**Item 1.01 Entry into a Material Definitive Agreement.
Indentures and Notes**

On August 19, 2015, SandRidge Energy, Inc. (the **Company**) issued \$158.4 million aggregate principal amount of its new 8.125% Convertible Senior Notes due 2022 (the **2022 Convertible Notes**) and \$116.6 million aggregate principal amount of its new 7.5% Convertible Senior Notes due 2023 (the **2023 Convertible Notes** and, together with the 2022 Convertible Notes, the **New Convertible Notes**), which if fully converted would convert into an aggregate of 100 million shares of the Company's common stock, par value \$0.001 per share (the **Common Stock**), subject to certain adjustments. The New Convertible Notes were issued in exchange for \$15.9 million aggregate principal amount of the Company's 8.75% Senior Notes due 2020, \$40.7 million aggregate principal amount of the Company's 7.5% Senior Notes due 2021, \$101.8 million aggregate principal amount of the Company's 8.125% Senior Notes due 2022 and \$116.6 million aggregate principal amount of the Company's 7.5% Senior Notes due 2023 (collectively, the **Outstanding Notes**) pursuant to separate privately negotiated purchase and exchange agreements by and between the Company and certain holders of its Outstanding Notes. The New Convertible Notes are guaranteed by all of the Company's existing material subsidiaries (other than SandRidge Realty, LLC). The terms of the remaining Outstanding Notes are unchanged. Final closing settlements of the issuance of the New Convertible Notes are expected to be completed on or shortly after the original issuance date.

Conversion Features of the New Convertible Notes

The New Convertible Notes will be convertible, at the option of the holders, into shares of Common Stock at any time from the date of issuance up until to the close of business on the earlier of (i) the fifth business day following the date of a mandatory conversion notice, (ii) with respect to a New Convertible Note called for redemption, the business day immediately preceding the redemption date or (iii) the business day immediately preceding the maturity date. In addition, if a holder exercises its right to convert on or prior to the first anniversary of the issuance of the New Convertible Notes, such holder will receive an early conversion payment in an amount equal to the amount of 18 months of interest payable on the applicable series of converted New Convertible Notes. If a holder exercises its right to convert after the first anniversary of the issuance of the New Convertible Notes but on or prior to the second anniversary of the issuance of such New Convertible Notes, such holder will receive an early conversion payment in an amount equal to 12 months of interest payable on the applicable series of converted New Convertible Notes.

The initial conversion rate is 363.6363 shares of Common Stock, per \$1,000 principal amount of New Convertible Notes (representing an initial conversion price of \$2.75 per share), subject to adjustment upon the occurrence of certain events.

Subject to compliance with certain conditions, the Company has the right to mandatorily convert the New Convertible Notes in whole or in part if the volume weighted average price of the Common Stock, or VWAP (as defined in the applicable indentures governing the New Convertible Notes), exceeds 40.00% of the applicable conversion price of the New Convertible Notes (representing an initial mandatory conversion trigger price of \$1.10 per share) for at least 20 trading days during any 30 consecutive trading day period and the Company delivers a mandatory conversion notice. No early conversion payment will be made upon a mandatory conversion.

2022 Convertible Notes

The 2022 Convertible Notes are governed by an indenture (the **2022 Convertible Indenture**), dated as of August 19, 2015, by and among the Company, certain of its subsidiaries named therein and U.S. Bank National Association, as trustee. The 2022 Convertible Notes will have an interest rate of 8.125% per year, payable in cash semi-annually in arrears on April 15 and October 15 of each year, beginning October 15, 2015; provided that the final interest payment date shall be on October 16, 2022. Interest on the 2022 Convertible Notes accrues from August 19, 2015. The 2022 Convertible Notes will mature on October 16, 2022, unless earlier repurchased or converted.

Edgar Filing: SANDRIDGE ENERGY INC - Form 8-K

At any time prior to April 15, 2017, the Company is entitled, at its option, to redeem some or all of the 2022 Convertible Notes at a redemption price of 100% of the principal amount thereof, plus the Applicable Premium (as defined in the 2022 Convertible Indenture) and accrued and unpaid interest, if any. On and after April 15, 2017,

the Company may redeem the 2022 Convertible Notes, in whole or in part, at redemption prices (expressed as percentages of principal amount thereof) equal to 104.063% for the twelve-month period beginning on April 15, 2017, 102.708% for the twelve-month period beginning April 15, 2018, 101.354% for the twelve-month period beginning April 15, 2019 and 100.00% beginning on April 15, 2020 and thereafter, plus accrued and unpaid interest, if any. Additionally, in the event of a Change of Control (as defined in the 2022 Convertible Indenture), holders of the 2022 Convertible Notes may require the Company to repurchase all or a portion of their 2022 Convertible Notes at a repurchase price equal to 101% of the principal amount of 2022 Convertible Notes, plus accrued and unpaid interest, if any, to the applicable repurchase date.

The 2022 Convertible Indenture restricts the ability of the Company and certain of its subsidiaries to, among other things: (i) borrow money; (ii) pay distributions or dividends on equity or purchase, redeem or otherwise acquire equity; (iii) make principal payments on, or purchase or redeem subordinated indebtedness prior to any scheduled principal payment or maturity; (iv) make investments; (v) grant liens on its assets; (vi) sell its assets; (vii) enter into transactions with affiliates; and (ix) engage in unrelated businesses. These covenants, which are subject to a number of exceptions and qualifications, are nearly identical to the covenants applicable to the Company's outstanding 8.125% Senior Notes due 2022.

The 2022 Convertible Indenture provides that a number of events will constitute an Event of Default, including, among other things, a failure to pay interest for 30 days, failure to pay the 2022 Convertible Notes when due at maturity, upon acceleration or redemption, a failure to comply with the Company's conversion obligations, the Company's failure to comply with certain covenants relating to merger, consolidation or sale of assets, the Company's failure to comply for 60 days following notice with any of the other covenants or agreements in the 2022 Convertible Indenture, a default or other failure by the Company to make required payments under other indebtedness of the Company or any guarantor having an outstanding principal amount of \$50.0 million or more, the Company's or any guarantor's failure to pay final judgments aggregating in excess of \$50.0 million, and certain events of bankruptcy or insolvency. In the case of an Event of Default arising from certain events of bankruptcy or insolvency with respect to the Company, all outstanding 2022 Convertible Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in aggregate principal amount of the then outstanding 2022 Convertible Notes may declare all the 2022 Convertible Notes to be due and payable immediately.

2023 Convertible Notes

The 2023 Convertible Notes are governed by an indenture (the **2023 Convertible Indenture**), dated as of August 19, 2015, by and among the Company, certain of its subsidiaries named therein and U.S. Bank National Association, as trustee. The 2023 Convertible Notes will have an interest rate of 7.5% per year, payable in cash semi-annually in arrears on February 15 and August 15 of each year, beginning February 15, 2016; provided that the final interest payment date shall be on February 16, 2023. Interest on the 2023 Convertible Notes accrues from August 19, 2015. The 2023 Convertible Notes will mature on February 16, 2023, unless earlier repurchased or converted.

At any time prior to August 15, 2017, the Company is entitled, at its option, to redeem some or all of the 2023 Convertible Notes at a redemption price of 100% of the principal amount thereof, plus the Applicable Premium (as defined in the 2023 Convertible Indenture) and accrued and unpaid interest, if any. On and after August 15, 2017, the Company may redeem the 2023 Convertible Notes, in whole or in part, at redemption prices (expressed as percentages of principal amount thereof) equal to 103.75% for the twelve-month period beginning on August 15, 2017, 102.50% for the twelve-month period beginning August 15, 2018, 101.25% for the twelve-month period beginning August 15, 2019, and 100.00% beginning on August 15, 2020 and thereafter, plus accrued and unpaid interest, if any. Additionally, in the event of a Change of Control (as defined in the 2023 Convertible Indenture), holders of the 2023 Convertible Notes may require the Company to repurchase all or a portion of their 2023 Convertible Notes at a repurchase price equal to 101% of the principal amount of 2023 Convertible Notes, plus accrued and unpaid interest,

if any, to the applicable repurchase date.

The 2023 Convertible Indentures restrict the ability of the Company and certain of its subsidiaries to, among other things: (i) borrow money; (ii) pay distributions or dividends on equity or purchase, redeem or otherwise acquire equity; (iii) make principal payments on, or purchase or redeem subordinated indebtedness prior to any scheduled principal payment or maturity; (iv) make investments; (v) grant liens on its assets; (vii) sell its assets;

(viii) enter into transactions with affiliates; and (ix) engage in unrelated businesses. These covenants, which are subject to a number of exceptions and qualifications, are nearly identical to the covenants applicable to the Company's 7.5% Senior Notes due 2023.

The 2023 Convertible Indentures provide that a number of events will constitute an Event of Default, including, among other things, a failure to pay interest for 30 days, failure to pay the 2023 Convertible Notes when due at maturity, upon acceleration or redemption, a failure to comply with the Company's conversion obligations, the Company's failure to comply with certain covenants relating to merger, consolidation or sale of assets, the Company's failure to comply for 60 days following notice with any of the other covenants or agreements in the 2023 Convertible Indenture, a default or other failure by the Company to make required payments under other indebtedness of the Company or any guarantor having an outstanding principal amount of \$50.0 million or more which results in such indebtedness being due or payable prior to its maturity or which gives the holder thereof the right to accelerate such indebtedness, the Company's or any guarantor's failure to pay final judgments aggregating in excess of \$50.0 million, and certain events of bankruptcy or insolvency. In the case of an Event of Default arising from certain events of bankruptcy or insolvency with respect to the Company, all outstanding 2023 Convertible Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in aggregate principal amount of the then outstanding 2023 Convertible Notes may declare all the 2023 Convertible Notes to be due and payable immediately.

The above descriptions of the New Convertible Notes are summaries only and qualified in their entirety by reference to the text of the 2022 Convertible Indenture and the 2023 Convertible Indenture, which are filed as Exhibits 4.1 and 4.2 hereto, respectively, and incorporated herein by reference.

Credit Agreement Amendment

On August 13, 2015, the Company, Royal Bank of Canada, as administrative agent and the lenders signatory to the Fourth Amended and Restated Credit Agreement, dated as of June 10, 2015 (the **Credit Agreement**), agreed to amend the Credit Agreement to allow the Company to redeem or purchase Existing Notes for up to \$200 million in cash subject to certain limitations. Among other things, the amendment also modifies the definition of Consolidated Net Income to exclude any income attributable to the cancellation or early extinguishment of any Indebtedness from the calculation of Consolidated Net Income and Consolidated EBITDA.

Terms capitalized in the foregoing paragraph have the meaning given to them in the Credit Agreement.

The description above is a summary only and is qualified in its entirety by reference to the First Amendment to the Credit Agreement, dated as of August 13, 2015, filed as Exhibit 10.1 to the Company's Form 8-K dated as of August 14, 2015 and incorporated herein by reference.
