Our Company

We are a designer, manufacturer and marketer of performance ride dynamics products used primarily on bicycles, Side-by-Sides, on-road vehicles with off-road capabilities, off-road vehicles and trucks, all-terrain vehicles, or ATVs, snowmobiles, specialty vehicles and applications, and motorcycles. We believe our products offer innovative design, performance, durability and reliability. Our brand is associated with high-performance and technologically advanced products, by which we generally mean products that provide users with improved control and a smoother ride while riding over rough terrain in varied environments. We believe that the performance of our products has been demonstrated by, and our brand benefits from, the success of professional athletes who use our products in elite competitive events, such as the Union Cycliste Internationale Mountain Bike World Cup and the X Games. We believe the exposure our products receive when used by successful professional athletes positively influences the purchasing habits of enthusiasts and other consumers seeking high-performance products. We believe that our strategic focus on the performance and racing segments in our markets influences many aspiring and enthusiast consumers who we believe seek to emulate the performance of professional and other elite athletes. We believe our products are generally sold at premium prices, which to us means manufacturer suggested retail sale prices that are generally in the upper quartile of their respective product categories.

We design our products for, and market our products to, some of the world's leading action sports OEMs and to consumers through the aftermarket channel. Many of our OEM customers, including Giant, Scott, Specialized and Trek in bikes and BRP, Ford, Yamaha and Polaris in powered vehicles, are among the market leaders in their respective product categories, and help shape, as well as respond to, consumer trends in their respective categories. We believe that OEMs often prominently display and incorporate our products to improve the marketability and consumer demand for their performance models, which reinforces our brand image. In addition, consumers select our products in the aftermarket channel where we market through a global network of dealers and distributors. We currently sell to more than 200 OEMs and distribute our products to more than 5,000 retail dealers and distributors worldwide. In 2015, 63% of our sales resulted from sales to OEM customers and 37% resulted from sales to dealers and distributors for resale in the aftermarket channel. No material portion of our business is subject to renegotiation of profit or termination of contracts or subcontracts at the election of the U.S. government.

Table of Contents

Our domestic sales totaled \$163.1 million, \$128.3 million and \$96.1 million, or 44%, 42% and 35% of our total sales, in fiscal years 2015, 2014 and 2013, respectively. Our international sales totaled \$203.7 million, \$178.4 million and \$176.6 million, or 56%, 58% and 65% of our total sales, in fiscal years 2015, 2014 and 2013, respectively. Sales attributable to countries outside the United States are based on shipment location. Our international sales, however, do not necessarily reflect the location of the end users of our products as many of our products are incorporated into bikes that are assembled at international locations and then shipped back to the United States. We estimate, based on our internal projections, that approximately one-third of the end users of our products are located outside the United States.

Our history

Robert C. Fox, Jr. began developing suspension products in 1974 when, having participated in motocross racing, he sought to create a racing suspension shock that performed better than existing coil spring shocks. Working in a friend's garage, Mr. Fox created the Fox AirShox. The product was successful, and went into production in 1975. The next year, in 1976, Fox AirShox was used by the rider who won the AMA 500cc National Motocross Championship.

Sales of Fox AirShox grew rapidly and, in 1978, our operating subsidiary, Fox Factory, Inc., was incorporated in California. From 1978 to 1983, FOX suspension users won numerous major races including 500cc Grand Prix races (motocross), Baja 1000 races (off-road), AMA SuperBike races (motorcycle road racing), and the Indianapolis 500 race (auto racing), generating greater market awareness of the FOX brand among enthusiasts.

As Fox grew, we applied many of the same core suspension technologies developed for motocross racing to other categories. For example, in 1987 we started selling high-performance suspension products for snowmobiles. By 1991, we began supplying the mountain bike industry with rear shocks and we entered the ATV and other off-road vehicle markets in the mid-1990s. Starting in 2001, we began offering front fork suspension products for mountain bikes.

Fox Factory Holding Corp., the registrant of this offering, is the holding company of Fox Factory, Inc. Fox Factory Holding Corp. was incorporated in Delaware on December 28, 2007 by Compass Group Diversified Holdings LLC, or Compass, who purchased a controlling interest in us on January 4, 2008.

For clarification, we are not affiliated with Fox Head, Inc., or Fox Head, an action sports apparel company, although we have entered into an agreement with Fox Head clarifying the parties' respective use of Fox tradenames and service marks.

Emerging growth company status

We are an emerging growth company, as that term is defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. For as long as we qualify as an emerging growth company, we have taken, and may continue to take, advantage of certain exemptions from various reporting requirements that are applicable to other public companies that do not qualify as emerging growth companies, including, without limitation, not being required to comply with the auditor attestation requirements of Section 404(b) of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations relating to executive compensation and exemptions from the requirements of holding advisory say-on-pay, say-when-on-pay and golden parachute executive compensation votes.

Under the JOBS Act, we will remain an emerging growth company until the earliest of:

- n the last day of the fiscal year during which we have total annual gross revenues of \$1 billion or more;
- n the last day of the fiscal year following the fifth anniversary of our Initial Public Offering, or the IPO, in August 2013;
- n the date on which we have, during the previous three-year period, issued more than \$1 billion in non-convertible debt; or
- n the date on which we are deemed to be a large accelerated filer under the Securities Exchange Act of 1934, as amended, or the Exchange Act (i.e., the first day of the fiscal year after we have (i) more than \$700 million in outstanding common equity held by our non-affiliates, measured each year on the last day of our second fiscal quarter, and (ii) been public for at least 12 months).

The JOBS Act also provides that an emerging growth company can utilize the extended transition period provided in Section 7(a)(2)(B) of the Securities Act, for complying with new or revised accounting standards. However, we have chosen to opt out of such extended transition period, and, as a result, we have been complying, and will continue to comply, with new or revised accounting standards on the relevant dates on which adoption of such standards is required for companies that are not emerging growth companies. Section 107 of the JOBS Act provides that our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

RISK FACTORS

Any investment in our common stock involves a high degree of risk. You should carefully consider the risks described in the section entitled "Risk Factors" included in our 2015 Annual Report, as supplemented by the discussion below, and all of the information contained or incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision. The risks and uncertainties described below and in such incorporated documents are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of the following events occur, our financial condition, business and results of operations (including cash flows) may be materially adversely affected. In that event, the market price of our common stock could decline, we may be unable to pay distributions on our common stock and you could lose all or part of your investment.

Risks related to this offering and ownership of our common stock

The trading price of our common stock may be volatile, and you might not be able to sell your shares at or above the price you pay for the shares.

The trading price of our common stock could be volatile, and you could lose all or part of your investment in our common stock. Since our IPO in 2013, our stock price has fluctuated between \$20.75 and \$13.35 per share and such volatility may continue in the future. Factors affecting the trading price of our common stock could include:

- n variations in our operating results or those of our competitors;
- n new product or other significant announcements by us or our competitors;
- n changes in our product mix;
- n changes in consumer preferences;
- n fluctuations in currency exchange rates;
- n the gain or loss of significant customers;
- n recruitment or departure of key personnel;
- n changes in the estimates of our operating results or changes in recommendations by any securities analysts that elect to follow our common stock;

n changes in general economic conditions as well as conditions affecting our industry in particular; and

n sales of our common stock by us, our significant stockholders or our directors or executive officers.

In addition, in recent years, the stock market has experienced significant price fluctuations. Fluctuations in the stock market generally or with respect to companies in our industry could cause the trading price of our common stock to fluctuate for reasons unrelated to our business, operating results or financial condition. Some companies that have had volatile market prices for their securities have had securities class actions filed against them. A suit filed against us, regardless of its merits or outcome, could cause us to incur substantial costs and could divert management's attention.

Future sales of our shares, or the perception that such sales may occur, could cause our stock price to decline.

If our existing stockholders sell substantial amounts of our common stock in the public market after this offering, or are perceived by the public market as intending to sell, the trading price of our common stock could decline. As of March 8, 2016, we had 37,029,721 shares of common stock outstanding of which 17,866,130 are freely tradable in the public market. As of March 8, 2016, 19,163,591 shares of common stock outstanding were held by directors, executive officers and other affiliates and are subject to volume and manner of sale limitations under Rule 144 under the Securities Act, including the shares offered by the selling stockholder and the option stockholder in this offering.

After our IPO, we filed a registration statement under the Securities Act to register shares of our common stock that we may issue under our equity plans. As a result, all such shares can be freely sold in the public market upon issuance, subject to any vesting or contractual lock-up agreements.

In March, 2015 we filed a Shelf Registration Statement on Form S-3 with the SEC to enable us, and certain of our stockholders, to quickly go to market should we, or certain of our stockholders, wish to sell our common stock, or

Table of Contents

additionally, in our case, certain other debt instruments. The selling stockholder and the option stockholder are selling their shares in this offering pursuant to such Shelf Registration Statement.

In addition, our Amended and Restated Certificate of Incorporation authorizes us to issue 90,000,000 shares of common stock, of which 37,029,721 shares were outstanding as of March 8, 2016. In the future, we may issue additional shares of common stock or other equity or debt securities convertible into common stock in connection with a financing, acquisition or otherwise. If any of these additional shares described are sold, or if it is perceived that they will be sold, in the public market, the trading price of our common stock could decline.

We are an emerging growth company, and the reduced disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors.

We are an emerging growth company, as defined in the JOBS Act. For as long as we are an emerging growth company, we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404(b) of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding advisory say-on-pay and say-when-on-pay votes on executive compensation and shareholder advisory votes on golden parachute compensation. We will remain an emerging growth company until the earliest of (i) the last day of the fiscal year during which we have total annual gross revenues of \$1 billion or more; (ii) the last day of the fiscal year following the fifth anniversary of the completion of our IPO; (iii) the date on which we have, during the previous three-year period, issued more than \$1 billion in non-convertible debt; or (iv) the date on which we are deemed to be a large accelerated filer under the Exchange Act.

We cannot predict if investors will find our common stock less attractive to the extent we rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

If securities or industry analysts do not publish research or publish unfavorable research about our business, our stock price and trading volume could decline.

The trading market for our common stock depends in part on the research and reports that securities or industry analysts publish about us or our business. If one or more of the analysts who covers us downgrades our stock or publishes unfavorable research about our business or our industry, our stock price would likely decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, demand for our stock could decrease, which could cause our stock price and trading volume to decline.

Compass and our directors and officers and insiders have substantial control over us and will be able to influence corporate matters.

As of March 8, 2016, Compass beneficially owned approximately 40.8% of our outstanding common stock, and Compass, our directors and executive officers, and their affiliates beneficially owned, in the aggregate, approximately 53.1% of our outstanding common stock. Upon completion of this offering and the share repurchase, assuming no exercise by the underwriter of its option to purchase additional shares, Compass beneficially will own approximately 33.1% of our outstanding common stock, and Compass, our directors and executive officers, and their affiliates beneficially will own, in the aggregate, approximately 45.9% of our outstanding common stock. As a result, these stockholders are able to exercise significant influence over all matters requiring stockholder approval, including the election of directors, amendment of our Amended and Restated Certificate of Incorporation, and approval of any

merger, consolidation, or sale of all, or substantially all, of our assets or other significant corporate transactions. In addition, Compass continues to have input on all matters before our board of directors because our director Elias Sabo is affiliated with Compass. Compass may also delay or prevent a change of control or otherwise discourage a potential acquirer from attempting to obtain control of us, even if such a change of control would benefit our other stockholders. So long as Compass or any of its affiliates continue to indirectly own a significant amount of our outstanding common stock, they will continue to be able to significantly influence our decisions.

In addition, Compass is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that may compete directly or indirectly with us. Compass may also pursue acquisition opportunities that are complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Anti-takeover provisions in our charter documents and Delaware law could discourage, delay or prevent a change in control of our company.

Our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, or our Charter Documents, as well as Delaware law, contain provisions that may discourage, delay or prevent a change in our management or control over us that stockholders may consider favorable. Among other things, these provisions:

- n authorize the issuance of blank check preferred stock that could be issued by our board of directors to discourage a takeover attempt;
- n establish a classified board of directors, as a result of which the successors to the directors whose terms have expired will be elected to serve from the time of election and qualification until the third annual meeting following their election;
- n require that directors be removed from office only for cause;
- n provide that vacancies on our board of directors, including newly created directorships, may be filled only by a majority vote of directors then in office;
- n from and after the date that Compass and its affiliates no longer collectively beneficially own (as determined pursuant to Rule 13d-3 under the Exchange Act), directly or indirectly, at least a majority of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors, or the Trigger Date, prohibit stockholder action by written consent, requiring all actions to be taken at a meeting of the stockholders;
- n provide that special meetings of our stockholders may be called only by our board of directors, our Chairperson of the board of directors, our Lead Director (if we do not have a Chairperson or the Chairperson is disabled), our Chief Executive Officer or our President (in the absence of a Chief Executive Officer) or, until the Trigger Date, Compass;
- n from and after the Trigger Date, require supermajority stockholder voting for our stockholders to effect certain amendments to our Charter Documents; and
- n establish advance notice requirements for nominations for elections to our board of directors or for proposing other matters that can be acted upon by stockholders at stockholder meetings.

In addition, we are subject to Section 203 of the General Corporation Law of the State of Delaware, or DGCL, which generally prohibits a Delaware corporation from engaging in any broad range of business combinations with a stockholder owning 15% or more of such corporation's outstanding voting stock for a period of three years following the date on which such stockholder became an interested stockholder. In order for us to consummate a business

combination with an interested stockholder within three years of the date on which the stockholder became interested, either (i) the business combination or the transaction that resulted in the stockholder becoming interested must be approved by our board of directors prior to the date the stockholder became interested, (ii) the interested stockholder must own at least 85% of our outstanding voting stock at the time the transaction commences (excluding voting stock owned by directors who are also officers and certain employee stock plans) or (iii) the business combination must be approved by our board of directors and authorized by at least two-thirds of our stockholders (excluding the interested stockholder) at a special or annual meeting (not by written consent). This provision could have the effect of delaying or preventing a change in control, whether or not it is desired by or beneficial to our stockholders. Any delay or prevention of a change in control transaction or changes in our board of directors and management could deter potential acquirers or prevent the completion of a transaction in which our stockholders could receive a substantial premium over the then-current market price for their shares of our common stock.

Our Amended and Restated Certificate of Incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers or other employees.

Our Amended and Restated Certificate of Incorporation provides that, with certain limited exceptions, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of fiduciary duty owed by any director, officer or other employee of our company owed to us or our stockholders, (iii) any action asserting a claim against us arising pursuant to any provision of the DGCL or our Charter

Table of Contents

Documents, (iv) any action to interpret, apply, enforce or determine the validity of our Charter Documents, or (v) any action asserting a claim governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock is deemed to have received notice of and consented to the foregoing provisions. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find this choice of forum provision inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

This section summarizes the material U.S. federal income tax consequences of the purchase, ownership and disposition of our common stock by a non-U.S. holder as of the date hereof. For purposes of this section, a non-U.S. holder means a beneficial owner of our common stock (other than a partnership) that is not for U.S. federal income tax purposes any of the following:

- n an individual citizen or resident of the United States;
- n a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- n an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- n a trust if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

This section does not consider the specific facts and circumstances that may be relevant to a particular non-U.S. holder, including the impact of the Medicare contribution tax on net investment income, nor does it address any estate or gift tax consequences or the treatment of a non-U.S. holder under the laws of any state, local or foreign taxing jurisdiction. In addition, it does not represent a detailed description of the U.S. federal income tax consequences applicable to you if you are subject to special treatment under the U.S. federal income tax laws (including if you are a United States expatriate; a person holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment; a bank, insurance company or other financial institution; a broker, dealer or trader in securities; a person deemed to sell our common stock under the constructive sale provisions of the Code; a controlled foreign corporation or passive foreign investment company; or a partnership or other pass-through entity for U.S. federal income tax purposes). This section deals only with common stock that is held as a capital asset. This section is based on the tax laws of the United States, including the Internal Revenue Code of 1986, as amended (the Code), existing and proposed regulations, and administrative and judicial interpretations, all as currently in effect. These laws are subject to change, possibly on a retroactive basis, which may result in U.S. federal income tax consequences different from those summarized below.

If an entity treated as a partnership for U.S. federal income tax purposes holds our common stock, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. A partner in a partnership holding the common stock should consult its tax advisor with regard to the United States federal income tax treatment of an investment in the common stock.

You should consult a tax advisor regarding the U.S. federal tax consequences of acquiring, holding and disposing of common stock in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local or foreign tax jurisdiction.

Distributions on common stock

If we make cash or other property distributions on shares of our common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and will first be applied against and reduce a holder's adjusted tax basis in the common stock, but not below zero. Distributions in excess of our current and accumulated earnings and profits and in excess of a non-U.S. holder's tax basis in its shares will be treated as capital gain realized on the sale or other disposition of the common stock and will be treated as described under "Gain on disposition of common stock" below.

S-20

Table of Contents

Except as described below, if you are a non-U.S. holder of common stock, dividends paid to you are subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have furnished us with:

- n a valid Internal Revenue Service Form W-8BEN, Form W-8BEN-E or other applicable form upon which you certify, under penalties of perjury, your status as a non-United States person and your entitlement to the lower treaty rate with respect to such payments, or
- n in the case of payments made to certain foreign intermediaries, other documentary evidence establishing your entitlement to the lower treaty rate in accordance with U.S. Treasury regulations.

If you are eligible for a reduced rate of United States withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by timely filing a refund claim with the United States Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, and, if required by a tax treaty, the dividends are attributable to a permanent establishment maintained in the United States, we generally are not required to withhold tax from the dividends, provided that you have furnished to us a valid Internal Revenue Service Form W-8ECI or other applicable form upon which you represent, under penalties of perjury, that:

- n you are a non-United States person, and
- n the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

Effectively connected dividends are taxed at the regular graduated U.S. federal income tax rates applicable to United States citizens, resident aliens and domestic United States corporations.

If you are a corporate non-U.S. holder, effectively connected dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on disposition of common stock

Subject to the discussion of backup withholding and withholding tax relating to foreign accounts below, if you are a non-U.S. holder, you generally will not be subject to U.S. federal income tax on gain that you recognize on a disposition of our common stock unless:

- n

the gain is effectively connected with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to U.S. taxation on a net income basis,

- n you are an individual, you are present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist, or

- n we are or have been a U.S. real property holding corporation for federal income tax purposes and you held, directly or indirectly, at any time during the shorter of the five year period preceding the date of disposition or your holding period of our common stock, more than 5% of the common stock and you are not eligible for any treaty exemption.

An individual non-U.S. holder described in the first bullet point immediately above will be subject to tax on the net gain derived from the sale under regular graduated U.S. federal income tax rates. An individual non-U.S. holder described in the second bullet point immediately above will be subject to a flat 30% tax on the gain derived from the sale, which may be offset by U.S. source capital losses, even though the individual is not considered a resident of the United States. If you are a corporate non-U.S. holder, effectively connected gains that you recognize may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Table of Contents

We have not been, are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

Additional withholding tax relating to foreign accounts

Under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or FATCA), a 30% United States federal withholding tax may apply to any dividends regardless of when they are paid, and the gross proceeds from a disposition of our common stock occurring after December 31, 2018, in each case paid to (i) a foreign financial institution (as defined in the Code), whether such foreign financial institution is the beneficial owner or an intermediary, unless such foreign financial institution agrees to verify, report and disclose its United States account holders (as defined in the Code) and meets certain other specified requirements or (ii) a non-financial foreign entity, whether such non-financial foreign entity is the beneficial owner or an intermediary, unless such entity provides a certification that the beneficial owner of the payment does not have any substantial United States owners or provides the name, address and taxpayer identification number of each such substantial United States owner and certain other specified requirements are met. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. In certain cases, the relevant foreign financial institution or non-financial foreign entity may qualify for an exemption from, or be deemed to be in compliance with, these rules. You should consult your own tax advisor regarding FATCA and whether it may be relevant to your ownership and disposition of our common stock.

Backup withholding and information reporting

We must report annually to the IRS and to each non-U.S. holder the amount of distributions on our common stock paid to such holder and the amount of tax withheld, if any, with respect to those distributions. These information reporting requirements apply even if no withholding was required. This information also may be made available under a specific treaty or agreement to the tax authorities in the country in which the non-U.S. holder resides or is established.

Backup withholding may apply to distribution payments to a non-U.S. holder of our common stock and information reporting and backup withholding may apply to the payments of the proceeds of a sale of our common stock within the U.S. or through certain U.S.-related financial intermediaries, unless the non-U.S. holder furnishes to us or our paying agent the required certification as to its non-U.S. status, such as by providing a valid IRS Form W-8BEN, Form W-8BEN-E or IRS Form W-8ECI, or certain other requirements are met. Notwithstanding the foregoing, backup withholding may apply if either we have or our paying agent has actual knowledge, or reason to know, that the holder is a U.S. person that is not an exempt recipient.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS. Non-U.S. holders should consult their tax advisors regarding the application of the information reporting and backup withholding rules to them.

Table of Contents**UNDERWRITING**

Subject to the terms and conditions set forth in the underwriting agreement, dated March 11, 2016, among us, the selling stockholder, the option stockholder and Jefferies LLC, as underwriter, the selling stockholder and the option stockholder (if the underwriter's option to purchase additional shares described below is exercised) have agreed to sell to the underwriter, and the underwriter has agreed to purchase from the selling stockholder and the option stockholder (if the underwriter's option to purchase additional shares described below is exercised), the entire number of shares of common stock offered by this prospectus supplement.

The underwriting agreement provides that the obligations of the underwriter are subject to certain conditions precedent such as the receipt by the underwriter of officers' certificates and legal opinions and approval of certain legal matters by its counsel. We, the selling stockholder and the option stockholder have agreed to indemnify the underwriter and certain of its controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make in respect of those liabilities.

The underwriter is offering the shares of common stock subject to its acceptance of the shares of common stock from the selling stockholder and the option stockholder (if applicable) and subject to prior sale. The underwriter reserves the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commission and Expenses

The underwriter has advised us that it proposes to offer the shares of our common stock to the public at the public offering price set forth on the cover page of this prospectus supplement. If all the shares of common stock are not sold at the public offering price, the underwriter may change the offering price and may offer shares from time to time for sale in negotiated transactions or otherwise, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. In connection with the sale of the shares of our common stock offered hereby, the underwriter may be deemed to have received compensation in the form of an underwriting discount. The underwriter may effect such transactions by selling shares of our common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and / or purchasers of shares of our common stock for whom they may act as agents or to whom they may sell as principal.

The following table shows the public offering price, the underwriting discount and commission that the selling stockholder and the option stockholder (if applicable) are to pay the underwriter and the proceeds, before expenses, to the selling stockholder and the option stockholder (if applicable) in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriter's option to purchase additional shares from the option stockholder.

Listing

Our common stock is listed on NASDAQ Global Select Market under the trading symbol **FOXF** .

Stamp Taxes

If you purchase shares of common stock offered in this prospectus supplement and the accompanying prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus supplement.

Option to Purchase Additional Shares

The option stockholder has granted to the underwriter an option, exercisable for 30 days from the date of this prospectus supplement, to purchase, from time to time, in whole or in part, up to an aggregate of 375,000 shares from the option stockholder at the public offering price set forth on the cover page of this prospectus supplement, less underwriting discounts and commissions.

No Sales of Similar Securities

We, our officers, directors, the option stockholder and the selling stockholder have agreed, subject to specified exceptions, not to directly or indirectly:

- n offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of stock or any securities convertible into or exercisable or exchangeable for stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or

- n enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the stock or any such other securities,

whether any such transaction described in the bullet points above is to be settled by delivery of stock or such other securities, in cash or otherwise.

This restriction terminates after the close of trading of the common stock on and including the 60th day after the date of this prospectus supplement.

The underwriter may, in its sole discretion and at any time or from time to time before the termination of the 60-day period, release all or any portion of the securities subject to lock-up agreements. There are no existing agreements between the underwriter, the option stockholder and the selling stockholder, providing consent to the sale of shares prior to the expiration of the lock-up period.

Stabilization

The underwriter has advised us that, pursuant to Regulation M under the Exchange Act, certain persons participating in the offering may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the

imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the common stock at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either covered short sales or naked short sales.

Covered short sales are sales made in an amount not greater than the underwriter's option to purchase additional shares of our common stock in this offering. The underwriter may close out any covered short position by either exercising its option to purchase additional shares of our common stock or purchasing shares of our common stock in the open market. In determining the source of shares to close out the covered short position, the underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which it may purchase shares through the option to purchase additional shares.

Naked short sales are sales in excess of the option to purchase additional shares of our common stock. The underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the shares of our common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

Table of Contents

A stabilizing bid is a bid for the purchase of shares of common stock on behalf of the underwriter for the purpose of fixing or maintaining the price of the common stock. A syndicate covering transaction is the bid for or the purchase of shares of common stock on behalf of the underwriter to reduce a short position incurred by the underwriter in connection with the offering. Similar to other purchase transactions, the underwriter's purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriter to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the common stock originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

None of us, the selling stockholder, the option stockholder or the underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. The underwriter is not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

The underwriter may also engage in passive market making transactions in our common stock on the NASDAQ Global Select Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our common stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

Electronic Distribution

A prospectus supplement and the accompanying prospectus in electronic format may be made available by e-mail or on the web sites or through online services maintained by the underwriter or its affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriter may agree with us to allocate a specific number of shares of common stock for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriter on the same basis as other allocations. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the underwriter's web site and any information contained in any other web site maintained by the underwriter is not part of this prospectus supplement and the accompanying prospectus, has not been approved and/or endorsed by us or the underwriter and should not be relied upon by investors.

Other Activities and Relationships

The underwriter and certain of its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriter and certain of its affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriter and certain of its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the

underwriter or its affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The underwriter and its affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the common stock offered hereby. Any such short positions could adversely affect future trading prices of the common stock offered hereby. The underwriter and certain of its affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, which we refer to as the SEC, utilizing a shelf registration process. Under this shelf registration process, we may from time to time sell shares of common stock, preferred stock, debt securities, warrants and units described in this prospectus in one or more offerings for an aggregate initial offering price of up to \$150,000,000, and our selling shareholders may offer up to 17,874,375 shares of our common stock.

This prospectus provides you with a general description of the common stock, preferred stock, debt securities, warrants and units that we may offer as well as a description of the common stock that our selling shareholders may offer. Each time we and/or the selling shareholders sell securities under this prospectus, we will provide one or more prospectus supplements that will contain specific information about the terms of the offering. The prospectus supplement may also add, update or change information contained in this prospectus. We caution you that the forward-looking statements highlighted above do not encompass all of the forward-looking statements made in this prospectus.

You should not rely upon forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this prospectus primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations, and prospects. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties, and other factors described in the section entitled "Risk factors" and elsewhere in this prospectus and the documents incorporated by reference in this prospectus. FOX FACTORY HOLDING CORP.

We are a designer, manufacturer and marketer of high-performance ride dynamics products, including suspension products, used primarily on mountain bikes, Side-by-Sides, on-road vehicles with off-road capabilities, off-road vehicles and trucks, all-terrain vehicles, or ATVs, snowmobiles, specialty vehicles and applications, and motorcycles. A suspension product allows wheels or skis (in the case of snowmobiles) to move up and down to absorb bumps and shocks while maintaining contact with the ground for better control. Our products use adjustable suspension, position sensitive damping, multiple air spring technologies, low weight and structural rigidity. We design our products for, and market our products to, some of the world's leading OEMs, in our markets, and to consumers through the aftermarket channel.

Our principal executive offices are located at 915 Disc Drive, Scotts Valley, CA 95066, and our phone number is (831) 274-6500. Our website address is www.ridefox.com. RISK FACTORS

Investing in our securities involves significant risks. Please see the risk factors under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 on file with the SEC, which are incorporated by reference in this prospectus and are updated in our quarterly reports on Form 10-Q. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus and any prospectus supplement. The risks and uncertainties we have described are not the only ones facing our Company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business operations.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED SHARE DIVIDENDS**

The table below sets forth our historical consolidated ratio of earnings to fixed charges and preferred share dividends for the periods indicated and should be read in conjunction with our consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, which is incorporated by reference herein. For further information, please see Exhibit 12.1 (Computation of Ratio of Earnings to Fixed Charges and Preferred Share Dividends) to the registration statement of which this prospectus forms a part. The ratio of earnings to combined fixed charges and preferred dividends is the same as the ratio of earnings to fixed charges for the period presented because no shares of preferred stock were outstanding during these periods.

	YEAR ENDED DECEMBER 31,				
	2014	2013	2012	2011	2010
Ratio of Earnings (1) to Fixed Charges ⁽¹⁾	17.8	8.6	6.9	9.3	7.0

⁽¹⁾ Calculated in accordance with Item 503(d) promulgated under the Securities Act

The ratios above were computed by dividing earnings by fixed charges or by dividing earnings by combined fixed charges and preferred dividends. For this purpose, earnings are calculated as follows: (1) adding (a) pre-tax income from continuing operations before adjustment for income or loss from equity investees; (b) fixed charges; (c) amortization of capitalized interest; (d) distributed income of equity investees; and (e) your share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges; and (2) subtracting from such total (a) interest capitalized; (b) preference security dividend requirements of consolidated subsidiaries; and (c) the noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges.

Fixed charges consist of that portion of rental expense associated with certain facility, equipment and vehicle leases considered to be a reasonable estimate of the interest factor. We did not pay or accrue any preferred dividends for the periods presented.

USE OF PROCEEDS

When specific securities are offered, the prospectus supplement relating thereto will set forth our intended use of the net proceeds that we receive from the sale of such securities. We will not receive any proceeds from the sale of common stock being offered by any of the selling shareholders.

Table of Contents

SELLING SHAREHOLDERS

This prospectus also relates to the possible resale by Compass Group Diversified Holdings LLC and Robert C Fox, Jr., who we refer to in this prospectus collectively as the selling shareholders, of up to 17,874,375 shares of our common stock that were issued and outstanding prior to the original date of filing of the registration statement of which this prospectus forms a part. Pursuant to our Amended and Restated Registration Rights Agreement dated as of May 12, 2013 (the Rights Agreement), the selling shareholders are entitled to rights regarding the registration of their unregistered shares of our common stock under the Securities Act.

Information about the selling shareholder, where applicable, including the amount of shares of common stock owned by each selling shareholder prior to the offering, the number of shares of our common stock to be offered by each selling shareholder and the amount of common stock to be owned by each selling shareholder after completion of the offering, will be set forth in an applicable prospectus supplement, documents incorporated by reference or in a free writing prospectus we file with the SEC. The applicable prospectus supplement will also disclose whether any of the selling shareholders has held any position or officer with, has been employed by or otherwise has had a material relationship with us during the three years prior to the date of the prospectus supplement.

The selling shareholders may not sell any shares of our common stock pursuant to this prospectus until we have identified such selling shareholders and shares being offered for resale by such selling shareholders in a prospectus supplement. However, the selling shareholders may sell or transfer all or a portion of their shares of our common stock pursuant to any available exemption from the registration requirements of the Securities Act.

DESCRIPTION OF CAPITAL STOCK

General

The following description summarizes the most important terms of our capital stock as included in our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, or our Charter Documents. Because it is only a summary, it does not contain all of the information that may be important to you. For a complete description of the matters set forth in this Description of Capital Stock, you should refer to our Charter Documents and Rights Agreement, as defined in -Registration Rights below, which are included as exhibits to the registration statement of which this prospectus forms a part, and to the applicable provisions of Delaware law. Our authorized capital stock consists of 90,000,000 shares of common stock, \$0.001 par value per share, and 10,000,000 shares of undesignated preferred stock, \$0.001 par value per share.

As of March 27, 2015, there were 36,871,531 shares of our common stock outstanding and no shares of our preferred stock outstanding. Our board of directors is authorized, without stockholder approval except as required by the listing standards of the NASDAQ Global Select Market, to issue additional shares of our capital stock.

Common stock

Dividend rights

Subject to preferences that may apply to any shares of preferred stock outstanding at the time, the holders of our common stock are entitled to receive dividends out of funds legally available if our board of directors, in its discretion, subject to applicable law, determines to issue dividends and then only at the times and in the amounts that our board of directors may determine.

Voting rights

Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders. We have not provided for cumulative voting for the election of directors in our Amended and Restated Certificate of Incorporation. Our Amended and Restated Certificate of Incorporation establishes a classified board of directors that is divided into three classes with staggered three-year terms. Only the directors in one class are subject to election at each annual meeting of our stockholders, with the directors in the other classes continuing for the remainder of their respective three-year terms.

No preemptive or similar rights

Our common stock is not entitled to preemptive rights, and is not subject to conversion, redemption or sinking fund provisions.

Right to receive liquidation distributions

If we become subject to a liquidation, dissolution or winding-up, the assets legally available for distribution to our stockholders would be distributable ratably among the holders of our common stock and any participating preferred stock outstanding at that time, subject to prior satisfaction of all outstanding debt and liabilities and the preferential rights of and the payment of liquidation preferences, if any, on any outstanding shares of preferred stock.

Table of Contents

Preferred Stock

Our board of directors is authorized, subject to limitations prescribed by Delaware law, to issue preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, and to fix the designation, powers, preferences, and rights of the shares of each series and any of its qualifications, limitations or restrictions, in each case without further vote or action by our stockholders. Our board of directors can also increase or decrease the number of shares of any series of preferred stock, but not below the number of shares of that series then outstanding, without any further vote or action by our stockholders. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of our common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in our control of our company and might adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock.

Options

As of March 27, 2015, we had outstanding options to purchase an aggregate of 1,698,213 shares of our common stock, with a weighted average exercise price of \$5.31, pursuant to our 2008 Stock Option Plan and our 2008 Non-Statutory Stock Option Plan. Of these options, the options to purchase an aggregate of 1,321,426 shares of our common stock were exercisable as of March 27, 2015.

Restricted Stock Units

As of March 27, 2015, we had 780,721 shares of common stock issuable upon vesting of restricted stock units granted to our directors, officers and other employees pursuant to our 2013 Omnibus Plan.

Registration Rights

The Selling Shareholders and certain other of our stockholders (and their permitted transferees) that are party to our Rights Agreement are entitled to rights regarding the registration of their unregistered shares of our common stock under the Securities Act.

Under the Rights Agreement, we have agreed that all expenses, other than underwriting discounts and commissions, incurred in connection with registrations, filings or qualifications effected pursuant to the Rights Agreement (but excluding the fees and disbursements of counsel to the holders of registration rights) will be borne by us. We are also obligated to indemnify the holders of registration rights and any underwriter, and the holders of registration rights are required to indemnify us, for certain liabilities in connection with offerings conducted under the Rights Agreement.

Piggyback registration rights

Pursuant to the terms of the Rights Agreement, if, subject to certain exceptions, we propose to register any of our securities under the Securities Act, either for our own account or for the account of other stockholders, we are required to give prompt written notice of such registration to our stockholders who are a party to the Rights Agreement. Upon the written request of such stockholders, we will, subject to certain limitations, use commercially reasonable efforts to cause to be registered under the Securities Act all registrable securities that our stockholders have requested to be registered. The underwriters of any underwritten offering will have the right to limit, due to marketing reasons, the number of shares registered to the amount that the underwriters determine in their sole discretion will not jeopardize the success of the offering. Other than those listed in **SELLING SHAREHOLDERS** below, each Fox shareholder with

rights to have their unregistered shares included in this Registration Statement has executed a waiver of such rights.

Table of Contents

Registration rights

Stockholders who are a party to the Rights Agreement can request that we register all or a portion of their registrable securities. As soon as practicable after receiving such request, we will effect such registration unless: (1) such registration of registrable securities on Form S-3 (or if Form S-3 is not permitted for such registration, then pursuant to Form S-1) would become effective prior to 90 days following the effective date of a registration initiated by us, subject to certain exceptions; (2) such stockholders propose to sell shares of our common stock or other securities at an aggregate price to the public (before deduction of any underwriters' discounts or commissions) of less than \$10.0 million with respect to a Form S-3 registration or \$30.0 million with respect to a Form S-1 registration; (3) such registration is to remain effective for a period exceeding 180 days from the effective date thereof; or (4) within the 12 month period preceding the date of such request, we have already effected two registrations for our stockholders under the Rights Agreement.

Additionally, we will have the right to delay the filing of or suspend the use of a registration statement under certain circumstances when we are in possession of material non-public information.

Expiration of registration rights

The registration rights expire as to a holder in May 2018 or earlier if a holder no longer holds registrable securities as defined in the Rights Agreement.

Anti-Takeover Effects

The provisions of Delaware law, and our Charter Documents, which are summarized below, may have the effect of delaying, deferring, or discouraging another person from acquiring control of our company. These provisions are expected to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of our company to first negotiate with our board of directors. However, these provisions could have the effect of delaying, discouraging or preventing attempts to acquire us, which could deprive our stockholders of opportunities to sell their securities at prices higher than prevailing market prices.

Delaware Law

We are governed by the provisions of Section 203 of the DGCL. In general, Section 203 prohibits a public Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A business combination includes mergers, asset sales, or other transactions resulting in a financial benefit to the stockholder. An interested stockholder is a person who, together with affiliates and associates, owns, or within three years did own, 15% or more of the corporation's outstanding voting stock. These provisions may have the effect of delaying, deferring or preventing a change in our control.

Amended and Restated Certificate of Incorporation and Amended and Restated Bylaw provisions

Our Charter Documents include a number of provisions that could deter hostile takeovers or delay or prevent changes relating to the control of our board of directors or management team, including the following:

Board of directors vacancies. Our Charter Documents authorize only our board of directors to fill vacant directorships, including newly created seats. In addition, the number of directors constituting our board of directors is permitted to be set only by a resolution adopted by a majority vote of our entire board of directors. These provisions prevent a stockholder from increasing the size of our board of directors and then gaining control of our board of directors by filling the resulting vacancies with its own nominees. This makes it more difficult to change the composition of our board of directors and promotes continuity of management.

Table of Contents

- n *Classified board.* Our Charter Documents provide that our board of directors is classified into three classes of directors. A third party may be discouraged from making a tender offer or otherwise attempting to obtain control of us as it is more difficult and time consuming for stockholders to replace a majority of the directors on a classified board of directors.

- n *Stockholder action; special meeting of stockholders.* Our Amended and Restated Certificate of Incorporation provides that our stockholders may take action by written consent only so long as Compass Group Diversified Holdings LLC and its affiliates collectively beneficially own (as determined pursuant to Rule 13d-3 under the Exchange Act), directly or indirectly, at least a majority of the voting power of all then outstanding shares of our capital stock. From and after the date on which Compass Group Diversified Holdings LLC no longer owns a majority of the voting power of all then outstanding shares of our capital stock, our stockholders may not take action by written consent and may only take action at annual or special meetings of our stockholders. On July 10, 2014, Compass Group Diversified Holdings LLC participated in a secondary offering of our common stock, selling 4,466,569 shares of FOX common stock. Upon completion of the secondary offering, Compass Group Diversified Holdings LLC's share ownership in us decreased from approximately 53% to 41%. As a result of Compass Group Diversified Holdings LLC no longer owning at least a majority of the voting power of all outstanding shares of our capital stock, our stockholders may not take action by written consent and may only take action at annual or special meetings of our stockholders. In addition, our Amended and Restated Bylaws currently provide that special meetings of our stockholders may be called only by our board of directors, our Chairperson of the board of directors, our Lead Director (if we do not have a Chairperson or the Chairperson is disabled), our Chief Executive Officer or our President (in the absence of a Chief Executive Officer), thus prohibiting a stockholder from calling a special meeting. These provisions could delay the ability of our stockholders to force consideration of a proposal or take action, including the removal of directors.

- n *Advance notice requirements for stockholder proposals and director nominations.* Our Amended and Restated Bylaws provides advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders or to nominate candidates for election as directors at our annual meeting of stockholders. Our Amended and Restated Bylaws also specify certain requirements regarding the form and content of a stockholder's notice. These provisions might preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders if the proper procedures are not followed. We expect that these provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

- n *No cumulative voting.* The DGCL provides that stockholders may cumulate votes in the election of directors if the corporation's certificate of incorporation allows for such mechanism. Our Amended and Restated Certificate of Incorporation does not permit cumulative voting.

- n *Directors removed only for cause.* Our Amended and Restated Certificate of Incorporation provides that stockholders may remove directors only for cause.

n

Issuance of undesignated preferred stock. Our board of directors has the authority, without further action by the stockholders, to issue up to 10,000,000 shares of undesignated preferred stock with rights and preferences, including voting rights, designated from time to time by our board of directors. The existence of authorized but unissued shares of preferred stock would enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest, or other means.

Table of Contents

- n *Amendment of Charter Document provisions.* Our Amended and Restated Certificate of Incorporation currently requires any amendment or repeal of the above provisions in our Charter Documents, with the exception of the ability of our board of directors to issue shares of preferred stock and designate any rights, powers and preferences thereto, will require approval by holders of at least two-thirds of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors.

Choice of forum

Our Amended and Restated Certificate of Incorporation provides that, with certain limited exceptions, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of fiduciary duty owed by any director, officer or other employee of our company owed to us or our stockholders, (iii) any action asserting a claim against us arising pursuant to any provision of the DGCL or our Charter Documents, (iv) any action to interpret, apply, enforce or determine the validity of our Charter Documents, or (v) any action asserting a claim governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock is deemed to have received notice of and consented to the foregoing provisions. The enforceability of similar choice of forum provisions in other companies' charters has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be inapplicable or unenforceable.

Transfer Agent and Registrar

The transfer agent and registrar for our securities is Computershare Trust Company, N.A. The transfer agent and registrar's address is 250 Royall Street, Canton, Massachusetts 02021.

NASDAQ Global Select Market

Our common stock is listed on The NASDAQ Global Select Market under the symbol FOXF.

Table of Contents

DESCRIPTION OF DEBT SECURITIES

The following is a summary of the general terms of the debt securities. We will file a prospectus supplement that may contain additional terms when we issue debt securities. The terms presented here, together with the terms in a related prospectus supplement, will be a description of the material terms of the debt securities. You should also read the indenture under which the debt securities are to be issued. We have filed a form of indenture governing different types of debt securities with the SEC as an exhibit to the registration statement of which this prospectus is a part. All capitalized terms have the meanings specified in the indenture.

We may issue, from time to time, debt securities, in one or more series, that will consist of either our senior debt, our senior subordinated debt or our subordinated debt. We refer to the subordinated debt securities and the senior subordinated debt securities together as the subordinated securities. The debt securities we offer will be issued under an indenture between us and an indenture trustee specified in any applicable prospectus supplement. Debt securities, whether senior, senior subordinated or subordinated, may be issued as convertible debt securities or exchangeable debt securities. The following is a summary of the material provisions of the indenture filed as an exhibit to the registration statement of which this prospectus is a part. For each series of debt securities, the applicable prospectus supplement for the series may change and supplement the summary below.

General Terms of the Indenture

The indenture does not limit the amount of debt securities that we may issue. It provides that we may issue debt securities up to the principal amount that we may authorize and may be in any currency or currency unit that we may designate. We may, without the consent of the holders of any series, increase the principal amount of securities in that series in the future, on the same terms and conditions and with the same CUSIP numbers as that series. Except for the limitations on consolidation, merger and sale of all or substantially all of our assets contained in the indenture, the terms of the indenture do not contain any covenants or other provisions designed to give holders of any debt securities protection against changes in our operations, financial condition or transactions involving us.

We may issue the debt securities issued under the indenture as discount securities, which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may be issued with original issue discount, or OID, for U.S. federal income tax purposes because of interest payment and other characteristics. Material U.S. federal income tax considerations applicable to debt securities issued with original issue discount will be described in more detail in any applicable prospectus supplement.

The applicable prospectus supplement for a series of debt securities that we issue will describe, among other things, the following terms of the offered debt securities:

- n the title and authorized denominations of the series of debt securities;
- n any limit on the aggregate principal amount of the series of debt securities;
- n whether such debt securities will be issued in registered or unregistered form, or both, and whether such debt securities will be issued with or without coupons;

The term Event of Default, when used in the indenture, unless otherwise indicated, means any of the following:

- n failure to pay interest for 30 days after the date payment is due and payable;
- n failure to pay principal or premium, if any, on any debt security when due, either at maturity, upon any redemption, by declaration or otherwise;
- n failure to make sinking fund payments when due;

n events in bankruptcy, insolvency or reorganization relating to us; or

n any other Event of Default provided in the applicable officer's certificate, resolution of our board of directors or the supplemental indenture under which we issue a series of debt securities.

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the indenture.

If an Event of Default with respect to any series of senior debt securities occurs and is continuing, then either the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, by notice in writing, may declare the principal amount of and interest on all of the debt securities of such series to be due and payable immediately; provided, however, unless otherwise provided in the applicable prospectus supplement, if such an Event of Default occurs and is continuing with respect to more than one series of senior debt securities under the indenture, the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of all such series of senior debt securities of equal ranking (or, if any of such senior debt securities are discount securities, such portion of the principal amount as may be specified in the terms of that series), voting as one class, may make such declaration of acceleration as to all series of such equal ranking and not the holders of the debt securities of any one of such series of senior debt securities.

If an Event of Default with respect to any series of subordinated securities occurs and is continuing, then either the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, by notice in writing, may declare the principal amount of and interest on all of the debt securities of such series to be due and payable immediately; provided, however, unless otherwise provided in the applicable prospectus supplement, if such an Event of Default occurs and is continuing with respect to more than one series of subordinated securities under the indenture, the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of all such series of subordinated securities of equal ranking (or, if any of such subordinated securities are discount securities, such portion of the principal amount as may be specified in the terms of that series), voting as one class, may make such declaration of acceleration as to all series of equal ranking and not the holders of the debt securities of any one of such series of subordinated securities.

The holders of not less than a majority in aggregate principal amount of the debt securities of all affected series of equal ranking may, after satisfying certain conditions, rescind and annul any of the above-described declarations and consequences involving such series.

If an Event of Default relating to events in bankruptcy, insolvency or reorganization of us occurs and is continuing, then the principal amount of all of the debt securities outstanding, and any accrued interest, will automatically become due and payable immediately, without any declaration or other act by the trustee or any holder.

The indenture imposes limitations on suits brought by holders of debt securities against us. Except for actions for payment of overdue principal or interest, no holder of debt securities of any series may institute any action against us under the indenture unless:

- n the holder has previously given to the trustee written notice of default and continuance of such default;
- n the holders of not less than a majority in principal amount of the outstanding debt securities of the affected series of equal ranking have requested that the trustee institute the action;
- n the requesting holders have offered the trustee security or indemnity satisfactory to the trustee against the costs, expenses and liabilities which may be incurred by it in compliance with such request or direction;
- n the trustee has not instituted the action within 60 days of the request; and
- n the trustee has not received inconsistent direction by the holders of a majority in principal amount of the outstanding debt securities of the affected series of equal ranking.

We will be required to file annually with the trustee a certificate, signed by one of our officers, stating whether or not the officer knows of any default by us in the performance, observance or fulfillment of any condition or covenant of the indenture.

In such case, we will issue one or more registered global securities denominated in an amount equal to the aggregate principal amount of all of
