2013, there were 50 and 49 restaurants, respectively, included in this base.

Same store net sales on a 24 month basis for franchise-operated restaurants for the first quarter of fiscal 2014 decreased 3.3%, compared to a decrease of 6.1%, for the prior year comparable period. For the first quarter of 2014 and the first quarter of 2013, there were 119 and 114 restaurants, respectively, included in the franchise-operated comparable sales base.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES*****Average Weekly Net Sales and Operating Weeks***

The following table shows company-owned and franchise-operated average weekly net sales and company-owned and franchise-operated operating weeks for the first quarter of fiscal 2014 and fiscal 2013:

	Three Months Ended

Full-Service	\$ 46,225	\$ 48,615
Counter-Service	\$ 33,023	\$ 35,253
Franchise-Operated	\$ 50,023	\$ 51,236
Operating Weeks:		
Company-Owned	702	689
Franchise-Operated	1,810	1,707

Food and Beverage Costs

Food and beverage costs for the first quarter of fiscal 2014 were approximately \$9.1 million or 29.2% of net restaurant sales, compared to approximately \$10.0 million or 30.8% of net restaurant sales for the first quarter of fiscal 2013. This decrease was predominantly due to more favorable food contract pricing.

Labor and Benefits Costs

Labor and benefits costs for the three months ended March 30, 2014 were approximately \$10.4 million or 33.3% of net restaurant sales, compared to approximately \$10.8 million or 33.3% of net restaurant sales for the three months ended March 31, 2013. Labor and benefits, as a percentage of net restaurant sales, were flat to the comparable period in fiscal 2013, primarily due to lower direct and managerial labor costs, as well as lower benefit costs, offset by sales deleverage on these items.

Operating Expenses

Operating expenses for the first quarter of fiscal 2014 were approximately \$8.4 million or 26.9% of net restaurant sales, compared to operating expenses of approximately \$8.5 million or 26.2% of net restaurant sales for the first quarter of fiscal 2013. Operating expenses were unfavorable to the prior year due to higher utility costs from the unusually cold winter, as well as sales deleverage on occupancy costs. These increases were partially offset by lower supply costs and advertising spend during the first quarter.

During the first quarter of 2014, advertising as a percentage of net sales was 1.5% compared to 2.6% for the comparable period of 2013. This decline was predominantly due to the timing of media spend year over year. In both years there was a 0.75% marketing ad fund contribution.

Depreciation and Amortization

Depreciation and amortization expense for the first quarter of 2014 was approximately \$1.5 million or 4.3% of total revenue compared to \$1.5 million, or 4.2% of total revenue for the first quarter of fiscal 2013.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES*****Pre-opening Expenses***

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening but this will vary based on lease terms. Fiscal 2014's first quarter had \$7,000 of pre-opening expenses, compared to \$6,000 in the first quarter of 2013.

Net Loss on Disposal of Property

During the quarter, we made a decision to close down our décor warehouse. This decision was based on a need to contemporize, reduce the cost as well as the number of items, and to provide a variety of options with regard to our restaurant décor package. During the quarter, we auctioned off the majority of items in our warehouse which resulted in a loss of approximately \$434,000, including costs of disposition. Additionally, we took an impairment charge on the remaining items not sold, as well as taking an impairment charge on the décor in our existing company-owned restaurants, which we plan to convert in the near future.

Asset Impairment and Estimated Lease Termination and Other Closing Costs

We evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant assets exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Below is a summary of these events and situations during the first quarter of fiscal 2014 and fiscal 2013.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

(1) Change in strategic direction regarding décor resulted in the impairment of the décor located in the company's restaurants.

(2) The Company incurred various costs for the closure of the Salisbury, MD restaurant.

(3) Lease termination costs associated with closure of the restaurant, net of deferred rent credit.

⁽¹⁾ The Company incurred various costs for closed restaurants which were more than offset by a common area maintenance refund from its Palatine, IL restaurant which was closed in fiscal 2010.

General and Administrative Expenses

General and administrative expenses for the first quarter of 2014 were approximately \$4.2 million or 11.9% of total revenue, compared to approximately \$5.5 million or 15.1% of total revenue for the first quarter of fiscal 2013. General and administrative expenses for the first quarter of fiscal 2014, as a percentage of total revenue, were 320 basis points favorable to the comparable period for fiscal 2013 as a result of the impact from reductions in force that occurred during fiscal 2013 as well as an \$878,000 recapture of stock-based compensation predominately due to the recent departure of employees at an executive level. These decreases were partially offset by approximately \$518,000 of severance costs, increased professional fees, and revenue deleverage.

Interest Expense

Interest expense was approximately \$263,000 or 0.7% of total revenue for the first quarter of fiscal 2014, compared to approximately \$285,000 or 0.8% of total revenue for the comparable time frame of fiscal 2013. Interest expense for the first quarter of fiscal 2014 was lower both in dollars and as a percentage of revenue compared to the comparable period of the prior year, reflecting lower interest rates year over year.

Provision for Income Taxes

For the first quarter of 2014, we recorded an estimated provision for income taxes of approximately \$262,000 or 33.7% of income before income taxes, compared to a tax provision of approximately \$23,000 or 27.1% of income before income taxes, for the first quarter of 2013. The difference year over year reflected the settlement in the quarter of an income tax audit related to the prior year and a higher level of pre-tax income.

Basic and Diluted Net Income Per Common Share

Net income for the three months ended March 30, 2014 was approximately \$516,000 or \$0.07 per basic and per diluted share on approximately 7,312,000 weighted average basic shares outstanding and 7,345,000 weighted average diluted shares outstanding, respectively. Net income for the three months ended March 31, 2013 was approximately \$62,000 or \$0.01 per basic and per diluted share on approximately 7,370,000 weighted average basic shares outstanding and 7,648,000 weighted average diluted shares outstanding, respectively.

Financial Condition, Liquidity and Capital Resources

Our balance of unrestricted cash and cash equivalents was approximately \$1.9 million at March 30, 2014 and approximately \$1.3 million at December 29, 2013.

Our current ratio, which measures our immediate short-term liquidity, was 0.99 at March 30, 2014 and 0.88 at December 29, 2013. The current ratio is computed by dividing total current assets by total current liabilities. The change in our ratio was primarily due to an increase in our prepaid expenses relating to the prepayment of Federal and State income taxes. As is true with most restaurant companies, we often operate in a negative working capital environment due to the fact that we receive cash up front from customers and then pay our vendors on a delayed basis.

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement will expire on July 5, 2016. It contains a \$30.0 million revolving credit facility (the Facility) with an opportunity to increase to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit which reduce the availability of the Facility. At March 30, 2014, the principal amount outstanding under the Facility and the Term Loan was \$12.3 million and \$4.5 million, respectively, along with approximately \$620,000 in letters of credit for real estate locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate or at a Base Rate plus an applicable margin. The applicable margin depends on the Company's Adjusted Leverage Ratio at the end of the previous quarter. For the three months ended March 30, 2014 and March 31, 2013, our weighted average interest rate for the Facility was 2.85% and 3.09%, respectively. Unused portions of the Facility are subject to a fee, which was 0.375% of the unused amount at March 30, 2014. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company s financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestricted cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company s unrestricted cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments. Our total outstanding long-term debt as of March 30, 2014 was approximately \$19.6 million, including our line of credit, our term loan with Wells Fargo and financing lease obligations. The terms of our credit facility with Wells Fargo Bank, National Association, as administrative agent and lender are discussed above under *Management s Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources*.

Some of the food products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-priced purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources, which helps to control food commodity risks. We have secondary source suppliers for certain items and in 2014 we have continued to make this a key area of focus in order to protect the supply chain and to ensure a more fair and competitive pricing environment. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.
