I. Operating Results and Financial Conditions

2017 Second Quarter in Review

Looking back at the global economy in the second quarter of 2017, the U.S. economy continued to grow steadily as employment conditions and corporate earnings continued to improve. In Europe, the economy continued to recover moderately, centered on Germany and the U.K. The Chinese economy rallied due to public investments, and the economies of emerging countries realized moderate growth. In Japan, corporate earnings improved and consumer spending showed signs of recovery. As a result, the global economy overall continued to realize moderate growth.

As for the markets in which Canon operates amid these conditions, demand for office multifunction devices (MFDs) remained at around the same level as the previous year, while demand for laser printers continued to recover in emerging countries, centered on China. Demand for cameras shrank moderately while demand for inkjet printers remained at the same level as the previous year. Additionally, there was solid demand for medical equipment, mainly in developed countries. Within the Industry and Others sector, demand for semiconductor lithography equipment and manufacturing equipment for organic LED (OLED) displays enjoyed strong growth.

The average values of the yen during the second quarter and the first half of the year were \$111.12 and \$112.27 against the U.S. dollar, respectively, year-on-year depreciations of approximately \$3 and \$1, and \$122.36 and \$121.72 against the euro, respectively, year-on-year at the same level for the second quarter and a year-on-year appreciation of approximately \$3 for the first half of the year.

During the second quarter, office MFDs enjoyed solid demand, mainly for color models. The total sales volume of laser printers increased compared with the same period of the previous year amid recovering demand in emerging countries, supported by the increased sales of new models. Although total unit sales of interchangeable-lens digital cameras and compact cameras decreased compared with the same period of the previous year amid the shrinking market, sales of compact-system cameras increased. Looking at inkjet printers, sales volume remained at approximately the same level as the previous year, thanks to such factors as increased sales of refillable ink tank models for emerging countries and new models launched in the previous year. Additionally, sales of semiconductor lithography equipment and manufacturing equipment for OLED displays exceeded those of the previous year, thanks to favorable market conditions. Under these conditions, along with the impact of acquiring Toshiba Medical Systems Corporation (TMSC), second-quarter net sales increased by 15.4% year on year to ¥992.5 billion. Net sales for the first half of the year increased by 18.6% year on year to \$1,965.2 billion. Although the gross profit ratio dropped by 0.4 points to 49.9% due to the effect of the product mix, gross profit increased by 14.6% year on year to ¥495.6 billion, thanks to such factors as the increase in sales and continuous cost down efforts. Operating expenses increased by 9.7% year on year to ¥399.2 billion mainly due to the impact of acquiring TMSC. As a result, second-quarter operating profit increased by 40.4% to ¥96.3 billion and other income (deductions) decreased by ¥9.2 billion due to foreign currency exchange losses, while income before income taxes increased by 22.9% year on year to ¥99.6 billion and net income attributable to Canon Inc. increased by 29.4% to ¥69.2 billion. Operating profit for the first half of the year increased by 58.2% to ¥172.0 billion while income before income taxes increased by 40.1% to ¥177.6 billion and first-half net income attributable to Canon Inc. increased by 52.6% to ¥124.3 billion.

Basic net income attributable to Canon Inc. shareholders per share was ± 63.53 for the second quarter, a year-on-year increase of ± 14.59 , and ± 113.98 for the first half, a year-on-year increase of ± 39.41 .

Results by Segment

Looking at Canon s second-quarter performance by business unit, beginning with the Office Business Unit, unit sales of office MFDs increased from the same period of the previous year, supported by steady sales of newly launched small-office/home-office color A3 (12×18) imageRUNNER ADVANCE C3500-series models and A3 (12×18) imageRUNNER ADVANCE C3500-series models, launched in the previous year. Among high-speed continuous-feed printers, sales of the Océ-produced VarioPrint i300, a high-speed sheet-fed color inkjet press, increased year on year. As for laser printers, sales of both hardware and consumables increased from the same period of the previous year, supported by steady sales of new models which expand the product lineup. These factors resulted in total sales for the business unit of ¥470.7 billion, a year-on-year increase of 3.1%, while operating profit totaled ¥928.4 billion, a year-on-year increase of 1.9%, while operating profit totaled ¥111.3 billion, a year-on-year increase of 20.6%.

Within the Imaging System Business Unit, although sales volume of interchangeable-lens digital cameras declined compared with the previous year, owing to the shrinking market, unit sales of compact-system cameras, including the newly launched EOS M6, increased from the same period of previous year, allowing Canon to maintain the top share in major countries in Europe, the U.S. and Japan. As for digital compact cameras, while sales volume declined amid the shrinking market, sales of high-value-added models enjoyed solid demand, supported by healthy demand for the newly launched G9 X Mark II, part of the high-image-quality PowerShot G-series lineup. As for inkjet printers, newly designed home-use models launched in the previous year and refillable ink tank models that target emerging countries enjoyed strong demand, resulting in unit sales remaining at approximately the same level as the corresponding period of the previous year. As a result, sales for the business unit decreased by 1.7% to ¥282.7 billion year on year, while operating profit totaled ¥48.5 billion, a year-on-year increase of 12.2%. Sales for the combined first six months of the year totaled ¥524.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%, while operating profit totaled ¥77.7 billion, a year-on-year increase of 0.5%.

Within the Medical System Business Unit, a newly disclosed business unit as of this quarter, TMSC s computed tomography products maintained the top share in Japanese market and sales of such diagnostic imaging unit products as diagnostic ultrasound systems and magnetic resonance imaging remained firm. As a result, sales for the business unit totaled \$88.6 billion year on year, while operating profit totaled \$0.2 billion. Sales for the combined first six months of the year totaled \$220.4 billion while operating profit totaled \$10.1 billion.

In the Industry and Others Business Unit, unit sales of semiconductor lithography equipment increased from the same period of the previous year as a result of increasing demand for memory devices used in data centers. Additionally, sales of FPD lithography equipment and manufacturing equipment for OLED panel devices increased in response to growing demand for high-definition OLED displays used in mobile devices. As for network cameras, sales of network cameras increased considerably compared with the previous year thanks to efforts to strengthen the product lineup. Consequently, sales for the business unit increased by 25.0% year on year to \$172.5 billion, while operating profit grew by \$12.7 billion from the previous year to \$13.2 billion. Sales for the combined first six months of the year totaled \$334.9 billion, a year-on-year increase of 24.9%, while operating profit grew by \$22.0 billion from the previous year to \$13.9 billion.

Cash Flow

During the first half of 2017, cash flow from operating activities totaled \$309.1 billion, an increase of \$67.9 billion compared with the previous year, mainly owing to improvements in profitability. Cash flow from investing activities decreased by \$668.3 billion year on year to \$107.8 billion due to the payment made in the previous year for the right to acquire all of the shares of TMSC. Accordingly, free cash flow totaled \$201.3 billion, an increase of \$736.2 billion compared with the corresponding year-ago period.

Cash flow from financing activities recorded an outlay of ¥135.1 billion, mainly owing to the dividend payout and the repurchasing of treasury stock.

Owing to these factors, as well as the impact of foreign currency translation adjustments, cash and cash equivalents increased by ¥63.6 billion to ¥693.8 billion from the end of the previous year.

-3-

Outlook

As for the outlook in the third quarter onward, the U.S. economy is expected to continue recovering as employment conditions and consumer spending steadily improve. The European economy is expected to recover slowly due to increasing uncertainty surrounding the U.K. s decision to leave the EU. Looking at China, the economy is expected to stabilize through changes in fiscal policy, while emerging economies, such as those of Southeast Asia, Russia and Brazil, are expected to recover. With regard to the Japanese economy, the outlook indicates a trend of gradual recovery supported by improved employment conditions and corporate earnings. Overall, the global economy is expected to recover more firmly than the previous year, despite such concerns as increasing geopolitical risks.

In the businesses in which Canon is involved, for office MFDs, demand for color models is expected to grow moderately, despite the contraction of the market for monochrome models. Looking at the laser printer market, demand for printers is expected to improve as the economy recovers. For interchangeable-lens digital cameras, although demand continues to decrease primarily in developed countries, the pace of decline is gradually decelerating. Projections for digital compact cameras, despite solid demand for high-value-added models, indicate continued market contraction, centered mainly on low-priced models. With regard to inkjet printers, the trend of decreasing demand is expected to gradually bottom out. As for the medical equipment market, demand is expected to remain firm in response to replacement demand for medical equipment in developed countries and increasing medical needs associated with population growth in emerging countries.

Looking at industrial equipment, within the semiconductor lithography equipment segment, the market is expected to remain at the same level as the previous year, while the outlook for FPD lithography equipment and OLED display manufacturing equipment points to active capital investment by panel manufacturers, which is expected to increase demand. The network camera market is also expected to grow in response to the increasing use of network cameras for diverse applications in such area as marketing support in addition to crime prevention and disaster monitoring.

With regard to currency exchange rates for the third quarter onward, on which Canon s performance outlook is based, Canon anticipates exchange rates of \$112 to the U.S. dollar and \$125 to the euro, representing depreciations of approximately \$4 against the U.S. dollar and approximately \$3 against the euro as the annual average rates of the previous year.

Upon taking into consideration the impact of acquiring TMSC and the current economic forecast, Canon projects full-year consolidated net sales in 2017 of \$4,050.0 billion, a year-on-year increase of 19.1%; operating profit of \$330.0 billion, a year-on-year increase of 44.2%; income before income taxes of \$340.0 billion, a year-on-year increase of 39.0%; and net income attributable to Canon Inc. of \$220.0 billion, a year-on-year increase of 46.0%.

Basic Policy Regarding Profit Distribution

Canon is being more proactive in returning profits to shareholders, mainly in the form of a dividend, taking into consideration medium-term profit forecasts along with planned future investments, cash flow and other factors.

Canon Inc. plans to distribute an interim dividend of ¥75.00 per share for the fiscal year 2017, half the amount of the annual dividend paid out in fiscal 2016, to provide a stable return to shareholders. The year-end dividend, however, has yet to be decided.

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management s views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe. estimate. expect. intend. may, or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon s targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon s annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

Net sales for the six months ended June 30, 2016 were not restated since they were not material.

Notes: 1. The primary products included in each of the segments are as follows:

Office Business Unit :

Office multifunction devices (MFDs) / Laser multifunction printers (MFPs) / Laser printers / Digital production printing systems /

High speed continuous feed printers / Wide-format printers / Document solutions Imaging System Business Unit :

Interchangeable lens digital cameras / Digital compact cameras / Digital camcorders / Digital cinema cameras /

Interchangeable lenses / Compact photo printers / Inkjet printers / Large format inkjet printers / Commercial photo printers /

Image scanners / Multimedia projectors / Broadcast equipment / Calculators Medical System Business Unit : Digital radiography systems / Diagnostic x-ray systems / Computed tomography / Magnetic resonance imaging /

Diagnostic ultrasound systems / Clinical chemistry analyzers / Ophthalmic equipment Industry and Others Business Unit : Semiconductor lithography equipment / FPD (Flat panel display) lithography equipment / Vacuum thin-film deposition equipment /

Organic LED (OLED) panel manufacturing equipment / Die bonders / Micromotors / Network cameras / Handy terminals /

Document scanners

2. The principal countries and regions included in each regional category are as follows:
Americas: United States of America, Canada, Latin America
Europe: United Kingdom, Germany, France, Netherlands, European countries, Middle East and Africa
Asia and Oceania: China, Asian countries, Australia
