Our Company

We are a Maryland corporation primarily focused on investing in, financing and managing residential and commercial mortgage-backed securities, or MBS, and mortgage loans. Our objective is to provide attractive risk-adjusted returns to our investors, primarily through dividends and secondarily through capital appreciation. To achieve this objective, we primarily invest in the following:

Residential mortgage-backed securities, or RMBS, that are guaranteed by a U.S. government agency such as the Government National Mortgage Association, or Ginnie Mae, or a federally chartered corporation such as the Federal National Mortgage Association, or Fannie Mae, or the Federal Home Loan Mortgage Corporation, or Freddie Mac, and are collectively referred to as Agency RMBS;

Commercial mortgage-backed securities, or CMBS, that are guaranteed by a U.S. government agency, such as Ginnie Mae, or a federally chartered corporation, such as Fannie Mae, or Freddie Mac, and are collectively referred to as Agency CMBS;

RMBS that are not guaranteed by a U.S. government agency or a federally chartered corporation, or non-Agency RMBS;

CMBS that are not guaranteed by a U.S. government agency or a federally chartered corporation, or non-Agency CMBS;

Credit risk transfer securities that are unsecured obligations issued by government-sponsored enterprises, or GSE CRT;

Residential and commercial mortgage loans; and

Other real estate-related financing arrangements.

We generally finance our investments through short- and long-term borrowings structured as repurchase agreements and secured loans. We have also financed investments through the issuances of debt and equity and may utilize other forms of financing in the future.

We conduct our business through our wholly-owned subsidiary, IAS Operating Partnership L.P., or the Operating Partnership. We are externally managed and advised by Invesco Advisers, Inc., our Manager, which is an indirect, wholly-owned subsidiary of Invesco Ltd., or Invesco. We elected to be taxed as a real estate investment trust, or REIT, for U.S. federal income tax purposes under the provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code, commencing with our taxable year ended December 31, 2009. To maintain our REIT qualification, we are generally required to distribute at least 90% of our REIT taxable income to our stockholders annually. In addition, our charter contains various other restrictions on the ownership and transfer of our common stock. See Description of Preferred Stock Restrictions on Ownership and Transfer. We operate our business in a manner that permits our exclusion from the definition of an Investment Company under the 1940 Act.

If we liquidate, dissolve or wind up, holders of Preferred Stock will have the right to receive \$25.00 per share, plus any accumulated and unpaid

dividends to, but not including, the date of payment, before any payment is made to the holders of our common stock. Ranking

Each series of the Preferred Stock ranks, with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up, (1) senior to all classes or series of our common stock and to all other equity securities issued by us other than equity securities referred to in clauses (2) and (3); (2) on a parity with our other currently outstanding series of Preferred Stock, and any other equity securities issued by us with terms specifically providing that those equity securities rank on a parity with the Preferred Stock with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up; (3) junior to all equity securities issued by us with terms specifically providing that those equity securities rank senior to the Preferred Stock with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up; and (4) effectively junior to all of our existing and future indebtedness (including indebtedness convertible to our common stock or preferred stock) and to the indebtedness of our existing subsidiaries and any future subsidiaries.

At December 31, 2018, our total consolidated indebtedness (excluding trade payables, unfunded commitments and certain other liabilities) was \$15.3 billion, including borrowings under our repurchase agreements and secured loans, that would rank senior in right of payment to the Preferred Stock. See Description of Preferred Stock Description of the Series A Preferred Stock Ranking, Description of Preferred Stock Description of the Series B Preferred Stock Ranking, and Description of Preferred Stock Description of the Series C Preferred Stock Ranking.

Voting Rights

Holders of Preferred Stock will generally have no voting rights. However, if we do not pay dividends on any series of the Preferred Stock for six or more quarterly dividend periods (whether or not consecutive), the holders of the applicable series of Preferred Stock (voting separately as a class and also together with the holders of all other classes or series of our preferred stock we may issue, including our currently outstanding Series A Preferred Stock, Series B Preferred Stock and Series C Preferred Stock, upon which like voting rights have been conferred and are exercisable and which are entitled to vote as a class with the Preferred Stock) will be entitled to vote for the election of two additional directors to serve on our board of directors until we pay the payment of, all dividends that we owe on the Preferred Stock, subject to certain limitations described in the sections entitled Description of Preferred Stock Description of the Series A Preferred Stock Voting Rights, Description of Preferred Stock Description of the Series B Preferred

Stock Voting Rights, and Description of Preferred Stock Description of
the Series C Preferred Stock Voting Rights. In addition, the affirmative
vote of

the holders of at least two-thirds of the outstanding shares of each series of Preferred Stock is required for us to authorize or issue any class or series of stock ranking senior to such series of Preferred Stock with respect to the payment of dividends or the distribution of assets on liquidation, dissolution or winding up, to amend our charter so as to materially and adversely affect any rights of such series of Preferred Stock or to take certain other actions. See Description of Preferred Stock Description of the Series A Preferred Stock Voting Rights, Description of Preferred Stock Description of the Series B Preferred Stock Voting Rights, and Description of Preferred Stock Description of the Series C Preferred Stock Voting Rights.

Information Rights

During any period in which we are not subject to Section 13 or 15(d) of the Exchange Act and any shares of Preferred Stock are outstanding, we will use our best efforts to (i) post to our website or transmit by mail (or other permissible means under the Exchange Act) to all holders of Preferred Stock, as their names and addresses appear on our record books and without cost to such holders, copies of the annual reports on Form 10-K and quarterly reports on Form 10-Q, respectively, that we would have been required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act if we were subject thereto (other than any exhibits that would have been required) and (ii) promptly, upon request, supply copies of such reports to any holder or prospective holder of Preferred Stock, subject to certain exceptions described in this prospectus supplement. We will use our best efforts to post to our website or mail (or otherwise provide) the information to the holders of the Preferred Stock within 15 days after the respective dates by which a report on Form 10-K or Form 10-Q, as the case may be, in respect of such information would have been required to be filed with the SEC, if we were subject to Section 13 or 15(d) of the Exchange Act, in each case, based on the dates on which we would be required to file such periodic reports if we were a non-accelerated filer within the meaning of the Exchange Act.

Restrictions on Ownership and Transfer

In order to ensure that we remain a qualified REIT for U.S. federal income tax purposes, among other purposes, our charter provides that no person may own, or be deemed to own by virtue of applicable attribution provisions of the Internal Revenue Code, more than 9.8% in value or in number of shares, whichever is more restrictive, of either our common stock or our capital stock, including our Preferred Stock, subject to certain exceptions. These provisions may restrict the ability of a holder of any series of Preferred Stock to convert such stock into our common stock and may limit the amount of Preferred Stock that a holder may acquire or otherwise own. See Description of Preferred Stock Restrictions on Ownership and Transfer in this prospectus supplement and Restrictions on Ownership and Transfer in the accompanying prospectus.

Table of Contents**RISK FACTORS**

*An investment in shares of our Preferred Stock involves a high degree of risk. Before you decide to invest in our Preferred Stock, you should consider the risk factors below relating to the offering as well as the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2018 which are incorporated by reference into this prospectus supplement and the accompanying prospectus, as updated and supplemented from time to time, and in all other information that we file from time to time with the SEC. The risks and uncertainties discussed below and in the documents referred to above, as well as other matters discussed in this prospectus supplement and in those documents, could materially and adversely affect our business, financial condition, liquidity and results of operations and the market price of our Preferred Stock. Please see the sections entitled *Where You Can Find More Information* and *Incorporation of Certain Documents by Reference*. In connection with the forward-looking statements that appear in this prospectus supplement, you should also carefully review the cautionary statements in the section of this prospectus supplement entitled *Special Note Regarding Forward-Looking Statements*.*

Risks Related to the Preferred Stock and this Offering

The Preferred Stock ranks junior to all of our indebtedness and other liabilities and is effectively junior to all indebtedness and other liabilities of our subsidiaries.

In the event of our bankruptcy, liquidation, dissolution or winding-up of our affairs, our assets will be available to pay obligations on the Preferred Stock only after all of our indebtedness and other liabilities have been paid. The rights of holders of the Preferred Stock to participate in the distribution of our assets will rank junior to the claims of our current and future creditors and any future series or class of preferred stock we may issue that ranks senior to the Preferred Stock. In addition, the Preferred Stock effectively ranks junior to all existing and future indebtedness and other liabilities of (as well as any preferred equity interests held by others in) our existing subsidiaries and any future subsidiaries. Our existing subsidiaries and any future subsidiaries would be separate legal entities and have no legal obligation to pay any amounts to us in respect of dividends due on the Preferred Stock. If we are forced to liquidate our assets to pay our creditors, we may not have sufficient assets to pay amounts due on any or all of the Preferred Stock then outstanding. We and our subsidiaries have incurred and may in the future incur substantial amounts of debt and other obligations that will rank senior to the Preferred Stock. At December 31, 2018, our total consolidated indebtedness (excluding trade payables, unfunded commitments and certain other liabilities) was \$15.3 billion, including borrowings under our repurchase agreements and secured loans, that would rank senior in right of payment to the Preferred Stock. In addition, prior to this offering we had 5,600,000 shares of Series A Preferred Stock outstanding, 6,200,000 shares of Series B Preferred Stock outstanding, and 11,500,000 shares of Series C Preferred Stock that will rank on parity with the Preferred Stock offered in this offering as to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up. Certain of our existing or future debt instruments may restrict the authorization, payment or setting apart of dividends on the Preferred Stock.

We may issue additional debt or equity securities in the future, which may dilute holders of our Preferred Stock, restrict our operating flexibility and/or reduce the market prices of the Preferred Stock.

We have previously issued Series A Preferred Stock, Series B Preferred Stock and Series C Preferred Stock. Future issuances and sales of debt or senior equity securities, or the perception that such issuances and sales could occur, may cause prevailing market prices for the Preferred Stock and our common stock to decline and may adversely affect our ability to raise additional capital in the financial markets at times and prices favorable to us. If we decide to issue debt or senior equity securities in the future, it is possible that these securities will be governed by an indenture or other instrument containing covenants or other provisions restricting our operating flexibility. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than

those of the Preferred Stock offered hereby and may result in dilution to owners of the Preferred Stock. We and, indirectly, our stockholders, will bear the cost of issuing and

S-12

Table of Contents

servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus holders of the Preferred Stock will bear the risk of our future offerings reducing the market price of the Preferred Stock and diluting the value of their holdings in us.

We may issue additional shares of Series A Preferred Stock, Series B Preferred Stock, Series C Preferred Stock and additional classes or series of preferred stock that rank on parity with or senior to the Preferred Stock as to dividend rights, rights upon liquidation or voting rights.

We currently have 5,600,000 shares of Series A Preferred Stock outstanding, 6,200,000 shares of Series B Preferred Stock outstanding, and 11,500,000 Series C Preferred Stock outstanding, that will rank on a parity with the Preferred Stock offered in this offering as to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up.

We are allowed to issue additional shares of Preferred Stock and additional series of preferred stock that would rank on parity with the Preferred Stock as to dividend payments and rights upon our liquidation, dissolution or winding up of our affairs pursuant to our charter, including the articles supplementary designating each series of the Preferred Stock, without any vote of the holders of any series of the Preferred Stock. The issuance of additional shares of Preferred Stock and additional series of parity preferred stock could have the effect of reducing the amounts available to the holders of the Preferred Stock issued in this offering upon our liquidation or dissolution or the winding up of our affairs. It also may reduce dividend payments on the Preferred Stock issued in this offering if we do not have sufficient funds to pay dividends on all Preferred Stock outstanding and any other capital stock that ranks on parity with respect to dividends.

In addition, although holders of Preferred Stock are entitled to limited voting rights, as described in Description of Preferred Stock Description of the Series A Preferred Stock Voting Rights, Description of Preferred Stock Description of the Series B Preferred Stock Voting Rights, and Description of Preferred Stock Description of the Series C Preferred Stock Voting Rights, with respect to such matters, subject to certain exceptions, each series of the Preferred Stock will vote separately as a class along with all other classes or series of our preferred stock that we have issued and may in the future issue upon which like voting rights have been conferred and are exercisable. As a result, generally, the voting rights of holders of the Preferred Stock may be significantly diluted, and the holders of such other series of preferred stock that we have issued and may in the future issue may be able to control or significantly influence the outcome of any vote.

Future issuances and sales of parity or senior preferred stock, or the perception that such issuances and sales could occur, may cause prevailing market prices for each series of the Preferred Stock and our common stock to decline and may adversely affect our ability to raise additional capital in the financial markets at times and prices favorable to us.

We may not be able to pay dividends or other distributions on the Preferred Stock.

Our ability to pay dividends on the Preferred Stock is limited by the laws of Maryland. Under applicable Maryland law, a Maryland corporation may not make a distribution if, after giving effect to the distribution, the corporation would not be able to pay its debts as the debts become due in the usual course of business, or the corporation's total assets would be less than the sum of its total liabilities plus, unless the charter provides otherwise, the amount that would be needed, if the corporation were dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of stockholders whose preferential rights are superior to those receiving the distribution. Accordingly, we may not make a distribution on our Preferred Stock if, after giving effect to the distribution, we would not be able to pay our debts as they become due in the usual course of business or our total assets would be less

than the sum of our total liabilities plus, unless the charter provides otherwise, the amount that would be needed to satisfy the preferential rights upon dissolution of the holders of shares of any class or series of preferred stock then outstanding, if any, with preferences senior to those of our Preferred Stock.

There can be no guarantee that we will have sufficient cash to pay dividends on the Preferred Stock. Our ability to pay dividends may be impaired if any of the risks described in this prospectus supplement and the accompanying prospectus or incorporated by reference into this prospectus supplement and the accompanying prospectus were to occur. In addition, payment of our dividends depends upon our earnings, our financial condition, maintenance of our REIT qualification and other factors as our board of directors may deem relevant from time to time. We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in an amount sufficient to enable us to pay dividends or make other distributions on the Series A Preferred Stock, the Series B Preferred Stock, the Series C Preferred Stock and on our common stock, to pay our indebtedness or to fund our other liquidity needs.

You may not be able to exercise conversion rights upon a Change of Control (defined below). If exercisable, the change of control conversion rights described in this prospectus supplement may not adequately compensate you. These change of control conversion rights may also make it more difficult for a party to acquire us or discourage a party from acquiring us.

Upon the occurrence of a Change of Control, each holder of Preferred Stock will have the right (unless, prior to the Change of Control Conversion Date, we have provided notice of our election to redeem some or all of the shares of Series C Preferred Stock held by such holder as described under Description of Preferred Stock Description of the Series A Preferred Stock Redemption Optional Redemption or Special Optional Redemption, Description of Preferred Stock Description of the Series B Preferred Stock Redemption Optional Redemption or Special Optional Redemption, and Description of Preferred Stock Description of the Series C Preferred Stock Redemption Optional Redemption or Special Optional Redemption, in which case such holder will have the right only with respect to shares of Preferred Stock that are not called for redemption) to convert some or all of such holder's Preferred Stock into shares of our common stock (or under specified circumstances certain alternative consideration). Notwithstanding that we generally may not redeem (i) the Series B Preferred Stock prior to December 27, 2024 and (ii) the Series C Preferred Stock prior to September 27, 2027, we have a special optional redemption right to redeem the Preferred Stock in the event of a Change of Control, and holders of the Preferred Stock will not have the right to convert any shares of Preferred Stock that we have elected to redeem prior to the Change of Control Conversion Date. See Description of Preferred Stock Description of the Series A Preferred Stock Redemption Special Optional Redemption and Conversion Rights, Description of Preferred Stock Description of the Series B Preferred Stock Redemption Special Optional Redemption and Conversion Rights and Description of Preferred Stock Description of the Series C Preferred Stock Redemption Special Optional Redemption and Conversion Rights.

If we do not elect to redeem the Preferred Stock prior to the Change of Control Conversion Date, then upon an exercise of the conversion rights described in this prospectus supplement, the holders of Preferred Stock will be limited to a maximum number of shares of our common stock equal to the applicable Share Cap (as defined herein) multiplied by the number of shares of Preferred Stock converted (or, in the case of a Change of Control pursuant to which our common stock is or will be converted into cash, securities or other property or assets (including any combination thereof) the kind and amount of such alternative form of consideration which the holder of Preferred Stock would have owned or been entitled to receive upon the Change of Control had such holder held a number of shares of common stock equal to the Common Stock Conversion Consideration immediately prior to the effective time of the Change of Control (the Alternative Conversion Consideration)). If the Common Stock Price (as defined herein) is less than \$8.05 (which is 50% of the per share closing sale price of our common stock reported on the NYSE on March 15, 2019), subject to adjustment in certain circumstances, the holders of the Preferred Stock will receive a maximum of (i) in the case of Series A Preferred Stock, 2.6427 shares of our common stock per share of Series A Preferred Stock, (ii) in the case of Series B Preferred Stock, 2.89184 shares of our common stock per share of Series B Preferred Stock and (iii) in the case of our Series C Preferred Stock, 2.94118 shares of our common stock per share of Series C Preferred Stock, which may result in a holder receiving shares of common stock (or Alternative

Conversion Consideration, as applicable) with a value that is less than the liquidation preference of the applicable series of Preferred Stock plus any accumulated and unpaid dividends.

In addition, the Change of Control conversion feature of the Preferred Stock may have the effect of discouraging a third party from making an acquisition proposal for us or of delaying, deferring or preventing certain of our change of control transactions under circumstances that otherwise could provide the holders of our common stock and Preferred Stock with the opportunity to realize a premium over the then-current market price of such stock or that stockholders may otherwise believe is in their best interests.

The market price of the Preferred Stock could be substantially affected by various factors.

Stock markets have experienced significant price and volume fluctuations. As a result, the market price of our securities could be similarly volatile. If the Preferred Stock is approved for listing, the market price of the Preferred Stock will depend on many factors, which may change from time to time, including:

prevailing interest rates, increases in which may have an adverse effect on the market price of the Preferred Stock;

market prices of common and preferred equity securities issued by REITs and other similar companies;

the annual yield from distributions on the Preferred Stock as compared to yields on other financial instruments;

general economic and financial market conditions;

government action or regulation;

the financial condition, performance and prospects of us and our competitors;

changes in financial estimates or recommendations by securities analysts with respect to us, our competitors or our industry;

our issuance of additional common or preferred equity securities or the incurrence of debt; and

actual or anticipated variations in quarterly operating results of us and our competitors.

As a result of these and other factors, investors who purchase the Preferred Stock in this offering may experience a decrease, which could be substantial and rapid, in the market price of the Preferred Stock, including decreases unrelated to our operating performance, financial condition or prospects.

Our charter, including the articles supplementary designating the Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock, contains restrictions upon ownership and transfer of the Preferred Stock,

which may impair the ability of holders to convert Preferred Stock into our common stock.

Our charter, including the articles supplementary designating each series of the Preferred Stock, contains restrictions on ownership and transfer of the Preferred Stock intended, among other purposes, to assist us in maintaining our qualification as a REIT for U.S. federal income tax purposes. For example, our charter provides that no person may own, or be deemed to own by virtue of applicable attribution provisions of the Internal Revenue Code, more than 9.8% in value or in number of shares, whichever is more restrictive, of either our common stock or our capital stock, subject to certain exceptions. See [Description of Preferred Stock](#) [Restrictions on Ownership and Transfer](#) in this prospectus supplement. Given that shares of the Preferred Stock owned or treated as owned by you will be counted as our common stock (on an as-converted basis) for purposes of the 9.8% ownership limitation applicable to our common stock with respect to you, and that all shares of the Preferred Stock will be counted as our capital stock for purposes of the 9.8% ownership limitation applicable to our capital stock, you should consider these ownership limitations prior to your purchase of the Series C Preferred Stock. Notwithstanding any other provision of the Preferred Stock, no holder of Preferred Stock will be entitled to convert such stock into our common stock to the extent that receipt of our common stock would cause the holder to exceed the ownership limitations contained in our charter, including the articles supplementary designating the applicable series of Preferred Stock. In addition, these restrictions could have takeover defense effects and could reduce the possibility that a third party will attempt to acquire control of us, which could adversely affect the market price of the Preferred Stock.

Table of Contents

The historical levels of three-month LIBOR are not an indication of the future levels of three-month LIBOR.

From and after (i) with respect to the Series B Preferred Stock December 27, 2024, and (ii) with respect to the Series C Preferred Stock, September 27, 2027, the dividend rate for the Series B Preferred Stock and Series C Preferred Stock will be determined based on three-month LIBOR. In the past, the level of three-month LIBOR has experienced significant fluctuations.

Historical levels, fluctuations and trends of three-month LIBOR are not necessarily indicative of future levels. Any historical upward or downward trend in three-month LIBOR is not an indication that three-month LIBOR is more or less likely to increase or decrease at any time during the floating rate period, and you should not take the historical levels of three-month LIBOR as an indication of its future performance.

Although actual three-month LIBOR on a dividend payment date or at other times during a dividend period may be higher than three-month LIBOR on the applicable date of determination, you will not benefit from three-month LIBOR at any time other than on the date of determination for such dividend period. As a result, changes in three-month LIBOR may not result in a comparable change in the market value of the Series B Preferred Stock or Series C Preferred Stock, as applicable.

Changes in the method under which LIBOR is determined or the discontinuance of LIBOR may adversely affect the amount of interest payable or interest receivable on certain portfolio investments, repurchase agreements and interest rate swaps as well as our dividends on our Series B Preferred Stock and Series C Preferred Stock. These changes may also impact the market liquidity and market value of certain portfolio investments, interest rate swaps and our Series B Preferred Stock and Series C Preferred Stock.

LIBOR, as well as other interest rate, equity, foreign exchange rate and other types of indices which are deemed to be benchmarks, are the subject of ongoing international, national and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause LIBOR to perform differently than in the past, to be phased out, or have other consequences which cannot be fully anticipated.

These proposals for reform or increased regulatory scrutiny of benchmarks could also increase the costs and risks of administering or otherwise participating in the setting of LIBOR and complying with any such regulations. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to LIBOR, trigger changes in the rules or methodologies used in the administration or determination of LIBOR or lead to the phase out of LIBOR.

On July 27, 2017, the Chief Executive of the U.K. Financial Conduct Authority (the FCA), which regulates LIBOR, announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. This announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021, and it appears likely that LIBOR will be phased out or the methodology for determining LIBOR will be modified by 2021. The Alternative Reference Rates Committee (ARRC) has proposed that the Secured Overnight Financing Rate (SOFR) is the rate that represents best practice as the alternative to USD-LIBOR for use in derivatives and other financial contracts that are currently indexed to USD-LIBOR. ARRC has proposed a paced market transition plan to SOFR from USD-LIBOR and organizations are currently working on industry wide and company specific transition plans as it relates to derivatives and cash markets exposed to USD-LIBOR.

We have material contracts that are indexed to USD-LIBOR and are monitoring this activity and evaluating the related risks. However, it is not possible to predict the effect of any of these developments and any future initiatives to

regulate, reform or change the manner of administration of LIBOR could result in adverse consequences to the rate of interest payable and receivable on, market value of and market liquidity for LIBOR-based financial instruments.

S-16

Table of Contents***As a holder of Preferred Stock, you will have extremely limited voting rights.***

Your voting rights as a holder of shares of the Preferred Stock will be limited. Shares of our common stock are the only class of our securities that currently carry full voting rights. Voting rights for holders of the Preferred Stock exist primarily with respect to the ability to elect, voting together with the holders of any other class or series of our preferred stock having similar voting rights (such as our currently outstanding Series A Preferred Stock, Series B Preferred Stock and Series C Preferred Stock), two additional directors to our board of directors, in the event that six quarterly dividends (whether or not consecutive) payable on the series of Preferred Stock that you hold are in arrears, and with respect to voting on amendments to our charter, including the articles supplementary designating the series of Preferred Stock that you hold, that materially and adversely affect the rights of the holders of such series of Preferred Stock or authorize, increase or create additional classes or series of our stock that are senior to the series of Preferred Stock that you hold. Other than the limited circumstances described in this prospectus supplement, holders of Preferred Stock will not have any voting rights. See Description of Preferred Stock Description of Preferred Stock Description of the Series A Preferred Stock Voting Rights, Description of Preferred Stock Description of Preferred Stock Description of the Series B Preferred Stock Voting Rights, and Description of Preferred Stock Description of Preferred Stock Description of the Series C Preferred Stock Voting Rights.

A change in market interest rates may cause a material decrease in the market price of the Preferred Stock.

One of the factors that investors may consider in deciding whether to buy or sell shares of our capital stock, including the Preferred Stock, is our distribution rate as a percentage of our share price relative to market interest rates. If the market price of our capital stock is based primarily on the earnings and return that we derive from our investments and income with respect to our investments and our related distributions to stockholders, and not from the market value of the investments themselves, then interest rate fluctuations and capital market conditions are likely to adversely affect the market price of our capital stock, including the Preferred Stock. For instance, if market rates rise without an increase in our distribution rate, the market price of our capital stock could decrease as potential investors may require a higher distribution yield or seek other securities paying higher distributions or interest.

If our Preferred Stock or common stock is delisted, your ability to transfer or sell your shares of the Preferred Stock may be limited and the market value of the Preferred Stock will likely be materially adversely affected.

Other than in connection with a Change of Control, the Preferred Stock does not contain provisions that are intended to protect you if our common stock is delisted from the NYSE. Since the Preferred Stock has no stated maturity date, you may be forced to hold your shares of the Preferred Stock and receive the stated dividends on the applicable series of the Preferred Stock when, as and if authorized by our board of directors and declared and paid by us with no assurance as to ever receiving the liquidation value thereof. In addition, if our common stock is delisted from the NYSE, it is likely that the Preferred Stock will be delisted from the NYSE as well. Accordingly, if our common stock is delisted from the NYSE, your ability to transfer or sell your shares of the Preferred Stock may be limited and the market value of the Preferred Stock will likely be materially adversely affected.

The Preferred Stock has not been rated.

We have not sought to obtain a rating for the Preferred Stock, and the Preferred Stock may never be rated. No assurance can be given, however, that one or more rating agencies might not independently determine to issue such a rating or that such a rating or that we may elect in the future to obtain a rating for any series of Preferred Stock. Furthermore, we may elect to issue other securities for which we may seek to obtain a rating. If any ratings are assigned to any series of the Preferred Stock in the future or if we issue other securities with a rating, such ratings, if they are lower than market expectations or are subsequently lowered or withdrawn, could adversely affect the market

for or the market value of the Preferred Stock.

S-17

Table of Contents

Ratings only reflect the views of the issuing rating agency or agencies issuing the ratings and such ratings could be revised downward, placed on a watch list or withdrawn entirely at the discretion of the issuing rating agency if in its judgment circumstances so warrant. Any such downward revision, placing on a watch list or withdrawal of a rating could have an adverse effect on the market price of the Preferred Stock. Further, a rating is not a recommendation to purchase, sell or hold any particular security, including any series of the Preferred Stock. In addition, ratings do not reflect market prices or suitability of a security for a particular investor and any future rating of any series of the Preferred Stock may not reflect all risks related to us and our business, or the structure or market value of the Preferred Stock.

Our management will have broad discretion over the use of the proceeds to us from this offering and might not apply the proceeds of this offering in ways that increase the value of your investment.

Our management will have broad discretion to use the net proceeds from this offering, including for any of the purposes described in the section entitled Use of Proceeds. You will be relying on the judgment of our management regarding the application of these proceeds, and you will not have the opportunity as a part of your investment decision to assess whether the net proceeds are being used appropriately. Management might not apply the net proceeds of this offering in ways that increase the value of your investment. We plan to use the net proceeds from this offering for general corporate purposes. However, because of the number and variability of factors that will determine our use of the net proceeds from this offering, their ultimate use may vary substantially from their currently intended use. The failure of our management to use these funds effectively could harm our business. Pending their use, we may invest the net proceeds from this offering in short-term, investment-grade, interest-bearing securities. These investments may not yield a significant return, if any, on any investment of these net proceeds.

Investing in our Preferred Stock may involve a significant degree of risk.

The investments we make in accordance with our investment objectives may result in a higher amount of risk when compared to alternative investment options and volatility or loss of principal. Our investments may be highly speculative and aggressive, and therefore an investment in our Preferred Stock may not be suitable for someone with lower risk tolerance and investors in any series of our Preferred Stock may experience losses and volatility.

Tax Risks

If any Preferred Stock were issued at a price that caused it to be treated as fast-pay stock, special tax rules would apply to us, the purchasers of such Preferred Stock and our other shareholders.

If we issue shares of the Preferred Stock at a price that exceeds the redemption price of such Preferred Stock by more than a de minimis amount, then those shares could be recharacterized as fast-pay stock under the applicable U.S. Treasury Regulations.

If the fast-pay stock rules were determined to apply to the issuance of Preferred Stock, then the consequences could include:

The holders of our common stock and other preferred stock (including preferred stock not subject to the fast-pay stock rules) being treated as collectively having acquired from us financial instruments (which may be treated as debt or equity for U.S. federal income tax purposes, depending on the facts) with the same terms as the additional shares of Preferred Stock being issued, with the result that such holders will be taxed

on payments made on those shares as and when made, even though they will not receive those payments.

The holders of the additional shares of Preferred Stock issued instead having acquired, for U.S. federal income tax purposes, financial instruments (as described above) issued directly to them by the holders of our common shares and other preferred shares in exchange for the price paid for those shares, rather

S-18

Table of Contents

than our shares, with the holders of our common stock and other preferred stock making payments to them with respect to those financial instruments as and when the payments with respect to the additional Preferred Stock are made.

While there is no guidance on how these rules would be applied, a recharacterization of the Preferred Stock as fast-pay stock could affect our ability to claim a dividends-paid deduction with respect to dividends paid on the Preferred Stock or alternative payments we are deemed to make, our dividends-paid deduction being relevant to both our REIT qualification and our tax liability. See *Annual Distribution Requirements* in the accompanying prospectus.

Transactions involving fast-pay stock arrangements are treated as *listed transactions* for U.S. federal income tax purposes. If any Preferred Stock is treated as fast-pay stock, the Company and all beneficial owners of such Preferred Stock must report their participation in the transaction on Internal Revenue Service Form 8886 on an annual basis with their U.S. federal income tax returns, and must also mail a copy of that form to the Internal Revenue Service Office of Tax Shelter Analysis. Failure to comply with these disclosure requirements may result in the assessment by the Internal Revenue Service of interest, additions to tax and onerous penalties. In addition, an accuracy-related penalty applies under the Internal Revenue Code to any reportable transaction understatement attributable to a listed transaction if a significant purpose of the transaction is the avoidance or evasion of U.S. federal income tax.

Certain material advisors to a transaction that is treated as a fast-pay arrangement are also required to file a disclosure statement with the Internal Revenue Service. Accordingly, certain of our advisors might decide to file disclosure statements with the Internal Revenue Service on a protective basis to avoid the risk of penalties even in the event that it is uncertain whether the Preferred Stock issued pursuant to this offering is in fact fast-pay stock.

There is virtually no guidance as to the consequences to the purchasers of fast-pay stock of payments deemed to be coming to them from the holders of our common stock and other preferred stock with respect to the deemed financial instruments that they are deemed to have purchased from such holders, instead of the payments being made by us to them with respect to our Preferred Stock.

We do not intend to sell Preferred Stock at a price that would cause such Preferred Stock to be treated as fast-pay stock. However, if, despite such intentions, the Internal Revenue Service determines that any issuance of Preferred Stock is fast-pay stock, the rules described above could apply.

USE OF PROCEEDS

We intend to add the net proceeds from sales of our Preferred Stock to our general corporate funds, which we may use for new investments in accordance with our investment policy in place at the time of such investments, to repay indebtedness or for other general corporate purposes.

DESCRIPTION OF PREFERRED STOCK

General

Pursuant to our charter, we are currently authorized to classify, designate and issue up to 50,000,000 shares of preferred stock, par value \$0.01 per share, in one or more classes or series and, subject to the limitations prescribed by our charter and Maryland law, with such preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, or terms or conditions of redemption and the number of shares constituting any class or series as our board of directors may determine, without any vote or action by our stockholders. As of the date of this prospectus supplement, we have 5,600,000 shares of Series A Preferred Stock issued and outstanding, 6,200,000 shares of Series B Preferred Stock issued and outstanding, and 11,500,000 shares of our Series C Preferred Stock issued and outstanding. In connection with this offering, our board of directors has, as permitted by our charter, approved new articles supplementary to classify authorized but unissued shares of preferred stock into 1,500,000 additional authorized shares of Series A Preferred Stock (for a total of 7,710,000 authorized shares designated as Series A Preferred Stock), 1,500,000 additional authorized shares of Series B Preferred Stock (for a total of 8,400,000 authorized shares designated as Series B Preferred Stock) and 4,000,000 additional authorized shares of Series C Preferred Stock (for a total of 15,500,000 authorized shares designated as Series C Preferred Stock). If all of the shares of Preferred Stock covered by this prospectus supplement and the accompanying prospectus are issued and sold, we will have available for issuance 29,700,000 authorized but unissued shares of preferred stock. Our board of directors may, without the approval of holders of the Preferred Stock or our common stock, designate additional classes or series of authorized preferred stock ranking junior to or on parity with the Preferred Stock or designate additional shares of the Series A Preferred Stock, Series B Preferred Stock or Series C Preferred Stock and authorize the issuance of such shares.

Transfer Agent and Registrar

The transfer agent and registrar for the Preferred Stock is Computershare Inc. Its principal business address is 250 Royall Street, Canton, MA 02021 and its telephone number is (800) 522-6645.

Restrictions on Ownership and Transfer

In order for us to qualify as a REIT under the Internal Revenue Code, our shares of stock must be owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) during the last half of a taxable year.

Our charter contains restrictions on the ownership and transfer of our outstanding stock such as the Preferred Stock. The relevant sections of our charter provide that, subject to the exceptions described below, no person or entity may own, or be deemed to own, by virtue of applicable attribution provisions of the Internal Revenue Code, more than 9.8% by value or number of shares, whichever is more restrictive, of either our outstanding capital stock or our outstanding common stock. Different ownership limits apply to Invesco.

The attribution rules under the Internal Revenue Code are complex and may cause shares of stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one

S-20

Table of Contents

individual or entity. As a result, the acquisition of less than 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common stock, or 9.8% by value or number of shares, whichever is more restrictive, of our outstanding capital stock (or the acquisition of an interest in an entity that owns, actually or constructively, our shares of stock by an individual or entity), could, nevertheless, cause that individual or entity, or another individual or entity, to own constructively in excess of 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common stock, or 9.8% by value or number of shares, whichever is more restrictive, of our outstanding capital stock and thereby subject the shares of common stock or total shares of stock to the applicable ownership limits.

Our charter provisions further prohibit:

any person from beneficially or constructively owning, applying certain attribution rules of the Internal Revenue Code, our shares of stock that would result in our being closely held under Section 856(h) of the Internal Revenue Code or otherwise cause us to fail to qualify as a REIT; and

any person from transferring our shares of stock if such transfer would result in our shares of stock being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution).

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of our shares of Preferred Stock that will or may violate any of the foregoing restrictions on transferability and ownership will be required to give written notice immediately to us (or, in the case of a proposed or attempted acquisition, to give at least 15 days prior written notice to us) and provide us with such other information as we may request in order to determine the effect of such transfer on our qualification as a REIT. The foregoing provisions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT or that compliance is no longer required for REIT qualification.

Pursuant to our charter, if any transfer of our shares of Preferred Stock or conversion of Preferred Stock into shares of our common stock upon a Change of Control would, if effective, result in our shares of stock being beneficially owned by fewer than 100 persons, such transfer will be null and void and the intended transferee will acquire no rights in such shares. In addition, if any purported transfer of our shares of stock or any other event would otherwise result in any person violating the ownership limits or such other limit established by our board of directors or in our being closely held under Section 856(h) of the Internal Revenue Code or otherwise failing to qualify as a REIT, then that number of shares (rounded up to the nearest whole share) that would cause us to violate such restrictions will be automatically transferred to, and held by, a trust for the exclusive benefit of one or more charitable organizations selected by us and the intended transferee will acquire no rights in such shares. The automatic transfer will be effective as of the close of business on the business day prior to the date of the violative transfer or other event that results in a transfer to the trust. Any dividend or other distribution paid to the purported record transferee, prior to our discovery that the shares had been automatically transferred to a trust as described above, must be repaid to the trustee upon demand for distribution to the beneficiary by the trust. If the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the applicable ownership limits or our being closely held under Section 856(h) of the Internal Revenue Code or otherwise failing to qualify as a REIT, then our charter provides that the transfer of the shares will be void.

Shares of stock transferred to the trustee are deemed offered for sale to us, or our designee, at a price per share equal to the lesser of (1) the price paid by the purported record transferee for the shares (or, if the event that resulted in the transfer to the trust did not involve a purchase of such shares of stock at market price, the last reported sales price

reported on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (2) the market price on the date we, or our designee, accepts such offer. We may reduce the amount payable to the purported record transferee, however, by the amount of any dividends or other distributions paid to the purported record transferee on the shares and owed by the purported record transferee to the trustee. We have the right to accept such offer until the trustee has sold the

S-21

Table of Contents

shares of stock held in the trust pursuant to the clauses discussed below. Upon a sale to us, the interest of the charitable beneficiary in the shares sold terminates, the trustee must distribute the net proceeds of the sale to the purported record transferee and any dividends or other distributions held by the trustee with respect to such shares of stock will be paid to the charitable beneficiary.

If we do not buy the shares, the trustee must, within 20 days of receiving notice from us of the transfer of shares to the trust, sell the shares to a person or entity designated by the trustee who could own the shares without violating the ownership limits or such other limit as established by our board of directors. After that, the trustee must distribute to the purported record transferee an amount equal to the lesser of (1) the price paid by the purported record transferee for the shares (or, if the event which resulted in the transfer to the trust did not involve a purchase of such shares, the last reported sales price reported on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (2) the sales proceeds (net of commissions and other expenses of sale) received by the trust for the shares. The trustee may reduce the amount payable to the purported record transferee by the amount of dividends and other distributions paid to the purported record transferee and owed by the purported record transferee to the trustee. Any net sales proceeds in excess of the amount payable to the purported record transferee will be immediately paid to the beneficiary, together with any dividends or other distributions thereon. In addition, if prior to discovery by us that shares of stock have been transferred to a trust, such shares of stock are sold by a purported record transferee, then such shares will be deemed to have been sold on behalf of the trust and to the extent that the purported record transferee received an amount for or in respect of such shares that exceeds the amount that such purported record transferee was entitled to receive, such excess amount will be paid to the trustee upon demand. The purported beneficial transferee or purported record transferee has no rights in the shares held by the trustee.

The trustee will be designated by us and will be unaffiliated with us and with any purported record transferee or purported beneficial transferee. Prior to the sale of any shares by the trust, the trustee will receive, in trust for the beneficiary, all dividends and other distributions paid by us with respect to the shares held in trust and may also exercise all voting rights with respect to the shares held in trust. These rights will be exercised for the exclusive benefit of the charitable beneficiary. Any dividend or other distribution paid prior to our discovery that shares of stock have been transferred to the trust will be paid by the recipient to the trustee upon demand. Any dividend or other distribution authorized but unpaid will be paid when due to the trustee.

Subject to Maryland law, effective as of the date that the shares have been transferred to the trust, the trustee will have the authority, at the trustee's sole discretion:

to rescind as void any vote cast by a purported record transferee prior to our discovery that the shares have been transferred to the trust; and

to recast the vote in accordance with the desires of the trustee acting for the benefit of the beneficiary of the trust.

However, if we have already taken irreversible action, then the trustee may not rescind and recast the vote.

In addition, if our board of directors or a duly authorized committee determines in good faith that a proposed transfer would violate the restrictions on ownership and transfer of our shares of stock set forth in our charter, our board of directors or a duly authorized committee will take such action as it deems or they deem advisable to refuse to give effect to or to prevent such transfer, including, but not limited to, causing us to redeem the shares of stock, refusing to

give effect to the transfer on our books or instituting proceedings to enjoin the transfer.

Every owner of 5% or more (or such lower percentage as required by the Internal Revenue Code or the regulations promulgated thereunder) of our stock, within 30 days after the end of each taxable year, is required to give us written notice, stating his name and address, the number of shares of each class and series of our stock

which he beneficially owns and a description of the manner in which the shares are held. Each such owner shall provide us with such additional information as we may request in order to determine the effect, if any, of his beneficial ownership on our status as a REIT and to ensure compliance with the ownership limits. In addition, each shareholder shall upon demand be required to provide us with such information as we may request in good faith in order to determine our status as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

For further information regarding restrictions on ownership and transfer of the Preferred Stock, see [Restrictions on Ownership and Transfer](#) in the accompanying prospectus.

Information Rights

During any period in which we are not subject to Section 13 or 15(d) of the Exchange Act and any shares of Preferred Stock are outstanding, we will use our best efforts to (i) post to our website or transmit by mail (or other permissible means under the Exchange Act) to all holders of Preferred Stock, as their names and addresses appear on our record books and without cost to such holders, copies of the annual reports on Form 10-K and quarterly reports on Form 10-Q that we would have been required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act if we were subject thereto (other than any exhibits that would have been required) and (ii) promptly, upon request, supply copies of such reports to any holders or prospective holder of Preferred Stock. We will use our best effort to post to our website or mail (or otherwise provide) the information to the holders of the Preferred Stock within 15 days after the respective dates by which a report on Form 10-K or Form 10-Q, as the case may be, in respect of such information would have been required to be filed with the SEC, if we were subject to Section 13 or 15(d) of the Exchange Act, in each case, based on the dates on which we would be required to file such periodic reports if we were a non-accelerated filer within the meaning of the Exchange Act.

Book-Entry Procedures

All interests in the global securities certificates representing the shares of each series of the Preferred Stock are subject to the operations and procedures of DTC and, therefore, you must allow for sufficient time in order to comply with these procedures if you wish to exercise any of your rights with respect to each series of the Preferred Stock. We provide the following summary of those operations and procedures solely for the convenience of investors. The operations and procedures of DTC are controlled by that settlement system and may be changed at any time. Neither we nor JonesTrading are responsible for those operations or procedures.

DTC acts as securities depository for the Preferred Stock. We have and will issue one or more fully registered global securities certificates in the name of DTC's nominee, Cede & Co. These certificates represent the total aggregate number of shares of each series of the Preferred Stock. We have and will deposit these certificates with DTC or a custodian appointed by DTC. We will not issue certificates to you for the shares of Preferred Stock that you purchase, unless DTC's services are discontinued as described below.

Title to book-entry interests in the Preferred Stock passes by book-entry registration of the transfer within the records of DTC in accordance with its procedures. Book-entry interests in the securities may be transferred within DTC in accordance with procedures established for these purposes by DTC. Each person owning a beneficial interest in shares of each series of the Preferred Stock must rely on the procedures of DTC and the participant through which such person owns its interest to exercise its rights as a holder of such Preferred Stock.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial

Code and a clearing agency registered under the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants, or Direct Participants, deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited

S-23

Table of Contents

securities through electronic computerized book-entry changes in Direct Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system is also available to others such as securities brokers and dealers, including the underwriters, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly, or Indirect Participants. The rules applicable to DTC and its Direct and Indirect Participants are on file with the SEC.

When you purchase shares of Preferred Stock within the DTC system, the purchase must be by or through a Direct Participant. The Direct Participant will receive a credit for the applicable series of Preferred Stock on DTC's records. You will be considered to be the beneficial owner of the Preferred Stock. Your beneficial ownership interest will be recorded on the Direct and Indirect Participants' records, but DTC will have no knowledge of your individual ownership. DTC's records reflect only the identity of the Direct Participants to whose accounts shares of Preferred Stock are credited.

You will not receive written confirmation from DTC of your purchase. The Direct or Indirect Participants through whom you purchased the Preferred Stock should send you written confirmations providing details of your transactions, as well as periodic statements of your holdings. The Direct and Indirect Participants are responsible for keeping an accurate account of the holdings of their customers like you.

Transfers of ownership interests held through Direct and Indirect Participants will be accomplished by entries on the books of Direct and Indirect Participants acting on behalf of the beneficial owners.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

We understand that, under DTC's existing practices, in the event that we request any action of the holders, or an owner of a beneficial interest in a global security, such as you, desires to take any action which a holder is entitled to take under our charter (including the articles supplementary designating the applicable series of Preferred Stock), DTC would authorize the Direct Participants holding the relevant shares to take such action, and those Direct Participants and any Indirect Participants would authorize beneficial owners owning through those Direct and Indirect Participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

Any redemption notices with respect to the Preferred Stock will be sent to Cede & Co. If less than all of the outstanding shares of the applicable series of Preferred Stock are being redeemed, DTC will reduce each Direct Participant's holdings of shares of such Preferred Stock in accordance with its procedures.

In those instances where a vote is required, neither DTC nor Cede & Co. itself will consent or vote with respect to the shares of Preferred Stock. Under its usual procedures, DTC would mail an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants whose accounts the shares of Preferred Stock are credited to on the record date, which are identified in a listing attached to the omnibus proxy.

Dividends on the Preferred Stock will be made directly to DTC's nominee (or its successor, if applicable). DTC's practice is to credit participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on that payment date.

Payments by Direct and Indirect Participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or

S-24

Table of Contents

registered in street name. These payments will be the responsibility of the participant and not of DTC, us or any agent of ours.

DTC may discontinue providing its services as securities depository with respect to the each series of the Preferred Stock at any time by giving reasonable notice to us. Additionally, we may decide to discontinue the book-entry only system of transfers with respect to each series of the Preferred Stock. In that event, we will print and deliver certificates in fully registered form for such Preferred Stock. If DTC notifies us that it is unwilling to continue as securities depository, or it is unable to continue or ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 90 days after receiving such notice or becoming aware that DTC is no longer so registered, we will issue the Preferred Stock in definitive form, at our expense, upon registration of transfer of, or in exchange for, such global security.

According to DTC, the foregoing information with respect to DTC has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind.

Global Clearance and Settlement Procedures

Initial settlement for the Preferred Stock will be made in immediately available funds. Secondary market trading among DTC's Participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System.

Table of Contents

Ranking

The Series A Preferred Stock ranks, with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up:

(1) senior to all classes or series of our common stock and to all other equity securities issued by us other than equity securities referred to in clauses (2) and (3) below;

(2) on a parity with all equity securities issued by us with terms specifically providing that those equity securities rank on a parity with the Series A Preferred Stock (including the Series B Preferred Stock and Series C Preferred Stock) with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up;

(3) junior to all equity securities issued by us with terms specifically providing that those equity securities rank senior to the Series A Preferred Stock with respect to rights to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding up (see **Voting Rights** below); and

(4) effectively junior to all of our existing and future indebtedness (including indebtedness convertible to our common stock or preferred stock), and to the indebtedness of our existing subsidiaries and any future subsidiaries.

Dividends

Holders of shares of the Series A Preferred Stock are entitled to receive, when, as and if authorized by our board of directors and declared by us, out of funds legally available for the payment of dividends, cumulative cash dividends at the rate of 7.75% of the \$25.00 per share liquidation preference per annum (equivalent to \$1.9375 per annum per share). Dividends on the Series A Preferred Stock shall accrue daily and be cumulative from, and including, the date of original issue and shall be payable quarterly in arrears on the 25th day of each January, April, July and October (each, a dividend payment date for the Series A Preferred Stock); provided that if any dividend payment date is not a business day, as defined in the articles supplementary, then the dividend which would otherwise have been payable on that dividend payment date may be paid on the next succeeding business day and no interest, additional dividends or other sums will accrue on the amount so payable for the period from and after that dividend payment date to that next succeeding business day. Any dividend payable on the Series A Preferred Stock, including dividends payable for any partial dividend period, will be computed on the basis of a 360-day year consisting of twelve 30-day months.

Dividends will be payable to holders of record as they appear in our stock records for the Series A Preferred Stock at the close of business on the applicable record date, which shall be the first day of the calendar month, whether or not a business day, in which the applicable dividend payment date falls (each, a Dividend Record Date for the Series A Preferred Stock).

No dividends on shares of Series A Preferred Stock shall be authorized by our board of directors or paid or set apart for payment by us at any time when the terms and provisions of any agreement of ours, including any agreement relating to our indebtedness, prohibit the authorization, payment or setting apart for payment thereof or provide that the authorization, payment or setting apart for payment thereof would constitute a breach of the agreement or a default under the agreement, or if the authorization, payment or setting apart for payment shall be restricted or prohibited by law. You should review the information appearing above under **Risk Factors**. We may not be able to pay dividends or other distributions on the Preferred Stock. for information as to, among other things, other circumstances under which we may be unable to pay dividends on the Series A Preferred Stock.

Notwithstanding the foregoing, dividends on the Series A Preferred Stock will accrue whether or not we have earnings, whether or not there are funds legally available for the payment of those dividends and whether or

S-26

Table of Contents

not those dividends are declared. No interest, or sum in lieu of interest, will be payable in respect of any dividend payment or payments on the Series A Preferred Stock which may be in arrears, and holders of the Series A Preferred Stock will not be entitled to any dividends in excess of full cumulative dividends described above. Any dividend payment made on the Series A Preferred Stock shall first be credited against the earliest accumulated but unpaid dividend due with respect to those shares.

Future distributions on our common stock and preferred stock, including the Series A Preferred Stock offered pursuant to this prospectus supplement, will be at the discretion of our board of directors and will depend on, among other things, our results of operations, cash flow from operations, financial condition and capital requirements, the annual distribution requirements under the real estate investment trust, or REIT, provisions of the Internal Revenue Code, any debt service requirements and any other factors our board of directors deems relevant. Accordingly, we cannot guarantee that we will be able to make cash distributions on our preferred stock or what the actual distributions will be for any future period.

Unless full cumulative dividends on the Series A Preferred Stock have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof is set apart for payment for all past dividend periods, (i) no dividends (other than in shares of common stock or in shares of any class or series of preferred stock that we may issue ranking junior to the Series A Preferred Stock as to dividends and upon liquidation) shall be declared and paid or declared and set apart for payment upon shares of our common stock or preferred stock that we may issue ranking junior to or on a parity with the Series A Preferred Stock as to dividends or upon liquidation; (ii) no other distribution shall be declared and made upon shares of our common stock or preferred stock that we may issue ranking junior to or on a parity with the Series A Preferred Stock as to dividends or upon liquidation; and (iii) no shares of our common stock or preferred stock that we may issue ranking junior to or on a parity with the Series A Preferred Stock as to dividends or upon liquidation shall be redeemed, purchased or otherwise acquired for any consideration (or any moneys be paid to or made available for a sinking fund for the redemption of any such shares) by us (except by conversion into or exchange for our other capital stock that we may issue ranking junior to the Series A Preferred Stock as to dividends and upon liquidation and except for transfers made pursuant to the provisions of our charter relating to restrictions on ownership and transfers of our capital stock).

When dividends are not paid in full (or a sum sufficient for such full payment is not so set apart) upon the Series A Preferred Stock and the shares of any other class or series of preferred stock that we have issued or we may issue ranking on a parity as to dividends with the Series A Preferred Stock, including the Series B Preferred Stock and Series C Preferred Stock, all dividends declared upon the Series A Preferred Stock and any other such class or series of preferred stock ranking on a parity as to dividends with the Series A Preferred Stock shall be declared pro rata so that the amount of dividends declared per share of Series A Preferred Stock and such other class or series of preferred stock shall in all cases bear to each other the same ratio that accrued dividends per share on the Series A Preferred Stock and such other class or series of preferred stock (which shall not include any accrual in respect of unpaid dividends for prior dividend periods if such preferred stock does not have a cumulative dividend) bear to each other. No interest, or sum of money in lieu of interest, shall be payable in respect of any dividend payment or payments on the Series A Preferred Stock which may be in arrears.

Liquidation Preference

In the event of our voluntary or involuntary liquidation, dissolution or winding up, the holders of shares of Series A Preferred Stock will be entitled to be paid out of the assets we have legally available for distribution to our shareholders, subject to the preferential rights of the holders of any class or series of our stock we may issue ranking senior to the Series A Preferred Stock with respect to the distribution of assets upon liquidation, dissolution or winding up, a liquidation preference of \$25.00 per share, plus an amount equal to any accumulated and unpaid

dividends to, but not including, the date of payment, before any distribution of assets is made to holders of our common stock or any other class or series of our stock we may issue that ranks junior to the Series A Preferred Stock as to liquidation rights.

S-27

Table of Contents

In the event that, upon any such voluntary or involuntary liquidation, dissolution or winding up, our available assets are insufficient to pay the amount of the liquidating distributions on all outstanding shares of Series A Preferred Stock and the corresponding amounts payable on all shares of other classes or series of our capital stock that we may issue ranking on a parity with the Series A Preferred Stock (including the Series B Preferred Stock and Series C Preferred Stock) in the distribution of assets, then the holders of the Series A Preferred Stock and all other such classes or series of capital stock shall share ratably in any such distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.

Holders of Series A Preferred Stock will be entitled to written notice of any such liquidation no fewer than 30 days and no more than 60 days prior to the payment date. After payment of the full amount of the liquidating distributions to which they are entitled, the holders of Series A Preferred Stock will have no right or claim to any of our remaining assets. The consolidation or merger of us with or into any other corporation, trust or entity or of any other entity with or into us, or the sale, lease, transfer or conveyance of all or substantially all of our property or business, shall not be deemed to constitute a liquidation, dissolution or winding up of us (although such events may give rise to the special optional redemption and contingent conversion rights described below).

In determining whether a distribution (other than upon voluntary or involuntary liquidation), by dividend, redemption or other acquisition of shares of our stock or otherwise, is permitted under the Maryland General Corporation Law, amounts that would be needed, if we were to be dissolved at the time of distribution, to satisfy the preferential rights upon dissolution of holders of shares of the Series A Preferred Stock will not be added to our total liabilities.

Redemption

Optional Redemption. Since July 26, 2017, we have been permitted, at our option, upon not less than 30 nor more than 60 days' written notice, to redeem the Series A Preferred Stock, in whole or in part, at any time or from time to time, for cash at a redemption price of \$25.00 per share, plus any accumulated and unpaid dividends thereon to, but not including, the date fixed for redemption. If we elect to redeem any shares of Series A Preferred Stock as described in this paragraph, we may use any available cash to pay the redemption price, and we will not be required to pay the redemption price only out of the proceeds from the issuance of other equity securities or any other specific source.

Special Optional Redemption. Upon the occurrence of a Change of Control, we may, at our option, upon not less than 30 nor more than 60 days' written notice, redeem the Series A Preferred Stock, in whole or in part, within 120 days after the first date on which such Change of Control occurred, for cash at a redemption price of \$25.00 per share, plus any accumulated and unpaid dividends thereon to, but not including, the date fixed for redemption. If, prior to the Change of Control Conversion Date, we have provided notice of our election to redeem some or all of the shares of Series A Preferred Stock (whether pursuant to our optional redemption right described above under **Optional Redemption** or this special optional redemption right), the holders of Series A Preferred Stock will not have the Change of Control Conversion Right (as defined below) described below under **Conversion Rights** with respect to the shares called for redemption.

A **Change of Control** is deemed to occur when, after the original issuance of the Series A Preferred Stock, the following have occurred and are continuing:

the acquisition by any person, including any syndicate or group deemed to be a person under Section 13(d)(3) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, of beneficial ownership, directly or indirectly, through a purchase, merger or other acquisition transaction or series of

purchases, mergers or other acquisition transactions of our stock entitling that person to exercise more than 50% of the total voting power of all our stock entitled to vote generally in the election of our directors (except that such person will be deemed to have beneficial ownership of all securities that such person has the right to acquire, whether such right is currently exercisable or is exercisable only upon the occurrence of a subsequent condition); and

following the closing of any transaction referred to in the bullet point above, neither we nor the acquiring or surviving entity has a class of common securities (or American Depositary Receipts representing such securities) listed on the NYSE, the NYSE MKT or Nasdaq, or listed or quoted on an exchange or quotation system that is a successor to the NYSE, the NYSE MKT or Nasdaq.

Redemption Procedures. In the event we elect to redeem Series A Preferred Stock, the notice of redemption will be mailed to each holder of record of Series A Preferred Stock called for redemption at such holder's address as it appears on our stock transfer records and will state the following:

the redemption date;

the number of shares of Series A Preferred Stock to be redeemed;

the redemption price;

the place or places where certificates (if any) for the Series A Preferred Stock are to be surrendered for payment of the redemption price;

that dividends on the shares to be redeemed will cease to accumulate on the redemption date;

whether such redemption is being made pursuant to the provisions described above under Optional Redemption or Special Optional Redemption ;

if applicable, that such redemption is being made in connection with a Change of Control and, in that case, a brief description of the transaction or transactions constituting such Change of Control; and

if such redemption is being made in connection with a Change of Control, that the holders of the shares of Series A Preferred Stock being so called for redemption will not be able to tender such shares of Series A Preferred Stock for conversion in connection with the Change of Control and that each share of Series A Preferred Stock tendered for conversion that is called, prior to the Change of Control Conversion Date (as defined below), for redemption will be redeemed on the related date of redemption instead of converted on the Change of Control Conversion Date.

If less than all of the Series A Preferred Stock held by any holder are to be redeemed, the notice mailed to such holder shall also specify the number of shares of Series A Preferred Stock held by such holder to be redeemed. No failure to give such notice or any defect thereto or in the mailing thereof shall affect the validity of the proceedings for the redemption of any shares of Series A Preferred Stock except as to the holder to whom notice was defective or not given.

Holders of Series A Preferred Stock to be redeemed shall surrender the Series A Preferred Stock at the place designated in the notice of redemption and shall be entitled to the redemption price and any accumulated and unpaid

dividends payable upon the redemption following the surrender. If notice of redemption of any shares of Series A Preferred Stock has been given and if we have irrevocably set apart the funds necessary for redemption in trust for the benefit of the holders of the shares of Series A Preferred Stock so called for redemption, then from and after the redemption date (unless default shall be made by us in providing for the payment of the redemption price plus accumulated and unpaid dividends, if any), dividends will cease to accrue on those shares of Series A Preferred Stock, those shares of Series A Preferred Stock shall no longer be deemed outstanding and all rights of the holders of those shares will terminate, except the right to receive the redemption price plus accumulated and unpaid dividends, if any, payable upon redemption. If any redemption date is not a business day, then the redemption price and accumulated and unpaid dividends, if any, payable upon redemption may be paid on the next business day and no interest, additional dividends or other sums will accrue on the amount payable for the period from and after that redemption date to that next business day. If less than all of the outstanding Series A Preferred Stock is to be redeemed, the Series A Preferred Stock to be redeemed shall be selected pro rata (as nearly as may be practicable without creating fractional shares) or by any other equitable method we determine but that will not result in the automatic transfer of any shares of Series A Preferred Stock to a trust as described above under **Description of Preferred Stock Restrictions on Ownership and Transfer**.

Immediately prior to any redemption of Series A Preferred Stock, we shall pay, in cash, any accumulated and unpaid dividends through and including the redemption date, unless a redemption date falls after a Dividend Record Date and prior to the corresponding dividend payment date for Series A Preferred Stock, in which case each holder of Series A Preferred Stock at the close of business on such Dividend Record Date shall be entitled to the dividend payable on such shares on the corresponding dividend payment date notwithstanding the redemption of such shares before such dividend payment date. Except as provided above, we will make no payment or allowance for unpaid dividends, whether or not in arrears, on shares of the Series A Preferred Stock to be redeemed.

Unless full cumulative dividends on all shares of Series A Preferred Stock shall have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof has been or contemporaneously is set apart for payment for all past dividend periods, no shares of Series A Preferred Stock shall be redeemed unless all outstanding shares of Series A Preferred Stock are simultaneously redeemed and we shall not purchase or otherwise acquire directly or indirectly any shares of Series A Preferred Stock (except by exchanging it for our capital stock ranking junior to the Series A Preferred Stock as to dividends and upon liquidation); provided, however, that the foregoing shall not prevent the purchase or acquisition by us of shares of Series A Preferred Stock to preserve our REIT status for federal income tax purposes or pursuant to a purchase or exchange offer made on the same terms to holders of all outstanding shares of Series A Preferred Stock.

Subject to applicable law, we may purchase shares of Series A Preferred Stock in the open market, by tender or by private agreement. Any shares of Series A Preferred Stock that we acquire will become authorized but unissued shares of preferred stock, without designation as to class or series, and may thereafter be reissued as any class or series of preferred stock.

Conversion Rights

Upon the occurrence of a Change of Control, each holder of Series A Preferred Stock will have the right (unless, prior to the Change of Control Conversion Date, we have provided notice of our election to redeem some or all of the shares of Series A Preferred Stock held by such holder as described above under **Optional Redemption** or **Special Optional Redemption**, in which case such holder will have the right only with respect to shares of Series A Preferred Stock that are not called for redemption) to convert some or all of the Series A Preferred Stock held by such holder, or the Change of Control Conversion Right, on the Change of Control Conversion Date into a number of shares of our common stock per share of Series A Preferred Stock, or the Common Stock Conversion Consideration, equal to the lesser of:

the quotient obtained by dividing (i) the sum of the \$25.00 liquidation preference per share of Series A Preferred Stock plus the amount of any accumulated and unpaid dividends thereon to, but not including, the Change of Control Conversion Date (unless the Change of Control Conversion Date is after a Dividend Record Date and prior to the corresponding dividend payment date for the Series A Preferred Stock, in which case no additional amount for such accrued and unpaid dividend will be included in this sum) by (ii) the Common Stock Price, as defined below (such quotient, the **Conversion Rate** for the Series A Preferred Stock); and

2.6427, or the Series A Share Cap, subject to certain adjustments as described below.

Anything in the articles supplementary to the contrary notwithstanding and except as otherwise required by law, the persons who are the holders of record of shares of Series A Preferred Stock at the close of business on a Dividend

Record Date will be entitled to receive the dividend payable on the corresponding dividend payment date for Series A Preferred Stock notwithstanding the conversion of those shares after such Dividend Record Date and on or prior to such dividend payment date and, in such case, the full amount of such dividend shall be paid on such dividend payment date to the persons who were the holders of record at the close of business on such Dividend Record Date. Except as provided above, we will make no allowance for unpaid dividends that are not in arrears on the shares of Series A Preferred Stock to be converted.

The Series A Share Cap is subject to pro rata adjustments for any share splits (including those effected pursuant to a distribution of our common stock to existing holders of our common stock), subdivisions or combinations (in each case, a Share Split) with respect to our common stock as follows: the adjusted Series A Share Cap as the result of a Share Split will be the number of shares of our common stock that is equivalent to the product obtained by multiplying (i) the Series A Share Cap in effect immediately prior to such Share Split by (ii) a fraction, the numerator of which is the number of shares of our common stock outstanding immediately after giving effect to such Share Split and the denominator of which is the number of shares of our common stock outstanding immediately prior to such Share Split.

For the avoidance of doubt, subject to the immediately succeeding sentence, the aggregate number of shares of our common stock (or equivalent Alternative Conversion Consideration (as defined below), as applicable) issuable or deliverable, as applicable, in connection with the exercise of the Change of Control Conversion Right will not exceed the product of the Series A Share Cap times the aggregate number of shares of the Series A Preferred Stock issued and outstanding at the Change of Control Conversion Date (or equivalent Alternative Conversion Consideration, as applicable), or the Series A Exchange Cap. The Series A Exchange Cap is subject to pro rata adjustments for any Share Splits on the same basis as the corresponding adjustment to the Series A Share Cap.

In the case of a Change of Control pursuant to which our common stock is or will be converted into cash, securities or other property or assets (including any combination thereof), or the Alternative Form Consideration, a holder of Series A Preferred Stock will receive upon conversion of such Series A Preferred Stock the kind and amount of Alternative Form Consideration which such holder would have owned or been entitled to receive upon the Change of Control had such holder held a number of shares of our common stock equal to the Common Stock Conversion Consideration immediately prior to the effective time of the Change of Control, or the Alternative Conversion Consideration; the Common Stock Conversion Consideration or the Alternative Conversion Consideration, whichever shall be applicable to a Change of Control, is referred to as the Conversion Consideration).

If the holders of our common stock have the opportunity to elect the form of consideration to be received in the Change of Control, the Conversion Consideration in respect of such Change of Control will be deemed to be the kind and amount of consideration actually received by holders of a majority of the outstanding shares of our common stock that made or voted for such an election (if electing between two types of consideration) or holders of a plurality of the outstanding shares of our common stock that made or voted for such an election (if electing between more than two types of consideration), as the case may be, and will be subject to any limitations to which all holders of our common stock are subject, including, without limitation, pro rata reductions applicable to any portion of the consideration payable in such Change of Control.

We will not issue fractional shares of our common stock upon the conversion of the Series A Preferred Stock in connection with a Change of Control. Instead, we will make a cash payment equal to the value of such fractional shares based upon the Common Stock Price used in determining the Common Stock Conversion Consideration for such Change of Control.

Within 15 days following the occurrence of a Change of Control, unless we have, prior to the expiration of such 15-day period, provided notice of our election to redeem all shares of Series A Preferred Stock pursuant to the redemption provisions described above, we will provide to holders of Series A Preferred Stock a notice of occurrence of the Change of Control that describes the resulting Change of Control Conversion Right. This notice will state the following:

the events constituting the Change of Control;

the date of the Change of Control;

the last date on which the holders of Series A Preferred Stock may exercise their Change of Control Conversion Right;

Under such circumstances, we will also issue a press release containing such notice for publication on Dow Jones & Company, Inc., Business Wire, PR Newswire or Bloomberg Business News (or, if these organizations are not in existence at the time of issuance of the press release, such other news or press organization as is reasonably calculated to broadly disseminate the relevant information to the public), and post a notice on our website, in any event prior to the opening of business on the first business day following any date on which we provide the notice described above to the holders of Series A Preferred Stock.

To exercise the Change of Control Conversion Right, the holders of Series A Preferred Stock will be required to deliver, on or before the close of business on the Change of Control Conversion Date, the certificates (if any) representing the shares of Series A Preferred Stock to be converted, duly endorsed for transfer (or, in the case of any shares of Series A Preferred Stock held in book-entry form through a Depositary, to deliver, on or before the close of business on the Change of Control Conversion Date, the shares of Series A Preferred Stock to be converted through the facilities of such Depositary), together with a written conversion notice in the form provided by us, duly completed, to our transfer agent. The conversion notice must state:

the relevant Change of Control Conversion Date;

the number of shares of Series A Preferred Stock to be converted; and

that the Series A Preferred Stock is to be converted pursuant to the applicable provisions of the Series A Preferred Stock.
