- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 7.01. Regulation FD Disclosure**

On February 8, 2016, Diamond Offshore Drilling, Inc. (the Company) issued a press release announcing its entry into transactions with subsidiaries of GE Oil & Gas and its affiliates (GE) providing for GE to repurchase the Company's blowout-preventer systems aboard the Company's four drillships and to perform future maintenance, certification, repair and other services for the systems. A copy of the press release is furnished herewith as Exhibit 99.1.

The information contained in Item 7.01 and Exhibit 99.1 to this report shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), and shall not be incorporated by reference into any previous or future registration statement filed under the Securities Act of 1933, as amended (the Securities Act), unless specifically identified therein as being incorporated by reference.

Statements in the press release furnished as Exhibit 99.1 to this report that are not historical facts are forward-looking statements within the meaning of the federal securities laws. Such statements include, but are not limited to, statements concerning expected results or benefits to be achieved from the contract and arrangement, timing of application to specific drilling units, expectations of future costs and performance and other statements that are not of historical fact. Forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties that could cause actual results to differ materially from those anticipated or expected by management of the Company. A discussion of the risk factors and other considerations that could materially impact these matters as well as the Company's overall businesses and financial performances can be found in the Company's reports filed with the Securities and Exchange Commission, and readers of this press release are urged to review those reports carefully when considering these forward-looking statements. These risk factors include, among others, risks associated with worldwide demand for drilling services, level of activity in the oil and gas industry, renewing or replacing expired or terminated contracts, contract cancellations and terminations, maintenance and realization of backlog, competition and industry fleet capacity, impairments and retirements, operating risks, regulatory initiatives and compliance with governmental regulations, casualty losses, and various other factors, many of which are beyond the Company's control. Given these risk factors, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of such statement, and the Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based.
