2016 Performance Highlights

2016 was a significant year for KeyCorp, with strong results and momentum across our businesses. Additionally, we successfully completed the acquisition of First Niagara Financial Group, Inc. (First Niagara), on August 1, 2016. The acquisition was the largest acquisition in Key's 200-year history. The acquisition added \$23 billion in loans, \$27 billion in deposits, one million new clients, expanded capabilities, and a stronger market presence. We completed the conversion of branches, systems, and clients in October 2016, which resulted in adding over 300 new branches and over 400 new ATMs.

Other significant aspects of our 2016 performance included the following:

- (1) Non-GAAP financial measure. Please see Figure 4 on page 39 of our 2016 Annual Report on Form 10-K for more information on this non-GAAP measure and a reconciliation to the most comparable GAAP measure.

Table of Contents***2017 Proxy Statement Summary*****Executive Compensation Highlights**

The objectives of our executive compensation program are to:

- Make pay decisions based on performance of the Company, the business unit and the individual;
- Deliver pay in a way that reinforces focus on balancing short- and long-term financial performance objectives; and
- Support sustainable performance with policies that are focused on prudent risk-taking and the balance between risk and reward.

We support our compensation program with a number of best practices in governance and executive compensation, including the following:

What We Do:	What We Don't Do:
Impose robust stock ownership guidelines	No employment agreements for executive officers
Subject shares to post-vesting holding period	No tax gross-ups
Double trigger change of control agreements	No SERPs
Use tally sheets	No hedging or pledging of KeyCorp securities
Review share utilization	No timing of equity grants
Retain an independent compensation consultant	No repricing of stock options
Subject all incentives to risk adjustment and clawback	

In 2016, KeyCorp demonstrated the ability to grow in a challenging environment. As a result of the momentum in our core businesses and our acquisition of First Niagara, we are now uniquely positioned to build on the progress we have made. We have clear and compelling strategic priorities, which include growing relationships, effectively managing risk and capital, generating strong returns, and achieving our financial targets. Our 2016 compensation highlights include:

PROPOSAL ONE:

Election of Directors

Our Board of Directors (the Board), elected by KeyCorp's shareholders, oversees the business and management of KeyCorp. Members of the Board monitor and evaluate KeyCorp's business performance through regular communication with the CEO and senior management and by participating in Board and Board committee meetings. The Board is committed to sound and effective corporate governance policies and high ethical standards. The size of the Board will be fixed at 16 members, effective as of the Annual Meeting of Shareholders. Joseph A. Carrabba, who served as a director during 2016, will continue to serve as a director of KeyCorp until this Annual Meeting, when he will retire and his term as a director will end. Under KeyCorp's Regulations, directors are elected to one-year terms expiring at each subsequent Annual Meeting of Shareholders.

Director Recruitment and Qualifications

The Nominating and Corporate Governance Committee is responsible for identifying, evaluating, and recommending to the Board a slate of nominees for election at each Annual Meeting of Shareholders. All director nominees must have a record of high integrity and other requisite personal characteristics and must be willing to make the time commitment required of directors. The Nominating and Corporate Governance Committee uses the following criteria when evaluating candidates who may become nominees for director:

a demonstrated breadth and depth of management and/or leadership experience, preferably in a senior leadership role with a large or recognized organization (private sector (profit or nonprofit), governmental, or educational);

a high level of professional or business expertise relevant to KeyCorp (including information technology, marketing, finance, banking or the financial industry, or risk management);

in the case of non-employee directors, satisfaction of the independence criteria set forth in KeyCorp's Standards for Determining Independence of Directors;

the candidate does not serve as a director of more than (i) two other public companies if he or she is a senior executive officer of a public company, or (ii) three other public companies if he or she is not a senior executive officer of a public company; and

the ability to think and act independently, as well as the ability to work constructively in the overall Board process.

The criteria used in director recruitment are flexible guidelines to assist in evaluating and focusing the search for director candidates.

The Board also considers whether the candidate would enhance the diversity of the Board in terms of gender, race, experience, and/or geography. The current composition of the Board reflects the Nominating and Corporate Governance Committee's focus in this area and the importance of diversity to the Board as a whole, with five female

directors, including the Chairman of our Board, and two minority directors.

In evaluating Board nominees who satisfy the above criteria, the committee also considers:

the skills and business experience currently needed for the Board by using a comprehensive skills matrix;

the current and anticipated composition of the Board in light of the business activities and strategic direction of KeyCorp and the diverse communities and geographies served by KeyCorp; and

Table of Contents

***2017 Proxy Statement* Proposal One: Election of Directors**

the interplay of the candidate's expertise and professional/business background in relation to the expertise and professional/business background of current Board members, as well as such other factors (including diversity) as the committee deems appropriate.

The Chair of the Nominating and Corporate Governance Committee extends an invitation to join the Board as a first-time director or to stand for election as a first-time nominee for director after discussion with and approval by the committee as a whole. If the candidate accepts, the Nominating and Corporate Governance Committee recommends the candidate to the entire Board for final approval.

The Nominating and Corporate Governance Committee retains an independent search firm to assist with identifying director candidates. The Nominating and Corporate Governance Committee has the sole authority to retain and terminate any search firm used to identify director candidates, including sole authority to approve its fees and the other terms of its engagement.

The Nominating and Corporate Governance Committee utilizes a matrix approach that tracks each director's and director nominee's qualities and qualifications in a tabular format to assist the committee in maintaining a well-rounded, diverse, and effective Board. In addition, the matrix approach helps the Nominating and Corporate Governance Committee identify any qualities, qualifications, and experience for potential director nominees that would help improve the composition of and add value to the Board. The Nominating and Corporate Governance Committee seeks directors who have held leadership positions in public companies and have experience in mergers and acquisitions, risk management, regulatory matters, the banking or financial industry, finance, cybersecurity, marketing, and retail and small business. The chart on the following page describes the qualifications and experience of our non-management directors who served on the Board during 2016.

Table of Contents

Public Company Experience

12/16 Directors

As a public company, we are subject to regulations by the Securities and Exchange Commission and the New York Stock Exchange. We believe that directors who have held leadership positions in a public company possess an understanding of the regulations and considerations that are unique to a public company.

Mergers and Acquisitions

11/16 Directors

We regularly evaluate merger and acquisition and strategic partnership opportunities. Most recently, we completed the First Niagara merger, the largest acquisition in Key's history. We value directors who have experience with mergers and acquisitions.

Cybersecurity

11/16 Directors

We rely heavily on information technology systems to conduct our business. A significant portion of our operations relies on the secure processing, storage, and transmission of personal and confidential information, such as the personal information of our customers. Cybersecurity experience is an increasingly important skill that we value in our directors.

Risk Management

8/16 Directors

Effectively managing risk and reward is one of Key's strategic priorities. In light of the Board's role in overseeing risk management and understanding the most significant risks facing Key, having directors with risk management experience is important to us.

Regulatory

7/16 Directors

Because we are subject to specialized regulations as a financial institution, we find it valuable to have directors with knowledge of banking regulations. Our Board also benefits from having a director who is a former bank regulator.

Banking or Financial Industry

6/16 Directors

We value directors who have experience in our industry. The First Niagara merger allowed us to increase the number of directors with experience in the banking industry.

Finance

5/16 Directors

We use numerous financial metrics to measure our performance and are also required to maintain certain minimum capital ratios. An understanding of finance and accounting is an important qualification for our directors. Several of our directors qualify as audit committee financial experts under SEC regulations.

Marketing

3/16 Directors

We operate in a highly competitive industry. As we strive to grow organically and increase our market share, having directors who have marketing experience is important to us.

*Retail and Small
Business*

3/16 Directors

We provide banking products to our customers, including small businesses, through our network of branches and ATMs. We believe that directors with retail and small business experience provide valuable insight into our retail branch network.

Table of Contents**2017 Proxy Statement Proposal One: Election of Directors**

The Nominating and Corporate Governance Committee is continually in the process of identifying potential director candidates, and individual Board members are encouraged to submit any potential nominee to the Chair of the Nominating and Corporate Governance Committee. Shareholders may also submit potential director nominees by providing appropriate prior written notice to the Secretary of KeyCorp. Page 76 of this proxy statement includes important information for shareholders who intend to submit a director nomination for the 2018 Annual Meeting of Shareholders.

In accordance with the terms of the merger agreement pursuant to which KeyCorp acquired First Niagara, during 2016 KeyCorp increased the number of directors on the KeyCorp Board from 14 to 17, and the KeyCorp Board appointed three former First Niagara directors to fill the vacancies. The three new directors, Austin A. Adams, Gary M. Crosby, and Carlton L. Highsmith, were reviewed and approved by the Nominating and Corporate Governance Committee and the full Board of Directors. Our new directors enhance our Board with their knowledge of the First Niagara businesses and the geographic markets in which First Niagara operated as well as by adding additional experience in the banking industry and with cybersecurity matters.

Election Process

KeyCorp has adopted a majority voting standard in uncontested elections of directors and plurality voting in contested elections. In an uncontested election, a nominee must receive a greater number of votes FOR than AGAINST his or her election. If an uncontested nominee who is already a director receives more AGAINST votes than FOR votes, that director nominee will continue to serve as a holdover director, but must submit to the Board an offer to resign as a director. The Nominating and Corporate Governance Committee will consider the holdover director's resignation and will submit a recommendation to accept or reject the resignation to the Board. The Board (excluding the holdover director) will act on the committee's recommendation and publicly disclose its decision.

2017 Nominees for Director

Upon the recommendation of the Nominating and Corporate Governance Committee, the Board has nominated the individuals identified on the following pages for election as directors. Each nominee is currently a director of KeyCorp. Biographical information for each nominee is provided as of the most recent practicable date. The Board believes that the qualifications and experience of the director nominees, as described below, will contribute to an effective and well-functioning Board. The Board and the Nominating and Corporate Governance Committee believe that the directors, individually and as a whole, possess the necessary qualifications to provide effective oversight of KeyCorp's business and quality advice and counsel to KeyCorp's management.

If elected, each nominee will continue to serve as a director until KeyCorp's 2018 Annual Meeting of Shareholders or until he or she resigns or is otherwise removed and his or her successor is duly elected and qualified. There is no reason to believe that any of these director nominees will be unable or unwilling to serve if elected. Should any nominee be unable to accept nomination or election, the proxies may be voted for the election of a substitute nominee recommended by the Board. Alternatively, the Board may recommend a shareholder vote holding the position vacant, to be filled by the Board at a later date.

Our Corporate Governance Guidelines provide that an incumbent director is not eligible to stand for election as a director upon reaching age 72. The Board of Directors has the authority to waive the retirement age for a specific

director for special circumstances. Such a waiver has been granted with respect to Austin A. Adams, who is currently 73 years old. Mr. Adams joined the Board on August 1, 2016, in connection with the First Niagara merger. As a former director of First Niagara, the Board believes that Mr. Adams's continued presence on the Board will facilitate our post-merger integration efforts and that Mr. Adams enhances our Board with his experience in the banking industry and with

cybersecurity matters. The Board thus granted Mr. Adams a waiver from the retirement age limit under our Corporate Governance Guidelines for the upcoming term.

The Board of Directors unanimously recommends that shareholders vote FOR each of the director nominees identified on the following pages.

The Board of Directors and Its Committees

Effective August 1, 2016, upon the closing of the First Niagara merger, the Board added Mr. Adams, Mr. Crosby, and Mr. Highsmith from the First Niagara Board, at which point the Board became comprised of 15 independent directors, one member of management (Ms. Mooney), and one non-management, non-independent director (Mr. Crosby). During the first seven months of 2016, the Board was comprised of 13 independent directors and one member of management (Ms. Mooney). The Board has added four new directors since 2015. Including the three newest directors added to the Board as a result of the First Niagara merger, both the median and average tenure of our current Board members is five years.

Board Leadership Structure

Our Board is committed to independent Board leadership. The Board's independent leadership and oversight responsibilities are realized through the guidance of our independent Lead Director, through our independent Board committee chairs, and through the full involvement of each of our independent directors. KeyCorp's independent directors have elected Alexander M. Cutler, who has served on the Board since 2000, as the Board's independent Lead Director for 2017.

Among his specific responsibilities, the independent Lead Director:

presides at all meetings of the Board at which the Chairman is not present, including executive sessions of the independent and non-management directors held after each regularly scheduled Board meeting;

serves as liaison between the Chairman and the independent and non-management directors;

approves Board meeting schedules as well as meeting materials and agendas for each full Board meeting and executive sessions of independent and non-management directors;

has the authority to call meetings of the independent and non-management directors or the full Board at any time;

participates in discussions with major shareholders regarding governance matters as part of KeyCorp's proactive shareholder engagement approach;

is in frequent contact with the Chairman with respect to major issues and strategic opportunities before KeyCorp, and any significant actions contemplated by KeyCorp are discussed with the Lead Director at an early stage;

advises on the retention of independent consultants to the Board;

interviews all candidates for election to the Board;

oversees changes to the composition of Board committees;

assists the Board and management in assuring compliance with applicable securities laws and fiduciary duties to shareholders;

oversees initiatives to implement improvements to KeyCorp's governance policies and the Corporate Governance Guidelines;

serves as a focal point for independent Committee Chairs, providing guidance, coordination, and advice for the committees;

together with the Chair of the Compensation and Organization Committee, facilitates the evaluation of the performance of KeyCorp's Chief Executive Officer; and

is available for additional duties as they may arise.

The Lead Director seeks input from independent and non-management directors during executive sessions with respect to items to be included on the agenda for each Board meeting and provides feedback from the independent and non-management directors while engaging in the agenda-building process.

Table of Contents

Annually, the independent and non-management directors assess the effectiveness of the Lead Director and provide important feedback on the performance of the Lead Director's specified responsibilities. The formal evaluation process is conducted with the Lead Director excused from participation.

Each standing committee of the Board is chaired by an independent director and consists solely of independent directors. Our independent directors have extensive corporate governance and leadership experience, and many have significant public company experience. During 2016, four of our independent directors were or had been chief executive officers with public companies.

In 2011, the Board elected Beth Mooney as KeyCorp's Chairman and Chief Executive Officer. The Board believes that KeyCorp has been well served by Ms. Mooney's combined role as Chairman and Chief Executive Officer. Ms. Mooney's combined leadership role has allowed her to set the overall tone and direction for KeyCorp, maintain consistency in the internal and external communication of our strategic and business priorities, and have primary responsibility for managing KeyCorp's operations. Our many conversations between our directors and our shareholders regarding their views on Board leadership and independent oversight have confirmed our view that a strong, effective Lead Director, like Mr. Cutler, an independent Board, and independent key committees provide the independent leadership necessary to balance the combined Chairman and Chief Executive Officer role and, with the formal and informal mechanisms we have in place to facilitate the work of the Board and its committees, results in the Board effectiveness and efficiency that our shareholders expect. At last year's Annual Meeting, 73% of the shares represented at the meeting voted against a shareholder proposal to require an independent Board Chairman.

The Board annually (or more often if a new Chief Executive Officer is selected) evaluates KeyCorp's leadership structure to assess whether it remains appropriate for the Company, taking into account a variety of factors including KeyCorp's size, the nature of its business, the regulatory framework in which it operates, and the leadership structure of its peers. The Board believes that a primary consideration for KeyCorp is that, as a large financial institution subject to significant regulation, KeyCorp must communicate swiftly and consistently with our stakeholders, including our regulators. We believe that swift and consistent communication is significantly furthered if KeyCorp's leadership, through our Chairman and Chief Executive Officer, speaks as a single voice on behalf of both the Board and management.

The Board believes it is in the best interest of KeyCorp and its shareholders to maintain the flexibility to determine the best way to realize independent Board leadership, rather than establishing a leadership structure through rigid policy. In this regard, our Regulations provide the Board with flexibility to separate or combine the roles of Chairman and Chief Executive Officer as it deems necessary from time to time and on a case-by-case basis.

Board and Committee Responsibilities

KeyCorp's Board of Directors delegates various responsibilities and authority to its four standing committees: Audit, Compensation and Organization, Nominating and Corporate Governance, and Risk. The Board has also established an Executive Committee that serves the functions described on page 18 of this proxy statement. The committees regularly report on their activities and actions to the full Board. The Board, with the recommendation of the Nominating and Corporate Governance Committee and in consultation with the Lead Director, appoints the members of the committees, and has determined that each member of a standing committee is an independent director under New York Stock Exchange independence standards.

The Board held 14 meetings during 2016. At every regularly-scheduled Board meeting, the independent and non-management members of the Board met in executive session (i.e., without

Ms. Mooney or any other employee of KeyCorp present). The members of the Board attended, on average, approximately 90% of Board meetings and committee meetings held during the period for which he or she was a director during 2016. No director attended less than 75% of such meetings. KeyCorp Board members are expected to attend the Annual Meeting of Shareholders, and all Board members serving at that time did so for the 2016 Annual Meeting of Shareholders.

The following describes the responsibilities and current membership of the standing committees of the Board and the number of times each committee met in 2016. The Executive Committee did not hold any meetings in 2016.

Board Oversight of Risk

Our Board leadership and committee structure supports the Board's risk oversight function. Generally, each Board committee oversees the following risks:

The Risk Committee has primary oversight responsibility for enterprise-wide risk at KeyCorp, including credit risk, market risk, liquidity risk, compliance risk, operational risk, as well as reputational and strategic risks, and oversight of the actions taken to mitigate these risks.

The Audit Committee has primary oversight responsibility for internal audit, financial reporting, legal matters, and fraud risk.

The Compensation Committee has primary oversight responsibility for risks related to KeyCorp's compensation policies and practices.

The Nominating and Corporate Governance Committee has primary oversight responsibility for significant issues of corporate social responsibility.

The Audit and Risk Committees jointly oversee and review the allowance for loan and lease losses methodology.

The committees receive, review, and evaluate management reports on risk for their areas of risk oversight. At each Board meeting, the Chair of each Board committee reports to the full Board on risk oversight issues.

Our Board structure enables the Board to exercise vigorous oversight of key issues relating to management development, succession and compensation, compliance and integrity, corporate governance, cybersecurity, and company strategy and risk. With respect to risk, the Board oversees that Key's risks are managed in a manner that is effective and balanced and adds value for Key's shareholders. The Board understands Key's risk philosophy, approves Key's risk appetite, inquires about risk practices, reviews the portfolio of risks, compares the actual risks to the risk appetite, and is apprised

Table of Contents

of significant risks, both current and emerging, and determines whether management is responding appropriately. With respect to risk and other areas that it oversees, the Board challenges management and promotes accountability.

KeyCorp has formed a senior level management committee, the Enterprise Risk Management Committee (ERM Committee), consisting of Ms. Mooney and other senior officers at KeyCorp, including William L. Hartmann, KeyCorp's Chief Risk Officer. The ERM Committee meets weekly and is central to seeing that the corporate risk profile is managed in a manner consistent with KeyCorp's risk appetite. The ERM Committee also is responsible for implementation of KeyCorp's Enterprise Risk Management Policy that encompasses KeyCorp's risk philosophy, policy framework, and governance structure for the management of risks across the entire company. The Risk Committee of the Board oversees KeyCorp's risk management program, including the ERM Committee. The Board of Directors approves the Enterprise Risk Management Policy and sets the overall level of risk KeyCorp is willing to accept and manage in pursuit of its strategic objectives.

Oversight of Compensation-Related Risks

KeyCorp's compensation program is designed to offer competitive pay for performance, aligned with KeyCorp's short- and long-term business strategies, approved risk appetite and defined risk tolerances, and shareholders' interests. Reviews of KeyCorp's compensation plans by the Compensation Committee and KeyCorp management did not identify any plan that was reasonably likely to have a material adverse impact on KeyCorp or that would incentivize excessive risk-taking. The Compensation Committee also reviewed KeyCorp's compensation plans to monitor compliance with KeyCorp's risk management tolerances and safety and soundness requirements.

KeyCorp has a well-developed governance structure for its incentive compensation programs, including roles for the Board of Directors, senior management, lines of business and control functions. The Board oversees KeyCorp's incentive compensation programs, primarily through the Compensation Committee, with additional input and guidance from its Nominating and Corporate Governance, Risk, and Audit Committees. In addition to directly approving compensation decisions for senior executives, the Compensation Committee also approves KeyCorp's overall Incentive Compensation Policy and Program so that KeyCorp's incentive compensation practices remain in alignment with KeyCorp's risk management practices. KeyCorp's Incentive Compensation Policy and Program are intended to enhance KeyCorp's risk management practices by rewarding appropriate risk-based performance.

We maintain a detailed and effective strategy for implementing and executing incentive compensation arrangements that provide balanced risk-taking incentives. KeyCorp's incentive compensation arrangements are designed, monitored, administered, and tested by a multidisciplinary team drawn from various areas of KeyCorp, including Risk Management. This team is charged with seeing that our incentive compensation arrangements align with risk management practices and support the safety and soundness of the organization. From initial plan design to individual awards, KeyCorp's program incorporates sound compensation principles and risk-balancing at every stage of the incentive compensation process, including:

the identification of employees who have the ability to influence or control material risk;

the use of risk-balancing mechanisms across all incentive plans that take into account the primary risks associated with employee roles;

the deferral of incentive compensation to balance risk and align an employee's individual interests with KeyCorp's future success and safety and soundness;

the development of clawback policies and procedures to recoup certain incentive compensation paid to employees in the event of certain risk-based events; and

the annual assessment of risk-balancing features, the degree to which selective plan design features affect risk-taking, the alignment of incentive metrics with business objectives, the overall competitiveness of the pay opportunity, the participation of control functions, and the effectiveness of monitoring and administration of the plans.

Director Independence

The Board of Directors has determined that all members of the Board of Directors (i.e., Mss. Gile, Gillis, Manos, and Snyder, and Messrs. Adams, Broussard, Carrabba, Cooley, Cutler, Dallas, Gisel, Highsmith, Hipple, Parneros, and Wilson), other than Ms. Mooney and Mr. Crosby, are independent directors and independent for purposes of the committees on which they serve. This determination was made after reviewing the relationship of these individuals to KeyCorp in light of KeyCorp's Standards for Determining Independence of Directors and the independence standards set by the New York Stock Exchange. Due to Mr. Crosby's former position as Chief Executive Officer of First Niagara, the Board determined that Mr. Crosby was not an independent director.

To determine the independence of the members of the Board, the Board considered certain transactions, relationships, or arrangements described below between those directors, their immediate family members, or their affiliated entities, on the one hand, and KeyCorp or one or more of its subsidiaries, on the other hand. Certain directors, their respective immediate family members, and/or affiliated entities have commercial relationships with Key, such as consumer banking products or credit relationships. In addition, an affiliated entity of one of the directors received a charitable contribution from Key. The Board determined that all of these transactions, relationships, or arrangements were made in the ordinary course of business, were made on terms comparable to those that could be obtained in arms-length dealings with an unrelated third party, complied with applicable banking laws, were immaterial, and did not impair any director's independence. The value of the payments made during the year pursuant to the transactions with any affiliated entities of the directors did not in any of the last three fiscal years exceed 1% of the consolidated gross revenue of either KeyCorp, on the one hand, or the affiliated entity, on the other hand.

Related Party Transactions

Any transaction, relationship, or arrangement with KeyCorp or its subsidiaries in which a KeyCorp director, executive officer, or other related person has a direct or indirect material interest is subject to KeyCorp's Policy for Review of Transactions between KeyCorp and its Directors, Executive Officers, and Other Related Persons. The Nominating and Corporate Governance Committee is responsible for applying the policy and uses the following factors identified in the policy in making its determinations:

whether the transaction conforms to KeyCorp's Code of Ethics and Corporate Governance Guidelines and is in KeyCorp's best interests;

whether the terms of the transaction are comparable to terms that could be obtained in arms-length dealings with an unrelated third party;

whether the transaction must be disclosed under Item 404 of Regulation S-K under the Exchange Act; and

whether the transaction could call into question the independence of any of KeyCorp's non-employee directors.

The policy provides exceptions for certain transactions, including those available to all KeyCorp employees generally, those involving compensation or indemnification of executive officers or directors authorized by the Board of Directors or one of its committees, those involving the reimbursement of routine business expenses, and those occurring in the ordinary course of business.

Banking and Credit Transactions with KeyCorp Executive Officers and Directors

From time to time during 2016, the directors referenced in the Director Independence section above, some of our executive officers, and some of their immediate family members and affiliated entities were customers of or had transactions with KeyBank or other KeyCorp subsidiaries in the ordinary course of business. Additional transactions and banking relationships may continue in the future. In addition, First Niagara Bank, which became a wholly-owned subsidiary of KeyCorp effective upon the closing of the First Niagara merger and subsequently merged into KeyBank, previously made a residential mortgage loan to each of Mr. Crosby and an immediate family member of Mr. Crosby under First Niagara Bank's loan program for employees, which included an interest rate discount. Mr. Crosby's loan amount outstanding at December 31, 2016, was \$358,627, and the largest amount outstanding on the loan during 2016 was \$368,180. The amount of principal and interest paid during 2016 was \$21,337, and the amount of interest payable during the remainder of the loan is \$141,027. Subsequent to December 31, 2016, Mr. Crosby's mortgage was paid in full. At December 31, 2016, the amount outstanding on the loan to Mr. Crosby's immediate family member was \$188,908, and the largest amount outstanding on the loan during 2016 was \$193,416. The amount of principal and interest paid during 2016 was \$10,898, and the amount of interest payable during the remainder of the loan is \$83,537.

Except as described above regarding the residential mortgage loan for Mr. Crosby and his immediate family member, all loans, loan commitments, and transactions involving other financial products and services with our directors and executive officers were made in the ordinary course of business on substantially the same terms, including interest rate and collateral terms, as those prevailing at the time for comparable transactions with unrelated third parties and did not present heightened risks of collectability or other unfavorable features to KeyCorp or its subsidiaries.

Loans and extensions of credit by KeyBank to our directors, executive officers, and their affiliated entities were made in compliance with Regulation O under federal banking law and KeyBank's related policies and procedures. In addition to satisfying the standard set forth in the preceding paragraph, our Regulation O policies and procedures require that:

the amount of credit extended does not exceed individual and aggregate lending limits, depending upon the identity of the borrower and the nature of the loan; and

any extension of credit in excess of \$500,000 be approved by the Board of Directors of KeyBank.

Shareholder Engagement

In order for management and the Board to better understand and consider shareholders' perspectives, we regularly communicate with our larger shareholders to solicit and discuss their views on governance, executive compensation and other matters. We believe our regular engagement has been productive and provides an open exchange of ideas and perspectives for both the Company and our shareholders.

During fiscal 2016, members of management and our independent Lead Director participated in discussions with a number of institutional shareholders, including many of our largest shareholders. Overall, participating investors expressed support for the Company's governance and compensation practices, including our current board leadership structure. Feedback received during these meetings is presented to and discussed by the Nominating and Corporate Governance Committee, Compensation Committee and, as appropriate, other Board committees and the entire Board.

After considering feedback received from shareholders in recent years, we have:

formalized additional responsibilities for the independent Lead Director and added disclosure about the Lead Director's activities (see page 14 of this proxy statement);

***2017 Proxy Statement* The Board of Directors and Its Committees**

formalized an annual evaluation of the Lead Director and incorporated the evaluation process in our Corporate Governance Guidelines;

increased our website disclosure with respect to our political spending and activity;

provided additional disclosure about the Audit Committee's oversight and engagement of the independent auditor in the Audit Committee Report at page 67 in this proxy statement; and

created a robust summary (at pages S-1 to S-4 in this proxy statement) and enhanced our Compensation Discussion and Analysis that begins at page 28 in this proxy statement.

In addition, our Chief Executive Officer, Chief Financial Officer, Director of Investor Relations, and other members of our senior management team receive regular feedback from the investment community through investor visits, meetings and conferences regarding our strategy, financial results and other topics of interest, and regularly brief our Board on this feedback.

Director Education

Throughout the year, our directors participate in continuing education activities and receive educational materials on a wide variety of topics (including, for example, corporate governance, the financial services industry, executive compensation, risk management, finance and accounting). Annually, the Board holds director education sessions focusing on topics suggested by the directors at the November meeting of the Board and its committees. From time to time, our directors may also attend seminars and other educational programs at KeyCorp's expense. These educational opportunities provide our directors with timely updates on best practices among our peers and in the general marketplace and further supplement our directors' significant business and leadership experiences.

Corporate Governance Guidelines

The Board has adopted written Corporate Governance Guidelines (the Guidelines) that detail the Board's corporate governance duties and responsibilities, many of which are described herein. The Guidelines take into consideration, and are reviewed annually and updated periodically to reflect, best practices in corporate governance and applicable laws and regulations. The Guidelines address a number of matters applicable to directors (such as director qualification standards and independence requirements, share ownership guidelines, and succession planning and management) and management (such as stock ownership guidelines for management and procedures for the annual evaluation of our Chief Executive Officer). The Nominating and Corporate Governance Committee undertook a comprehensive review of the Guidelines in 2015, and our Board approved a revised set of Guidelines in January 2016. In September 2016, the Guidelines were updated to reflect the increase in the maximum number of directors from 16 to 17.

Code of Ethics

We are committed to the highest standards of ethical integrity. Accordingly, the Board of Directors has adopted a Code of Ethics for all of KeyCorp's (and its subsidiaries') employees, officers, and directors, which was last amended in July 2016. We will promptly disclose any waiver or amendment to our Code of Ethics for our executive officers or directors on our website. Our Code of Ethics ensures that each employee, officer, and director understands the basic principles that govern our corporate conduct and our core values of Teamwork, Respect, Accountability, Integrity, and Leadership.

Statement of Political Activity

An important part of our commitment to our community includes active participation in the political and public policy process that impacts the lives of our customers, shareholders, and business. As a large financial institution, our business is highly regulated at the federal, state, and local levels. We believe it is critically important to take a constructive role in the political process that will shape the future of business, our industry, and our community.

The Nominating and Corporate Governance Committee of the Board meets annually with a member of KeyCorp's Government Relations team to review KeyCorp's policies and practices regarding political contributions. Policies and practices reviewed by the Nominating and Corporate Governance Committee include KeyCorp's policies regarding doing business with public entities, the Government Relations pre-approval process for ballot issue support and the KeyCorp Advocates Fund (political action committee) annual report.

A statement of our political activities, including our annual political contributions, is made available to our shareholders on our website: www.key.com/ir.

A director may elect

to defer the payment of all or some of his or her deferred shares beyond the third anniversary of the award date (Further Deferred Shares). In that case, the Further Deferred Shares will be distributed entirely in common shares on (and only on) the deferral date selected by the director. Deferred shares payable in common shares (other than Further Deferred Shares) are included in the column Deferred Shares because they may be distributed to the director as common shares immediately upon separation from the Board. Further Deferred Shares, and directors' fees that have been deferred under the Directors' Deferred Share Sub-Plan or, previously, the KeyCorp Second Directors' Deferred Compensation Plan, are included in the column Other Deferred Shares Owned because they are only payable on the deferral date selected by the director, which is not on or within 60 days of March 24, 2017 for any director. Deferred shares payable in cash are not reflected in this table. For more information, please see Directors' Compensation on page 63 of this proxy statement.

- (3) The column Deferred Shares includes deferred shares, performance units, and restricted stock units held by executive officers that will be payable in KeyCorp common shares on or within 60 days of March 24, 2017. Deferred shares, performance units, and restricted stock units payable in common shares to executive officers, but not on or within 60 days of March 24, 2017, are reported in the column Other Deferred Shares Owned. Performance units are subject to vesting based on the achievement of certain performance goals, as discussed in the Compensation Discussion and Analysis beginning on page 28 of this proxy statement. The number of performance units set forth in these columns reflects a target amount of performance units determined for each executive officer on the grant date. The number of performance units that ultimately vest as common shares for each executive officer may be higher or lower depending upon actual performance relative to the performance goals at the end of the measurement period.
- (4) Deferred shares, performance units, and restricted stock units payable in common shares do not have common share voting rights or investment power until the shares or units have been distributed as common shares in accordance with the plan or agreement under which they were granted or awarded.
- (5) Totals may not foot due to rounding.
- (6) No director or executive officer beneficially owns (and collectively all 30 directors and executive officers do not beneficially own) common shares, and options, deferred shares, performance units, and restricted stock units payable in common shares on or within 60 days of March 24, 2017, totaling more than 1% of the outstanding common shares of KeyCorp. The percentages set forth in this column for the holders of more than 5% of our common shares appear as reported by each such holder to the Securities and Exchange Commission on Schedules 13G, as discussed below.
- (7) Based solely upon information contained in the Schedule 13G/A filed by The Vanguard Group, Inc. (Vanguard) with the Securities and Exchange Commission on February 10, 2017. Pledging and Speculative Trading of KeyCorp Securities

Our insider trading policy restricts our employees, officers and directors from engaging in speculative trading transactions involving KeyCorp securities and restricts our officers and directors who are subject to reporting requirements under Section 16 of the Exchange Act from pledging our securities. During 2016, no director or executive officer pledged as collateral or engaged in speculative trading with respect to any KeyCorp securities.

Section 16(a) Beneficial Ownership Reporting Compliance

KeyCorp's directors, executive officers, and beneficial owners of more than 10% of any class of equity securities of KeyCorp (currently none) are required to report their initial ownership and certain changes in ownership of KeyCorp securities to the Securities and Exchange Commission. The Securities and Exchange Commission has established certain due dates and requirements for these reports. Based upon our review of records received by KeyCorp and written representations from the directors and executive officers, KeyCorp knows of no director or executive officer who failed to timely file any report required to be filed during 2016, except that Elizabeth R. Gile inadvertently did not timely file one Form 4 report for one transaction in an account over which she exercised no investment discretion; Andrew J. Randy Paine III inadvertently did not timely file one Form 4 report for one transaction in an account over which he exercised no investment discretion; and Demos Parneros inadvertently did not timely file one Form 4 report for one transaction.

In 2016, we had momentum in our core businesses and improved our performance relative to our Peer Group, while also completing our acquisition of First Niagara and successfully integrating our two organizations. Our 2016 performance included:

A third consecutive year of pre-provision net revenue (PPNR) growth, excluding merger-related charges, including another consecutive record year for investment banking and debt placement fees.

Earnings per share (EPS) growth of 8%, compared to 2015, excluding merger-related charges reflecting solid performance of our core businesses, as well as growth from our acquisition of First Niagara.

Table of Contents

The acquisition of First Niagara, as we welcomed one million new clients and approximately 5,000 new team members while adding \$23 billion in loans, \$27 billion in deposits, and over 300 branches.

Strong performance relative to our Peer Group, including revenue growth and PPNR growth that put us in the top quartile of our Peer Group, as described in greater detail on page 39 of this proxy statement.

The information above includes certain non-GAAP financial measures. Please see Figure 4 on page 39 in our 2016 Annual Report on Form 10-K for more information on these non-GAAP measures and reconciliations to the most comparable GAAP measures. Page 45 of this proxy statement also includes more information about PPNR and EPS.

Reflecting the progress we made during 2016, our core businesses have momentum and are producing results, the investments we have made are generating returns, and the First Niagara merger will continue to provide opportunities to accelerate our performance. KeyCorp has demonstrated the ability to grow in a challenging environment and is now uniquely positioned to build on the progress we have made. We have clear and compelling strategic priorities, which include growing relationships, effectively managing risk and capital, generating strong returns, and achieving our financial targets.

2016 Annual Incentive Plan Funding and Awards

Based on our 2016 performance and the achievement against the financial goals in our 2016 Annual Incentive Plan, the Compensation Committee approved a funding level of 120% for this plan, from which our Named Executive Officers and all employees, other than those in a line of business incentive plan, are provided annual cash incentive awards. Our 2016 Annual Incentive Plan, including a full description of the performance measures selected by the Compensation Committee and our performance against these measures, can be found beginning on page 37 of this proxy statement.

Pay of our Chairman and Chief Executive Officer

The Compensation Committee awarded Ms. Mooney an annual incentive for 2016 performance of \$2,700,000 and granted her long-term incentives of \$4,400,000. Ms. Mooney's annual incentive represented 135% of her annual incentive target of \$2,000,000, and reflects the Compensation Committee's recognition of her efforts in leading the organization that showed core growth while demonstrating the agility to quickly and decisively complete the First Niagara merger. Ms. Mooney's long-term award was 110% of her long-term incentive target and 100% of her prior year award, reflecting the Compensation Committee's continued support of our long-term strategy.

As a result of our acquisition of First Niagara, which allowed us to grow assets by almost 40%, along with the changes made to our Peer Group for 2017 described on page 44 of this proxy statement, the Compensation Committee elected to evaluate Ms. Mooney's 2017 target total direct compensation, which has been unchanged since 2014. Based on this review, the Compensation Committee decided to increase Ms. Mooney's target total direct compensation for 2017 from \$7,000,000 to \$7,800,000, with all of the increase allocated to her long-term incentive opportunity. Thus, for 2017, Ms. Mooney's target total direct compensation consists of \$1,000,000 in base salary, a \$2,000,000 annual incentive target, and a \$4,800,000 long-term incentive target. When establishing Ms. Mooney's target pay for 2017, the Compensation Committee considered KeyCorp's complexity relative to our Peer Group and Ms. Mooney's performance and tenure, as well as factors such as asset size and revenue. The Compensation Committee felt that the increase to Ms. Mooney's target total direct compensation, as well as the mix of pay, accurately represented Key's relative position within our Peer Group following the acquisition of First Niagara.

Table of Contents**2017 Proxy Statement Compensation Discussion and Analysis***Pay of our Other Named Executive Officers*

After assessing each individual's performance during 2016, the Compensation Committee approved the annual and long-term incentive awards for our other Named Executive Officers described below.

2016 Annual Incentive Awards

The Compensation Committee approved the following annual incentive awards for our other Named Executive Officers, considering the performance of each during 2016 as well as the 120% approved funding of our Annual Incentive Plan bonus pool:

Name	Target Annual Incentives (\$)	Actual Payout (% of Target)	Actual Payout (\$)(1)
Donald R. Kimble	750,000	125%	950,000
Christopher M. Gorman	1,700,000	135%	2,300,000
Andrew J. Randy Paine III	1,500,000	120%	1,800,000
Edward J. Burke	1,050,000	125%	1,300,000

- (1) We require that at least 50% of the total incentive—that is, the sum of the 2016 annual incentive and 2017 long-term incentives—of each Named Executive Officer (60% for our Chairman and CEO) be delivered in the form of deferred compensation, subject to a multi-year vesting schedule and risk-adjusted vesting. If the total incentive does not satisfy this requirement, a portion of the Named Executive Officer's discretionary cash incentive is delivered as deferred compensation. A portion of the 2016 annual incentive for Mr. Burke was subject to this mandatory deferral requirement and was converted into restricted stock units subject to a four-year vesting schedule.

When establishing the annual incentive awards for our Named Executive Officers, the Compensation Committee considered the following:

Mr. Kimble's award reflects the significant contributions he made to our First Niagara merger integration efforts, as he oversaw our financial and accounting integration as well as our corporate real estate activities (which included the conversion of First Niagara branches and branch consolidations in 2016), obtained approval through the Comprehensive Capital Analysis and Review process to begin share repurchases, and continued to demonstrate credibility with our investors and the analyst community.

Mr. Gorman, as Merger Integration Executive, participated in a modified annual incentive plan structure under which 50% of his annual incentive opportunity considered the success of our integration efforts and the remaining 50% considered our 2016 Annual Incentive Plan performance. Mr. Gorman's 135% payment represents our performance under this modified structure, as described in greater detail beginning on page 37 of this proxy statement.

The award for Mr. Burke considered his involvement in our integration efforts, as he was responsible for implementing a new mortgage origination platform and salesforce, while integrating First Niagara's commercial bankers and the new Key Insurance team.

Mr. Paine's award reflects the continued strong, core performance of our Corporate Bank, which saw another consecutive record year for investment banking and debt placement fees in 2016.

Table of Contents*2017 Long-Term Incentive Awards*

On February 20, 2017, the Compensation Committee approved long-term incentive award opportunities for our other Named Executive Officers based on 2016 performance and anticipated future contributions, as set forth in the table below. This table also shows the percentage of each Named Executive Officer's long-term incentive as a percentage of his total incentive including any portion of the 2016 annual incentive required to be deferred demonstrating that each satisfies our deferral requirements.

Name	Target Long-Term Incentive (\$)	Actual Award		Total Incentive Deferred (%)(1)
		(as % of Target)	Actual Award (\$)	
Donald R. Kimble	1,300,000	115%	1,500,000	61%
Christopher M. Gorman	2,000,000	120%	2,400,000	51%
Andrew J. Randy Paine III	1,800,000	100%	1,800,000	50%
Edward J. Burke (2)	1,050,000	105%	1,100,000	50%

(1) This column shows the actual percentage of each Named Executive Officer's total incentive delivered as deferred incentive compensation, including any portion of the Named Executive Officer's annual incentive required to be deferred.

(2) In order to satisfy our deferral requirements, \$100,000 of the annual incentive award otherwise payable to Mr. Burke was deferred and delivered as deferred incentive compensation, consistent with our risk-balancing requirements as described beginning on page 33 of this proxy statement. This was in addition to his \$1,100,000 long-term incentive award, described in the table above.

Payout of 2014 Performance Awards

On February 17, 2014, each Named Executive Officer received an award of performance shares as part of his or her long-term incentive opportunity. The Named Executive Officers could earn between 0% and 150% of the performance shares granted based on the achievement of our 2014 long-term incentive plan, described below.

On February 20, 2017, the Compensation Committee approved a final performance level for our 2014 long-term incentive plan of 91.4%, as described below. This performance level represents the right to receive 91.4% of the target 2014 performance share opportunity based on the closing price of our common stock of \$18.96 as of February 17, 2017.

2014-2016 Long-Term Incentive Plan

2017 Proxy Statement Compensation Discussion and Analysis

Performance of our 2014 long-term incentive plan was impacted by two factors. First, our cumulative total shareholder return was below the median of our Peer Group. Second, our cumulative EPS target, established in early 2014, included an assumption around a number of interest rate increases that were not realized during the performance period and caused our cumulative EPS to trail the target.

Before approving this final performance level, the Compensation Committee considered our Enterprise Risk Management dashboard and our execution against strategic priorities and, based on this review, concluded that no reduction in calculated performance was warranted.

Objectives of Our Compensation Program

Our success depends on the ability to attract, retain, motivate and develop our people. Competition for talent in our business is ongoing and we make investments to hire and retain the people we need to serve our customers. Our compensation program is an integral part of these efforts and is designed to reward employees based on performance, be informed by the market, and align with the interests of our shareholders and the expectations of regulators.

Our compensation philosophy is to:

Make pay decisions based on performance of the Company, the business unit, and the individual;

Deliver pay in a way that reinforces focus on balancing short- and long-term financial performance objectives; and

Support sustainable performance with policies that are focused on prudent risk-taking and the balance between risk and reward.

We execute this compensation philosophy by:

Emphasizing variable and performance-based compensation: 86% of the 2016 target total direct compensation of our Chairman and Chief Executive Officer (and, on average, 83% of the 2016 target total direct compensation of our other Named Executive Officers) was either variable or performance-based (including restricted stock units and stock options, the value of which are dependent on our share price), as illustrated in the charts below.

Table of Contents

Requiring Executive Officers to satisfy robust levels of deferral: At least 60% of the annual total incentive (the sum of the annual incentive paid and the value of long-term incentives granted in a particular year) of the Chairman and Chief Executive Officer (and at least 50% for the other Named Executive Officers) is required to be deferred over a multi-year period and subject to risk-adjustment, as described in more detail below.

Balancing compensation risk and reward through a robust governance process overseen by the Compensation Committee: We design our compensation programs to appropriately balance risk and reward and regularly monitor these programs to determine whether they create incentives that encourage risk-taking outside of our risk tolerances. The Compensation Committee:

Reserves the right to decrease funding for our discretionary incentive plans by as much as 100% based on our Enterprise Risk Management dashboard or the occurrence of any risk event that warrants such an adjustment;

Considers each Named Executive Officer's scorecard performance including individual risk performance before approving any discretionary incentive award; and

May forfeit, offset, reduce, or claw back any Named Executive Officer's deferred incentives based on the actual risk-related outcomes of each executive's performance on which the award is based.

Compensation Governance Best Practices

We support our compensation program with a number of best practices in governance and executive compensation. In addition, the Compensation Committee regularly evaluates our compensation practices to address areas of concerns raised by our shareholders or shareholder advisory firms.

What we do:

Impose Robust Stock Ownership Guidelines: Our Corporate Governance Guidelines contain robust share ownership requirements, ranging from six times base salary for our Chairman and Chief Executive Officer, with a minimum direct ownership requirement of 10,000 common shares, to three times base salary for our other Executive Officers, with a minimum direct ownership requirement of 5,000 common shares. As of February 28, 2017, each Named Executive Officer, including the Chairman and Chief Executive Officer, satisfied his or her share ownership requirements.

Subject Shares to Post-Vesting Holding Period: Each Named Executive Officer must hold the net shares acquired upon vesting of equity awards until he or she satisfies our share ownership guidelines. In 2015, we amended our insider trading policies to require that our Chairman and Chief Executive Officer notify the Chair of the Compensation Committee before she engages in any discretionary transactions involving our shares. Also in 2015, the Compensation Committee adopted a policy recommending against the use of so-called 10b5-1 trading plans for our Executive Officers.

Double Trigger Change of Control Agreements: Our Change of Control Agreements are double trigger, meaning that severance benefits are due, and equity awards that are assumed in a change of control transaction vest, only if a senior executive experiences a qualifying termination of employment in connection with a change of control. This requirement is intended to prevent senior executives from receiving change of control benefits without a corresponding loss of employment.

Table of Contents

2017 Proxy Statement Compensation Discussion and Analysis

Use Tally Sheets: The Compensation Committee annually reviews tally sheets for our Named Executive Officers that include the estimated value of severance payments, the accumulated value of vested and unvested equity awards, and retirement benefits. The Compensation Committee also reviews the levels and types of compensation provided to executive officers in similar positions at companies in our Peer Group. This practice allows the Compensation Committee to evaluate the total compensation package provided to these employees and consider the impact of isolated adjustments or incremental changes to specific elements of compensation.

Review Share Utilization: We regularly review share overhang levels and run-rates and maintain share utilization levels well within industry norms.

Retain an Independent Consultant: The Compensation Committee retains an independent consultant to assist in developing and reviewing our executive compensation strategy and program. The Compensation Committee, with the assistance of the independent consultant, regularly evaluates our executive compensation program in light of the compensation practices of our Peer Group to confirm that our compensation programs are consistent with market practice.

Subject All Incentives to Risk-Adjustment: All incentive awards are subject to a multi-step risk-adjustment process that begins before grant and extends beyond payment, which is part of our overall compensation philosophy. We reserve the right to adjust funding and/or awards to reflect risks that may be realized and subject all discretionary incentives to forfeiture, reduction, offset, and clawback.

Subject All Incentives to Clawback: Our clawback policy allows us to recover cash and equity incentive compensation paid to any Named Executive Officer, including deferred annual and long-term incentives, if based on financial results that are subsequently restated, and to cancel outstanding equity awards and recover realized gains if the executive engages in certain harmful activity.

What we don't do:

No Employment Agreements: No Executive Officer, including any Named Executive Officer, is a party to an employment agreement.

No Tax Gross-Ups: We do not provide for tax gross-ups on change of control payments or for perquisites, other than on relocation benefits provided to certain senior-level employees upon hire.

No SERPs: We froze our executive pension plans in 2009. No Named Executive Officer participates in an active supplemental defined benefit plan, although vesting service continues for those Named Executive Officers who participated in such a plan prior to 2009.

No Hedging or Pledging of KeyCorp Securities: Our insider trading policy restricts our employees, officers, and directors from engaging in hedging transactions involving our common shares, and it restricts our officers and directors who are subject to reporting requirements under Section 16 of the Exchange Act from pledging our common shares.

No Timing of Equity Grants: We maintain a disciplined equity approval policy. We do not grant equity awards in anticipation of the release of material, non-public information. Similarly, we do not time the release of material, non-public information based on equity grant dates.

No Repricing: We do not reprice or back-date stock options.

Consideration of Our Say-on-Pay Shareholder Vote

We continue to receive strong shareholder support for our Named Executive Officers' compensation program, as reflected in the results of our annual say-on-pay proposals, which have received approximately 95% or greater support each year since 2012. We view the results of our say-on-pay votes as evidence that our executive compensation program provides pay for performance and appropriately aligns the interests of our Named Executive Officers with those of our shareholders.

Shareholder Outreach

We maintain an active shareholder engagement program through which we periodically receive feedback from and have discussions with institutional investors around our compensation philosophy and structure. These continuing conversations with our institutional investors help us better understand matters of importance to our investors regarding our executive compensation program and help us to shape our pay-for-performance strategy.

Alignment of Pay and Performance

Our executive compensation program is designed so that a substantial portion of the pay of our Chairman and Chief Executive Officer is delivered in the form of long-term incentives which means that both her Realized Pay (the amount she actually may receive in any year) as well as her Realizable Pay (her future pay opportunity) are tied directly to our share price performance and achievement of our long-term financial goals.

Ms. Mooney's pay, as reported in the Summary Compensation Table (SCT), reflects the accounting value of long-term incentives at grant and not the value actually received from these grants or their potential future value. As a result, we believe that it is useful to compare Ms. Mooney's Adjusted SCT Pay, Realized Pay and Realizable Pay, in each case between 2014 and 2016, with our total shareholder return for the same period. This comparison shows the alignment of Ms. Mooney's pay and changes in our share price, as illustrated below:

Table of Contents**2017 Proxy Statement Compensation Discussion and Analysis**

Ms. Mooney's Realized Pay between 2014 and 2016 consisted of:

	2014	2015	2016
	(\$)	(\$)	(\$)
Base salary received	1,000,000	1,038,462*	1,000,000

Total**	5,803,645	8,035,646	8,042,975

* Ms. Mooney's 2015 base salary includes an additional pay period in December 2015.

** Ms. Mooney did not exercise any stock options in 2014, 2015, or 2016.

The preceding chart and table are not substitutes for the information required to be contained in the Summary Compensation Table, but provide additional information with regard to our Chairman and Chief Executive Officer's pay.

For purposes of the preceding chart and table, we define:

Adjusted SCT as the compensation reported in the Summary Compensation Table for the applicable year (i.e., 2014, 2015, or 2016), adjusted by excluding Changes in Pension Value and Nonqualified Deferred Compensation Earnings and All Other Compensation. We excluded these items because they represent amounts that are not realizable pay or that will never become realized pay or which will not become realized pay until termination of employment or later, and do not have a realizable value.

Realizable Pay as the sum of: (i) actual base salary and incentives paid for the applicable year; (ii) the value of all restricted stock units granted during the applicable year based on the December 31, 2016, closing price of our common shares; (iii) the intrinsic value (i.e., the excess, if any, of the December 31, 2016, closing price of our common shares over the option exercise price) of all stock options granted during the applicable year; and (iv) the target value of all performance awards granted during the applicable year based on the December 31, 2016, closing price of our common shares.

Realized Pay as the sum of (i) actual base salary and incentives paid for the applicable year plus (ii) the amount reported as income upon vesting of performance awards, restricted stock or units, or exercise of stock options.

Table of Contents**Elements of Our Compensation Program**

The principal components of our total direct compensation program are summarized below. The table below also includes a summary of 2016 pay actions and 2017 pay adjustments for our Named Executive Officers.

Element	Characteristic	Purpose	Summary of 2016 Actions / 2017 Adjustments
Base Salary	Fixed compensation subject to annual adjustment and review if appropriate.	Attract, retain, and motivate Named Executive Officers and to align with market practices.	<p>We generally review base salaries each year and set salaries around the Peer Group median.</p> <p>For 2017, the Compensation Committee adjusted the salary of Mr. Burke after considering internal equity and market practices.</p>
Annual Incentive	Variable compensation based on achievement of corporate and/or business unit performance goals and other strategic objectives.	Motivate and reward Named Executive Officers for achieving our annual financial and strategic goals and for effectively managing risks within our approved risk tolerances.	<p>The Compensation Committee approved 2016 annual incentives for Named Executive Officers ranging from \$1,300,000 to \$2,700,000, which considered both the 120% pool funding of our Annual Incentive Plan for Executive Officers, individual performance, and business unit performance, if applicable.</p> <p>For 2017, the Compensation Committee adjusted the annual incentive target of Mr. Kimble and Mr. Burke after considering market practices and tenure.</p>
Long-Term Incentive	Variable compensation based on share price growth and achievement of performance relative to that of our peers and other corporate performance goals.	Motivate and reward Named Executive Officers for achieving our long-term financial and strategic goals and for continued management of our risk profile, while aligning their interests with those of our shareholders.	<p>The Compensation Committee approved long-term incentive awards for our Named Executive Officers on February 20, 2017, ranging from \$1,200,000 to \$4,840,000, which were allocated 50% to performance shares, 40% to restricted stock units, and 10% to stock options. Please see the discussion under 2017 Long-Term Incentives for a description of our long-term incentive grants and vehicles.</p> <p>In addition to the adjustment to Ms. Mooney's long-term incentive target described above, for 2017, the Compensation Committee adjusted the long-term incentive target of Mr. Kimble and Mr. Burke after considering market practices, their mix of pay and our deferral expectations.</p>

Base Salary

Base salaries are reviewed and approved by the Compensation Committee on a competitive basis each year following a market assessment of base salaries paid to comparable executives at peer companies, including companies in our Peer Group, to the extent that a comparable position can be identified. Base salaries for 2016 are reported in the Salary column to the 2016 Summary Compensation Table on page 49 of this proxy statement.

Annual Incentives

All Named Executive Officers are eligible to receive discretionary cash incentive awards under our Annual Incentive Plan. The funding of the overall bonus pool under our Annual Incentive Plan is based on the achievement of various financial and strategic goals compared to pre-established targets, as described below. Annual Incentive Plan funding is capped at 150%, with 0% funding for the Named Executive Officers if a threshold level of performance (85%) is not achieved.

Table of Contents

2017 Proxy Statement Compensation Discussion and Analysis

The actual annual incentive that may be awarded to any individual Named Executive Officer is determined by the Compensation Committee after considering the approved funding level of the bonus pool, the executive's experience and performance, market information, and the practices of our Peer Group relative to the target annual incentive established by the Compensation Committee, but in no event may exceed 200% of this target.

2016 Performance Measures

In 2016, for Named Executive Officers other than Mr. Gorman, 60% of our Annual Incentive Plan pool funding was based on our performance against the following three equally-weighted goals compared to pre-established targets:

PPNR

Cash Efficiency Ratio

EPS

The Compensation Committee selected PPNR and Cash Efficiency Ratio as performance goals in 2016 to reflect our ongoing focus on growing revenue and managing expenses and used EPS to evaluate the quality of our earnings relative to our outstanding shares.

An additional 20% of our Annual Incentive Plan pool funding was based on our revenue growth, PPNR growth, Tangible Common Equity Ratio, and the ratio of Net Charge-Offs to Average Loans compared to our Peer Group. We selected these measures to evaluate our growth, ability to manage capital, and management of risk, in each case relative to that of our peers.

The remaining 20% of our Annual Incentive Plan pool funding was based on the Compensation Committee's qualitative assessment of the quality of our integration with First Niagara and effectiveness of continuous improvement efforts, as described in greater detail below.

For 2016, as in 2015, our Annual Incentive Plan pool was designed to fund at 100% if our financial performance fell within a likely middle range of performance, generally corresponding to between 98% and 102% of target performance.

Mr. Gorman, as Merger Integration Executive, participated in a modified version of our Annual Incentive Plan in which his opportunity was based 50% on financial measures and strategic measures and 50% based on the Compensation Committee's assessment of the quality of our integration with First Niagara and the effectiveness of continuous improvement efforts.

Table of Contents*2016 Funding*

When evaluating our performance against the financial and strategic goals in our Annual Incentive Plan, the Compensation Committee considered that 2016 was a unique year for Key. We significantly accelerated delivery of a number of challenging technology initiatives and mobilized our workforce to undertake substantial new responsibilities to acquire and integrate First Niagara the largest bank acquisition since the financial crisis all while continuing to grow our core business and improve performance compared to our peers. The results of these efforts are illustrated in the following table, and described in more detail, below.

* The performance goals in the Annual Incentive Plan were established in early 2016 and did not consider the impact of the First Niagara merger. Following closing, the Compensation Committee approved adjustments to these goals set to reflect the impact of the acquisition. These adjustments were intended to minimize the benefit or detriment of the transaction and generally resulted in an increase to the PPNR target and slight changes to the Cash Efficiency Ratio and EPS targets.

In 2016, we showed strong growth in our core franchise, with growth in loans and deposits and a record year for cards and payments income as well as investment banking and debt placement fees. This growth is reflected in our performance against the financial metrics in our Annual Incentive Plan that met or exceeded our targeted levels of performance. Our success in delivering core results was reflected in our performance compared to our peers, which placed us in the top quartiles for revenue growth and PPNR growth and the middle quartiles for the ratio of our Net Charge-Offs to Average Loans and Tangible Common Equity Ratio, as illustrated in the table below.

Relative Performance to Peers

Measure	Actual Result
Revenue Growth	Top Quartile
PPNR Growth	Top Quartile
Tangible Common Equity Ratio	Middle Quartiles
Net Charge-Offs / Average Loans	Middle Quartiles

The Annual Incentive Plan also involved the Compensation Committee's subjective assessment of the quality of our execution of, and our ability to: (i) accelerate delivery of key strategic technology initiatives while continuing to deliver business as usual strategic initiatives; and (ii) create value through the disciplined and timely execution against an aggressive integration schedule for First Niagara. We categorized these initiatives as operational excellence, the results of which are described in greater detail below.

Table of Contents

2017 Proxy Statement Compensation Discussion and Analysis

Accelerated Delivery of Technology Initiatives

In 2016, we accelerated delivery of several significant enterprise-wide technology initiatives. First, we delivered next generation KTT our improved commercial client online portal four months ahead of schedule, delivering substantial enhancements to our clients, including providing early access to a select number of high value First Niagara clients that allowed us to avoid client disruption from a later reconversion. In addition, we delivered our enhanced digital banking platform dubbed Digital 17 to reflect the original year slated for rollout by August 2016, which avoided a future conversion for First Niagara clients and the results of which have exceeded our expectations. Finally, we launched a new Commercial Client Profitability tool and enhanced Risk Reporting ahead of schedule allowing us to realize savings by avoiding the need to test legacy First Niagara systems, and delivering risk reporting capabilities that surpassed our expectations.

Disciplined Execution Against Aggressive Integration Timeline

At the same time, we mobilized a significant portion of our workforce to deliver against an aggressive integration schedule that resulted in our closing the largest bank acquisition since the financial crisis on a relatively short timeframe, which allowed us to realize substantial savings in terms of third-party spend and personnel expense.

The transaction was managed at multiple levels across the organization, including a merger integration leadership team that was supported by cross-functional teams for critical business and functional areas, change management and value attainment. This structure allowed us to meet our business-as-usual commitments while simultaneously executing our integration strategy.

Following the announcement of the merger, our plans included significant outreach to shareholders and the investment community. Our efforts resulted in over 90% of the votes cast on the merger proposal being voted in favor of the merger.

We invested significantly in change management to ensure a client-centric conversion with a focus on our employees who are the primary vehicle through which we interact with clients, shareholders, regulators, and communities. This investment allowed us to execute a full systems conversion that preserved client information (account numbers, debit/credit card numbers, bill pay, log-in credentials) with minimal disruptions that were remediated swiftly, collaboratively, and decisively. We welcomed one million new clients and approximately 5,000 new employees through a robust onboarding effort and benefited from retention of client facing roles, critical personnel, and top talent.

We quickly negotiated and closed on a branch divestiture on a timeline and terms that exceeded our expectations. We completed systems and client conversion in 2016 to assist with client experience and drive value attainment. We consolidated 106 branches, 70 of which occurred concurrently with the systems and client conversion. We accomplished all of this within our risk appetite, while continuously monitoring risks and strengthening our risk profile, even while adding new businesses.

Our execution of this highly complex and multi-dimensional transaction required the development of a disciplined and well-structured integration plan and extraordinary efforts by our employees. The Compensation Committee considered that the quality of our efforts to accelerate delivery of technology solutions and achieve an aggressive integration

schedule exceeded its expectations. Considered along with the strength of our core financial performance and relative performance to our Peer Group, the Compensation Committee approved a funding rate of 120% of our Annual Incentive Plan.

Before establishing this funding level, the Compensation Committee considered our Enterprise Risk Management dashboard and whether any event occurred or was realized in 2016 that warranted an adjustment to funding.

Table of Contents**2017 Long-Term Incentives**

All Named Executive Officers are eligible to receive long-term incentive awards that are granted based on a combination of past performance and anticipated future contributions. The Compensation Committee establishes long-term incentive opportunity levels for any year by considering the Named Executive Officer's performance and by reviewing our historic grant levels, the dilutive impact and financial accounting cost of the long-term incentive program, and market information, including the practices of our Peer Group.

Our executive compensation program is based upon a Named Executive Officer's total incentive award (i.e., the sum of the annual incentive payable for 2016 performance plus the long-term incentive granted in 2017 based on a combination of past performance and anticipated future contributions). At least 50% of the total incentive of each Named Executive Officer (60% for our Chairman and Chief Executive Officer) is required to be deferred and subject to risk-adjusted vesting. When determining whether a Named Executive Officer satisfies this requirement, we first consider whether the long-term incentive (100% of which is delivered as equity-based compensation subject to a multi-year, risk-adjusted vesting schedule) satisfies the required deferral percentage. If not, a portion of the Named Executive Officer's annual incentive is required to be deferred and delivered in the form of equity-based compensation subject to a multi-year risk-adjusted vesting schedule.

Vehicles and Vesting

The long-term incentive awards granted to our Named Executive Officers in 2017 were delivered as follows

Vehicles	Weight	Vesting Schedule
(Subject to Risk-Adjusted Vesting)		
Performance Shares	50%	3-year cliff
Restricted Stock Units	40%	4-year ratable
Stock Options	10%	4-year ratable

The award types and vesting terms are unchanged from 2016.

2017 Performance Shares

The performance shares granted in 2017 provide our Named Executive Officers with the opportunity to receive between 0% and 150% of their target number of shares based on our level of achievement of the following performance goals during the three-year performance period ending on December 31, 2019:

2017-2019 Long-Term Incentive Plan					Other Factors
	Performance Required for Payout				
Performance Goals	Weight	Min.	Target	Max.	(Vesting Reduction Only)
TSR vs. Peers	25%	25% ile	50% ile	75% ile	ERM Dashboard
Return on TCE vs. Peers	25%	25% ile	50% ile	75% ile	Execution of Strategic Priorities
Cumulative Earnings Per Share	50%	75% of Plan	100% of Plan	125% of Plan	Other factors, as appropriate

The target number of performance shares granted was determined by dividing 50% of each Named Executive Officer's long-term incentive opportunity by the grant date closing price of our common shares of \$18.96 on February 17, 2017.

The Compensation Committee believes that each of the performance goals set forth above strongly correlates to long-term shareholder value creation. For 2017, the Compensation Committee elected to

Table of Contents***2017 Proxy Statement Compensation Discussion and Analysis***

use Return on Tangible Common Equity (TCE) as a metric in the long-term incentive plan. The Compensation Committee made this change as it believed that Return on TCE showed a stronger correlation with long-term shareholder value creation than return on assets, which was the metric it replaced. When selecting the performance goals, the Compensation Committee considered that EPS also is a performance metric in our Annual Incentive Plan, but determined that achievement of three-year EPS goals rewards sufficiently different performance than annual EPS goals such that the metrics do not meaningfully overlap. The other factors included in the performance metrics may only reduce the vesting of performance shares if, in the Compensation Committee's judgment, performance with regard to these other factors is insufficient.

The Compensation Committee believes that performance shares encourage our Named Executive Officers to make decisions and to deliver results over a multi-year time period, thereby keeping a focus on our long-term performance objectives. In addition, performance shares allow us to retain executive talent because executives generally must remain employed through the end of the performance period to realize the full value of the award.

Restricted Stock Units

Restricted stock units allow our Named Executive Officers to receive common shares subject to their continued employment during a four-year vesting period. Restricted stock units align the interests of our executives with those of our shareholders by providing a direct link to share price, seeing that our executives maintain robust levels of share ownership, and providing strong incentives for retention of key executives.

Stock Options

Stock options allow our Named Executive Officers to purchase shares at a price not less than the grant date closing price of our common shares on the New York Stock Exchange (or, if there is no reported closing price on the grant date, the closing price on the preceding business day). Stock options vest ratably over a four-year period and have a ten-year term.

We believe that stock options are an effective tool to align the interests of our shareholders with those of our executives as long as they are appropriately risk-balanced and granted in measured amounts. Our regulators, however, have expressed concerns about the leverage associated with stock options and the possibility of executives realizing a disproportionate award; accordingly, since 2013, we have limited our usage of stock options to 10% of each Named Executive Officer's annual long-term incentive opportunity.

Other Elements of Compensation**Perquisites**

The perquisites currently made available to all Named Executive Officers include an annual executive physical as well as a tax and financial planning perquisite, which was introduced in 2016. The Compensation Committee introduced the tax and financial planning benefit after consideration of market practices and in recognition that the personal tax and financial situations of our Executive Officers is more complex than that of other employees. We also provide Ms. Mooney with residential security services and, in some instances, require that she use a secure automobile and professionally trained driver as a matter of security. Ms. Mooney pays for the cost of the automobile and driver when

used solely for personal purposes. In addition, we pay the annual premium on an individual disability insurance policy for Mr. Gorman that was put into place before he became an Executive Officer.

Retirement Programs

Our Named Executive Officers are eligible to participate in our qualified 401(k) Savings Plan on the same basis as all other eligible employees. The 401(k) Savings Plan provides for matching contributions up to 6% on amounts deferred and a discretionary profit sharing contribution on participants' eligible compensation, each subject to applicable Internal Revenue Service (IRS) limitations. The Compensation Committee established the profit sharing contribution for 2016 at 2.5% of a participant's eligible earnings.

Our Named Executive Officers also are eligible to participate in our non-qualified Deferred Savings Plan, which provides a select group of highly compensated individuals with the ability to receive matching contributions on compensation in excess of what is eligible to be deferred to the 401(k) Savings Plan. In 2014, the Compensation Committee eliminated the annual profit sharing contribution to the Deferred Savings Plan and, beginning in 2015, capped the amount of compensation eligible for a matching contribution at \$500,000.

The matching and profit sharing contributions made to the 401(k) Savings Plan and the matching contributions made to the Deferred Savings Plan on behalf of the Named Executive Officers are included in the All Other Compensation column to the 2016 Summary Compensation Table on page 49 of this proxy statement.

Ms. Mooney and Mr. Gorman participated in our Cash Balance Pension Plan and Second Excess Cash Balance Pension Plan, each of which we froze effective December 31, 2009. Additional information about our pension programs is included in the narrative to the 2016 Pension Benefits Table beginning on page 57 of this proxy statement.

Separation Pay

We maintain the KeyCorp Separation Pay Plan, which generally covers all of our employees, including our Named Executive Officers, and provides assistance upon termination as a result of a reduction in staff. Our Separation Pay Plan is described in the Potential Payments Upon Termination or Change of Control table on page 60 of this proxy statement.

Change of Control Agreements

Each Named Executive Officer has entered into a Change of Control Agreement with us. We use Change of Control Agreements to help attract and retain executive talent. The Compensation Committee and the Board of Directors each believes that it is in the best interests of shareholders to ensure that our Named Executive Officers are able to evaluate objectively the merits of a potential transaction without being distracted by its potential impact on their personal employment situations. The Compensation Committee believes that most companies in our Peer Group maintain similar change of control arrangements for their executive officers. Our Change of Control Agreements are described in the Potential Payments Upon Termination or Change of Control table on page 60 of this proxy statement.

How We Make Pay Decisions

We seek to maintain a competitive level and mix of pay reflective of the market in which we compete for talent. We do this by reviewing the levels and types of compensation paid to executive officers in similar positions at companies in our Peer Group and the other companies with whom we compete for talent.

Table of Contents**2017 Proxy Statement Compensation Discussion and Analysis****Peer Group**

In setting compensation for our Named Executive Officers, the Compensation Committee examines the compensation data of our peer companies provided by Compensation Advisory Partners (CAP), an independent executive compensation advisory firm, to better understand whether our pay practices remain appropriate when measured against the competitive landscape. While this market data is useful, the Compensation Committee does not rely only on this data for targeting compensation levels, but uses it as a basis for validating relative competitive pay for our Named Executive Officers. The Compensation Committee also considers market conditions, promotions, individual performance, and other relevant circumstances as it determines our Named Executive Officers' compensation levels.

For 2016, the Compensation Committee continued to use a Peer Group comprised of banks with similar characteristics, including size and capabilities. The companies in our Peer Group maintain a strong brand and reputation and actively compete with us for executive talent. The companies in our 2016 Peer Group were (listed in alphabetical order):

BB&T Corp	Huntington Bancshares Inc.	Regions Financial Corp.
Comerica, Inc.	M&T Bank Corp.	SunTrust Banks, Inc.
Fifth Third Bancorp	People's United Financial Inc.	US Bancorp

The Compensation Committee identified an opportunity to review the Peer Group in light of Key's merger with First Niagara and the evolving regulatory environment. Based on a multi-dimensional review, the Compensation Committee modified the Peer Group for 2017 by adding Citizens Financial Group and removing People's United Financial Inc. and First Horizon National Corp. These changes to our Peer Group for 2017 were made after considering a number of factors, such as asset size relative to the other

Table of Contents

institutions within the Peer Group and, in the case of Peoples United Financial Inc. and First Horizon National Corp., due to the different regulatory expectations for institutions with less than \$50 billion in assets.

Definitions of Certain Financial Goals

As described previously in this Compensation Discussion and Analysis, we use a balanced mix of financial and strategic goals to measure performance under our Annual Incentive Plan and for purposes of determining the vesting of performance shares. The financial goals are defined as follows:

Cash Efficiency Ratio (non-GAAP measure): Noninterest expense (GAAP) less intangible asset amortization divided by net interest income (GAAP) plus taxable-equivalent adjustment (non-GAAP) plus noninterest income.

EPS: Income from continuing operations attributable to KeyCorp common shareholders, divided by weighted-average common shares and potential common shares outstanding.

PPNR (non-GAAP measure): Net interest income (GAAP) plus taxable-equivalent adjustment (non-GAAP) plus noninterest income (GAAP) less noninterest expense (GAAP), all from continuing operations.

Return on Tangible Common Equity (non-GAAP measure): Income from continuing operations attributable to Key common shareholders (GAAP) divided by average KeyCorp shareholders' equity, less average intangible assets, adjusted for average purchased credit card relationships, less average preferred stock.

Net Loan Charge-Offs: Total loans charged off less total loan recoveries, all from continuing operations.

Tangible Common Equity Ratio (non-GAAP measure): KeyCorp shareholders' equity (GAAP) less intangible assets, adjusted for purchased credit card relationships, less preferred stock, net of capital surplus, divided by total assets (GAAP) less intangible assets, adjusted for purchased credit card relationships.

Total Shareholder Return: Based on average closing share price over the last 20 trading days in the base year (i.e., for performance shares awarded in 2016, the last 20 trading days of 2015) versus average closing share price in the last 20 days in year three, plus investment of dividends paid during the measurement period.

Cash Efficiency Ratio, EPS, PPNR, and Return on Tangible Common Equity also exclude merger-related charges incurred in connection with the First Niagara acquisition. In its judgment, the Compensation Committee may adjust the performance goals for certain extraordinary items identified by the Compensation Committee to reflect changes in accounting, the regulatory environment, strategic corporate transactions, and other unusual or unplanned events. For

2016, no adjustments were made to the performance goals under the Annual Incentive Plan or with respect to outstanding performance awards except as otherwise described in this proxy statement related to the First Niagara merger.

A reconciliation of GAAP to non-GAAP financial measures and our reasons for using non-GAAP financial measures can be found in Figure 4 on page 39 of our 2016 Annual Report.

2017 Proxy Statement Compensation Discussion and Analysis

Compensation Committee Independence, Interlocks and Insider Participation

The members of the Compensation Committee are Bruce Broussard, Joseph A. Carrabba (Chair), Alexander M. Cutler, William G. Gisel, Jr., and Barbara R. Snyder, each of whom is an independent director under KeyCorp's categorical independence standards, the general independence standards for directors established by the New York Stock Exchange, and the heightened independence standards required of Compensation Committee members by the New York Stock Exchange. No member of the Compensation Committee is a current, or during 2016 was a former, officer or employee of KeyCorp or any of its subsidiaries or affiliates. During 2016, no member of the Compensation Committee had a relationship that must be described under the SEC rules relating to disclosure of related party transactions. In 2016, none of our executive officers served on the board of directors or compensation committee of any entity that had one or more of its executive officers serving on our Board or Compensation Committee.

Role of the Compensation Committee

The Compensation Committee sets the pay and evaluates the performance of our Chairman and Chief Executive Officer and reviews and approves the compensation of a select group of other executives, including the Named Executive Officers. Our Chairman and Chief Executive Officer attends Compensation Committee meetings and provides information and input about the pay levels and performance of our Named Executive Officers, other than herself. The Compensation Committee regularly meets in executive session, during which no member of Management is present, to discuss the recommendations and approve pay actions for our Named Executive Officers, including our Chairman and Chief Executive Officer.

Compensation Consultant

The Compensation Committee has retained the services of CAP, an independent executive compensation advisory firm. At the Compensation Committee's request, CAP provides it with information on current trends in compensation design and emerging compensation practices. CAP also provides the Compensation Committee with an annual review and analysis of the compensation programs of our Peer Group, which it updates during the latter half of the year to determine whether the compensation targets of the Named Executive Officers remain competitive. CAP reports directly to, and serves at the sole pleasure of, the Compensation Committee. CAP provided no other services to us other than the executive compensation consulting services that were requested by the Compensation Committee.

As part of its annual evaluation of its advisors, the Compensation Committee solicited information from CAP regarding any actual or perceived conflicts of interest and to evaluate its independence. Based on the information received from CAP, the Compensation Committee believes that the work CAP performed in 2016 did not raise a conflict of interest and that it is independent.

Tax and Accounting Treatment of Executive Compensation

Favorable accounting and tax treatment of the various elements of our executive compensation programs are a significant but not a controlling consideration in their design. Under Section 162(m) of the Internal Revenue Code, compensation paid to certain of our Named Executive Officers that exceeds \$1 million annually is not deductible unless it qualifies as performance-based compensation as defined in Section 162(m). We generally try to preserve the deductibility of certain incentive compensation paid to our Named Executive Officers. For example, to facilitate the

deductibility of 2016 annual incentive bonuses paid to certain executives who were anticipated to be subject to the limitations of Section 162(m), those incentive opportunities were granted under our 2011 Annual Performance Plan,

46

Table of Contents

which capped the maximum annual incentive actually payable to each at a percentage of our 2016 PPNR. Similarly, certain of our performance share awards were granted subject to a funding hurdle that will be satisfied if the ratio of our PPNR to average assets (from continuing operations) during the three-year performance period is at least equal to a specified percentage of the ratio of our PPNR to average assets (from continuing operations) for the preceding three years. If the hurdle is not satisfied, those performance shares do not fund and none of those performance shares will vest regardless of the level of achievement of the other performance goals described above. However, the Compensation Committee has not adopted a policy that requires all compensation to be deductible because we want to preserve the ability to provide cash or equity compensation to an executive that is not deductible under Section 162(m) if we believe that it is in our shareholders' best interests.

- (1) Amounts reported as Stock Awards reflect the grant date fair value of stock awards calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation Stock Compensation (FASB ASC Topic 718). See Note 16 to the Consolidated Financial Statements contained in our 2016 Annual Report for an explanation of the assumptions made in valuing these awards.

On February 15, 2016, each Named Executive Officer (other than Mr. Paine) received stock awards consisting of a target number of performance shares and restricted stock units representing 50% and 40%, respectively, of each executive's long-term incentive opportunity. Mr. Paine received stock awards consisting of a target number of cash performance shares and stock units representing 30% and 60%, respectively, of his long-term incentive opportunity. The target number of performance shares and restricted stock units awarded to each Named Executive Officer was determined by dividing the dollar amount of the Named Executive Officer's performance share and restricted stock unit awards by the grant date closing price of a common share (rounded down to the nearest whole share). February 15, 2016 was not a trading day and our equity compensation plan requires that in that circumstance, the closing price of our common shares on the most recent trading day in this case February 12, 2016 be used as the grant date closing price. On February 12, 2016, the closing price of our common shares was \$10.49.

Table of Contents**2017 Proxy Statement Compensation of Executive Officers and Directors**

If our performance during the measurement period resulted in the maximum number of 2016 performance shares vesting, our executives would be entitled to a maximum award with a grant date fair value of the maximum award set forth in the following table.

Named Executive Officer	Grant Date Fair Value of Performance	
	Shares at Maximum Award (\$)	
Beth E. Mooney	\$	3,299,991
Donald R. Kimble	\$	1,124,990
Christopher M. Gorman	\$	1,799,990
Andrew J. Randy Paine III	\$	866,243
Edward J. Burke	\$	787,490

- (2) Amounts reported in the **Option Awards** column reflect the aggregate grant date fair value of options using the Black-Scholes option pricing model. On February 15, 2016, each Named Executive Officer received an annual long-term incentive award consisting, in part, of an award of nonqualified stock options. See Note 16 to the Consolidated Financial Statements contained in our 2016 Annual Report for an explanation of the assumptions made in valuing stock options granted to our Named Executive Officers in 2016.
- (3) Amounts reported as **Non-Equity Incentive Plan Compensation** reflect annual incentives earned by each Named Executive Officer for the applicable year.
- (4) Amounts reported in the **Change in Pension Value and Nonqualified Deferred Compensation Earnings** column reflect the interest credits allocated to Ms. Mooney, Mr. Gorman, Mr. Paine, and Mr. Burke under the frozen Cash Balance Pension Plan and Second Excess Cash Balance Pension Plan. We froze our pension benefits for all employees, including the Named Executive Officers, effective December 31, 2009, as described in the narrative to the 2016 Pension Benefits Table beginning on page 57 of this proxy statement. No above market or preferential earnings were paid to any Named Executive Officer on nonqualified deferred compensation.
- (5) The following table sets forth detail about the amounts reported in the **All Other Compensation** column:

Name	Executive Physical	Executive Security	Financial Planning	Matching Contribution	Profit Sharing	Total (\$)
------	--------------------	--------------------	--------------------	-----------------------	----------------	------------

	(\$ (a))	(\$ (b))	(\$ (c))	(\$ (d))	(\$ (e))	
Beth E. Mooney	5,976	17,935	2,507	30,000	6,625	63,043
Donald R. Kimble				30,000	6,625	36,625
Christopher M. Gorman				30,000	6,625	36,625
Andrew J. Randy Paine III				30,000	6,625	36,625
Edward J. Burke				15,900	6,625	22,525

- (a) The maximum benefit utilized by any Named Executive Officer was \$5,976. For privacy reasons, this amount is shown regardless of actual usage.
- (b) Based on the recommendations of an independent security study, the Compensation Committee approved a comprehensive security program for Ms. Mooney. Under this program, we are paying for certain security upgrades and have authorized, and in some instances required, her to use a secure automobile and professionally-trained driver for business and personal travel. Ms. Mooney reimburses us for the cost of automobile and driver when used solely for personal purposes.
- (c) The Compensation Committee approved a tax and financial planning perquisite, which was introduced in 2016. The amount shown in this column represents the cost to Key for any Named Executive Officer who utilized this benefit.
- (d) The amounts in this column consist of Company contributions to the qualified 401(k) Savings Plan and the nonqualified Deferred Savings Plan. For more information about these plans, see pages 43 and 59 of this proxy statement.
- (e) Employees participating in our 401(k) Savings Plan receive a discretionary profit sharing contribution equal to a percentage of their plan-eligible compensation. The contribution percentage is determined annually by the Compensation Committee. For 2016, the profit sharing contribution to this plan was 2.5%. For more information about this plan, see page 43 of this proxy statement.

- (1) Amounts reported as Estimated Possible Payouts Under Non-Equity Incentive Plan Awards reflect the individual annual incentive opportunity each of the Named Executive Officers could receive at threshold (50% of target), at target, and at maximum (200% of target) performance for the one-year performance period ended December 31, 2016. The maximum individual opportunity that any Named Executive Officer can earn is different than the maximum funding level of our Annual Incentive Plan described in the Compensation Discussion and Analysis section of this proxy statement. Actual annual incentive payments are reflected in the 2016 Summary Compensation Table on page 49 of the proxy statement.
- (2) Amounts reported in the Estimated Future Payouts Under Equity Incentive Plan Awards column reflect the threshold (50% of target), target, and maximum (150% of target) long-term incentive awards in the form of performance shares that each Named Executive Officer could earn for the three-year performance period beginning on January 1, 2016, and ending December 31, 2018. Our performance share awards are discussed in the Compensation Discussion and Analysis section of this proxy statement. The dollar value awarded to each of the Named Executive Officers as performance shares was converted into a book entry target number of phantom shares that track the stock price and pay out in the form of shares. The price at which the performance shares were converted was based on the grant date closing price of our common shares of \$10.49. Please see footnote 1 to the 2016 Summary Compensation Table for a discussion of how we arrive at the grant date closing price. Dividend equivalents on the target number of shares are reinvested and subject to the same terms and restrictions otherwise applicable to the underlying performance shares.
- (3) Amounts reported in the All Other Stock Awards column are the number of restricted stock units granted to each of the Named Executive Officers on February 15, 2016, which vest in four equal installments following the grant date.
- (4) Amounts reported in the All Other Option Awards column are the number of KeyCorp common shares underlying the stock options granted to each of the Named Executive Officers on February 15, 2016. Stock options granted in 2016 vest in four equal annual installments following the grant date.

(5) We set the exercise price of all stock options using the grant date closing price of our common shares of \$10.49. Please see footnote 1 to the Summary Compensation Table for a discussion of how we arrive at the grant date closing price. The Compensation Committee does not reprice options. We have not and will not back-date options, nor do we provide loans to employees in order to exercise options. If an equity-based award is granted in a month in which our earnings are publicly disclosed, the grant date will be the date of the Compensation Committee meeting granting the equity-based award or three days following the earnings release, whichever is later.

(6) Amounts reported in the Grant Date Fair Value of Stock and Options Awards column represent the aggregate grant date fair value of equity awards granted during the respective year. The accounting assumptions used in calculating the grant date fair value for the equity awards are described in Note 16 to the Consolidated Financial Statements contained in our 2016 Annual Report.

The impact of terminations and a change of control on the Grants of Plan-Based Awards is shown in more detail in the Potential Payments Upon Termination or Change of Control table on page 60 of this proxy statement.

2016 Pension Benefits Table

The following table presents information about the Named Executive Officers' participation in KeyCorp's defined benefit pension plans as of December 31, 2016. Named Executive Officers who have not participated in KeyCorp's defined benefit pension plans are excluded from this table.

Name	Plan Name	Years of Credited Service (#)	Present Value of Accumulated Benefits (\$)
Beth E. Mooney	Cash Balance Pension Plan	4	51,424
	Second Excess Cash Balance Pension Plan	4	98,766
Christopher M. Gorman	Cash Balance Pension Plan	18	197,053
	Second Excess Cash Balance Pension Plan	18	646,221
Andrew J. Randy Paine III	Cash Balance Pension Plan	16	197,123
	Second Excess Cash Balance Pension Plan	16	450,720
Edward J. Burke	Cash Balance Pension Plan	13	195,392
	Second Excess Cash Balance Pension Plan	13	435,396

KeyCorp previously maintained both a qualified Cash Balance Pension Plan (the Pension Plan) and a nonqualified Second Excess Cash Balance Pension Plan (the Excess Plan) in which employees, including Named Executive Officers, could participate. Credited service for Pension Plan and Excess Plan purposes was frozen as of December 31, 2009. Vesting service, however, continues to accrue.

Pension Plan

Effective December 31, 2009, KeyCorp froze the Pension Plan. Benefits accrued up through December 31, 2009, will continue to be credited with interest until the participant commences distribution.

Table of Contents**2017 Proxy Statement Compensation of Executive Officers and Directors**

of benefits. The Pension Plan's interest crediting rate is established annually and is based on the rate for 30-year U.S. Treasury securities. For 2016, the Pension Plan's interest crediting rate was 2.83%. For 2017, the Pension Plan's interest crediting rate is 2.6%. Participants' Pension Plan distributions may be made upon the participant's retirement, termination of employment, or death. Distributions may be made in the form of a single lump sum payment, in the form of an annuity, or in a series of actuarially equivalent installments.

Excess Plan

KeyCorp established the Excess Plan effective January 1, 2005, and the Excess Plan was frozen on December 31, 2009. Benefits that accrued through December 31, 2009, continue to be credited with interest until distribution. The Excess Plan's interest crediting rate is the same as the interest crediting rate for the Pension Plan. To be eligible to receive a distribution from the Excess Plan, a participant must be age 55 or older with a minimum of five years of vesting service. Participants who are involuntarily terminated for reasons other than for cause may receive a distribution of their Excess Plan benefits provided that, at the time of termination, the participant (i) has a minimum of 25 years of vesting service with KeyCorp, and (ii) enters into an employment separation agreement (containing a full release with noncompete and nonsolicitation requirements) with us. Distributions are in the form of an annuity or actuarially equivalent installments (unless the participant's benefit is under \$50,000, in which case it is distributed as a single lump sum payment).

Ms. Mooney and Messrs. Gorman, Paine, and Burke participate in both the Pension Plan and Excess Plan.

Executive contributions and KeyCorp contributions in the last fiscal year are reflected in the 2016 Summary Compensation Table on page 49 of this proxy statement.

(2) Aggregate earnings in the last fiscal year are not reflected in the 2016 Summary Compensation Table on page 49 of this proxy statement because the earnings were neither preferential nor above-market. Each of the Named Executive Officers had positive earnings results in 2016 and benefited from the gain in the price of KeyCorp common shares as well as KeyCorp common share dividends since the prior year end.

(3) The aggregate balances at the last fiscal year-end represent the total ending account balance (employee and Company balances) at December 31, 2016, for each Named Executive Officer.

Previously reported Summary Compensation Table values for executive contributions and KeyCorp contributions under rules adopted in 2006 include: Ms. Mooney executive contributions of \$2,336,145, and KeyCorp contributions of \$819,120; and Mr. Kimble executive contributions of \$30,462, and KeyCorp

contributions of \$14,100; and Mr. Gorman executive contributions of \$2,420,097, and KeyCorp contributions of \$549,659. Messrs. Paine and Burke did not have previous executive and KeyCorp contributions to report.

Deferred Savings Plan

KeyCorp maintains the Deferred Savings Plan (DSP). Participating employees may defer up to 50% of their base salary and up to 100% of their annual incentive awards (collectively referred to as participant deferrals) to the DSP once their compensation for the applicable plan year reaches the IRS compensation limits for the year. Prior to January 1, 2015, eligibility generally was restricted to employees based on salary grade. Effective January 1, 2015, eligibility was expanded to include employees with annual compensation exceeding IRS compensation limits for the year; however, the Compensation Committee (or its delegate) has the authority to exclude or include any employee from participating in the plan. We provide participants with an employer match on the first 6% of participant deferrals deferred under the DSP in excess of the IRS compensation limits. Effective January 1, 2015, we amended the DSP so that the employer match may not exceed 6% of the lesser of (i) \$500,000 or (ii) the participant s annual compensation. The employer match is subject to a 3-year vesting requirement. Prior to 2014, the DSP permitted us to make a discretionary profit sharing contribution in any amount, if any, determined annually by KeyCorp s Board of Directors or its authorized committee. Effective beginning in 2014, the discretionary profit sharing contribution feature was eliminated from the DSP.

Participant deferrals are invested on a bookkeeping basis in investment funds that mirror the funds offered under the 401(k) Savings Plan as well as in an interest-bearing fund. The interest-bearing fund is credited with a monthly interest rate equal to 120% of the applicable long-term federal rate as published by the Internal Revenue Service. Distributions of vested DSP benefits are made upon the employee s separation from service.

- (1) For purposes of the table above and, where applicable, the following tables, we define:

Retirement to mean a Named Executive Officer's voluntary termination on or after age 55 with five years of service;

Limited Circumstances as a termination in which a Named Executive Officer becomes entitled to severance benefits under our Separation Pay Plan which generally provides all employees with benefits in the event of a loss of employment due to a reduction in staff. Although we may negotiate severance arrangements in the context of any employee's termination, we generally do not provide any Named Executive Officer with severance benefits solely upon an involuntary termination, other than in the context of a change of control. As a result, no information is included about payments or benefits in the event of an involuntary termination without cause; and

Change of Control Termination as a Named Executive Officer's involuntary termination or voluntary termination for good reason, in each case within two years following a change of control.

- (2) Select executives who had Change of Control Agreements providing for a greater than two-times benefit when we restructured these agreements in 2012 were permitted to retain the greater benefit.
- (3) All employees are eligible to receive a discretionary annual incentive for the year of termination.

2016 Post-Termination Tables

The following tables set forth the compensation that would be paid by KeyCorp to the Named Executive Officers assuming a termination of employment and/or Change of Control Termination on December 31, 2016, in the various scenarios outlined below. Except as otherwise noted below, the values reported for stock options, restricted stock units, and performance awards are based on the closing price of KeyCorp common shares on December 30, 2016, of \$18.27 (less the applicable exercise price, in the case of stock options).

- (2) In the event of a termination under limited circumstances, Ms. Mooney would be entitled to salary continuation of the maximum amount allowed under the KeyCorp Separation Pay Plan.
- (3) Ms. Mooney is entitled to receive severance of three times the sum of her base salary and target annual incentive plus annual COBRA medical premiums as a result of a Change of Control Termination, as well as three additional years of deferred compensation matching contributions.

Directors Compensation

Consistent with our philosophy of aligning the economic interests of our directors and shareholders, the directors compensation paid to each non-employee director of KeyCorp, consists of: (i) a cash retainer and (ii) stock-based compensation, referred to as deferred shares. The total amount of the cash retainer paid to each director differs depending upon whether the director serves as a member of certain committees of the Board, as chair of a committee of the Board, or as Lead Director of the Board. Ms. Mooney, as an employee of KeyCorp, does not receive any compensation for her service as a director.

Annually, the Nominating and Corporate Governance Committee reviews the amount and form of directors compensation payable to KeyCorp directors in comparison to directors compensation payable at bank holding companies in our Peer Group (identified on page 44 of this proxy statement). The Nominating and Corporate Governance Committee periodically requests information from CAP to assist in this annual review. The Nominating and Corporate Governance Committee reports the results of its annual review to the full Board and recommends to the full Board changes, if any, in directors compensation. For 2017, the Nominating and Corporate Governance Committee recommended and the Board approved a director pay program which increases the amount of the director's annual cash retainer and award of deferred shares. Director compensation for 2016 and 2017 is described in the following table:

	2016	2017
Annual Compensation Element	(\$)	(\$)
Cash Retainer	70,000	80,000

Table of Contents**2017 Proxy Statement Compensation of Executive Officers and Directors****Deferral of Cash Retainer**

Directors may elect to defer payment of all or a portion of their cash retainer to a future date. Under the Directors Deferred Share Sub-Plan, the deferred cash retainer is converted into deferred shares that are payable in KeyCorp common shares on the specified deferral date.

Deferred Shares

The Board has determined that a significant portion of the Board's compensation should be equity compensation in order to more closely align the economic interests of directors and shareholders. Other than Ms. Mooney, each director receives an annual award of deferred shares consisting of restricted stock units under the Directors' Deferred Share Sub-Plan. Each grant is subject to a minimum three-year deferral period, which is accelerated upon a director's separation from the Board. The deferred shares are paid 50% in KeyCorp common shares and 50% in cash based on the value of a KeyCorp common share on the earlier of the last day of the deferral period or the date of the director's separation from the Board.

Directors may elect to further defer the payment of any award of deferred shares beyond three years. If a further deferral election is made, 100% of these further deferred shares are paid in the form of KeyCorp common shares. Payment is not made on any further deferred shares until the designated deferral date, which may be beyond the director's separation from the Board.

2016 Director Compensation Table

The following table sets forth certain information regarding the compensation earned by or paid to each non-employee director who served on the Board of Directors in 2016. Ms. Mooney, as an employee of KeyCorp, is not compensated for her services as a director.

The accounting assumptions used in calculating the grant date fair value are presented in Note 16 to the Consolidated Financial Statements of our 2016 Annual Report. On May 19, 2016, each director who was then serving received a grant of 8,878 fully vested deferred shares at a fair market value of \$110,000 rounded down to the nearest whole share. One-half of this deferred share award is payable in shares and one-half of this award is payable in cash on the third anniversary of the grant date unless the director has elected to further defer payment, in which case the entire award is payable in shares.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a Policy Statement on Independent Auditing Firm's Services and Related Fees, which governs the Audit Committee's pre-approval process for services provided by the independent audit firm and fees paid to such firm. Those services may include audit services, audit-related services, tax services, and other services. Any audit, audit-related, tax, or other services not incorporated in the scope of services pre-approved at the time of the approval of the annual audit engagement and that are proposed subsequent to that approval require the pre-approval of the Audit Committee, which may be delegated to the Chair of the Audit Committee, whose action on the request shall be reported at the next meeting of the full Audit Committee. Audit, audit-related, tax, and other services incorporated in the scope of services pre-approved at the time of the approval of the annual audit engagement,

and which are recurring in nature, do not require recurring pre-approvals. The independent audit firm is required to regularly report to the Audit Committee regarding the extent of audit, audit-related, tax, and other services provided by the independent audit firm and the related fees for such services. During 2016, all services were pre-approved by the Audit Committee in accordance with this policy.

Audit Committee Report

The Audit Committee of the KeyCorp Board of Directors is composed of four non-employee directors and operates under a written charter adopted by the Board of Directors. The Audit Committee annually selects KeyCorp's independent auditors, subject to shareholder ratification.

The Audit Committee is directly responsible for the appointment, compensation, retention, and oversight of the independent external audit firm retained to audit KeyCorp's financial statements. The independent audit firm is responsible for performing an independent audit of KeyCorp's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. Management is responsible for KeyCorp's internal controls and financial reporting process.

Annually, the Audit Committee considers the results of an evaluation of the qualifications, experience, candor, independence, objectivity, and professional skepticism of the independent external auditor in determining whether to retain the firm for the next fiscal year. As part of this evaluation, the Audit Committee reviews and considers the results of the Public Company Accounting Oversight Board's annual inspection of the independent external auditor. The evaluation is led by KeyCorp's Chief Risk Review Officer, who reports directly to the Audit Committee. The Audit Committee oversees the audit fees negotiations associated with KeyCorp's retention of the independent auditor and has the sole authority to approve the audit fees. In accordance with rules of the Securities and Exchange Commission, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide service to KeyCorp. In conjunction with this five-year mandated rotation of the audit firm's lead engagement partner, the Audit Committee and its chairperson are directly involved in the selection of the independent auditor's new lead engagement partner. Pursuant to the five-year mandated rotation, a new lead engagement partner was designated in 2016. Ernst & Young has been retained as KeyCorp's independent external auditor continuously since the 1994 merger of KeyCorp and Society Corporation. Each of KeyCorp and Society Corporation had retained Ernst & Young prior to the 1994 merger. The members of the Audit Committee and the Board believe that the continued retention of Ernst & Young to serve as KeyCorp's independent external auditor is in the best interests of KeyCorp and its investors. At each regularly scheduled meeting, the Audit Committee holds executive sessions and private meetings with individual members of management, internal audit, and the independent external auditor as the Audit Committee deems necessary.

In fulfilling its oversight responsibility, the Audit Committee relies on the accuracy of financial and other information, opinions, reports, and statements provided to the Audit Committee. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Nor does the Audit Committee's oversight assure that the audit of KeyCorp's financial statements has been carried out in accordance with generally accepted auditing standards or that the audited financial statements are presented in accordance with generally accepted accounting principles.

The Audit Committee has reviewed and discussed the audited financial statements of KeyCorp for the year ended December 31, 2016 (Audited Financial Statements) with KeyCorp's management. In addition, the Audit Committee has discussed with Ernst & Young the matters required by the Public Company Accounting Oversight Board's Auditing Standard No. 1301. The Audit Committee has received the written disclosures and the letter from Ernst & Young required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with Ernst & Young its independence from KeyCorp.

Based on the foregoing review and discussions and relying thereon, the Audit Committee recommended to KeyCorp's Board of Directors the inclusion of the Audited Financial Statements in KeyCorp's Annual Report on Form 10-K for the year ended December 31, 2016, that was filed with the Securities and Exchange Commission.

PROPOSAL TWO:

Ratification of Independent Auditor

The Audit Committee of the Board of Directors of KeyCorp has appointed Ernst & Young LLP (Ernst & Young) as KeyCorp s independent auditor to examine the financial statements of KeyCorp and its subsidiaries for the 2017 fiscal year. The Board of Directors recommends ratification of the Audit Committee s appointment of Ernst & Young.

A representative of Ernst & Young will be present at the meeting with an opportunity to make a statement if such representative desires to do so and to respond to appropriate questions.

Although shareholder approval of this appointment is not required by law or binding on the Audit Committee, the Audit Committee believes that shareholders should be given the opportunity to express their views. If the shareholders do not ratify the appointment of Ernst & Young as KeyCorp s independent auditors, the Audit Committee will consider this vote in determining whether or not to continue the engagement of Ernst & Young.

Vote Required

Approval of this proposal will require the affirmative vote of a majority of the KeyCorp common shares represented in person or by proxy at the Annual Meeting.

The Board of Directors unanimously recommends that our shareholders vote FOR the ratification of this appointment.

PROPOSAL THREE:

Advisory Approval of KeyCorp's Executive Compensation

KeyCorp's Board of Directors is providing shareholders with the opportunity to cast an advisory vote on the compensation of our Named Executive Officers at this Annual Meeting as required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and Section 14A of the Exchange Act. At the 2011 Annual Meeting of Shareholders, shareholders were asked to recommend how often they should be given the opportunity to cast this advisory vote. The shareholders overwhelmingly voted for an annual advisory vote on executive compensation and the Board approved this choice. Shareholders are also being asked to vote again on the frequency of the advisory vote on executive compensation, which is described in Proposal Four.

The vote on the compensation of our Named Executive Officers will not be binding on or overrule any decisions by KeyCorp's Board of Directors, will not create or imply any additional fiduciary duty on the part of the Board, and will not restrict or limit the ability of KeyCorp's shareholders to make proposals for inclusion in proxy materials related to executive compensation. However, as described in the Compensation Discussion and Analysis section beginning on page 28 of this proxy statement, the Compensation Committee has taken into account the results of previous votes on this issue in considering executive compensation arrangements and will take into account the outcome of this year's vote when considering such arrangements in the future.

This advisory proposal was approved by approximately 95% of the KeyCorp common shares represented at the 2016 Annual Meeting of Shareholders. As discussed in the Compensation Discussion and Analysis section beginning on page 28 of this proxy statement, the Compensation Committee believes that the compensation of our Named Executive Officers for 2016 is reasonable and appropriate in light of the 2016 performance of the company, is consistent with our pay-for-performance compensation philosophy, and helps to ensure the alignment of management's interests with our shareholders' interests to support long-term value creation.

The Board of Directors has determined that the best way to allow shareholders to vote on KeyCorp's executive compensation is through the following resolution:

RESOLVED, that the shareholders approve on an advisory basis KeyCorp's Named Executive Officer compensation, as described in the Compensation Discussion and Analysis and the tabular disclosure regarding Named Executive Officer compensation (together with the accompanying narrative disclosure) in this proxy statement.

Vote Required

Approval of this proposal will require the affirmative vote of a majority of the KeyCorp common shares represented in person or by proxy at the Annual Meeting.

The Board of Directors unanimously recommends that our shareholders vote FOR this proposal.

Table of Contents

PROPOSAL FOUR:

Advisory Approval of the Frequency of the Shareholder Vote on KeyCorp's Executive Compensation

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 enables KeyCorp's shareholders to indicate how frequently KeyCorp should seek an advisory vote on the compensation of our Named Executive Officers. This advisory vote, which is also required by Section 14A of the Exchange Act, must be solicited from our shareholders at least once every six years. At the last vote held at the 2011 Annual Meeting of Shareholders, shareholders overwhelmingly voted for an annual advisory vote on executive compensation, and the Board of Directors approved this choice.

By voting on the proposal, shareholders may indicate whether they would prefer that we conduct future advisory votes on the compensation of our Named Executive Officers annually, every two years, or every three years. Shareholders also may, if they wish, abstain from casting a vote on this proposal.

The Board of Directors highly values regular and frequent input from our shareholders on important issues such as the compensation of our Named Executive Officers. The Board of Directors believes that an annual vote supports KeyCorp's efforts to engage in an ongoing dialogue with our shareholders on our executive compensation and corporate governance practices. The annual advisory vote on our executive compensation enables shareholders to provide timely, direct input on our executive compensation philosophy, policies, and practices, which are disclosed each year in the proxy statement for our annual meeting.

This vote is advisory and not binding on KeyCorp, the Board of Directors, or the Compensation Committee in any way. The Board of Directors and the Compensation Committee will consider the outcome of the vote, however, when considering the frequency of future advisory votes on the compensation of our Named Executive Officers.

The next shareholder vote on the frequency of future votes on Named Executive Officer compensation will occur at our 2023 Annual Meeting of Shareholders.

Vote Required

The frequency for the advisory vote on executive compensation (that is, annually, every two years, or every three years) that receives the vote of the greatest number of the KeyCorp common shares represented in person or by proxy at the Annual Meeting will be the frequency recommended by the shareholders.

The Board of Directors unanimously recommends that our shareholders vote in favor of an ANNUAL advisory vote on executive compensation.

PROPOSAL FIVE:

Shareholder Proposal Seeking an Independent Board Chairman

The following proposal was submitted for inclusion in this proxy statement by Mr. Gerald R. Armstrong, 621 Seventeenth Street, No. 2000; Denver, Colorado, 80293-2001; telephone number: 303-355-1199. Mr. Armstrong owns 20,080 KeyCorp common shares. In accordance with rules of the Securities and Exchange Commission, the text of Mr. Armstrong's resolution and supporting statement appear below, printed verbatim from his submission. The Board of Directors recommends a vote **AGAINST** this proposal.

RESOLUTION

That the shareholders of KEYCORP request its Board of Directors to adopt a policy, and amend the by-laws as necessary, to require the Chairman of the Board of Directors to be an independent member of the Board of Directors.

This policy should not be implemented to violate any contractual obligation and should specify: (A) how to select a new independent chairman if the current chairman ceases to be independent during the time between annual meetings of shareholders; and, (b) that compliance is excused if no independent director is available and will serve as Chairman.

STATEMENT

KEYCORP and WELLS FARGO & COMPANY opposed this proposal of the proponent many times in past annual meetings. Although it received 54% of shares voted in its favor in the 2012 annual meeting of KEYCORP, the KEYCORP board increased the duties of its Lead Director --a person heading Eaton Corporation as Chairman and Chief Executive Officer and is governed by the tax codes of Ireland. This does not seem beneficial to shareholders as the earnings remain reduced reflected by dividends of only 34¢ per share annually compared to \$1.46 in 2007. Tangible book value in 2007 was \$16.47 per share compared to \$11.22 at year end 2015.

Compensation for KEYCORP's Chairman/President has increased as she joined the Board of AT&T and received \$291,702 as 2015 compensation. The proponent believes an independent chairman would not allow this time away while KEYCORP has been unable to restore its earnings.

This proposal's proponent, a longterm shareholder of KEYCORP, caused declassification of its director terms from three years to one year and its elimination of super-majority voting requirements.

In the fall of 2016 after Wells Fargo & Company admitted its several problems, it abandoned the dual role of one person serving as its Chairman of the Board while being Chief Executive Officer and appointed an independent Chairman and independent Vice-Chairman of the Board. Obviously, its Board finally realized the seriousness of the issues and the impact of its paying \$210,000,000 in fines. More recently, it increased high-end estimates or reasonably possible potential litigation losses of \$1,700,000,000.

DuPont's failures were placed upon its Board Chair and Chief Executive Officer who was ousted by its board in the same manner that Target Corporation's board ousted its Chairman/Chief Executive Officer a year earlier. Studies have confirmed that under-performing companies lack an independent chairman and companies, worldwide, are routinely separating the positions of chairman and CEO (CEO Succession 2000-2009: A Decade of Convergence and Compression, Booz & Co., Summer, 2010).

Norges Bank Investment Management has stated in support of a similar proposal:

The roles of Chairman of the Board and CEO are fundamentally different and should not be held by the same person. There should be a clear division of responsibilities between these positions to insure a balance of power and authority on the Board.

If you agree, please vote FOR this proposal.

Table of Contents

Board of Directors Recommendation and Statement

The Board of Directors has carefully reviewed the proposal and recommends that the shareholders vote AGAINST it. The Board believes that independent Board leadership is critical and that the Board should have the flexibility to consider all relevant factors and select the most appropriate leadership structure for the Company's circumstances at any given time. The current Board leadership structure, together with the Board's other practices, already provides effective independent oversight of management, and Board accountability and responsiveness to shareholders.

Our Board is committed to robust independent Board leadership. The Board has an independent Lead Director with a meaningful role, 15 independent directors, including two new independent directors who joined the Board in 2016 in connection with KeyCorp's acquisition of First Niagara, and a strong, independent committee structure.

KeyCorp's independent directors have elected Alexander M. Cutler to provide independent Board leadership as the Board's independent Lead Director for 2017. Among his specific responsibilities, the independent Lead Director:

presides at all meetings of the Board at which the Chairman is not present, including regular executive sessions of the independent and non-management directors;

serves as liaison between the Chairman and the independent and non-management directors;

approves information and meeting agendas sent to the Board;

approves meeting schedules to assure there is sufficient time for discussion of all agenda items;

has the authority to call meetings of the independent and non-management directors;

if requested by major shareholders, is available for consultation and direct communication;

advises on the retention of independent consultants to the Board;

assists the Board and management in assuring compliance with applicable securities laws and fiduciary duties to shareholders;

oversees initiatives to implement improvements to KeyCorp's governance policies and the Corporate Governance Guidelines;

serves as a focal point for independent Committee Chairs and provides guidance, coordination, and advice for the committees; and

together with the Chair of the Compensation Committee, facilitates the evaluation of the performance of KeyCorp's Chief Executive Officer.

The Lead Director seeks input from independent and non-management directors with respect to items to be included on the agenda for each Board meeting and provides feedback from the independent and non-management directors while engaging in the agenda-building process. He is also in frequent contact with the Chairman with respect to major issues and strategic opportunities before KeyCorp, and any significant actions contemplated by KeyCorp are discussed with the Lead Director at an early stage. In addition, the Lead Director interviews all candidates for election to the Board and oversees changes to the composition of Board committees.

The independent and non-management directors also assess the effectiveness of the Lead Director annually, in connection with the annual election of a person to fill this role, and provide candid feedback on the performance of the Lead Director's specified responsibilities. The formal evaluation process is conducted by the Board in executive session with the Lead Director excused from participation.

Table of Contents

The Board has also taken other steps to provide for independent, effective oversight of management. Currently, 15 of the Board's 17 members are independent directors. The Board and its committees each meet in executive session on a regular basis without the presence of management, and all Board members have complete access to management and outside advisors. Each standing committee of the Board is chaired by an independent director, and each committee (other than the Executive Committee) consists solely of independent directors. Our independent directors have extensive corporate governance and leadership experience, and many have significant public company experience. We have added five new independent directors since 2014.

Our structure enables the Board to exercise vigorous oversight of key issues relating to management development, succession and compensation, compliance and integrity, corporate governance, cybersecurity, and company strategy and risk. With respect to risk, the Board assures that Key's risks are managed in a manner that is effective and balanced and adds value for Key's shareholders. The Board understands Key's risk philosophy, approves Key's risk appetite, inquires about risk practices, reviews the portfolio of risks, compares the actual risks to the risk appetite, and is apprised of significant risks, both current and emerging, and determines whether management is responding appropriately. With respect to risk and other areas that it oversees, the Board challenges management and promotes accountability.

Since 2011, KeyCorp has been well served by Beth Mooney's combined role as Chairman and Chief Executive Officer. Ms. Mooney's combined leadership role has allowed her to set the overall tone and direction for KeyCorp, maintain consistency in the internal and external communication of our strategic and business priorities, and have primary responsibility for managing KeyCorp's operations. Under Ms. Mooney's leadership, KeyCorp completed its acquisition of First Niagara in August 2016 and is working to realize the benefits of this significant transaction in order to maximize long-term value for our shareholders.

Our many conversations between our directors and our shareholders regarding their views on Board leadership and independent oversight have confirmed our view that a strong, effective Lead Director, like Mr. Cutler, an independent Board, and independent key committees provide the independent leadership necessary to balance the combined Chairman and Chief Executive Officer role and, with the formal and informal mechanisms we have in place, result in the Board effectiveness and efficiency that our shareholders expect.

The Board annually (or more often if a new Chief Executive Officer is selected) evaluates KeyCorp's leadership structure to assess whether it remains appropriate for the Company, taking into account a variety of factors including KeyCorp's size, the nature of its business, the regulatory framework in which it operates, and the leadership structure of its peers. The Board believes that a primary consideration for KeyCorp is that, as a large financial institution subject to significant regulation, KeyCorp must communicate swiftly and consistently with our stakeholders, including our regulators. We believe that swift and consistent communication is significantly furthered if KeyCorp's leadership, through our Chairman and Chief Executive Officer, speaks as a single voice on behalf of both the Board and management.

Our ongoing dialogue with our shareholders reinforces our belief that the Board should maintain the flexibility to separate or combine the Chairman and Chief Executive Officer roles. Accordingly, we believe that this shareholder proposal is not in the best interests of KeyCorp and its shareholders, and for these reasons, the Board recommends that shareholders vote AGAINST this shareholder proposal.

Vote Required

Approval of this shareholder proposal will require the affirmative vote of a majority of the KeyCorp common shares represented in person or by proxy at the Annual Meeting.

The Board of Directors unanimously recommends that our shareholders vote AGAINST this proposal.

General Information about the Annual Meeting

Matters to Be Presented

KeyCorp's Board of Directors is not aware of any other matter to be presented at the Annual Meeting except those described in this proxy statement. If any other matter is properly brought before the Annual Meeting, the individuals you have authorized to vote your shares will vote on your behalf using their best judgment.

How Votes Will Be Counted

Each KeyCorp common share is entitled to one vote on each matter to be considered at the Annual Meeting.

To transact business at the Annual Meeting, a majority of KeyCorp's outstanding common shares must be present in person or by proxy. This is known as a quorum. If you return a valid proxy, your shares will be counted for determining if a quorum is present at the Annual Meeting.

You may vote FOR or AGAINST, or choose to ABSTAIN from voting for, each nominee for the Board of Directors and for each of the other proposals. Generally, choosing to ABSTAIN from a vote is counted as a vote AGAINST a particular proposal. However, a vote to ABSTAIN from the election of any director (as in Proposal One of this proxy statement) will not be counted as a FOR or AGAINST vote. Even if you choose to ABSTAIN on any or every proposal, your shares will still be counted toward the quorum.

If you hold your shares through a broker, your broker's ability to vote your shares for you is governed by the rules of the New York Stock Exchange. Without your specific instruction, a broker or other nominee may only vote your shares on routine proposals. Your broker will submit a proxy card on your behalf but leave your shares unvoted on non-routine proposals this is known as a broker non-vote. Without your specific instruction, your broker will not vote your shares on Proposals One (*Election of Directors*), Three (*Advisory Approval of KeyCorp's Executive Compensation*), Four (*Advisory Approval of the Frequency of the Shareholder Vote on KeyCorp's Executive Compensation*), and Five (*Shareholder Proposal Seeking an Independent Board Chairman*), which the New York Stock Exchange considers non-routine proposals. Non-votes will not be counted FOR or AGAINST these proposals. Proposal Two is a routine matter on which your broker will vote without your instruction. Therefore, broker non-votes are not expected to occur with respect to Proposal Two. Broker non-votes will still be counted toward the quorum.

To ensure your shares are voted at the meeting, you are urged to provide your proxy instructions promptly by telephone, online, or by mailing your signed proxy card in the enclosed envelope. KeyCorp common shares represented by properly executed proxy cards, online instructions, or telephone instructions will be voted as you direct. If you do not vote at all on an otherwise properly-executed proxy card or your properly submitted online instruction gives no voting direction whatsoever, the proxies will vote your shares FOR the election of the nominees named herein as directors (Proposal One), FOR the ratification of the appointment of Ernst & Young as our independent auditors for the fiscal year ending December 31, 2017 (Proposal Two), FOR advisory approval of KeyCorp's executive compensation (Proposal Three), for an ANNUAL advisory vote on executive compensation (Proposal Four), and AGAINST the shareholder's proposal seeking an independent Board Chairman (Proposal Five).

Revoking a Proxy

If you have submitted your proxy and would like to revoke it, you may do so any time before your shares are voted at the Annual Meeting by: (i) filing a notice with the Secretary of KeyCorp revoking your proxy, (ii) submitting a new, subsequently dated proxy (whether by proxy card, online, or telephone), or (iii) by attending the Annual Meeting and electing to vote your shares in person. Your presence at the Annual Meeting alone will not revoke your proxy.

Cost of Proxy Solicitation

KeyCorp will pay for preparing, printing, and mailing these proxy materials. Officers and employees of KeyCorp and its subsidiaries may solicit the return of proxies, but will not receive additional compensation for those efforts. KeyCorp has engaged D.F. King to assist in the solicitation of proxies at an anticipated cost of \$15,000 plus expenses. KeyCorp will request that brokers, banks, custodians, nominees, and other fiduciaries send proxy materials to all beneficial owners and upon request will reimburse them for their expenses. Solicitations may be made by mail, telephone, or other means.

Attending the Annual Meeting

In Person

If you attend the Annual Meeting in person, you will be asked to present photo identification (such as a state-issued driver's license) and proof that you own KeyCorp common shares before entering the meeting. If you are a holder of record, the top half of your proxy card or your Notice of Internet Availability is your admission ticket. If you hold shares in street name (through a bank or broker, for example), a recent brokerage statement or a letter from your broker or bank showing your holdings of KeyCorp common shares is proof of ownership. If you want to vote shares that you hold in street name in person at the Annual Meeting, you must bring a legal proxy in your name from the broker, bank, or other nominee that holds your shares.
