Independent accountants review report

To
The Board of Directors and Shareholders
Sadia S.A.
Concórdia - SC

1. We have reviewed the interim financial information of Sadia S.A. and the consolidated interim financial information of Sadia S.A and its subsidiaries, for the three-month period ended March 31, 2007, which comprises the balance sheets, the income statements, management report and other relevant information, prepared in accordance with the accounting practices adopted in Brazil.
2. Our review was prepared in accordance with the review standards established by IBRACON - Brazilian Institute of Independent Auditors and the Federal Council of Accounting, and included, basically: (a) inquiry and discussion with management responsible for the accounting, financial and operating areas of the Company and its subsidiaries, regarding the main criteria adopted in the preparation of the interim financial information; and (b) review of the information and subsequent events, which have, or may have, a material effect on the financial situation and the operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material change which should be made to the interim financial information above for it to be in accordance with accounting practices adopted in Brazil and regulations issued by the Brazilian Securities and Exchange Commission (CVM), specifically applicable to the preparation of interim financial information.

Edgar Filing: SADIA S.A. - Form 6-K

4. Our review was performed with the objective of issuing a review report on the interim financial information referred to in the first paragraph. The statements of cash flows and added value for the period ended March 31, 2007 are supplementary to the aforementioned financial information, which are not required under accounting practices adopted in Brazil and have been included to facilitate additional analysis. This supplementary information was subject to the same review procedures as applied to the interim financial information and, we are not aware of any material change which should be made to those statements for them to be in accordance with the accounting practices adopted in Brazil and rules issued by the Brazilian Securities and Exchange Commission (CVM).

Sadia S.A.

Notes to the interim financial information (unaudited)

Three-month period ended March 31, 2007

(In thousands of Reais)

1 Operations

The Company's main business activities are organized into four operational segments: processed products, poultry (chickens and turkeys), pork and beef. The large production chain permits its products to be commercialized in Brazil and abroad by retailers, small groceries and food service chains.

The Company distributes its products through a large number of sales points in the local market and exports to countries in Europe, the Middle East, Eurasia, Asia and the Americas. The Company has 13 industrial units and 16 distribution centers located in 14 Brazilian states.

The industrially processed products segment has been the principal focus of the Company's investments in recent years and comprises products such as oven-ready frozen food, refrigerated pizzas and pasta, margarine, industrially processed poultry and pork by-products, crumbed products, a diet line and pre-sliced ready-packed products and desserts.

The Company has a corporate governance tier one listing for its shares on the São Paulo Stock Exchange, the Madrid Stock Exchange (Latibex) and ADRs negotiated on the New York Stock Exchange (NYSE).

2 Preparation and presentation of the interim financial information

The individual and consolidated financial statements are presented in thousands of Reais, unless otherwise stated and were prepared in accordance with accounting practices derived from the Brazilian Corporation Law and the rules of the Brazilian Securities and Exchange Commission (CVM).

With the objective of presenting additional information to the market, the Company is presenting supplementary consolidated information, obtained from accounting records of the parent company and its subsidiaries, as follows:

a. Statement of cash flows

The cash flows were prepared in accordance with NPC 20 - Statement of Cash Flows, issued by IBRACON (Brazilian Institute of Independent Auditors).

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

b. *Statement of added value*

The value added statement has been presented in accordance with the model proposed by the foundation Instituto de Pesquisa Contábeis, Atuariais e Financeiras - University of Sao Paulo the aim of which is to show the value of the wealth generated by the Company and its distribution among the elements that contributed to its generation.

3 Description of significant accounting policies

a. *Statement of income*

Income and expenses are recognized on the accrual basis. Revenue from the Company's sales is recognized upon shipment of the products and when the following conditions are met: i) the ownership is transferred and therefore risk of loss has passed to the client; ii) collection is probable; iii) there is evidence of an arrangement; and iv) the sales price is fixed or determinable.

b. *Foreign currency*

Monetary assets and liabilities denominated in foreign currencies were translated into reais at the foreign exchange rate ruling at the balance sheet date and the foreign exchange differences arising on translation are recognized in the statement of income for the period/year.

c. *Accounting estimates*

The preparation of the interim financial information in accordance with accounting practices adopted in Brazil requires that management uses its judgment in determining and recording accounting estimates. Significant assets and liabilities subject to these estimates and assumptions include the residual value of property, plant and equipment, deferred charges, allowance for doubtful accounts, inventories, deferred tax assets and liabilities, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to employees' benefits. The settlement of transactions involving these estimates may result in different amounts due to the lack of precision inherent to the process of their determination. The Company reviews the estimates and assumptions periodically.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

d. Long and short-term investments

Investment funds in local and foreign currency are recorded at market value according to the respective shares price at the date of the interim financial information.

Other long and short-term investments in local and foreign currency are recorded at cost plus income accrued up to the balance sheet date, not exceeding market value.

Additionally, the portion receivable from currency swap contracts is recorded at the difference between the nominal amounts of these contracts and the amounts restated by the variation of the foreign currency, plus interest earned up to the balance sheet date.

e. Trade accounts receivable

Trade accounts receivable are recorded at the amount invoiced and interest is not levied. The allowance for doubtful accounts is the best estimate the Company has and is considered sufficient by management to cover any losses arising on collection of accounts receivable. Accounts receivable are written off against the allowance for doubtful accounts after all means of collection have been exhausted and the possibility of recovery of the amounts receivable is considered remote.

f. Inventories

Finished goods, livestock (excluding breeders), work-in-progress, raw materials and supplies and others are valued at the lower of cost of acquisition or production (average method), or replacement or realization. The cost of finished goods and work-in-progress includes raw materials acquired, labor, production expenses, transport and storage relating to the purchase and production of inventories. Normal production losses are inventoried and abnormal losses are expensed immediately as cost of goods sold.

g. Investments

Investments in subsidiaries in Brazil and abroad are valued using the equity method based on the respective net equity calculated on the same date, as disclose Note 10.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

The interim financial information from foreign subsidiaries are translated into Brazilian Reais, based on the following criteria:

- Balance sheet accounts at the exchange rate at the end of the period.
- Statement of income accounts at the exchange rate at the end of each month.

Other investments are valued at cost less a provision for devaluation, when applicable.

h. Property, plant and equipment

Property, plant and equipment are recorded at cost of acquisition, formation or construction, including the interest incurred on financing, during the period of construction, modernization and expansion of the industrial units. Expenditures that materially extend the useful lives of existing facilities and equipment are capitalized. Depreciation is calculated using the straight- line method at rates that take into account the estimated useful life of the assets, as disclosed in Note 11. Depletion of forestry resources is calculated based on the extraction of timber and the average costs of the forests.

Breeding stock is recorded at the cost of formation which includes the allocation of costs of the breeding hens, animal feed, medication and labor. These costs are accumulated for approximately six months until the breeding stock initiates the breeding cycle. From then on, the costs of the breeding stock begin to be amortized by the estimated number of offspring for poultry and straight line method for hogs. The productive cycle ranges from fifteen to thirty months.

i. Impairment of long lived assets

The Company reviews its property, plant and equipment to verify possible impairment losses, whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable based on future cash flows. If these events occur, the reviews will be conducted at the lowest level of groups of assets for which the Company manages to attribute future cash flows. If the carrying amount of an asset is higher than the future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. These reviews have not indicated the need to recognize impairment losses.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

j. Deferred charges

Deferred charges are represented substantially by pre-operating costs incurred in the implementation of software, reorganization charges and development of new products, which are amortized on a straight-line basis over 5 years as from the beginning of operation.

k. Current and noncurrent liabilities

Current and noncurrent liabilities are stated at known or estimated amounts, plus related charges and monetary and exchange variations up to the balance sheet date.

l. Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

m. Income and social contribution taxes

The income and social contribution taxes, both current and deferred, are calculated monthly based on taxable income at the rates of 15% plus a surcharge of 10% for income tax and 9% for social contribution and consider the offsetting of tax losses and negative basis of social contribution, limited to 30% of taxable income.

The deferred tax assets were recorded in accordance with CVM Instruction 371/02 and are represented significantly by temporary differences arising from non-deductible provisions, including tax loss carryforward and negative basis of social contribution.

n. Employees benefits

Employees benefits are recorded based on actuarial studies prepared annually at the end of the year in compliance with CVM Deliberation 371/00.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

o. Environmental questions

Our production facilities and our forestry activities are subject to government environmental regulations. We have reduced the risks associated with environmental questions through operational controls and procedures, as well as investments in equipment and systems for pollution control. We believe that no provision for losses related to environmental questions is currently necessary, based on existing Brazilian laws and regulations.

p. Stock options

The Company provides for stock options for certain employees. The options granted under this plan are purchased and earmarked in treasury and any the difference between the market value and the updated price for the year does not affect the Company's results.

4 Interim consolidated financial information

The transactions and balances between the Parent company and its subsidiaries included in the consolidation process have been eliminated and the non-realized profit arising from the sales to the subsidiaries were excluded and incorporated to the inventory balances for each period. Minority interests were excluded from shareholders' equity and net income and are presented separately in the consolidated balance sheets and income statements.

In accordance with the CVM Instruction 408/04, the Company consolidated the financial statements of its investment funds Concórdia Foreign Investment Fund Class A and Taurus Fund Limited, where it is the wholly investment holder. These investment funds have the sole purpose of centralizing the foreign investment fund portfolio, delegating to a third party the administrative functions. As of March 31, 2007 and December 31, 2006, these investment funds were consolidated in the Company's financial statements as they had loans collateralized by its own financial assets.

The Company and its subsidiaries abroad (Sadia International Ltd. and Wellax Food Logistics C.P.A.S.U. Lda.) entered into an agreement for sale of its receivables with an outside financial institution up to the maximum amount of US\$170 million, with interest rate of 0.375% p.a. + LIBOR.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

As of March 31, 2007, the amount of receivables sold under this agreement amounted to approximately R\$ 293 million (R\$ 363 million as of December 31, 2006). During the period ended March 31, 2007, the Company received cash proceeds of approximately R\$859 million (R\$459 million in March 31, 2006) and incurred expenses of R\$3,7 million (R\$2,7 million in March 31, 2006) with respect to this agreement.

A credit insurance policy covering 90% of the value of the receivables was taken out with third parties and the beneficiaries in the event of default are the contracting financial institutions.

The Company also assigned receivables to a Credit Assignment Investment Fund (FIDC), administered by Concórdia S.A. Corretora de Valores Móbiliarios, Cambio e Commodities. As of March 31, 2007, the net equity of this fund was R\$272,239 (R\$264,949 at December 31, 2006), of which R\$231,661 (R\$254,861 at December 31, 2006) was represented by acquisitions of the Company's receivables on the domestic market, with a discounted cost equivalent to 95% of the CDI per senior quota. The assignment of the receivables is made without right of recourse, and the eventual losses from default for Sadia are limited to the value of the subordinated quotas, which at March 31, 2007, represented R\$54,239 (R\$53,992 at December 31, 2006).

During the period ended March 31, 2007, the Company received cash proceeds related to the local receivables sold of approximately R\$779 million (R\$694 million for the period ended March 31, 2006) and incurred expenses of R\$7,4 million (R\$7,1 million for the period ended March 31, 2006) with respect to this agreement.

For the other local receivables, the Company maintains a credit insurance policy that guarantees the collection in case of default of 90% of the uncollected amounts for customers with approved credit limits and up to R\$ 100 to new customers or customers with no approved credit limits.

The accumulated loss from equity interest on the consolidated financial statements is represented by translation gains of R\$ 35,479 and a non-operating income of R\$ 331.

On January 12, 2007 the Extraordinary General Meeting approved the Board's proposal to incorporate the wholly owned subsidiaries Empresa Matogrossense de Alimentos Ltda and Intergen Ltda., in order to obtain operating and corporate synergies. This will result in reduction of administrative to expenses due to rationalization of administrative and operating activities.

On January 31, 2007, the Company closed down Churrascaria Beijing Brasil Co. Ltd., in Peking, a joint venture between Sadia International Ltd. and the Chinese government. On the same day it approved the opening of a commercial agency office of the subsidiary Wellax Food Logistic Comércio de Produtos Alimentares Sociedade Unipessoal Ltd. in Shanghai. The liquidation process did not generate any losses for the Company as the book value of R\$480 was reimbursed.

As of March 31, 2007 the net balance of goodwill under the acquisition of investments amounted to R\$23,635, consisting of: i) goodwill paid in the acquisition of Só Frango Produtos Alimentícios Ltda. to the amount of R\$62,505, net of accumulated amortization to the amount of R\$46,925 (R\$41,732 as of December 31, 2005) and ii) the goodwill paid on the acquisition of Empresa Matogrossense de Alimentos Ltda. (at the pre-operating stage) to the amount of R\$8,055, which will be amortized as from commencement of operations, scheduled for midway through 2007. This goodwill was based on expected future earnings.

Tax litigation

The main tax contingencies involve the following cases:

a. Income and social contribution taxes on net income

Provision for income and social contribution taxes on net income amounting to R\$ 16,090, of which R\$ 11,283 recorded on the acquisition of the subsidiary Granja Rezende (incorporated in 2002), R\$ 3,951 on withholding income tax on investments of Granja Rezende and R\$ 856 for other provisions.

b. Value - Added tax on sales and services - ICMS

The Company is a defendant in several administrative cases involving ICMS, mainly in the States of São Paulo, Rio de Janeiro and Amazonas (SUFRAMA), totaling a probable contingency estimated at R\$ 11,357.

c. Other tax contingencies

Several cases related to payment of IOF (Tax on Financial Operations), PIS (Social Integration Program Tax), COFINS (Tax for Social Security Financing) and others totaling a provision of R\$ 9,034.

The Company has other contingencies of a tax nature with a claimed amount of R\$ 685,630, which were assessed as possible losses by the legal advisors and by the Management of the Company and, therefore, no provision was recorded.

On March 09, 2007 the Company obtained the appeal decision from the Federal Regional Court referring to its PIS proceeding contesting the constitutionality of Law 9718/98 which amended the PIS and COFINS calculation base, including operating and financial revenue. The Federal High Court of Justice ruled this matter was unconstitutional on November 09, 2005. The Company has been calculating and paying this tax in accordance with the law. Our legal advisors believe the final and unappealable decision should be published shortly, allowing the company to recognize a credit of approximately R\$14 million.

Civil litigation

Represents principally proceedings involving claims for indemnification for losses and damages, including pain and suffering, arising from work-related accidents and consumer relations.

The Company has other contingencies of a civil nature with a claimed amount of R\$25,973, which were assessed as possible losses by the legal advisors and by management and, therefore, no provision was recorded.

Labor claims

The company is involved in approximately 2,627 labor claims. These labor lawsuits refer mainly to claims for overtime, and health exposure and hazard claims, none of which involve a significant amount on an individual basis. The total amount involved is R\$ 46,602, for which the provision in the amount of R\$ 27,119 was recorded based on historical information, representing the best estimate for probable losses.

Court deposits

The Company, as appropriate, performs legal deposits not related to provisions for contingencies, which balance as of March 31, 2007 was R\$55,334 (R\$46,968 at December 31, 2006).

Guarantees

- a. The Company provides guarantees to loans obtained by certain out growers located in the central region of the country as part of a special development program for that region. Such loans are used to improve the out growers farms installations and will be repaid in 10 years, where the Company obtain from the out growers their farms and installations as a collateral for such guarantees provided. The amount for such guarantees provided as of March 31, 2007 amounted R\$23,258 (R\$20,245 in December 31 ,2006).

Sadia S.A.

Notes to the interim financial information (unaudited)*(In thousands of Reais)*

- b.** The Company offered a lien on the industrial property it owns in the city of Concórdia, state of Santa Catarina, as a guarantee to a notice of collection from the Federal Revenue Service questioning the compensation in prior years of R\$74 million in IPI premium credit against other federal taxes, which the right was given to the Company (a right recognized by the final and unappealable decision). Management and its legal advisors deem this charge to be misplaced and to prevent this dispute from prejudicing the Company's image and rights, a writ of mandamus was filed under which an injunction was obtained staying this notice of collection.

The price for exercising the purchase options does not include any discount and will be based on the average value of the quotation for the share in the last three days of trading on the São Paulo Stock Exchange prior to the grant date, updated by the accumulated National Consumer Price Index (INPC) between the grant date of exercising the option. The vesting period, during which the participant cannot exercise his/her right to purchase the shares, will be three years as from the option granting date. The participant will be able to fully or partially exercise his/her purchase rights after the vesting period within a maximum period of 2 years, and only after this period has expired will he/she lose the right to the options not exercised.

The composition of the options granted is presented as follows:

Cycle	Date			Price of shares

Management considers that the deferred assets arising from temporary differences will be realized in proportion to the final solution of the contingencies and to the payment of the liabilities forecast for the employees' benefit plans.

The deferred tax assets related to the income tax loss carryforwards and negative basis of social contribution in the amount of R\$ 10,451, represented by R\$ 3,178 of the Parent and R\$ 7,273 from a foreign subsidiary will be realized based on future taxable income on such companies. Management estimates that the deferred tax asset related to the Parent will be fully realized during this year and the deferred tax asset related to the foreign subsidiary will be realized within three years.

22 Risk management and financial instruments

The Company's operations are exposed to market risks, especially in relation to exchange rate variations, credit risk and grain purchase prices – corn, soybean and derived products. These risks are monitored by the Risk Management Area which uses a specific system to calculate the VAR -Value at Risk, and they are permanently monitored by the finance committee, composed of members of the Board of Directors and other finance executives of the Company, who are responsible for defining the Board's risk management strategy by determining the position and exposure limits. At March 31, 2007 the Value at Risk (VAR) of the financial assets and liabilities, for one year, with a 95% confidence rating, represents R\$ 60,902, representing 2.41% of shareholder equity (non reviewed by auditors).

a. Exchange rate risk

The exchange rate risk for loans, financing and any other payables denominated in foreign currency is hedged by short-term investments denominated in foreign currency, with same interest rates, and by derivative financial instruments, such as rate swaps (dollar to CDI), interest rate swap contracts (Libor to pre-fixed or vice-versa) and future market agreements, in addition to foreign receivables from exports, which also reduce exchange variations by serving as a natural hedge .

The Company, within its hedge strategy, uses currency futures contracts (US dollars, Euros and Pounds), as a form of mitigating exchange rate risk over operating and financial assets and liabilities. The fair value of these contracts are not recorded in the financial statements.

The realized income of future contracts, for the year ended December 31, 2006, generated a gain of R\$11,174 (R\$28,030 in 2006), and the amount of R\$8,695 was accounted for as financial income in Monetary Variations Asset , and the amount of R\$2,479 as operating income in Gross operating revenue .

The results of the operations in the currency futures market realized and not financially settled and the daily adjustments of currency futures contracts on the Future and Commodities Exchange - BM&F are recorded in the financial statements as Amounts receivable from futures contracts and Amounts payable for futures contracts .

The unrealized income of futures operations entered into are not recognized in the financial statements. These contracts, as from December 2006, are segregated and defined as operating or financial, in accordance with the item to be protected. The amount of these contracts, if recorded as of March 31, 2007, would result in an expense of R\$10,798 in the financial expense and an income of R\$73,207 in the operating income.

b. Credit risk

The Company is potentially exposed to credit risk in relation to its trade accounts receivable, long and short-term investments and derivative instruments. The Company limits the risk associated with these financial instruments by subjecting them to the control of highly rated financial institutions that operate within the limits pre-established by the credit and financing committees.

The concentration of credit risk with respect to accounts receivable is minimized due to the spread of its client base, since the Company does not have any customer or group representing 10% or more of its consolidated revenues, as well as granting credits for customers with solid financial and operational ratios. Generally, the Company does not require a guarantee for sales, however it has contracted an insurance credit policy to its domestic receivables.

Sadia S.A.

c. Grain purchase price risks

The Company's operations are exposed to the volatility in prices of grain (corn and soybean) used in the preparation of animal feed for its breeding stock, where the price variation results from factors beyond the control of management, such as climate, the size of the harvest, transport and storage costs and government agricultural policies, among others. The Company does not enter into futures or options contracts to hedge against fluctuations in the prices of the commodities, although certain of its grain purchase contracts provide for the commodity pricing to be determined generally at dates up to one year after purchase of grains. The Company has a Grains Committee, composed of the chief executive officer and financial and operational executives. Its aim is to permanently monitor changes in scenarios, establishing limits of authority for purchase or sale.

d. Estimated market values

The Company used the following methods and assumptions to estimate the disclosure of the fair value of its financial instruments as of March 31, 2007 and December 31, 2006:

- **Cash and cash equivalents** - The book values of cash and banks recorded in the balance sheet are similar to the respective fair values.
- **Short-term financial investments** - The fair value of short-term financial investments is estimated based on the market quotations of comparable contracts.
- **Accounts receivable and payable** - The book values of accounts receivable and payable recorded in the balance sheet are similar to their respective fair values.
- **Short and long-term loans and financing** - The market values of loans and financing were calculated based on their present value calculated through the future cash flows and using interest rates applicable to instruments of similar nature, terms and risks, or based on the market quotation of these securities. The market values of BNDES financing are similar to the book values, since there are no similar instruments with comparable maturities and interest rates.

Sadia S.A.

Notes to the interim financial information (unaudited)

(In thousands of Reais)

- **Exchange and interest rate swap contracts** - The fair values of exchange and interest rate swap contracts were estimated based on market quotations for comparable contracts. As of March 31, 2007 the contracted amounts in force totaled R\$929,185 (R\$1,554,843 at December 31, 2006) and the valuation of these contracts to fair value would result in losses of R\$63,645 in the period ended March 31, 2007 (loss of R\$44,738 in the same period of 2006) of which R\$115 as financial result and R\$63,530 as operating result. The effective cash settlements of the contracts occur on the respective maturities of each agreement. The Company does not intend to settle these contracts before their maturity.

The market values were estimated on the balance sheet date, based on relevant market information. Changes in the assumptions may significantly affect these estimates.

The book values and the estimated fair values of the Company's financial instruments as of March 31, 2007 and December 31, 2006 are presented in the table below. The fair value of a financial instrument is the amount for which the instrument could be traded between interested parties under current market conditions.

23 Insurance

The Company and its subsidiaries adopt insurance engagement policy at levels that Management considers adequate to cover risks resulting from the claims of its assets. Due to the characteristics of multilocated operations, Management engages its policies with a limit of maximum loss possible in the same event, with amounts calculated based on risk inspections and potential losses. The policies engaged guarantee coverage against fire, general civil liability, windstorms, disorders and electric damage, as well as insurance for merchandise transport, personal and vehicle damage. The amount currently insured provides for the comprehensive coverage of the Company's fixed assets.

24 Private pension plan

a.

Defined benefit plan

The Company and its subsidiary Concórdia S.A. C.V.M.C.C. are the sponsors of a defined contribution pension plan for employees, managed by Fundação Atílio Francisco Xavier Fontana.

The supplementary pension benefit is defined as the difference between (i) the benefit wage (updated average of the last 12 participation salaries, limited to 80% of the last participation salary) and (ii) the amount of the pension paid by the National Institute of Social Security. The supplementary benefit is updated on the same base date and in accordance with the rates applicable to the main activity category of the Company, discounting real gains.

The actuarial system is that of capitalization for supplementary retirement and pension benefits and of simple apportionment for supplementary disability compensation. The Company's contribution is based on a fixed percentage of the payroll of active participants, as annually recommended by independent actuaries and approved by the trustees of Fundação Atílio Francisco Xavier Fontana.

According to the Foundation's statutes, the sponsoring companies are jointly liable for the obligations undertaken by the Foundation on behalf of its participants and dependents.

At March 31, 2007 the Foundation had a total of 20,125 participants (20,484 at December 31, 2007), of which 16,386 were active participants (16,795 at December 31, 2006).

The Parent contributions totaled R\$ 499 and 514 for the period ended March 31, 2007 and March 31, 2006 respectively.

b. Defined contribution plan

As from January 1, 2003, the Company began to adopt new supplementary pension plans under the defined contribution modality for all employees hired by Sadia and its subsidiaries. As from January 1, 2006 these plans are only available to employees earning over R\$1,800 per month. Under the terms of the regulations, plans are funded on an equitable basis so that the portion paid by the Company is equal to the payment made by the employee in accordance with a contribution scale based on salary bands that vary between 1.5% and 6% of the employee's remuneration, observing a contribution limit that is updated annually. The contributions made by the Company at March 31, 2007 and 2006 totaled R\$ 291 and R\$642 respectively. As of March 31, 2007 this plan had 9.125 participants (11,924 in December 31, 2006).
