Subject to Completion, dated June 2, 2015

Prospectus supplement

(To Prospectus dated April 20, 2015)

Frontier Communications Corporation

\$1,750,000,000

17,500,000 shares of % Mandatory Convertible Preferred Stock, Series A

We are offering 17,500,000 shares of our % Mandatory Convertible Preferred Stock, Series A, par value \$0.01 per share (the Mandatory Convertible Preferred Stock). We will receive all of the net proceeds from this offering.

Dividends on the Mandatory Convertible Preferred Stock will be payable on a cumulative basis when, as and if declared by our board of directors or an authorized committee thereof, at an annual rate of % on the liquidation preference of \$100.00 per share. We may pay declared dividends in cash or, subject to certain limitations, in shares of our common stock, par value \$0.25 per share (our common stock), or by delivery of any combination of cash and shares of our common stock, at our election, subject to certain limitations, on the last business day of each of March, June, September and December of each year, commencing on September 30, 2015 and to, and including, June 29, 2018.

Each share of the Mandatory Convertible Preferred Stock will automatically convert on June 29, 2018 (subject to postponement in certain cases, the mandatory conversion date), into between and shares of our common stock, subject to anti-dilution adjustments, depending on the average VWAP (as defined herein) per share of our common stock over the 20 consecutive trading day period beginning on, and including, the 22nd scheduled trading day immediately preceding the mandatory conversion date. At any time prior to the mandatory conversion date, holders may elect to convert all or a portion of their shares of the Mandatory Convertible Preferred Stock into shares of our common stock at the minimum conversion rate of shares of our common stock per share of the Mandatory Convertible Preferred Stock, subject to anti-dilution adjustments; provided, however, that if holders elect to convert any shares of the Mandatory Convertible Preferred Stock during a specified period beginning on the effective date of a fundamental change (as defined herein), such shares of the Mandatory Convertible Preferred Stock will be converted into shares of our common stock at the fundamental change conversion rate (as defined herein), and the holders will also be entitled to receive a fundamental change dividend make-whole amount and accumulated dividend amount (each as defined herein).

Concurrently with this offering, we are offering shares of our common stock in a \$750,000,000 offering (the concurrent offering). The concurrent offering is being made by means of a separate prospectus supplement and not by means of this prospectus supplement. This prospectus supplement is not an offer to sell or a solicitation of an offer to buy any securities being offered in the concurrent offering.

We intend to use the proceeds of this offering, together with the proceeds of the concurrent offering, to finance a portion of the cash consideration payable in connection with the Verizon Transaction (as defined herein) and to pay related fees and expenses. The closing of this offering and the concurrent offering are not conditioned on each other or on the closing of the Verizon Transaction which, if completed, will occur subsequent to the closing of this offering. See Summary The Verizon Transaction and Use of proceeds. If the Verizon Transaction has not closed on or prior to August 6, 2016 or if an acquisition termination event (as defined herein) occurs, we may, at our sole option, redeem the Mandatory Convertible Preferred Stock as further described herein.

Prior to this offering, there has been no public market for the Mandatory Convertible Preferred Stock. We intend to apply to list the Mandatory Convertible Preferred Stock on the NASDAQ Global Select Market (the NASDAQ) under the symbol FTRPR . Our common stock is listed on the NASDAQ under the symbol FTR. On June 1, 2015, the last reported sale price of our common stock on the NASDAQ was \$5.08 per share.

Investing in our Mandatory Convertible Preferred Stock involves risks. See Supplemental risk factors beginning on page S-21 of this prospectus supplement as well as the risks described in Part I, Item 1A Risk Factors in our annual report on Form 10-K for the fiscal year ended December 31, 2014.

	Per share	Total

About this prospectus supplement

This document is in two parts. The first part is this prospectus supplement, which describes certain matters relating to us and the specific terms of this offering and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. The second part, the accompanying prospectus, dated April 20, 2015, gives more general information about us and the securities we may offer from time to time under our shelf registration statement, some of which may not apply to this offering and some of which is superseded by the information in this prospectus supplement. If the description of this offering or the securities offered hereby in the accompanying prospectus is different from the description in this prospectus supplement, you should rely on the information contained in or incorporated by reference into this prospectus supplement.

You should read this prospectus supplement, the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus in their entirety, including the additional information described under. Where you can find more information and Incorporation of certain documents by reference in this prospectus supplement, before deciding whether to invest in the securities offered by this prospectus supplement.

You should not consider any information in this prospectus supplement or the accompanying prospectus to be investment, legal or tax advice. You should consult your own counsel, accountants and other advisers for legal, tax, business, financial and related advice regarding the purchase of the securities offered by this prospectus supplement.

We have not, and the underwriters have not, authorized anyone to provide any information other than that contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus or in any free writing prospectus prepared by or on behalf of us or to which we have referred you. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you.

We are not, and the underwriters are not, making an offer of these securities in any jurisdiction where the offer is not permitted.

The information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus is accurate only as of the date such information is presented regardless of the time of delivery of this prospectus supplement or the accompanying prospectus. Our business, financial condition, results of operations and prospects may have changed since those dates. It is important that you read and consider all of the information contained in or incorporated by reference into this prospectus supplement and the information contained in the accompanying prospectus in making your investment decision.

As used in this prospectus supplement and the accompanying prospectus, unless otherwise indicated or the context otherwise requires, references to we, us, our, Frontier and the Company refer to Frontier Communications Corporation and its subsidiaries.

S-ii

Cautionary note regarding forward-looking statements

Information we have included or incorporated by reference in this prospectus supplement and the accompanying prospectus contains forward-looking statements. These forward-looking statements include, among others, statements of our plans, objectives, expectations (financial or otherwise) or intentions. Words such as expect, anticipate, intend, plan, believe, seek, see, will, would, target and expressions are intended to identify forward-looking statements.

Our forward-looking statements involve risks and uncertainties. Our actual results may differ significantly from those projected or suggested in any forward-looking statements. We do not undertake any obligation to release publicly any revisions to such forward-looking statements to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. Factors that might cause such a difference to occur include, but are not limited to:

risks related to the pending Verizon Transaction, including our ability to complete the Verizon Transaction, our ability to successfully integrate operations, our ability to realize anticipated cost savings, sufficiency of the assets to be acquired from Verizon (as defined herein), our ability to migrate Verizon s operations from Verizon owned and operated systems and processes to our owned and operated systems and processes successfully, failure to enter into or obtain, or delays in entering into or obtaining, certain agreements and consents necessary to operate the acquired business as planned, failure to obtain, delays in obtaining or adverse conditions contained in any required regulatory approvals for the acquisition, and increased expenses incurred due to activities related to the Verizon Transaction:

the ability of the Commitment Parties (as defined herein) that have provided the 8/10 Year Bridge Facility and 18 Month Bridge Facility (each as defined herein) to meet their obligations thereunder in the event we are required to draw on such bridge financing;

our ability to raise, on terms reasonable and acceptable to us, all or a portion of the financing to replace our 8/10 Year Bridge Facility and 18 Month Bridge Facility with debt and equity financing to complete the Verizon Transaction prior to the closing of such transaction, which, if the Verizon Transaction is ultimately not consummated or is delayed, could require us to pay significant interest expense, dividends and other costs in connection with the financing without achieving the expected benefits of the Verizon Transaction;

risks related to the recently-concluded Connecticut Acquisition (as defined herein), including our ability to fully realize expected cost synergies;

our ability to meet our debt and debt service obligations;

competition from cable, wireless and other wireline carriers and the risk that we will not respond on a timely or profitable basis;

our ability to successfully adjust to changes in the communications industry, including the effects of technological changes and competition on our capital expenditures, products and service offerings;

reductions in revenue from our voice customers that we cannot offset with increases in revenue from broadband and video subscribers and sales of other products and services;

our ability to maintain relationships with customers, employees or suppliers;

the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks;

continued reductions in switched access revenues as a result of regulation, competition or technology substitutions;

S-iii

Table of Contents

the effects of changes in the availability of federal and state universal service funding or other subsidies to us and our competitors;

our ability to effectively manage service quality in our territories and meet mandated service quality metrics;

our ability to successfully introduce new product offerings;

the effects of changes in accounting policies or practices, including potential future impairment charges with respect to our intangible assets;

our ability to effectively manage our operations, operating expenses, capital expenditures, debt service requirements and cash paid for income taxes and liquidity, which may affect payment of dividends on our common stock;

the effects of changes in both general and local economic conditions on the markets that we serve;

the effects of increased medical expenses and pension and postemployment expenses;

the effects of changes in income tax rates, tax laws, regulations or rulings, or federal or state tax assessments;

our ability to successfully renegotiate union contracts;

changes in pension plan assumptions, interest rates, regulatory rules and/or the value of our pension plan assets which could require us to make increased contributions to the pension plan in 2015 and beyond;

adverse changes in the credit markets or in the ratings given to our debt securities by nationally accredited ratings organizations, which could limit or restrict the ability, or increase the cost, of financing to us;

the effects of state regulatory cash management practices that could limit our ability to transfer cash among our subsidiaries or dividend funds up to the parent company;

the effects of severe weather events or other natural or man-made disasters, which may increase our operating expenses or adversely impact customer revenue; and

the impact of potential information technology or data security breaches or other disruptions.

Any of the foregoing events, or other events, could cause financial information to vary from management s forward-looking statements included or incorporated by reference in this prospectus supplement and the accompanying prospectus. You should consider these important factors, as well as the risk factors set forth in this prospectus supplement, the accompanying prospectus, any free writing prospectus with respect to the offering filed by us with the SEC and in our Annual Report on Form 10-K for the year ended December 31, 2014 and our other filings under the Securities Exchange Act of 1934, as amended (the Securities Exchange Act), parts of which are incorporated by reference in this prospectus supplement and the accompanying prospectus, in evaluating any statement made in or incorporated by reference in this prospectus supplement and the accompanying prospectus. For the foregoing reasons, we caution you against relying on any forward-looking statements. We undertake no obligation to update or revise these forward-looking statements, except as required by law.

S-iv

Summary

This summary highlights information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. Because this is a summary, it may not contain all of the information that is important to you. Before making an investment decision, you should read the entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including the section entitled Supplemental risk factors in this prospectus supplement and Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2014 (as such risk factors may be updated from time to time in our public filings).

Our company

We are the fourth largest incumbent local exchange carrier (ILEC) in the United States, with 3.5 million customers across 28 states and approximately 17,800 employees. Our products and services include wireline voice, data and video for 3.2 million residential customers and approximately 300,000 business customers. We have transformed from a smaller rural provider of telephone services into a provider of communications and entertainment services that is diversified across rural, suburban and metropolitan markets. We generated revenues of approximately \$4.8 billion for the year ended December 31, 2014 and approximately \$1.4 billion for the three months ended March 31, 2015.

Following the consummation of the Verizon Transaction, we will operate in 29 states, passing approximately 14.6 million households, with approximately 4.6 million broadband connections, 1.8 million video connections and 7.2 million total customers. Moreover, our fiber/U-verse services will be available to more than 30% of the homes we pass. Pro forma for the Verizon Transaction and the Connecticut Acquisition, which was consummated on October 24, 2014, our total revenues for the year ended December 31, 2014 would have been approximately \$11.5 billion, approximately double our standalone operations, before giving effect to the Connecticut Acquisition and the Verizon Transaction.

We offer a broad portfolio of high-quality communications services, including voice services, Internet access, broadband-enabled services, and video services for residential and business customers in each of our markets. We offer these services both on a standalone basis and as bundled packages that are designed to simplify customer purchasing decisions and to provide the customer with attractive pricing. We have skilled technicians and supervisors staffed in our local markets. Our call center operations and field technicians are staffed with 100% U.S.-based employees.

Our mission is to be the leader in providing communications services to residential and business customers in our markets. We are committed to delivering innovative and reliable products and solutions with an emphasis on convenience, service and customer satisfaction. We believe that our local engagement structure enables us to adapt our offerings and marketing to the needs of local markets and that our 100% U.S. based workforce and innovative product positioning will continue to differentiate us from our competitors in the markets in which we compete.

The Verizon Transaction

On February 5, 2015, we entered into a Securities Purchase Agreement (the Verizon Purchase Agreement) with Verizon Communications Inc. (Verizon) to acquire, among other things, Verizon s wireline business and statewide fiber networks that provide services to residential, commercial and wholesale customers in

S-1

Table of Contents

California, Texas and Florida, along with certain of Verizon s FiOS customers in those states (the Verizon Transaction) for a purchase price of \$10.54 billion in cash and assumed debt, subject to certain adjustments specified in the Verizon Purchase Agreement. Pursuant to the Verizon Purchase Agreement, we will acquire all of the issued and outstanding limited liability company interests of a limited liability company to be formed by Verizon (Newco), which will hold the outstanding limited liability company interests and capital stock of Verizon Florida LLC, GTE Southwest Incorporated and Verizon California Inc. (collectively with Newco, the Verizon Transferred Companies). Prior to the closing under the Verizon Purchase Agreement, (i) Verizon will transfer to the Verizon Transferred Companies certain assets and cause the Verizon Transferred Companies to assume certain liabilities relating to the business to be acquired and (ii) the Verizon Transferred Companies will transfer to Verizon certain assets, and Verizon will assume certain liabilities of the Verizon Transferred Companies, to be retained by Verizon following the closing (the Verizon Transferred Companies, taking into account such transactions, being referred to as the Verizon Separate Telephone Operations or VSTO).

The Verizon assets complement our existing platform and position us well strategically. We believe that these assets offer attractive demographics because the operations we are acquiring from Verizon are in the three most populated states in the United States (California, Florida, and Texas) and they also have economic growth that is above the U.S. average. The network assets are high quality, with high fiber penetration approximately 54% of the footprint is FiOS-enabled allowing us to offer customers market-leading broadband speeds and very high-quality video products. The acquisition of the Verizon properties is aligned with our strategic focus on broadband as it will increase our broadband base by 2.2 million customers. We also anticipate potential for incremental growth with business customers, which we will pursue with carrier Ethernet products we have made available to business and other carrier customers within our existing footprint. We also anticipate there will be an opportunity to sell Frontier Secure, our security/technical support/identity protection suite, into customers within these new regions.

The VSTO generated operating revenues of approximately \$5.8 billion and net loss of approximately \$32 million for the fiscal year ended December 31, 2014, and operating revenues of approximately \$1.4 billion and net income of approximately \$88 million for the three months ended March 31, 2015. We would have generated, on a pro forma basis after giving effect to the Verizon Transaction and the Connecticut Acquisition, which was consummated on October 24, 2014, revenues of approximately \$11.5 billion and net loss of approximately \$126 million for the fiscal year ended December 31, 2014, and revenues of approximately \$2.8 billion and net loss of approximately \$96 million for the three months ended March 31, 2015. As of March 31, 2015, the VSTO had approximately 3.6 million voice, 2.2 million broadband and 1.2 million video connections. The Verizon Transaction will add approximately 11,000 employees to our Company. The consummation of the Verizon Transaction is subject to the satisfaction of certain conditions, including review or approval by various federal and state regulatory agencies and other closing conditions as more fully described in the Verizon Purchase Agreement. We currently expect the Verizon Transaction to close in the first half of 2016. There can be no assurance that we will be able to consummate the Verizon Transaction on a timely basis or at all. See Description of the Verizon Transaction.

On February 5, 2015, in connection with the execution of the Verizon Purchase Agreement, we entered into a commitment letter (the Commitment Letter), dated February 5, 2015, with JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC, Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets Inc. (such financial institutions being referred to as the Commitment Parties), pursuant to which the Commitment Parties have committed to provide two bridge loan facilities, initially for a total amount of \$11.594 billion, which amount was subsequently reduced by us to \$10.850 billion, for the purposes of funding

S-2

Table of Contents

(i) the cash consideration for the Verizon Transaction and (ii) the fees and expenses incurred in connection with the transactions contemplated by the Verizon Purchase Agreement. The first bridge loan facility was initially in the amount of \$8.594 billion (the 8/10 Year Bridge Facility), which amount was automatically reduced in accordance with its terms by \$744 million in connection with the effectiveness of certain amendments entered into on March 5, 2015 to our two outstanding credit agreements with CoBank, ACB and certain other lenders. The second bridge loan facility is in the amount of \$3.0 billion (the 18 Month Bridge Facility). The commitments in respect of the 8/10 Year Bridge Facility and the 18 Month Bridge Facility will be automatically reduced, subject to certain exceptions and limitations, on a dollar-for-dollar basis by (x) the gross cash proceeds of any issuance of senior unsecured notes by Frontier (with such amounts being applied first to reduce the 8/10 Year Bridge Facility) and (z) the net cash proceeds from any issuance of equity by Frontier, including the proceeds from the concurrent offering and the sale of the securities in this offering (with such amounts being applied first to reduce the 18 Month Bridge Facility). The financing commitments of the Commitment Parties are currently undrawn and are subject to various conditions set forth in the Commitment Letter.

We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The proceeds of this offering together with the proceeds of the concurrent offering will reduce the commitments under the 18 Month Bridge Facility. The balance of the financing in connection with the Verizon Transaction could take any of several forms or any combination of them, including but not limited to the following: (i) we may issue senior notes in the public and/or private capital markets; (ii) we may enter into one or more senior secured first lien term loan facilities; (iii) we may use cash on hand; and (iv) we may draw funds under the 18 Month Bridge Facility and the 8/10 Year Bridge Facility. We refer to the financing transactions relating to the Verizon Transactions, including this offering and the concurrent offering, as the Verizon Financing Transactions.

The Connecticut Acquisition

On October 24, 2014, we acquired the wireline properties of AT&T Inc. (AT&T) in Connecticut by acquiring all of the issued and outstanding capital stock of The Southern New England Telephone Company and SNET America, Inc. (the Transferred AT&T Companies) for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital (the Connecticut Acquisition), pursuant to a Stock Purchase Agreement, dated as of December 16, 2013 (the AT&T Purchase Agreement). Prior to the closing of the Connecticut Acquisition, (i) AT&T transferred to the Transferred AT&T Companies certain assets and caused the Transferred AT&T Companies to assume certain liabilities relating to the business to be acquired and (ii) the Transferred AT&T Companies transferred to AT&T certain assets, and AT&T assumed certain liabilities of the Transferred AT&T Companies, to be retained by AT&T following the closing (the Transferred AT&T Companies, after giving effect to such transactions, are referred to herein as the Connecticut Operations). The Company financed the Connecticut Acquisition using the net proceeds of an offering of \$1.55 billion aggregate principal amount of senior unsecured notes, borrowings of \$350 million under a term loan credit agreement and cash on hand (the Connecticut Financing Transactions).

S-3

The offering

The summary below contains basic information about this offering. It does not contain all of the information you should consider in making your investment decision. You should read the entire prospectus supplement and accompanying prospectus and the information included or incorporated and deemed to be incorporated by reference herein and therein before making an investment decision. As used in this section, the terms us, we and our refer to Frontier Communications Corporation and not to any of its subsidiaries.

Issuer Frontier Communications Corporation, a Delaware corporation.

Securities offered 17,500,000 shares of % Mandatory Convertible Preferred Stock.

Number of shares of Mandatory Convertible Preferred Stock to be outstanding after this offering 17,500,000 shares (or 19,250,000 shares if the underwriters exercise their overallotment option to purchase additional shares in full).

Liquidation preference

\$100.00 per share of Mandatory Convertible Preferred Stock, plus accumulated but unpaid dividends.

Public offering price

\$ per share of the Mandatory Convertible Preferred Stock.

Underwriters option

We have granted the underwriters a 30-day overallotment option to purchase up to 1,750,000 additional shares of the Mandatory Convertible Preferred Stock at the public offering price, less the underwriting discounts and commissions.

Dividends

% of the initial liquidation preference of \$100.00 for each share of Mandatory Convertible Preferred Stock per annum. Dividends will accrue and accumulate from the date of issuance and, to the extent lawful and declared by our board of directors or an authorized committee thereof, will be paid on the last business day of each of March, June, September and December in cash or, at our election (subject to certain limitations), by delivery of any combination of cash and shares of our common stock. Dividends that are declared will be payable on the dividend payment dates to the holders of record of the Mandatory Convertible Preferred Stock on the 15th calendar day of the month in which such dividend payment falls (each, a record date).

The dividend payable on the first dividend payment date (September 30, 2015), if declared, is expected to be \$ per share of Mandatory Convertible Preferred Stock, and on each subsequent dividend payment date, if declared, will be \$ per share of Mandatory Convertible Preferred Stock. Accumulated and unpaid dividends for any past dividend period will not bear interest. See Description of Mandatory Convertible Preferred Stock Dividends.

If we elect to make any such payment of a declared dividend, or any portion thereof, in shares of our common stock, such shares shall be valued for such purpose at the average VWAP per share of our common stock (as defined under

Description of Mandatory Convertible Preferred Stock Definitions) over the five consecutive trading day period commencing on and including the seventh scheduled trading day immediately preceding the applicable dividend payment date (the average price), multiplied by 97%. In no event will the number of shares of our common stock delivered in connection with any declared dividend, including any declared dividend payable in connection with a conversion, exceed a number equal to the total dividend payment divided by \$, which amount represents 35% of the initial price (as defined below), subject to adjustment in a manner inversely proportional to any anti-dilution adjustment to each fixed conversion rate (such dollar amount, as adjusted, the floor price). To the extent that the amount of the declared dividend exceeds the product of the number of shares of our common stock delivered in connection with such declared dividend and 97% of the average price, we will, if we are legally able to do so, pay such excess amount in cash.

The last reported sale price of our common stock on the NASDAQ on June , 2015 was \$ (the initial price).

Dividend payment dates

The last business day of each of March, June, September and December of each year, commencing on September 30, 2015 and to, and including, the mandatory conversion date.

Ranking

The Mandatory Convertible Preferred Stock will rank with respect to dividend rights and the rights to distribution of assets upon our liquidation, dissolution or winding-up:

senior to all of our common stock and to each other class of capital stock or series of preferred stock established after the issue date of the Mandatory Convertible Preferred Stock, the terms of which do not expressly provide that such class or series ranks senior to, or on a parity with, the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up;

equally with any class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank equally with the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up, in each case without regard to whether dividends accrue cumulatively or non-cumulatively;

junior to each class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank senior to the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up; and

junior to our and our subsidiaries existing and future indebtedness (including trade payables).

For information concerning the ranking of the Mandatory Convertible Preferred Stock, see Description of Mandatory Convertible Preferred Stock Ranking.

In addition, the Mandatory Convertible Preferred Stock, with respect to dividend rights or rights to distribution of assets upon our liquidation, winding-up or dissolution, will be structurally subordinated to existing and future indebtedness of our subsidiaries.

As of March 31, 2015, on a pro forma basis to give effect to the Verizon Transaction and the other events described under Unaudited pro forma condensed combined financial information, we would have had a total of approximately \$18.6 billion of outstanding indebtedness, including long-term debt, short-term debt and long-term financial obligations. We have the ability to, and may incur, additional indebtedness in the future. See Unaudited pro forma condensed combined financial information.

Acquisition termination redemption If the Verizon Transaction has not closed on or before 5:00 p.m. (New York City time) on August 6, 2016, the Verizon Purchase Agreement is terminated or if we determine in our reasonable judgment that the Verizon Transaction will not occur, we may, at our option, in our sole discretion, give notice of acquisition termination redemption to the holders of the shares of Mandatory Convertible Preferred Stock. If we provide such notice, then, on the acquisition termination redemption date (as defined herein), we will be required to redeem the shares of Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption amount per share of Mandatory Convertible Preferred Stock equal to the acquisition termination make-whole amount described herein.

> If redeemed, we will pay the acquisition termination make-whole amount in cash unless the acquisition termination share price described herein is greater than the initial price. If the acquisition termination share price is greater than the initial price, we will pay the acquisition termination make-whole amount in shares of our common stock and cash, unless we elect, subject to certain limitations, to pay cash or shares of our common stock in lieu of such amounts. See Description of Mandatory Convertible Preferred Stock Acquisition termination redemption.

Other than pursuant to the provisions described in this prospectus supplement, the shares of Mandatory Convertible Preferred Stock will not be redeemable by us. See Description of Mandatory Convertible Preferred Stock Acquisition termination redemption.

Mandatory Conversion Date

June 29, 2018.

Mandatory conversion

Unless previously converted as described under Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder or Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a

S-6

fundamental change or redeemed as described under Description of Mandatory Convertible Preferred Stock Acquisition termination redemption, on the mandatory conversion date (subject to postponement in certain cases), each then outstanding share of the Mandatory Convertible Preferred Stock will automatically convert into a number of shares of our common stock based on the conversion rate described below. See Description of Mandatory Convertible Preferred Stock Conversion rights Mandatory conversion.

If we declare a dividend for the dividend period ending on the mandatory conversion date, we will pay such dividend to the holders presenting the Mandatory Convertible Preferred Stock for conversion. If, prior to the mandatory conversion date, we have not declared and paid all or any portion of the accumulated dividends on the Mandatory Convertible Preferred Stock, the conversion rate will be adjusted so that holders receive an additional number of shares of our common stock equal to the amount of such accumulated dividends (such amount, the additional conversion amount) divided by the greater of the floor price and 97% of the average price with respect to the dividend payment date falling on June 29, 2018. To the extent that the additional conversion amount exceeds the product of the number of additional shares and 97% of the average price, we will, if we are legally able to do so, declare and pay such excess amount in cash pro rata to the holders of the Mandatory Convertible Preferred Stock.

The conversion rate for each share of the Mandatory Convertible Preferred Stock will be not more than shares of our common stock and not less than shares of our common stock (the maximum conversion rate and minimum conversion rate, respectively), depending on the applicable market value (as defined below) of our common stock, subject to certain anti-dilution adjustments.

Mandatory conversion rate

The applicable market value of our common stock is the average VWAP per share of our common stock for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding June 29, 2018.

S-7

The following table illustrates the conversion rate per share of the Mandatory Convertible Preferred Stock, subject to adjustment as described under Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments, in this prospectus supplement, based on the applicable market value of our common stock on the mandatory conversion date (subject to postponement in certain cases):

Applicable Market Value of our Common Stock on the Mandatory Conversion Date Conversion Rate Per Share of the Mandatory Convertible Preferred Stock

Less than or equal to shares of our

\$ (which is the initial price). common stock.

Greater than \$ and less than \$ (the threshold appreciation price).

and less than Between and shares, determined by dividing

by the applicable market value of our common stock.

Equal to or greater than the threshold appreciation price.

shares of our common stock.

Early conversion at the option of the At any time prior to June 29, 2018, other than during a fundamental change conversion period (as defined holder below), a holder of shares of the Mandatory Convertible Preferred Stock may elect to convert such

holder s shares of Mandatory Convertible Preferred Stock, in whole or in part, into shares of our common stock, at the minimum conversion rate of shares of our common stock per share of the Mandatory Convertible Preferred Stock, subject to certain anti-dilution adjustments. See Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder in this prospectus supplement.

If, as of the effective date of any early conversion (the early conversion date), we have not declared all or any portion of the accumulated dividends for all dividend periods ending on a dividend payment date prior to such early conversion date, the conversion rate for such early conversion will be adjusted so that holders converting their Mandatory Convertible Preferred Stock at such time receive an additional number of shares of our common stock equal to such amount of accumulated and unpaid dividends for such prior dividend periods, divided by the greater of the floor price and the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding the early conversion date (the early conversion average price). To the extent that the cash amount of the accumulated and unpaid dividends for all dividend periods ending on a dividend payment date prior to the relevant conversion date exceeds the value of the product of the number of additional shares added to the conversion rate and the early conversion average price, we will not have any obligation to pay the shortfall in cash.

Early conversion at the option of the Upon the occurrence of a fundamental change (as defined under Description of Mandatory Convertible

holder upon a fundamental change Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change) prior to June 29, 2018, under certain circumstances we will deliver or pay to holders who convert their shares of the Mandatory Convertible Preferred Stock during the period from, and including, the effective date of the fundamental change to, but excluding, the earlier of (A) the mandatory conversion date and (B) the date selected by us that is not less than 30 and not more than 60 days after the effective date of such fundamental change (the fundamental change conversion period), a number of shares of our common stock or, if the fundamental change also constitutes a reorganization event, units of exchange property (as defined under Description of Mandatory Convertible Preferred Stock Recapitalizations, reclassifications and changes of our common Stock), determined using the applicable fundamental change conversion rate. The fundamental change conversion rate will be determined based on the effective date of the fundamental change and the price per share of our common stock paid or deemed paid in such fundamental change (the stock price).

> Holders who convert their Mandatory Convertible Preferred Stock within the fundamental change conversion period will also receive a fundamental change dividend make-whole amount, in cash or in shares of our common stock or a combination thereof, equal to the present value (computed using a discount rate of % per annum) of all remaining dividend payments on their shares of the Mandatory Convertible Preferred Stock (excluding any accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date immediately preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change) from such effective date to, but excluding, the mandatory conversion date. If we elect to pay the fundamental change dividend make-whole amount in shares of our common stock in lieu of cash, the number of shares of our common stock that we will deliver will equal (x) the fundamental change dividend make-whole amount divided by (y) the greater of the floor price and 97% of the stock price.

In addition, to the extent that, as of the effective date of the fundamental change, we have not declared any or all of the accumulated dividends on the Mandatory Convertible Preferred Stock as of such effective date (including accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date immediately preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change, the accumulated dividend amount), upon conversion, we will pay or deliver, as the case may be, such accumulated dividend amount in cash (to the extent we are legally permitted to do so) or shares of our common stock, or any combination thereof at our election, to holders who convert Mandatory Convertible Preferred Stock within the fundamental change conversion period. If we elect to pay the accumulated dividend amount in shares

of our common stock in lieu of cash, the number of shares of our common stock that we will deliver will equal (x) the accumulated dividend amount divided by (y) the greater of the floor price and 97% of the stock price.

To the extent that the sum of the fundamental change dividend make-whole amount and accumulated dividend amount or any portion thereof paid in shares of our common stock exceeds the product of the number of additional shares we deliver in respect thereof and 97% of the stock price, we will, if we are legally able to do so, declare and pay such excess amount in cash. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion at the option of the holder upon a fundamental change Fundamental change dividend make-whole amount and accumulated dividend amount.

Fundamental change

A fundamental change will be deemed to have occurred, at such time after the initial issue date of the Mandatory Convertible Preferred Stock, upon: (i) any person or group (within the meaning of Sections 13(d) of the Securities Exchange Act of 1934, or Exchange Act) filing a Schedule TO or any schedule, form or report under the Exchange Act disclosing that such person or group has become the beneficial owner (as defined in Rule 13d-3 under the Exchange Act) of our common equity representing more than 50% of the voting power of our common equity; (ii) the consummation of any recapitalization, reclassification, change of our common stock (subject to certain exceptions), share exchange, consolidation or merger as a result of which our common stock would be converted into, exchanged for or represent solely the right to receive stock, other securities, other property or assets or any sale, lease or other transfer of all or substantially all of our assets to another person (other than in each case, a transaction in which at least 90% of the consideration received or to be received by our common stockholders consists of common stock that is listed on, or immediately after the transaction or event will be listed on, any of the New York Stock Exchange, the NASDAQ Global Select Market or the NASDAQ Global Market or any of their respective successors); (iii) our stockholders approve any plan for our liquidation or dissolution or (iv) our common stock (or, following a reorganization event (as defined herein), any common stock, depositary receipts or other securities representing common equity interests into which the Mandatory Convertible Preferred Stock becomes convertible in connection with such reorganization event) ceases to be listed for trading on the New York Stock Exchange, the NASDAQ Global Select Market, the NASDAQ Global Market (or any of their respective successors) or another U.S. national securities exchange.

Conversion rate adjustments

Each of the minimum conversion rate, the maximum conversion rate, the initial price, the threshold appreciation price, the floor price, the applicable market value, the fundamental change conversion rate and the stock price for purposes of a fundamental change, among other terms, will be adjusted upon the occurrence of certain events and transactions. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments.

S-10

Voting rights

Except as required by law or our Restated Certificate of Incorporation, as amended (our Certificate of Incorporation), which will include the Certificate of Designations (as defined under Description of Mandatory Convertible Preferred Stock) for the Mandatory Convertible Preferred Stock, the Mandatory Convertible Preferred Stock will have no voting rights.

Whenever, at any time or times, dividends payable on the shares of the Mandatory Convertible Preferred Stock have not been paid for an aggregate of six or more dividend periods, whether or not consecutive, the holders of the Mandatory Convertible Preferred Stock will have the right (voting separately as a class with all other parity stock upon which like voting rights have been conferred and are exercisable (voting in proportion to their respective liquidation preferences)) to elect two directors to our board of directors at the next annual meeting or special meeting of our stockholders and at each subsequent annual meeting or special meeting of our stockholders until all accumulated and unpaid dividends have been paid in full or fully set aside for payment on the Mandatory Convertible Preferred Stock.

The affirmative consent of holders of at least two-thirds in voting power of the outstanding shares of the Mandatory Convertible Preferred Stock and all other preferred stock or securities of equal ranking having similar voting rights (voting in proportion to their respective liquidation preferences) will be required for certain matters which may impact the Mandatory Convertible Preferred Stock, but not necessarily all such matters. For more information about voting rights, see Description of Mandatory Convertible Preferred Stock Voting rights.

Use of proceeds

We estimate that the net proceeds from this offering will be approximately \$ billion (or approximately \$ billion if the underwriters exercise their option to purchase additional shares of Mandatory Convertible Preferred Stock in full), after deducting the underwriters discounts and commissions and estimated offering expenses.

We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. See Description of the Verizon Transaction and Use of proceeds.

Neither this offering nor the concurrent offering is conditioned on the consummation of the Verizon Transaction, and there can be no assurance that the Verizon Transaction will be consummated on the terms described herein or at all. If the Verizon Transaction is not consummated, we intend to use the proceeds of this offering and the proceeds of the concurrent offering, net of certain fees and expenses and net of the aggregate redemption amount paid in cash if we choose to exercise our acquisition termination option to redeem all of the Mandatory Convertible Preferred Stock offered hereby, for general corporate purposes, which may include share repurchases, acquisitions or debt repayment.

S-11

Table of Contents

U.S. federal income tax considerations

The U.S. federal income tax considerations of owning and disposing of the Mandatory Convertible Preferred Stock and any common stock received upon its conversion are described in U.S. federal income tax considerations. Prospective investors are urged to consult their tax advisors regarding the tax considerations of owning and disposing of the Mandatory Convertible Preferred Stock and any common stock received upon its conversion in light of their personal investment circumstances.

Book-entry delivery and form

Initially, the Mandatory Convertible Preferred Stock will be represented by one or more permanent global certificates in definitive, fully registered form deposited with a custodian for, and registered in the name of, a nominee of DTC. See Description of Mandatory Convertible Preferred Stock Book Entry, Delivery and Form. Beneficial interests in the permanent global certificates will be shown on, and transfers will be effected only through, records maintained by DTC or its nominee and any such interest may not be exchanged for certificated securities, except in limited circumstances.

Listing

We intend to apply to list the Mandatory Convertible Preferred Stock on the NASDAQ under the symbol FTRPR . Our common stock is listed on the NASDAQ under the symbol FTR.

Concurrent offering

Concurrently with this offering, we are offering, by means of a separate prospectus supplement, shares of our common stock for aggregate gross proceeds to us of \$750.0 million, plus up to an additional shares of our common stock (10% of the base offering size) that the underwriters of such offering have the option to purchase from us, in each case, at the actual public offering price of \$ per share of common stock.

Transfer agent and registrar

Computershare Trust Company, N.A. is the transfer agent and registrar for the Mandatory Convertible Preferred Stock.

Immediately after the consummation of the concurrent offering, we will have 1,150,945,795 shares of our common stock outstanding, based on 1,003,308,000 shares of our common stock outstanding as of May 1, 2015 plus the 147,637,795 shares that we are offering in the concurrent offering (based on the last reported sale price of our common stock on the NASDAQ on June 1, 2015 of \$5.08 per share), but excluding:

14,763,779 shares of our common stock issuable on the exercise of the underwriters option to purchase additional shares of our common stock in the concurrent offering (based on the last reported sale price of our common stock on the NASDAQ on June 1, 2015 of \$5.08 per share);

shares of our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock issued in this offering; and

an aggregate of approximately 12,580,000 shares of our common stock reserved for issuance under our various share compensation plans as of March 31, 2015.

S-12

Table of Contents

Except as otherwise noted, all information in this prospectus supplement assumes that the underwriters overallotment option to purchase additional shares of Mandatory Convertible Preferred Stock is not exercised in this offering and the underwriters in the concurrent offering do not exercise their option to purchase additional shares of our common stock in the concurrent offering.

Risk factors

In evaluating an investment in the Mandatory Convertible Preferred Stock, prospective investors should carefully consider the risk factors and other cautionary statements contained in this prospectus supplement, including those described under Supplemental risk factors beginning on page S-21, as well as the risk factors described in Part I, Item 1A Risk Factors in our annual report on Form 10-K for the fiscal year ended December 31, 2014, along with the other information set forth or incorporated by reference in this prospectus supplement.

Summary historical consolidated financial information of Frontier

The following summary historical consolidated financial information as of March 31, 2015 and for the three months ended March 31, 2015 and 2014 has been derived from our unaudited interim consolidated financial statements incorporated by reference into this prospectus supplement and the accompanying prospectus. In the opinion of our management, all adjustments considered necessary for a fair presentation of such interim financial information have been included. The following summary historical consolidated financial information as of December 31, 2014 and 2013 and for each of the years in the three-year period ended December 31, 2014 has been derived from our audited consolidated financial statements incorporated by reference into this prospectus supplement and the accompanying prospectus. The following summary historical consolidated financial information as of December 31, 2012 has been derived from our audited consolidated financial statements not included or incorporated by reference into this prospectus supplement and the accompanying prospectus. Our operating results for the three months ended March 31, 2015 are not necessarily indicative of the results to be expected for any future periods.

On October 24, 2014, we completed the Connecticut Acquisition. Accordingly, our operating results for the periods following the Connecticut Acquisition may not be comparable to the periods prior to the Connecticut Acquisition.

This information is only a summary and should be read in conjunction with our management s discussion and analysis of financial condition and results of operations incorporated by reference into this prospectus supplement and the accompanying prospectus and the historical consolidated financial statements and the notes thereto referred to above. See Where you can find more information and Incorporation of certain documents by reference in this prospectus supplement and the accompanying prospectus.

- (1) Includes capital expenditures related to integration activities in connection with the Connecticut Acquisition of \$10 million for the three months ended March 31, 2015 and 2014 and \$116 million for the year ended December 31, 2014. Also includes capital expenditures relating to integration activities in connection with certain businesses acquired from Verizon in 2010 of \$54 million for the year ended December 31, 2012.
- (2) Adjusted EBITDA is a non-GAAP (as defined herein) financial measure which we define as operating income plus depreciation and amortization, as adjusted to add back acquisition and integration costs, non-cash pension/pension and other postretirement benefit (OPEB) costs, severance costs, pension settlement costs and gains/losses on the sale of certain assets. A reconciliation of the differences between Adjusted EBITDA and the most comparable financial measure calculated and presented in accordance with accounting principles generally accepted in the United States of America (GAAP) is set forth below. Adjusted EBITDA is not a measure of financial performance under GAAP and is not an alternative to operating income or net income, as reflected in the statement of operations, or to cash flows, as reflected in the statement of cash flows, and it is not necessarily indicative of cash available to fund all cash needs. Adjusted EBITDA as used by us may not be comparable to similarly titled measures of other companies.

We believe that presentation of Adjusted EBITDA provides useful information to investors regarding our financial condition and results of operations because Adjusted EBITDA, when used in conjunction with related GAAP financial measures, (i) provides a more comprehensive view of our core operations and ability to generate cash flow, (ii) provides investors with the financial analytical framework upon which management bases financial, operational, compensation and planning decisions and (iii) presents measurements that investors and rating agencies have indicated to management are useful to them in assessing us and our results of operations.

Our management uses Adjusted EBITDA to (i) assist in analyzing our underlying financial performance from period to period, (ii) evaluate the financial performance of our business units, (iii) analyze and evaluate strategic and operational decisions, (iv) establish criteria for compensation decisions and (v) assist management in understanding our ability to generate cash flow and, as a result, to plan for future capital and operational decisions. We believe that Adjusted EBITDA is meaningful and useful for the reasons outlined above.

While we utilize Adjusted EBITDA in managing and analyzing our business and financial condition and believe it is useful to management and to investors for the reasons described above, Adjusted EBITDA has certain shortcomings. Management compensates for the shortcomings by utilizing Adjusted EBITDA in conjunction with comparable GAAP financial measures. The information presented in this section should be read in conjunction with the consolidated financial statements and the related notes incorporated by reference in this prospectus supplement and the accompanying prospectus.

The following are the components of Adjusted EBITDA for the three months ended March 31, 2015 and 2014 and for each of the years in the three-year period ended December 31, 2014.

	Three months ended March 31, Year ended December			ber 31,

Gain on sale of Mohave partnership interest(a)			(15)	
Adjusted EBITDA	\$ 564 \$ 5	521 \$ 2.084	\$ 2.238	\$ 2,396

⁽a) On April 1, 2013, we sold our 33 1 /₃% interest in the Mohave Cellular Limited Partnership, in which we were the general partner. We received proceeds from the sale of \$18 million and recognized a gain on the sale of \$15 million before taxes.

Summary historical combined financial information of the VSTO

The following summary historical combined financial information as of March 31, 2015 and for the three months ended March 31, 2015 and 2014 has been derived from the unaudited interim combined financial statements of the VSTO incorporated by reference into this prospectus supplement and the accompanying prospectus. In the opinion of our management, all adjustments considered necessary for a fair presentation of such interim financial information have been included. The following summary historical combined financial information as of December 31, 2014 and 2013 and for each of the years in the three-year period ended December 31, 2014 has been derived from the audited consolidated financial statements of the VSTO incorporated by reference into this prospectus supplement and the accompanying prospectus.

The financial and operating information of the VSTO reflects the combined financial information of Verizon s Separate Telephone Operations in California, Florida and Texas (which consists of all or a portion of Verizon Florida LLC, GTE Southwest Incorporated and Verizon California Inc., Verizon Long Distance LLC, Verizon Enterprise Solutions LLC, Verizon Online LLC, Verizon Select Services, Inc. and Verizon Network Integration Corp.) and does not give effect to certain assets and liabilities relating to the business to be contributed by Verizon to these entities in connection with the Verizon Transaction, or to certain assets and liabilities unrelated to the business that will be transferred by these entities to Verizon in connection with the Verizon Transaction. Additionally, this information does not give effect to any potential cost savings or other operating efficiencies that would result in connection with the Verizon Transaction.

This information is only a summary and should be read in conjunction with the historical combined financial statements of the VSTO and the notes thereto referred to above. See Where you can find more information and Incorporation of certain documents by reference in this prospectus supplement and the accompanying prospectus.

The following summary historical combined financial information and the combined financial statements of the VSTO have been prepared on a carve-out basis in accordance with GAAP and reflect the historical financial position, results of operations and cash flows of the VSTO for the periods presented, including assumptions and allocations made by Verizon to separate the VSTO on a stand-alone basis. As a result, the following summary historical combined financial information and the combined financial statements of the VSTO may not be indicative of the financial position, results of operations and cash flows that would have been presented if the VSTO had been a stand-alone entity. The summary historical financial information does not purport to be indicative of what the results of operations, financial position and cash flows of the VSTO will be in the future.

- (3) Does not include the purchase of approximately \$19 million and \$44 million of long-lived assets, consisting primarily of network equipment, purchased in the three months ended March 31, 2015 and the year ended December 31, 2014, respectively, primarily through vendor financing arrangements, of which \$60 million and \$43 million remain outstanding as of March 31, 2015 and December 31, 2014, respectively.

S-17

Summary unaudited pro forma condensed combined financial information

The following summary unaudited pro forma condensed combined balance sheet information as of March 31, 2015 is based upon (i) the historical consolidated financial information of Frontier and (ii) the historical combined financial information of the VSTO, and has been prepared to reflect the Verizon Transaction based on the acquisition method of accounting. The following summary unaudited pro forma condensed combined statement of operations information for the three months ended March 31, 2015 is based upon (i) the historical consolidated financial information of Frontier and (ii) the historical combined financial information of the VSTO, and has been prepared to reflect the Verizon Transaction based on the acquisition method of accounting. The following summary unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 is based upon (i) the historical consolidated financial information of Frontier, (ii) the historical combined financial information of the VSTO and (iii) the historical combined financial information of the Connecticut Operations for the period of January 1, 2014 through October 24, 2014, and has been prepared to reflect the Verizon Transaction and the Connecticut Operations based on the acquisition method of accounting. The summary unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 includes the results of the Connecticut Operations for the period of January 1, 2014 through October 24, 2014. The summary unaudited pro forma condensed combined financial information presents the combination of the historical financial statements of Frontier and the historical financial statements of the VSTO, adjusted to give effect to (1) the transfer of specified assets and liabilities from Verizon to the VSTO that are not included in the VSTO historical balance sheet as of March 31, 2015, and the retention of specified assets and liabilities by Verizon that are included in the VSTO historical balance sheet as of March 31, 2015, (2) the financing to fund the cash payment to Verizon for the purchase price, (3) the payment by Frontier to Verizon of \$10.54 billion in cash and assumed debt (excluding any potential working capital purchase price adjustment as set forth in the Verizon Purchase Agreement) and (4) the consummation of the transactions contemplated by the Verizon Purchase Agreement, with Frontier considered the accounting acquirer, based on the assumptions and adjustments described in the accompanying notes to the unaudited pro forma condensed combined financial information. The historical financial information has been adjusted to give effect to events that are directly attributable to the Verizon Transaction and factually supportable and, in the case of the statement of operations information, that are expected to have a continuing impact.

The summary unaudited pro forma condensed combined balance sheet information has been prepared as of March 31, 2015, and gives effect to the Verizon Transaction and other events described above as if they had occurred on that date. The summary unaudited pro forma condensed combined statement of operations information, which has been prepared for the year ended December 31, 2014 and three months ended March 31, 2015, gives effect to the Verizon Transaction and other events described above as if they had occurred on January 1, 2014.

On October 24, 2014, we acquired the wireline properties of AT&T in Connecticut by acquiring all of the issued and outstanding capital stock of Transferred AT&T Companies for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital, pursuant to the AT&T Purchase Agreement. Prior to the closing of the Connecticut Acquisition, (i) AT&T transferred to the Transferred AT&T Companies certain assets and caused the Transferred AT&T Companies to assume certain liabilities relating to the business to be acquired and (ii) the Transferred AT&T Companies, to be retained by AT&T following the closing. The Company financed the Connecticut Acquisition using the net proceeds of an offering of \$1.55 billion aggregate principal amount of

S-18

Table of Contents

senior unsecured notes, borrowings of \$350 million under a term loan credit agreement and cash on hand. The summary unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 gives effect to the Connecticut Acquisition as if it had occurred on January 1, 2014.

The summary unaudited pro forma condensed combined financial information was prepared using, and should be read in conjunction with, (1) the audited combined financial statements of the VSTO for the year ended December 31, 2014, (2) the unaudited interim condensed combined financial statements of the VSTO as of and for the three months ended March 31, 2015, (3) the unaudited interim condensed combined financial statements of the Connecticut Operations for the nine months ended September 30, 2014, (4) the audited consolidated financial statements of Frontier for the year ended December 31, 2014, and (5) the unaudited interim condensed consolidated financial statements of Frontier as of and for the three months ended March 31, 2015.

The summary unaudited pro forma condensed combined financial information is presented for informational purposes only and is not necessarily indicative of the results of operations that would have been achieved had the Verizon Transaction and other events described above been completed at the dates indicated above. In addition, the summary unaudited pro forma condensed combined financial information does not purport to project the future results of operations of Frontier after completion of the Verizon Transaction and the other events described above. In the opinion of Frontier s management, all adjustments considered necessary for a fair presentation have been included.

The summary unaudited pro forma condensed combined financial information does not give effect to any potential cost savings or other operating efficiencies that could result from the Connecticut Acquisition, other than an annualized run rate of \$165 million of synergies that were achieved by year-end 2014 subsequent to the closing of the Connecticut Acquisition and which are reflected in our operating results for the year ended December 31, 2014 and an annualized run rate of \$230 million of synergies that are reflected in our operating results for the quarter ended March 31, 2015.

The summary unaudited pro forma condensed combined financial information also does not give effect to any potential cost savings or other operating efficiencies that could result from the Verizon Transaction. We expect to realize \$525 million of annual cost synergies following the consummation of the Verizon Transaction, and an additional \$175 million of annual cost synergies by the end of the third year following the consummation of the Verizon Transaction.

The anticipated synergies that we refer to above are based on estimates and assumptions that we consider to be reasonable but that are uncertain. Our anticipated synergies are subject to significant business, economic, regulatory and competitive uncertainties and contingencies.

In addition, the fair value of the assets acquired and liabilities assumed are based upon estimates. The final purchase price allocation is dependent upon valuations and other studies that have not yet been completed. Accordingly, the purchase price allocation pro forma adjustments are preliminary and are subject to further adjustments as additional information becomes available and additional analyses are performed, and each further adjustment may be material. Such adjustments have been made solely for the purpose of providing unaudited pro forma condensed combined financial information.

Supplemental risk factors

You should carefully consider the risks described below in addition to the risks described in Risk Factors in the accompanying prospectus and in any free writing prospectus with respect to the offering filed by us with the SEC, as well as in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2014 (as such risk factors may be updated from time to time in our public filings), which is incorporated by reference into this prospectus supplement and the accompanying prospectus, as well as the other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, before investing in the securities offered hereby. See Where you can find more information and Incorporation of certain documents by reference. You could lose part or all of your investment.

Risks related to the Verizon Transaction

The Verizon Transaction may not be consummated on the terms or timeline currently contemplated, or at all.

The consummation of the Verizon Transaction is subject to certain conditions, including (i) the absence of a court or other governmental order prohibiting consummation of the transaction, (ii) the receipt of applicable regulatory consents, (iii) the absence of a material adverse effect on the business to be acquired from Verizon and (iv) other customary closing conditions. See Description of the Verizon Transaction. We can make no assurances that the Verizon Transaction will be consummated on the terms or timeline currently contemplated, or at all. We have expended and will continue to expend a significant amount of capital and management s time and resources on the Verizon Transaction, and a failure to consummate the Verizon Transaction as currently contemplated, or at all, could have an adverse effect on our business, our results of operations and our cash flows.

In addition, we may choose to raise all or a portion of the additional financing required to complete the Verizon Transaction prior to the closing of such transaction. If the Verizon Transaction is ultimately not consummated or is delayed for a significant period of time, we could be obligated to pay significant interest expense, additional dividends and other costs in connection with the financing without achieving the expected benefits of the Verizon Transaction. The trading price of our securities could be adversely affected if the Verizon Transaction is not consummated as currently contemplated, or at all. Neither this offering nor the concurrent offering is conditioned upon the completion of the Verizon Transaction.

Our effort to combine our business and the business to be acquired from Verizon may not be successful.

We are devoting a significant amount of time and attention to the process of integrating the operations of our business and the business to be acquired from Verizon, which may decrease the time that management will have to serve existing customers, attract new customers and develop new services or strategies. The size and complexity of the acquired business and the process of using our existing common support functions and systems to manage the acquired business after the acquisition, if not managed and completed successfully by management, may result in interruptions of the business activities of the Company that could have an adverse effect on our business, financial condition and results of operations. In addition, following the consummation of the Verizon Transaction we will be assuming certain liabilities and obligations of Verizon, including with respect to certain litigation and regulatory matters, the outcome of which could have an adverse impact on our business, financial condition and results of operations if determined adversely to us following the consummation of the Verizon Transaction.

S-21

We may not realize the cost synergies that are anticipated from the Verizon Transaction.

The success of the Verizon Transaction will depend, in part, on our ability to realize anticipated cost synergies. Our success in realizing these cost synergies, and the timing of this realization, depends on the successful integration of our business and operations with the acquired business and operations. Even if we are able to integrate the acquired businesses and operations successfully, this integration may not result in the realization of the full benefits of the cost synergies that we currently expect within the anticipated time frame or at all.

If the assets included in the business to be purchased from Verizon are insufficient to operate the acquired business, it could adversely affect the Company s business, financial condition and results of operations.

Pursuant to the Verizon Purchase Agreement, Verizon will contribute to the acquired business certain assets and liabilities of its local exchange business and related landline activities in California, Florida and Texas, including video, broadband internet and switched long distance services provided to designated customers located in those states. However, the contributed assets may not be sufficient to operate all aspects of the acquired business and we may have to use assets or resources from our existing business or acquire additional assets in order to operate the acquired business, which could cost us more than we anticipate.

The Company s business, financial condition and results of operations may be adversely affected following consummation of the Verizon Transaction if we are not able to obtain requisite consents or enter into certain agreements.

The products and services of the acquired business are currently provided by Verizon to certain customers pursuant to master agreements, together with other Verizon products or services. Pursuant to the Verizon Purchase Agreement, we and Verizon have jointly agreed to use our reasonable best efforts for six months following the consummation of the Verizon Transaction to obtain any consents required to separate from such master agreements and assign to Frontier the portion thereof related to the acquired business. To the extent that the parties are not able to obtain any such required consent, such contracts will not be assigned to us and we may not be able to establish a direct relationship with such customers.

Regulatory agencies may delay approval of the Verizon Transaction, fail to approve it, or approve it in a manner that may diminish the anticipated benefits of the Verizon Transaction.

Completion of the Verizon Transaction is conditioned upon the receipt of certain government consents, approvals, orders and authorizations. While we intend to pursue vigorously all required governmental approvals and do not know of any reason why we would not be able to obtain the necessary approvals in a timely manner, the requirement to receive these approvals before completion of the Verizon Transaction could delay its completion. A lengthy delay in the completion of the Verizon Transaction could diminish the anticipated benefits and/or result in additional transaction and financing costs, loss of revenues or other effects associated with uncertainty about the transaction. In addition, until the Verizon Transaction is completed, the attention of our management may be unnecessarily diverted from ongoing business and regular business responsibilities.

Further, governmental agencies may decline to grant required approvals, or they may impose conditions on their approval of the Verizon Transaction that could have an adverse effect on our business, financial condition and results of operations. If certain governmental agencies decline to grant any required approval for the Verizon Transaction, the Verizon Transaction may not be consummated. In addition, conditions imposed by governmental agencies in connection with their approval of the Verizon Transaction (such as service quality or capital expenditure requirements) may restrict our ability to achieve anticipated synergies, revenues and cash flows.

S-22

Table of Contents

The Verizon Purchase Agreement contains provisions that may discourage other companies from trying to acquire Frontier.

The Verizon Purchase Agreement contains provisions that may discourage a third party from submitting a business combination proposal to us prior to the closing of the Verizon Transaction that might result in greater value to our stockholders than the Verizon Transaction. The Verizon Purchase Agreement provides that we may not sell all or substantially all of our assets unless the buyer assumes in writing our obligations, including the payment of the purchase price, under the Verizon Purchase Agreement. This would represent an additional cost for a potential third party seeking a business combination with us.

The trading price of our common stock and the trading price of the Mandatory Convertible Preferred Stock may be adversely affected if we are unable to consummate the Verizon Transaction.

If the Verizon Transaction is not completed for any reason, the trading price of our common stock and the trading price of the Mandatory Convertible Preferred Stock may decline to the extent that the market price of such securities reflects positive market assumptions that the Verizon Transaction will be completed and the related benefits will be realized. We may also be subject to additional risks if the Verizon Transaction is not completed, including:

significant costs related to the transaction, such as legal, accounting, filing, financial advisory, and integration costs that have already been incurred or will continue up to closing. While the Company currently expects that it will incur approximately \$450 million of operating expenses and capital expenditures in total related to acquisition and integration activities in 2015 and 2016 associated with the Verizon Transaction, the amount of such operating expenses and capital expenditures may increase based on a variety of factors;

additional dividend costs as a result of this offering and the concurrent offering;

if Frontier completes a financing of debt securities prior to closing the Verizon Transaction, significant interest expense and potential redemption premiums with respect to such debt securities;

the market price of our common stock and the Mandatory Convertible Preferred Stock could decline as a result of further sales of our common stock or equity-linked securities in the market or the perception that these sales could occur; and

potential disruption to our business and distraction of our workforce and management team.

The pendency of the Verizon Transaction could adversely affect the business and operations of Frontier and the acquired business.

In connection with the pending Verizon Transaction, some customers of the acquired business may delay or defer decisions or may end their relationships with Verizon prior to completion of the Verizon Transaction or with the Company after the Verizon Transaction closes.

We will incur substantial debt and debt service obligations to finance the Verizon Transaction.

We have a significant amount of indebtedness, which amounted to \$9.7 billion at March 31, 2015. We expect to incur additional indebtedness to fund the Verizon Transaction. On a pro forma basis to give effect to the Verizon Transaction and the other events described under Unaudited pro forma condensed combined financial information, we would have had \$18.6 billion of outstanding indebtedness as of March 31, 2015 based on our current financing plans which may be subject to change. We also have access to a \$750 million revolving credit facility and may also take on additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions under the terms of our existing indebtedness.

Table of Contents

The potential significant negative consequences on our financial condition and results of operations that could result from our substantial debt include:

limitations on our ability to obtain additional debt or equity financing on favorable terms or at all;

instances in which we are unable to meet the covenants contained in our debt agreements or to generate cash sufficient to make required debt payments, which circumstances have the potential of accelerating the maturity of some or all of our outstanding indebtedness;

the allocation of a substantial portion of our cash flow from operations to service our debt, thus reducing the amount of our cash flow available for other purposes, including operating costs, capital expenditures and dividends that would otherwise improve our competitive position, results of operations or stock price;

requiring us to sell debt or equity securities or to sell some of our core assets, possibly on unfavorable terms, to meet payment obligations;

compromising our flexibility to plan for, or react to, competitive challenges in our business and the communications industry; and

the possibility of our being put at a competitive disadvantage with competitors who do not have as much debt as we do, and competitors who may be in a more favorable position to access additional capital resources.

In addition, our senior notes are rated below investment grade by independent ratings agencies. This can result in higher borrowing costs for us. We cannot assure you that these rating agencies will not lower our current debt ratings, if in the rating agencies judgment such an action is appropriate. A lowering of a rating may further increase our future borrowing costs and reduce our access to capital.

We will have broad discretion to use the proceeds from this offering and the concurrent offering, if consummated.

Because the closing of the Verizon Transaction is subject to a number of closing conditions, we cannot assure you that the Verizon Transaction will close. If the Verizon Transaction does not close, we will have significant discretion to allocate the proceeds from this offering and the concurrent offering, if consummated, to other uses. In addition, while we intend to place a portion of the proceeds of this offering and the concurrent offering into escrow pursuant to the terms of the Verizon Purchase Agreement, we do not intend to place all proceeds into escrow. We will have broad discretion to use any proceeds that are not escrowed pursuant to the terms of the Verizon Purchase Agreement. In addition, while we have the option, we are not required to redeem the Mandatory Convertible Preferred Stock issued hereby if the Verizon Transaction does not close. We can make no assurances that we will exercise such redemption option or that we will otherwise have opportunities to allocate the proceeds from this offering and the concurrent offering, if consummated, for other productive uses or that other uses of the proceeds from this offering will result in a favorable return to investors.

The pro forma financial statements included and incorporated by reference in this prospectus supplement are presented for illustrative purposes only and may not be an indication of our financial condition or results of operations after giving effect to the Connecticut Acquisition or the Verizon Transaction, as applicable.

The pro forma financial statements contained and incorporated by reference in this prospectus supplement and the accompanying prospectus are presented for illustrative purposes only, are based on various adjustments, assumptions and preliminary estimates and may not be an indication of our financial condition or results of operations following the Connecticut Acquisition or the Verizon Transaction, as applicable, for several reasons.

Table of Contents

See Unaudited pro forma condensed combined financial information. Our actual financial condition and results of operations following the Connecticut Acquisition and the Verizon Transaction may not be consistent with, or evident from, these pro forma financial statements. In addition, the assumptions used in preparing the pro forma financial information may not prove to be accurate, and other factors may affect our financial condition or results of operations following the Connecticut Acquisition or the Verizon Transaction.

Risks related to ownership of the Mandatory Convertible Preferred Stock, our common stock and this offering

You will bear the risk of a decline in the market price of our common stock between the pricing date for the Mandatory Convertible Preferred Stock and the mandatory conversion date.

The number of shares of our common stock that you will receive upon mandatory conversion of the Mandatory Convertible Preferred Stock is not fixed but instead will depend on the applicable market value of our common stock, which is the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding the mandatory conversion date. The aggregate market value of our common stock that you would receive upon mandatory conversion of the Mandatory Convertible Preferred Stock may be less than the aggregate liquidation preference of the Mandatory Convertible Preferred Stock. Specifically, if the applicable market value of our common stock is less than the initial price of \$\(\text{ , the market value of our common stock that you would receive upon mandatory conversion of each share of the Mandatory Convertible Preferred Stock will be less than the \$100.00 liquidation preference per share, and an investment in the Mandatory Convertible Preferred Stock would result in a loss. Therefore, you will bear the risk of a decline in the market price of our common stock, which decline could be substantial.

The opportunity for equity appreciation provided by your investment in the Mandatory Convertible Preferred Stock is less than that provided by a direct investment in our common stock.

The market value of each share of our common stock that you would receive upon mandatory conversion of each share of the Mandatory Convertible Preferred Stock on the mandatory conversion date will only exceed the liquidation preference of \$100.00 per share of the Mandatory Convertible Preferred Stock if the applicable market value of our common stock exceeds the threshold appreciation price of \$. The threshold appreciation price represents an appreciation of % over the initial price. In this event, on the mandatory conversion date, you would receive approximately % (which percentage is equal to the initial price divided by the threshold appreciation price) of the value of our common stock that you would have received if you had made a direct investment in our common stock on the date of this prospectus supplement. This means that the opportunity for equity appreciation provided by an investment in the Mandatory Convertible Preferred Stock is less than that provided by a direct investment in our common stock.

In addition, if the market value of our common stock appreciates and the applicable market value of our common stock is equal to or greater than the initial price but less than or equal to the threshold appreciation price, the aggregate market value of our common stock that you would receive upon mandatory conversion of the Mandatory Convertible Preferred Stock will only be equal to the aggregate liquidation preference of the Mandatory Convertible Preferred Stock, and you will not realize any equity appreciation on our common stock.

The adjustment to the conversion rate and the payment of the fundamental change dividend make-whole amount upon the occurrence of certain fundamental changes may not adequately compensate you.

If a fundamental change (as defined in Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change) occurs on or prior to the mandatory conversion date, holders will be entitled to convert their Mandatory Convertible Preferred Stock during the fundamental change conversion period at the fundamental change conversion rate (in each case as defined in Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the

S-25

Table of Contents

holder upon a fundamental change). The fundamental change conversion rate represents an adjustment to the conversion rate otherwise applicable unless the share price is less than \$ or above \$ (in each case, subject to adjustment). In addition, with respect to Mandatory Convertible Preferred Stock converted during the fundamental change conversion period, you will also receive, among other considerations, a fundamental change dividend make-whole amount. Although this adjustment to the conversion rate and the payment of the fundamental change dividend make-whole amount are designed to compensate you for the lost option value of the Mandatory Convertible Preferred Stock and lost dividends as a result of a fundamental change, they are only an approximation of such lost value and lost dividends and may not adequately compensate you for your actual loss. Furthermore, our obligation to adjust the conversion rate in connection with a fundamental change and pay the fundamental change dividend make-whole amount (whether in cash or shares of our common stock or any combination thereof) could be considered a penalty under state law, in which case your ability to enforce such adjustments would be subject to general principles of reasonableness of economic remedies.

The conversion rate of the Mandatory Convertible Preferred Stock may not be adjusted for all dilutive events that may adversely affect the market price of the Mandatory Convertible Preferred Stock or our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock.

The number of shares of our common stock that you are entitled to receive upon conversion of the Mandatory Convertible Preferred Stock is subject to adjustment for stock splits and combinations, dividends and certain other transactions. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments for further discussion of anti-dilution adjustments. However, other events, such as employee and director equity grants or offerings of our common stock or securities convertible into shares of our common stock (other than those set forth in Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments) for cash or in connection with acquisitions, which may adversely affect the market price of our common stock, may not result in any adjustment. Further, if any of these other events adversely affects the market price of our common stock, it may also adversely affect the market price of the Mandatory Convertible Preferred Stock do not restrict our ability to offer common stock or securities convertible into common stock in the future or to engage in other transactions that could dilute our common stock. We have no obligation to consider the interests of the holders of the Mandatory Convertible Preferred Stock in engaging in any such offering or transaction.

Investors will not have any rights to require us to redeem the Mandatory Convertible Preferred Stock in the event that an acquisition termination event occurs or the Verizon Transaction is not completed by August 6, 2016.

Investors will not have any rights to require us to redeem the Mandatory Convertible Preferred Stock if an acquisition termination event occurs or the Verizon Transaction is not completed by 5:00 p.m. (New York City time) on August 6, 2016. Further, investors will not have any right to require us to redeem the Mandatory Convertible Preferred Stock if, subsequent to the completion of this offering, we or Verizon experience any changes in our business or financial condition or if the terms of the Verizon Transaction or the financing thereof change. Even if we redeem the Mandatory Convertible Preferred Stock, investors may not obtain their expected return and may not be able to reinvest the proceeds from such redemption in an investment that results in a comparable return.

The Mandatory Convertible Preferred Stock is subject to redemption at our option upon the occurrence of an acquisition termination event or if the Verizon Transaction is not completed on or prior to 5:00 p.m. (New York City time) on August 6, 2016.

If the Verizon Transaction is not completed on or before 5:00 p.m. (New York City time) on August 6, 2016, or if an acquisition termination event (as defined herein) occurs, we will be entitled, but not required, to redeem the

S-26

Table of Contents

Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption price equal to \$100.00 per Mandatory Convertible Preferred Stock plus accumulated and unpaid dividends to the date of redemption or, in certain circumstances, at an early redemption price that includes a make-whole adjustment. Although the redemption price is designed to compensate you for the lost option value of your Mandatory Convertible Preferred Stock and lost dividends as a result of the acquisition termination redemption, it is only an approximation of such lost value and may not adequately compensate you for your actual loss.

The proceeds of this offering will not be deposited into an escrow account in favor of holders of Mandatory Convertible Preferred Stock pending any acquisition termination redemption of the Mandatory Convertible Preferred Stock. Our ability to pay the redemption price to holders of the Mandatory Convertible Preferred Stock in connection with an acquisition termination redemption may be limited by our then existing financial resources, and sufficient funds may not be available when necessary to make any required purchases of the Mandatory Convertible Preferred Stock following our election to redeem the Mandatory Convertible Preferred Stock.

Recent regulatory actions may adversely affect the trading price and liquidity of the Mandatory Convertible Preferred Stock.

Investors in, and potential purchasers of, the Mandatory Convertible Preferred Stock who employ, or seek to employ, a convertible arbitrage strategy with respect to the Mandatory Convertible Preferred Stock may be adversely impacted by regulatory developments that may limit or restrict such a strategy. The SEC and other regulatory and self-regulatory authorities have implemented various rules and may adopt additional rules in the future that restrict and otherwise regulate short selling and over-the-counter swaps and security-based swaps, which restrictions and regulations may adversely affect the ability of investors in, or potential purchasers of, the Mandatory Convertible Preferred Stock to conduct a convertible arbitrage strategy with respect to the Mandatory Convertible Preferred Stock. This could, in turn, adversely affect the trading price and liquidity of the Mandatory Convertible Preferred Stock.

You will have no rights with respect to our common stock until the Mandatory Convertible Preferred Stock is converted, but you may be adversely affected by certain changes made with respect to our common stock.

You will have no rights with respect to our common stock, including voting rights, rights to participate in common stock tender offers, if any, and rights to receive dividends or other distributions on our common stock, if any (other than through a conversion rate adjustment), prior to the conversion date with respect to a conversion of the Mandatory Convertible Preferred Stock, but your investment in the Mandatory Convertible Preferred Stock may be negatively affected by these events. Upon conversion, you will be entitled to exercise the rights of a holder of common stock only as to matters for which the record date occurs after the conversion date. For example, in the event that an amendment is proposed to our Certificate of Incorporation requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the conversion date of the Mandatory Convertible Preferred Stock, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes resulting in the powers, preferences or rights of our common stock. See Description of capital stock in the accompanying prospectus for further discussion of our common stock.

You will have no voting rights with respect to the Mandatory Convertible Preferred Stock except under limited circumstances.

You will have no voting rights with respect to the Mandatory Convertible Preferred Stock, except (i) with respect to certain amendments to the terms of the Mandatory Convertible Preferred Stock, (ii) in the case of certain dividend arrearages, (iii) in certain other limited circumstances and (iv) as specifically required by Delaware law. You will have no right to vote for any members of our board of directors, except upon certain dividend arrearages.

S-27

Table of Contents

If dividends on any shares of the Mandatory Convertible Preferred Stock (i) have not been declared and paid, or (ii) have been declared but a sum of cash or number of shares of our common stock sufficient for payment thereof has not been set aside for the benefit of the holders thereof on the applicable record date, for the equivalent of six or more dividend periods, whether or not for consecutive dividend periods, the holders of shares of Mandatory Convertible Preferred Stock, voting together as a single class with holders of any and all other classes or series of our preferred stock ranking equally with the Mandatory Convertible Preferred Stock either as to dividends or the distribution of assets upon liquidation, dissolution or winding-up and having similar voting rights, will be entitled to elect a total of two additional members of our board of directors, subject to the terms and limitations described in the section of this prospectus supplement entitled Description of Mandatory Convertible Preferred Stock Voting rights.

In certain circumstances where the rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock are adversely affected thereby, holders of shares of the Mandatory Convertible Preferred Stock will have the right to vote with respect to certain amendments to our Certificate of Incorporation or in connection with certain reclassifications, mergers or consolidation transactions. See Description of Mandatory Convertible Preferred Stock Voting rights.

Our ability to declare and pay dividends on the Mandatory Convertible Preferred Stock may be limited.

Our declaration and payment of dividends on the Mandatory Convertible Preferred Stock in the future will be determined by our board of directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity and other factors. Our ability to declare and pay dividends and make other distributions with respect to our capital stock, including the Mandatory Convertible Preferred Stock, is restricted by the terms of certain of our existing financing arrangements and may be restricted by the terms of financing arrangements that we enter into in the future. In the event that the agreements governing any such indebtedness restrict our ability to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock, we may be unable to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock unless we can repay or refinance the amounts outstanding under such agreements.

In addition, under Delaware law, our board of directors may only declare and pay dividends on shares of our capital stock out of our statutory surplus (which is the amount equal to total assets minus total liabilities, in each case at fair market value, minus statutory capital), or if there is no such surplus, out of our net profits for the then current and/or immediately preceding fiscal year. Further, even if we are permitted under our contractual obligations and Delaware law to declare and pay cash dividends on the shares of Mandatory Convertible Preferred Stock, we may not have sufficient cash to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock.

If upon (i) mandatory conversion, (ii) an early conversion at the option of a holder or (iii) an early conversion upon a fundamental change, we have not declared and paid all or any portion of the accumulated dividends payable on the Mandatory Convertible Preferred Stock for specified periods, converting holders will receive an additional number of shares of our common stock having a market value generally equal to the amount of such undeclared, accumulated and unpaid dividends, subject to the limitations described under Description of Mandatory Convertible Preferred Stock Conversion rights Mandatory conversion, Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change, respectively. In the case of mandatory conversion or conversion upon a fundamental change, if these limits to the adjustment of the conversion rate are reached, we will pay the shortfall in cash if we are legally permitted to do so and not restricted by the terms of our indebtedness at that time. We will not have an obligation to pay the shortfall in cash if these limits to the adjustment of the conversion rate are reached in the case of an early conversion at the option of the holder.

S-28

Table of Contents

You may be subject to U.S. federal income or withholding tax with respect to the Mandatory Convertible Preferred Stock even though you do not receive a corresponding cash distribution.

The conversion rate of the Mandatory Convertible Preferred Stock is subject to adjustment in certain circumstances. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments. If, as a result of an adjustment (or failure to make an adjustment), your proportionate interest in our assets or earnings and profits is increased, you may be deemed to have received for U.S. federal income tax purposes a taxable distribution without the receipt of any cash. In addition, we may make distributions to holders of the Mandatory Convertible Preferred Stock that are paid in our common stock, and any such distribution would be taxable to the same extent as a cash distribution of the same amount. In these circumstances and possibly others, you, as a holder of Mandatory Convertible Preferred Stock, may be subject to U.S. federal income tax even though you have received no cash, thus giving rise to an out-of-pocket expense. If you are a Non-U.S. Holder (as defined in U.S. federal income tax considerations), you may be subject to U.S. federal withholding taxes in connection with such a deemed distribution or distribution payable in shares of our common stock. If a broker or other applicable withholding agent pays any withholding taxes on behalf of a Non-U.S. Holder as a result of a deemed distribution, such withholding agent may set off such payments against cash payments and other distributions otherwise deliverable to the Non-U.S. Holder (or other assets of the Non-U.S. Holder held by such withholding agent). See U.S. federal income tax considerations for a further discussion of U.S. federal income tax considerations with respect to the Mandatory Convertible Preferred Stock.

Certain rights of the holders of the Mandatory Convertible Preferred Stock and certain contractual and statutory provisions could delay or prevent an otherwise beneficial takeover or takeover attempt of us and, therefore, the ability of holders of Mandatory Convertible Preferred Stock to exercise their rights associated with a potential fundamental change.

Certain rights of the holders of the Mandatory Convertible Preferred Stock could make it more difficult or more expensive for a third party to acquire us. For example, if a fundamental change were to occur on or prior to June 29, 2018, holders of the Mandatory Convertible Preferred Stock may have the right to convert their Mandatory Convertible Preferred Stock, in whole or in part, at an increased conversion rate and will also be entitled to receive a fundamental change dividend make-whole amount equal to the present value of all remaining dividend payments on their Mandatory Convertible Preferred Stock. See Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change. These features of the Mandatory Convertible Preferred Stock could increase the cost of acquiring us or otherwise discourage a third party from acquiring us or removing incumbent management.

In addition, provisions of Delaware law and our Certificate of Incorporation and Bylaws (Bylaws), and contracts to which we are a party, could make it more difficult for a third party to acquire control of us or have the effect of discouraging a third party from attempting to acquire control of us. See Description of capital stock in the accompanying prospectus.

An active trading market for the Mandatory Convertible Preferred Stock does not exist and may not develop.

The Mandatory Convertible Preferred Stock is a new issue of securities with no established trading market. We intend to apply to have the Mandatory Convertible Preferred Stock listed on the NASDAQ under the symbol FTRPR. Even if the Mandatory Convertible Preferred Stock is approved for listing on the NASDAQ, such listing does not guarantee that a trading market for the Mandatory Convertible Preferred Stock will develop or, if a trading market for the Mandatory Convertible Preferred Stock does develop, the depth or liquidity of that market or the ability of the holders to sell the Mandatory Convertible Preferred Stock, or to sell the Mandatory Convertible Preferred Stock at a favorable price.

S-29

Table of Contents

The trading price of our common stock will directly affect the trading price of the Mandatory Convertible Preferred Stock.

The trading price of the Mandatory Convertible Preferred Stock will be directly affected by, among other things, the trading price of our common stock. It is impossible to predict whether the price of our common stock will rise or fall. Our operating results, prospects and economic, financial, political and other factors will affect trading prices of our common stock and the Mandatory Convertible Preferred Stock, as will future issuances of our common stock. In addition, market conditions can affect the capital markets generally, thereby affecting the price of our common stock. These conditions may include the level of, and fluctuations in, the trading prices of stocks generally and sales of substantial amounts of our common stock in the market after this offering of the Mandatory Convertible Preferred Stock or the perception that such sales could occur. See The price of our Mandatory Convertible Preferred Stock and common stock may be volatile. Accordingly, you may not be able to resell your Mandatory Convertible Preferred Stock or our common stock at or above the price at which you purchased or received them.

Additionally, Fluctuations in interest rates may give rise to arbitrage opportunities based upon changes in the relative value of the Mandatory Convertible Preferred Stock and the common stock underlying the Mandatory Convertible Preferred Stock. In addition, the issuance of the Mandatory Convertible Preferred Stock may result in hedging activity by holders of shares of the Mandatory Convertible Preferred Stock that view such Mandatory Convertible Preferred Stock as a more attractive means of equity participation in us than a direct investment in our common stock. This arbitrage and hedging could, in turn, negatively affect the trading prices of the Mandatory Convertible Preferred Stock and our common stock.

We may issue additional series of preferred stock that rank on a parity with the Mandatory Convertible Preferred Stock as to dividend payments and liquidation preference and that vote with the Mandatory Convertible Preferred Stock on most issues on which the preferred stock is permitted to vote, which may negatively affect your investment.

Without giving effect to the shares of Mandatory Convertible Preferred Stock that we are offering hereby, we have the authority under our Certificate of Incorporation to issue 50,000,000 shares of preferred stock. Our Certificate of Incorporation does not prohibit us from issuing additional series of preferred stock that would rank on a parity with the Mandatory Convertible Preferred Stock. The issuance of any such series of preferred stock could have the effect of reducing the amounts available to the holders of the Mandatory Convertible Preferred Stock in the event of our liquidation. If we do not have sufficient funds to pay dividends on the outstanding Mandatory Convertible Preferred Stock and such other series of preferred stock, it would also reduce amounts available to the holders of the Mandatory Convertible Preferred Stock for the payment of dividends. Except with respect to changes to our Certificate of Incorporation that adversely affect only one series of our preferred stock, the holders of the Mandatory Convertible Preferred Stock and any other series of preferred stock that we issue vote together, as a class, on the issues on which our preferred stock has the right to vote, including our consolidation or merger with another corporation. The interests of the holders of any other series of preferred stock that we issue may be different from the interests of the holders of the Mandatory Convertible Preferred Stock.

Shares eligible for future sale may adversely affect our common stock price and the market price of the Mandatory Convertible Preferred

Sales of our common stock or other securities (including the Mandatory Convertible Preferred Stock) in the public or private market, or the perception that these sales may occur, or the conversion of the Mandatory Convertible Preferred Stock or the payment of dividends on the Mandatory Convertible Preferred Stock in the form of our common stock, or the perception that such conversions or dividends could occur, could cause the

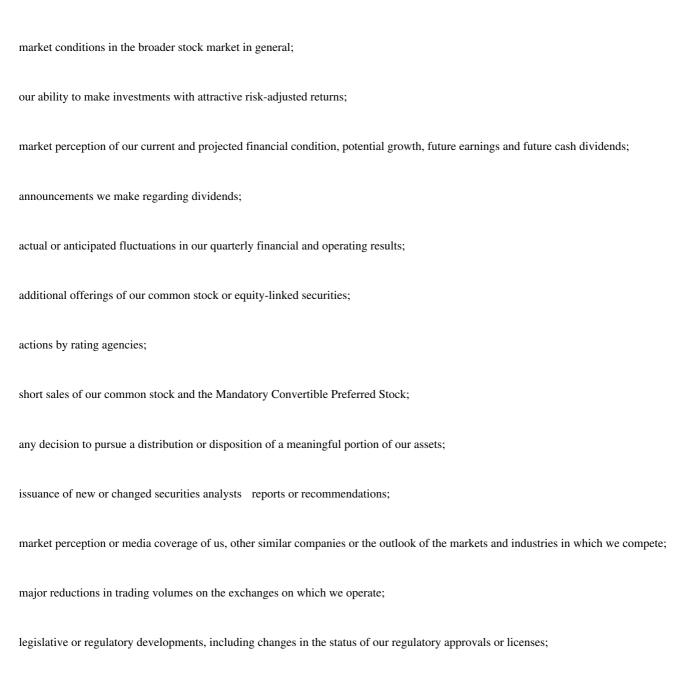

S-30

Table of Contents

market price of our common stock and thus, the market price of the Mandatory Convertible Preferred Stock, to decline. This could also impair our ability to raise additional capital through the sale of our equity securities. Under our Certificate of Incorporation, we are authorized to issue up to 1,750,000,000 shares of common stock and 50,000,000 shares of preferred stock and we are authorized to convert our authorized preferred stock (including the Mandatory Convertible Preferred Stock) into common stock. We cannot predict the size of future issuances of our common stock or other securities or the effect, if any, that the concurrent offering of our common stock and future sales and issuances of our common stock and other securities would have on the market price of our common stock.

The price of our Mandatory Convertible Preferred Stock and common stock may be volatile. Accordingly, you may not be able to resell your Mandatory Convertible Preferred Stock or our common stock at or above the price at which you purchased or received them.

The trading price of our common stock has fluctuated in the past. The trading price of our common stock and the Mandatory Convertible Preferred Stock could fluctuate significantly in the future and could be negatively affected in response to various factors, including:

litigation and governmental investigations; and

any decision to pursue a spin-off of a portion of our assets.

These and other factors may cause the market price and demand for our common stock and Mandatory Convertible Preferred Stock to fluctuate substantially, which may negatively affect the price or liquidity of our common stock and the Mandatory Convertible Preferred Stock. If the market price of our common stock declines, you may not realize any return on your investment in the Mandatory Convertible Preferred Stock and may lose some or all of your investment. When the market price of a stock has been volatile or has decreased

S-31

Table of Contents

significantly in the past, holders of that stock have, at times, instituted securities class action litigation against the company that issued the stock. If any of our stockholders brought a lawsuit against us, we could incur substantial costs defending, settling or paying any resulting judgments related to the lawsuit. Such a lawsuit could also divert the time and attention of our management from our business and hurt our share price.

The Mandatory Convertible Preferred Stock may adversely affect the market price of our common stock.

The market price of our common stock is likely to be influenced by the Mandatory Convertible Preferred Stock. For example, the market price of our common stock could become more volatile and could be depressed by:

investors anticipation of the potential resale in the market of a substantial number of additional shares of our common stock received upon conversion of the Mandatory Convertible Preferred Stock;

possible sales of our common stock by investors who view the Mandatory Convertible Preferred Stock as a more attractive means of equity participation in us than owning shares of our common stock; and

hedging or arbitrage trading activity that may develop involving the Mandatory Convertible Preferred Stock and our common stock. Future issuances of our shares of common stock could reduce the market price of our shares of common stock and the Mandatory Convertible Preferred Stock.

In the future we may issue additional securities to raise capital. We may also acquire interests in other companies by using a combination of cash and our common stock or just our common stock. We may also issue securities convertible into our common stock in addition to the Mandatory Convertible Preferred Stock offered hereby. Any of these events may dilute your ownership interest in our Company and have an adverse impact on the price of our common stock and the price of the Mandatory Convertible Preferred Stock.

Our shares of common stock will rank junior to the Mandatory Convertible Preferred Stock and both equity securities will rank junior to all of our consolidated liabilities.

In the event of a bankruptcy, liquidation, dissolution or winding up, our assets will be available to pay obligations on the Mandatory Convertible Preferred Stock and our common stock only after all of our consolidated liabilities have been paid. In the event of a bankruptcy, liquidation, dissolution or winding up, there may not be sufficient assets remaining, after paying our and our subsidiaries—liabilities, to pay any amounts with respect to the Mandatory Convertible Preferred Stock and our common stock then outstanding. Additionally, no distribution of our assets may be made to holders of our common stock until we have paid to holders of the Mandatory Convertible Preferred Stock a liquidation preference equal to \$100.00 per share plus accrued and unpaid dividends. We have a significant amount of indebtedness, which amounted to \$9.7 billion at March 31, 2015. We expect to incur additional indebtedness to fund the Verizon Transaction. On a pro forma basis to give effect to the Verizon Transaction and the other events described under—Unaudited pro forma condensed combined financial information,—we would have had \$18.6 billion of outstanding indebtedness as of March 31, 2015. We also have access to a \$750 million revolving credit facility and may also take on additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions under the terms of our existing indebtedness.

Certain provisions of the General Corporation Law of the State of Delaware (DGCL), our Certificate of Incorporation and our Bylaws may delay, hinder or prevent a change of control in us, which could have an adverse effect on the market price of our common stock and the Mandatory Convertible Preferred Stock.

Provisions of the DGCL and our Certificate of Incorporation and Bylaws could delay or discourage some transactions involving an actual or potential change in control of us or our management and may limit the

Table of Contents

ability of our stockholders to remove current management or approve transactions that our stockholders may deem to be in their best interests. These provisions:

authorize our board of directors to establish one or more series of preferred stock, the terms of which can be determined by our board of directors at the time of issuance;

provide an advanced written notice procedure with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors;

state that special meetings of our stockholders may be called by the Chairman of our board of directors or the Chief Executive Officer and must be called on the request in writing or by vote of a majority of our board of directors or on request in writing of stockholders of record owning 50% of the capital stock outstanding and entitled to vote;

allow our directors, and not our stockholders, to fill vacancies on our board of directors, including vacancies resulting from removal or enlargement of our board of directors; and

grant our board of directors the authority to amend and repeal our by-laws without a stockholder vote; provided, however, that such authority of our board of directors is subject to the power of the stockholders to change or repeal any by-laws by a majority vote of the stockholders present and represented at any annual meeting or at any special meeting called for such purpose.

These provisions may also make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt of our Company that is opposed by our management or our board of directors. Stockholders who might desire to participate in those types of transactions may not have an opportunity to do so, even if the transaction is favorable to the stockholders. These anti-takeover provisions could substantially impede the ability of public stockholders to benefit from a change in control or change our management or our board of directors and, as a result, may adversely affect the market price of our common stock and the Mandatory Convertible Preferred Stock and the ability of stockholders to realize any potential change of control premium.

We cannot assure that we will be able to continue paying dividends on our common stock.

On December 11, 2014, our board of directors approved a 5% increase over the 2014 dividend rate in the planned quarterly cash dividend rate, commencing with the dividend for the first quarter of 2015 which equaled \$0.105 per share of common stock and was paid on March 31, 2015 to holders of record at the close of business on March 12, 2015. On an annual basis, this plan would increase the dividend from \$0.40 to \$0.42 per share. On May 5, 2015, we announced that our board of directors declared an equal cash dividend of \$0.105 per share of common stock for the second quarter of 2015, payable on June 30, 2015 to holders of record at the close of business on May 28, 2015. Purchasers in this offering will not receive the June 30, 2015 dividend with respect to the securities purchased in this offering. The amount and timing of future dividend payments and our ability to make other distributions is subject to applicable law and will be made at the discretion of our board of directors based on factors such as cash flow and cash requirements, capital expenditure requirements, financial condition and other factors. No dividends may be declared or paid on our common stock unless full cumulative dividends have been paid or set aside for payment on all outstanding Mandatory Convertible Preferred Stock for all accrued dividend periods.

Table of Contents

We have a significant amount of goodwill and other intangible assets on our balance sheet. If our goodwill or other intangible assets become impaired, we may be required to record a non-cash charge to earnings and reduce our stockholders equity.

Under GAAP, intangible assets are reviewed for impairment on an annual basis or more frequently whenever events or circumstances indicate that their carrying value may not be recoverable. We monitor relevant circumstances, including general economic conditions, enterprise value EBITDA multiples for other rural ILEC properties, our overall financial performance and the market prices for our common stock, and the potential impact that changes in such circumstances might have on the valuation of our goodwill or other intangible assets. If our goodwill or other intangible assets are determined to be impaired in the future, we may be required to record a non-cash charge to earnings during the period in which the impairment is determined, which would reduce our stockholders equity.

S-34

Ratio of earnings to combined fixed charges and preferred stock dividends

The following table contains our historical consolidated ratio of earnings to combined fixed charges and preferred stock dividends for the periods indicated. For purposes of this ratio, earnings consist of pre-tax income (loss) from continuing operations before income (loss) from equity investees, and after deductions for income attributable to the noncontrolling interest in a partnership, plus fixed charges (except for interest capitalized) and distributed income of equity investees. Fixed charges consist of interest expensed and capitalized, plus the portion of rent expense under operating leases deemed to be representative of interest. We had no preferred securities outstanding during the periods presented. Therefore, the ratio of earnings to combined fixed charges and preferred stock dividends is the same as the ratio of earnings to fixed charges.

	months					
	ended					
	March 31,		Year ended December			
	2015	2014	2013	2012	2011	2010
Consolidated Ratio of Earnings to Combined Fixed Charges and Preferred Stock						
Dividends(1)(2)	0.68	1.22	1.23	1.29	1.33	1.49

(2) Does not reflect the Verizon Transaction, this offering or the concurrent offering.

S-35

⁽¹⁾ Includes losses on early extinguishment of debt or exchanges of debt of \$159.8 million and \$90.4 million for the years ended December 31, 2013 and 2012, respectively. The consolidated ratios of earnings to combined fixed charges and preferred stock dividends, adjusted to exclude losses on early extinguishment of debt or exchanges of debt, were 1.45 and 1.42 for the years ended December 31, 2013 and 2012, respectively.

Use of proceeds

We estimate that the net proceeds from this offering will be approximately \$ billion (or approximately \$ billion if the underwriters exercise their overallotment option to purchase additional shares in full), after deducting the underwriters discounts and commissions and estimated offering expenses. We estimate that the net proceeds from the concurrent offering will be approximately \$ million (or approximately \$ million if the underwriters exercise their option to purchase additional securities in full), after deducting underwriting discounts and commissions and estimated offering expenses. We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The balance of the financing in connection with the Verizon Transaction could take any of several forms or any combination of them, including but not limited to the following: (i) we may issue senior notes in the public and/or private capital markets; (ii) we may enter into one or more senior secured first lien term loan facilities; (iii) we may use cash on hand; and (iv) we may draw funds under the 18 Month Bridge Facility and the 8/10 Year Bridge Facility. See Description of the Verizon Transaction.

Pursuant to the terms of the Verizon Purchase Agreement, we intend to place a portion of the proceeds of this offering and the concurrent offering into escrow for use solely in paying amounts payable pursuant to the Verizon Purchase Agreement.

Neither this offering nor the concurrent offering is conditioned on the consummation of the Verizon Transaction, and there can be no assurance that the Verizon Transaction will be consummated on the terms described herein or at all. If the Verizon Transaction is not consummated, we intend to use the proceeds of this offering and the proceeds from the concurrent offering, net of certain fees and expenses and net of the aggregate redemption amount paid in cash if we choose to exercise our acquisition termination option to redeem all of the Mandatory Convertible Preferred Stock offered hereby, for general corporate purposes, which may include share repurchases, acquisitions or debt repayment.

S-36

Capitalization

The following table sets forth our cash and cash equivalents and capitalization as of March 31, 2015 on (i) an actual basis and (ii) an as adjusted basis to give effect to this offering and the concurrent offering but not the application of the net proceeds thereof. See Use of proceeds.

You should read this information in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the related notes in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2015, each of which is incorporated by reference in this prospectus supplement and the accompanying prospectus.

Description of mandatory convertible preferred stock

The following is a summary of the material terms of the Mandatory Convertible Preferred Stock. This summary is not complete. The following summary of the terms and provisions of the Mandatory Convertible Preferred Stock is qualified in its entirety by reference to the certificate of designations setting forth the terms of the Mandatory Convertible Preferred Stock (the Certificate of Designations) as well as our Certificate of Incorporation, copies of which will be available upon request at the address set forth in the section of this prospectus supplement entitled Information Incorporated by Reference. As used in this section, unless otherwise expressly stated or the context otherwise requires, the terms Frontier Communications Corporation, the Company, us, we or our refer to Frontier Communications Corporation and not any of its subsidiaries.

General

Subject to the provisions of our Restated Certificate of Incorporation, as heretofor amended, and the limitations prescribed by law, our Certificate of Incorporation authorizes our board of directors to issue up to 50,000,000 shares of preferred stock, par value \$0.01 per share, in one or more series, and to fix the designations, powers, preferences and relative, participating optional, conversion and other rights, and the qualifications, limitations and restrictions, of such series without further vote or action by our stockholders. The designations, powers, preferences and other rights, and the qualifications, limitations and restrictions shall be set forth in a certificate of designations filed with the Secretary of State of the State of Delaware. As of the date of this prospectus supplement, no shares of preferred stock are outstanding. See Description of capital stock in the accompanying prospectus. At the consummation of this offering, we will issue 17,500,000 shares of the Mandatory Convertible Preferred Stock. In addition, we have granted the underwriters an overallotment option to purchase up to 10% additional shares of the Mandatory Convertible Preferred Stock, solely to cover over allotments, as described under Underwriting.

When issued, the Mandatory Convertible Preferred Stock and our common stock issuable upon the conversion of the Mandatory Convertible Preferred Stock will be fully paid and non-assessable. The holders of the Mandatory Convertible Preferred Stock and common stock issued upon conversion of the Mandatory Convertible Preferred Stock will have no pre-emptive or preferential right to purchase or subscribe to our stock, obligations, warrants or other securities of any class.

The transfer agent, registrar, conversion and dividend disbursing agent for shares of the Mandatory Convertible Preferred Stock and the transfer agent and registrar for shares of our common stock is Computershare Trust Company, N.A.

Ranking

The Mandatory Convertible Preferred Stock, with respect to dividend rights and the rights to distribution of assets upon our liquidation, winding-up or dissolution, will rank:

senior to our common stock and to each other class of capital stock or series of preferred stock established after the original issue date of the Mandatory Convertible Preferred Stock (which we refer to as the issue date), the terms of which do not expressly provide that such class or series ranks senior to, or on a parity with, the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up (which we refer to collectively as junior stock);

equally with any class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank equally with the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up, in each case without regard to whether dividends accrue cumulatively or non-cumulatively (which we refer to collectively as parity stock);

S-38

Table of Contents

junior to each class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank senior to the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up; and

junior to our existing and future indebtedness and other liabilities (including trade payables).

In addition, the Mandatory Convertible Preferred Stock, with respect to dividend rights or rights to distribution of assets upon our liquidation, winding-up or dissolution, will be structurally subordinated to existing and future indebtedness of our subsidiaries. As of March 31, 2015, on a proforma basis to give effect to the Verizon Transaction and the other events described under Unaudited Pro Forma Condensed Combined Financial Information, we would have had a total of approximately \$18.1 billion of outstanding indebtedness, including long-term debt, short-term debt and long-term financial obligations. See Unaudited Pro Forma Condensed Combined Financial Information.

Dividends

Subject to the rights of holders of any class or series of our capital stock ranking senior to the Mandatory Convertible Preferred Stock with respect to dividends, holders of shares of the Mandatory Convertible Preferred Stock will be entitled to receive, when, as and if declared by our board of directors or an authorized committee of our board of directors and to the extent lawful, cumulative dividends at an annual rate of % of the initial liquidation preference of \$100.00 per share of Mandatory Convertible Preferred Stock (equivalent to \$ per year per share). We will pay such dividends in cash, by delivery of shares of our common stock or by delivery of any combination of cash and our common stock, at our election, as described under Method of payment of dividends below. If declared, dividends on the Mandatory Convertible Preferred Stock will be payable quarterly on the last business day of each of March, June, September and December of each year, commencing on September 30, 2015 and ending on June 29, 2018 (each, a dividend payment date), at such annual rate, and shall accumulate from the most recent date as to which dividends shall have been paid or, if no dividends have been paid, from the issue date of the Mandatory Convertible Preferred Stock, whether or not in any dividend period or periods there have been funds or stock lawfully available for the payment of such dividends. A dividend period refers to a period commencing on, and including, a dividend payment date (or if no dividend payment date has occurred, commencing on, and including, the issue date), and ending on, and including, the day immediately preceding the next succeeding dividend payment date.

A business day means any day other than a Saturday or Sunday or other day on which commercial banks in New York City are authorized or required by law or executive order to close. Any accumulated and unpaid dividends from any preceding dividend period can be declared and paid on a date determined by the board of directors or an authorized committee of our board of directors in its sole discretion.

Dividends will be payable to holders of record as they appear on our stock register at 5:00 p.m., New York City time, on the 15th calendar day of the month in which such dividend payment falls or such other record date fixed by our board of directors or any duly authorized committee thereof that is not more than 60 nor less than 10 days prior to such dividend payment date, but only to the extent a dividend has been declared to be payable on such dividend payment date (each, a regular record date), except that dividends payable on the mandatory conversion date, as defined below, will be payable to the holders presenting the Mandatory Convertible Preferred Stock for conversion. The regular record date shall apply regardless of whether it is a business day.

Dividends payable on the Mandatory Convertible Preferred Stock for each full dividend period will be computed by dividing the annual dividend rate by four. Dividends payable on the Mandatory Convertible Preferred Stock for any period other than a full dividend period will be based upon the actual number of days elapsed during

S-39

Table of Contents

the period and computed on the basis of a 360-day year consisting of twelve 30-day months. The initial dividend on the Mandatory Convertible Preferred Stock for the first dividend period, assuming the issue date is June , 2015, is expected to be \$ per share (based on the annual dividend rate of % and an initial liquidation preference of \$100.00 per share) and will be payable, if declared, on September 30, 2015 to the holders of record thereof on September 15, 2015. Each subsequent quarterly dividend on the Mandatory Convertible Preferred Stock, when, as and if declared, will be \$ per share (based on the annual dividend rate of % and an initial liquidation preference of \$100.00 per share). Accumulated dividends on shares of Mandatory Convertible Preferred Stock will not bear interest if they are paid subsequent to the applicable dividend payment date.

No dividend will be declared or paid upon, or any sum of cash or number of shares of our common stock set apart for the payment of dividends upon, any outstanding shares of Mandatory Convertible Preferred Stock with respect to any dividend period unless all dividends for all preceding dividend periods have been declared and paid, or declared and a sum of cash or number of shares sufficient for the payment thereof has been set apart for the payment of such dividends, upon all outstanding shares of the Mandatory Convertible Preferred Stock.

No dividend will be paid upon any outstanding shares of Mandatory Convertible Preferred Stock unless and until our board of directors, or an authorized committee of our board of directors, declares a dividend payable with respect to the Mandatory Convertible Preferred Stock. Our ability to declare and pay dividends and make other distributions with respect to our capital stock, including the Mandatory Convertible Preferred Stock, is restricted by the terms of certain of our existing financing arrangements and may be restricted by the terms of financing arrangements that we enter into in the future. In addition, our ability to declare and pay dividends may be limited by applicable Delaware law. See Risk factors Risks related to our common stock and this offering Our ability to declare and pay dividends on the Mandatory Convertible Preferred Stock may be limited.

Method of payment of dividends

Subject to the limitations described below, we may pay any declared dividend (or any portion of any declared dividend) on the Mandatory
Convertible Preferred Stock (whether or not for a current dividend period or any prior dividend period), including in connection with the
payment of declared and unpaid dividends pursuant to the provisions described under Conversion rights Mandatory conversion, Conversion
rights Early conversion at the option of the holder, and Conversion rights Early conversion at the option of the holder upon a fundamental change,
determined in our sole discretion:

in cash;

by delivery of shares of our common stock; or

through payment or delivery, as the case may be, of any combination of cash and shares of our common stock; *provided* that in the case of conversion upon and following a fundamental change that is a reorganization event (as defined below), dividends otherwise payable in shares of our common stock may be paid by delivery of units of exchange property, as described under Recapitalizations, reclassifications and changes of our common stock; and *provided further*, that if our board of directors may not lawfully authorize payment of all or any portion of such accumulated and unpaid dividends in cash, it shall authorize payment of such dividends in shares of our common stock or units of exchange property, as the case may be, if lawfully permitted to do so.

We will make each payment of a declared dividend on the shares of Mandatory Convertible Preferred Stock in cash, except to the extent we elect to make all or any portion of such payment in shares of our common stock.

S-40

Table of Contents

We will give the holders of the Mandatory Convertible Preferred Stock notice of any such election and the portion of such payment that will be made in cash and the portion that will be made in shares of our common stock no later than 10 scheduled trading days (as defined below) prior to the dividend payment date for such dividend; *provided* that if we do not provide timely notice of this election, we will be deemed to have elected to pay the relevant dividend in cash. If we elect to make any such payment of a declared dividend, or any portion thereof, in shares of our common stock, such shares shall be valued for such purpose, in the case of any dividend payment or portion thereof, at 97% of the average VWAP per share of our common stock over the five consecutive trading day (as defined below) period beginning on and including the seventh scheduled trading day (as defined below) prior to the applicable dividend payment date (the average price).

However, in no event will the number of shares of our common stock delivered in connection with any dividend, including any dividend payable in connection with a conversion, exceed a number equal to the total dividend payment divided by \$, which amount represents 35% of the initial price (as defined below), subject to adjustment in a manner inversely proportional to any anti-dilution adjustment to each fixed conversion rate (such dollar amount, as adjusted, the floor price). To the extent that the amount of the dividend exceeds the product of the number of shares of our common stock delivered in connection with such dividend and 97% of the average price, we will, if we are legally able to do so, pay such excess amount in cash.

No fractional shares of our common stock will be delivered to the holders of the Mandatory Convertible Preferred Stock in payment or partial payment of a dividend. We will instead pay a cash adjustment (computed to the nearest cent) based on the average price with respect to such dividend.

The initial price is \$, which equals the last reported sale price of our common stock on June , 2015.

To the extent we determine in our reasonable judgement that a shelf registration statement is required in connection with the issuance of, or for resales of, shares of our common stock issued as payment of a dividend on the shares of Mandatory Convertible Preferred Stock, to (or by) holders thereof that are not affiliates of ours for purposes of the Securities Exchange Act of 1934, as amended (the Exchange Act), including dividends paid in connection with a conversion, we will, to the extent such a registration statement is not currently filed and effective, if we determine to issue such shares of common stock, use our commercially reasonable efforts to file and maintain the effectiveness of such a shelf registration statement until the earlier of such time as all such shares of common stock have been resold thereunder and such time as all such shares would be freely tradable without registration. To the extent applicable, we will also use our commercially reasonable efforts to have such shares of common stock qualified or registered under applicable state securities laws, if required, and approved for listing on the NASDAQ Global Select Market (or if shares of our common stock are not listed on the NASDAQ Global Select Market, on the principal other U.S. national or regional securities exchange on which shares of our common stock are then listed).

Definitions

For purposes of this Description of mandatory convertible preferred stock section, the following terms have the meanings set forth below:

Volume weighted average price or VWAP per share of our common stock on any trading day means such price as displayed under the heading Bloomberg VWAP on Bloomberg (or any successor service) page FTR <Equity> AQR (or its equivalent successor if such page is not available) in respect of the period from the scheduled open to 4:00 p.m., New York City time, on such trading day; or, if such price is not available, the volume weighted average price means the market value per share of our common stock on such trading day as determined, using a volume-weighted average method, by a nationally recognized independent investment banking firm retained by us for this purpose. The average VWAP means, for any period, the average of the volume weighted average prices for each trading day in such period.

S-41

Table of Contents

A trading day is any day on which:

there is no market disruption event (as defined below); and

the NASDAQ Global Select Market is open for trading, or, if our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) is not listed on the NASDAQ Global Select Market, any day on which the principal national securities exchange on which our common stock (or such other security) is listed is open for trading, or, if the common stock (or such other security) is not listed on a national securities exchange, any business day. A trading day only includes those days that have a scheduled closing time of 4:00 p.m., New York City time, or the then standard closing time for regular trading on the relevant exchange or trading system.

A market disruption event means any of the following events:

any suspension of, or limitation imposed on, trading by the relevant exchange or quotation system during any period or periods aggregating one half-hour or longer and whether by reason of movements in price exceeding limits permitted by the relevant exchange or quotation system or otherwise relating to our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) or in futures or option contracts relating to our common stock (or such other security) on the relevant exchange or quotation system;

any event (other than a failure to open or a closure as described below) that disrupts or impairs the ability of market participants during any period or periods aggregating one half-hour or longer in general to effect transactions in, or obtain market values for, our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) on the relevant exchange or quotation system or futures or options contracts relating to our common stock (or such other security) on any relevant exchange or quotation system; or

the failure to open of one of the exchanges or quotation systems on which futures or options contracts relating to our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) are traded or the closure of such exchange or quotation system prior to its respective scheduled closing time for the regular trading session on such day (without regard to after-hours or other trading outside the regular trading session hours) unless such earlier closing time is announced by such exchange or quotation system at least one hour prior to the earlier of the actual closing time for the regular trading session on such day and the submission deadline for orders to be entered into such exchange or quotation system for execution at the actual closing time on such day.

For purposes of the first two bullets of the definition of market disruption event above, the relevant exchange or quotation system will be the NASDAQ Global Select Market; *provided* that if our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) is not listed on the NASDAQ Global Select Market, such relevant exchange or quotation system will be the principal national securities exchange on which our common stock (or such other security) is listed for trading.

A scheduled trading day is any day that is scheduled to be a trading day, except that if our common stock is not listed on a national securities exchange, scheduled trading day means a business day.

S-42

Dividend stopper

So long as any share of Mandatory Convertible Preferred Stock remains outstanding:

no dividend or distribution shall be declared or paid on our common stock or any other shares of junior stock, except dividends payable solely in shares of our common stock or other junior stock or rights to acquire same;

no dividend or distribution shall be declared or paid on our parity stock, except as provided below; and

no common stock, junior stock or parity stock shall be, directly or indirectly, purchased, redeemed or otherwise acquired for consideration by us or any of our subsidiaries,

unless all accumulated and unpaid dividends for all past dividend periods, including the latest completed dividend period, on all outstanding shares of the Mandatory Convertible Preferred Stock have been or are contemporaneously declared and paid in full (or have been declared and a sufficient sum of cash or number of shares of our common stock for the payment thereof has been set aside for the benefit of the holders of shares of the Mandatory Convertible Preferred Stock on the applicable record date).

The limitations on distributions described in the immediately preceding paragraph will not apply to:

redemptions, purchases or other acquisitions of shares of our common stock or other junior stock in connection with the administration of any employee benefit plan or other incentive plan, including employment contracts, in the ordinary course of business (including purchases of shares in lieu of tax withholding and purchases of shares to offset the share dilution amount (as defined below) pursuant to a publicly announced repurchase plan); *provided* that any purchases to offset the share dilution amount shall in no event exceed the share dilution amount:

any dividends or distributions of rights or junior stock in connection with a stockholders rights plan or any redemption or repurchase of rights pursuant to any stockholders rights plan;

purchases of ordinary shares or junior stock pursuant to a contractually binding requirement to buy same existing prior to the preceding dividend period;

the acquisition by us or any of our subsidiaries of record ownership in junior stock or parity stock for the beneficial ownership of any other persons (other than for the beneficial ownership by us or any of our subsidiaries), including as trustees or custodians; and

the exchange or conversion of junior stock for or into other junior stock or of parity stock for or into other parity stock (with the same or lesser aggregate liquidation preference) or junior stock and, in each case, the payment of cash solely in lieu of fractional shares. Share dilution amount means the increase in the number of diluted shares outstanding (determined in accordance with generally accepted accounting principles in the United States, and as measured from the date of our consolidated financial statements most recently filed with the SEC prior to the issue date) resulting from the grant, vesting or exercise of equity-based compensation to employees, directors or consultants and equitably adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction.

When dividends are not paid (or declared and a sufficient sum of cash or number of shares of our common stock for payment thereof set aside for the benefit of the holders thereof on the applicable record date) on any dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) in full upon the Mandatory Convertible Preferred Stock and any shares of parity stock, all

S-43

Table of Contents

dividends declared on the Mandatory Convertible Preferred Stock and all such parity stock and payable on such dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) shall be declared and paid pro rata so that the respective amounts of such dividends declared shall bear the same ratio to each other as all accumulated and unpaid dividends per share on the shares of the Mandatory Convertible Preferred Stock and all parity stock payable on such dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) (subject to their having been declared by our board of directors or a duly authorized committee of our board of directors out of lawfully available funds and including, in the case of parity stock that bears cumulative dividends, all accrued but unpaid dividends) bear to each other. If our board of directors or a duly authorized committee of our board of directors determines not to pay any dividend or a full dividend on a dividend payment date, we will provide 10 business days written notice to the holders of the Mandatory Convertible Preferred Stock prior to such dividend payment date, or as reasonably practicable thereafter.

Subject to the foregoing, dividends (payable in cash, securities or other property) as may be determined by our board of directors or any duly authorized committee of our board of directors may be declared and paid on any securities, including our common stock and other junior stock, from time to time out of any funds lawfully available for such payment, and holders of the Mandatory Convertible Preferred Stock shall not be entitled to participate in any such dividends.

Acquisition termination redemption

We expect to use the net proceeds from this offering in connection with the acquisition of Verizon Communications Inc. s wireline operations that provide services to residential, commercial and wholesale customers in California, Florida and Texas (the Verizon Acquisition), as described under Summary. Within ten Business Days following the earlier of (a) the date on which an acquisition termination event (as defined below) occurs and (b) 5:00 p.m. (New York City time) on August 6, 2016, if the Verizon Acquisition has not closed on or prior to such time on such date, we will be entitled, but not required, in our sole discretion, to mail a notice of acquisition termination redemption to the holders of the Mandatory Convertible Preferred Stock (*provided* that, if the Mandatory Convertible Preferred Stock are held in book-entry form through DTC we may give such notice in any manner permitted by DTC). If we provide notice of acquisition termination redemption to holders of the Mandatory Convertible Preferred Stock, then, on the acquisition termination redemption date (as defined below), we will be required to redeem the Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption amount per share of Mandatory Convertible Preferred Stock equal to the acquisition termination make-whole amount (as defined below).

acquisition termination event means either (1) the Verizon Purchase Agreement (as such term is defined under Summary) is terminated or (2) we determine in our reasonable judgment that the Verizon Acquisition will not occur.

acquisition termination make-whole amount means, for each share of Mandatory Convertible Preferred Stock, an amount in cash equal to \$100.00 plus accumulated and unpaid dividends to the acquisition termination redemption date (whether or not declared); *provided*, *however*, that if the acquisition termination share price (as defined below) exceeds the initial price, the acquisition termination make-whole amount will equal the reference amount (as defined below).

The acquisition termination share price means the average VWAP per share of our common stock over the 10 consecutive trading day period ending on the trading day preceding the date on which we provide notice of acquisition termination redemption.

S-44

Table of Contents

The reference amount will equal the sum of the following amounts:

- (i) a number of shares of our common stock equal to the acquisition termination conversion rate (as defined below); plus
- (ii) cash in an amount equal to the acquisition termination dividend amount (as defined below); provided that we may deliver cash in lieu of all or any portion of the shares of our common stock set forth in clause (i) above, and we may deliver shares of our common stock in lieu of all or any portion of the cash amount set forth in clause (ii) above, in each case, as described below.

acquisition termination conversion rate means a rate equal to the fundamental change conversion rate assuming for such purpose that the date on which we provide notice of acquisition termination redemption is the fundamental change effective date (as defined below) and that the fundamental change share price is the acquisition termination share price.

acquisition termination dividend amount $\,$ means an amount of cash equal to the sum of (x) the fundamental change dividend make-whole amount and (y) the accumulated dividend amount, assuming in each case, for such purpose that the date on which we provide notice of acquisition termination redemption is the fundamental change effective date.

For a description of the terms fundamental change conversion rate, fundamental change dividend make-whole amount, accumulated dividend amount and fundamental change share price, see Early conversion at the option of the holder upon a fundamental change.

If the acquisition termination share price exceeds the initial price, we may pay cash (computed to the nearest cent) in lieu of delivering all or any portion of the number of shares of our common stock equal to the acquisition termination conversion rate. If we make such an election, we will deliver cash (computed to the nearest cent) in an amount equal to such number of shares of our common stock in respect of which we have made this election multiplied by the acquisition termination market value.

In addition, if the acquisition termination share price exceeds the initial price, we may deliver shares of our common stock in lieu of cash for some or all of the acquisition termination dividend amount. If we make such an election, we will deliver a number of shares of our common stock equal to such portion of the acquisition termination dividend amount to be paid in shares of our common stock divided by the greater of the floor price and 97% of the acquisition termination market value; *provided* that, if the acquisition termination dividend amount or portion thereof in respect of which shares of our common stock are delivered exceeds the product of such number of shares of our common stock multiplied by 97% of the acquisition termination market value, we will, if we are legally able to do so, declare and pay such excess amount in cash (computed to the nearest cent).

acquisition termination market value means the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the third trading day following the date on which we provide notice of acquisition termination redemption.

acquisition termination redemption date means the date specified by us in our notice of acquisition termination redemption that is not less than 30 nor more than 60 days following the date on which we provide notice of such acquisition termination redemption; *provided*, that, if (a) the acquisition termination share price is greater than the initial price and (b)(i) we elect to pay cash in lieu of delivering all or any portion of the shares of our common stock equal to the acquisition termination conversion rate, or (ii) we elect to deliver shares of our common stock in lieu of all or any portion of the acquisition termination dividend amount, then the acquisition termination redemption date will be also not earlier than the third business day following the last trading day of the 20 consecutive trading day period used to determine the acquisition termination market value.

Table of Contents

The notice of acquisition termination redemption will specify, among other things:

the acquisition termination make-whole amount;

if the acquisition termination share price exceeds the initial price, the number of shares of our common stock and the amount of cash comprising the reference amount per share of Mandatory Convertible Preferred Stock (before giving effect to any election to pay or deliver, with respect to each share of Mandatory Convertible Preferred Stock, cash in lieu of a number of shares of our common stock equal to the acquisition termination conversion rate or shares of our common stock in lieu of cash in respect of the acquisition termination dividend amount);

if applicable, whether we will deliver cash in lieu of all or any portion of the number of shares of our common stock equal to the acquisition termination conversion rate comprising a portion of the reference amount (specifying, if applicable, the number of such shares of our common stock in respect of which cash will be delivered);

if applicable, whether we will deliver shares of our common stock in lieu of all or any portion of the acquisition termination dividend amount comprising a portion of the reference amount (specifying, if applicable, the percentage of the acquisition termination dividend amount in respect of which shares of our common stock will be delivered in lieu of cash); and

the acquisition termination redemption date.

If any portion of the acquisition termination make-whole amount is to be paid in shares of our common stock, no fractional shares of our common stock will be delivered to the holders of the Mandatory Convertible Preferred Stock. We will instead, to the extent we are legally permitted to do so, pay a cash amount (computed to the nearest cent) to each holder that would otherwise be entitled to a fraction of share of our common stock based on the average VWAP per share of our common stock over the five consecutive trading day period beginning on, and including, the seventh scheduled trading day immediately preceding the acquisition termination redemption date. If more than one share of Mandatory Convertible Preferred Stock is to be redeemed from a holder, the number of our shares of common stock issuable in connection with the payment of the reference amount shall be computed on the basis of the aggregate number of Mandatory Convertible Preferred Stock so redeemed.

All cash payments to which a holder of the Mandatory Convertible Preferred Stock are entitled in connection with an acquisition termination redemption will be rounded to the nearest cent.

While we expect to use the net proceeds from this offering in connection with the Verizon Acquisition, there is no guarantee that the acquisition will be consummated and if it is not consummated, we may use the proceeds of the offering for other purposes. We may, in our sole discretion, determine to redeem the Mandatory Convertible Preferred Stock as further described hereunder. The proceeds of this offering will not be deposited into an escrow account pending any acquisition termination redemption of the Mandatory Convertible Preferred Stock. Our ability to pay the acquisition termination make-whole amount to holders of the Mandatory Convertible Preferred Stock in connection with an acquisition termination redemption may be limited by our then-existing financial resources, and sufficient funds may not be available when necessary to make any required purchases of the Mandatory Convertible Preferred Stock following our election to redeem the Mandatory Convertible Preferred Stock.

To the extent a shelf registration statement is required in our reasonable judgment in connection with the issuance of or for resales of our shares of common stock issued as payment of any portion of the acquisition termination make-whole amount, we will, to the extent such a shelf registration statement is not currently filed and effective, use our commercially reasonable efforts to file and maintain the effectiveness of such a shelf

S-46

Table of Contents

registration statement until the earlier of such time as all such shares of our common stock have been resold thereunder and such time as all such shares would be freely tradable without registration by holders thereof that are not affiliates of ours for purposes of the Securities Act. To the extent applicable, we will also use our commercially reasonable efforts to have such shares of our common stock qualified or registered under applicable U.S. state securities laws, if required, and approved for listing on the NASDAQ Global Select Market (or if our shares of common stock are not listed on the NASDAQ Global Select Market, on the principal other U.S. national or regional securities exchange on which our shares of common stock are then listed).

Other than pursuant to the acquisition termination redemption provisions described above, the Mandatory Convertible Preferred Stock will not be redeemable.

Conversion rights

Mandatory conversion

Each outstanding share of the Mandatory Convertible Preferred Stock will automatically convert on June 29, 2018 (the mandatory conversion date) into a number of shares of our common stock equal to the conversion rate described below, unless such share of the Mandatory Convertible Preferred Stock has been previously redeemed in the manner described in Acquisition termination redemption or converted in the manner described in Conversion rights Early conversion at the option of the holder or Conversion rights Early conversion at the option of the holder upon a fundamental change ; provided that if the mandatory conversion date is not a business day, the mandatory conversion date will be postponed to the following business day and; provided, further, that if the applicable market value (as defined below) is first determinable on a date later than the mandatory conversion date because there are one or more scheduled trading days that are not trading days during the 20 consecutive scheduled trading day period commencing on and including the 22nd scheduled trading day prior to June 29, 2018, the mandatory conversion date will be postponed to such later date.

The conversion rate, which is the number of shares of common stock issuable upon conversion of each share of the Mandatory Convertible Preferred Stock on the applicable conversion date (excluding shares of common stock, if any, issued in respect of accumulated and unpaid dividends), will be as follows:

if the applicable market value of our common stock is less than the threshold appreciation price but greater than \$ (i.e., the initial price), then the conversion rate will be equal to \$100.00 divided by the applicable market value of our common stock; or

if the applicable market value of our common stock is less than or equal to the initial price, then the conversion rate will be shares of common stock per share of Mandatory Convertible Preferred Stock, which we refer to as the maximum conversion rate, which is equal to \$100.00 divided by the initial price.

We refer to the minimum conversion rate and the maximum conversion rate collectively as the fixed conversion rates.

If prior to the mandatory conversion date we have not declared all or any portion of the accumulated dividends on the Mandatory Convertible Preferred Stock, the conversion rate will be adjusted so that holders receive an additional number of shares of our common stock equal to the amount of such accumulated dividends (the additional conversion amount) divided by the greater of the floor price and 97% of average price. To the

S-47

Table of Contents

extent that the additional conversion amount exceeds the product of such number of additional shares and the applicable market value, we will, if we are legally able to do so, declare and pay such excess amount in cash pro rata to the holders of the Mandatory Convertible Preferred Stock.

The applicable market value of our common stock is the average VWAP per share of our common stock for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to June 29, 2018.

The initial price is \$. The threshold appreciation price is \$, which represents approximately a % appreciation over the initial price. Each of the fixed conversion rates, the initial price, the threshold appreciation price and the applicable market value are subject to adjustment as described under Conversion rights Conversion rate adjustments below.

Based on the foregoing, if the market price of our common stock on the mandatory conversion date (subject to postponement as described above) is the same as the applicable market value, the aggregate market value of the shares of our common stock you receive upon mandatory conversion (other than any shares of our common stock received in connection with any dividend payment) will be:

greater than the initial liquidation preference of the Mandatory Convertible Preferred Stock, if the applicable market value is greater than the threshold appreciation price;

equal to the initial liquidation preference, if the applicable market value is less than or equal to the threshold appreciation price and greater than or equal to the initial price; and

less than the initial liquidation preference, if the applicable market value is less than the initial price.

Early conversion at the option of the holder

Holders of the Mandatory Convertible Preferred Stock will have the right to convert the Mandatory Convertible Preferred Stock, in whole or in part (but in no event less than one share of Mandatory Convertible Preferred Stock), at any time prior to the mandatory conversion date, other than during the fundamental change conversion period (as defined below), into shares of our common stock at the minimum conversion rate of shares of our common stock per share of the Mandatory Convertible Preferred Stock, subject to adjustment as described under Conversion rights Conversion rate adjustments below.

If, as of the effective date of any early conversion (the early conversion date), we have not declared all or any portion of the accumulated dividends for all dividend periods ending on a dividend payment date prior to such early conversion date, the conversion rate for such early conversion will be adjusted so that holders converting their shares of Mandatory Convertible Preferred Stock at such time receive an additional number of shares of our common stock equal to such amount of accumulated and unpaid dividends for such prior dividend periods, divided by the greater of the floor price and the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to the early conversion date (the early conversion average price). To the extent that the cash amount of the accumulated and unpaid dividends for prior dividend periods ending on a dividend payment date prior to the relevant early conversion date exceeds the value of the product of the number of additional shares added to the conversion rate and the early conversion average price, we will not have any obligation to pay the shortfall in cash.

Except as described above, upon any optional conversion of any Mandatory Convertible Preferred Stock, we will make no payment or allowance for unpaid dividends on such Mandatory Convertible Preferred Stock, unless such early conversion date occurs after the record date for a declared dividend and on or prior to the immediately succeeding dividend payment date, in which case such dividend will be paid on such dividend payment date to the holder of record of the converted shares of Mandatory Convertible Preferred Stock as of such record date, as described under Dividends above.

Table of Contents

Early conversion at the option of the holder upon a fundamental change

If a fundamental change (as defined below) occurs on or prior to the mandatory conversion date, holders of the Mandatory Convertible Preferred Stock will have the right to:

- (1) convert their Mandatory Convertible Preferred Stock, in whole or in part (but in no event less than one share of Mandatory Convertible Preferred Stock):
- (i) into shares of our common stock at the conversion rate determined using the table below (the fundamental change conversion rate); or
- (ii) units of exchange property based on the fundamental change conversion rate if the fundamental change also constitutes a reorganization event described under Recapitalizations, reclassifications and changes of our common stock;
- (2) with respect to such converted shares, receive a fundamental change dividend make-whole amount (as defined below) payable in cash or shares of our common stock (or, if applicable, units of exchange property); and
- (3) with respect to such converted shares, receive the accumulated dividend amount (as defined below) payable in cash or shares of our common stock (or, if applicable, units of exchange property),

subject, in the case of clauses (2) and (3) above, to certain limitations with respect to the number of shares of our common stock that we will be required to deliver, all as described below in Fundamental change dividend make-whole amount and accumulated dividend amount .

Notwithstanding clauses (2) and (3) above, if the effective date of a fundamental change or the relevant fundamental change conversion date falls during a dividend period for which we have declared a dividend on the Mandatory Convertible Preferred Stock, we will pay such dividend on the relevant dividend payment date to the holders of record on the immediately preceding record date, as described in Dividends. In such case the accumulated dividend amount will not include the amount of such dividend, and the fundamental change dividend make-whole amount will not include the present value of such dividend.

To exercise this right, holders must submit their Mandatory Convertible Preferred Stock for conversion at any time during the period (the fundamental change conversion period) from, and including, the effective date of such fundamental change (as defined below) (the effective date) to, but excluding, the earlier of (x) the mandatory conversion date and (y) the date selected by us that is not less than 30 and not more than 60 days after the effective date (the fundamental change conversion date), at the conversion rate specified in the table below (the fundamental change conversion rate). Holders of Mandatory Convertible Preferred Stock who do not submit their shares for conversion during the fundamental change conversion period will not be entitled to convert their Mandatory Convertible Preferred Stock at the fundamental change conversion rate or to receive the fundamental change dividend make-whole amount or, in connection with the fundamental change, the accumulated dividend amount

We will notify holders, to the extent practicable, at least 20 calendar days prior to the anticipated effective date of such fundamental change, but in any event not later than two business days following our becoming aware of the occurrence of a fundamental change; provided that we will not be required to deliver such notice before such date that we would otherwise be required to deliver notice pursuant to applicable securities laws or the rules of any securities exchange on which shares of our common stock are then traded (the fundamental change company notice). Such fundamental change company notice will state, among other things, whether we have elected to pay all or any portion of accumulated and unpaid dividends in shares of our common stock or units of exchange property, as the case may be, and, if so, the portion thereof (as a percentage) that will be paid in shares of our common stock or units of exchange property.

S-49

The table below sets forth the fundamental change conversion rate per share of Mandatory Convertible Preferred Stock based on the effective date of the fundamental change and the stock price paid (or deemed paid) per share of our common stock in the fundamental change (as described below).

Effective date	\$ \$	\$ \$	\$ \$	\$ \$	\$ \$	\$
June , 2015						
December 31, 2015						
June 30, 2016						
December 31, 2016						
June 30, 2017						
December 31, 2017						
June 29, 2018						

The exact stock price and effective date may not be set forth in the table, in which case:

if the stock price is between two stock price amounts in the table or the effective date is between two dates in the table, the fundamental change conversion rate will be determined by straight-line interpolation between the fundamental change conversion rates set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;

if the stock price is greater than \$ per share (subject to adjustment as described below), then the fundamental change conversion rate will be the minimum conversion rate, subject to adjustment as set forth under Conversion rights Conversion rate adjustments; and

if the stock price is less than \$ per share (subject to adjustment as described below) (the minimum stock price), then the fundamental change conversion rate will be determined (x) as if the stock price equaled the minimum stock price and (y) if the effective date is between two dates on the table, using straight-line interpolation, as described herein, subject to adjustment. The stock price in the fundamental change will equal:

in the case of a fundamental change described in clause (2) below in which the holders of our common stock receive only cash in the fundamental change, the cash amount paid per share of our common stock; and

otherwise, the average VWAP per share of our common stock over the five consecutive trading day period ending on, and including, the trading day immediately preceding the effective date of the fundamental change (the fundamental change market value).

The stock prices set forth in the first row of the table (i.e., the column headers) will be adjusted as of any date on which the fixed conversion rates of the Mandatory Convertible Preferred Stock are adjusted. The adjusted stock prices will equal the stock prices applicable immediately prior to such adjustment multiplied by a fraction, the numerator of which is the minimum conversion rate immediately prior to the adjustment giving rise to the stock price adjustment and the denominator of which is the minimum conversion rate as so adjusted. Each of the conversion rates in the table will be subject to adjustment in the same manner as each fixed conversion rate as set forth under Conversion rights Conversion rate adjustments.

A fundamental change will be deemed to have occurred if any of the following occurs:

(1) a person or group within the meaning of Section 13(d) of the Exchange Act, other than us, our subsidiaries and our or their employee benefit plans, files a Schedule TO or any schedule, form or report under the Exchange Act disclosing that such person or group has become the direct or indirect beneficial owner, as defined in Rule 13d3 under the Exchange Act, of our common equity representing more than 50% of the voting power of our common equity or we otherwise become aware of such ownership;

S-50

Table of Contents

- (2) the consummation of (A) any recapitalization, reclassification or change of our common stock (other than a change only in par value, from par value to no par value or from no par value to par value, or changes resulting from a subdivision or combination of our common stock) as a result of which our common stock would be converted into, or exchanged for, or represent solely the right to receive, stock, other securities, other property or assets; (B) any share exchange, consolidation or merger of us pursuant to which our common stock will be converted into, or exchanged for, or represent solely the right to receive, stock, other securities, other property or assets; or (C) any sale, lease or other transfer in one transaction or a series of transactions of all or substantially all of the consolidated assets of us and our subsidiaries, taken as a whole, to any person other than one of our wholly-owned subsidiaries;
- (3) our stockholders approve any plan or proposal for the liquidation or dissolution of us; or
- (4) our common stock (or, following a reorganization event (as defined below), any common stock, depositary receipts or other securities representing common equity interests into which the Mandatory Convertible Preferred Stock becomes convertible in connection with such reorganization event) ceases to be listed on any of the NYSE, the NASDAQ Global Select Market or the NASDAQ Global Market (or any of their respective successors) or another U.S. national securities exchange.

A transaction or transactions described in clause (2) above will not constitute a fundamental change, however, if at least 90% of the consideration received or to be received by our common stockholders (excluding cash payments for fractional shares or pursuant to appraisal rights) in connection with such transaction or transactions consists of shares of common stock that are listed on any of the NYSE, the NASDAQ Global Select Market or the NASDAQ Global Market (or any of their respective successors), or will be so listed when issued or exchanged in connection with such transaction or transactions, and as a result of such transaction or transactions the Mandatory Convertible Preferred Stock becomes convertible into such consideration, excluding cash payments for fractional shares. For the purposes of this definition of fundamental change, any transaction or event that constitutes a fundamental change under both clause (1) and clause (2) above will be deemed to constitute a fundamental change solely under clause (2) of this definition of fundamental change.

Fundamental change dividend make-whole amount and accumulated dividend amount

For any shares of Mandatory Convertible Preferred Stock that are converted during the fundamental change conversion period, in addition to the common stock issued upon conversion at the fundamental change conversion rate, we will at our option:

- (1) pay you in cash, to the extent we are legally permitted to do so, the present value, computed using a discount rate of % per annum, of all dividend payments on your Mandatory Convertible Preferred Stock for all the remaining dividend periods (excluding any accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change) from such effective date to but excluding the mandatory conversion date (the fundamental change dividend make-whole amount),
- (2) increase the number of shares of common stock to be issued on conversion by a number equal to (x) the fundamental change dividend make-whole amount divided by (y) the greater of the floor price and 97% of the stock price, or
- (3) pay the fundamental change dividend make whole amount in a combination of cash and shares of our common stock in accordance with the provisions of clauses (1) and (2) above.

S-51

Table of Contents

In addition, for any shares of Mandatory Convertible Preferred Stock that are converted during the fundamental change conversion period, to the extent that, as of the effective date of the fundamental change, we have not declared any or all of the accumulated dividends on the Mandatory Convertible Preferred Stock as of such effective date (including accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change, the accumulated dividend amount), holders who convert Mandatory Convertible Preferred Stock within the fundamental change conversion period will be entitled to receive such accumulated dividend amount upon conversion. The accumulated dividend amount will be payable at our election in either:

cash, to the extent we are legally permitted to do so;

an additional number shares of our of common stock equal to (x) the accumulated dividend amount divided by (y) the greater of the floor price and 97% of the stock price; or

a combination of cash and shares of our common stock in accordance with the provisions of the preceding two bullets. We will pay the fundamental change dividend make-whole amount and the accumulated dividend amount in cash, except to the extent we elect on or prior to the second business day following the effective date of a fundamental change to make all or any portion of such payments in shares of our common stock. In addition, if we elect to deliver shares of our common stock in respect of all or any portion of the fundamental change dividend make-whole amount or accumulated dividend amount, to the extent that the fundamental change dividend make-whole amount or the accumulated dividend amount or any portion thereof paid in shares of our common stock exceeds the product of the number of additional shares we deliver in respect thereof and 97% of the stock price, we will, if we are legally able to do so, declare and pay such excess amount in cash.

Not later than the second business day following the effective date of a fundamental change (or, if we provide notice to holders of the fundamental change after the effective date of a fundamental change as described above, on the date we give holders notice of the effective date of a fundamental change), we will notify holders of:

the fundamental change conversion rate;

the fundamental change dividend make-whole amount and whether we will pay such amount in cash, shares of our common stock or a combination thereof, specifying the combination, if applicable; and

the accumulated dividend amount as of the effective date of the fundamental change and whether we will pay such amount in cash, shares of our common stock or a combination thereof, specifying the combination, if applicable.

Our obligation to adjust the conversion rate in connection with a fundamental change and pay the fundamental change dividend make-whole amount (whether in cash or shares of our common stock or any combination thereof) could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness of economic remedies.

Conversion procedures

Any outstanding shares of Mandatory Convertible Preferred Stock will automatically convert into shares of our common stock on the mandatory conversion date (subject to postponement as described above under Mandatory conversion). The person or persons entitled to receive the shares of our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will be treated as the record holder(s) of such

Table of Contents

shares as of 5:00 p.m., New York City time, on the mandatory conversion date (subject to postponement as described above under Mandatory conversion). Except as provided in Conversion rate adjustments, prior to 5:00 p.m., New York City time, on the mandatory conversion date, the shares of our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will not be outstanding for any purpose and you will have no rights with respect to such shares of common stock, including, without limitation, voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on our common stock, in each case by virtue of holding the Mandatory Convertible Preferred Stock.

If you elect to convert your Mandatory Convertible Preferred Stock prior to the mandatory conversion date, in the manner described in Early conversion at the option of the holder, or Early conversion at the option of the holder upon a fundamental change, you must observe the following conversion procedures:

if the shares of Mandatory Convertible Preferred Stock are in global form, to convert your shares of Mandatory Convertible Preferred Stock you must deliver to DTC the appropriate instruction form for conversion pursuant to DTC s conversion program; or

if your shares of Mandatory Convertible Preferred Stock are held in certificated form, you must comply with certain procedures set forth in our Certificate of Incorporation or the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock.

The conversion date will be the date on which you have satisfied the foregoing requirements. You will not be required to pay any taxes or duties relating to the issuance or delivery of shares of our common stock if you exercise your conversion rights, but you will be required to pay any tax or duty that may be payable relating to any transfer involved in the issuance or delivery of the shares of common stock in a name other than your own.

Shares of common stock will be issued and delivered only after all applicable taxes and duties, if any, payable by you have been paid in full and will be issued on the later of the third business day immediately succeeding the conversion date and the business day after you have paid in full all applicable taxes and duties, if any.

The person or persons entitled to receive the common stock issuable upon conversion of the Mandatory Convertible Preferred Stock prior to the mandatory conversion date will be treated as the record holder(s) of such shares as of 5:00 p.m., New York City time, on the applicable conversion date. Prior to 5:00 p.m., New York City time, on the applicable conversion date, the common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will not be outstanding for any purpose and you will have no rights with respect to such common stock, including voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on the common stock, by virtue of holding the Mandatory Convertible Preferred Stock. No fractional shares of our common stock will be issued to holders of shares of the Mandatory Convertible Preferred Stock upon conversion. In lieu of any fractional shares of common stock otherwise issuable upon conversion (including in connection with a dividend payment), that holder will be entitled to receive an amount in cash (computed to the nearest cent) based on the VWAP per share of our common stock on the trading day immediately preceding the applicable conversion date. If more than one share of the Mandatory Convertible Preferred Stock is surrendered for conversion at one time by or for the same holder, the number of full shares of our common stock issuable upon conversion thereof shall be computed on the basis of the aggregate number of shares of the Mandatory Convertible Preferred Stock so surrendered.

S-53

Table of Contents

Conversion rate adjustments

Each fixed conversion rate will be adjusted from time to time as follows:

(i) If we issue our common stock as a dividend or distribution to all or substantially all holders of our common stock, or if we effect a subdivision or combination (including, without limitation, a stock split or a reverse stock split) of our common stock, each fixed conversion rate will be adjusted based on the following formula:

$$CR_1 = CR_0 x$$
 $OS_1 OS_0$

Where.

CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date (as defined below) for such dividend or distribution or immediately prior to 9:00 a.m., New York City time, on the effective date for such subdivision or combination, as the case may be;

CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date or immediately after 9:00 a.m., New York City time, on such effective date, as the case may be;

OS₀ = the number of shares of our common stock outstanding immediately prior to 5:00 p.m., New York City time, on such record date or immediately prior to 9:00 a.m., New York City time, on such effective date, as the case may be (and prior to giving effect to such event); and

OS = the number of shares of our common stock that would be outstanding immediately after, and solely as a result of, such dividend, distribution, subdivision or combination.

Any adjustment made under this clause (i) will become effective immediately after 5:00 p.m., New York City time, on the record date for such dividend or distribution, or immediately after 9:00 a.m., New York City time, on the effective date for such subdivision or combination, as the case may be. If any dividend, distribution, subdivision or combination of the type described in this clause (i) is declared but not so paid or made, each fixed conversion rate will be immediately readjusted, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay or make such dividend, distribution, subdivision or combination and (b) the date the dividend or distribution was to be paid or the date the subdivision or combination was to have been effective, to the fixed conversion rate that would then be in effect if such dividend, distribution, subdivision or combination had not been declared.

(ii) If we issue to all or substantially all holders of our common stock any rights, options or warrants entitling them for a period expiring 60 days or less from the date of issuance of such rights, options or warrants to subscribe for or purchase shares of our common stock at less than the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance, each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 x \qquad (OS_0 + X)$$

$$(OS_0 + Y)$$

S-54

Table of Contents

where.

- CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such issuance:
- CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date;
- OS₀ = the number of shares of our common stock outstanding immediately prior to 5:00 p.m., New York City time, on such record date:
- X = the number of shares of our common stock issuable pursuant to such rights, options or warrants; and
- Y = the aggregate price payable to exercise such rights, options or warrants, divided by the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance.

Any increase in the fixed conversion rates made pursuant to this clause (ii) will become effective immediately after 5:00 p.m., New York City time, on the record date for such issuance. To the extent such rights, options or warrants are not exercised prior to their expiration or termination, each fixed conversion rate will be decreased, effective as of the date of such expiration or termination, to the fixed conversion rate that would then be in effect had the increase with respect to the issuance of such rights, options or warrants been made on the basis of delivery of only the number of shares of common stock actually delivered. If such rights, options or warrants are not so issued, each fixed conversion rate will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to issue such rights, options or warrants and (b) the date such rights, options or warrants were to have been issued, to the fixed conversion rate that would then be in effect if such issuance had not been announced.

For purposes of this clause (ii), in determining whether any rights, options or warrants entitle the holders thereof to subscribe for or purchase shares of our common stock at less than average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance, and in determining the aggregate price payable to exercise such rights, options or warrants, there will be taken into account any consideration we receive for such rights, options or warrants and any amount payable on exercise thereof, with the value of such consideration, if other than cash, to be determined by our board of directors or a duly authorized committee thereof, which determination shall be final.

- (iii) If we pay a dividend or other distribution to all or substantially all holders of our common stock of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets, excluding:
- (a) any dividend, distribution or issuance as to which an adjustment was effected pursuant to clause (i) or (ii) above;
- (b) dividends or distributions paid exclusively in cash as to which an adjustment was effected pursuant to clause (iv) below;
- (c) spin-offs as to which the provisions set forth below in this clause (iii) apply; and
- (d) any dividends or distributions in connection with a reorganization event that is included in exchange property (as described below),

S-55

Table of Contents

then each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 x$$
 SP_0 $(SP_0 - FMV)$

where.

CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such dividend or distribution;

CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date;

SP₀ = the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such dividend or distribution; and

FMV = the fair market value (as determined in good faith by our board of directors or a duly authorized committee thereof, which determination shall be final) on the ex-dividend date for such dividend or distribution of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets, expressed as an amount per share of our common stock.

If our board of directors or a duly authorized committee thereof determines the FMV (as defined above) of any dividend or other distribution for purposes of this clause (iii) by referring to the actual or when-issued trading market for any securities, it will in doing so consider the prices in such market over the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the record date for such dividend or distribution.

Notwithstanding the foregoing, if FMV (as defined above) is equal to or greater than SPO (as defined above), in lieu of the foregoing increase, each holder of shares of the Mandatory Convertible Preferred Stock will receive, in respect of each share thereof, at the same time and upon the same terms as holders of our common stock, the amount and kind of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets that such holder would have received if such holder owned a number of shares of our common stock equal to the maximum conversion rate in effect immediately prior to the close of business on the record date for such dividend or other distribution.

Any increase made under the portion of this clause (iii) above will become effective immediately after 5:00 p.m., New York City time, on the record date for such dividend or other distribution. If such dividend or other distribution is not so paid or made, each fixed conversion rate will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay the dividend or other distribution and (b) the date such dividend or distribution was to have been paid, to the fixed conversion rate that would then be in effect if the dividend or other distribution had not been declared.

Table of Contents

If the transaction that gives rise to an adjustment pursuant to this clause (iii) is one pursuant to which the payment of a dividend or other distribution on our common stock consists of shares of capital stock of, or similar equity interests in, a subsidiary or other business unit of ours (i.e., a spin-off) that are, or, when issued, will be, traded on a U.S. national securities exchange or a reasonably comparable non-U.S. equivalent, then each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 x \qquad (FMV_0 + MP_0)$$

$$(MP_0)$$

where,

CR₀ = the fixed conversion rate in effect at 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the ex-dividend date for such dividend or distribution;

CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the ex-dividend date for such dividend or distribution;

FMV₀ = the average VWAP per share of such capital stock or similar equity interests distributed to holders of our common stock applicable to one share of our common stock over the 10 consecutive trading day period commencing on, and including, the ex- dividend date for such dividend or distribution; and

MP₀ = the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the ex-dividend date for such dividend or distribution.

The adjustment to each fixed conversion rate under the immediately preceding paragraph will occur at 5:00 p.m., New York City time, on the 10th consecutive trading day immediately following, and including, the ex-dividend date for such dividend or distribution, but will be given effect as of 9:00 a.m., New York City time, on the date immediately following the record date for such dividend or distribution. Because we will make the adjustments to the fixed conversion rates at the end of the 10 consecutive trading day period with retroactive effect, we will delay the settlement of any conversion of shares of the Mandatory Convertible Preferred Stock if the conversion date occurs after the record date for such dividend or other distribution and prior to the end of such 10 consecutive trading day period. In such event, we will deliver the shares of common stock issuable in respect of such conversion (based on the adjusted fixed conversion rates as described above) on the first business day immediately following the last trading day of such 10 consecutive trading day period.

(iv) If we pay a distribution consisting exclusively of cash to all or substantially all holders of our common stock, excluding any regular quarterly cash dividends or distributions of up to \$0.105 per share of our common stock (the initial dividend threshold), each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 x$$
 SP_0 $(SP_0 C)$

S-57

Table of Contents

where.

CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such distribution:

CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the record date for such distribution;

SP₀ = the average VWAP per share of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such distribution;

C = an amount of cash per share of our common stock we distribute to holders of our common stock; *provided* that in the case of a regular quarterly cash dividend or distribution, such amount shall only include the amount of such dividend or distribution in excess of the initial dividend threshold.

Notwithstanding the foregoing, if C (as defined above) is equal to or greater than SP0 (as defined above), in lieu of the foregoing increase, each holder of shares of the Mandatory Convertible Preferred Stock will receive, in respect of each share thereof, at the same time and upon the same terms as holders of shares of our common stock, the amount of cash that such holder would have received if such holder owned a number of shares of our common stock equal to the maximum conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such distribution.

The initial dividend threshold is subject to adjustment in a manner inversely proportional to adjustments to the fixed conversion rates; *provided* that no adjustment will be made to the initial dividend threshold for any adjustment made to the fixed conversion rates under this clause (iv).

Any adjustment to the fixed conversion rates pursuant to this clause (iv) will become effective immediately after 5:00 p.m., New York City time, on the record date for such distribution. If such distribution is not so paid, the fixed conversion rates will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay such dividend and (b) the date such dividend was to have been paid, to the fixed conversion rates that would then be in effect if such distribution had not been declared.

(v) If we or one or more of our subsidiaries purchases our common stock pursuant to a tender offer or exchange offer pursuant to a Schedule TO or registration statement on Form S-4 for our common stock (excluding any securities convertible or exchangeable for our common stock, and except as provided below, and the cash and value of any other consideration included in the payment per share of our common stock validly tendered or exchanged exceeds the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the last date on which tenders or exchanges may be made pursuant to such tender or exchange offer (the expiration date), each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 x \qquad (FMV + (SP_1 \times OS_1))$$

$$(SP_1 \times OS_0)$$

S-58

Table of Contents

where.

- CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the trading day next succeeding the expiration date;
- CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the trading day next succeeding the expiration date;
- FMV = the fair market value (as determined in good faith by our board of directors or a duly authorized committee thereof) as of the expiration date of the aggregate value of all cash and any other consideration paid or payable for shares of our common stock validly tendered or exchanged and not withdrawn as of the expiration date (the purchased shares);
- OS₁ = the number of shares of our common stock outstanding as of the last time tenders or exchanges may be made pursuant to such tender or exchange offer (the expiration time), less any purchased shares;
- OS₀ = the number of shares of our common stock outstanding at the expiration time, including any purchased shares; and
- SP₁ = the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the expiration date.

The adjustment to each fixed conversion rate under the immediately preceding paragraph will occur at 5:00 p.m., New York City time, on the 10th consecutive trading day immediately following, and including, the trading day immediately following the expiration date, but will be given effect as of 9:00 a.m., New York City time, on the expiration date. Because we will make the adjustments to the fixed conversion rates at the end of the 10 consecutive trading day period with retroactive effect, we will delay the settlement of any conversion of shares of the Mandatory Convertible Preferred Stock if the conversion date occurs during such 10 consecutive trading day period. In such event, we will deliver the shares of common stock issuable in respect of such conversion (based on the adjusted fixed conversion rates as described above) on the first business day immediately following the last trading day of such 10 consecutive trading day period.

Record date means, for purpose of a conversion rate adjustment, with respect to any dividend, distribution or other transaction or event in which the holders of our common stock have the right to receive any cash, securities or other property or in which our common stock (or other applicable security) is exchanged for or converted into any combination of cash, securities or other property, the date fixed for determination of holders of our common stock entitled to receive such cash, securities or other property (whether such date is fixed by our board of directors or by statute, contract or otherwise).

Ex-dividend date means the first date on which the shares of common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive the issuance or distribution in question or, if applicable, from the seller of such common stock (in the form of due bills or otherwise) as determined by such exchange or market.

If we have in effect a shareholder rights plan while any shares of the Mandatory Convertible Preferred Stock remain outstanding, holders of shares of the Mandatory Convertible Preferred Stock will receive, upon a conversion of shares of the Mandatory Convertible Preferred Stock, in addition to common stock, rights under our shareholder rights agreement unless, prior to such conversion, the rights have expired,

S-59

Table of Contents

terminated or been redeemed or unless the rights have separated from our common stock. If the rights provided for in our rights plan have separated from our common stock in accordance with the provisions of the applicable rights agreement so that holders of shares of the Mandatory Convertible Preferred Stock would not be entitled to receive any rights in respect of our common stock, if any, that we are required to deliver upon conversion of shares of the Mandatory Convertible Preferred Stock, each fixed conversion rate will be adjusted at the time of separation as if we had distributed to all holders of our common stock, capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets pursuant to paragraph (iii) above, subject to readjustment upon the subsequent expiration, termination or redemption of the rights. A distribution of rights pursuant to a rights plan will not trigger a conversion rate adjustment pursuant to paragraphs (ii) or (iii) above. We currently do not have a rights plan in effect.

Notwithstanding the foregoing, no adjustment to the fixed conversion rates need be made if holders of shares of the Mandatory Convertible Preferred Stock participate in the transaction that would otherwise require an adjustment (other than in the case of a share split or share combination), at the same time, upon the same terms and otherwise on the same basis as holders of our common stock and solely as a result of holding shares of the Mandatory Convertible Preferred Stock, as if such holders held a number of shares of our common stock equal to the maximum conversion rate as of the record date for such transaction, multiplied by the number of shares of the Mandatory Convertible Preferred Stock held by such holders.

The fixed conversion rates will not be adjusted except as provided above. Without limiting the foregoing, the fixed conversion rates will not be adjusted for:

the issuance of any shares of our common stock (or rights with respect thereto) pursuant to any present or future plan providing for the reinvestment of dividends or interest payable on our securities and the investment of additional optional amounts in our common stock under any plan;

the issuance of any shares of our common stock or options or rights to purchase those shares pursuant to any present or future employee, director or consultant benefit plan, employee agreement or arrangement or program of ours or any of our subsidiaries;

the issuance of any shares of our common stock pursuant to any option, warrant, right, or exercisable, exchangeable or convertible security outstanding as of the issue date;

a change solely in the par value of our common stock;

stock repurchases that are not tender offers, including structured or derivative transactions;

as a result of a tender offer solely to holders of fewer than 100 shares of our common stock;

a third-party tender or exchange offer; or

the payment of dividends on the Mandatory Convertible Preferred Stock, whether in cash or in shares of our common stock. All required calculations will be made to the nearest cent or 1/10,000th of a share.

In addition, we may make such increases in each fixed conversion rate as we deem advisable in order to avoid or diminish any income tax to holders of our common stock resulting from any dividend or distribution of our shares (or issuance of rights or warrants to acquire our shares) or from any event treated as such for income tax purposes or for any other reason. We may only make such a discretionary adjustment if we make the same proportionate adjustment to each fixed conversion rate.

S-60

Table of Contents

We will be required, within 10 business days after the conversion rate is adjusted, to provide or cause to be provided written notice of the adjustment to the holders of shares of Mandatory Convertible Preferred Stock. We will also be required to deliver a statement setting forth in reasonable detail the method by which the adjustment to each fixed conversion rate was determined and setting forth each revised fixed conversion rate.

Adjustments to the fixed conversion rates will be calculated to the nearest 1/10,000th of a share of our common stock. Prior to the mandatory conversion date, no adjustment in a fixed conversion rate will be required unless the adjustment would require an increase or decrease of at least one percent in such fixed conversion rate. If any adjustment is not required to be made because it would not change the fixed conversion rates by at least one percent, then the adjustment will be carried forward and taken into account in any subsequent adjustment; provided, however, that on the earlier of the mandatory conversion date, an early conversion date and the effective date of a fundamental change, adjustments to the fixed conversion rates will be made with respect to any such adjustment carried forward that has not been taken into account before such date.

If an adjustment is made to the fixed conversion rates, an inversely proportional adjustment also will be made (x) to the threshold appreciation price and the initial price solely for the purposes of determining which clause of the definition of the conversion rate will apply on the conversion date and (y) to the floor price. Because (a) the applicable market value is an average VWAP per share of our common stock over a 20 consecutive trading day period, (b) the fundamental change market value and (c) the acquisition termination market value is an average VWAP per share of our common stock over a five consecutive trading day period, we will make appropriate adjustments (including, without limitation, to the VWAP per share used to calculate the applicable market value, the fundamental change market value and the acquisition termination market value, as the case may be) to account for any adjustments to the fixed conversion rates that become effective during the period in which the applicable market value or the fundamental change market value, as the case may be, is being calculated.

Recapitalizations, reclassifications and changes of our common stock

In the event of:

any reclassification of our common stock (other than changes only in par value or resulting from a subdivision or combination);

any consolidation or merger of us with or into another person or any statutory exchange or binding share exchange; or

any sale, transfer, lease or conveyance to another person of all or substantially all the property and assets of us and our subsidiaries; in each case, as a result of which the shares of our common stock are exchanged for, or converted into, other securities, property or assets (including cash or any combination thereof) (any such event, a reorganization event), then, at the effective time of such reorganization event, each share of Mandatory Convertible Preferred Stock outstanding immediately prior to such reorganization event will, without the consent of the holders of the Mandatory Convertible Preferred Stock, become convertible into the kind and amount of such other securities, property or assets (including cash or any combination thereof) that holders of our common stock received in such reorganization event (the exchange property), and, at the effective time of such reorganization event, we will amend the Certificate of Designations to provide for such change in the convertibility of the Mandatory Convertible Preferred Stock; *provided* that if the kind and amount of exchange property receivable upon such reorganization event is not the same for each share of our common stock held immediately prior to such

S-61

reorganization event by a person, then the exchange property receivable upon such reorganization event will be deemed to be the weighted average of the types and amounts of consideration received by the holders of our common stock that affirmatively make an election with respect to the kind and amount of exchange property so receivable (or of all such holders if none makes an election). The conversion rate then in effect will be applied on the applicable conversion date to the amount of such exchange property received per share of our common stock in the reorganization event (a unit of exchange property), as determined in accordance with this section. For the purpose of determining which bullet of the definition of conversion rate will apply on the mandatory conversion date (subject to postponement as described above under Mandatory conversion) and for the purpose of calculating the conversion rate if the second bullet in the definition thereof is applicable, the value of a unit of exchange property will be determined in good faith by our board of directors or a duly authorized committee thereof, except that if a unit of exchange property includes common stock or ADRs that are traded on a U.S. national securities exchange, the value of such common stock or ADRs will be the average VWAP for a share of such common stock or a single ADR, as the case may be, for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to the mandatory conversion date (or for the purpose of determining the stock price on a fundamental change conversion date, the value of such common stock or ADRs will be the average VWAP for a share of such common stock or a single ADR, as the case may be, for the five consecutive trading day period ending on, and including, the trading day immediately preceding the effective date). For the purpose of paying accumulated and unpaid dividends in units of exchange property as contemplated under Method of payment of dividends, the value of a unit of exchange property (other than cash) will equal 97% of the value determined pursuant to the immediately preceding sentence.

The above provisions of this section will similarly apply to successive reorganization events and the Conversion rights Conversion rate adjustments section will apply to any shares of our capital stock (or of any successor) received by the holders of our common stock in any such reorganization event.

The amendment to the Certificate of Designations providing that the Mandatory Convertible Preferred Stock will be convertible into exchange property will also provide for anti-dilution and other adjustments that are as nearly equivalent as possible to the adjustments described under Conversion rate adjustments above. We will agree in the Certificate of Designations for the Mandatory Convertible Preferred Stock not to become a party to any such transaction unless its terms are consistent with the foregoing.

We (or any successor of us) will, as soon as reasonably practicable (but in any event within five business days) after the occurrence of any reorganization event, provide written notice to the holders of the Mandatory Convertible Preferred Stock of such occurrence of such event and of the kind and amount of the cash, securities or other property that constitute the exchange property. Failure to deliver such notice will not affect the operation of this section or the effectiveness of such transaction.

Liquidation preference

In the event of our liquidation, dissolution or winding-up, whether voluntary or involuntary, each holder of shares of the Mandatory Convertible Preferred Stock will be entitled to receive out of our assets available for distribution to our stockholders, subject to rights of our creditors, before any payment or distribution is made to holders of junior stock (including our common stock), payment in full of the amount of \$100.00 per share of the Mandatory Convertible Preferred Stock, plus an amount equal to any accumulated and unpaid dividends, whether or not declared, on such shares to (but not including) the date fixed for liquidation, dissolution or winding-up. If in any such distribution our assets or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of the Mandatory Convertible Preferred Stock and any other stock ranking equally with the Mandatory Convertible Preferred Stock as to such distribution, the holders of shares of the Mandatory Convertible Preferred Stock and such other stock will share ratably in any such

S-62

Table of Contents

distribution in proportion to the full accrued and unpaid respective distributions to which they are entitled. After payment of the full amount of the liquidation preference, including an amount equal to any accumulated and unpaid dividends, to which they are entitled, the holders of the Mandatory Convertible Preferred Stock will have no right or claim to any of our remaining assets.

Neither the sale, lease or exchange (for cash, securities or other property) of all or substantially all our assets, nor our merger or consolidation with any other corporation or other entity, will be deemed to be a liquidation, dissolution or winding-up of our company.

The Certificate of Designations will not contain any provision requiring funds to be set aside to protect the liquidation preference of the Mandatory Convertible Preferred Stock even though it is substantially in excess of the par value thereof.

Voting rights

The holders of shares of the Mandatory Convertible Preferred Stock will have no voting rights in respect of such shares except as set forth below or as otherwise required by law or our Certificate of Incorporation from time to time. In matters where holders of the Mandatory Convertible Preferred Stock are entitled to vote, each share of the Mandatory Convertible Preferred Stock shall be entitled to one vote.

Preferred directors

Whenever, at any time or times, dividends payable on the shares of the Mandatory Convertible Preferred Stock have not been paid for an aggregate of six or more dividend periods, whether or not consecutive (an event of non-payment), the holders of the Mandatory Convertible Preferred Stock will have the right, with holders of shares of any one or more other classes or series of outstanding parity stock upon which like voting rights have been conferred and are exercisable at the time, voting together as a class (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), to elect two directors (together, the preferred directors and each, a preferred director) at the next annual meeting or special meeting of our stockholders and at each subsequent annual meeting or special meeting of our stockholders until all accumulated and unpaid dividends have been paid in full or fully set aside for payment on the Mandatory Convertible Preferred Stock, at which time such right will terminate, except as otherwise provided in this prospectus supplement or expressly provided by law, subject to re-vesting in the event of each and every event of non-payment; *provided* that it will be a qualification for election for any preferred director that the election of such preferred director will not cause us to violate any corporate governance requirements of any securities exchange or other trading facility on which our securities may then be listed or traded that listed or traded companies, including that we have a majority of independent directors.

Upon any termination of the right set forth in the immediately preceding paragraph, the preferred directors will cease to be qualified as directors, the term of office of all preferred directors then in office will terminate immediately, and the authorized number of directors will be reduced by the number of preferred directors elected as described above.

Any preferred director may be removed at any time, with or without cause, and any vacancy created thereby may be filled, only at a meeting of our stockholders at which this is a permitted action by the affirmative vote of the holders of a majority in voting power of the shares of the Mandatory Convertible Preferred Stock at the time outstanding voting separately as a class together with the holders of shares of parity stock upon which like voting rights have been conferred and are exercisable at the time (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), to the extent the voting rights of such holders described above are then exercisable. If the office of any preferred director becomes vacant for any reason

S-63

Table of Contents

other than removal from office as described above, the remaining preferred director may choose a successor who will hold office for the unexpired term in respect of which such vacancy occurred.

At any time after the right of the holders of the Mandatory Convertible Preferred Stock to elect directors has become vested and is continuing but a meeting of our stockholders to elect such directors has not yet been held, or if a vacancy shall exist in the office of any such preferred director that has not been filled by the remaining preferred director, our board of directors may, but shall not be required to, call a special meeting of the holders of the Mandatory Convertible Preferred Stock and any one or more classes or series of outstanding parity stock upon which like voting rights have been conferred and are exercisable at the time, for the purpose of electing the directors that such holders are entitled to elect; *provided* that in the event our board of directors does not call such special meeting, such election will be held at the next annual meeting. At any such meeting held for the purpose of electing such a director (whether at an annual meeting or special meeting), the presence in person or by proxy of the holders of shares representing at least a majority of the voting power of the Mandatory Convertible Preferred Stock and any parity stock having similar voting rights. The affirmative vote of the holders of the Mandatory Convertible Preferred Stock and any parity stock having similar voting rights constituting a majority of the voting power of such shares present at such meeting, in person or by proxy, shall be sufficient to elect any such director.

When a supermajority vote is required

In addition to any other vote or consent of stockholders required by law or our Certificate of Incorporation, the affirmative vote or consent of the holders of at least two-thirds in voting power of the outstanding shares of the Mandatory Convertible Preferred Stock and all other parity stock having similar voting rights that are exercisable at the time (subject to the last paragraph of this section When a supermajority vote is required), voting as a single class (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), given in person or by proxy, either in writing without a meeting or by vote at any meeting called for such purpose, or by written consent in lieu of such meeting, will be required to:

amend or alter our Certificate of Incorporation or the Certificate of Designations to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Mandatory Convertible Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on our liquidation, dissolution or winding-up;

amend, alter or repeal any provision of our Certificate of Incorporation or Certificate of Designations (including, unless no vote on such merger or consolidation is required in accordance with the following bullet, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock; or

consummate a binding share exchange, a reclassification involving the Mandatory Convertible Preferred Stock, or a merger or consolidation of us with another corporation or other entity, unless in each case (x) the Mandatory Convertible Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which we are not the surviving or resulting entity, is converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (y) the Mandatory Convertible Preferred Stock remaining outstanding or such new preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Mandatory Convertible Preferred Stock immediately prior to such consummation, taken as a whole;

S-64

Table of Contents

provided, however, that the creation and issuance, or an increase in the authorized or issued amount, whether pursuant to pre-emptive or similar rights or otherwise, of any series of preferred stock, or any securities convertible into or exchangeable or exercisable for any other series of preferred stock (including the Mandatory Convertible Preferred Stock), ranking equally with and/or junior to the Mandatory Convertible Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and the distribution of assets upon our liquidation, dissolution or winding-up, shall not be deemed to adversely affect the rights, preferences or voting powers, and shall not require the affirmative vote or consent of, the holders of the shares of the Mandatory Convertible Preferred Stock.

If any amendment, alteration, repeal, share exchange, reclassification, merger or consolidation specified above would adversely affect one or more but not all series of parity stock (including the Mandatory Convertible Preferred Stock for this purpose), then only the one or more series of parity stock adversely affected and entitled to vote, rather than all series of parity stock, shall vote as a class.

Without the consent of the holders of the Mandatory Convertible Preferred Stock, so long as such action does not adversely affect the special rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock, and limitations and restrictions thereof, we may amend, alter, supplement, or repeal any terms of the Mandatory Convertible Preferred Stock for the following purposes:

to cure any ambiguity or mistake, or to correct or supplement any provision contained in the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock that may be defective or inconsistent with any other provision contained in such Certificate of Designations;

to make any provision with respect to matters or questions relating to the Mandatory Convertible Preferred Stock that is not inconsistent with the provisions of the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock; or

to waive any of our rights with respect thereto;

provided that any such amendment, alteration, supplement or repeal of any terms of the Mandatory Convertible Preferred Stock effected in order to conform the terms thereof to the description of the terms of the Mandatory Convertible Preferred Stock set forth under Description of Mandatory Convertible Preferred Stock in this prospectus supplement shall be deemed not to adversely affect the special rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Mandatory Convertible Preferred Stock.

Reservation of common stock

We will at all times reserve and keep available out of the authorized and unissued shares of common stock, solely for issuance, the full number of shares of common stock issuable upon payment of accumulated and unpaid dividends and upon conversion of the Mandatory Convertible Preferred Stock at the maximum conversion rate then in effect.

Listing

We intend to apply to list the Mandatory Convertible Preferred Stock on the NASDAQ Global Select Market, and, if approved, we expect trading on the NASDAQ Global Select Market to begin within 30 days of the initial issuance of the Mandatory Convertible Preferred Stock. Upon listing, we have agreed to use our reasonable best efforts to keep the Mandatory Convertible Preferred Stock listed on the NASDAQ Global Select Market. Listing the Mandatory Convertible Preferred Stock on the NASDAQ Global Select Market does not guarantee that a trading market will develop or, if a trading market does develop, the depth of that market or the ability of holders to sell their shares of the Mandatory Convertible Preferred Stock.

S-65

Transfer agent, registrar and conversion and dividend disbursing agent

Computershare Trust Company, N.A. will serve as transfer agent, registrar and conversion and dividend disbursing agent for the Mandatory Convertible Preferred Stock.

Book-entry, delivery and form

The Mandatory Convertible Preferred Stock will be issued in global form. DTC or its nominee will be the sole registered holder of the Mandatory Convertible Preferred Stock. Ownership of beneficial interests in the Mandatory Convertible Preferred Stock in global form will be limited to persons who have accounts with DTC (participants) or persons who hold interests through such participants. Ownership of beneficial interests in the shares of Mandatory Convertible Preferred Stock in global form will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

So long as DTC, or its nominee, is the registered owner or holder of a global certificate representing the Mandatory Convertible Preferred Stock, DTC or such nominee, as the case may be, will be considered the sole holder of the Mandatory Convertible Preferred Stock represented by such global certificate for all purposes under the Certificate of Designation. No beneficial owner of an interest in the shares of Mandatory Convertible Preferred Stock in global form will be able to transfer that interest except in accordance with the applicable procedures of DTC in addition to those provided for under the Certificate of Designation.

Payments of dividends on the global certificate representing the shares of Mandatory Convertible Preferred Stock will be made to DTC or its nominee, as the case may be, as the registered holder thereof. None of Frontier Communication Corporation, the transfer agent, registrar, conversion or dividend disbursing agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global certificate representing the shares of Mandatory Convertible Preferred Stock or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that DTC or its nominee, upon receipt of any payment of dividends in respect of a global certificate representing the shares of Mandatory Convertible Preferred Stock, will credit participants—accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global certificate representing the shares of Mandatory Convertible Preferred Stock as shown on the records of DTC or its nominee, as the case may be. We also expect that payments by participants to owners of beneficial interests in such global certificate representing the shares of Mandatory Convertible Preferred Stock held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds.

We understand that DTC is:

limited purpose trust company organized under the laws of the State of New York;

- a banking organization within the meaning of New York Banking Law;
- a member of the Federal Reserve System;
- a clearing corporation within the meaning of the Uniform Commercial Code; and
- a Clearing Agency registered pursuant to the provisions of Section 17A of the Exchange Act.

S-66

Table of Contents

DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include:

securities brokers and dealers;

banks and trust companies; and

clearing corporations and certain other organizations.

Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (indirect participants).

Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in a global security among its participants, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of Frontier Communications Corporation, the transfer agent, registrar, conversion or dividend disbursing agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

If DTC is at any time unwilling or unable to continue as a depositary for the shares of Mandatory Convertible Preferred Stock in global form or DTC ceases to be registered as a clearing agency under the Exchange Act, and in either case, a successor depositary is not appointed by us within 90 days, we will issue certificated shares in exchange for the global securities. Holders of an interest in the shares of Mandatory Convertible Preferred Stock in global form may receive certificated shares, at our option, in accordance with the rules and procedures of DTC in addition to those provided for under the certificate of designation. Beneficial interests in the shares of Mandatory Convertible Preferred Stock in global form held by any direct or indirect participant may also be exchanged for certificated shares upon request to DTC by such direct participant (for itself or on behalf of an indirect participant), to the transfer agent in accordance with their respective customary procedures.

The information in this section concerning DTC and its book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

S-67

Concurrent offering

Concurrently with this offering, we are offering \$750,000,000 of our common stock, par value \$0.25 per share (or \$825,000,000 if the underwriters exercise in full their option to purchase additional shares of our common stock). Based on the last reported sale price of our common stock on the NASDAQ on June 1, 2015 of \$5.08 per share, 147,637,795 shares of common stock would be issued in the concurrent offering (162,401,574 shares if the underwriters exercise in full their option to purchase additional shares of our common stock).

We intend to use the proceeds of the concurrent offering of our common stock, together with the proceeds of this offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The closing of this offering and the concurrent offering are not conditioned on each other or on the closing of the Verizon Transaction which, if completed, will occur subsequent to the closing of this offering. While we expect to use the net proceeds from the concurrent offering of our common stock in connection with the Verizon Transaction, there is no guarantee that the Verizon Transaction will be consummated, and if it is not consummated, we may use the proceeds of the concurrent offering for other purposes.

Our common stock will rank junior to the Mandatory Convertible Preferred Stock offered hereby with respect to the payment of dividends and amounts payable in the event of our liquidation, dissolution or winding up. No dividends may be declared or paid on our common stock unless full cumulative dividends have been paid or set aside for payment on all outstanding Mandatory Convertible Preferred Stock for all accrued dividend periods. Likewise, in the event of our bankruptcy, liquidation, dissolution or winding up, no distribution of our assets may be made to holders of our common stock until we have paid to holders of the Mandatory Convertible Preferred Stock a liquidation preference equal to \$100.00 per share plus accrued and unpaid dividends.

S-68

Description of the Verizon Transaction

On February 5, 2015, we entered into a Securities Purchase Agreement with Verizon to acquire, among other things, Verizon s wireline business and statewide fiber networks that provide services to residential, commercial and wholesale customers in California, Texas and Florida, along with certain of Verizon s FiOS customers in those states for a purchase price of \$10.54 billion in cash and assumed debt, subject to certain adjustments specified in the Verizon Purchase Agreement. The consummation of the Verizon Transaction is subject to the satisfaction of certain conditions, including review or approval by various federal and state regulatory agencies and other closing conditions. We expect the Verizon Transaction to close in the first half of 2016. There can be no assurance that we will be able to consummate the Verizon Transaction on a timely basis or at all.

The Verizon Purchase Agreement

The following summary of the Verizon Purchase Agreement is not complete and is subject to, and is qualified in its entirety by reference to, all provisions of the Verizon Purchase Agreement (including the definitions of terms used therein). You should read the Verizon Purchase Agreement for provisions that may be important to you. A copy of the Verizon Purchase Agreement was filed as Exhibit 2.1 to our Current Report on Form 8-K filed with the SEC on February 5, 2015, which is incorporated by reference herein. See Where you can find more information in this prospectus supplement.

Pursuant to the Verizon Purchase Agreement, we have a agreed to acquire all of the issued and outstanding limited liability company interests of Newco, which will hold the outstanding limited liability company interests and capital stock of Verizon Florida LLC, GTE Southwest Incorporated and Verizon California Inc. Prior to the closing under the Verizon Purchase Agreement, (i) Verizon will transfer to the Verizon Transferred Companies certain assets and cause the Verizon Transferred Companies to assume certain liabilities relating to the business to be acquired and (ii) the Verizon Transferred Companies will transfer to Verizon certain assets, and Verizon will assume certain liabilities of the Verizon Transferred Companies, to be retained by Verizon following the closing. We refer you to the separate financial statements of the VSTO incorporated herein by reference.

Consummation of the transactions contemplated by the Verizon Purchase Agreement is subject to the satisfaction of certain conditions, including (i) receipt of the necessary approvals required to be obtained from the Federal Communications Commission, the California Public Utility Commission and the Public Utility Commission of Texas and (ii) receipt of such other approvals required to be obtained from certain other state and local regulatory bodies, except for those approvals the failure of which to be obtained would not reasonably be expected to be materially adverse in relation to the VSTO. The Federal Trade Commission granted early termination of the waiting period under the Hart-Scott-Rodino Act on May 8, 2015.

Our obligation to consummate the transactions contemplated by the Verizon Purchase Agreement is also subject to, among other things, (i) the completion of an extraction of customer data for the VSTO that meets certain requirements, (ii) Verizon s delivery of certain financial statements and unqualified auditor reports related thereto required to be delivered pursuant to the Verizon Purchase Agreement prior to the closing and (iii) the absence of a Seller Material Adverse Effect (as defined in the Verizon Purchase Agreement) after the date of the Verizon Purchase Agreement. In addition, we are not obligated to proceed with the closing under the Verizon Purchase Agreement until the third business day following the Marketing Period Termination Date (as defined in the Verizon Purchase Agreement).

The parties to the Verizon Purchase Agreement have made to each other certain representations and warranties, and have agreed to certain covenants and agreements, including with respect to cooperation,

S-69

regulatory approvals, the financial statements for the VSTO, our financing of the transaction (including a covenant that we do not reduce the commitments under the 8/10 Year Bridge Facility or 18 Month Bridge Facility with the proceeds of the financing transactions described in clauses (x) through (z) of the first paragraph of Financing of the Verizon Transaction below unless the amount of the remaining commitments plus the net cash proceeds of such financing transactions that are placed into escrow exceeds a threshold requirement set forth in the Verizon Purchase Agreement), the conduct and operation of the Verizon Transferred Companies prior to the closing and similar matters. In addition, the Verizon Purchase Agreement contemplates that Verizon and the Company will enter into certain ancillary agreements in connection with the transaction.

Subject to certain limitations, Verizon has agreed to indemnify for certain losses, as more fully described in the Verizon Purchase Agreement.

The Verizon Purchase Agreement may be terminated in certain circumstances, including, among others, if the transaction does not close by April 5, 2016 (subject to extension to August 5, 2016 in certain circumstances). Additionally, either party may terminate the Verizon Purchase Agreement upon a breach by the other party of any representation, warranty, covenant or agreement made by such breaching party in the Verizon Purchase Agreement, such that the conditions related to the representations, warranties, covenants and agreements made by such breaching party would not be satisfied and such breach or condition is not curable or, if curable, is not cured within the earlier of 60 days after written notice or the termination date of the Verizon Purchase Agreement.

Financing of the Verizon Transaction

On February 5, 2015, in connection with the execution of the Verizon Purchase Agreement, we entered into the Commitment Letter, dated February 5, 2015, with the Commitment Parties, pursuant to which the Commitment Parties have committed to provide two bridge loan facilities, initially for a total amount of \$11.594 billion, which amount was subsequently reduced by us to \$10.850 billion, for the purposes of funding (i) the cash consideration for the Verizon Transaction and (ii) the fees and expenses incurred in connection with the transactions contemplated by the Verizon Purchase Agreement. The 8/10 Year Bridge Facility was initially in the amount of \$8.594 billion, which amount was automatically reduced in accordance with its terms by \$744 million in connection with the effectiveness of certain amendments entered into on March 5, 2015 to our two outstanding credit agreements with CoBank, ACB and certain other lenders. The 18 Month Bridge Facility is in the amount of \$3.0 billion. The commitments in respect of the 8/10 Year Bridge Facility and the 18 Month Bridge Facility will be automatically reduced, subject to certain exceptions and limitations, on a dollar-for-dollar basis by (x) the gross cash proceeds of any issuance of senior unsecured notes by Frontier (with such amounts being applied first to reduce the 8/10 Year Bridge Facility), (y) the net cash proceeds of the incurrence by Frontier of certain indebtedness for borrowed money (with such amounts being applied first to reduce the 8/10 Year Bridge Facility) and (z) the net cash proceeds from any issuance of equity by Frontier, including the proceeds from the concurrent offering and the sale of the securities in this offering (with such amounts being applied first to reduce the 18 Month Bridge Facility). The financing commitments of the Commitment Parties are currently undrawn and are subject to various conditions set forth in the Commitment Letter.

We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The proceeds of this offering together with the proceeds of the concurrent offering will reduce the commitments under the 18 Month Bridge Facility. The balance of the financing in connection with the Verizon Transaction could take any of several forms or any combination of them, including but not limited to the following: (i) we may issue senior notes in the public and/or private capital markets; (ii) we may enter into

S-70

Table of Contents

one or more senior secured first lien term loan facilities; (iii) we may use cash on hand; and (iv) we may draw funds under the 18 Month Bridge Facility and the 8/10 Year Bridge Facility.

The VSTO

As of March 31, 2015, the VSTO had approximately 3.6 million voice, 2.2 million broadband and 1.2 million video connections. The Verizon Transaction will add approximately 11,000 employees to our Company.

The Verizon assets complement our existing platform and position us well strategically. We believe that these assets offer attractive demographics because the operations we are acquiring from Verizon are in the three most populated states in the United States (California, Florida, and Texas) and they also have economic growth that is above the U.S. average. The network assets are high quality, with high fiber penetration approximately 54% of the footprint is FiOS-enabled allowing us to offer customers market-leading broadband speeds and very high-quality video products. The acquisition of the Verizon properties is aligned with our strategic focus on broadband as it will increase our broadband base by 2.2 million customers. We also anticipate potential for incremental growth with business customers, which we will pursue with carrier Ethernet products we have made available to business and other carrier customers within our existing footprint. We also anticipate there will be an opportunity to sell Frontier Secure, our security/technical support/identity protection suite, into customers within these new regions.

S-71

Unaudited pro forma condensed combined financial information

The unaudited pro forma condensed combined balance sheet information as of March 31, 2015 is based upon (i) the historical consolidated financial information of Frontier and (ii) the historical combined financial information of the VSTO, and has been prepared to reflect the Verizon Transaction based on the acquisition method of accounting. The unaudited pro forma condensed combined statement of operations information for the three months ended March 31, 2015 is based upon (i) the historical consolidated financial information of Frontier and (ii) the historical combined financial information of the VSTO, and has been prepared to reflect the Verizon Transaction based on the acquisition method of accounting. The unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 includes the results of the Connecticut Operations for the period of January 1, 2014 through October 24, 2014. The unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 is based upon (i) the historical consolidated financial information of Frontier, (ii) the historical combined financial information of the VSTO and (iii) the historical combined financial information of the Connecticut Operations for the period of January 1, 2014 through October 24, 2014, and has been prepared to reflect the Verizon Transaction and the Connecticut Operations based on the acquisition method of accounting. The unaudited pro forma condensed combined financial information presents the combination of the historical financial statements of Frontier and the historical financial statements of the VSTO, adjusted to give effect to (1) the transfer of specified assets and liabilities from Verizon to the VSTO that are not included in the VSTO historical balance sheet as of March 31, 2015, and the retention of specified assets and liabilities by Verizon that are included in the VSTO historical balance sheet as of March 31, 2015, as more fully described in note 3(a) below, (2) this offering, the concurrent offering and bridge financing to fund the cash payment to Verizon for the purchase price, as more fully described in note 3(b) below, (3) the payment by Frontier to Verizon of \$10.54 billion in cash and assumed debt (excluding any potential working capital purchase price adjustment as set forth in the Verizon Purchase Agreement) as more fully described in note 3(c) below and (4) the consummation of the transactions contemplated by the Verizon Purchase Agreement, with Frontier considered the accounting acquirer, based on the assumptions and adjustments described in the accompanying notes to the unaudited pro forma condensed combined financial information. The historical financial information has been adjusted to give effect to events that are directly attributable to the Verizon Transaction and factually supportable and, in the case of the statement of operations information, that are expected to have a continuing impact.

On October 24, 2014, we acquired the wireline properties of AT&T in Connecticut by acquiring all of the issued and outstanding capital stock of Transferred AT&T Companies for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital, pursuant to the AT&T Purchase Agreement. Prior to the closing of the Connecticut Acquisition, (i) AT&T transferred to the Transferred AT&T Companies certain assets and caused the Transferred AT&T Companies to assume certain liabilities relating to the business to be acquired and (ii) the Transferred AT&T Companies transferred to AT&T certain assets, and AT&T assumed certain liabilities of the Transferred AT&T Companies, to be retained by AT&T following the closing. The Company financed the Connecticut Acquisition using the net proceeds of an offering of \$1.55 billion aggregate principal amount of senior unsecured notes, borrowings of \$350 million under a term loan credit agreement and cash on hand.

The unaudited pro forma condensed combined balance sheet information has been prepared as of March 31, 2015, and gives effect to the Verizon Transaction and other events described above as if they had occurred on that date. The unaudited pro forma condensed combined statement of operations information, which has been prepared for the three months ended March 31, 2015 and the year ended December 31, 2014, gives effect to the Verizon Transaction and other events described above as if they had occurred on January 1, 2014. The summary unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 gives effect to the Connecticut Acquisition as if it had occurred on January 1, 2014.

S-72

Table of Contents

The unaudited pro forma condensed combined financial information was prepared using, and should be read in conjunction with, (1) the audited combined financial statements of the VSTO for the year ended December 31, 2014, (2) the unaudited interim condensed combined financial statements of the VSTO as of and for the three months ended March 31, 2015, (3) the unaudited interim condensed combined financial statements of the Connecticut Operations for the nine months ended September 30, 2014, (4) the audited consolidated financial statements of Frontier for the year ended December 31, 2014, and (5) the unaudited interim condensed consolidated financial statements of Frontier as of and for the three months ended March 31, 2015.

The unaudited pro forma condensed combined financial information is presented for informational purposes only and is not necessarily indicative of the results of operations that would have been achieved had the Verizon Transaction and other events described above been completed at the dates indicated above. In addition, the unaudited pro forma condensed combined financial information does not purport to project the future results of operations of Frontier after completion of the Verizon Transaction and the other events described above. In the opinion of Frontier s management, all adjustments considered necessary for a fair presentation have been included.

The unaudited pro forma condensed combined financial information does not give effect to any potential cost savings or other operating efficiencies that could result from the Verizon Transaction, or from the Connecticut Acquisition for the period of January 1, 2014 through October 24, 2014. In addition, the fair value of the assets acquired and liabilities assumed are based upon estimates. The final purchase price allocation is dependent upon valuations and other studies that have not yet been completed. Accordingly, the purchase price allocation pro forma adjustments are preliminary and are subject to further adjustments as additional information becomes available and additional analyses are performed, and each further adjustment may be material. Such adjustments have been made solely for the purpose of providing unaudited pro forma condensed combined financial information.
