Approximate date of commencement of proposed sale of the securities to the public: From time to time after the effective date of this Registration Statement.

If the only securities being registered on this Form are being offered pursuant to dividend or interest reinvestment plans, please check the following box.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box.

Edgar Filing: CITIGROUP INC - Form S-3/A

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a registration statement pursuant to General Instruction I.D. or a post-effective amendment thereto that shall become effective upon filing with the Commission pursuant to Rule 462(e) under the Securities Act, check the following box.

If this Form is a post-effective amendment to a registration statement filed pursuant to General Instruction I.D. filed to register additional securities or additional classes of securities pursuant to Rule 413(b) under the Securities Act, check the following box.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company) Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

Total	\$90,000,000,000	\$11,205,000

(1) The amount to be registered and the proposed maximum aggregate offering price per unit are not specified as to each class of securities to be registered pursuant to General Instruction II.D of Form S-3 under the Securities Act of 1933, as amended (the Securities Act). The aggregate maximum offering price of all securities issued pursuant to this Registration Statement shall not have a maximum aggregate offering price that exceeds \$90,000,000,000 in U.S. dollars or the equivalent at the time of offering in any other currency. The amount also includes such indeterminate principal amount, liquidation amount or number of identified classes of securities as may be issued upon conversion, exchange or exercise of other securities or that are issued in units or represented by depositary shares.

(2) Includes an unspecified number of securities that may be offered or sold by direct or indirect subsidiaries of the issuers in market-making transactions. These securities consist of an indeterminate amount of such securities that are initially being registered, and will initially be offered and sold, under this Registration Statement and an

indeterminate number or amount of such securities that were initially registered, and were initially offered and sold, under registration statements previously filed by Citigroup Inc., its corporate predecessors, Citigroup Global Markets Holdings Inc., or the Additional Registrants. All such market-making transactions with respect to these securities that are made pursuant to a registration statement after the effectiveness of this Registration Statement are being made solely pursuant to this Registration Statement.

- (3) Estimated solely for the purpose of computing the registration fee pursuant to Rule 457(o) under the Securities Act. A filing fee of \$12,450 was previously paid in connection with the initial filing of this Registration Statement on April 27, 2018 registering \$100,000,000 of securities.
- (4) Pursuant to Rule 457(q) under the Securities Act, no separate registration fee is required for the registration of an indeterminate amount of securities to be offered solely for market-making purposes by direct or indirect subsidiaries of the issuers. Pursuant to Rule 457(n) under the Securities Act, no separate registration fee is payable for the guarantees being registered on this Registration Statement.
- (5) No separate consideration will be received for the guarantees being registered on this Registration Statement. THE REGISTRANTS HEREBY AMEND THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVENESS UNTIL THE REGISTRANTS SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933, AS AMENDED, OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(a), MAY DETERMINE.

Citigroup will provide the specific terms of these securities in supplements to this prospectus. You should read this prospectus, the accompanying prospectus supplement and any applicable pricing supplement carefully before you invest. Citigroup may offer and sell these securities to or through one or more underwriters, dealers and agents, including Citigroup Global Markets Inc., a broker-dealer subsidiary of Citigroup, or directly to purchasers, on a continuous or delayed basis. The common stock of Citigroup Inc. is listed on the New York Stock Exchange and trades under the ticker symbol **C**.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus or any accompanying prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

These securities are not deposits or savings accounts but are unsecured obligations of Citigroup Inc. These securities are not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other governmental agency or instrumentality.

The date of this prospectus is _____, 2018.

Table of Contents

PROSPECTUS SUMMARY

This summary provides a brief overview of the key aspects of Citigroup and all material terms of the offered securities that are known as of the date of this prospectus. For a more complete understanding of the terms of the offered securities, before making your investment decision, you should carefully read:

this prospectus, which explains the general terms of the securities that Citigroup may offer;

the accompanying prospectus supplement, which (1) explains the specific terms of the securities being offered and (2) updates and changes information in this prospectus; and

the documents referred to in *Where You Can Find More Information* beginning on page 6 for information on Citigroup, including its financial statements.

Citigroup Inc.

Citigroup Inc. is a global diversified financial services holding company whose businesses provide a broad range of financial products and services to consumers, corporations, governments and institutions. Citigroup has approximately 200 million customer accounts and does business in more than 160 countries and jurisdictions. As of December 31, 2017, Citigroup operated, for management reporting purposes, via two primary business segments: *Global Consumer Banking* and *Institutional Clients Group*, with the remaining operations in *Corporate/Other*. Its businesses conduct their activities across the North America, Latin America, Asia and Europe, Middle East and Africa regions. Citigroup's principal subsidiaries are Citibank, N.A., Citigroup Global Markets Inc. and Grupo Financiero Citibanamex, S.A. de C.V., each of which is a wholly owned, indirect subsidiary of Citigroup. Citigroup was incorporated in 1988 under the laws of the State of Delaware as a corporation with perpetual duration.

Citigroup's principal executive office is at 388 Greenwich Street, New York, NY 10013, and its telephone number is (212) 559-1000.

References in this prospectus to Citigroup, we, our or us are to Citigroup Inc., and not any of its subsidiaries, unless the context indicates otherwise.

The Securities Citigroup May Offer

Citigroup may use this prospectus to offer up to \$90,000,000,000 of:

debt securities;

common stock warrants;

index warrants;

preferred stock;

depository shares;

stock purchase contracts;

stock purchase units; and

common stock.

A prospectus supplement will describe the specific types, amounts, prices and detailed terms of, and important United States federal income tax considerations in respect of, any of these offered securities.

Any of these offered securities may be fully subordinated to interests held by the U.S. government in the event of a receivership, insolvency, liquidation or similar proceeding with respect to Citigroup, including a

Table of Contents

proceeding under the orderly liquidation authority provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (each, a liquidation event). In addition, Citigroup believes that in case of a liquidation event, Citigroup's shareholders and unsecured creditors including holders of the offered securities will bear any losses resulting from the liquidation event. For more information, see Citigroup Inc. below.

Debt Securities

Debt securities are unsecured general obligations of Citigroup in the form of senior or subordinated debt. Senior debt includes Citigroup's notes, debt and guarantees and any other debt for money borrowed that is not subordinated. Subordinated debt, so designated at the time it is issued, would not be entitled to interest and principal payments if interest and principal payments on the senior debt were not made.

The senior and subordinated debt will be issued under separate indentures between Citigroup and a trustee. Below are summaries of the general features of the debt securities from these indentures, unless otherwise specified in connection with a particular offering. For a more detailed description of these features, see Description of Debt Securities below. You are also encouraged to read the indentures, including all supplements thereto, which are included or incorporated by reference in Citigroup's registration statement of which this prospectus forms a part, Citigroup's most recent Annual Report on Form 10-K, Citigroup's Quarterly Reports on Form 10-Q filed after the Form 10-K and Citigroup's Current Reports on Form 8-K filed after the period covered by Citigroup's most recent Annual Report on Form 10-K. You can receive copies of these documents by following the directions beginning on page 6.

General Indenture Provisions that Apply to Senior and Subordinated Debt

Neither indenture limits the amount of debt that Citigroup may issue or provides holders any protection should there be a highly leveraged transaction involving Citigroup, although the senior debt indenture does limit Citigroup's ability to pledge the stock of any subsidiary that meets the financial thresholds in the indenture. These thresholds are described below under Description of Debt Securities Covenants.

The senior debt indenture allows for different types of debt securities, including indexed securities, to be issued in series.

The indentures allow Citigroup to merge or to consolidate with another company or sell all or substantially all of its assets to one or more of its subsidiaries or to another company. If any of these events occur with another company, the other company generally would be required to assume Citigroup's responsibilities for the debt. Unless the transaction resulted in a default, Citigroup would be released from all liabilities and obligations under the debt securities when the other company assumed its responsibilities.

The indentures provide that holders of a majority of the total principal amount of the senior debt securities outstanding in any series and holders of a majority of the total principal amount of the subordinated debt securities outstanding in any series that, in each case, are affected by such change, may vote to change Citigroup's obligations or your rights concerning those securities. However, changes to the financial terms of that security, including changes in the payment of principal or interest on that security or, except in certain circumstances, the currency of payment, cannot be made unless every holder affected consents to the change.

Citigroup may satisfy its obligations under the debt securities or be released from its obligation to comply with certain limitations at any time by depositing sufficient amounts of cash and/or government securities with the trustee to pay Citigroup's obligations under the particular securities when due.

Table of Contents

The indentures govern the actions of the trustee with regard to the debt securities, including when the trustee is required to give notices to holders of the securities and when lost or stolen debt securities may be replaced.

Events of Default and Defaults

Unless otherwise specified in connection with a particular offering of senior debt, the only events of default specified in the senior debt indenture are:

failure to pay principal or required interest for 30 days after it is due; and

certain events of insolvency or bankruptcy, whether voluntary or not.

Only these events of default provide for a right of acceleration of the senior debt securities. No other event, including a default in the performance of any other covenant of Citigroup in the senior indenture or any other default that is not also an event of default, will result in acceleration.

Unless otherwise specified in connection with a particular offering of subordinated debt, the only events of default specified in the subordinated debt indenture are certain events of insolvency or bankruptcy, whether voluntary or not. Only these events of default provide for a right of acceleration of the subordinated debt securities. No other event, including a default in the payment of principal of, premium, if any, or interest on, subordinated debt securities, the performance of any other covenant of Citigroup in the subordinated indenture or any other default that is not also an event of default, will result in acceleration.

Remedies

Senior Indenture: If there were an event of default, the trustee or holders of 25% of the principal amount of senior debt securities outstanding in a series could demand that the principal be paid immediately. However, holders of a majority in principal amount of the securities in that series could rescind that acceleration of the debt securities. The occurrence of a default for any reason other than (i) nonpayment of principal or interest that has continued for 30 days or (ii) certain events of insolvency or bankruptcy will not give the trustee or such holders the right to demand that the principal of the senior debt securities be paid immediately.

Subordinated Indenture: If there were an event of default, the trustee or holders of 25% of the principal amount of subordinated debt securities outstanding in a series could demand that the principal be paid immediately. However, holders of a majority in principal amount of the securities in that series may rescind that acceleration of the debt securities. The occurrence of a default for any reason other than certain events of insolvency or bankruptcy will not give the trustee or such holders the right to demand that the principal of the subordinated debt securities be paid immediately.

TLAC Eligibility

Unless otherwise specified in connection with a particular offering of debt securities, the debt securities are intended to qualify as eligible long-term debt for purposes of the Federal Reserve's total loss-absorbing capacity (TLAC) rule. As a result, in the event of a Citigroup bankruptcy or other resolution proceeding, Citigroup's losses and any losses incurred by its subsidiaries would be imposed first on Citigroup's shareholders and then on its unsecured creditors, including the holders of the debt securities. Further, in a bankruptcy or other resolution proceeding of Citigroup, any value realized by holders of the debt securities may not be sufficient to repay the amounts owed on the debt securities.

For more information about the final TLAC rule and its consequences for the debt securities, you should refer to the section **Managing Global Risk Liquidity Risk Long-Term Debt Total Loss-Absorbing Capacity (TLAC)** in Citigroup's most recent Annual Report on Form 10-K.

Table of Contents

Common Stock Warrants

Citigroup may issue common stock warrants and will do so under a separate common stock warrant agreement between Citigroup and a bank or trust company. You are encouraged to read the standard form of the common stock warrant agreement, which will be filed as an exhibit to one of Citigroup's future current reports and incorporated by reference in its registration statement of which this prospectus forms a part.

Common stock warrants are securities pursuant to which Citigroup may sell or purchase common stock. The particular terms of each issue of common stock warrants, the common stock warrant agreement relating to the common stock warrants and the common stock warrant certificates representing common stock warrants will be described in the applicable prospectus supplement.

Index Warrants

Citigroup may issue index warrants and will do so under a separate index warrant agreement between Citigroup and a bank or trust company. You are encouraged to read the standard form of the index warrant agreement, which will be filed as an exhibit to one of Citigroup's future current reports and incorporated by reference in its registration statement of which this prospectus forms a part. You can receive copies of these documents by following the directions beginning on page 6.

Index warrants are securities that, when properly exercised by the purchaser, entitle the purchaser to receive from Citigroup an amount in cash or a number of securities that will be indexed to prices, yields, or other specified measures or changes in an index or differences between two or more indices.

The prospectus supplement for a series of index warrants will describe the formula for determining the amount in cash or number of securities, if any, that Citigroup will pay you when you exercise an index warrant and will contain information about the relevant underlying assets and other specific terms of the index warrant.

Citigroup will generally issue index warrants in book-entry form, which means that they will not be evidenced by physical certificates. Also, Citigroup will generally list index warrants for trading on a national securities exchange, such as the New York Stock Exchange (NYSE), NYSE Arca, the NASDAQ Global Market or the Chicago Board Options Exchange.

The index warrant agreement for any series of index warrants will provide that holders of a majority of the total principal amount of the index warrants outstanding in any series may vote to change their rights concerning those index warrants. However, changes to fundamental terms such as the amount or manner of payment on an index warrant or changes to the exercise times cannot be made unless every holder affected consents to the change.

Any prospective purchasers of index warrants should be aware of special United States federal income tax considerations applicable to instruments such as the index warrants. The prospectus supplement relating to each series of index warrants will describe the important tax considerations.

Preferred Stock

Citigroup may issue preferred stock with various terms to be established by its board of directors or a committee designated by the board. Each series of preferred stock will be more fully described in the particular prospectus supplement that will accompany this prospectus, including redemption provisions, rights in the event of liquidation, dissolution or winding up of Citigroup, voting rights and conversion rights.

Table of Contents

Generally, each series of preferred stock will rank on an equal basis with each other series of preferred stock and will rank prior to Citigroup's common stock. The prospectus supplement will also describe how and when dividends will be paid on the series of preferred stock.

Depository Shares

Citigroup may issue depository shares representing fractional shares of preferred stock. Each particular series of depository shares will be more fully described in the prospectus supplement that will accompany this prospectus. These depository shares will be evidenced by depository receipts and issued under a deposit agreement between Citigroup and a bank or trust company. You are encouraged to read the standard form of the deposit agreement, which is incorporated by reference in Citigroup's registration statement of which this prospectus forms a part.

Stock Purchase Contracts and Stock Purchase Units

Citigroup may issue stock purchase contracts, including contracts obligating holders to purchase from or sell to Citigroup, and Citigroup to sell to or purchase from the holders, a specified number of shares of common stock, shares of preferred stock or depository shares at a future date or dates. The stock purchase contracts may be issued separately or as part of stock purchase units, consisting of a stock purchase contract and any combination of debt securities, capital securities, junior subordinated debt securities or debt obligations of third parties, including U.S. Treasury securities. The applicable prospectus supplement will describe the terms of the stock purchase contracts and stock purchase units, including, if applicable, collateral or depository arrangements.

Common Stock

Citigroup may issue common stock, par value \$0.01 per share. Holders of common stock are entitled to receive dividends when declared by Citigroup's board of directors. Each holder of common stock is entitled to one vote per share. The holders of common stock have no preemptive rights or cumulative voting rights.

Use of Proceeds

Citigroup will use the net proceeds it receives from any offering of these securities for general corporate purposes, which may include funding its operating units and subsidiaries, financing possible acquisitions or business expansion and refinancing or extending the maturity of existing debt obligations. Citigroup may use a portion of the proceeds from the sale of index warrants and indexed notes to hedge its exposure to payments that it may have to make on such index warrants and indexed notes as described below under Use of Proceeds and Hedging.

Plan of Distribution

Citigroup may sell the offered securities in any of the following ways:

to or through underwriters or dealers;

by itself directly;

through agents; or

through a combination of any of these methods of sale.

Table of Contents

The prospectus supplement will explain the ways Citigroup sells specific securities, including the names of any underwriters and details of the pricing of the securities, as well as the commissions, concessions or discounts Citigroup is granting the underwriters, dealers or agents.

If Citigroup uses underwriters in any sale, the underwriters will buy the securities for their own account and may resell the securities from time to time in one or more transactions, at a fixed public offering price or at varying prices determined at the time of sale. In connection with an offering, underwriters and selling group members and their affiliates may engage in transactions to stabilize, maintain or otherwise affect the market price of the securities, in accordance with applicable law.

Citigroup expects that the underwriters for any offering will include one or more of its broker-dealer subsidiaries, including Citigroup Global Markets Inc. These broker-dealer subsidiaries also expect to offer and sell previously issued offered securities as part of their business, and may act as a principal or agent in such transactions. Citigroup or any of its subsidiaries may use this prospectus and the related prospectus supplements and pricing supplements in connection with these activities. Offerings in which Citigroup's broker-dealer subsidiaries participate will conform with the requirements set forth in Rule 5121 of the Financial Industry Regulatory Authority, Inc. addressing conflicts of interest when distributing the securities of an affiliate. See below under Plan of Distribution.

**Ratio of Income to Fixed Charges and
Ratio of Income to Combined Fixed Charges
Including Preferred Stock Dividends**

The following table shows (1) the consolidated ratio of income to fixed charges and (2) the consolidated ratio of income to combined fixed charges including preferred stock dividends of Citigroup for each of the five most recent fiscal years and for the three-month period ended March 31, 2018.

	Three Months Ended		Year Ended December 31,			
	March 31, 2018	2017	2016	2015	2014	2013
Ratio of income to fixed charges (excluding interest on deposits)	2.88	3.21	3.84	4.41	2.74	2.90
Ratio of income to fixed charges (including interest on deposits)	2.16	2.35	2.67	3.01	2.04	2.19
Ratio of income to combined fixed charges including preferred stock dividends (excluding interest on deposits)	2.73	2.98	3.48	4.08	2.64	2.87
Ratio of income to combined fixed charges including preferred stock dividends (including interest on deposits)	2.10	2.26	2.54	2.89	2.00	2.18

Where You Can Find More Information

As required by the Securities Act of 1933, Citigroup filed a registration statement relating to the securities offered by this prospectus with the Securities and Exchange Commission. This prospectus is a part of that registration statement, which includes additional information.

Edgar Filing: CITIGROUP INC - Form S-3/A

Citigroup files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document Citigroup files at the SEC's public reference room in Washington, D.C. You can also request copies of the documents, upon payment of a duplicating fee, by writing the Public Reference Section of the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. These SEC filings are also available to the public from the SEC's web site at <http://www.sec.gov>.

Table of Contents

The SEC allows Citigroup to incorporate by reference the information it files with the SEC, which means that it can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus. Information that Citigroup files later with the SEC will automatically update information in this prospectus. In all cases, you should rely on the later information over different information included in this prospectus or the prospectus supplement. Citigroup incorporates by reference the documents listed below and any future filings made with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 (File No. 1-09924):

Annual Report on Form 10-K for the year ended December 31, 2017, filed on February 23, 2018;

Quarterly Report on Form 10-Q for the quarter ended March 31, 2018, filed on May 1, 2018;

Current Reports on Form 8-K filed on January 16, 2018 (to the extent filed with the SEC), January 24, 2018, February 16, 2018, March 19, 2018, April 13, 2018 (to the extent filed with the SEC), April 23, 2018 and April 30, 2018;

Definitive Proxy Statement on Schedule 14A, filed on March 15, 2018; and

Current Report on Form 8-K, dated May 11, 2009, describing Citigroup's common stock, including any amendments or reports filed for the purpose of updating such description.

In no event, however, will any of the information that Citigroup furnishes to, pursuant to Item 2.02 or Item 7.01 of any Current Report on Form 8-K (including exhibits related thereto) or other applicable SEC rules, rather than files with, the SEC be incorporated by reference or otherwise be included herein, unless such information is expressly incorporated herein by a reference in such furnished Current Report on Form 8-K or other furnished document.

All documents filed by Citigroup specified in Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and before the later of (1) the completion of the offering of the securities described in this prospectus and (2) the date the broker-dealer subsidiaries of Citigroup stop offering securities pursuant to this prospectus shall be incorporated by reference in this prospectus from the date of filing of such documents.

You may request a copy of these filings, at no cost, by writing or telephoning Citigroup at the following address:

You should rely only on the information provided in this prospectus, the prospectus supplement and any applicable pricing supplement, as well as the information incorporated by reference. Citigroup is not making an offer of these securities in any jurisdiction where the offer is not permitted. You should not assume that the information in this prospectus, the prospectus supplement, any applicable pricing supplement or any documents incorporated by reference is accurate as of any date other than the date of the applicable document.

Table of Contents

FORWARD-LOOKING STATEMENTS

Certain statements in this prospectus, the accompanying prospectus supplement and in other information incorporated by reference in this prospectus are forward-looking statements within the meaning of the rules and regulations of the U.S. Securities and Exchange Commission. Generally, forward-looking statements are not based on historical facts but instead represent only Citigroup's and its management's beliefs regarding future events. Such statements may be identified by words such as *believe, expect, anticipate, intend, estimate, may increase, may fluctuate, target, illustrate*, and similar expressions, or future or conditional verbs such as *will, should, would* and *could*.

Such statements are based on management's current expectations and are subject to risks, uncertainties and changes in circumstances. Actual results and capital and other financial conditions may differ materially from those included in these statements due to a variety of factors, including without limitation the precautionary statements included in this prospectus and the accompanying prospectus supplement, and the factors and uncertainties summarized under Forward-Looking Statements in Citigroup's most recent Annual Report on Form 10-K or Quarterly Report on Form 10-Q and the factors listed and described under Risk Factors in Citigroup's most recent Annual Report on Form 10-K. Precautionary statements included in such filings should be read in conjunction with this prospectus and the accompanying prospectus supplement.

RISK FACTOR RELATED TO FLOATING RATE DEBT SECURITIES

Certain base rates described herein refer to benchmarks, including LIBOR and EURIBOR, that may be discontinued or reformed, which may adversely affect the value of and return on floating rate debt securities.

Certain base rates, including the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) and other rates or indices described herein, are deemed to be benchmarks and are the subject of ongoing national and international regulatory scrutiny and reform. Some of these reforms are already effective, while others are still to be implemented or formulated. These reforms may cause such benchmarks to perform differently than they performed in the past or to be discontinued entirely and may have other consequences that cannot be predicted. Any such consequences could adversely affect the value of and return on any floating rate debt securities that refer, or are linked, to a benchmark to calculate interest or other payments due on those debt securities.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain benchmarks, trigger changes in the rules or methodologies used in certain benchmarks or lead to the discontinuance or unavailability of quotes of certain benchmarks.

To the extent interest payments on a floating rate debt security are linked to a specific benchmark that is discontinued or is no longer quoted, the applicable base rate will be determined using the alternative methods described in Description of Debt Securities Interest Rate Determination Floating Rate Notes. Any of these alternative methods may result in interest payments that are lower than or that do not otherwise correlate over time with the payments that would have been made on those debt securities if the relevant benchmark was available in its current form. Further, the same costs and risks that may lead to the discontinuance or unavailability of a benchmark may make one or more of the alternative methods impossible or impracticable to determine. Under most of the base rates described herein, the final alternative method sets the interest rate for an interest period at the same rate as the immediately preceding interest period. Any of the foregoing may have an adverse effect on the value of such debt securities.

Table of Contents**Interest on floating rate debt securities linked to LIBOR will be determined using alternative methods if LIBOR is no longer available on the designated LIBOR page and will be calculated using a substitute or successor base rate selected by Citigroup if LIBOR is discontinued.**

If, during the term of any series of floating rate debt securities linked to LIBOR, the relevant LIBOR is no longer quoted on the designated LIBOR page described in Description of Debt Securities Interest Rate Determination Floating Rate Notes LIBOR Notes below, the relevant LIBOR will be determined using the alternative methods described in Description of Debt Securities Interest Rate Determination Floating Rate Notes LIBOR Notes below. Any of these alternative methods may result in interest payments on the notes that are lower than or do not otherwise correlate over time with the interest payments that would have been made on the floating rate debt securities if the designated LIBOR page had remained available. Any of the foregoing may have an adverse effect on the value of and return on the floating rate debt securities.

Additionally, if during the term of the floating rate debt securities linked to LIBOR, Citigroup (or an affiliate) determines that LIBOR has been discontinued or is permanently no longer being published, Citigroup (or such affiliate) will use a substitute or successor base rate that it has determined, in its sole discretion after consulting with any source it deems to be reasonable, to be the industry-accepted substitute or successor base rate, or, if there is no such industry-accepted substitute or successor base rate, a substitute or successor base rate that is most comparable to LIBOR. Citigroup (or such affiliate) also will determine, in its sole discretion after consulting with any source it deems to be reasonable, any adjustments to the relevant methodology or definitions for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to LIBOR, in a manner that is consistent with any industry-accepted practices for such substitute or successor base rate. The interests of Citigroup (or its affiliate) in making the determinations described above may be adverse to your interests as a holder of the floating rate debt securities and may have an adverse effect on the value of and return on the debt securities.

CITIGROUP INC.

Citigroup Inc. is a global diversified financial services holding company whose businesses provide a broad range of financial products and services to consumers, corporations, governments and institutions. Citigroup has approximately 200 million customer accounts and does business in more than 160 countries and jurisdictions. As of December 31, 2017, Citigroup operated, for management reporting purposes, via two primary business segments: *Global Consumer Banking* and *Institutional Clients Group*, with the remaining operations in *Corporate/Other*. Its businesses conduct their activities across the North America, Latin America, Asia and Europe, Middle East and Africa regions. Citigroup's principal subsidiaries are Citibank, N.A., Citigroup Global Markets Inc. and Grupo Financiero Citibanamex, S.A. de C.V., each of which is a wholly owned, indirect subsidiary of Citigroup. Citigroup was incorporated in 1988 under the laws of the State of Delaware as a corporation with perpetual duration.

Citigroup is a holding company and services its obligations primarily by earnings from its operating subsidiaries. Citigroup may augment its capital through issuances of common stock, perpetual preferred stock and equity issued through awards under employee benefits plans, among other issuances. Citigroup and Citigroup's subsidiaries that operate in the banking and securities businesses can only pay dividends if they are in compliance with the applicable regulatory requirements imposed on them by federal and state bank regulatory authorities and securities regulators. Citigroup's subsidiaries may be party to credit agreements that also may restrict their ability to pay dividends. Citigroup currently believes that none of these regulatory or contractual restrictions on the ability of its subsidiaries to pay dividends will affect Citigroup's ability to service its own debt. Citigroup must also maintain the required capital levels of a bank holding company, and must submit a capital plan, subjected to stress testing, to the Federal Reserve, to which the Board of Governors of the Federal Reserve System (the Federal Reserve) does not object, before it may

pay dividends on its stock.

Table of Contents

Under Title I of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act), Citigroup has developed a single point of entry resolution strategy and plan under the U.S. Bankruptcy Code. On July 1, 2017, Citigroup submitted its 2017 resolution plan to the Federal Reserve and FDIC. On December 19, 2017, the Federal Reserve and FDIC informed Citigroup that (i) the agencies jointly decided that Citigroup's 2017 resolution plan submission satisfactorily addressed the shortcomings identified in the 2015 resolution plan submission, and (ii) the agencies together did not identify any shortcomings or deficiencies in the 2017 resolution plan submission. Citigroup's next resolution plan submission is due July 1, 2019. For additional information on Citigroup's resolution plan submissions, you should refer to the section Risk Factors Strategic Risks in Citigroup's most recent Annual Report on Form 10-K.

Under Citigroup's resolution plan, only Citigroup, the parent holding company, would enter into bankruptcy, while Citigroup's material legal entities (as defined in the public section of its 2017 resolution plan, which can be found on the Federal Reserve and FDIC websites) would remain operational and outside of any resolution or insolvency proceedings. Citigroup believes its resolution plan has been designed to minimize the risk of systemic impact to the U.S. and global financial systems, while maximizing the value of the bankruptcy estate for the benefit of Citigroup's creditors, including its unsecured long-term debt holders. In addition, in line with the Federal Reserve's final TLAC rule, Citigroup believes it has developed the resolution plan so that Citigroup's shareholders and its unsecured creditors including the holders of the securities being offered by this prospectus bear any losses resulting from Citigroup's bankruptcy. Further, in a bankruptcy or other resolution proceeding of Citigroup, any value realized by holders of any of the securities offered by this prospectus may not be sufficient to repay the amounts owed on such securities. For more information about the final TLAC rule and its consequences for debt securities, you should refer to the section Managing Global Risk Liquidity Risk Long-Term Debt Total Loss-Absorbing Capacity (TLAC) in Citigroup's most recent Annual Report on Form 10-K.

In response to feedback received from the Federal Reserve and FDIC on Citigroup's 2015 resolution plan, Citigroup took the following actions in connection with its 2017 resolution plan submission (which, as noted above, did not contain any shortcomings or deficiencies):

- (i) Citicorp LLC (Citicorp), an existing wholly owned subsidiary of Citigroup, was established as an intermediate holding company (an IHC) for certain of Citigroup's operating material legal entities;
- (ii) Citigroup executed an inter-affiliate agreement with Citicorp, Citigroup's operating material legal entities and certain other affiliated entities pursuant to which Citicorp is required to provide liquidity and capital support to Citigroup's operating material legal entities in the event Citigroup were to enter bankruptcy proceedings (the Citi Support Agreement);

(iii) pursuant to the Citi Support Agreement:

Citigroup made an initial contribution of assets, including certain high-quality liquid assets and inter-affiliate loans (Contributable Assets), to Citicorp, and Citicorp became the business as usual funding vehicle for Citigroup's operating material legal entities;

Citigroup will be obligated to continue to transfer Contributable Assets to Citicorp over time, subject to certain amounts retained by Citigroup to, among other things, meet Citigroup's near-term cash needs;

in the event of a Citigroup bankruptcy, Citigroup will be required to contribute most of its remaining assets to Citicorp; and

(iv) the obligations of both Citigroup and Citicorp under the Citi Support Agreement, as well as the Contributable Assets, are secured pursuant to a security agreement.

The Citi Support Agreement provides two mechanisms, besides Citicorp's issuing of dividends to Citigroup, pursuant to which Citicorp will be required to transfer cash to Citigroup during business as usual so that

Table of Contents

Citigroup can fund its debt service as well as other operating needs: (i) one or more funding notes issued by Citicorp to Citigroup and (ii) a committed line of credit under which Citicorp may make loans to Citigroup.

In addition to Citigroup's required resolution plan under Title I of the Dodd-Frank Act, Title II of the Dodd-Frank Act grants the FDIC the authority, under certain circumstances, to resolve systemically important financial institutions, including Citigroup. This resolution authority is commonly referred to as the FDIC's orderly liquidation authority. Under the FDIC's stated preferred single point of entry strategy for such resolution, the bank holding company (Citigroup) would be placed in receivership; the unsecured long-term debt and shareholders of the parent holding company would bear any losses; and the operating subsidiaries would be recapitalized. Any of the securities being offered by this prospectus may be fully subordinated to interests held by the U.S. government in the event of a receivership, insolvency, liquidation or similar proceeding with respect to Citigroup, including a proceeding under the orderly liquidity authority provisions of the Dodd-Frank Act.

Under the regulations of the Federal Reserve, a bank holding company is expected to act as a source of financial strength for its subsidiary banks. As a result of this regulatory policy, the Federal Reserve might require Citigroup to commit resources to its subsidiary banks when doing so is not otherwise in the interests of Citigroup or its shareholders or creditors.

The principal office of Citigroup is located at 388 Greenwich Street, New York, New York 10013, and its telephone number is (212) 559-1000.

Table of Contents

USE OF PROCEEDS AND HEDGING

General. Citigroup will use the proceeds it receives from the sale of the offered securities for general corporate purposes, which may include:

funding the business of its operating units;

funding investments in, or extensions of credit or capital contributions to, its subsidiaries;

financing possible acquisitions or business expansion; and

lengthening the average maturity of liabilities, which means that it could reduce its short-term liabilities or refund maturing indebtedness.

Citigroup expects to incur additional indebtedness in the future to fund its businesses. Citigroup or one or more subsidiaries may enter into a swap agreement in connection with the sale of the offered securities and may earn additional income from that transaction.

Use of Proceeds Relating to Index Warrants and Indexed Notes. Citigroup or one or more of its subsidiaries may use all or some of the proceeds received from the sale of index warrants or indexed notes to purchase or maintain positions in the underlying assets. Citigroup or one or more of its subsidiaries may also purchase or maintain positions in options, futures contracts, forward contracts or swaps, or options on the foregoing, or other derivative or similar instruments relating to the relevant index or underlying assets. Citigroup may also use the proceeds to pay the costs and expenses of hedging any currency, interest rate or other index-related risk relating to such index warrants and indexed notes.

Citigroup expects that it or one or more of its subsidiaries will increase or decrease their initial hedging position over time using techniques which help evaluate the size of any hedge based upon a variety of factors affecting the value of the underlying instrument. These factors may include the history of price changes in that underlying instrument and the time remaining to maturity. Citigroup or one or more of its subsidiaries may take long or short positions in the index, the underlying assets, options, futures contracts, forward contracts, swaps, or options on the foregoing, or other derivative or similar instruments related to the index or the underlying assets. These other hedging activities may occur from time to time before the index warrants and indexed notes mature and will depend on market conditions and the value of the index and the underlying assets.

In addition, Citigroup or one or more of its subsidiaries may purchase or otherwise acquire a long or short position in index warrants and indexed notes from time to time and may, in their sole discretion, hold, resell, exercise, cancel or retire such offered securities. Citigroup or one or more of its subsidiaries may also take hedging positions in other types of appropriate financial instruments that may become available in the future.

If Citigroup or one or more of its subsidiaries has a long hedge position in, or options, futures contracts or swaps or options on the foregoing, or other derivative or similar instruments related to, the index or underlying assets, Citigroup or one or more of its subsidiaries may liquidate all or a portion of its holdings at or about the time of the maturity or earlier redemption or repurchase of, or the payment of any indexed interest on, the index warrants and indexed notes.

The aggregate amount and type of such positions are likely to vary over time depending on future market conditions and other factors. Since the hedging activities described in this section involve risks and may be influenced by a number of factors, it is possible that Citigroup or one or more of its subsidiaries may receive a profit from the hedging activities, even if the market value of the index warrants or indexed notes declines. Citigroup is only able to determine profits or losses from any such position when the position is closed out and any offsetting position or positions are taken into account.

Table of Contents

Citigroup has no reason to believe that its hedging activities, as well as those of its subsidiaries, will have a material impact on the price of such options, futures contracts, forward contracts, swaps, options on the foregoing, or other derivative or similar instruments, or on the value of the index or the underlying assets. However, Citigroup cannot guarantee you that its hedging activities, as well as those of its subsidiaries, will not affect such prices or values. Citigroup will use the remainder of the proceeds from the sale of index warrants and indexed notes for the general corporate purposes described above.

Table of Contents

EUROPEAN MONETARY UNION

The foreign currencies in which debt securities may be denominated or payments in respect of index warrants may be due or by which amounts due on the offered securities may be calculated could be issued by countries that are member states of the European Union that have adopted or adopt the single Euro currency in accordance with the Treaty establishing the European Community (as that Treaty is amended from time to time) (the Participating Member States).

The current nineteen Participating Member States are: Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Portugal, Slovakia, Slovenia and Spain. Other member states of the European Union may also become participating member states of the single Euro currency.

DESCRIPTION OF DEBT SECURITIES

The debt securities offered by this prospectus will be unsecured obligations of Citigroup and will be either senior or subordinated debt. Senior debt securities will be issued under a senior debt indenture dated as of November 13, 2013, as supplemented. Subordinated debt securities will be issued under a subordinated debt indenture dated as of April 12, 2001, as supplemented. The senior debt indenture and any of its supplements and the subordinated debt indenture and any of its supplements are sometimes referred to in this prospectus individually as an indenture and collectively as the indentures. The indentures (or forms thereof) and any supplements have been filed with the SEC and are incorporated by reference or included in the registration statement on Form S-3 under the Securities Act of 1933, as amended, of which this prospectus forms a part.

The following briefly summarizes the material provisions of the indentures and the debt securities, other than pricing and related terms disclosed in the accompanying prospectus supplement or pricing supplement, as the case may be. You should read the more detailed provisions of the applicable indenture, including the defined terms, for provisions that may be important to you. You should also read the particular terms of an offering of debt securities, which will be described in more detail in the applicable prospectus supplement or pricing supplement, as the case may be. Copies of the indentures may be obtained from Citigroup or the applicable trustee. So that you may easily locate the more detailed provisions, the numbers in parentheses below refer to sections in the applicable indenture or, if no indenture is specified, to sections in each of the indentures. Wherever particular sections or defined terms of the applicable indenture are referred to, such sections or defined terms are incorporated into this prospectus by reference, and the statements in this prospectus are qualified by that reference. If any debt securities are to be issued under an indenture having terms that differ from those described below, the terms of such indenture will be as described in the applicable supplement for the offering of such debt securities.

As used in this prospectus, the term supplement means either a prospectus supplement or a pricing supplement, as applicable.

Unless otherwise specified in connection with a particular offering of debt securities, the trustee under the senior debt indenture and under the subordinated indenture will be The Bank of New York Mellon. Citigroup has appointed Citibank, N.A. to act as paying agent under each such indenture.

General

The indentures provide that unsecured senior or subordinated debt securities of Citigroup may be issued in one or more series, with different terms, in each case as authorized from time to time by Citigroup. Citigroup also has the

right to reopen a previous issue of a series of debt securities by issuing additional debt securities of such series.

Table of Contents

United States federal income tax consequences and other special considerations applicable to any debt securities issued by Citigroup at a discount or a premium will be described in the applicable supplement.

Because Citigroup is a holding company, the claims of creditors of Citigroup's subsidiaries will have a priority over Citigroup's equity rights and the rights of Citigroup's creditors, including the holders of debt securities, to participate in the assets of the subsidiary upon the subsidiary's liquidation.

The applicable supplement relating to any offering of debt securities will describe the following terms, where applicable:

the title of the debt securities;

whether the debt securities will be senior or subordinated debt;

the indenture under which the debt securities are being issued;

the total principal amount of the debt securities;

the percentage of the principal amount at which the debt securities will be sold and, if applicable, the method of determining the price;

the maturity date or dates;

the date or dates on which the debt securities may be redeemed prior to maturity either at the option of Citigroup or a holder of debt securities, if applicable, the terms upon which such election may be made and the manner in which the early redemption amount will be calculated;

the interest rate or the method of computing the interest rate;

the date or dates from which any interest will accrue, or how such date or dates will be determined, and the interest payment date or dates and any related record dates;

if other than in U.S. dollars, the currency or currency unit in which payment will be made;

if the amount of any payment may be determined with reference to an index or formula based on a currency or currency unit other than that in which the debt securities are payable, the manner in which the amounts

will be determined;

if the amount of any payment may be determined with reference to an index or formula based on securities, commodities, intangibles, articles or goods, or any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance, the manner in which the amount will be determined;

if any payments may be made at the election of Citigroup or a holder of debt securities in a currency or currency unit other than that in which the debt securities are stated to be payable, the periods within which, and the terms upon which, such election may be made;

if other than the principal amount, the portion of the principal amount of the debt securities payable if the maturity is accelerated;

the date of any global security if other than the original issuance of the first debt security to be issued;

any material provisions of the applicable indenture described in this prospectus that do not apply to the debt securities; and

any other specific terms of the debt securities (*Senior Debt Indenture, Section 3.01; Subordinated Debt Indenture, Section 2.02*).

Unless otherwise specified in connection with a particular offering of debt securities, the debt securities are not redeemable prior to maturity, except upon the occurrence of certain tax events described below under Redemption for Tax Purposes. The redemption price for the debt securities upon the occurrence of certain tax events will be 100% of the principal amount thereof plus accrued interest to the date of the redemption.

Table of Contents

Unless otherwise specified, if optional redemption with a make-whole amount is specified in connection with a particular offering of debt securities, such debt securities may be redeemed at Citigroup's option, in whole at any time or in part from time to time, on or after the date specified in the supplement relating to such offering and, if applicable, prior to a date so specified, at a redemption price equal to the sum of: (i) 100% of the aggregate principal amount of the debt securities to be redeemed plus accrued and unpaid interest thereon to, but excluding, the date of redemption; and (ii) the Make-Whole Amount (as defined below), if any, with respect to such debt securities.

As used in connection with such optional redemption:

Make-Whole Amount means the excess, if any, of: (i) the aggregate present value as of the date of such redemption of each dollar of principal being redeemed and the amount of interest (exclusive of interest accrued to the date of redemption) that would have been payable in respect of each such dollar if such redemption had not been made, determined by discounting, on a semi-annual basis, such principal and interest at the Reinvestment Rate (as defined below) (determined on the third business day preceding the date that notice of such redemption is given) from the respective dates on which such principal and interest would have been payable if such redemption had not been made, to the date of redemption, over (ii) the aggregate principal amount of the debt securities being redeemed.

Reinvestment Rate means the yield on Treasury securities at a constant maturity corresponding to the remaining life (as of the date of redemption, and rounded to the nearest month) to stated maturity or to such other date specified in connection with a particular offering of debt securities, of the principal being redeemed (the Treasury Yield), plus an additional number of basis points specified in the applicable supplement. For purposes hereof, the Treasury Yield shall be equal to the arithmetic mean of the yields published in the Statistical Release (as defined below) under the heading Week Ending for U.S. Government Securities Treasury Constant Maturities with a maturity equal to such remaining life; provided that if no published maturity exactly corresponds to such remaining life, then the Treasury Yield shall be interpolated or extrapolated on a straight-line basis from the arithmetic means of the yields for the next shortest and next longest published maturities. For purposes of calculating the Reinvestment Rate, the most recent Statistical Release published prior to the date of determination of the Make-Whole Amount shall be used. If the format or content of the Statistical Release changes in a manner that precludes determination of the Treasury Yield in the above manner, then the Treasury Yield shall be determined in the manner that most closely approximates the above manner, as reasonably determined by Citigroup.

Statistical Release means the statistical release designated H.15(519) or any successor publication which is published weekly by the Federal Reserve and which reports yields on actively traded United States government securities adjusted to constant maturities or, if such statistical release is not published at the time of any determination under the senior debt indenture, then such other reasonably comparable index which shall be designated by Citigroup.

Calculation of the foregoing will be made by Citigroup or on our behalf by a person designated by us; *provided, however*, that such calculation shall not be a duty or obligation of the trustee.

In addition, if so specified in connection with a particular offering of securities, Citigroup may redeem a series of debt securities at Citigroup's option, in whole at any time or in part from time to time, on or after the date specified in the supplement relating to such offering, at a redemption price equal to 100% of the principal amount of the debt

securities being redeemed plus accrued and unpaid interest thereon to, but excluding, the date of redemption.

The redemption of any debt security that is included in Citigroup's capital and total loss-absorbing capacity may be subject to consultation with the Federal Reserve, which may not acquiesce in the redemption of such note unless it is satisfied that the capital position and total loss-absorbing capacity of Citigroup will be adequate after the proposed redemption.

Table of Contents

In the case of any optional redemption of only part of the debt securities of a particular series at the time outstanding, the debt securities to be redeemed will be selected not more than 60 days prior to the redemption date in accordance with the procedures of the applicable depository or, in the case of certificated debt securities, by the trustee by such method as the trustee shall deem appropriate.

If Citigroup elects to redeem debt securities, it will provide notice to the holders of record of the debt securities to be redeemed. Such notice will be at least 15 days and not more than 60 days before the date fixed for redemption. Each notice of redemption will state:

such election of Citigroup to redeem debt securities of such series;

the redemption date;

the redemption price;

CUSIP or ISIN number and/or common code of the debt securities to be redeemed;

that on the redemption date the redemption price will become due and payable upon each debt security to be redeemed, and that interest thereon will cease to accrue on and after said date; and

the place or places where the notes are to be surrendered for payment of the redemption price and that the debt securities designated in such notice for redemption are required to be presented on or after such redemption date at the designated place or places of payment.

Notwithstanding the foregoing, if the debt securities are held in book-entry form through The Depository Trust Company (DTC), Citigroup may give such notice in any manner permitted or required by DTC. See Book-Entry Procedures and Settlement Notices below.

Unless otherwise specified in connection with a particular offering of debt securities, the debt securities are not subject to any sinking fund.

Unless otherwise specified in connection with a particular offering of debt securities, debt securities denominated in U.S. dollars will be issued only in denominations of \$1,000 and whole multiples of \$1,000 in excess thereof (*Senior Debt Indenture, Section 3.02*). The supplement relating to debt securities denominated in a foreign currency will specify the denomination of such debt securities.

The currency for payment for book-entry debt securities denominated in a foreign currency will be specified in the applicable supplement. However, when interests in such debt securities are held through DTC, all payments in respect of such debt securities will be made in U.S. dollars. See Book-Entry Procedures and Settlement and Currency Conversions and Foreign Exchange Risks Affecting Debt Securities Denominated in a Foreign Currency Currency Conversion below.

Citigroup may, without notice to or consent of the holders or beneficial owners of a series of debt securities, issue additional debt securities having the same ranking, interest rate, maturity and other terms as the debt securities initially issued. Any such debt securities could be considered part of the same series of debt securities under the indenture as the debt securities initially issued.

The senior debt securities will be issued only in registered form. The subordinated debt securities may be issued in registered form, bearer form, or both; however, unless otherwise specified in connection with a particular offering of subordinated debt securities, the subordinated debt securities will be issued in registered form. If bearer securities are issued, the United States federal income tax consequences and other special considerations, procedures and limitations applicable to such bearer securities will be described in the applicable supplement. As currently anticipated, debt securities of a series will trade in book-entry form, and global notes will be issued in physical (paper) form, as described below under **Book-Entry Procedures and Settlement**.

Table of Contents

Unless otherwise specified in connection with a particular offering of debt securities, the debt securities may be presented for exchange, and debt securities other than a global security may be presented for registration of transfer, at the principal trust office of the relevant trustee in New York City. Holders will not have to pay any service charge for any registration of transfer or exchange of debt securities, but Citigroup may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with such registration of transfer. (*Senior Debt Indenture, Section 3.06; Subordinated Debt Indenture, Section 2.05*) Debt securities in bearer form will be transferable by delivery. Provisions with respect to the exchange of debt securities in bearer form will be described in the applicable supplement.

Unless otherwise specified in connection with a particular offering of debt securities denominated in a foreign currency, a fiscal agency agreement will be entered into in relation to the debt securities between Citigroup and Citibank, N.A., London office, as registrar, fiscal agent and principal paying agent. The terms registrar, fiscal agent, and principal paying agent shall include any successors appointed from time to time in accordance with the provisions of the fiscal agency agreement, and any reference to an agent or agents shall mean any or all (as applicable) of such persons. The holders of the debt securities are bound by, and are deemed to have notice of, the provisions of the fiscal agency agreement. Unless otherwise specified in connection with a particular offering of debt securities, copies of the fiscal agency agreement are available for inspection during usual business hours at the principal office of Citibank, N.A. London office, located at Citigroup Centre, Canada Square, Canary Wharf, London, England, and at the office of Banque Internationale à Luxembourg S.A., as long as the debt securities are listed on the Luxembourg Stock Exchange.

Unless otherwise specified in connection with a particular offering of debt securities, the debt securities are intended to qualify as eligible long-term debt for purposes of the TLAC rule. As a result, in the event of a Citigroup bankruptcy or other resolution proceeding, Citigroup's losses and any losses incurred by its subsidiaries would be imposed first on Citigroup's shareholders and then on its unsecured creditors, including the holders of the debt securities. Further, in a bankruptcy or other resolution proceeding of Citigroup, any value realized by holders of the debt securities may not be sufficient to repay the amounts owed on the debt securities. For more information about the final TLAC rule and its consequences for the debt securities, you should refer to the section **Managing Global Risk** **Liquidity Risk** **Long-Term Debt** **Total Loss-Absorbing Capacity (TLAC)** in Citigroup's most recent Annual Report on Form 10-K.

Payments of Principal and Interest

Payments of principal and interest on debt securities issued in book-entry form will be made as described below under **Book-Entry Procedures and Settlement**. Payments of principal and interest on debt securities issued in definitive form, if any, will be made as described below under **Definitive Notes and Paying Agents**.

Unless otherwise specified in connection with a particular offering of debt securities, interest on the debt securities will be paid as follows:

Interest Payment Frequency

Monthly

Quarterly

Semi-annually

Interest Payment Dates

Fifteenth day of each calendar month, beginning in the first calendar month following the month the debt security was issued.

Fifteenth day of every third month, beginning in the third calendar month following the month the debt security was issued.

Annually

Fifteenth day of every sixth month, beginning in the sixth calendar month following the month the debt security was issued.

Fifteenth day of every twelfth month, beginning in the twelfth calendar month following the month the debt security was issued.

Table of Contents

Unless otherwise specified in connection with a particular offering of debt securities, all payments of interest on the debt securities will be made to the persons in whose names the notes are registered at the close of business on the Business Day preceding an interest payment date.

If an interest payment date for a fixed rate note or the maturity date of the debt securities falls on a day that is not a Business Day, the payment due on such interest payment date or on the maturity date will be postponed to the next succeeding Business Day, and no further interest will accrue in respect of such postponement. Unless otherwise specified in connection with a particular offering of debt securities, if an interest payment date for a floating rate note falls on a day that is not a Business Day, such interest payment date will be the next following Business Day unless that day falls in the next calendar month, in which case the interest payment date will be the first preceding Business Day.

Unless otherwise specified in connection with a particular offering of debt securities, in this section, Business Day means any day which is a day on which commercial banks settle payments and are open for general business (a) in New York, in the case of U.S. dollar-denominated debt securities; (b) in New York, London and Tokyo, in the case of Yen-denominated debt securities; (c) in New York, London and Sydney, in the case of Australian dollar (A\$)-denominated debt securities; and (d) in New York and London and which is also a TARGET business day (TARGET), in the case of Euro-denominated debt securities. A TARGET business day is a day on which TARGET 2 is open for the settlement of payment in Euro, and TARGET 2 is the Trans-European Automated Real-Time Gross Settlement Express Transfer payment system which utilizes a single shared platform and which was launched on November 19, 2007. Unless otherwise specified in connection with a particular offering of debt securities, in the case of Canadian dollar-denominated debt securities, Business Day shall mean any Toronto business day which is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign currency deposits and foreign exchange) in Toronto.

If a date for payment of interest or principal on the debt securities falls on a day that is not a business day in the place of payment, such payment will be made on the next succeeding business day in such place of payment as if made on the date the payment was due. No interest will accrue on any amounts payable for the period from and after the due date for payment of such principal or interest.

Interest Rate Determination*Fixed Rate Notes*

Unless otherwise specified in connection with a particular offering of debt securities, each fixed rate note will bear interest from its original issue date, or from the last interest payment date to which interest has been paid or duly provided for, at the rate per annum stated in the applicable supplement until its principal amount is paid or made available for payment.

Unless otherwise specified in connection with a particular offering of debt securities, interest on each fixed rate note will be payable semi-annually in arrears on the dates set forth in the applicable supplement, with each such day being an interest payment date, and at maturity. Unless otherwise specified in connection with a particular offering of debt securities, interest on U.S.-dollar-denominated fixed rate notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months or, in the case of an incomplete month, the number of days elapsed. The day-count for fixed rate notes denominated in any other currency will be set forth in the applicable supplement. All U.S. dollar, Canadian dollar and Euro amounts resulting from this calculation will be rounded to the nearest cent, with one-half cent being rounded upward. All Yen amounts resulting from this calculation will be rounded to the nearest Yen, with five-tenths or more of ¥1 to be rounded upwards to the nearest ¥1 per debt security. The rounding

convention for any other currency will be set forth in the applicable supplement. Interest on Australian dollar-denominated debt securities for any period will be calculated on the basis of the actual number of days elapsed and the actual number of days in the year. All Australian dollar amounts resulting from this calculation will be rounded to the nearest Australian dollar, with five-tenths or more of A\$1 to be rounded upwards to the nearest A\$1 per note.

Table of Contents

Floating Rate Notes

Each floating rate note will bear interest at the interest rate specified in the supplement relating to a particular series of debt securities. Unless otherwise specified in connection with a particular offering of debt securities, interest on each floating rate note will be payable quarterly in arrears on the dates set forth in the applicable supplement, with each such day being an interest payment date, and at maturity. Unless otherwise specified in connection with a particular offering of debt securities, interest on floating rate notes will be calculated on the basis of the actual number of days in an interest period and a 360-day year. An interest period is the period commencing on an interest payment date and ending on the day preceding the next following interest payment date. Interest on Australian dollar-denominated debt securities for any period will be calculated on the basis of the actual number of days elapsed and a 365-day year.

The first interest period will commence on the day the floating rate notes are issued and will end on the day preceding the next following interest payment date.

The interest rate for each offering of floating rate notes for a particular interest period will be a per annum rate equal to the base rate specified in the applicable supplement, as determined on the relevant interest determination date (defined below for each base rate), plus or minus any spread or multiplied by any spread multiplier. A basis point, or bp, equals one-hundredth of a percentage point. The spread is the number of basis points specified in the applicable supplement and the spread multiplier is the percentage specified in the applicable supplement.

Each floating rate note will bear interest for each interest period at a rate determined by Citibank, N.A., acting as calculation agent. Promptly upon determination, the calculation agent will inform the trustee and Citigroup of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent shall be binding and conclusive on the holders of such floating rate notes, the trustee and Citigroup. As long as the floating rate notes are listed on the Luxembourg Stock Exchange, the Luxembourg Stock Exchange shall be notified of the interest rate, the amount of the interest payment and the interest payment date for a particular interest period not later than the first day of such interest period. Upon request from any noteholder, the calculation agent will provide the interest rate in effect on the notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

The applicable supplement will designate one of the following base rates as applicable to an offering of floating rate notes:

LIBOR;

the Treasury Rate;

the Prime Rate;

EURIBOR;

CDOR;

BBSW Rate; or

such other rate or interest rate formula as is set forth in the applicable supplement and in such floating rate note.

The following terms are used in describing the various base rates:

The index maturity is the period of maturity of the instrument or obligation from which the base rate is calculated.

H.15(519) means the publication entitled Statistical Release H.15(519), Selected Interest Rates, or any successor publication, published by the Federal Reserve.

Table of Contents

H.15 Daily Update means the daily update of the Federal Reserve at <http://www.federalreserve.gov/releases/H15/update> or any successor site or publication.

Unless otherwise specified in connection with a particular offering of debt securities, in this section, business day means:

for any floating rate note, any day that is not a Saturday or Sunday and that is not a day on which banking institutions generally are authorized or obligated by law or executive order to close in New York City, London, or the place in which the floating rate note or its coupon is to be presented for payment;

for LIBOR floating rate notes only, a London business day, which shall be any day on which dealings in deposits in the specified currency are transacted in the London interbank market;

for floating rate notes having a specified currency other than U.S. dollars only, other than Euro-denominated floating rate notes, any day that, in the principal financial center (as defined below) of the country of the specified currency, is not a day on which banking institutions generally are authorized or obligated by law to close;

for EURIBOR floating rate notes and Euro-denominated floating rate notes, a TARGET business day; and

for BBSW floating rate notes and Australian dollar-denominated floating rate notes, a New York, London and Sydney business day.

As used above, a principal financial center means the capital city of the country issuing the specified currency. However, for Australian dollars, Canadian dollars, New Zealand dollars and Swiss francs, the principal financial center may be specified in the applicable supplement as Sydney, Toronto, Auckland and Zurich, respectively.

Unless otherwise specified in connection with a particular offering of debt securities, each of the following base rates will be determined by the calculation agent as described below. Unless otherwise specified in connection with a particular offering of debt securities, all percentages resulting from any calculation of the rate of interest on a floating rate note will be rounded, if necessary, to the nearest 1/100,000 of 1% (.0000001), with five one-millionths of a percentage point rounded upward. All currency amounts used in, or resulting from, the calculation on floating rate notes will be rounded to the nearest one-hundredth of a unit. For purposes of rounding, .005 of a unit shall be rounded upward.

LIBOR Notes. Each LIBOR note will bear interest for each interest period at an interest rate equal to LIBOR and any spread or spread multiplier specified in the note and the applicable supplement.

The calculation agent will determine LIBOR on each interest determination date. The interest determination date is the second London business day prior to each interest period.

On an interest determination date, the calculation agent will determine LIBOR for each interest period as follows.

The calculation agent will determine the offered rates for deposits in a principal amount equal to at least \$1,000,000 or the approximate equivalent in the specified currency for the period of the index maturity specified in the applicable supplement commencing on the interest determination date, which appear on the designated LIBOR page at approximately 11:00 a.m., London time, on that date.

If Reuters LIBOR01 is designated, or if no LIBOR page is specified in the applicable supplement as the method for calculating LIBOR, designated LIBOR page means the display on Reuters screen LIBOR01 for the purpose of displaying the London interbank offered rates of major banks for the

Table of Contents

specified currency. If the relevant Reuters page is replaced by another page, or if Reuters is replaced by a successor service, then Reuters LIBOR01 means the replacement page or service selected to display the London interbank offered rates of major banks for the specified currency.

If LIBOR cannot be determined on an interest determination date as described above, then the calculation agent will determine LIBOR as follows.

The calculation agent (after consultation with Citigroup) will select four major banks in the London interbank market.

The calculation agent will request that the principal London offices of those four selected banks provide their offered quotations to prime banks in the London interbank market at approximately 11:00 a.m., London time, on the interest determination date. These quotations shall be for deposits in the specified currency for the period of the specified index maturity, commencing on the interest determination date. Offered quotations must be based on a principal amount equal to at least \$1,000,000 or the approximate equivalent in the specified currency that is representative of a single transaction in such market at that time.

- (1) If two or more quotations are provided, LIBOR for the interest period will be the arithmetic average of those quotations.
- (2) If fewer than two quotations are provided, the calculation agent (after consultation with Citigroup) will select three major banks in New York City and follow the steps in the two bullet points below.

The calculation agent will then determine LIBOR for the interest period as the arithmetic average of rates quoted by those three major banks in New York City to leading European banks at approximately 11:00 a.m., New York City time, on the interest determination date. The rates quoted will be for loans in the specified currency, for the period of the specified index maturity, commencing on the interest determination date. Rates quoted must be based on a principal amount of at least \$1,000,000 or the approximate equivalent in the specified currency that is representative of a single transaction in such market at that time.

If fewer than three New York City banks selected by the calculation agent are quoting rates, LIBOR for the interest period will be the same as for the immediately preceding interest period.

Notwithstanding the foregoing two paragraphs, if, on or prior to any interest determination date, Citigroup (or one of its affiliates) determines that LIBOR has been discontinued or is permanently no longer being published, Citigroup (or such affiliate) will use a substitute or successor base rate that it has determined, in its sole discretion after consulting any source it deems to be reasonable, is (i) the industry-accepted substitute or successor base rate or (ii) if there is no such industry-accepted substitute or successor base rate, a substitute or successor base rate that is most comparable to LIBOR.

Upon selection of a substitute or successor base rate, Citigroup (or such affiliate) may determine, in its sole discretion after consulting any source it deems to be reasonable, the day count, the business day convention, the definition of business day, the interest determination date and any other relevant methodology or definition for calculating such

substitute or successor base rate, including any adjustment factor it determines is needed to make such substitute or successor base rate comparable to LIBOR, in a manner that is consistent with any industry-accepted practices for such substitute or successor base rate.

Treasury Rate Notes. Each Treasury Rate note will bear interest for each interest period at an interest rate equal to the Treasury Rate and any spread or spread multiplier, specified in the note and the applicable supplement.

The calculation agent will determine the Treasury Rate on each interest determination date. The interest determination date for each interest period will be the day of the week in which the beginning of that interest period falls on which treasury securities are normally auctioned. Treasury securities are normally sold at auction on Monday of each week unless that day is a legal holiday. In that case the auction is normally held on the

Table of Contents

following Tuesday, except that the auction may be held on the preceding Friday. If, as the result of a legal holiday, an auction is held on the Friday of the week preceding an interest period, that Friday will be the interest determination date pertaining to the interest period commencing in the next succeeding week. If an auction date falls on any day that would otherwise be an interest determination date for a Treasury Rate note, then that interest determination date will instead be the business day immediately following the auction date.

Unless Constant Maturity is specified in the applicable supplement, the Treasury Rate for each interest period will be the rate for the auction held on the Treasury Rate determination date for such interest period of treasury securities (as defined below) as such rate appears on Reuters (or any successor service) on page USAUCTION10 (or any other page as may replace such page on such service) (Reuters Page USAUCTION10) or page USAUCTION11 (or any other page as may replace such page on such service) (Reuters Page USAUCTION11) opposite the caption INVEST RATE. Treasury securities are direct obligations of the United States that have the index maturity specified in the applicable Note or supplement.

If the Treasury Rate cannot be determined as described above, the following procedures will be followed in the order set forth below.

- (1) If the Treasury rate is not published prior to 3:00 p.m., New York City time on the earlier of 1) the tenth calendar day after the interest determination date or, if that day is not a business day, the next succeeding business day, or 2) the business day immediately preceding the applicable interest payment date or maturity date, as the case may be (the calculation date), then the Treasury Rate will be the Bond Equivalent Yield (as defined below) of the rate for the applicable treasury securities as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, opposite the caption U.S. Government Securities/Treasury Bills/Auction High on the interest determination date.
- (2) If the rate referred to in clause (1) is not so published by 3:00 p.m., New York City time, on the calculation date, the Treasury Rate will be the Bond Equivalent Yield of the auction rate of the applicable treasury securities as announced by the United States Department of the Treasury on the interest determination date.
- (3) If the rate referred to in clause (2) above is not so announced by the United States Department of the Treasury, or if the auction is not held, then the Treasury Rate will be the Bond Equivalent Yield of the rate on the interest determination date of the applicable treasury securities published in H.15(519) opposite the caption U.S. Government Securities/Treasury Bills/Secondary Market.
- (4) If the rate referred to in clause (3) is not so published by 3:00 p.m., New York City time, on the calculation date, then the Treasury Rate will be the rate on the calculation date of the applicable treasury securities as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, opposite the caption U.S. Government Securities/Treasury Bills/Secondary Market on the interest determination date.

- (5) If the rate referred to in clause (4) is not so published by 3:00 p.m., New York City time, on the calculation date, then the Treasury Rate will be the rate calculated by the calculation agent as the Bond Equivalent Yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 p.m., New York City time, on the interest determination date, of three primary United States government securities dealers selected by the calculation agent (after consultation with Citigroup), for the issue of treasury securities with a remaining maturity closest to the index maturity specified in the applicable supplement.

- (6) If the dealers selected by the calculation agent are not quoting bid rates as mentioned in (5) above, then the Treasury Rate for such interest period will be the same as the Treasury Rate for the immediately preceding interest period. If there was no preceding interest period, the Treasury Rate will be the initial interest rate.

Table of Contents

Bond Equivalent Yield will be expressed as a percentage and calculated as follows:

$$\text{Bond Equivalent Yield} = \frac{D \times N}{360 (D \times M)} \times 100$$

where D refers to the applicable per annum rate for treasury securities quoted on a bank discount basis and expressed as a decimal, N refers to 365 or 366, as the case may be, and M refers to the actual number of days in the applicable interest period.

Prime Rate Notes. Prime Rate notes will bear interest at a rate equal to the Prime Rate and any spread or spread multiplier specified in the Prime Rate notes and the applicable supplement.

The calculation agent will determine the Prime Rate for each interest period on each interest determination date. The interest determination date is the second business day prior to each interest period. The Prime Rate will be the rate made available and subsequently published on that date in H.15(519) opposite the caption Bank Prime Loan.

The following procedures will be followed if the Prime Rate cannot be determined as described above.

If the rate is not published prior to 3:00 p.m., New York City time, on the calculation date, then the Prime Rate will be the rate on the interest determination date that is published in the H.15 Daily Update other recognized electronic source used for the purpose of displaying that rate, opposite the caption Bank Prime Loan.

If the rate referred to above is not published prior to 3:00 p.m., New York City time, on the calculation date, then the Prime Rate will be the arithmetic mean of the rates of interest that appear on the USPRIME1 page (or such other page as may replace such page on such service for the purpose of displaying prime rates or base lending rates of major United States banks) as such bank's prime rate or base lending rate as of 11:00 a.m., New York City time, on the interest determination date.

If fewer than four such rates appear on the Reuters Screen USPRIME1 page, then the calculation agent will select three major banks in New York City (after consultation with Citigroup). The Prime Rate will be the arithmetic average of the prime rates quoted by those three banks on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on the interest determination date.

If the banks that the calculation agent selects do not provide quotations as described above, then the Prime Rate will remain the same as the Prime Rate for the immediately preceding interest period, or if there was no interest period, the rate of interest payable will be the initial interest rate.

Reuters Screen USPRIME1 page means the display which appears on the display on Reuters (or any successor service) as page USPRIME1 (or any other page as may replace such page), for the purpose of displaying prime rates or base lending rates of major United States banks.

EURIBOR Notes. Each EURIBOR note will bear interest for each interest period at an interest rate equal to EURIBOR and any spread or spread multiplier specified in the note and the applicable supplement.

The calculation agent will determine EURIBOR on each interest determination date. The interest determination date is the second TARGET business day prior to each interest period.

On an interest determination date, the calculation agent will determine EURIBOR for each interest period as follows.

The calculation agent will determine the offered rates for deposits in euros for the period of the index maturity specified in the applicable supplement, in amounts of at least 1,000,000, commencing on the interest determination date, which appears on the display on Reuters (or any successor service) on EURIBOR1 (or any other page as may replace such page on such service) as of 11:00 a.m., Brussels time, on that date.

Table of Contents

If EURIBOR cannot be determined on an interest determination date as described above, then the calculation agent will determine EURIBOR as follows.

The calculation agent (after consultation with Citigroup) will select four major banks in the Euro-zone interbank market.

The calculation agent will request that the principal Euro-zone offices of those four selected banks provide their offered quotations to prime banks in the Euro-zone interbank market at approximately 11:00 a.m., Brussels time, on the interest determination date. These quotations shall be for deposits in Euros for the period of the specified index maturity, commencing on the interest determination date. Offered quotations must be based on a principal amount equal to at least 1,000,000 that is representative of a single transaction in such market at that time.

- (1) If two or more quotations are provided, EURIBOR will be the arithmetic average of those quotations.
- (2) If less than two quotations are provided, the calculation agent (after consultation with Citigroup) will select three major banks in the Euro-zone and follow the steps in the two bullet points below.

The calculation agent will then determine EURIBOR for the interest period as the arithmetic average of rates quoted by those three major banks in the Euro-zone to leading European banks at approximately 11:00 a.m., Brussels time, on the interest determination date. The rates quoted will be for loans in Euros, for the period of the specified index maturity, commencing on the interest determination date. Rates quoted must be based on a principal amount of at least 1,000,000 that is representative of a single transaction in such market at that time.

If the banks so selected by the calculation agent are not quoting rates as described above, EURIBOR for the interest period will be the same as for the immediately preceding interest period.

Euro-zone means the region comprised of member states of the European Union that adopted the Euro as their single currency.

CDOR Rate Notes. Each CDOR note will bear interest for each interest period at an interest rate equal to the Canadian dollar three-month Banker's Acceptance Rate (CDOR) and any spread or spread multiplier specified in the note and the applicable supplement.

The calculation agent will determine CDOR on each interest determination date. The interest determination date is the first day of such interest period. CDOR will be the offered rate for Canadian dollar bankers' acceptances having a maturity of three months, as such rate appears on the Reuters Screen CDOR page, or such other replacing service or such other service that may be nominated by the person sponsoring the information appearing there for the purpose of displaying offered rates for Canadian dollar bankers' acceptances having a maturity of three months, at approximately 10:00 a.m., Toronto time, on such interest determination date.

The following procedures will be followed if CDOR cannot be determined as described above.

If the rate is not published prior to 10:00 a.m., Toronto time, on the interest determination date, then CDOR will be the average of the bid rates of interest for Canadian dollar bankers' acceptances with maturities of three months for same day settlement as quoted by such of the Schedule I banks (as defined in the Bank Act (Canada)) as may quote such a rate as of 10:00 a.m., Toronto time, on such interest determination date.

If no offered rate appears on Reuters Screen CDOR page on an interest determination date at approximately 10:00 a.m., Toronto time, then CDOR will be the average of the bid rates of interest for Canadian dollar bankers' acceptances with maturities of three months for same day settlement as quoted by such of the Schedule I banks (as defined in the Bank Act (Canada)) as may quote such a rate as of 10:00 a.m., Toronto time, on such interest determination date. If at least two quotations are provided, CDOR will be the arithmetic average of the quotations provided.

Table of Contents

If the Schedule I banks so selected by the calculation agent are not quoting as mentioned above, CDOR for the next interest period will be the rate in effect for the preceding interest period.

Floating/Fixed Rate Notes. The applicable supplement may provide that a debt security will be a floating rate note for a specified portion of its term and a fixed rate note for the remainder of its term. In such an event, the interest rate on the debt security will be determined as if it were a floating rate note and a fixed rate note for each respective period, all as specified herein and in the applicable supplement.

BBSW Rate Notes. Each BBSW note will bear interest at a rate equal to the Australian dollar three-month Bank-Bill Reference Rate (the BBSW Rate) and any spread or spread multiplier specified in the note and the applicable supplement.

The calculation agent will determine the BBSW Rate for each interest period on each interest determination date. The interest determination date is the first day of each interest period. The BBSW Rate will be the rate for prime bank eligible securities having a tenor closest to the interest period which is designated as the AVG MID on the Reuters Screen BBSW Page at approximately 10:10 a.m., Sydney time, on the interest determination date.

If the rate is not published prior to 10:30 a.m., Sydney time, on the interest determination date, or if it is displayed but the calculation agent determines that there is a manifest error in that rate, then the BBSW Rate will be the rate determined by the calculation agent having regard to comparable indices then available.

Reuters Screen BBSW page means the display which appears on the display on Reuters (or any successor service) as page BBSW (or any other page as may replace such page), for the purpose of displaying BBSW rates or base lending rates of major Australian banks.

All percentages resulting from any calculation of the rate of interest will be rounded, if necessary, to the nearest 1/10,000 of 1% (.0001), with five hundred thousandths of a percentage point rounded upward.

Dual Currency Debt Securities

Citigroup may from time to time offer dual currency debt securities on which Citigroup has the option of making all payments of principal and interest on such debt securities, the payments on which would otherwise be made in the specified currency of those debt securities, in the optional payment currency specified in the applicable supplement. This option will be exercisable in whole but not in part on an option election date, which will be any of the dates specified in the applicable supplement. Information as to the relative value of the specified currency compared to the optional payment currency will be set forth in the applicable supplement.

The supplement for each issuance of dual currency debt securities will specify, among other things, the specified currency; the optional payment currency; and the designated exchange rate. The designated exchange rate will be a fixed exchange rate used for converting amounts denominated in the specified currency into amounts denominated in the optional payment currency. The supplement will also specify the option election dates and interest payment dates for the related issuance of dual currency debt securities. Each option election date will be a particular number of days before an interest payment date or maturity, as set forth in the applicable supplement. Each option election date will be the date on which Citigroup may select whether to make all scheduled payments due thereafter in the optional payment currency rather than in the specified currency.

If Citigroup makes such an election, the amount payable in the optional payment currency will be determined using the designated exchange rate specified in the applicable supplement. Unless otherwise specified in connection with a particular offering of debt securities, if such an election is made, notice of the election will be provided in accordance

with the terms of the dual currency debt securities within two business days of the option election date. The notice will state (1) the first date, whether an interest payment date and/or maturity, on which scheduled payments in the optional payment currency will be made and (2) the designated exchange rate.

Table of Contents

Unless otherwise specified in the applicable supplement, any such notice by Citigroup, once given, may not be withdrawn. The equivalent value in the specified currency of payments made after such an election may be less, at the then current exchange rate, than if Citigroup had made the payment in the specified currency.

For United States federal income tax purposes, holders of dual currency debt securities may need to comply with rules which differ from the general rules applicable to holders of other types of debt securities offered by this prospectus. The United States federal income tax consequences of the purchase, ownership and disposition of dual currency debt securities will be set forth in the applicable supplement.

Extension of Maturity

If so stated in the supplement relating to a particular offering of debt securities, Citigroup may extend the stated maturity of those debt securities for an extension period. Unless otherwise specified in connection with a particular offering of debt securities, such an extension period will be one or more periods of one to five whole years, up to but not beyond the final maturity date set forth in the supplement.

Unless otherwise specified in connection with a particular offering of debt securities, Citigroup may exercise its option for a particular offering of debt securities by notifying the trustee for that series at least 45 but not more than 60 days prior to the original stated maturity of the debt security. Not later than 40 days prior to the original stated maturity of the debt security, the trustee for the debt securities will provide notice of the extension to the holder, in accordance with **Book-Entry Procedures and Settlement Notices** below. The extension notice will set forth among other items: the election of Citigroup to extend the stated maturity of the debt security; the new stated maturity; in the case of a fixed rate note, the interest rate applicable to the extension period; in the case of a floating rate note, the spread, spread multiplier or method of calculation applicable to the extension period; and any provisions for redemption during the extension period, including the date or dates on which, or the period or periods during which, and the price or prices at which, a redemption may occur during the extension period.

Unless otherwise specified in connection with a particular offering of debt securities, upon the provision by such trustee of an extension notice in accordance with **Book-Entry Procedures and Settlement Notices** below, the stated maturity of the debt security will be extended automatically, and, except as modified by the extension notice and as described in the next paragraph, the debt security will have the same terms as prior to the extension notice.

Despite the foregoing and unless otherwise specified in connection with a particular offering of debt securities, not later than 20 days prior to the original stated maturity of the debt security, Citigroup may, at its option, revoke the interest rate, or the spread or spread multiplier, as the case may be, provided for in the extension notice for the debt security and establish for the extension period a higher interest rate, in the case of a fixed rate note, or a higher spread or spread multiplier, in the case of a floating rate note. Citigroup may so act by causing the trustee for the debt security to provide notice of the higher interest rate or higher spread or spread multiplier, as the case may be, in accordance with **Book-Entry Procedures and Settlement Notices** below, to the holder of the debt security. Unless otherwise specified in connection with a particular offering of debt securities, the notice will be irrevocable. Unless otherwise specified in connection with a particular offering of debt securities, all debt securities for which the stated maturity is extended will bear the higher interest rate, in the case of fixed rate notes, or higher spread or spread multiplier, in the case of floating rate notes, for the extension period, whether or not tendered for repayment.

If so stated in the supplement relating to a particular offering of debt securities, the holder of a debt security of which Citigroup elects to extend maturity may have the option of early redemption, repayment or repurchase.

Table of Contents

Listing

Unless otherwise specified in connection with a particular offering of debt securities, application will be made to list the debt securities on the Official List of the Luxembourg Stock Exchange and to admit them to trading on the regulated market of the Luxembourg Stock Exchange.

Directive 2006/43/EC of the European Parliament and of the Council of May 17, 2006 on statutory audits of annual accounts and consolidated accounts, (the Statutory Audit Directive) entered into force on 29 June 2006 and was amended most recently by Directive 2014/56/EU. The Statutory Audit Directive required member states to take measures necessary to comply with its provisions by June 29, 2008.

Among other requirements, the Statutory Audit Directive requires that, where an issuer's securities are admitted to trading on a regulated market in any member state of the European Economic Area (the EEA) and its auditor is from a country outside the EEA then, unless covered by an exemption or derogation, that auditor must be registered in that member state and be subject to that member state's system of oversight, quality assurance, investigation and penalties. The Statutory Audit Directive further provides that audit reports issued by auditors from countries outside the EEA which are not so registered (or covered by an exemption or derogation) shall have no legal effect in the relevant member state.

As a result of having securities already admitted to trading on the Regulated Market of the Luxembourg Stock Exchange, Citigroup will be required by Directive 2004/109/EC of the European Parliament and of the Council of December 15, 2004 on the harmonization of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market, as amended (the Transparency Directive) and implementing measures in Luxembourg to publish at the latest four months after the end of each of its financial years an annual financial report containing, among other things, its audited financial statements.

As of the date of this prospectus, Citigroup's auditors are registered pursuant to the Statutory Audit Directive and implementing measures in Luxembourg. However, if Citigroup determines it is impracticable or unduly burdensome to maintain such a listing of any series of debt securities due to changes in applicable law or listing requirements occurring after the original issue date of the relevant series of debt securities, application may be made to de-list such debt securities from the regulated market of the Luxembourg Stock Exchange. In such event, Citigroup may obtain an alternative admission to listing, trading and/or quotation of such debt securities by another listing authority, exchange or system within or outside the European Union as it may decide. If such an alternative admission is not available or is, in Citigroup's opinion, unduly burdensome, an alternative admission may not be obtained, and Citigroup will have no further obligation in respect of any listing, trading or quotation for such debt securities.

Notice of any de-listing and/or alternative admission will be given as described under Book-Entry Procedures and Settlement Notices below.

Payment of Additional Amounts

Obligation to Pay Additional Amounts

Unless otherwise specified in connection with a particular offering of debt securities, Citigroup will pay additional amounts to the beneficial owner of any debt security that is a non-United States person in order to ensure that every net payment on such debt security will not be less, due to payment of U.S. withholding tax, than the amount then due and payable. For this purpose, a net payment on a debt security means a payment by Citigroup or a paying agent, including payment of principal and interest, after deduction for any present or future tax, assessment or other

governmental charge of the United States. These additional amounts will constitute additional interest on the debt security.

Table of Contents

Exceptions

Unless otherwise specified in connection with a particular offering of debt securities, Citigroup will not be required to pay additional amounts, however, in any of the circumstances described in items (1) through (13) below.

- (1) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the beneficial owner:

having a relationship with the United States as a citizen, resident or otherwise;

having had such a relationship in the past; or

being considered as having had such a relationship.

- (2) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the beneficial owner:

being treated as present in or engaged in a trade or business in the United States;

being treated as having been present in or engaged in a trade or business in the United States in the past; or

having or having had a permanent establishment in the United States.

- (3) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld in whole or in part by reason of the beneficial owner being or having been any of the following (as these terms are defined in the Internal Revenue Code of 1986, as amended):

personal holding company;

foreign private foundation or other foreign tax-exempt organization;

passive foreign investment company;

controlled foreign corporation; or

corporation which has accumulated earnings to avoid United States federal income tax.

- (4) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the beneficial owner owning or having owned, actually or constructively, 10 percent or more of the total combined voting power of all classes of stock of Citigroup entitled to vote or by reason of the beneficial owner being a bank that has invested in a debt security as an extension of credit in the ordinary course of its trade or business.

For purposes of items (1) through (4) above, beneficial owner means a fiduciary, settlor, beneficiary, member or shareholder of the holder if the holder is an estate, trust, partnership, limited liability company, corporation or other entity, or a person holding a power over an estate or trust administered by a fiduciary holder.

- (5) Additional amounts will not be payable to any beneficial owner of a debt security that is a:

fiduciary;

partnership;

limited liability company; or

other fiscally transparent entity,

or that is not the sole beneficial owner of the debt security, or any portion of the debt security. However, this exception to the obligation to pay additional amounts will only apply to the extent that a beneficiary or

settlor in relation to the fiduciary, or a beneficial owner or member of the partnership, limited liability company or other fiscally transparent entity, would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment.

- (6) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the failure of the beneficial owner or any other person to comply with applicable certification, identification, documentation or other information reporting requirements. This exception to the obligation to pay additional amounts will only apply if compliance with such reporting requirements is required by statute or regulation of the United States or by an applicable income tax treaty to which the United States is a party as a precondition to exemption from such tax, assessment or other governmental charge.
- (7) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is collected or imposed by any method other than by withholding from a payment on a debt security by Citigroup or a paying agent.
- (8) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld by reason of a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later.
- (9) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment or other governmental charge that is imposed or withheld by reason of the presentation by the beneficial owner of a debt security for payment more than 30 days after the date on which such payment becomes due or is duly provided for, whichever occurs later.
- (10) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any:

estate tax;

inheritance tax;

gift tax;

sales tax;

excise tax;

transfer tax;

wealth tax;
