Westport Closes Second Tranche of

Cartesian Investment

*~Cartesian Capital Group purchases Westport Hong Kong economic
interest citing long-term view of natural gas vehicle market in China~*

April 20, 2016

VANCOUVER, BC Westport Innovations Inc. (TSX:WPT / NASDAQ:WPRT) (**Westport**), engineering the world's most advanced natural gas engines and vehicles, today announced that it has sold a derivative economic interest (the **Derivative**) in its Hong Kong holding company, Westport Hong Kong Ltd. (**Westport HK**), to Cartesian Capital Group (**Cartesian**) for an upfront payment of US\$6.3 million plus a potential future payment based on Cartesian's return on investment. Westport previously announced its plans to enter into an asset sale transaction with Cartesian and its affiliates in a press release dated January 11, 2016.

The Derivative grants Cartesian the option to acquire a direct equity ownership interest in Westport HK on or after April 19, 2017, the first anniversary of the closing of the sale of the Derivative. The Derivative relates to the performance of a portion of Westport HK's assets over time. Westport retains the rights to the anticipated income from Westport HK during the period prior to any exercise of the option, subject to Westport making certain payments to Cartesian. In addition to the US\$6.3 million being paid to Westport, Cartesian has agreed to pay Westport 30% of any incremental value of the Derivative realized by Cartesian above a minimum threshold relative to the acquired economic interest in Westport HK. For competitive reasons, further details will not be disclosed at this time.

We are pleased to expand our relationship with Westport and its business in Asia as we believe there is a tremendous long-term potential for natural gas vehicles in this region, particularly in China, said Peter Yu, Managing Partner of Cartesian.

We believe that this is a significant improvement to the initially proposed asset sale transaction and sets Westport up for additional upside potential, said David Demers, Westport's CEO. Furthermore, Cartesian continuing to invest in key areas of our business is emblematic of our mutually-beneficial relationship.

About Westport

Westport engineers the world's most advanced natural gas engines and vehicles. More than that, we are fundamentally changing the way the world travels the roads, rails and seas. We work with original equipment manufacturers worldwide from design through to production, creating products to meet the growing demand for vehicle technology that will reduce both emissions and fuel costs.
